Part I - Introduction

Background

The Upward Bound Program is authorized under Title IV, Section 408(B)(2), Higher Education Act of 1965 (P.L. 89-329), as amended. The program was started at West Liberty State College on May 6, 1966, and was discontinued on July 30, 1980. During the period of this audit, July 1, 1978 through July 30, 1980, federal funds expended under the Upward Bound Program totaled \$216,837.01, and up to 120 students participated in the program. The program was administered by the Director of Upward Bound and Special Services. Fiscal accountability was provided by the Business Manager.

Scope of Audit

Our audit of the Upward Bound Program was performed in accordance with the financial and compliance elements of the "Standards for Audit of Governmental Organizations, Programs, Activities and Functions" issued by the U.S. Comptroller General (GAO) in June, 1972 (1974 reprint). The purpose of the audit was to formulate an opinion on the basic financial statements taken as a whole and to determine if the program was administered in accordance with applicable laws, regulations, terms of agreements, and U.S. Office of Education directives.

The audit included:

1. Expressing an opinion on the balance sheet, related statement of changes in fund balance, and supplementary schedules.
2. Evaluation of the institution's policies, procedures, and practices used to administer the program.
3. Determination of compliance with applicable sections of the act, related federal regulations, and U.S. Office of Education policies and procedures.
4. Evaluation of the institution's system of internal control, accounting and reporting, and the controls maintained in the operation of and accounting for the funds provided for the program.
5. Reconciliation of the information reported on the appropriate financial statements for the period audited.

Part II - Highlights of Audit Results

During our audit nothing came to our attention which caused us to believe that West Liberty State College had not generally administered the Upward Bound Program in accordance with the Department of Health, Education, and Welfare federal regulations and directives.

Part III - Financial

Auditors' Report on Financial Statements

We have examined the balance sheet of the Upward Bound Program at West Liberty State College as of July 30, 1980, and the related statement of changes in fund balance for the period July 1, 1978 through July 30, 1980. (See Exhibits A and B.) Our examination was made in accordance with the financial and compliance elements of the "Standards for Audit of Governmental Organizations, Programs, Activities and Functions" issued by the U.S. Comptroller General (GAO), in June, 1972 (1974 reprint). Accordingly, we conducted such tests of the accounting records and such other auditing procedures as were considered necessary in the circumstances.

In our opinion, the aforementioned financial statements present fairly the financial position of the Upward Bound Program at West Liberty State College at July 30, 1980, and the changes in fund balance for the period July 1, 1978 through July 30, 1980, in conformity with generally accepted accounting principles applied on a consistent basis.

The examination referred to above was directed primarily toward formulating an opinion on the aforementioned financial statements as of and for the period July 1, 1978 through July 30, 1980, taken as a whole, and was not directed toward formulating an opinion on the balance sheet at June 30, 1979, or the statement of changes in fund balance for the year then ended. The supplementary data included in Schedules 1 and 2 are presented for supplemental analysis purposes and are not necessary for a fair presentation of the financial position as of July 30, 1980, and the changes in fund balance for the period July 1, 1978 through July 30, 1980. The supplementary data included in Schedules 1 and 2 have been subjected to the auditing procedures applied in the examination of the basic financial statements, and, in our opinion, are stated fairly in all material respects only when considered in conjunction with the financial statements of the Upward Bound Program taken as a whole.

Note to Financial Statements For the Period July 1, 1978 through July 30, 1980

1. Summary of Significant Accounting Policies:

The financial statements for the Upward Bound Program at the college have been prepared in accordance with generally accepted accounting principles and provide for use of the accrual basis of accounting. Accounting principles are in agreement with the accounting practices prescribed for the program by the U.S. Department of Health, Education, and Welfare, and U.S. Office of Education fiscal control and fund accounting procedures.

Part IV - Internal Accounting and Administrative Controls and Compliance

Auditors' Conclusions on Internal Accounting and Administrative Controls and Compliance Information

We have examined the financial statements for the Upward Bound Program at West Liberty State College for the period July 1, 1978 through July 30, 1980. Our opinion on the above statements is contained on page 2 of this report. As part of our examination we made a study of the institution's system of internal accounting control to the extent we considered necessary to evaluate the system as required by "Standards for Audit of Governmental Organizations, Programs, Activities and Functions" issued by the U.S. Comptroller General (GAO) in June, 1972 (1974 reprint). Under these standards the purpose of such evaluation is to establish a basis for reliance thereon in determining the nature, timing and extent of other auditing procedures that are necessary for expressing an opinion on the financial statements.

The objective of internal accounting control is to provide reasonable, but not absolute, assurance as to the safeguarding of assets against loss from unauthorized use or disposition, and the reliability of financial records for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance recognizes that the cost of a system of internal control should not exceed the benefits derived and also recognizes that the evaluation of these factors necessarily requires estimates and judgments by management.

There are inherent limitations that should be recognized in considering the potential effectiveness of any system of internal control. In the performance of most control procedures errors can result from misunderstanding of instructions, mistakes of judgment, carelessness, or other personal factors. Control procedures whose effectiveness depends upon segregation of duties can be circumvented by collusion. Similarly, control procedures can be circumvented intentionally by management with respect either to the execution and recording of transactions or with respect to the estimates and judgments required in the preparation of financial statements. Further, projection of any evaluation of internal control to future periods is subject to the risk that the procedures may become inadequate because of changes in conditions and that the degree of compliance with the procedures may deteriorate.

Based on our study, which included tests of compliance with instructions and guidelines provided by the Department of Health, Education, and Welfare, we believe West Liberty State College followed procedures which were adequate for proper administration of the Upward Bound Program during the period July 1, 1978 through July 30, 1980.
