1973

**Compiled and Edited by**  
**HOWARD W. CARSON, Clerk of the Senate**  
**Charleston, West Virginia**

# Foreword

The West Virginia Blue Book is published each year by the State Senate. The Senate Clerk serves as editor.

The Blue Book is a compendium of essential information about our State, its government, its other institutions and its people. Sections are also devoted to the Federal Government, the several counties and the various clubs and organizations which function within the State, as well as much other information of public interest.

Distribution of the Blue Books is determined in part by statute and in part by custom. The Books are disseminated with the goal of making them available to the greatest number of people. Thus, they are sent to all schools, public agencies, libraries and other locations of public access.

As Clerk of the Senate, I wish to gratefully acknowledge the contributions of the many people and agencies who provided the information to complete this 57th Volume of the Blue Book.

While the Blue Book draws upon one hundred and eleven years of statehood, it is hoped that its contemporary usefulness will make it a reference tool for the future of West Virginia, as well.

This 1973 Volume, therefore, is commended to its users with the hope that it will continue to be a practical and informative publication.

Sincerely,

HOWARD W. CARSON  
*Clerk of the Senate*

Aerial View Of Capitol Complex

## HISTORY OF THE CAPITOL

Immune to time and weather, the majestic dome and stately columns of West Virginia's Capitol form an imposing picture of permanence and stability.

It is difficult to realize that at one time, when West Virginia was in its infancy, the seat of government was switched at intervals between Wheeling and Charleston, in opposite ends of the State.

West Virginia's first Capitol was the Linsly Institute Building in Wheeling. Another Wheeling structure, the Custom House, is sometimes given this distinction, but was never the Capitol. The Custom House was the site of the Constitutional Convention held in November, 1861. It also served as headquarters for Francis H. Pierpont's Reorganized Government of Virginia until June 20, 1863, when the new State of West Virginia was admitted to the Union. The Reorganized Government of Virginia, under Pierpont, was then moved to Alexandria, Virginia, and later to Richmond.

The Capitol's travels began in 1870, seven years after Arthur I. Boreman, the first governor, was inaugurated in Wheeling. The State Legislature designated Charleston as the Capitol, effective April 1, 1870. Citizens of the newly chosen seat of government provided a packet for the transportation of State officials and archives down the Ohio River and thence up the Kanawha River to Charleston. Offices were established in churches, schools and other buildings while a new three-story Capitol was being constructed.

The Capitol remained in Charleston for five years, until the 1875 Legislature voted to return it to Wheeling. There, offices were located in the Linsly Building, for a time, and then in an \$80,000 stone building donated by grateful Wheeling citizens.

However, the 1877 Legislature decided to abolish this mobile Capitol once and for all. An election was ordered to be held on August 7th of that year to enable the citizens of West Virginia to select a permanent location for the Capitol. The cities voted upon were Clarksburg, Martinsburg, and Charleston. Charleston won.

A \$390,000 Capitol was opened on May 1, 1885, the State officials and their staffs having been transferred by two steamers and a barge from Wheeling. The new Capitol served for 36 years until its destruction by fire on January 3, 1921. A so-called "Pasteboard Capitol" was completed the following February, and was used until March 2, 1927, when it too was destroyed by fire.

In these make-shift quarters, the extraordinary session of the 1921 Legislature authorized construction of the present Capitol. The same year, an architect was appointed and the present site, on the north bank of the Kanawha River was chosen. The west wing was erected in 1924-25, the east wing in 1926-27 and the main unit in 1930-32.

This building, of stone and marble, was designed by Cass Gilbert during a period of resurgent classical influence and is one of the world's superb examples of Italian Renaissance architecture. It was completed at a cost of nearly \$10 million and has been designated one of the most beautiful of the state capitols.

Liberty Bell replica—North steps; presented to the State as commendation for 1950 Savings Bond drive; exact in size and tone.

Carvings in halls leading to entrances of Senate and House Chambers symbolize facets of the State's history and progress.

Greek and Roman gods carved on entrances to the three units symbolize such assets as agriculture, wisdom, commerce, etc.

Cass Gilbert, designer of the Capitol, describes it as follows:

"The building is classic in style and what might be correctly termed as Renaissance; the architectural forms are Roman with the single exception of the Doric vestibule at the ground floor of the river side of the building.

"The porticos and colonnades of the exterior are distinctly Roman, the main porticos being of Roman Corinthian order, which was, of course, indirectly derived from the Greek precedent, and the other porticos or colonnades are of modified Roman Doric type. The exterior of the dome closely follows the Roman precedent, although I know of none as high in proportion among Roman examples."

## WEST VIRGINIA BOARD OF REGENTS

### 1316 Charleston National Plaza

The West Virginia Board of Regents, created in 1969, is the governing body for all state colleges and universities. The Board controls, supervises and manages the financial, business and educational policies and affairs of the state colleges and universities, makes studies and recommendations respecting higher education in West Virginia, and allocates among the state colleges and universities specific functions and responsibilities. It submits a budget for the state system of higher education to the appropriate executive and legislative agencies of the State Government and allocates funds to the institutions which it receives.

The Board is composed of ten members, nine of whom are appointed by the Governor, with the advice and consent of the Senate, for six-year terms. The State Superintendent of Schools is an *ex officio* member. Not more than five of the appointed members can belong to the same political party and at least one member must be appointed from each congressional district.

The Board holds at least six meetings a year with the annual meeting in June. Members receive \$50 per diem while engaged in the work of the Board, plus actual expenses. A president, who cannot succeed himself, and any other officers deemed necessary, are elected annually. The Board employs a Chancellor and such professional, administrative and clerical personnel as are necessary, and prescribes their duties and compensation. (Code 18-26)

## GENERAL PROVISIONS

Under Chapter 30, Article 1, Code 1931, all boards of examination and registration are governed by the following general rules, unless otherwise specifically provided:

Each board is required to adopt an official seal, make such rules and regulations, not inconsistent with law, as it deems best, and hold at least two meetings each year. Each board is also given power to compel the attendance of witnesses, and its officers are authorized to administer oaths.

Each applicant for license or registration must transmit with his application an examination fee of \$20, unless a different fee is especially provided by law. Each board is allowed to charge \$5 for each license or certificate issued and the same sum for every duplicate thereof. All licenses or certificates of registration are required to be numbered serially and to be signed by a majority of the members of the board, and each board has power to revoke, for cause, the certificate it issues. An applicant who has been refused a license, or a licensee whose certificate has been revoked has the right to appeal from the action of the board to the Circuit Court of the county in which he resides.

Unless otherwise specified, members of boards are allowed \$10 per day for each day actually spent in attending sessions of the board or of its committees and in necessary travel, and entitled to reimbursement for all actual and necessary expenses in carrying out their official duties.

The court adopted and promulgated a definition of the practice of law; a code of professional ethics, and promulgated a code of judicial ethics and a constitution and by-laws for the government of the State bar, effective May 1, 1947. Its membership consists of all persons law-fully admitted to the practice of law in West Virginia. [Editor's note.—This preamble was proposed by House Joint Resolution No. 8, Acts 1959, p. 659; submitted by Acts 1960, c. 4; and ratified November 8, 1960.]

## ARTICLE I

### Relations to the Government of the United States

§1. The State of West Virginia is and shall remain, one of the United States of America. The Constitution of the United States of America, and the laws and treaties made in pursuance thereof, shall be the supreme law of the land.

### Internal Government and Police

§2. The government of the United States is a government of enumerated powers, and all powers not delegated to it, nor inhibited to the States, are reserved to the States or to the people thereof. Among the powers so reserved to the States is the exclusive regulation of their own internal government and police; and it is the high and solemn duty of the several departments of government, created by this Constitution, to guard and protect the people of this State, from all encroachments upon the rights so reserved.

### Continuity of Constitutional Operation

§3. The provisions of the Constitution of the United States, and of this State, are operative alike in a period of war as in time of peace, and any departure therefrom, or violation thereof, under the plea of necessity, or any other plea, is subversive of good government, and tends to anarchy and despotism.

### Representatives to Congress

§4. For the election of representatives to Congress, the State shall be divided into districts, corresponding in number with the representatives to which it may be entitled; which districts shall be formed of contiguous counties, and be compact. Each district shall contain as nearly as may be, an equal number of population, to be determined according to the rule prescribed in the Constitution of the United States.

## ARTICLE II

### The State

§1. The territory of the following counties, formerly parts of the commonwealth of Virginia, shall constitute and form the State of West Virginia, viz:

The counties of Barbour, Berkeley, Boone, Braxton, Brooke, Cabell, Calhoun, Clay, Doddridge, Fayette, Gilmer, Grant, Greenbrier, Hampshire, Hancock, Hardy, Harrison, Jackson, Jefferson, Kanawha, Lewis, Lincoln, Logan, Marion, Marshall, Mason, McDowell, Mercer, Mineral, Monongalia, Monroe, Morgan, Nicholas, Ohio, Pendleton, Pleasants, Pocahontas, Preston, Putnam, Raleigh, Randolph, Ritchie, Roane, Summers, Taylor, Tucker, Tyler, Upshur, Wayne, Webster, Wetzel, Wirt, Wood and Wyoming. The State of West Virginia includes the bed, bank and shores of the Ohio River, and so much of the Big Sandy River as was formerly included in the Commonwealth of Virginia; and all territorial rights and property in, and jurisdiction over, the same, heretofore reserved by, and vested in, the Commonwealth of Virginia, are vested in and shall hereafter be exercised by, the State of West Virginia. And such parts of the said beds, banks and shores as lie opposite, and adjoining the several counties of this State, shall form parts of said several counties respectively.

{Editor's note.—All of the territory of West Virginia was taken from the commonwealth of Virginia, and in the Constitution of 1863 forty-four of the above-named counties were designated as forming the State of West Virginia, and in addition, the counties of Berkeley, Hampshire, Hardy, Jefferson, Morgan and Pendleton were to be admitted should that Constitution be adopted by a vote of the people of the districts comprising those counties. The districts adopted the Constitution, and these six counties became part of the State.

The remaining four counties mentioned above were created by acts of the legislature as follows: Mineral county, from Hampshire county, on February 1, 1868; Grant county, from Hardy county, on February 14, 1868; Lincoln county, from parts of Cabell, Putnam, Kanawha and Boone counties, on February 23, 1867; and Summers county, from parts of Greenbrier, Monroe, Mercer and Fayette counties, on February 27, 1871. After the ratification of the Constitution of 1872, Mingo county was created by act of the legislature from Logan county, on February 23, 1895, to make a total of fifty-five counties.]

### Powers of Government in Citizens

§2. The powers of government reside in all the citizens of the State, and can be rightfully exercised only in accordance with their will and appointment.

### Requisites of Citizenship

§3. All persons residing in this State, born, or naturalized in the United States, and subject to the jurisdiction thereof, shall be citizens of this State.

### Equal Representation

§4. Every citizen shall be entitled to equal representation in the government, and, in all apportionments of representation, equality of numbers of those entitled thereto, shall as far as practicable, be preserved.

### Provisions Regarding Property

§5. No distinction shall be made between resident aliens and citizens, as to the acquisition, tenure, disposition or descent of property.

### Treason, What Constitutes—Penalty

§6. Treason against the State, shall consist only in levying war against it, or in adhering to its enemies, giving them aid and comfort. No person shall be convicted of treason, unless on the testimony of two witnesses to the same overt act, or on confession in open court. Treason shall be punished according to the character of the acts committed, by the infliction of one, or more, of the penalties, of death, imprisonment or fine, as may be prescribed by law.

### “Montani Semper Liberi”—State Seal

§7. The present seal of the State, with its motto, “Montani Semper Liberi”, shall be the great seal of the State of West Virginia, and shall be kept by the Secretary of State, to be used by him officially, as directed by law.

### Writs, Commissions, Official Bonds—Indictments

§8. Writs, grants and commissions, issued under the authority of this State, shall run in the name of, and official bonds shall be made payable to the State of West Virginia. Indictments shall conclude, “Against the peace and dignity of the State.”

## ARTICLE III

### Bill of Rights

§1. All men are, by nature, equally free and independent, and have certain inherent rights, of which, when they enter into a state of society, they cannot, by any compact, deprive or divest their posterity, namely: The enjoyment of life and liberty, with the means of acquiring and possessing property, and of pursuing and obtaining happiness and safety.

### Magistrates Servants of People

§2. All power is vested in, and consequently derived from, the people. Magistrates are their trustees and servants, and at all times amenable to them.

### Rights Reserved to People

§3. Government is instituted for the common benefit, protection and security of the people, nation or community. Of all its various forms that is the best, which is capable of producing the greatest degree of happiness and safety, and is most effectually secured against the danger of maladministration: and when any government shall be found inadequate or contrary to these purposes, a majority of the community has an indubitable, inalienable, and indefeasible right to reform, alter or abolish it in such manner as shall be judged most conducive to the public weal.

### Writ of Habeas Corpus

§4. The privilege of the writ of habeas corpus shall not be suspended. No person shall be held to answer for treason, felony or other crime, not cognizable by a justice, unless on presentment or indictment of a grand jury. No bill of attainder, ex post facto law, or law impairing the obligation of a contract, shall be passed.

### Excessive Bail Not Required

§5. Excessive bail shall not be required, nor excessive fines imposed, nor cruel and unusual punishment inflicted. Penalties shall be proportioned to the character

and degree of the offence. No person shall be transported out of, or forced to leave the State for any offence committed within the same; nor shall any person, in any criminal case, be compelled to be a witness against himself, or be twice put in jeopardy of life or liberty for the same offence.

#### **Unreasonable Searches and Seizures Prohibited**

§6. The rights of the citizens to be secure in their houses, persons, papers and effects, against unreasonable searches and seizures, shall not be violated. No warrant shall issue except upon probable cause, supported by oath or affirmation, particularly describing the place to be searched, or the person or thing to be seized.

#### **Freedom of Speech and Press Guaranteed**

§7. No law abridging the freedom of speech, or of the press, shall be passed; but the legislature may by suitable penalties, restrain the publication or sale of obscene books, papers, or pictures, and provide for the punishment of libel, and defamation of character, and for the recovery, in civil actions, by the aggrieved party, of suitable damages for such libel, or defamation.

#### **Relating to Civil Suits for Libel**

§8. In prosecutions and civil suits for libel, the truth may be given in evidence; and if it shall appear to the jury, that the matter charged as libelous is true, and was published with good motives, and for justifiable ends, the verdict shall be for the defendant.

#### **Private Property, How Taken**

§9. Private property shall not be taken or damaged for public use, without just compensation; nor shall the same be taken by any company, incorporated for the purposes of internal improvement, until just compensation shall have been paid, or secured to be paid, to the owner; and when private property shall be taken, or damaged, for public use, or for the use of such corporation, the compensation to the owner shall be ascertained in such manner, as may be prescribed by general law; provided, that when required by either of the parties, such compensation shall be ascertained by an impartial jury of twelve freeholders.

#### **Safeguards for Life, Liberty and Property**

§10. No person shall be deprived of life, liberty, or property, without due process of law, and the judgment of his peers.

#### **Political Tests Condemned**

§11. Political tests, requiring persons, as a prerequisite to the enjoyment of their civil and political rights, to purge themselves by their own oaths, of past alleged offences, are repugnant to the principles of free government, and are cruel and oppressive. No religious or political test oath shall be required as a prerequisite or qualification to vote, serve as a juror, sue, plead, appeal, or pursue any profession or employment. Nor shall any person be deprived by law, of any right, or privilege, because of any act done prior to the passage of such law.

#### **Military Subordinate to Civil Power**

§12. Standing armies, in time of peace, should be avoided as dangerous to liberty. The military shall be subordinate to the civil power; and no citizen, unless engaged in the military service of the State, shall be tried or punished by any military court, for any offence that is cognizable by the civil courts of the State. No soldier shall, in time of peace, be quartered in any house, without the consent of the owner; nor in time of war, except in the manner to be prescribed by law.

#### **Right of Jury Trial**

§13. In suits at common law, where the value in controversy exceeds twenty dollars exclusive of interest and costs, the right of trial by jury, if required by either party, shall be preserved; and in such suit before a justice a jury may consist of six persons. No fact tried by a jury shall be otherwise re-examined in any case than according to the rules of the common law.

[Editor's note.—The amendment of this section was proposed by Joint Resolution No. 11, Acts 1879, p. 182; submitted by Acts 1879, c. 50; and ratified on October 12, 1880. Prior to being amended the section read as follows: "In suits at common law, where the value in controversy, exclusive of interest and cost, exceeds twenty dollars, the right of trial by a jury of twelve men, if required by either party, shall be preserved; except that in appeals from judgments of justices, a jury of a less number may be authorized by law; but in trials of civil cases before a justice no jury shall be allowed, and no fact tried by a jury shall, in any case, be otherwise re-examined, than according to the rules of common law."]

#### **Trial of Crimes—Provisions in Interest of Accused**

§14. Trials of crimes, and misdemeanors, unless herein otherwise provided, shall be by a jury of twelve men, public, without unreasonable delay, and in the county where the alleged offence was committed, unless upon petition of the accused, and for good cause shown, it is removed to some other county. In all such trials, the accused shall be fully and plainly informed of the character and cause of the accusation, and be confronted with the witnesses against him, and shall have the assistance of counsel, and a reasonable time to prepare for his defence; and there shall be awarded to him compulsory process for obtaining witnesses in his favor.

#### **Religious Freedom Guaranteed**

§15. After every census the delegates shall be apportioned as follows: The ratio of representation for the house of delegates shall be ascertained by dividing the whole population of the State by the number of which the house is to consist and rejecting the fraction of a unit, if any, resulting from such division. Dividing the population of every delegate district, and of every county not included in a delegate district, by the ratio thus ascertained, there shall be assigned to each a number of delegates equal to the quotient obtained by this division, excluding the fractional remainder. #### **Arrangement of Senatorial and Delegate Districts**

§10. The arrangement of the senatorial and delegate districts, and apportionment of delegates, shall hereafter be declared by law, as soon as possible after each succeeding census, taken by authority of the United States. When so declared they shall apply to the first general election for members of the legislature, to be thereafter held, and shall continue in force unchanged, until such districts shall be altered, and delegates apportioned, under the succeeding census.

#### **Additional Territory May Be Admitted Into State**

§11. Additional territory may be admitted into, and become part of this State, with the consent of the legislature and a majority of the qualified voters of the State, voting on the question. And in such case provision shall be made by law for the representation thereof in the senate and house of delegates, in conformity with the principles set forth in this Constitution. And the number of members of which each house of the legislature is to consist, shall thereafter be increased by the representation assigned to such additional territory.

(2) Within ten days after the convening of the regular session of the legislature in odd-numbered years, unless such time shall be extended by the legislature, and on the second Wednesday of January in even-numbered years, the governor shall submit to the legislature a budget for the next ensuing fiscal year. The budget shall contain a complete plan of proposed expenditures and estimated revenues for the fiscal year and shall show the estimated surplus or deficit of revenues at the end of each fiscal year. Accompanying each budget shall be a statement showing: (a) An estimate of the revenues and expenditures for the current fiscal year, including the actual revenues and actual expenditures to the extent available, and the revenues and expenditures for the next preceding fiscal year; (b) the current assets, liabilities, reserves and surplus or deficit of the State; (c) the debts and funds of the State; (d) an estimate of the State's financial condition as of the beginning and end of the fiscal year covered by the budget; (e) any explanation the governor may desire to make as to the important features of the budget and any suggestions as to methods for reduction or increase of the State's revenue.

(3) Each budget shall embrace an itemized estimate of the appropriations, in such form and detail as the governor shall determine or as may be prescribed by law: (a) For the legislature as certified to the governor in the manner hereinafter provided; (b) for the executive department; (c) for the judiciary department, as provided by law, certified to the governor by the auditor; (d) for payment and discharge of the principal and interest of any debt of the State created in conformity with the Constitution, and all laws enacted in pursuance thereof; (e) for the salaries payable by the State under the Constitution and laws of the State; (f) for such other purposes as are set forth in the Constitution and in laws made in pursuance thereof.

(4) The governor shall deliver to the presiding officer of each house the budget and a bill for all the proposed appropriations of the budget clearly itemized and classified, in such form and detail as the governor shall determine or as may be prescribed by law; and the presiding officer of each house shall promptly cause the bill to be introduced therein, and such bill shall be known as the "Budget Bill." The governor may, with the consent of the legislature, before final action thereon by the legislature, amend or supplement the budget to correct an oversight, or to provide funds contingent on passage of pending legislation, and in case of an emergency, he may deliver such an amendment or supplement to the presiding officers of both houses; and the amendment or supplement shall thereby become a part of the budget bill as an addition to the items of the bill or as a modification of or a substitute for any item of the bill the amendment or supplement may affect.

(5) The legislature shall not amend the budget bill so as to create a deficit but may amend the bill by increasing or decreasing any item therein: Provided, that no item relating to the judiciary shall be decreased, and except as otherwise provided in this Constitution, the salary or compensation of any public officer shall not be increased or decreased during his term of office: Provided further, that the legislature shall not increase the estimate of revenue submitted in the budget without the approval of the governor.

(6) The governor and such representatives of the executive departments, boards, officers and commissions of the State expending or applying for state money, as have been designated by the governor for this purpose, shall have the right, and when requested by either house of the legislature it shall be their duty, to appear and be heard with respect to any budget bill, and to answer inquiries relative thereto.

### Subsection C—Supplementary Appropriation Bills

(7) Neither house shall consider other appropriations until the budget bill has been finally acted upon by both houses, and no such other appropriations shall be valid except in accordance with the provisions following: (a) Every such appropriation shall be embodied in a separate bill limited to some single work, object or purpose therein stated and called therein a supplementary appropria-

tion bill; (b) each supplementary appropriation bill shall provide the revenue necessary to pay the appropriation thereby made by a tax, direct or indirect, to be laid and collected as shall be directed in the bill unless it appears from such budget that there is sufficient revenue available.

#### Subsection D—General Provisions

(8) If the budget bill shall not have been finally acted upon by the legislature three days before the expiration of its regular session, the governor shall issue a proclamation extending the session for such further period as may, in his judgment, be necessary for the passage of the bill; but no matter other than the bill shall be considered during such an extension of a session except a provision for the cost thereof.

(9) For the purpose of making up the budget, the governor shall have the power, and it shall be his duty, to require from the proper state officials, including herein all executive departments, all executive and administrative officers, bureaus, boards, commissions and agencies expending or supervising the expenditure of, and all institutions applying for state moneys and appropriations, such itemized estimates and other information, in such form and at such times as he shall direct. The estimates for the legislative department, certified by the presiding officer of each house, and for the judiciary, as provided by law, certified by the auditor, shall be transmitted to the governor in such form and at such times as he shall direct, and shall be included in the budget.

(10) The governor may provide for public hearings on all estimates and may require the attendance at such hearings of representatives of all agencies and all institutions applying for state moneys. After such public hearings he may, in his discretion, revise all estimates except those for the legislative and judiciary departments.

(11) Every budget bill or supplementary appropriation bill passed by a majority of the members elected to each house of the legislature shall, before it becomes a law, be presented to the governor. The governor may veto the bill, or he may disapprove or reduce items or parts of items contained therein. If he approves he shall sign it and thereupon it shall become a law. The bill, items or parts thereof, disapproved or reduced by the governor, shall be returned with his objections to each house of the legislature.

Each house shall enter the objections at large upon its journal and proceed to reconsider. If, after reconsideration, two thirds of the members elected to each house agree to pass the bill, or such items or parts thereof, as were disapproved or reduced, the bills, items or parts thereof, approved by two thirds of such members, shall become law, notwithstanding the objections of the governor. In all such cases, the vote of each house shall be determined by yeas and nays to be entered on the journal.

A bill, item or part thereof, which is not returned by the governor within five days (Sundays excepted) after the bill has been presented to him shall become a law in like manner as if he had signed the bill, unless the legislature, by adjournment, prevents such return, in which case it shall be filed in the office of the secretary of state, within five days after such adjournment, and shall become a law; or it shall be so filed within five days with the objections of the governor, in which case it shall become law to the extent not disapproved by the governor.

(12) The legislature may, from time to time, enact such laws, not inconsistent with this section, as may be necessary and proper to carry out its provisions.

(13) In the event of any inconsistency between any of the provisions of this section and any of the other provisions of the Constitution, the provisions of this section shall prevail. But nothing herein shall be construed as preventing the governor from calling extraordinary sessions of the legislature, as provided by section nineteen of this article, or as preventing the legislature at such extraordinary sessions from considering any emergency appropriation or appropriations.

(14) If any item of any appropriation bill passed under the provisions of this section shall be held invalid upon any ground, such invalidity shall not affect the legality of the bill or of any other item of such bill or bills.

### Governor's Approval or Disapproval of Bills Passed by the Legislature

§14. Subject to the provisions of section fifteen of this article, every bill passed by the legislature shall, before it becomes a law, be presented to the governor. Notwithstanding the provisions of section fifty-one, article six of this Constitution, any such bill may be reconsidered even if the legislature is at the time in extended session for the sole purpose of considering the budget bill, as specified in said section fifty-one. If, after any such reconsideration, a majority of the members elected to that house agree to pass the bill, it shall be sent, together with objections of the governor to the other house, by which it may likewise be reconsidered, and if approved by a majority of the members elected to that house, it shall become a law, notwithstanding the objections of the governor. If upon any such reconsideration the bill is amended and reenacted, then it shall be again sent to the governor and he shall act upon it as if it were before him for the first time. In all cases, the vote of each house shall be determined by yeas and nays to be entered on the journal.

Any bill which shall not be returned by the governor within five days, Sundays excepted, after it shall have been presented to him shall be a law, in the same manner as if he had signed it, unless the legislature shall, by adjournment sine die, prevent its return, in which case it shall be filed with his objections in the office of the secretary of state within fifteen days, Sundays excepted, after such adjournment, or become a law.

If, after such reconsideration, a majority of the members elected to that house agree to pass the bill, it shall be sent, together with the objections to the other house, by which it shall likewise be reconsidered, and if approved by a majority of the members elected to that house, it shall become a law, notwithstanding the objections of the governor. But in all such cases, the vote of each house shall be determined by yeas and nays to be entered on the journal. Any bill which shall not be returned by the governor within five days (Sundays excepted) after it shall have been presented to him shall be a law, in like manner as if he had signed it, unless the legislature shall, by their adjournment, prevent its return, in which case it shall be filed with his objections in the office of the secretary of state, within five days after such adjournment, or become a law."]

Prior to the amendment the section read as follows: "The legislature may provide, by a general banking law, for the creation and organization of banks of issue or circulation, but the stockholders of any bank hereafter authorized by the laws of this State, whether of issue, deposit or discount, shall be personally liable to the creditors thereof, over and above the amount of stock held by them respectively to an amount equal to their respective shares so held, for all its liabilities accruing while they are such stockholders."]

[Editor's note.—The Irreducible School Fund Amendment, ratified on November 4, 1902, and set forth at the end of the Constitution, provides that the accumulation of the school fund provided for in this section shall cease, that all moneys in the fund over one million dollars and interest on the fund shall be used for support of the free schools, and that all money and taxes formerly payable into the treasury to the credit of the school fund shall be credited to the general school fund for the support of the free schools.]

### Support of Free Schools

§5. The legislature shall provide for the support of free schools by appropriating thereto the interest of the invested "school fund," the net proceeds of all forfeitures and fines accruing to this State under the laws thereof and by general taxation of persons and property or otherwise. It shall also provide for raising in each county or district, by the authority of the people thereof, such a proportion of the amount required for the support of free schools therein as shall be prescribed by general laws.

## **ARTICLE XIII**

### **Land Titles**

§1. All private rights and interests in lands in this State derived from or under the laws of the State of Virginia, and from or under the Constitution and laws of this State prior to the time this Constitution goes into operation, shall remain valid and secure and shall be determined by the laws in force in Virginia, prior to the formation of this State, and by the Constitution and laws in force in this State prior to the time this Constitution goes into effect.

### **Land Entry Prohibited**

§2. No entry by warrant on land in this State shall hereafter be made.

### **Forfeited Lands**

§3. All title to lands in this State heretofore forfeited, or treated as forfeited, waste and unappropriated, or escheated to the State of Virginia, or this State, or purchased by either of said states at sales made for the nonpayment of taxes and become irredeemable, or hereafter forfeited, or treated as forfeited, or escheated to this State, or purchased by it and become irredeemable, not redeemed, released or otherwise disposed of, vested and remaining in this State, shall be, and is hereby transferred to, and vested in any person (other than those for whose default the same may have been forfeited or returned delinquent, their heirs or devisees), for so much thereof as such person has, or shall have had actual continuous possession of, under color or claim of title for ten years, and who, or those under whom he claims, shall have paid the State taxes thereon for any five years during such possession; or if there be no such person, then

to any person (other than those for whose default the same may have been forfeited, or returned delinquent, their heirs or devisees), for so much of said land as such person shall have title or claim to, regularly derived, mediately or immediately from, or under a grant from the commonwealth of Virginia, or this State, not forfeited, which but for the title forfeited, would be valid, and who, or those under whom he claims has, or shall have paid all State taxes charged or chargeable thereon for five successive years, after the year 1865, or from the date of the grant, if it shall have issued since that year; or if there be no such person, as aforesaid, then to any person (other than those for whose default the same may have been forfeited, or returned delinquent, their heirs or devisees), for so much of said land as such person shall have had claim to and actual continuous possession of, under color of title for any five successive years after the year 1865, and have paid all State taxes charged or chargeable thereon for said period.

### Waste and Unappropriated Lands

§4. All lands in this State, waste and unappropriated, or heretofore or hereafter for any cause forfeited, or treated as forfeited, or escheated to the State of Virginia, or this State, or purchased by either and become irredeemable, not redeemed, released, transferred or otherwise disposed of, the title whereto shall remain in this State till such sale as is hereinafter mentioned be made, shall by proceedings in the circuit court of the county in which the lands, or a part thereof, are situated, be sold to the highest bidder.

### Former Owner's Privilege

§5. The former owner of any such land, shall be entitled to receive the excess of the sum for which the land may be sold over the taxes charged and chargeable thereon, or which, if the land had not been forfeited, would have been charged or chargeable thereon, since the formation of this State, with interest at the rate of twelve per centum per annum, and the costs of the proceedings, if his claim be filed in the circuit court that decrees the sale, within two years thereafter.

### Land Books—Taxes

§6. It shall be the duty of every owner of land, or of an undivided interest therein, to have such land, or such undivided interest therein, entered on the land books of the county in which it, or a part of it, is situated, and to cause himself to be charged with taxes legally levied thereon and pay the same. When, for any five successive years, the owner of any tract of land, or undivided interest therein, shall not have been charged on such land books with State, county and district taxes thereon, then, by operation hereof, the land, or undivided interest therein, shall be forfeited, and title vested in the State. But if, for any one or more of such five years, the owner of such land, or of any undivided interest therein, shall have been charged with State, county and district taxes on any part of such land, such part thereof, or undivided interest therein, shall not be forfeited for such cause. And any owner of land so forfeited, or of any interest therein, at the time of the forfeiture thereof, who shall then be an infant, married woman, or insane person, may, until the expiration of three years after the removal of such disability, have the land, or such interest, charged on such land books, with all State and other taxes that shall be, and but for the forfeiture would be, chargeable on the land, or interest therein, for the year one thousand eight hundred sixty-three, and every year thereafter, with interest at the rate of ten per centum per annum, and pay all taxes and interest thereon for such years, and thereby redeem the land or interest therein: Provided, such right to redeem shall in no case extend beyond twenty years from the time such land was forfeited.

[Editor's note.—The amendment of this section was proposed by House Joint Resolution No. 4, Acts 1933, 2nd Ex. Sess., p. 583; submitted by Acts 1933, 2nd Ex. Sess., c. 72; and ratified on November 6, 1934. The amendment rewrote this section. Prior to the amendment this section provided for the forfeiture of tracts containing one thousand acres or more, did not expressly provide for owners of undivided interests, and did not mention county and district taxes.

It was held, before the amendment, that although this section provided for the forfeiture of lands containing one thousand acres or more, it did not limit such forfeiture to such tracts, and that an act providing for the forfeiture of a

less number of acres than one thousand, for nonentry upon the land books, was merely cumulative and not inhibited by this section of the Constitution. See *State v. Swann*, 46 W. Va. 128, 33 S. E. 89 (1899).]

## ARTICLE XIV

### Amendments

§1. No convention shall be called, having the authority to alter the Constitution of the State, unless it be in pursuance of law, passed by the affirmative vote of a majority of the members elected to each house of the legislature and providing that polls shall be opened throughout the State, on the same day therein specified, which shall not be less than three months after the passage of such law, for the purpose of taking the sense of the voters on the question of calling a convention. And such convention shall not be held unless a majority of the votes cast at such polls be in favor of calling the same; nor shall the members be elected to such convention, until, at least, one month after the result of the vote shall be duly ascertained, declared and published. And all acts and ordinances of the said convention shall be submitted to the voters of the State for ratification or rejection, and shall have no validity whatever until they are ratified.

### How Amendments Are Made

§2. Any amendment to the Constitution of the State may be proposed in either house of the legislature at any regular or extraordinary session thereof; and if the same, being read on three several days in each House, be agreed to on its third reading, by two thirds of the members elected thereto, the proposed amendment, with the yeas and nays thereon, shall be entered on the journals, and it shall be the duty of the legislature to provide by law for submitting the same to the voters of the State for ratification or rejection, at a special election, or at the next general election thereafter, and cause the same to be published, at least three months before such election in some newspaper in every county in which a newspaper is printed. If a majority of the qualified voters, voting on the question at the polls held pursuant to such law, ratify the proposed amendment, it shall be in force from the time of such ratification, as part of the Constitution of the State. If two or more amendments be submitted at the same time, the vote on the ratification or rejection shall be taken on each separately, but an amendment may relate to a single subject or to related subject matters and may amend or modify as many articles and as many sections of the Constitution as may be necessary and appropriate in order to accomplish the objectives of the amendment. Whenever one or more amendments are submitted at a special election, no other question, issue or matter shall be voted upon at such special election, and the cost of such special election throughout the state shall be paid out of the state treasury.

[The first amendment of this section was proposed by House Joint Resolution No. 2, Acts, Regular Session, 1960, p. 833; submitted by Acts, Regular Session, 1960, c. 5; and ratified November 8, 1960. Vote on the amendment: For ratification, 222,210; Against ratification, 114,530; Majority, 107,680.

It added the words "but an amendment may relate to a single subject or to related subject matters and may amend or modify as many articles and as many sections of the Constitution as may be necessary and appropriate in order to accomplish the objectives of the amendment."

The second amendment was proposed by Senate Joint Resolution No. 3, Regular Session, 1971, p. 1041; submitted by Chapter 17, Acts, Regular Session, 1971; and ratified November 7, 1972. Vote on the amendment: For ratification, 391,390; Against ratification, 145,918; Majority, 245,472.

It inserted the words "at any regular or extraordinary session" in the first sentence; provided for submitting proposed amendments to the voters at special elections as well as general elections; and added the last sentence as it appears in the section above.]

### WEST VIRGINIA CHILDREN'S HOME

Elkins 26241

*Superintendent: Mr. Bruce Haddix. Clerk: Wanda Siler. Children: 60.*

The West Virginia Children's Home, located in Elkins, was established by an act of the Legislature in 1899 and formally opened in 1911. The two-story brick structure is located on a 20 acre tract—equipped with playground equipment and an open air swimming pool. The Home operates an ultra modern Elementary School which provides the latest techniques of modern education. The educational program offers the services of tutors three nights a week for all students. The summer months offer a program of activities provided supervision by teachers of Randolph County and college students. This program provides field trips, outdoor recreation, arts and crafts and also classes in reading, writing and arithmetic—the classes are for elementary students—other students attend regular summer school. The main purpose of the Home is to provide for orphan and neglected children between the ages of 6 to 14—a home away from home. It is the objective of the Home to provide a stable life without the traumatic upheavals with a staff of persons dedicated to working with children who are unwanted and uncared for in their own homes. Children are admitted either by a court order by the Department of Welfare and by Juvenile Court to be kept, maintained, educated and trained until they can be returned to their former homes or placed in foster homes. Children are provided the services of a full-time counselor, and a social worker from the Department of Welfare and the Appalachian Mental Health Center. These services are of great benefit in helping this type child with deep-seated problems. Religious training is provided by the local churches, and the children attend Sunday School and Church each Sunday, also take part in various youth activities of the community.

The Center was opened in October, 1970. It serves as a community involved, educational oriented facility for male offenders ranging in ages sixteen to twenty-one, with a capacity of 160.

The Center offers program opportunities in small motor repair, maintenance, forestry and the opportunity to attain a GED Certificate.

### WEST VIRGINIA FORESTRY CAMP FOR BOYS

Davis 26260

*Superintendent: Kenneth Rubenstein. Business Manager: Orland J. Massi. Capacity 80.*

West Virginia Forestry Camp for Boys is located at Davis, Tucker County, West Virginia, one mile west of Rt. 32. It was authorized by an act of the Legislature in 1955 and was established in 1956. It houses youthful male offenders between the ages of sixteen and twenty-one who have been convicted of or who have plead

guilty to criminal offenses, other than capital offenses, and who in the opinion of the committing court, are amenable to discipline other than in close confinement. The period of confinement is one year, or longer if it is deemed advisable by the Camp Superintendent, but in any event it shall not exceed two years.

It is strictly an honor institution and its training program consists of four separate, yet well-integrated phases, as follows: Work Programs, Educational Programs, Recreational Programs, and Individual and Group Counseling.

The work program incorporates various aspects. Outdoor activities are conducted in cooperation with the West Virginia Department of Natural Resources in the upkeep and general maintenance of the Blackwater Falls State Park. Approximately twenty-five percent of the residents are utilized for various camp jobs. The towns of Thomas and Davis use boys on a daily basis in maintenance work on municipal projects. On several occasions the residents have also aided civic and charitable organizations with their various projects. The residents are compensated monetarily for all services rendered.

A year-round recreational program has been developed with the boys participating in area independent basketball and softball programs. Other sports played are football, volleyball, badminton, tennis and horse shoes.

The educational program consists of academic and vocational courses. The chief goal of the educational program is to keep refreshed the minds of those boys who plan to go back to school when they are released and to develop in those that do not go back to school a trade that can be used on the outside.

Church services are held every Sunday in the Camp Chapel. Provisions are made for Catholic residents to attend church in the local community adjacent to the institution.

## WEST VIRGINIA FORESTRY CAMP FOR BOYS

Leckie 24856

*Superintendent: Richard C. Mohn. Business Manager: Raymond A. Walker. Capacity 80.*

The West Virginia Forestry Camp for Boys is located at Leckie in McDowell County. It was opened in April, 1970.

The Camp houses youthful male offenders between the ages of sixteen and twenty-one who have been convicted of or plead guilty to criminal offenses, other than capital offenses, and who in the opinion of the committee court does not require the security and regimen of close confinement. The period of confinement is one year, or longer if it is deemed advisable by the Camp Superintendent, not to exceed two years.

This facility is intended to be an honor institution, and if so determined by the Camp Superintendent, any resident can be returned to the committing court to be further dealt with according to law.

The institutional program consists of four separate yet well integrated areas. These areas are work program, educational program, recreational program and individual counseling. All four of these are considered to be of equal value and importance in the rehabilitation of the youthful offender.

Approximately twenty percent of the residents are utilized for various camp jobs such as kitchen, laundry, barracks, and general camp maintenance jobs. The residents are doing a part of the masoning, electrical, plumbing, and carpentry work under the supervision of construction personnel. All residents are monetarily compensated for such work services outlined above. This is placed in a trust account and given to the resident upon his release.

The educational program consists of both academic and vocational courses. The academic courses offered are history, health, math, reading, typing and English. The vocational courses offered are woodworking, masonry, welding, auto mechanics, and crafts. The major goal of the educational program is to assist those planning to return to public school upon release and to develop a trade and marketable skill for others. The school program is upgraded and as much individual tutoring as possible is administered to residents according to individual needs. At the present time, the educational program is conducted by three full-time teachers. The program is strictly voluntary and extended only to those who desire to participate.

A year-round recreational program has been developed by a full-time athletic director. This program consists of football, softball, basketball, volley ball, badminton, tennis and horse shoes. Every resident is encouraged to participate in these activities.

Protestant church services are held every Thursday and Sunday in the camp dining hall by a local minister who is employed as Chaplain. Provision is made for Catholic residents to attend religious services in the community as the need arises.

Medical services are provided by a health nurse who is employed on a daily basis. Emergency or other major problems are referred to a State hospital in the immediate area. Dental work is conducted by a local dentist.

Parents, relatives and friends are free to visit the residents any weekend or holiday. The visits take place generally in the dining hall of the center. If and when they receive honor status, residents are allowed to visit surrounding communities with their relatives and parents between the hours of 9:00 a.m. and 5:00 p.m.

A resident must be in the camp for a minimum of sixty days before he is eligible to become an honor resident. This status is awarded to those residents who qualify by attaining the necessary percentage of good grades during that period.

### Industrial, West Virginia 26375

*Superintendent: Betty Lou Bambrick. Financial Secretary: Eleanor Bumgardner. Capacity 98.*

West Virginia Industrial Home for Girls is located one mile west of Salem on old U. S. Route 50. It was established by an act of the Legislature on February 18, 1897, and formally opened May 5, 1899. From Jones Cottage, the first building, the plant has grown to include the following: Silver Hall Cottage in 1914; Sutton Cottage in 1928; Ava Standard Cottage in 1942; Barron Hall in 1961. The Administration Building built in 1942, includes administrative offices and visiting rooms. The plant also includes the school building erected in 1915, which is called the Johnston School, with a modern gymnasium completed in 1951. A large four-temperature storage building was completed in 1953. The Home also has its own Medical Clinic and this year a new Dental Clinic was established with the assistance of the Dental Division of the State Department of Health.

The girls receive standard and first class high school training in a well-planned school program, with classes offered from second grade through twelfth grade. There are a well equipped practice kitchen, a sewing room, a typing room and well lighted and ventilated class rooms, in each of which there is a wall screen for the showing of educational movies. For three years, a well projected summer program of recreation, remedial reading, arts and crafts, music and cosmetology has been in effect, with the help of the federal program for the neglected and delinquent children.

A program of rehabilitation is being carried out through the carefully planned work of the school, in the dormitories in which the girls live and by the administration of the institution to which a staff Counselor has been added. They also receive religious training with Chapel services conducted by a full-time Chaplain and a part-time Catholic Chaplain.

## WEST VIRGINIA INDUSTRIAL SCHOOL FOR BOYS

Grafton 26375

*Superintendent: James D. Kerns. Assistant Superintendent: Charles N. Taylor. Business Manager: Ebert L. Frum. Capacity 200.*

The West Virginia Industrial School for Boys is located at Pruntytown, three miles west of Grafton on U. S. Route 50. It was established by an act of the Legislature in 1889 and formally opened July 21, 1891. In addition to the principal buildings, which are located on the main campus consisting of approximately 55 acres, the School owns and operates a farm of approximately 1,900 acres on which are located a considerable number of farm buildings. The boys work on the farm during the farming season at which time emphasis is placed on the training value of such a program, directed toward improving work habits and maintaining discipline standards. For use at the School a dairy herd of registered cows is maintained on the farm and milk is pasteurized and homogenized in the modern plant of the institution.

The School now has a vocational rehabilitation training program consisting of certified vocational instructors for full-time vocational instruction in the fields of industrial arts, auto mechanics, welding, vocational agriculture and building trades. In addition to this, there are training units in shoe repairing, baking, butchering and meat cutting. The academic school is operated on approved State standards and contains grades one through twelve. Educational TV is a part of the academic program and instruction is offered in the preparation and presentation of TV programs. In compliance with the State law, those under sixteen years of age are required to attend academic school for a term of ten months each year. A well-planned recreation and physical education program operates under the supervision of competent men. Football, basketball (indoor and outdoor), baseball, softball, volleyball, swimming, track and horseshoe pitching form the backbone of this program.

A Classification Unit classifies each boy upon his reception, presents him for parole and/or discharge at the proper time and maintains liaison between County and State authorities. In most instances, the boys are placed in cottages according to their age or size or both. An honor system has been established as a stimulant to good behavior and achievement for the boys and it is working well. A Drum and Bugle Corps, consisting of approximately 40 boys, is in operation and appears at many parades and festivals through the year, and there is now an active Boy Scout Troop. A full-time Chaplain, especially trained for this work, offers classes in religious education in the academic school and holds weekly religious services for the boys. A program of counseling and guidance is an integral part of the treatment program and is carried on through both individual and group therapy.

## PENAL

### WEST VIRGINIA PENITENTIARY

Moundsville 26041

Warden: *Donald E. Bordenkircher*. Deputy Warden: *William O. Wallace*. Associate Warden: *Arthur Leroy McKenzie*. Business Manager: *Dudley Beck*. Capacity following renovation: 650.

The West Virginia Penitentiary is located at 818 Jefferson Avenue, Moundsville in Marshall County. Built in 1866, it was designed as a maximum security facility for both male and female felons. This walled facility was restricted to males in 1948 and covers an area of about six acres. The Honor inmates work on the large prison farm located nearby and in the garage and prison industry warehouse located in a complex situated adjacent to but just outside the eastern prison walls. Prison industry facilities are located within the walls and the inmates are assigned to those industrial areas according to need, interest and ability. The industries produce paint, tobacco, soap, clothing, license plates, mattresses and printing. These structures also house maintenance sections including plumbing, sheet metal and carpentry.

In recent years an ongoing vocational and educational program has been implemented to provide educational opportunities and vocational skill development. Inmates may obtain their GED Certificates and, if qualified, participate in college credit courses offered in a cooperative program with Bethany College which is located nearby. Vocational courses available include auto mechanics, electronics, air-conditioning and refrigeration, sheet metal, and upholstering. Participation in both the educational and vocational programs is voluntary.

### WORK AND STUDY RELEASE UNITS

Work and Study Release Units were authorized by the 1972 Legislature.

This program, which operates in conjunction with the West Virginia Penitentiary and the Huttonsville Correctional Center, provides for the establishment of four or five community units. Each unit is designed to house no more than twenty-five inmates selected by a sophisticated and in depth diagnostic and screening process performed primarily by the experienced staff at the Huttonsville Correctional Center. Inmates are selected for this program who are within six months of being paroled or discharged. This program allows the inmates to reside in the community under close supervision and at the same time be employed and trained in jobs that will allow them to return to the community as useful, self-supporting citizens.

One such unit is in full operation in Charleston with at least four additional units planned in the near future. These planned units will be located in those areas of the state that offer the greatest employment and training opportunities. All these units with their trained staffs provide for gradual re-entry into the community from penal institutions while at the same time assisting the inmates through employment, training and counseling.

### HUTTONSVILLE CORRECTIONAL CENTER

Huttonsville 26273

Warden: *Lloyd E. Haynes*. Associate Warden: *Robert Richards*. Deputy Warden: *Robert Gunnoe*. Business Manager: *Herbert E. Ferrell*. Inmate capacity 550.

The Huttonsville Correctional Center is located on a farm near Huttonsville in Randolph County, approximately 18 miles south of Elkins on U. S. Routes 219 and 215. It was established by an act of the Legislature in 1937 and remained a

part of the West Virginia Penitentiary until 1947. At that time the Legislature established it as a separate institution. The 1970 Legislature changed the name to the Huttonsville Correctional Center.

Originally established to relieve overcrowding at the West Virginia Penitentiary, the inmates were employed almost totally in general farm work. It was not until recent years that meaningful vocational and educational programs were implemented. Inmates are able to obtain their GED Certificates and engage in college credit courses provided by a cooperative program with Davis and Elkins College located in Elkins. Vocational courses offered include auto mechanics, welding, sheet metal, air-conditioning and refrigeration, upholstery, woodworking, masonry, engine repair, typing, heavy equipment operation, electronics and TV repair, meat cutting and mechanical drawing.

This institution serves as the intake point for all adult male felons. At intake they are placed in the diagnostic and classification unit and for a period of four to six weeks undergo diagnostic and classification, testing, counseling, and evaluation. Based on the information gathered from this unit the inmate is then placed in either the West Virginia Penitentiary or remains at the Center and is directed into a vocational and educational program. The same diagnostic services are provided to the Courts upon request as presentence evaluations provided by the 1972 Legislature. Quarters at this facility consist of modernly equipped dormitories with no provisions for extended individual confinement.

The farm consists of over 5,000 acres of which about 2,000 acres are suitable for cultivation and pasture. Farm products produced are generally in excess of the needs of this Center and the surplus is sold to other state institutions. A modern cannery is operated as part of the farm program.

## WEST VIRGINIA STATE PRISON FOR WOMEN

### Pence Springs 24962

*Superintendent: Mrs. Lucille Blankenship. Financial Secretary: Mrs. Mary K. Lawrence. Capacity 60.*

The West Virginia State Prison for Women was established by an act of the Legislature in 1947. Prior to that time women who were sentenced to prison in West Virginia were housed in one wing of the State Penitentiary at Moundsville. The prison is located at Pence Springs, Summers County, on Route No. 3, fifteen miles east of the City of Hinton.

The Prison is situated on a 205.6 acre tract of land which consists of well kept grounds, fifty acres of fertile farm land and several acres of woodland. The main building is well suited for its present use. It is a large three-story red brick with full-sized basement and attic. The first floor has spacious living room, staff and resident dining rooms, kitchen, business offices, commissary and sewing room. The second and third floors consist of resident rooms, hospital unit, quarantine unit, security unit, and officers quarters. The basement has a large room which is used for sewing and crafts and other sections which are used for laundry, walk-in freezer, photography room, and quarters for the male officers on duty. Near the main building are the Chapel and assembly room. The assembly room is furnished with a piano and eighty individual chairs. In a separate building is a well-equipped cannery for the mass production of frozen foods. Outside the security fence is the Superintendent's five-room cottage and a duplex which has a furnished apartment for the Financial Secretary and an apartment for guests of the institution. There is also a garage, storage and farm equipment building and piggery on the grounds.

An ongoing vocational program offers homemaking, nurses aid, typing, and cashier-clerk training. In addition, counseling services are provided by staff members of this institution.

An adult education class operates with a fully qualified teacher from Summers County conducting classes two evenings each week. Women completing the course satisfactorily receive a high school equivalent diploma.

A religious program is carried out with visiting ministers three times a month. Several interested church and laymen groups visit the institution and conduct services.

## HOSPITALS AND SANITARIUMS

### ANDREW S. ROWAN MEMORIAL HOME

Sweet Springs 24980

*Superintendent: Dr. Ralph Frazier. Business Manager: O. B. Grimmitt.*

The Andrew S. Rowan Memorial Home for aged men and women was established by an act of the Legislature in 1945 and opened to guests July 1, of the same year. Named in honor of Andrew Summers Rowan, a Monroe County native who was famous for his Spanish-American War exploits. Born at nearby Gap Mills, Rowan was immortalized by Elbert Hubbard's essay, "A Message to Garcia". This story tells of Rowan's landing near Turquino Peak, Cuba, in April, 1898, to contact the insurgent leader General Garcia. The carrying of the message and returning with information about the insurgents was of immense value to military operations in Cuba later.

This Institution is located at Sweet Springs, Monroe County, in the heart of the Blue Grass Section, on State Route No. 3, midway between Union and White Sulphur Springs.

There are many historical facts and traditions associated with the buildings and grounds. The oldest and largest building was completed in 1833 and is of the Thomas Jefferson design and named in his honor. A ninety-six bed annexation to the building was completed in 1958. There are six hundred ninety acres including two hundred twenty-five of farm and pasture lands and approximately thirty buildings. The dormitory used for men has undergone extensive repairs and alterations. A sprinkler system has been installed in the building even though some of the buildings are already fireproof. An excellent herd of registered Holstein cows is kept on the farm which supplies the guests with a bountiful supply of milk. The milk plant is one of the best to be found in this county.

To be eligible for admittance, all applicants must have attained the age of at least sixty-five years and have been residents of the State of West Virginia for at least one year prior to making application. They must be able to take care of their personal needs, dress and undress themselves, walk to a central dining room and be mentally competent. This institution is operated solely as a home for the aged; it is not a hospital, nursing home or sanitarium. Two persons occupy a room and there is a central bath.

There are two types of admissions, namely, those who are able to pay for their care and those who are not able to pay their own way. The latter may make application through the Department of Welfare of the county in which they reside.

The rate for a voluntary pay guest is \$52.50 per month, payable in advance. \$37.50 of this amount is for maintenance and the other \$15.00 is put into a trust fund to take care of personal expenses, such as personal laundry and dry cleaning and small luxuries which the State does not provide.

A medical examination is required, also a chest X-ray. Application forms for voluntary pay admittance are available here or in the Commissioner of Public Institutions Office, Charleston, West Virginia 25305.

**BARBOURSVILLE STATE HOSPITAL****Barboursville**

*Superintendent: George Pozega. Acting Clinical Director: Rogelio Poblete, M.D. Average daily resident population: 281.*

In 1941, the State purchased 24 acres of land in Cabell County and two buildings that had been used as dormitories for Morris Harvey College. The buildings were reconditioned and equipped and on January 20, 1942, Barboursville was officially opened. Located off U. S. Route 60 at Barboursville, the hospital was originally named the Barboursville Unit of Weston State Hospital. The 1947 Legislature changed the name to Barboursville Unit of Huntington State Hospital, and the 1949 Legislature established it as Barboursville State Hospital.

Patient capacity continued to grow through additional renovation. In 1942, the hospital could accommodate 270 patients. In 1947, funds were appropriated for an administration building and for a storage building. The 1949 Legislature made an additional appropriation for construction of a laundry building and for additional renovation of old buildings. When all this work was complete, the capacity rose to 368. In 1957, \$100,000 was appropriated for construction and furnishing of a male employees' dormitory and in 1964 this building was converted into a patients' self-government ward.

In June, 1967, ground was broken for an activities building which has provided classroom, workshop and auditorium facilities for training, education and recreation activities. More recent physical improvements include new fire escapes, fire alarm systems, air-conditioning, as well as renovation to the heating and electrical systems.

Barboursville functions slightly different from the other institutions since there are no direct admissions. The older mentally retarded and mentally ill persons are transferred there from Weston, Spencer, Lakin, and Huntington State Hospitals, Colin Anderson Center and private hospitals.

Barboursville was the first hospital to institute a camping program. In 1967, 32 patients, fifteen staff members, and five VISTA Volunteers pioneered the camping program for hospitalized mental patients. The positive changes in patients were noticeable immediately. Patients who had not changed in years began to respond. The therapeutic possibilities of camping seemed unlimited. Today there is a state camping coordinator and camping programs at each of the State's six institutions. The program ranges from daily trips to two-week programs for advanced campers with over 1,000 patients from all hospitals participating in the program.

**COLIN ANDERSON CENTER****St. Marys**

*Superintendent: William Richards, Jr. Acting Clinical Director: E. E. Mazon, M.D. Average daily resident population: 500.*

Colin Anderson Center is located four miles north of St. Marys, on State Route 2, in Pleasants County. Established in 1921 by an act of the Legislature, it was formerly known as the West Virginia Training School. In 1965, the Legislature changed the name of the institution to Colin Anderson Center, in honor of the late Dr. Anderson who served as superintendent with dedication and devotion from 1958 until his death in 1964.

Colin Anderson Center, located on a 694 acre plot, is the State's only residential treatment center for the mentally retarded. Designed as a training

facility, it has over the years accumulated a large number of severely retarded whose potential for profiting from training programs is limited. Intensive training programs have been developed, however, and small numbers of residents are being released to productive semi-independent lives in the community.

A special education program was organized in September, 1966, and accredited in August, 1967, by the State Department of Education. The program includes early childhood education, kindergarten, primary classes, intermediate classes, prevocational training, adult education, and classes for the physically handicapped. Also offered are swimming, scouting, recreation, arts and crafts, library, homemaking, and good grooming instruction. Educational seminars, tours, and workshops are held periodically. Weekly church services are provided in the community and on grounds by the Pleasants County Ministerial Association. An active volunteer services corps consisting of over 150 community volunteers provide additional services to the children and three busses are available to transport the children to off-grounds trips and to community-oriented activities.

The center is operated to provide complete care for mentally retarded children. It is recognized that some children are unable to benefit from a training program and for these custodial care is provided, always with a view to increasing their comfort and safety, as well as promoting some degree of self-care and independence.

To further expand services to the mentally retarded, a vocational rehabilitation center was opened there in January, 1965.

A halfway or readjustment house, located in Parkersburg, is providing a transitional experience toward independent living for young males. Staffed with two houseparents, a social worker, and a recreation supervisor, the house has graduated nearly 25 boys.

A new behavior modification program called ECHO—each child has opportunity—is now in operation for the severely mentally retarded. The project stresses reward for normal behavior and has proven successful with this disability group.

An activities building and four residential cottages were ready for occupancy in 1972.

Approximately 150 persons in the State serve as foster grandparents to patients at Colin Anderson Center, Lakin State Hospital, and the Charleston Day Care Center.

## DENMAR STATE HOSPITAL

### Beard

*Clinical Director: Harvey A. Martin, M.D. Acting Supt.: Roy S. Drake. Physicians: Zala J. Jasvantsink, M.D., Jenaro A. Valencia, M.D. Patients: 180.*

Denmar State Hospital is located in the Allegheny Mountains approximately six miles southeast of Hillsboro in Pocahontas County on an eminence overlooking the Greenbrier River. The building and the site, at about 2200 feet above sea level, are among the most beautiful in the State. The 185 acre tract is used to support a dairy facility, a swine production program, and extensive vegetable gardening; the entire production of the farm being used by Denmar and other State institutions.

At Denmar, care and treatment are available to needy, chronically ill residents of West Virginia approved by the Commissioner of Public Institutions.

## FAIRMONT EMERGENCY HOSPITAL

### Fairmont

*Clinical Director: Paul S. Gotses, M.D. Superintendent: Larry N. Steele.*

This is a general hospital located in Fairmont, Marlon County, which was constructed in 1899 for the purpose of treating persons who had sustained occupational injuries.

In addition to serving private patients, the Institution now provides medical and surgical services for medically indigent citizens residing in Northern West Virginia and for the residents and patients of all State penal, correctional, charitable and mental institutions which are located in that area of the State.

The physical facilities of the hospital have steadily improved and include a new x-ray unit and remodeling of the x-ray room. Additional staff have made it possible to further improve the services furnished by the hospital.

### **GUTHRIE CENTER** **Charleston**

*Acting Clinical Director: Kenneth L. Clark, M. D.*

Guthrie Center is located five miles north of Charleston on U. S. Route 21. Formerly Guthrie Air Force Base, the center began operation in 1969. The purpose of Guthrie was to relieve the overcrowding at Spencer State Hospital by transferring patients who could make adjustment back to normal living to a facility that specialized in half-way rehabilitative services.

During the first two years of operation, Guthrie served 265 patients and reduced the population at Spencer by nearly 200. Admissions are mainly from Spencer, but patients from other institutions, as well as from the local community, are accepted.

The programs are designed primarily for those patients whose psychiatric condition has improved to the extent that they are considered nearly ready for return to their home communities.

A residential unit for children from 5 to 9 years of age with serious learning difficulties has been added and plans for a geriatric unit are near completion.

An alcoholic treatment unit is in operation and served 137 persons in fiscal 1972-73, and a drug treatment unit was added in late 1972.

---

### **HOPEMONT STATE HOSPITAL** **Hopemont**

*Clinical Director: Dr. L. Villaneuva. Superintendent: William H. Lovett.  
Capacity: 300.*

Hopemont State Hospital, formerly known as Hopemont Sanitarium, is located on a 1,000 acre tract of land at Hopemont, near Terra Alta, in Preston County, and was founded in 1913 as a hospital for the treatment of tuberculosis. In 1965, legislation was enacted to change the name of the hospital and to convert it to an institution for the chronically ill. In 1968, a part of the hospital was certified eligible as an extended care facility.

The medical staff is composed of a clinical director, a consultant and three full-time resident physicians.

The service also includes a full time laboratory technician, X-ray technician, physical therapist, occupational therapist, three social workers, a part-time registered dietitian and a part-time registered pharmacist. There is a well trained staff of nurses along with both male and female aides, who receive on the job training.

Other units of the institution consist of residences, nurses' home, post office, maintenance shops, laundry and a farm where a registered Holstein herd of cows provides milk for the facility, a piggery provides pork and a sizeable truck farm provides garden products in season.

## HUNTINGTON STATE HOSPITAL

### Huntington

*Clinical Director: Jorge V. Ottaviano, M.D. Superintendent: Randall Baumgardner. Average daily resident population: 846.*

Located in Huntington—the county seat of Cabell County, Huntington State Hospital was authorized by an act of the Legislature in 1897.

The rated bed capacity is 608, but the hospital serves approximately 850 patients daily, from the twelve-county area of Cabell, Fayette, Lincoln, Logan, McDowell, Mercer, Mingo, Monroe, Raleigh, Summers, Wayne, and Wyoming counties.

The hospital is maintained and equipped to provide modern treatment for all types of mental illness. The physical plant includes an administration building and four ward buildings. There are facilities for all patient-care services such as laundry and kitchen and also occupational and recreational therapy. One of the ward buildings has been established for medical services including surgery, x-ray laboratory, electro-cardiograph, and a modern pharmacy. A vocational rehabilitation center is located on the grounds to complement the other programs.

During 1970 Huntington State Hospital completed the transformation of the entire hospital into a geographical unit system. This was accomplished by the movement of 712 patients into four units—each staffed with doctors, nurses, social workers, adjunctive therapists and a complement of aides. Rehabilitation personnel are also available in each of the units and psychological services are provided on a consultant basis. Each of these units relates to a community mental health center in its respective area.

An alcoholic treatment unit—with a bed capacity of 18—was established in order to give a home to the program that had been in operation for several years. Aversion therapy was also added in 1970 for treatment of chronic alcoholics.

Huntington State Hospital was the first State institution with a residential psychiatric affiliation program for student nurses. This unit is utilized by Wheeling, Parkersburg, and Bluefield Schools of Nursing, as well as by a non-residential program for Marshall University, Morris Harvey College, St. Mary's Hospital and King's Daughters Hospital School of Nursing. A total of 315 students from six schools of nursing participated this year.

The hospital conducts in-service training programs for its psychiatric aides, nurses, and other professional and sub-professional personnel.

A camping program is conducted each summer and continues to be one of the highlights of patient activities.

Adult education classes were started in 1970 and patients may pass the GED test (high school equivalency) as a result of this program.

A Behavior Modification program was begun in late 1972 with a program of self-care techniques being utilized with the severely mentally retarded patients in the initial phase.

## LAKIN STATE HOSPITAL

### Lakin

*Acting Clinical Director: Marianito Montero, M.D. Superintendent: Samuel L. Nichols, Jr. Average daily population: 323.*

Lakin State Hospital was founded by an act of the Legislature in 1919 and was opened in 1926 for the reception and treatment of Negroes suffering from mental and nervous disorders; however, the staff and patient population have been integrated since 1954.

Located some 10 miles from Point Pleasant, Lakin State Hospital is situated on a large level plot with many acres of adjoining farm land. Lakin serves a population of around 62,000 in Mason, Jackson, and Putnam counties as well as emotionally disturbed children and hardcore alcoholics from throughout the State.

Two three-story brick buildings house the male and female dormitories. Another building contains administrative office areas, laboratory and x-ray units, central supply, and the treatment center for emotionally disturbed children. A newer structure houses the kitchen, dining area for patients, and offices for ancillary personnel. The Lakin Post Office is also located on these grounds.

A new dormitory for both male and female residents is under construction. In May, 1971, the hospital dedicated a new activities building that provides space for classrooms, chapel services, canteen and recreation. Built with state and federal funds, this new building permitted the expansion of programs for both adult patients and children.

Most of the accepted methods of diagnosis and treatment are utilized including clinical observation, social service, psychological testing, neurological and electroencephalography, occupational music, recreation therapy, and psychotherapy in addition to full utilization of the tranquilizing drugs in an effort to maintain the institution as a treatment hospital rather than an institution for custodial care. The Foster Grandparent project is active in the unit for emotionally disturbed children.

A self-government group is operating in each of the buildings for adults in an effort to strengthen the patients' sense of independence. The Chaplain conducts regular church services each Sunday and is active in the program for chronic alcoholics.

A vocational rehabilitation center is located on the grounds in what was formerly the male employees' dormitory. Services provided through this center include remedial and special education, cosmetology, homemaking, and manual arts. Patients are screened here for admission to the Rehabilitation Center at Institute for further job training.

In 1952 the hospital received a gold medal national award for achievement presented by the Hospital Institute of the American Psychiatric Association.

## **PINECREST HOSPITAL** (Tuberculosis and Chronically Ill)

### **Beckley**

*Clinical Director: H. S. Edwards, M.D. Superintendent: C. O. Smith, Jr.*

Pinecrest Hospital located at Beckley, in Raleigh County, was authorized by an act of the Legislature in 1927 and formally opened March 18, 1930. At that time the hospital was named Rutherford Sanitarium but the 1934 Legislature changed the name to Pinecrest Sanitarium, and the 1970 Legislature renamed it Pinecrest Hospital.

Pinecrest Hospital is located on Federal Routes 19-21 and State Highways 3-41 with thirty-minute bus service connecting with the city and Atlantic Greyhound bus lines, also with the C. & O. Railway in Beckley and Prince.

The Hospital has a fifty-acre campus, and a 200-acre farm, which is modernly equipped for farming, and a dairy herd of 55 Holstein cows supplying milk for the institution. A large number of hogs are raised and when finished are sold at a public livestock market. Pinecrest Hospital is composed of four modern fireproof units all connected under one roof, with 536 beds for patients, a modern fireproof nurses' home, five modern dwellings for staff physicians, seven cottages for employees, a central heating plant, dairy barn, hog barn, laundry and numerous outside buildings.

An act of the Legislature in 1965 discontinued Hopemont Sanitarium as an institution for tuberculosis patients, thus making Pinecrest the only tuberculosis institution in West Virginia.

Further decrease of the disease of tuberculosis resulted in many empty beds. Accordingly, the Commissioner of Public Institutions instituted a policy of admitting chronically ill female patients to this hospital where they are housed and treated in areas apart from the tubercular patients. On December 1, 1970, a ward of thirty-five beds was opened and filled almost immediately. In September of the following year an additional ward was opened and forty patients admitted.

Patients admitted to Pinecrest Hospital are assigned to individual physicians who carry out therapeutic procedures that are recommended by the entire staff. In this manner, the patient is given the benefit of consultation by the entire medical staff. The Pinecrest staff is composed of a Clinical Director, Superintendent, Thoracic Surgeon, five full-time physicians, two x-ray technicians and two laboratory technicians.

The ambulatory patients have the privilege of being entertained in the modern auditorium by moving pictures and plays produced by local talent. The Hospital is modern in every respect, with the most modern equipment available for the treatment of tuberculosis, both surgical and medical. A recreational director and trained medical social workers are employed full-time. The Hospital has the services of a full-time Chaplain and assistant.

## RONEY'S POINT

### Triadelphia

*Clinical Director: Cornel Panovicu, M.D. Superintendent: Thomas Meadows. Average daily population: 23.*

Roney's Point, formerly the Ohio Tuberculosis Sanitarium, was established in 1967 by an act of the Legislature. Patients were first admitted in mid-1970 following extensive repairs to the physical plant.

The program at the facility is designed to provide an opportunity for residents of the Northern Panhandle area, who have been hospitalized at Weston State Hospital, to be reintroduced to their homes and communities.

An Alcoholic Treatment Unit opened in November of 1972.

## SPENCER STATE HOSPITAL

### Spencer

*Clinical Director: Robert A. Jenkins, M. D. Superintendent: J. R. Daniell. Average daily resident population: 692.*

Located in Spencer, the county seat of Roane County, Spencer State Hospital was authorized by an act of the Legislature in May, 1887, and formally opened in 1893.

Spencer serves the eight-county area of Pleasants, Wirt, Calhoun, Roane, Clay, Kanawha, Wood and Boone Counties, a total population exceeding 375,000.

The hospital is located on a 180 acre tract with its own water and power supply. An additional 295 acres is located about two miles from the hospital in an area known as Trotter Lake and is used as a recreational area

for patients as well as a water shed for the dam that impounds approximately 25,000,000 gallons of water in the lake.

The hospital recently completed a geographic relocation of patients. Thus patients from a county or group of counties are located in a manner to provide a home and community relationship within the hospital. Specialized units are still maintained for the physically ill and infirm alcoholic treatment programs, Medicare and Medicaid patients, and rehabilitation programs.

Spencer State Hospital operates under the open door policy and approximately 76% of the patients reside on open wards. There are no mechanical restraints employed at the hospital. All forms of psychiatric treatment, such as psychotherapy, electroconvulsive therapy, chemotherapy, milieu therapy, remotivation and group therapy, family counseling, industrial therapy, religious counseling and an active occupational and recreational therapy are utilized at this hospital. A new program, a class in remotivation for patients, has been in effect for several years and has greatly enhanced the hospital therapeutic success.

Spencer has the largest alcoholic treatment unit of any of the state institutions, and served 180 patients during 1970. The Vocational Rehabilitation Center, located on the hospital grounds, offers a new and modern concept in traditional hospital services. Spencer also has a modern dental unit and x-ray departments and offers electrocardiogram and laboratory services.

A camping program, designed to create self-help and provide patient responsibility through outdoor activities, has become one of the outstanding therapeutic programs in the modern treatment of the mentally ill.

An adolescent unit, Opportunity Hall, opened in March, 1972. Located on the second floor of the Clinic Building, Opportunity Hall is a unit for emotionally disturbed adolescents between 13 and 19 years of age. The unit is equipped with a medication and a treatment team in addition to a project director, psychiatric nurse and a social worker. Adolescents who are functioning below the average range of intelligence will be accepted if they have average intellectual potential. The average daily census remains consistently at 22 which is the capacity of the unit.

## WELCH EMERGENCY HOSPITAL

(Surgical)

Welch

*Acting Clinical Director: Dr. Jorge Salazar, M.D. Supt.: Miss Doris Kitchen.*

*(Formerly Welch No. 1 Hospital)*

This hospital is situated in the western part of the Town of Welch. It was established by an act of the Legislature in 1899 and was opened to patients in January, 1902.

The institution has three and one-quarter acres of ground. There are seven buildings on the grounds consisting of the main hospital, nurses' home, power and boiler house, quarters for the aides and orderlies, two cottages and one large building which was used for many years to house the McDowell County Health Department.

The main hospital building is two and one-half stories high. The operating, sterilization and supply rooms are on the third floor. On the second floor are the drug room, superintendent's office, director of nurses office, central supply room and fifteen rooms for private patients.

The first floor has two wings; the south wing has five wards for acute cases—obstetrical, surgical and pediatric patients. A modern children's ward was added in 1965. The north wing is currently being remodeled for a maternity unit—a large obstetrical ward with labor room, delivery room and a new-born nursery.

On the first floor of the hospital is also the business office, record room, dining room, kitchen and store rooms. The kitchen and dining room have been remodeled. Examining rooms for the outpatient clinic are also located on the first floor, with an emergency room for ambulance entrance.

During 1971-72, 25,000 patients were treated. There were 468 surgical cases and 414 babies were delivered. Approximately 98% of the patients treated at this hospital are charity or semi-charity cases.

This hospital provides both surgical and medical treatment for inmates of Barboursville State Hospital, West Virginia State Prison for Women at Pence Springs, Huntington State Hospital and for guests of Andrew S. Rowan Memorial Home.

## WESTON STATE HOSPITAL

### Weston

*Clinical Director: Adrian Villarín, M.D. Clinical Director—Training Unit: Abul Ali, M.D. Superintendent: Obed Poling. Average daily resident population: 1,286.*

West Virginia's oldest and largest mental institution, Weston State Hospital, is located in the City of Weston. Although authorized on March 22, 1958, by an act of the Virginia Assembly, opening was delayed by the Civil War until October 22, 1864. Weston continued to serve 29 of West Virginia's 55 counties.

The physical plant is made up of several buildings, including a vocational rehabilitation center and half-way house for the training and rehabilitation of the mentally ill, an alcoholic treatment unit, and a medicare unit. A section of the main hospital building has been isolated from the rest and is designated as the West Virginia Soldiers' Home. This is also administered by the hospital staff. Male war veterans are admitted there for treatment. The buildings and outlying farm land occupy some 6000 acres of land in Lewis County.

A wide variety of treatment is provided including psychotherapy, chemical therapies, group psychotherapy, cultural enrichment, occupational and recreational therapies and electro-shock therapy. Clinical services include psychiatry, general medicine, social service, psychology, nursing, dentistry, x-ray, pathology and clinical laboratory, electro-encephalography, and a blood bank.

Weston was the first state hospital in West Virginia to complete patient re-housing under the geographic unit locations. The maximum security unit has been dissolved and the building converted into an activities center for recreation, occupational therapy, printing, volunteer services and a library.

A teaching unit for nursing education was established under a special grant of \$310,000 and is being used by students from West Virginia Wesleyan, Fairmont State, Alderson-Broadus, and Salem Colleges. There is also an in-service training program for psychiatric aides and training of psychologists, social workers, and medical students which is carried out in conjunction with West Virginia University and other colleges.

A Behavior Modification Unit was instituted in 1970 under a grant from the Hospital Improvement Program. Through the use of diagnostic testing practices, behavior therapy wards, the teaching unit, and the geographic location and community referral program, the patient population continues to decline.

The hospital staff has continued to grow in size and disciplines. Consultant staff consists of specialists and general physicians as well as professors and instructors from nearby colleges.

A cooperative program with West Virginia University has proved beneficial to students and patients. Students spend a full semester in "on-the-job" education and training at the hospital. Working under the supervision of the hospital staff and University professors, students are involved in designing an education program and token economy for the units involved. The ultimate goal of the on-going program is to prepare patients for return to the community.

## WEST VIRGINIA UNIVERSITY

### Morgantown

Teacher, student, healer, artist, scientist, grower of food and forest, builder of a better world . . . these are the many faces of West Virginia University. It seeks to reconstruct the past, to understand the present, to glimpse and help create the future. The University's concerns embrace the breadth of life . . . plants and animals, man's health, his polluted environment, his prosperity, his comfort, his humanity.

The more than 20,000 students that WVU serves each year are young and old . . . from every West Virginia county and in East Africa (where the University conducts a federally funded agricultural education program). They are coal miners and industrial workers receiving technical training, company engineers keeping up with the newest technology, 18 to 21 year olds discovering the excitement of new ideas, tomorrow's doctors and engineers, teachers continuing their education, firemen, housewives learning about art and how to become wiser consumers.

WVU's organization into colleges, schools, and divisions indicates the variety of its intellectual life: The College of Agriculture and Forestry, College of Arts and Sciences, Center for Appalachian Studies and Development, College of Business and Economics, Creative Arts Center, School of Dentistry, College of Engineering, Graduate School, College of Human Resources and Education, School of Journalism, College of Law, School of Medicine, Divisions of Military

Science and Air Force Aerospace Studies, School of Mines, School of Nursing, School of Pharmacy, School of Physical Education and School of Social Work.

The most significant development in WVU's recent history has been its emergence as a regional center for graduate and professional education. For the first time in its history, WVU awarded more than 1,000 graduate degrees at its 101st Commencement on May 17, 1970. In the 102nd Commencement on May 16, 1971, more than 100 scholarly doctorates were awarded; in addition, 73 J.D. degrees were awarded by the College of Law; 45 D.D.S. degrees by the School of Dentistry; and 66 M.D. degrees by the School of Medicine. The University has awarded more graduate degrees during the past 10 years than during the previous 90 years. This growth in the graduate program is considered to be phenomenal and an important measure of WVU's emergence as a major university and as a regional research center.

West Virginia University's growth in physical facilities from 1957-59 through 1971-72 has been equaled by few universities of its size in the nation. During that decade, more than \$93 million in new buildings and facilities either have been built or are under construction on the Morgantown campuses.

These facilities include a \$7.9 million Creative Arts Center, engineering and agriculture buildings costing \$10 million, the \$27.5 million Medical Center complex, \$18.4 million in dormitories and apartments, a \$2.4 million Forestry Building, \$4 million in chemistry facilities, a \$10.5 million Coliseum, and the Mountainlair, a \$6.7 million campus activities center with its adjoining plaza garage and a \$3.6 million Law Center.

A personal rapid transit "people mover" serving WVU and downtown Morgantown, estimated to cost \$30-35 million, is under construction. The first phase, from downtown to the Engineering Sciences area, is slated for completion by October, 1973. The system not only will serve WVU's rapid transit needs, but it will attract engineers and researchers from countries that face similar traffic and pedestrian problems.

### WEST VIRGINIA COLLEGE OF GRADUATE STUDIES Institute

The West Virginia College of Graduate Studies was authorized by the 1972 Legislature and was established July 1, 1972 by the West Virginia Board of Regents to serve primarily part-time community graduate students. The College absorbed the operations of the Kanawha Valley Graduate Center of West Virginia University which had been providing graduate offerings in the area.

The College of Graduate Studies is new in concept and design. It utilizes faculty personnel and facilities of other institutions of higher education as well as maintaining a core of full-time faculty and administrative personnel. Courses are offered at the College generally in the late afternoon and evening. The programs of the College are expected to expand, whereby masters degrees will be awarded in a variety of fields. Currently masters degree programs are offered in business administration, industrial relations, political science, economics, chemical engineering, industrial engineering, mathematics, counseling and guidance, special education, educational administration and curriculum and instruction.

The College of Graduate Studies is accredited by the North Central Association of Colleges and Secondary Schools.

### BLUEFIELD STATE COLLEGE

#### Bluefield

Bluefield State College was created in 1895 by an act of the Legislature. Later, a concern for the preparation of teachers led to the recognition of Bluefield State College as a teacher-preparing institution, when the Legislature changed the name in 1931 from "Bluefield Colored Institution" to "Bluefield State Teachers College." The title was changed by the Legislature again in 1943 to Bluefield State College in recognition of its expanding program and the need for a broader service to the people of the State.

The College offers four-year curricula leading to the degrees of Bachelor of Arts, Bachelor of Science, and Bachelor of Science in Education. The major areas of concentration are: art, biology, business, chemistry, education, English, health and physical education, mathematics, music and social science. Bluefield State College also offers terminal courses in secretarial science, nursing, engineering technology and computer science. Terminal courses lead to an Associate Degree. A Bachelor of Applied Science Degree in Engineering Technology is offered for the student completing four years of satisfactory study in this field.

## CONCORD COLLEGE

### Athens

Concord College is a fully-accredited coeducational liberal arts and teacher education institution. It was founded in 1872 as Concord Normal School. In 1931 the name was changed to Concord State Teachers College and to Concord College in 1943. It is located in the Town of Athens, Mercer County, which is situated near the southern terminus of the West Virginia Turnpike. In addition to this strategic travel location, the mountainous environment (elevation 2,600 feet) provides an ideal year-round climate.

Enrollment for the 1972 fall semester was 1,843. There are 130 faculty and professional staff members.

A campus complex composed of 25 buildings valued at \$23 million provides an excellent setting for study and recreation. Within this complex, one of the main features is The Oakey Logan Alexander Center for the Creative and Performing Arts which houses the fine arts—art, music, and theater. This impressive \$3 million structure consists of two basic multi-level structures—one for the visual arts and the other for theater and music; a third area links the two basic areas together and provides for galleries, lobbies and lounges.

An important new addition to the campus complex is a \$3 million health and physical education facility completed in June, 1972. Ten units of faculty housing were completed in 1970.

The college grants the degrees of Bachelor of Arts, Bachelor of Science, Bachelor of Science in Education, Bachelor of Science in Business Administration and Bachelor of Science in Medical Technology. Special programs include study in early childhood education, computer science, library science, home economics, health and physical education, social work and theater. Pre-professional programs are available for medicine, dentistry, law, the ministry and other professions. The usual undergraduate majors in the arts and sciences and fields for teacher certification are offered. Study abroad is available through the College's membership in the Regional Council for International Education.

The College is fully accredited by the North Central Association and the National Council for the Accreditation of Teacher Education, and it is recognized by the American Association of University Women.

## PARKERSBURG COMMUNITY COLLEGE

### Parkersburg

Established July 1, 1971, by the West Virginia Board of Regents, the Parkersburg Community College became West Virginia's first Comprehensive Community College. The College serves the area by providing a wide variety of course offerings in college-parallel programs; in technical and occupational fields; and in community services.

In response to the desire of the citizens of Wood County for a two-year college which would serve the area, the State Legislature of West Virginia, during the 1961 session, passed an act authorizing the establishment of branch campuses. Under the provision of that act and the subsequent action of the Board of Governors of West Virginia University, the Parkersburg Branch of West Virginia University opened its doors in September, 1961, to 104 students.

Originally housed in the old Emerson Elementary School, the college has now moved to a new campus located on State Route 47 near Interstate 77, two miles from the City of Parkersburg. On this site stands a new educational complex, valued at four million dollars, and offering in 1972-73, educational opportunity to 2512 students, who were served by 53 full-time and 74 part-time faculty members.

The college offers a two-year college-parallel program leading to an Associate in Arts degree; an Associate in Applied Science Degree Program, which consists of para-professional and technical programs; a Certificate Program designed to prepare a student for a career in less than two years; and a continuing education program for those who wish to enrich their lives without courses for credit. The College is accredited by the North Central Association of Colleges and Secondary Schools.

## WEST VIRGINIA REHABILITATION CENTER AND WORKSHOP

*George F. Gay, Administrator.*

The West Virginia Rehabilitation Center, located 8.5 miles west of Charleston, at Institute, is an integral part of the total program of services available to the handicapped through the Division of Vocational Rehabilitation.

The Center is composed of eleven buildings—several interlocking—situated on a 35 acre tract of land. It is staffed by more than 275 service and professional personnel. The facility provides medical and vocational services needed to rehabilitate the severely disabled. At present, there are 92 types of disabilities served which include such handicaps as mental illness, mental retardation, amputations, blindness, cord injuries, strokes, congenital heart defects, cultural or social problems and speech and hearing difficulties.

The Center is a multi-disability, vocationally oriented facility, using the team approach to provide a wide range of rehabilitation services to handicapped persons to prepare them for gainful employment. The Center has a present capacity of 475, with a waiting list of eligible clients in critical need of services.

It offers five major categories of rehabilitation services:

1. *Vocational Evaluation*—The Center offers a comprehensive, intensive vocational evaluation program to determine the specific job or range of jobs for which the client, in view of his capabilities and limitations, is best suited. The program is suited to the individual's needs. Depending on these needs, the evaluation generally ranges from one to two weeks. A team of therapists, physicians, psychologists, vocational counselors and social workers assist the client in obtaining medical and vocational rehabilitation. Depending upon the client's needs, the evaluation may consist of any or all of the following: Work Evaluation, Functional Studies, Psychological Testing, Social Work-up, Medical Evaluation and Optical Aids Evaluation.

2. *Prevocational Adjustment Training*—The Center offers separate prevocational training courses for male and female clients. Training for males is on-the-job training in the Center sheltered workshop activities, building maintenance, and horticulture. Training for females is centered around a homemaking course. Neither course is designed to train the client to be proficient in any particular subject taught but, rather, to provide a vehicle through which the client receives intensive counseling and opportunity to work with others in the atmosphere in which basic work and social skills may be absorbed by the client. A part of this prevocational training is a mobility and adjustment service for the visually handicapped. The objective of this program is to promote readiness of the blind or the visually handicapped client for vocational training or placement through special mobility instruction and vocational evaluation. Course emphasis is dictated by the individual client needs.

3. *Vocational Training*—Vocational training offered at the Center is designed specifically for agency clients. It is not intended to duplicate or supplant vocational training programs elsewhere in the State. Each course is planned for individual instruction within an established course outline and, thus, each course is flexible enough to meet the needs of the individual client. Major training

courses include stenography, accounting, clerk-typist, drafting, radio-TV servicing, upholstery, auto mechanics, auto body repair, auto servicing, electrical appliance repair, laundry operation, sewing, cooking and baking, kitchen and dining room helpers, hotel-motel aide, offset printing, nurse aide, orderly, sheet metal, building maintenance and janitorial, horticulture, keypunch and automatic transmission.

4. *Rehabilitation Treatment*—The Center offers a comprehensive medical service program under the supervision of a medical director, a licensed physician and a dentist and is carried out by a staff of medical specialists, therapists, nurses and others. The program consists of two major areas of services: Medical maintenance and Rehabilitation Treatment.

5. *Sheltered Work Experience (Sheltered Workshop)*—The Center Sheltered Workshop offers a program of sheltered work experience for clients. Through this experience, any or all of the following rehabilitation purposes may be served for the client: Job Tryout, Adjustment and Prevocational Training, Work Conditioning and Work Application.

6. *Other Services include:* Remedial Education, GED Testing and Civil Service Examination.

## REHABILITATION HOUSES

### Huntington

The West Virginia Division of Vocational Rehabilitation operates two Rehabilitation Houses in a quiet residential section of Huntington for the benefit of discharged mental patients. The homes—which are often referred to as "Halfway Houses"—are intended to ease the abrupt transition between the state mental institution and the patient's home community. Only patients who have previously been treated at a state mental institution are eligible to receive services from the two homes.

Both houses are three-story brick homes—nicely furnished with attractive surroundings. The House for Women can accommodate twelve residents and two houseparents. The House for Men has a capacity of fifteen, including houseparents.

All of the patients who are sent to the houses are assigned household duties and are encouraged to accept gainful employment in the community. Home-cooked meals and an active recreation program, both within the houses and the community, help to make life pleasant for the former patients. All are on self-medication and are visited once each week by a physician from Huntington State Hospital.

Vocational training or re-training is provided to those who show a need for it. This may be offered through the State Rehabilitation Center, local trade schools, colleges, or through local business firms which are willing to provide on-the-job instruction. Successful job placement of the Rehabilitation House resident is the ultimate goal of all rehabilitation efforts. This is probably the biggest step for the ex-patient in his return to community living.

**ALDERSON-BROADDUS COLLEGE****Philippi**

Alderson-Broaddus, a private Christian liberal arts college has as its purpose the uniting of excellence in academic achievement with dedication to service and cultivation of strong faith.

Two institutions were united in 1932 to form Alderson-Broaddus, a college of arts, sciences and special professional and pre-professional programs. The older of the two, Broaddus College, was founded in Winchester, Virginia, in 1871. Broaddus Academy was moved across the Alleghenies to Clarksburg, West Virginia, in 1876. There was no similar institution serving the Clarksburg area, and Broaddus flourished there a few years, but in 1909 was moved to Philippi.

The other institution, Alderson Junior College, was founded at Alderson, West Virginia, in 1901. It remained an active institution there until the 1932 merger.

Today Alderson-Broaddus is the only institution of higher education in West Virginia related to the American Baptist Convention.

The College, with a tradition of effective teaching in the liberal arts and with strong emphasis in humane studies, the Christian faith, music and the fine arts, science and teacher preparation, has in recent years placed decided emphasis on the natural sciences.

In 1945, in cooperation with the Myers Clinic, the first collegiate nursing program and the first radiologic technology program in West Virginia were developed. A medical technology program has been added; and in 1968, a four-year medical science program to prepare the physician's assistant. The medical science major was a national pioneering venture, the first such four-year program in the country. They are related also to Broaddus Hospital on the campus.

A new program was established in 1972 to prepare teachers for early childhood education positions, especially for those of kindergarten age. An Early Childhood Teaching Center has been established on the campus where the Barbour County school system cooperates with the College in operating a model classroom for those specializing in the early childhood area.

Alderson-Broaddus College is fully accredited by the North Central Association of Colleges and Secondary Schools. It is also a member of the Association of American Colleges, the American Council on Education, the Council of Protestant Colleges and Universities, and the Association of Higher Education of the American Baptist Convention. State departments of education have approved the institution for the training of teachers for elementary and secondary schools.

Enriched educational experiences are offered for graduation credit during the vacation terms of the junior and senior years. They include foreign study and travel, co-operative educational programs with Broaddus Hospital and other institutions and with business and industry, independent study, and Christian and humanitarian service.

The present enrollment is around 1,100 and the total student costs for the 1973-74 year are \$2,862. Limited scholarships, unique work opportunities, and loans are available to worthy students.

**MORRIS HARVEY COLLEGE****Charleston**

The roots of the College sink deep in the history and traditions of this State. The Southern Methodists, after having lost Marshall Academy during the Civil War, established in 1888, a seminary in Barboursville. This seminary was destined to become Morris Harvey College.

For nearly fifty years, the College served the youth from southern West Virginia and eastern Kentucky. The enrollment was small and the facilities were limited and financial adversaries of the 1930's resulted in the relocation of the College in Charleston.

Today the College is accredited by regional and national associations. Its student body, of more than three thousand, is heterogeneous. The educational program places emphasis on the liberal arts, but provides for teacher education, business and industrial management, chemical technology, structural engineering and nursing.

The College seeks to keep its academic program responsive to the contemporary student and community needs. Urging the faculty to develop excellence in teaching, it seeks the involvement of students in the life of the College, and the broadening of its relationship with other academic and social institutions.

## U. S. ARMY ENGINEER DISTRICT, HUNTINGTON CORPS OF ENGINEERS

502 Eighth Street, Huntington 25721

Congress has delegated to the Corps of Engineers responsibility for the development, construction, operation and maintenance of navigation facilities, flood control structures, and related improvements, and services for water resources management.

The Civil Works Program of the Corps of Engineers is divided on the basis of watershed drainage areas. The Ohio River drainage basin includes all of West Virginia except the eastern Panhandle, which is in the Potomac River Basin. The Huntington District of the Ohio River Division encompasses that part of the Ohio River Basin in West Virginia downstream from New Martinsville in Wetzel County. The Pittsburgh District encompasses the upstream remainder of the Ohio River Basin including the Basin of the Monongahela River. The Potomac River Basin is included in the Baltimore District of the North Atlantic Division.

Responsibility for military construction in the entire State of West Virginia rests with the U. S. Army Engineer District, Baltimore, Maryland, Corps of Engineers.

Extension of the Ohio River navigation system in West Virginia presently includes three high-lift dams on the Kanawha River and three navigation structures on the Monongahela River. Operation of the former Federal navigation projects on the Little Kanawha and Big Sandy Rivers for commercial navigation has been discontinued and the properties transferred to State or local interests. Navigation is not a feature of the Potomac River located in West Virginia.

Improvement of the navigation facilities on the Ohio River includes construction of modern high-lift structures to replace existing obsolete dams. Eight of these structures are complete. Greenup Locks and Dam, Greenup, Kentucky, replaced Locks and Dams 27 and 28 in West Virginia, 29 and 30 in Kentucky. New Cumberland Locks and Dam, New Cumberland, West Virginia, replaced Locks and Dams 7, 8 and 9 in West Virginia. Pike Island Locks and Dam, Wheeling, replaced Locks and Dams 10 and 11 in West Virginia. Belleville Locks and Dam, Belleville, West Virginia, replaced Locks and Dams Nos. 18, 19 and 20. Racine Locks and Dam, Letart, West Virginia, replaced Locks and Dams, 21, 22 and 23. Others completed are Markland Locks and Dam, Markland, Indiana, McAlpine Locks and Dam, Louisville, Kentucky, and Captain Anthony Meldahl Locks and Dam, Chilo, Ohio. Other navigation structures now under construction on the Ohio River in West Virginia are: Hannibal Locks and Dam, New Martinsville, West Virginia, which will replace Locks and Dams 12, 13 and 14; and Willow Island Locks and Dam, Waverly, West Virginia, which will replace Locks and Dams 15, 18 and 17. West Virginia will benefit from the construction of these modern navigation improvements on the Ohio River. Additional projects are under way on the lower Ohio River.

Modernization of the obsolete navigation structures in the upper reaches of the Monongahela River also is in progress and is essentially complete. Hildebrand, Morgantown and Opekiska Locks and Dams are complete. Replacement of Lock No. 8, now being studied, would complete modernization of the upper river. Maxwell Locks and Dam, integrated with reconstruction of Dam No. 4, improves the middle Monongahela in Pennsylvania.

The Marine Recruiting Service interviews and advises prospective applicants on the advantages of being a United States Marine; administers mental screening and/or aptitude tests to determine applicants qualifications; verifies references; and makes necessary arrangements for further mental, medical, and administrative processing incident to his enlistment.

They conduct and participate in community relations and special events activities. They maintain liaison with the news media personnel, educators, business and industry leaders, civic groups, and other centers of influence on advertising and publicity matters pertaining to recruiting and the U. S. Marine Corps in general.

## RANDOLPH

Randolph County was formed from Harrison in 1787 and included all of the present county of Tucker, all of Barbour east of the river, all of Upshur east of Buckhannon River, and a considerable portion of Pocahontas and Webster. It lost territory in 1821 when Pocahontas was formed; again in 1843 when Barbour came into existence; in 1851 it gave up some of its territory to Upshur; five years later 350 square miles were cut off to form Tucker; and another portion was incorporated in Webster County when it was formed in 1860. After all of these losses Randolph still is the largest county in the State. It was named for Edmund Jennings Randolph, Governor of Virginia 1786-1788. The first white man who settled in what is now West Virginia, built his home on the waters of the Monongahela. In this county occurred the first Indian Massacre in the State. From that beginning, the county has been a historical center down to the present.

First 4-H Camp in the World held in this county.

Kumbrabow State Forest and part of the Monongahela National Forest are located in this county.

Fossil Tree Park, in which are found large numbers of fossilized trees, is located a short distance west of Elkins,

Southeast of Huttonsville, on White Mountain (elevation over 4,000 feet), the federal forces maintained the highest fortified camp in the War Between the States.

# OFFICIAL MUNICIPAL REGISTER

(Corrected to September 1, 1973)

## CLASS I, II AND III CITIES

Under the provisions of Chapter 56, Acts of the Legislature, regular session, 1939, municipal corporations are classified by population as follows: Population in excess of 50,000, Class I city; population more than 10,000 and not more than 50,000, Class II city; and population more than 2,000 and not more than 10,000, Class III city. Municipal corporations not included in these classifications are known as towns or villages.

Transition from one to another class of municipal corporation occurs automatically when the requisite population qualification has been met. Population is determined on the basis of the last preceding census taken under the authority of the Congress of the United States or the Legislature of West Virginia. Census of 1970 is used as basis in determining class of cities listed in this Register.

Population figures shown in cities of 1,000 or over are from the 1970 census.

### Salem—Harrison County

Zip Code 26426

(Magisterial District: Tenmile).

It was originally New Salem, so named because the settlers who established the town came in a body from Salem, New Jersey. They arrived in the spring of 1792. Two years later, in 1794, it was incorporated.

The first civilized habitation on the land now occupied by the City of Salem was a hunter's camp established by Nicholas Carpenter in 1785 who used it for a hunting and trapping center. He also used it for a sort of crude hotel for himself and his men who drove cattle from Clarksburg to the Ohio River at Marietta which was the nearest market.

Samuel Fitz Randolph purchased the property on which the village was founded in 1790. Mr. Randolph had started with a caravan of pioneer settlers from Salem, New Jersey, who crossed the mountains in 1789 and made their first stop at Woodbridgetown, Pennsylvania. Mr. Randolph, a number of Davises, some Maxsons, and others came on to what is now Salem, after a two and one-half year trek from the sea coast.

Salem was the first settlement of Seventh Day Baptists west of the mountains. It is now the home of Salem College, founded in 1888, and the Industrial Home for Girls, established in 1898. Glass has been a major industry. The Baltimore & Ohio Railroad and the George Washington high-

way and state highway route No. 23 pass through it. It is the birthplace of United States Senator Jennings Randolph and the great writer, Granville Davison Hall, author of *Daughter of the Elm*, *The Rending of Virginia*, and many other historical books.

Location of Annual Heritage Arts Festival held the fourth weekend in April exhibiting crafts, handiwork and antiques from the past of West Virginia. Reconstruction of fort and associated original buildings now underway on Salem College property.

## **THE AMERICAN FLAG**

### **DESCRIPTION OF THE FLAG**

The Flag of the United States of America has 13 horizontal stripes—7 red and 6 white—the red and white stripes alternating, and a union which consists of white stars of five points on a blue field placed in the upper quarter next to the staff and extending to the lower edge of the fourth red stripe from the top. The number of stars is the same as the number of States in the Union. The canton or union now contains 50 stars. On the admission of a State into the Union a star will be added to the union of the Flag, and such addition will take effect on the 4th day of July next succeeding such admission.

---

### **PLEDGE OF ALLEGIANCE**

I pledge allegiance to the flag of the United States of America and to the Republic for which it stands, one Nation under God, indivisible, with liberty and justice for all.

---

### **STATE FLAG**

Before the design of the present State Flag was officially adopted by the Legislature on March 7, 1929, by Senate Joint Resolution No. 18, West Virginia had been represented by several flags which had proved impractical.

Prominently displayed on the pure white field of today's flag and emblazoned in proper colors is the Coat of Arms, the lower half of which is wreathed by Rhododendron. Across the top, lettered on a ribbon, is the constitutional designation—"State of West Virginia." The white field is bordered on four sides by a strip of blue, and for parade purposes all but the staff side are to be trimmed with gold fringe.

---

### **GREAT SEAL OF WEST VIRGINIA**

The Great Seal of West Virginia, which also is the Coat of Arms, was adopted by the Legislature on September 26, 1863, and symbolizes the principal pursuits and resources of West Virginia. Described briefly, the obverse side of the Seal bears the legend, "State of West Virginia," together with the motto, "Montani Semper Liberi" (Mountaineers Are Always Free); a farmer stands to the right and a miner to the left of a large ivy-draped rock bearing the date of the state's admission to the Union; in front of the rock are two hunters' rifles upon which rests a Phrygian Cap, or "Cap of Liberty."

The reverse side of the Seal is not in common use today. It was intended to be employed when the Seal was attached to documents by ribbons and suspended in the manner of a medal.

Joseph H. Diss Debar, of Doddridge County, designed the State Seal in 1863 at the request of the first West Virginia Legislature.

---

### **STATE SONGS**

"THE WEST VIRGINIA HILLS", "THIS IS MY WEST VIRGINIA" and "WEST VIRGINIA, MY HOME SWEET HOME" were designated as the official State Songs of West Virginia, each ranking equally with the others in official status, by House Concurrent Resolution No. 19, adopted by the Legislature on February 28, 1963.

## OFFICIAL COLORS

OLD GOLD and BLUE were designated as Official State Colors by Senate Concurrent Resolution No. 20, adopted by the Legislature on March 8, 1963.

## STATE DAY

### "West Virginia Day"

On January 1, 1863, President Abraham Lincoln approved the Statehood Bill for West Virginia on the condition that it would gradually abolish slavery. West Virginia was proclaimed a State on April 20, 1863, with the bill becoming effective sixty days later on June 20, 1863.

"West Virginia Day" became a legal holiday by Chapter 59, Acts of the Legislature, Regular Session, 1927. (Code 2-2-1)

## STATE TREE

The Sugar Maple or ACER SACCHARUM, as it is known scientifically, was made West Virginia's official tree by House Concurrent Resolution No. 12, adopted by the Legislature on March 7, 1949, authorizing a vote by pupils of public schools and civic organizations. It produces an excellent wood for furniture as well as maple syrup. A single tree is 70 to 120 feet high and produces two to three pounds of sugar when "sugared off"; has a five-lobed leaf and produces a small wing-shaped pod.

## STATE BIRD

The Cardinal or RICHMONDENA CARDINALIS, as it is known scientifically, was made West Virginia's official bird by House Concurrent Resolution No. 12, adopted by the Legislature on March 7, 1949, authorizing a vote by pupils of public schools and other civic organizations. The male of the species is a rich scarlet with a mask and shading of black, while the young birds and females are a less brilliant color. The adult bird measures approximately eight inches long. It can be found from New York State to the Gulf of Mexico and as far west as Oklahoma.

## STATE FLOWER

The RHODODENDRON MAXIMUM or "Big Laurel" was made the official State Flower of West Virginia by House Joint Resolution No. 19, adopted by the Legislature on January 29, 1903, following a recommendation by the Governor and a vote by the pupils of public schools. It is a shrub of the heath family and may be recognized by its large evergreen leaves and delicate pale pink or white bloom, mottled with either red or yellow flecks.

## STATE ANIMAL

The BLACK BEAR or EUARTOS AMERICANUS was selected as official state animal of West Virginia by a poll of students, teachers and sportsmen conducted by the Department of Natural Resources in 1954-55 and officially adopted by the Legislature Regular Session 1973, by House Concurrent Resolution No. 6. Only species of bear found in the State. While commonly referred to as the "black bear" its coloring is actually deeply tinted with brown. Its habitat in the state is primarily in the eastern mountain region. A litter usually consists of one or two cubs, rarely three, each weighing about eight ounces at birth. The adult reaches an average maximum weight of 250 pounds.

## STATE FRUIT

The APPLE was designated as the official State Fruit by House Concurrent Resolution No. 56, adopted by the Legislature on March 7, 1972.

## STATE FISH

The **BROOK TROUT** was designated the State Fish by House Concurrent Resolution No. 6 adopted Regular Session, 1973, following a poll of sportsmen who favored the Brook Trout. The brook trout is a native West Virginia species.

## THE ELEVENTH ANNUAL NATIONAL YOUTH SCIENCE CAMP (June-July 1973)

Each June, 100 of the nation's top high school science students arrive in Pocahontas County for the only nationwide science honors camp—the National Youth Science Camp. Sponsored annually by the state of West Virginia, the three-week session honors two high school seniors from each state, selected by their governors on the basis of outstanding achievement and potential in science.

During the 1973 NYSC, campers were exposed to a wide variety of activities—each taught by a visiting authority or an expert member of the resident staff. Guest speakers included Dr. Earl Core, internationally recognized botanist from West Virginia University; Dr. Isidore Adler, project leader for NASA's geophysical mapping of the moon; Dr. Sebastian von Hoerner, radio astronomer from the National Radio Astronomy Observatory; Dr. John Eisele, space physicist with the Naval Research Lab; and Dr. Patricia DeCoursey, marine biologist from Bell W. Baruch Marine Institute at the University of South Carolina.

The lecture program was supplemented by a full schedule of athletic and camping activities and a series of seminars in which campers presented their own scientific research projects. The 1973 delegates also took special trips to Cass Scenic Railroad, nearby National Radio Astronomy Observatory, and Camp Allegheny (a Confederate campsite). The delegates were guests of honor at a Washington luncheon with their United States Senators, hosted by Sen. Jennings Randolph.

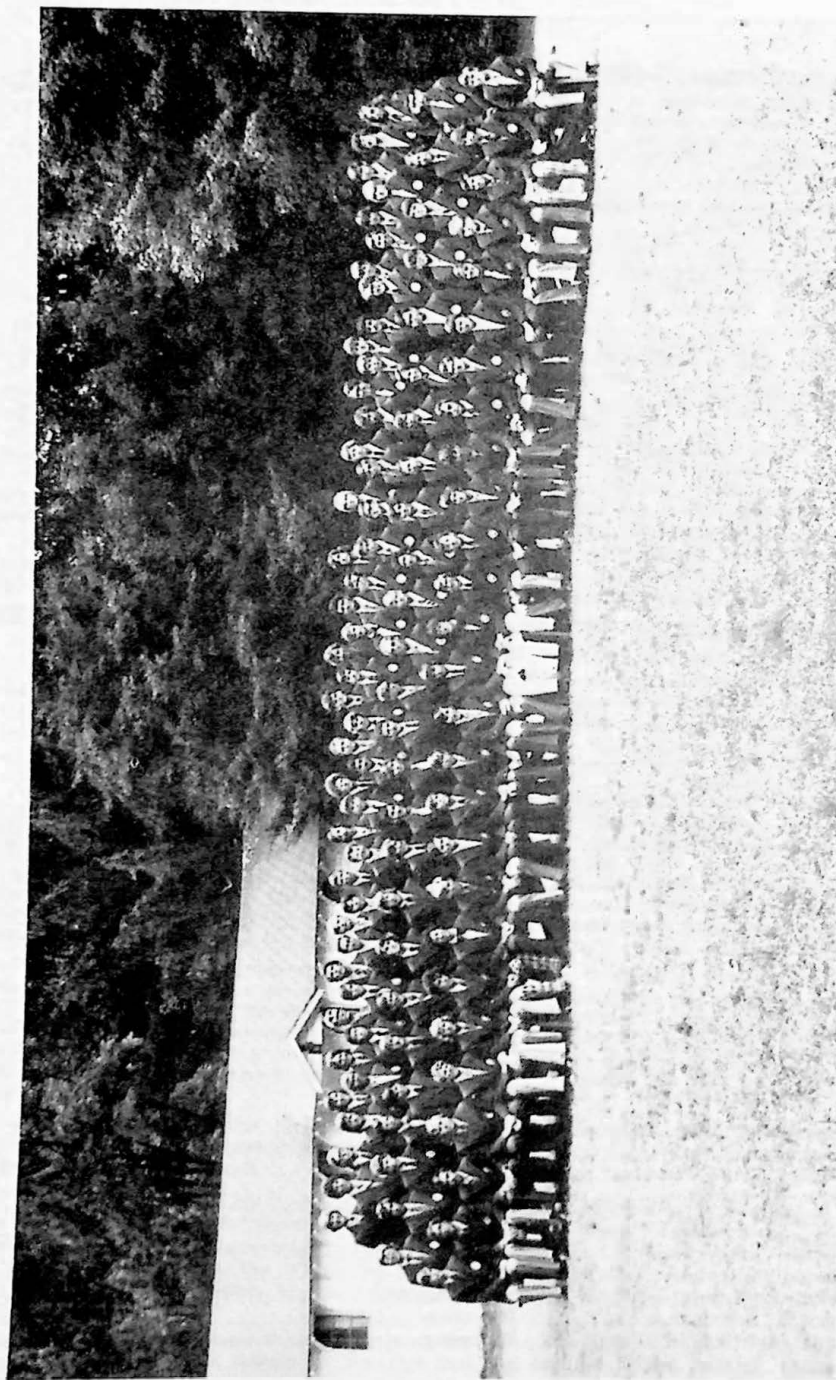

Other in-camp activities included programming instructions on an IBM 1130 computer system, photographic darkroom work, leathercraft, nature study, and painting and ceramics.

In addition to establishing lasting friendships and exploring new fields of science, the campers at the NYSC received new insights into the West Virginia of today, with its industrial and scientific facilities as well as cultural and recreational opportunities. In this way, the NYSC has performed an invaluable service both for the future scientific leaders of the nation and for West Virginia, the sponsoring state.

Indication of the long-lasting admiration for West Virginia and the National Youth Science Camp is shown by the fact that the original NYSC, held in 1963, held a 10-year reunion at the camp's Pocahontas County location. In 1974, the campers attending the 1964 NYSC will also have a 10-year reunion to perpetuate memories and friendships formed at the National Youth Science Camp.

## INLAND WATERWAYS—FEDERAL

(Data furnished by the Department of the Army)

**Ohio River**—Improvement of the Ohio River for navigation, as authorized by Congress in the River and Harbor Act of June 25, 1910, provides for a minimum channel depth of 9 feet in the entire 981 miles of the river by the construction of locks and dams and open channel work. The original system, completed in 1929, and major modifications completed in 1937, resulted in 46 lock and dam structures including the Gallipolis Locks and Dam near Apple Grove.

The Ohio River modernization and replacement program as now planned and under way will reduce the total navigation projects to 19, providing larger locks and deeper pools. New projects adjoining West Virginia include the pool of Greenup Locks and Dam, completed in June, 1964, between Kentucky, West Virginia and Ohio, a proposed improvement of the Gallipolis project, the Racine Locks and Dam near Letart completed for operation in 1970, the Belleville Locks and Dam completed in May, 1969, at Belleville, the Willow Island Locks and Dam under construction at Willow Island, the Hannibal Locks and Dam under construction at New Martinsville, the Pike Island Locks and Dam completed in September, 1965, at Wheeling, and the New Cumberland Locks and Dam completed in September, 1961, near New Cumberland.

**Kanawha River, West Virginia**—Three high-lift dams on the Kanawha River and the Gallipolis Dam on the Ohio River provide a minimum channel depth of 9 feet on the Kanawha River for 91 miles from the mouth to Deep Water. Each Kanawha River dam has twin locks, and the Kanawha Valley Power Company has a hydroelectric plant at each site. The two upstream dams, London and Marmet, were completed in 1934, Winfield Dam in 1937, and Gallipolis Dam in the Ohio River in 1937 as part of the Kanawha River improvement.

**Monongahela River, West Virginia and Pennsylvania**—The existing project provides for improvement of the river by nine locks and dams to afford slack-

water navigation for its entire length from Pittsburgh, Pennsylvania to above Fairmont, West Virginia, a distance of 128.7 miles. The controlling depth is 9 feet and the navigable width varies from 250 feet in the upper reaches to practically the full width of the river at its mouth.

Modernization of the Monongahela River navigation structures in the upper reaches of the waterway in West Virginia is approximately complete. Morgantown, Hildebrand and Opekiska Locks and Dams and modification of Dam 8 have been completed. Proposed replacements for existing Lock 8 and Lock and Dam 7 are now being investigated.

## MULTIPLE PURPOSE LAKES—FEDERAL

(Data furnished by the Department of the Army)

### Completed Projects:

**Bluestone Lake**—The Bluestone Lake, located on the New River near Hinton, was authorized by Presidential executive order in 1935 and approved by Congress in the Flood Control Act of 1936. Construction of the project was begun early in 1942, suspended in 1944 because of the war emergency, resumed in 1946, and completed in June, 1952. The dam, of concrete construction, is 165 feet high and 2,048 feet long. The lake has a capacity of 631,000 acre-feet to serve a drainage area of 4,565 square miles. During periods of low and normal flows in New River, the elevation of the lake varies about 3 feet, with a minimum pool 9.5 miles in length and 1,800 acres in area that utilizes about 30,900 acre-feet of the total storage capacity. The remaining storage capacity is reserved for impoundment of flood flows as required for flood control.

**East Lynn Lake**—East Lynn Lake, located on East Fork of Twelvepole Creek, was authorized by Congress in the 1938 Flood Control Act. Construction of the dam was completed in 1971. Other items of construction for recreational use remain. The dam is an earth-fill with a maximum height of 113 feet and a crest length of 638 feet. The lake provides a maximum capacity of 82,500 acre-feet controlling a drainage area of 133 square miles. A minimum pool with a surface area of 823 acres and a capacity of 11,705 acre-feet will be maintained during the winter while a seasonal pool with a surface area of 1,005 acres and a capacity of 17,190 acre-feet will be maintained during the summer. The remaining storage will be used for flood control.

**Summersville Lake**—The Summersville Lake, located on Gauley River, near Summersville, was started in 1960 and is completed except for some recreational development. The dam is a rock-fill type, with a maximum height of 390 feet and a top length of 2,280 feet and controls a drainage area of 833 sq. miles. It provides a maximum capacity of 390,800 acre-feet of storage for flood water, of which 163,400 acre-feet may be used for low flow augmentation in the Kanawha River in summer. The summer recreation pool is 13.7 miles long and 2,723 acres in area. The project is operated as a unit of a coordinated system for flood protection in the Gauley, Kanawha, and Ohio River Valleys.

**Sutton Lake**—The Sutton Lake, located on the Elk River near Sutton, was authorized by Congress in the Flood Control Act of 1938. Sealing of mine workings at the site was begun in 1949, but work on the dam was not started until 1956. Construction of the project was completed in January, 1961. The dam is of concrete, 210 feet high and 1,178 feet long. The lake has a total capacity of 265,300 acre-feet and controls a drainage area of 537 square miles. A minimum pool 5.9 miles in length, with a surface area of 270 acres and a capacity of 4,100 acre-feet, is maintained during the winter. A seasonal pool with a maximum length of 14.5 miles, surface area of 1,520 acres and storage of 60,100 acre-feet, is maintained for low-flow augmentation and recreation. The remaining capacity is utilized for flood control storage.

**Tygart Lake**—The Tygart Dam, located on the Tygart Valley River 2.25 miles upstream of Grafton, West Virginia, was authorized by the Public Works Administration January 11, 1934, and approved by Congress in the River and Harbor Act of August 30, 1935. The concrete gravity dam is 1,921 feet in length at the

top and rises 230 feet above the river bed. The structure provides for the gross controlled storage of 287,700 acre-feet of water and is operated as a unit in the reservoir system for the protection of Pittsburgh, Pennsylvania and the upper Ohio River Valley. In addition to flood control, Tygart Lake provides for low water discharge regulation annually, by the gradual release of stored spring flood waters during the summer-fall period to assure a river flow of 340 cubic feet per second at Lock and Dam 8, Monongahela River. The storage of approximately 100,000 acre-feet of water is allotted for this purpose.

#### **Projects under construction:**

**Beech Fork Lake**—This lake, located on Beech Fork of Twelvepole Creek, was authorized by Congress in the Flood Control Act of 1962. Construction is scheduled to be completed in 1973. The dam will be of earth fill with a maximum height of 86 feet and a top length of 1,080 feet. The lake will have a maximum capacity of 37,540 acre-feet, controlling a drainage area of 78 square miles. A minimum pool of 4,200 acre-feet with a surface area of 450 acres will be maintained during the winter. A seasonal pool of 9,180 acre-feet with a surface area of 720 acres will be maintained during the summer season for recreation purposes. The remaining capacity will be utilized for flood control.

**Bloomington Reservoir**—The Bloomington Reservoir Project was authorized by Congress in 1962 as a unit of the comprehensive water resource development plan for the Potomac River Basin. The damsite is located in Mineral County, West Virginia, and Garrett County, Maryland, on the North Branch Potomac River about 8 miles upstream from the mouth of Savage River. The dam will be a rolled earth and rock-fill structure with a maximum height of 296 feet and a top length of 2,050 feet. The reservoir will have a capacity of 130,900 acre-feet and will control a drainage area of 263 square miles. The project will provide low flow augmentation, flood control, and recreation. Construction will be initiated shortly after funds are made available by Congress. Local interests are required to pay initial water supply costs and provide assurances for (a) payment of future water supply costs, (b) maintain water quality standards, and (c) prevent encroachment in the channel downstream of the project.

**Burnsville Lake**—The Burnsville Lake, located on the Little Kanawha River, was authorized by Congress in the 1938 Flood Control Act. Construction is tentatively scheduled to be completed approximately five years after construction funds are appropriated by Congress. The earth-fill dam will have a maximum height of approximately 80 feet and a top length of 1,000 feet. It will control a drainage area of 165 square miles with a gross storage capacity of 65,400 acre-feet. A minimum pool containing 4,100 acre-feet of storage and having a surface area of 550 acres will be maintained during the winter. A seasonal pool having a storage capacity of 14,200 acre-feet with a surface area of 968 acres will be maintained in the summer for water quality control, fish and wildlife recreation and general recreation purposes. The remaining storage capacity will be utilized for flood control.

**R. D. Bailey Lake**—The R. D. Bailey Lake, started in 1967 and expected to be completed in 1975, is located on Guyandotte River and was authorized by Congress in the 1962 Flood Control Act. The dam will be of rock and random-fill, 310 feet high and with a length of 1,370 feet. The dam will control a drainage area of 540 square miles, the lake having a total capacity of 203,700 acre-feet. A minimum pool of 22,000 acre-feet with a surface area of 440 acres will be maintained in the winter months. A seasonal pool for recreation and water quality control having a capacity of 34,000 acre-feet and a surface area of 630 acres will be maintained during the summer. The remaining storage capacity will be used for flood control.

#### **Projects under design:**

**Leading Creek Lake**—The Leading Creek Lake project was approved as a substitute for the authorized Steer Creek Reservoir. The lake will be developed to serve the multiple purposes of flood control, water quality control, fish and wildlife, recreation and general recreation. The project is currently in the advanced planning and design stage and is tentatively scheduled for completion

approximately five years after the advanced studies are completed and initial construction funds are appropriated by Congress. The dam will be located on Leading Creek, a tributary to the Little Kanawha River and, as presently contemplated, will control a drainage area of 146 square miles with a total storage capacity of 62,600 acre-feet. The project will be operated as a unit in the comprehensive plan for flood control in the Ohio River Basin.

**Rowlesburg Lake**—The Rowlesburg Lake was authorized by the Flood Control Act of 1965 for the purposes of flood control, water quality control, hydroelectric power production and recreation. The project will be operated as a unit in the comprehensive plan for flood control in the Ohio River Basin; to improve the water quality in the Monongahela and Ohio Rivers; to provide storage for hydroelectric power; and for general and fish and wildlife recreation. The project is currently in the advanced engineering and design stage of development.

The dam will be located on the Cheat River, a tributary of the Monongahela River, at the upstream limits of the Town of Rowlesburg in Preston County. The full pool will extend upstream to the City of Parsons in Tucker County. The dam will be a concrete gravity type structure, 1695 feet long and 271 feet above stream bed, with a pumped storage installation to produce hydroelectric peaking power.

The maximum summer pool elevation for water quality control, hydroelectric power production and recreation will be 1,601 feet above mean sea level with a surface area of 7,175 acres. Gross storage would be 831,700 acre-feet at the lake full pool elevation of 1,632.

**Stonewall Jackson Lake**—The Stonewall Jackson Lake project was authorized by the Flood Control Act of 1966 for the purposes of flood control, water quality control, water supply and recreation. The project, although benefiting primarily the West Fork and upper Monongahela River Basins, will be operated as a unit in the comprehensive plan for flood control in the Ohio River Basin; to improve the water quality in the West Fork, Monongahela, and Ohio Rivers; to provide storage for water supply for the Towns of Weston and Clarksburg, West Virginia; and for general and fish and wildlife recreation. The project is currently in the advanced engineering and design stage of development.

The dam will be located on the West Fork River at Brownsville in Lewis County with the full pool extending upstream to the Towns of Walkersville and Crawford, also in Lewis County. As authorized, the dam would be a concrete gravity structure, 620 feet long and rising 95 feet above the streambed.

The maximum summer pool for water quality control, water supply and recreation will be at elevation 1073 feet above mean sea level with a surface area of 2,650 acres. At the full pool elevation of 1082, the project would provide for the gross storage of 74,700 acre-feet of water.

**West Fork Lake**—The West Fork Lake project was authorized by the 1938 Flood Control Act. The lake will be a multiple purpose development to include flood control, water quality control, fish and wildlife recreation and general recreation. The project is currently in the advanced engineering and design stage and is tentatively scheduled for completion approximately five years after funds are appropriated by Congress.

The dam will be located on West Fork of the Little Kanawha River and, as presently contemplated, will control a drainage area of 237.5 square miles with a total storage capacity of 98,400 acre-feet. The project will be operated as a unit in the comprehensive plan for flood control in the Ohio River Basin.

## LOCAL FLOOD PROTECTION PROJECTS

Completed major flood control projects in West Virginia consist of nine local protection projects. All of these projects except Ridgeley are units in the comprehensive plan for flood control and allied purposes in the Ohio River Basin. The local protection projects have been constructed so that, acting alone, they provide a high degree of flood protection which in most places is equal to protection against the maximum flood of record at the project localities. All local protection projects along the Ohio River will receive supplementary protection

from a coordinated system of reservoirs designed to reduce flood flows on the Ohio River and to contribute to the reduction of floods on the Lower Mississippi River.

This group of completed projects has already made a major contribution toward reduction of flood damages; flood control benefits from their operation being about \$212 million to date.

**Ohio River Projects**—Projects have been completed for Ceredo-Kenova, Huntington, Parkersburg, and Point Pleasant. The projects consist of concrete walls and earth levees to prevent entrance of flood waters, pumping stations to discharge sewage and internal drainage during flood periods, and gated openings through the works to permit unobstructed movement of traffic during normal (non-flood) river conditions. Operation and maintenance are local responsibilities.

**Barboursville Bank Protection Project**—The project consists of repairing and restoring a bank of the Guyandotte River in the vicinity of Water Street in Barboursville, Cabell County. The work consisted of placing dump-rock fill on the right bank of the Guyandotte River for the prevention of erosion, and channel excavation on the opposite bank. Construction was completed in July, 1965, at a Federal cost of \$148,000. Local interests are required to maintain the project.

**Rainelle LPP**—The project consists of 4.2 miles of channel improvement on Meadow River and Sewell and Boggs Creeks, construction of one highway bridge, modification of one railway bridge, and modification of sewage and drainage facilities. The project was completed in 1962.

**Elkins LPP**—The principal elements are a cutoff channel and dikes, located about 1.5 miles above the city, which divert flood flows from the loop of the Tygart River on which Elkins is located. The project was completed in 1949.

**Princeton LPP**—Principal features of the protection works are 3.9 miles of channel improvement along Brush Creek, construction of one railroad bridge and extension of another, construction of two highway bridges, and 0.3 mile of railroad relocation. The project was completed in 1961.

**Ridgeley, West Virginia, and Cumberland, Maryland**—Ridgeley, in Mineral County, is located on the south bank of the North Branch Potomac River, opposite the city of Cumberland, Maryland. Protective works for these communities include about 3.3 miles of channel improvements on the North Branch and its tributary, Wills Creek, supplemented by a system of earth levees and concrete floodwalls. The project includes three pumping stations with related interior drainage facilities, eight pressure conduits totaling 11,200 feet in length, and an industrial water-supply dam. Three highway bridges and a railroad bridge were reconstructed. The project was completed in 1959. Additional channel improvement on the North Branch Potomac River was completed in 1964.

**Williamson LPP**—The project consists of 2,315 feet of concrete wall along the Tug Fork of Big Sandy River, one pump station, and 16 gated openings. The project was completed in 1963.

**Local Protection Works under Special Continuing Authorities**—Small flood control projects under authority provided to the Corps of Engineers by Section 205 of the Flood Control Act of 1948, as amended, include channel improvement work completed along the North Branch, Potomac River at Blaine and Bayard; along Middle Fork of Mud River in the Griffithsville-Yawkey area; and work proposed for Parsons, Hambleton and Hendricks on Cheat River. Projects under the authority provided to the Corps of Engineers to snag and clear streams in the interest of flood control by Section 208 of the Flood Control Act of 1954 include projects completed at Bramwell, and Montcalm on Bluestone River; Cairo on North Fork of Hughes River; Colliers on Harmon Creek; Huntington on Fourpole Creek; Jacksonburg, Pine Grove, and Smithfield on Fishing Creek; Richwood on Cherry River; Stonewood and Nutter Fort on Elk Creek; West Union on Middle Island Creek; Weston on Polk Creek and Stonecoal Creek; Wyatt on Bingamon Creek and additional work is approved for Berwind on Dry Fork in McDowell County and Pax on Paint Creek in Fayette County.

## DRIVER IMPROVEMENT PROGRAM

(Point System)

West Virginia's Driver Improvement Program, as administered by the Department of Motor Vehicles, is designed to eliminate the chronically careless driver from the state's highway system.

Under the program "points" are assigned to those convicted of various moving traffic violations. Conviction notices are forwarded to the Department of Motor Vehicles, which maintains each individual's driving record and statistics.

An operator receiving a total of 6 points is sent a warning letter by the Department, outlining the need for more careful driving. Individuals reaching the 9 to 12 point level are required to appear before a Department Reviewing Officer, at which time the most serious cases are subject to suspension of their operator's privileges.

## STATE PARKS—WEST VIRGINIA'S VACATION BONANZA

State Parks are a literal bonanza of outdoor opportunity for West Virginians. Established in 1929 with the opening of Droop Mountain Battlefield as an historic area, they have expanded to become national leaders in state development of recreation lands for both citizen and tourist alike.

Mountain State parks were developed, along with those of other surrounding states, by the old Civilian Conservation Corps (CCC) in the 1930's. Supervision and design was provided by the National Park Service. In 1935 construction was well under way on new parks at Cacapon, Watoga, Lost River, Babcock, and other locations. These were the first vacation parks, featuring log cabins with stone fireplaces, swimming, horseback riding, hiking, and game courts.

The public flocked to these new parks, and filled the cabins almost from the day they opened. The log, or standard, cabins continue to be a popular facility today with many families insisting they are the most rustic yet comfortable of all park facilities.

Following World War II, park facilities continued to expand, while most other states left theirs in a condition approximating the days when they were built.

In the 1950's, the first revenue bond program of park expansion was undertaken. Money to build the new structures was borrowed on the pledge of return from rental fees earned at the parks.

From this program, Blackwater Falls was developed from a rugged wilderness into a year-round park that is long accepted as the most popular state park. The new 55-room lodge and 25 year round cabins were constructed along with extensive public recreation facilities. The 50-room lodge at Cacapon, a 55-room facility at Mont Chateau, and dozens of deluxe year round cabins at Tygart Lake, Bluestone, Watoga, and Lost River were added to help fulfill rental demand.

By 1961, complete renovations of the standard log cabins was well underway, adding modern kitchens and completely new baths to these popular units. State forest cabins were also upgraded to a par with those in parks.

In 1963, Federal and State officials met to consider the stimulation of private development of recreation facilities in West Virginia. Their suggestion was a dramatic series of new park facilities, designed to demonstrate to the private sector of the economy that recreation and tourism was good business. This 33 million dollar expansion (commonly known as "State Parks for the 1970's"), most of the cost of which will be repaid by user fees, was to eventually add three new state parks to the system and to make substantial improvements at three others.

The first program to be completed was at Grandview, near Beckley, where park roads were paved and substantial recreation and picnic facilities installed. This was in preparation for the crowds already flocking to Grandview for the outdoor drama "Honey in the Rock".

Nearly \$800,000 was invested at the Cass Scenic Railroad in Pocahontas County for a total rehabilitation of the old tracks and roadbed, a new overlook atop the second highest peak in the state, a 300-car parking lot at Cass, and upgrading of the Cass depot. This money was borrowed and will be repaid through income from sale of tickets to ride the Old Shay Logging Trains to Bald Knob and Whittaker Station.

Hawk's Nest, one of the most spectacular views of the New River Gorge, is one of the state's most popular parks, and long boasted the highest attendance figures. A 31-room lodge, opened in 1967, was the first major accommodation finished in the new program. New overlooks at Lovers Leap complemented the quarter-century-old main overlook. At the bottom of the gorge, on lands leased from Union Carbide Corporation, a marina, boatdock and snack bar were constructed to bring public recreation to the huge lake created by Hawk's Nest Dam.

A 446-foot vertical drop aerial tramway, the state's first, was opened April 4, 1970 as the final Hawk's Nest development. The 1,066-foot-long tram takes 2 minutes to make a one-way trip from the lodge atop Lovers Leap to the canyon floor. Already being swamped by public demand, the tramway seems to be one of the most popular facilities in the state park system.

Pipestem Resort, crown jewel of the park system, opened fully in 1970. Breath-taking in almost every dimension, Pipestem is located on a rolling plateau overlooking the rugged Bluestone River Gorge, near Hinton and Princeton. Many observers have said "Pipestem must be visited to be believed", referring to the scope of the most extensive state park development yet undertaken in the state, or anywhere in America.

Two lodges, a main 113-room facility overlooking the canyon, built in seven separate levels; and Mountain Creek, a secluded 30-room building at the bottom of the deep chasm, provide the ultimate in outdoor recreation comfort. 25 deluxe vacation cottages are grouped in three areas. The park's aerial tramway system, linking Mountain Creek Lodge with the Visitor Center atop the canyon rim, is a major installation that provides total service to the riverside lodge. Although an emergency truck road exists, the tramway provides the only normal access to the Mountain Creek installation—a natural method of getting away from it all!

An 18-hole championship golf course and 9-hole par-three course are among the nation's finest. The main golf clubhouse is complete in all respects and keynotes golfing as a major development system-wide in state parks.

The Pipestem recreation center features a 200-seat cafeteria, olympic swimming pool, indoor recreation rooms, dining room, ice skating rink, and nearby 550-seat outdoor amphitheater.

The visitor center, in addition to servicing the tramway system, is headquarters for the park's year-round naturalist and recreation program, and features a native art and craft sales area, country store, and art and craft production, demonstration, and teaching facility.

An overlook tower atop Pipestem Knob, highest peak in the vicinity, riding stable, 50-unit completely equipped campground, championship archery range with clubhouse, park headquarters and information center, and several spectacular roadside overlooks highlight remaining facilities at Pipestem.

Twin Falls, near Pineville and Mullens, is the state's first year-round vacation park in the southern highlands. First class in all respects, and of a design similar to Pipestem and Hawk's Nest, Twin Falls features a twenty-room lodge atop a hill overlooking Mill Creek Valley. The park's 9-hole regulation golf course is strung out along the creek, making it challenging yet enjoyable to play. A recreation center-golf clubhouse is located near the lodge and beside the golf course offering full recreation opportunities.

Thirteen resort vacation cottages, completely equipped for housekeeping, as are all park cabins and cottages, are located on a forested hilltop across from the lodge.

Canaan Valley State Park features one of the finest 18-hole championship golf courses in the east and 15 resort cottages. This remote valley, near Davis and

Blackwater Falls State Park, is unique in that the floor of the valley exceeds 3000 feet in elevation, with surrounding 4000-4500 foot peaks.

A 2.5 million dollar winter sports complex began operations in 1971.

The ski center, with restaurant, proshop, rental facilities, ski patrol offices, lounge, first aid station, and all first-class ski accommodations services two double-chair ski lifts. Miles of trails for intermediates, beginners, or skilled skiers, will be serviced by artificial snow-making equipment, said to assure the park of a 75-80 day yearly ski season competitive with other east-coast ski centers. A modern 100-room lodge is planned for future development.

The present lack of overnight accommodations at Canaan Valley will place a temporary strain on the Blackwater Falls-Davis region, but the new park should also place West Virginia on a par with Vermont or New Hampshire as a winter sports mecca.

The Mountain State provides just about any type of outdoor recreation opportunity desired today. As a source of pride to West Virginians, state parks cater to over five million persons each year with the best in parkland facilities for whatever taste you have. Explore West Virginia first!

#### Monongahela National Forest

##### Headquarters: Elkins

Monongahela National Forest was proclaimed by President Woodrow Wilson on April 28, 1920, under the Weeks Law. This law of 1911 provides for the cooperation by states with the United States, and the protection of watersheds of navigable streams. In West Virginia, the national forest was established for flood protection in the Ohio and Potomac River valleys. It is one of a system of 154 national forests and the only national forest wholly in West Virginia. The Clark-McNary Act of June 7, 1924, broadened the objectives to provide for reforestation and production of timber. The Multiple Use Act of June 12, 1960, provides that National Forests shall be managed for outdoor recreation, range, timber, watershed, hunting and fishing.

The public forest is dedicated to the protection, development, and management of all its resources for the greatest good to the greatest number.

Within the proclaimed boundary there are 1,647,146 acres of which 829,740 acres are owned by the United States. Directly in charge of the national forest is the Forest Supervisor. In the national forest are six ranger districts, each administered by a district ranger.

Counties in the National Forest and their current acreage in National Forest ownership are:

Grant .....	15,793	Pocahontas .....	283,353
Greenbrier .....	100,163	Preston .....	3,897
Nicholas .....	23,522	Randolph .....	174,832
Pendleton .....	68,218	Tucker .....	93,837
		Webster .....	64,727

The National forest is administered in cooperation with several conservation agencies, including the West Virginia Department of Natural Resources. Twenty-five per cent of receipts from the sale of timber and other products and use fees is returned to the nine national forest counties for schools (80%) and roads (20%).

## OIL AND GAS DEVELOPMENTS IN WEST VIRGINIA IN 1972

Douglas G. Patchen, West Virginia Geological Survey

Drilling in 1972 resulted in a 13.1 percent decrease in the number of total completions (Table I). Deep well completions decreased by 44.2 percent. Exploratory completions, however, increased 21.7 percent. The 83 exploratory completions included 31 new-field wildcats (9 successful), 3 new-pool wildcats (all successful), 13 deeper-pool tests (5 successful), 35 outposts (17 extensions) and one dry shallow-pool test. One of the unsuccessful deeper-pool tests was completed as a development well.

Wells were completed in 40 of West Virginia's 55 counties as most drilling trends remained active. The 768 total completions included 478 gas wells, 42 oil wells, 100 combination wells, 115 dry holes, and 33 miscellaneous wells (water injection, gas storage, and waste disposal). Walton was the most active oil field and Murphy Creek (Freemansburg) was the most active gas field.

After a 5 year period in which the Upper Silurian Williamsport (Newburg) Sandstone was the most sought-after deep pay, the Lower Devonian Oriskany Sandstone again became the number one deep target. This was due to a 71.3 percent decrease in Newburg completions as most of the existing fields became fully developed. Five exploratory wells, all in Jackson and Wood Counties, found gas in the Newburg as drillers attempted to extend both ends of the linear Newburg trend in Jackson County toward Wood and Mason Counties. Gas was also reported in the Newburg in a Mason County wildcat. A final completion report for this well had not been received by year's end.

Although 32 wells were completed in the Huntersville-Oriskany interval, 10 were for gas storage in Terra Alta Field, Preston County, and an eleventh was for salt water disposal in this same field. Oriskany gas discoveries were made, however, in Jackson, Lewis, and Wood Counties, and Huntersville gas discoveries were made in Gilmer and Lewis Counties. Eight of the 11 exploratory wells which tested the Huntersville and Oriskany discovered gas. The most active area is in Lewis County where deeper pools in both these formations are being developed in Murphy Creek (Freemansburg) Field.

Early in 1972 a Tuscarora gas discovery was made in Tucker County. Two offset wells, however, were dry. Late in 1972 drilling began at another Tuscarora wildcat, this one in Preston County. The well was completed early in 1973 with a gas flow of 11,383 MCFGPD. An offset is being drilled in Monongalia County.

The most interesting well completed in 1972 was the Mingo County Basement test completed by Columbia Gas at a total depth of 19,537 feet. This well is now the deepest ever drilled in the northeast United States surpassing the old record of 18,834 by a Consolidated Gas Supply well in Potter County, Pennsylvania. The old West Virginia record was 17,119 by Phillips Petroleum in Marion County.

Although the Mingo County well failed to find gas in commercial quantities and has been plugged and abandoned, Exxon Corporation, a partner with both Columbia and Consolidated in deep gas exploration, has begun two 20,000 foot basement tests in Lincoln and Calhoun Counties. Both wells will test the Cambrian and Ordovician carbonate sections, as well as the thick Cambrian sandstones which hopefully will be developed in the Rome Trough.

Even though the ultra-deep wells attracted everyone's attention in 1972 and early 1973, the vast majority of completions (91.3 percent) were made in shallow formations in 1972. The Mississippian Big Injun sand was again the main target followed by the Benson, Weir, and Berea (Table II). Although no new Benson discoveries were made in 1972, the entire Benson trend remained active. No Berea discoveries were made either, but 6 Weir discoveries were made, all in southern West Virginia.

Oil production decreased 11.6 percent in 1972 (Table III) as oil well completions decreased 64.1 percent. Gas production also decreased (7.9 percent) as gas well completions decreased (8.7 percent). Average production figures for 1972 were: Oil wells, 13 BOPD; gas wells, 1467 MCFGPD; and combination wells, 12 BOPD and 498 MCFGPD. The price paid for Penn Grade Crude was raised to \$4.06/bbl in 1972. The well head price of interstate gas was increased from \$0.32 to \$0.45/MCF.

## COLLECTION OF REVENUE

### COLLECTION OF BUSINESS AND OCCUPATION TAX, CARRIER INCOME TAX, AND CORPORATE NET INCOME TAX

The Business and Occupation Tax, Chapter 11, Article 13, West Virginia Code of 1931, as amended, is a tax levied for the privilege of engaging in business in West Virginia. The tax is measured by the application of rates against values of products, gross proceeds of sales, or gross income according to the classification of the business activity in which the taxpayer is engaged. Despite the commonly applied erroneous name, "Gross Sales Tax", it is not a sales tax. Neither is it a transaction tax in the sense that once it is paid on a particular article or service or activity it need not again be paid. It is not, strictly speaking, an income tax, although in most instances, the gross income is the *measure* of the tax. Under the production of manufacturing classifications the measure of the tax is the value of the article produced or manufactured as shown by the gross proceeds derived from the sale thereof, provided the proceeds of sale are indicative of the true value of the article. If more than one person engages in a single activity or transaction, as in the case of the contractor and sub-contractor, each must pay a tax measured by his entire income regardless of the tax paid by the other.

The business classifications under the Business and Occupation Tax Law are as follows:

A. Production of Coal and Other Natural Resource Products. The tax is measured by the value of the articles mined or produced as shown by the gross proceeds derived from the sale thereof by the producer, the rates being applied against the value of the entire production in West Virginia, regardless of the place of sale or the fact that deliveries are made to points outside the State.

Coal .....	\$3.50 per \$100.00
Sand, gravel, or other mineral products not quarried or mined; oil, blast furnace slag .....	\$4.34 per \$100.00
Natural gas (exemptions include deduction of \$5,000 annually) ....	\$8.63 per \$100.00
Limestone or sandstone quarried or mined; and timber .....	\$2.20 per \$100.00
Other natural resource products .....	\$2.86 per \$100.00

B. Manufacturing, Compounding or Preparing for Sale. The tax is measured by the value of the articles manufactured, compounded or prepared for sale in West Virginia, as shown by the gross proceeds derived from the sale thereof by the manufacturer or person compounding or preparing the same. The rate, 88 cents on each \$100.00 value, applies against the value of the entire production in West Virginia, regardless of the place of the sale or the fact that deliveries are made to points outside the State.

C. (1) Business of Selling Tangible Property at Retail. There is levied a tax of 55 cents on each \$100.00 of gross income, as defined by the statute, for this type of business.

(2) Business of Selling Tangible Property at Wholesale. There is levied a tax of 27 cents on each \$100.00 of gross income, as defined by the statute, for this type of business.

D. Public Service or Utility Business. The tax rates set forth hereinbelow are levied on the gross income of the following businesses:

Street Interurban and Electric Railways .....	\$1.40 per \$100.00
---	---------------------

Electric Light and Power Companies (sales) and demand charges, domestic purposes and commercial lighting .....	\$5.72 per \$100.00
Water Companies .....	\$4.40 per \$100.00
Electric Light and Power Companies (all other sales and demand charges) .....	\$4.29 per \$100.00
Natural Gas Companies: Toll Bridges .....	\$4.29 per \$100.00
Other Public Utilities—(Except telegraph and telephone companies, railways and other transportation companies) .....	\$2.86 per \$100.00

E. Contracting. There is levied a tax of \$2.20 on each \$100.00 of gross income, as defined by the statute, for this type of business.

G. Amusement. There is levied a tax of 71 cents on each \$100.00 of gross income, as defined by the statute, for this type of business.

H. Service Business or Calling Not Otherwise Specifically Taxed. There is levied a tax of \$1.15 on each \$100.00 of gross income, as defined by the statute, for this type of business.

I. Business of Furnishing Property for Hire. There is levied a tax of \$1.15 on each \$100.00 of gross income, as defined by the statute, for this type of business.

K. Banking and other Financial Institutions. There is levied a tax of \$1.15 on each \$100.00 of gross income, as defined by the statute, for this type of business.

An annual exemption of \$50.00 is provided under the Business and Occupation Tax Law for each person, as defined by the statute, engaged in business in the state.

The West Virginia Carrier Income Tax ch. 11, art. 12A, West Virginia Code of 1931, as amended, is an annual tax on incomes of certain carriers. This article repealed the former "privilege tax on certain carrier corporations" and is imposed on every motor vehicle carrier operating on the public highways of this State and every railroad car carrier, railroad carrier, express company, pipeline company, telephone and telegraph company, airline company and any person operating a steamboat or other watercraft, for the transportation of passengers or freight, doing business in the State. The law provides that the foregoing taxpayers shall pay to the State an annual tax for each calendar year. This tax shall be equal to the gross income from all business beginning and ending within the State.

In addition to the tax imposed on gross intrastate income, the tax is imposed on the net income earned within the State.

The business classifications and respective rates are as follows:

	Gross Income Intra-State Rate	Pro-Rated Net Income Rate	
Buses .....	\$3.30	\$6.60	Per \$100
Buses (Urban or suburban not exceeding 40 miles one way) .....	\$1.65	\$5.00	Per \$100
Taxis, Refuse and Garbage .....	\$2.50	\$5.00	Per \$100
Truckers and transfer companies .....	\$3.30	\$6.60	Per \$100
Other motor vehicle carriers, railroad car corporations, express corporations or companies .....	\$3.30	\$6.60	Per \$100
Telephone corporations .....	\$3.74	\$3.74	Per \$100
Telegraph corporations .....	\$3.30	\$6.60	Per \$100
Pipeline corporations .....	\$3.30	\$6.60	Per \$100
Persons or corporations operating a steamboat, steamship or airline .....	\$3.30	\$6.60	Per \$100
Railroad corporations .....	\$3.30	\$6.60	Per \$100

The West Virginia Corporate Net Income Tax ch. 11, art 24, West Virginia Code of 1931, as amended, is a conformity statute which imposes a tax on the net income of corporations and similar business organizations at the rate of six per centum. This being a statute, correlated to the Federal Internal Revenue Code, as amended to 1967, it will simplify preparation of state corporation net income tax returns by taxpayers, improve enforcement and aid interpretation of the law through increased use of federal judicial and administrative determinations and precedents.

The tax is paid in four equal installments, the taxpayer preparing an annual declaration of estimated tax and reconciling the same through the filing of an annual return. The due date of the declaration is the fifteenth day of the fourth month of the tax year. The following quarterly payments are due on the fifteenth day of the sixth, ninth and twelfth months of the taxable year. The annual return is due on the fifteenth day of the third month following the close of the taxable year.

## FOOD, NUTRITION PROGRAMS

The Division of Food, Nutrition Programs has responsibility for the operation of the Donated Foods Program and the Food Stamp Program. Both programs administered through this Division are joint undertakings with the United States Department of Agriculture.

The distribution of donated foods is accomplished on a statewide basis to all 55 county school boards and, in addition, many parochial schools participate. In addition to schools, state institutions, hospitals, senior citizens centers, day care centers, summer camps and Head Start Programs receive the federal food.

The variety of donated foods has increased to a total of 21 items which include frozen chicken and turkeys, butter, flour, dry milk and canned fruits and vegetables.

There were approximately 140 youth summer camps participating in the Program with approximately 21,000 children benefiting from those activities.

The Division of Food, Nutrition Programs received, unloaded and distributed 191 cars of donated foods during the 1972-73 fiscal year, and the distribution to the State's 55 counties amounted to a total of \$3,841,954.00, in wholesale value of the food items. Benefiting from this food were 240,000 school children in public and private schools; 3,256 pre-school children in 47 day care centers; 339 children in residential centers; and 6,537 adults in 46 institutions and hospitals.

A change in the Food Stamp Program regulations in November, 1971, resulted in a revision in the amount of bonus coupons made available to all households. Previously a one-member household with an income of \$100.00 paid \$18.00 and received a total of \$28.00 in food coupons. The same person now pays \$18.00 and receives a total of \$36.00 in food coupons. An eight-member household with an income of \$165.00 paid \$50.00 and received \$180.00 in food coupons, but under the new policy the household pays \$45.00 and receives \$192.00. In addition, the monthly allowable income schedule which is used to determine household eligibility, was increased. Formerly, a one-member household could have a net monthly income of \$150.00 and remain eligible for participation in the program. Now this household may have an income up to \$178.00. The allowable income for an eight-member household was increased from \$415.00 to \$640.00. This change has enabled many more low income households to become eligible for participation in the Food Stamp Program.

Nutrition continues to be an important part of the Food Stamp Program. The Department of Welfare works closely with the Bureau of Nutrition, State Department of Health and the West Virginia Extension Service, in getting nutrition education to all interested individuals. Nutrition aides have been active in most counties within the State in the areas of food buying, meal planning and stretching the food dollar. The interest of church groups and other organizations in nutrition throughout the State has been encouraging as several of these groups have chosen nutrition as their yearly projects. Contributions of these organizations at the local level are immeasurable at this time.

The Department of Welfare continues to utilize the services of banking institutions and the United States Postal Service as a means of issuing the food coupons to eligible households.

The following statistics reflect the average number of households participating in the program for the fiscal year, July, 1972, through June, 1973:
