## State Funding of Volunteer and Part Volunteer Fire Departments

Every year, the State distributes millions of dollars to hundreds of West Virginia volunteer and part volunteer fire departments (VFD) for the purpose of providing funding for firefighting equipment, training, and maintenance. Established by W.Va. Code §33-3-33 and collected by the Insurance Commission, one source of the money is a 0.55 percent surcharge imposed on fire and casualty insurance policies issued in West Virginia. Also, W.Va. Code §33-3-14d established an additional premium tax equal to one percent of taxable premiums on fire insurance, and casualty insurance policies to be collected by the Insurance Commission. Finally, W.Va. Code §29-3E-7 created a fireworks safety fee of 12 percent of all retail sales of consumer fireworks in the State. All money collected from the surcharge established in W.Va. Code §33-3-33, as well as 25 percent of the amount collected from the additional premium established in W.Va. Code §33-3-14d and 25 percent of the amount collected from the fireworks safety fee established in W.Va. Code §29-3E-7 comprises the Fire Protection Fund. The amount collected annually is subsequently distributed among qualifying departments through quarterly payments<sup>1</sup>. These funds are to be used on specific items outlined in W.Va. Code §8-15-8b, such as protective equipment, rescue equipment, certain utilities for the fire stations, fire fighter training costs, insurance on buildings and automobiles, fuel, and workers' compensation premiums. Table 1 below shows the amounts distributed and the number of departments that benefited from these distributions over the last eight years.

*Data Obtained from W.Va. State Treasurer's Office website.*  
 \*A VFD may lose its quarterly distribution if specific conditions are not met, such as not filing bank statements and check images for the previous calendar year for its state bank account(s) with the Legislative Auditor's Office, not cooperating with an audit, having monetary findings from an audit, being out of compliance with the State Fire Marshal, or being out of compliance with a DHHR grant.

In addition, it should be noted that the amount of each fire department's quarterly allotment distributed by the W.Va. State Treasurer's Office varies depending on whether the fire department is a fully-volunteer department or a part volunteer department. Further, the amount distributed to a part volunteer department varies based upon a calculation made by the State Treasurer's Office with information from the Municipal Pensions Oversight Board.

<sup>1</sup> Part volunteer fire departments, departments that are not entirely comprised of volunteer firefighters and have some members who are compensated for their service, receive a pro-rated portion of funds determined by the State Treasurer's Office based on information from the Municipal Pensions Oversight Board.

By February 1st, all departments are required to file copies of the bank statements, and check images for their state bank account(s) for the previous calendar year with the Legislative Auditor's Office. In December 2021, the Post Audit Division mailed a letter to each of the departments to remind them of the deadline and instructions on how to file the required documents.

The Legislative Auditor is granted the authority to withhold a department's state funding if the department fails to meet certain requirements stipulated in W.Va. Code. Scenarios that would cause a department to have its funding withheld include the following:

- If an audit of a department results in monetary findings, such as for expenditures not allowed by W.Va. Code §8-15-8b and/or expenditures not properly supported by a receipt or invoice;
- If a department fails to cooperate with an audit by not providing documents such as bank statements or invoices;
- If a department fails to respond to the Legislative Auditor's correspondence; and/or
- If a department does not file bank statements and check images for its state bank account(s) for the preceding year by April 1<sup>st</sup>.

Additionally, the State Fire Marshal also has the authority to withhold a department's state funding if the department fails to meet the standards of the State Fire Marshal. Funds withheld from non-compliant VFDs are held in escrow.

After one year of non-compliance, a department forfeits one quarter of its funding for each quarter it remains non-compliant. For example, if a department became non-compliant due to not filing its bank statements and check images by April 1, 2021, and remained non-compliant for the entire year, it would lose its first quarterly distribution that was withheld from the April 1, 2021, funding on April 1, 2022. If the department was still non-compliant at the beginning of the next quarter, it would lose the next quarterly distribution that was withheld and so on, until it became compliant. Funds forfeited by non-compliant VFDs are paid by the State Treasurer into the Fire Service Equipment and Training Fund created in W.Va. Code §29-3-5f.

W.Va. Code §12-4-14b grants the Legislative Auditor the authority to conduct audits of the state funding received by VFDs. An audit determines if the department has maintained its state money in a separate account and has spent the money on allowable items. The audit is limited to a review of the bank account in which the department deposits its state funds, commonly referred to as the departments "state account." There are three typical findings that can result from the VFD audits:

- Unallowable Expenditures (when the money is spent on items not allowed by Code);
- Lack of Supporting Documentation (when the VFD has not provided a proper invoice, receipt, or other documentation to support its assertion that an expenditure is allowable and for the benefit of the department); and
- Commingled Funds (when the VFD has mixed state funds with funds from other sources such as by transferring funds from its state account to its non-state or "general" account, thereby making it difficult to trace the money).

When the Legislative Auditor determines a volunteer or part-volunteer company, or department has used formula distributions or equipment and training grant money for purposes not

authorized, the Legislative Auditor gives a written notice of non-compliance to the company or department. If a volunteer or part-volunteer fire company or department disagrees or disputes the finding, it can contest the finding by submitting a written objection within five working days. The department or company shall then have 60 days from the date of the Legislative Auditor’s finding notification to provide any additional documentation for the Legislative Auditor to consider before finalizing the audit findings and withholding any funds due to non-compliance.

## Objective

The objective of the audit of volunteer fire departments is to evaluate compliance with W.Va. Code §8-15-8b which states, in part:

***Authorized expenditures of revenues from the municipal pensions and protection fund and the fire protection fund.***

*Funds received from the state for volunteer and part volunteer fire companies and departments, pursuant to sections fourteen-d and thirty-three, article three, and section seven, article twelve-c, all of chapter thirty-three of this code, **may not be commingled with funds received from any other source.***

*Revenues allocated to volunteer and part volunteer fire companies and departments **may be expended only for the items listed in subdivisions (1) through (15) of this section**<sup>2</sup>. (Emphasis Added)*

Some audits were conducted for years prior to 2021, because they were holdovers from a prior sample selection but not completed during that year. Therefore, they were carried over and completed in 2022. Finally, a subset of the audits was conducted for multiple years due to assessed risk.

## **Methodology**

Post Audit management examined data from previous audits and identified potential indicators for a high-risk of non-compliance. The generalized categories associated with a high assessed level of risk include:

1. Departments that had not had an audit;
2. Departments that had not had a recent audit;
3. Departments that had an audit with large discrepancies; and
4. The Department was delinquent in financial filings.

Additionally, we considered other factors such as communication of possible concerns from members of the Legislature and the general public. The VFD Auditor begins with the department with the highest assessed level of risk and proceeds down the list completing as many departments as possible. Then the risk assessment is updated, and the process begins again with a new list in January of the next year. Any audits that remain incomplete from the preceding year are completed prior to beginning audits from the new list.

## Summary of 2022 VFD Audits

Of the 86 volunteer and part volunteer fire departments that were audited, 50 were not in compliance with W.Va. Code. Table 2 groups these 50 non-compliant departments into categories of findings.

## ALDERSON VOLUNTEER FIRE DEPARTMENT

The Alderson VFD, in Greenbrier County, **was not in compliance with W.Va. Code.**

The total amount of \$2,269.27 not in compliance with W.Va. Code was for expenditures not permissible under W.Va. Code §8-15-8b. Items or services the Department purchased that are not permissible included: late charges.

The Department began with a balance of \$45,476.27 in its state account on January 1, 2021. During the period audited, the Department received \$49,737.14 in quarterly allotments disbursed by the W.Va. State Treasurer and earned interest totaling \$20.95 on the state account. Thus, the total amount of funds audited for the period was \$95,234.36.

The Department's financial activity in the state account during the audit period, including amount audited, accounted for, and not in compliance with W.Va. Code, is summarized in the table below.

Pursuant to W.Va. Code §8-15-8b(b) the Legislative Auditor formally notified the W.Va. State Treasurer to withhold a total of \$2,269.27 from the Department's future quarterly distribution(s) for the expenditures found to be not in compliance with the provisions of W.Va. Code §8-15-8b.

Additionally, the Legislative Auditor made the following recommendation(s) to the Department:

1. The Legislative Auditor recommended the Department cease expending monies from the state account for items or services not permitted by W.Va. Code §8-15-8b(a).

The findings and recommendations detailed above have been reviewed and discussed with the Alderson VFD. The Department is in the process of complying with the recommendations.

## BANCROFT VOLUNTEER FIRE DEPARTMENT

The Bancroft VFD, in Putnam County, **was not in compliance with W.Va. Code.**

The Department commingled \$20,143.05 in state funds with funds from other sources by making a withdrawal of \$10,000.00, receiving a \$10,000.00 automatic distribution from the state, and made an unallowable deposit of \$143.05. It should be noted that the Department was able to provide adequate supporting documentation for the \$10,000.00 in checking withdrawals.

The \$10,000.00 automatic distribution from the state resulted in commingling of the state bank account. This was not the fault of the Department. After the conversion to wvOASIS, state fund disbursements are made as electronic fund transfers, and the lack of paper checks creates the inability to simply deposit a check to another account. Departments are required to register an account with the state to receive the quarterly distributions, and that account is designated as the state account. However, this may also result in the state making deposits of funds from other sources into those accounts as they are the only account that the departments have registered with the state to receive funds. While the funding itself is not a cause for concern, this practice results in an immediate violation of W.Va. Code as it is currently constructed. This affected all departments that received this \$10,000.00 distribution of CARES Act funds from the Governor, which was deposited into the state accounts of the VFDs as this was the only account the departments held with the state to receive such a mass distribution of funds.

The Department began with a balance of \$48,085.48 in its state account on January 1, 2020. During the period audited, the Department received \$53,510.76 in quarterly allotments disbursed by the W.Va. State Treasurer, received an additional deposit of \$10,000.00 from the State Treasurer's Office, earned \$62.86 in interest, made a transfer of \$10,000.00, and made allowable additional deposits of \$958.69. Thus, the total amount of funds audited for the period was \$112,760.84.

The Department's financial activity in the state account during the audit period, including amount audited, accounted for, and not in compliance with W.Va. Code, is summarized in the table below.

<b>Table 42 – BANCROFT VFD State Funds Audited- Calendar Year 2020</b>

<b>Total Expenditures</b>		<b><u>\$60,708.26</u></b>
<b>Balance Remaining in State Account</b>		<b><u>\$52,052.58</u></b>

The Legislative Auditor made the following recommendations to the Department:

1. The Legislative Auditor recommended the Department cease withdrawing state funds from its state bank account.
2. The Legislative Auditor recommended that the most practical solution to the Department's automatic commingling issue would be for the Legislature to modify W.Va. Code to stipulate that departments which receive state funds into the state account that are not from a funding source authorized in W.Va. Code §8-15-8b(a) be allowed to transfer those funds out in a lump sum transaction totaling the full amount of the fund deposit within 60 days of receipt of those funds without penalty.

The findings and recommendations detailed above have been reviewed and discussed with the Bancroft VFD. The Department is in the process of complying with the recommendations.

## BENWOOD VOLUNTEER FIRE DEPARTMENT

The Department began with a balance of \$50,578.80 in its state account on January 1, 2021. During the period audited, the Department received \$49,737.14 in quarterly allotments disbursed by the W.Va. State Treasurer. Thus, the total amount of funds audited for the period was \$100,315.94.

The findings and recommendations detailed above have been reviewed and discussed with the Benwood VFD. The Department is in the process of complying with the recommendations.

## BRENTON VOLUNTEER FIRE DEPARTMENT

The Brenton VFD, in Wyoming County, **was not in compliance with W.Va. Code.**

Of the total amount of \$754.86 not in compliance with W.Va. Code, \$706.48 was for expenditures not permissible under W.Va. Code §8-15-8b. Items or services the Department purchased that are not permissible included: an IRS Failure-to-File Penalty, beverages and food-related products, late payment charges, and TV related fees.

An additional \$48.38 was for expenditures out of the state account that had insufficient supporting documentation to determine either the items purchased or the intent of the purchase. This prevents a determination being made as to the compliance of the purchase with W.Va. Code.

The Department began with a balance of \$16,323.32 in its state account on January 1, 2021. During the period audited, the Department received \$49,737.14 in quarterly allotments disbursed by the W.Va. State Treasurer. The Department also made allowable additional deposits of \$1,461.00. Additionally, the Legislative Auditor made the following recommendations to the Department:

1. The Legislative Auditor recommended the Department cease expending monies from the state account for items or services not permitted by W.Va. Code §8-15-8b(a).
2. The Legislative Auditor recommended the Department maintain supporting documentation for the expenditures of state monies in accordance with W.Va. Code

§8-15-8b(d) that is sufficient enough to be able to determine the specific item or service purchased as well as the total cost, purchase date, and permissibility under W.Va. Code §8-15-8b(a).

The findings and recommendations detailed above have been reviewed and discussed with the Brenton VFD. The Department is in the process of complying with the recommendations.

3. The Legislative Auditor recommended the Department cease depositing and transferring non-state funds into its state bank account, unless the funds are a reimbursement whose original purchase originated with monies from the state bank account.

## EAST FORK VOLUNTEER FIRE DEPARTMENT

The East Fork VFD, in Mingo County, **was not in compliance with W.Va. Code.**

The Department commingled \$50,000.00 in state funds with funds from other sources by transferring this amount out of the state account and into a non-state bank account. In addition, the Department received a \$10,000.00 automatic distribution from the state. It should be noted that the Department was able to provide adequate supporting documentation for the \$50,000.00 in transferred funds.

The \$10,000.00 automatic distribution from the state resulted in commingling of the state bank account. This was not the fault of the Department. After the conversion to wvOASIS, state fund disbursements are made as electronic fund transfers, and the lack of paper checks creates the inability to simply deposit a check to another account. Departments are required to register an account with the state to receive the quarterly distributions, and that account is designated as the state account. However, this may also result in the state making deposits of funds from other sources into those accounts as they are the only account that the departments have registered with the state to receive funds. While the funding itself is not a cause for concern, this practice results in an immediate violation of W.Va. Code as it currently constructed. This affected all departments that received this \$10,000 distribution of CARES Act funds from the Governor, which was deposited into the state accounts of the VFDs as this was the only account the departments held with the state to receive such a mass distribution of funds.

The Department began with a balance of \$562.47 in its state account on January 1, 2020. During the period audited, the Department received \$53,510.76 in quarterly allotments disbursed by the W.Va. State Treasurer, received an additional deposit of \$10,000.00 from the State Treasurer's Office, and earned \$16.78 in interest. Thus, the total amount of funds audited for the period was \$64,090.01.

The Department's financial activity in the state account during the audit period, including amount audited, accounted for, and not in compliance with W.Va. Code, is summarized in the table below.

<b>Total Expenditures</b>		<b><u>\$50,000.00</u></b>

The Legislative Auditor made the following recommendations to the Department:

1. The Legislative Auditor recommended the Department cease transferring state funds from its state bank account.
2. The Legislative Auditor recommended that the most practical solution to the Department's automatic commingling issue would be for the Legislature to modify W.Va. Code to stipulate that departments which receive state funds into the state account that are not from a funding source authorized in W.Va. Code §8-15-8b(a) be allowed to transfer those funds out in a lump sum transaction totaling the full amount of the fund deposit within 60 days of receipt of those funds without penalty.

The findings and recommendations detailed above have been reviewed and discussed with the East Fork VFD. The Department is in the process of complying with the recommendations.

## EAST LYNN VOLUNTEER FIRE DEPARTMENT

The East Lynn VFD, in Wayne County, **was not in compliance with W.Va. Code.**

Of the total amount of \$56,788.46 not in compliance with W.Va. Code, \$53,116.11 was for expenditures that had insufficient supporting documentation to determine either the items purchased or the intent of the purchase. This prevents a determination being made as to the compliance of the purchase with W.Va. Code.

An additional \$3,672.35 not in compliance with W.Va. Code was for expenditures not permissible under W.Va. Code §8-15-8b. Items or services the Department purchased that are not permissible included: a refrigerator, bottled water and other beverages, food and beverage-related items, bags of ice, TV and related charges, late fees and charges, a part for a swing set, excess Sam’s Club memberships, and reauthorization charges.

The Department began with a balance of \$40,195.72 in its state account on July 1, 2016. During the period audited, the Department received \$128,678.31 in quarterly allotments disbursed by the W.Va. State Treasurer and received additional deposits of \$1,996.47 into the state account. Thus, the total amount of funds audited for the period was \$170,870.50.

The Department’s financial activity in the state account during the audit period, including amount audited, accounted for, and not in compliance with W.Va. Code, is summarized in the table below.

<b>Table 49 – EAST LYNN VFD State Funds Audited - Fiscal Years 2017 - 2019</b>

Unallowable Expenditures	\$3,672.35	
<b>Total Expenditures</b>		<b><u>\$141,280.55</u></b>
<b>Balance Remaining in State Account</b>		<b><u>\$29,589.95</u></b>

The \$1,996.47 in additional deposits were reversals and refunds for expenditures that had insufficient supporting documentation. Thus, the amount of funds that were withheld from the Department’s future quarterly distributions were reduced by this amount. Therefore, pursuant to W.Va. Code §8-15-8b(b) the Legislative Auditor formally notified the W.Va. State Treasurer to withhold a total of \$54,791.99 from the Department’s future quarterly distribution(s) for the expenditures found to be not in compliance with the provisions of W.Va. Code §8-15-8b.

Additionally, the Legislative Auditor made the following recommendations to the Department:

1. The Legislative Auditor recommended the Department cease expending monies from the state account for items or services not permitted by W.Va. Code §8-15-8b(a).
2. The Legislative Auditor recommended the Department maintain supporting documentation for the expenditures of state monies in accordance with W.Va. Code §8-15-8b(d) that is sufficient enough to be able to determine the specific item or service purchased as well as the total cost, purchase date, and permissibility under W.Va. Code §8-15-8b(a).

The findings and recommendations detailed above have been reviewed and discussed with the East Lynn VFD. The Department is in the process of complying with the recommendations.

Pursuant to W.Va. Code §8-15-8b(b) the Legislative Auditor formally notified the W.Va. State Treasurer to withhold a total of \$599.80 from the Department's future quarterly distribution(s) for the expenditures found to be not in compliance with the provisions of W.Va. Code §8-15-8b.

Additionally, the Legislative Auditor made the following recommendations to the Department:

1. The Legislative Auditor recommended the Department cease expending monies from the state account for items or services not permitted by W.Va. Code §8-15-8b(a).
2. The Legislative Auditor recommended the Department cease depositing non-state funds into its state bank account.
3. The Legislative Auditor recommended that the most practical solution to the Department's automatic commingling issue would be for the Legislature to modify W.Va. Code to stipulate that departments which receive state funds into the state account that are not from a funding source authorized in W.Va. Code §8-15-8b(a) be allowed to transfer those funds out in a lump sum transaction totaling the full amount of the fund deposit within 60 days of receipt of those funds without penalty.

The findings and recommendations detailed above have been reviewed and discussed with the Hillsboro VFD. The Department is in the process of complying with the recommendations.

## JUNIOR COMMUNITY VOLUNTEER FIRE DEPARTMENT

The Junior Community VFD, in Barbour County, **was not in compliance with W.Va. Code.**

The Department commingled \$10,000.00 in state funds with funds from other sources by receiving a \$10,000.00 automatic distribution from the state. This was not the fault of the Department. After the conversion to wvOASIS, state fund disbursements are made as electronic fund transfers, and the lack of paper checks creates the inability to simply deposit a check to another account. Departments are required to register an account with the state to receive the quarterly distributions, and that account is designated as the state account. However, this may also result in the state making deposits of funds from other sources into those accounts as they are the only account that the departments have registered with the state to receive funds. While the funding itself is not a cause for concern, this practice results in an immediate violation of W.Va. Code as it is currently constructed. This affected all departments that received this \$10,000 distribution of CARES Act funds from the Governor, which was deposited into the state accounts of the VFDs as this was the only account the departments held with the state to receive such a mass distribution of funds.

The Department began with a balance of \$6,370.87 in its state account on January 1, 2020. During the period audited, the Department received \$53,510.76 in quarterly allotments disbursed by the W.Va. State Treasurer, earned \$28.75 in interest, and received a \$10,000.00 commingled automatic deposit into the state account. Thus, the total amount of funds audited for the period was \$69,910.38.

The Department's financial activity in the state account during the audit period, including amount audited, accounted for, and not in compliance with W.Va. Code, is summarized in the table below.

## KEYSTONE VOLUNTEER FIRE DEPARTMENT

The Keystone VFD, in McDowell County, **was not in compliance with W.Va. Code.**

Of the total amount of \$1,685.86 not in compliance with W.Va. Code, \$1,101.90 was for expenditures that had insufficient supporting documentation to determine either the items purchased or the intent of the purchase. This prevents a determination being made as to the compliance of the purchase with W.Va. Code.

An additional \$583.96 not in compliance with W.Va. Code was for expenditures not permissible under W.Va. Code §8-15-8b. Items or services the Department purchased that are not permissible included: shopping card reloads and late fees.

In addition, the Department commingled \$110,440.00 in state funds with funds from other sources by making two checking withdrawals totaling \$100,440.00 and receiving a \$10,000.00 automatic distribution from the state. It should be noted that the Department was able to provide adequate supporting documentation for the \$100,440.00 in checking withdrawals.

The \$10,000.00 automatic distribution from the state resulted in commingling of the state bank account. This was not the fault of the Department. After the conversion to wvOASIS, state fund disbursements are made as electronic fund transfers, and the lack of paper checks creates the inability to simply deposit a check to another account. Departments are required to register an account with the state to receive the quarterly distributions, and that account is designated as the state account. The Department began with a balance of \$259,667.91 in its state account on January 1, 2020. During the period audited, the Department received \$53,510.76 in quarterly allotments disbursed by the W.Va. State Treasurer, received an unallowable additional deposit of \$10,000.00 from the State Treasurer's Office, earned \$100.26 in interest, and made allowable additional deposits of \$2,819.40. Thus, the total amount of funds audited for the period was \$326,098.33.

The Department's financial activity in the state account during the audit period, including amount audited, accounted for, and not in compliance with W.Va. Code, is summarized in table 58 on the following page.

Code §8-15-8b(d) that is sufficient enough to be able to determine the specific item or service purchased as well as the total cost, purchase date, and permissibility under W.Va. Code §8-15-8b(a).
3. The Legislative Auditor recommended the Department cease withdrawing state funds from its state bank account.
4. The Legislative Auditor recommended that the most practical solution to the Department’s automatic commingling issue would be for the Legislature to modify W.Va. In addition, the Department commingled \$1,451.04 of state funds with funds from other sources by making a \$1,372.67 transfer out of the state account to a non-state bank account and making an additional deposit that included a \$78.37 unallowable amount.

The Midway VFD, in Lewis County, **was not in compliance with W.Va. Code.**

Of the total amount of \$7,307.71 not in compliance with W.Va. Code, \$6,948.24 was for expenditures not permissible under W.Va. Code §8-15-8b. Items or services the Department purchased that are not permissible included: accident and sickness insurance, food and beverages, miscellaneous unallowable insurances, late fees, and credit card bills not in the name of the department.

An additional \$359.47 not in compliance with W.Va. Code was for expenditures that had insufficient supporting documentation to determine either the items purchased or the intent of the purchase. This prevents a determination being made as to the compliance of the purchase with W.Va. Code.

The Department began with a balance of \$55,098.09 in its state account on January 1, 2019. During the period audited, the Department received \$54,269.01 in quarterly allotments disbursed by the W.Va. State Treasurer. Thus, the total amount of funds audited for the period was \$109,367.10.

The Department's financial activity in the state account during the audit period, including amount audited, accounted for, and not in compliance with W.Va. Code, is summarized in the table below.

## MILTON VOLUNTEER FIRE DEPARTMENT

The Milton VFD, in Cabell County, **was not in compliance with W.Va. Code.**

Of the total amount of \$721.15 not in compliance with W.Va. Code, \$376.18 was for expenditures that had insufficient supporting documentation to determine either the items purchased or the intent of the purchase. This prevents a determination being made as to the compliance of the purchase with W.Va. Code.

An additional \$344.97 not in compliance with W.Va. Code was for expenditures not permissible under W.Va. Code §8-15-8b. Items or services the Department purchased that are not permissible included: a custom flag and badge, a finance charge, and late fees.

In addition, the Department received a \$10,000.00 automatic distribution from the state that resulted in commingling of the state bank account. This was not the fault of the Department. After the conversion to wvOASIS, state fund disbursements are made as electronic fund transfers, and the lack of paper checks creates the inability to simply deposit a check to another account. Departments are required to register an account with the state to receive the quarterly distributions, and that account is designated as the state account. However, this may also result in the state making deposits of funds from other sources into those accounts as they are the only account that the departments have registered with the state to receive funds. While the funding itself is not a cause for concern, this practice results in an immediate violation of W.Va. Code as it is currently constructed. This affected all departments that received this \$10,000 distribution of CARES Act funds from the Governor, which was deposited into the state accounts of the VFDs as this was the only account the departments held with the state to receive such a mass distribution of funds.

The Department began with a balance of \$1,219.91 in its state account on January 1, 2020. During the period audited, the Department received \$53,510.76 in quarterly allotments disbursed by the W.Va. State Treasurer and received an unallowable additional deposit of \$10,000.00 from the State Treasurer’s Office. Thus, the total amount of funds audited for the period was \$64,730.67.

The Department’s financial activity in the state account during the audit period, including amount audited, accounted for, and not in compliance with W.Va. Code, is summarized below

Pursuant to W.Va. Code §8-15-8b(b) the Legislative Auditor formally notified the W.Va. State Treasurer to withhold a total of \$721.15 from the Department’s future quarterly

distribution(s) for the expenditures found to be not in compliance with the provisions of W.Va. Code §8-15-8b.

Additionally, the Legislative Auditor made the following recommendations to the Department:

1. The Legislative Auditor recommended the Department cease expending monies from the state account for items or services not permitted by W.Va. Code §8-15-8b(a).
2. The Legislative Auditor recommended the Department maintain supporting documentation for the expenditures of state monies in accordance with W.Va. Code §8-15-8b(d) that is sufficient enough to be able to determine the specific item or service purchased as well as the total cost, purchase date, and permissibility under W.Va. Code §8-15-8b(a).
3. The Legislative Auditor recommended that the most practical solution to the Department's commingling issue would be for the Legislature to modify W.Va. Code to stipulate that departments which receive state funds into the state account that are not from a funding source authorized in W.Va. Code §8-15-8b(a) be allowed to transfer those funds out in a lump sum transaction totaling the full amount of the fund deposit within 60 days of receipt of those funds without penalty.

The findings and recommendations detailed above have been reviewed and discussed with the Milton VFD. The Department is in the process of complying with the recommendations.

## OAKVALE VOLUNTEER FIRE DEPARTMENT

---

The Oakvale VFD, in Mercer County, **was not in compliance with W.Va. Code.**

The total amount of \$359.24 not in compliance with W.Va. Code was for expenditures not permissible under W.Va. Code §8-15-8b. Items or services the Department purchased that are not permissible included: television payments and late fees.

In addition, the Department commingled \$10,043.62 in state funds with funds from other sources by making an unallowable deposit of \$43.62 and receiving a \$10,000.00 automatic distribution from the state.

The \$10,000.00 automatic distribution from the state resulted in commingling of the state bank account. This was not the fault of the Department. After the conversion to wvOASIS, state fund disbursements are made as electronic fund transfers, and the lack of paper checks creates the inability to simply deposit a check to another account. Departments are required to register an account with the state to receive the quarterly distributions, and that account is designated as the state account. However, this may also result in the state making deposits of funds from other sources into those accounts as they are the only account that the departments have registered with the state to receive funds. While the funding itself is not a cause for concern, this practice results in an immediate violation of W.Va. Code as it currently constructed. This affected all departments that received this \$10,000 distribution of CARES Act funds from the Governor, which was deposited into the state accounts of the VFDs as this was the only account the departments held with the state to receive such a mass distribution of funds.

The Department began with a balance of \$21,130.23 in its state account on January 1, 2020. During the period audited, the Department received \$53,510.76 in quarterly allotments disbursed by the W.Va. State Treasurer, received an unallowable additional deposit of \$10,000.00 from the State Treasurer's Office, earned \$8.52 in interest, made unallowable deposits of \$43.62, and made allowable additional deposits of \$1,017.00. Thus, the total amount of funds audited for the period was \$85,710.13.

The Department's financial activity in the state account during the audit period, including amount audited, accounted for, and not in compliance with W.Va. Code, is summarized in table 75 on the following page.

Pursuant to W.Va. Code §8-15-8b(b) the Legislative Auditor formally notified the W.Va. State Treasurer to withhold a total of \$359.24 from the Department’s future quarterly distribution(s) for the expenditures found to be not in compliance with the provisions of W.Va. Code §8-15-8b.

Additionally, the Legislative Auditor made the following recommendations to the Department:

1. The Legislative Auditor recommended the Department cease expending monies from the state account for items or services not permitted by W.Va. Code §8-15-8b(a).
2. The Legislative Auditor recommended the Department cease depositing non-state funds into its state bank account.
3. The Legislative Auditor recommended that the most practical solution to the Department’s automatic commingling issue would be for the Legislature to modify W.Va. Code to stipulate that departments which receive state funds into the state account that are not from a funding source authorized in W.Va. Code §8-15-8b(a) be allowed to transfer those funds out in a lump sum transaction totaling the full amount of the fund deposit within 60 days of receipt of those funds without penalty.

The findings and recommendations detailed above have been reviewed and discussed with the Oakvale VFD. The Department is in the process of complying with the recommendations.

This prevents a determination being made as to the compliance of the purchase with W.Va. Code.

An additional \$3,693.64 not in compliance with W.Va. Code was for expenditures not permissible under W.Va. Code §8-15-8b. Items or services the Department purchased that are not permissible included: electricity for “bingo”, t-shirts, overdraft fees, a purchase from a restaurant, a negative balance closing fee, late payment fees, and “grocery” items.

## WILDERNESS VOLUNTEER FIRE DEPARTMENT

Taking this into account, the Legislative Auditor formally notified the W.Va. ## WILEY FORD VOLUNTEER FIRE COMPANY

The Wiley Ford VFC, in Mineral County, **was not in compliance with W.Va. Code.**

The Department commingled \$73,534.96 in state funds with funds from other sources by making a checking withdrawal transfer for \$63,534.96 and receiving a \$10,000.00 automatic distribution from the state. It should be noted that the Department was able to provide adequate supporting documentation for the \$63,534.96 checking withdrawal transfer.

The Department commingled \$10,000.00 in state funds with funds from other sources by receiving a \$10,000.00 automatic distribution from the state. This was not the fault of the Department. After the conversion to wvOASIS, state fund disbursements are made as electronic fund transfers, and the lack of paper checks creates the inability to simply deposit a check to another account. Departments are required to register an account with the state to receive the quarterly distributions, and that account is designated as the state account. However, this may also result in the state making deposits of funds from other sources into those accounts as they are the only account that the departments have registered with the state to receive funds. While the funding itself is not a cause for concern, this practice results in an immediate violation of W.Va. Code as it currently constructed. This affected all departments that received this \$10,000 distribution of CARES Act funds from the Governor, which was deposited into the state accounts of the VFDs as this was the only account the departments held with the state to receive such a mass distribution of funds.

The Department began with a balance of \$5.00 in its state account on January 1, 2020. During the period audited, the Department received \$53,510.76 in quarterly allotments disbursed by the W.Va. State Treasurer, earned \$33.20 in interest on the state account, and received an automatic unallowable commingled deposit of \$10,000.00 into the state account. Thus, the total amount of funds audited for the period was \$63,548.96.

The Department's financial activity in the state account during the audit period, including amount audited, accounted for, and not in compliance with W.Va. Code, is summarized in the table below.

The Legislative Auditor made the following recommendations to the Department:

1. The Legislative Auditor recommended the Department cease withdrawing state funds from its state bank account.
2. The Legislative Auditor recommended that the most practical solution to the Department's automatic commingling issue would be for the Legislature to modify W.Va. Code to stipulate that departments which receive state funds into the state account that are not from a funding source authorized in W.Va. Code §8-15-8b(a) be allowed to transfer those funds out in a lump sum transaction totaling the full amount of the fund deposit within 60 days of receipt of those funds without penalty.

The findings and recommendations detailed above have been reviewed and discussed with the Wiley Ford VFC. The Department is in the process of complying with the recommendations.
