# Foreword

The West Virginia Blue Book is published annually by the State Senate. The Senate Clerk is the editor.

Distribution of the Book is governed, in part, by statute and, in part, by custom, according to which every effort is made to place the Blue Books where they will be available to the greatest number of people, such as in libraries and in the offices of public agencies.

The Blue Book contains a wealth of information about our State, its government on the various levels, its institutions and its people.

Grateful acknowledgment is here made of the invaluable cooperation and contribution of many people and agencies who have provided information essential to the completion of this 56th Volume of the Blue Book. Special thanks are due the County Clerks of the State and, also, the State Department of Highways who furnished the maps which are to be found on the inside of the back cover of the Book.

It is hoped that this Volume will be found to be as interesting and helpful to its users as have the volumes of past years.

Sincerely,

HOWARD W. CARSON  
*Clerk of the Senate*

 DIVISION OF VOCATIONAL REHABILITATION**

**Room 3, P. & G. Bldg., Washington & Jefferson Sts.**

**Thorold S. Funk, Director and Executive Officer**

The State Board of Vocational Education, Division of Vocational Rehabilitation was established by the 1945 Legislature, Chapter 18, Art. 10A (Code). As such it is authorized and directed to cooperate with the federal government to provide rehabilitation to disabled persons. Board appoints the director who recommends necessary personnel and establishes appropriate administrative units with the approval of the board. Director makes regulations, submits an annual report to the board, requisitions the disbursement of all rehabilitation funds, and takes such other action as necessary to provide rehabilitation services.

The state director, under the direction of the board, operates the agency under State Plans approved by the Rehabilitation Services Administration, and the Social Security Administration, Department of Health, Education, and Welfare; the Governor; and the Board. Director is authorized by law to receive gifts and determine eligibility for service.

(Continued on next page)

The Board is also authorized to establish and operate rehabilitation centers and work shops and to promulgate rules and regulations for operation of such facilities in the state by public or voluntary agencies, to certify workshops as eligible to sell products to the state, and to receive federal vocational rehabilitation aid.

The wide variety of services provided by vocational rehabilitation can be grouped under four broad headings: (1) Medical, (2) Psychological, (3) Social and (4) Vocational.

## WEST VIRGINIA BOARD OF REGENTS

### 1316 Charleston National Plaza

The West Virginia Board of Regents, created in 1969, is the governing body for all state colleges and universities. The Board controls, supervises and manages the financial, business and educational policies and affairs of the state colleges and universities, makes studies and recommendations respecting higher education in West Virginia, and allocates among the state colleges and universities specific functions and responsibilities. It submits a budget for the state system of higher education to the appropriate executive and legislative agencies of the State Government and allocates funds to the institutions from the appropriation which it receives.

The Board is composed of ten members, nine of whom are appointed by the Governor, with the advice and consent of the Senate, for six-year terms. The State Superintendent of Schools is an ex officio member. Not more than five of the appointed members can belong to the same political party and at least one member must be appointed from each congressional district.

The Board holds at least six meetings a year with the annual meeting in June. Members receive \$50 per diem while engaged in the work of the Board, plus actual expenses. A president, who cannot succeed himself, and any other officers deemed necessary, are elected annually. The Board employs a Chancellor and such professional, administrative and clerical personnel as are necessary, and prescribes their duties and compensation. (Code 18-26)

The Department of Public Safety is a state police department with state-wide general police power, created in 1919 to preserve the peace, protect life and property, prevent crime and apprehend criminals. With at least one detachment in each county and a fleet of two-way radio-equipped vehicles, the state police handle a large share of the investigation of major crime and apprehension of dangerous criminals, and take primary responsibility for patrolling the highways, enforcing the traffic laws and preventing motor vehicle accidents, besides many miscellaneous services in the public interest, including duty at the scene of emergencies, riots or disaster.

The Board of Appeals hears charges filed against any officer or member of the department, including the Superintendent, or appeals of charges filed against officers or members with the Superintendent if the Superintendent fails to suspend or dismiss any officer or member after such charges are filed.

The Retirement Board has power to make, revise and terminate awards from the Department Death, Disability and Retirement Fund to retired or disabled members, or to beneficiaries of deceased members.

# STATE BOARDS and COMMISSIONS

## GENERAL PROVISIONS

Under Chapter 30, Article 1, Code 1931, all boards of examination and registration are governed by the following general rules, unless otherwise specifically provided:

Each board is required to adopt an official seal, make such rules and regulations, not inconsistent with law, as it deems best, and hold at least two meetings each year. Each board is also given power to compel the attendance of witnesses, and its officers are authorized to administer oaths.

Each applicant for license or registration must transmit with his application an examination fee of \$20, unless a different fee is especially provided by law. Each board is allowed to charge \$5 for each license or certificate issued and the same sum for every duplicate thereof. All licenses or certificates of registration are required to be numbered serially and to be signed by a majority of the members of the board, and each board has power to revoke, for cause, the certificate it issues. An applicant who has been refused a license, or a licensee whose certificate has been revoked has the right to appeal from the action of the board to the Circuit Court of the county in which he resides.

Unless otherwise specified, members of boards are allowed \$10 per day for each day actually spent in attending sessions of the board or of its committees and in necessary travel, and entitled to reimbursement for all actual and necessary expenses in carrying out their official duties.

Each board is required to make a report annually to the Governor on or before the first day of January, and the secretary of each board is required to prepare and maintain a complete roster of all persons licensed or registered by it.

Created by the Supreme Court of Appeals under its inherent rule-making power as authorized by Chapter 44, Acts of the Legislature, 1945. The court adopted and promulgated a definition of the practice of law; a code of professional ethics, a code of judicial ethics and a constitution and by-laws for the government of the State bar, effective May 1, 1947. Its membership consists of all persons lawfully admitted to the practice of law in West Virginia. No person can practice law in the State of West Virginia unless he is a member in good standing of The West Virginia State Bar. There are two classes of membership--active and inactive. The annual active membership fee is now \$25.00 for members who have been admitted to practice for more than five years, and \$10.00 for members who have been admitted to practice for not more than five years.

The objects of the State Bar are to protect the interests of the public; to advance the administration of justice and the science of jurisprudence; to improve the relations between the public and the Bench and the Bar; to uphold and elevate the standards of honor, integrity, competency and courtesy in the legal profession; and to encourage cordial relations among its members. It is its declared purpose to give effect to pertinent rules of the Supreme Court of Appeals, and to perform the functions expressed in its Constitution and By-Laws. A principal duty of the State Bar is to uphold the standards of professional ethics and to diligently and vigilantly investigate and prosecute violations of these standards.

The State Bar is governed by a Board of Governors, consisting of all officers, except the secretary-treasurer, as *ex officio* members, and sixteen Governors, one Governor being elected by the members of the Bar by a secret mail ballot in each of the sixteen State Bar Districts. ## ARTICLE I

### Relations to the Government of the United States

§1. The State of West Virginia is and shall remain, one of the United States of America. The Constitution of the United States of America, and the laws and treaties made in pursuance thereof, shall be the supreme law of the land.

### Internal Government and Police

§2. The government of the United States is a government of enumerated powers, and all powers not delegated to it, nor inhibited to the States, are reserved to the States or to the people thereof. Among the powers so reserved to the States is the exclusive regulation of their own internal government and police; and it is the high and solemn duty of the several departments of government, created by this Constitution, to guard and protect the people of this State, from all encroachments upon the rights so reserved.

### Continuity of Constitutional Operation

§3. The provisions of the Constitution of the United States, and of this State, are operative alike in a period of war as in time of peace, and any departure therefrom, or violation thereof, under the plea of necessity, or any other plea, is subversive of good government, and tends to anarchy and despotism.

### Representatives to Congress

§4. For the election of representatives to Congress, the State shall be divided into districts, corresponding in number with the representatives to which it may be entitled; which districts shall be formed of contiguous counties, and be compact. Each district shall contain as nearly as may be, an equal number of population, to be determined according to the rule prescribed in the Constitution of the United States.

## ARTICLE II

### The State

§1. The territory of the following counties, formerly parts of the commonwealth of Virginia, shall constitute and form the State of West Virginia, viz:

The counties of Barbour, Berkeley, Boone, Braxton, Brooke, Cabell, Calhoun, Clay, Doddridge, Fayette, Gilmer, Grant, Greenbrier, Hampshire, Hancock, Hardy, Harrison, Jackson, Jefferson, Kanawha, Lewis, Lincoln, Logan, Marion, Marshall, Mason, McDowell, Mercer, Mineral, Monongalia, Monroe, Morgan, Nicholas, Ohio, Pendleton, Pleasants, Pocahontas, Preston, Putnam, Raleigh, Randolph, Ritchie, Roane, Summers, Taylor, Tucker, Tyler, Upshur, Wayne, Webster, Wetzel, Wirt, Wood and Wyoming. The State of West Virginia includes the bed, bank and shores of the Ohio River, and so much of the Big Sandy River as was formerly included in the Commonwealth of Virginia; and all territorial rights and property in, and jurisdiction over, the same, heretofore reserved by, and vested in, the Commonwealth of Virginia, are vested in and shall hereafter be exercised by, the State of West Virginia. And such parts of the said beds, banks and shores as lie opposite, and adjoining the several counties of this State, shall form parts of said several counties respectively.

[Editor's note.—All of the territory of West Virginia was taken from the commonwealth of Virginia, and in the Constitution of 1863 forty-four of the above-named counties were designated as forming the State of West Virginia, and in addition, the counties of Berkeley, Hampshire, Hardy, Jefferson, Morgan and Pendleton were to be admitted should that Constitution be adopted by a vote of the people of the districts comprising those counties. The districts adopted the Constitution, and these six counties became part of the State.

The remaining four counties mentioned above were created by acts of the legislature as follows: Mineral county, from Hampshire county, on February 1, 1866; Grant county, from Hardy county, on February 14, 1866; Lincoln county, from parts of Cabell, Putnam, Kanawha and Boone counties, on February 23, 1867; and Summers county, from parts of Greenbrier, Monroe, Mercer and Fayette counties, on February 27, 1871. After the ratification of the Constitution of 1872, Mingo county was created by act of the legislature from Logan county, on February 23, 1895, to make a total of fifty-five counties.]

### Powers of Government in Citizens

§2. The powers of government reside in all the citizens of the State, and can be rightfully exercised only in accordance with their will and appointment.

### Requisites of Citizenship

§3. All persons residing in this State, born, or naturalized in the United States, and subject to the jurisdiction thereof, shall be citizens of this State.

### Equal Representation

§4. Every citizen shall be entitled to equal representation in the government, and, in all apportionments of representation, equality of numbers of those entitled thereto, shall as far as practicable, be preserved.

### Provisions Regarding Property

§5. No distinction shall be made between resident aliens and citizens, as to the acquisition, tenure, disposition or descent of property.

### Treason, What Constitutes—Penalty

§6. Treason against the State, shall consist only in levying war against it, or in adhering to its enemies, giving them aid and comfort. No person shall be convicted of treason, unless on the testimony of two witnesses to the same overt act, or on confession in open court. Treason shall be punished according to the character of the acts committed, by the infliction of one, or more, of the penalties, of death, imprisonment or fine, as may be prescribed by law.

### "Montani Semper Liberi"—State Seal

§7. The present seal of the State, with its motto, "Montani Semper Liberi", shall be the great seal of the State of West Virginia, and shall be kept by the Secretary of State, to be used by him officially, as directed by law.

### Writs, Commissions, Official Bonds—Indictments

§8. Writs, grants and commissions, issued under the authority of this State, shall run in the name of, and official bonds shall be made payable to the State of West Virginia. Indictments shall conclude, "Against the peace and dignity of the State."

## ARTICLE III

### Bill of Rights

§1. All men are, by nature, equally free and independent, and have certain inherent rights, of which, when they enter into a state of society, they cannot, by any compact, deprive or divest their posterity, namely: The enjoyment of life and liberty, with the means of acquiring and possessing property, and of pursuing and obtaining happiness and safety.

### Magistrates Servants of People

§2. All power is vested in, and consequently derived from, the people. Magistrates are their trustees and servants, and at all times amenable to them.

### Rights Reserved to People

§3. Government is instituted for the common benefit, protection and security of the people, nation or community. Of all its various forms that is the best, which is capable of producing the greatest degree of happiness and safety, and is most effectually secured against the danger of maladministration; and when any government shall be found inadequate or contrary to these purposes, a majority of the community has an indubitable, inalienable, and indefeasible right to reform, alter or abolish it in such manner as shall be judged most conducive to the public weal.

### Writ of Habeas Corpus

§4. The privilege of the writ of habeas corpus shall not be suspended. No person shall be held to answer for treason, felony or other crime, not cognizable by a justice, unless on presentment or indictment of a grand jury. No bill of attainder, ex post facto law, or law impairing the obligation of a contract, shall be passed.

### Excessive Bail Not Required

§5. Excessive bail shall not be required, nor excessive fines imposed, nor cruel and unusual punishment inflicted. Penalties shall be proportioned to the character

and degree of the offence. No person shall be transported out of, or forced to leave the State for any offence committed within the same; nor shall any person, in any criminal case, be compelled to be a witness against himself, or be twice put in jeopardy of life or liberty for the same offence.

### **Unreasonable Searches and Seizures Prohibited**

§6. The rights of the citizens to be secure in their houses, persons, papers and effects, against unreasonable searches and seizures, shall not be violated. No warrant shall issue except upon probable cause, supported by oath or affirmation, particularly describing the place to be searched, or the person or thing to be seized.

### **Freedom of Speech and Press Guaranteed**

### **Private Property, How Taken**

§9. Private property shall not be taken or damaged for public use, without just compensation; nor shall the same be taken by any company, incorporated for the purposes of internal improvement, until just compensation shall have been paid, or secured to be paid, to the owner; and when private property shall be taken, or damaged, for public use, or for the use of such corporation, the compensation to the owner shall be ascertained in such manner, as may be prescribed by general law; provided, that when required by either of the parties, such compensation shall be ascertained by an impartial jury of twelve freeholders.

### **Political Tests Condemned**

§11. Political tests, requiring persons, as a prerequisite to the enjoyment of their civil and political rights, to purge themselves by their own oaths, of past alleged offences, are repugnant to the principles of free government, and are cruel and oppressive. No religious or political test oath shall be required as a prerequisite or qualification to vote, serve as a juror, sue, plead, appeal, or pursue any profession or employment. Nor shall any person be deprived by law, of any right, or privilege, because of any act done prior to the passage of such law.

No fact tried by a jury shall be otherwise re-examined in any case than according to the rules of the common law.

[Editor's note.—The amendment of this section was proposed by Joint Resolution No. 11, Acts 1879, p. 182; submitted by Acts 1879, c. 50; and ratified on October 12, 1880. Prior to being amended the section read as follows: "In suits at common law, where the value in controversy, exclusive of interest and cost, exceeds twenty dollars, the right of trial by a jury of twelve men, if required by either party, shall be preserved; except that in appeals from judgments of justices, a jury of a less number may be authorized by law; but in trials of civil cases before a justice no jury shall be allowed, and no fact tried by a jury shall, in any case, be otherwise re-examined, than according to the rules of common law."]

### **Trial of Crimes—Provisions in Interest of Accused**

§14. Trials of crimes, and misdemeanors, unless herein otherwise provided, shall be by a jury of twelve men, public, without unreasonable delay, and in the county where the alleged offence was committed, unless upon petition of the accused, and for good cause shown, it is removed to some other county. In all such trials, the accused shall be fully and plainly informed of the character and cause of the accusation, and be confronted with the witnesses against him, and shall have the assistance of counsel, and a reasonable time to prepare for his defence; and there shall be awarded to him compulsory process for obtaining witnesses in his favor.

### **Religious Freedom Guaranteed**

§15. No man shall be compelled to frequent or support any religious worship, place or ministry whatsoever; nor shall any man be enforced, restrained, molested or burthened, in his body or goods, or otherwise suffer, on account of his religious opinions or belief, but all men shall be free to profess, and by argument, to maintain their opinions in matters of religion; and the same shall, in no wise, affect, diminish or enlarge their civil capacities; and the legislature shall not prescribe any religious test whatever, or confer any peculiar privileges or advantages on any sect or denomination, or pass any law requiring or authorizing any religious society, or the people of any district within this State, to levy on themselves, or others, any tax for the erection or repair of any house for public worship, or for the support of any church or ministry, but it shall be left free for every person to select his religious instructor, and to make for his support, such private contract as he shall please.

## **ARTICLE V**

### **Division of Powers**

§1. The legislative, executive and judicial departments shall be separate and distinct, so that neither shall exercise the powers properly belonging to either of the others; nor shall any person exercise the powers of more than one of them at the same time, except that justices of the peace shall be eligible to the legislature.

## ARTICLE VI

### The Legislature

§1. The legislative power shall be vested in a senate and house of delegates. The style of their acts shall be, "Be it enacted by the Legislature of West Virginia."

#### Composition of Senate and House of Delegates

§2. The senate shall be composed of twenty-four, and the house of delegates of sixty-five members, subject to be increased according to the provisions hereinafter contained.

#### Senators and Delegates—Terms of Office

§3. Senators shall be elected for the term of four years, and delegates for the term of two years. The senators first elected, shall divide themselves into two classes, one senator from every district being assigned to each class; and of these classes, the first to be designated by lot in such manner as the senate may determine, shall hold their seats for two years, and the second for four years, so that after the first election, one-half of the senators shall be elected biennially.

#### Division of State Into Senatorial Districts

§4. For the election of senators the State shall be divided into twelve senatorial districts, which number shall not be diminished, but may be increased as hereinafter provided. Every district shall elect two senators, but, where the district is composed of more than one county, both shall not be chosen from the same county. The district shall be compact, formed of contiguous territory, bounded by county lines, and, as nearly as practicable, equal in population, to be ascertained by the census of the United States. After every such census, the legislature shall alter the senatorial districts, so far as may be necessary to make them conform to the foregoing provision.

#### Senatorial Districts Designated

§5. Until the senatorial districts shall be altered by the legislature as herein prescribed, the counties of Hancock, Brooke and Ohio, shall constitute the first senatorial district; Marshall, Wetzel and Marion, the second; Ritchie, Doddridge, Harrison, Gilmer and Calhoun, the third; Tyler, Pleasants, Wood and Wirt, the fourth; Jackson, Mason, Putnam and Roane, the fifth; Kanawha, Clay, Nicholas, Braxton and Webster, the sixth; Cabell, Wayne, Lincoln, Boone, Logan, Wyoming, McDowell and Mercer, the seventh; Monroe, Greenbrier, Summers, Pocahontas, Fayette and Raleigh, the eighth; Lewis, Randolph, Upshur, Barbour, Taylor and Tucker, the ninth; Preston and Monongalia, the tenth; Hampshire, Mineral, Hardy, Grant and Pendleton, the eleventh; Berkeley, Morgan and Jefferson, the twelfth.

[Editor's note.—There are now seventeen senatorial districts. See § 1-2-1 of the Code.]

#### Provisions for Delegate Representation

§6. For the election of delegates, every county containing a population of less than three-fifths of the ratio of representation for the house of delegates, shall, at each apportionment, be attached to some contiguous county or counties, to form a delegate district.

#### After Census, Delegate Apportionment

§7. After every census the delegates shall be apportioned as follows: The ratio of representation for the house of delegates shall be ascertained by dividing the whole population of the State by the number of which the house is to consist and rejecting the fraction of a unit, if any, resulting from such division. Dividing the population of every delegate district, and of every county not included in a delegate district, by the ratio thus ascertained, there shall be assigned to each a number of delegates equal to the quotient obtained by this division, excluding the fractional remainder. The additional delegates necessary to make up the number of which the house is to consist, shall then be assigned to those delegate districts, and counties not included in a delegate district, which would otherwise have the

largest fractions unrepresented; but every delegate district and county not included in a delegate district, shall be entitled to at least one delegate.

### Designation of Delegate Districts

§8. Until a new apportionment shall be declared, the counties of Pleasants and Wood shall form the first delegate district, and elect three delegates; Ritchie and Calhoun the second, and elect two delegates; Barbour, Harrison and Taylor the third, and elect one delegate; Randolph and Tucker the fourth, and elect one delegate; Nicholas, Clay and Webster the fifth, and elect one delegate; McDowell and Wyoming the sixth, and elect one delegate.

To Barbour, Boone, Braxton, Brooke, Cabell, Doddridge, Fayette, Hampshire, Hancock, Jackson, Lewis, Logan, Greenbrier, Monroe, Mercer, Mineral, Morgan, Grant, Hardy, Lincoln, Pendleton, Putnam, Roane, Gilmer, Taylor, Tyler, Upshur, Wayne, Wetzel, Wirt, Pocahontas, Summers and Raleigh counties, one delegate each.

To Berkeley, Harrison, Jefferson, Marlon, Marshall, Mason, Monongalia and Preston counties, two delegates each.

To Kanawha County, three delegates.

To Ohio County, four delegates.

### Arrangement of Senatorial and Delegate Districts

§10. The arrangement of the senatorial and delegate districts, and apportionment of delegates, shall hereafter be declared by law, as soon as possible after each succeeding census, taken by authority of the United States. When so declared they shall apply to the first general election for members of the legislature, to be thereafter held, and shall continue in force unchanged, until such districts shall be altered, and delegates apportioned, under the succeeding census.

### Additional Territory May Be Admitted Into State

§11. Additional territory may be admitted into, and become part of this State, with the consent of the legislature and a majority of the qualified voters of the State, voting on the question. And in such case provision shall be made by law for the representation thereof in the senate and house of delegates, in conformity with the principles set forth in this Constitution. And the number of members of which each house of the legislature is to consist, shall thereafter be increased by the representation assigned to such additional territory.

### Senators and Delegates Required to be Residents of Districts

§12. No person shall be a senator or delegate who has not for one year next preceding his election, been a resident within the district or county from which he is elected; and if a senator or delegate remove from the district or county for which he was elected, his seat shall be thereby vacated.

### Subsection B—Budget Bills

(2) Within ten days after the convening of the regular session of the legislature in odd-numbered years, unless such time shall be extended by the legislature, and on the second Wednesday of January in even-numbered years, the governor shall submit to the legislature a budget for the next ensuing fiscal year. The budget shall contain a complete plan of proposed expenditures and estimated revenues for the fiscal year and shall show the estimated surplus or deficit of revenues at the end of each fiscal year. Accompanying each budget shall be a statement showing: (a) An estimate of the revenues and expenditures for the current fiscal year, including the actual revenues and actual expenditures to the extent available, and the revenues and expenditures for the next preceding fiscal year; (b) the current assets, liabilities, reserves and surplus or deficit of the State; (c) the debts and funds of the State; (d) an estimate of the State's financial condition as of the beginning and end of the fiscal year covered by the budget; (e) any explanation the governor may desire to make as to the important features of the budget and any suggestions as to methods for reduction or increase of the State's revenue.

(3) Each budget shall embrace an itemized estimate of the appropriations, in such form and detail as the governor shall determine or as may be prescribed by law: (a) For the legislature as certified to the governor in the manner hereinafter provided; (b) for the executive department; (c) for the judiciary department, as provided by law, certified to the governor by the auditor; (d) for payment and discharge of the principal and interest of any debt of the State created in conformity with the Constitution, and all laws enacted in pursuance thereof; (e) for the salaries payable by the State under the Constitution and laws of the State; (f) for such other purposes as are set forth in the Constitution and in laws made in pursuance thereof.

(4) The governor shall deliver to the presiding officer of each house the budget and a bill for all the proposed appropriations of the budget clearly itemized and classified, in such form and detail as the governor shall determine or as may be prescribed by law; and the presiding officer of each house shall promptly cause the bill to be introduced therein, and such bill shall be known as the "Budget Bill." The governor may, with the consent of the legislature, before final action thereon by the legislature, amend or supplement the budget to correct an oversight, or to provide funds contingent on passage of pending legislation, and in case of an emergency, he may deliver such an amendment or supplement to the presiding officers of both houses; and the amendment or supplement shall thereby become a part of the budget bill as an addition to the items of the bill or as a modification of or a substitute for any item of the bill the amendment or supplement may affect.

(5) The legislature shall not amend the budget bill so as to create a deficit but may amend the bill by increasing or decreasing any item therein: Provided, that no item relating to the judiciary shall be decreased, and except as otherwise provided in this Constitution, the salary or compensation of any public officer shall not be increased or decreased during his term of office: Provided further, that the legislature shall not increase the estimate of revenue submitted in the budget without the approval of the governor.

(6) The governor and such representatives of the executive departments, boards, officers and commissions of the State expending or applying for state moneys as have been designated by the governor for this purpose, shall have the right, and when requested by either house of the legislature it shall be their duty, to appear and be heard with respect to any budget bill, and to answer inquiries relative thereto.

### Subsection C—Supplementary Appropriation Bills

(7) Neither house shall consider other appropriations until the budget bill has been finally acted upon by both houses, and no such other appropriations shall be valid except in accordance with the provisions following: (a) Every such appropriation shall be embodied in a separate bill limited to some single work, object or purpose therein stated and called therein a supplementary appropria-

tion bill; (b) each supplementary appropriation bill shall provide the revenue necessary to pay the appropriation thereby made by a tax, direct or indirect, to be laid and collected as shall be directed in the bill unless it appears from such budget that there is sufficient revenue available.

#### Subsection D—General Provisions

(8) If the budget bill shall not have been finally acted upon by the legislature three days before the expiration of its regular session, the governor shall issue a proclamation extending the session for such further period as may, in his judgment, be necessary for the passage of the bill; but no matter other than the bill shall be considered during such an extension of a session except a provision for the cost thereof.

(9) For the purpose of making up the budget, the governor shall have the power, and it shall be his duty, to require from the proper state officials, including herein all executive departments, all executive and administrative officers, bureaus, boards, commissions and agencies expending or supervising the expenditure of, and all institutions applying for state moneys and appropriations, such itemized estimates and other information, in such form and at such times as he shall direct. The estimates for the legislative department, certified by the presiding officer of each house, and for the judiciary, as provided by law, certified by the auditor, shall be transmitted to the governor in such form and at such times as he shall direct, and shall be included in the budget.

(10) The governor may provide for public hearings on all estimates and may require the attendance at such hearings of representatives of all agencies and all institutions applying for state moneys. After such public hearings he may, in his discretion, revise all estimates except those for the legislative and judiciary departments.

(11) Every budget bill or supplementary appropriation bill passed by a majority of the members elected to each house of the legislature shall, before it becomes a law, be presented to the governor. The governor may veto the bill, or he may disapprove or reduce items or parts of items contained therein. If he approves he shall sign it and thereupon it shall become a law. The bill, items or parts thereof, disapproved or reduced by the governor, shall be returned with his objections to each house of the legislature.

Each house shall enter the objections at large upon its journal and proceed to reconsider. If, after reconsideration, two thirds of the members elected to each house agree to pass the bill, or such items or parts thereof, as were disapproved or reduced, the bills, items or parts thereof, approved by two thirds of such members, shall become law, notwithstanding the objections of the governor. In all such cases, the vote of each house shall be determined by yeas and nays to be entered on the journal.

A bill, item or part thereof, which is not returned by the governor within five days (Sundays excepted) after the bill has been presented to him shall become a law in like manner as if he had signed the bill, unless the legislature, by adjournment, prevents such return, in which case it shall be filed in the office of the secretary of state, within five days after such adjournment, and shall become a law; or it shall be so filed within five days with the objections of the governor, in which case it shall become law to the extent not disapproved by the governor.

(12) The legislature may, from time to time, enact such laws, not inconsistent with this section, as may be necessary and proper to carry out its provisions.

(13) In the event of any inconsistency between any of the provisions of this section and any of the other provisions of the Constitution, the provisions of this section shall prevail. But nothing herein shall be construed as preventing the governor from calling extraordinary sessions of the legislature, as provided by section nineteen of this article, or as preventing the legislature at such extraordinary sessions from considering any emergency appropriation or appropriations.

(14) If any item of any appropriation bill passed under the provisions of this section shall be held invalid upon any ground, such invalidity shall not affect the legality of the bill or of any other item of such bill or bills.

[Editor's note.—The amendment of this section was proposed by House Joint Resolution No. 3, Acts 1967; submitted by Acts 1968, c. 15; and ratified on November 5, 1968. The amendment rewrote the section to read as set out above and designated it the "Modern Budget Amendment."]

[Editor's note.—The Irreducible School Fund Amendment, ratified on November 4, 1902, and set forth at the end of the Constitution, provides that the accumulation of the school fund provided for in this section shall cease, that all moneys in the fund over one million dollars and interest on the fund shall be used for support of the free schools, and that all money and taxes formerly payable into the treasury to the credit of the school fund shall be credited to the general school fund for the support of the free schools.]

### Support of Free Schools

All private rights and interests in lands in this State derived from or under the laws of the State of Virginia, and from or under the Constitution and laws of this State prior to the time this Constitution goes into operation, shall remain valid and secure and shall be determined by the laws in force in Virginia, prior to the formation of this State, and by the Constitution and laws in force in this State prior to the time this Constitution goes into effect.

### **Land Entry Prohibited**

§2. No entry by warrant on land in this State shall hereafter be made.

### **Forfeited Lands**

§3. All title to lands in this State heretofore forfeited, or treated as forfeited, waste and unappropriated, or escheated to the State of Virginia, or this State, or purchased by either of said states at sales made for the nonpayment of taxes and become irredeemable, or hereafter forfeited, or treated as forfeited, or escheated to this State, or purchased by it and become irredeemable, not redeemed, released or otherwise disposed of, vested and remaining in this State, shall be, and is hereby transferred to, and vested in any person (other than those for whose default the same may have been forfeited or returned delinquent, their heirs or devisees), for so much thereof as such person has, or shall have had actual continuous possession of, under color or claim of title for ten years, and who, or those under whom he claims, shall have paid the State taxes thereon for any five years during such possession; or if there be no such person, then to any person (other than those for whose default the same may have been forfeited, or returned delinquent, their heirs or devisees), for so much of said land as such person shall have title or claim to, regularly derived, mediately or immediately from, or under a grant from the commonwealth of Virginia, or this State, not forfeited, which but for the title forfeited, would be valid, and who, or those under whom he claims has, or shall have paid all State taxes charged or chargeable thereon for five successive years, after the year 1865, or from the date of the grant, if it shall have issued since that year; or if there be no such person, as aforesaid, then to any person (other than those for whose default the same may have been forfeited, or returned delinquent, their heirs or devisees), for so much of said land as such person shall have had claim to and actual continuous possession of, under color of title for any five successive years after the year 1865, and have paid all State taxes charged or chargeable thereon for said period.

### **Waste and Unappropriated Lands**

§4. All lands in this State, waste and unappropriated, or heretofore or hereafter for any cause forfeited, or treated as forfeited, or escheated to the State of Virginia, or this State, or purchased by either and become irredeemable, not redeemed, released, transferred or otherwise disposed of, the title whereto shall remain in this State till such sale as is hereinafter mentioned be made, shall by proceedings in the circuit court of the county in which the lands, or a part thereof, are situated, be sold to the highest bidder.

### **Former Owner's Privilege**

§5. The former owner of any such land, shall be entitled to receive the excess of the sum for which the land may be sold over the taxes charged and chargeable thereon, or which, if the land had not been forfeited, would have been

charged or chargeable thereon, since the formation of this State, with interest at the rate of twelve per centum per annum, and the costs of the proceedings, if his claim be filed in the circuit court that decrees the sale, within two years thereafter.

### Land Books—Taxes

§6. It shall be the duty of every owner of land, or of an undivided interest therein, to have such land, or such undivided interest therein, entered on the land books of the county in which it, or a part of it, is situated, and to cause himself to be charged with taxes legally levied thereon and pay the same. When, for any five successive years, the owner of any tract of land, or undivided interest therein, shall not have been charged on such land books with State, county and district taxes thereon, then, by operation hereof, the land, or undivided interest therein, shall be forfeited, and title vested in the State. But if, for any one or more of such five years, the owner of such land, or of any undivided interest therein, shall have been charged with State, county and district taxes on any part of such land, such part thereof, or undivided interest therein, shall not be forfeited for such cause. And any owner of land so forfeited, or of any interest therein, at the time of the forfeiture thereof, who shall then be an infant, married woman, or insane person, may, until the expiration of three years after the removal of such disability, have the land, or such interest, charged on such land books, with all State and other taxes that shall be, and but for the forfeiture would be, chargeable on the land, or interest therein, for the year one thousand eight hundred sixty-three, and every year thereafter, with interest at the rate of ten per centum per annum, and pay all taxes and interest thereon for such years, and thereby redeem the land or interest therein: Provided, such right to redeem shall in no case extend beyond twenty years from the time such land was forfeited.

[Editor's note.—The amendment of this section was proposed by House Joint Resolution No. 4, Acts 1933, 2nd Ex. Sess., p. 583; submitted by Acts 1933, 2nd Ex. Sess., c. 72; and ratified on November 6, 1934. The amendment rewrote this section. Prior to the amendment this section provided for the forfeiture of tracts containing one thousand acres or more, did not expressly provide for owners of undivided interests, and did not mention county and district taxes.]

It was held, before the amendment, that although this section provided for the forfeiture of lands containing one thousand acres or more, it did not limit such forfeiture to such tracts, and that an act providing for the forfeiture of a less number of acres than one thousand, for nonentry upon the land books, was merely cumulative and not inhibited by this section of the Constitution. See *State v. Swann*, 46 W. Va. 128, 33 S. E. 89 (1899).]

## ARTICLE XIV

### Amendments

§1. No convention shall be called, having the authority to alter the Constitution of the State, unless it be in pursuance of law, passed by the affirmative vote of a majority of the members elected to each house of the legislature and providing that polls shall be opened throughout the State, on the same day therein specified, which shall not be less than three months after the passage of such law, for the purpose of taking the sense of the voters on the question of calling a convention. And all acts and ordinances of the said convention shall be submitted to the voters of the State for ratification or rejection, and shall have no validity whatever until they are ratified.

at least three months before such election in some newspaper in every county in which a newspaper is printed. And if a majority of the qualified voters, voting on the question at the polls held pursuant to such law, ratify the proposed amendment, it shall be in force from the time of such ratification, as part of the Constitution of the State. If two or more amendments be submitted at the same time, the vote on the ratification or rejection shall be taken on each separately, but an amendment may relate to a single subject or to related subject matters and may amend or modify as many articles and as many sections of the Constitution as may be necessary and appropriate in order to accomplish the objectives of the amendment.

### WEST VIRGINIA CHILDREN'S HOME

#### Elkins

*Superintendent: Mr. Bruce Haddix. Clerk: Wanda Siler. Children: 60.*

The West Virginia Children's Home, located in Elkins, was established by an act of the Legislature in 1899 and formally opened in 1911. The two-story brick structure is located on a 20 acre tract—equipped with playground equipment and an open air swimming pool. The Home operates an ultra modern Elementary School which provides the latest techniques of modern education. The educational program offers the services of tutors three nights a week for all students. The summer months offer a program of activities provided supervision by teachers of Randolph County and college students. This program provides field trips, outdoor recreation, arts and crafts and also classes in reading, writing and arithmetic—the classes are for elementary students—other students attend regular summer school. The main purpose of the Home is to provide for orphan and neglected children between the ages of 6 to 14—a home away from home. It is the objective of the Home to provide a stable life without the traumatic upheavals with a staff of persons dedicated to working with children who are unwanted and uncared for in their own homes. Children are admitted either by a court order by the Department of Welfare and by Juvenile Court to be kept, maintained, educated and trained until they can be returned to their former homes or placed in foster homes. Children are provided the services of a full-time counselor, and a social worker from the Department of Welfare and the Appalachian Mental Health Center. These services are of great benefit in helping this type child with deep-seated problems. Religious training is provided by the local churches, and the children attend Sunday School and Church each Sunday, also take part in various youth activities of the community.

## CORRECTIONAL

### ANTHONY CORRECTIONAL CENTER

#### Neola

*Superintendent: Thomas B. Freeman. Business Manager: Everett Norton.*

The Anthony Correctional Center was leased equipped from the United States Forest Service. The Center is located at Neola in Greenbrier County, on Route 92, near White Sulphur Springs. The site has sixty-one acres, three dormitories, kitchen, dining hall, gymnasium, maintenance shop, office building, two all purpose buildings and three residences.

The Center was opened in October, 1970. It serves as a community involved, educational oriented facility for male offenders ranging in ages sixteen to twenty-one, with a capacity of 168.

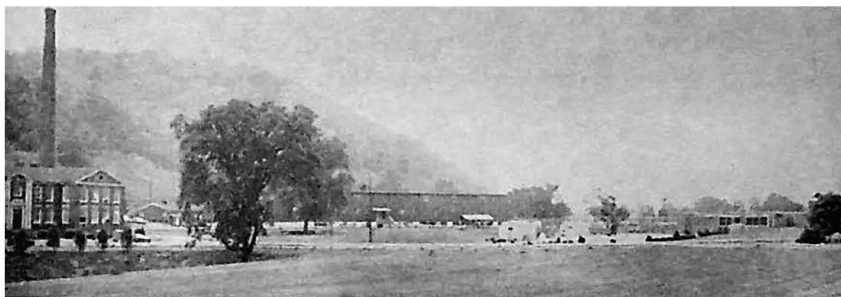

### COLIN ANDERSON CENTER

#### St. Marys

*Acting Superintendent: Orlando Daumy, M.D.; Hospital Administrator: William E. Richards, Jr. Average daily resident population: 491.*

Colin Anderson Center is located four miles north of St. Marys, on State Route 2, in Pleasants County. Established in 1921 by an act of the Legislature, it was formerly known as the West Virginia Training School. In 1965, the Legislature changed the name of the institution to Colin Anderson Center, in honor of the late Dr. Anderson who served as superintendent with dedication and devotion from 1958 until his death in 1964.

Colin Anderson Center, located on a 694 acre plot, is the State's only residential treatment center for the mentally retarded. Designed as a training

facility, it has over the years accumulated a large number of severely retarded whose potential for profiting from training programs is limited. Despite the nature of the population, intensive training programs have been developed and small numbers of residents are being released to productive semi-independent lives in the community.

A special education program was organized in September, 1966, and accredited in August, 1967, by the State Department of Education. The program includes early childhood education, kindergarten, primary classes, intermediate classes, prevocational training, adult education, and classes for the physically handicapped. Also offered are swimming, scouting, recreation, arts and crafts, library, homemaking, and good grooming instruction. Educational seminars, tours, and workshops are held periodically. Weekly church services are provided in the community and on grounds by the Pleasants County Ministerial Association. An active volunteer services corps consisting of over 150 community volunteers provide additional services to the children and three busses are available to transport the children to off-grounds trips and to community-oriented activities.

The center is operated to provide complete care for mentally retarded children. The aims are to promote happiness, self-reliance, socialization, vocational training, and to attempt to equip those children who are able to return to community life. It is recognized that some children are unable to benefit from a training program, and for these custodial care is provided, always with a view to increasing their comfort and safety, as well as promoting some degree of self-care and independence.

To further expand services to the mentally retarded, a vocational rehabilitation center was opened there in January, 1965. Children are also accepted for training courses at the State Rehabilitation Center at Institute.

Medical and dental care are offered, along with classes of an educational and vocational nature. Occupational therapy classes are planned to develop potential skills.

A halfway or readjustment house, located in Parkersburg, is providing a transitional experience toward independent living for young males. Patients who might qualify for the readjustment house, before actually being transferred there, are taken for weekend readiness periods. Staffed with two houseparents, a social worker, and a recreation supervisor, the house has graduated nearly 25 boys.

A new behavior modification program called ECHO—each child has opportunity—is now in operation for the severely mentally retarded. The project stresses reward for normal behavior and has proven successful with this disability group.

An activities building and four residential cottages were ready for occupancy in 1972.

Training and treatment do not constitute the entire need of anyone, especially children. Children need affection and attention, and the foster grandparent program meets these needs. Persons over 60 with a low income can become grandparents to these children providing them with a warm personal relationship. Approximately 150 persons in the State serve as foster grandparents to patients at Colln Anderson Center, Lakin State Hospital, and the Charleston Day Care Center.

**WEST VIRGINIA FORESTRY CAMP FOR BOYS****Davis**

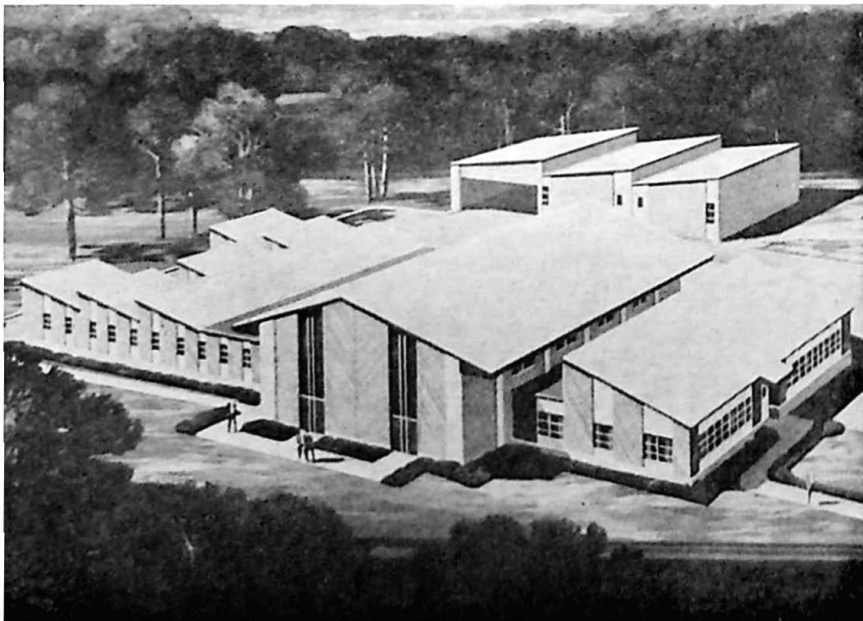

*Superintendent: Kenneth Rubenstein. Business Manager: Orland J. Massi. Enrollment: 86.*

West Virginia Forestry Camp for Boys is located at Davis, Tucker County, West Virginia, one mile west of Rt. 32. It was authorized by an act of the Legislature in 1955 and was established in 1956. It houses youthful male offenders between the ages of sixteen and twenty-one who have been convicted of or who have plead guilty to criminal offenses, other than capital offenses, and who in the opinion of the committing court, are amenable to discipline other than in close confinement. The period of confinement is one year, or longer if it is deemed advisable by the Camp Superintendent, but in any event it shall not exceed two years.

It is strictly an honor institution and its training program consists of four separate, yet well integrated phases. These are: (1) Work Programs; (2) Educational Program; (3) Recreational Program; (4) Individual and Group Counseling. All of these are of equal value and importance.

The work program incorporates various aspects. Outdoor activities are conducted in cooperation with the West Virginia Department of Natural Resources in the upkeep and general maintenance of the Blackwater Falls State Park. Approximately twenty-five percent of the residents are utilized for various camp jobs. The towns of Thomas and Davis use boys on a daily basis in maintenance work on municipal projects. On several occasions the residents have also aided civic and charitable organizations with their various projects. Let it also be noted that the residents are compensated monetarily for all services rendered.

A year round Recreational Program has been developed with the boys participating in area independent basketball and softball programs. Other sports played are football, volleyball, badminton, tennis and horse shoes.

The Educational Program consists of academic and vocational courses. The chief goal of the Educational Program is to keep refreshed the minds of those boys who plan to go back to school when they are released and to develop in those that do not go back to school a trade that can be used on the outside.

A counseling program consisting of both individual and group counseling is used very extensively.

Church services are held every Sunday in the Camp Chapel. Provisions are made for Catholic residents to attend church in the local community adjacent to the institution.

The staff consists of the Superintendent, Business Manager, Secretary, Clerk, Counselor, three Teachers, Athletic Director, Chaplain, Doctor, Nurse, Laundry Matron, three Cooks, Security Officer and nine Supervisors.

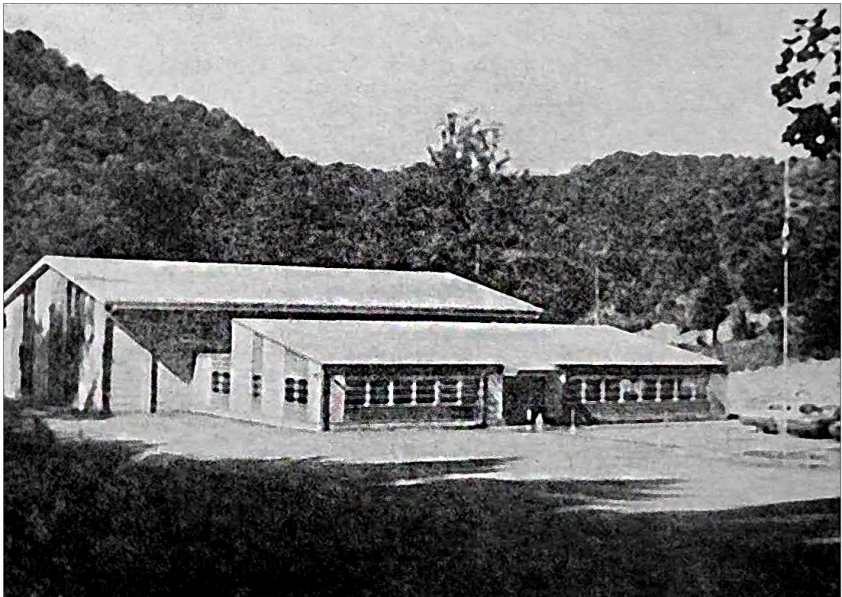

## WEST VIRGINIA FORESTRY CAMP FOR BOYS

### Leckie

*Superintendent: Richard G. Mohn. Business Manager: Raymond A. Walker.*  
*Enrollment: 78.*

The West Virginia Forestry Camp for Boys is located at Leckie in McDowell County. It was opened in April, 1970.

The Camp houses youthful male offenders between the ages of 16 and 21 who have been convicted of or pleaded guilty to criminal offenses, other than capital offenses, and who in the opinion of the committing court do not

require the security and regimen of close confinement. The period of confinement is one year, or longer if it is deemed advisable by the Camp Superintendent, not to exceed two years.

This facility is intended to be an honor institution, and if so determined by the Camp Superintendent, any resident can be returned to the committing court to be further dealt with according to law.

The institutional program consists of four separate yet well integrated areas. These areas are work program, educational program, recreational program and individual counseling. All four of these are considered to be of equal value and importance in the rehabilitation of the youthful offender.

Approximately twenty percent of the residents are utilized for various camp jobs such as kitchen, laundry, barracks, and general camp maintenance jobs. The residents are doing a part of the masonry, electrical, plumbing, and carpentry work under the supervision of construction personnel. All residents are monetarily compensated for such work services outlined above. This is placed in a trust account and given to the resident upon his release.

The educational program consists of both academic and vocational courses. The academic courses offered are history, health, math, reading, typing and English. The vocational courses offered are woodworking, masonry, welding, auto mechanics, and crafts. The major goal of the educational program is to assist those planning to return to public school upon release and to develop a trade and marketable skill for others. The school program is upgraded and as much individual tutoring as possible is administered to residents according to individual needs. At the present time, the educational program is conducted by three full-time teachers. The program is strictly voluntary and extended only to those who desire to participate.

A year-round recreational program has been developed by a full-time athletic director. This program consists of football, softball, basketball, volley ball, badminton, tennis and horse shoes. Every resident is encouraged to participate in these activities.

A counseling program consisting of individual counseling is used. This is conducted mainly by the Camp Counselor and the Camp Superintendent. Other staff members such as instructors and supervisors also help with this aspect of the program.

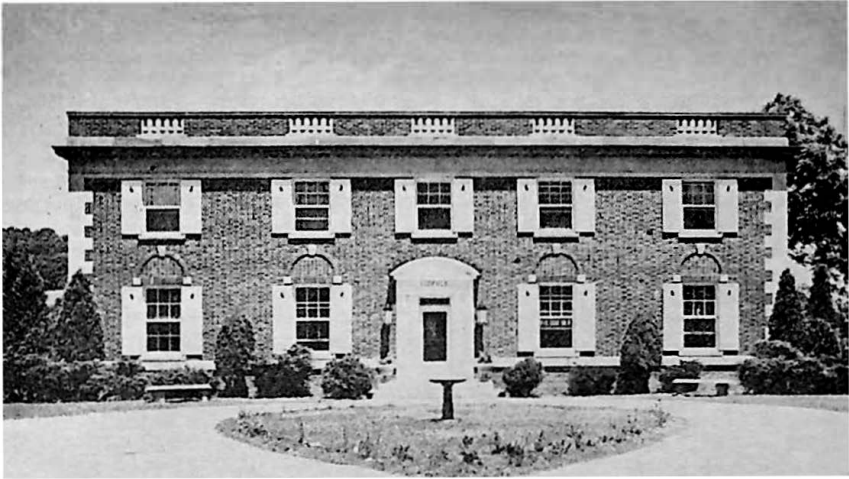

Protestant church services are held each Thursday and Sunday in the camp dining hall by a local minister who is employed as Chaplain. Provision will be made for Catholic residents to attend religious services in the community as the need arises.

Medical services are provided by a health nurse who is employed on a daily basis. Emergency or other major problems are referred to a State hospital in the immediate area. Dental work is conducted by a local dentist.

Since the institution is intended to operate on an honor basis, no corporal punishment is used. Instead, staff members provide punishment by the withdrawal of privileges. One privilege that has been employed is the awarding of weekend passes on a rotation basis of every four weeks to the individuals deserving them. Any resident who receives more than five demerits in one week will be dropped back a week on the pass rotation list. This program has proven to be very successful. The families of the residents provide transportation.

Parents, relatives and friends are free to visit the residents any weekend or holiday. The visits take place generally in the dining hall of the center. If and when they receive honor status, residents are allowed to visit surrounding communities with their relatives and parents between the hours of 9:00 a.m. and 5:00 p.m.

A resident must be in the camp for a minimum of sixty days before he is eligible to become an honor resident. This status is awarded to those residents who qualify by attaining the necessary percentage of good grades during that period.

## WEST VIRGINIA INDUSTRIAL HOME FOR GIRLS

Industrial, West Virginia 26375

*Superintendent: Betty Lou Bambrick. Financial Secretary: Eleanor Bumgardner. Capacity: 95. Enrollment: 90.*

West Virginia Industrial Home for Girls is located one mile west of Salem, on old U. S. Route 50. It was established by an act of the Legislature on February 18, 1897, and formally opened May 5, 1899. It was built on a 61-acre tract of which 11 acres have been returned to the City of Salem for a park.

From Jones Cottage, the first building, the plant has grown to include the following: Silver Hall Cottage in 1914; Sutton Cottage in 1928; Ava Standard Cottage in 1942; Barron Hall in 1961. The Administration Building also built in 1942, includes offices and visiting rooms on the first floor. Living quarters for the Superintendent, with guest rooms comprise the second floor. Living quarters for the Assistant Superintendent and Business Manager are provided in Barron Hall. The plant also includes the school building erected in 1915, which is called the Johnston School, with a very modern gymnasium completed in 1951. A large four-temperature storage building was completed in 1953. The Home also has its own Medical Clinic and this year a new Dental Clinic was established with the assistance of the Dental Division of the State Department of Health.

The girls receive standard and first class high school training in a well-planned school program, with classes offered from second grade through twelfth grade. The high school has been in operation since 1937 and since that time 402 girls have graduated from high school and 961 have graduated from the eighth grade. Some of the classes offered are: Foods, clothing, home-making, English, Social Sciences, such as civics, American history, geography, West Virginia history, mathematics, sociology, library training, biology, general science, business training, such as first and second year typing, general business, bookkeeping, art and music. The required subjects are offered for the grade girls. In the school building, there is a well-stocked library, to which the State Library Commission contributed a portion of the books on different reading levels, reference books, newspapers, and magazines. There are a well-equipped practice

kitchen, sewing room, typing room and well-lighted and ventilated class rooms, in each of which there is a wall screen for the showing of educational movies. For three years, a well projected summer program of recreation, remedial reading, arts and crafts, music and cosmetology has been in effect, with the help of the federal program, for the neglected and delinquent children.

A program of rehabilitation is being carried out through the carefully planned work of the school, in the dormitories in which the girls live and by the administration of the institution to which a staff Counselor has been added. They also receive religious training with chapel services conducted by a full-time Chaplain and a part-time Catholic Chaplain.

## WEST VIRGINIA INDUSTRIAL SCHOOL FOR BOYS

### Grafton

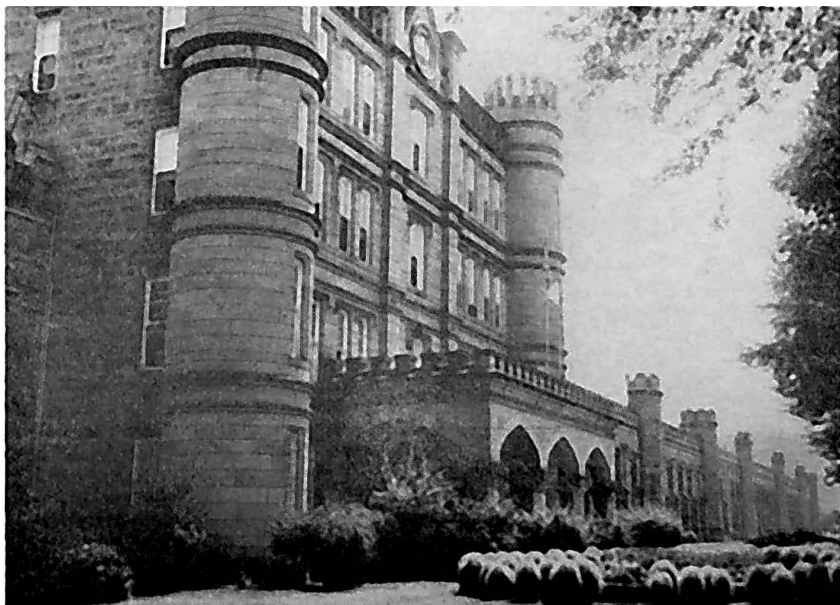

*Superintendent: James D. Kerns. Assistant Superintendent: Charles N. Taylor. Business Manager: James A. Hoffman. Enrollment: 210.*

The West Virginia Industrial School for Boys is located at Pruntytown, three miles west of Grafton on U. S. Route 50. It was established by an act of the Legislature in 1889 and formally opened July 21, 1891. In addition to the principal buildings, which are located on the main campus consisting of approximately 55 acres, the School owns and operates a farm of approximately 1,900 acres on which are located a considerable number of farm buildings. The boys work on the farm during the farming season at which time emphasis is placed on the training value of such a program, directed toward improving work habits and maintaining discipline standards. For use of the School a dairy herd of registered cows is maintained on the farm and milk is pasteurized and homogenized in the modern plant of the institution.

The School now has a vocational rehabilitation training program consisting of certified vocational instructors for full-time vocational instruction in the fields

of industrial arts, auto mechanics, welding, vocational agriculture and building trades. As funds become available, this highly important phase of the program is to be expanded. In addition to this, there are training units in shoe repairing, baking, butchering and meat cutting. The School also maintains the following units in which the boys receive a certain amount of training: Painting, plumbing, laundering, woodwork, canning, auto mechanics and carpentry. The academic school is operated on approved State standards and contains grades one through twelve. Educational T.V. is a part of the academic program and instruction is offered in the preparation and presentation of T.V. programs, through closed circuit. In compliance with the State law, those under sixteen years of age are required to attend academic school for a term of ten months each year. A well-planned recreation and physical education program operates under the supervision of competent men. Football, basketball (indoor and outdoor), baseball, softball, volleyball, swimming, track and horseshoe pitching form the backbone of this program. There are two black-top play areas that can be used for tennis or basketball.

A Social Service Department classifies each boy upon his reception, presents him for parole and/or discharge at the proper time and maintains liaison between County and State authorities. In most instances, the boys are placed in cottages according to their age or size or both. An honor system has been established as a stimulant to good behavior and achievement for the boys and it is working well. A Drum and Bugle Corps, consisting of approximately 40 boys, is in operation and appears at many parades and festivals through the year, and there is now an active Boy Scout Troop. A full-time Chaplain, especially trained for this work, offers classes in religious education in the academic school and holds weekly religious services for the boys. A program of counseling and guidance is an integral part of the treatment program and is carried on through both individual and group therapy.

## PENAL

### WEST VIRGINIA PENITENTIARY

#### Moundsville

*Warden: Ira M. Coiner. Associate Wardens: William Wallace and Robert L. Gunnoe. Business Manager: Dudley Beck.*

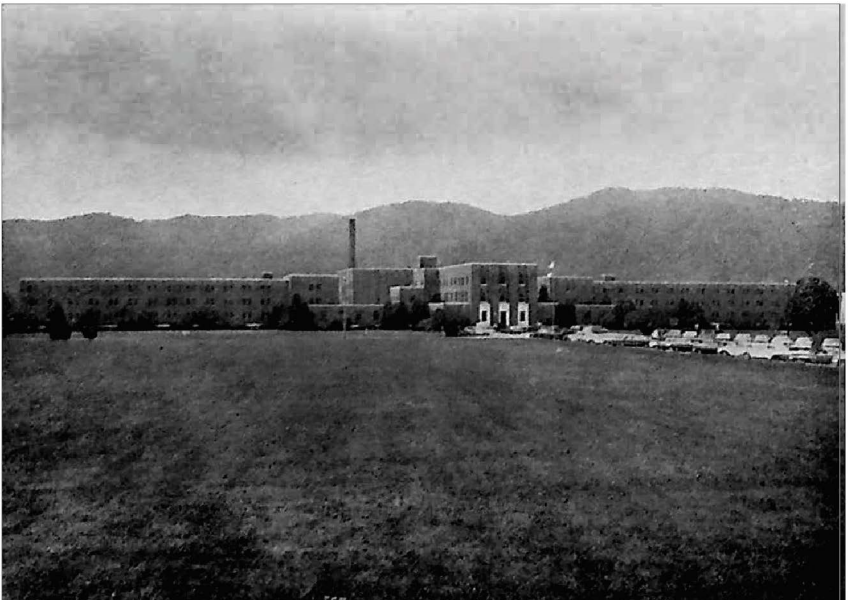

The West Virginia Penitentiary was built in the year 1866 on its present location at 818 Jefferson Avenue, Moundsville, West Virginia, for felons without restrictions as to age or sex. This was restricted to males only in 1948. The Penitentiary proper has expanded over the years and now covers in excess of six acres of land area.

As of May 1, 1972, the inmate population of the West Virginia Penitentiary was 612. There are 55 inmates known as honor men, who during the day work outside the confines of the prison. These men are employed in the operation of the farm, garage and industry warehouse. There are 173 inmates employed in industry producing paint, tobacco, soap, clothing, license plates, mattresses and printing.

The security of the Penitentiary is maintained by a 175 man guard force under the administrative supervision of a Warden, two Associate Wardens, a Chief Correctional Officer, a Captain of the guards and 7 Lieutenants. The guard force operates as a semi-military organization.

All the commodities manufactured at the institution are for sale to state agencies, county and city governments. Prison produced goods are never sold on the open market, nor out of the state.

The Penitentiary is located on a ten-acre plot of ground with six acres enclosed by a 24 foot high cut stone wall. There are 882 cells available, making possible an individual cell for each inmate.

**Moundsville Correctional Center**

**HUTTONSVILLE CORRECTIONAL CENTER****Huttonsville**

*Warden: Lloyd Edward Haynes. Associate Warden: Bob Richards. Deputy Warden: Leo Skidmore. Business Manager: Herbert E. Ferrell. Inmates: 275.*

The Huttonsville Correctional Center is located on a farm near Huttonsville and is 18 miles south of Elkins on U. S. Routes 219 and 250. It was established by an act of the Legislature in 1937 and was designed to relieve over-crowding at the West Virginia Penitentiary and at the same time aid in the rehabilitation of prisoners. The majority of the inmates are employed in general farm work but many are employed in other vocational trades. They are quartered in modernly equipped dormitories in which there are no cells. The farm consists of 5,000 acres of which approximately 2,000 acres are suitable for cultivation and pasture. The farm products produced are in excess of the needs of the institution and are sold to other state institutions. Much of the food grown on the farm is canned in the very modern equipped cannery. [The 1947 session of the Legislature separated the Medium Security Prison Farm from the West Virginia Penitentiary and established it as a separate institution. All provisions of the law applicable to the Penitentiary are in effect, except that criminal proceedings against inmates of this institution are brought in the Circuit Court of Randolph County. The 1970 Legislature changed the name to "Huttonsville Correctional Center".]

**WEST VIRGINIA STATE PRISON FOR WOMEN****Pence Springs**

*Superintendent: Mrs. Lucille Blankenship. Financial Secretary: Mrs. Mary K. Lawrence. Capacity: 60. Present Population: 26.*

The West Virginia State Prison for Women was established by an act of the West Virginia Legislature in 1947. Prior to that time women who were sentenced to prison in West Virginia were housed in one wing of the State Penitentiary at Moundsville. The Prison is located at Pence Springs, Summers County, on Route No. 3, fifteen miles east of the city of Hinton.

The Prison is situated on a 205.6 acre tract of land which consists of well kept grounds, fifty acres of fertile farm land and several acres of woodland. The main building is well suited for its present use. It is a large three-story red brick with full-sized basement and attic. The first floor has spacious living room, staff and resident dining rooms, kitchen, business offices, commissary and sewing room. The second and third floors consist of resident rooms, hospital unit, quarantine unit, security unit, and officers quarters. The basement has a large room which is used for sewing and crafts and other sections which are used for laundry, walk-in freezer, photography room, and quarters for the male officers on duty. Near the main building are the Chapel and assembly room. The assembly room is furnished with a piano and eighty individual chairs. In a separate building is a well-equipped cannery for the mass production of canned and frozen foods. Outside the security fence is the Superintendent's five-room cottage and a duplex which has a furnished apartment for the Financial Secretary and an apartment for guests of the institution. There is also a garage, storage and farm equipment building and piggery on the grounds.

The sewing and craft department is used for vocational training. Many garments are made for institutional use and classes are taught in weaving. Rugs are woven for resident rooms, as well as many pieces of linen and upholstery material. The residents are taught the art of cooking and serving through the food service and the laundry assignments prepare many girls for work in home or commercial laundries.

State Prison for Women, Pence Springs

In September of 1968, an Adult Education class was initiated with a fully qualified teacher from Summers County conducting classes two evenings each week. Women completing the course satisfactorily received a high school equivalent diploma.

A complete program is carried out with visiting ministers three times a month. Several interested Church and laymen groups have visited the institution and conducted services. The Sunday School conducted by the residents is well attended.

## HOSPITALS AND SANITARIUMS

### ANDREW S. ROWAN MEMORIAL HOME

#### Sweet Springs

*Superintendent: Dr. Ralph Frazier. Business Manager: O. B. Grimmell.*

The Andrew S. Rowan Memorial Home for aged men and women was established by an act of the Legislature in 1945 and opened to guests July 1, of the same year. Named in honor of Andrew Summers Rowan, a Monroe County native who was famous for his Spanish-American War exploits. Born at nearby Gap Mills, Rowan was immortalized by Elbert Hubbard's essay "A Message to Garcia". This story tells of Rowan's landing near Turquino Peak, Cuba, in April, 1898, to contact the insurgent leader General Garcia. The carrying of the

Andrew S. Rowan Memorial Home

message and returning with information about the insurgents was of immense value to military operations in Cuba later.

This Institution is located at Sweet Springs, Monroe County, in the heart of the Blue Grass Section, on State Route No. 3 midway between Union and White Sulphur Springs.

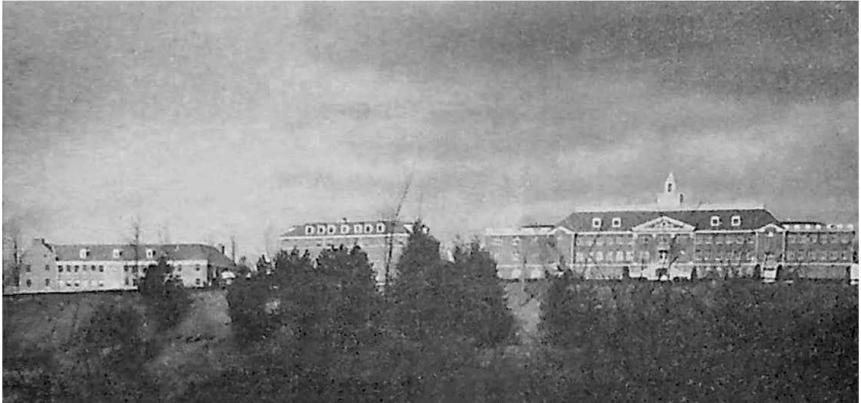

There are many historical facts and traditions associated with the buildings and grounds. The oldest and largest building was completed in 1833 and is of the Thomas Jefferson design and named in his honor. A ninety-six bed annexation to the building was completed in 1958. There are six hundred ninety acres including two hundred twenty-five of farm and pasture lands and approximately thirty buildings. The dormitory used for men has undergone extensive repairs and alterations. A sprinkler system has been installed in the building even though some of the buildings are already fire proof. An excellent herd of registered Holstein cows is kept on the farm which supplies the guests with a bountiful supply of milk. The milk plant is one of the best to be found in this county.

To be eligible for admittance, all applicants must have attained the age of at least sixty-five years and have been residents of the State of West Virginia for at least one year prior to making application. They must be able to take care of their personal needs, dress and undress themselves, walk to a central dining room and be mentally competent. This institution is operated solely as a home for the aged; it is not a hospital, nursing home or sanitarium. Two persons occupy a room and there is a central bath.

There are two types of admissions, namely, those who are able to pay for their care and those who are not able to pay their own way. The latter may make application through the Department of Welfare of the county in which they reside.

The rate for a voluntary pay guest is \$52.50 per month, payable in advance. \$37.50 of this amount is for maintenance and the other \$15.00 is put into a trust fund to take care of personal expenses, such as personal laundry and dry cleaning and small luxuries which the State does not provide.

A medical examination is required, also a chest X-ray. Application forms for voluntary pay admittance are available here or in the Commissioner of Public Institutions Office, Charleston, West Virginia 25305.

Barbourville State Hospital

## BARBOURVILLE STATE HOSPITAL

### Barbourville

*Clinical Director: R. P. Abellera, M.D.; Hospital Administrator: John Queen.*  
*Average daily resident population: 308.*

In 1941, the State purchased 24 acres of land in Cabell County and two buildings that had been used as dormitories for Morris Harvey College. The buildings were reconditioned and equipped and on January 20, 1942, Barbourville was officially opened. Located off U. S. Route 60 at Barbourville, the hospital was originally named the Barbourville Unit of Weston State Hospital. The 1947 Legislature changed the name to Barbourville Unit of Huntington State Hospital, and the 1949 Legislature established it as Barbourville State Hospital.

Patient capacity continued to grow through additional renovation. In 1942, the hospital could accommodate 270 patients. In 1947, funds were appropriated for an administration building and for a storage building. The 1949 Legislature made an additional appropriation for construction of a laundry building and for additional renovation of old buildings. When all this work was complete, the capacity rose to 368. In 1957, \$100,000 was appropriated for construction and furnishing of a male employees' dormitory and in 1964 this building was converted into a patients' self-government ward.

In June, 1967, ground was broken for an activities building which has provided classroom, workshop and auditorium facilities for training, education and recreation activities. More recent physical improvements include new fire escapes, fire alarm systems, air conditioning, as well as renovation to the heating and electrical systems.

Barbourville functions slightly different from the other institutions since there are no direct admissions. The older mentally retarded and mentally ill persons are transferred there from Weston, Spencer, Lakin, and Huntington State Hospitals, Colin Anderson Center and private hospitals.

Barbourville was the first hospital to institute a camping program. In 1967, 32 patients, fifteen staff members, and five VISTA Volunteers pioneered the camping program for hospitalized mental patients. The positive changes in patients were noticeable immediately. Patients, who had not changed in years, began to respond. The therapeutic possibilities of camping seemed unlimited. Today there is a state camping coordinator and camping programs at each of the State's six institutions. The program ranges from daily trips to two-week programs for advanced campers with over 1,000 patients from all hospitals participating in the program.

In 1970, a rehousing program involving 28 patients was completed. One ward was redesigned to include 14 rooms with 2 persons per room to create a more normal atmosphere and to depart from traditional ward living. This dehospitalization process is designed to make the patients aware of personal needs and personal hygiene. Patients in this unit must maintain their own living quarters in planning for eventual return to community life.

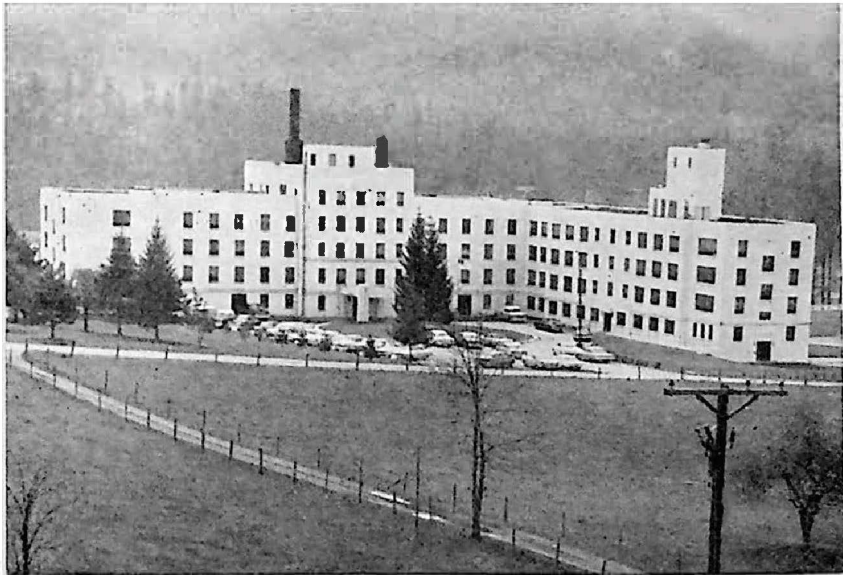

## DENMAR STATE HOSPITAL

### Beard

*Acting Superintendent: Harvey A. Martin, M.D. Supt.: Roy S. Drake. Physicians: Eun L. Chun, M.D., Jenaro A. Valencia, M.D. Patients: 180.*

Denmar State Hospital is located in the Allegheny Mountains approximately six miles southeast of Hillsboro in Pocahontas County on an eminence overlooking the Greenbrier River. The building and the site, at about 2200 feet above sea level, are among the most beautiful in the State. The 185 acre tract is used to support a dairy facility, a swine production program, and extensive vegetable gardening; the entire production of the farm being used by Denmar and other State institutions.

At Denmar, care and treatment are available to needy, chronically ill residents of West Virginia approved by the Commissioner of Public Institutions.

## FAIRMONT EMERGENCY HOSPITAL

### Fairmont

*Clinical Director: Paul S. Gotses, M.D. Superintendent: Larry N. Steele.*

This is a general hospital located in Fairmont, Marlon County, which was constructed in 1899 for the purpose of treating persons who had sustained occupational injuries.

In addition to serving private patients, the Institution now provides medical and surgical services for medically indigent citizens residing in Northern West Virginia and for the residents and patients of all State penal, correctional, charitable and mental institutions which are located in that area of the State.

The physical facilities of the hospital have steadily improved and include a new x-ray unit and remodeling of the x-ray room. Additional staff have made it possible to further improve the services furnished by the hospital.

Fairmont Emergency Hospital

### GUTHRIE CENTER Charleston

*Chief Medical Officer: Cresencia R. Corales, M.D.; Project Director: Ida B. Chamberlain. Average daily resident population: 67.*

Guthrie Center is located five miles north of Charleston on U. S. Route 21. Formerly Guthrie Air Force Base, the center began operation in 1969. The purpose of Guthrie was to relieve the overcrowding at Spencer State Hospital by transferring patients who could make adjustment back to normal living to a facility that specialized in half-way rehabilitative services.

During the first two years of operation, Guthrie served 265 patients and reduced the population at Spencer by nearly 200. Admissions are mainly from Spencer, but patients from other institutions, as well as from the local community, are accepted.

The programs are designed primarily for those patients whose psychiatric condition has improved to the extent that they are considered nearly ready for return to their home communities. Several experimental activities such as hospital industries and a patient-employee program are underway. Other programs for geriatric patients and mentally handicapped vocational rehabilitation clients are in the planning stages.

An alcoholic treatment unit is in operation and serves eight to twelve patients every five weeks. A special program for emotionally disturbed children was started in 1971.

A drug treatment unit was added in late 1972.

## HOPEMONT STATE HOSPITAL

### Hopemont

Clinical Director: Dr. Hilton C. Rocha. Superintendent: William H. Lovett.  
*Capacity: 300.*

Hopemont State Hospital, formerly known as Hopemont Sanitarium, is located on a 1,000 acre tract of land at Hopemont, near Terra Alta, in Preston County, and was founded in 1913 as a hospital for the treatment of tuberculosis. In 1965, legislation was enacted to change the name of the hospital and to convert it to an institution for the chronically ill. In 1968, a part of the hospital was certified eligible as an extended care facility.

The medical staff is composed of a clinical director, a consultant and three full-time resident physicians.

The service also includes a full time laboratory technician, X-ray technician, physical therapist, occupational therapist, three social workers, a part-time registered dietitian and a part-time registered pharmacist. There is a well

Hopemont State Hospital

trained staff of nurses along with both male and female aides, who receive on the job training.

Other units of the institution consist of residences, nurses' home, post office, maintenance shops, laundry and a farm where a registered Holstein herd of cows provides milk for the facility, a piggery provides pork and a sizeable truck farm provides garden products in season.

## HUNTINGTON STATE HOSPITAL

### Huntington

*Superintendent: Jaime E. Lazaro, M.D.; Acting Hospital Administrator: Randall L. Baumgardner. Average daily resident population: 927.*

Located in Huntington—the county seat of Cabell County, Huntington State Hospital was authorized by an act of the Legislature in 1897. Although Huntington is the second oldest hospital in the State, most of the buildings have been modernized.

The rated bed capacity is 608, but the hospital serves approximately 900 patients daily, drawn from the twelve-county area of Cabell, Fayette, Lincoln, Logan, McDowell, Mercer, Mingo, Monroe, Raleigh, Summers, Wayne, and Wyoming counties.

The hospital is maintained and equipped to provide modern treatment for all types of mental illness. The physical plant includes an administration building and four ward buildings. There are facilities for all patient-care services such as laundry and kitchen and also occupational and recreational therapy. One of the ward buildings has been established for medical services including surgery, x-ray laboratory, electro-cardiograph, and a modern pharmacy. A vocational rehabilitation center is located on the grounds to complement the other programs.

During 1970 Huntington State Hospital completed the transformation of the entire hospital into a geographical unit system. This was accomplished by the movement of 712 patients into four units—each staffed with doctors, nurses, social workers, adjunctive therapists and a complement of aides. Rehabilitation personnel are also available in each of the units and psychological services are provided on a consultant basis. Each of these units corresponds to a community mental health center in its respective area. This new set-up should help reduce the hospital population through increased community treatment.

An alcoholic treatment unit—with a bed capacity of 18—was established in order to give a home to the program that had been in operation for several years. Aversion therapy was also added in 1970 for treatment of chronic alcoholics.

Huntington State Hospital was the first State institution with a residential psychiatric affiliation program for student nurses. This unit is utilized by Wheeling, Parkersburg, and Bluefield Schools of Nursing, as well as by a non-residential program for Marshall University, Morris Harvey College, St. Mary's Hospital and King's Daughters Hospital School of Nursing. College students majoring in social service, recreation, pharmacy, and adjunctive therapy are also on placement throughout the hospital.

The Hospital conducts in-service training programs for its psychiatric aides, nurses, and other professional and sub-professional personnel.

A camping program is conducted each summer at the Huntington State Hospital farm and continues to be one of the highlights of patient activities.

Adult education classes were started in 1970 and some of the patients have passed the GED Test (high school equivalency) as a result of this program.

Huntington State Hospital

## LAKIN STATE HOSPITAL

### Lakin

*Acting Superintendent: Margaret T. Ross, M.D.; Hospital Administrator: Sam L. Nichols, Jr. Average daily population: 420.*

Lakin State Hospital was founded by an act of the Legislature in 1919 and was opened in 1926 for the reception and treatment of Negroes suffering from mental and nervous disorders; however, the staff and patient population have been integrated since 1954.

Located some 10 miles from Point Pleasant, Lakin State Hospital is situated on a large level plot with many acres of adjoining farm land. Lakin serves a population of around 62,000 in Mason, Jackson, and Putnam counties as well as emotionally disturbed children and hardcore alcoholics from throughout the State.

Two three-story brick buildings house the male and female dormitories. Another building contains administrative office areas, laboratory and x-ray units, central supply, and the treatment center for emotionally disturbed children. A newer structure houses the kitchen, dining area for patients, and offices for ancillary personnel. The Lakin Post Office is also located on these grounds.

In May, 1971, the hospital dedicated a new activities building that provides space for classrooms, chapel services, canteen and recreation. Built with State and Federal funds, this new building will allow for the expansion of programs for both adult patients and children. The spacious gymnasium is now being used for both patient therapy and employee recreation activities.

Most of the accepted methods of diagnosis and treatment are utilized including clinical observation, social service, psychological testing, neurological and electroencephalography, occupational music, recreation therapy, and psychotherapy in addition to full utilization of the tranquilizing drugs in an effort to maintain the institution as a treatment hospital rather than an institution for custodial care. The Foster Grandparent project has a very active program here to work hand in hand with the emotionally-disturbed children.

Lakin State Hospital

A self-government group is operating in each of the buildings for adults in an effort to strengthen the patients' sense of independence. The Chaplain conducts regular church services each Sunday and is active in the program for chronic alcoholics.

A vocational rehabilitation center is located on the grounds in what was formerly the male employees' dormitory. Services provided through this center include remedial and special education, cosmetology, homemaking, and manual arts. Patients are screened here for admission to the Rehabilitation Center at Institute for further job training.

In 1952, the hospital received the gold medal award by the Hospital Institute of the American Psychiatric Association which is a national award for achievement. For eleven years, a Psychiatric Aide of the Year was cited for excellency in the care of mentally ill patients. This, too, was a national recognition by the American Psychiatric Association, until its discontinuance in 1963.

## **PINECREST HOSPITAL** **(Tuberculosis and Chronically Ill)**

### **Beckley**

*Clinical Director: H. S. Edwards, M.D. Superintendent: C. O. Smith, Jr.*

Pinecrest Hospital located at Beckley, in Raleigh County, was authorized by an act of the Legislature in 1927 and formally opened March 18, 1930. At that time the hospital was named Rutherford Sanitarium but the 1934 Legislature changed the name to Pinecrest Sanitarium, and the 1970 Legislature renamed it Pinecrest Hospital.

Pinecrest Hospital is located on Federal Routes 19-21 and State Highways 3-41 with thirty-minute bus service connecting with the city and Atlantic Greyhound bus lines, also with the C. & O. Railway in Beckley and Prince.

The Hospital has a fifty-acre campus, and a 200-acre farm, which is modernly equipped for farming, and a dairy herd of 55 Holstein cows supplying milk

## STATE INSTITUTIONS

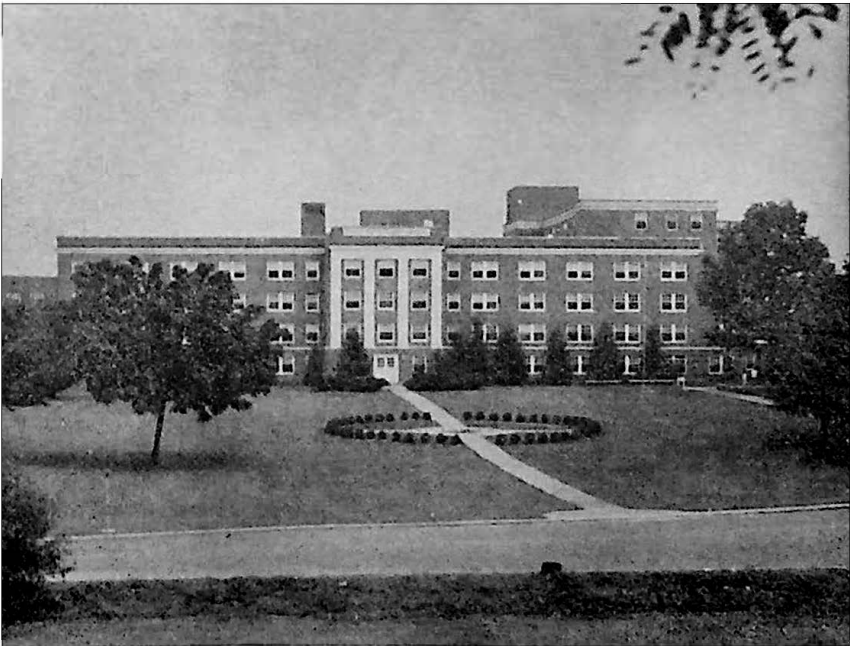

for the institution. A large number of hogs are raised and when finished are sold at a public livestock market. Pinecrest Hospital is composed of four modern fireproof units all connected under one roof, with 536 beds for patients, a modern fireproof nurses' home, five modern dwellings for staff physicians, seven cottages for employees, a central heating plant, dairy barn, hog barn, laundry and numerous outside buildings.

An act of the Legislature in 1965 discontinued Hopemont Sanitarium as an institution for tuberculosis patients, thus making Pinecrest the only tuberculosis institution in West Virginia.

Further decrease of the disease of tuberculosis resulted in many empty beds. Accordingly, the Commissioner of Public Institutions instituted a policy of admitting chronically ill female patients to this hospital where they are housed and treated in areas apart from the tubercular patients. On December 1, 1970, a ward of thirty-five beds was opened and filled almost immediately. In September of the following year an additional ward was opened and forty patients admitted.

Patients admitted to Pinecrest Hospital are assigned to individual physicians who carry out therapeutic procedures that are recommended by the entire staff. In this manner, the patient is given the benefit of consultation by the entire medical staff. The Pinecrest staff is composed of a Clinical Director, Superintendent, Thoracic Surgeon, five full-time physicians, two x-ray technicians and two laboratory technicians.

The ambulatory patients have the privilege of being entertained in the modern auditorium by moving pictures and plays produced by local talent. The Hospital is modern in every respect, with the most modern equipment available for the treatment of tuberculosis, both surgical and medical. A recreational director and trained medical social workers are employed full-time. The Hospital has the services of a full-time Chaplain and assistant.

**RONEY'S POINT****Triadelphia**

*Clinical Director: Cornel Panovicu, M.D. Average daily resident population: 25.*

Roney's Point, formerly the Ohio Tuberculosis Sanitarium, was established in 1967 by an act of the Legislature. Patients were first admitted in mid-1970 following extensive repairs to the physical plant.

The program at the facility is designed to provide an opportunity for residents of the Northern Panhandle area, who have been hospitalized at Weston State Hospital, to be reintroduced to their homes and communities.

A center on Alcoholism and Drug Abuse will be added in 1972.

Spencer State Hospital

**SPENCER STATE HOSPITAL****Spencer**

*Superintendent: Jagdish C. Malhotra, M.D.; Hospital Administrator: J. R. Daniell. Average daily resident population: 807.*

Located in Spencer, the county seat of Roane County, Spencer State Hospital was authorized by an act of the Legislature in May, 1887, and formally opened in 1893.

Although the bed capacity is only 705, Spencer continues to serve over 800 persons daily from the eight-county area of Pleasants, Wirt, Calhoun, Roane, Clay, Kanawha, Wood, and Boone counties, whose total population exceeds 375,000.

The hospital proper is located on a 180 acre tract with its own water and power supply. An additional 295 acres is located about two miles from the hospital in an area known as Trotter Lake and is used as a recreational area

for patients as well as a water shed for the dam that impounds approximately 25,000,000 gallons of water in the lake.

The hospital recently completed a geographic relocation of patients. Thus patients from a county or group of counties are located in a manner to provide a home and community relationship within the hospital. Specialized units are still maintained for the physically ill and infirm alcoholic treatment programs, Medicare and Medicaid patients, and rehabilitation programs.

Spencer State Hospital operates under the open door policy and at the present time 76% of the patients reside on open wards. There are no mechanical restraints employed at the hospital. All forms of psychiatric treatment, such as psychotherapy, electroconvulsive therapy, chemotherapy, milieu therapy, remotivation and group therapy, family counseling, industrial therapy, religious counseling and an active occupational and recreational therapy are utilized at this hospital. A new program, a class in remotivation for patients, has been in effect for two years and has greatly enhanced the hospital therapeutic success.

Spencer has the largest alcoholic treatment unit of any State institution, and served 180 patients during 1970. The Vocational Rehabilitation Center, located on the hospital grounds, offers a new and modern concept to traditional hospital services and closed 112 cases during 1970. Spencer also has modern dental unit and x-ray departments and offers electrocardiogram and laboratory services.

The hospital has an active volunteer services group made up of citizens from Roane County and the City of Spencer. This group has assisted in the expansion of occupational and recreational therapy programs. Each summer extensive camping programs are conducted for Spencer patients. This program, designed to create self-help and provide patient responsibility through out-door activities, has become one of the outstanding therapeutic programs in the modern treatment of the mentally ill.

Welch Emergency Hospital

**WELCH EMERGENCY HOSPITAL****(Surgical)****Welch***Clinical Director: Vacant. Supt.: Miss Doris Kitchen.**(Formerly Welch No. 1 Hospital)*

This hospital is situated in the western part of the Town of Welch. It was established by an act of the Legislature in 1899 and was opened to patients in January, 1902.

The institution has three and one-quarter acres of ground. There are seven buildings on the grounds consisting of the main hospital, nurses' home, power and boiler house, quarters for the aides and orderlies, two cottages and one large building which was used for many years to house the McDowell County Health Department.

The main hospital building is two and one-half stories high. The operating, sterilization and supply rooms are on the third floor. On the second floor are the drug room, superintendent's office, director of nurses office, central supply room and fifteen rooms for private patients.

The first floor has two wings; the south wing has five wards for acute cases—obstetrical, surgical and pediatric patients. A modern children's ward was added in 1965. The north wing is currently being remodeled for a maternity unit—a large obstetrical ward with labor room, delivery room and a new-born nursery.

On the first floor of the hospital is also the business office, record room, dining room, kitchen and store rooms. The kitchen and dining room have been remodeled. Examining rooms for the outpatient clinic are also located on the first floor, with an emergency room for ambulance entrance.

During 1971-72, 25,000 patients were treated. There were 468 surgical cases and 414 babies were delivered. Approximately 98% of the patients treated at this hospital are charity or semi-charity cases.

This hospital provides both surgical and medical treatment for inmates of Barboursville State Hospital, West Virginia State Prison for Women at Pence Springs, Huntington State Hospital and for guests of Andrew S. Rowan Memorial Home.

**WESTON STATE HOSPITAL****Weston***Superintendent: Richard Bracco, M.D.; Hospital Administrator: W. Obed Poling.  
Average daily resident population: 1600.*

West Virginia's oldest and largest mental institution, Weston State Hospital, is located in the City of Weston. Although authorized on March 22, 1958, by an act of the Virginia Assembly, opening was delayed by the Civil War until October 22, 1864. Weston continued to serve 29 of West Virginia's 55 counties.

The physical plant is made up of several buildings, including a vocational rehabilitation center and half-way house for the training and rehabilitation of the mentally ill, an alcoholic treatment unit, and a medicare unit. A section of the main hospital building has been isolated from the rest and is designated as the West Virginia Soldiers' Home. This is also administered by the hospital staff. Male war veterans are admitted there for treatment. The buildings and outlying farm land occupy some 6000 acres of land in Lewis County.

Weston State Hospital

A wide variety of treatment is provided including psychotherapy, chemical therapies, group psychotherapy, cultural enrichment, occupational and recreational therapies and electro-shock therapy. Clinical services include psychiatry, general medicine, social service, psychology, nursing, dentistry, x-ray, pathology and clinical laboratory, electro-encephalography, and a blood bank.

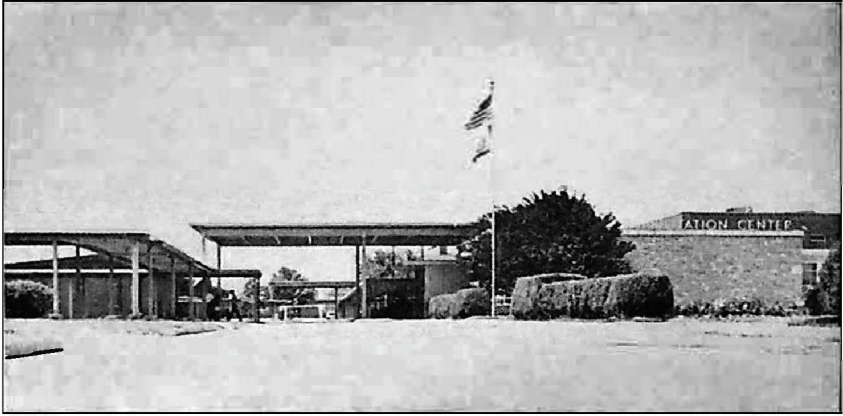

Weston was the first state hospital in West Virginia to complete patient rehousing under the geographic unit locations, and last year the maximum security unit was dissolved and the building converted into an activities center for recreation, occupational therapy, printing, volunteer services and a library.

A teaching unit for nursing education was established under a special grant of \$310,000 and is being used by students from West Virginia Wesleyan, Fairmont State, and Salem Colleges. There is also an in-service training program for psychiatric aides and training of psychologists, social workers, and medical students, which is carried out in conjunction with West Virginia University and other colleges.

A Behavior Modification Unit was instituted in 1970 under a grant from the Hospital Improvement Program. Through the use of diagnostic testing practices, behavior therapy wards, the teaching unit, and the geographic location and community referral program, the patient population should continue to decline.

Although renovation of the physical plant has been slow, new gas-fired boilers have been put into operation, refrigeration units have been updated, a new steam plant installed and fire escapes added in two places.

The hospital staff has continued to grow in size and disciplines. Consultant staff consists of specialists and general physicians as well as professors and instructors from nearby colleges. Part-time Chaplains continue to serve the hospital as well as various members of the local clergy. The volunteer services groups have contributed to a number of services in the hospital.

## WEST VIRGINIA REHABILITATION CENTER AND WORKSHOP

*George F. Gay, Administrator.*

The West Virginia Rehabilitation Center, located 8.5 miles west of Charleston, at Institute, is an integral part of the total program of services available to the handicapped through the Division of Vocational Rehabilitation.

The Center is composed of eleven buildings—several interlocking—situated on a 35 acre tract of land. It is staffed by more than 275 service and professional personnel. The facility provides medical and vocational services needed to rehabilitate the severely disabled. At present, there are 92 types of disabilities served which include such handicaps as mental illness, mental retardation, amputations, blindness, cord injuries, strokes, acute heart defects, cultural or social problems and speech and hearing difficulties.

The Center is a multi-disability, vocationally oriented facility, using the team approach to provide a wide range of rehabilitation services to handicapped persons to prepare them for gainful employment. The Center has a present capacity of 475, with a waiting list of eligible clients in critical need of services.

It offers five major categories of rehabilitation services:

1. **Vocational Evaluation**—The Center offers a comprehensive, intensive vocational evaluation program to determine the specific job or range of jobs for which the client, in view of his capabilities and limitations, is best suited. The program is suited to the individual's needs. Depending on these needs, the evaluation generally ranges from one to two weeks. A team of therapists, physicians, psychologists, vocational counselors and social workers assist the client in obtaining medical and vocational rehabilitation. Depending upon the client's needs, the evaluation may consist of any or all of the following:

- a. Work Evaluation
- b. Functional Studies
- c. Psychological Testing
- d. Social Work-up
- e. Medical Evaluation
- f. Optical Aids Evaluation

2. **Prevocational Adjustment Training**—The Center offers separate prevocational training courses for male and female clients. Training for males is on-the-job training in the Center sheltered workshop activities, building maintenance, and horticulture. Training for females is centered around a homemaking course. Neither course is designed to train the client to be proficient in any particular

subject taught but, rather, to provide a vehicle through which the client receives intensive counseling and opportunity to work with others in the atmosphere in which basic work and social skills may be absorbed by the client. A part of this prevocational training is a mobility and adjustment service for the visually handicapped. The objective of this program is to promote readiness of the blind or the visually handicapped client for vocational training or placement through special mobility instruction and vocational evaluation. Course emphasis is dictated by the individual client needs.

3. *Vocational Training*—Vocational training offered at the Center is designed specifically for agency clients. It is not intended to duplicate or supplant vocational training programs elsewhere in the State. Each course is planned for individual instruction within an established course outline and, thus, each course is flexible enough to meet the needs of the individual client. Major training courses include stenography, accounting, clerk-typist, drafting, radio-TV servicing, upholstery, auto mechanics, auto body repair, auto servicing, electrical appliance repair, laundry operation, sewing, cooking and baking, kitchen and dining room helpers, hotel-motel aide, offset printing, nurse aide, orderly, sheet metal, building maintenance and janitorial, horticulture, keypunch and automatic transmission.

4. *Rehabilitation Treatment*—The Center offers a comprehensive medical service program under the supervision of a medical director, a licensed physician and a dentist and is carried out by a staff of medical specialists, therapists, nurses and others. The program consists of two major areas of services: Medical maintenance and Rehabilitation Treatment.

5. *Sheltered Work Experience (Sheltered Workshop)*—The Center Sheltered Workshop offers a program of sheltered work experience for clients. Through this experience, any or all of the following rehabilitation purposes may be served for the client.

- a. Job Tryout
  - b. Adjustment and Prevocational Training
  - c. Work Conditioning
  - d. Work Application
6. *Other Services*
- a. Remedial Education
  - b. GED Testing
  - c. Civil Service Examination

Huntington

**REHABILITATION HOUSES****Huntington**

The West Virginia Division of Vocational Rehabilitation operates two Rehabilitation Houses in a quiet residential section of Huntington for the benefit of discharged mental patients. The homes—which are often referred to as “Halfway Houses”—are intended to ease the abrupt transition between the state mental institution and the patient’s home community. Only patients who have previously been treated at a state mental institution are eligible to receive services from the two homes.

Both houses are three-story brick homes—nicely furnished with attractive surroundings. The House for Women can accommodate twelve residents and two houseparents. The House for Men has a capacity of fifteen, including houseparents.

All of the patients who are sent to the houses are assigned household duties and are encouraged to accept gainful employment in the community. Home-cooked meals and an active recreation program, both within the houses and the community, help to make life pleasant for the former patients. All are on self-medication and are visited once each week by a physician from Huntington State Hospital.

Vocational training or re-training is provided to those who show a need for it. This may be offered through the State Rehabilitation Center, local trade schools, colleges, or through local business firms which are willing to provide on-the-job instruction. Successful job placement of the Rehabilitation House resident is the ultimate goal of all rehabilitation efforts. This is probably the biggest step for the ex-patient in his return to community living.

**WEST VIRGINIA UNIVERSITY****Morgantown**

Teacher, student, healer, artist, scientist, grower of food and forest, builder of a better world . . . these are the many faces of West Virginia University. It seeks to reconstruct the past, to understand the present, to glimpse and help create the future. The University's concerns embrace the breadth of life . . . plants and animals, man's health, his polluted environment, his prosperity, his comfort, his humanity.

The more than 20,000 students that WVU serves each year are young and old . . . from every West Virginia county and in East Africa (where the University conducts a federally funded agricultural education program). They are coal miners and industrial workers receiving technical training, company engineers keeping up with the newest technology, 18 to 21 year olds discovering the excitement of new ideas, tomorrow's doctors and engineers, teachers continuing their education, firemen, housewives learning about art and how to become wiser consumers.

WVU's organization into colleges, schools, and divisions indicates the variety of its intellectual life: The College of Agriculture and Forestry, College of Arts and Sciences, Center for Appalachian Studies and Development, College of Business and Economics, Creative Arts Center, School of Dentistry, College of Engineering, Graduate School, College of Human Resources and Education, School of Journalism, College of Law, School of Medicine, Divisions of Military

Science and Air Force Aerospace Studies, School of Mines, School of Nursing, School of Pharmacy, School of Physical Education, School of Social Work.

The most significant development in WVU's recent history has been its emergence as a regional center for graduate and professional education. For the first time in its history, WVU awarded more than 1,000 graduate degrees at its 101st Commencement on May 17, 1970. In the 102nd Commencement on May 16, 1971, more than 100 scholarly doctorates were awarded; in addition, 73 J.D. degrees were awarded by the College of Law; 45 D.D.S. degrees by the School of Dentistry; and 66 M.D. degrees by the School of Medicine. The University has awarded more graduate degrees during the past 10 years than during the previous 90 years. This growth in the graduate program is considered to be phenomenal and an important measure of WVU's emergence as a major university and as a regional research center.

West Virginia University's growth in physical facilities from 1957-59 through 1967-68 has been equaled by few universities of its size in the nation. During that decade, more than \$93 million in new buildings and facilities either have been built or are under construction on the Morgantown campuses.

These facilities include a \$7.9 million Creative Arts Center, engineering and agriculture buildings costing \$10 million, the \$27.5 million Medical Center complex, \$18.4 million in dormitories and apartments, a \$2.4 million Forestry Building, \$4 million in chemistry facilities, a \$10.5 million Coliseum, and the Mountainlair, a \$6.7 million campus activities center with its adjoining plaza garage. A \$3.6 million Law Center is now under construction.

A personal rapid transit "people mover" serving WVU and downtown Morgantown, estimated to cost \$30-35 million, is under construction. The first phase, from downtown to the Engineering Sciences area, is slated for completion by October, 1972. The system not only will serve WVU's rapid transit needs, but it will attract engineers and researchers from countries that face similar traffic and pedestrian problems.

The College of Graduate Studies is new in concept and design. It utilizes faculty personnel and facilities of other institutions of higher education as well as maintaining a core of full-time faculty and administrative personnel. Courses are offered at the College generally in the late afternoon and evening. The programs of the College are expected to expand, whereby masters degrees will be awarded in a variety of fields. Currently masters degree programs are offered in business administration, industrial relations, political science, economics, chemical engineering, civil engineering, electrical engineering, industrial engineering, mathematics, counseling and guidance, special education, educational administration, and curriculum and instruction.

Health and Physical Education Building—Bluefield State College

## BLUEFIELD STATE COLLEGE

### Bluefield, West Virginia

Bluefield State College was created in 1895 by an act of the Legislature. Later, a concern for the preparation of teachers led to the recognition of Bluefield State College as a teacher-preparing institution, when the Legislature changed the name in 1931 from "Bluefield Colored Institution" to "Bluefield State Teachers College." The title was changed by the Legislature again in 1943 to Bluefield State College in recognition of its expanding program and the need for a broader service to the people of the State.

The College offers four-year curricula leading to the degrees of Bachelor of Arts, Bachelor of Science, and Bachelor of Science in Education. The major areas of concentration are: art, biology, business, chemistry, education, English, health and physical education, mathematics, music, and social science. Bluefield State College also offers terminal courses in secretarial science, nursing, engineering technology, and computer science. Terminal courses lead to an Associate Degree. A Bachelor of Applied Science Degree in Engineering Technology is offered for the student completing four years of satisfactory study in this field.

Concord College

**CONCORD COLLEGE****Athens**

Concord College is a fully-accredited coeducational liberal arts and teacher education institution. It was founded in 1872 as Concord Normal School. In 1931 the name was changed to Concord State Teachers College and to Concord College in 1943. It is located in the Town of Athens, Mercer County, which is situated near the southern terminus of the West Virginia Turnpike. In addition to this strategic travel location, the mountainous environment (elevation 2,600 feet) provides an ideal year-round climate.

Enrollment for the 1971 fall semester was 1,986. There are 130 faculty and professional staff members.

A campus complex composed of 25 buildings valued at \$23 million provides an excellent setting for study and recreation. Within this complex, one of the main features is The Oakey Logan Alexander Center for the Creative and Performing Arts which houses the fine arts—art, music, and theater. This impressive \$3 million structure consists of two basic multi-level structures—one for the visual arts and the other for theater and music; a third area links the two basic areas together and provides for galleries, lobbies and lounges.

An important new addition to the campus complex is a \$3 million health and physical education facility completed in June, 1972. Ten units of faculty housing were completed in 1970.

The college grants the degrees of Bachelor of Arts, Bachelor of Science, Bachelor of Science in Education, Bachelor of Science in Business Administration, and Bachelor of Science in Medical Technology. Special programs include study in early childhood education, computer science, library science, home economics, health and physical education, social work, and theater. Pre-professional programs are available for medicine, dentistry, law, the ministry and other professions. The usual undergraduate majors in the arts and sciences and fields for teacher certification are offered. Study abroad is available through the College's membership in the Regional Council for International Education.

The College is fully accredited by the North Central Association and the National Council for the Accreditation of Teacher Education, and it is recognized by the American Association of University Women.

**WEST VIRGINIA INSTITUTE OF TECHNOLOGY****Montgomery**

This institution, West Virginia's only state-supported specialized technical college, was established through an act of the State Legislature in 1895.

It first opened its doors on January 4, 1897, as Montgomery Preparatory School, a branch of West Virginia University. It was renamed West Virginia Trades School in 1917.

The Engineering Complex—W. Va. Institute of Technology

In 1921, a visionary principal, C. H. Martin, convinced state authorities that a junior college was needed in the upper Kanawha Valley, especially for the training of much-needed elementary school teachers. Enrollment rose in the now-named New River State School. By 1929, the school was a four-year college and had its first A.B. graduates. A name-change occurred in 1931—to New River State College. Another change in 1941 made it West Virginia Institute of Technology. Its location in the industrial Kanawha Valley, highly populated, promised growth.

The school, popularly known as Tech, is a co-educational college, authorized to offer four years of studies leading to both bachelor of arts and bachelor of science degrees. The college is fully accredited by the North Central Association, the National Council for the Accreditation of Teacher Education, the Engineers' Council for Professional Development, and the American Chemical Society.

The Bachelor of Science is offered in accounting; computer management and data processing; business management; business management—economics emphasis; business—technology option; industrial management; printing management; secretarial studies; chemical engineering; nuclear option; civil engineering; computer science; electrical engineering; mechanical engineering; chemistry; mathematics; physics; pre-medicine; biological and general science education; business education; chemistry and general science education; industrial arts education; mathematics education; music education; physical education, health, and safety education; and physics and general science education. The Bachelor of Arts is offered in English; history and government; language arts education; social studies education; and music education.

The Associate in Science is offered in accounting; computer data processing; general business; secretarial studies; nursing; and the following engineering technologies; chemical, civil, drafting and design (also with civil, mechanical, and mining options); electrical (also with computer and mining options); and mechanical.

## PARKERSBURG COMMUNITY COLLEGE

### Parkersburg

Established July 1, 1971, by the West Virginia Board of Regents, the Parkersburg Community College became West Virginia's first Comprehensive Community College. The College serves the area by providing a wide variety of course offerings in college-parallel programs; in technical and occupational fields; and in community services.

In response to the desire of the citizens of Wood County for a two-year college which would serve the area, the State Legislature of West Virginia, during the 1961 session, passed an act authorizing the establishment of branch campuses. Under the provision of that act and the subsequent action of the Board of Governors of West Virginia University, the Parkersburg Center of West Virginia University opened its doors in September, 1961, to 104 students. Legislation enacted in 1971 authorized the conversion of the Center to a Comprehensive Community College.

Originally housed in the old Emerson Elementary School, the college has now moved to a new campus located on State Route 47 near Interstate 77, two miles from the City of Parkersburg. On this site stands a new educational complex, valued at four million dollars, and offering in 1971-1972, educational opportunity to 2,256 students, who were served by 33 full-time and 39 part-time faculty members.

The college offers a two-year college-parallel program leading to an Associate of Arts degree; an Associate in Applied Science Degree Program, which consists of para-professional and technical programs; a Certificate Program designed to prepare a student for a career in less than two years; and a continuing education program for those who wish to enrich their lives without courses for credit. The College is accredited by the North Central Association of Colleges and Secondary Schools.

### Philippi

Alderson-Broaddus, a Christian liberal arts college has as its purpose the uniting of excellence in academic achievement with dedication to service and cultivation of strong faith.

Broaddus College was established in 1871 in Winchester, Virginia, was moved across the mountains to Clarksburg in 1876, and moved again to Philippi in 1909. Broaddus College and Alderson Junior College were merged in 1932 when the college was renamed Alderson-Broaddus.

It is a private institution chartered under the laws of the State of West Virginia, sponsored by the West Virginia Baptist Convention and affiliated with the American Baptist Convention. While the College is Baptist in heritage and affiliation, it is not sectarian in outlook. ## MORRIS HARVEY COLLEGE

### Charleston

The roots of the College sink deep in the history and traditions of this State. The Southern Methodists, after having lost Marshall Academy during the Civil War, established in 1888, a seminary in Barboursville. This seminary was destined to become Morris Harvey College.

For nearly fifty years, the College served the youth from southern West Virginia and eastern Kentucky. The enrollment was small and the facilities were limited and financial adversaries of the 1930's resulted in the relocation of the College in Charleston.

Today the College is accredited by regional and national associations. Its student body, of more than three thousand, is heterogeneous. The educational program places emphasis on the liberal arts, but provides for teacher education, business and industrial management, chemical technology, structural engineering and nursing. Present enrollment is 3,095.

The College seeks to keep its academic program responsive to the contemporary student and community needs. Urging the faculty to develop excellence in teaching, it seeks the involvement of students in the life of the College, and the broadening of its relationship with other academic and social institutions.

## U. S. ARMY ENGINEER DISTRICT, HUNTINGTON CORPS OF ENGINEERS

502 Eighth Street, Huntington 25721

Congress has delegated to the Corps of Engineers responsibility for the development, construction, operation and maintenance of navigation facilities, flood control structures, and related improvements.

The Civil Works Program of the Corps of Engineers is divided on the basis of watershed drainage areas. The Ohio River drainage basin includes all of West Virginia except the eastern Panhandle, which is in the Potomac River Basin. The Huntington District of the Ohio River Division encompasses that part of the Ohio River Basin in West Virginia downstream from New Martinsville in Wetzel County. The Pittsburgh District encompasses the upstream remainder of the Ohio River Basin including the Basin of the Monongahela River. The Potomac River Basin is included in the Baltimore District of the North Atlantic Division.

Responsibility for military construction in the entire State of West Virginia rests with the U. S. Army Engineer District, Baltimore, Maryland, Corps of Engineers.

Extension of the Ohio River navigation system in West Virginia presently includes three high-lift dams on the Kanawha River and three navigation structures on the Monongahela River. Operation of the former Federal navigation projects on the Little Kanawha and Big Sandy Rivers for commercial navigation has been discontinued and the properties transferred to State or local interests. Navigation is not a feature of the Potomac River located in West Virginia.

Improvement of the navigation facilities on the Ohio River includes construction of modern high-lift structures to replace existing obsolete dams. Eight of these structures are complete. Greenup Locks and Dam, Greenup, Kentucky, replaced Locks and Dams 27 and 28 in West Virginia, 29 and 30 in Kentucky. New Cumberland Locks and Dam, New Cumberland, West Virginia, replaced Locks and Dams 7, 8 and 9 in West Virginia. Pike Island Locks and Dam, Wheeling, replaced Locks and Dams 10 and 11 in West Virginia. Belleville Locks and Dam, Belleville, West Virginia, replaced Locks and Dams Nos. 18, 19 and 20. Racine Locks and Dam, Letart, West Virginia, replaced Locks and Dams, 21, 22 and 23. Others completed are Markland Locks and Dam, Markland, Indiana, McAlpine Locks and Dam, Louisville, Kentucky, and Captain Anthony Meldahl Locks and Dam, Chilo, Ohio. Other navigation structures now under construction on the Ohio River in West Virginia are: Hannibal Locks and Dam, New Martinsville, West Virginia, which will replace Locks and Dams 12, 13 and 14; and Willow Island Locks and Dam, Waverly, West Virginia, which will replace Locks and Dams 15, 16 and 17. West Virginia will benefit from the construction

of these modern navigation improvements on the Ohio River. Additional projects are under way on the lower Ohio River.

Modernization of the obsolete navigation structures in the upper reaches of the Monongahela River also is in progress and is essentially complete. Hildebrand, Morgantown and Opekiska Locks and Dams are complete. Replacement of Lock No. 8, now being studied, would complete modernization of the upper river. Maxwell Locks and Dam, integrated with reconstruction of Dam No. 4, improves the middle Monongahela in Pennsylvania.

Multi-purpose reservoir projects constructed by the Army Engineers within the State include Bluestone Lake on New River at Hinton; Sutton Lake on Elk River at Sutton; Tygart Lake on Tygart River near Grafton; Summersville Lake on Gauley River near Summersville and East Lynn Lake on the East Fork of Twelvepole Creek near Huntington. Reservoirs under construction or to be placed under construction soon include Beech Fork Lake in the Twelvepole Creek Basin near Huntington; R. D. Bailey Lake on Guyandotte River near Gilbert; Bloomington Lake on North Branch, Potomac River; and Burnsville Lake on Little Kanawha River. Reservoir projects under design are Leading Creek on Leading Creek, a tributary of the Little Kanawha River; Rowlesburg Lake on Cheat River near Rowlesburg; Stonewall Jackson Lake on West Fork River; and West Fork Lake on West Fork of Little Kanawha River.

Local protection projects completed by the Corps of Engineers in West Virginia are located at Parkersburg, Point Pleasant, Huntington, Ceredo-Kenova, Ridgeley, W. Va.-Cumberland, Md. (one project), Elkins, Williamson and Barboursville. Channel improvement projects have been completed on Brush Creek at Princeton; on Meadow River at Rainelle; and on Buckhannon River at Buckhannon. Several completed small flood control projects and snagging and clearing projects have reduced or alleviated flood damage along the smaller tributaries of the main rivers within the State.

**UNITED STATES MARINE CORPS**

United States Marine Corps activities in West Virginia include one organized reserve company with a total authorized strength of 150 officers and men and a regular Marine Corps recruiting station in South Charleston with sub-offices located in seven major cities in West Virginia and Bristol, Virginia.

Each reserve unit has a staff of regular Marine officers and enlisted men to instruct, support and advise. This staff is called the Inspector-Instructor Staff.

The annual "Toys for Tots" campaign is one of the proudest achievements of each Reserve unit. The Marine Reserves collect, repair and distribute toys to thousands of children in West Virginia, and the total for the nation last year was in excess of 5,000,000 toys.

The Marine Recruiting Service has the responsibility to select a sufficient number of personnel, both male and female to meet the required military strength of the United States Marine Corps.

The Marine Recruiting Service interviews and advises prospective applicants on the advantages of being a United States Marine; administers mental screening and/or aptitude tests to determine applicants qualifications; verifies references; and makes necessary arrangements for further mental, medical, and administrative processing incident to his enlistment.

They conduct and participate in community relations and special events activities. They maintain liaison with the news media personnel, educators, business and industry leaders, civic groups, and other centers of influence on advertising and publicity matters pertaining to recruiting and the U. S. Marine Corps in general.

A breakdown of the State's Marine Reserve Company and Recruiting Service is as follows:

The Federal Reformatory for Women is situated in the foothills of the Allegheny Mountains in Summers and Monroe Counties. It was established by an act of Congress, June 7, 1924, and the buildings and grounds have a value in excess of \$2,000,000. It was designed to take care of all women Federal sentenced prisoners in the United States and the insular possessions and has a capacity of 475. There are fifteen buildings housing residents, two separate housing units for youthful and juvenile offenders, a hospital, administration building, garment factory, laundry, school building, a vocational building, chapel and auditorium, storehouse, dining room, and shops. The enabling act specified that each resident should be given training that would fit her to be self-supporting on her return to society. In the forty and more years of its existence the institution program has expanded to meet the needs of a changing society. At the present time it is oriented toward diagnostic treatment. Specific program areas include counseling, education, medical and psychological, casework, religious and vocational. This institution program is extended to community centers which are located in various cities throughout the United States.

**RANDOLPH**

Randolph County was formed from  
 Harrison in 1787 and included all of  
 the present county of Tucker, all of  
 Barbour east of the river, all of Upshur  
 east of Buckhannon River, and a con-  
 siderable portion of Pocahontas and  
 Webster. It lost territory in 1821 when  
 Pocahontas was formed; again in 1843  
 when Barbour came into existence; in  
 1851 it gave up some of its territory  
 to Upshur; five years later 350 square  
 miles were cut off to form Tucker; and  
 another portion was incorporated in  
 Webster County when it was formed in  
 1860. After all of these losses Randolph  
 still is the largest county in the State.  
 It was named for Edmund Jennings  
 Randolph, Governor of Virginia 1786-  
 1788. The first white man who settled  
 in what is now West Virginia, built his  
 home on the waters of the Mononga-

hela. In this county occurred the first Indian Massacre in the State. From that beginning, the county has been a historical center down to the present.

First 4-H Camp in the World held in this county.

Kumbrabow State Forest and part of the Monongahela National Forest are located in this county.

Fossil Tree Park, in which are found large numbers of fossilized trees, is located a short distance west of Elkins, Southeast of Huttonsville, on White Mountain (elevation over 4,000 feet), the federal forces maintained the highest fortified camp in the War Between the States.

# OFFICIAL MUNICIPAL REGISTER

(Corrected to September 1, 1972)

## CLASS I, II AND III CITIES

Under the provisions of Chapter 56, Acts of the Legislature, regular session, 1939, municipal corporations are classified by population as follows: Population in excess of 50,000, Class I city; population more than 10,000 and not more than 50,000, Class II city; and population more than 2,000 and not more than 10,000, Class III city. Municipal corporations not included in these classifications are known as towns or villages.

Transition from one to another class of municipal corporation occurs automatically when the requisite population qualification has been met. Population is determined on the basis of the last preceding census taken under the authority of the Congress of the United States or the Legislature of West Virginia. Census of 1970 is used as basis in determining class of cities listed in this Register.

### Salem—Harrison County

Zip Code 26426

(Magisterial District: Tenmile).

It was originally New Salem, so named because the settlers who established the town came in a body from Salem, New Jersey. They arrived in the spring of 1792. Two years later, in 1794, it was incorporated.

The first civilized habitation on the land now occupied by the City of Salem was a hunter's camp established by Nicholas Carpenter in 1785 who used it for a hunting and trapping center. He also used it for a sort of crude hotel for himself and his men who drove cattle from Clarksburg to the Ohio River at Marietta which was the nearest market.

Samuel Fitz Randolph purchased the property on which the village was founded in 1790. Mr. Randolph had started with a caravan of pioneer settlers from Salem, New Jersey, who crossed the mountains in 1789 and made their first stop at Woodbridgetown, Pennsylvania. Mr. Randolph, a number of Davises, some Maxsons, and others came on to what is now Salem, after a two and one-half year trek from the sea coast.

Salem was the first settlement of Seventh Day Baptists west of the mountains. It is now the home of Salem College, founded in 1888, and the Industrial Home for Girls, established in 1898. Glass has been a major industry. The Baltimore & Ohio Railroad and the George Washington highway and state highway route No. 23 pass through it. It is the birthplace

of United States Senator Jennings Randolph and the great writer, Granville Davison Hall, author of *Daughter of the Elm*, *The Rending of Virginia*, and many other historical books.

Location of Annual Heritage Arts Festival held the fourth weekend in April exhibiting crafts, handiwork and antiques from the past of West Virginia. Reconstruction of fort and associated original buildings now underway on Salem College property.

County seat. Settled in 1769 by Ebenezer Zane and followers. Although the peace treaty with the Indians was still in effect when Zane settled here, he and his followers immediately built a fort, which they called "Fort Henry." Here was fought in September, 1782, the last battle of the American Revolution. It was during this siege that the famous legend of Betty Zane was established, when she braved a storm of gunfire to carry powder from the Zane cabin to the fort.

Wheeling was the state's capital until 1870 and again from 1875 to 1880 when the government was moved to Charleston.

## THE AMERICAN FLAG

### DESCRIPTION OF THE FLAG

The Flag of the United States of America has 13 horizontal stripes—7 red and 6 white—the red and white stripes alternating, and a union which consists of white stars of five points on a blue field placed in the upper quarter next to the staff and extending to the lower edge of the fourth red stripe from the top. The number of stars is the same as the number of States in the Union. The canton or union now contains 50 stars. On the admission of a State into the Union a star will be added to the union of the Flag, and such addition will take effect on the 4th day of July next succeeding such admission.

### PLEDGE OF ALLEGIANCE

I pledge allegiance to the flag of the United States of America and to the Republic for which it stands, one Nation under God, indivisible, with liberty and justice for all.

### STATE FLAG

Before the design of the present State Flag was officially adopted by the Legislature on March 7, 1929, by Senate Joint Resolution No. 18, West Virginia had been represented by several flags which had proved impractical.

Prominently displayed on the pure white field of today's flag and emblazoned in proper colors is the Coat of Arms, the lower half of which is wreathed by Rhododendron. Across the top, lettered on a ribbon, is the constitutional designation—"State of West Virginia." The white field is bordered on four sides by a strip of blue, and for parade purposes all but the staff side are to be trimmed with gold fringe.

### GREAT SEAL OF WEST VIRGINIA

The Great Seal of West Virginia, which also is the Coat of Arms, was adopted by the Legislature on September 26, 1863, and symbolizes the principal pursuits and resources of West Virginia. Described briefly, the obverse side of the Seal bears the legend, "State of West Virginia," together with the motto, "Montani Semper Liberi" (Mountaineers Are Always Free); a farmer stands to the right and a miner to the left of a large ivy-draped rock bearing the date of the state's admission to the Union; in front of the rock are two hunters' rifles upon which rests a Phrygian Cap, or "Cap of Liberty."

The reverse side of the Seal is not in common use today. It was intended to be employed when the Seal was attached to documents by ribbons and suspended in the manner of a medal.

Joseph H. Diss Debar, of Doddridge County, designed the State Seal in 1863 at the request of the first West Virginia Legislature.

### STATE SONGS

"THE WEST VIRGINIA HILLS", "THIS IS MY WEST VIRGINIA" and "WEST VIRGINIA, MY HOME SWEET HOME" were designated as the official State Songs of West Virginia, each ranking equally with the others in official status, by House Concurrent Resolution No. 19, adopted by the Legislature on February 28, 1963.

## OFFICIAL COLORS

OLD GOLD and BLUE were designated as Official State Colors by Senate Concurrent Resolution No. 20, adopted by the Legislature on March 8, 1963.

## STATE DAY

### "West Virginia Day"

On January 1, 1863, President Abraham Lincoln approved the Statehood Bill for West Virginia on the condition that it would gradually abolish slavery. West Virginia was proclaimed a State on April 20, 1863, with the bill becoming effective sixty days later on June 20, 1863.

"West Virginia Day" became a legal holiday by Chapter 59, Acts of the Legislature, Regular Session, 1927. (Code 2-2-1)

## STATE TREE

The Sugar Maple or ACER SACCHARUM, as it is known scientifically, was made West Virginia's official tree by House Concurrent Resolution No. 12, adopted by the Legislature on March 7, 1949, authorizing a vote by pupils of public schools and civic organizations. It produces an excellent wood for furniture as well as maple syrup. A single tree is 70 to 120 feet high and produces two to three pounds of sugar when "sugared off"; has a five-lobed leaf and produces a small wing-shaped pod.

## STATE BIRD

The Cardinal or RICHMONDENA CARDINALIS, as it is known scientifically, was made West Virginia's official bird by House Concurrent Resolution No. 12, adopted by the Legislature on March 7, 1949, authorizing a vote by pupils of public schools and other civic organizations. The male of the species is a rich scarlet with a mask and shading of black, while the young birds and females are a less brilliant color. The adult bird measures approximately eight inches long. It can be found from New York State to the Gulf of Mexico and as far west as Oklahoma.

## STATE FLOWER

The RHODODENDRON MAXIMUM or "Big Laurel" was made the official State Flower of West Virginia by House Joint Resolution No. 19, adopted by the Legislature on January 29, 1903, following a recommendation by the Governor and a vote by the pupils of public schools. It is a shrub of the heath family and may be recognized by its large evergreen leaves and delicate pale pink or white bloom, mottled with either red or yellow flecks.

## STATE ANIMAL

The BLACK BEAR or EUARCTOS AMERICANUS is the official state animal of West Virginia. While commonly referred to as the "black bear" its coloring is actually deeply tinted with brown. Its habitat in the state is primarily in the eastern mountain region. A litter usually consists of one or two cubs, rarely three, each weighing about eight ounces at birth. The adult reaches an average maximum weight of 250 pounds.

## STATE FRUIT

The APPLE was designated as the official State Fruit by House Concurrent Resolution No. 56, adopted by the Legislature on March 7, 1972.

## THE TENTH ANNUAL NATIONAL YOUTH SCIENCE CAMP

(June - July 1972)

Each June, 100 of the nation's top high school science students arrive in Pocahontas County for the only nationwide science honors camp—the National Youth Science Camp. Sponsored annually by the state of West Virginia, the three-week session honors two high school seniors from each state, selected by their governors on the basis of outstanding achievement and potential in science.

During the 1972 NYSC, campers were exposed to a wide variety of activities—each taught by a visiting authority or an expert member of the resident staff. Guest speakers included Dr. Isidore Adler, project leader for NASA's geophysical mapping of the moon; Michael Collins, command pilot for the first lunar landing mission; Dr. David Heeschen, director of the National Radio Astronomy Observatory; Dr. John Eisele, space physicist with the Naval Research Lab; and Austin Youmans, director of the Sugar Grove Astronomy Center.

The lecture program was supplemented by a full schedule of athletic and camping activities and a series of seminars in which campers presented their own scientific research projects. The 1972 delegates also took special trips to Cass Scenic Railroad, nearby National Radio Astronomy Observatory, and Camp Allegheny (a Confederate campsite). The delegates were guests of honor at a Washington luncheon with their United States Senators, hosted by Sen. Jennings Randolph.

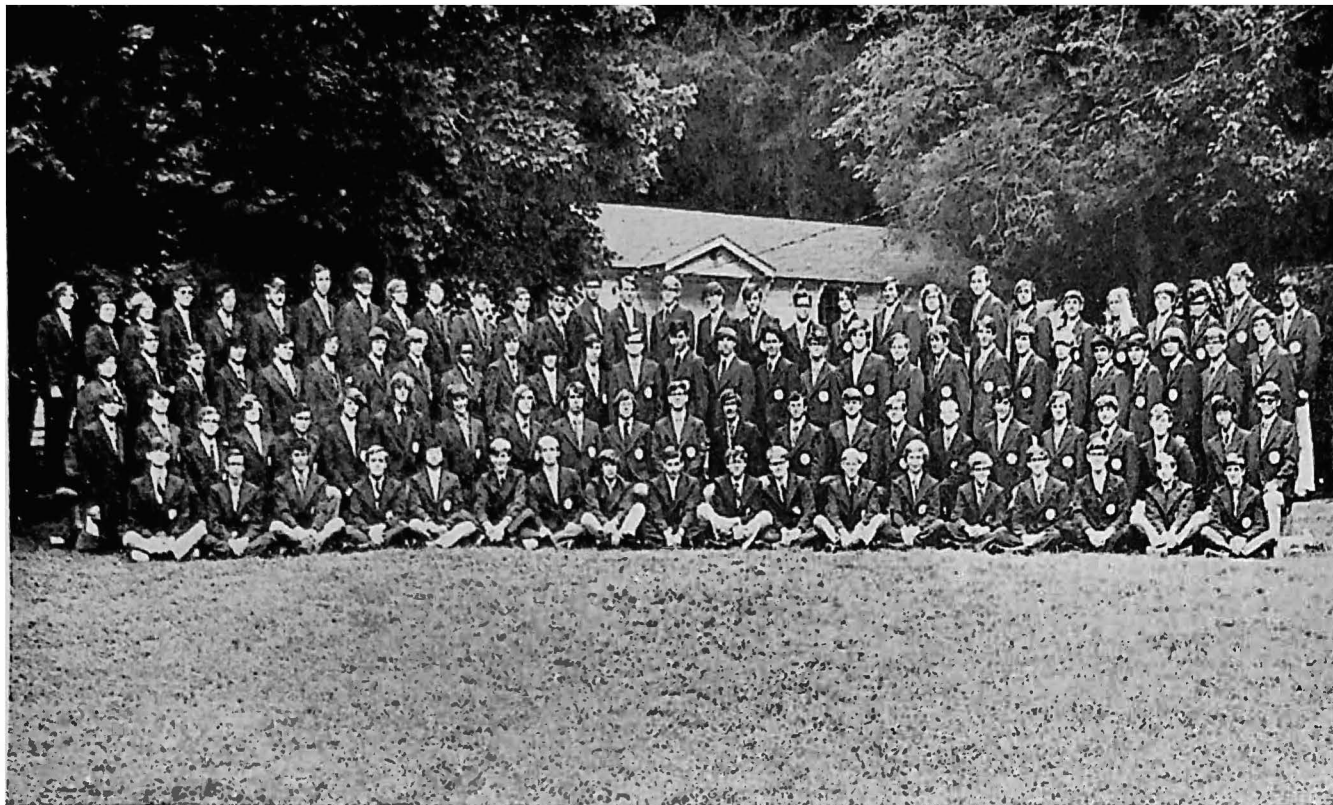

Other in-camp activities included programming instructions on an IBM 1130 computer system, photographic darkroom work, leathercraft, nature study, and painting and sketching.

In addition to establishing lasting friendships and exploring new fields of science, the campers at the NYSC received new insights which dispelled the image of West Virginia as a backward, poverty-stricken area. First-hand observations showed the delegates that the state has innumerable industrial and scientific facilities and a youth and vigor not found in even their own states. In this way, the NYSC has performed an invaluable service both for the future scientific leaders of the nation and for West Virginia, the sponsoring state.

Indication of the long-lasting admiration for West Virginia and the National Youth Science Camp is shown by the fact that the original NYSC, held in 1963, is planning a 10-year reunion for Charleston in 1973.

## INLAND WATERWAYS—FEDERAL

(Data furnished by the Department of the Army)

**Ohio River**—Improvement of the Ohio River for navigation, as authorized by Congress in the River and Harbor Act of June 25, 1910, provides for a minimum channel depth of 9 feet in the entire 981 miles of the river by the construction of locks and dams and open channel work. The original system, completed in 1929, and major modifications completed in 1937, resulted in 46 lock and dam structures including the Gallipolis Locks and Dam near Apple Grove.

The Ohio River modernization and replacement program as now planned and under way will reduce the total navigation projects to 19, providing larger locks and deeper pools. New projects adjoining West Virginia include the pool of Greenup Locks and Dam, completed in June, 1964, between Kentucky, West Virginia and Ohio, a proposed improvement of the Gallipolis project, the Racine Locks and Dam near Letart completed for operation in 1970, the Belleville Locks and Dam completed in May, 1969, at Belleville, the Willow Island Locks and Dam under construction at Willow Island, the Hannibal Locks and Dam under construction at New Martinsville, the Pike Island Locks and Dam completed in September, 1965, at Wheeling, and the New Cumberland Locks and Dam completed in September, 1961, near New Cumberland.

**Kanawha River, West Virginia**—Three high-lift dams on the Kanawha River and the Gallipolis Dam on the Ohio River provide a minimum channel depth of 9 feet on the Kanawha River for 91 miles from the mouth to Deep Water. Each Kanawha River dam has twin locks, and the Kanawha Valley Power Company has a hydroelectric plant at each site. The two upstream dams, London and Marmet, were completed in 1934, Winfield Dam in 1937, and Gallipolis Dam in the Ohio River in 1937 as part of the Kanawha River improvement.

**Monongahela River, West Virginia and Pennsylvania**—The existing project provides for improvement of the river by nine locks and dams to afford slack-

water navigation for its entire length from Pittsburgh, Pennsylvania to above Fairmont, West Virginia, a distance of 128.7 miles. The controlling depth is 9 feet and the navigable width varies from 250 feet in the upper reaches to practically the full width of the river at its mouth.

Modernization of the Monongahela River navigation structures in the upper reaches of the waterway in West Virginia is approximately complete. Morgantown, Hildebrand and Opekiska Locks and Dams and modification of Dam 8 have been completed. Proposed replacements for existing Lock 8 and Lock and Dam 7 are now being investigated.

## MULTIPLE PURPOSE LAKES—FEDERAL

(Data furnished by the Department of the Army)

### Completed Projects:

**Bluestone Lake**—The Bluestone Lake, located on the New River near Hinton, was authorized by Presidential executive order in 1935 and approved by Congress in the Flood Control Act of 1936. Construction of the project was begun early in 1942, suspended in 1944 because of the war emergency, resumed in 1946, and completed in June, 1952. The dam, of concrete construction, is 165 feet high and 2,048 feet long. The lake has a capacity of 631,000 acre-feet to serve a drainage area of 4,565 square miles. During periods of low and normal flows in New River, the elevation of the lake varies about 3 feet, with a minimum pool 9.5 miles in length and 1,800 acres in area that utilizes about 30,900 acre-feet of the total storage capacity. The remaining storage capacity is reserved for impoundment of flood flows as required for flood control.

**East Lynn Lake**—East Lynn Lake, located on East Fork of Twelvepole Creek, was authorized by Congress in the 1938 Flood Control Act. Construction of the dam was completed in 1971. Other items of construction for recreational use remain. The dam is an earth-fill with a maximum height of 113 feet and a crest length of 638 feet. The lake provides a maximum capacity of 82,500 acre-feet controlling a drainage area of 133 square miles. A minimum pool with a surface area of 823 acres and a capacity of 11,705 acre-feet will be maintained during the winter while a seasonal pool with a surface area of 1,005 acres and a capacity of 17,190 acre-feet will be maintained during the summer. The remaining storage will be used for flood control.

**Summersville Lake**—The Summersville Lake, located on Gauley River, near Summersville, was started in 1960 and is completed except for some recreational development. The dam is a rock-fill type, with a maximum height of 390 feet and a top length of 2,280 feet and controls a drainage area of 803 sq. miles. It provides a maximum capacity of 390,800 acre-feet of storage for flood water, of which 163,400 acre-feet may be used for low flow augmentation in the Kanawha River in summer. The summer recreation pool is 13.7 miles long and 2,723 acres in area. The project is operated as a unit of a coordinated system for flood protection in the Gauley, Kanawha, and Ohio River Valleys.

**Sutton Lake**—The Sutton Lake, located on the Elk River near Sutton, was authorized by Congress in the Flood Control Act of 1938. Sealing of mine workings at the site was begun in 1949, but work on the dam was not started until 1956. Construction of the project was completed in January, 1961. The dam is of concrete, 210 feet high and 1,178 feet long. The lake has a total capacity of 265,300 acre-feet and controls a drainage area of 537 square miles. A minimum pool 5.9 miles in length, with a surface area of 270 acres and a capacity of 4,100 acre-feet, is maintained during the winter. A seasonal pool with a maximum length of 14.5 miles, surface area of 1,520 acres and storage of 60,100 acre-feet, is maintained for low-flow augmentation and recreation. The remaining capacity is utilized for flood control storage.

**Tygart Lake**—The Tygart Dam, located on the Tygart Valley River 2.25 miles upstream of Grafton, West Virginia, was authorized by the Public Works Administration January 11, 1934, and approved by Congress in the River and Harbor Act of August 30, 1935. The concrete gravity dam is 1,921 feet in length at the

top and rises 230 feet above the river bed. The structure provides for the gross controlled storage of 287,700 acre-feet of water and is operated as a unit in the reservoir system for the protection of Pittsburgh, Pennsylvania and the upper Ohio River Valley. In addition to flood control, Tygart Lake provides for low water discharge regulation annually, by the gradual release of stored spring flood waters during the summer-fall period to assure a river flow of 340 cubic feet per second at Lock and Dam 8, Monongahela River. The storage of approximately 100,000 acre-feet of water is allotted for this purpose.

#### **Projects under construction:**

**Beech Fork Lake**—This lake, located on Beech Fork of Twelvemile Creek, was authorized by Congress in the Flood Control Act of 1962. Construction is scheduled to be completed in 1973. The dam will be of earth fill with a maximum height of 86 feet and a top length of 1,080 feet. The lake will have a maximum capacity of 37,540 acre-feet, controlling a drainage area of 78 square miles. A minimum pool of 4,200 acre-feet with a surface area of 450 acres will be maintained during the winter. A seasonal pool of 9,180 acre-feet with a surface area of 720 acres will be maintained during the summer season for recreation purposes. The remaining capacity will be utilized for flood control.

**Bloomington Reservoir**—The Bloomington Reservoir Project was authorized by Congress in 1962 as a unit of the comprehensive water resource development plan for the Potomac River Basin. The damsite is located in Mineral County, West Virginia, and Garrett County, Maryland, on the North Branch Potomac River about 8 miles upstream from the mouth of Savage River. The dam will be a rolled earth and rock-fill structure with a maximum height of 296 feet and a top length of 2,130 feet. The reservoir will have a capacity of 130,900 acre-feet and will control a drainage area of 263 square miles. The project will provide low flow augmentation, flood control, and recreation. Construction will be initiated shortly after funds are made available by Congress. Local interests are required to pay initial water supply costs and provide assurances for (a) payment of future water supply costs, (b) maintain water quality standards, and (c) prevent encroachment in the channel downstream of the project.

**Burnsville Lake**—The Burnsville Lake, located on the Little Kanawha River, was authorized by Congress in the 1938 Flood Control Act. Construction is tentatively scheduled to be completed approximately five years after construction funds are appropriated by Congress. The earth-fill dam will have a maximum height of approximately 80 feet and a top length of 1,000 feet. It will control a drainage area of 165 square miles with a gross storage capacity of 65,400 acre-feet. A minimum pool containing 4,100 acre-feet of storage and having a surface area of 550 acres will be maintained during the winter. A seasonal pool having a storage capacity of 14,200 acre-feet with a surface area of 968 acres will be maintained in the summer for water quality control, fish and wildlife recreation and general recreation purposes. The remaining storage capacity will be utilized for flood control.

**R. D. Bailey Lake**—The R. D. Bailey Lake, started in 1967 and expected to be completed in 1975, is located on Guyandotte River and was authorized by Congress in the 1962 Flood Control Act. The dam will be of rock and random-fill, 310 feet high and with a length of 1,370 feet. The dam will control a drainage area of 540 square miles, the lake having a total capacity of 203,700 acre-feet. A minimum pool of 22,000 acre-feet with a surface area of 440 acres will be maintained in the winter months. A seasonal pool for recreation and water quality control having a capacity of 34,000 acre-feet and a surface area of 630 acres will be maintained during the summer. The remaining storage capacity will be used for flood control.

#### **Projects under design:**

**Leading Creek Lake**—The Leading Creek Lake project was approved as a substitute for the authorized Steer Creek Reservoir. The lake will be developed to serve the multiple purposes of flood control, water quality control, fish and wildlife, recreation and general recreation. The project is currently in the advanced planning and design stage and is tentatively scheduled for completion

approximately five years after the advanced studies are completed and initial construction funds are appropriated by Congress. The dam will be located on Leading Creek, a tributary to the Little Kanawha River and, as presently contemplated, will control a drainage area of 146 square miles with a total storage capacity of 62,600 acre-feet. The project will be operated as a unit in the comprehensive plan for flood control in the Ohio River Basin.

**Rowlesburg Lake**—The Rowlesburg Lake was authorized by the Flood Control Act of 1965 for the purposes of flood control, water quality control, hydroelectric power production and recreation. The project will be operated as a unit in the comprehensive plan for flood control in the Ohio River Basin; to improve the water quality in the Monongahela and Ohio Rivers; to provide storage for hydroelectric power; and for general and fish and wildlife recreation. The project is currently in the advanced engineering and design stage of development.

The dam will be located on the Cheat River, a tributary of the Monongahela River, at the upstream limits of the Town of Rowlesburg in Preston County. The full pool will extend upstream to the City of Parsons in Tucker County. The dam will be a concrete gravity type structure, 1695 feet long and 271 feet above stream bed, with a pumped storage installation to produce hydroelectric peaking power.

The maximum summer pool elevation for water quality control, hydroelectric power production and recreation will be 1,601 feet above mean sea level with a surface area of 7,175 acres. Gross storage would be 831,700 acre-feet at the lake full pool elevation of 1,632.

**Stonewall Jackson Lake**—The Stonewall Jackson Lake project was authorized by the Flood Control Act of 1966 for the purposes of flood control, water quality control, water supply and recreation. The project, although benefiting primarily the West Fork and upper Monongahela River Basins, will be operated as a unit in the comprehensive plan for flood control in the Ohio River Basin; to improve the water quality in the West Fork, Monongahela, and Ohio Rivers; to provide storage for water supply for the Towns of Weston and Clarksburg, West Virginia; and for general and fish and wildlife recreation. The project is currently in the advanced engineering and design stage of development.

The dam will be located on the West Fork River at Brownsville in Lewis County with the full pool extending upstream to the Towns of Walkersville and Crawford, also in Lewis County. As authorized, the dam would be a concrete gravity structure, 680 feet long and rising 95 feet above the streambed.

The maximum summer pool for water quality control, water supply and recreation will be at elevation 1073 feet above mean sea level with a surface area of 2,530 acres. At the full pool elevation of 1082, the project would provide for the gross storage of 75,200 acre-feet of water.

**West Fork Lake**—The West Fork Lake project was authorized by the 1938 Flood Control Act. The lake will be a multiple purpose development to include flood control, water quality control, fish and wildlife recreation and general recreation. The project is currently in the advanced engineering and design stage and is tentatively scheduled for completion approximately five years after funds are appropriated by Congress.

The dam will be located on West Fork of the Little Kanawha River and, as presently contemplated, will control a drainage area of 237.5 square miles with a total storage capacity of 98,400 acre-feet. The project will be operated as a unit in the comprehensive plan for flood control in the Ohio River Basin.

## LOCAL FLOOD PROTECTION PROJECTS

Completed major flood control projects in West Virginia consist of nine local protection projects. All of these projects except Ridgeley are units in the comprehensive plan for flood control and allied purposes in the Ohio River Basin. The local protection projects have been constructed so that, acting alone, they provide a high degree of flood protection which in most places is equal to protection against the maximum flood of record at the project localities. All local protection projects along the Ohio River will receive supplementary protection

from a coordinated system of reservoirs designed to reduce flood flows on the Ohio River and to contribute to the reduction of floods on the Lower Mississippi River.

This group of completed projects has already made a major contribution toward reduction of flood damages; flood control benefits from their operation being about \$212 million to date.

**Ohio River Projects**—Projects have been completed for Ceredo-Kenova, Huntington, Parkersburg, and Point Pleasant. The projects consist of concrete walls and earth levees to prevent entrance of flood waters, pumping stations to discharge sewage and internal drainage during flood periods, and gated openings through the works to permit unobstructed movement of traffic during normal (non-flood) river conditions. Operation and maintenance are local responsibilities.

**Barboursville Bank Protection Project**—The project consists of repairing and restoring a bank of the Guyandotte River in the vicinity of Water Street in Barboursville, Cabell County. The work consisted of placing dump-rock fill on the right bank of the Guyandotte River for the prevention of erosion, and channel excavation on the opposite bank. Construction was completed in July, 1965, at a Federal cost of \$148,000. Local interests are required to maintain the project.

**Rainelle LPP**—The project consists of 4.2 miles of channel improvement on Meadow River and Sewell and Boggs Creeks, construction of one highway bridge, modification of one railway bridge, and modification of sewage and drainage facilities. The project was completed in 1962.

**Elkins LPP**—The principal elements are a cutoff channel and dikes, located about 1.5 miles above the city, which divert flood flows from the loop of the Tygart River on which Elkins is located. The project was completed in 1949.

**Princeton LPP**—Principal features of the protection works are 3.9 miles of channel improvement along Brush Creek, construction of one railroad bridge and extension of another, construction of two highway bridges, and 0.3 mile of railroad relocation. The project was completed in 1961.

**Ridgeley, West Virginia, and Cumberland, Maryland**—Ridgeley, in Mineral County, is located on the south bank of the North Branch Potomac River, opposite the city of Cumberland, Maryland. Protective works for these communities include about 3.3 miles of channel improvements on the North Branch and its tributary, Wills Creek, supplemented by a system of earth levees and concrete floodwalls. The project includes three pumping stations with related interior drainage facilities, eight pressure conduits totaling 11,200 feet in length, and an industrial water-supply dam. Three highway bridges and a railroad bridge were reconstructed. The project was completed in 1959. Additional channel improvement on the North Branch Potomac River was completed in 1964.

**Williamson LPP**—The project consists of 2,315 feet of concrete wall along the Tug Fork of Big Sandy River, one pump station, and 16 gated openings. The project was completed in 1963.

**Local Protection Works under Special Continuing Authorities**—Small flood control projects under authority provided to the Corps of Engineers by Section 205 of the Flood Control Act of 1948, as amended, include channel improvement work completed along the North Branch, Potomac River at Blaine and Bayard; along Middle Fork of Mud River in the Griffithsville-Yawkey area; and work proposed for Parsons, Hambleton and Hendricks on Cheat River. Projects under the authority provided to the Corps of Engineers to snag and clear streams in the interest of flood control by Section 208 of the Flood Control Act of 1954 include projects completed at Bramwell, and Montcalm on Bluestone River; Cairo on North Fork of Hughes River; Colliers on Harmon Creek; Huntington on Fourpole Creek; Jacksonburg, Pine Grove, and Smithfield on Fishing Creek; Richwood on Cherry River; Stonewood and Nutter Fort on Elk Creek; West Union on Middle Island Creek; Weston on Polk Creek and Stonecoal Creek; Wyatt on Bingamon Creek and additional work is approved for Berwind on Dry Fork in McDowell County and Pax on Paint Creek in Fayette County.

**DRIVER IMPROVEMENT PROGRAM**

(Point System)

West Virginia's Driver Improvement Program, as administered by the Department of Motor Vehicles, is designed to eliminate the chronically careless driver from the state's highway system.

Under the program "points" are assigned to those convicted of various moving traffic violations. Conviction notices are forwarded to the Department of Motor Vehicles, which maintains each individual's driving record and statistics.

An operator receiving a total of 6 points is sent a warning letter by the Department, outlining the need for more careful driving. Individuals reaching the 9 to 12 point level are required to appear before a Department Reviewing Officer, at which time the most serious cases are subject to suspension of their operator's privileges.

## STATE PARKS—WEST VIRGINIA'S VACATION BONANZA

State Parks are a literal bonanza of outdoor opportunity for West Virginians. Established in 1929 with the opening of Droop Mountain Battlefield as an historic area, they have expanded to become national leaders in state development of recreation lands for both citizen and tourist alike.

Mountain State parks were developed, along with those of other surrounding states, by the old Civilian Conservation Corps (CCC) in the 1930's. Supervision and design was provided by the National Park Service. In 1935 construction was well under way on new parks at Cacapon, Watoga, Lost River, Babcock, and other locations. These were the first vacation parks, featuring log cabins with stone fireplaces, swimming, horseback riding, hiking, and game courts.

The public flocked to these new parks, and filled the cabins almost from the day they opened. The log, or standard, cabins continue to be a popular facility today with many families insisting they are the most rustic yet comfortable of all park facilities.

Following World War II, park facilities continued to expand, while most other states left theirs in a condition approximating the days when they were built.

In the 1950's, the first revenue bond program of park expansion was undertaken. Money to build the new structures was borrowed on the pledge of return from rental fees earned at the parks.

From this program, Blackwater Falls was developed from a rugged wilderness into a year-round park that is long accepted as the most popular state park. The new 55-room lodge and 25 year round cabins were constructed along with extensive public recreation facilities. The 55-room lodge at Cacapon, a 50-room facility at Mont Chateau, and dozens of deluxe year round cabins at Tygart Lake, Bluestone, Watoga, and Lost River were added to help fulfill rental demand.

By 1961, complete renovations of the standard log cabins was well underway, adding modern kitchens and completely new baths to these popular units. State forest cabins were also upgraded to a par with those in parks.

In 1963, Federal and State officials met to consider the stimulation of private development of recreation facilities in West Virginia. Their suggestion was a dramatic series of new park facilities, designed to demonstrate to the private sector of the economy that recreation and tourism was good business. This 33 million dollar expansion (commonly known as "State Parks for the 1970's"), most of the cost of which will be repaid by user fees, was to eventually add three new state parks to the system and to make substantial improvements at three others.

The first program to be completed was at Grandview, near Beckley, where park roads were paved and substantial recreation and picnic facilities installed. This was in preparation for the crowds already flocking to Grandview for the outdoor drama "Honey in the Rock".

Nearly \$800,000 was invested at the Cass Scenic Railroad in Pocahontas County for a total rehabilitation of the old tracks and roadbed, a new overlook atop the second highest peak in the state, a 300-car parking lot at Cass, and upgrading of the Cass depot. This money was borrowed and will be repaid through income from sale of tickets to ride the Old Shay Logging Trains to Bald Knob and Whittaker Station.

Hawk's Nest, one of the most spectacular views of the New River Gorge, is one of the state's most popular parks, and long boasted the highest attendance figures. A new 31-room lodge, opened in 1967, was the first major accommodation finished in the new program. New overlooks at Lovers Leap complemented the quarter-century-old main overlook. At the bottom of the gorge, on lands leased from Union Carbide Corporation, a marina, boatdock and snack bar were constructed to bring public recreation to the huge lake created by Hawk's Nest Dam.

A new 446-foot vertical drop aerial tramway, the state's first, was opened April 4, 1970 as the final Hawk's Nest development. The 1,066-foot-long tram takes 2 minutes to make a one-way trip from the lodge atop Lovers Leap to the canyon floor. Already being swamped by public demand, the tramway seems to be one of the most popular new facilities in the state park system.

Pipestem Resort, crown jewel of the park system, opened fully in 1970. Breath-taking in almost every dimension, Pipestem is located on a rolling plateau overlooking the rugged Bluestone River Gorge, near Hinton and Princeton. Many observers have said "Pipestem must be visited to be believed", referring to the scope of the most extensive state park development yet undertaken in the state, or anywhere in America.

Two lodges, a main 113-room facility overlooking the canyon, built in seven separate levels; and Mountain Creek, a secluded 30-room building at the bottom of the deep chasm, provide the ultimate in outdoor recreation comfort. 25 deluxe vacation cottages are grouped in three areas. The park's aerial tramway system, linking Mountain Creek Lodge with the Visitor Center atop the canyon rim, is a major installation that provides total service to the riverside lodge. Although an emergency truck road exists, the tramway provides the only normal access to the Mountain Creek installation—a natural method of getting away from it all!

An 18-hole championship golf course and 9-hole par-three course are among the nation's finest. The main golf clubhouse is complete in all respects and keynotes golfing as a major development system-wide in state parks.

The Pipestem recreation center features a 200-seat cafeteria, olympic swimming pool, indoor recreation rooms, dining room, ice skating rink, and nearby 550-seat outdoor amphitheater.

The visitor center, in addition to servicing the tramway system, is headquarters for the park's year-round naturalist and recreation program, and will feature a native art and craft sales area, country store, and art and craft production, demonstration, and teaching facility.

An overlook tower atop Pipestem Knob, highest peak in the vicinity, riding stable, 50-unit completely equipped campground, championship archery range with clubhouse, park headquarters and information center, and several spectacular roadside overlooks highlight remaining facilities at Pipestem.

Twin Falls, near Pineville and Mullens, is the state's first year-round vacation park in the southern highlands. First class in all respects, and of a design similar to Pipestem and Hawk's Nest, Twin Falls features a twenty-room lodge atop a hill overlooking Mill Creek Valley. The park's 9-hole regulation golf course is strung out along the creek, making it challenging yet enjoyable to play. A recreation center/golf clubhouse center is located near the lodge and beside the golf course offering full recreation opportunities.

Thirteen resort vacation cottages, completely equipped for housekeeping, as are all park cabins and cottages, are located on a forested hilltop across from the lodge.

Canaan Valley State Park features one of the finest 18-hole championship golf courses in the east and 15 resort cottages. This remote valley, near Davis and

Blackwater Falls State Park, is unique in that the floor of the valley exceeds 3000 feet in elevation, with surrounding 4000-4500 foot peaks.

A 2.5 million dollar winter sports complex began operations in 1971.

The ski center, with restaurant, proshop, rental facilities, ski patrol offices, lounge, first aid station, and all first-class ski accommodations services two double-chair ski lifts. Miles of trails for intermediates, beginners, or skilled skiers, will be serviced by artificial snow-making equipment, said to assure the park of a 75-80 day yearly ski season competitive with other east-coast ski centers.

The lack of overnight accommodations at Canaan Valley will place a temporary strain on the Blackwater Falls-Davis region, but the new park should also place West Virginia on a par with Vermont or New Hampshire as a winter sports mecca.

The Mountain State provides just about any type of outdoor recreation opportunity desired today. As a source of pride to West Virginians, state parks cater to over four million persons each year with the best in parkland facilities for whatever taste you have. Explore West Virginia first!

### OFF-SEASON VACATIONS ARE THE COMING THING IN STATE PARKS

So-called "off-season vacations", referring to the times between Labor Day and Memorial Day, are rising fast in national demand and in West Virginia. Thousands of families are tired of being crushed in the onslaught of the traditional summer-time vacation rush, retired folk look to a quieter moment, and young couples find the activity quick enough without the helter-skelter pace. In a nation where income is up, vacations are longer, and mobility is no longer a limiting factor, year-round vacation opportunities are the fastest growing segment of outdoor recreation. They frequently cost less too!

In state parks, the summer season has long been a "full-up" situation, with most cabins and lodge rooms reserved as early as January 2, the first day that the park system accepts reservations. By April, all choice spots are taken. Yet, attendance rises about 10% each year in West Virginia parks, showing a rising trend during the rest of the year.

Winter sports, long neglected in the Mountain State, are on the increase. Canaan Valley State Park's new ski center brings full scope skiing to the state for the first time. Planners in the Department of Commerce and Natural Resources see Canaan Valley as the bellwether of private winter sports development. Blackwater Falls State Park has limited year-round recreation facilities, but this has been enough to cause almost 100% occupancy on weekends throughout the winter, not to mention the full-up signs every day in the summer.

Year-round use of parks and private areas will also signal the coming of age for the tourist industry, in employing more and more people year round instead of on a seasonal basis. Pipestem Resort, Twin Falls, Blackwater Falls, Mont Chateau, Cacapon, and Hawk's Nest already are year-round operations. Meetings and conventions add to the bookings as state parks reach out for this trade. What better way to get away from it all for a business meeting than at a state park lodge?

A survey and feasibility report produced for the Department of Commerce by Checchi and Company, a nationally-known winter sports design firm, pointed out that many spots in the high country from Greenbrier to Tucker Counties were ideal for winter sports spas. This 75-80 day skiing season (for those installations equipped with artificial snow equipment) was competitive with any in eastern America.

**U. S. DEPARTMENT OF AGRICULTURE**

**Forest Service**

**Monongahela National Forest**

**Headquarters: Elkins**

Monongahela National Forest was proclaimed by President Woodrow Wilson on April 23, 1920, under the Weeks Law. This law of 1911 provides for the cooperation by states with the United States, and the protection of watersheds of navigable streams. In West Virginia, the national forest was established for flood protection in the Ohio and Potomac River valleys. It is one of a system of 154 national forests and the only national forest wholly in West Virginia. The Clark-McNary Act of June 7, 1924, broadened the objectives to provide for reforestation and production of timber. The Multiple Use Act of June 12, 1960, provides that National Forests shall be managed for outdoor recreation, range, timber, watershed, hunting and fishing.

The public forest is dedicated to the protection, development, and management of all its resources for the greatest good to the greatest number.

Within the proclaimed boundary there are 1,669,707 acres of which 825,605 acres are owned by the United States. Directly in charge of the national forest is the Forest Supervisor. In the national forest are six ranger districts, each administered by a district ranger.

Counties in the National Forest and their current acreage in National Forest ownership are:

Grant .....	15,292	Pocahontas .....	283,209
Greenbrier .....	100,163	Preston .....	3,897
Nicholas .....	23,522	Randolph .....	174,832
Pendleton .....	66,121	Tucker .....	93,837
		Webster .....	64,727

The National forest is administered in cooperation with several conservation agencies, including the West Virginia Department of Natural Resources. Twenty-five per cent of receipts from the sale of timber and other products and use fees is returned to the nine national forest counties for schools (80%) and roads (20%).

## OIL AND GAS DEVELOPMENTS IN WEST VIRGINIA IN 1971

Douglas G. Patchen, West Virginia Geological Survey

Drilling in 1971 resulted in a 7.0 percent decrease in the number of completions (Table I). Exploratory completions decreased 14.5 percent from 1970 and deep drilling decreased 20.7 percent. The 65 exploratory completions included 32 new field wildcats (9 successful), 2 new pool wildcats (1 successful, 1 completed as a development well), 10 deeper pool tests (2 successful), 18 outposts (4 extensions), and 2 shallow pool tests (1 successful). One unsuccessful development well discovered a shallow pool. Wells were completed in 39 of the State's 55 counties.

For the fifth consecutive year deep drilling was dominated by the search for gas in the Upper Silurian Williamsport (Newburg) Sandstone. Most of this activity was confined to Jackson County where a new field was apparently discovered between North Ripley and Groundhog Creek fields. Drilling late in the year, however, joined this new area with North Ripley Field. One development well on the eastern (downdip) edge of North Ripley Field was completed as the state's second Newburg oil well. The initial flow was 100 BOPD with 10,000 MCF of gas.

One Oriskany Sandstone (Lower Devonian) gas discovery was made in Wood County. Other exploratory tests to this formation were dry in several western and eastern counties. The most significant deep discovery was made in the Lower Silurian Tuscarora Sandstone in Tucker County. The initial potential was

24,800 MCF. Other Tuscarora tests were dry in several western counties.

Shallow wells represented 86.3 percent of all completions during 1971. The Mississippian Big Injun sand again dominated shallow drilling followed by wells completions in the Pocono (mainly Berea) and Chemung (mainly Riley and Benson) intervals (Table II). No Benson discoveries were made, however, and total completions in this sand decreased 50 percent from 1970. Four new field discoveries were reported in the Pocono Weir-Berea trend in southern West Virginia.

Oil production decreased 5.0 percent in 1971 relative to 1970, due largely to a 30.5 percent decrease in oil well completions. Gas production, however, increased slightly (1.4 percent, see Table III). An estimated 20 percent of the oil production is attributed to secondary recovery operations. Only one full-scale waterflood, Granny Creek-Stockley in Clay County, was in operation during 1971. Five pilot waterfloods were also in operation. Average production figures for 1971 completions are as follows: oil wells, 25 b/d; gas wells, 4,238 MCFGPD; and combination wells, 17 b/d and 465 MCFGPD. The price paid for Penn Grade crude was raised to 4.00/bbl in 1971. Interstate gas sold for \$0.32/MCF.

**TAX DEPARTMENT**  
**COLLECTION OF REVENUE**  
**COLLECTION OF BUSINESS AND OCCUPATION TAX,**  
**CARRIER INCOME TAX, AND CORPORATE**  
**NET INCOME TAX**

The Business and Occupation Tax, Chapter 11, Article 13, West Virginia Code of 1931, as amended, is a tax levied for the privilege of engaging in business in West Virginia. The tax is measured by the application of rates against values of products, gross proceeds of sales, or gross income according to the classification of the business activity in which the taxpayer is engaged. Despite the commonly applied erroneous name, "Gross Sales Tax", it is not a sales tax. Neither is it a transaction tax in the sense that once it is paid on a particular article or service or activity it need not again be paid. It is not, strictly speaking, an income tax, although in most instances, the gross income is the *measure* of the tax. Under the production of manufacturing classifications the measure of the tax is the *value* of the article produced or manufactured as shown by the gross proceeds derived from the sale thereof, provided the proceeds of sale are indicative of the true value of the article. If more than one person engages in a single activity or transaction, as in the case of the contractor and sub-contractor, each must pay a tax measured by his entire income regardless of the tax paid by the other.

The business classifications under the Business and Occupation Tax Law are as follows:

A. Production of Coal and Other Natural Resource Products. The tax is measured by the value of the articles mined or produced as shown by the gross proceeds derived from the sale thereof by the producer, the rates being applied against the value of the entire production in West Virginia, regardless of the place of sale or the fact that deliveries are made to points outside the State.

Coal .....	\$3.50 per \$100.00
Sand, gravel, or other mineral products not quarried or mined;	
oil, blast furnace slag .....	\$4.34 per \$100.00
Natural gas (exemptions include deduction of \$5,000 annually) .....	\$8.63 per \$100.00
Limestone or sandstone quarried or mined; and timber .....	\$2.20 per \$100.00
Other natural resource products .....	\$2.86 per \$100.00

B. Manufacturing, Compounding or Preparing for Sale. The tax is measured by the value of the articles manufactured, compounded or prepared for sale in West Virginia, as shown by the gross proceeds derived from the sale thereof by the manufacturer or person compounding or preparing the same. The rate, 88 cents on each \$100.00 value, applies against the value of the entire production in West Virginia, regardless of the place of the sale or the fact that deliveries are made to points outside the State.

C. (1) Business of Selling Tangible Property at Retail. There is levied a tax of 55 cents on each \$100.00 of gross income, as defined by the statute, for this type of business.

(2) Business of Selling Tangible Property at Wholesale. There is levied a tax of 27 cents on each \$100.00 of gross income, as defined by the statute, for this type of business.

D. Public Service or Utility Business. The tax rates set forth hereinbelow are levied on the gross income of the following businesses:

Street Interurban and Electric Railways .....	\$1.40 per \$100.00
-----------------------------------------------	---------------------

Electric Light and Power Companies (sales) and demand charges, domestic purposes and commercial lighting .....	\$5.72 per \$100.00
Water Companies .....	\$4.40 per \$100.00
Electric Light and Power Companies (all other sales and demand charges) .....	\$4.29 per \$100.00
Natural Gas Companies: Toll Bridges .....	\$4.29 per \$100.00
Other Public Utilities—(Except telegraph and telephone companies, railways and other transportation companies) .....	\$2.86 per \$100.00

E. Contracting. There is levied a tax of \$2.20 on each \$100.00 of gross income, as defined by the statute, for this type of business.

G. Amusement. There is levied a tax of 71 cents on each \$100.00 of gross income, as defined by the statute, for this type of business.

H. Service Business or Calling Not Otherwise Specifically Taxed. There is levied a tax of \$1.15 on each \$100.00 of gross income, as defined by the statute, for this type of business.

I. Business of Furnishing Property for Hire. There is levied a tax of \$1.15 on each \$100.00 of gross income, as defined by the statute, for this type of business.

K. Banking and other Financial Institutions. There is levied a tax of \$1.15 on each \$100.00 of gross income, as defined by the statute, for this type of business.

The West Virginia Carrier Income Tax ch. 11, art. 12A, West Virginia Code of 1931, as amended, is an annual tax on incomes of certain carriers. The law provides that the foregoing taxpayers shall pay to the State an annual tax for each calendar year. This tax shall be equal to the gross income from all business beginning and ending within the State.

In addition to the tax imposed on gross intrastate income, the tax is imposed on the net income earned within the State.

The West Virginia Corporate Net Income Tax ch. 11, art 24, West Virginia Code of 1931, as amended, is a conformity statute which imposes a tax on the net income of corporations and similar business organizations at the rate of six per centum. This being a statute, correlated to the Federal Internal Revenue Code, as amended to 1967, it will simplify preparation of state corporation net income tax returns by taxpayers, improve enforcement and aid interpretation of the law through increased use of federal judicial and administrative determinations and precedents.

The tax is paid in four equal installments, the taxpayer preparing an annual declaration of estimated tax and reconciling the same through the filing of an annual return. The due date of the declaration is the fifteenth day of the fourth month of the tax year. The following quarterly payments are due on the fifteenth day of the sixth, ninth and twelfth months of the taxable year. The annual return is due on the fifteenth day of the third month following the close of the taxable year.

## FOOD, NUTRITION PROGRAMS

The Division of Food, Nutrition Programs has responsibility for the operation of the Donated Foods Program and the Food Stamp Program. Both programs administered through this Division are joint undertakings with the United States Department of Agriculture.

The distribution of donated foods is accomplished on a statewide basis to all 55 county school boards and, in addition, many parochial schools participate. In addition to schools, state institutions, hospitals, senior citizens centers, day care centers, summer camps and Head Start Programs receive the federal food.

The variety of donated foods has increased to a total of 34 items which include frozen chicken and turkeys, green beans, butter, flour and fresh apples, some of which are purchased in West Virginia. This is the highest number ever made available for distribution in the State.

There were approximately 134 youth summer camps participating in the Program with approximately 21,372 children benefiting from those activities.

The Division of Food, Nutrition Programs received, unloaded and distributed 253 cars of donated foods during the 1971-72 fiscal year, and the distribution to the State's 55 counties amounted to a total of \$4,547,978.09, in wholesale value of the food items. Benefiting from this food were 230,000 school children in public and private schools; 2,877 pre-school children in 44 day care centers; 439 children in residential centers; and, 6632 adults in 38 institutions and hospitals.

A change in the Food Stamp Program regulations in November, 1971, resulted in a revision in the amount of bonus coupons made available to all households. Previously a one-member household with an income of \$100.00 paid \$18.00 and received a total of \$28.00 in food coupons. The same person now pays \$18.00 and receives a total of \$36.00 in food coupons. An eight-member household with an income of \$165.00 paid \$50.00 and received \$180.00 in food coupons, but under the new policy the household pays \$45.00 and receives \$192.00. In addition, the monthly allowable income schedule which is used to determine household eligibility, was increased. Formerly, a one-member household could have a net monthly income of \$150.00 and remain eligible for participation in the program. Now this household may have an income up to \$178.00. The allowable income for an eight-member household was increased from \$415.00 to \$640.00. This change has enabled many more low income households to become eligible for participation in the Food Stamp Program.

Nutrition continues to be an important part of the Food Stamp Program. The Department of Welfare works closely with the Bureau of Nutrition, State Department of Health and the West Virginia Extension Service, in getting nutrition education to all interested individuals. Nutrition aides have been active in most counties within the State in the areas of food buying, meal planning and stretching the food dollar. The interest of church groups and other organizations in nutrition throughout the State has been encouraging as several of these groups have chosen nutrition as their yearly projects. Contributions of these organizations at the local level are immeasurable at this time.

The Department of Welfare continues to utilize the services of banking institutions and the United States Postal Service as a means of issuing the food coupons to eligible households.

The following statistics reflect the average number of households participating in the program for the fiscal year, July, 1971, through June, 1972.
