The Joint Committee on Government and Finance has authorized the creation of a Joint Committee on Redistricting to be comprised of all the members from the Redistricting Committees of the Senate and House of Delegates. The President of the Senate and the Speaker of the House selected the majority members and the Minority Leaders of their respective houses recommended the minority members for appointment to this committee. In addition, care was taken to guarantee that the current congressional districts are equally represented. The following members have been appointed to their respective Redistricting Committees:

Even if you are not a member of this committee, you will still have the ability to participate in the redistricting process. The Joint Committee on Redistricting will be traveling throughout the state this summer, hosting public hearings to gather feedback from our citizens and to ensure that they have an opportunity to be heard. It will also ensure that the process is interactive, transparent and productive as we shape our Senate, House, and Congressional Districts for the next ten years.

All members of the Senate and House are welcome to attend any of these meetings, and we would encourage you to do so.
