

Senate Bill No. 30

(By Senators Stollings, Jenkins, Laird and Miller)

[Introduced February 13, 2013; referred to the Committee on
Health and Human Resources; and then to the Committee on
Finance.]

**Interim
Bill**

A BILL to amend the Code of West Virginia, 1931, as amended, by
adding thereto a new section, designated §9-5-12a, relating to
the Department of Health and Human Resources and Medicaid; and
requiring the coverage by Medicaid of dental services for the
mother of a child who is the recipient of Medicaid services.

Be it enacted by the Legislature of West Virginia:

That the Code of West Virginia, 1931, as amended, be amended
by adding thereto a new section, designated §9-5-12a, to read as
follows:

ARTICLE 5. MISCELLANEOUS PROVISIONS.

**§9-5-12a. Medicaid program; dental coverage for mothers of newborn
infants.**

1 (a) The Legislature finds and declares that the good health of
2 a mother is essential to the health and development of a child. An
3 essential part of basic overall good health is good oral health and
4 ensuring good oral health of a mother is a cost effective way to
5 ensure that newborns and children under the age of two start life
6 on a healthy course. Providing oral health to a mother will not
7 only keep her healthier but will also help improve the health
8 status of the next generation of West Virginians.

9 (b) The Secretary of the Department of Health and Human
10 Resources shall extend Medicaid coverage for basic and emergency
11 dental care to any mother of a child who is a recipient of Medicaid
12 services during pregnancy effective July 1, 2013.

13 (c) For the purposes of this section, basic and emergency
14 dental care includes the evaluation, diagnosis, prevention and
15 treatment of diseases, disorders and conditions of the oral cavity
16 and maxillofacial area.

17 (d) Any woman who establishes eligibility under this section
18 shall continue to be treated as an eligible individual without
19 regard to any change in income of the family of which she is a
20 member for two full years following the birth of her child.

NOTE: The purpose of this bill is to require the Department of Health and Human Resources and Medicaid to provide dental coverage

to an eligible mother for two years following the birth of her child.

This section is new; therefore, strike-throughs and underscoring have been omitted.

The bill passed out of the Legislative oversight Commission on Health and Human Resource Accountability, recommended for passage.
