CHAPTER 18. EDUCATION.

ARTICLE 2I. STATE-LEVEL LEADERSHIP FOR PROFESSIONAL DEVELOPMENT SYSTEM.

§18-2I-1. Professional development coordination and delivery; system goals.

1 The purpose of this article is to establish clear state-level leadership for professional
2 development for all West Virginia public school educators and administrators. As the state

3 institution charged with the general supervision of the state school system, the state board shall
4 institute a system for the coordination and delivery of high-quality professional development. The
5 system shall clearly define the goals for professional development and delineate roles and
6 responsibilities of the various state, school district and individual school levels for the delivery of
7 high-quality professional development. The state board shall include among the goals for the
8 system of professional development the following:

9 (1) The instructional leadership skills of principals are developed to ensure that each
10 school is led by a principal who is knowledgeable of continuous improvement processes and
11 capable of leading effective improvement efforts. The principal also must understand the value of
12 fair and accurate personnel performance evaluations as an effective, continuous improvement
13 effort to drive professional learning at the school level;

14 (2) Professional development is among the array of supports and processes necessary
15 under a performance-based accreditation system to build the capacity of schools to impact
16 student performance and well-being by increasing staff individual and collective skills,
17 competencies, and abilities. It should be based on a thorough analysis of accountability data and
18 strategic planning for continuous improvement that addresses those areas that must be a priority
19 for individual school support, including an analysis of personnel evaluation data in order to target
20 individualized professional learning at the school level;

21 (3) The school is the unit of change. Local and state resources, policies, and procedures
22 must focus on assisting the improvement of each West Virginia school and on differentiating
23 supports according to need and level of performance, including the implementation of school-
24 based professional development programs that address the unique needs of staff and students;
25 and

26 (4) Professional development should be delivered using techniques, school schedules or
27 time in a manner that does not diminish student learning by the absence of their classroom
28 teacher.

§18-2I-2. Legislative findings.

1 The Legislature finds:

2 (1) That high-quality professional development is critical in supporting improved practice,

3 assuring teacher quality and raising student achievement;

4 (2) That professional development is vital in the state's overall school improvement efforts;

5 (3) That the state board shall assure the efficient delivery of high-quality professional

6 development programs and that the duplication of efforts be minimized;

7 (4) That the state board shall assure all stakeholders are appropriately involved in the

8 planning and implementing of programs to meet requisite needs and that high-quality professional

9 development programs be provided to public school educators of West Virginia in the most

10 efficient and cost effective manner;

11 (5) That continuous improvement is the on-going process of planning, determining,

12 implementing, and refining efforts to improve student performance and well-being. It is the

13 collective staff process of analyzing student performance data, studying current school and

14 classroom practices, determining root causes, researching solutions, and implementing

15 processes outlined in the school's strategic plan; and

16 (6) That the capacity for excellence resides in every school. Schools are responsible for

17 creating school-wide and classroom conditions that produce student success. Every school needs

18 quality leadership and the flexibility and support to make the decisions that will lead to the

19 achievement of all students.

2 with §29A-3B-1 *et seq.* of this code to ensure the coordination, development and evaluation of

3 high-quality professional development programs. The rule shall include, but is not limited to, the
4 following:

5 (1) Standards for quality professional development that all professional development
6 providers shall use in designing, implementing, and evaluating professional development that
7 shall become part of the system for the coordinated delivery of high-quality professional
8 development established by the state board;

9 (2) Processes for aggregating information, in part from school and school district strategic
10 plans, to determine areas of common need for professional development, as well as those more
11 varied, to assist in the design of the most effective and efficient method and level of delivery;

12 (3) Processes for assuring professional development resources are appropriately
13 allocated to identified areas of need;

14 (4) Processes for evaluating the effectiveness, efficiency, and impact of the professional
15 development;

16 (5) Processes for ensuring all stakeholders, including affected principals and classroom
17 teachers, have a voice in the identification of needed professional development and various
18 delivery models;

19 (6) Processes for collaboration among West Virginia Department of Education, county
20 boards, principals and classroom teachers; and

21 (7) Processes for ensuring that the expertise and experience of state institutions of higher
22 education with teacher preparation programs are included in developing and implementing
23 professional development programs.

24 (b) The Center for Professional Development, formerly provided for under §18A-3A-1 et
25 seq. of this code before the effective date of the amendment and reenactment of this section
26 during the 2018 regular session of the Legislature, is hereby transferred to be under the authority
27 and control of the state board. To assist in the delivery of high quality professional development
28 for teachers, principals, and other school employees, the state board shall incorporate within the

29 Department of Education the Center for Professional Development whose general mission shall
30 be under the direction of the state board to advance the quality of teaching and learning in the

5 professional personnel shall be in accordance with the provisions of this section.

6 (c) For purposes of this section, "professional personnel", "professional", or
7 "professionals", means professional personnel and other professional employees, as defined in
8 §18A-1-1 of this code but does not include classroom teachers, principals, and assistant principals
9 subject to the evaluation processes established pursuant to §18A-3C-2 of this code.

10 (d) The performance evaluation system shall contain, but not be limited to, the following
11 information:

12 (1) The professional personnel positions to be evaluated;

13 (2) The frequency and duration of the evaluations, which shall be of such frequency and
14 duration as to insure the collection of a sufficient amount of data from which reliable conclusions
15 and findings may be drawn, but at least annually;

16 (3) The evaluation shall serve the following purposes:

17 (A) Serve as a basis for the improvement of the performance of the personnel in their
18 assigned duties;

19 (B) Provide an indicator of satisfactory performance for individual professionals;

20 (C) Serve as documentation for a dismissal on the grounds of unsatisfactory performance;
21 and

22 (D) Serve as a basis for programs to increase the professional growth and development
23 of professional personnel;

24 (4) The standards for satisfactory performance for professional personnel and the criteria
25 to be used to determine whether the performance of each professional meets those standards
26 and other criteria for evaluation for each professional position evaluated. Professional personnel,
27 as appropriate, shall demonstrate competency in the knowledge and implementation of the
28 technology standards adopted by the state board. If a professional fails to demonstrate
29 competency in the knowledge and implementation of these standards, he or she will be subject
30 to an improvement plan to correct the deficiencies; and

31 (5) Provisions for a written improvement plan, which shall be specific as to what
32 improvements, if any, are needed in the performance of the professional and shall clearly set forth
33 recommendations for improvements, including recommendations for additional education and
34 training during the professional's recertification or license renewal process.

35 (e) A professional whose performance is considered to be unsatisfactory shall be given
36 notice of deficiencies. A remediation plan to correct deficiencies shall be developed by the
37 employing county board and the professional. The professional shall be given a reasonable period
38 of time for remediation of the deficiencies and shall receive a statement of the resources and
39 assistance available for the purposes of correcting the deficiencies.

40 (f) No person may evaluate professional personnel for the purposes of this section or
41 professional educator for the purposes of §18A-3C-2 of this code unless the person has an
42 administrative certificate issued by the state superintendent and has successfully completed
43 education and training in evaluation skills approved by the state board, which will enable the
44 person to make fair, professional, and credible evaluations of the personnel whom the person is
45 responsible for evaluating.

46 (g) Any professional whose performance evaluation includes a written improvement plan
47 shall be given an opportunity to improve his or her performance through the implementation of
48 the plan. If the next performance evaluation shows that the professional is now performing
49 satisfactorily, no further action may be taken concerning the original performance evaluation. If
50 the evaluation shows that the professional is still not performing satisfactorily, the evaluator either
51 shall make additional recommendations for improvement or may recommend the dismissal of the
52 professional in accordance with the provisions of §18A-2-8 of this code.

53 (h) This subsection applies to all classroom teachers irrespective of the process under
54 which they are evaluated.

55 (1) Lesson plans are intended to serve as a daily guide for teachers and substitutes for
56 the orderly presentation of the curriculum. Lesson plans may not be used as a substitute for
57 observations by an administrator in the performance evaluation process. A classroom teacher, as
58 defined in §18A-1-1 of this code, may not be required to post his or her lesson plans on the
59 Internet or otherwise make them available to students and parents or to include in his or her
60 lesson plans any of the following:

65 (E) Any other similar items which are not required to serve as a guide to the teacher or
66 substitute for daily instruction;
- 67 (2) The Legislature finds that classroom teachers must be free of unnecessary paperwork
68 so that they can focus their time on instruction. Therefore, classroom teachers may not be
69 required to keep records or logs of routine contacts with parents or guardians;
- 70 (3) Nothing in this subsection may be construed to prohibit classroom teachers from
71 voluntarily posting material on the Internet; and
- 72 (4) Nothing in §18A-3C-1 *et seq.* of this code may be construed to negate the provisions
73 of this subsection.

ARTICLE 3C. IMPROVING TEACHING AND LEARNING.

§18A-3C-1. Findings; purposes and definition.

1 (a) The Legislature makes the following findings:
2 (1) Processes set forth in this article for the performance evaluation of professional
3 personnel and the induction and professional growth of teachers and leaders are not intended to
4 make up for substandard initial preparation, but instead are intended to build on a solid foundation

5 created by the teacher and principal preparation programs. Therefore, the Legislature expects
6 the teacher preparation programs to graduate teachers and leaders who can perform at a level
7 that increases student achievement. The Legislature expects that the processes set forth in this
8 article will allow a teacher and principal to excel beyond that level in the classroom and in school
9 leadership positions;

10 (2) The comprehensive system of support provided in this article should be implemented
11 in a way that effectively provides for the professional growth of teachers and principals;

12 (3) In order for the comprehensive system of support to much more effectively provide for
13 the professional growth of teachers and principals, professional development resources must be
14 focused in the most cost effective manner on the unique needs of individual schools, including
15 their professional personnel evaluation data, to increase the school's capacity to improve student
16 performance and progress; and

17 (4) Although the quality of the teacher is extremely important to the academic achievement
18 of students, students cannot learn if they are not present to receive the instruction. Therefore,
19 attending school on a regular basis is of utmost importance to the academic success of students.

20 (b) The purpose of this article is to create a comprehensive infrastructure that routinely
21 supports a continuous process for improving teaching and learning. Its focus is on developing
22 strong teaching and school leadership, without which effective learning does not occur. The
23 general components of this infrastructure include the following:

24 (1) High-quality teacher and principal preparation, induction, and evaluation;

25 (2) Universal support for emerging teachers and principals including comprehensive
26 induction and support for (A) Beginning teachers, student teachers, teachers teaching in
27 assignments for which they have less than a full professional credential, and teacher candidates
28 pursuing certification through an alternative route; and (B) beginning principals, assistant
29 principals, and vocational administrators, and those of them beginning a new assignment at a
30 school with a significantly different grade level configuration;

31 (3) Evaluation of the performance of teachers and leaders in demonstrating high quality
32 professional practice, leadership, and collaboration and the resulting growth in student learning;

33 (4) Focused improvement in teaching and learning through the use of evaluation data to
34 inform the delivery of professional development and additional supports to improve teaching
35 based on the evaluation results and to inform the need for improvements in teacher preparation
36 programs; and

37 (5) The creation of a leadership culture that seeks and builds powerful alliances among all
38 stakeholders focused on continuous growth in student learning.

39 (c) For purposes of this article “professional personnel” includes classroom teachers,
40 assistant principals, and principals as defined in §18A-1-1 of this code.

§18A-3C-2. Performance evaluations of professional personnel.

1 (a) The provisions of this section govern the performance evaluation of classroom
2 teachers, principals and assistant principals employed in public schools and school systems. To
3 the extent that this section conflicts with the provisions of §18A-2-12 of this code relating to
4 professional personnel performance evaluations, this section shall govern.

5 (b) Before July 1, 2018, the state board shall adopt a legislative rule in accordance with
6 §29A-3B-1 *et seq.* of this code, for annually evaluating the performance of each professional
7 person. The rule shall provide for performance evaluations of professional personnel to be
8 conducted in accordance with this section in each school and school system.

9 (c) (1) The process adopted by the state board for evaluating the performance of
10 classroom teachers shall incorporate at least the following:

11 (A) Alignment with the West Virginia Professional Teaching Standards adopted by the
12 state board that establish the foundation for educator preparation, teacher assessment, and
13 professional development throughout the state;

14 (B) Employment of the professional teaching standards to provide explicit and extensive
15 measures of the work of teaching and what teachers must know and be able to do and provide
16 evaluative measures of educator performance; and

17 (C) The use of two pieces of evidence at two points in time over the instructional term to
18 demonstrate student learning as an indicator of educator performance.

19 (2) Eighty percent of the evaluation shall be based on an appraisal of the educator's ability
20 to perform the critical standard elements of the professional teaching standards. The appraisal
21 shall include conferences with the evaluator reinforced through observation. Twenty percent of
22 the evaluation shall be based on evidence of the learning of the students assigned to the educator
23 in accordance with paragraph (C), subdivision (1) of this subsection.

45 purposes:

46 (1) Serve as a basis for the improvement of the performance of the professional personnel
47 in their assigned duties;

48 (2) Serve as the basis for providing professional development specifically targeted on the
49 area or areas identified through the evaluation process as needing improvement. If possible, this
50 targeted professional development should be delivered at the school site using collaborative
51 processes, mentoring or coaching or other approaches that maximize use of the instructional
52 setting;

53 (3) Serve as the basis for establishing priorities for the provision of county-level
54 professional development when aggregate evaluation data from the county's schools indicates
55 an area or areas of needed improvement;

56 (4) Serve as a basis for informing the teacher preparation programs in this state of an area
57 or areas of needed improvement in the programs, or informing a specific program of needed
58 improvement, when state-level aggregate evaluation data indicates that beginning teachers who
59 have graduated from the program have specific weaknesses;

60 (5) Provide an indicator of level of performance of the professional personnel;

61 (6) Serve as a basis for programs to increase the professional growth and development
62 of professional personnel; and

63 (7) Serve as documentation for a dismissal on the grounds of unsatisfactory performance.

64 (f) The rule adopted by the state board shall include standards for the performance of
65 professional personnel and the criteria to be used to determine whether their performance meets
66 the standards. The rule also shall include guidance on best practices for providing time within the
67 school day for teachers and leaders subject to performance evaluations under this section to
68 participate in the collaborative mentoring or coaching and planning processes necessary for
69 execution of the performance evaluation process and achieving advanced levels of performance.

70 (g) The rule adopted by the state board shall include provisions for written improvement
71 plans when necessary to improve the performance of the professional personnel. The written
72 improvement plan shall be specific as to what improvements are needed in the performance of
73 the professional personnel and shall clearly set forth recommendations for improvements
74 including recommendations for additional education and training of professionals subject to
75 recertification. Professional personnel whose performance evaluation includes a written
76 improvement plan shall be given an opportunity to improve his or her performance through the
77 implementation of the plan.

78 (h) A professional person whose performance is considered to be unsatisfactory shall be
79 given written notice of his or her deficiencies. A written improvement plan to correct these
80 deficiencies shall be developed by the employing county board and the employee. The
81 professional person shall be given a reasonable period of time, not exceeding twelve months, to
82 accomplish the requirements of the improvement plan and shall receive a written statement of the
83 resources and assistance available for the purposes of correcting the deficiencies. If the next
84 performance evaluation shows that the professional is now performing satisfactorily, no further
85 action may be taken concerning the original performance evaluation. If the evaluation shows that
86 the professional is still not performing satisfactorily, the evaluator either shall make additional
87 written recommendations for improvement or may recommend the dismissal of the professional
88 personnel in accordance with the provisions of §18A-2-8 of this code.

89 (i) No person may evaluate professional personnel for the purposes of this section unless
90 the person has an administrative certificate issued by the state superintendent and has
91 successfully completed education and training in evaluation skills approved by the state board
92 which will enable the person to make fair, professional, and credible evaluations of the personnel
93 whom the person is responsible for evaluating.

94 (j) Prior to implementation of the evaluation process pursuant to this section at a school,
95 each affected employee shall be given training to ensure that the employees have a full

96 understanding of the purposes, instruments, and procedures used in evaluating their
97 performance. Thereafter, this training shall be held annually at the beginning of the employment
98 term.

**§18A-3C-3. Comprehensive system for teacher and leader induction and professional
growth.**

1 (a) The intent of the Legislature is to allow for local-level implementation of comprehensive
2 systems of support for building professional practice consistent with sound educational practices
3 and resources available. In this regard, it is the intent of the Legislature that the comprehensive
4 systems of support shall incorporate support for improved professional performance that is
5 targeted on deficiencies identified through the educator personnel evaluation process and other
6 professional development needs identified in the strategic plans for continuous improvement of
7 schools and school systems. Further, because of significant variability among the counties, not
8 only in the size of their teaching force, distribution of facilities and available resources, but also
9 because of their varying needs, the Legislature intends for the implementation of this section to
10 be accomplished in a manner that provides adequate flexibility to the counties to design and
11 implement a comprehensive system of support for improving professional performance that best
12 achieves the goals of this section within the county. Finally, because of the critical importance of
13 ensuring that all teachers perform at the accomplished level or higher in the delivery of instruction
14 that at least meets the West Virginia Professional Teaching Standards and because achieving
15 this objective at a minimum entails providing assistance to address the needs as indicated by the
16 data informed results of annual performance evaluations, including the self-assessed needs of
17 the teachers themselves, the Legislature expects the highest priority for county and state
18 professional development will be on meeting these needs and that the comprehensive systems
19 of support for improving professional practice will reflect substantial redirection of existing
20 professional development resources toward this highest priority.

21 (b) On or before July 1, 2018, the state board shall publish guidelines on the design and
22 implementation of a county-level comprehensive system of support for improving professional
23 practice. The purpose of the guidelines is to assist the county board with the design and
24 implementation of a system that best achieves the goals of this section within the county. The
25 guidelines may include examples of best practices and resources available to county boards to
26 assist them with the design and implementation of a comprehensive system.

27 (c) Effective for the school year beginning July 1, 2018, and thereafter, a county board is
28 not eligible to receive state funding appropriated for the purposes of this section or any other
29 provision of law related to beginning teacher and principal internships and mentor teachers and
30 principals unless it has adopted a plan for implementation of a comprehensive system of support
31 for improving professional practice, the plan has been verified by the state board as meeting the
32 requirements of this section and the county is implementing the plan. The plan shall address the
33 following:

34 (1) The manner in which the county will provide the strong school-based support and
35 supervision that will assist beginning teachers in developing instructional and management
36 strategies, procedural and policy expertise, and other professional practices they need to be
37 successful in the classroom and perform at the accomplished level. Nothing in this subdivision
38 prohibits a school or school system that was granted an exception or waiver from §18A-3-2c of
39 this code prior to the effective date of this section from continuing implementation of the program
40 in accordance with the exception or waiver;

41 (2) The manner in which the county will provide the strong support and supervision that
42 will assist beginning principals in developing instructional leadership, supervisory and
43 management strategies, procedural and policy expertise, and other professional practices they
44 need to be successful in leading continuous school improvement and performing at the
45 accomplished level or above;

46 (3) The manner in which the county in cooperation with the teacher preparation programs
47 in this state will provide strong school-based support and assistance necessary to make student
48 teaching a productive learning experience;

49 (4) The manner in which the county will use the data from the educator performance
50 evaluation system to serve as the basis for providing professional development specifically
51 targeted on the area or areas identified through the evaluation process as needing improvement.
52 If possible, this targeted professional development should be delivered at the school site using
53 collaborative processes, mentoring or coaching or other approaches that maximize use of the
54 instructional setting;

55 (5) The manner in which the county will use the data from the educator performance
56 evaluation system to serve as the basis for establishing priorities for the provision of county-level
57 professional development when aggregate evaluation data from the county's schools indicates
58 an area or areas of needed improvement;

59 (6) If a county uses master teachers, mentors, academic coaches, or any other
60 approaches using individual employees to provide support, supervision, or other professional
61 development or training to other employees for the purpose of improving their professional
62 practice, the manner in which the county will select each of these individual employees based
63 upon demonstrated superior performance and competence as well as the manner in which the
64 county will coordinate support for these employees. If the duties of the position are to provide
65 mentoring to an individual teacher at only one school, then priority shall be given to applicants
66 employed at the school at which those duties will be performed;

67 (7) The manner in which the county will use local resources available, including, but not
68 limited to, funds for professional development and academic coaches, to focus on the priority
69 professional development goals of this section;

70 (8) The manner in which the county will adjust its scheduling, use of substitutes,
71 collaborative planning time, calendar, or other measures as may be necessary to provide

72 sufficient time for professional personnel to accomplish the goals of this section as set forth in the
73 county's plan; and

74 (9) The manner in which the county will monitor and evaluate the effectiveness of
75 implementation and outcomes of the county system of support for improving professional practice.

76 (d) Effective the school year beginning July 1, 2018, and thereafter, appropriations for
77 beginning teacher and principal mentors and internships and any new appropriation which may
78 be made for the purposes of this section shall be expended by county boards only to accomplish
79 the activities as set forth in their county plan pursuant to this section. Effective the school year
80 beginning July 1, 2018, and thereafter, no specific level of compensation is guaranteed for any
81 employee service or employment as a mentor and such service or employment is not subject to
82 the provisions of this code governing extra duty contracts.

83 (e) The Legislative Oversight Commission on Education Accountability shall review the
84 progress of the implementation of this article and may make any recommendations it considers
85 necessary to the Legislature during the 2019 regular legislative session.
