CHAPTER 18. EDUCATION.

ARTICLE 2. STATE BOARD OF EDUCATION.

§18-2-6. Classification and standardization of schools; standards for degrees and diplomas; certificates of proficiency; establishment of alternative education programs.

1 (a) The state board shall promulgate rules for the accreditation, classification, and
2 standardization of all schools in the state, except institutions of higher education, and shall
3 determine the minimum standards for granting diplomas, advanced certifications, and certificates
4 of proficiency by those schools.

5 (1) The certificates of proficiency shall include specific information regarding the
6 graduate's skills, competence and readiness for employment, or honors and advanced education
7 and shall be granted, along with the diploma, to every eligible high school graduate.

8 (2) The certificate of proficiency shall include the program of study major completed by the
9 student only for those students who have completed the required major courses, or higher level
10 courses, advanced placement courses, college courses or other more rigorous substitutes related
11 to the major, and the recommended electives.

12 (3) Students that have completed a secondary education program in a public, private, or
13 home school and have continued to be enrolled in a program leading to an advanced certification
14 or an advanced career education program shall be considered adults enrolled in regular
15 secondary programs in accordance with §18-9A-2(i) of this code.

16 (b) An institution of less than collegiate or university status may not grant any diploma or
17 certificate of proficiency on any basis of work or merit below the minimum standards prescribed
18 by the state board.

19 (c) A charter or other instrument containing the right to issue diplomas or certificates of
20 proficiency may not be granted by the State of West Virginia to any institution or other associations
21 or organizations of less than collegiate or university status within the state until the condition of
22 granting or issuing the diplomas or other certificates of proficiency has first been approved in
23 writing by the state board.

24 (d) The state board shall promulgate a rule for the approval of alternative education
25 programs for disruptive students who are at risk of not succeeding in the traditional school
26 structure.

27 (1) This rule may provide for the waiver of other policies of the state board, the
28 establishment and delivery of a nontraditional curriculum, the establishment of licensure
29 requirements for alternative education program teachers, and the establishment of performance
30 measures for school accreditation.

31 (2) This rule shall provide uniform definitions of disruptive student behavior and uniform
32 standards for the placement of students in alternative settings or providing other interventions
33 including referrals to local juvenile courts to correct student behavior so that they can return to a
34 regular classroom without engaging in further disruptive behavior.

35 (e) The state board shall establish up to five pilot projects at the elementary or middle
36 school levels, or both, that employ alternative schools or other placements for disruptive students
37 to learn appropriate behaviors so they can return to the regular classroom without further
38 disrupting the learning environment. The state board shall report to the Legislative Oversight
39 Commission on Education Accountability by December 1, 2010, on its progress in establishing
40 the pilot projects and by December 1 in each year after that for the duration of the pilot projects
41 on the effect of the projects on maintaining student discipline.

42 (f) If a student attends an approved alternative education program or the Mountaineer
43 Challenge Academy, which is designated as a special alternative education program pursuant to
44 §15-1B-24 of this code, and the student graduates or passes the General Equivalency
45 Development tests within five years of beginning ninth grade, that student shall be considered
46 graduated for the purposes of calculating the high school graduation rate used for school
47 accreditation and school system approval, subject to the following:

48 (1) The student shall be considered graduated only to the extent that this is not in conflict
49 with any provision of federal law relating to graduation rates;

50 (2) If the state board determines that this is in conflict with a provision of federal law relating
51 to graduation rates, the state board shall request a waiver from the United States Department of
52 Education; and

53 (3) If the waiver is granted, notwithstanding the provisions of §18-2-6(f)(1) of this code, the
54 student graduating or passing the General Educational Development tests within five years shall
55 be considered graduated.

56 (g) The state board shall promulgate a rule to support the operation of the National Guard
57 Youth Challenge Program operated by the Adjutant General and known as the Mountaineer
58 Challenge Academy which is designated as a special alternative education program pursuant to
59 §15-1B-24 of this code for students who are at risk of not succeeding in the traditional school
60 structure. The rule shall set forth policies and procedures applicable only to the Mountaineer
61 Challenge Academy that provide for, but are not limited to, the following:

62 (1) Implementation of provisions set forth in §15-1B-24 of this code;

63 (2) Precedence of the policies and procedures designated by the National Guard Bureau
64 for the operation of the Mountaineer Challenge Academy special alternative education program;

65 (3) Consideration of a student participating in the Mountaineer Challenge Academy special
66 alternative education program at full enrollment status in the referring county for the purposes of
67 funding and calculating attendance and graduation rates, subject to the following:

68 (A) The student shall be considered at full enrollment status only for the purposes of
69 calculating attendance and graduation rates to the extent that this is not in conflict with any
70 provision of federal law relating to attendance or graduation rates;

71 (B) If the state board determines that this is in conflict with a provision of federal law
72 relating to attendance or graduation rates, the state board shall request a waiver from the United
73 States Department of Education;

74 (C) If the waiver is granted, notwithstanding the provisions of §18-2-6(g)(3)(A) of this code,
75 the student shall be considered at full enrollment status in the referring county for the purposes
76 of calculating attendance and graduation rates; and

77 (D) Consideration of the student at full enrollment status in the referring county is for the
78 purposes of funding and calculating attendance and graduation rates only. For any other purpose,
79 a student participating in the academy is considered withdrawn from the public school system;

80 (4) Articulation of the knowledge, skills, and competencies gained through alternative
81 education so that students who return to regular education may proceed toward attainment or
82 may attain the standards for graduation without duplication;

83 (5) Consideration of eligibility to take the General Educational Development tests by
84 qualifying within the extraordinary circumstances provisions established by state board rule for a
85 student participating in the Mountaineer Challenge Academy special alternative education
86 program who does not meet any other criteria for eligibility; and

87 (6) Payment of tuition by a county board to the Mountaineer Challenge Academy for each
88 student graduating from the academy with a high school diploma that resides in that county
89 board's school district. For purposes of this subdivision, "tuition" means an amount equal to 75
90 percent of the amount allotted per pupil under the school aid formula.

91 (h) Nothing in this section or the rules promulgated under this section compels the
92 Mountaineer Challenge Academy to be operated as a special alternative education program or to
93 be subject to any other laws governing the public schools except by its consent.

94 (i) The Legislature makes the following findings regarding students at risk:

95 (1) *Defeated and discouraged learners.* —

96 (A) Any child who is unlikely to graduate on schedule with both the skills and self-esteem
97 necessary to exercise meaningful options in the areas of work, leisure, culture, civic affairs, and
98 personal relationships may be defined as being an at-risk student;

99 (B) Problems associated with students at risk often begin for them in the early grades as
100 they gradually fall further behind in the essential skills of reading, writing, and math;

101 (C) These problems may be accompanied by such behavior patterns as poor attendance,
102 inattentiveness, negative attitudes, and acting out in class. These patterns are both symptoms of
103 and added catalysts for students to become increasingly defeated and discouraged learners;

104 (D) By the middle grades, students with growing skill deficits usually know they are behind
105 other students and have good reason to feel discouraged. A growing lack of self-confidence and
106 self-worth, limited optimism for the future, avoidance of school and adults, and a dimming view of
107 the relationship between effort and achievement are among the characteristics of defeated and
108 discouraged learners;

109 (E) Public schools are expected to address the needs of all students, minimizing the
110 likelihood that they will become at risk and giving additional attention to those who do; however,
111 the circumstances involved with a child becoming at risk often are complex and may include
112 influences both within and outside of the school environment; and

113 (F) In fragile homes, a child who is at risk and is becoming a discouraged and defeated
114 learner often lacks adequate support and may develop peer relationships that further exacerbate
115 the difficulty of reengaging him or her in learning, school, and responsible social behavior.

116 (2) The Legislature further finds that the public schools should not be deterred from
117 seeking and assisting with enrollment of students in an alternative program that helps remedy the
118 discouragement, lessens skill deficits, and facilitates a successful return to public school.

119 For this purpose, subject to approval of the county superintendent, a student enrolled in
120 the public schools of the county may continue to be enrolled while also enrolled in an alternative
121 program subject to the following conditions:

122 (1) The alternative program is approved by the state board;

123 (2) The student meets the general description of an at-risk student and exhibits behaviors
124 and characteristics associated with a discouraged and defeated learner;

125 (3) The alternative program complies with all requests of the county superintendent for
126 information on the educational program and progress of the student;

127 (4) The alternative program includes a family involvement component in its program. This
128 component shall include, but is not limited to, providing for student and parent participation in
129 activities that help address the challenging issues that have hindered the student's engagement
130 and progress in learning;

- 131 (5) The alternative program includes an on-site boarding option for students;
- 132 (6) The alternative program provides an individualized education program for students that
133 is designed to prepare them for a successful transition back into the public schools; and
- 134 (7) The parents or legal guardian of the student make application for enrollment of the
135 student in the alternative program, agree to the terms and conditions for enrollment, and enroll
136 the student in the program.

ARTICLE 2E. HIGH QUALITY EDUCATIONAL PROGRAMS.

§18-2E-11. Advanced Career Education (ACE).

- 1 (a) The Legislature hereby makes the following findings:
- 2 (1) Preparing West Virginia students to achieve post-secondary career education and to
3 excel in the workforce is a responsibility shared among all state education agencies and
4 institutions. The state's education agencies and institutions can fulfill this responsibility by
5 establishing partnerships that enable students to attain advanced career education and valuable
6 workforce skills in a more efficient and advantageous manner;
- 7 (2) The formation of partnerships between public secondary schools and community and
8 technical colleges which establish advanced career education programs would ensure that a full
9 range of community and technical college programs and services are provided in all areas of the
10 state;
- 11 (3) Programs which create clear and efficient pathways that begin in high school and lead
12 to obtaining advanced certifications and associate degrees will increase the number of students
13 that ultimately obtain a post-secondary credential or degree; and
- 14 (4) West Virginia's economic prosperity is directly tied to the level and quality of its
15 workforce career education. Providing the students of this state with increased access to career
16 education will not only improve the general well-being of its citizens, but greatly enhance the
17 economic prosperity of the state.

18 (b) The purpose of this section and the Advanced Career Education (ACE) programs
19 authorized herein is to connect secondary schools with community and technical colleges to
20 accomplish the following:

21 (1) Prepare secondary students for success in post-secondary education and the
22 workforce; and

23 (2) Provide more opportunities for secondary students to earn post-secondary college
24 credits, certifications, and associate degrees.

25 (c) To effectuate the purposes set forth in §18-2E-11(b) of this code, the community and
26 technical colleges and the career technical education centers, county boards of education, or both
27 in this state shall establish partnerships that provide for ACE programs which feature defined
28 pathways that begin when a student is in high school and that ultimately lead to associate degrees
29 awarded by community and technical colleges. ACE programs shall be available to public,
30 nonpublic, and homeschool students.

31 (d) ACE programs shall include pathways that consist of a curriculum of courses leading
32 to an associate degree that has been deemed to satisfy a workforce need as determined by the
33 Department of Commerce. The Department of Commerce shall, on occasion, but at least
34 annually, provide written notification to the State Board of Education and the West Virginia Council
35 for Community and Technical College Education a determination of areas of workforce need
36 within the state.

37 (e) The State Superintendent of Schools and the Chancellor of the Council for Community
38 and Technical College Education, or their designees, shall facilitate the ACE programs. At a
39 minimum, an ACE program shall satisfy the following objectives:

40 (1) Provide additional opportunities to students in this state to attain college credentials
41 through ACE pathways;

42 (2) Increase the number of students in this state that attain college credentials through
43 ACE pathways;

44 (3) Allow students in this state to attain college credentials through ACE pathways at little
45 or no cost;

46 (4) Ensure that ACE pathways provide a clear roadmap to the courses and requirements
47 necessary to attain college credentials; and

48 (5) Ensure that course requirements within ACE pathways are not duplicated.

49 (f) The board and council shall jointly promulgate guidelines for the administration of ACE
50 programs and pathways, which must be affirmatively adopted by both the board and the council.
51 At a minimum, such guidelines shall provide for the following:

52 (1) That ACE program partnerships established between community and technical
53 colleges and career technical education centers, county boards of education, or both shall be
54 reduced to written partnership agreements;

55 (2) The information required to be contained within partnership agreements;

56 (3) That ACE programs and pathways must meet the requirements of the accrediting entity
57 for the community and technical college awarding the associate degrees;

58 (4) That partnership agreements must be approved by the State Superintendent of
59 Schools and the Chancellor for the Council for Community and Technical College Education; and

60 (5) Any other provisions necessary to effectuate the purposes of this section.

61 (g) The Division of Vocational Education and the council shall maintain and annually report
62 to the Governor and the Legislative Oversight Commission on Education Accountability the
63 following information about ACE programs:

64 (1) The identity and number of partnership agreements;

65 (2) The ACE programs and pathways that are being utilized by career technical education
66 centers, county board of educations, and community and technical colleges; and

67 (3) The nature and number of degrees and certifications awarded to students participating
68 in ACE programs by each community and technical college and career technical education center.

69 (h) Beginning with the 2020 fiscal year, and for every fiscal year thereafter, any
70 appropriation by the Legislature to support and or alleviate the cost to citizens in this state to
71 obtain advanced certifications and associate degrees shall only be distributed to those community
72 and technical colleges that form one or more partnerships to establish ACE programs and
73 pathways. Once distributed, such funds may be used to support any program or pathway leading
74 to the award of an associate degree or certification.

CHAPTER 18C. STUDENT LOANS; SCHOLARSHIPS AND STATE AID.

ARTICLE 9. WEST VIRGINIA INVESTS GRANT PROGRAM.

§18C-9-1. Short title.

1 This article shall be known and may be cited as the WV Invests Grant Program.

§18C-9-2. Legislative findings and purpose.

1 (a) The Legislature hereby finds and declares that:

2 (1) Every West Virginian should have access to education and training that will lead
3 directly to quality employment opportunities within the state. In order for West Virginia to retain
4 and attract business and industry, it must ensure that its workforce has such education and
5 training;

6 (2) West Virginia currently faces a human capital crisis, as the state regularly ranks
7 amongst the lowest states in the nation in workforce participation rates. Improving the state's
8 workforce participation rates and the level of the workforce's career education is critical to
9 economic development and making West Virginia a more prosperous state;

10 (3) The 2017 West Virginia Forward Report, a strategy for economic development and job
11 growth, found that "investments in improving human capital are considered the most significant
12 opportunity for improvement in West Virginia, especially because access to a specialized
13 workforce is a significant factor for investment attraction...";

14 (4) According to the United States Department of Labor's Bureau of Labor Statistics, the
15 median yearly earnings of an individual with an associate's degree is approximately \$6,604 more
16 than an individual with only a high school diploma. Therefore, any investment by the state into a
17 citizen obtaining such a degree would be repaid multiple times over through the citizen's
18 increased contributions to the economy and tax base;

19 (5) West Virginia is currently facing a devastating drug epidemic, and the hope that comes
20 with increased access to career education and higher quality employment opportunities is an
21 indispensable tool against the spread of drug addiction; and

22 (6) An investment by the state into increasing access to post-secondary career education
23 will provide its citizens the hope and opportunity for better career opportunities, and provide the
24 state with the trained workforce needed to attract significant economic development.

25 (b) The purpose of this article is to provide West Virginians with hope and economic
26 prosperity by increasing access to a higher level of career education that is needed to fulfill the
27 needs of today's workforce and provide for further economic development.

§18C-9-3. Definitions.

1 As used in this article:

2 (1) "Council" means the West Virginia Council for Community and Technical College
3 Education;

4 (2) "Eligible institution" means:

5 (A) A state community and technical college institution under the authority of the West
6 Virginia Council for Community and Technical College Education satisfying the requirements of
7 participating in Advanced Career Education (ACE) program partnerships in accordance with §18-
8 2E-11 of this code; or

9 (B) A regionally accredited, two-year institution that provides workforce development and
10 academic transfer programs satisfying the requirements of participating in ACE program
11 partnerships in accordance with §18-2E-11 of this code;

12 (3) "Eligible post-secondary program" means a curriculum of courses leading to a
13 certificate or associate degree at an eligible institution which satisfies a course of study that has
14 been deemed to satisfy a workforce need as determined by the Department of Commerce in
15 accordance with §18-2E-11(d) of this code; and

16 (4) "Tuition" means the semester or term charges imposed by an eligible institution and,
17 additionally, all mandatory fees required as a condition of enrollment by all students.

§18C-9-4. WV Invests Grant Program.

1 (a) There is hereby created a grant program known as the WV Invests Grant Program,
2 which shall be administered by the vice chancellor for administration in accordance with this
3 article.

4 (b) The council shall award WV Invests Grants pursuant to the following terms and
5 conditions:

6 (1) A WV Invests Grant may only be awarded to applicants satisfying the requirements
7 provided in §18C-9-5 of this code;

8 (2) The maximum amount of a WV Invests Grant shall be the cost of tuition charged to all
9 students for coursework leading to completion of the chosen associate degree or certificate, less
10 all other state and federal scholarships and grants for which the student is eligible. All other state
11 and federal scholarships and grants for which the grant recipient is eligible shall be deducted from
12 the amount of the WV Invests Grant for each individual student;

13 (3) Grant payments shall be made directly to the eligible institutions;

14 (4) In the event that a grant recipient transfers from one eligible institution to another, the
15 grant is transferable only with approval of the vice chancellor for administration;

16 (5) A WV Invests Grant may be used at any eligible institution to seek an associate degree
17 or certificate in an eligible post-secondary program. An institution is not required to accept a grant
18 recipient for enrollment and may enforce its own admission requirements, standards, and policies;
19 and

20 (6) If a WV Invests Grant recipient terminates enrollment for any reason during the
21 academic year, the unused portion of the grant shall be returned by the institution to the council
22 in accordance with the council's policy for issuing refunds. The council shall transfer such funds
23 to the WV Invests Fund for allocation and expenditure.

24 (c) On or before January 1 of each year, the council shall provide to the Legislature and
25 the Governor a report on the WV Invests Grant Program, which shall include, but not be limited
26 to, research and data concerning student success and grant retention.

27 (d) The council shall propose legislative rules for legislative approval pursuant to §29A-
28 3A-1 et seq. of this code to implement the provisions of this article, which shall provide for:
