

WEST VIRGINIA LEGISLATURE

2018 REGULAR SESSION

Introduced

House Bill 4267

**FISCAL
NOTE**

BY MR. SPEAKER (MR. ARMSTEAD) AND DELEGATE MILEY

[Introduced January 23, 2018; Referred
to the Committee on Education then Finance.]

1 A BILL to amend and reenact §18-2-6 of the Code of West Virginia, 1931, as amended; to amend
2 said code by adding thereto a new section, designated §18-2E-11; to amend and reenact
3 §18-9A-2 of said code; and to amend said code by adding thereto a new article,
4 designated §18C-9-1, §18C-9-2, §18C-9-3, §18C-9-4, §18C-9-5, and §18C-9-6, all
5 relating generally to increasing access to career education and workforce training;
6 establishing Advanced Career Education (ACE) programs and pathways; providing that
7 certain high school graduates shall be considered adults enrolled in regular secondary
8 programs for funding purposes; requiring community and technical colleges establish
9 partnerships with career technical education centers, county boards of education, or both
10 that provide for ACE programs; providing requirements for ACE programs and pathways;
11 requiring the board of education (board) and the West Virginia Council for Community and
12 Technical College Education (council) promulgate joint guidelines; requiring the division
13 of vocational education and the council maintain and annually report certain information;
14 providing that community and technical colleges and career technical education centers
15 shall participate in one or more ACE partnership in order to receive certain funding;
16 establishing the WV Invests Grant Program; defining terms; authorizing the council to
17 award WV Invests Grants under certain terms and conditions; requiring the council to
18 report certain information on the WV Invests Grant Program; requiring the council to
19 promulgate rules; providing eligibility and renewal requirements for a WV Invests Grant;
20 requiring applicants enter into certain agreements; establishing the WV Invests Fund.

Be it enacted by the Legislature of West Virginia:

CHAPTER 18. EDUCATION.

ARTICLE 2. STATE BOARD OF EDUCATION.

§18-2-6. Classification and standardization of schools; standards for degrees and diplomas; certificates of proficiency; establishment of alternative education

programs.

1 (a) The state board shall promulgate rules for the accreditation, classification and
2 standardization of all schools in the state, except institutions of higher education, and shall
3 determine the minimum standards for granting diplomas, advanced certifications, and certificates
4 of proficiency by those schools.

5 (1) The certificates of proficiency shall include specific information regarding the
6 graduate's skills, competence and readiness for employment or honors and advanced education
7 and shall be granted, along with the diploma, to every eligible high school graduate.

8 (2) The certificate of proficiency shall include the program of study major completed by the
9 student only for those students who have completed the required major courses, or higher level
10 courses, advanced placement courses, college courses or other more rigorous substitutes related
11 to the major, and the recommended electives.

12 (3) Students that have been awarded a high school diploma and have continued to be
13 enrolled in a program leading to an advanced certification or an advanced career education
14 program shall be considered adults enrolled in regular secondary programs in accordance with
15 §18-9A-2(i) of this code.

16 (b) An institution of less than collegiate or university status may not grant any diploma or
17 certificate of proficiency on any basis of work or merit below the minimum standards prescribed
18 by the state board.

19 (c) A charter or other instrument containing the right to issue diplomas or certificates of
20 proficiency may not be granted by the State of West Virginia to any institution or other associations
21 or organizations of less than collegiate or university status within the state until the condition of
22 granting or issuing the diplomas or other certificates of proficiency has first been approved in
23 writing by the state board.

24 (d) The state board shall promulgate a rule for the approval of alternative education
25 programs for disruptive students who are at risk of not succeeding in the traditional school

26 structure.

27 (1) This rule may provide for the waiver of other policies of the state board, the
28 establishment and delivery of a nontraditional curriculum, the establishment of licensure
29 requirements for alternative education program teachers, and the establishment of performance
30 measures for school accreditation.

31 (2) This rule shall provide uniform definitions of disruptive student behavior and uniform
32 standards for the placement of students in alternative settings or providing other interventions
33 including referrals to local juvenile courts to correct student behavior so that they can return to a
34 regular classroom without engaging in further disruptive behavior.

35 (e) The state board shall establish up to five pilot projects at the elementary or middle
36 school levels, or both, that employ alternative schools or other placements for disruptive students
37 to learn appropriate behaviors so they can return to the regular classroom without further
38 disrupting the learning environment. The state board shall report to the Legislative Oversight
39 Commission on Education Accountability by December 1, 2010, on its progress in establishing
40 the pilot projects and by December 1 in each year after that for the duration of the pilot projects
41 on the effect of the projects on maintaining student discipline.

42 (f) If a student attends an approved alternative education program or the Mountaineer
43 Challenge Academy, which is designated as a special alternative education program pursuant to
44 §15-1B-24 of this code, and the student graduates or passes the General Equivalency
45 Development (GED) Tests within five years of beginning ninth grade, that student shall be
46 considered graduated for the purposes of calculating the high school graduation rate used for
47 school accreditation and school system approval, subject to the following:

48 (1) The student shall be considered graduated only to the extent that this is not in conflict
49 with any provision of federal law relating to graduation rates;

50 (2) If the state board determines that this is in conflict with a provision of federal law relating
51 to graduation rates, the state board shall request a waiver from the United States department of

52 education; and

53 (3) If the waiver is granted, notwithstanding the provisions of subdivision (1) of this
54 subsection, the student graduating or passing the General Educational Development (GED) Tests
55 within five years shall be considered graduated.

56 (g) The state board shall promulgate a rule to support the operation of the National Guard
57 Youth Challenge Program operated by the Adjutant General and known as the Mountaineer
58 Challenge Academy which is designated as a special alternative education program pursuant to
59 §15-1B-24 of this code for students who are at risk of not succeeding in the traditional school
60 structure. The rule shall set forth policies and procedures applicable only to the Mountaineer
61 Challenge Academy that provide for, but are not limited to, the following:

62 (1) Implementation of provisions set forth in §15-1B-24 of this code;

63 (2) Precedence of the policies and procedures designated by the National Guard Bureau
64 for the operation of the Mountaineer Challenge Academy special alternative education program;

65 (3) Consideration of a student participating in the Mountaineer Challenge Academy special
66 alternative education program at full enrollment status in the referring county for the purposes of
67 funding and calculating attendance and graduation rates, subject to the following:

68 (A) The student shall be considered at full enrollment status only for the purposes of
69 calculating attendance and graduation rates to the extent that this is not in conflict with any
70 provision of federal law relating to attendance or graduation rates;

71 (B) If the state board determines that this is in conflict with a provision of federal law
72 relating to attendance or graduation rates, the state board shall request a waiver from the United
73 States Department of Education;

74 (C) If the waiver is granted, notwithstanding the provisions of paragraph (A) of this
75 subdivision, the student shall be considered at full enrollment status in the referring county for the
76 purposes of calculating attendance and graduation rates; and

77 (D) Consideration of the student at full enrollment status in the referring county is for the

78 purposes of funding and calculating attendance and graduation rates only. For any other purpose,
79 a student participating in the academy is considered withdrawn from the public school system;

80 (4) Articulation of the knowledge, skills and competencies gained through alternative
81 education so that students who return to regular education may proceed toward attainment or
82 may attain the standards for graduation without duplication;

83 (5) Consideration of eligibility to take the General Educational Development (GED) Tests
84 by qualifying within the extraordinary circumstances provisions established by state board rule for
85 a student participating in the Mountaineer Challenge Academy special alternative education
86 program who does not meet any other criteria for eligibility; and

87 (6) Payment of tuition by a county board to the Mountaineer Challenge Academy for each
88 student graduating from the academy with a high school diploma that resides in that county
89 board's school district. For purposes of this subdivision, "tuition" means an amount equal to
90 seventy-five percent of the amount allotted per pupil under the school aid formula.

91 (h) Nothing in this section or the rules promulgated under this section compels the
92 Mountaineer Challenge Academy to be operated as a special alternative education program or to
93 be subject to any other laws governing the public schools except by its consent.

94 (i) The Legislature makes the following findings regarding students at risk:

95 (1) *Defeated and discouraged learners.* —

96 (A) Any child who is unlikely to graduate on schedule with both the skills and self esteem
97 necessary to exercise meaningful options in the areas of work, leisure, culture, civic affairs and
98 personal relationships may be defined as being an at-risk student;

99 (B) Problems associated with students at risk often begin for them in the early grades as
100 they gradually fall further behind in the essential skills of reading, writing and math;

101 (C) These problems may be accompanied by such behavior patterns as poor attendance,
102 inattentiveness, negative attitudes and acting out in class. These patterns are both symptoms of
103 and added catalysts for students to become increasingly defeated and discouraged learners;

104 (D) By the middle grades, students with growing skill deficits usually know they are behind
105 other students and have good reason to feel discouraged. A growing lack of self confidence and
106 self worth, limited optimism for the future, avoidance of school and adults and a dimming view of
107 the relationship between effort and achievement are among the characteristics of defeated and
108 discouraged learners;

109 (E) Public schools are expected to address the needs of all students, minimizing the
110 likelihood that they will become at risk and giving additional attention to those who do; however,
111 the circumstances involved with a child becoming at risk often are complex and may include
112 influences both within and outside of the school environment; and

113 (F) In fragile homes, a child who is at risk and is becoming a discouraged and defeated
114 learner often lacks adequate support and may develop peer relationships that further exacerbate
115 the difficulty of reengaging him or her in learning, school and responsible social behavior.

116 (2) The Legislature further finds that the public schools should not be deterred from
117 seeking and assisting with enrollment of students in an alternative program that helps remedy the
118 discouragement, lessens skill deficits and facilitates a successful return to public school.

119 For this purpose, subject to approval of the county superintendent, a student enrolled in
120 the public schools of the county may continue to be enrolled while also enrolled in an alternative
121 program subject to the following conditions:

122 (1) The alternative program is approved by the state board;

123 (2) The student meets the general description of an at-risk student and exhibits behaviors
124 and characteristics associated with a discouraged and defeated learner;

125 (3) The alternative program complies with all requests of the county superintendent for
126 information on the educational program and progress of the student;

127 (4) The alternative program includes a family involvement component in its program. This
128 component shall include, but is not limited to, providing for student and parent participation in
129 activities that help address the challenging issues that have hindered the student's engagement

130 and progress in learning;

131 (5) The alternative program includes an on-site boarding option for students;

132 (6) The alternative program provides an individualized education program for students that
133 is designed to prepare them for a successful transition back into the public schools; and

134 (7) The parents or legal guardian of the student make application for enrollment of the
135 student in the alternative program, agree to the terms and conditions for enrollment, and enroll
136 the student in the program.

ARTICLE 2E. HIGH QUALITY EDUCATIONAL PROGRAMS.

§18-2E-11. Advanced Career Education (ACE).

1 (a) The Legislature hereby makes the following findings:

2 (1) Preparing West Virginia students to achieve post-secondary career education and to
3 excel in the workforce is a responsibility shared amongst all state education agencies and
4 institutions. The state's education agencies and institutions can fulfill this responsibility by
5 establishing partnerships that enable students to attain advanced career education and valuable
6 workforce skills in a more efficient and advantageous manner;

7 (2) The formation of partnerships between public secondary schools and community and
8 technical colleges which establish advanced career education programs would ensure that a full
9 range of community and technical college programs and services are provided in all areas of the
10 state;

11 (3) Programs which create clear and efficient pathways that begin in high school and lead
12 to obtaining advanced certifications and associate degrees will increase the number of students
13 that ultimately obtain a post-secondary credential or degree; and

14 (4) West Virginia's economic prosperity is directly tied to the level and quality of its
15 workforce career education. Providing the students of this state with increased access to career
16 education will not only improve the general well-being of its citizens, but greatly enhance the
17 economic prosperity of the state.

18 (b) The purpose of this section and the Advanced Career Education (ACE) programs
19 authorized herein shall be to connect secondary schools with community and technical colleges
20 to accomplish the following:

21 (1) To prepare secondary students for success in post-secondary education and the
22 workforce; and

23 (2) To provide more opportunities for secondary students to earn post-secondary college
24 credits, certifications, and associate degrees.

25 (c) To effectuate the purposes set forth in subsection (b), the community and technical
26 colleges and the career technical education centers, county boards of education, or both in this
27 state shall establish partnerships that provide for Advanced Career Education (ACE) programs
28 which feature defined pathways that begin when a student is in high school and that ultimately
29 lead to associate degrees awarded by community and technical colleges.

30 (d) ACE programs shall include pathways that consist of a curriculum of courses leading
31 to an associate degree that has been deemed to satisfy a workforce need as determined by the
32 Department of Commerce. The Department of Commerce shall on occasion, but at least annually,
33 provide written notification to the State Board of Education (board) and the West Virginia Council
34 for Community and Technical College Education (council) a determination of areas of workforce
35 need within the state.

36 (e) The State Superintendent of Schools and the Chancellor of the Council for Community
37 and Technical College Education, or their designees, shall facilitate the ACE programs. At a
38 minimum, an ACE program shall satisfy the following objectives:

39 (1) Provide additional opportunities to students in this state to attain college credentials
40 through ACE pathways;

41 (2) Increase the number of students in this state that attain college credentials through
42 ACE pathways;

43 (3) Allow students in this state to attain college credentials through ACE through pathways

44 at little or no cost;

45 (4) Ensure that ACE pathways provide a clear roadmap to the courses and requirements
46 necessary to attain college credentials; and

47 (5) Ensure that course requirements within ACE pathways are not duplicated.

48 (f) The board and council shall jointly promulgate guidelines for the administration of ACE
49 programs and pathways, which must be affirmatively adopted by both the board and the council.

50 At a minimum, such guidelines shall provide for the following:

51 (1) That ACE program partnerships established between community and technical
52 colleges and career technical education centers, county boards of education, or both shall be
53 reduced to written partnership agreements;

54 (2) The information required to be contained within partnership agreements;

55 (3) That ACE programs and pathways must meet the requirements of the accrediting entity
56 for the community and technical college awarding the associate degrees;

57 (4) That partnership agreements must be approved by the State Superintendent of
58 Schools and the Chancellor for the Council for Community and Technical College Education; and

59 (5) Any other provisions necessary to effectuate the purposes of this section.

60 (g) The Division of Vocational Education and the council shall maintain and annually report
61 to the Governor and the Legislative Oversight Commission on Education Accountability the
62 following information about ACE programs:

63 (1) The identity and number of partnership agreements;

64 (2) The ACE programs and pathways that are being utilized by career technical education
65 centers, county board of educations, and community and technical colleges; and

66 (3) The nature and number of degrees and certifications awarded to students participating
67 in ACE programs by each community and technical college and career technical education center.

68 (h) Beginning for the 2020 fiscal year, and for every fiscal year thereafter, any
69 appropriation by the Legislature to support and or alleviate the cost to citizens in this state to

70 obtain advanced certifications and associate degrees shall only be distributed to those community
71 and technical colleges that form one or more partnerships to establish ACE programs and
72 pathways. Once distributed, such funds may be used to support any program or pathway leading
73 to the award of an associate degree or certification.

ARTICLE 9A. PUBLIC SCHOOL SUPPORT.

§18-9A-2. Definitions.

1 For the purpose of this article:

2 (a) "State board" means the West Virginia Board of Education.

3 (b) "County board" or "board" means a county board of education.

4 (c) "Professional salaries" means the state legally mandated salaries of the professional
5 educators as provided in §18A-4-1 *et seq.* of this code.

6 (d) "Professional educator" shall be synonymous with and shall have the same meaning
7 as "teacher" as defined in §18-1-1 of this code, and includes technology integration specialists.

8 (e) "Professional instructional personnel" means a professional educator whose regular
9 duty is as that of a classroom teacher, librarian, attendance director or school psychologist. A
10 professional educator having both instructional and administrative or other duties shall be
11 included as professional instructional personnel for that ratio of the school day for which he or she
12 is assigned and serves on a regular full-time basis in appropriate instruction, library, attendance
13 or psychologist duties.

14 (f) "Professional student support personnel" means a "teacher" as defined in §18-1-1 of
15 this code who is assigned and serves on a regular full-time basis as a counselor or as a school
16 nurse with a bachelor's degree and who is licensed by the West Virginia Board of Examiners for
17 Registered Professional Nurses. For all purposes except for the determination of the allowance
18 for professional educators pursuant to §18-9A-4 of this code, professional student support
19 personnel are professional educators.

20 (g) "Service personnel salaries" means the state legally mandated salaries for service

21 personnel as provided in §18A-4-8a of this code.

22 (h) "Service personnel" means all personnel as provided in §18A-4-8 of this code. For the
23 purpose of computations under this article of ratios of service personnel to net enrollment, a
24 service employee shall be counted as that number found by dividing his or her number of
25 employment days in a fiscal year by two hundred: *Provided*, That the computation for any service
26 person employed for three and one-half hours or less per day as provided in §18A-4-8a of this
27 code shall be calculated as one half an employment day.

28 (i) "Net enrollment" means the number of pupils enrolled in special education programs,
29 kindergarten programs and grades one to twelve, inclusive, of the public schools of the county.
30 Net enrollment further shall include:

31 (1) Adults enrolled in regular secondary vocational programs ~~existing as of the effective~~
32 ~~date of this section~~, subject to the following:

33 (A) Net enrollment includes no more than ~~one thousand~~ 2,500 of those adults counted on
34 the basis of full-time equivalency and apportioned annually to each county in proportion to the
35 adults participating in regular secondary vocational programs in the prior year counted on the
36 basis of full-time equivalency: *Provided*, That beginning for the 2020 fiscal year and every year
37 thereafter, a career technical education center may only receive the funding for enrollment as
38 authorized by this paragraph if the center has satisfied the requirements of §18-2E-11 of this
39 code; and

40 (B) Net enrollment does not include any adult charged tuition or special fees beyond that
41 required of the regular secondary vocational student;

42 (2) Students enrolled in early childhood education programs as provided in §18-5-44 of
43 this code, counted on the basis of full-time equivalency;

44 (3) No pupil shall be counted more than once by reason of transfer within the county or
45 from another county within the state, and no pupil shall be counted who attends school in this
46 state from another state;

47 (4) The enrollment shall be modified to the equivalent of the instructional term and in
48 accordance with the eligibility requirements and rules established by the state board; and

49 (5) For the purposes of determining the county's basic foundation program only, for any
50 county whose net enrollment as determined under all other provisions of this definition is less than
51 one thousand four hundred, the net enrollment of the county shall be increased by an amount to
52 be determined in accordance with the following:

53 (A) Divide the state's lowest county student population density by the county's actual
54 student population density;

55 (B) Multiply the amount derived from the calculation in paragraph (A) of this subdivision
56 by the difference between one thousand four hundred and the county's actual net enrollment;

57 (C) If the increase in net enrollment as determined under this subdivision plus the county's
58 net enrollment as determined under all other provisions of this subsection is greater than one
59 thousand four hundred, the increase in net enrollment shall be reduced so that the total does not
60 exceed one thousand four hundred; and

61 (D) During the 2008-2009 interim period and every three interim periods thereafter, the
62 Legislative Oversight Commission on Education Accountability shall review this subdivision to
63 determine whether or not these provisions properly address the needs of counties with low
64 enrollment and a sparse population density.

65 (j) "Sparse-density county" means a county whose ratio of net enrollment, excluding any
66 increase in the net enrollment of counties, pursuant to §18-9A-2(i)(5) of this code, of the definition
67 of "net enrollment", to the square miles of the county is less than five.

68 (k) "Low-density county" means a county whose ratio of net enrollment, excluding any
69 increase in the net enrollment of counties, pursuant to §18-9A-2(i)(5) of this code, of the definition
70 of "net enrollment", to the square miles of the county is equal to or greater than five but less than
71 ten.

72 (l) "Medium-density county" means a county whose ratio of net enrollment, excluding any

73 increase in the net enrollment of counties, pursuant to §18-9A-2(i)(5) of this code, of the definition
74 of "net enrollment", to the square miles of the county is equal to or greater than ten but less than
75 twenty.

76 (m) "High-density county" means a county whose ratio of net enrollment, excluding any
77 increase in the net enrollment of counties, pursuant to §18-9A-2(i)(5) of this code, of the definition
78 of "net enrollment", to the square miles of the county is equal to or greater than twenty.

79 (n) "Levies for general current expense purposes" means ninety percent of the levy rate
80 for county boards of education calculated or set by the Legislature pursuant to §11-8-6f of this
81 code.

82 (o) "Technology integration specialist" means a professional educator who has expertise
83 in the technology field and is assigned as a resource teacher to provide information and guidance
84 to classroom teachers on the integration of technology into the curriculum.

85 (p) "State aid eligible personnel" means all professional educators and service personnel
86 employed by a county board in positions that are eligible to be funded under this article and whose
87 salaries are not funded by a specific funding source such as a federal or state grant, donation,
88 contribution or other specific funding source not listed.

CHAPTER 18C. STUDENT LOANS; SCHOLARSHIPS AND STATE AID.

ARTICLE 9. WEST VIRGINIA INVESTS GRANT PROGRAM.

§18C-9-1. Short Title.

1 This article shall be known and may be cited as the "WV Invests Grant Program".

§18C-9-2. Legislative Findings and Purpose.

1 (a) The Legislature hereby finds and declares that:

2 (1) Every West Virginian should have access to an education and training that will lead
3 directly to quality employment opportunities within the state. In order for West Virginia to retain
4 and attract business and industry, it must ensure that its workforce has such an education and

5 training;

6 (2) West Virginia currently faces a human capital crisis, as the state regularly ranks
7 amongst the lowest states in the nation in workforce participation rates. Improving the state's
8 workforce participation rates and the level of the workforce's career education is critical to
9 economic development and making West Virginia a more prosperous state;

10 (3) In fact, the 2017 West Virginia Forward Report, a strategy for economic development
11 and job growth, found that "investments in improving human capital are considered the most
12 significant opportunity for improvement in West Virginia, especially because access to a
13 specialized workforce is a significant factor for investment attraction...";

14 (4) According to the United States Department of Labor's Bureau of Labor Statistics, the
15 median yearly earnings of an individual with an associate's degree is approximately \$6,604 more
16 than an individual with only a high school diploma. Therefore, any investment by the state into a
17 citizen obtaining such a degree would be repaid multiple times over through the citizen's
18 increased contributions to the economy and tax base;

19 (5) West Virginia is also currently facing a devastating drug epidemic, and the hope that
20 comes with increased access to career education and higher quality of employment opportunities
21 is an indispensable tool against the spread of drug addiction; and

22 (6) An investment by the state into increasing access to post-secondary career education,
23 will provide its citizens the hope and opportunity of better career opportunities and provide the
24 state with the trained workforce needed to attract significant economic development.

25 (b) The purpose of this article is to provide West Virginians with hope and economic
26 prosperity by increasing access to a higher level of career education that is needed to fulfill the
27 needs of today's workforce and provide for further economic development.

§18C-9-3. Definitions.

1 (a) As used in this article:

2 (1) "Council" means the West Virginia Council for Community and Technical College

3 Education:

4 (3) "Eligible institution" means a state community and technical college institution under
5 the authority of the West Virginia Council for Community and Technical College Education that is
6 satisfying the requirements of participating in ACE program partnerships in accordance with §18-
7 2E-11 of this code;

8 (4) "Eligible post-secondary program" means a curriculum of courses leading to a
9 certificate or associate degree at an eligible institution which satisfies a course of study that has
10 been deemed to satisfy a workforce need as determined by the Department of Commerce in
11 accordance with §18-2E-11(d) of this code; and

12 (5) "Tuition" means the semester or term charges imposed by an eligible institution and,
13 additionally, all mandatory fees required as a condition of enrollment by all students;

§18C-9-4. WV Invests Grant Program.

1 (a) There is hereby created a grant program known as the "WV Invests Grant Program",
2 which shall be administered by the vice chancellor for administration in accordance with this
3 article.

4 (b) The council shall award WV Invests Grants pursuant to the following terms and
5 conditions:

6 (1) A WV Invests Grant may only be awarded to applicants satisfying the requirements
7 provided in §18-9-5 of this code;

8 (2) The maximum amount of a WV Invests Grant shall be the cost of tuition charged to all
9 students for coursework leading to completion of the chosen associate degree or certificate, less
10 all other state and federal aid for which the student is eligible. All other financial aid for which the
11 grant recipient is eligible shall be deducted from the amount of the WV Invests Grant for each
12 individual student.

13 (3) Grant payments shall be made directly to the eligible institutions.

14 (4) In the event that a grant recipient transfers from one eligible institution to another, the

15 grant is transferable only with approval of the vice chancellor for administration.

16 (5) A WV Invests Grant may be used at any eligible institution to seek an associate degree
17 or certificate in an eligible post-secondary program. An institution is not required to accept a grant
18 recipient for enrollment and may enforce its own admission requirements, standards, and policies.

19 (6) If a WV Invests Grant recipient terminates enrollment for any reason during the
20 academic year, the unused portion of the grant shall be returned by the institution to the council
21 in accordance with the council's policy for issuing refunds. The council shall transfer such funds
22 to the WV Invests Fund for allocation and expenditure.

23 (c) On or before January 1 of each year, the council shall provide to the Legislature and
24 the Governor a report on the WV Invests Grant Program, which shall include, but not be limited
25 to, research and data concerning student success and grant retention.

26 (d) The council shall promulgate legislative rules pursuant to §29A-3A-1 et seq. of this
27 code to implement the provisions of this article, which shall provide for:

28 (1) Application requirements and deadlines;

29 (2) Appeal procedures for the denial or revocation of the grant; and

30 (3) Any other provisions necessary to effectuate the purposes of this article.

31 (e) The Legislature hereby declares that an emergency situation exists and, therefore, the
32 council may establish, by emergency rule, under the procedures of §29A-3A-1 et seq. of this code,
33 a rule to implement the provisions of this article.

§18C-9-5. Eligibility Requirements; Agreements.

1 (a) To be eligible for a WV Invests Grant, an individual must satisfy the following
2 requirements:

3 (1) Be a citizen or legal resident of the United States and have been a resident of West
4 Virginia for at least one year immediately preceding the date of application for a grant;

5 (2) Have obtained a high school diploma, GED or an equivalent;

6 (3) Have not been previously awarded a post-secondary degree;

7 (4) Be at least twenty years of age: *Provided*, That individuals younger than twenty years
8 of age who are participating in an ACE program established by §18-2E-11 of this code may qualify
9 for the grant;

10 (5) Meet the admission requirements of, and be admitted into, an eligible institution;

11 (6) Satisfactorily meet any additional qualifications of financial need, enrollment, academic
12 promise, or achievement as established by the council through rule;

13 (7) Have filed a completed Free Application for Federal Student Aid (“FAFSA”) for the
14 academic year in which the grant award is sought;

15 (8) Be enrolled in an eligible post-secondary program;

16 (9) Be enrolled in at least six credit hours per semester;

17 (10) Have completed a WV Invests Grant application as provided by the council in
18 accordance with a schedule established by the council; and

19 (11) Have, prior to the start of each semester, satisfactorily passed a drug test
20 administered by the eligible institution: *Provided*, That the applicant shall be responsible for the
21 actual cost of the drug test.

22 (b) Each grant may be renewed until the course of study is completed, as long as the
23 following qualifications, as determined by the vice chancellor for administration and council, are
24 satisfied:

25 (1) Maintaining satisfactory academic standing, including a cumulative GPA of at least
26 2.0;

27 (2) Making adequate progress toward completion of the eligible post-secondary program;

28 (3) Satisfactory participation in a community service program authorized by the council.

29 The Council shall promulgate rules to provide for the administration of community service
30 requirements, including, but not limited to, requiring completion of at least eight hours of unpaid
31 community service during the time of study, which may include, but is not limited to, participating
32 with nonprofit, governmental, institutional or community-based organizations designed to improve

33 the quality of life for community residents, meet the needs of community residents or foster civic
34 responsibility;

35 (4) Continued satisfaction of eligibility requirements provided by §18C-9-5(a) of this code;
36 and

37 (5) Satisfaction of any additional eligibility criteria established by the council through
38 legislative rule.

39 (c) Each recipient of a WV Invests Grant shall enter into an agreement with the vice
40 chancellor for administration, which shall require repayment of an amount of the grant(s) awarded
41 to the recipient, in whole or in part, if a recipient chooses to reside outside the state within two
42 years following obtainment of the degree or certificate for which the grant(s) was awarded. The
43 council may not require a recipient to repay grants, in whole or in part, unless the prospective
44 recipient has been informed of this requirement in writing before initial acceptance of the grant
45 award. Each WV Invests Grant agreement shall include the following:

46 (1) Disclosure of the full terms and conditions under which assistance under this article is
47 provided and under which repayment may be required; and

48 (2) A description of the appeals procedure required to be established under this article.

49 (d) WV Invests Grant recipients found to be in noncompliance with the agreement entered
50 into under §18C-9-5(c) of this code shall be required to repay the amount of the grant awards
51 received, plus interest, and, where applicable, reasonable collection fees, on a schedule and at a
52 rate of interest prescribed in rules promulgated by the council. The council shall also provide for
53 proration of the amount to be repaid by a recipient who maintains employment in the state for a
54 period of time within the time period required under §18C-9-5(c) of this code.

55 (e) A recipient is not in violation of an agreement entered into pursuant to §18C-9-5(c) of
56 this code during any period in which the recipient is meeting any of the following conditions:

57 (1) Pursuing a full-time course of study at an accredited institution of higher education;

58 (2) Serving as a member of the armed services of the United States;

59 (3) Failing to comply with the terms of the agreement due to death or permanent or
60 temporary disability as established by sworn affidavit of a qualified physician; or

61 (4) Satisfying the provisions of any additional repayment exemptions prescribed by the
62 council through rule.

§18C-9-6. WV Invests Fund; established.

1 (a) There is hereby created in the State Treasury a special revenue fund to be known as
2 the “WV Invests Fund”, which may consist of:

3 (1) All appropriations by the Legislature for the WV Invests Fund;

4 (2) Any gifts, grants or contributions received for the WV Invests Fund; and

5 (3) All interest or other income earned from investment of the WV Invests Fund.

6 (b) The WV Invests Fund shall be expended for the purpose of administering the WV
7 Invests Grant Program, including the awarding of grants authorized by this article. Any funds
8 remaining in the fund at the close of the fiscal year are carried forward for use in the next fiscal
9 year.

10 (c) Nothing in this section requires any specific level of funding by the Legislature nor
11 guarantees nor entitles any individual to any benefit or grant of funds.

12 (d) The vice chancellor for administration may expend the moneys in the fund to implement
13 the provisions of this article.

NOTE: The purpose of this bill is to increase the quality of the state's workforce by increasing access to career education through the establishment of Advanced Career Education (ACE) programs and the WV Invests Grant Program.

Strike-throughs indicate language that would be stricken from a heading or the present law and underscoring indicates new language that would be added.
