

WEST VIRGINIA LEGISLATURE

2019 REGULAR SESSION

Introduced

House Bill 2393

FISCAL
NOTE

BY DELEGATES DEAN, ROWAN, THOMPSON, R. AND

BROWN, N.

[Introduced January 14, 2019; Referred
to the Committee on Banking and Insurance then the
Judiciary.]

1 A BILL to amend and reenact §5-16-5 of the Code of West Virginia, 1931, as amended, relating
2 to fixing the premium cost sharing at no less than 80 percent for the employer and no more
3 than 20 percent for the employee.

Be it enacted by the Legislature of West Virginia:

ARTICLE 16. WEST VIRGINIA PUBLIC EMPLOYEES INSURANCE ACT.

§5-16-5. Purpose, powers, and duties of the finance board; initial financial plan; financial plan for following year; and annual financial plans.

1 (a) The purpose of the finance board created by this article is to bring fiscal stability to the
2 Public Employees Insurance Agency through development of annual financial plans and long-
3 range plans designed to meet the agency's estimated total financial requirements, taking into
4 account all revenues projected to be made available to the agency and apportioning necessary
5 costs equitably among participating employers, employees, and retired employees and providers
6 of health care services.

7 (b) The finance board shall retain the services of an impartial, professional actuary, with
8 demonstrated experience in analysis of large group health insurance plans, to estimate the total
9 financial requirements of the Public Employees Insurance Agency for each fiscal year and to
10 review and render written professional opinions as to financial plans proposed by the finance
11 board. The actuary shall also assist in the development of alternative financing options and
12 perform any other services requested by the finance board or the director. All reasonable fees
13 and expenses for actuarial services shall be paid by the Public Employees Insurance Agency.
14 Any financial plan or modifications to a financial plan approved or proposed by the finance board
15 pursuant to this section shall be submitted to and reviewed by the actuary and may not be finally
16 approved and submitted to the Governor and to the Legislature without the actuary's written
17 professional opinion that the plan may be reasonably expected to generate sufficient revenues to
18 meet all estimated program and administrative costs of the agency, including incurred but
19 unreported claims, for the fiscal year for which the plan is proposed. The actuary's opinion on the

20 financial plan for each fiscal year shall allow for no more than 30 days of accounts payable to be
21 carried over into the next fiscal year. The actuary's opinion for any fiscal year shall not include a
22 requirement for establishment of a reserve fund.

23 (c) All financial plans required by this section shall establish:

24 (1) Maximum levels of reimbursement which the Public Employees Insurance Agency
25 makes to categories of health care providers;

26 (2) Any necessary cost-containment measures for implementation by the director;

27 (3) The levels of premium costs to participating employers; and

28 (4) The types and levels of cost to participating employees and retired employees.

29 The financial plans may provide for different levels of costs based on the insureds' ability
30 to pay. The finance board may establish different levels of costs to retired employees based upon
31 length of employment with a participating employer, ability to pay or other relevant factors. The
32 financial plans may also include optional alternative benefit plans with alternative types and levels
33 of cost. The finance board may develop policies which encourage the use of West Virginia health
34 care providers.

35 In addition, the finance board may allocate a portion of the premium costs charged to
36 participating employers to subsidize the cost of coverage for participating retired employees, on
37 such terms as the finance board determines are equitable and financially responsible.

38 (d)(1) The finance board shall prepare an annual financial plan for each fiscal year during
39 which the finance board remains in existence. The finance board chairman shall request the
40 actuary to estimate the total financial requirements of the Public Employees Insurance Agency
41 for the fiscal year.

42 (2) The finance board shall prepare a proposed financial plan designed to generate
43 revenues sufficient to meet all estimated program and administrative costs of the Public
44 Employees Insurance Agency for the fiscal year. The proposed financial plan shall allow for no
45 more than 30 days of accounts payable to be carried over into the next fiscal year. Before final

46 adoption of the proposed financial plan, the finance board shall request the actuary to review the
47 plan and to render a written professional opinion stating whether the plan will generate sufficient
48 revenues to meet all estimated program and administrative costs of the Public Employees
49 Insurance Agency for the fiscal year. The actuary's report shall explain the basis of its opinion. If
50 the actuary concludes that the proposed financial plan will not generate sufficient revenues to
51 meet all anticipated costs, then the finance board shall make necessary modifications to the
52 proposed plan to ensure that all actuarially determined financial requirements of the agency will
53 be met.

54 (3) Upon obtaining the actuary's opinion, the finance board shall conduct one or more
55 public hearings in each congressional district to receive public comment on the proposed financial
56 plan, shall review the comments, and shall finalize and approve the financial plan.

57 (4) Any financial plan shall be designed to allow 30 days or less of accounts payable to be
58 carried over into the next fiscal year. For each fiscal year, the Governor shall provide his or her
59 estimate of total revenues to the finance board no later than October 15, of the preceding fiscal
60 year: *Provided*, That, for the prospective financial plans required by this section, the Governor
61 shall estimate the revenues available for each fiscal year of the plans based on the estimated
62 percentage of growth in general fund revenues. The finance board shall submit its final, approved
63 financial plan, after obtaining the necessary actuary's opinion and conducting one or more public
64 hearings in each congressional district, to the Governor and to the Legislature no later than
65 January 1, preceding the fiscal year. The financial plan for a fiscal year becomes effective and
66 shall be implemented by the director on July 1, of the fiscal year. In addition to each final, approved
67 financial plan required under this section, the finance board shall also simultaneously submit
68 financial statements based on generally accepted accounting practices (GAAP) and the final,
69 approved plan restated on an accrual basis of accounting, which shall include allowances for
70 incurred but not reported claims: *Provided, however*, That the financial statements and the
71 accrual-based financial plan restatement shall not affect the approved financial plan.

72 (e) The provisions of §29A-1-1 *et seq.* of this code shall not apply to the preparation,
73 approval, and implementation of the financial plans required by this section.

74 (f) By January 1, of each year the finance board shall submit to the Governor and the
75 Legislature a prospective financial plan, for a period not to exceed five years, for the programs
76 provided in this article. Factors that the board shall consider include, but are not limited to, the
77 trends for the program and the industry; the medical rate of inflation; utilization patterns; cost of
78 services; and specific information such as average age of employee population, active to retiree
79 ratios, the service delivery system, and health status of the population.

80 (g) The prospective financial plans shall be based on the estimated revenues submitted
81 in accordance with §5-16-5(d)(4) of this code and shall include an average of the projected cost-
82 sharing percentages of premiums and an average of the projected deductibles and copays for the
83 various programs. Beginning in the plan year which commences on July 1, 2002, and in each
84 plan year thereafter, until and including the plan year which commences on July 1, 2006, the
85 prospective plans shall include incremental adjustments toward the ultimate level required in this
86 subsection, in the aggregate cost-sharing percentages of premium between employers and
87 employees, including the amounts of any subsidization of retired employee benefits. Effective in
88 the plan year commencing on ~~July 1, 2006~~ July 1, 2018, and in each plan year thereafter, the
89 aggregate premium cost-sharing percentages between employers and employees, including the
90 amounts of any subsidization of retired employee benefits, shall be at a level of not less than 80
91 percent for the employer and not more than 20 percent for employees, except for the employers
92 provided in §5-16-18(d) of this code whose premium cost-sharing percentages shall be governed
93 by that subsection. After the submission of the initial prospective plan, the board may not increase
94 costs to the participating employers or change the average of the premiums, deductibles, and
95 copays for employees, except in the event of a true emergency as provided in this section:
96 *Provided*, That if the board invokes the emergency provisions, the cost shall be borne between
97 the employers and employees in proportion to the cost-sharing ratio for that plan year: *Provided*,

98 *however*, That for purposes of this section, "emergency" means that the most recent projections
99 demonstrate that plan expenses will exceed plan revenues by more than one percent in any plan
100 year: *Provided further*, That the aggregate premium cost-sharing percentages between
101 employers and employees, including the amounts of any subsidization of retired employee
102 benefits, may be offset, in part, by a legislative appropriation for that purpose.

103 (h) The finance board shall meet on at least a quarterly basis to review implementation of
104 its current financial plan in light of the actual experience of the Public Employees Insurance
105 Agency. The board shall review actual costs incurred, any revised cost estimates provided by the
106 actuary, expenditures and any other factors affecting the fiscal stability of the plan and may make
107 any additional modifications to the plan necessary to ensure that the total financial requirements
108 of the agency for the current fiscal year are met. The finance board may not increase the types
109 and levels of cost to employees during its quarterly review except in the event of a true
110 emergency.

111 (i) For any fiscal year in which legislative appropriations differ from the Governor's estimate
112 of general and special revenues available to the agency, the finance board shall, within 30 days
113 after passage of the budget bill, make any modifications to the plan necessary to ensure that the
114 total financial requirements of the agency for the current fiscal year are met.

NOTE: The purpose of this bill is to fix the premium cost sharing at no less than 80 percent for the employer and no more than 20 percent for the employee.

Strike-throughs indicate language that would be stricken from a heading or the present law and underscoring indicates new language that would be added.
