40	4. To establish a selling price for the cure, which may be not more than the expenses for
41	the cure's manufacturing, distribution, licensing, and any other necessary governmental

43	states; the price may not include the expenses of any other activities;

126	with enumerated exceptions designed to protect the public's interest and the privacy of
127	individuals.
128	5. Providing a list of matters about which the commission may go into executive session
129	and requiring a majority of all members of the commission vote to enter into such session. As
130	soon as practicable, the commission shall make public:
131	a. A copy of the vote to go into executive session, revealing the vote of each member with
132	no proxy votes allowed; and
133	b. The matter requiring executive session, without identifying the actual issues or
134	individuals involved.
135	6. Establishing the titles, duties, authority, and reasonable procedures for the election of
136	the officers of the commission;
137	7. Providing reasonable standards and procedures for the establishment of the personnel
138	policies and programs of the commission. Notwithstanding any civil service or other similar laws
139	of any compacting state, the commission's bylaws shall exclusively govern the personnel policies
140	and programs of the commission;
141	8. Allowing a mechanism for:
142	a. The federal government to join as a compacting state; and
143	b. Foreign countries or subdivisions of those countries to join as liaison members by
144	adopting the compact; provided that adopting countries or subdivisions may not have voting
145	power or the power to bind the commission in any way.
146	9. Adopting a code of ethics to address permissible and prohibited activities of members
147	and employees;
148	10. Providing for the maintenance of the commission's books and records;

152	12. Governing any fund-raising efforts in which the commission wishes to engage; and
153	13. Providing a mechanism for winding up the operations of the commission and the
154	equitable disposition of any surplus funds that may exist after the termination of the compact after
155	the payment and reserving of all its debts and obligations.
156	Article VI. Rules
157	1. The commission shall adopt rules to do the following:
158	a. Effectively and efficiently achieve the purposes of this compact;
159	b. Govern the methods, processes, and any other aspect of the research, creation, and
160	testing of a treatment or therapeutic protocol for each disease for which a prize may be awarded.
161	2. The commission shall also adopt rules establishing the criteria for defining and
162	classifying the diseases for which prizes shall be awarded. The commission may define and
163	classify subsets of diseases, for example, tubular carcinoma of the breast. For purposes of
164	sections 3.a. and c. of this article, a subset of a disease shall be considered one disease. The
165	commission may consult the most recent edition of the international classification of disease as
166	published by the world health organization or other definitions agreed to by a two-thirds vote of
167	the commission.
168	3. The commission shall also adopt rules regarding prizes for curing diseases that
169	establish the following:
170	a. At least 10 major diseases for which to create prizes, which shall be determined based
171	on the following factors:
172	i. The severity of the disease to a human individual's overall health and well-being;
173	ii. The survival rate or severity of impact of the disease;
174	iii. The public health expenses and treatment expenses for the disease.

175	b. The criteria a treatment or therapeutic protocol must meet in order to be considered a
176	cure for any of the diseases for which a prize may be awarded, which shall include the following
177	requirements:
178	i. It must be approved by the federal Food and Drug Administration or have otherwise
179	obtained legal status for the compact to immediately contract to manufacture and distribute in the
180	United States;
181	ii. Except as provided in section 4. of this article, it must yield a significant increase in
182	survival with respect to the diseases if early death is the usual outcome;
183	iii. It requires less than one year of the treatment or protocol to completely cure the
184	disease.
185	c. The procedure for determining the diseases for which to award prizes, which includes
186	the option to award prizes for more than 10 diseases that meet the above criteria, if agreed to by
187	two-thirds vote of the commission, and a requirement to update the list every three years.
188	d. The submission and evaluation procedures and guidelines, including filing and review
189	procedures, a requirement that the person or entity submitting the cure bears the burden of proof
190	in demonstrating that the treatment or therapeutic protocol meets the above criteria, and
191	limitations preventing public access to treatment or protocol submissions.
192	e. The estimated five-year public health savings that would result from a cure, which shall
193	be equal to the five-year public health expenses for each disease in each compacting state, and
194	a procedure to update these expenses every three years in conjunction with the requirements in
195	section 3.c. of this article. The estimated five-year public health savings amount shall be
196	calculated, estimated, and publicized every three years by actuaries employed or contracted by
197	the commission.
198	f. The prize amount with respect to cures for each disease, which shall be equal to the
199	most recent estimated total five-year savings in public health expenses for the disease as
200	calculated in section 3.e. of this article in all of the compacting states; amounts donated by

201	charities, individuals, and any other entities intended for the prize under Article I of the compact;
202	and any other factors that the commission deems appropriate.
203	g. The prize distribution procedures and guidelines, which shall include the following
204	requirements:
205	i. Upon acceptance of a cure, the prize winner shall transfer to the commission the patent
206	and all related intellectual property for the manufacture and distribution of the treatment or
207	therapeutic protocol in exchange for the prize, except in the case that the prize money is
208	considered by the commission to be too low, and that a prize will be awarded only to the first
209	person or entity that submits a successful cure for a disease for which a prize may be awarded.
210	ii. Donation amounts intended for the prize shall be kept in a separate, interest-bearing
211	account maintained by the commission. This account shall be the only account in which prize
212	money is kept.
213	iii. Each compacting state shall have the responsibility to pay annually the compacting
214	state's actual one-year savings in public health expenses for the particular disease for which a
215	cure has been accepted. The compacting state shall make such an annual payment until it has
216	fulfilled its prize responsibility as established in section 3.f. of this article. Each compacting state's
217	payment responsibility begins one year after the date the cure becomes widely available. The
218	commission shall employ or contract with actuaries to calculate each state's actual one-year
219	savings in public health expenses at the end of each year to determine each state's responsibility
220	for the succeeding year.
221	iv. Compacting states may meet prize responsibilities by any method including the
222	issuance of bonds or other obligations, with the principal and interest of those bonds or obligations
223	to be repaid only from revenue derived from estimated public health expense savings from a cure
224	to a disease. If the compacting state does not make such revenue available to repay some or all
225	of the revenue bonds or obligations issued, the owners or holders of those bonds or obligations
226	have no right to have excises or taxes levied to pay the principal or interest on them. The revenue

227	bonds and obligations are not a debt of the issuing compacting state.
228	v. A compacting state may issue bonds or other debt that are general obligations, under
229	which the full faith and credit, revenue, and taxing power of the state is pledged to pay the principal
230	and interest under those obligations, only if authorized by the compacting state's constitution or,
231	if constitutional authorization is not required, by other law of the compacting state.
232	vi. Upon acceptance of a cure, the commission shall obtain a loan from a financial
233	institution in an amount equal to the most recently calculated total estimated five-year public
234	health expenses for the disease in all compacting states, in accordance with section 3.f. of this
235	article. The commission reserves the right to continuously evaluate the cure in the interim and
236	rescind a prize offer if the commission finds that the cure no longer meets the commission's
237	criteria.
238	4. The commission may award a prize for a treatment or therapeutic protocol that yields a
239	survival rate that is less than what is established in the cure criteria through at least five years
240	after the treatment or protocol has ended. In that case, the prize amount awarded for that
241	treatment or therapeutic protocol shall be reduced from the prize amount originally determined by
242	the commission for a cure for that disease. The reduction shall be in proportion to the survival
243	rate yielded by that treatment or protocol as compared to the survival rate established in the cure
244	criteria.
245	5. The commission also shall adopt rules that do the following:
246	a. Establish the following regarding commission records:
247	i. Conditions and procedures for public inspection and copying of its information and
248	official records, except such information and records involving the privacy of individuals or would
249	otherwise violate privacy laws under federal law and the laws of the compacting states;
250	ii. Procedures for sharing with federal and state agencies, including law enforcement
251	agencies, records and information otherwise exempt from disclosure;
252	iii. Guidelines for entering into agreements with federal and state agencies to receive or

253	exchange information or records subject to nondisclosure and confidentiality provisions.
254	b. Provide a process for commission review of submitted treatments and therapeutic
255	protocols for curing diseases that includes the following:
256	i. An opportunity for an appeal, not later than 30 days after a rejection of a treatment or
257	protocol for prize consideration, to a review panel established under the commission's dispute
258	resolution process;
259	ii. Commission monitoring and review of treatment and protocol effectiveness consistent
260	with the cure criteria established by the commission for the particular disease;
261	iii. Commission reconsideration, modification, or withdrawal of approval of a treatment or
262	protocol for prize consideration for failure to continue to meet the cure criteria established by the
263	commission for the particular disease.
264	c. Establish a dispute resolution process to resolve disputes or other issues under the
265	compact that may arise between two or more compacting states or between the commission and
266	individuals or entities who submit treatments and therapeutic protocols to cure diseases, which
267	process shall provide for:
268	i. Administrative review by a review panel appointed by the commission;
269	ii. Judicial review of decisions issued after an administrative review; and
270	iii. Qualifications to be appointed to a panel, due process requirements, including notice
271	and hearing procedures, and any other procedure, requirement, or standard necessary to provide
272	adequate dispute resolution.
273	d. Establish and impose annual member dues on compacting states, which shall be
274	calculated based on the percentage of each compacting state's population in relation to the
275	population of all the compacting states.
276	6. Recognizing that the goal of the compact is to pool the potential savings of as many
277	states and countries as possible to generate sufficient financial incentive to develop a cure for
278	many of the world's most devastating diseases, the compact will respect the laws of each of these

279	United States by adopting rules that establish ethical standards for research that shall be followed
280	in order for a prize to be claimed. The compact, in the rules, shall establish a common set of
281	ethical standards that embodies the laws and restrictions in each of the states so that to be eligible
282	for claiming a prize the entity submitting a cure must not have violated any of the ethical standards
283	in any one of the 50 states, whether the states have joined the compact or not. The compact will
284	publish these common ethical standards along with the specific criteria for a cure for each of the
285	diseases the compact has targeted.
286	So long as a researcher follows the common ethical standards in effect at the time the
287	research is done, an entity presenting a cure will be deemed to have followed the standards. On
288	or before January1 of each year, the compact shall review all state laws to determine if additional
289	ethical standards have been enacted by any of the 50 states and the federal government. Any
290	changes to the common ethical standards rules based on new state laws shall be adopted and
291	published by the compact, but may not take effect in cure criteria for a period of three years to
292	allow for sufficient notice to researchers.
292 293	allow for sufficient notice to researchers. 7. All rules may be amended as the commission sees necessary.

309	with the commission's bylaws and rules and the purposes of the compact;
310	ii. Overseeing the offices of the commission; and
311	iii. Planning, implementing, and coordinating communications and activities with state,
312	federal, and local government organizations in order to advance the goals of the compact.
313	d. The commission annually shall elect officers for the committee, with each having such
314	authority and duties as may be specified in the commission's bylaws and rules.
315	e. The management committee, subject to commission approval, may appoint or retain an
316	executive director for such period, upon such terms and conditions, and for such compensation
