CHAPTER 31I. DIGITAL ASSETS ACT.

ARTICLE 1. GENERAL PROVISIONS.

This article may be cited as the Digital Assets Act.

§31I-1-102. Legislative findings.
The Legislature finds the following:

(1) The rapid innovation of blockchain technology, including the growing use of virtual currency and other digital assets, has resulted in many blockchain innovators being unable to access secure and reliable banking services, hampering development of blockchain services and products in the marketplace;

(2) Federally insured financial institutions are not generally permitted to manage accounts in virtual currency or hold other digital assets;

(3) Blockchain innovators have greater compliance challenges with federal customer identification, anti-money laundering and beneficial ownership requirements because of the complex nature of these obligations and the unfamiliarity of regulators with blockchain innovators’ businesses;

(4) These intricate obligations have resulted in many financial institutions in this state and across the United States refusing to provide banking services to blockchain innovators and also refusing to accept deposits in United States currency obtained from the sale of virtual currency or other digital assets;
Compliance with applicable federal and state laws is critical to ensuring the future growth and reputation of the blockchain and technology industries as a whole;

Most financial institutions today do not have the requisite expertise or familiarity with the challenges facing blockchain innovators which is required to provide secure and reliable banking services to these innovators;

A new type of financial institution that has expertise with customer identification, anti-money laundering and beneficial ownership requirements could seamlessly integrate these requirements into its operating model; and

Recognizing Blockchain enabled institutions to be chartered in this state will provide a necessary and valuable service to blockchain innovators, emphasize West Virginia’s partnership with the technology and financial industry and safely grow this states’ developing financial sector.

ARTICLE 2. BLOCKCHAIN INSTITUTIONS.

The blockchain enabled entity shall permanently retain this acknowledgment.

All blockchain enabled entities are subject to the provisions of the West Virginia Consumer Credit Protection Act set forth in chapter forty-six-a of this code.

§31I-2-206. Voluntary dissolution of blockchain enabled entity; liquidation; reorganization; application for dissolution; filing fee; filing with the secretary of state; revocation of charter.

(a) A blockchain enabled entity may voluntarily dissolve in accordance with the provisions of §31D-10-1401 et seq. of this code. Voluntary dissolution shall be accomplished by either
liquidating the blockchain enabled entity or reorganizing the institution into an appropriate
business entity that does not engage in any activity authorized only for a blockchain enabled
entity. Upon complete liquidation or completion of the reorganization, the commissioner shall
revoke the charter of the blockchain enabled entity and afterward, the company shall not use the
word “blockchain enabled entity” or “bank” in its business name or in connection with its ongoing
business.

(b) The blockchain enabled entity may dissolve its charter either by liquidation or

State, accompanied by a filing fee established by rule of the commissioner. The application shall
include a comprehensive plan for dissolution setting forth the proposed disposition of all assets
and liabilities, in reasonable detail to affect a liquidation or reorganization, and any other plans
required by the commissioner. The plan of dissolution shall provide for the discharge or
assumption of all of the known and unknown claims and liabilities of the blockchain enabled entity.
Additionally, the application for dissolution shall include other evidence, certifications, affidavits,
documents or information as the commissioner may require, including demonstration of how
assets and liabilities will be disposed, the timetable for effecting disposition of the assets and
liabilities and a proposal of the special purpose depository institution for addressing any claims
that are asserted after dissolution has been completed. The Secretary of State shall examine the
application for compliance with this section, the business entity laws applicable to the required
type of dissolution and applicable rules. The secretary may conduct a special examination of the

further conditions the secretary may prescribe. If the blockchain enabled entity subsequently
determines that the plan of dissolution needs to be amended to complete the dissolution, it shall
file an amended plan with the secretary and obtain approval to proceed under the amended plan.
If the secretary does not approve the application or amended plan, the blockchain enabled entity
may appeal the decision to the board pursuant to the State Administrative Procedure Act set forth
at §29A-1-1 et seq. of this code.

(d) Upon completion of all actions required under the plan of dissolution and satisfaction
of all conditions prescribed by the Secretary of State, the blockchain enabled entity shall submit
a written report of its actions to the secretary. The report shall contain a certification made under
oath that the report is true and correct. Following receipt of the report, the secretary, no later than
60 days after the filing of the report, shall examine the blockchain enabled entity to determine
whether the commissioner is satisfied that all required actions have been taken in accordance
with the plan of dissolution and any conditions prescribed by the secretary. If all requirements and
conditions have been met, the secretary shall, within 30 days of the examination, notify the
blockchain enabled entity in writing that the dissolution has been completed and issue a certificate
of dissolution.

(e) Upon receiving a certificate of dissolution, the blockchain enabled entity shall surrender
its charter to the Secretary of State. The blockchain enabled entity shall then file articles of
dissolution and other documents required by §31D-14-1 et seq. of this code for a corporation with
the Secretary of State. In the case of reorganization, the blockchain enabled entity shall file the
documents required by the Secretary of State to finalize the reorganization.

(f) If the Secretary of State determines that all required actions under the plan for
dissolution, or as otherwise required by the commissioner, have not been completed, the
secretary shall notify the blockchain enabled entity, not later than 30 days after this determination,
in writing what additional actions shall be taken in order for the institution to be eligible for a
certificate of dissolution. The secretary shall establish a reasonable deadline for the submission
of evidence that additional actions have been taken and the secretary may extend any deadline
upon good cause. If the blockchain enabled entity fails to file a supplemental report showing that
the additional actions have been taken before the deadline, or submits a report that is found not
to be satisfactory by the secretary, the secretary shall notify the blockchain enabled entity in
writing that its voluntary dissolution is not approved, and the institution may appeal the decision
to the board pursuant to the State Administrative Procedure Act set forth in §29A-1-1 et seq. of
this code.

(d) (1) Except as otherwise provided by subsection (c) of this section, a developer or seller of an open or private blockchain token shall not be deemed the issuer of a security and shall not be subject to the provisions of §32-3-301 and §32-4-403 of this code if the following are met:

(A) The purpose of the token is for a consumptive purpose, which shall only be exchangeable for, or provided for the receipt of, goods, services, or content, including rights of access to goods, services or content; and

(B) The developer or seller of the token did not sell the token to the initial buyer as a financial investment. This paragraph shall only be satisfied if:

(i) The developer or seller did not market the token as a financial investment; and

(ii) The developer or seller of the token reasonably believed that it sold the token to the initial buyer for a consumptive purpose, or the token has a consumptive purpose that is available at the time of sale and can be used at or near the time of sale for use for a consumptive purpose, or if the token does not have a consumptive purpose available at the time of sale, the initial buyer

42
of the token is prevented from reselling the token until the token is available for use for a consumptive purpose; or the developer or seller takes other reasonable precautions to prevent buyers from purchasing the token as a financial investment.

(2) Except as otherwise provided by subdivision (3) of this subsection, a person who facilitates the exchange of an open blockchain token shall not be deemed a broker-dealer or a person who otherwise deals in securities under this chapter and shall not be subject to the provisions of §32-3-301 and §32-4-403 of this code if all of the following are met:

(A) The person has a reasonable and good faith belief that a token subject to exchange conforms to the requirements of subdivision (d)(1) of this subsection; and

(B) The person takes reasonably prompt action to terminate the exchange of a token that does not conform to the requirements of this subsection.

(3) Notwithstanding any other provision of this code to the contrary, a developer, seller or a person who facilitates the exchange of an open blockchain token is subject to the provisions of §32-3-301 and §32-4-403 of this code only to the extent necessary to carry out those sections. The auditor shall have the authority provided pursuant to §32-4-1 et seq. of this code to determine compliance with the provisions of this subsection, including whether a person qualifies for the exemptions set forth in this subsection.

decentralized, and mathematically verified in nature, especially related to the supply or units and
their distribution; and

(C) Capable of being traded or transferred between persons without an intermediary or
custodian of value.

(D) In any proceeding under this chapter, the burden of proving an exemption or an
exception from a definition is upon the person claiming it.

(3) “Currency” means a medium of exchange authorized or adopted by a domestic or
foreign government.

(4) “Currency exchange” means the conversion of the currency of one government into

(a) The following are exempt from the provisions of this article:

(3) The United States Postal Service;

(4) This state and any political subdivision of this state;

(5) The provision of electronic transfer of government benefits for any federal, state, or county governmental agency as defined in Federal Reserve Board Regulation E, by a contractor for and on behalf of the United States or any department, agency, or instrumentality of the United States, or any state or any political subdivisions of a state;

(6) Persons engaged solely in the business of currency transportation who operate an armored car service in this state pursuant to licensure under §30-18-1 et seq. of this code: Provided, That the net worth of the licensee exceeds $5 million. Persons seeking an exemption under this subdivision are not exempt from the provisions of this article if they also engage in currency exchange or currency transmission;
(7) Persons engaged in the business of currency transportation whose activities are limited exclusively to providing services to federally insured depository institutions, or to any federal, state, or local governmental entities;

(8) Persons engaged solely in the business of removing currency from vending machines providing goods or services, if the machines are not used for gambling purposes or to convey any gambling ticket, token, or other device used in a game of chance;

No such authorized delegate is required to obtain a separate license under this article, but the use of sub-delegates is prohibited and the authorized delegate may only conduct business on behalf of its licensee.

(c) The issuance and sale of stored value cards or similar prepaid products which are intended to purchase items only from the issuer or seller of the stored value card is exempt from the provisions of this article.

(d) Any person who is required and properly obtains a license under this article to transport currency is exempt from the requirements of §30-18-1 et seq. of this code.

(a) If the commissioner, upon information, has cause to believe that a licensee or other person is engaged in practices contrary to this article or the rules adopted under this article, the commissioner may issue an order directing the licensee or person to cease and desist the violation. A cease and desist order is appropriate in any case where the commissioner, upon information, reasonably believes that a principal or the licensee acting through any authorized person has:

Service by mail shall be deemed completed if the notice is deposited in the post office, postage prepaid, addressed to the last known address for a licensee or the person designated by the licensee to accept service in this state.

(d) A person is entitled to a hearing on the cease and desist order before the commissioner, or a hearing examiner appointed by him or her, if the person files with the commissioner a written demand for hearing within 10 days after receiving written notice of the order, or within 30 days after the date of service, whichever occurs first. A person's right to a hearing as provided by this subsection shall be disclosed in the notice of service.

(e) Hearings and judicial review of any order shall be under procedures provided in §31A-8-1 and §31A-8-2 of this code and procedural rules thereunder.

(f) The issuance of a cease and desist order under this section shall not be a prerequisite to the taking of any action by the commissioner or others under any other section of this article.

CHAPTER 39A. ELECTRONIC COMMERCE.

ARTICLE 4. DIGITAL ASSETS.
PART 1. UTILITY TOKEN ACT.

§39A-4-101. Findings.

The Legislature finds the following:

(1) Certain open blockchain tokens may be restricted to only be exchangeable for specified consumptive purposes, including services, software, content or property, whether real or tangible personal property, and do not entitle a token holder to a cash payment or a share of profits from the technology developer or business that created the token;

(2) Open blockchain tokens with specified consumptive purposes are similar to loyalty programs operated by many businesses today, in which an individual is provided with services, content or property redeemable from the developer or business in exchange for a specified number of transactions or cash paid to the developer or business;

(3) The open blockchain tokens governed by this act do not constitute securities because a person who is sold a consumptive open blockchain token cannot receive a cash payment or share of profits from a developer or business, but will instead receive a fixed amount of consumable services, content or property; and

(4) Because of the consumptive nature of open blockchain tokens and for the other reasons specified above, these tokens are properly classified as intangible personal property pursuant to the law of this state and, therefore, do not require an exemption from securities laws.

§39A-4-102. Definitions.

(a) As used in this section:

(1) "Blockchain" means a digital ledger or database which is chronological, consensus-based, decentralized and mathematically verified in nature;

(2) "Consumptive" means a circumstance when a token is exchangeable for, or provided for the receipt of, services, software, content or real or tangible personal property, including rights of access to services, content or real or tangible personal property;

(3) "Developer" means the person primarily responsible for creating an open blockchain
token or otherwise designing the token, including by executing the technological processes necessary to create the token;

(4) “Facilitator” means a person who, as a business, makes open blockchain tokens under subsection (b) of this section available for resale to the public after a token has been purchased by an initial buyer;

(5) “Financial investment” means a contract, transaction or arrangement where a person invests money in a common enterprise and is led to expect profits solely from the efforts of a promoter or a third party;

(6) Except as otherwise provided in subsection (b) of this section, “open blockchain token” means a digital unit which is:

(A) Created:

(i) In response to the verification or collection of a specified number of transactions relating to a digital ledger or database;

(ii) By deploying computer code to a digital ledger or database, which may include a blockchain, that allows for the creation of digital tokens or other units; or

(iii) Using a combination of the methods specified in subdivisions (i) and (ii) of this subparagraph.

(B) Recorded to a digital ledger or database, which may include a blockchain; and

(C) Capable of being traded or transferred between persons without an intermediary or custodian of value.

(7) “Seller” means a person who makes an open blockchain token available for purchase to an initial buyer.

(b) Virtual currency or a digital security, as defined in §32A-2-1 of this code, shall not constitute an open blockchain token.

§39A-4-103. Open blockchain tokens classified as intangible personal property; characteristics; filing requirements; fee; enforcement authority; definitions; virtual
currency.

(a) An open blockchain token with the following characteristics constitutes intangible personal property:

1. The predominant purpose of the token is consumptive, as defined in §39A-4-102 of this code;

2. The developer or seller did not market the token to the initial buyer as a financial investment, as defined in this section; and

3. At least one of the following is satisfied:

   A. The developer or seller reasonably believed that it sold the token to the initial buyer for a consumptive purpose;

   B. The token has a consumptive purpose that is available at or near the time of sale and can be used at or near the time of sale for a consumptive purpose;

   C. The initial buyer of the token is prohibited by the developer or seller of the token from reselling the token until the token is available to be used for a consumptive purpose;

   D. The developer or seller takes other reasonable precautions to prevent an initial buyer from purchasing the token as a financial investment.

(b) A facilitator shall comply with the following requirements:

1. A facilitator shall, at all times, have a reasonable and good faith belief that a token subject to resale conforms to the requirements of paragraphs (a)(1) through (3) of this section; and

2. The facilitator shall take reasonably prompt action to terminate the resale of a token which does not conform to the requirements of this subsection.

(c) A willful failure by a developer, seller or facilitator to comply with the duties imposed by this section shall constitute an unlawful trade practice pursuant to the provisions of §46A-6-101 et seq. of this code. A developer, seller or facilitator is subject to all applicable criminal statutes.

(d) The secretary of state may refer the following to appropriate state or federal agencies
for investigation, criminal prosecution, civil penalties, and other appropriate enforcement actions:

(1) Suspected violations of this section;

(2) The developer, seller or facilitator of either an open blockchain token which conforms to the requirements of this section or another digital asset which substantially resembles an open blockchain token, but which, in the determination of the secretary of state, is being sold for financial investment or fraudulent purposes.

PART 2. CLASSIFICATION OF DIGITAL ASSETS.

§39A-4-201. Definitions.

(a) As used in this chapter:

(1) “Digital asset” means a representation of economic, proprietary or access rights that is stored in a computer readable format, and includes digital consumer assets, digital securities, and virtual currency;

(2) “Digital consumer asset” means a digital asset that is used or bought primarily for consumptive, personal, or household purposes and includes:

(A) An open blockchain token constituting intangible personal property as otherwise provided by law;

(B) Any other digital asset which does not fall within paragraphs (3) and (4) of this subsection.

(3) “Digital security” means a digital asset which constitutes a security, as defined in §32-4-401 of this code but shall exclude digital consumer assets and virtual currency;

(4) “Virtual currency” means a digital asset that is:

(A) Used as a medium of exchange, unit of account or store of value; and

(B) Not recognized as legal tender by the United States government.

(b) The terms in paragraphs (a)(1) through (4) of this section are mutually exclusive.
(a) Digital assets are classified in the following manner:

(1) Digital consumer assets are intangible personal property and shall be considered general intangibles, as defined in §46-9-102 of this code only for the purposes of article 9 of the Uniform Commercial Code, codified in chapter 46 of this code;

(2) Digital securities are intangible personal property and shall be considered securities, as defined in §46-8-102 of this code and investment property, as defined in §46-9-102 of this code only for the purposes of articles 8 and 9 of the Uniform Commercial Code, codified in chapter 46 of this code.

(3) Virtual currency is intangible personal property and shall be considered money, notwithstanding the provisions of §46-1-201 of this code, only for the purposes of article 9 of the Uniform Commercial Code, codified in chapter 46 of this code.

(b) Consistent with the provisions of §46-8-102 of this code, a digital asset may be treated as a financial asset under that paragraph, pursuant to a written agreement with the owner of the digital asset. If treated as a financial asset, the digital asset shall remain intangible personal property.

(c) A bank providing custodial services pursuant to the provisions of §39A-4-204 of this code shall be considered to meet the requirements of a security intermediary as defined in §46-8-102 of this code.

(d) Classification of digital assets pursuant to this section shall be construed in a manner to give the greatest effect to this article but shall not be construed to apply to any other asset.

§39A-4-203. Perfection of security interests in digital assets; financing statements.

(a) Notwithstanding the financing statement requirement specified by §46-9-301 of this code as otherwise applied to general intangibles or any other provision of law, perfection of a security interest in a digital asset may be achieved through control, as defined in paragraph (e)(1) of this section. A security interest held by a secured party having control of a digital asset has priority over a security interest held by a secured party that does not have control of the asset.
(b) Before a secured party may take control of a digital asset pursuant to this section, the secured party shall enter into a control agreement with the debtor. A control agreement may also set forth the terms under which a secured party may pledge its security interest in the digital asset as collateral for another transaction.

(c) A secured party may file a financing statement with the secretary of state, including to perfect a security interest in proceeds from a digital asset pursuant to §46-9-315 of this code.

(d) Notwithstanding any other provision of law, including article 9 of the Uniform Commercial Code, codified in chapter 46 of this code, a transferee takes a digital asset free of any security interest two years after the transferee takes the asset for value and does not have actual notice of an adverse claim. This subsection only applies to a security interest perfected by a method other than control.

(e) As used in this section:

(1) Consistent with subsection (f) of this section, “control” is equivalent to the term “possession" when used in §46-9-101 et seq. of this code and means the following:

(A) A secured party, or an agent, custodian, fiduciary or trustee of the party, has the exclusive legal authority to conduct a transaction relating to a digital asset, including by means of a private key or the use of a multi-signature arrangement authorized by the secured party;

(B) A smart contract created by a secured party which has the exclusive legal authority to conduct a transaction relating to a digital asset. As used in this subparagraph, “smart contract” means an automated transaction, as defined in §39A-1-2 of this code, or any substantially similar analogue, which is comprised of code, script, or programming language that executes the terms of an agreement, and which may include taking custody of and transferring an asset, or issuing executable instructions for these actions, based on the occurrence or nonoccurrence of specified conditions.

(2) “Multi-signature arrangement” means a system of access control relating to a digital asset for the purposes of preventing unauthorized transactions relating to the asset, in which two
or more private keys are required to conduct a transaction, or any substantially similar analogue;

(3) “Private key” means a unique element of cryptographic data, or any substantially similar analogue, which is:

(A) Held by a person;

(B) Paired with a unique, publicly available element of cryptographic data; and

(C) Associated with an algorithm that is necessary to carry out an encryption or decryption required to execute a transaction.

(f) Perfection by control creates a possessory security interest and does not require physical possession. For purposes of §46-9-101 et seq. of this code, a digital asset is located in this state if the asset is held by a West Virginia custodian, the debtor or secured party is physically located in this state or the debtor or secured party is incorporated or organized in this state.

§39A-4-204. Digital asset custodial services.

(a) A bank may provide custodial services consistent with this section upon providing 60 days written notice to the commissioner. The provisions of this section are cumulative and not exclusive as an optional framework for enhanced supervision of digital asset custody. If a bank elects to provide custodial services pursuant to this section, it shall comply with all provisions of this section.

(b) A bank may serve as a qualified custodian, as specified by the United States securities and exchange commission in 17 C.F.R. § 275.206(4)-2. In performing custodial services pursuant to this section, a bank shall:

(1) Implement all accounting, account statement, internal control, notice, and other standards specified by applicable state or federal law and rules for custodial services;

(2) Maintain information technology best practices relating to digital assets held in custody.

The commissioner may specify required best practices by rule;

(3) Fully comply with applicable federal anti-money laundering, customer identification, and beneficial ownership requirements; and
(4) Take other actions necessary to carry out this section, which may include exercising fiduciary powers similar to those permitted to national banks and ensuring compliance with federal law governing digital assets classified as commodities.

(c) A bank providing custodial services shall enter into an agreement with an independent public accountant to conduct an examination conforming to the requirements of 17 C.F.R. § 275.206(4)-2(a)(4) and (6), at the cost of the bank. The accountant shall transmit the results of the examination to the commissioner within 120 days of the examination and may file the results with the United States securities and exchange commission as its rules may provide. Material discrepancies in an examination shall be reported to the commissioner within one day. The commissioner shall review examination results upon receipt within a reasonable time and during any regular examination conducted pursuant to §31A-2-6 of this code.

(d) Digital assets held in custody pursuant to this section are not depository liabilities or assets of the bank. A bank, or a subsidiary, may register as an investment adviser, investment company, or broker dealer as necessary. A bank shall maintain control over a digital asset while in its custody. A customer shall elect, pursuant to a written agreement with the bank, one of the following relationships for each digital asset held in custody:

(1) Custody under a bailment as a nonfungible or fungible asset. Assets held under this paragraph shall be strictly segregated from other assets; or

(2) Custody under a bailment pursuant to subsection (e) of this section.

(e) If a customer makes an election under paragraph (d)(2) of this section, the bank may, based only on customer instructions, undertake transactions with the digital asset. A bank maintains control pursuant to subsection (d) of this section by entering into an agreement with the counterparty to a transaction which contains a time for return of the asset. The bank shall not be liable for any loss suffered with respect to a transaction under this subsection, except for liability consistent with fiduciary and trust powers as a custodian under this section.

(f) A bank and a customer shall agree in writing regarding the source code version the
bank will use for each digital asset, and the treatment of each asset pursuant to the provisions of §46-1-101 et seq. of this code if necessary. Any ambiguity under this subsection shall be resolved in favor of the customer.

(g) A bank shall provide clear, written notice to each customer, and require written acknowledgement, of the following:

(1) Prior to the implementation of any updates, material source code updates relating to digital assets held in custody, except in emergencies which may include security vulnerabilities;

(2) The heightened risk of loss from transactions under subsection (e) of this section;

(3) That some risk of loss as a pro rata creditor exists as the result of custody as a fungible asset or custody under paragraph (d)(2) of this section;

(4) That custody pursuant to paragraph (d)(2) of this section may not result in the digital assets of the customer being strictly segregated from other customer assets; and

(5) That the bank is not liable for losses suffered pursuant to subsection (e) of this section, except for liability consistent with fiduciary and trust powers as a custodian pursuant to this section.

(h) A bank and a customer shall agree in writing to a time period within which the bank must return a digital asset held in custody pursuant this section. If a customer makes an election pursuant to paragraph (d)(2) of this section, the bank and the customer may also agree in writing to the form in which the digital asset shall be returned.

(i) All ancillary or subsidiary proceeds relating to digital assets held in custody pursuant to this section shall accrue to the benefit of the customer, except as specified by a written agreement with the customer. The bank may elect not to collect certain ancillary or subsidiary proceeds, as long as the election is disclosed in writing. A customer who makes an election pursuant to paragraph (d)(1) of this section may withdraw the digital asset in a form that permits the collection of the ancillary or subsidiary proceeds.

(j) A bank shall not authorize or permit rehypothecation of digital assets under this section.
The bank shall not engage in any activity to use or exercise discretionary authority relating to a digital asset except based on customer instructions.

(k) A bank shall not take any action pursuant to this section which would likely impair the solvency or the safety and soundness of the bank, as determined by the commissioner after considering the nature of custodial services customary in the banking industry.

(l) The commissioner may propose rules for legislative approval in accordance with the provisions of §29A-3-1 et seq. of this code to implement the provisions of this section.
