Be it enacted by the Legislature of West Virginia:

ARTICLE	2B.	DNA	DATA.
§15-2B-2.			Policy.

1 It is the policy of this state to assist federal, state, and local criminal justice and law-
 2 enforcement agencies in the identification, detection, and exclusion of individuals who are
 3 subjects of the investigation or prosecution of violent crimes, sex-related crimes, and other crimes
 4 against the person. DNA records are an important identification tool that can be used to confirm
 5 and verify information provided by fingerprints, and to identify additional information on potential
 6 criminal activity not available through other means. In furtherance of such assistance, the

7 Legislature finds:

8 That the analysis of DNA contained in biological evidence that may be recovered from a
 9 crime scene facilitates such identification, detection, and exclusion;

10 That the comparison of DNA data recovered from a crime scene with existing DNA records
 11 maintained in a central DNA database further facilitates such identification, detection, and
 12 exclusion; and

13 That requiring individuals ~~convicted of~~ arrested for certain crimes designated offenses and
14 convicted of a felony offense to provide a sample for submit to DNA analysis with the resulting
15 eligible DNA records maintained in a central DNA database will likewise further facilitate the
16 aforementioned identification, detection, and exclusion and may serve to discourage recidivism.

17 Therefore, the Legislature finds that assisting federal, state, and local criminal justice and
18 law-enforcement agencies through the use and development of DNA analysis is of the utmost
19 importance and urgency in this state and that a DNA identification system shall be established as
