

WEST VIRGINIA LEGISLATURE

2024 REGULAR SESSION

Committee Substitute

for

Senate Bill 632

BY SENATORS TRUMP, DEEDS, AND RUCKER

[Originating in the Committee on the Judiciary;

reported February 9, 2024]

1 A BILL to amend and reenact §27-6A-12 of the Code of West Virginia, 1931, as amended, relating
2 to continuing the study group on development of a strategic plan for a sequential intercept
3 model to divert certain individuals away from the criminal justice system into treatment
4 and to promote continuity of care and interventions; specifying individuals with brain
5 injuries included among populations to be included in study; updating membership of the
6 study group; continuing the study group; requiring supplemental and annual reporting;
7 establishing a steering committee within the study group; and providing authority of
8 steering committee.

Be it enacted by the Legislature of West Virginia:

**ARTICLE 6A. COMPETENCY AND CRIMINAL RESPONSIBILITY OF PERSONS
CHARGED OR CONVICTED OF A CRIME.**

**§27-6A-12. Development of a strategic plan for a sequential intercept model to divert adults
and juveniles with mental illness, developmental disabilities, cognitive disabilities,
and substance use disorders away from the criminal justice system into treatment
and to promote continuity of care and interventions; directing submission of a
report to the Legislature.**

1 (a) The Legislature finds that the state's adult and juvenile forensic patient populations
2 continue to increase and that the placement of forensic patients at state health care facilities,
3 diversion facilities, group homes, transitional living facilities, in the community, and other settings
4 continues to rapidly escalate. The Legislature further finds that persons with mental illness,
5 developmental disabilities, cognitive disabilities including, but not limited to, brain injuries, and/or
6 substance use disorder may be overrepresented in the criminal justice system, and many of these
7 people might not present a danger to the public if they could participate in a functioning community
8 behavioral health continuum of care. The Legislature further finds that the increasing adult and
9 juvenile forensic patient populations, the placement and treatment of adult and juvenile forensic

10 patients, and the release of persons with mental illness, developmental disabilities, and other
11 disabilities creates significant clinical, public safety, staffing, and fiscal needs and burdens for the
12 judiciary, law enforcement, state health care facilities, correctional facilities, behavioral health
13 professionals, hospitals, and the public. The Legislature further finds that there is a need for
14 improved coordination among the Department of ~~Health and Human Resources~~ Human Services,
15 the Department of Health Facilities, the Division of Corrections and Rehabilitation, and the
16 Division of Rehabilitation Services to promote the identification, safe discharge, and effective
17 community intervention and placement of persons who suffer from mental illness, a
18 developmental disability, a cognitive disability including, but not limited to, a brain injury, and/or
19 substance use disorder. The Legislature further finds that there is a need to develop functional
20 standards and protocols for the identification, management, qualified assessment, and treatment
21 of adult and juvenile forensic patients.
