

WEST VIRGINIA LEGISLATURE

2025 REGULAR SESSION

Committee Substitute

for

Committee Substitute

for

House Bill 2003

By Delegate Hanshaw (Mr. Speaker)

[By Request of the Executive]

[Reported March 17, 2025, from the Committee on
Education]

1 A BILL to amend the Code of West Virginia, 1931, as amended, by adding a new section,
2 designated §18-2-46, relating to the limitation of cell phones in classrooms; providing for a
3 purpose and application; creating definitions; creating a prohibition of personal electronic
4 devices during instructional time; setting forth minimum requirements for county board of
5 education policies; and providing for severability.

Be it enacted by the Legislature of West Virginia:

ARTICLE 2. STATE BOARD OF EDUCATION.

§18-2-46. Limitation on cell phones in classrooms; rule-making.

1 (a) Purpose. - Personal electronic devices contribute to a negative classroom environment
2 with increased concerns relating to distractions, academic misconduct, bullying and/or
3 harassment and other inappropriate behaviors. Concerns regarding the mental health of students
4 with unfettered access to personal electronic devices are well-documented and are believed to
5 prohibit the age-appropriate development of relationships, study skills, and other necessary skills
6 to be successful.

7 (b) Application. – County boards of education shall develop a policy that includes, but is not
8 limited to, the requirements established in this policy for implementation at the beginning of the
9 2025-2026 school year.

(c) Definitions. –

11 (1) "Personal Electronic Device" means any portable device capable of wireless
12 communication or computing including, but not limited to, cellular phones, tablets, laptops,
13 smartwatches, and portable gaming systems not provided by a county board of education.

14 (2) "Instructional Day" means the period of time from the start of the first instructional
15 period to the end of the last instructional period, including transition times between classes.

16 (3) "Classroom Setting" means an environment where instruction or activities related to the
17 school curriculum are occurring including, but not limited to, general classrooms, gymnasiums,
18 common areas, or any other area where instruction may occur.

19 (d) Prohibition of Personal Electronic Devices During Instructional Time. – As personal
20 electronic devices are a privilege and are not contributable to the appropriate development and
21 growth of students, all personal electronic devices shall not be accessible to students for use in a
22 classroom setting during instructional time, with the exception of exemptions set forth in this policy.

23 (e) Minimum Requirements for County Board of Education Policies. – County boards of
24 education are required to adopt a policy that includes, but is not limited to, the following:

25 (1) Whether personal electronic devices will or will not be permitted on school property.

26 (2) If a county board decides that personal electronic devices will be permitted on school
27 property, its policy must include a procedure for storing the devices that specifies where and how
28 the devices will be stored during the instructional day.

29 (3) If a county board decides that personal electronic devices will be permitted on school
30 property, students may be required to store the devices in containers or pouches provided by the
31 county board.

32 (4) County boards of education policies shall include the following exemptions:

33 (A) Students with an approved documented need, as required by a medical doctor or
34 licensed healthcare professional or as a requirement of an Individualized Education Plan
35 (IEP) or 504 plan, may have access to personal electronic devices if the device relates to
36 the student's specific need. An exemption related to a student's IEP or medical order shall
37 include a timeline of the required exemption and specify what electronic device(s) shall be
38 included in the exemption.

39 (B) County boards of education may include permission of specific personal electronic
40 devices as related to the requirements of a county board of education approved work-based
41 learning program. The approval shall include the specific course and purpose for which an
42 electronic device may be used.

43 (5) County boards of education policies shall include consequences for students
44 determined to have violated the policy including, but not limited to, the following:

45 (A) Penalties for a first offense, a second offense, and subsequent offenses;

46 (B) Confiscation of a student's personal electronic device(s) for violation of the policy
47 and/or require the student's parent/guardian to retrieve the device(s); and,

48 (C) Prohibiting an individual student from possessing any device if previous misuse has
49 been documented. However, if a student is prohibited from possessing electronic devices on
50 school property, a conference shall be offered to the parent/guardian to discuss the reasoning for
51 the prohibition.

52 (6) County board of education policies shall require schools to document all violations of
53 the policy in the West Virginia Education Information System (WVEIS).

54 (7) County boards of education shall make reasonable efforts to ensure that information
55 related to acceptable use of personal electronic devices is disseminated to students and their
56 parents/guardians including posting signs on school property and publishing the information in
57 student handbooks, newsletters, social media, and county or school websites.

58 (8) The Local School Improvement Council (LSIC) of each school shall annually discuss
59 the progress of implementing the county board's personal electronic device policy. The LSIC shall,
60 at a minimum, review the relevant discipline data and make recommendations designed to
61 promote student compliance with the policy.

62 (9) County boards shall require each school to develop and publish protocols regarding
63 how parents/guardians may communicate with their children in a manner that does not distract the
64 student in the learning environment. This may include, but is not limited to, establishing specific
65 times when personal electronic devices are permissible, utilizing office staff to disseminate
66 information from the parent/guardian, or any other applicable strategy designed to minimize
67 disruption during instructional time.

68 (f) Severability. – If any provision of this policy or the application thereof to any person or
69 circumstance is held invalid, such federal legislation or invalidity shall not affect other provisions or
70 applications of this policy.

NOTE: The purpose of this bill is to prohibit students from possessing cell phone in the classroom.

Strike-throughs indicate language that would be stricken from a heading or the present law and underscoring indicates new language that would be added.
