Dear Chairs:

Pursuant to the West Virginia Code, §4-2-5, we are transmitting a Special Report of the Workers' Compensation Commission Transition Closeout report, which will be presented to the Joint Committee on Government Operations and the Joint Committee on Government Organization on Monday, May 7, 2007. The issue covered herein is "The Legislative Auditor and the Office of the Insurance Commissioner Question the Workers' Compensation Commission Operating Fund Expenditures Following the Passage of Senate Bill 1004 through the Transition to Brickstreet Mutual."

We transmitted a draft copy of the report to the Office of the Insurance Commissioner on April 30, 2007. We received a response from Brickstreet on May 1, 2007 and a response from the Office of the Insurance Commissioner on May 4, 2007.

Let me know if you have any questions.

Sincerely. John Sylvia m Sylvia

The Legislative Auditor and the Office of the Insurance Commissioner Question the Workers' Compensation Commission Operating Fund Expenditures Following the Passage of Senate Bill 1004 through the Transition to Brickstreet Mutual

On January 29, 2005 the Legislature passed Senate Bill 1004, which privatized workers' compensation by creating the new employers' mutual insurance company. The bill was effective from passage and was approved by the Governor on February 16, 2005. The new company, which would become Brickstreet Mutual, replaced the State's monopolistic Workers' Compensation Commission. On December 31, 2005, the former Workers' Compensation Commission terminated and Brickstreet Mutual became operational on January 1, 2006. For the new private entity's transition costs, the Legislature appropriated \$35 million from the Workers' Compensation Operating Fund (fund # 3440) to a newly created transition fund (fund # 3461).

Excessive Hospitality Expenditures Were Made by the Workers' Compensation Commission From the Workers' Compensation Main Operating Fund (3440).

During a preliminary review of operating and transition fund expenditures before and after the passage of SB 1004, the Legislative Auditor noted high charges for hospitality expenses. The Legislative Auditor does not specifically question the transition fund (3461 and 3462) expenses. These moneys were appropriated by the Legislature for a general purpose. Further, most of the expenses under question are attributed to the operating fund (3440).

However, the Legislative Auditor questions the necessity of hospitality spending during fiscal year 2005 and 2006. Hospitality charges can be viewed in two ways: as benefitting Workers' Compensation business, which benefitted the state; or as being linked to the transition process, which benefitted a private company (future Brickstreet).

In cases where expensive meals at exclusive eateries were purchased, the Legislative Auditor questions whether the expense was appropriate even for the transition funds. While the West Virginia Code clearly gives the transition fund usage great latitude, the Legislative Auditor questions if the Legislature had envisioned the purchase of expensive meals using tax dollars. While these transactions may be appropriate for the private sector, the Legislative Auditor questions whether they are appropriate for state government.

Possible Tax Implications of Meals Due to Their Frequency

A review of the records indicates numerous instances of meal charges in and near Charleston, WV, which was the headquarters for the

To the Legislative Auditor, it appears that the Workers' Compensation Commission accumulated material assets at a cost to the state (operating fund) but with future benefit to the new employers' mutual insurance company (Brickstreet).

The Office of the Insurance Commissioner provided the Legislative Auditor with the results of the independent audit that it had conducted on the operating fund accounts.

The independent audit found more than \$3.3 million in questionable expenses from the operating fund during the transition period. Workers' Compensation Commission (and therefore the tax home for its employees). Accordingly, the Commission should have been tracking these meal charges for Workers' Compensation Commission employees to determine whether they had the responsibility to include the value of the meals in the employees' gross income for federal and state tax purposes. Due to the frequency and the cumulative amount of these types of reimbursements and the lack of documentation establishing that the expenses should be nontaxable income to the employees, the Legislative Auditor recommends that the Office of the Insurance Commissioner should review the expenditures to determine whether amended W2's or 1099's should be issued to former Workers' Compensation Commission employees.

The Legislative Auditor Questions the Purchase of Over \$44,000 in Furniture-Related Services and Merchandise From the Main Operating Fund

During the purchase card review of hospitality and miscellaneous expenses, the Legislative Auditor noticed frequent charges to providers of office furniture and furniture related service providers. These charges were not part of the hospitality and miscellaneous purchase review, rather extraneous to it. Therefore, the Legislative Auditor expanded the review scope pertaining to furniture-related purchases utilizing the purchase card. **To the Legislative Auditor, it appears that the Workers' Compensation Commission accumulated material assets at a cost to the state (operating fund) but with future benefit to the new employers' mutual insurance company (Brickstreet). This type of expense should have only utilized the transition funds, although this still may not have been the intent of the Legislature.**

The Legislative Auditor Receives Independent Audit Information from the Offices of the Office of the Insurance Commissioner Regarding the Use of State Funds for the Benefit of the New Employers' Mutual Insurance Company

In April of 2007, staff of the Legislative Auditor's Office met with the Office of the Insurance Commissioner regarding the operating (3440) and transition funds (3461 and 3462). The Office of the Insurance Commissioner provided the Legislative Auditor with the results of the independent audit that it had conducted on the operating fund accounts. The Office of the Insurance Commissioner informed the Legislative Auditor that audit findings had been forwarded to Brickstreet on March 16, 2007 (See correspondence in Appendix D). The independent audit found more than \$3.3 million in questionable expenses from the operating fund during the transition period.

Recommendations

- 1. The Legislative Auditor recommends that the Office of the Insurance Commissioner ensure that Brickstreet cooperate with the Office of the Insurance Commissioner in the matter of settling up the expenses being questioned by the Office of the Insurance Commissioner.
- 2. The Legislative Auditor recommends that Brickstreet reimburse the state for any amount highlighted by this report, which was not included in the Office of the Insurance Commissioner's independent audit.
- 3. The Legislative Auditor recommends that the Office of the Insurance Commissioner report back to the Legislature or the Legislative Auditor on the status of Brickstreet's justification of all expenses.
- 4. The Legislative Auditor recommends that the Office os the Insurance Commissioner review meal expenditures to determine whether amended W2's or 1099's should be issued to former Workers' Compensation Commission employees.

This Special Report on the Workers' Compensation Commission Transition Closeout is authorized by §4-2-5 of the West Virginia Code, as amended.

Objective

The objective of this performance audit was to review the use of funds by the Workers' Compensation Commission during its transition to a private company.

Scope

The scope of this review includes transactions from June 2004 (FY 2004) through December 2005 (FY 2006). Minimal transactions from FY 2004 were included due to the fact that a June 2004 transaction was processed during July 2004. The transaction review ended in December 2005 (FY 2006) since this was the last month that the Workers' Compensation Commission was a state agency.

Methodology

The Legislative Auditor reviewed regular invoices (I-Docs) and purchase card transaction information for Workers' Compensation Commission Operating Fund (3440) and Transition Funds (3461 and 3461) from June 2004 through December 2006 (FY's 2004-2006. By isolating certain object codes for both regular and purchase card invoicing, the Legislative Auditor was able to determine charges for hospitality and furniture-related purchases. In addition to analyzing the two data sets (I-Doc transactions and software reporting for purchase card transactions), the Legislative Auditor relied on the West Virginia Code, Internal Revenue Service Rules and Regulations, and various information provided by the Office of the Insurance Commissioner. Every aspect of this review was in compliance with the Generally Accepted Government Audit Standards (GAGAS). The Legislative Auditor and the Office of the Insurance Commissioner Question the Workers' Compensation Commission Operating Fund Expenditures Following the Passage of Senate Bill 1004 through the Transition to Brickstreet Mutual

Background

On January 29, 2005 the Legislature passed Senate Bill 1004, which privatized workers' compensation by creating the new employers' mutual insurance company. The bill was effective from passage and was approved by the Governor on February 16, 2005. The new company, which would become Brickstreet Mutual, replaced the State's monopolistic Workers' Compensation Commission. On December 31, 2005, the former Workers' Compensation Commission terminated and Brickstreet Mutual became operational on January 1, 2006.

For the new private entity's transition costs, the Legislature appropriated \$35 million from the Workers' Compensation Operating Fund (fund # 3440) to a newly created transition fund (fund # 3461). According to \$23-2C-2(i) of the code:

[The] "Mutualization Transition Fund" shall be a fund over which the State Treasurer is custodian. Moneys transferred or otherwise payable to the Mutualization Transition Fund shall be deposited in the State Treasury to the credit of the Mutualization Transition Fund. **Disbursements shall** be made from the Mutualization Transition Fund upon requisitions signed by the executive director, and, upon termination of the commission, the Office of the Insurance Commissioner, and shall be reasonably related to the legal, operational, consultative and human resourcerelated expenses associated with the establishment of the company and the transferring of personnel from the commission to the company. [emphasis added]

This transfer to the transition fund (3461) occurred on March 1, 2005. From that date until June 30, 2005, an amount of \$768,639 was expended. The balance remaining - \$34,231,361 - at the end of fiscal year 2005 was transferred to a second transition fund (3462). This balance was expended over fiscal year 2006. Table 1 shows quarterly activity for both transition funds (3461 and 3462).

Table 1Transition Funds (3461 and 3462)Total Disbursements and TransfersFiscal Years 2005 – 2006*

*Fiscal year 2005 began July 1, 2004, approximately seven months prior to the passage of SB 1004. Fiscal year 2006 ended June 30, 2006, six months after the termination of the Workers' Compensation Commission. Therefore the scope of data provided exceeds the transition period.

Source: Department of Administration's Finance Division

The primary operating fund (3440) remained intact for use by the Workers' Compensation Commission until its termination as a state agency on December 31, 2005. During the last several months of transition, multiple transfers from the Workers' Compensation Operating Fund (3440) to the Office of the Insurance Commissioner occurred. The transfers were designed to provide the Office of the Insurance Commissioner with funds to address any residual effects of the transition, such as its assumption of liability for claims made prior to July 1, 2005. Ultimately, the transfers would ensure that a certain amount of money remained with the State. The transfers made from the Workers' Compensation Operating Fund were as follows:

- July 2005 \$844,908 to the Office of the Insurance Commissioner Administration Fund (7152)
- November 2005 \$844,908 to the Office of the Insurance Commissioner Administration Fund (7152)
- January 2006 \$1,250,000 to the Office of the Insurance Commissioner Self-Insured Guaranty Risk Pool Fund (7164)
- January 2006 \$650,000,000 to the Office of the Insurance Commissioner to pay Claims Prior to June 30, 2005 Fund (7162)
- January 2006 \$5,000,000 to the Office of the Insurance Commissioner Uninsured Employers Fund (7163)
- February 2006 \$10,032,786 to the Office of the Insurance Commissioner to pay Claims Prior to June 30, 2005 Fund (7162).

Effective January 1, 2006, by gubernatorial proclamation, the employers' mutual insurance company (or Brickstreet Mutual) received a cash sum of \$400 million from the State. This amount satisfied the following:

- January 1, 2006 \$200,000,000 to the new employers' mutual insurance company (3463) for liabilities being assumed
- January 1, 2006 \$200,000,000 to the new employers' mutual insurance company (3463) in the form of a surplus note, which must be paid back to the State.

Excessive Hospitality Expenditures Were Made by the Workers' Compensation Commission From the Workers' Compensation Main Operating Fund (3440).

During a preliminary review of operating and transition fund expenditures before and after the passage of SB 1004, the Legislative Auditor noted high charges for hospitality expenses. The Legislative Auditor attempted to review all hospitality and miscellaneous expenses made from the operating fund (3440) and the transition funds (3461, 3462). Hospitalty and Miscellaneous expenditures are outlined below in Table 2.

Table 2Operating and Transition Fund ExpensesFiscal Years 2005-2006*					
	Operating Fund 3440	Transition Fund 3461	Transition Fund 3462		
	Hospitality 042	Hospitality 042	Hospitality 042		
FY 2005	\$105,760 (76%)	\$7,055 (100%)	\$0 (0%)		
FY 2006	\$34,023 (24%)	\$0 (0%)	\$11,265 (100%)		
Total \$139,783 (100%) \$7,055 (100%) \$11,265 (100%)					
*Fiscal year 2005 began July 1, 2004, approximately seven months prior to the passage of SB 1004. Fiscal year					

2006 ended June 30, 2006, six months after the termination of the Workers' Compensation Commission. Therefore the scope of data provided exceeds the transition period.

Source: West Virginia State Legislature's Budget Division

As can be seen by the table, hospitality expenses for the transition funds (3461 and 3462) are relatively minimal as compared to the hospitality charges for the operating fund (3440). In total \$158,103 was spent, from both funds, on hospitality. In general, the Legislative Auditor does not question the transition fund expenses. As discussed above, the Legislature granted a general and broad use for these funds, per §23-2C-2(I). However, expenditures that were made from the operating fund may be considered inappropriate if the purpose of the expenditure was to support the transition effort. As the table shows, hospitality expenditures made from the operating fund were relatively large. The time period that these expenditures were made includes the time between the passage of SB 1004 and the termination of the Workers' Compensation Commission. To examine specific hospitality (042) and miscellaneous (051) expenditures made during fiscal years 2005 and 2006, the Legislative Auditor requested all hospitality (042) and miscellaneous (051) expenditures made from the operating fund (3440) and the two transition funds (3461 and 3462) from the State Auditor's Office. The Legislative Auditor received more than 350 regular invoices, which included monthly state purchase card invoices. Hospitality and miscellaneous expenses were extracted from the regular invoices. Therefore, from the regular invoices, the Legislative Auditor reviewed software reports on all purchase card activity. Purchase card transactions only affected the operational fund (3440), not the transition funds (3461 and 3462). With the software report, the Legislative Auditor was able to extract hospitality (042), miscellaneous (051), and possible furniture-related expenses (058 and 061).

The Legislative Auditor Questions the Use of the Workers' Compensation Main Operating Fund

As already stated, the Legislative Auditor does not specifically question the transition fund (3461 and 3462) expenses. These moneys were appropriated by the Legislature for a general purpose. Further, most of the expenses under question are attributed to the operating fund (3440).

However, the Legislative Auditor questions the necessity of hospitality spending during fiscal years 2005 and 2006. Hospitality charges can be viewed in two ways: as benefitting Workers' Compensation business, which benefitted the State; or as being linked to the transition process, which benefitted a private company (future Brickstreet). Examples of meetings with hospitality charges that possibly benefitted the State are:

- Board of Managers Meetings
- Professional staff training for subjects unrelated to the transition

Examples of hospitality for reasons benefitting the private company:

- Training of staff for the transition
- Meals with prospective employees

Meals were sometimes purchased after the passage of SB 1004 for officials discussing the implications of the transition. Also, it is apparent that staff in general were included in training sessions and meetings at the Charleston Civic Center. Records indicate that refreshments and/or meals were provided on these occasions. **Expenses were paid through both the main operating fund (3440) and the transition funds (3461 and 3462).** The Legislative Auditor questions the necessity to provide any meals (non-travel) at the expense of the operating fund. Tables 3, 4, and 5 organize both regular invoice and purchase card invoices by vendor. An exhaustive account of these transactions can be found in Appendices A and B.

*Fiscal year 2005 began July 1, 2004, approximately seven months prior to the passage of SB 1004. Fiscal year 2006 ended June 30, 2006, six months after the termination of the Workers' Compensation Commission. Therefore the scope of data provided exceeds the transition period. Due to invoice delay, this may include minimal data from June 2004.

**Name of vendor was not provided.

***Civic Center expenses include Board of Managers meetings, which may have been appropriate expenses. Civic Center expenses were also incurred for Workers' Compensation University (training) where expenses were recouped by non-state attendees. Charges were typically for refreshments, such as coffee and cookies.

Source: Legislative Auditor's analysis of regular invoices hospitality object code (042) transactions. Transactions were isolated and sorted from FY 04 (June 2004 only) through FY 06 (ending in December 2005).

Hospitality expenses for the Charleston Civic Center that are listed in Tables 3 and 4 are inclusive of Board of Managers meetings and Workers's Compensation University. Charges for hospitality provided for the Board of Managers meetings may have been appropriate, given the nature of the meeting and the openness to the general public. With regard to the Workers' Compensation University, Brickstreet has stated that most of the charges (approximately \$50,000) were recouped through attendance fees paid by stakeholders. As part of the general recommendations of this report, the Legislative Auditor finds that the Insurance Commission should determine whether, in fact, the charges were appropriate and if expenses were recouped.

*Fiscal year 2005 began July 1, 2004, approximately seven months prior to the passage of SB 1004. Fiscal year 2006 ended June 30, 2006, six months after the termination of the Workers' Compensation Commission. Though spanning parts of two fiscal years, transition funds 3461 and 3462 only existed during the transition. Therefore the scope of data provided does not exceed the transition period.

Source: Legislative Auditor's analysis of regular invoices hospitality object code (042) transactions. Due to the limited time period of the transition, these expenses would have fallen between March 2005 and December 2005.

Due to the fact that the transition funds were created by SB 1004, it was not necessary to delineate between transactions occurring before and after the passage of the bill (as done so in Table 3). In essence, all 3461 and 3462 transactions occurred only during the transition period.

Specific examples of more expensive meals are listed in Table 6.

*Fiscal year 2005 began July 1, 2004, approximately seven months prior to the passage of SB 1004. Fiscal year 2006 ended June 30, 2006, six months after the termination of the Workers' Compensation Commission. Therefore the scope of data provided exceeds the transition period. Due to invoice delay, this may include minimal data from June 2004.

Source: Legislative Auditor's analysis of purchase card reports. Hospitality object code (042) transactions were isolated and sorted from FY 04 (June 2004 only) through FY 06 (ending in December 2005).

An itemized listing of all regular-invoiced food purchases may be found in Appendix A. This listing does not include purchases made with purchase cards because the level of detail reported on the purchase card report did not allow the same analysis.

Table 7 provides a count of hospitality occasions for fiscal years 2004 (June only) through 2006 (to December only). This considers hospitality occasions utilizing both the operating fund (3440) and the transition funds (3461 and 3463). The time period between the passage of Senate Bill 1004 and the termination of the Workers' Compensation Commission is highlighted. A month-by-month account, reflecting multiple hospitality occasions on a single day, can be found in Appendix C.

**Shaded months indicate period between the passage of Senate Bill 1004 and the termination of the Workers' Compensation Commission.

***Months listed as "N/A" fall outside of the scope of the audit.

Source: Legislative Auditor's analysis of regular and purchase card invoices.

In cases where expensive meals at exclusive eateries were purchased, the Legislative Auditor questions whether the expense was appropriate even for the transition funds. While the West Virginia Code clearly gives the transition fund usage great latitude, the Legislative Auditor questions if the Legislature had envisioned the purchase of expensive meals using tax dollars. While these transactions may be appropriate for the private sector, the Legislative Auditor questions whether they are appropriate for state government.

Possible Tax Implications of Meals Due to Their Frequency

A review of the records indicates numerous instances of meal charges in and near Charleston, WV, which was the headquarters for the Workers' Compensation Commission (and therefore the tax home for its employees). Accordingly, the Commission should have been tracking these meal charges for Workers' Compensation Commission employees to determine whether they had the responsibility to include the value of the meals in the employees' gross income for federal and state tax purposes.

Meals provided to employees at the employees' tax home, are generally considered to be included in the employees' gross income unless:

1. The meals can be excluded because they were furnished on the business premises of the employer and for the convenience of the employer; or

2. The expenses for the meals are deductible under 26 CF 1.274-2, as entertainment meals.

Due to the frequency and the cumulative amount of these types of reimbursements and the lack of documentation establishing that the expenses should be non-taxable income to the employees, the Legislative Auditor recommends that the Office of the Insurance Commissioner review the expenditures to determine whether amended W2's or 1099's should be issued to former Workers' Compensation Commission employees.

The Legislative Auditor Questions the Purchase of Over \$44,000 in Furniture-Related Services and Merchandise From the Main Operating Fund

During the purchase card review of hospitality and miscellaneous expenses, the Legislative Auditor noticed frequent charges to providers of office furniture and furniture related service providers. These charges were not part of the hospitality and miscellaneous purchase review, rather extraneous to it. Therefore, the Legislative Auditor expanded the review scope pertaining to furniture-related purchases utilizing the purchase card. It is anecdotally known that the offices where the former Workers' Compensation Commission was located (Brickstreet) were upgraded to private-sector standards.

Since the purchases were made using the purchase card, specific data about each transaction is limited (i.e. item purchased). The Legislative Auditor finds that the purchases appear to be an attempt to increase assets transferred to Brickstreet in anticipation of the privatization. The use of the transition funds for purchasing office equipment could possibly be considered as an appropriate expenditure pursuant to §23-2C-2(i). However, the charges were made using purchase cards tied to the main operating fund (3440) from a period approximately six months prior to the passage of SB 1004 until the final transition.

In consideration of the possibility that these new assets could have remained with the State, the Legislative Auditor inquired with the Office of the Insurance Commissioner. The Office of the Insurance Commissioner confirmed that former Workers' Compensation employees (new Office of the Insurance Commissioner employees) were allowed to bring their assigned computers, printers, and assigned office furniture with them to the Office of the Insurance Commissioner. However, the Office of the Insurance Commissioner is unaware of any new furniture that would have been purchased for employees that were leaving the Workers' Compensation Commission for the Office of the Insurance Commissioner. To the Legislative Auditor, it appears that the Workers' Compensation Commission accumulated material assets at a cost to the State (operating fund) but with future benefit to the new employers' mutual insurance company (Brickstreet). This type of expense should have only utilized the transition funds, although this still may not have been the intent of the Legislature. From a review of individual purchase card transactions, detailed by software reporting, it is evident that some upgrade-type furniture items were purchased. Table 8 summarizes furniture-related purchases. A complete listing of furniture obtained by purchase card can be found in Appendix B.

Table 8 Selected Purchase Card Furniture-Related Expenses* After Senate Bill 1004 Operating Fund 3440**					
Vendor	Cost	Occurrences	Average		
Capitol Business Interior	\$27,477.62	38	\$723.10		
HomeGoods	\$15.98	1	\$15.98		
HON Industries	\$11,411.95	10	\$1141.20		
Nature's Furniture	\$976.00	1	\$976.00		
Pugh Furniture	\$1,196.00	1	\$1,196.00		
The Bombay Com- pany	\$60.00	1	\$60.00		
Well's Home Fur- nishings	\$3,050.00	3	\$1,016.67		
Totals	\$44,187.55	55	\$803.41		

*The Legislative Auditor omitted charges occurring under the 058 and 061 object code if they were unrelated to furniture and furniture-related services (i.e. communications).

**Purchase card transactions only affected the operating fund.

***Certain transactions were not included due to their appearance as ergonomics-related purchases. This could apply to additional transactions found in the table.

Source: Legislative Auditor's analysis of purchase card reports from FY 04 (June 2004 only) through FY 06 (ending in December 2005). Vendors were selected based on typical product of sale. In some cases, detail reporting positively identified a furniture item(s).

The review of the purchase card transactions involving furniture and furniture-related items is limited. Additional furniture-related items and services could have been purchased with the main operating fund through regular invoicing. The Legislative Auditor recommends that the Office of the Insurance Commissioner request Brickstreet Mutual to reimburse the State for any furniture purchases that may have benefitted Brickstreet Mutual and that should have been purchased with transition funds instead.

The Legislative Auditor Receives Independent Audit Information From the Offices of the Office of the Insurance Commissioner Regarding the Use of State Funds for the Benefit of the New Employers' Mutual Insurance Company

Preceding and during the transition from the Workers' Compensation Commission to the new employers' mutual insurance company, the executive director of the latter had independent authority to make expenditures pursuant to West Virginia Code. However, state government organization requires the Office of the Insurance Commissioner to be the ultimate custodian of the operating fund account. Further, as described in the background portion of this report, the Office of the Insurance Commissioner received multiple fund transfers from the operating fund (3440) preceding and following the finality of the transition. The Office of the Insurance Commissioner also received all Workers' Compensation Commission claims occurring prior to June 30, 2005. One final substantial relationship is that the Office of the Insurance Commissioner has the fiduciary responsibility to insure appropriate repayment of the \$200 million surplus note. For these reasons, the Office of the Insurance Commissioner has a stake in the matter and therefore initiated a review of transition expenses.

In April of 2007, staff of the Legislative Auditor's Office met with the Office of the Insurance Commissioner regarding the operating (3440) and transition funds (3461 and 3462). The Office of the Insurance Commissioner provided the Legislative Auditor with the results of the independent audit that it had conducted on the operating fund accounts. The Office of the Insurance Commissioner informed the Legislative Auditor that the audit findings had been forwarded to Brickstreet on March 16, 2007 (see correspondence in Appendix D). The independent audit found more than \$3.3 million in questionable expenses from the operating fund during the transition period. An example of a disputed charge was the purchase of a \$555,763 computer system for the new company. According to FIMS documentation, this purchase was initially made with the transition fund. However, on December 30, 2005, an expense-to-expense transfer charged the same amount to the operating fund. The comment for the expense-to-expense transfer reads: "TO MOVE EMC CORP EXPEND FROM TRANSITION FUND TO THE REGULAR FUND." The Office of the Insurance Commissioner finds that there would be no benefit to the State for this purchase and has asked for reimbursement.

While independent audit total amounts exceed the scope of the Legislative Auditor's review, it includes many of the same questioned hospitality expenses in aggregate form. (In some cases, the Legislative Auditor questioned expenses that were exclusive of the independent audit.) This is due to the independent audit's minimum threshold methodology. The Legislative Auditor did not use a minimum threshold methodology when determining a total charge to a vendor. The results of the independent

audit were forwarded to the new employers' mutual insurance company for justification. The Office of the Insurance Commissioner is requesting that any non-justified expense be reimbursed by the new employers' mutual insurance company to the State. Repayment options could include increasing the amount owed on the surplus note or disbursement of cash payment. To date, the Legislative Auditor is unaware of any response on the part of the private entity to the Office of the Insurance Commissioner. However, the Legislative Auditor recommends that the Office of the Insurance Commissioner ensure that Brickstreet cooperate in the matter of settling up the expenses being questioned by the Office of the Insurance Commissioner. Further, the Legislative Auditor recommends that Brickstreet reimburse the state for any amount highlighted by this report, which was not included in the Office of the Insurance Commissioner's independent audit. Finally, the Legislative Auditor recommends that the Office of the Insurance Commissioner report back to the Legislature or the Legislative Auditor on the status of Brickstreet's justification of all expenses.

Conclusion

There is a clear advantage to maximizing use of the Workers' Compensation Commission's main operating fund (3440) moneys rather than transition funds. The entire balance of the transition fund appropriation (\$35 million) was available for any transition use *reasonably related to the legal, operational, consultative and human resource-related expenses associated with the establishment of the company and the transferring of personnel from the commission to the company* (\$23-2C-2(i). Whether intentional or not, transition officials operating on behalf of the future company could have derived private benefit from maximizing expenditures made from the main operating fund (3440) up to the time of the termination of the state agency.

Recommendations

1. The Legislative Auditor recommends that the Office of the Insurance Commissioner ensure that Brickstreet cooperate with the Office of the Insurance Commissioner in the matter of settling up the expenses being questioned by the Office of the Insurance Commissioner.

- 2. The Legislative Auditor recommends that Brickstreet reimburse the State for any amount highlighted by this report, which was not included in the Office of the Insurance Commissioner's independent audit.
- 3. The Legislative Auditor recommends that the Office of the Insurance Commissioner report back to the Legislature or the Legislative Auditor on the status of Brickstreet's justification of all expenses.
- 4. The Legislative Auditor recommends that the Office of the Insurance Commissioner review meal expenditures to determine whether amended W2's or 1099's should be issued to former Workers' Compensation Commission employees.

Appendix D: Independant Audit Letter

STATE OF WEST VIRGINIA

Offices of the Insurance Commissioner

JOE MANCHIN III Governor JANE L. CLINE Insurance Commissioner

March 16, 2007

Greg Burton, President and Chief Executive Officer BrickStreet Mutual Insurance Company 4700 MacCorkle Ave., S.E. Charleston, WV 25304

Dear Greg,

As you know, the first payment on the surplus note agreement between the State of WV and BrickStreet Mutual Insurance Company is due on June 30, 2007. Accordingly, we are working toward establishing the amount, if any, of the adjustment to the principal amount of the surplus note. On August 25, 2006, we sent you a draft of the spreadsheets that were prepared in conjunction with an administrative audit of the final year of operation for the former Workers' Compensation Commission. We have now completed all audits related to the final year of operation for the WCC, and the final draft of the report is attached for your review and response.

The items listed on this report are administrative expenses that were paid from the main WCC operating fund. In the opinion of our auditors, the expenditures appear to be for the sole benefit of BrickStreet Mutual Insurance Company. You will note that a "comment" column has been included on the spreadsheet so that BSI can enter any responses or additional information that you may have regarding the transactions if you would like to do so.

As the "settling up" of expenses between entities involved in changing business structures is not uncommon, it appears that the most efficient resolution to the findings of this audit would be to net the amount due to the State of WV from BrickStreet Mutual Insurance Company with the accounts payable reported in the second section of "Report 1" related to the surplus note agreement that was submitted by BSI to the OIC on December 31, 2006.

In a related matter, the expenses detailed in the second section of "Report 1" have not yet been audited, so we are unable to validate the amounts shown as accounts payable on that report. We plan to begin that audit process in the near future in order to finalize the principal amount of the surplus note.

Please let us know what comments or suggestions you have regarding this matter.

Sincerely,

Melinda a. Lie

Mélinda A. Kiss, CPA Assistant Commissioner of Finance

John Sylvia Director

April 30, 2007

Jane Cline, Commissioner Offices of the Insurance Commissioner 1124 Smith Street Charleston, WV 25305-0540

Dear Commissioner Cline:

This letter is to transmit a draft copy of the Special Report on the Workers' Compensation Commission Transition Closeout. This report is scheduled to be presented to the Joint Committee on Government Operations during its May interim meeting. We will inform you of an exact meeting time once that information becomes available. It is expected that a representative from your agency be present at the meeting to orally respond to the report and answer any questions the committee may have.

If you would like to schedule an exit conference to discuss any concerns you may have with the report, please notify us as soon as possible. We need your written response by close of business on May 1, 2007, in order for it to be included in the final report. If your agency intends to distribute additional material to committee members at the meeting, please contact the House Government Organization staff at 340-3192 by Thursday, May 3, 2007 to make arrangements.

Thank you for your attention to this matter. Should you have any questions, please do not hesitate to contact me.

Sincerely,

Michael S. Keeney Senior Research Analyst

Joint Committee on Government and Finance

Appendix F: Insurance Commission Response

STATE OF WEST VIRGINIA

Offices of the Insurance Commissioner

JOE MANCHIN III Governor JANE L. CLINE Insurance Commissioner

May 4, 2007

Aaron Allred, Legislative Manager Joint Committee on Government and Finance Building 1, Room E-132 1900 Kanawha Boulevard, East Charleston, West Virginia 25305-0610 Dear Mp Allred:

Thank you for the invitation to comment on the draft Workers' Compensation Commission Transition Closeout Report. We appreciate this opportunity to discuss the action taken to date by the Offices of the Insurance Commissioner regarding certain transactions executed by the former Workers' Compensation Commission and to outline our plan for future actions.

Thankfully, we recognized the significance of the transition of funds between the former Workers' Compensation Commission and my offices over one year ago. As a result, we engaged an independent auditor to audit the transactions from the mutualization fund and the main workers' compensation fund. My office engaged Suttle & Stalnaker in early 2006 and have continued to work with them to ensure that the state's interests are adequately protected. To date, our independent audit has identified approximately \$3.3 million in expenses that we have asked BrickStreet Mutual Insurance Company to return to the State. To that end, we have been working with BrickStreet since August of 2006 to resolve issues identified by our auditor and have sent a final report to them in March of this year and are awaiting their response to our audit.

Additionally, the Insurance Commissioner has reviewed the report from the Legislative Auditor and provides the following responses to the four recommendations contained therein:

1. As noted, the Offices of the Insurance Commissioner has extended an opportunity to BrickStreet to offer comment and response to the audit report we presented them. Our next step will be to provide them with a date certain by which they must submit any comments for our consideration. We will also establish a date by which reimbursement must be made to the State. Clearly, it is the firm resolve of the Insurance Commissioner that any assets that were expended for non-state purposes shall be returned to the State. We will continue to work toward the prompt resolution of this matter.

Executive Office Post Office Box 50540 Charleston, West Virginia 25305-0540 "We are an Equal Opportunity Employer"

Telephone 304.558.3354 Facsimile 304.558.0412 www.wvinsurance.gov

Workers' Compensation Commission Transition Closeout

2. We will ascertain what back-up documentation is available to support the Workers' Compensation Commission hospitality expenditures highlighted in your report and review such documentation. We will afford BrickStreet the opportunity to review the detail of the transactions and to offer comments on the audit findings. The Offices of the Insurance Commissioner will work with BrickStreet to make certain that these matters are appropriately resolved.

3. As always, the Insurance Commissioner will keep the Legislature apprised of any developments as we work toward our common goal of resolving these matters on behalf of the State. We will document the results of our efforts and report the resolution of the findings of both audits back to the Legislature.

4. Finally, we will review the tax issues raised in your report regarding certain meal expenditures to identify the appropriate tax treatment for these transactions and take any actions necessary to correct any previous incorrect reporting of taxable income.

This Office looks forward to working with the Legislature and the Legislative Auditor's office on these very important matters.

Sincerely,

Cline surance Commissioner

RECEIVED MAY 0 1 2007 PERFORMANCE EVALUATION AND RESEARCH DIVISION

Re: Draft Workers' Compensation Commission Transition Closeout Report

Dear Commissioner Cline and Mr. Allred:

BrickStreet Mutual Insurance Company ('BrickStreet") would like to thank you for the opportunity to comment on the draft Workers' Compensation Commission Transition Closeout ("Closeout Report") date April 30, 2007, which was provided to BrickStreet at close of business on April 30, 2007. We understand that written comments must be received by close of business May 1, 2007. We appreciate the opportunity to respond to the Closeout Report and request that a copy of this response be provided to all members of whichever Legislative committee(s) receive the Closeout Report.

It was a privilege to work with and under the oversight of so many State officials during 2005 to close down the West Virginia Workers' Compensation Commission ("Commission") and transition to the private workers' compensation insurance market. The (4) members of the Legislature who sat on the Commission's oversight board ("Board of Managers") and who sat on BrickStreet's Provisional Board of Directors were central to the success of the transition. The Governor, who served as Chairman of the Commission's oversight body (Board of Managers) and the Provisional Board demonstrated bold leadership in overseeing the closeout of the Commission and the inception of BrickStreet. Finally, the Office of Insurance Commissioner ("OIC") has played an integral role working through the Board of Managers to prepare for the private market.

> 4700 MacCorkle Avenue, S. E. Charleston, West Virginia 25304 304.926.5060-phone ■ 304.926.5372-fax ■ 866.45.BRICK www.brickstreet.com

As we know, one (1) of the final steps in this historic transition was the closeout of the Commission's books and the reconciliation (i.e. "settling up") between the OIC/Old Fund and BrickStreet. To that end, at least two (2) reports have been prepared. First, the OIC has prepared a report listing certain expenditures and asking BrickStreet's input regarding the statutory authorization for approximately \$3,300,000 of expenditures. Second, the Closeout Report was prepared by the West Virginia Legislature's Performance Evaluation and Research Division which appears to identify approximately \$232,000 of expenditures needing explanation. These two (2) reports therefore focus on approximately \$3.5M of expenditures.

Initially, BrickStreet would like to note that the estimated cost of transitioning to a private market was \$35,000,000. This amount was placed in the mutualization transition fund. The two (2) reports that have been produced regarding the financing of this historic transition have identified about \$3.5M in expenditures that required additional explanation. This represents only 10% of the total cost of the transitioning our 92 year old state agency into a private corporation. Given all the unknown hurdles which surrounded this endeavor as it began, BrickStreet submits that this low percentage of questioned expenditures serves as a compliment to all of the parties identified above who were so intimately involved in this experience.

With regard to the specific findings of the Closeout Report, BrickStreet willingly consents to the three (3) specific recommendations of the Closeout Report with the following minor exceptions:

1. Control Nos. 38 and 39. These expenditures were directly related to the Workers' Compensation University and directly related to the operation of the Commission. Nearly one thousand (1000) stakeholders attended these seminars at the Civic Center, which were put on by the Commission in September, 2004 and May, 2005. The conventions were enthusiastically received by employers, medical providers, labor unions, claimant and employer attorneys and all other stakeholders in the workers' compensation system. Additionally, and most importantly, the costs identified on the Closeout Report were almost completely recouped by an attendance fee that was paid by the nearly one thousand (1000) attendees.

2. Control Nos. 1-12; 14-15; 17-24; 26; 36; 38-39; 72-75; 77-86; 88-91; 93-95; 97-98; 112; and 165-167. These expenditures were directly related to the Board of Managers' oversight of the state agency Commission during 2005, with the one (1) exception being control No. 36 which was a Commission employee meeting. The Commission continued as a state agency through December 31, 2005, was Chaired by the Governor through December 31, 2005, had four (4) Legislative members through December 31, 2005, and continued in that manner until terminated by the Governor effective December 31, 2005. Also, the Board of Managers, on behalf of the State, maintained oversight responsibility over the self-insured community through December 31, 2005. Consequently, these expenditures are clearly related to the operation of the state workers' compensation system's Board of Managers. Simultaneously, BrickStreet's Provisional Board was functioning during this time in its

www.brickstreet.com

oversight role over the company. None of the Provisional Board's expenses were paid from the worker's compensation fund at issue in the Closeout Report.

3. Control 158. These expenses were incurred in connection with WVWCC employee work team breakout sessions that focused on alternative dispute resolution ("ADR"). Many stakeholders such as employers, injured workers, and their respective attorneys often pressured the WVWCC to formulate ADR processes. This two (2) day employee work group focused on formulating a plan to meet the needs of these stakeholders.

It must be noted that the exceptions above are the ones that are immediately identifiable by BrickStreet. BrickStreet has had limited time to collect the information necessary to respond to the individual expenditures on the Closeout Report and has been limited in its ability to fully respond because much of the needed back-up information is no longer in BrickStreet's possession. Accordingly, BrickStreet intends to review whatever records to which it can have access to through the Office of Insurance Commissioner to address the remaining expenditures identified on the Closeout Report.

Nevertheless, as stated, BrickStreet reads the Closeout Report to call into question expenditures totaling about \$232,000.¹ The exceptions identified above and detailed on the attached exhibit total approximately \$61,000, leaving a balance of approximately \$171,000. Although the Commission was exempt from purchasing and travel related laws and regulations during most of 2005, BrickStreet certainly is willing as part of the negotiations surrounding the closeout of the Commission to agree to add this amount to the surplus note it currently has with the State or to simply reimburse the State immediately for this amount.²

In closing, I would like to reiterate my appreciation to all of the entities that have been involved in the workers' compensation turn around and the close out of the Commission. When I became the executive director of the Commission in 2003, it had approximately Six Hundred Million Dollars (\$600,000,000) in cash and was losing nearly a \$1,000,000 every business day. Three (3) years later, my team left the Commission with almost One Billion One Hundred Million Dollars (\$1,100,000,000) in cash. The system is now privatized and perched on the verge of open market competition. This remarkable success story could not have come to fruition without the efforts of the Governor, the Legislature, the OIC, and countless others.

Please advise me at your earliest convenience whether you would like BrickStreet to remit the amount identified above or whether you would rather add the amount to the surplus

www.brickstreet.com

¹ BrickStreet recognizes that the final report may contain different figures and will review those figures once the final report is received.

² Of the approximately \$232,000, about \$90,000 is for furniture. BrickStreet cannot respond to the specifics regarding the furniture because the Closeout Report states that the list of furniture purchases is contained on Appendix B but Appendix B is a listing of food purchases. It is also a bit peculiar that furniture would be questioned since West Virginia code Section 23-1-3(a) specifically allows for workers' compensation funds to be used to purchase furniture.

note. Also, please feel free to contact me or any member of my staff to discuss any aspect of this matter.

Very truly yours,

A, ASJ
