

# West Virginia Legislature Journal of the House of Delegates Eighty-Sixth Legislature First Regular Session

## Charleston, Wednesday, January 11, 2023

This being the day fixed by Section 18, Article VI of the Constitution of the State of West Virginia, for the annual assembly of the Legislature, the Members-elect of the House of Delegates met in their Chamber in the Capitol Building in the City of Charleston at 12:00 noon and the Clerk of the last House of Delegates, the Honorable Stephen J. Harrison, announced that the Honorable Bill Anderson, the Delegate-elect from the 10<sup>th</sup> Delegate District, was the oldest member in point of continuous service and, in accordance with Section 18, Article VI of the Constitution, would preside over the organization of the House of Delegates until a Speaker was chosen and shall have taken his seat.

Delegate-elect Anderson then assumed the Chair and called the House of Delegates to order.

Prayer was offered and the House was led in recitation of the Pledge of Allegiance.

#### MESSAGES FROM THE EXECUTIVE

#### AND OTHER COMMUNICATIONS

The Honorable Mac Warner, Secretary of State presented a communication which was received and laid before the House, containing the official returns of the election held on the 8<sup>th</sup> day of November, 2022, covering the 100 seats in the House of Delegates, which returns were accompanied by certification for those appearing to have been elected by the voters of the 100 Delegate Districts.

#### **ELECTION OF SPEAKER**

The Presiding Officer announced that the next order of business was the election of a Speaker of the House of Delegates for the Eighty-sixth Legislature and stated that nominations were now in order.

#### **MAJORITY NOMINATION**

Delegate Kelly, from the 8<sup>th</sup> Delegate District, nominated the Honorable Roger Hanshaw from the 62<sup>nd</sup> Delegate District, as follows:

DELEGATE KELLY. Thank you and good afternoon, everybody. It is my honor to stand here before you today to nominate for his third term as Speaker of the House, my good friend, Roger Hanshaw. Roger is a man of great conviction. He is a man of faith. He is a man who is committed to his family. He is probably one of the most disciplined men I have ever seen, and he is a servant. I have never seen Roger Hanshaw ask anyone to do anything that he is not willing to do himself. That is leadership. He is humble. He doesn't boast about his status or his accomplishments, although he could. But he is more interested in boasting about our status and our accomplishments. He is a man of vision.

I was in the House when Roger was first elected. From the moment he assumed the role, he took control and he worked hard, and he worked diligently. I believe the evidence to support that speaks for itself and I just want to go through some of these things that we have done under Roger Hanshaw's leadership. He has presided over the first GOP redistricting since the Great Depression. He is continually leading this body the issues of life and liberty. Under Roger's leadership we have eliminated abortion in West Virginia. We have protected constitutional carries. We have seen significant justice reform. Speaker Hanshaw's leadership has brought about nearly six pages, let that sink in, six pages of, six pages excuse me, of legislation to combat substance abuse in West Virginia. Seventeen million dollars in funding foster care and its reform and capping copays on insulin, but we're not finished yet. We've got a long way to go and the leadership that Roger Hanshaw offers this body will take us to the next level. His leadership has paved the way through historic infrastructure improvements. We passed the road bond issue, or the road bond. Now I have heard it say. I have heard it said that someone else did that, be very certain that this body passed that. No tax increases during the 60-day session under his watch for the past four years. We slashed regulations and we have maintained a flat line budget for the past four years. That is quite a legacy. He is the voice of reason. Roger Hanshaw is not afraid to reach across the aisle and work. He is an example of what that means, and I am proud of that.

In closing I just want to do this, I read this some other time so some of you have heard this, but I think it is important to say it again. Let's chat some boxes here today. Roger Hanshaw inspires others. I am a better man today because of Roger Hanshaw. Roger Hanshaw recognizes success. Roger Hanshaw demonstrates integrity. Roger Hanshaw communicates decisively, and he shares his vision. Ladies and gentlemen, in closing it is my honor and my privilege to nominate Roger Hanshaw to his third term as Speaker of the West Virginia House of Delegates. Thank you.

\* \* \* \* \* \* \* \*

The nomination of Delegate Hanshaw was seconded by the Honorable John Hardy from the 97<sup>th</sup> Delegate District, with the following remarks:

DELEGATE HARDY. Thank you all very much. I stand today to second the nomination of Roger Hanshaw for the Speaker of the House of Delegates for the 86<sup>th</sup> Legislature. If I am a little out of sorts here, I've only been preparing for this for about 35 minutes. Our colleague Pat McGeehan is sick today

and is not able to perform this so I was asked to do this and in haste I have put this together and reached out to Delegate McGeehan for a few words he would like me to share with you guys too.

So, with that being said, I have known and serve Roger, uh, Speaker Hanshaw for the past four years and I have watched him navigate this body through some unprecedented times and be very successful at it. I have never met someone more qualified or more suited for this job. Roger is very giving of his time. He loves to share his successes and our successes we do all this together we are a team we are one. He always makes sure we work as a team, and we share their successes as a team.

Under Speaker Hanshaw's leadership we have been successful moving West Virginia forward towards a more diverse 21<sup>st</sup> economy. Some of those accomplishments are and I am going to repeat some of the things that my good friend Delegate Kelly said but we have worked to right size government. We have worked very hard in this chamber to control government spending. We have also worked for transparency in government to see where the money is spent and how the money is spent. We have maintained a flat budget for the last four years. We have protected the 2<sup>nd</sup> Amendment Rights, protected the rights of the unborn and we have expanded school choice and we have expanded the economic growth of the state. All of this is underneath the leadership of Roger Hanshaw, and it is my honor and privilege to be the seconding nomination for his term as Speaker of the House.

I want to read a quote by Cirus it says, "Anyone can steer a ship and calm waters, but it takes a strong leader to navigate rough seas." Roger has definitely navigated us through some rough seas. I have a quote that Delegate McGeehan wanted me to read, and we know that Delegate McGeehan is quite a philosopher, and this doesn't really make sense to me but I'm sure it makes sense to Pat, and it may make sense to you guys, but I want to read this because Pat asked me to do it and he thought the Speaker would appreciate it. So, I am sure Pat, and the Speaker will understand this. "Tradition means giving a vote to most obscure of all classes, our ancestors. It is the democracy of the dead. Tradition refuses to submit to the small and arrogant oligarchs. Of those who merely happen to be walking about. All democrats object to men being disqualified by the ancient of birth. Tradition objects to being disqualified by the ancients of death. Democracy tells us not to neglect a good man's opinion but if he is our groom. Tradition asks us not to neglect a good man's opinion even if he is our father." It is my honor and privilege to second the nomination for Roger Hanshaw for Speaker of the House for the 86<sup>th</sup> Legislature. Thank you very much.

#### **MINORITY NOMINATION**

Delegate Griffith, from the 27<sup>th</sup> Delegate District, then nominated the Honorable Doug Skaff, the Delegate from the 57<sup>th</sup> Delegate District, as follows:

DELEGATE GRIFFITH. Thank you, Mr. Speaker, I am sorry about that. This ceremony that we do each time is somewhat predetermined. We know coming in here how we are going to vote generally and just ask Kevin McCarthy if it is just ceremonial. It is a time when we make a decision about how we are going to conduct our business and there are many great things to say about Delegate Hanshaw. He has been my friend and helpful to me.

I stand today to nominate the Delegate from the 51<sup>st</sup>, Doug Skaff. He loves and serves West Virginia. He has been not just a friend to me in our delegation, but I too have seen him reach across the aisle. One of the things I think about is I think about how our vote sometimes when we come here is unchanging. The one thing I can say about Doug, his love and devotion to West Virginia and this process is never unchanging. I ask therefore that you consider this. He is a person who both served and a graduate of West Virginia University with a couple of degrees in Labor Relations and also in Marketing and he received an honorary doctorate for public service. One of the things that struck me about that is that our public service is sometimes so public that we don't remember something that mother taught me and that is you do what is right in life for one reason only, because it is right, period. Not because anyone will notice, not because you'll get credit. Just do what is right.

Doug has helped me through my journey through the legislature and I know that while your vote may not be unchanging as I say, his support for West Virginia and his love for West Virginia is totally unchanging. So, I nominate Doug Skaff for Speaker of the House. Thank you. The nomination of Delegate Skaff was seconded by the Honorable Shawn Fluharty of the 5<sup>th</sup> Delegate District, with the following remarks:

DELEGATE FLUHARTY. Thank you. I was prepared to put together a laundry list of items related to Doug Skaff, but I was able to fit it all on this one little notebook, one little piece of notebook paper. You know, to know Doug is to like Doug.

If you know him, you like him. If you just read about him on social media, then you probably don't.

You know, what he brings to the table for this vote today is opportunity. We constantly talk about businesses coming to West Virginia and the opportunity that brings. So, why not have an actual businessman run this house. From small businesses to large businesses to overseeing over 200 plus employees Doug has done that. Doug understands that and Doug provides the leadership necessary to move this House forward.

It is easy to see why he has been so successful in his businesses. The guy is never in a bad mood. No matter what has been said about him. No matter what kind of day he is facing, he is never in a bad mood. At least he never shows it to the caucus or anybody at large even if he is. That is leadership. That is the leadership we need. You know the other day we were here for the Bill Gates event with Senator Manchin and Doug was parading through as he does. All these business leaders from throughout the state stopping and talking to him and after he got his microchip from Bill Gates he stopped and talked with everybody. You could just see the power that comes with him. Just being in his presence is a present itself. That is how it felt that the people there knew Doug, they like Doug, they want to be around him, they want to work with him which is want we want other states and businesses to do with West Virginia is to work with us. He provides that.

One thing he has done throughout his tenure in the legislature, which I believe is providing leadership is proving that he can evolve with the times. Evolving as a person, evolving as a leader in the state and evolving as a legislator is something we should all strive to do, and he has proven that he can do that. There is one thing I have learned while serving this legislature is that we can use some evolution here. We need to evolve a little bit, right? We want to move forward, be progressive in our thoughts and our acts not regressive in how we govern, and I've seen that in the past few years in this body and in this state. I will be voting to move our state forward and supporting my friend and leader Doug Skaff. Thank you.

#### \* \* \* \* \* \* \* \* \* \* \*

There being no further nominations, on motion of Delegate Kelly, nominations were closed.

Delegate-elect Hornbuckle then took the oath of office as prescribed by Section 16, Article VI of the Constitution of the State of West Virginia, which oath of office was administered by the Honorable Dan Greear, Chief Judge of the Intermediate Court of Appeals.

The question being the election of a Speaker, the Clerk then called the roll (**Roll No. 1**), the result of which was as follows:

Delegates voting for Delegate Hanshaw - 87, as follows:

Delegates voting for Delegate Skaff - 12, as follows:

Fluharty	Hansen	Pritt, E.	Walker
Garcia	Hanshaw	Pushkin	Williams
Griffith	Hornbuckle	Rowe	Young

The total number of votes cast was 99, of which the Honorable Roger Hanshaw of the 62<sup>nd</sup> Delegate District received 87, and the Honorable Doug Skaff of the 57<sup>th</sup> Delegate District received 12. The Presiding Officer declared that the Honorable Roger Hanshaw, having received the majority of the votes cast, was duly elected Speaker of the House of Delegates.

Whereupon,

The Presiding Officer appointed Delegates Kelly, Hardy and Skaff as a committee to escort the Speaker-elect to the Clerk's Desk.

Speaker-elect Hanshaw then took the oath of office as prescribed for the Speaker, which oath of office was administered by the Honorable Dan Greear, Chief Judge of the Intermediate Court of Appeals.

Delegate Skaff delivered the following remarks prior to presenting the Speaker to the House:

DELEGATE SKAFF. That was a close one. We won't need a recount that is for sure but no, in all seriousness before we officially turn this over to Speaker Hanshaw, our Speaker, I would like to say a few words. Thank you, Delegate Griffith for those kind words. Thank you, Delegate Fluharty for those words. If you haven't met Delegate Fluharty, you will get to know him real well pretty soon don't worry.

I will be brief. I wanted to say it is an honor and privilege to be here and stand next and work with Speaker Hanshaw. You will quickly realize that he wears it on his sleeve that he will do everything in his power and work tirelessly for every West Virginian can live, work and raise a family and be proud of where they are from. I have got a chance to meet and met him a long time ago in school but got a chance to travel the country, travel the country with your Speaker Hanshaw to tell the world and tell the nation and everybody we could from airport to airport and everything in between how great and special West Virginia is and it is because of people like you that he says we will literally move mountains to have you come here and invest in West Virginia, start your business here, have your east coast headquarters here, whatever it takes. But it is because we are ready, he says this "I don't care if it is a Democratic idea or Republican idea, I just want good ideas and we are going to work together put party politics aside to move West Virginia forward."

He means that. It is an honor to stand here today to be the first one to officially introduce someone who I not only call a friend, a colleague but a mentor and I am so excited to work for two more years under his leadership in the House of Delegates Speaker Roger Hanshaw.

#### At the conclusion of Delegate Skaff's remarks, the Speaker then addressed the House as follows:

MR. SPEAKER, MR. HANSHAW. Friends please be seated, please be seated. Thank you so very much. It was quite an honor in 2018 the very first time this body gave me the opportunity to occupy this podium, but I think it is a higher honor each time this body has given me that opportunity again since then and it is certainly a high honor today, so from the bottom of my heart, I do thank you for the opportunity.

The highest privilege is not to occupy the podium, but it is to occupy one of the 100 seats that we collectively share here in this house. As I said to our new members at orientation yesterday and as so many of you have heard me say before there are only 100 of us and there are 1.8 million West Virginians so it is an incredible honor for anyone, any of us to ever occupy a seat in this chamber and it is an honor and it is a privilege and it is a responsibility that we ought not ever take lightly because the decisions that we make literally change the lives for 1.8 million West Virginians, 1.8 million West Virginians depend on the decisions that we make here to provide for their families, to operate their businesses, to educate their children and to provide their atmosphere and an environment here in which families can grow and thrive and develop.

I said four years ago that it would be my priority as a Speaker of this House to make our state the best place we possibly could to live and work and raise a family and collectively we've been doing those things. This body, actions taken by this body have made it possible for over six billion dollars of investment to have been made in our state in the last five years. Those are decisions that we collectively made here together. Those are jobs that are paying above market wage, well above minimum wage jobs. We aren't talking about minimum wage jobs here ladies and gentlemen, we are talking about economy transforming jobs into communities across our state. We did that. We did that together. In that time, we have made decisions and taken steps that have protected the culture and values of our state that have made it an attractive place for those around the country who are choosing to leave the high-rise towers of Manhattan and Houston and Chicago and Los Angeles and seek new opportunities to come here to choose West Virginia as their home, as their destination. That is what I said last time, two years ago I said that it would be my priority then to make West Virginia the easy choice to make it easy to choose West Virginia and as the gentleman from the 57<sup>th</sup> district said, we have had that opportunity together, all of us. Many of us together have been travelling around the country talking about what it means to choose our state and

why it is the right choice to make, why the things we are doing together here in this body are the right choice for every other state and for every other person, every other family, every other company who might be looking to leave where they have been forever and come and choose West Virginia.

We want to double down on that. We want to continue that because there are things that we have done. There are things that we ought to be proud of, things we ought to be fiercely proud of as a state and there are things, we know we need to do. We have absolutely passed six pages of substance abuse prevention legislation in the past four years, but we still have far too many men and women, too many family members, too many friends and neighbors who are crippled and gripped by substance abuse addiction. We have too much work that remains to still be done there. We have invested hundreds of millions of dollars in economic development across our state. We have recruited over six billion dollars of new economic activity here but there are still too many West Virginians who struggle to provide for their families, who struggle to be able to earn a living wage to provide for their children at home. We have a lot more work to do there. We have invested billions of dollars in infrastructure in our state. That is undeniable and that is true and that is our job, we have done that and I'm proud that we have done it. Too many of us drive to work, too many of our children ride to school, on school busses that traverse roads and bridges and highways that are in some places are still unsafe and certainly where they are safe, they need greater attention. So, we have more work to do there, we have lots more work to do there. We have invested hundreds of millions of dollars in broadband connectivity around our state, we have connected homes and schools and businesses that never were connected to each other before, that were never connected to the world-wide market place beyond the borders of West Virginia, beyond our 1.8 million citizens, but we still have far too many homes, far too many small businesses, far too many communities that aren't able to access the educational opportunities, the market opportunities, the greater world beyond the borders of West Virginia. So, we have more work to do there in making sure that our citizens are fully connected.

We have done much to safeguard values that West Virginians hold dear. We have done much to maintain who we are as a culture, who we are as a people. But the responsibility of maintaining of what we have done and the responsibility of maintaining the quality of life in West Virginia and maintaining it is as a destination for those who are looking to leave Manhattan and Chicago and Houston and Los Angeles remain strong. That responsibility is ours; it is ours to bear. It needs to weigh on every decision that we make, it needs to weigh on every bill we introduce, it needs to weigh on every appropriation we make and every resolution we draft because, make no mistake, the world watches us. The world watches what we do. Not necessarily on our live streaming, live on television but the world watches what we do. We speak through our votes, we speak through our bills, we speak through our bills, we speak through our votes of companies elsewhere when we meet with those who are considering West Virginia as a place to make investment, as a place to come and employ our family members and our citizens they will speak often to us about the things we have done here in this body and the decisions we have made and why we have made decisions that we have and why we have chosen the direction we have as opposed to the alternatives.

I am very proud to say the work we have done here has helped put us on the right path to make it easier to choose West Virginia. We have a lot more opportunity ahead of us, we have a lot more responsibility on our shoulders now that what we have done has been working, we simply now need to keep our foot on the accelerator. I am deeply honored for the opportunity you have given me today to continue to lead this House for the next two years. It is the highest honor of my professional lifetime. Thank you very much.

The Speaker then assumed the Chair.

#### **ELECTION OF CLERK**

The next order of business being the election of the Clerk, the Speaker stated that nominations were now in order.

Delegate Fast, a Delegate from the 51<sup>st</sup> District, nominated Stephen J. Harrison, of the County of Kanawha, as follows:

DELEGATE FAST. Thank you, Mr. Speaker. Ladies and gentlemen, it is my honor and pleasure to nominate Stephen J. Harrison for Clerk of the West Virginia House of Delegates-86<sup>th</sup> Legislature. Stephen was elected to his fourth two-year term as Clerk in 2021. Prior to being elected to Clerk of this body, he served as a member of the West Virginia House of Delegates from 1992 through 2002. In 2002, he was elected to the West Virginia State Senate serving in that body until 2006 when he did not seek re-election.

Stephen Harrison is a graduate of Sissonville High School and Brown University. At Brown he was selected District I Academic All-American in football and graduated with a triple concentration in Economics, Political Science and Organizational Behavior and Management. He played in the Epson Ivy Bowl in Japan as a member of the Ivy All Stars.

He worked in the banking industry for more than 24 years until he resigned his position as a Poca Valley Bank Vice-President before being elected to the 23<sup>rd</sup> Clerk...as the 23<sup>rd</sup> Clerk of the West Virginia House of Delegates.

Stephen is a devoted husband to his wife Kristen having been married to her for more than 30 years. Stephen and Kristen are the parents of their 12-year-old twins Benjamin and Maggie. Stephen Harrison is a principled man and a solid Christian.

He knows his job and he knows it well. As Clerk of the House of Delegates he holds a wealth of knowledge, experience, and information. He is the go-to person if you have a question regarding House policy or rules. He is so important to the West Virginia House of Delegates process. Ladies and gentlemen, it is my distinct honor to nominate Stephen J. Harrison for Clerk of the West Virginia House of Delegates-86<sup>th</sup> Legislature. Thank you.

The nomination for Clerk was seconded by Delegate Ferrell of the 60<sup>th</sup> Delegate District, with the following remarks:

DELEGATE FERRELL. Ladies and gentlemen, it is my honor to nominate Stephen J. Harrison for position of Clerk for the House of Delegates and after Delegate Fast just spoke, I mean he covered a lot of things there, but I am going to come at it from a different angle because I am not sure there is anybody in this Chamber that has known Stephen J. Harrison longer than I have.

We grew up together in Sissonville and, you know, you get to know somebody over a period of time when you see them outside of this Chamber, their actions and things. His family, he is a person, their position in the community, what they have done for our community, the church that they attend, is just remarkable. They are leaders, they are people...and he grew up in a family like that. He went on as mentioned to Sissonville High School where he was a standout academic athlete and then went on to Brown University where he earned triple degrees, come back worked in the banking industry, was president of the bank there in Sissonville where he helped our community in many, many ways. I served on the advisory board with him there.

He is just...again he served as our Delegate there, he was my Delegate, he was my Senator and now he serves here as the Clerk of the House of Delegates and as mentioned before, as mentioned earlier about you've never seen the person in a bad mood. I am not sure anybody in here could say they have seen Steve Harrison in a bad mood in anything. You go there, he's attentive to get...take care of your needs whatever they be and do that in professional fashion.

But more than anything I want to speak to his integrity. The man as I know, like I said, from his upbringing, through school and now serving as a professional you will not find anybody with any more integrity, his Christian values, his position as a father and a husband as mentioned. He is just a good person and we have seen here, those of you that have been here and are returning to this position you already know, and those of you that are coming in let me tell you, you've got I think one of the best United States' Clerks serving the House of Delegates. Again, I nominate Stephen J. Harrison for Clerk of the House of Delegates for the State of West Virginia.

On motions of Delegate Fast, nominations were closed, and the Honorable Stephen J. Harrison of the County of Kanawha was elected Clerk of the House by acclamation.

Mr. Harrison then took the oath of office as prescribed for the Clerk, which oath of office was administered by the Honorable Dan Greear, Chief Judge of the Intermediate Court of Appeals.

#### **ELECTION OF SERGEANT-AT-ARMS**

The next order of business being the election of Sergeant-at-Arms, nominations were now in order.

Delegate Cooper, the Delegate from the 40<sup>th</sup> Delegate District, nominated Marshall Clay of the County of Fayette, as follows:

DELEGATE COOPER. It is my honor and privilege to place the name of Marshall Clay into the nomination of Sergeant at Arms in this great hall. Marshall has five plus years of experience already in the job and he has demonstrated time and time again his dedication to this state and to this institution called the West Virginia Legislature over and over. Marshall before he came here, before he became involved in the Legislature over 14 years ago I think it has been, he was a member of the US Military, he is a retired Navy Chief Petty Officer, and his dedication still lingers with him today to serve and to serve well.

If any of you have been here and watched the proceedings around here, you don't see Marshall move too fast, but it seems like we don't have much of a commotion going on even when there is a great commotion maybe out in the hall. It seems like Marshall just very quietly in a very dedicated and smooth manner gets things done. Over where I sit, I look over where I sit and if there is someone up there wearing a hat or something or doing something that doesn't follow our rules Marshall doesn't make a big deal out of it, he just goes fixes it and walks away. That is a good reason to have him continue in his service to us.

Finally, as a Navy Veteran, Marshall knows the difference between a sea story and a fairy tale, and he will have to explain that to you. But I can guarantee you he knows the difference between a sea story and a fairy tale. I am again, very honored to place his name in nomination for this position. I believe we will be very proud of how well he serves us in the next two years. Thank you, Mr. Speaker.

The nomination was seconded by Delegate Miller of the 90<sup>th</sup> Delegate District, with the following remarks:

DELEGATE MILLER. Mr. Speaker, Mr. Harrison, Mr. Billings, fellow Delegates, I stand here today to second the nomination for Marshall Clay. He is a man of integrity, honesty and he is a veteran of the Navy, a retired veteran of the Navy I should say. So, with that I would be honored that the House accept this nomination, Marshall Clay. Thank you....as Sergeant at Arms.

On motion of Delegate Cooper, nominations were closed and the Honorable Marshall Clay of the County of Fayette, was elected Sergeant-at-Arms by acclamation.

Mr. Clay then took the oath of office as prescribed for the Sergeant-at-Arms, which oath of office was administered by the Honorable Dan Greear, Chief Judge of the Intermediate Court of Appeals.

#### **ELECTION OF DOORKEEPER**

The next order of business being the election of Doorkeeper, nominations were now in order.

Delegate Ellington, the Delegate from the 38<sup>th</sup> Delegate District, nominated Robert Stewart of the County of Kanawha, as follows:

DELEGATE ELLINGTON. Thank you, Mr. Speaker, and congratulations. Ladies and gentlemen, I have the distinct honor and privilege to nominate a gentleman for the office of House Doorkeeper. I would like to share a little bit of history and a little bit of humor with that. This is a gentleman that has been raised in, born, and raised in Kentucky. He is a family man, married for the past 40 years to his bride Tressa. They have a legacy of six children, 26 grandchildren and eight great grandchildren. He has also demonstrated loyalty and a work ethic by working in the private sector for over 36 years at

PraxAir. He has honored our country and served in the United States Army at the rank of Sergeant previously. He has also served this Chamber over the past several years.

Now please forgive me if I embellish or even exaggerate some of his accomplishments but it has been known and the stories have been told over the years that this gentleman has been known to tackle members trying to barge through the chamber doors at the moment of our prayer and pledge to our God and country. There have been numerous attempts in the still night where he has thwarted efforts by ninjas trying to destroy our beautiful voting block of course past years we have had couple of times he was asleep at the wheel, but nobody is perfect. There have been efforts if you have noticed in the past recent summer during special session where he and his colleagues have protected our chamber, our members and our public from unruly protestors dropping bombs on our members over the summer.

Kidding aside, this gentleman has demonstrated a lot of honor, integrity, he is one of those unsung heroes in our chamber and I am deeply honored to endorse him and nominate him for the House Doorkeeper. He is the man, the present the legend and the Doorkeeper, Mr. Robert Stewart and I hope you all join me in nominating him. Thank you.

The nomination was seconded by Delegate Westfall of the 16<sup>th</sup> Delegate District, with the following remarks:

DELEGATE WESTFALL. Thank you Mr. Speaker. It is my honor and privilege to second the nomination for Robert Stewart for Doorkeeper for the 86<sup>th</sup> Legislature. Robert has been Doorkeeper since 2019 Legislature. You would think sometimes wow we need a doorkeeper, but you all new ones will find out soon we do need doorkeepers to keep rule. Robert is not a lifetime West Virginian. He chose West Virginia, he is from Kentucky like Chairman Ellington said but he chose West Virginia to be his home. He is a Kanawha County resident. It is my honor and privilege to second the nomination for Robert Stewart as doorkeeper.

On motion of Delegate Ellington, nominations were closed and the Honorable Robert Stewart of the County of Kanawha, was elected Doorkeeper by acclamation.

Mr. Stewart then took the oath of office as prescribed for the Doorkeeper, which oath of office was administered by the Honorable Dan Greear, Chief Judge of the Intermediate Court of Appeals.

#### Address by the Governor

#### \*\*\*\*\*\*\*

GOVERNOR JUSTICE. Okay, we've got a lot to talk about tonight. The first thing that I want to be sure that we're talking about, right off the get go is just this. I was early getting here tonight. Pretty good stuff. Now, think about this. We're honoring a great man, Bob Kiss. I got to tell you this is, full confession.

Literally, I was at the mansion. The last time I'd seen my speech, Cathy had it, and all of a sudden, I get over here and nobody's got it. And if we hadn't honored Bob Kiss, you would have been sitting waiting on me a long time. And so literally, it's an honor beyond belief to be with you. And there's so much, so much good going on in this state right now. It's hard. It's hard to get it all in. That's just all there is to it. Now, with all that being said, I've got to do this. I've got to say one thing. You know, Mr. Speaker, and Mr. President, Baby Dog says she's really sorry she couldn't make it tonight. But she's gonna get a tub of popcorn and watch it on TV. But thank you so much in every way.

And I absolutely if I could just say this. It is an incredible day to be a West Virginian. You know, I like to always honor our First Lady, my daughter Jill is with her. And my son and his and our daughter in law. Jay and Catherine. Catherine had a little bit of a blood pressure issue today and, and so they kind of bowed out. But nevertheless, thank you all so much for all you do all the time.

Now, I'm telling y'all, if y'all do all this clapping don't blame it on me how long we'll be here. Really appreciate that and, I've got to tell you just this girl just had us another grandbaby. A beautiful little granddaughter. Yes, not very long ago at all. Probably what, six weeks? Okay. And her husband Adam, who is a wonderful son in law, is now at home with three kids. Nevertheless, you know, a great family and, and just I'm so blessed. As always to just blessed beyond belief

If I could go through my Cabinet and I will go through quickly and hold your applause and then we'll get you to the end. But we have a new Cabinet Secretary for DHHR Dr. Jeff Coben, a new Secretary of Commerce James Bailey, our Secretary of Administration is Mark Scott, our Secretary of Homeland Security is Jeff Sandy, Secretary of Revenue Dave Hardy, our Secretary of Transportation Jimmy Wriston, our Secretary of Veterans Assistance Ted Diaz, our Secretary of Economic Development Mitch Carmichael, the Secretary of Arts, Culture, and History of this great state Randall Reid-Smith, our Secretary of Tourism Chelsea Ruby is not with us tonight because there's a good chance she's having a baby right as we speak now, but if not, it will be here very, very soon and the other person that is not here with us tonight is Harold Ward our Secretary of DEP and Harold is doing a phenomenal job. Now you can give them a great round of applause.

We have our wonderful, wonderful Supreme Court of Appeals. With us tonight is Chief Justice Beth Walker. Justice John Hutchinson, Justice Haley Bunn, Justice Tim Armstead, and Justice Bill Wooton, thank you so much.

Now our Constitutional Officers, Attorney General Patrick Morrisey, our State Auditor J.B. McCuskey, our Secretary of State Mac Warner, our Commissioner of Agriculture Kent Leonhardt, our State Treasurer Riley Moore, and our State Superintendent of Schools David Roach.

We have, we have a beautiful young lady from our congressional delegation and that is our great Senator Shelley Moore.

Okay, we now have our Adjutant General of the West Virginia National Guard Brigadier General Bill Crane, and I don't know where Bill is wherever he is, you've got to cheer for him. That's our Command Sergeant Major James Jones and he's I think with our General. We have the Chancellor Higher Ed, you know, Sarah Tucker is with us tonight. We have our Commissioner of the Bureau for Senior Services Robert Roswell. Well, I'm gonna, let me get through these. We have our Director of the Herbert Henderson Office of Minority Affairs Jill Upson. And we have our WVU University President Gordon Gee, Marshall President Brad Smith and members of their staff. So now clap for them.

We have our COVID team. You just think about these people. These people literally never really took a dime, hardly. Didn't do anything but work, didn't have a playbook, didn't have anything to go by. And absolutely have guided us in every way imaginable. And a heck of a job they've done. Dr. Clay Marsh, General Hoyer, doctor Dr. Amjad, now Dr. Christiansen, and our Secretary Crouch and Dr. Coben, please give them a round of applause.

Okay, this is the seventh time I've been here in front of you. I can't, I can't imagine that time can go that quickly. You know, the first year I jumped all around and put things on whiteboards and did everything and I sweated like a dog the entire time. Absolutely. At that time, this state was in tough, tough shape, and you all knew it, and everything. We didn't really know where we're going or where to turn. And today is a bright day. You know, through that time, I would tell you just this I won't be your governor a whole lot longer. But I surely won't go away. You know, in fact, you're probably either be able to find me at home or you may find me in Washington. But one of the two places I'll be, and I'll be, I'll try to watch as best I can and help as best I can. No matter what I'm doing in every single way. I will try to help continue to perpetuate this goodness that we've got going on right this minute.

So, if I could just add just this, if I could give you my best wisdom today and before we get into the nitty gritty of everything else. My best wisdom of the day would be just this: try as best you can to not want anything for yourself. Literally. This is an honor, beyond all comprehension. For every last one of you, do what our forefathers did, and did so admirably. They served, first and foremost they served, please don't put self in front of that. Always try to do what your voters and constituents are asking you to do. At the end of the day, we're here to do their work. We're here to do the people's wishes. Please remember that. And please try as best you can to not get in your own way. If there's ever a time in life right now, ever a time when we could get in our own way, it's right now.

#### JOURNAL OF THE

Think about this. I tell people all the time you know we've been in the ag business forever. And I have honestly probably harvested a million acres of corn myself. I probably have planted hundreds of thousands of acres. When did you always, always lose grain? It's when the harvest was plentiful. That's when you lost grain. When there was almost nothing there and it was a bad year, of drought or whatever, you never lost anything. Because you'd have to get every single grain. When things are wonderful as they are right now, we've got to be careful. And we've got to be prudent. We'll throw a lot of grain on the ground, and we'll never touch it.

You know, I want to tell you just this. You hear me say this all the time. I don't care if you're Republican or Democrat or Independent. Really what I'm really saying is just this, in my heart, I am dad-gum proud that I'm a Republican. But with all that, because I truly believe in very, very conservative values. I watch what's going on on this national scene right now with our President, and what's going on in DC, and for God's sakes, there can't be a rational human that thinks what's going on is right.

There's no way. So, for that, I couldn't be more proud to be a Republican but I would just warn you and just tell you just this. In this great state. There's enough people on the outside wanting to throw rocks at us and they have forever. They beat us down. They've made us feel like "you should know your place." In the race with Mississippi all the time. Who's going to be dead last? And we're not, we're not that now.

Now there's jealousy. Because now, all of a sudden, we're the diamond in the rough they missed. Really be proud of who you are. Be proud that you may be a Republican or a Democrat or an Independent, for God's sake, live and work together and try to help one another for the betterment of all in this great state.

Now, we got lots to talk about and I promise I will go as quickly as I possibly can go. There are so many exciting things. If we reflect back on the past just a second, and we were fair, we would say not many, many years ago we didn't have anywhere to turn. You can say what you want, but I'm a business guy and I got there. And with all of that, you know I can even go back further and further and further. Imagine this and I'm not casting rocks like I just said I wouldn't do but there was a time, believe it or not, that we cut a ribbon and celebrated a Taco Bell opening in downtown Charleston.

Think about what we're doing today. Think about the stuff that's going on today in this great state. You know, how did all this goodness happen? I believe with all my soul first and foremost it happened because of God above. I believe that with all in me. There's no way that any of us could have been smart enough to have written or written all this down and figured all this out. He wants us to work hard, and He wants us to do our job. But I believe He is guiding this incredible state every single step of the way.

We had to change our image. We had to make simple moves on the board in education. I mean, who in the world came up with the idea of grading our schools A through F? Think about this marketing plan. We're going to put them on a bell curve, and we'll have some "A's" and we're gonna have some "F's" and in the middle, we're gonna have a lot of "C's". So, here's what we can do. We can go out and tell the world "Come to West Virginia, most of our schools are C's." How's that gonna work? We got rid of it. Literally, at the end of the day, we got a lot still to do in education, but we made a commitment to move it to the front and let it be our centerpiece.

Everybody that comes, that wants to come to West Virginia says how are your schools and how are your roads? It's just that simple all the time. We did a Roads to Prosperity program that created jobs and we were awarded and looked after and tried to appreciate our veterans. And then we let tourism explode right behind that. We diversified and we absolutely got on our way.

And then along came COVID and the cannonball hit us right dead in the stomach. And we then could have done what has happened in the past and, really, what those on the outside would have expected us to do, go to 50 again, you maybe had a blip on the screen but go back to 50th again.

We didn't do it, did we? We've dug in and shown exactly what our mettle is all about. And lo and behold, here we go. Now, I would say with all in me "Who would have thunk it?" Who would have ever thunk it?

Today in West Virginia, you'd have some processes that are so large, it's unbelievable. You would have Fortune 500, Fortune 100, whatever, companies that are coming to West Virginia, over and over and over. The roads are getting repaired everywhere. We're working on the water and sewer projects as fast as we possibly can. And they and we are that diamond. Now, get this, in 2022 alone, just think about this. We had 29 companies invest \$6.19 billion in West Virginia. Now, absolutely get this. They brought us 3,300 new jobs and preserved 3,100 jobs. You know they gave us the opportunity to compete on a world stage. It is unbelievable the value of what we did and putting money aside in this impact development projects to bring more and more folks here. I'm gonna read a list of folks and I want you to stand please and let's absolutely let this great body absolutely cheer and honor you.

Tonight, I am creating a different, you know we have a Distinguished West Virginian. But I don't know that we really have anything that is as honorable as a Distinguished West Virginian for our businesses. Tonight, I am creating the Business Knights of West Virginia. And what I want to do is let these great folks when I read their names be our first inductees. Then I'll reveal the name of a couple more folks that are coming to West Virginia. And then you know what I want to do? I want to go back and every single business in this state that contributes and helps in any way, I want them to, everyone be one of Business Knights of this state and we will send them a certificate they put it up on their wall. And then I'm going to ask of them one thing — is just as simple as this. I'm going to ask them to help all of us to absolutely perpetuate this great, great, great message of West Virginia.

Absolutely our new business knights and tonight our first inductees that I'm gonna go through you know from Berkshire Hathaway, Alicia Knapp, and if she can stand, I'm going to read through all of them and then we're gonna clap for Alicia and all y'all. From Precision Castparts, Steve Wright, from Hope Gas, Morgan O'Brien, from FORM Energy, Mateo Jamarillo, from Mountaintop Beverage, Jeff Sokal, from Omnis, Richard Kingan, from Veloxint, Brian Joseph, from Pure Watercraft, Dennis Frioni. From Commercial Metals, I don't have, I don't have the name from Commercial Metals, from Papier-Mettler, and there's not a representative from them, and from Klöckner, and there's not a representative from them. But if you could join me, just think, just think, when every single bit of this absolutely is done, think what you have done. Think what you have created. Forevermore you have created our grandchildren's jobs. That's what you have done. You have created the fact that over and over and over Edith and Toby wanted to have a picnic and they want their grandkids to be here. And they're in Charlotte or Denver or Atlanta and now, now they're going to be in West Virginia. So please thank y'all so much. Thank you so, so much.

Well, just in the last little while, two more have come. TCL, which are based in India and is a chemical plant within Covestro plant that's in Marshall County. They're going to spend \$150 million and create 50 jobs, making any ingredients that are found in food. The TCL Chairman, another new Knight of West Virginia, is with us right now. It's Mr. Parthasarsthy, if you can really give him a great round of applause.

CMI2 is with us tonight. You know I don't know if it's CM One Two or CM12. But CMI2, tonight I'm proud to announce that the Civil Military Innovation Institute, CMI2, based in Morgantown has stood up as a one-of-a-kind military capability that is coming and operating and going to operate in Clay County. It is un-flat-believable what they're going to provide, 50 jobs. CMI2 has been awarded \$100 million in a new contract from the defense people and literally they're promising more and more and more to come. And, and boy Zenovy Wowczuk is with us tonight. And if you could stand, please.

You know, there's been, there's been an awful lot. People never would have believed that West Virginia could have diversified. People never would have believed that you know, really a coal guy would welcome with open arms, you know, alternative sources or alternative energies. I'm a real believer. I'm a real believer that West Virginia needs to welcome all. There's been many green and niche components to this admission initiative, but I want you to remember just one thing, and I know you will forevermore. Our coal, oil and gas folks today are supplying to West Virginia in this year or in years past, \$891 million of severance income to this great state. They get up every day and get their dinner bucket and go. People are in 7000 feet underground and 32 inches of coal and can't sit up all day long.

And they do it for their families. And they do it for this nation. They do it for this great state and they do it for all of us. Never, never will I, and never should you ever forget the great work that the coal miners have done, the great work the gas workers do, and the oil workers in this great state. Never turn your back on the greatness of our natural resources. Thank you so much.

We will kind of keep moving here, okay? In regard to our budget, we again are going to have a budget presented by me that is relatively flat. You see, I don't believe in using the rainy-day fund to bail me out. I want to mind the store. Absolutely. I want to do with Right. Absolutely. From the business guys' standpoint.

You know, we have funded projects out of surplus, one-time projects, we have not built base hardly at all. We have really looked after the store and we expect, and we should, return on investment. With all that being said. Absolutely. Before I go further, I want to just say just this, but our retirees, we've gotten a lot of them, we haven't really necessarily forgotten them, but today with inflation with what it's at, imagine this. What I am proposing, two things, but for folks over 70 years of age that worked for us for 25 years, we have a minimum salary that would that they'll receive of \$1,000 really and truly, surely not much of nothing. And at the end of the day, I want to do a one-time bonus payment to them for \$1,500. And I want you to work as hard as you can knowing that whatever you come up with, I'll be right. But many, many times we get running really, really fast. And we forget to please honor and help that wisdom.

Now, from the start, from the standpoint, I promised along the way, I promised, you know, that I would send a bill up in regard to the elimination of your car tax. You know, I said to Bill, I've done exactly what I promised, you know that I would just just, you gotta listen to me on this one. There's lots and lots and lots of things we can do. That if we want at this moment in time to grow the state of West Virginia, we're going to have to aggressively look at our personal income tax. It is an opportunity right now. Like none of us could ever imagine. This thing, we have the opportunity to do something that is monumental right at this moment.

Now with all that being said, all you gotta do is look at the publications, no matter what they may be, and they will all tell you the states that are on a pathway to getting rid of their personal income tax or really aggressively doing something, those states are winning the day. You got to know that you have to know that. A lot of people will say "well, we don't have an ocean." You know, but we don't fry eggs on the street in the summertime. Literally we have been blessed with the four greatest seasons on the planet. Forever, the very best people who have the greatest location or within a rock throw two thirds of the population in this country. We abound in natural resources like crazy and all I would say to you, and I know I will get in trouble saying this, who in the world wants to move to South Dakota? I mean, literally just a few days ago when it got as cold as it was here. If you'd had been in South Dakota, you'd have been a South Dakota-sickle. You would. So, at the end of the day, just think how we're positioned.

You know, we're positioned in the absolute sweetest spot that we could possibly be. Now way up in the back you've got our Senate President, President Blair, and you've got our Speaker of the House, Speaker Hanshaw. And I've listened to them. I really have. They have said over and over and over that what we need to do in regard to the PIT is they wanted to think, either don't do it or make a big splash. That's all there is to it. Either don't do it or make a big splash. So here comes me, cannonballing into the pool.

By God, I'll make a big splash I'll promise you that.

But tonight, I'm proposing our West Virginia tsunami that the world will hear in every single way. They'll hear from every rooftop in every way. A tsunami that does nothing but benefit all everyone. Tonight, I am proposing the biggest tax cut in the history of this state. I'm proposing a 50% reduction in our PIT across the board now.

This thing, just saying if we do this, it will take us three years to pull it off. But absolutely it is that aggressive pathway that will absolutely put unbelievable monies right back into all of our pockets. With all that being said, just think of this, for God's sakes, and just think of just this. Right off the getgo, 30% The first year 10% The next year 10% The next year and then and then we step back and just see, with all that being said, think of how much if I were to walk into you and say I'm going to put a billion dollars back into our economy tomorrow and the people spend it. What will be the multiplier effect will be six times or 10 times tomorrow? You will become your own stimulus package with zero growth. Now has to be absolutely the word weighing all across the world and people will come. People really come. I have listened to the Senate. I have listened to the House.

And absolutely now, I hope and pray that we will move and move quickly to just show the people just how serious we are in West Virginia. And the fact that they, they have pulled the rope with us

#### 2023]

forever and ever and ever. You just think of the decades when they were in that race with Mississippi. And literally those folks absolutely today are hurting at the grocery store. Or the gas pump or whatever it may be. And we need to step up and help our folks and literally get on a pathway of doing something that's unflappable. There's other business and there's other I budget items that I need to talk to you about.

Like I said, there's a bunch of this and I'm gonna go as quickly as I can but it is great stuff. You know, our hospitals are the lifeblood of all of our communities are they not? And literally like it or not like it but you know when they take a PEIA patient in and everything a lot of times it becomes a burden rather than a plus. We need to help them out. And so tonight, you know, I'm wanting us to put \$40 million into an adjustment for the local hospitals and absolutely help them in every way.

On top of all that, we have a school aid formula increase of \$35 million that I want to put in, and I can say this for the first time, forevermore, we are beginning, we're beginning to absolutely grow enrollment. The school aid the school aid situation is really designed for first grade aids to first grade teachers. And I think the exact amount is probably \$37 million. And we'll start there.

We need our kids to be better educated. There's no question whatsoever about that. Absolute, you know, our Speaker, you know, because he campaigned this effort and he thought his effort was really good. And so, do I.

The other thing I want to do is just this all of us in here, I mean, all of us can leave here and go to Wendy's and hang out. We can. Baby Dog would love that.

And, and absolutely, but if you'll just step back and just think about it, the one thing that we should absolutely do, especially with us doing how well we're doing right now is put a stake in the sand to some way say we're going to stop hunger in West Virginia.

#### We need to do it.

I gotta tell you this, and I want I want to offer up for us to do the million dollars again to our big food banks. But I want to do one step more. Absolutely right behind that. There was a fellow that was my uncle. And I never would have thought of this in a million years, but I just did the other day. He was 94 years old and died about six months ago, maybe eight months ago now. I did the eulogy. At the funeral. He was one of 10 kids on my mom's side. At one time. Of course, they never had indoor plumbing at my grandparents' house that I went to every time. His name was Posey Perry.

And literally he was such an unassuming guy, a Christian beyond belief. That's all there is to it. Though most people looked up to Posey Perry, well he died. You know what he did, he worked in the coal mines his whole life. And then when he retired from the coal mines, he went to the food bank nearly every single solitary day.

I want us to set aside \$10 million in the Posey Perry Emergency Food Bank fund for all of our pantries or whomever it may be, can draw on that. And if at the end of the year we ended up with \$4 million, next year we'll put six. If we drain it, the next year I would propose we put back 10. Absolutely. That's what we need to do. We need to try with all in us to say, by God we're not going to have hungry people in West Virginia today.

I'm proposing with our ARPA dollars that have been sitting there a long time. I'm proposing with those dollars that are a total of \$677 million that we do with those dollars two things. We put \$500 million of those dollars aside for the economic enhancement or impact fund. We have now, and you see fruits, you see them. I mean we've now gotten to the place in time in West Virginia where we're competing. We're competing with others.

You see we could never do it before, could we? We couldn't ever, ever do it. But now we can compete. And now they want to come. And now we've got it going and those ARPA dollars to me, \$500 million goes there. \$177 million goes into a fund that Ann Urling has done marvelous work with all the water and sewer projects, and we keep them going on and on and on. That's my proposal in regard to that.

In regard to education, you know, like I said, we surely got rid of unnecessary testing and grades A through A through F stuff and all that. We now have programs that are out there like you know, grow your own pathway and we're making some inroads here and there.

There's a lot of good stuff going on in the classrooms. But absolutely, without any question we need to do one thing for absolute certain. We must ensure that schools have the responsibility to the students and the parents and not to a bunch of special interest groups. I believe that with all my soul. All of our parents deserve to know exactly what's going on in a classroom. Without any question, our parents have always known what the best is for their kids.

Tonight, I am proposing a bill to direct school systems to make all curriculum taught be available online where we can see every single thing that's being put into our little kids' heads.

We have to make our schools safer, don't we?

We've got school safety officer programs and everything and we're trying. We got to absolutely step up in any and every way we possibly can to try to absolutely be vigilant in every way. A tragedy like we've seen many, many times across this country could happen tomorrow in West Virginia. But absolutely with all in us, we have done everything that I know we can do. But we still need to do much more. To ensure that, absolutely, our kids when they come to school, they feel safe, and they feel happy.

Absolutely to keep competing and to keep working on all of this. I am absolutely proposing also for the fourth time. Now many of you may think, well gosh, why do we need to keep doing this and everything.

But really when it really boils down to it. We've got to be able to compete. I am proposing for the fourth time, a 5% pay raise to every one of our state workers. We can afford to do this. And absolutely I think it gives us the opportunity to attract better and better and better.

At the same time our PEIA fund is going to get upside down and get upside down really quick. I want to put \$100 million back into our PEIA fund and give every state worker a 5% pay raise.

Let me tell you about HOPE Scholarship, just one second. HOPE Scholarship and thank you guys, thank you guys for standing up for HOPE Scholarship. HOPE Scholarship gives choice. We should have choice. There's no question we should have choice. And as it continues to grow, why in the world do we need to hit these brick walls? You know what I want to do is bucket \$15 million for the thousands of families that can absolutely select choice and take advantage of the HOPE Scholarship.

I want to put \$75 million in higher ed to work on deferred maintenance. We've let it go too long. A building is about to fall down. Many many, many situations we've got to do something to help there.

A bunch of you, the majority undoubtedly here, a bunch of you as I we're so thankful by the reversal of how Roe v Wade was overturned.

I promised you and you did your job. You did your job. You absolutely vetted and took your time. You absolutely finally brought me a bill I promised you. I promised you the very second you brought me a bill I'd sign it. I did exactly that. And I did that very proudly. And I would tell you and I don't tell you this to grandstand, because I don't believe in that in any way. As long as I'm your governor, I will stand with life, period.

Additionally, I'm proposing that we take care of the moms.

This could very well expand. But I am proposing \$1 million is going to go into the child pregnancy centers to make things better, and make things safer, and will help us in many ways there as well.

Ok, you know we came up with the nursing program, the Governor's Nursing Workforce Expansion Initiative. We put \$48 million in it.

At one point in time during the COVID situation we had 2,000 beds in this state that we couldn't staff. Think about it, 2,000 beds we couldn't staff.

Probably we lost a bunch of people because of it. We had to do something. We started this initiative and it absolutely knocked it out of the park. It is absolutely amazing what's going on.

And we're absolutely on the threshold of being able to pump out nurses and bring so much more goodness to West Virginia it's unbelievable.

I'll be asking you that we take an additional \$20 million to keep this super program really going. And a special, special thanks to all the schools that are making all that happen. Thank you so much.

The EMS situation is the same thing. We put \$10 million, actually \$11 million dollars in it. We were, we were struggling like crazy to find an EMS. We couldn't find anybody to go to work.

Think about this story. And I'll read this very quickly. This is a story from a fella and his name is Darrin Crosier. He works in the Kanawha County EMT. Now think about it he says, I'm so thankful to be a part of something like this. To see tax dollars for the betterment of West Virginians. We do this because we love West Virginia, and we love our communities. This training has helped me in so many ways. He gave me a career and great health benefits for myself, my wife and my three children. This has been very rewarding, and it taught me that I could learn again.

Unbelievable.

Really and truly, I am proposing that we put \$10 million into this fund and keep this thing going.

We have two wonderful people with us. We have our teacher of the year and our service personnel of the year Amber Nichols and Jessica Grose. They're here with us and where are they? Way to go!

They are from Eastwood Elementary in Morgantown and Hodgesville Elementary in Upshur County.

I gotta say something about this little lady sitting over here. Our First Lady started Communities in Schools. We started really in three counties: Berkeley, McDowell, Wyoming counties. It started out in nine schools and had 4,000 kids. Think about it. Today, they're in 38 counties, 208 schools and they are touching 91,000 kids.

Now, I'm telling you this and then you could believe it or not believe it. I don't blow smoke at anybody. Not at my daughter, not at my wife, not at you, not at anybody. I don't have time to do it. All I know to do is tell the truth as best I can possibly do it. I'm in the schools a lot. And I'm in the schools a lot. I coach and I'm proud of it.

I've been in the schools forevermore, and I'm telling you, and you can say what you want. I've never seen a program that works any better. It is unbelievable. You know, I want to read this just very quickly but a 17-year-old from Wheeling Park. This is her first year, you know. This is the first year of the program in Ohio County. The site coordinator noticed some irregular type things going on with this kid. Found out this kid was taking care of her granddad, a veteran. Literally, they got involved from the, from the community side. This is exactly what Communities in Schools does. They got involved and they were able to get the veteran benefits and they were able to help the kid and the kid is doing really, really, really well.

One other thing they have done is they absolutely started this initiative with therapy dogs. I gotta tell you this. Tonight, there's a lady with us, her name is Sarah Linger. She is the site coordinator for Lewis County High School. She has with her one of the therapy dogs and Baby Dog is majorly jealous right now. Sarah if you would stand.

Let me just read this to you for just one second.

Jasper does an outstanding job with students and with their emotions. He goes on to say once a student was very worked up and struggling. After spending a few minutes with Jasper, and we all

know that dogs will do this. Absolutely, the student calmed down and the student is doing better every day in school. Now, get this. At Pineville Elementary School, there's a dog there and its name is River. There is a student there that is severely handicapped and for all practical purposes non-verbal.

Now, think about it.

And for most of this I'm gonna have to go real slow, because I'll get big tears in my eyes about this because, honest to Pete, I love kids.

When asked, "How did you like River?" The student that was partially, or for all practical purposes nonverbal. The student exclaimed, "Best day ever!"

Cathy, thanks and all I can say is just keep it up.

We got lots and lots and lots more dogs that are growing. And, you know these dogs are expensive and everything. But there's lots of good stuff.

We want all 55 counties. And I think Cathy is on a pathway that's gonna happen and happen really soon, probably within this year. So, lots of good stuff there.

Let me jump to something that you know I've talked about before and its drugs.

We all know. It can cannibalize us. We have made a lot of inroads. But we absolutely know we still have lots to do. I can't say this anymore bluntly, because I don't know how to say it.

If you look at what's going on at our Southern border of this country, and you just think, you just think why are we tolerating this? Why in the world are we continuing to allow drugs to flow all across this great country? And thousands and thousands and thousands die.

Why are we doing that? I just plain don't get it.

But in West Virginia, just the other day, we had you know through Homeland Security or some other agency, I don't know exactly what it was. They seized some fentanyl and that, just that small amount, it was like six ounces. It would have been enough for a lethal dose for 90,000 people in West Virginia.

I don't know why in the world we continue on. It's a big problem.

We should absolutely continue to support and help and to try to help in every way our programs like Jobs and Hope or whatever it may be. That we should absolutely know we've got to all be in this.

Every last one of us has been touched by a terrible situation with drugs.

It hurts our state. It hurts our employment. It hurts us in every way. And I wish to God above we had some real live help, you know, from DC, in regard to this.

In regard to corrections, you know, we have many, many vacancies.

You know, last the last go round you came really close on locality pay.

Some of our bordering counties we have a 70% vacancy.

You got to address that. Please address the locality pay. Because we have absolutely, we have an obligation to take care of our prisoners. And we're going to awaken to something not very good there if we don't watch out.

DHHR, a hot button right now. That's all there is to it. You know you asked me to make it better. And absolutely I have brought in a team like you can't imagine. I can go into all kinds of specifics with you tonight.

But I can tell you, if you believe in what we did in COVID with Dr. Marsh and General Hoyer and literally now Dr. Coben. If you believe that, there's lots that we got to do, I want to listen to every one of your ideas. I want them to listen to your ideas. We all can do one thing. If we will do it. We can make it better. It didn't get in this mess over the last couple of years. This is a culmination of a problem that's been there many, many, many decades.

We can make it better. We need to listen to your ideas. You need to listen to ours. You need to absolutely bounce ideas off of Dr. Marsh and General Hoyer and Jeff Coben. Absolutely, I am as open minded as one could ever be. I've got to tell you this though. Welch Hospital in McDowell County.

And many of you probably have never been to Welch Hospital. I've been there many times. Welch Hospital is kind of in an area of the world that got left way, way, way behind. If I'm right about this McDowell County at one time had about 110,000 people in it. And now they got less than 10,000.

That hospital and everything has surely been tough going for everybody. That's all there is to it. It's been a drain on the state. It's been a drain on the county. It's been a drain in many, many directions.

Through the great work, again, of Clay Marsh, General Hoyer, Jeff Coben. They have now today, today. The McDowell County Commission took over the Welch Hospital and WVU is going to take over the Welch Hospital and bring to the coalfields down there absolutely a shining light. We got it off our backs and this is an absolute accomplishment by those guys. That could not have happened without those guys. Please give them a big round of applause because they've worked really hard.

Let me tell you this. We have with us tonight one of our CPS workers. Her name is Aimee Stevens.

Aimee's been with DHHR for eight years now. You got a story that's really neat. She walked in. She was a single mom. Walked into DHHR probably to sign up for benefits and found out the people that she was working with there, she liked them, and everything was all good. And lo and behold, one thing led to another, and then all of a sudden, she got off in trying to branch out into a new career of Social Work. She became one of our CPS workers.

And she's been at it for eight years. And Jeff Pack who was right with you not many years ago, oversees that for us. And Jeff reports that she is outstanding, beyond belief. So, where's Aimee, if she's here with us if she is staying? Right there she is. Please give her a great round of applause.

Okay, we've still got lots to do. There's no question whatsoever. These are just isolated things and there's so much to do. Please remember what I said about the wisdom. Remember what I said about respect, literally, let's work together with all of our ideas, and we'll solve it. We'll solve it or we'll make it a heck of a lot better.

Now, I would say just this. In this state we've got plus or minus 1,000 foster kids don't we. And a bunch of them don't have a home. We can go to Wendy's. And, absolutely Baby Dog can too. And we've got surpluses that are off the chart.

I'm challenging you right now. Find a way. Find a way to incentivize families to give these children a chance. A chance. They need it literally. I tell people all the time.

If you're not doing this, you should. Take time to get involved in some way in trying to help a kid.

The giver is always the winner. You will not believe what it will do in transforming your life.

These people need us, especially these wonderful kids.

Now if I could switch real quickly, to just this, our National Guard. Think about this. 250 in 2022 were overseas. 550 worked in the COVID response. 350 worked at 30 different hospitals. 300 worked in corrections for God's sakes a living they were even fighting fires. And then of all things they took helicopters when Andy Beshear called me and said, "Will you come and help?" I said you're dadgum right we'll come. We'll bring the best of the best and they went there and saved people's lives and there's terrible floods in Kentucky.

Please give our great National Guard an incredible round of applause.

I'm gonna get you up again right now. I'm sorry, but not really.

Our veterans. And you just think what they've given us. And we lost an absolute American hero beyond belief. Not long ago in Woody Williams, for those of you who didn't have the opportunity to be with him, you really missed something. He was un-flat believable. That's all there is to it.

He could have sat here right here tonight and delivered this ten times better than I could.

Absolutely. Somebody that believed in his heart. No, the Medal of Honor recipient. Absolutely somebody that believed in his heart to continue to do more and more and more for our Gold Star Families. And it continues on right now.

And tonight, Tracy Ross, what his daughter and Bryan Casey, Woody's grandson are with us and I don't know where they are either. Please, American hero, a hero beyond belief,

Okay, we're starting a program with not too much money. I think \$500,000 and we'll start with 100 and see where it takes us.

We're starting a program called Welcome Home program. We're gonna have a \$5,000 incentive to any veteran that wants to move back into West Virginia.

Really, with what all is going on right now. If we can get this VIP thing done, we're going to get every veteran that wants to come. And we will get veterans beyond belief and take absolutely their expertise and knowledge and make us all better.

So, this program is absolutely that I am proposing that we do this program one time and see what the results are. And then I hope and pray that we'll be able to expand it. When you stand this time, stretch just a little bit, because this is the seventh inning and I'm winding down.

Delegate Hornbuckle came to me the other day and Dr. Allan Letton. They want to do something at Marshall University and again, the size of the magnitude of this compared to all that's going on. Surely, we've got to step up in the African American community and try to help what in the world is wrong with us to not step up? They want a million dollars to go to Marshall University to be able to start the Center for Economic and Community Development in the African American community of Appalachia.

I don't, I don't know if they are with us. Well, I know Sean is somewhere, but nevertheless, Sean, if you'd stand, we'll give you a great big round of applause

Now. I gotta talk just about tourism and roads for just a second.

I mean, literally, whatever money you have. I don't care what it is. Put it in tourism.

It doesn't matter what it is. Whatever money you got, put it in tourism. You will instantaneously get a return on that money like you can't imagine that's all there is to it. It's happening everywhere all around us. Imagine these numbers. Imagine them. Last year travelers in West Virginia spent \$5 billion. \$5 billion travel guides all over the place. They're saying come to West Virginia. There's so much goodness going on in our parks and everywhere else under the sun. I could go on forever and ever in a day. You know, we spent \$150 million upgrading our parks and you can't even get a place in our park because we're all sold out for all practical purposes.

Shows all they make the world see just how good we really are. You remember, back in the beginning I told you about image. It is so, so important.

Literally we know how good we are. But the world didn't know.

And they absolutely know now. They're getting it.

I want to talk just a second about roads.

Imagine this in 2022. We did 115,745 miles of work.

Think about that. Think about it. In the last four years we've done 364,500 miles of work in West Virginia.

Roads got in really bad shape.

You say what you want but not very many years back. I said for God's sakes a livin and we can't even go to the convenience store because we tear a car all the pieces go into the convenience store. And today is saying the Nitro World War One Memorial Bridge is on its way. The Beckley Bluestone travel plazas are underway. All the Wheeling bridges are for all practical purposes done. The streets in Wheeling are getting done. The Coalfield Expressway is making unbelievable inroads. Corridor H is absolutely on a path to be done.

In many, many, many, many more.

There's lots and lots and lots of goodness in many places.

There's a fund to IIJA. I commend Harold Board and Jimmy Wriston for tapping into this. Harold did something that was first in the nation, to deploy the IIJA funding for oil and gas plug in 25 million and abandoned mine lands for 145 million. Harold is not with us tonight. But you can give him a big round of applause too.

Jimmy is watching after this and taking full advantage of the infrastructure investment and jobs act and there will be billions, billions of dollars flowing into West Virginia.

Now we're on the homestretch now. You won't have to listen to me very much longer.

The pandemic was really tough, wasn't it? No playbook. Through all that, and everything. Our labs and I'm hoping and praying that we do this because no governor should face this again.

Our labs have been on a burner but then shoved to the back burner and shoved to the back burner and shoved to the back burner over and over. Big ticket item. Very, very big-ticket item.

If there's ever a time that we can build a new consolidated lab and bring them all under one roof, and absolutely move into the century that we should be instead of the dark ages, we can do it now.

I'll never forget Vernon Criss. Just the other day he told me, he said, you know, our labs, in many ways reminded him of having two Dixie Cups and a string, to be able to communicate. Absolutely our labs can get us in a lot, a lot, a lot of trouble, and we need great labs to be able to respond.

The price tag to put them all together. And that's the state police forensic crime units. The Department of Agriculture, DHHR, the Office of the Chief Medical Examiner, DEP and Weights and Measures, the price tag, from what I know is \$250 million.

I'm proposing that we quit kicking this down the road and put \$125 million in this year \$125 million next year out of surplus and get it done.

From a standpoint of broadband, I want to just tell you just this, we announced a billion-dollar program with the Senate with the House with all of y'all.

The billion-dollar program on broadband wanted to test 200,000 homes and new businesses for businesses rather I'm proud to announce now we spent \$548 million dollars of that total investment so far, where we're halfway home. I know there's many, many, many, many of those dollars are still hooking up people and everything because they're not done. But absolutely I do believe by the time that I leave. We will have absolutely passed the billion dollars and that's good stuff.

Now, I'm gonna end with you on just this note. I am going to end with you that your responsibilities and my responsibility is a daunting task. There's no question. I mean it when I tell you I love you with all my heart.

Now I'll argue with you, but I'll be respectful to you in any way and in every way I possibly can be.

You have not only a daunting task, but you have a daunting opportunity right now, like nobody's business.

You got to listen, and you listen to me. You got to trust me on this.

The one thing I've done is I've run many, many, many businesses. I have created thousands and thousands of jobs. I can tell you opportunity flashes in your face. And if you don't grab it, that door closes. It's just as simple as that.

I would always remember without any doubt, you're here for Toby and Edith. You are. All of you are I am. In every way. You're here for our children. You're here for our seniors. You're here for our new and old residents and our new and old businesses as well.

You are here for all the generations to come. I mean this so profoundly I couldn't possibly say it any better than just this.

God bless each and every one of you for all you do, you give. You're away from your families. You're here 60 days. You work all the time. What you're compensated is next to nothing, for what you give.

And you should be loved, and you should be appreciated for it.

I would say an ending for all of us. God bless this incredible State of West Virginia. It is so wonderful. It is off the chart. And God bless this incredible country.

Thank you so much for having me. And God bless all of you.

Thank you. (APPLAUSE)
