CHAPTER 11. TAXATION.

ARTICLE 8. LEVIES.

§11-8-6f. Regular school board levy rate; creation and implementation of Growth County School Facilities Act; creation of Growth County School Facilities Act Fund.

(a) Notwithstanding any other provision of law except subsection (c) of this section, where any annual appraisal, triennial appraisal or general valuation of property would produce a statewide aggregate assessment that would cause an increase of two percent or more in the total property tax revenues that would be realized were the then current regular levy rates of the county boards of education to be imposed, the rate of levy for county boards of education shall be reduced uniformly statewide and proportionately for all classes of property for the forthcoming tax year so as to cause the rate of levy to produce no more than one hundred two percent of the previous year's projected statewide aggregate property tax revenues from extending the county board of education levy rate, unless subsection (b) of this section is complied with. The reduced
rates of levy shall be calculated in the following manner: (1) The total assessed value of each
class of property as it is defined by section five of this article for the assessment period just
concluded shall be reduced by deducting the total assessed value of newly created properties not
assessed in the previous year’s tax book for each class of property; (2) the resulting net assessed
value of Class I property shall be multiplied by .01; the value of Class II by .02; and the values of
Classes III and IV, each by .04; (3) total the current year’s property tax revenue resulting from
regular levies for the boards of education throughout this state and multiply the resulting sum by
one hundred two percent: Provided, That the one hundred two percent figure shall be increased
by the amount the boards of education’s increased levy provided for in subsection (b), section
eight, article one-c of this chapter; (4) divide the total regular levy tax revenues, thus increased in
subdivision (3) of this subsection, by the total weighted net assessed value as calculated in
subdivision (2) of this subsection and multiply the resulting product by one hundred; the resulting
number is the Class I regular levy rate, stated as cents-per-one hundred dollars of assessed
value; and (5) the Class II rate is two times the Class I rate; Classes III and IV, four times the
Class I rate as calculated in the preceding subdivision.

An additional appraisal or valuation due to new construction or improvements, including
beginning recovery of natural resources, to existing real property or newly acquired personal
property shall not be an annual appraisal or general valuation within the meaning of this section,
nor shall the assessed value of the improvements be included in calculating the new tax levy for
purposes of this section. Special levies shall not be included in any calculations under this section.

(b) After conducting a public hearing, the Legislature may, by act, increase the rate above
the reduced rate required in subsection (a) of this section if an increase is determined to be
necessary.

(c) Beginning with the 2021 fiscal year and the 2020 tax year, subsections (a) and (b) of
this code shall expire and the regular levy rates for the county boards of education shall be the
following: (1) For Class I property, 19.4 cents per $100; (2) for Class II property, 38.8 cents per
$100; and (3) for Class III and Class IV property, 77.6 cents per $100: Provided, That county
boards of education may increase their regular levy rates through a majority vote of their members
up to the sum of the levy rates set forth in subdivisions (1), (2), and (3), section six-c of this article
for each class of property, which are: (1) For Class I property, 22.95 cents per $100; (2) for Class
II property, 45.9 cents per $100; and (3) for Class III and Class IV property, 91.8 cents per $100:
Provided, however, That prior to any regular levy rate increase, such increase must be approved
by a majority vote of the voters of the county.

(c) (d) The State Tax Commissioner shall report to the Joint Committee on Government
and Finance and the Legislative Oversight Commission on Education Accountability by March 1
of each year on the progress of assessors in each county in assessing properties at the
Constitutionally required 60 percent of market value and the effects of increasing the limit on the
increase in total property tax revenues set forth in this section to two percent.

(d) (e) Growth County School Facilities Act. — Legislative findings. —

The Legislature finds and declares that there has been, overall, a statewide decline in
enrollment in the public schools of this state; due to this decline, most public schools have ample
space for students, teachers, and administrators; however, some counties of this state have
experienced significant increases in enrollment due to significant growth in those counties; that
those counties experiencing significant increases do not have adequate facilities to accommodate
students, teachers, and administrators. Therefore, the Legislature finds that county boards of
education in those high-growth counties should have the authority to designate revenues
generated from the application of the regular school board levy due to new construction or
improvements placed in a Growth County School Facilities Act Fund be used for school facilities
in those counties to promote the best interests of this state’s students.

(1) For the purposes of this subsection, “growth county” means any county that has
experienced an increase in second month net enrollment of 50 or more during any three of the
last five years, as determined by the state Department of Education.
(2) The provisions of this subsection shall only apply to any growth county, as defined in subdivision (1) of this subsection, that, by resolution of its county board of education, chooses to use the provisions of this subsection.

(3) For any growth county, as defined in subdivision (1) of this subsection, that adopts a resolution choosing to use the provisions of this subsection, pursuant to subdivision (2) of this subsection, assessed values resulting from additional appraisal or valuation due to new construction or improvements to existing real property shall be designated as new property values and identified by the county assessor. The statewide regular school board levy rate as established by the Legislature shall be applied to the assessed value designated as new property values and the resulting property tax revenues collected from application of the regular school board levy rate shall be placed in a separate account designated as the Growth County School Facilities Act Fund. Revenues deposited in the Growth County School Facilities Act Fund shall be appropriated by the county board of education for construction, maintenance or repair of school facilities. Revenues in the fund may be carried over for an indefinite length of time and may be used as matching funds for the purpose of obtaining funds from the School Building Authority or for the payment of bonded indebtedness incurred for school facilities. For any growth county choosing to use the provisions of this subsection, estimated school board revenues generated from application of the regular school board levy rate to new property values are not to be considered as local funds for purposes of the computation of local share under the provisions of §18-9A-11 of this code.

(e) (f) This section, as amended during the legislative session in the year 2004, shall be effective as to any regular levy rate imposed for the county boards of education for taxes due and payable on or after July 1, 2004. If any provision of this section is held invalid, the invalidity shall not affect other provisions or applications of this section which can be given effect without the invalid provision or its application and to this end the provisions of this section are declared to be severable.
ARTICLE 21. PERSONAL INCOME TAX.

§11-21-25. Education expenses tax credits.

(a) Credit allowed. — For those tax years beginning on or after January 1, 2020, there is allowed a nonrefundable credit for expenses incurred for the purchase of supplementary education materials or professional development costs incurred by a classroom teacher, classroom aide, autism mentor, braille specialist, early childhood classroom assistant, paraprofessional, sign language assistant teacher, educational sign language interpreter, or sign support specialist employed by a public or private school.

(b) Amount of credit. — A person eligible for the credit pursuant to subsection (a) of this section may claim a tax credit not to exceed $250.

(c) Qualifying educational expenses. — Qualifying expenses include costs relating to computer equipment including education-related software and services, textbooks, workbooks, curricula and other written or supplementary materials used for curricular, cocurricular, or extra-curricular instruction and expenses for curricular or cocurricular activities.

(d) Unused credit. — If any credit remains after application of §11-21-25(c) of this code, that amount is forfeited. A carryback to a prior taxable year is not allowed for the amount of any unused portion of any annual credit allowance.

ARTICLE 5. COUNTY BOARD OF EDUCATION.

§18-5-16. Student transfers; definitions; legislative findings; appeals; calculating net enrollment; fees for transfer.

(a) County districts and school attendance. — Establishment of attendance zones within counties. — The county board may divide shall establish attendance zones within the county into such districts as are necessary to determine to designate the schools the that its resident students of its county shall attend. Upon the written request of any parent or guardian, or person legally responsible for any student, or for reasons affecting the best interests of the schools, the superintendent may transfer students from one school to another within the county. Any aggrieved person may appeal the decision of the county superintendent to the county board, and the decision of the county board shall be is final.

(b) Transfers between counties; legislative findings. —

(1) Transfers of students from one county to another may be made by the county board of the county in which the student desiring to be transferred resides. The transfer shall be subject to
the approval of both the board of the county in which the student resides and the board to which
the student wishes to be transferred.

(2) Legislative findings.—Over the past several years, counties have been forced to close
a number of schools because of declining student enrollment. School officials predict that an
additional eighteen percent loss in enrollment may occur between 2002 and 2012. This continued
decrease in the number of students enrolled in the public schools of the state may result in more
instances of consolidation which will increase the problem of long bus rides for students if they
remain in a school in their county of residence.

Therefore the Legislature makes the following findings:

(A) County lines may impede the effective and efficient delivery of education services;

(B) Students often must endure long bus rides to a school within their county of residence
when a school in an adjacent county is a fraction of the distance away;

(C) The wishes of parents or guardians to have their children transferred to a county other
than their county of residence should be considered by the county boards; and

(D) Where counties cannot agree, it is necessary to establish a process to determine when
transfers are appropriate.

(3) The state board shall establish a process whereby a parent or guardian of a student
may appeal the refusal of a county board to enter into an agreement to transfer or accept the
transfer of the student.

(A) The process shall designate the state superintendent to hear the appeal. In
determining whether to overturn a decision of a county board, the state superintendent shall
consider such factors as the following:

(i) Travel time for the student;

(ii) Impact on levies or bonds;

(iii) Other financial impact on the county of residence; and

(iv) Such other factors as the state superintendent may determine.
(B) If, during the appeal process, the state superintendent discovers that the education and the welfare of students in the transferring county could be enhanced, the state superintendent may direct that students may be permitted to attend a school in another county.

(C) If multiple appeals are received from the same geographical area of a county, the state superintendent may impose on the receiving county restrictions including, but not limited to, requiring the receiving county to accept all students in that geographical area of the sending county who wish to transfer to the receiving county.

(D) If a student is transferred on either a full-time or a part-time basis without the agreement of both boards by official action as reflected in the minutes of their respective meetings and if the student's parent or guardian fails to appeal or loses the appeal under the process established in subdivision (3) of this subsection, the student shall be counted only in the net enrollment of the county in which the student resides.

(4) If, after two county boards have agreed to a transfer arrangement for a student, that student chooses to return to a school in his or her county of residence after the second month of any school year, the following shall apply:

(A) The county of residence may issue an invoice to the county from which the student transferred for the amount, determined on a pro rata basis, that the county of residence otherwise would have received under the state basic foundation program established in article nine-a [§§ 18-9A-1 et seq.] of this chapter; and

(B) The county from which the student transferred shall reimburse the county of residence for the amount of the invoice.

(c) Transfers between high schools. In any county where a high school is maintained, but topography, impassable roads, long bus rides, or other conditions prevent the practicable transportation of any students to such high school, the board may transfer them to a high school in an adjoining county. In any such case, the county boards may enter into an agreement providing for the payment of the cost of transportation, if any, of the students.
(b) Definitions. – For the purposes of this section, unless a different meaning clearly appears from the context:

“Nonresident student” means a student who resides in this state and who is enrolled in or is seeking enrollment in a county school district other than the county school district in which the student resides.

“Open enrollment” means a policy adopted and implemented by a county board to allow nonresident students to enroll in any school within the district. Open enrollment is distinct from a mutual agreement of two county boards regarding mass transfer of students, as contemplated in §18-5-13(f)(1)(C) of this code.

(c) Enrollment policies. – County boards shall establish and implement an open enrollment policy without charging tuition and without obtaining approval from the board of the county in which a student resides and transfers. These policies shall clearly articulate any admission criteria, application procedures, transportation provisions, timelines for open enrollment periods, and restrictions on transfers due to building capacity constraints. Enrollment policies are subject to the following:

(1) A county board may give enrollment preference to:

within the county, and a school within a contiguous county is more easily accessible.

(3) The county board for the county educating the nonresident student may provide an adequate means of transportation to nonresident students when students have complied with the procedure for obtaining authorization to attend school outside their county of residence, subject to the following:

(A) County boards of education are not required to uniformly provide nonresident student transportation, and may consider whether a nonresident student meets the eligibility criteria for free or reduced price lunches and milk established within the Richard B. Russell National School Lunch Act (42 U.S.C. §1758); and

(B) The county board for the county educating the nonresident student shall provide transportation to and from the school of attendance, or to and from an agreed pickup point on a regular transportation route, or for the total miles traveled each day for the nonresident student to reach the school of enrollment if the nonresident student with disabilities has an individualized education program that specifies that transportation is necessary for fulfillment of the program.

(d) Appeal. – The state board of education shall establish a process whereby a parent or guardian of a student may appeal the refusal of a county board to accept the transfer of the student. If during the appeal process, the State Superintendent discovers that the education and the welfare of the student could be enhanced, the State Superintendent may direct that the student may be permitted to attend a school in the receiving county.

(e) Net enrollment. – For purposes of net enrollment as defined in §18-9A-2 of this code, whenever a student is transferred on a full-time basis from one school district to another district pursuant to the provisions of this section, the county to which the student is transferred shall include the student in its net enrollment: Provided, That if, after transferring to another county, a

would have received under the state basic foundation program established in §18-9A-1 et seq. of
this code; and

(2) The county from which the student transferred shall reimburse the county of residence
for the amount of the invoice.

(e) Transfers between high schools. — In any county where a high school is maintained,
but topography, impassable roads, long bus rides, or other conditions prevent the practicable
transportation of any students to such high school, the board may transfer them to a high school
in an adjoining county. In any such case, the county boards may enter into an agreement providing
for the payment of the cost of transportation, if any, of the students.

(d) (f) Transfers between states. — Transfer of students from this state to another state
shall be upon such terms, including payment of tuition, as shall be mutually agreed upon by the

(2) School systems must have sufficient flexibility to design the school day in a way that best provides quality instruction to their students;

(3) Critical to the delivery of quality instruction is sufficient collaborative time among educators within the employment day;

(2) (4) The school calendar, as defined in this section, is designed to define the school term both for employees and for instruction.

(3) (5) The school calendar shall provide for one hundred eighty separate instructional days or an equivalent amount of instructional time as provided in this section state board rule.

(c) The county board shall provide a school term for its schools that contains the following:

(1) An employment term that excludes Saturdays and Sundays and consists of at least two hundred days, which need not be successive. The beginning and closing dates of the
employment term may not exceed forty-eight weeks;

(2) Within the employment term, an instructional term for students of no less than one hundred eighty separate instructional days with an average of five hours of instruction per day, which includes an inclement weather and emergencies plan designed to guarantee an instructional term for students of no less than one hundred eighty separate instructional days: subject to the following Provided, That subject to approval of its plan by the state board, a county board may deliver instruction through alternative methods on up to five days when schools are closed due to inclement weather or other unforeseen circumstances and these days are instructional days notwithstanding the closure of schools;

School calendars shall be designed in a manner that achieves the minimum average of five hours per day notwithstanding late arrivals and early dismissals.

(e) If it is not possible to complete one hundred eighty separate instructional days with the current school calendar, and the additional five days of instructional time gained by increasing the length of the instructional day as provided in subsection (c) of this section are insufficient to offset the loss of separate instructional days, the county board shall schedule instruction on any available noninstructional day, regardless of the purpose for which the day originally was scheduled, or an out-of-calendar day and the day will be used for instruction of students: Provided, that the provisions of this subsection do not apply to:

(o) Notwithstanding any provision of this code to the contrary, the state board may grant a waiver to a county board for its noncompliance with provisions of chapter eighteen, eighteen-a, eighteen-b and eighteen-c of this code to maintain compliance in reaching the mandatory one hundred eighty separate instructional days established in this section.
The state board shall promulgate a rule in accordance with the provisions of article three-b, chapter twenty-nine-a of this code for the purpose of implementing the provisions of this section.

§18-5-45a. Further expressions of legislative intent with respect to school calendar; applicability to time lost due to work stoppage or strike; effect on pay.

(a) Section 18-5-45 of this code is designed to define the school term both for employees and for instruction. The employment term consists of at least 200 days as provided in that section and, within the employment term, an instructional term for students must consist of at least 180 separate instructional days. Section 18-5-45 of this code also requires instruction to be offered to students for at least an average of five hours per day throughout the 180-day instructional term. This means that there can be zero hours of instruction on one or more days so long as the average instructional time per day over the 180 days is at least five hours. Furthermore, §18-5-45 allows a county board, subject to approval of its plan by the state board, to deliver instruction through alternative methods on up to five days when schools are closed and these days are instructional days notwithstanding the closure of schools. The ability to have zero hours of instruction on an instructional day and the use of alternative methods to deliver instruction on canceled days as defined in §18-5-45 of this code was intended by the Legislature to: (1) Provide flexibility for collaborative time and other methods of improving instruction; and (2) lessen the disruption to the planned school calendar if rescheduling and adding instructional days became necessary to make up lost days due to closures pursuant to §18-4-10(5) of this code when conditions are detrimental to the health, safety, or welfare of pupils. The Legislature did not intend with the enactment of these provisions to permit a reduction of the instructional term for students or of the employment term for personnel when the conditions causing the closure of the school are a concerted work stoppage or strike by the employees. The provisions of §18-5-45 of this code allowing zero hours of instruction so long as at least an average of five hours per day is attained, and the delivery of instruction through alternative methods, do not apply to and may not be used to cancel days lost
due to a concerted work stoppage or strike.

(b) When a concerted work stoppage or strike by the employees assigned to a school causes the county superintendent to close the school temporarily, the county board shall withhold the pay of the employees for each day that the school is closed for that cause. The county board shall apply the withheld pay to the employees who subsequently fulfill their assigned duties for the instructional term and the employment term as per their employment contract. The state portion of any funds which are withheld and are not applied for such payment shall be returned to the accounts of the Department of Education for carry-forward in the next fiscal year.

(c) If an originally scheduled instructional day is canceled due to a concerted work stoppage or strike by the employees assigned to a school, the school for which the day was canceled may not participate in any extracurricular activities during any part of that same day.

§18-5-46. Requiring teacher to change grade prohibited; teacher recommendation relating to promotion.

(a) No teacher may be required by a principal or any other person to change a student’s grade on either an individual assignment or a report card unless there is clear and convincing evidence that there was a mathematical error in calculating the student’s grade.

(b) Effective July 1, 2020, the teacher’s recommendation relating to whether or not a student should be promoted to the next grade level shall be a primary consideration when making such a determination.

§18A-4-5. Salary equity among the counties; state salary supplement.

(a) For the purposes of this section, salary equity among the counties means that the salary potential of school employees employed by the various districts throughout the state does not differ by greater than ten percent between those offering the highest salaries and those offering the lowest salaries. In the case of professional educators, the difference shall be
calculated using the average of the professional educator salary schedules, degree classifications
B. A. through doctorate and the years of experience provided in the most recent state minimum
salary schedule for teachers, in effect in the ten counties offering the highest salary schedules
compared to the lowest salary schedule in effect among the fifty-five counties. In the case of
school service personnel, the difference shall be calculated utilizing the average of the school
service personnel salary schedules, pay grades A through H and the years of experience provided
in the most recent state minimum pay scale pay grade for service personnel, in effect in the ten
counties offering the highest salary schedules compared to the lowest salary schedule in effect
among the fifty-five counties.

(a) The Legislature recognizes its constitutional responsibility to provide for a thorough
and efficient system of education. To carry out this responsibility the Legislature enacted, and
continues to update, as necessary, the public school support program as set forth in §18-9A-1, et
seq. The public school support program is a non-discriminatory funding mechanism for financing
the educational system in this state as it takes into account each county’s specific characteristics,
and ensures that all counties are provided equitable funding.

(b) The Legislature further finds that the purpose of the public school support program is
not to deter counties from growing economically or from using county resources in a manner that
best meets their specific educational needs and the desires of their citizens. To that end, counties
must have the discretion and flexibility to use local county funds, not otherwise factored into the
public school support program, to provide the best education possible to their students, including,
but not limited to, providing salary supplements to teachers.

(b) (c) To meet the objective of salary equity among the counties, as defined in subsection
(a) of this section, on and after July 1, 1984, subject Subject to available state appropriations and
the conditions set forth herein, each teacher and school service personnel shall receive an equity
a supplement amount as specified in sections two and eight-a, respectively, of this article in
addition to the amount from the state minimum salary schedules provided in those sections. State
funds for this purpose shall be paid within the West Virginia public school support plan in accordance with §18-9A-1 et seq. of this code. The amount allocated for this supplement shall be apportioned between teachers and school service personnel in direct proportion to that amount necessary to support the professional salaries and service personnel salaries statewide under §18-9A-4, §18-9A-5, and §18-9A-8 of this code.

(e) State funds for this purpose shall be paid within the West Virginia public school support plan in accordance with article nine-a, chapter eighteen of this code. The amount allocated for salary equity shall be apportioned between teachers and school service personnel in direct proportion to that amount necessary to support the professional salaries and service personnel salaries statewide under sections four, five and eight, article nine-a, chapter eighteen of this code.

In the event the Department of Education determines that the objective of salary equity among the counties has not been met, it shall include in its budget request for the public school support plan for the next school year a request for funding sufficient to meet the objective of salary equity through an across-the-board increase in the equity supplement amount of the affected class of employees.

(d) Pursuant to this section, each teacher and service person shall receive from state funds the equity supplement amount indicated in subsection (c), section two and subsection (f), section eight-a of this article, as applicable, reduced by any amount provided by the county as a salary supplement for teachers and school service personnel on January 1, 1984.

(e) The amount received pursuant to this section shall not be decreased as a result of any county supplement increase instituted after January 1, 1984: Provided, That any amount received pursuant to this section may be reduced proportionately based upon the amount of funds appropriated for this purpose. No county may reduce any salary supplement that was in effect on January 1, 1984, except as permitted by sections five-a and five-b of this article.

(f) The amendments to this section during the 2019 First Extraordinary Session of the Legislature shall be effective for school years beginning on or after July 1, 2020, and the
provisions of this section existing immediately prior to the 2019 First Extraordinary Session of the Legislature remain in effect for school years beginning prior to July 1, 2020.

§18A-4-5a. County salary supplements for teachers.

(a) County boards of education in fixing the salaries of teachers shall use at least the state minimum salaries established under the provisions of this article. The board may establish salary schedules which shall be in excess of the state minimums fixed by this article, such county schedules to be uniform throughout the county as to the classification of training, experience, responsibility and other requirements subject to the following:

(1) Counties may fix higher salaries for teachers placed in special instructional assignments, for those assigned to or employed for duties other than regular instructional duties, and for teachers of one-teacher schools; and they

(2) Counties may provide additional compensation for any teacher assigned duties in addition to the teacher’s regular instructional duties wherein such noninstructional duties are not a part of the scheduled hours of the regular school day; Uniformity also shall apply to such additional salary increments or compensation for all persons performing like assignments and duties within the county: Provided, That

(3) Counties may provide additional compensation for teachers who are assigned and fully certified to teach in a subject area in which the county board finds it has a critical need and shortage of fully certified teachers;

(4) Counties may provide additional compensation or other financial assistance to teachers who teach in schools that are in remote geographical locations or have experienced high rates of turnover in experienced teachers; and

(5) Counties may provide additional compensation to teachers who, in addition to regularly assigned teaching duties, are assigned as a master teacher, mentor, academic coach, or other title whose duties include providing strong school-based support and supervision to assist licensure candidates in a clinical internship, beginning teachers, and other teachers at the school
to improve their professional practice as set forth in the county’s comprehensive system of support 
for teacher and leader induction and professional growth provided for in section §18A-3C-3 of this 
code.

(b) In establishing such local salary schedules authorized in subsection (a) of this section, 
no county shall a county may not reduce local funds allocated for salaries in effect on January 1, 
1990, and used in supplementing the state minimum salaries as provided for in this article, unless 
forced to do so by defeat of a special levy, or a loss in assessed values or events over which it 
has no control and for which the county board has received approval from the state board prior to 
making such reduction.

(c) Counties may provide, in a uniform manner, benefits for teachers which require an 
appropriation from local funds including, but not limited to, dental, optical, health and income 
protection insurance, vacation time and retirement plans excluding the state Teachers Retirement 
System. Nothing herein shall prohibit the maintenance nor result in the reduction of any benefits 
in effect on January 1, 1984, by any county board of education.

(d) The amendments to this section during the 2019 First Extraordinary Session of the 
Legislature shall be effective for school years beginning on or after July 1, 2020, and the

Legislature remain in effect for school years beginning prior to July 1, 2020.

§18A-4-7a. Employment, promotion, and transfer of professional personnel; Seniority 
qualifications.

(a) A county board of education shall make decisions affecting the filling of vacancies in 
professional positions of employment on the basis of the applicant with the highest qualifications: 
Provided, That the county superintendent shall be hired under separate criteria pursuant to §18-
4-2 of this code.

(b) In judging qualifications for the filling of vacancies of professional positions of 
employment, consideration shall be given to each of the following:
(1) Appropriate certification, licensure, or both;
(2) Amount of experience relevant to the position or, in the case of a classroom teaching position, the amount of teaching experience in the required certification area;
(3) The amount of course work, degree level, or both in the relevant field and degree level generally;
(4) Academic achievement;
(5) In the case of a principal or classroom teaching position, certification by the National Board for Professional Teaching Standards;
(6) Specialized training relevant to performing the duties of the job;
(7) Past performance evaluations conducted pursuant to §18A-2-12 and §18A-3C-2 of this code or, in the case of a classroom teacher, past evaluations of the applicant’s performance in the teaching profession;
(8) Seniority;
(9) Other measures or indicators upon which the relative qualifications of the applicant may fairly be judged;
(10) In the case of a classroom teaching position, the recommendation of the principal of the school at which the applicant will be performing a majority of his or her duties; and
(11) In the case of a classroom teaching position, the recommendation, if any, resulting from the process established pursuant to the provisions of §18-5A-5 of this code by the faculty senate of the school at which the employee will be performing a majority of his or her duties.

(c) When filling of a vacancy pursuant to this section, a county board is entitled to determine the appropriate weight to apply to each of the criterion when assessing an applicant’s qualifications: Provided, That if one or more permanently employed instructional personnel apply for a classroom teaching position and meet the standards set forth in the job posting, each criterion under subsection (b) of this section shall be given equal weight except that the criterion in subdivisions (10) and (11) of said subsection shall each be double weighted.
(d) For a classroom teaching position, if the principal and faculty senate recommend the same applicant pursuant to subdivisions (10) and (11), subsection (b) of this section, and the superintendent concurs with those recommendations, then the other provisions of subsections (b) and (c) of this section do not apply and the county board shall appoint that applicant notwithstanding any other provision of this code to the contrary.

(e) The state board shall promulgate a rule, including an emergency rule if necessary, in accordance with the provisions of §29A-3B-1 et seq. article three-b, chapter twenty-nine-a of this code to implement and interpret the provisions of this section. The rule may provide for a classroom teacher who directly participates in making recommendations pursuant to this section to be compensated at the appropriate daily rate during periods of participation beyond his or her individual contract.

(f) The recommendations of the principal and faculty senate made pursuant to subdivisions (10) and (11), subsection (b) of this section shall be based on a determination as to which applicant is the most highly qualified for the position: Provided, That nothing in this subsection may require principals or faculty senates to assign any amount of weight to any factor in making a recommendation.

(g) With the exception of guidance counselors, the seniority of classroom teachers, as defined in section one, article one of this chapter, shall be determined on the basis of the length of time the employee has been employed as a regular full-time certified and/or licensed professional educator by the county board of education and shall be granted in all areas that the employee is certified, licensed or both.

(h) Upon completion of 133 days of employment in any one school year, substitute teachers, except retired teachers and other retired professional educators employed as substitutes, shall accrue seniority exclusively for the purpose of applying for employment as a permanent, full-time professional employee. One hundred thirty-three days or more of said employment shall be prorated and shall vest as a fraction of the school year worked by the
permanent, full-time teacher.

(i) Guidance counselors and all other professional employees, as defined in section one, article one of this chapter, except classroom teachers, shall gain seniority in their nonteaching area of professional employment on the basis of the length of time the employee has been employed by the county board of education in that area: Provided, That if an employee is certified as a classroom teacher, the employee accrues classroom teaching seniority for the time that employee is employed in another professional area. For the purposes of accruing seniority under this subsection, employment as principal, supervisor or central office administrator, as defined in §18A-1-1 of this code, shall be considered one area of employment.

(j) Employment for a full employment term equals one year of seniority, but an employee may not accrue more than one year of seniority during any given fiscal year. Employment for less than the full employment term shall be prorated. A random selection system established by the employees and approved by the county board shall be used to determine the priority if two or more employees accumulate identical seniority: Provided, That when two or more principals have accumulated identical seniority, All decisions on reductions in force shall be based on qualifications as set forth in a county board policy. Furthermore, for the purposes of this subsection and subsections (k) through (s), inclusive, of this section, the word “qualifications” means the qualifications set forth in county board policy and only means qualifications set forth in subsection (b) of this section to the extent those qualifications are set forth in county board policy: Provided, That in defining the word “qualifications” in its policy, the county board:

(1) Shall consider including the following criteria:

(A) Seniority;

(B) Appropriate certification, licensure, or both;

(C) Amount of experience relevant to the position or, in the case of a classroom teaching position, the amount of teaching experience in the required certification area;

(D) The amount of course work, degree level, or both in the relevant field and degree level
generally:

(E) Academic achievement;

(F) In the case of a principal or classroom teaching position, certification by the National Board for Professional Teaching Standards;

(G) Specialized training relevant to performing the duties of the job;

(H) Past performance evaluations conducted pursuant to §18A-2-12 and §18A-3C-2 of this code or, in the case of a classroom teacher, past evaluations of the applicant’s performance in the teaching profession;

(I) Other measures or indicators upon which the relative qualifications of the applicant may fairly be judged;

(J) In the case of a classroom teaching position, the recommendation of the principal of the school at which the applicant will be performing a majority of his or her duties; and

(K) In the case of a classroom teaching position, the recommendation, if any, resulting from the process established pursuant to the provisions of §18A-5A-5 of this code by the faculty senate of the school at which the employee will be performing a majority of his or her duties;

(2) Shall consider other criteria set forth in subdivision (1) of this subsection to the extent they are included in the county board policy only after considering personnel whose last performance evaluation conducted pursuant to §18A-2-12 or §18A-3C-2 of this code, as applicable, is less than satisfactory; and

(3) May not include salary as one of the criteria in the definition.

(k) Whenever a county board is required to reduce the number of professional personnel in its employment, the employee with the least amount of seniority who is least qualified, as set forth in county board policy, shall be properly notified and released from employment pursuant to the provisions of §18A-2-2 of this code. The provisions of this subsection are subject to the following:

(1) All persons employed in a certification area to be reduced who are employed under a
temporary permit shall be properly notified and released before a fully certified employee in such a position is subject to release;

(2) Notwithstanding any provision of this code to the contrary, for any vacancy in an established, existing or newly created position that, on or before March 1, is known to exist for the ensuing school year, upon recommendation of the superintendent, the board shall appoint the successful applicant from among all qualified applicants. All employees subject to release shall be considered applicants for the positions for which they are qualified and shall be considered before posting such vacancies for application by nonemployees;

(3) An employee subject to release shall be employed in any other professional position where the employee is certified and was previously employed or to any lateral area for which the employee is certified, licensed or both: if the employee’s seniority is greater than the seniority of any other employee in that area of certification, licensure or both Provided, That the employee is the most qualified person for that position;

(4) If an employee subject to release holds certification, licensure or both in more than one lateral area and if the employee’s qualifications are greater than the seniority qualifications of any other employee in one or more of those areas of certification, licensure, or both, the employee subject to release shall be employed in the professional position held by the employee with the least seniority who is least qualified in any of those areas of certification, licensure, or both; and

(5) If, prior to August 1 of the year, a reduction in force is approved, the reason for any particular reduction in force no longer exists as determined by the county board in its sole and exclusive judgment, the board shall rescind the reduction in force or transfer and shall notify the released employee in writing of his or her right to be restored to his or her position of employment. Within five days of being so notified, the released employee shall notify the board, in writing, of his or her intent to resume his or her position of employment or the right to be restored shall terminate. Notwithstanding any other provision of this subdivision, if there is another employee on
the preferred recall list with proper certification and higher seniority has greater qualifications, that
person shall be placed in the position restored as a result of the reduction in force being rescinded.

(l) For the purpose of this article, all positions which meet the definition of “classroom
teacher” as defined in section one, article one of this chapter shall be lateral positions. For all
other professional positions, the county board of education shall adopt a policy by October 31, 1993, and may modify the policy thereafter as necessary, which defines which positions shall be
lateral positions. In adopting the policy, the board shall may give consideration to the rank of each
position in terms of title; nature of responsibilities; salary level; and certification, licensure or both,
and along with the days in the period of employment.

(m) All professional personnel whose seniority lesser qualifications, as determined by
county board policy, with the county board is insufficient to allow their retention by the county
board during a reduction in workforce shall be placed upon a preferred recall list. As to any
professional position opening within the area where they had previously been employed or to any
lateral area for which they have certification, licensure or both, the employee shall be recalled on
the basis of seniority qualifications if no regular, full-time professional personnel, or those
returning from leaves of absence with greater seniority are qualified qualifications, apply for and
accept the position.

(n) Before position openings that are known or expected to extend for twenty consecutive
employment days or longer for professional personnel may be filled by the board, the board shall
be required to notify all qualified professional personnel on the preferred list and give them an
opportunity to apply, but failure to apply shall not cause the employee to forfeit any right to recall.
The notice shall be sent by certified mail to the last known address of the employee and it shall
be the duty of each professional personnel to notify the board of continued availability annually,
of any change in address or of any change in certification, licensure or both. The board shall
annually notify professional personnel on the preferred list of the job application procedures and
any websites used to advertise vacancies. The notice shall be sent by certified mail via the U.S.
Postal Service to the last known address of the employee, and it shall be the duty of each professional person to notify the board of continued availability annually of any change in address, or of any change in certification, licensure or both.

(o) Openings in established, existing, or newly created positions shall be processed as follows:

(1) Boards shall be required to post and date notices of each opening at least once. At their discretion, boards may post an opening for a position other than classroom teacher more than once in order to attract more qualified applicants. At their discretion, boards may repost an opening for a classroom teacher one additional time after the first posting in order to attract more qualified applicants only if fewer than three individuals apply during the first posting subject to the following:

(A) Each notice shall be posted in conspicuous working places for all professional personnel to observe for at least five working days which may include any website maintained by the county board;

(B) At least one notice shall be posted within 20 working days of the position openings and shall include the job description;

(C) Any special criteria or skills that are required by the position shall be specifically stated in the job description and directly related to the performance of the job;

(D) Postings for vacancies made pursuant to this section shall be written so as to ensure that the largest possible pool of qualified applicants may apply; and

(E) Job postings may not require criteria which are not necessary for the successful performance of the job and may not be written with the intent to favor a specific applicant;

(2) No vacancy may be filled until after the five-day minimum posting period of the most recent posted notice of the vacancy;

(3) If one or more applicants under all the postings for a vacancy meets the qualifications listed in the job posting, the successful applicant to fill the vacancy shall be selected by the board.
within 30 working days of the end of the first posting period;

(4) A position held by a teacher who is certified, licensed, or both, who has been issued a permit for full-time employment and is working toward certification in the permit area shall not be subject to posting if the certificate is awarded within five years; and

(5) Nothing provided herein may prevent the county board of education from eliminating a position due to lack of need.

(p) Notwithstanding any other provision of the code to the contrary, where the total number of classroom teaching positions in an elementary school does not increase from one school year to the next, but there exists in that school a need to realign the number of teachers in one or more grade levels, kindergarten through six, teachers at the school may be reassigned to grade levels for which they are certified without that position being posted: Provided, That the employee and the county board mutually agree to the realignment.

(q) Reductions in classroom teaching positions in elementary schools shall be determined pursuant to the considerations set forth in county board policy and processed as follows:

(1) When the total number of classroom teaching positions in an elementary school needs to be reduced, the reduction shall be made on the basis of seniority qualifications with the least senior qualified classroom teacher being recommended for transfer; and

(2) When a specified grade level needs to be reduced and the least senior qualified employee in the school is not in that grade level, the senior least qualified classroom teacher in the grade level that needs to be reduced shall be reassigned to the position made vacant by the transfer of the senior least qualified classroom teacher in the school without that position being posted: Provided, That the employee is certified, licensed or both and agrees to the reassignment.

(r) Any board failing to comply with the provisions of this article may be compelled to do so by mandamus and shall be liable to any party prevailing against the board for court costs and reasonable attorney fees as determined and established by the court. Further, employees denied promotion or employment in violation of this section shall be awarded the job, pay and any
applicable benefits retroactive to the date of the violation and payable entirely from local funds.

Further, the board shall be liable to any party prevailing against the board for any court reporter costs including copies of transcripts.

(s) The county board shall compile, update annually on July 1 and make available by electronic or other means to all employees a list of all professional personnel employed by the county, their areas of certification and their seniority.

(t) Notwithstanding any other provision of this code to the contrary, upon recommendation of the principal and approval by the classroom teacher and county board, a classroom teacher assigned to the school may at any time be assigned to a new or existing classroom teacher position at the school without the position being posted.

(t) All personnel in a public charter school shall continue to accrue seniority in the same manner that they would accrue seniority if employed in a noncharter public school in the county for the purpose of employment in noncharter public schools.

(u) The amendments to this section during the 2019 First Extraordinary Session of the Legislature shall be effective for school years beginning on or after July 1, 2020, and the provisions of this section existing immediately prior to the 2019 First Extraordinary Session of the Legislature remain in effect for school years beginning prior to July 1, 2020.

§18A-4-8a. Service personnel minimum monthly salaries.

(a) The minimum monthly pay for each service employee shall be as follows:

employment is for a period of more than three and one-half hours a day shall be at least the
amounts indicated in the State Minimum Pay Scale Pay Grade Schedule II and the minimum

These payments: (i) Are in addition to any amounts prescribed in the applicable State Minimum Pay Scale Pay Grade, any specific additional amounts prescribed in this section and article, and any county supplement in effect in a county pursuant to §18A-4-5b of this code; (ii) are paid in equal monthly installments; and (iii) are considered a part of the state minimum salaries for service personnel.

§18A-4-10. Personal leave for illness and other causes; leave banks; substitutes.

(a) **Personal Leave.**

(1) At the beginning of the employment term, any full-time employee of a county board is entitled annually to at least one and one-half days personal leave for each employment month or major fraction thereof in the employee’s employment term. Unused leave shall be accumulative without limitation and is transferable within the state. A change in job assignment during the school year does not affect the employee’s rights or benefits.

(2) A regular full-time employee who is absent from assigned duties due to accident, sickness, death in the immediate family, or life threatening illness of the employee’s spouse, parents or child, or other cause authorized or approved by the board, shall be paid the full salary from his or her regular budgeted salary appropriation during the period which the employee is absent, but not to exceed the total amount of leave to which the employee is entitled.

(3) Each employee is permitted to use three days of leave annually without regard to the cause for the absence: Provided, That effective July 1, 2020, each employee is permitted to use four days of leave annually without regard to the cause for the absence. Personal leave without cause may not be used on consecutive work days unless authorized or approved by the employee’s principal or immediate supervisor, as appropriate. The employee shall give notice of leave without cause to the principal or immediate supervisor at least 24 hours in advance, except that in the case of sudden and unexpected circumstances, notice shall be given as soon as reasonably practicable. The principal or immediate supervisor may deny use of the day if, at the time notice is given, either 15 percent of the employees or three employees, whichever is greater, under the supervision of the principal or immediate supervisor, have previously given notice of
their intention to use that day for leave. Personal leave may not be used in connection with a concerted work stoppage or strike. Where the cause for leave originated prior to the beginning of the employment term, the employee shall be paid for time lost after the start of the employment term. If an employee uses personal leave which the employee has not yet accumulated on a monthly basis and subsequently leaves the employment, the employee is required to reimburse the board for the salary or wages paid for the unaccumulated leave.

(4) The State Board shall maintain a rule to restrict the payment of personal leave benefits and the charging of personal leave time used to an employee receiving a workers' compensation benefit from a claim filed against and billed to the county board by which the person is employed. If an employee is awarded this benefit, the employee shall receive personal leave compensation only to the extent the compensation is required, when added to the workers' compensation benefit, to equal the amount of compensation regularly paid the employee. If personal leave compensation equal to the employee's regular pay is paid prior to the award of the workers' compensation benefit, the amount which, when added to the benefit, is in excess of the employee's regular pay shall be deducted from the employee's subsequent pay. The employee's accrued personal leave days shall be charged only for such days as equal the amount of personal leave compensation required to compensate the employee at the employee's regular rate of pay.

(5) The county board may establish reasonable rules for reporting and verification of absences for cause. If any error in reporting absences occurs, the county board may make necessary salary adjustments:

(A) In the next pay after the employee has returned to duty; or

(B) In the final pay if the absence occurs during the last month of the employment term.

(b) Leave Banks.

(1) Each county board shall establish a personal leave bank that is available to all school personnel. The board may establish joint or separate banks for professional personnel and school service personnel. Each employee may contribute up to two days of personal leave per school
year. An employee may not be coerced or compelled to contribute to a personal leave bank.

(2) The personal leave bank shall be established and operated pursuant to a rule adopted by the county board. The rule:

(A) May limit the maximum number of days used by an employee;

(B) Shall limit the use of leave bank days to an active employee with fewer than five days accumulated personal leave who is absent from work due to accident or illness of the employee; and

(C) Shall prohibit the use of days to:

(i) Qualify for or add to service for any retirement system administered by the state; or

(ii) Extend insurance coverage pursuant to §5-16-13 of this code.

(D) Shall require that each personal leave day contributed:

(i) Is deducted from the number of personal leave days to which the donor employee is entitled by this section;

(ii) Is not deducted from the personal leave days without cause to which a donor employee is entitled if sufficient general personal leave days are otherwise available to the donor employee;

(iii) Is credited to the receiving employee as one full personal leave day;

(iv) May not be credited for more or less than a full day by calculating the value of the leave according to the hourly wage of each employee; and

(v) May be used only for an absence due to the purpose for which the leave was transferred. Any transferred days remaining when the catastrophic medical emergency ends revert back to the leave bank.

(3) The administration, subject to county board approval, may use its discretion as to the need for a substitute where limited absence may prevail, when an allowable absence does not:

(i) Directly affect the instruction of the students; or

(ii) Require a substitute employee because of the nature of the work and the duration of the cause for the absence.
(4) If funds in any fiscal year, including transfers, are insufficient to pay the full cost of substitutes for meeting the provisions of this section, the remainder shall be paid on or before August 31 from the budget of the next fiscal year.

(5) A county board may supplement the leave provisions in any manner it considers advisable in accordance with applicable rules of the state Board and the provisions of this chapter and chapter eighteen of this code.

(c) Effective July 1, 2020, a classroom teacher who has not utilized more than four days of leave during the 200-day employment term shall receive a bonus of $500 at the end of the school year. If the appropriations to the Department of Education for this purpose are insufficient to compensate all applicable classroom teachers, the Department of Education shall request a supplemental appropriation in an amount sufficient to compensate all eligible classroom teachers.

This bonus may not be counted as part of the final average salary for the purpose of calculating retirement.

ARTICLE 5. AUTHORITY; RIGHTS; RESPONSIBILITY.

(d) Any school or schools may be closed by proper authorities on account of the prevalence of contagious disease, conditions of weather or any other calamitous cause over which the board has no control.

(1) Under any or all of the above provisions, the time lost by the school closings may not be counted as days of employment and may not be counted as meeting a part of the requirements of the minimum term of one hundred eighty days of instruction. Except as otherwise provided by §18-5-45a, a school employee's pay per pay period may not change as a result of a school closing not being counted as a day of employment, and the employee shall be paid the same amount during any pay period in which a school closing occurs that the employee would have been paid during the pay period if a school closing had not occurred.

(2) On the day or days when a school or schools are closed, county boards may provide appropriate alternate work schedules for professional and service personnel affected by the closing of any school or schools under any or all of the provisions of this subsection. Professional and service personnel shall receive pay the same as if school were in session.

(3) Insofar as funds are available or can be made available during the school year, the board may extend the employment term for the purpose of making up time that might affect the instructional term.

(e) In addition to any other provisions of this chapter, the board further is authorized to provide in its annual budget for meetings, workshops, vacation time or other holidays through extended employment of personnel at the same rate of pay.
