

AMD#4 Adopted- air quality regulation

Delegates Manchin, Fleischauer, Ireland, Anderson and Campbell move to amend the bill on page 52, line 7, following the period, by inserting a new section, to read as follows:

1 **§22-6A-11. Air quality regulation.**

2 Notwithstanding any other code provision to the contrary,  
3 activities at the well site impacting air quality are to be  
4 regulated, and when appropriate, permitted by the Office of Air  
5 Quality, pursuant to article five of this chapter. Any permit or  
6 other condition established pursuant to article five and rules  
7 promulgated thereunder shall be deemed a condition of the drilling  
8 permit issued pursuant to this article. The Secretary shall  
9 consider as part of any air quality permit condition or other  
10 regulation or limitation, the cumulative impacts to air quality of  
11 multiple wells in a localized geographic area.
