FEDERAL AGENCIES IN WEST VIRGINIA

U. S. DEPARTMENT OF AGRICULTURE

USDA-NASS West Virginia Field Office
(U. S. and W. Va. Departments of Agriculture)

The National Agricultural Statistics Service (NASS) is an agency within the United States Department of Agriculture (USDA). The agency’s primary responsibility is to prepare official estimates of agriculture for the nation, and for each state. There are 45 field offices that serve all 50 states. The West Virginia state field office is located in Charleston and is considered a division within the West Virginia Department of Agriculture.

Guthrie Center
Charleston 25305

Collects and disseminates statistics on agriculture. Estimates livestock numbers and products, crop production and utilization, prices farmers receive and pay, farm income and many other items dealing with agriculture in West Virginia.

Director: Dale R. King

Appalachian Plant Materials Center
P. O. Box 390, Old Prison Farm Road, County Route 3-29, Alderson 24910
Website: www.plant-materials.nrcs.usda.gov/wvpmc

Established in 1967 and moved to the current site in West Virginia in 1998, the Appalachian Plant Materials Center, formerly known as the Alderson Plant Materials Center, a facility of the U. S. Department of Agriculture, Natural Resources Conservation Service, serves the Appalachian region of West Virginia, Kentucky, Tennessee, Pennsylvania, Ohio, Virginia, North Carolina, South Carolina, Georgia, Alabama and Maryland. The center provides native plant solutions for the rugged landscape of the Appalachian region by evaluating predominantly indigenous plants for their ability to solve specific natural resource conservation problems related to the rugged topography, soil limitations and economic conditions of the area. Technical assistance to stabilize mine lands, protect stream banks and wildlife habitat, improve hillside pastures, develop permanent cover crops and protect the quality of surface and groundwater is also provided by the center.

Plant Materials Center Manager: John Vandevender
Assistant Manager: Randall Lester

Agricultural Research Service

The mission of this U. S. Department of Agriculture facility is to develop knowledge and technology to increase the profitability of small-farm agricultural enterprises in the Appalachian region while enhancing soil and water quality and environmental integrity.

Appalachian Fruit Research Station
2217 Wiltshire Road, Kearneysville 25430-9425
Website: www.ars.usda.gov/main/site_main.htm?modecode=19-31-00-00

The Appalachian Fruit Research Station (AFRS) conducts fundamental, applied and developmental research on critical problems of temperate fruit production (apples, peaches, pears, plums, strawberries, raspberries, blueberries and blackberries). It is one of the 104 Agricultural Research Service locations and 35 work sites in the U. S. and abroad. The station was dedicated in August 1979, and has 500 acres of land, approximately 300 acres of which have been planted into fruit crops. The office/laboratory building and adjacent farm center facility serve a professional scientific staff of 21, with a full-time and part-time support staff of 70.

WEST VIRGINIA BIOMETRICS INITIATIVE

714 Venture Drive #193, Morgantown 26508-7306
Website: www.wvbiometrics.org

Biometrics are measurable physical characteristics or personal behavior traits used to recognize the identity or verify the claimed identity of an individual. A biometric system is an automated tool for measuring and evaluating these characteristics or traits for the purpose of human recognition. The vision of the West Virginia Biometrics Initiative is to focus on the existing West Virginia biometrics industry capacity to develop new knowledge, new products and new services. The goal of the West Virginia Biometrics Initiative is to have local industries and other partners collaborate on and participate in every major Federal biometrics Request for Proposal. West Virginia will have the organizational capability to interact with out-of-state biometrics players and to draw human and capital resources to the region. The I-79 Development Council is growing the initiative in North Central West Virginia.

WEST VIRGINIA NATIONAL GUARD

Joint Forces Headquarters - West Virginia National Guard
1703 Coonskin Drive, Charleston 25311

The Office of the Adjutant General from 1863 to 1871 was combined with that of Quartermaster-General. In 1871, the State Superintendent of Free Schools served as Adjutant General ex officio. Chapter 37, Acts, 1877, passed February 17 of that year, transferred duties of the office to the State Librarian, and this official served as Adjutant General ex officio until the Office of Adjutant General was created by Acts, Chapter 61, 1897. The Adjutant General shall be appointed by the Governor, by and with the advice and consent of the Senate, for a term of four years. He or she shall have the rank of major general, or such other rank as is recognized by federal authority. No person may be appointed Adjutant General unless he or she has had at least six years’ commissioned service and attained field grade or higher rank in the organized militia of this or some other state or in the Armed Forces of the United States, or in all combined. The Adjutant General shall serve as chief of staff to the Governor and commanding officer of the organized militia. (Code 15-1A)

ARMY CORPS OF ENGINEERS

U.S. ARMY ENGINEER DISTRICT, HUNTINGTON

502 Eighth Street, Huntington 25701-2070
Website: www.lrh.usace.army.mil

Congress has delegated to the Corps of Engineers responsibility for the development, construction, operation and maintenance of navigation facilities, flood damage reduction structures and related improvements, and services for water resources management. The Civil Works Program of the Corps of Engineers is divided geographically by watershed drainage areas. All of West Virginia, except for the Eastern Panhandle, lies within the Ohio River drainage basin. The Eastern Panhandle lies within the Potomac River Basin. The Huntington District of the Great Lakes and Ohio River Division is responsible for the areas of West Virginia that drain to the Ohio River downstream of New Martinsville in Wetzel County. The Pittsburgh District has responsibility for areas of the state that drain to reaches above New Martinsville. This includes the Monongahela River Basin. The Potomac River Basin lies entirely within the Baltimore District. Emergency Management responsibilities for the State of West Virginia rest with the Huntington District. All military construction in West Virginia is the responsibility of the Baltimore District.

U. S. DEPARTMENT OF ENERGY

National Energy Technology Laboratory
3610 Collins Ferry Road, P. O. Box 880, Morgantown 26507-0880
Website: www.netl.doe.gov

The National Energy Technology Laboratory is the lead laboratory for the United States Department of Energy’s Office of Fossil Energy. The facility is a science, technology and energy laboratory owned and operated by the Department of Energy. As part of the department’s national laboratory system, this laboratory supports the agency’s mission to advance the national, economic and energy security of the United States.

Using unique capabilities in energy system dynamics, geological and environmental systems, computational and basic sciences, and materials science, the laboratory conducts cutting-edge research and technology development on-site. Extensive technology- and project-management capabilities are applied to shape, fund and manage research in 47 states and more than 40 foreign countries. Its portfolio of on-site and contracted research includes more than 1,400 projects; nearly one-half are carried out by private sector organizations. This emphasis on the private sector is essential to its mission. The laboratory’s ultimate success comes when the advanced technologies emerging from the laboratory’s research activities are commercialized in the private sector.

The National Energy Technology Laboratory has sites in Morgantown, West Virginia; Pittsburgh, Pennsylvania; Sugar Land, Texas; Albany, Oregon; and Fairbanks, Alaska. In total, these sites include 81 buildings and 14 major research facilities on nearly 200 acres. More than 1,100 employees work at the five sites; roughly half are federal employees and half are site support contractors.

Immigration Customs Enforcement

U. S. Citizenship and Immigration Services
This office handles scheduled interviews on non-asylum related applications, and also provides limited information and customer services that supplement what is provided on its website and by phone. The agency strongly recommends making an appointment before visiting the office. While this office serves all of West Virginia, people who live nearer the Pittsburgh office may work with that facility.

Application Support Center
A component under U. S. Citizenship and Immigration Services, this office provides fingerprinting and biometric services by scheduled appointments for all applicants who file applications for any immigration benefit.
U. S. CUSTOMS AND BORDER PROTECTION
ADVANCED TRAINING CENTER
440 Koonce Road, Harpers Ferry 25425
Website: www.cbp.gov

Dedicated August 30, 2005, on 104 acres near Harpers Ferry National Historical Park in Jefferson County, the U. S. Customs and Border Protection Advanced Training Center is the first in the nation to provide advanced law-enforcement training specially related to border protection efforts. Customs and Border Protection is one of the Department of Homeland Security’s largest and most complex components, with a priority mission of keeping terrorists and their weapons out of the U.S. It also has a responsibility for securing and facilitating trade and travel while enforcing hundreds of U.S. regulations, including immigration and drug laws.

National Vessel Documentation Center
792 T J Jackson Drive, Falling Waters 25419
Website: www.uscg.mil/hq/cg5/nvdc/

The National Vessel Documentation Center (NVDC) facilitates maritime commerce and the availability of financing while protecting economic privileges of United States citizens through the enforcement of regulations, and provides a register of vessels available in time of war or emergency to defend and protect the United States of America. Vessel documentation is a national form of registration, one of the oldest functions of government, dating back to the eleventh act of the First Congress. It provided conclusive evidence of nationality for international purposes, unhindered commerce between the states and admits vessels to certain restricted trades, such as coastwise and fisheries. In addition, its function as a center for the recording of bills of sale, mortgages and related instruments affecting the title of documented vessels provides integrity to the maritime lending process. The Center records mortgages with a total value of more than $400 million each year. The NVDC employs 101 civilians to carry out its mission.

NATIONAL PARK SERVICE

Harpers Ferry National Historical Park

P. O. Box 65, Harpers Ferry 25425

Website: www.nps.gov/hafe

Established in 1944, Harpers Ferry National Historical Park is located at the confluence of the Potomac and Shenandoah rivers in the states of West Virginia, Virginia and Maryland. George Washington, Thomas Jefferson, Meriwether Lewis, John Brown, “Stonewall” Jackson and Frederick Douglass are just a few of the prominent individuals who left their mark on this place.

The story of Harpers Ferry is more than one event, one date or one individual. It involves a diverse number of people and events that influenced the course of our nation’s history. Harpers Ferry witnessed the first successful application of interchangeable manufacture, the arrival of the first successful American railroad, John Brown’s attack on slavery, the largest surrender of Federal troops during the Civil War and the education of former slaves in one of the earliest integrated schools in the United States.

New River Gorge National River

P. O. Box 246, Glen Jean 25846

Website: www.nps.gov/neri

New River Gorge National River was established in 1978 to preserve and protect 53 miles of the New River as a free-flowing waterway. This unit of the National Park System encompasses over 70,000 acres of land along the New River between Hinton and Hawks Nest State Park. The park and the surrounding area are rich in cultural and natural history and contain a variety of scenic and recreational activities. Park headquarters is centrally located in Glen Jean, with employees stationed there and throughout the park.

Gauley River National Recreation Area

Website: www.nps.gov/gari

The Gauley River National Recreation Area includes 25 miles of the Gauley River and five miles of its tributary, the Meadow River.

Established in 1988 for its recreational opportunities, Gauley River National Recreation Area offers picnicking, primitive camping, hunting, fishing and whitewater boating. Immediately adjacent to the recreation area is Summersville Dam, which regulates the flow of the Gauley River, creating an outstanding fall whitewater season. The Gauley River is considered to be among the best whitewater rivers in the world by expert kayakers, canoeists and rafters. The only public launch site is at the Tailwaters area of Summersville Dam. The neighboring Carnifex Ferry Battlefield State Park offers scenic overlooks and a rim-to-river hiking trail.

Superintendent: Patricia “Trish” Kicklighter
Bluestone National Scenic River
Website: www.nps.gov/blue

The Bluestone National Scenic River is a 10.5-mile section of the Bluestone River, between Pipestem Resort State Park and Bluestone State Park, in southern West Virginia. Created in 1988 under the Wild and Scenic Rivers Act, this free-flowing river is best reached from the neighboring state parks. The river and its gorge support an abundance of aquatic life, a variety of birds and mammals and a diverse mix of forest types. The resources, size and location of the scenic river make it attractive for daytime visits. It is not open for camping. Hunting is permitted in the state-operated Wildlife Management Area of Bluestone National Scenic River. The Bluestone River is a warm-water fishery for catfish and smallmouth bass. Occasionally water levels are suitable for canoeing or kayaking.

**Criminal Justice Information Services Division**

*1000 Custer Hollow Road, Clarksburg 26306*

Website: [www.fbi.gov/about-us/cjis](http://www.fbi.gov/about-us/cjis)

In January 1991, the Federal Bureau of Investigation purchased 986 acres of land in Clarksburg on which to construct the home of this division. Construction started in October 1991 and was completed in July 1995, on time and under budget. The heart of the complex is the 500,000-square-foot main office building. Constructed in a modular design, this building is nearly the length of three football fields and features a 600-seat cafeteria, a 500-seat auditorium, atria for visitors and employees and a 100,000-square-foot computer center. The division operates 24 hours a day, seven days a week and employs a work force of approximately 2,400 individuals.

As the largest division in the bureau, its mission is to equip our law enforcement, national security and intelligence community partners with the criminal justice information they need to protect the United States while preserving civil liberties. Through the Integrated Automated Fingerprint Identification System, which became operational on July 28, 1999, responses to electronic criminal fingerprint submissions are made within two hours of receipt by the FBI and to electronic civil applicant submissions within 24 hours.

The first National Cemetery in the state of West Virginia was established in 1867 by Act of Congress. Located in the town of Grafton, it consists of 3.21 acres and has a gravesite capacity of 2,134 with no undeveloped area for expansion. After it became apparent that the facility was running out of burial space, the West Virginia National Cemetery was established at nearby Pruntytown on June 2, 1991. The cemetery consists of 58 acres, approximately 15 of which are to be used for burials.

Grafton National Cemetery was listed on the National Register of Historic Places in 1982.

NATIONAL RADIO ASTRONOMY OBSERVATORY

Route 28/92, P. O. Box 2, Green Bank 24944
Website: https://science.nrao.edu/facilities/gbt/

The National Radio Astronomy Observatory was founded in 1956 in Green Bank, West Virginia. The Green Bank site was originally chosen because of its sheltered, valley location and its distance from large population centers. The natural mountain bowl surrounding Green Bank helps protect it from man-made radio interference, which is harmful to sensitive radio astronomy observations. In addition, Green Bank is in the center of a 13,000-square-mile area known as the National Radio Quiet Zone. This area, created by federal regulations, is protected from harmful radio frequency interference broadcasts.
