GENERAL BUSINESS

The West Virginia Board of Dental Examiners met on Monday, July 25, 2005 for an emergency meeting by telephone conference at the Board's Office located at 207 South Heber Street, Beckley, WV 25801. Those present were Dr. Richard D. Smith, President, Mrs. Dina A. Vaughan, BSDH, MS, Secretary, Dr. John C. Dixon, Dr. Bernard J. Grubler, Dr. James W. Vargo, Dr. David G. Edwards, Dr. George D. Conard, Jr., and Mrs. Dolores L. Gribble all members of the Board, Mr. John F. Parkulo, Executive Secretary, and Mrs. Susan M. Combs, Office Manager. Absent was Mrs. Debra D. Dent.

The first order of business was the meeting notice to the Secretary of State dated July 22, 2005 which was distributed for information purposes.

The next order of business was the consideration of comments received concerning proposed rules 5CSR3. Written comments were taken one by one for purposes of the Board's review and consideration, as follows:

1 - Dr. Edwin V. Kluth opposed to the fee increases as proposed by the Board due to insufficient justification.

2 - Dr. Robert E. Brossman opposed to the fee increases as proposed by the Board due to insufficient justification and different approaches to funding the Board.

3 - Ms. Mary Ann Yandrich opposed to fee increases before the investigation and/or resolution of HCR-63 and has issues with dental assistants not being licensed.

5 - Ms. Jennifer D. Blaskovich requests a yearly fee to register assistants or licensure of assistants, suggests a fee for dental assistant's roster and requests for future purposes a Board representative attend one of the WV Dental Hygienists' Association meetings for an explanation of proposed rules and answer questions.

6 - Jeanette Gryskevich opposed to fee increases before the investigation and/or resolution of HCR-63 and has issues with dental assistants not being licensed.

After the Board's review of these comments, the Board addressed them as follows:

1. The Board is of the opinion fee increases are justified to conduct the business of the Board in the protection of the public as legislatively mandated. The projected revenue is necessary and will be appropriated accordingly.
2. The Board must continue to conduct the business of the Board during the investigation and/or resolution of HCR-63. Currently the Board is undergoing an Audit by the Performance Evaluation and Research Division of the West Virginia Legislature, pursuant to "Sunset Legislation", which review will be presented to the Legislature.
3. The Board can not charge an annual registration fee by Legislative rules to dental assistants. The Board is of the opinion it would take a change in the Dental Practice Act to impose a fee upon the dental assistants practicing in the State of West Virginia, whereas licensure of professionals is set by statute.
4. A roster of Assistants, as well as Hygienists, who hold a certificate for expanded duties is available.

At this time a motion was made by Mrs. Dina A. Vaughan, BSDH, MS, and properly seconded by Mrs. Dolores L. Gribble, and unanimously passed to add sections to include a roster for hygiene and assistant certificate holders to the rules.

After further discussion a motion was made by Dr. Bernard J. Grubler, and properly seconded by Dr. John C. Dixon, and unanimously passed to change the directive of the previous motion to only change the language of sections 9.6, 9.7 & 9.8 to include a roster for hygiene and assistant expanded duties certificate holders instead of adding new sections.

The President directed the staff to file the rules with the amendments made during the Board's July 14th meeting and today's meeting. The staff was directed to make any amendments necessary for consistency, clarity or misspellings at the discretion of the Executive Secretary and include with the filing the letters and attachments that are being sent to the WV Dental Association, WV Dental Assistants Association, WV Dental Hygiene Association, Dr. Kluth, Dr. Brossman, Mrs. Yandrich, Mrs. Blaskovich and Mrs. Gryskevich concerning justification of the increase in fees.

The next order of business was an update on the emergency rule concerning 5CSR3 and the additional documents requested by the Secretary of State's Office in reviewing the rule. Mr. Parkulo informed the Board that no decision has been made by the Secretary of State's Office at this time and that if none is made the rule will take effect July 28, 2005.

The next order of business was the discussion of the proposed legislative rules concerning dental advertising 5CSR8. The Board received no comments concerning these rules and made no changes. The President directed the staff to file the rules as proposed.

DENTAL ADVERTISING

On March 11, 2006, the Legislature passed the Board's rule concerning dental advertising. This rule went into effect May 1, 2006, and regulates the advertising of the practice of dentistry in the State of West Virginia. You may visit the Board's web site at www.wvdentalboard.org to print a copy of these rules.

In addition to reviewing these new rules, please review the Dental Practice Act, which is also on our web site. The Board has received complaints concerning advertisements being placed by dentists in phone directories, magazines, newspapers, etc.

A person may not present themselves as a specialist of an area of dentistry unless actually licensed in that specialty area.

Do not advertise as a specialist in an area of dentistry that is not a recognized specialty.

You may not claim or give the impression of professional superiority or the performance of professional services in a superior manner.

Do not guarantee any dental services.

Do not advertise pain-free dental treatment.

Do not advertise in any manner that is false or misleading in any material respect.

If you are a general dentist state in your ads that you are a general dentist and not a specialist. For Example:

General Dentistry

We Are Not Licensed Specialists

The use of titles such as DDS, DMD and MD are allowed. Use of specialty diplomates and degrees are allowed only if it is a recognized specialty of the ADA and the individual(s) have obtained a specialty certificate from the Board allowing him or her to engage in a specialty practice. Claims made in ads must be truthful and substantiated by competent and reliable evidence. Please pay close attention when approving ads concerning your practice. You are responsible to ensure the ads are not in violation of the Dental Practice Act or the Board's rules. **All ads should be approved by the licensee(s) and not office staff!**

The Board has sent several educational and/or cease and desist letters concerning advertisements and will be reviewing particular dentists' ads in the future to ensure compliance with the rules. Should a dentist be found guilty of violating the laws and/or rules, a fine may be assessed up to \$1,000 per day per violation.

CORPORATION & PLLC RENEWALS

Corporation and PLLC renewals require copies of certain forms to be attached to the renewal form in order to continue authorization for the Corporation or PLLC. The Board has several Corporations and PLLCs that are in continued default status in violation of the Board's rules. Currently the Board is following complaint procedures to resolve these matters which could result in disciplinary actions against the licensees.

PLLC OR CORPORATION NAMES AND NAME CHANGES

Only actively practicing dentists may be incorporators of a Dental PLLC or Dental Corporation. The PLLC or Corporation shall contain nothing but the name, which must include surnames of one, some or every shareholder of the corporation, except in a case where a city, town or municipality may be used when necessary to make a name unique with the Secretary of State's Office.

All PLLC or Corporation name changes must be approved by the Board and will be forwarded to the Secretary of State directly by the Board.

REPORTING OF IMPAIRED PRACTITIONERS

As a licensed professional in the State of West Virginia, if you work for or with or have knowledge of a person who is licensed by the Board and is a danger to the public due to impairment or any other means, you are legally obligated to report that licensee to the Board. Disciplinary actions may be taken against any licensee that fails to do so.

PRESCRIBING AND CHRONIC PAIN ISSUES

The Board has noted a growing number of dentists who are over-prescribing narcotics for dental procedures and chronic pain cases. The Board is conducting numerous investigations and has issued formal complaints concerning over-prescribing and the treatment of chronic pain. The Board will be taking a firm stand regarding these issues in order to protect the health, safety, and welfare of the public.

DEFAULTED EMPLOYERS

During the past licensure renewal period the Board denied the issuance of renewal certificates to fifteen (15) licensees listed as in default with WV Worker's Compensation Division, now Brick Street, or the Unemployment Compensation Division. All licensees corrected the default status, and licenses were issued before the May 1st suspension deadline.

New Corporations or PLLCs will not be authorized if a dentist is listed as being in default with Worker's Compensation Division or Unemployment Compensation Division.

TRADE NAMES

The rules of the Board prohibit the use of trade or firm names for the practice of dentistry and allow only the use of a dentist and/or dentists own true name(s). The Board will be taking a more aggressive approach in enforcing these rules.

CONTINUING EDUCATION REQUIREMENTS

The required amount of continuing education credits for dentists and hygienists has increased. Dentists are required to obtain thirty-five (35) hours and hygienists twenty (20) hours within a continuing education period, with at least two (2) of those hours relating to infection control and/or occupational hazards, oral effects of tobacco use, or the oral effects of substance abuse.

The Board recognizes individuals who serve on national, state, and local dental or dental hygiene boards, councils or committees and allows one (1) hour of continuing education credit for every four (4) hours of meeting time. This amount cannot exceed more than five (5) hours of the total biennial requirement

Dentists may earn up to five (5) hours and hygienists three (3) hours of credit by providing treatment to indigent patients (pro bono). One half hour (1/2) is allowed for every hour of documented treatment.

Documentation must be retained for care of indigent patients and would be necessary to complete any continuing education audit.

A current certification for a Health Care Provider CPR/Basic Life Support is required and does count toward CE credits.

INFECTION CONTROL STANDARDS

The Board is seeing an increasing number of complaints regarding infection control. All dentists & hygienists should strictly follow the American Dental Association Policy Statement on Bloodborne Pathogens, Infection Control and the Practice of Dentistry. The Board will not tolerate anything less.

REPORTING OF DEATH, SERIOUS COMPLICATIONS OR INJURY

If a death, complication or injury occurs from the administration of general anesthesia/deep conscious sedation, conscious sedation, anxiolysis or relative analgesia, the licensee performing the dental procedure must submit a written detailed report to the Board within five (5) days of the incident, along with copies of the patient's original dental records. If the anesthetic agent was administered by a person other than the person performing the dental procedure, that person must also submit a detailed written report. The report(s) must include:

- (1) Name, age and address of patient;
- (2) Name of the licensee and other persons present during the incident;
- (3) Address where the incident took place;
- (4) Type of anesthesia and dosages of drugs administered to the patient;
- (5) A narrative description of the incident including approximate times and evolution of symptoms; and
- (6) The anesthesia record and the signed informed consent form for the anesthesia when required.

ANXIOLYSIS & ENTERAL SEDATION

CERTIFICATE OR PERMIT REQUIRED

Effective July 8, 2005, the new anesthesia law took effect in the State of West Virginia. The law requires dentists who prescribe a single pre-med for anxiety, **combined** with nitrous oxide, obtain a certificate to do so. This certificate is known as a Class 2 certificate for anxiolysis.

The law also requires those using multiple dosing beyond the recommendations of the manufacturer, with or without the use of nitrous oxide, to obtain conscious sedation obtain a permit to do so. This permit is known as a Class 3a permit for enteral sedation.

Should you be inducing these types of sedation without a certificate or permit, you are in violation of the law and will be disciplined accordingly.

Should you need to obtain a certificate or permit, you may contact the Board office for an application.

A single pre-med, within the recommended dose of the manufacturer, does not require a permit.

The use of nitrous oxide alone does not require a permit.

DISCIPLINARY ACTIONS

Dr. James G. Bryant - Consent Decree - Violation of the dental practice act. Fine \$1,000 costs assessed to date \$8,467.29.

Dr. James E. Kirkpatrick, III - Suspended for two years with suspension lifted and stayed. Violation of the dental practice act, license revoked in another State. Fine \$1,000 costs assessed to date \$2,802.00.

Dr. Michael Sokolosky, Jr. - Consent Decree - Violation of the dental practice act. Costs assessed \$750.00

NEW FEE SCHEDULE/LATE FEES

The Board office advises all licenses to review the new rules regarding fees and late fees.

Any Dental, Dental Specialty, Hygiene, Anesthesia licensee or Dental Corporation, PLLC, etc. that fails to renew by the specified renewal date, **shall be assessed a penalty fee equal to the renewal fee** as required by statute or rule, in addition to other conditions of renewal.

Any Licensee that fails to report his/her continuing education requirements by the required reporting date **shall be assessed a penalty fee equal the annual renewal fee of said licensee.**

Dental annual renewal fees were increased to \$150 and hygiene annual renewal fees were increased to \$65.

This rule went into effect April 18, 2006, and includes miscellaneous fees not previously charged. You may visit the Board's web site at www.wvdentalboard.org to review these rules.

NOTE CONCERNING RENEWALS

The Board's staff urges licensees to renew their licenses in a timely manner to avoid late fees and to help prevent the loss of your application.

Before you perform those Duties...

The Board reminds all dental auxiliary and employer dentists to secure the necessary certificates to do expanded duties that require a board-approved course and/or testing.

Completion of a board-approved course and/or testing does not authorize you to practice these privileges until your application is completed and a certificate is issued.

Performing such duties without a certificate issued by the Board of Dental Examiners is a violation.

ALSO, when applying for an expanded-duties certificate (restorative and orthodontic assistant, nitrous monitoring, bleaching and/or local anesthesia), a fee of \$25 per application will be charged.

MONITORING OF PATIENTS UNDER ANESTHESIA

It has come to the attention of the Board that WV Dentists are, in some instances, misinterpreting the intent of the laws regarding dental anesthesia.

The dentist shall monitor and record the patient's condition or shall use an assistant qualified to monitor and record the patient's condition. A qualified monitor shall be present to monitor the patient at all times.

1. Class 3a/3b permit holders - It is acceptable, but not preferred, for the dentist to act as the qualified monitor. However, the dentist must do all of the necessary recordings of time and amount of medications given, along with the recordings of the patient's vital signs, as well as complete the dental procedures. The Board knows this is difficult to do and perform the necessary procedures on the patient at the same time. This is why the proper guidelines have been set up to encourage the dentist to have additional qualified monitor personnel to help care for the patient and to assist in the event of an anesthesia emergency. **Class 4 permit holders must always utilize qualified monitor personnel.**

2. Class 3a/3b permit holders - It must also be stressed that if the dentist is not utilizing a qualified monitor in the care of the patient, then at no time from the start of sedation until discharge of the patient, including complete recovery and into the care of an adult that will transport the patient from their office, is the dentist permitted to physically leave this patient unattended. **(The dentist cannot leave the patient) Class 4 permit holders must always utilize qualified monitor personnel.**

It has been found and noted that there are many 3a and 3b permit holders who do not utilize qualified anesthesia monitors within their staff to aid in the care of their sedation patients.

All permit holders are expected to practice the standard of care through the guidelines that have been established in accordance with the true intent of the dental anesthesia law. If an emergency would occur, having a qualified monitor along with the dentist makes good sense.

If you do have a 3a/3b or 4 permit herein described, please review the dental anesthesia law, §30-4A-1 et seq. of the West Virginia Code. The Board encourages all 3a/3b permit holders to employ a qualified monitor person for the safety of your patients and peace of mind for you and your staff.

All licensees corrected the default status, and licenses were issued before the May 1st suspension deadline.

New Corporations or PLLCs will not be authorized if a dentist is listed as being in default with Worker's Compensation Division or Unemployment Compensation Division.

Should a licensee be in a continued default status without resolution, the Insurance Commission will request revocation of the professional license and the Board will act upon that request.

CONTINUING EDUCATION REQUIREMENTS

The required amount of continuing education credits for dentists and hygienists has increased. Dentists are required to obtain thirty-five (35) hours and hygienists twenty (20) hours within a continuing education period, with at least two (2) of those hours relating to infection control and/or occupational hazards, oral effects of tobacco use, or the oral effects of substance abuse.

The CE reporting form has been altered to make your reporting of specific hours simpler. There are now sections for lecture courses, home-study courses, and your infection control, drug abuse, and/or substance abuse courses. Please record your hours accordingly.

Monitor your courses carefully. Do not have more home-study courses than is allowed.

Your documentation must have your name, the name of the course, and the number of credit hours allowed for the course.

Courses that pertain to **money management and/or personal business matters** are not approved for continuing education credit according to the Board's Rules.

A copy of the CE requirements is attached. Please familiarize yourself with its content, and maintain the copy for future reference.

The Board is seeing an increasing number of complaints regarding infection control. All dentists & hygienists should strictly follow the American Dental Association Policy Statement on Bloodborne Pathogens, Infection Control and the Practice of Dentistry. The Board will not tolerate anything less.

Before you perform those Duties...

The Board reminds all dental auxiliary and employer dentists to secure the necessary certificates to do expanded duties that require a board-approved course and/or testing.

Completion of a board-approved course and/or testing does not authorize you to practice these privileges until your application is completed and a certificate is issued.

Performing such duties without a certificate issued by the Board of Dental Examiners is a violation.

ALSO, when applying for an expanded-duties certificate (restorative and orthodontic assistant, nitrous monitoring, bleaching and/or local anesthesia), a fee of \$25 per application will be charged.

TRADE NAMES

The rules of the Board prohibit the use of trade or firm names for the practice of dentistry and allow only the use of a dentist and/or dentists own true name(s). The Board will be taking a more aggressive approach in enforcing these rules.

DENTAL ADVERTISING

On March 11, 2006, the Legislature passed the Board's rule concerning dental advertising. This rule went into effect May 1, 2006, and regulates the advertising of the practice of dentistry in the State of West Virginia. You may visit the Board's web site at www.wvdentalboard.org to print a copy of these rules.

In addition to reviewing these new rules, please review the Dental Practice Act, which is also on our web site. The Board has received complaints concerning advertisements being placed by dentists in phone directories, magazines, newspapers, etc.

A person may not present themselves as a specialist of an area of dentistry unless actually licensed in that specialty area.

Do not advertise as a specialist in an area of dentistry that is not a recognized specialty, **i.e. cosmetic dentistry or laser dentistry.**

You may not claim or give the impression of professional superiority or the performance of professional services in a superior manner.

Do not guarantee any dental services.

Do not advertise pain-free dental treatment.

Do not advertise in any manner that is false or misleading in any material respect.

If you are a general dentist, state in your ads that you are a general dentist and not a specialist. For Example:

General Dentistry

We Are Not Licensed Specialists

The use of titles such as DDS, DMD and MD are allowed. Use of specialty diplomates and degrees are allowed only if it is a recognized specialty of the ADA and the individual(s) have obtained a specialty certificate from the Board allowing him or her to engage in a specialty practice.

Claims made in ads must be truthful and substantiated by competent and reliable evidence. Please pay close attention when approving ads concerning your practice. You are responsible to ensure the ads are not in violation of the Dental Practice Act or the Board's rules. **All ads should be approved by the licensee(s) and not office staff!**

The Board has sent several educational and/or cease and desist letters concerning advertisements and will be reviewing particular dentists' ads in the future to ensure compliance with the rules. Should a dentist be found guilty of violating the laws and/or rules, a fine may be assessed up to \$1,000 per day per violation.
