Thereafter the complaint committees met with the Board's Counsel to review complaints and disciplinary matters, with no decisions or votes being made.

July 19, 2018

The Board's President, Dr. Gerber, determined this meeting was properly noticed with the Secretary of State's office and a sufficient number of Board members were in attendance to constitute a quorum. The quorum was determined by the presence of Dr. Gerber, Dr. Veltri, Dr. Black, Dr. Bogers, Mr. Ford, Dr. Kaczkowski, Mrs. Shea, Dr. Smith & Mrs. Stevens. Therefore, the meeting of the West Virginia Board of Dentistry was called to order.

The Board received information concerning the denial of claims due to the lack of a Board Order to close during this crisis. At the request of the President, the staff drafted a letter on behalf of the dental offices affected stating remaining open during a "Do Not Use" order by West Virginia American Water Company would be a violation of the Dental Practice Act, more specifically under § 30-4-19(g)(7). The Board approved the letter by general consent. The letter was mailed certified to Smith, Cochran and Hicks, PLLC, Claims Administrator.

The next order of business were newsletters, which were taken for information purposes, from the following:

Mr. Evan M. Dewey, Administrative Assistant

The Board President, Dr. Gerber, determined this meeting was properly noticed with the Secretary of State's office and a sufficient number of committee members were in attendance to constitute a quorum. The quorum was determined by the presence of Dr. Veltri, Dr. Kaczowski and Mrs. Shea. Therefore, the meeting of the West Virginia Board of Dentistry's Regional Exam Review Committee was called to order.

The purpose of this meeting was to discuss and consider the presentations from the regional testing agencies to propose any recommended changes to the Board's statutes or rules regarding clinical testing for licensure. Other documents relied upon for this meeting were from other states statutes and rules.

Dr. Samuel V. Veltri presented a proposal of language to request of legislature to add to the dental practice act in regards to dental clinical testing as follows:

In §30-4-8(4) Has successfully passed a National Board examination as given by the Joint Commission on National Dental Examinations and a clinical examination administered by one or more of the following CDCA, CRDTS, CITA, SRTA, WREB, which demonstrates competency in;

- a. Endodontics, including access opening of a posterior tooth and access, canal instrumentation and obturation of an anterior tooth;
- b. Fixed Prosthodontics, including an anterior crown preparation and two posterior crown preparations involving a fixed partial denture factor;
- c. Periodontics, including scaling and root planning on a live patient in a clinical setting;
- d. Restorative, including a class II amalgam or composite preparation and restoration and a class III composite preparation and restoration on a live patient in a clinical setting.

After discussions the committee would recommend adding after the testing agencies named in the proposal, or successor agency, in case of any mergers or name changes of these agencies. Also, the committee would recommend that each section of the exam as described be passed individually with no compensatory scoring as subsection (e), as well as referring to patient based clinical setting as opposed to "on a live patient" in the other subsections.

In addition, the committee would recommend adding in regards to the required hygiene clinical testing language as follows:

Satisfactorily passing a board approved patient based exam designed to determine the applicant's level of clinical skills.

The committee will make these recommendations to the full Board during their meeting on November 2, 2018. At this time the committee meeting adjourned.

May 30, 2020

The Complaint Committees met to review complaints and disciplinary matters with no decisions or votes being made on April 30, 2020.

The Budget and Personnel Committees held a joint meeting to discuss the Board's finances, review the 2021 budget and to review personnel issues, including, but not limited to possible salary increases, with no decisions or votes being made.

Thereafter, the Board's President, Dr. Veltri, determined this meeting was properly noticed with the Secretary of State's office and a sufficient number of Board members were in attendance to constitute a quorum. The quorum was determined by the presence of eight of the nine Board members. Therefore, the meeting of the West Virginia Board of Dentistry was called to order.

The first order of business were the meeting notices to the Secretary of State which were distributed for information purposes only.

At this time the Board President, re-arranged the topic list and moved the budget and personnel committee reports, as well as the elections to the top of the list.

The next order of business was a report by the budget committee concerning the Board's finances, which appear to be adequate to conduct the legislatively mandated business of the Board, and the 2021 budget. The committee will continue to be engaged with the staff in the review of financial and administrative processes. Also, the Board reviewed the financial reports, as well as the PCard report from January through May 2020, which includes the Ghost Travel report, with all board members having the opportunity to review the PCard logs, documentation and receipts at this time. The Personnel Committee made recommendations for raises for the Executive Director and Administrative Assistant at 10% for the 2021 fiscal year. Mrs. Beverly L. Stevens made a motion to accept the budget report along with the financial and Pcard

report, as well as the recommendations of the Personnel Committee to increase the salaries of Mrs. Combs and Ms. Lesko. Dr. Stan W. Kaczkowski seconded the motion, which unanimously passed.

The next order of business was a discussion concerning the elections for the 2021 fiscal year. After short discussion the Board declined to have an election and to continue with current officers.

The next order of business were the minutes from the following meetings: January 16, 2020 - Committee on Expanded Duties; January 17 & 18, 2020; March 16, 2020 - Emergency Meeting; March 18, 2020 - Emergency Meeting; March 24, 2020 - Emergency Meeting; April 7, 2020 - Licensing Review Committee; April 14, 2020 - Emergency Meeting; April 27, 2020 - Emergency Meeting; and April 29, 2020 - Emergency Meeting. Upon motion by Dr. John E. Bogers, and properly seconded by Dr. Lewis D. Gilbert, and unanimously passed, all of the minutes were approved as distributed.

The next order of business was a general legislative discussion, concerning bills passed during the 2020 legislative session, final filed rules, forms for low income waiver, military waiver and petition for eligibility, and a letter from Dr. Steven Whitaker concerning adding Oral Medicine as a specialty to the practice act. All documents were distributed for information purposes only. Assignment of Committees to review the Mobile and Portable Dental Unit Rule will be visited at the next meeting.

The next order of business was a review of the licensure requirements during the COVID19 pandemic and the Board guidance regarding provisional licensure. As a matter of clarification for the Board's current guidance Dr. David G. Edwards made a motion to require 2020 Dental Hygiene graduates take a hands-on exam on a live patient or manikin prior to February 1, 2021. The manikin exam will only be accepted for 2020 graduates and must be taken prior to February 1, 2021. Mrs. Mary Beth Shea seconded the motion, which passed unanimously. The Board received a question whether it would waive part 2 of the national boards for a provisional license. National Boards, part 1 and 2 are required for licensure and/or provisional licensure. Also, the Board received a question if it would waive the periodontic portion clinical boards. The periodontic portion will be required for full licensure. The Board received a question in regards to CPR card renewals during the pandemic. The Board has been informed the American Heart Association has extended the expiration dates of cards expiring March through July, 2020, by three months. This should help our licensees in finding a CPR course in a more timely manner.

The next order of business were Regional Board Reports and membership representation as well as information concerning the Commission on Dental Competency Assessments Annual Meeting Summary and the upcoming meeting of the Southern Regional Testing Agency. Board members were assigned to posts of the Southern Regional Testing Agency and proxy forms were signed and collected for the upcoming meeting.

The next order of business was a review of the CDC Guidance for Healthcare Settings updated May 18, 2020, which were taken for information purposes.

The next order of business were letters the Board sent to elected officials concerning the inability of West Virginia Dentists to obtain personal protective equipment for their practices. The Board discussed sending letters to other officials and national reporters with a carbon copy to all state dental boards.

The next order of business were accreditation actions from the Commission on Dental Accreditation, which were taken for information purposes.

The next order of business was a question concerning the employment of dental hygienists with public health permits. The question was as follows: Can a dentist employ 5 public health permitted hygienists, but only 2 are providing services in a nursing home while the other 3 are working under direct supervision? After review of the question, the answer would be yes. A dentist can employ more than 4 public health permitted hygienists, but only 4 can practice public health at one time under that dentists supervision.

The next order of business was the regulatory review report issued by the Board and reported to The Legislative Rule Making Review Committee, which was taken for information purposes.

The next order of business was an update by Susan Combs concerning the licensing software with GL Solutions. Meetings with GL are held on a regular basis and Susan reported she continues to learn more about the system. There were a few issues with online renewals for anesthesia permits and qualified monitors, but those have been resolved and those renewals were mailed a couple of weeks ago. Corporation and PLLC renewals were mailed the end of April and seem to be going smoothly so far. Also, the new phone system the office purchased from the statewide contract through SEGRA has been installed and is working well.

At this time the Board wanted to discuss more personnel issues. At this time the President announced the need for an Executive Session to consider matters under provisions contained in Chapter 6, Article 9A, Section 4, not limited to, but primarily for those contained in Subsections (4) and (6). Specifically to discuss personnel matters, including but not limited to staffing policies as well as to review complaints and investigations.

Upon motion by Mrs. Mary Beth Shea, and properly seconded by Dr. C. Richard Gerber, and unanimously passing, the guests left the room and the Board went into an Executive Session. Thereafter, the Board came back into a general session upon motion by Dr. David G. Edwards, and properly seconded by Dr. Stan W. Kaczowski, which unanimously passed.

Dr. Stan W. Kaczowski made a motion to alter the Board's policy regarding the use of investigators, by utilizing investigators in the Attorney General's office whenever possible and discharging the current investigators, with the exception of the OSHA investigator Dina Vaughan, but recommend updating her employment paperwork. Mrs. Beverly L. Stevens seconded the motions, which passed unanimously.

The next order of business were the Board of Risk and Insurance Management related safety requirements. The following were reviewed: Driver safety; drug & alcohol free workplace; workplace harassment; IT and information policy; protecting personally identifiable information; safety committee appointment document; safety inspection checklist; safety minutes; safety policy; and workplace security.

The next order of business were future meetings, which were taken for information and included:

THE DENTAL EXAMINER

President's Message

I feel extremely privileged to again serve as President of the WV Board of Dentistry. Being closely involved with my profession has always been a passion with me, and I am grateful for these experiences. I am also very thankful to have the opportunity to serve on the Board with the most dedicated professionals I know. Thanks to the current Board for their conscientiousness and unparalleled hard work! Furthermore, I also extend thanks to the Board's staff, Susan Combs, our Executive Secretary, Betty Adkins, Board Attorney, Evan Dewey, Administrative Assistant, Office Manager, Carolyn Brewer, and our team of Investigators.

I also extend my appreciation and thanks to Dr. Stan Kaczowski for his service as President over the last two years. Stan is a natural leader and continued to direct the Board in a positive direction. Again, thanks for a job well done! Additionally, Stan was recently reappointed to the Board for another term by Governor Justice. Congratulations Stan!

Finally, should anyone have any questions or concerns, the Board wants to hear from you. Feel free to contact me.

Sincerely, C. Richard Gerber, D.D.S.

Reminder EPA Dental Effluent Regulations

In July 2017 new dental effluent regulations went into effect requiring dental offices that place or remove amalgam to operate and maintain an amalgam separator and not discharge scrap amalgam or use certain kinds of line cleaners. The Board placed this specific information on the Board's website, as well as in the Board's newsletter last fall. As of September 2018, the Division of Water and Waste Management, Permitting and Engineering Branch, of the West Virginia Department of Environmental Protection have received information from only 6 West Virginia dental facilities. These facilities submitted a one-time compliance report, required by the new regulations. The deadline for installing an amalgam separator and sending a one-time compliance report is July 2020. If a dental office does not comply, they may be subject to being classified as an Industrial User and may be required to do sampling and reporting their wastewater discharge.

Public Notification of Expenses

***The Dental Recovery Network is a rehabilitation service offered to licensed dental professionals who are dealing with substance abuse and/or mental disorders.**
***FY 2018 Expenses were \$43,180 less than the previous fiscal year.**

Fiscal Year 2018 Expenses	
Salaries and Employee Benefits	\$252,266
Legal Counsel	52,937
Operations/Office Expenses	95,615
Dental Recovery Network	15,000
Association Dues	7,645

Nitrous Oxide Monitoring Requirements

The administration of Nitrous Oxide by a licensed dentist in West Virginia does not require a permit. However, there are facility and monitoring requirements set-forth in statute and the Board's rules.

Chapter 30, Article 4A, Section 4 sets forth the qualifications, standards and continuing education requirements for relative analgesia/minimal sedation use. Relative analgesia is a combination of nitrous oxide and oxygen **or** single oral premedication without the addition of nitrous oxide and oxygen.

A practitioner who administers relative analgesia/minimal sedation shall see that the patient's condition is visually monitored. At all times, the patient shall be observed by a qualified monitor until discharge criteria have been met.

When administering nitrous oxide and oxygen, while a qualified monitor certification is not required, the monitor must hold a nitrous oxide monitoring certification issued by the Board and maintain current BLS/CPR certification.

Nausea and vomiting are the most common adverse effects in patients. This type of occurrence becomes more likely during longer periods of administration of nitrous oxide/oxygen .

The Board recommends a review of the laws and rules concerning the use of sedation techniques, monitoring, facility and equipment, and emergency requirements.

About the Dental License Renewal Form

The renewal of licensure on a form prescribed by the Board is required by statute. Whether you complete and file your dental license renewal form online or on paper, it is important that you complete the renewal yourself. There are personal history questions on the renewal form, which require a truthful answer. Your staff may not know the correct answers to these questions. When signing the renewal form, whether in ink or electronically, you are attesting these answers are true and you, the licensee, are ultimately responsible. Failing to furnish to the board or its representatives any information legally requested or obtaining a board authorization by fraud, misrepresentation or concealment of material facts are violations of the law for which the Board will investigate and take disciplinary action. This same information pertains to dental hygiene licensees as well.

Corporations, PLLCs and Trade Names

Corporations and Professional Limited Liability Companies (PLLC) are to be authorized by the Board prior to completion by the Secretary of State's Office. An application to form a Corporation or PLLC must be filed with the Board office with copies of the articles of incorporation or organization and the fees. PLLC applications also require proof of one million dollars of liability insurance in the organizing dentist's name. Once it is determined the application is complete, with a proper name, the Board will issue an authorization directly to the Secretary of State's Office.

The name of a dental corporation shall contain the words "corporation," "professional corporation", "company," "incorporated," or "limited" or an abbreviation of one of those words.

The name of a professional limited liability company shall contain the words "professional limited liability company" or the abbreviation "P. L. L. C." or "Professional L. L. C."

For three years, the Board has been authorizing the use of names, other than surnames, for Corporations and PLLCs. Trade names are allowed to be used to name Corporations and PLLCs, but within the parameters of the Board's rules.

If you have a sole proprietorship and want to use a trade name, the parameters for using a trade name must be followed, but Board authorization is not required.

Corporations and PLLCs that are named using a surname are to be authorized by the Board. However, should you **add** a trade name to your Corporation or PLLC, you do not need authorization for the trade name or doing business as name, but it still must follow the parameters for using a trade name.

A dentist, partnership, professional corporation, or professional limited liability company that owns a dental practice may adopt a trade name for that practice so long as the trade name meets the following requirements:

- (1) The trade name incorporates one or more of the following: (i) a geographic location, e.g., to include, but not be limited to, a street name, shopping center, neighborhood, city, or county location; (ii) type of practice; or (iii) a derivative of the dentist's name.
- (2) Derivatives of American Dental Association approved specialty board certifications may be used to describe the type of practice if one or more dentists in the practice are certified in the specialty or if the specialty name is accompanied by the conspicuous disclosure that services are provided by a general dentist in every advertising medium in which the trade name is used.
- (3) The trade name is used in conjunction with either (i) the name of the dentist or (ii) the name of the sole proprietorship, partnership, professional corporation, or professional limited liability company that owns the practice. The owner's name shall be conspicuously displayed along with the trade name used for the practice in all advertisements in any medium.

The Board's applications to form a Corporation or PLLC are located on the Board's website.

Corporation & PLLC Name Changes

Name changes to Corporations and PLLCs are to be authorized by the Board. Name change requests must be made in writing, with amending documents, proper fee, and prior to completion of changes with the Secretary of State's Office. Once it is determined the name change is proper, the Board will issue an authorization directly to the Secretary of State's Office.

The rules as stated in the page 4 article apply.

THE DENTAL EXAMINER

President's Message

Greetings from the West Virginia Dental Board.

Being involved in organized dentistry has always been an important aspect to me personally in my career. My experiences with the Mon Valley Dental Association, WVDA and West Virginia Board of Dentistry have provided some of the most challenging and rewarding experiences of my professional career. It is with great honor and privilege that I accept the position of Board President for the upcoming year understanding our most important service, protecting the public.

I would like to extend my deepest gratitude to our immediate past President Dr. Richard Gerber for being not only an exemplary leader but also a mentor to me throughout my first three years on the Board. I'm sure I will continue to look to him for guidance.

I would also like to thank Dr. Byron Black and Dr. Charles Smith for their years of service to the Board. Their attention to detail and expertise will truly be missed. As Byron and Chuck step away I would like to welcome Dr. Lew Gilbert of Summersville and Dr. David Edwards of Wellsburg as our newly appointed Board members. Thank you both for accepting the position and we look forward to working with you. I would also like to thank Evan Dewey for his years serving as an Administrative Assistant to the Board and wish him well in his future endeavors and congratulate Carolyn Brewer on her retirement after 14 years of employment with the Board.

A special thank you should also go to the current Board members and staff for all of their dedication and hard work. We would not be in the position we are today without Susan Combs, Executive Director and Betty Adkins, Board Counsel. Thank you both for your continual commitment in helping this Board to serve the people of WV. And, welcome to Christina Lesko, our new Administrative Assistant who has shown so much capability in her short time at the Board office.

PRESIDENT'S MESSAGE CONTINUED

In regards to Legislation, over the past year we moved our language on specialties to statute and now that dental anesthesia has been added as a specialty, we will be addressing adding it in as well. We also clarified the clinical exam requirements for licensure to be content specific.

We have proposed changes in rules. In series 1 to clarify language where specialties were moved to statute, and process waivers of fees for initial licensure applications for low income and military personnel and spouses. In series 8 to reduce rules in regards to advertising to a minimum as the Board has the ability to go after false and misleading advertising in statute.

Should anyone have any questions or concerns, please contact the Board at any time. We want to hear from you!

Sincerely,

S. Vince Veltri DDS
