Board staff recently completed projects to include the workforce survey on the renewal forms and the online renewal, which seems to be going very well. The Board can only complete future projects in the back-end of the system as GL plans to upgrade the database to a new version of software, so no improvements to the website can be made until that is complete. Mrs. Gina Sharps asked if we could consider adding the general supervision and public health reports to the hygiene renewals and a fillable pdf for the website. The West Virginia Board of Dentistry has reviewed information concerning compacts of both, the Council of State Governments (CSG) and the American Association of Dental Boards Interstate Dental and Dental Hygiene Licensure Compact (IDDLIC). The Board has two primary concerns as it pertains to those individuals seeking licensure in West Virginia. The Board feels strongly that the authority to regulate the profession in West Virginia falls squarely on the shoulders of the West Virginia Board of Dentistry as mandated by Legislature and appointed by the Governor. Secondly, through years of experience, we strongly feel a hands-on skill component through a national clinical board exam should be required for initial licensure.

The West Virginia Board of Dentistry favors the IDDLIC compact because we feel it best addresses our two primary concerns.

Dr. John E. Bogers made a motion to approve the Statement. Dr. Don E. Skaff seconded the motion, which passed unanimously.

At this time the Board adjourned. The Board's next regularly scheduled meeting will be January 23 & 24, 2025, at the Embassy Suites, Charleston, WV.

Ms. Erwin was asked what action steps to make this model work in West Virginia? She responded start with a step at a time and consider the Entry Level portion and once that works the other levels would fall into place.

The Committee discussed if the infection control training courses and radiology courses appropriate for the Entry Level are available with testing, which is something that would have to be looked into.

The Committee discussed consideration of how much work on the Board staff this would create.

The Committee suggested to Ms. Erwin that she and several of the workgroup members for the DANB Model approach the West Virginia Dental Association concerning discussions and a possible presentation to them prior to the Board delving too much into discussions or plans for the model in West Virginia. At this time Ms. Erwin left the meeting.
