STATE OF WEST VIRGINIA  
**BOARD OF EXAMINERS FOR REGISTERED PROFESSIONAL NURSES**  
101 Dee Drive, Suite 102  
Charleston, WV 25311-1620

December 1, 2016

Dear Honorable Governor Tomblin:

The West Virginia Board of Examiners for Registered Professional Nurses (Board) is pleased to submit the Annual Report which covers the activities during the 2015 and 2016 fiscal years.

For over one hundred years of nursing regulation the Board has been vested in their mission to protect the citizens of West Virginia through the regulation of the practice of registered professional nurses. At the end of the fiscal year there were 32,833 registered professional nurses regulated by the Board. Board members and staff provided presentations throughout the state in an effort to assure the most current information is available to those providing nursing care to those in West Virginia. The Board supports the role of advanced practice nurses in providing for the health care needs of West Virginia. A total of 2,855 advanced practice registered professional nurses are licensed throughout the state. Every county has at least one advanced practice registered nurse employed in the county. Prescriptive Authority Privileges have been granted to 1,363 and 62 have met the criteria to practice without a collaborative agreement as established during the 2016 Legislative session (House Bill 4334). The Board also regulates Dialysis Technicians. There are 156 certified Dialysis Technicians in West Virginia serving the needs of the dialysis population.

During the 2016 Legislative Session, House Bill 4334 was enacted which narrowed the gap between West Virginia and the Institute of Medicine's report recommendation (2010) to remove scope-of-practice barriers which prevent Advanced Practice Registered Nurses from practicing to the full extent of their education and training. The bill eliminated the requirement of a written collaborative agreement after specific conditions are met. The Legislature enabled the advanced trained registered nurses to better meet the needs of their patients throughout our state.

Beginning July 1, 2016, Sue Painter DNP, RN became the Executive Officer of the Board replacing Laura Rhodes MSN, RN who retired. Dr. Painter is a native of our state and has extensive experience. The most recent experience is in patient quality and safety and process improvement. However, a long history nursing administration and practice (resume on page 7) is present as well.

The Board remains open for communications with other agencies, the public and licensees through an Open Forum time during each Board meeting, the newsletter, the phone system, mail, facsimile and the Internet. The Board and its staff are available to answer questions about this report or other matters pertaining to the regulation of registered professional nursing and dialysis technicians in the State of West Virginia.

For the Board,

A handwritten signature in blue ink that reads "Sue Painter".

Sue Painter DNP, MSN, BSN, RN  
Executive Director

## Overview of Activities 2016

---

The mission of the West Virginia Board of Examiners for Registered Professional Nurses (Board) is to promote and protect public health, safety and welfare through the regulation of the practice of registered professional nurses, advanced practice registered nurses and dialysis technicians.

Additionally, the Board is authorized to adopt and amend rules and regulations, accredit and prescribe standards for educational programs preparing persons for registered professional nursing licensure and dialysis technician certification, provide written exams, licensure by endorsement and renewal of licenses, and conduct hearing(s) upon charges calling for discipline of a licensee or revocation or suspension of a license. Finally, Further, the Board is authorized to regulate the practice of Dialysis Technicians to protect public health, safety and welfare. the West Virginia Legislature has empowered the Board to perform a number of functions to ensure this mission is accomplished. In order to fulfill its mission, the Board has developed specific goals and objectives with associated performance measures. This information is found on page 13 of this report.

This overview provides a description of the Board's activities over the past year in the fulfillment of its mission for the fiscal year 2015-2016. Also provided with this report are statistical data which summarize the Board's licensure statistics over the past two years. The majority of these reports begin on page 62. Additionally, to give an even broader view of the Board's activities, included with this year's report are tables and charts covering a ten (10) or twenty (20) year time period revealing how the number of registered professional nurses has increased or decreased during the time frame, the number of students that have graduated from nursing programs throughout the state during this time, disciplinary actions that have taken place, as well as other interesting facts regarding the functions of the Board. This information can be found throughout the Report. A Graph Table of Contents is provided for the reader's convenience (see page iii).

### PUBLIC ACCESS

One of the most important ways the Board achieves its mission is ensuring that it is easily accessible to the public, its licensees and to other state and national agencies. To that end, the Board convenes an average of 10 days a year, with Committees meeting an additional 4 days a year. The law requires one meeting per year. At the beginning of each Board meeting there is an Open Forum. The Open Forum allows anyone in attendance at the meeting the opportunity to raise issues of concern with the Board. In accordance with the law, Board meeting notices are filed timely with the Secretary of State. The agenda for each meeting is published on the Board website as well as provided to each nursing school, to Directors of Nursing across the state, and interested parties. A list of Board meeting dates is provided in this report on page 17. Notice of the meeting is also included in the Board newsletter, which is published at least twice a year and mailed to every licensee and to those persons expressing an interest in receiving the newsletter as well as on the web site. A copy of each newsletter is located on the Board's web site at [www.wvrnboard.wv.gov](http://www.wvrnboard.wv.gov).

The Board office is available by telephone twenty-four hours a day, seven days a week through a voice mail system 1-877-743-6877 (NURS). During regular business hours, Monday through Friday, the office is staffed to respond to questions by phone, facsimile, e-mail, U.S. mail and from persons

coming to the office. A list of all Board staff is on page 18 of this report. Additional avenues the Board utilizes to remain accessible to the public are by way of e-mail and web site. The Board's e-mail address is [rnboard@wv.gov](mailto:rnboard@wv.gov). The web site address is [www.wvrnboard.wv.gov](http://www.wvrnboard.wv.gov). The Board continues to evaluate ways to incorporate e-gov and online applications. For a second year, all licensure renewals were completed online in 2016. The online renewal for APRNs will occur during the upcoming year and will be completed online as well.

## EDUCATION

One of the main functions of the Board in the fulfillment of its mission is the regulation of the nursing programs in the State of West Virginia. Currently, there are 22 programs throughout the state. A list of the schools of nursing providing both baccalaureate and associate degrees, as well as other programs not requiring Board approval, is provided in this report on pages 28 through 34. Also included in this report are statistics on the number of graduates from baccalaureate and associate degree programs and statistics on licensees holding advanced degrees. There are approximately 3,075 students enrolled in West Virginia schools of nursing to obtain an initial degree in nursing which is approximately a 4% increase over FY2015.

The accreditation process of a school of nursing goes far beyond the initial accreditation of the school. It is an ongoing process. Annually, each Board approved program is required to submit an Annual Report for evaluation by the Board. The Annual Report covers every aspect of the program, from the financial status to the degrees held by instructors and most importantly the quality of the information being taught to the student. The Board also conducts a number of on-site visits to programs to have a hands-on view of the activity taking place at the school. During the on-site visit, Board representatives have the opportunity to view the quality of the information contained in the library and simulation/skills labs for nursing students and to also speak with nursing students on campus regarding the nursing program. In FY2016, the Board performed 8 visits to campuses in the state for purposes of On-Site Accreditation visits and follow up visits.

## LICENSURE

Another function of the Board is to provide a written exam for graduates to successfully complete for initial licensure. Currently, the test is known as the National Council Licensure Examination-RN (NCLEX-RN). The candidate may take the computerized examination at any test center in the United States, U.S. Territories, or several countries across the world provided the state where they wish to hold initial licensure is designated, and an application specific to that state has been completed and approved.

The national pass rate for first time candidates taking the licensure examination during Calendar Year (CY) 2016 has improved to 84.51% compared to 81.79% (CY2015). West Virginia's pass rate percentage improved for CY2016 to 86.73% from 83.51% in the previous year. This percentage ranks West Virginia as twenty-four (24) out of fifty-five (55) member board jurisdictions. This information is provided through a report from the National Council of State Boards of Nursing, Inc.

The West Virginia Board of Examiners for Registered Professional Nurses continues to fulfill its mission of protecting the citizens of West Virginia through the regulation of the practice of 32,833 registered professional nurses and 2,855 APRNs as well as the 156 Certified Dialysis Technicians.

As previously stated, there continues to be a predicted decrease in the number of registered nurses available for employment in upcoming years. This decrease will not only affect West Virginia, but will be a national decrease. However, because of the size of our state, the effect on West Virginia will be easily felt. As reflected on pages 53 through 57 of this report, licensees have steadily endorsed out of West Virginia to other states, with the exception of FY05 when more nurses endorsed into WV. This was directly related to an influx of nurses preparing to assist a West Virginia hospital in the event of a strike. As the citizenship ages and illnesses increase, the need for registered nurses will continue to increase. More nurses are still needed. Not having enough nurses makes it even more important for the West Virginia Board of Examiners for Registered Professional Nurses to fulfill its goal to protect the public.

From the graduates who pass the licensing examination who are able to hold the title registered professional nurse, there are a number of individuals who pursue advanced certifications and practice in more specialized areas. The Board regulates advanced certifications and practice in more specialized areas. The Board regulates 2,855 nurses with an APRN license. This number includes more than 1,363 nurses having prescription writing privileges granted by the Board. APRNs may hold a license with or without limited prescriptive authority. Beginning in 1993, the Board has authorized an APRN to prescribe prescription drugs under the terms of a collaborative agreement with a physician.

During the 2016 Legislative session, House Bill 4334 was passed. This bill amended the regulation of the practice of advanced practice registered nurses; providing advanced practice registered nurses authority relating to death certificates; defining terms; requiring a license to practice as an advanced practice registered nurse; modifying license requirements for an advanced practice registered nurse; modifying requirements for prescriptive authority; providing rule-making authority; providing emergency rule-making authority; modifying prescriptive authority of certain controlled substances; providing collaborative practice requirements; modifying the requirements for application for prescription authority; permitting the board review qualifications of applicants; authorizing advanced practice registered nurses be granted prescriptive authority without the requirement of a collaborative agreement upon application; requiring an advanced practice registered nurses complete certain prerequisites; requiring certain reports; permitting the board to discipline advanced practice registered nurses; creating a Joint Advisory Council; providing the council's composition; providing council members' terms; providing powers of the council; providing duties of the council; providing advance practice registered nurses with certain signatory authority; and requiring certain training.

Effective June 10, 2016, an APRN may apply to the board to prescribe prescription drugs without the requirement of a collaborative agreement. From the effective date through the end of the fiscal year, 62 APRNs were granted limited prescriptive authority without a collaborative agreement. A breakdown of information is found on pages 88 through 91 of this report. As part of the prescription

writing privilege application process, the Board of Medicine, the Board of Pharmacy, the Board of Osteopathy, and the Federal Drug Enforcement Agency are notified of each new prescriptive authority privilege issued or terminated.

The Board has regulated Dialysis Technician Education programs and Dialysis Technicians since 2005. There are 156 certified dialysis technicians in West Virginia. Information about Dialysis Technicians is provided on pages 166-187. Seven new dialysis technician training centers were added this past year which increased the total to 38 accessible throughout the state. Additionally, the Board has approved 3 testing centers for dialysis technician certification.

## DISCIPLINE

Because nurses are continuing to specialize in different areas, the Board's approach to discipline continues to evolve. Disciplinary cases continue to increase in complexity. Board staff process a significant number of discipline related records. In past years the majority of complaints against registered nurses, resulting in action, involved the use, misuse and abuse of drugs and alcohol. Although these issues still make up the majority of the complaints, there is an increase in practice related issues, such as documentation errors and the lack of competency. Statistical information regarding the Board's disposition of complaints and disciplinary action taken over the past two (2) years is provided on pages 53 through 56 of this report. A pie chart on page 54 represents a summary of disciplinary action for the past ten years.

## CENTER FOR NURSING

In 2004 the West Virginia Center for Nursing (Center) was created to establish a statewide strategic plan to address the nursing shortage in the state and to facilitate recruitment and retention of nurses. The Center is funded in part by a supplemental fee added to the license renewal for RN's and LPN's. The Board continues to work with and support the efforts of the Center. The West Virginia Center for Nursing awarded 76 students with funds totaling \$225,000 as part of the Nursing Scholarship Program for the 2016-17 academic year. The program, which is administered by the West Virginia Center for Nursing in conjunction with the West Virginia Higher Education Policy Commission helps licensed practical, registered, masters and doctoral nursing students pursue their degrees.

## NURSE HEALTH PROGRAM – WEST VIRGINIA RESTORE

The Board assures its recovery and monitoring program WV Restore maintains current standards in assisting nurses with substance misuse problems and qualifying mental health conditions. Early recognition of an issue and immediate intervention will provide the nurse with a better opportunity for rehabilitation and continuation of employment. There are currently 125 registered professional nurses enrolled in this program. The annual report for the Nurse Health Program is on page 169 through 180.

## OPERATIONS

In order to completely fulfill its mission to protect the public, the Board recognizes the necessity in maintaining open communication with other related national and state agencies. In that regard, the Board always sends representatives to meetings of the National Council of State Boards of Nursing,

Inc. (NCSBN) and is actively involved in the discussion and voting processes which occur at these meetings. The incoming Executive Director attended the Executive Officer Summit held in June which provided an introduction to the organization and the other Executive Officers across the nation. The NSCBN annually convenes the summit which is focused on leadership development to increase the effectiveness by maximizing human, fiscal and physical resources available to the Board in fulfillment of its mission.

Locally, the Board keeps an ongoing alliance with the West Virginia State Board of Licensed Practical Nurses (LPN Board). Because the two agencies generally have to address similar topics and certainly in the employment arena they usually function together, it is important to the Board to ensure that communication lines are open with this agency. In 1995, the Joint Nursing Regulatory Committee was formed to enhance communications between Board and the LPN Board, and between the Board and constituents. This committee led to the practice of holding a yearly Joint RN/LPN Board meeting. Together the two Boards publish a document entitled “Criteria for Determining Scope of Practice for Licensed Nurses and Guidelines for Determining Acts That May Be Delegated or Assigned by Licensed Nurses” or simply the “Purple Book”. This document was revised in April of 2015.

Locally, the Board keeps an ongoing alliance with the West Virginia State Board of Licensed Practical Nurses (LPN Board). Because the two agencies generally have to address similar topics and certainly in the employment arena they usually function together, it is important to the Board to ensure that communication lines are open with this agency. In 1995, the Joint Nursing Regulatory Committee was formed to enhance communications between Board and the LPN Board, and between the Board and constituents. This committee led to the practice of holding a yearly Joint RN/LPN Board meeting. Together the two Boards publish a document entitled “Criteria for Determining Scope of Practice for Licensed Nurses and Guidelines for Determining Acts That May Be Delegated or Assigned by Licensed Nurses” or simply the “Purple Book”. This document was revised in April of 2015.

Another upcoming joint project for the Boards is the consideration to join the Nurse Licensure Compact. The Compact permits an RN or LPN to hold a multi-state license much like a driver’s license via the NCSBN. Each of the Boards (RN AND LPN) must join to enable our nurses to be a part of the Compact. The RN Board has approved to join the Compact. This is a project for the upcoming fiscal year.

Board members and staff are diligent in their efforts to assure Board accomplishes its mission and goals. Staff ensures that records reflecting the Board’s financial status are accurately maintained. This information is provided on pages 19 through 23 of this report. Board members are kept thoroughly apprised of all operations by Board staff.

Should you have any questions, suggestions or desire more information please contact this office at (304) 558-3596 or 1-877-743-NURSE (6877) or write to 101 Dee Drive, Suite 102, Charleston, West Virginia, 25311-1620. Our e-mail address is [rnboard@wv.gov](mailto:rnboard@wv.gov) and our web site is [wvrnboard.wv.gov](http://wvrnboard.wv.gov).

### PROFESSIONAL EXPERIENCE

*October 2014 – June 2016*

*May 2009 – June 2014*

**Premier, Inc.** Charlotte, North Carolina

#### Director Performance Partners

July 2010 to present

**Responsibilities:** The provision of clinical consulting using the clinical database products of Premier. The role, previously, part of a team responsible for client implementation of the database product. Core deliverables for the director included Process Improvement Assessment, Clinical Opportunity Assessment, Case Study and Focused Population Study. The role has transformed into a consultant role with a focus on the improvement of quality, efficiency, and costs of healthcare for member organizations. Partner with executive and physician leadership, members of the quality department, and other management staff to identify and facilitate improvements. Additionally, as a director, provide leadership and management of a consulting team to provide integrated consulting services and thought leadership to support the development of innovative service delivery offering.

#### **Accomplishments:**

Numerous Readiness Assessments and Clinical Opportunity Assessments have been prepared and delivered with implementable savings identified. In August 2013, Implementation Services were concluded for a health system with 38 hospitals in 5 states across the nation. Created and executed an innovative approach which allowed the services to be delivered within 6 months. The most recent projects have focused on the identification of clinical and resource utilization opportunities to reduce cost without impacting quality – Length of Stay, Level of Care and Appropriate Resource Utilization. In 2013, achieved client-validated savings of \$500,000 and recommended additional implementable savings.

#### Senior Performance Partner

May 2009 to June 2010

**Responsibilities:** Provide clinical/operational process and performance improvement; workflow enhancement; and resource productivity consultation. Proactively identify cost reduction and financial improvement opportunities and document customer savings. The role is dedicated to customers who currently subscribe to Premier's Quality Advisor data tools. Partner with executive leadership and client staff to identify and facilitate Performance Improvement projects. Previous clients include an 1800+bed urban academic medical center, a 316-bed community organization and a 70-bed facility located in the southeast plus a 120 bed hospital on the west coast.

#### **Accomplishments:**

Facilitation and oversight of clinical and resource utilization for all business lines in an acute setting which focus on facility expected performance, data mining and reporting of quality outcomes to Chief Medical Officer and clinical opportunity assessment with development of an action plan to address organizational needs, development of an outcomes based plan for organization-wide implementation and integration of Clinical Advisor into organizational performance improvement activities. This contract was originally signed for 6 months however the contact was extended to 15 months and included 7 hospitals.

In the clinical partner role a plan established a structured clinical decision support activities and use of clinical database data which included routine monitoring and report generation for a 200 bed facility. The plan incorporated patient resource utilization and pharmaceutical costs. Study completed on Pneumonia population which enabled the client to learn reporting, analysis and interpretation methods focusing on one clinical population so that the learning can be applied to other areas after the Partner engagement is complete.

November 2005 – January 2009

**Thomas Health System, Inc.**, South Charleston, West Virginia

(A non-profit multi-hospital system with revenues of \$600 M and 2 facilities in West Virginia with 415 licensed beds. The system was created in 2006 through the purchase of St. Francis Hospital by Thomas Memorial Hospital)

**Thomas Memorial Hospital**, South Charleston, West Virginia

(260 Beds with average daily census of 200)

Vice President Nursing

October 2008-January 2009

Vice President Patient Services

November 2005-September 2008

**Responsibilities:** Accountable for 578+ FTEs and the clinical operations of inpatient and outpatient clinical services: infection control, medical/surgical, intensive/cardiac care, women's and children's, skilled nursing center, behavioral health, emergency department, surgical services with outpatient surgery center, oncology, cardiovascular and pharmacy services. Organizational structure included dotted line responsibility for Case Management. Due to organizational reporting changes, the title (not the responsibilities) changed in October, 2008 and the position eliminated in January, 2009.

**Accomplishments:**

- Completed the planning and design phase of a \$70 million state of the art, all digital patient tower for a community hospital
- Restructuring of Case Management to a unit based model and the addition of a Emergency Department Case Manager
- Co-executive sponsor for Soarian Health Information Solutions IT project implementation with uneventful go-live of Phase 1 in July 2008 and successful upgrade for OB TracVue fetal monitoring system
- 2006 JCAHO unannounced survey which resulted in full accreditation
- Collaborated with leaders (staff level and management) that resulted in a shared governance model for a community hospital and initiation of a *Journey Towards Excellence*
- Redesigned nursing leadership to facilitate patient care delivery and physician needs
- Enhanced education access for nursing staff
  - ✓ RN.COM – 509 staff members accessed web-site with 3502 courses taken by RNs, LPNs, certified nursing assistants, unit clerks, and operating room technicians
  - ✓ Collaborated with West Virginia State Technical College to credential 120 RNs/LPNs for initial Advanced Cardiac Life Support certification.
- Initial participation in the National Database for Nursing Quality Indicators for organization for 2008 with first RN survey completed for organization
- Launched initial evidenced-based practice projects for organization
  - ✓ Central line associated bloodstream infections that resulted in non infections since July of this year
  - ✓ Hypothermia therapy after cardiac arrest that has a success rate of 50 percent
  - ✓ Deep vein thrombosis prophylaxis program

*Sue Ann Painter*

- 3 -

*June 2002 – November 2005*

**Fairmont General Hospital, Fairmont, West Virginia**

(A unionized hospital with 252 licensed beds and average daily census of 120)

Vice President Patient Services

**Responsibilities:** Accountable for 300+ FTEs and the clinical operations of inpatient and outpatient clinical services: medical/surgical, intensive/cardiac care including a cardiac catheterization laboratory, women's and children's, skilled nursing center, behavioral health, emergency department, surgical services, oncology, laboratory, radiology, respiratory therapy, home health, and wound care center with 2 hyperbaric chambers. Worked collaboratively with Case Management to implement an off-shift InterQual criteria review prior to entry into the facility into the role of the House Supervisor. A majority of patient services employees are subject to two collective bargaining agreements (SEIU and RWDSU). Served as a member of the contract negotiation team and managed third step grievance procedures.

**Accomplishments:**

- Restructured ancillary nursing personnel which resulted in \$400,000 annual savings from wages and benefits
- Managed 2 union contracts at the senior level including contract negotiations, grievance procedures, and arbitration with a nomination for Employee of the Year (2002) by union leadership
- Reduced mandatory overtime (>6000 hours in 2002 to <1500 hours in 2004) with innovative scheduling for professional and support staff
- Designed and sustained daily staffing model for areas of responsibility that calculated cumulative variance each day that triggered corrective action
- 2003 JCAHO survey that resulted in full accreditation

*August 2001 – July 2002*

**Marshall University, Huntington, West Virginia**

Assistant Professor in Nursing

**Responsibilities:** Instruction in the Bachelor of Science (Nursing) program. Lab instructor in Foundations of Professional Nursing I/II, course coordinator for Concepts in Professional Nursing and assistant instructor for Home Health course at the junior level.

*August 1991 – May 2001*

**HCA, Inc., Nashville, Tennessee**

(An investor-owned health care services company that operates 184 hospitals and 79 freestanding surgery centers located in 23 states, England and Switzerland)

**Putnam General Hospital, Hurricane, West Virginia (68 Beds)**

Chief Nursing Officer

December 1996- May 2001

**Responsibilities:** The fiscal/clinical operations of patient care units and off-site areas with 150+ FTEs. Directed all areas of nursing practice that included medial-surgical, telemetry, intensive care unit, obstetrical, emergency, surgical services, post-anesthesia care, ambulatory surgery clinic, special procedures in radiology, and the occupational health nurse for Toyota Engine Plant. Other areas of accountability included quality, case management, physician support, radiology, laboratory, and health information services.

**Accomplishments:**

- Withstood unionization attempt of professional RN staff by a 2:1 margin
- Led construction project for new women's' service unit which included the construction of an additional surgical suite with 10 deliveries during the initial 60 days of operation
- Executive sponsor for Meditech Health Information System project implementation with successful house-wide go-live

*Sue Ann Painter*

- 4 -

**St. Joseph's Hospital, Parkersburg, West Virginia (399 Beds)**

Clinical Director

August 1991-December 1996

**Responsibilities:** Hospital found along WV and Ohio border, a 399-bed acute care facility started by Catholic Health System that was purchased by large Healthcare Corporation. Responsible for the management of clinical operations for three medical-surgical units, pediatric unit, three labor-delivery-recovery rooms, level II newborn nursery, postpartum unit, diabetes education program which was accredited by the American Diabetes Association, educators, house supervisory staff, and the intravenous team.

*June 1987-July 1991*

**Charleston Area Medical Center, Charleston, West Virginia (900 Beds)**

Clinical Nurse Manager

**Responsibilities:** Twenty-four hours accountability for two medical-surgical units and a pediatric unit. Accomplishments included participation in the development/implementation of a shared governance model for nursing service serving as tri-divisional chairperson. Also planned/implemented a bedside documentation model which was incorporated house-wide.

*November 1984-June 1985 as Staff Development Educator*

West Virginia University Hospitals

December 1986-June 1985

Charleston Area Medical Center

November 1984- December 1986

*July 1983-November 1984*

**Putnam General Hospital, Hurricane, West Virginia (68 Beds)**

Head Nurse

*June 1979-June 1983 as a Staff RN*

## EDUCATION

### **Doctor of Nursing Practice**

University of Kentucky

Lexington, Kentucky

2001-2005 and 2007-2009

Capstone Project: An Evidence-Based Toolkit for Diabetes Self-Management Education for Adults in a Group Setting

Camp KnoKoma, Inc. Board of Directors (Vice President) & Volunteer Nurse (2001 to present)

**WEST VIRGINIA BOARD OF EXAMINERS  
FOR REGISTERED PROFESSIONAL NURSES**

**MISSION**

The West Virginia Board of Examiners for Registered Professional Nurses established to promote and protect public health, safety, and welfare through the regulation of registered professional nurses and dialysis technicians.

**GOALS AND OBJECTIVES**

In accordance with WV Code §30-7-1 et seq. the Board will:

1. Function according to the Code of Conduct.
2. Be accessible to the public.
3. Assure the quality of the basic education process for registered professional nurses.
4. Assure the quality of the basic education process for the dialysis technician.
5. Assure initial and continuing competence of the registered professional nurse.
6. Assure initial and continuing competence of the dialysis technician.
7. Define the scope of practice for registered professional nursing and advanced practice nurses.
8. Define the scope of practice for the dialysis technician.
9. Provide a disciplinary process.
10. Review issues related to the nursing shortage.
11. Support the mission of the West Virginia Center for Nursing
12. Support the nurse health program, WV Restore.

**STATUTORY HISTORY**

**PERFORMANCE MEASURES**

The Board of Nursing is mandated under Chapter 30 of the West Virginia Code to:

1. Review and evaluate National Council of State Boards of Nursing registered nurse licensure examination scores of each program in relation to the standard.
2. Conduct on-site visits to at least two nursing education programs annually.
3. Issue licenses to qualified persons in a timely fashion.
4. Provide educational information to registered nurses, dialysis technicians, nursing education programs, employers and the public related to:
  - a. Discipline
  - b. Orientation to the Board
  - c. Advanced Practice
  - d. Licensure
  - e. Practice Issues
  - f. Conditions that affect an individual's safe practice
5. Process complaints from health care professionals and the public in a timely fashion.
6. Respond expeditiously to public requests related to Board operations.
7. Evaluate regulatory solutions to address borderless health care delivery.
8. Provide and evaluate the effectiveness of the nurse health program WV Restore.
9. Provide multiple modes of communication opportunities with the Board.
10. Establish a Practice Committee for discussion of practice issues as needed.

**RECOMMENDED IMPROVEMENTS**

Continue updating computer equipment and database program. Evaluate and provide personnel, equipment, and database programs.

Reviewed and revised by the Board 6/14/1999; 6/13/2000; 6/13/2001; 6/12/2002; Reaffirmed 6/12/2003; Reviewed and revised by the Board 6/15/2004; 6/15/2005; 6/14/2006; 6/13/2007; Reaffirmed 6/12/2008; Reviewed and revised 6/17/09; Reviewed and revised 6/16/10; Reviewed and revised 6/17/11; Reviewed and revised 6/13/12; reviewed and revised 6/12/13; Reaffirmed 6/10/14; Reaffirmed 06/10/15; Revised 6/9/2016.

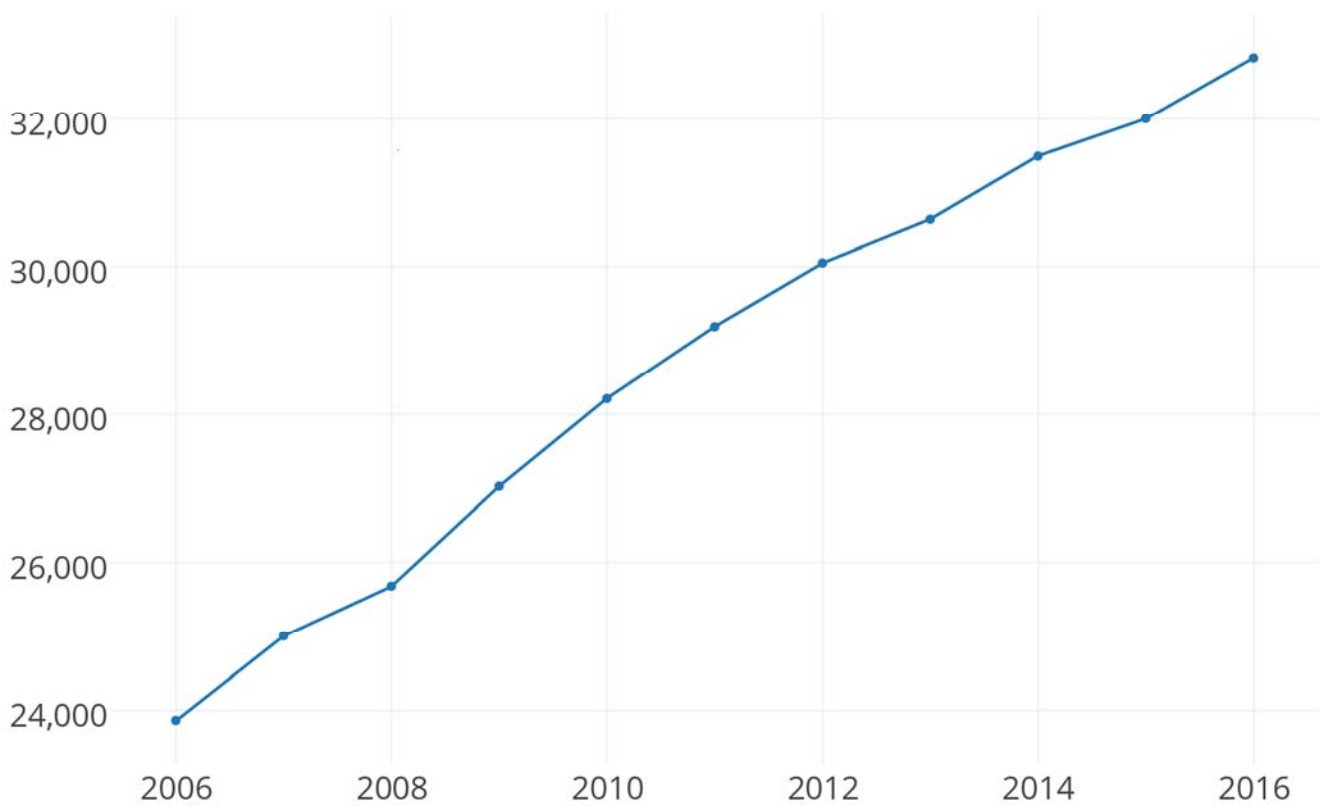

## Total number of registered professional nurses

---

At the end of FY2016, there were 32,833 registered professional nurses holding an active West Virginia license. This is an increase of 8,965 since 2006. This number is 825 more than in FY2015. Registered Professional Nurses remain the largest group of licensed health care providers in West Virginia.

Year	2006	2007	2008	2009	2010	2011	2012	2013	2014	2015	2016

## Board Members 2015 - Current

---

**Tara Hulse, PhD, RN, CNE, FAAN**

**Board President**

Dr. Hulse's term expires June 30, 2017.

**Monongalia County**

**Teresa Ritchie, DNP, RN, APRN FNP-BC**

**Board Secretary**

Ms. Ritchie's term expires June 30, 2019.

**Calhoun County**

**L. Ann Bostic, DNP, RN, APRN CRNA**

Ms. Bostic's term expires June 30, 2020.

**Kanawha County**

**Doris Burkey, DNP, APRN FNP-BC**

Ms. Burkey's term expired June 30, 2016.

**Morgan County**

**Nancy Atkins, MSN, APRN WHNP-BC**

Ms. Atkins' term expires June 30, 2018.

**Kanawha County**

**Judy Nystrom, Public Member**

Board Secretary through June 30, 2012.

Her term expired June 30, 2009.

**McDowell County**

**Theresa Dennison, Public Member**

Ms. Dennison's term expires June 30, 2020.

**Raleigh County**

All board members are volunteers and are appointed for a term; however, they continue to serve until a replacement is appointed by the Governor.

## Receipts and Disbursements

---

The Board is required to be self-sustaining and does not receive any revenue from the State's General Revenue Fund. The bar graph indicates the receipts and disbursements since 2006. During FY2016 the fees received for the Center for Nursing (\$297,440) are transferred to the Center's fund, and fines (\$45,058.75) are transferred to the General Revenue Fund. Both amounts are represented separately on the receipts graph.

### EDUCATION

The education section of the Board has grown significantly over the past ten years. One of the Board's function is to provide a test (NCLEX-RN) for graduates of accredited nursing programs to pass successfully for initial licensure. The education section reviews the applications and transcripts to assure qualifications are met. West Virginia NCLEX-RN pass rates are monitored annually. Advanced practice licensure requirements including prescriptive authority are processed through the education section of the Board, assuring qualifications, credentials and educational requirements are met.

The Board is responsible for the regulation of West Virginia nursing programs preparing registered professional nurses for initial licensure. The Education section of the Board reviews reports, faculty qualifications, changes reported by the programs and performs accreditation site visits to assure the requirements in the law are met. Statistics such as program pass rates and graduate numbers are maintained by the education section of the Board.

The education section also serves to provide access to information related to the practice of registered professional nursing. Educational brochures, presentations and responding to practice questions via telephone, email and written requests are among the avenues the Board provides information.

Continuing education requirements for registered professional nurses are monitored by an auditing process for compliance with the law. Licensees are randomly selected for auditing of their continuing education completed during a reporting period. Auditing of licensees occurs after every reporting period. The education section also reviews any requests for waivers of the continuing education requirement. Continuing education sources may apply to become providers with the Board. Providers are audited for compliance with requirements in 19CSR11 annually.

**GRADUATES OF SCHOOLS OF NURSING**  
PREPARING INDIVIDUALS FOR INITIAL LICENSURE  
AS A REGISTERED PROFESSIONAL NURSE

1996 - 2016

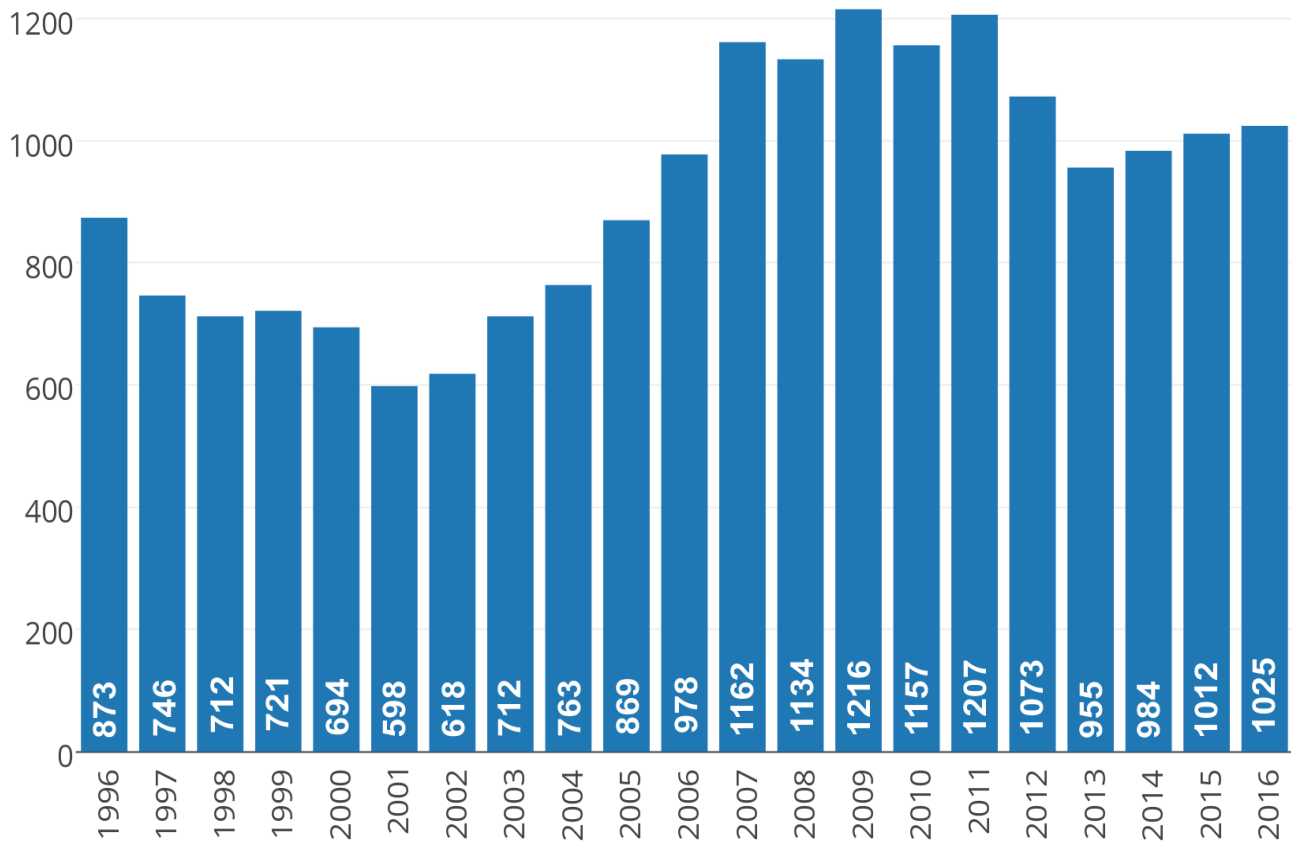

West Virginia has 21 schools of nursing which offer a total of 22 nursing programs preparing individuals for initial licensure. There are other programs which offer additional degrees for those already licensed. This graph shows the number of individuals graduating from schools of nursing in West Virginia to prepare for initial licensure. More schools are graduating nursing students at various times throughout the year in addition to the traditional spring graduation. Schools are now reporting the number of graduates in a calendar year.

During a short time between 1996 and 2016, there were three basic degrees offered; baccalaureate degree, associate degree and diploma. There were a total of 19,304 students who graduated from the programs throughout our state. The last diploma program, St. Mary's Hospital, graduated its last class in 1996. At that time, St. Mary's joined with Marshall University to offer an Associate Degree in nursing.

The highest number of graduates occurred in 2009 when 1,216 candidates graduated from West Virginia nursing programs. The lowest number of graduates was in 2001 with 598 graduates. Should the historical cycle of graduates repeat itself, there should be another increase in the number of graduates over the next four to five years. The prediction for a scarcity of registered professional nurses due to the aging workforce, retirement of nursing educators and a decrease in the number of persons interested in nursing as a career is still a concern even though the current economy has resulted in a shift back to work. RNs working part time are now working full time, those in retirement have returned to work and those planning to retire are waiting until the economy is better. Though more males are choosing nursing as a career, the profession remains predominantly female.

## NURSING (RN) GRADUATES IN WEST VIRGINIA ALL DEGREES

All Degrees 1996-2016

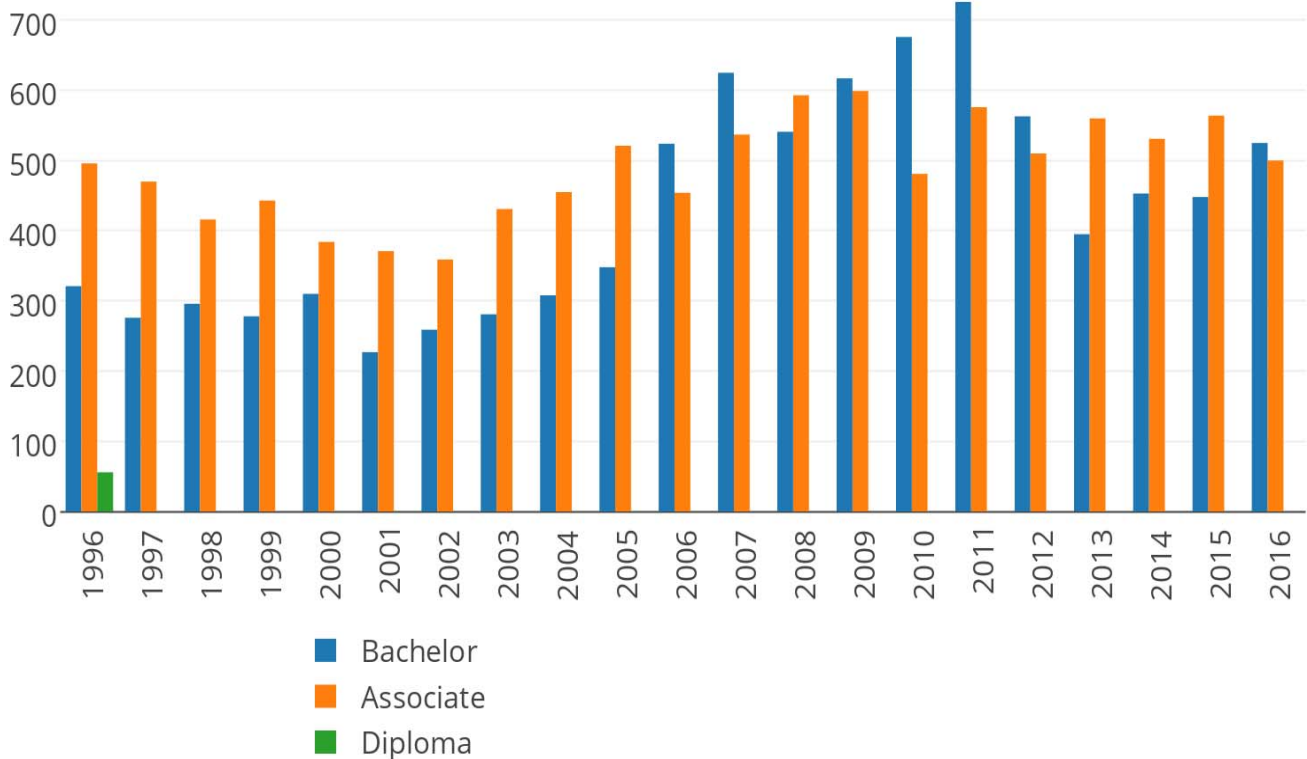

## NURSING (RN) GRADUATES IN WEST VIRGINIA BY DEGREE

Between 2006 and 2016 a total of 12,867 students graduated. The total number of graduates includes 6,441 Baccalaureate graduates and 6,426 Associate Degree graduates.

The graph below reflects information for the previous twenty-year period. The graph does not include registered professional nurses pursuing additional nursing degrees, such as a Bachelor degree after obtaining an Associate degree, or a Master's or Doctoral degree.

## DISCIPLINE

The disciplinary section is constantly being reviewed to ensure efficiency. The disciplinary chart shows the number of final actions taken against a licensee since 2006. The chart does not indicate the actual number of cases that the disciplinary section has to review. It is safe to say that between 2005 and 2015 there were over 150 complaint driven disciplinary cases reviewed per year. In addition, there are hundreds of other cases that were reviewed by this department that were not true disciplinary cases. For instance, if an applicant, whether it is a first time applicant or endorsement or renewal applicant, indicates a criminal conviction, a drug or alcohol addiction or provides any other negative answer on the application, then that application is passed on to the disciplinary section. Some of these instances result in disciplinary action, but most do not. Yet, there is still a great amount of time and effort put into investigating the individual. There are also a great amount of resources utilized to investigate complaints which are ultimately dismissed. Although no action is taken in these cases, in order to determine a dismissal is warranted, the time and effort spent investigating the allegations is significant. Also, many of the complaints against licensees are resolved by way of consent agreement. This means that the disciplinary section is constantly monitoring licensees to ensure compliance with the agreement. Further, with the change in the child support laws, affirmative responses to these questions are also passed along to the disciplinary section.

The pie chart indicates final actions taken between 2006 and 2016. However, there were many more cases reviewed during this time that required further review by the Disciplinary Department. The disposition of the disciplinary cases includes 56 Reprimands, 334 Probations, 346 Suspensions, 6 Revocations, 38 Surrenders, 204 Denials and 870 Dismissed After Investigation. The Board also holds contested case hearings. Between 2006 and 2016 there were 19 hearings held.

A licensing system developed by the Office of Technology permits tracking of licensing activities. Board staff can now track the number of applications reviewed by each department. During the last fiscal year, the Discipline Department reviewed 828 applications. This review included 101 Exam Applications, 85 Endorsement Applications, 131 Reinstatement Applications, and 511 renewal applications.

### ENDORSEMENT ACTIVITY

Registered professional nurses may obtain a license in another state through the process of endorsement. Each state has its own endorsement application and process, which includes a verification of licensure from another Board of Nursing. In the endorsement process, a Board of Nursing from another state accepts the nursing credentials validated by the original state of licensure. Some states also require verification of licensure from each state the person ever held a license. The verification is an official document which validates licensure, exam results (only provided by the original state of licensure), method of licensure (whether by exam or endorsement), and if there are any criminal convictions, disciplinary actions taken or complaints pending against the license.

Registered professional nurses may hold a nursing license in several states at the same time. Nurses living close to state borders and nurses traveling to various places are included in this group.

## Annual Report 2015 - 2016

---

WV Restore  
PO Box 11626  
Charleston, WV 25339

## Table of Contents

This WVR Annual Report for 2015-2016 will address the following areas:

- Overview page 3.
- Mission Statement page 4.
- Initiatives to Enhance Safety page 4.
- Utilization Summary page 5.
- Demographic data summary page 6.
- WVR Electronic Participant Records page 7.
- 2014-2015 Accomplishments page 7.
- Accountability page 7.
- Summary page 8.

## Overview

According to West Virginia Code §30-7-11a passed during the 2012 Legislative session, to encourage voluntary participation in monitored alcohol, chemical dependency or major mental illness programs and in recognition of the fact that major mental illness, alcoholism and chemical dependency are illnesses, any person who holds a license to practice registered nursing in this state or who is applying for a license to practice registered nursing in this state may enter into a voluntary agreement with a board designated nurse health program. The West Virginia Restore (WVR) program currently contracts the daily management and operations of the nurse health program with the WV Pharmacists Recovery Network, Inc. which is located in Charleston, West Virginia. Gary M. Brown R.Ph. is the Executive Director of the network.

The WVR program for registered professional nurses is the nurse health program with the primary purpose *to protect the consumers of West Virginia from unsafe nursing practice*. This central mission is accomplished by way of formal and informal education initiatives and case management monitoring services. The WVR program has become a referral and information support network focused on protecting consumers from unsafe nursing practitioners while also assisting nurses with a goal of rehabilitation and retention.

WVR continues to develop approved networks of treatment providers and programs, as well as approved support groups throughout West Virginia. Now in its fourth year of operation, *Restore is becoming* “known” throughout the state and receives referrals from a wide range of key stakeholders, including nursing employers, treatment providers, the West Virginia Board of Registered Professional Nurses (WVBOERP) and self-referrals from individual nurses seeking help.

Since its inception the WVR office has received and processed well over 280 referrals. In addition to new referrals, WVR currently has 125 nurses on active/pending monitoring contracts. The WVR office remains very busy communicating, providing education and collaborating with nursing employers, treatment providers/programs, nurse support group facilitators – all of whom surround each individual WV Restore nurse participant with monitoring and support in his/her local area.

The problem of impaired practice among nursing professionals, secondary to substance use disorders, is not a new one; its impact on patient safety has remained of significant concern since the early 1980's. As the number of professionals with substance abuse and mental health issues increases, there is a growing need for accountable and effective programs to provide monitoring solutions. WVR is such a solution for the nursing profession in West Virginia.

The American Nurses Association (ANA) estimates that 6-8% of nurses use alcohol or drugs to an extent that is sufficient to *impair professional performance*. In the early 1980's, ANA called out to the states to do three (3) things: to develop programs to assist colleagues with substance abuse and mental

health conditions which could affect their ability to practice safely; to disseminate information about substance abuse and mental illness as common and treatable; and to do research.

The majority of Boards of Nurses across the USA have recognized that utilizing a discipline only approach was not the most effective approach to protect consumers. Nurses who accept help, demonstrate safety to practice, and progress in recovery, now have an opportunity to be retained in the profession. Programs like WVR hold participants accountable, help safeguard fitness for duty, and allow advocacy by documenting safety to practice and progress in recovery.

## Mission Statement

The mission of WVR is to protect the public by providing a monitoring and recovery program for nurses with a substance use disorder or a qualifying mental health condition.

## Initiatives to Enhance Safety

Substance use disorders and qualifying mental health conditions are known to impact a nurse's ability to practice with reasonable skill and safety. Substance use disorders are the most common reason nurses are referred to and monitored by WVR.

Services provided by WVR include *prevention* of problems through education about such topics as: substance abuse impact on patient safety; how to identify a fellow student and/or colleague with fitness concerns, and what steps are appropriate to take to protect patient care while also offering assistance to the nurse. In addition, WVR has begun offering evidenced based supervisory training which helps with skill development and increases supervisor confidence.

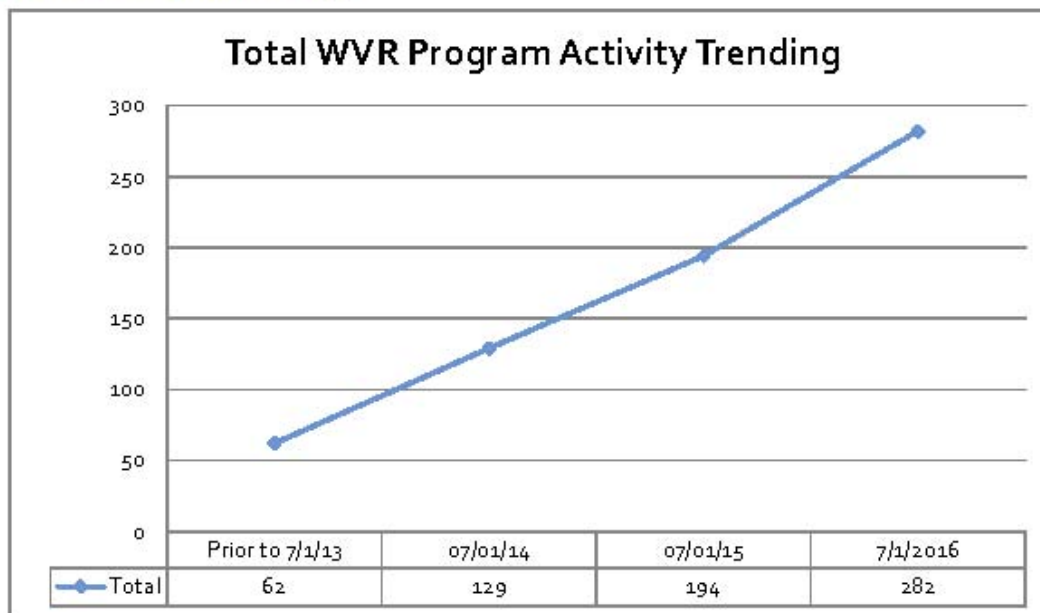

*Early intervention* occurs when WVR receives referrals such as a pre-employment positive drug screen or first DUI charge. In these cases, the nurse may be in the early stages of a problem where substance use disorder education and diagnostic monitoring are effective.

When a more serious substance use disorder presents the nurse is referred for formal substance abuse/dependence treatment to a WVR provider/program. WVR does not perform medical assessment nor provide treatment. Rather, it refers nurse participants to treating providers and programs that have specific expertise with impaired professionals. The first step in the referral process is to immediately *refrain* the nurse from practice until a "fitness to practice" evaluation is performed, thus immediately protecting consumers. Following evaluation and determination of appropriate treatment, the nurse is subsequently referred and followed through the treatment process. This comprehensive intervention for nurses with chronic substance use disorders falls under *Tertiary care*.

A formal monitoring agreement is executed on all nurses who participate in Restore. Each agreement is individualized to address the needs of the individual nurse along with identifying key support and employment parameters. WVR partners with worksite monitors, group facilitators and treating

professionals who follow WVR nurse participants in their local areas. Throughout the monitoring agreement safety is assured by way of frequent random toxicology screening, and by obtaining progress reports from employers, treating professionals and support group facilitators. WVR case manager(s) follow each nurse participant closely and address issues that may arise during the duration of one's participation.

## Utilization Summary

### Total Participants under RESTORE Monitoring:

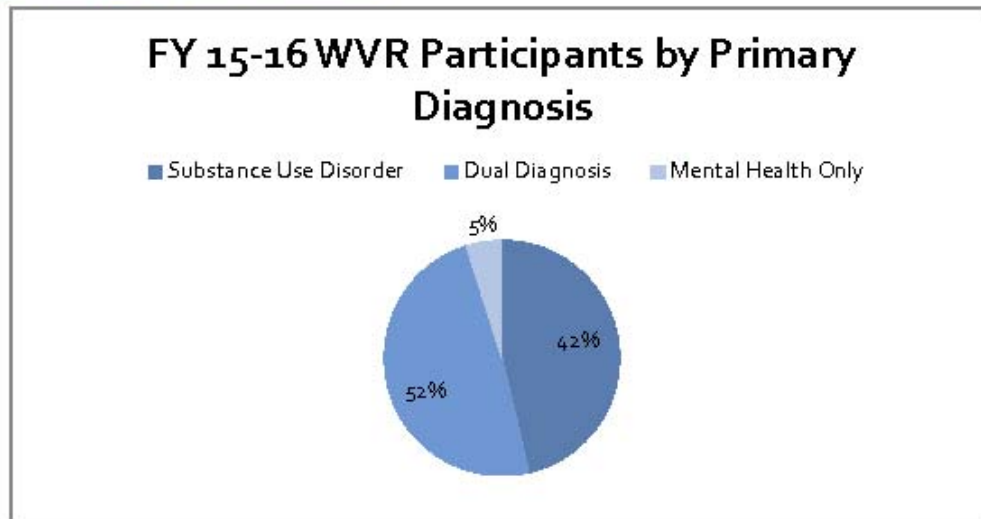

Participant executed RESTORE Contracts 125

Includes *pending* contracts (18)

### Cases closed over the past 12 months: 33

Reasons for case closure secondary to lack of follow-through, not meeting eligibility criteria, failure to complete treatment, and no contact.

## Demographic Summary

### Top four specialties represented in nurses under contract:

1. ER Trauma
2. ICU-CCU
3. Medical-Surgical
4. Gerontology

### Referral sources:

- o Board of Nursing 71%
- o Other (family members, treatment providers, attorneys, self, employers) 29%

### Total Geographic areas represented:

- o WV Counties 32
- o Counties in Neighboring States 12

### Top Three Identified Substances of choice:

1. Alcohol and/or alcohol in combination with other prescription drugs
2. Lortab/Hydrocodone
3. Dilaudid

## **WVR Electronic Participant Records**

WVR continues to utilize a customized digital case management system managed by Affinity Online Solutions. Monitoring and all demographic data is captured in a comprehensive manner utilizing a HIPPA encrypted cloud server managed by Netranom communications. The Affinity system also permits monitoring sources locally (employers and nurse support groups) to complete quarterly monitoring reports on-line in “real time”, allowing RESTORE to monitor compliance and progress on an on-going regular basis.

## **Accomplishments 2015-2016**

Over the past year, WVR Staff have completed the following initiatives.

- Scheduled the Third Annual WV Restore 2-day conference for the nursing community.
- Expanded Nurse Support Group Facilitators Network by opening additional groups in the Huntington, Bridgeport, and Charleston areas to accommodate growing program.
- Implemented additions to infrastructure to ensure HIPPA compliance, and easy access for all employees to any participant information from a central data server and faxfinder device.
- Annual Facilitator and Evaluator Training to be performed at the yearly conference with option for evaluators to receive Continuing Education from the Board of Counseling.
- Conducted three fit to perform trainings with approximately 65 attendees, fourth training to occur at the conference.
- Scheduled informational talk about WV Restore at the WONE conference in November to increase awareness of the program for potential employers of participants.
- Integrated Diversion CE into the Fit-To-Perform trainings to make it more attractive to potential attendees.
- Maintained a “stand alone” RESTORE web page and updated all current forms and information. ([www.restore.org](http://www.restore.org))
- Completed a review of all policies and procedures, and obtained approval for any changes from the Board of Nursing.
- Revised all standard letters to match new policies and procedures, in addition updated all standard forms and letters with contact information to reflect new administrator of contract.
- Updated and enhanced Facilitator training information.
- Updated and revised Participant Manual based on newly revised policies and procedures.

## Accountability

WV Restore continues to ensure accountability by performing regular random performance assessments and case reviews. Remaining transparent and accountable to the WV Board of Examiners for Registered Professional Nurses and other key stakeholders is crucial to WVR's reputation and success. WVR seeks out regular accountability and performance measure data for feedback on quality of services and areas for improvement.

The following accountability measures are utilized:

- Quarterly review of 5 random case files by external RN QA auditor with 100% compliance for this FY.
- Quarterly performance measure reporting to WVBOERP.
- Weekly clinical case review on an on-going basis by WVR's Clinical Director
- All cases on medication management are reviewed by consulting MRO.

## Summary

The FY 2015-2016 has been a year of successful monitoring and continuing program expansion. Three Fit to Perform trainings have occurred with very positive results gauged by the program already being asked back to those facilities for more trainings. Restore participants are being accepted at more facilities throughout the state as a result, and we have seen an increase in the amount of employer referrals based on the expanded knowledge of the Restore referral process. Additional facilitator groups have been established in Huntington and Bridgeport to accommodate participants, as well as free up space in the online groups to accommodate individuals in remote areas who participate in RESTORE. The WVR staff continues the work of protecting consumer safety while rehabilitating and retaining nurses in West Virginia's health care system.

Thank you for the opportunity to serve nurses in our great state of West Virginia, and consumers whom receive health care.

### DIALYSIS TECHNICIANS

The law relating to regulating Dialysis Technicians was first passed in 2005. An emergency rule was approved in 2005 and the final rule was approved in the 2007 Legislative session. There are currently one hundred fifty-six (156) active Certified Dialysis Technicians in West Virginia. Temporary permits have been issued to fifty-three (53) persons. Dialysis Technician Training Programs are also under the authority of the Board. Thirty-seven (37) programs have been approved by the Board. Receipts for FY2016 total \$59,145.00. The anticipated receipts for the next fiscal year will be from certification renewal, and perhaps one or two new education programs. Therefore, the anticipated receipts for FY2017 will be approximately \$35,000. Expenditures for FY2016 total \$29,057.36. A section of the Board's website is dedicated to Dialysis Technicians. The Board and staff are available to answer any questions related to the regulation of dialysis technicians in West Virginia.
