Dear Governor Justice,

The West Virginia Board of Respiratory Care is pleased to provide you with our annual report for the period of July 1, 2017 to June 30, 2018 in accordance with HB2833, April 6, 2017.

The mission of this agency is to protect the public in providing competent and qualified respiratory therapists for the citizens of West Virginia. The West Virginia Board of Respiratory care provides oversight of the licensing of respiratory therapists, provides guidelines for licensing requirements, renewal of licenses, continuing education requirements, and investigations and/or prosecution of license violations.

The Board of Respiratory Care consists of seven members appointed by the governor with the advice and consent of the senate. Members consist of one lay person, one practicing physician currently licensed to practice in West Virginia with certification, clinical training and experience in the treatment of pulmonary diseases, and five members engaged in the practice of respiratory care for five years immediately preceding their appointment.

The Board of Respiratory Care works with state and national organizations to maintain the highest standards of the practice of respiratory care to ensure the citizens of West Virginia are protected and offered the highest quality of care in the practice of respiratory therapy.

Please contact our office with any questions or comments regarding the information contained in this report.

OVERVIEW OF ACTIVITIES

Members of the Board of Respiratory Care are appointed to serve in a voluntary capacity. The Board members are selected from various regions of the state and are practiced in home care and acute care. The Board is composed of five therapists; one physician and one lay member. As of June 30, 2018, the following terms have expired and are pending reappointment from the Governor: June 2017; Dr. Rayan Ihle and Leonard Picha, June 2018; Barbara Folden and Regina Gillispie. William Boring's final term expired on June 30, 2018 and pursuant to statute he cannot be reappointed to the board. We await his replacement to be named by the Governor. The composition of the Board provides a knowledge base to insure the public that all facets of respiratory care and private citizen's input are represented.

The West Virginia Board of Respiratory Care is an active participant in meetings across the state and national level. Their participation in these meetings addresses the areas of licensing, professional regulation, standards of care, clinical practice guidelines and overall changes to the healthcare delivery system. Several members of the board attend and are active in the American Association of Respiratory Care with a nationwide organizational capacity of over 54,000 members. With this continued involvement, the West Virginia Board of Respiratory Care and licensed practitioners in the State of West Virginia are abreast of national issues facing the current and future delivery of respiratory care services.

The Board also participates in the National Board of Respiratory Care's Disciplinary Database and the National Practitioners Data Bank – Health Practitioners Data Bank which are national databases of final disciplinary actions taken against respiratory care practitioners in all licensure states.

Respiratory practitioners holding a license to practice in the State of West Virginia are categorized into associates, certified therapists and registered therapists. As of June 30, 2018, the West Virginia Board of Respiratory Care maintained a total of 1,723 active licenses, 78 inactive licenses, and 19 active student permit practitioners in its database.

In fiscal year 2017, the board issued 112 new licenses (\$22,400), renewed 1539 (\$99,045), issued 78 (\$780) letters of verifications to other states, and placed 138 on expired status. In fiscal year 2018, the board issued 114 new licenses (\$22,800), renewed 1682 (\$105,525), and issued 106 (\$1,060) letters of verifications to other states and placed 104 on expired status.

The board continues to recognize the National Board of Respiratory Care's examination as the criteria for licensing respiratory therapists and other credentials in the practice of respiratory care in the State of West Virginia. This national examination provides for interstate endorsement of licensees without further testing. The national examination is computerized and is offered to graduating students at more than 100 testing locations nationally. The West Virginia Board of Respiratory Care issues a license to practice when an applicant completes the educational requirements of graduation from a Respiratory Care Educational Program of a COARC accredited school and by passing at minimum, the entry level examination, and payment of appropriate fees. All applicants are verified with the National Board of Respiratory Care Disciplinary Database and the US Department of Health and Human Services Healthcare Providers Disciplinary Database. Moreover, if an applicant previously held or is currently licensed in another state, the applicant is verified by those states for any disciplinary action which may be completed or pending.
