10 A BILL to amend the Code of West Virginia, 1931, as amended, by adding thereto a new article,
11 designated §46A-6M-1, §46A-6M-2, §46A-6M-3 and §46A-6M-4, all relating to creating
12 the Internet Service Provider Accountability Act; defining terms; making legislative findings;
13 designating a contract between an Internet service provider and a subscriber to be an
14 adhesion contract; and providing remedies.

15 *Be it enacted by the Legislature of West Virginia:*

16 That the Code of West Virginia, 1931, as amended, be amended by adding thereto a new
17 article, designated §46A-6M-1, §46A-6M-2, §46A-6M-3 and §46A-6M-4, all to read as follows:

18 **ARTICLE 6M. INTERNET SERVICE PROVIDER ACCOUNTABILITY ACT.**

19 **§46A-6M-1. Short title.**

20 This article may be known and cited as the "Internet Service Provider Accountability Act."

21 **§46A-6M-2. Definitions.**

1 For purposes of this article:

2 “Adhesion contract” means a standard form contract drafted by one party with stronger
3 bargaining power and signed by the weaker party who must adhere to the contract and therefore does
4 not have the power to negotiate or modify the terms of the contract.

5 “Internet”, without limitations, means:

6 (A) The computer network commonly known as the Internet and any other local, regional or
7 global computer network that is similar to or is a predecessor or successor of the Internet;

8 (B) Any identifiable site on the Internet or such other computer network;

9 (C) A website or other similar site on the World Wide Web;

10 (D) A site that is identifiable through a Uniform Resource Location;

11 (E) A site on a computer network that is owned, operated, administered or controlled by an
12 Internet service provider;

13 (F) A list server;

14 (G) A newsgroup; or

15 (H) A chat room.

16 “Internet service provider” means any person who, for a fee or other consideration, provides
17 subscribers with access to the Internet.

18 **§46A-6M-3. Legislative findings.**

19 The Legislature finds that a contract between an Internet service provider and a subscriber
20 is an adhesion contract and, as such, many of its provisions are highly advantageous to the provider
21 and leaves the subscriber with few, if any options. Therefore, in addition to all other remedies

1 available to subscribers, including civil actions, injunctions and protections afforded elsewhere in
2 this code, it is the public policy of this state that, as a matter of law, the remedies as set forth in
3 section four of this article shall be added to all contracts between an Internet service provider and
4 a subscriber.

5 **§46A-6M-4. Remedies.**

6 (a) In the event a subscriber loses service for more than an hour during a twenty-four hour
7 day, the subscriber shall receive a credit for one day of service for the next billing cycle.

8 (b) In the event the subscriber loses service for more than an hour during a twenty-four hour
9 period for any two days within a billing cycle, the subscriber shall receive a credit for one week of
10 service for the next billing cycle.

11 (c) In the event the subscriber loses service for more than an hour during a twenty-four hour
12 period for any three days within a billing cycle, the subscriber shall receive a credit for one month
13 of service for the next billing cycle.

14 (d) In the event the subscriber has lost service for more than three separate days in one
15 month, the subscriber may terminate the service agreement and may not be penalized or owe any
16 additional fees, including, but not limited to, early termination fees.

NOTE: The purpose of this bill is to create the Internet Service Provider Accountability Act. The bill defines terms. The bill makes legislative findings. The bill designates a contract between an Internet service provider and a subscriber to be an adhesion contract. The bill provides remedies.

This article is new; therefore, it has been completely underscored.
