In addition, the director shall report to the Joint Committee on Government and Finance on January 1, and July of each year the spending units which have reported under this subsection and the findings of the director.

 district-level are outdated, as the cost of materials and equipment have increased since the last
 purchasing manual update;
 (2) Processing purchase orders through Division of Highways headquarters can be time
 consuming; and
 (3) An increase in thresholds for purchasing card transaction requirements can expedite
 the processing duration for purchasing orders.

(c) Purchasing card requirements for district offices .--

(1) Notwithstanding any other provision of this code or legislative rule to the contrary, the Division of Highways may not require an authorized purchasing card user for a district office to secure verbal bids before using a purchasing card to make a purchase that is less than \$10,000.

(2) Notwithstanding any other provision of this code or legislative rule to the contrary, the Division of Highways may not require an authorized purchasing card user for a district office to secure written bids before using a purchasing card to make a purchase that is less than \$25,000.

NOTE: The purpose of this bill is to increase the threshold cost of purchases which the Division of Highways may make without engaging in competitive bidding from \$25,000 to \$100,000 and to prohibit the Division of Highways from requiring purchasing card users in district offices to secure bids for purchases under a certain amount.
