**§60A-2-212. Schedule V.**

1           (a) Schedule V shall consist of the drugs and other substances, by whatever official name,

2 common or usual name, chemical name, or brand name designated, listed in this section. Unless

3 specifically excepted or unless listed in another schedule, any material, compound, mixture or

4 preparation which contains any quantity of the following substances, including their isomers,

5 esters, ethers, salts and salts of isomers, esters and ethers, whenever the existence of such

6 isomers, esters, ethers, and salts is possible within the specific chemical designation.

7           (b) Narcotic drugs containing nonnarcotic active medicinal ingredients. Any compound,

8 mixture or preparation containing any of the following narcotic drugs or their salts calculated as

9 the free anhydrous base or alkaloid in limited quantities as set forth below, which shall include

10 one or more nonnarcotic active medicinal ingredients in sufficient proportion to confer upon the

11 compound, mixture or preparation valuable medicinal qualities other than those possessed by the  
12 narcotic drug alone:

13 (1) Not more than 200 milligrams of codeine per 100 milliliters or per 100 grams;

14 (2) Not more than 100 milligrams of dihydrocodeine per 100 milliliters or per 100 grams;

15 (3) Not more than 100 milligrams of ethylmorphine per 100 milliliters or per 100 grams;

16 (4) Not more than 2.5 milligrams of diphenoxylate and not less than 25 micrograms of  
17 atropine sulfate per dosage unit;

28 optical isomers except products which are for pediatric use primarily intended for administration  
29 to children under the age of 12: *Provided*, That neither the offenses set forth in section four  
30 hundred one, article four of this chapter, nor the penalties therein, shall be applicable to ephedrine,
