25 from a nonparticipating provider, or make other arrangements acceptable to the commissioner
26 when:

27 (A) The health carrier has a sufficient network, but does not have a type of participating
28 provider available to provide the covered benefit to the covered person, or it does not have a

48 providers under the health benefit plan.

49 (4) The process described under subdivisions (1) and (2) of this subsection shall ensure

52 (5) The health carrier shall have a system in place that documents all requests to obtain
53 a covered benefit from a nonparticipating provider under this subsection and shall provide this
54 information to the commissioner upon request.

55 (6) The process established in this subsection is not intended to be used by health carriers
56 as a substitute for establishing and maintaining a sufficient provider network in accordance with

58 use of covered benefits available through a health carrier's network delivery system options.

59 (7) Nothing in this section prevents a covered person from exercising the rights and
60 remedies available under applicable state or federal law relating to internal and external claims
61 grievance and appeals processes.

63 covered persons have reasonable access to participating providers located near their home or

75 access plans, absent proprietary information, available online, at its business premises, and to
76 any person upon request.

77 (B) For the purposes of this subsection, information is proprietary if revealing the
78 information would cause the health carrier's competitors to obtain valuable business information.

79 (3) The health carrier shall prepare an access plan prior to offering a new network plan
80 and shall notify the commissioner of any material change to any existing network plan within 15
81 business days after the change occurs. The carrier shall include in the notice to the commissioner
