A primary recruitment area may include territory in more than one county;

(5) The primary recruitment area shall be based on the public charter school’s estimated facility and program capacity. The capacity of the public charter school shall be determined annually by the governing board of the public charter school in conjunction with its authorizer and in consideration of the public charter school’s ability to facilitate the academic success of its students, to achieve the other objectives specified in the charter contract, and to ensure that the student enrollment does not exceed the capacity of its facility, site and programs. If the school has excess capacity after enrolling these students, the school shall enroll all other students who apply: Provided, That if the remaining applicants exceed the enrollment capacity of the program, class, grade level or building of the public charter school, the public charter school shall select students for enrollment from among all remaining applicants by a random selection lottery. The school’s lottery procedures and timelines support equal and open access for all students and take place in an open meeting;

(9) A conversion public charter school shall guarantee enrollment to all students who were previously enrolled in the noncharter public school and shall adopt and maintain a policy that gives enrollment preference to students who reside within the attendance area as established prior to the conversion of the school. If the school has excess capacity after enrolling these students and all others to whom an enrollment preference has been given, the school shall enroll all other students who apply: Provided, That if the remaining applicants exceed the enrollment capacity of the program, class, grade level or building of a public charter school, the public charter school shall select students for enrollment from among all remaining applicants by a random selection lottery. remaining applicants exceed the enrollment capacity of the program, class, grade level or building
of a public charter school, the public charter school shall select students for enrollment from
among all remaining applicants by a random selection lottery. The school's lottery procedures
and timelines support equal and open access for all students and take place in an open meeting.

(b) If a student who was previously enrolled in a public charter school transfers enrollment
to a noncharter public school in this state, the school to which the student transfers shall accept
credits earned by the student in courses or instructional programs at the public charter school in
a uniform and consistent manner and according to the same criteria that are used to accept
academic credits from other noncharter public schools or that consider content competency when
appropriate due to differences in curriculum delivery, instructional methods and strategies, or
course designations and sequence.
