§19-1A-7. Maintaining a voluntary list of foresters; rulemaking.

(a) The Director of the Division of Forestry may maintain a list of consulting foresters and forest technicians in this state meeting the educational criteria to be considered a forester or forest technician in this state and publish such list on its website in a clear location. To be considered a forester, a person must have a four-year bachelor’s degree or equivalent from an accredited forestry or related program from any college or university or a combination of a two-year associate degree or equivalent in a forestry technician or related program and relevant required work experience. To be considered a forest technician, a person must hold a two-year associate degree or equivalent from a school with an accredited forestry technician or related program.

(b) Any person who is or holds himself or herself out to be a forester or forest technician may submit information reasonably required by the director to cause his or her name to be placed on a list maintained on the Division of Forestry’s website. Nothing in this section requires the director to place a person on a voluntary list.

(c) The division may prescribe rules pursuant to §29A-3-1 et seq., of this code relating to forms and applications to be placed on the list and may prescribe a rule to collect a fee from any person desiring to be placed on the list for the sole purpose of cost recovery.
