1 A BILL to amend and reenact §16-9A-1, §16-9A-2, §16-9A-3, §16-9A-7, and §16-9A-8 of the Code
2 of West Virginia, 1931, as amended, all relating to tobacco usage restrictions; Legislative
3 findings and intent; raising the legal age for the purchase of tobacco, tobacco products,
4 tobacco derived products, alternative nicotine products and vapor products to 21.

Be it enacted by the Legislature of West Virginia:

ARTICLE 9A. TOBACCO USAGE RESTRICTIONS.

§16-9A-1. Legislative findings and intent.

1 (a) Findings --Tobacco is the leading cause of preventable death in America: It causes
2 over 480,000 deaths annually and has been responsible for 20.8 million premature deaths in the
3 U.S, over the past 50 years since the first Surgeon General's report on smoking in 1964. The
4 Legislature recognizes that young people are particularly susceptible to the addictive properties
5 of tobacco products, and are particularly likely to become lifelong users. An estimated 5.6 million
6 youth are projected to die prematurely from a tobacco-related disease if smoking prevalence rates
7 do not change. National data shows that about 95 percent of adult smokers begin smoking before
8 they turn 21. The ages of 18 to 21 are a critical period when many smokers move from
9 experimenting with smoking to regular, daily use. Young minds are particularly susceptible to the
10 addictive properties of nicotine. Tobacco industry documents show that an 18-year-old that has
11 never smoked has a three-to-one chance that he or she never will. However, a 21-year-old who
12 has never smoked has a 20-to-one chance that she or he never will. Electronic nicotine delivery
13 system (ENDS) use among teens has surged in recent years, and now stands at 16 percent
14 among high school students, ENDS are the most commonly used tobacco product among high
15 school students. In 2015, eight and six tenths percent of high school students were current cigar
16 smokers. Eleven and one half percent of boys and five and six tenths percent of girls, high school
17 boys smoke cigars at a higher rate than cigarettes. In 2015, the National Academy of Medicine
18 concluded that raising the minimum legal sales age for tobacco products nationwide will reduce
19 tobacco initiation, particularly among adolescents aged 15 to 17, improve health across the

20 lifespan, and save lives. The National Academy of Medicine also predicts that raising the minimum
 21 legal sales age for tobacco products nationwide to 21 would result in 223,000 fewer premature
 22 deaths, 50,000 fewer deaths from lung cancer, and 4.3 million fewer years of life lost for those
 23 born between 2000 and 2019. Three-quarters of adults favor raising the minimum legal sales age
 24 for tobacco products to 21, including seven in 10 adult smokers. Raising the minimum age to
 25 purchase tobacco products is consistent with raising the legal drinking age to 21, which led to
 26 reduced alcohol use and dependence among youth, and contributed to a decline in drunk driving
 27 fatalities. A growing number of communities, including the state of Hawaii and California, have
 28 enacted minimum legal sales age of 21 laws to further restrict access to tobacco.

29 (b) Intent -- The Legislature hereby declares it to be the policy and intent of this state to
 30 discourage and ban the use of tobacco products by minors. As basis for this policy, the Legislature
 31 hereby finds and accepts the medical evidence that smoking tobacco may cause lung cancer,
 32 heart disease, emphysema, and other serious health problems while the use of smokeless
 33 tobacco may cause gum disease and oral cancer. It is the further intent of the Legislature to
 34 reduce tobacco use by keeping tobacco products out of the hands of youth and young adults in
 35 banning the use of tobacco products by minors the sale of tobacco products to persons under the
 36 age of 21 to ease the personal tragedy and eradicate the severe economic loss associated with
 37 the use of tobacco and to provide the state with a citizenry free from the use of tobacco.

§16-9A-2. Definitions; gift of cigarette paper, pipe, snuff, chewing tobacco, pipe tobacco, roll-your-own tobacco, tobacco products, tobacco derived and alternative nicotine products or vapor products to persons under 18; sale or gift of cigarette, cigarette paper, pipe, cigar, snuff, chewing tobacco, pipe tobacco, roll-your-own tobacco, tobacco products, tobacco-derived and alternative nicotine product or vapor products to persons under 18; sale or gift of cigarette, cigarette paper, pipe, cigar, snuff, chewing tobacco, pipe tobacco, roll-your-own tobacco, tobacco products, tobacco derived and alternative nicotine product or vapor products to persons

under ~~eighteen~~ 21; penalties for first and subsequent offense; consideration of prohibited act as grounds for dismissal; impact on eligibility for unemployment benefits.
