BY SENATORS BLAIR (MR. PRESIDENT), BALDWIN,
JEFFRIES, STOLLINGS, HAMILTON, LINDSAY, WOODRUM,
PLYMALE, AND TAKUBO

[Passed March 12, 2022; in effect from passage]

1 AN ACT to amend the Code of West Virginia, 1931, as amended, by adding thereto a new article,
2 designated §33-61-1, §33-61-2, §33-61-3, §33-61-4, §33-61-5, §33-61-6, §33-61-7, §33-
3 61-8, §33-61-9, and §33-61-10, all relating to creating the Mining Mutual Insurance
4 Company; providing for the scope of the company; providing for findings and a purpose
5 for the company; creating definitions; laying out the authorization for the company, as well
6 as establishing requirements and limitations for the company; providing for governance
7 and organization of the company; providing for management and administration of the
8 company; creating an application for licensure with the company and establishing the
9 authority of the commissioner; providing for initial capital and surplus; authorizing types of
10 coverage and definition discretionary participation in the company; and setting forth
11 applicable law.

Be it enacted by the Legislature of West Virginia:

ARTICLE 61. MINING MUTUAL INSURANCE COMPANY.

§33-61-1. Scope.

1 This article applies only to the Mining Mutual Insurance Company created pursuant to this
2 article.

§33-61-2. Findings and purpose.

1 (a) The Legislature finds that:

2 (1) There has been a nationwide downturn in the coal mining industry which was especially
3 difficult in West Virginia;

4 (2) Coal mining permit holders across the state have faced economic circumstances that
5 forced many of them into difficult financial situations;

6 (3) Insolvent permit holders may be unable to continue operations, thus jeopardizing their
7 ability to properly reclaim lands as required under §22-3-1 *et seq.* of this code;

8 (4) Any shortfall would be paid from the state's Special Reclamation Fund which could
9 become strained if the coal industry and/ or reclamation surety bond providers would experience
10 unforeseen circumstances;

11 (5) An increase in bonding amounts would cause undue financial hardships and coal
12 mining permit holders in West Virginia may find it increasingly difficult to comply with the financial
13 assurance provisions of §22-3-1 *et seq.* of this code;

14 (6) The difficulty or impossibility of obtaining private performance bonds on reasonable
15 economic terms may result in challenges for operators to receive new coal-mining permits;

16 (7) Having a robust guarantee of proper reclamation of mining operations is of utmost
17 importance to the citizens of West Virginia;

18 (8) A mechanism is needed for an alternative provider in the state's current coal mining
19 bonding system to provide for additional coverage and further bolster an efficient and effective
20 method of complying with the reclamation requirements and the financial assurance provisions of
21 §22-3-1 *et seq.* of this code;

22 (9) A state assisted mutual insurance company or a similar entity has proven to be a
23 successful mechanism in West Virginia for helping stabilize certain insurance markets such as
24 medical professional liability and worker compensation;

25 (10) There is a substantial public interest in creating a method to provide an enhanced
26 mining reclamation performance bond insurance market in this state;

27 (11) The state currently funds reclamation at former coal-mining sites, where the bond has
28 been forfeited, through a combination of bond proceeds and, if needed, moneys from the Special
29 Reclamation Fund as approved by the Surface Mining Control and Reclamation Act;

30 (12) There is substantial public benefit in maintaining a stable self-sufficient entity which
31 can be a source of performance bond insurance coverage for permit holders in this state;

32 (13) A stable, financially viable insurer in the private sector will provide a continuing source
33 of insurance funds to accomplish reclamation as needed to protect the environment of the state;
34 and

35 (14) Because the public will greatly benefit from the formation of a Mining Mutual Insurance
36 Company, state efforts to encourage and support the formation of such an entity, including
37 providing a loan of the entity's initial capital, is in the clear public interest.

38 (b) The purpose of this article is to create a mechanism for the formation of a mining mutual
39 insurance company that will provide:

40 (1) An option for mining permit holders to obtain performance bond insurance that is
41 available and affordable; and

42 (2) Assure that reclamation will occur in a timely and predictable fashion in those instances
43 where a permit holder fails to perform under the terms of the permit issued pursuant to §22-3-1
44 *et seq.* of this code.

§33-61-3. Definitions.

2 "Commissioner" means the Insurance Commissioner as provided in §33-2-1 of this code.

24 that the terms of boards members shall be as follows: (1) Two members shall be for a term of four

2 administered suitably and efficiently, the company may enter into a contract with a licensed
3 insurer, licensed health service plan, insurance service organization, third-party administrator,
