ARTICLE 3C. COMMUNITY AND TECHNICAL COLLEGE SYSTEM.

**§18B-3C-8. Legislative findings and intent; statewide network of independently accredited
community and technical colleges; operations and administration.**

1 (a) *Legislative findings.* —

2 ~~(1) The Legislature has enacted legislation, beginning with Enrolled Senate Bill No. 653,~~
3 ~~passed during the two thousand regular session, and continuing with Enrolled Senate Bill No.~~
4 ~~703, passed during the two thousand one regular session, Enrolled House Bill No. 2224, passed~~
5 ~~during the two thousand three regular session, and Enrolled Senate Bill No. 448, passed during~~
6 ~~the two thousand four regular session, the purpose of which is to strengthen the state's community~~
7 ~~and technical colleges, clarify their core mission and establish essential conditions to be met, and~~
8 ~~ensure the most effective delivery of services to business, industry, and West Virginia citizens in~~
9 ~~every region of the state~~

10 ~~(2)~~ (1) The primary goal of the Legislature is to create a statewide network of
11 independently accredited community and technical colleges that focuses on technical education,
12 workforce training, and ~~lifelong learning for the Twenty-first Century~~ ensure the most effective
13 delivery of services to business, industry, and West Virginia citizens in every region of the state,
14 consistent with the goals, objectives, priorities, and essential conditions established in ~~articles~~
15 ~~one, one-d and three-c of this chapter~~ §§18B-1-1 et seq., 18B-1D-1, et seq., and 18B-3C-1 et
16 seq. of this code.

17 ~~(3)~~(2) A necessary precedent to accomplishing the legislative goal is to change the way
18 that leaders at all levels of education, including institutional governing boards, view community
19 and technical colleges. Specifically, that the mission of community and technical colleges is
20 different from that of traditional four-year colleges in what they seek to accomplish and how they
21 can achieve it effectively and that the state cannot compete successfully in today's information-
22 driven, technology-based economy if community and technical colleges continue to be viewed as

73 skills, high-wage jobs; and

75 education for those individuals academically under-prepared for college-level work.

76 (c) In fulfillment of the purposes and intent defined in subsections (a) and (b) of this
