1	A BILL to amend the Code of West Virginia, 1931, as amended, by adding thereto a new article,
2	designated §17-31-1, §17-31-2, §17-31-3, §17-31-4, and §17-31-5, all relating to requiring
3	the Commissioner of Highways to develop a formula for allocating road funds among
4	districts, for the benefit of the counties; making legislative findings; requiring the
5	commissioner to solicit and consider public comments; requiring the commissioner to
6	include certain factors in the formula; and requiring the commissioner to submit the formula
7	to the Legislature for approval as a legislative rule.

Be it enacted by the Legislature of West Virginia:

ARTICLE 31. ALLOCATION OF FUNDS.

§17-31-1. Findings.

1 <u>The Legislature finds that:</u>

- 2 (1) According to an independent audit report submitted to the Joint Committee on 3 Government and Finance on January 10, 2016, the West Virginia Division of Highways currently 4 has no formula in place to allocate and distribute road funds among districts and counties. The 5 audit report recommended that in order to more effectively distribute funds, the division should 6 create a framework to allocate and distribute road funds to each of the districts and county 7 organizations; that a baseline maintenance capital plan should be reexamined and revised 8 periodically; and that metrics for the allocation process should be transparent. 9 (2) A transparent process to develop an official formula for allocating road funds among 10 districts in the state is crucial to ensure that funds are distributed in an effective and efficient
- 11 <u>manner, based on the needs of the counties within the districts.</u>
