2 §29A-3A-1 *et seq.* of this code, subject to §18B-1-3 of this code. This grant of rule-making
3 authority does not limit, overrule, restrict, supplant, or supersede the rule-making authority
4 provided to the exempted schools.

5 (b) The council may promulgate, adopt, amend, or repeal rules in accordance with §29A-
6 3A-1 *et seq.* of this code, subject to §18B-1-3 of this code. This grant of rule-making power

7 extends only to those areas over which the council has been granted specific authority and
8 jurisdiction by law.

9 (c) As it relates to the authority granted to governing boards of state institutions of higher
10 education to promulgate, adopt, amend, or repeal any rule under this code:

11 (1) "Rule" means any regulation, guideline, directive, standard, statement of policy, or
12 interpretation of general application which has institution-wide effect or which affects the rights,
13 privileges, or interests of employees, students, or citizens. Any regulation, guideline, directive,
14 standard, statement of policy, or interpretation of general application that meets this definition is a
15 rule for the purposes of this section.

16 (2) Regulations, guidelines, or policies established for individual units, divisions,
17 departments, or schools of the institution, which deal solely with the internal management or
18 responsibilities of a single unit, division, department, or school or with academic curricular policies
19 that do not constitute a mission change for the institution, are excluded from this subsection,
20 except for the requirements relating to posting.

21 (3) The commission shall promulgate a rule to guide the development of rules made by the
22 governing boards, including a process for comment by the commission as appropriate, except the
23 exempted schools, who shall each promulgate their own rules. The council shall promulgate a rule
24 to guide the development and approval of rules made by the governing boards. The commission
25 and council shall provide technical assistance in rulemaking as requested. The rules promulgated
26 by the exempted schools, the commission and council shall include, but are not limited to, the
27 following provisions which shall be included in the rule on rules adopted by each governing board
28 of a state institution of higher education:

29 (A) A procedure to ensure that public notice is given and that the right of interested parties
30 to have a fair and adequate opportunity to respond is protected, including providing for a 30 day
31 public comment period prior to final adoption of a rule;

32 (B) Designation of a single location where all proposed and approved rules, guidelines,

33 and other policy statements are posted and can be accessed by the public;

41 within 15 business days of receiving the rule.

42 (iii) If a governing board receives comments or suggestions on a rule from the commission,
43 it shall record them as part of the minute record. The rule is not effective and may not be
44 implemented until the governing board holds a meeting and places on the meeting agenda the
45 comments it has received from the commission.

46 (d) Nothing in this section requires that any rule reclassified or transferred by the
47 commission or the council under this section be promulgated again under the procedures set out
48 in §29A-3A-1 *et seq.* of this code unless the rule is amended or modified.

49 (e) The commission and council each shall file with the Legislative Oversight Commission
50 on Education Accountability any rule it proposes to promulgate, adopt, amend, or repeal under the
51 authority of this article.

52 (f) The governing boards shall promulgate and adopt any rule which they are required to
53 adopt by this chapter or chapter 18C of this code no later than July 1, 2011, unless a later date is
54 specified. On and after this date:

55 (1) Any rule of a governing board which meets the definition set out in subsection (c) of this
56 section and which has not been promulgated and adopted by formal vote of the appropriate
57 governing board is void and may not be enforced;

58 (2) Any authority granted by this code which inherently requires the governing board to

59 promulgate and adopt a rule is void until the governing board complies with this section.

60 (g) Within 15 business days of the adoption of a rule, including repeal or amendment of an
61 existing rule, and before the change is implemented, a governing board shall furnish a copy of
62 each rule which it has adopted to the commission or the council, respectively, for review.

63 (h) Annually, by October 1, each governing board shall file with the commission or the
64 council, as appropriate, a list of all rules that were in effect for that institution on July 1 of that year,
65 including the most recent date on which each rule was considered and adopted, amended, or
66 repealed by the governing board. For all rules adopted, amended, or repealed after the effective
67 date of this section, the list shall include a statement by the chair of the governing board certifying
68 that the governing board has complied with this section when each listed rule was promulgated
69 and adopted.

70 (i) Any rule of the commission or council in effect at the time of the re-enactment of this
71 section or approved by the Legislature during its 2017 Regular Session shall remain in effect and
72 applicable to an institution of higher education under the jurisdiction of the commission or council
73 until an institution exercises its authority to adopt a rule pursuant to this chapter.

74 (j) On or after July 1, 2024, a rule adopted pursuant to the provisions of this section may not
75 restrict or regulate the carrying of a concealed pistol or revolver by a person who holds a current
76 and valid license to carry a concealed deadly weapon except as expressly authorized in §18B-4-

28 code, including progress that the exempted schools are making relating to retention and

29 graduation rates for resident students by organization and each college within the organization.
30 The exempted schools shall provide copies of their respective master plan to the Legislative
31 Oversight Commission on Education Accountability and the commission.

32 (c) Develop a 10-year campus development plan in accordance with §18B-19-1 *et seq.* of
33 this code;

34 (d) Prescribe for the institution, under its jurisdiction, in accordance with its master plan and
35 compact, specific functions and responsibilities to achieve the goals, objectives, and priorities
36 established in §18B-1-1 *et seq.* and §18B-1D-1 *et seq.* of this code to meet the higher education
37 needs of its area of responsibility and to avoid unnecessary duplication;

38 (e) Direct the preparation of an appropriation request for the institution under its
39 jurisdiction, which relates directly to missions, goals and projections found in the master plan and
40 the compact;

42 appropriate, an appropriation request on behalf of the institution under its jurisdiction, including the
43 exempted schools;

44 (g) Review, at least every five years, all academic programs offered at the institution under
45 its jurisdiction. The review shall address the viability, adequacy, and necessity of the programs in
46 relation to established state goals, objectives and priorities, the master plan, the compact, and the
47 education and workforce needs of its responsibility district. As a part of the review, each governing
48 board shall require the institution under its jurisdiction to conduct periodic studies of its graduates

51 academic disciplines by their accrediting bodies;

52 (h) Ensure that the sequence and availability of academic programs and courses offered
53 by the institution under its jurisdiction is such that students have the maximum opportunity to
54 complete programs in the time frame normally associated with program completion. Each

55 governing board is responsible to see that the needs of nontraditional college-age students are
56 appropriately addressed and, to the extent it is possible for the individual governing board to
57 control, to assure core course work completed at the institution is transferable to any other state
58 institution of higher education for credit with the grade earned;

59 (i) Subject to §18B-1B-1 *et seq.* of this code, approve the teacher education programs
60 offered in the institution under its control. In order to permit graduates of teacher education
61 programs to receive a degree from a nationally accredited program and in order to prevent
62 expensive duplication of program accreditation, the commission may select and use one
63 nationally recognized teacher education program accreditation standard as the appropriate
64 standard for program evaluation;

65 (j) Involve faculty, students, and classified employees in institution-level planning and
66 decision making when those groups are affected;

67 (k) Subject to federal law and pursuant to §18B-7-1 *et seq.*, §18B-8-1 *et seq.*, §18B-9-1 *et*

85 (r) Enter into contracts or consortium agreements with the public schools, private schools,
86 or private industry to provide technical, vocational, college preparatory, remedial, and customized
87 training courses at locations either on campuses of the state institutions of higher education or at
88 off-campus locations in the institution's responsibility district. To accomplish this goal, the boards
89 may share resources among the various groups in the community;

90 (s) Provide and transfer funds and property to certain corporations pursuant to §18B-12-10
91 of this code;

92 (t) Delegate, with prescribed standards and limitations, the part of its power and control
93 over the business affairs of the institution to the president in any case where it considers the
94 delegation necessary and prudent in order to enable the institution to function in a proper and
95 expeditious manner and to meet the requirements of its master plan and compact. If a governing
96 board elects to delegate any of its power and control under this subsection, it shall enter the
97 delegation in the minutes of the meeting when the decision was made and shall notify the
98 commission or council, as appropriate. Any delegation of power and control may be rescinded by
99 the appropriate governing board, the commission or council, as appropriate, at any time, in whole
100 or in part, except that the commission may not revoke delegations of authority made by the
101 governing board of the exempted schools.

102 (u) Unless changed by the commission or the council, as appropriate, continue to abide by
103 existing rules setting forth standards for accepting advanced placement credit for the institution
104 under its jurisdiction. Individual departments at a state institution of higher education, with
105 approval of the faculty senate, may require higher scores on the advanced placement test than
106 scores designated by the governing board when the credit is to be used toward meeting a

107 requirement of the core curriculum for a major in that department;

108 (v) Consult, cooperate, and coordinate with the State Treasurer and the State Auditor to
109 update as necessary and maintain an efficient and cost-effective system for the financial
110 management and expenditure of appropriated and non-appropriated revenue at the institution

112 paid on or before the due date but, in any event, within 15 days of receipt in the State Auditor's
113 Office;

114 (w) In consultation with the appropriate chancellor and the Secretary of the Department of
115 Administration, develop, update as necessary, and maintain a plan to administer a consistent
116 method of conducting personnel transactions, including, but not limited to, hiring, dismissal,
117 promotions, changes in salary or compensation, and transfers at the institution under its
118 jurisdiction. Each personnel transaction shall be accompanied by the appropriate standardized
119 system or forms, as appropriate, which shall be submitted to the respective governing board and
120 the Department of Administration:

121 (1) Not later than July 1, 2012, the Department of Administration shall make available to
122 each governing board the option of using a standardized electronic system for these personnel
123 transactions.

124 (2) The Secretary of the Department of Administration may suspend a governing board's
125 participation in the standardized electronic system if he or she certifies to the Governor that the
126 governing board has failed repeatedly and substantially to comply with the department's policies
127 for administering the electronic system;

128 (x) Notwithstanding any other provision of this code to the contrary, transfer funds from any
129 account specifically appropriated for its use to any corresponding line item in a general revenue
130 account at any agency or institution under its jurisdiction as long as the transferred funds are used
131 for the purposes appropriated;

132 (y) Transfer funds from appropriated special revenue accounts for capital improvements

133 under its jurisdiction to special revenue accounts at agencies or institutions under its jurisdiction as
134 long as the transferred funds are used for the purposes appropriated in accordance with §18B-19-
135 1 *et seq.* of this code;

136 (z) Notwithstanding any other provision of this code to the contrary, acquire necessary
137 legal services, including representation of the governing board, its institution, employees, and
138 officers before any court or administrative body. The counsel may be employed either on a salaried
139 basis or on a reasonable fee basis. In addition, the governing board may, but is not required to, call
140 upon the Attorney General for legal assistance and representation as provided by law;

141 (aa) Contract and pay for disability insurance for a class or classes of employees at a state
142 institution of higher education under its jurisdiction; and

143 (bb) Contract and pay for any supplemental employee benefit, at the governing board's
144 discretion: *Provided*, That if such supplemental benefit program incurs institutional expense, then
145 the board may not delegate the approval of the supplemental employee benefit program.

146 (cc) On or after July 1, 2024, nothing in this section authorizes a governing board to restrict
147 or regulate the carrying of a concealed pistol or revolver by a person who holds a current and valid
148 license to carry a concealed deadly weapon except as expressly authorized in §18B-4-5b of this
149 code.

357 code.

ARTICLE 4. GENERAL ADMINISTRATION.

§18B-4-5b. Concealed carry on higher education campuses; exceptions.

1 (a) Subject to the provisions of subsection (b) of this section, a person holding a current
2 and valid license to carry a concealed deadly weapon may carry a concealed pistol or revolver on
3 the campus and in the buildings of a state institution of higher education. This subsection only
4 applies to areas of the campus and buildings of a state institution of higher education under the
5 custodial possession of the state institution of higher education and does not include areas rented,
6 leased, or under an exclusive agreement for the full-time occupancy and use of a private entity.

7 (b) The provisions of subsection (a) of this section do not limit the authority of a state
8 institution of higher education to regulate possession of a concealed pistol or revolver by a person
9 holding a current and valid license to carry a concealed deadly weapon in the following locations
10 when in compliance with §61-7-14 of this code:

15 the state institution for higher education;

16 (4) In an area of the property of the state institution of higher education that has adequate
17 security measures in place to ensure that pistols or revolvers are not carried by the public into the
18 area. As used in this section, "adequate security measures" means the use of electronic
19 equipment and armed personnel at public entrances to detect and restrict the carrying of any
20 pistols or revolvers into the area, including, but not limited to, metal detectors, metal detector
21 wands, or any other equipment used for similar purposes to ensure that pistols or revolvers are not
22 carried in those areas by members of the public;

23 (5) In an on-campus room or rooms in which a student or employee disciplinary proceeding
24 is being held;

25 (6) In sole occupancy offices on the campus and in the buildings of the state institution of
26 higher education. "Sole occupancy office" means a room with at least one door and walls that
27 extend to the ceiling that is assigned to a single person as his or her workspace. This subdivision
28 does not authorize a state institution of higher education to prohibit, regulate, or restrict faculty or
29 staff members who hold a current and valid license to carry a concealed deadly weapon from
30 carrying a concealed pistol or revolver in his or her assigned office;

31 (7) At a primary or secondary education school-sponsored function being held in a specific
32 location on the property of the state institution of higher education that is rented, leased, or under
33 the exclusive use of the West Virginia Department of Education, the West Virginia Secondary
34 Schools Activities Commission, a county school board, or local public school for the actual period
35 of time the function is occurring;

36 (8) At a private function that is being held in a specific location on the property of the state

37 institution of higher education that is rented, leased, or under the exclusive use of an entity that is
38 not affiliated with the state institution of higher education for the actual period of time the function is
39 occurring;

40 (9) In any area on the property of the state institution of higher education where possession
41 of a firearm is prohibited by state or federal law;

42 (10) In specifically designated areas in which patient-care or mental health counseling is
43 being provided;

44 (11) In high hazardous and animal laboratories, defined as laboratories with:

45 (A) Greater than 55 gallons of Class I flammable liquids and/or significant quantities of
46 acids, bases, organics, pyrophorics, peroxides, bio-hazardous materials, extremely toxic
47 materials, or pyrophoric or toxic gases classified NFPA 704 Category 3 or higher;

48 (B) Hazardous gases with K-size or larger cylinders containing corrosive, reactive,
49 flammable, toxic, and/or oxidizer gases classified NFPA 704 Category 2 or higher;

50 (C) MRI and/or NMR equipment capable of generating significant magnetic fields with field
51 strength of at least 5 gauss is measured outside the equipment or 5 gauss line typically at least 3
52 feet and as much as 20 feet from equipment;

53 (D) Large cylinders of acetylene; or

54 (E) Animal research laboratory spaces in locations not accessible to the public or generally
55 accessible to students and staff, or

56 (12) In on-campus residence halls, except common areas such as lounges, dining areas,
57 and study areas.

58 (c) An employee whose employment responsibilities require him or her to be in an on-
59 campus residence hall and who holds a current and valid license to carry a concealed deadly
60 weapon is permitted to carry a concealed revolver or pistol on or about his or her person while
61 present in on-campus residence halls for purposes of his or her employment.

62 (d) Institutions of higher education shall provide either: (1) A secure location for the storage
63 of a pistol or revolver in at least one of the institution's on-campus residence halls; or (2) make
64 available an appropriate safe that may be installed in a resident's room in any of the institution's
65 on-campus residence halls. If an institution chooses to make a storage room available to on-
66 campus residents at an on-campus residence hall, the institution shall develop a policy that
67 reserves an appropriate amount of rooms in the on-campus residence hall where the storage room
68 is located for on-campus residents with a current and valid license to carry a concealed deadly
69 weapon. The institution shall make the storage room available at all times during which the on-
70 campus residence hall is open and fully operational for use by its residents. If West Virginia
71 University chooses to provide secure locations instead of making safes available to students, it
72 shall provide a secure location in at least two on-campus residence halls at its Morgantown
73 campus and one at each of its Beckley and Keyser campuses.

74 (e) An institution of higher education may charge a reasonable fee for the use of the secure
75 storage location or a safe.

76 (f) The provisions of subsection (a) of this section do not limit the authority of a state
77 institution of higher education from taking disciplinary action against a student or employee with a
78 valid license to carry a concealed deadly weapon who is convicted of a violation of §61-7-14 of this
79 code related to carrying a firearm in a location listed in subsection (b) of this section.

80 (g) Notwithstanding any provision of subsection (a) of this section to the contrary, while on
81 the campus or in the buildings of a state institution of higher education, a holder of a license to
82 carry a concealed deadly weapon or any other person not expressly authorized to do so by the
83 state institution of higher education, may not carry a pistol or revolver which is partially or wholly
84 visible, or intentionally or knowingly display a firearm in plain view of another person in a way or
85 manner to cause, or threaten, a breach of the peace, regardless of whether the firearm is
86 holstered. A holder of a license to carry a concealed deadly weapon who violates this subsection
87 may, in addition to any applicable criminal charges, be subject to discipline the state institution of

88 higher education considers appropriate.

89 (h) It is the intent of the Legislature to establish, by this act, conditions under which persons
90 with a current and valid license to carry a concealed deadly weapon may carry a concealed pistol
91 or revolver at a state institution of higher education. When a person exercises the rights granted by
92 this section, neither the carrying of a concealed pistol or revolver, nor any other conduct of person
93 involving a concealed pistol or revolver, shall be construed to be an act of the state institution of
94 higher education nor of the state, and no liability for any such actions of such person shall be
95 imputed to the state institution of higher education, its officers, agents, or employees, unless the
96 state institution of higher education has expressly requested or directed such person to carry a
97 concealed pistol or revolver: *Provided*, That the failure to provide adequate security measures at
98 any building or location at a state institution of higher education where the carrying of a concealed
99 pistol or revolver is not permitted shall not give rise to a cause action or any liability whatsoever
100 related to or arising from the carrying of a concealed pistol or revolver by any person.

101 (i) For the purposes of this section, a "license to carry a concealed deadly weapon" refers
102 to a current and valid license, lawfully issued by the State of West Virginia pursuant to §61-7-4 or
103 §61-7-4a of this code, or a current and valid license or permit recognized under §61-7-6a of this
104 code.

105 (j) These amendments to this section enacted during the regular session of the Legislature,
106 2023, may be cited as the Campus Self-defense Act.

107 (k) The provisions of this section apply on or after July 1, 2024.
