

WEST VIRGINIA LEGISLATURE

2023 REGULAR SESSION

Introduced

Senate Bill 620

BY SENATORS TRUMP AND TAYLOR

[Introduced February 14, 2023; referred
to the Committee on the Judiciary]

1 A BILL to amend and reenact §3-1-5 of the Code of West Virginia, 1931, as amended, relating to
2 the maximum number of registered voters per precinct and the distance between voting
3 precincts that a county commission may consider for consolidation when the public
4 convenience requires.

Be it enacted by the Legislature of West Virginia:

ARTICLE 1. GENERAL PROVISIONS AND DEFINITIONS.

§3-1-5. Voting precincts and places established; number of voters in precincts; precinct map; municipal map.

1 (a) The precinct is the basic territorial election unit. The county commission shall divide
2 each magisterial district of the county into election precincts, shall number the precincts, shall
3 determine, and establish the boundaries thereof and shall designate one voting place in each
4 precinct, which place shall be established as nearly as possible at the point most convenient for
5 the voters of the precinct. Each magisterial district shall contain at least one voting precinct and
6 each precinct shall have but one voting place therein.

7 Each precinct within any urban center shall contain not less than 300, nor more than ~~4,500~~
8 2,500 registered voters. Each precinct in a rural or less thickly settled area shall contain not less
9 than 200, nor more than 700 registered voters. A county commission may permit the
10 establishment or retention of a precinct less than the minimum numbers allowed in this subsection
11 upon making a written finding that to do otherwise would cause undue hardship to the voters. If,
12 at any time the number of registered voters exceeds the maximum number specified, the county
13 commission shall rearrange the precincts within the political division so that the new precincts
14 each contain a number of registered voters within the designated limits: *Provided*, That any
15 precincts with polling places that are within a ~~one-mile~~ five-mile radius of each other on or after
16 July 1, ~~2014~~ 2023, may be consolidated, at the discretion of the county clerk and county
17 commission into one or more new precincts that contain not more than ~~3,000~~ 5,000 registered
18 voters in any urban center, nor more than 1,500 registered voters in a rural or less thickly settled

19 area: *Provided, however*, That no precincts may be consolidated pursuant to this section if the
20 consolidation would create a geographical barrier or path of travel between voters in a precinct
21 and their proposed new polling place that would create an undue hardship to voters of any current
22 precinct.

23 If a county commission fails to rearrange the precincts as required, any qualified voter of
24 the county may apply for a writ of mandamus to compel the performance of this duty: *Provided*,
25 That when in the discretion of the county commission, there is only one place convenient to vote
26 within the precinct and when there are more than 700 registered voters within the existing precinct,
27 the county commission may designate two or more precincts with the same geographic
28 boundaries and which have voting places located within the same building. The county
29 commission shall designate alphabetically the voters who are eligible to vote in each precinct so
30 created. Each precinct shall be operated separately and independently with separate voting
31 booths, ballot boxes, election commissioners and clerks, and whenever possible, in separate
32 rooms. No two precincts may use the same standard receiving board, except as permitted by the
33 provisions of §3-1-30(j) of this code.

34 (b) In order to facilitate the conduct of local and special elections and the use of election
35 registration records therein, precinct boundaries shall be established to coincide with the
36 boundaries of any municipality of the county and with the wards or other geographical districts of
37 the municipality, except in instances where found by the county commission to be wholly
38 impracticable so to do. Governing bodies of all municipalities shall provide accurate and current
39 maps of their boundaries to the clerk of any county commission of a county in which any portion
40 of the municipality is located.

41 (c) To facilitate the federal and state redistricting process, precinct boundaries shall be
42 comprised of intersecting geographic physical features or municipal boundaries recognized by
43 the U. S. Census Bureau. For purposes of this subsection, geographic physical features include
44 streets, roads, streams, creeks, rivers, railroad tracks, and mountain ridge lines. The county

45 commission of every county shall modify precinct boundaries to follow geographic physical
46 features or municipal boundaries recognized by the U.S. Census Bureau and submit changes to
47 the Secretary of State in accordance with this section.

48 (d) To facilitate the state's receipt of decennial census data from the U.S. Census Bureau
49 which will include tabulation geography that supports the needs of the Legislature during the
50 federal congressional and state legislative redistricting process, and the needs of county
51 commissions during the magisterial district and precinct redistricting process:

52 (1) The Secretary of State shall serve as the Legislature's agent to the U.S. Census
53 Bureau, the county commissions, and the clerks of the county commissions for purposes of Block
54 Boundary Suggestion Project (Phase I), Voting District Project (Phase II), and Collection of
55 Census Redistricting Plans (Phase IV), or their equivalents, of the U.S. Census Bureau's
56 Redistricting Data Program for the federal decennial census. The Secretary of State may
57 designate and utilize staff within his or her office to perform the technical responsibilities of this
58 role.

59 (2) Each county commission shall submit on an ongoing basis to the Secretary of State its
60 updated precincts and such other information as is sufficient to participate in the Block Boundary
61 Suggestion Project (Phase I) and Voting District Project (Phase II), or their equivalents, of the
62 Redistricting Data Program, including any verification phases. The Secretary of State shall
63 coordinate with all counties for the submission and verification of such information. The Secretary
64 of State shall compile the information submitted by the counties and shall submit and verify such
65 information to the U.S. Census Bureau in compliance with the deadlines established by the U.S.
66 Census Bureau for the Redistricting Data Program. The Secretary of State shall provide copies
67 of such submission to the President of the Senate, the Minority Leader of the Senate, the Speaker
68 of the House of Delegates, and the Minority Leader of the House of Delegates.

69 (3) Upon the conclusion of any federal congressional or state legislative redistricting
70 process, the Legislature shall provide updated maps and accompanying technical files to the

71 Secretary of State. The Secretary of State shall submit such maps and accompanying technical
72 files to the U.S. Census Bureau during its Collection of Census Redistricting Plans (Phase IV) of
73 the Redistricting Data Program. The Secretary of State shall keep available at all times on its
74 website, and during business hours in its office at the Capitol at a place convenient for public
75 inspection, all current maps and accompanying technical files submitted by the Legislature. The
76 Secretary of State shall maintain previous maps and technical files submitted by the Legislature
77 in its records.

78 (e) Each county commission shall keep available at all times during business hours in the
79 courthouse at a place convenient for public inspection a map or maps of the county and
80 municipalities with the current boundaries of all precincts and magisterial districts. Each county
81 commission shall submit current maps and accompanying technical files to the Secretary of State
82 upon updating its precincts and magisterial districts. The Secretary of State shall keep available
83 at all times on its website, and during business hours in its office at the Capitol at a place
84 convenient for public inspection, all current maps and accompanying technical files submitted by
85 the counties. The Secretary of State shall maintain previous maps and accompanying technical
86 files submitted by the counties in its records.
