WEST VIRGINIA LEGISLATURE

2024 REGULAR SESSION

Introduced

House Bill 5626

By Delegate Worrell

[Introduced February 12, 2024; Referred to the

Committee on Energy and Manufacturing then the

Judiciary]

2024R3820

1 A BILL to amend the Code of West Virginia, 1931, as amended, by adding thereto a new article, designated §24-2J-1 and §24-2J-2, all relating to establishing a community solar pilot 2 3 program for subscribers to gain credits against their utility bills; providing legislative 4 findings; defining terms; authorizing subscriber-based solar projects that allow solar power 5 production to be granted credit against electric power costs; providing that an authorized 6 project is not deemed as a utility; providing conditions and terms for operation for a facility; 7 providing for regulation of the pilot program by the Public Service Commission; providing 8 conditions for credits; providing requirements for subscriber organizations; and providing 9 Public Service Commission rulemaking authority and directives.

Be it enacted by the Legislature of West Virginia:

	ARTICLE	2J.	COMMUNITY	SOLAR	PILOT	PROGRAM.
	<u>§24-2J-1.</u>					Definitions.
1	<u>(a) "Agriv</u>	oltaics" n	neans the co-location of	of solar energy ir	nstallations and	l agriculture either
2	beneath or betwe	en rows	of photovoltaic panels			
3	<u>(b) "Applie</u>	cable bill	credit rate" means the	dollar-per-kilowa	att-hour rate pre	eviously approved
4	by the commission	on and all	ready used to calculat	e a subscriber's	electricity bill.	
5	<u>(c) "Bill ci</u>	redit" me	ans the monetary valu	ue of the electric	tity generated l	by the community
6	solar facility alloc	ated to a	subscriber to offset th	at subscriber's e	electricity bill, w	<u>/hich shall be on a</u>
7	<u>one-to-one basis</u>	in kilowa	att-hours, exclusive of	fees, and calcu	lated by multip	lying the kilowatt-
8	hours by the app	licable bi	Il credit rate.			
9	<u>(d) "Comr</u>	mission" ı	means the West Virgir	nia Public Servic	e Commission.	
10	<u>(e) "Comr</u>	nunity so	lar facility" means a fa	cility that genera	tes electricity by	y means of a solar
11	photovoltaic dev	ice wher	eby subscribers rece	ive a bill credit	for the electri	icity generated in
12	proportion to the	size of th	eir subscription. A cor	nmunity solar fa	cility must:	
13	<u>(1) Be loc</u>	ated in th	ne service territory of t	he utility;		
14	(2) Be co	nnected t	o the electric distributi	on arid servina t	ha stata:	

14 (2) Be connected to the electric distribution grid serving the state;

15	(3) Have at least three subscribers;
16	(4) Be limited to five megawatts or less alternating current per facility, or 10 megawatts or
17	less alternating current per facility if the community solar facility is on a qualifying site, and be
18	subject to an aggregate capacity limitation for each utility as provided by the commission in
19	accordance with §24-2J-2 of this code;
20	(5) Set aside no less than 40 percent of its capacity for customers with subscriptions of 25
21	kilowatts or less; and
22	(6) Be located on a parcel or contiguous parcels of land, so that no single or contiguous
23	parcel has more than one community solar project on it.
24	(f) "Community solar pilot program" or "Program" means the pilot program created through
25	the adoption of rules by the Public Service Commission pursuant to this article to allow for the
26	development of community solar facilities as provided in §24-2J-2 of this code. This pilot program
27	is distinct and separate from the existing net metering program as provided pursuant to §24-2F-8
28	of this code.
28 29	of this code. (g) "Low-income customer" means an individual or household with an income of not more
29	(g) "Low-income customer" means an individual or household with an income of not more
29 30	(g) "Low-income customer" means an individual or household with an income of not more than 80 percent of the area's median income based on United States Department of Housing and
29 30 31	(g) "Low-income customer" means an individual or household with an income of not more than 80 percent of the area's median income based on United States Department of Housing and Urban Development guidelines.
29 30 31 32	(g) "Low-income customer" means an individual or household with an income of not more than 80 percent of the area's median income based on United States Department of Housing and Urban Development guidelines. (h) "Low-income service organization" means an organization or nonprofit whose primary
29 30 31 32 33	(g) "Low-income customer" means an individual or household with an income of not more than 80 percent of the area's median income based on United States Department of Housing and Urban Development guidelines. (h) "Low-income service organization" means an organization or nonprofit whose primary function is to provide services or assistance to low-income individuals.
29 30 31 32 33 34	(g) "Low-income customer" means an individual or household with an income of not more than 80 percent of the area's median income based on United States Department of Housing and Urban Development guidelines. (h) "Low-income service organization" means an organization or nonprofit whose primary function is to provide services or assistance to low-income individuals. (i) "Net crediting" shall mean a program under which the utility, upon authorization by or on
29 30 31 32 33 34 35	 (g) "Low-income customer" means an individual or household with an income of not more than 80 percent of the area's median income based on United States Department of Housing and Urban Development guidelines. (h) "Low-income service organization" means an organization or nonprofit whose primary function is to provide services or assistance to low-income individuals. (i) "Net crediting" shall mean a program under which the utility, upon authorization by or on behalf of an eligible customer, remits the portion of the bill credit that represents the subscription

29 30 31 32 33 34 35 36 37	 (g) "Low-income customer" means an individual or household with an income of not more than 80 percent of the area's median income based on United States Department of Housing and Urban Development guidelines. (h) "Low-income service organization" means an organization or nonprofit whose primary function is to provide services or assistance to low-income individuals. (i) "Net crediting" shall mean a program under which the utility, upon authorization by or on behalf of an eligible customer, remits the portion of the bill credit that represents the subscription fee directly to the subscriber organization of a project and places the remaining bill credit on the eligible customer's bill. In order to participate in net crediting, a customer's subscription fee shall

2

41	of implementing net crediting.
42	(j) "Qualifying site" means a site made up of one or more contiguous parcels of land where
43	the majority of the acreage utilized for a community solar facility:
44	(1) Has been previously used in electric generation, industrial, manufacturing or mining
45	operations, including, but not limited to, brownfields, closed landfills, hazardous waste sites,
46	former industrial sites, and former mining sites;
47	(2) Will be utilized for the deployment of agrivoltaics, as defined by this section; or
48	(3) Will be utilized to provide at least 51 percent of any electricity generated to low-income
49	customers.
50	(k) "Subscriber" means a retail electric customer of a utility who owns one or more
51	subscriptions of a community solar facility interconnected with that utility. A subscriber must be
52	located in the same electric utility service territory where the community solar facility is located.
53	(I) "Subscriber organization" means any for-profit or nonprofit entity that owns or operates
54	one or more community solar facilities. A subscriber organization shall not be considered a utility
55	pursuant to this chapter solely as a result of its ownership or operation of a community solar facility.
56	(m) "Subscription" means a contract between a subscriber and a subscriber organization.
57	A subscription shall be sized such that the estimated bill credits do not exceed the subscriber's
58	average annual bill for the customer account to which the subscription is attributed.
59	(n) "Utility" means a public utility as defined pursuant to §24-1-2 of this code: Provided,
60	That for purposes of this article, utility shall not include rural electric cooperatives, municipal
61	utilities, nor utilities serving less than 30,000 customers.
	<u>§24-2J-2. Pilot program creation and implementation; Public Service Commission</u>
	Rulemaking.
1	(a) The commission shall file rules in accordance with §24-1-7 of the code to establish a

- 2 <u>community solar pilot program that is substantively similar in nature to community solar programs</u>
- 3 offered in other states. Such rules shall establish a community solar program in West Virginia by

Intr HB

4	January 1, 2025, and shall require each utility to file any tariffs, agreements, or forms necessary for
5	implementation of the program, which shall be subject to comment by interested parties and final
6	commission approval. Any such tariffs shall be consistent with the bill credit rates established by
7	this article.
8	(b) The rules promulgated by the commission and any associated filing approved by the
9	commission shall:
10	(1) Establish an aggregate capacity limitation for each utility such that generation from
11	community solar facilities reaches but does not exceed:
12	(A) Six percent of total retail sales for a utility prior to January 1, 2027;
13	(B) Eight percent of total retail sales for a utility prior to January 1, 2029; and
14	(C) Ten percent of total retail sales by January 1, 2031.
15	The Commission may increase the aggregate capacity limitations for a community solar
16	project if the project provides additional electric service to businesses making a capital investment
17	in a new or expanded industrial facility located in West Virginia and resulting in new electric
18	generating load to the utility.
19	(2) Ensure broad competition for the development, ownership, and operation of community
20	solar facilities, including a separate and distinct program for third-party, non-utility entities that
21	produce at least 75 percent of program capacity;
22	(3) Develop a bill credit that reasonably allows for the creation and financing of community
23	solar facilities by non-utility subscriber organizations;
24	(4) Allow for customers to participate in the community solar pilot program on a first-come,
25	first-served basis;
26	(5) Value bill credits for a subscriber's subsequent monthly electric bill for the
27	proportional output of a community solar facility attributable to that subscriber for not less than
28	35 years from the date a community solar facility is first interconnected;
29	(6) Allow all customer classes to participate in the program, and ensure participation

30	opportunities for all customer classes;
31	(7) Prohibit punitive fees or other charges that undermine the feasibility of a community
32	solar project's economics or customer energy bill savings;
33	(8) Include one or more mechanisms sufficient to ensure accessibility for low-income
34	customers and low-income service organizations. The commission shall ensure that mechanisms
35	targeted toward low-income customers and low-income service organizations are crafted to
36	achieve tangible economic benefits for low-income customers and should integrate with existing
37	complementary programs, including, but not limited to, energy efficiency, energy assistance,
38	and/or workforce development programs. In determining the appropriate mechanism(s), the
39	commission, utilities, and stakeholders shall work with the Legislature and appropriate state
40	agencies to consider the development of financing options, financial incentives, education and
41	outreach programs, or appropriate program participation goals or minimums;
42	(9) Not remove a customer from its otherwise applicable customer class in order to
43	subscribe to a community solar facility;
43 44	subscribe to a community solar facility; (10) Reasonably allow for the transferability and portability of subscriptions, including
44	(10) Reasonably allow for the transferability and portability of subscriptions, including
44 45	(10) Reasonably allow for the transferability and portability of subscriptions, including allowing a subscriber to retain a subscription to a community solar facility if the subscriber moves
44 45 46	(10) Reasonably allow for the transferability and portability of subscriptions, including allowing a subscriber to retain a subscription to a community solar facility if the subscriber moves within the same utility territory;
44 45 46 47	(10) Reasonably allow for the transferability and portability of subscriptions, including allowing a subscriber to retain a subscription to a community solar facility if the subscriber moves within the same utility territory; (11) Clarify existing interconnection standards for distributed customer generator
44 45 46 47 48	(10) Reasonably allow for the transferability and portability of subscriptions, including allowing a subscriber to retain a subscription to a community solar facility if the subscriber moves within the same utility territory; (11) Clarify existing interconnection standards for distributed customer generator generator facilities to efficiently and effectively interconnect community solar projects and to
44 45 46 47 48 49	(10) Reasonably allow for the transferability and portability of subscriptions, including allowing a subscriber to retain a subscription to a community solar facility if the subscriber moves within the same utility territory; (11) Clarify existing interconnection standards for distributed customer generator generation facilities to efficiently and effectively interconnect community solar projects and to ensure that projects shall not be prohibited from apply for interconnection and being placed in the
44 45 46 47 48 49 50	(10) Reasonably allow for the transferability and portability of subscriptions, including allowing a subscriber to retain a subscription to a community solar facility if the subscriber moves within the same utility territory; (11) Clarify existing interconnection standards for distributed customer generator generation facilities to efficiently and effectively interconnect community solar projects and to ensure that projects shall not be prohibited from apply for interconnection and being placed in the interconnection queue after the effective date of this article;
44 45 46 47 48 49 50 51	(10) Reasonably allow for the transferability and portability of subscriptions, including allowing a subscriber to retain a subscription to a community solar facility if the subscriber moves within the same utility territory; (11) Clarify existing interconnection standards for distributed customer generator generation facilities to efficiently and effectively interconnect community solar projects and to ensure that projects shall not be prohibited from apply for interconnection and being placed in the interconnection queue after the effective date of this article; (12) Provide for consumer protection in accordance with existing laws and consistent with
44 45 46 47 48 49 50 51 52	(10) Reasonably allow for the transferability and portability of subscriptions, including allowing a subscriber to retain a subscription to a community solar facility if the subscriber moves within the same utility territory; (11) Clarify existing interconnection standards for distributed customer generator generation facilities to efficiently and effectively interconnect community solar projects and to ensure that projects shall not be prohibited from apply for interconnection and being placed in the interconnection queue after the effective date of this article; (12) Provide for consumer protection in accordance with existing laws and consistent with consumer protections provided in programs managed by peer utilities;

5

- 56 <u>co-located;</u>
- 57 (15) Encourage adherence to best market practices for construction and decommissioning
- 58 of community solar facilities;
- 59 (16) Incentivize, support, or encourage, when appropriate, community solar facility siting
- 60 on marginal farm land or agrivoltaic development;
- 61 (17) Include a program implementation schedule.
- 62 (c) The provisions of this section shall expire on December 31, 2031. The expiration of the
- 63 section shall not affect any community solar projects previously approved by the commission
- 64 pursuant to this section on or before December 31, 2031.

NOTE: The purpose of this bill is to create a community solar program where subscribers can purchase an interest in a solar facility and use credits against their electric utility costs; establishing parameters and conditions for the program; and providing for administration and rulemaking by the Public Service Commission.

Strike-throughs indicate language that would be stricken from a heading or the present law and underscoring indicates new language that would be added.
