15 association of providers for children's or family services and of other public agencies.

Persons who serve on a family assessment and planning team shall be immune from any civil liability for decisions made about the appropriate services for a family or the proper placement or treatment of a child who comes before the team, unless it is proven that such person acted with malicious intent. The case manager shall notify the foster parents of a troubled youth of the time and place of all assessment and planning meetings related to such youth. Such

45 and family, such reports to be made to the team or the responsible local agencies.

§49-12-10. Referrals to family assessment and planning team or collaborative,
multidisciplinary team process.

1 The community policy and management team shall establish policies governing the
2 referral of troubled youths and families to the family assessment and planning team or a
3 collaborative, multidisciplinary team process approved by the Council. These policies shall include
4 that all youth and families for which CSA-funded treatment services are requested are to be
5 assessed by the family assessment and planning team or an approved collaborative,
6 multidisciplinary team process and shall consider the criteria set out in this article. Except for
7 cases involving only the payment of foster care maintenance that shall be at the discretion of the
8 local community policy and management team, cases for which service plans are developed
9 outside of this family assessment and planning team process or approved collaborative,
10 multidisciplinary team process shall not be eligible for state pool funds.

11 Nothing in this section prohibits the use of state pool funds for emergency placements,
12 provided the youth are subsequently assessed by the family assessment and planning team or an
13 approved collaborative, multidisciplinary team process within 14 days of admission and the
14 emergency placement is approved at the time of placement. In cases involving the denial of state
15 pool funds resulting from parental refusal to consent to release of student records under federal
16 law, where such refusal precludes the development of placement through the family assessment
17 and planning team process or the approved collaborative, multidisciplinary team process, an

18 appeal for good cause may be made to the Council.

§49-12-11. Information sharing; confidentiality.

1 (a) All public agencies that have served a family or treated a child referred to a family
2 assessment and planning team shall cooperate with this team. The agency that refers a youth and
3 family to the team shall be responsible for obtaining the consent required to share agency client
4 information with the team. After obtaining the proper consent, all agencies shall promptly deliver,
5 upon request and without charge, such records of services, treatment or education of the family or
6 child as are necessary for a full and informed assessment by the team.

7 (b) Proceedings held to consider the appropriate provision of services and funding for a
8 particular child or family or both who have been referred to the family assessment and planning
9 team and whose case is being assessed by this team or reviewed by the community policy and
10 management team shall be confidential and not open to the public, unless the child and family who
11 are the subjects of the proceeding request, in writing, that it be open. All information about specific
12 children and families obtained by the team members in the discharge of their responsibilities to the
13 team shall be confidential.

14 (c) Utilizing a secure electronic database, the CPMT and the family assessment and
15 planning team shall provide the Office of Children's Services with client-specific information from
16 the mandatory uniform assessment and information in accordance with this article.

§49-12-12. State pool of funds for community policy and management teams.

1 (a) There is established a state pool of funds to be allocated to community policy and
2 management teams in accordance with the appropriation act and appropriate state regulations.
3 These funds, as made available by the Legislature, shall be expended for public or private
4 nonresidential or residential services for troubled youths and families. However, funds for private
5 special education services shall only be expended on private educational programs that are
6 licensed by the Board of Education or an equivalent out-of-state licensing agency. Effective July 1,
7 2025, funds for private special education services shall only be expended on private educational

8 programs that the Office of Children's Services certifies as having reported their tuition rates on a
9 standard reporting template developed by the office. The Office of Children's Services shall
10 consult with private special education services providers in developing the standard reporting
11 template for tuition rates. The purposes of this system of funding are to:

12 (1) Place authority for making program and funding decisions at the community level;

13 (2) Consolidate categorical agency funding and institute community responsibility for the
14 provision of services;

15 (3) Provide greater flexibility in the use of funds to purchase services based on the
16 strengths and needs of children, youths, and families; and

17 (4) Reduce disparity in accessing services and to reduce inadvertent fiscal incentives for
18 serving children and youth according to differing required local match rates for funding streams.

19 (b) The state pool shall consist of funds that serve the target populations identified in
20 subdivisions 1 through 6 of this subsection in the purchase of residential and nonresidential
21 services for children and youth. References to funding sources and current placement authority for
22 the targeted populations of children and youth are for the purpose of accounting for the funds in the
23 pool. It is not intended that children and youth be categorized by individual funding streams in
24 order to access services. The target population shall be the following:

25 (1) Children and youth placed for purposes of special education in approved private school
26 educational programs, previously funded by the Department of Education through private tuition
27 assistance;

28 (2) Children and youth with disabilities placed by local social services agencies or the
29 Division of Juvenile services pursuant to §49-2-901 through §49-2-919 of this code in private
30 residential facilities or across jurisdictional lines in private, special education day schools, if the
31 individualized education program indicates such school is the appropriate placement while living
32 in foster homes or child-caring facilities, previously funded by the Department of Education
33 through the Interagency Assistance Fund for Noneducational Placements of Handicapped

34 Children;

35 (3) Children and youth for whom foster care services, as defined by §49-4-110 of this code,
36 are being provided;

37 (4) Children and youth placed by the Division of Juvenile services pursuant to §49-2-901
38 through §49-2-919 of this code and family court, in a private or locally operated public facility or
39 nonresidential program, or in a community or facility-based treatment program;

40 (5) Children and youth committed to the Division of Juvenile services pursuant to §49-2-
41 901 through §49-2-919 of this code placed by it in a private home or in a public or private facility;
42 and

43 (6) Children and youth previously placed in approved private school educational programs
44 for at least six months who will receive transitional services in a public school setting. State pool
45 funds shall be allocated for no longer than 12 months for transitional services. Local agencies may
46 contract with a private school education program provider to provide transition services in the
47 public school.

48 (c) The Legislature and the governing body of each county and municipality shall annually
49 appropriate such sums of money as shall be sufficient to (1) provide special education services
50 and foster care services for children and youth identified and (2) meet relevant federal mandates
51 for the provision of these services. The community policy and management team shall anticipate
52 to the best of its ability the number of children and youth for whom such services will be required
53 and reserve funds from its state pool allocation to meet these needs. Nothing in this section
54 prohibits local governments from requiring parental or legal financial contributions, where not
55 specifically prohibited by federal or state law or regulation, utilizing a standard sliding fee scale
56 based upon ability to pay, as provided in the appropriation act.

57 (d) When a community services board established, local school division, local social
58 service agency, court service unit, or the Division of Juvenile services pursuant to §49-2-901
59 through §49-2-919 of this code has referred a child and family to a family assessment and

60 planning team and that team has recommended the proper level of treatment and services needed
61 by that child and family and has determined the child's eligibility for funding for services through
62 the state pool of funds, then the community services board, the local school division, local social
63 services agency, court service unit, or Department of Juvenile Justice has met its fiscal
64 responsibility for that child for the services funded through the pool. However, the community
65 services board, the local school division, local social services agency, court service unit, or
66 Department of Juvenile Justice continues to be responsible for providing services identified in
67 individual family service plans that are within the agency's scope of responsibility and that are
68 funded separately from the state pool.

69 Further, in any instance that an individual 18 through 21 years of age, inclusive, who is
70 eligible for funding from the state pool and is properly defined as a school-aged child with
71 disabilities is placed by a local social services agency that has custody across jurisdictional lines in
72 a group home in the State and the individual's individualized education program (IEP), as
73 prepared by the placing jurisdiction, indicates that a private day school placement is the
74 appropriate educational program for such individual, the financial and legal responsibility for the
75 individual's special education services and IEP shall remain, in compliance with the provisions of
76 federal law, Article 2 of Chapter 13 of Title 22.1, and Board of Education regulations, the
77 responsibility of the placing jurisdiction until the individual reaches the age of 21, inclusive, or is no
78 longer eligible for special education services. The financial and legal responsibility for such special
79 education services shall remain with the placing jurisdiction, unless the placing jurisdiction has
80 transitioned all appropriate services with the individual.

81 (e) In any matter properly before a court for which state pool funds are to be accessed, the
82 court shall, prior to final disposition, and refer the matter to the community policy and management
83 team for assessment by a local family assessment and planning team authorized by policies of the
84 community policy and management team for assessment to determine the recommended level of
85 treatment and services needed by the child and family. The family assessment and planning team

86 making the assessment shall make a report of the case or forward a copy of the individual family
87 services plan to the court within 30 days of the court's written referral to the community policy and
88 management team. The court shall consider the recommendations of the family assessment and
89 planning team and the community policy and management team. If, prior to a final disposition by
90 the court, the court is requested to consider a level of service not identified or recommended in the
91 report submitted by the family assessment and planning team, the court shall request the
92 community policy and management team to submit a second report characterizing comparable
93 levels of service to the requested level of service. Notwithstanding the provisions of this
94 subsection, the court may make any disposition as is authorized or required by law. Services
95 ordered pursuant to a disposition rendered by the court pursuant to this section shall qualify for
96 funding as appropriated under this section.

97 (f) As used in this section, "transitional services" includes services delivered in a public
98 school setting directly to students with significant disabilities or intensive support needs to facilitate
99 their transition back to public school after having been served in a private special education day
100 school or residential facility for at least six months. "Transitional services" includes one-on-one
101 aides, speech therapy, occupational therapy, behavioral health services, counseling, applied
102 behavior analysis, specially designed instruction delivered directly to the student, or other services
103 needed to facilitate such transition that are delivered directly to the student in their public school
104 over the 12-month period as identified in the child's individualized education program.

NOTE: The purpose of this bill is to create the Comprehensive Services Act, a collaborative system of services and funding that is child-centered, family-focused and community-based when addressing the strengths and needs of troubled and at-risk youths and their families in this state.
