By Delegates Gearhart, Holstein, Brooks, Green,  
Bridges, Maynor, Willis, Cooper, Chiarelli, Browning,  
and Dean

[Introduced March 04, 2025; referred to the  
Committee on Energy and Public Works then  
Finance]

1 A BILL to amend and reenact §11-13-2o and §11-15-9 of the Code of West Virginia, 1931, as  
 2 amended; and to amend the code by adding a new article, designated §11-6M-1, §11-6M-  
 3 2, §11-6M-3, §11-6M-4, §11-6M-5, §11-6M-6, §11-6M-7, §11-6M-8, §11-6M-9, and §11-  
 4 6M-10, relating to establishing economic incentives for data centers to locate within the  
 5 state; specifying a short title; defining terms; providing legislative findings and purpose;  
 6 establishing eligibility criteria; clarifying property tax treatment for eligible data centers;  
 7 creating tax exemptions; creating an application process; requiring compliance and  
 8 recapture; authorizing rule authority; and providing an effective date.

*Be it enacted by the Legislature of West Virginia:*

**ARTICLE 6M. SPECIAL PROPERTY TAX TREATMENT FOR NEW DATA CENTERS  
 AND PROVIDING A TAX CREDIT FOR THE COAL-FIRED ELECTRIC  
 UTILITIES THAT SUPPLY THEM.**

**§11-6M-1. Short title.**

1 This article may be cited as the "West Virginia-Powered Data Center Incentive Act".

**§11-6M-2. Legislative findings and purpose.**

1 (a) Purpose and Intent. The Legislature of West Virginia finds and declares that the  
 2 establishment of large data centers within the state is critical to fostering economic growth,  
 3 technological advancement, and job creation. By providing targeted economic incentives, West  
 4 Virginia can attract significant private investment, enhance its digital infrastructure, and solidify its  
 5 position as a competitive player in the global digital economy. These data centers shall be reliably  
 6 supported by West Virginia coal-generated electricity, contributing to grid-stability and industrial  
 7 growth within the state.

8 (b) Economic and Employment Benefits of Data Centers. Data centers represent a  
 9 cornerstone of the modern economy, providing essential infrastructure to support cloud  
 10 computing, e-commerce, artificial intelligence, and advanced analytics. The presence of these

11 facilities in West Virginia shall:

12 (1) Generate substantial direct investment in construction and operations, contributing to  
13 state and local tax revenues;

14 (2) Create high-quality jobs, including skilled technology positions, construction jobs, and  
15 support roles in maintenance, security, and administration; and

16 (3) Spur ancillary economic activity by fostering the growth of supply chains, local  
17 businesses, and technology-focused educational initiatives.

18 The long-term operational presence of data centers shall provide stable economic  
19 benefits, as these facilities typically operate for decades and require consistent investment in  
20 equipment, upgrades, and workforce development.

21 (c) *Optimization of Coal Production and Employment.* Production of electricity utilizing coal  
22 produced in West Virginia is now inadequately developed in comparison to nearby states with  
23 which West Virginia competes for economically beneficial projects. Coal electric generation  
24 projects have been undermined by existing regulatory requirements and related time delays. The  
25 Legislature declares that facilitating the development of business activity directly and indirectly  
26 related to coal electric generation development, transportation, storage, and use serves the public  
27 interest of the citizens of this state by promoting economic development, by improving economic  
28 opportunities for the citizens of this state, and providing additional opportunities to stabilize the  
29 price of electricity while increasing its reliability and availability.

30 (d) *Infrastructure and Technological Advancement.* By attracting large data centers, West  
31 Virginia can accelerate the development of state-of-the-art broadband networks and power  
32 infrastructure, which are prerequisites for these facilities. These improvements shall:

33 (1) Enhance connectivity for residents and businesses throughout the state.

34 (2) Provide critical infrastructure for emerging industries reliant on high-speed Internet and  
35 advanced computing capabilities.

36 (e) *Competitive Advantage and Regional Development.* Surrounding states have

37 successfully leveraged incentive programs to attract data centers, underscoring the need for West  
38 Virginia to adopt competitive measures to attract similar investments. Incentivizing data center  
39 development in rural or economically distressed areas shall promote balanced regional growth,  
40 reduce economic disparities, and provide opportunities for workforce training and education in  
41 areas historically impacted by declining job opportunities. The state's geographical advantages,  
42 including its proximity to major population centers and relative insulation from natural disasters,  
43 make it an ideal location for data center operations. Moreover, the state's coal-fired electric  
44 generating facilities provide affordable, reliable electricity needed to power large-scale data center  
45 operations.

46 (f) *Commitment to Strategic Partnerships.* The Legislature supports fostering partnerships  
47 between data center operators, educational institutions, and workforce development programs to  
48 prepare a skilled workforce equipped to meet the demands of the digital economy and create  
49 pipelines for local talent to secure high-paying, high-tech jobs within the state.

50 (g) *Conclusion.* By enacting targeted economic incentives, such as special property tax  
51 treatment for data centers and B&O tax reduction to the electric utilities supplying them, West  
52 Virginia can position itself a premiere designation for large-scale data center investment,  
53 delivering sustained economic, technological, and societal benefits for its citizens, all while  
54 supporting local electricity generators and the coal miners who supply and provide them with the  
55 affordable power necessary to thrive in the digital economy. The Legislature commits to pursuing  
56 all policies and strategic partnerships that shall support these objectives, thereby ensuring a  
57 prosperous and innovative future for all West Virginians.

**§11-6M-3. Definitions.**

1 (a) *General.* - When used in this article, or in the administration of this article, terms defined  
2 in subsection (b) shall have the meanings ascribed to them by this section, unless a different  
3 meaning is clearly required by either the context in which the term is used, or by specific definition,  
4 in this article.

5 (b) Terms defined. --

6 "Data Center" means a facility that (1) Houses computer systems and associated  
7 components, including storage systems and telecommunications equipment, for the purposes of

2 at any qualifying data center as defined in this article shall be afforded salvage value for the  
3 purposes of ad valorem property taxation under Chapter 11 of this code and under Article X of the  
4 Constitution of the State of West Virginia:

5 (1) For purposes of this section, "salvage value" means the lower of fair market salvage

6 value or five percent of the total value of the qualifying data center, including all equipment and  
7 infrastructure necessary for its operation.

8 (2) The valuation and assessment of any qualifying data center, including the process of  
9 protest and appeal from any such valuation, shall be conducted in the manner set forth and more  
10 fully described in §11-6-1 et seq. of this code and any applicable rules.

**§11-6M-6. Sales and use tax exemption.**

1 To further support the development of qualified data centers within the state, §11-15-9 of  
2 this code shall be amended to include an exemption from the Consumer Sales and Use Tax,  
3 provided the data center meets the eligibility requirements of §11-6H-4 of this code.

**§11-6M-7. Application process.**

1 (a) Taxpayers seeking incentives under this act shall submit an application to the West  
2 Virginia State Tax Division.

7 verifying compliance with coal-generated electricity usage requirements; and

8 (3) Evidence of compliance with the eligibility requirements outlined in §11-6H-3 of this  
9 code.

**§11-6M-8. Compliance and recapture.**

1 If a qualifying data center ceases operations, fails to meet the coal-generated electricity  
2 usage requirement, or fails to maintain the required job creation threshold within five years of  
3 claiming the incentive, the taxpayer shall repay the full amount of benefits claimed during the prior  
4 three tax years.

**§11-6M-9. Rules.**

1 The Tax Commissioner shall promulgate rules to ensure compliance, including audit

2 procedures, penalties for false claims, and prescribing forms and deadlines for the application  
3 process.

**§11-6M-10. Effective date.**

1 This act shall apply to tax years beginning on or after January 1, 2025.

**ARTICLE 13. BUSINESS AND OCCUPATION TAX.**

**§11-13-2o. Business of generating or producing or selling electricity on and after June 1, 1995; definitions; rate of tax; exemptions; effective date.**

1 (a) *Definitions.* — As used in this section:

2 (1) "Average four-year generation" is computed by dividing by four the sum of a generating  
3 unit's net generation, expressed in kilowatt hours, for calendar years 1991, 1992, 1993, and 1994.  
4 For any generating unit which was newly installed and placed into commercial operation after  
5 January 1, 1991, and prior to the effective date of this section, "average four-year generation" is  
6 computed by dividing the unit's net generation for the period beginning with the month in which the  
7 unit was placed into commercial operation and ending with the month preceding the effective date  
8 of this section by the number of months in the period and multiplying the resulting amount by  
9 twelve with the result being a representative 12-month average of the unit's net generation while in  
10 an operational status.

11 (2) "Capacity factor" means a fraction, the numerator of which is average four-year  
12 generation and the denominator of which is the maximum possible annual generation.

13 (3) "Generating unit" means a mechanical apparatus or structure which through the  
14 operation of its component parts is capable of generating or producing electricity and is regularly  
15 used for this purpose.

16 (4) "Inactive reserve" means the removal of a generating unit from commercial service for a  
17 period of not less than 12 consecutive months as a result of lack of need for generation from the  
18 generating unit or as a result of the requirements of state or federal law or the removal of a  
19 generating unit from commercial service for any period as a result of any physical exigency which

20 is beyond the reasonable control of the taxpayer.

21 (5) "Maximum possible annual generation" means the product, expressed in kilowatt  
22 hours, of official capability times 8,760 hours.

23 (6) "Official capability" means the nameplate capacity rating of a generating unit expressed  
24 in kilowatts.

25 (7) "Peaking unit" means a generating unit designed for the limited purpose of meeting  
26 peak demands for electricity or filling emergency electricity requirements.

27 (8) "Retired from service" means the removal of a generating unit from commercial service  
28 for a period of at least 12 consecutive months with the intent that the unit may not thereafter be  
29 returned to active service.

30 (9) "Taxable generating capacity" means the product, expressed in kilowatts, of the  
31 capacity factor times the official capability of a generating unit, subject to the modifications set  
32 forth in subdivisions (2) and (3), subsection (c) of this section.

33 (10) "Net generation" for a period means the kilowatt hours of net generation available for  
34 sale generated or produced by the generating unit in this state during the period less the following:

35 (A) Twenty-one twenty-sixths of the kilowatt hours of electricity generated at the generating  
36 unit and sold during the period to a plant location of a customer engaged in manufacturing activity  
37 if the contract demand at the plant location exceeds 200,000 kilowatts per hour in a year or where  
38 the usage at the plant location exceeds 200,000 kilowatts per hour in a year;

39 (B) Twenty-one twenty-sixths of the kilowatt hours of electricity produced or generated at  
40 the generating unit during the period by any person producing electric power and an alternative  
41 form of energy at a facility located in this state substantially from gob or other mine refuse;

42 (C) The total kilowatt hours of electricity generated at the generating unit exempted from  
43 tax during the period by §11-13-2(n)(b) of this code.

44 (b) *Rate of tax.* — Upon every person engaging or continuing within this state in the  
45 business of generating or producing electricity for sale, profit or commercial use, either directly or

46 indirectly through the activity of others, in whole or in part, or in the business of selling electricity to  
47 consumers, or in both businesses, the tax imposed by §11-13-2 of this code shall be equal to:

48 (1) For taxpayers who generate or produce electricity for sale, profit or commercial use, the  
49 product of \$22.78 multiplied by the taxable generating capacity of each generating unit in this state  
50 owned or leased by the taxpayer, subject to the modifications set forth in subsection (c) of this  
51 section: *Provided*, That with respect to each generating unit in this state which has installed a flue  
52 gas desulfurization system, the tax imposed by §11-13-2 of this code shall, on and after January  
53 31, 1996, be equal to the product of \$20.70 multiplied by the taxable generating capacity of the  
54 units, subject to the modifications set forth in subsection (c) of this section: *Provided, however*,  
55 That with respect to kilowatt hours sold to or used by a plant location engaged in manufacturing  
56 activity in which the contract demand at the plant location exceeds 200,000 kilowatts per hour per  
57 year or if the usage at the plant location exceeds 200,000 kilowatts per hour in a year, in no event  
58 may the tax imposed by this article with respect to the sale or use of the electricity exceed five  
59 hundredths of one cent times the kilowatt hours sold to or used by a plant engaged in a  
60 manufacturing activity; and

61 (2) For taxpayers who sell electricity to consumers in this state that is not generated or  
62 produced in this state by the taxpayer, nineteen hundredths of one cent times the kilowatt hours of  
63 electricity sold to consumers in this state that were not generated or produced in this state by the  
64 taxpayer, except that the rate shall be five hundredths of one cent times the kilowatt hours of  
65 electricity not generated or produced in this state by the taxpayer which is sold to a plant location in  
66 this state of a customer engaged in manufacturing activity if the contract demand at ~~such~~ the plant  
67 location exceeds 200,000 kilowatts per hour per year or if the usage at ~~such~~ the plant location  
68 exceeds 200,000 kilowatts per hour in a year. The measure of tax under this subdivision shall be  
69 equal to the total kilowatt hours of electricity sold to consumers in the state during the taxable year,  
70 that were not generated or produced in this state by the taxpayer, to be determined by subtracting  
71 from the total kilowatt hours of electricity sold to consumers in the state the net kilowatt hours of

72 electricity generated or produced in the state by the taxpayer during the taxable year. For the  
73 purposes of this subdivision, net kilowatt hours of electricity generated or produced in this state by  
74 the taxpayer includes the taxpayer's pro rata share of electricity generated or produced in this  
75 state by a partnership or limited liability company of which the taxpayer is a partner or member.  
76 The provisions of this subdivision may not apply to those kilowatt hours exempt under §11-13-  
77 2(n)(b) of this code. Any person taxable under this subdivision shall be allowed a credit against the  
78 amount of tax due under this subdivision for any electric power generation taxes or a tax similar to  
79 the tax imposed by subdivision (1) of this subsection paid by the taxpayer with respect to the  
80 electric power to the state in which the power was generated or produced. The amount of credit  
81 allowed may not exceed the tax liability arising under this subdivision with respect to the sale of the  
82 power.

83 (c) The following provisions are applicable to taxpayers subject to tax under subdivision  
84 (1), subsection (b) of this section:

85 (1) *Retired units; inactive reserve.* — If a generating unit is retired from service or placed in  
86 inactive reserve, a taxpayer may not be liable for tax computed with respect to the taxable  
87 generating capacity of the unit for the period that the unit is inactive or retired. The taxpayer shall  
88 provide written notice to the Joint Committee on Government and Finance, as well as to any other  
89 entity as may be otherwise provided by law, 18 months prior to retiring any generating unit from  
90 service in this state.

91 (2) *New generating units.* — If a new generating unit, other than a peaking unit, is placed in  
92 initial service on or after the effective date of this section, the generating unit's taxable generating  
93 capacity shall equal 40 percent of the official capability of the unit: *Provided*, That the taxable  
94 generating capacity of a county-owned or municipally owned generating unit shall equal zero  
95 percent of the official capability of the unit and for taxable periods ending on or before December  
96 31, 2007, the taxable generating capacity of a generating unit utilizing a turbine powered primarily  
97 by wind shall equal five percent of the official capability of the unit: *Provided, however*, That for

98 taxable periods beginning on or after January 1, 2008, the taxable generating capacity of a  
99 generating unit utilizing a turbine powered primarily by wind shall equal 12 percent of the official  
100 capability of the unit: *Provided further*, That for taxable periods beginning on or after January 1,  
101 2020, the taxable generating capacity of a generating unit utilizing solar photovoltaic methods  
102 shall equal eight percent of the official capacity of the unit. For purposes of this subsection, "solar  
103 photovoltaic methods" means a module or array of solar cells electronically connected in a series  
104 or in parallel to provide suitable voltages and currents for electricity generation. Methods include,  
105 but are not limited to, a grid-connected photovoltaic system designed to operate in parallel with an  
106 electric utility grid.

107 (3) *Peaking units*. — If a peaking unit is placed in initial service on or after the effective date  
108 of this section, the generating unit's taxable generating capacity shall equal five percent of the  
109 official capability of the unit: *Provided*, That the taxable generating capacity of a county-owned or  
110 municipally owned generating plant shall equal zero percent of the official capability of the unit.

111 (4) *Transfers of interests in generating units*. — If a taxpayer acquires an interest in a  
112 generating unit, the taxpayer shall include the computation of taxable generating capacity of the  
113 unit in the determination of the taxpayer's tax liability as of the date of the acquisition. Conversely,  
114 if a taxpayer transfers an interest in a generating unit, the taxpayer may not for periods thereafter  
115 be liable for tax computed with respect to the taxable generating capacity of the transferred unit.

116 (5) *Proration, allocation*. — The Tax Commissioner shall promulgate rules in conformity  
117 with §29A-3-1 *et seq.* of this code to provide for the administration of this section and to equitably  
118 prorate taxes for a taxable year in which a generating unit is first placed in service, retired, or  
119 placed in inactive reserve, or in which a taxpayer acquires or transfers an interest in a generating  
120 unit, to equitably allocate and reallocate adjustments to net generation, and to equitably allocate  
121 taxes among multiple taxpayers with interests in a single generating unit, it being the intent of the  
122 Legislature to prohibit multiple taxation of the same taxable generating capacity.

123 So as to provide for an orderly transition with respect to the rate-making effect of this

124 section, those electric light and power companies which, as of the effective date of this section, are  
125 permitted by the West Virginia Public Service Commission to utilize deferred accounting for  
126 purposes of recovery from ratepayers of any portion of business and occupation tax expense  
127 under this article shall be permitted, until the time that action pursuant to a rate application or order  
128 of the commission provides for appropriate alternative rate-making treatment for that expense, to  
129 recover the tax expense imposed by this section by means of deferred accounting to the extent  
130 that the tax expense imposed by this section exceeds the level of business and occupation tax  
131 under this article currently allowed in rates.

132       (6) *Electricity generated by manufacturer or affiliate for use in manufacturing activity.* —  
133 When electricity used in a manufacturing activity is generated in this state by the person who owns  
134 the manufacturing facility in which the electricity is used and the electricity-generating unit or units  
135 producing the electricity so used are owned by the manufacturer, or by a member of the  
136 manufacturer's controlled group, as defined in Section 267 of the Internal Revenue Code of 1986,  
137 as amended, the generation of the electricity may not be taxable under this article: *Provided*, That  
138 any electricity generated or produced at the generating unit or units which is sold or used for  
139 purposes other than in the manufacturing activity shall be taxed under this section and the amount  
140 of tax payable shall be adjusted to be equal to an amount which is proportional to the electricity  
141 sold for purposes other than the manufacturing activity. The Department of Revenue shall  
142 promulgate rules in accordance with §29A-3-1 *et seq.* of this code: *Provided, however*, That the  
143 rules shall be promulgated as emergency rules.

144       (7) *Electricity generated by coal-fired power plant for use in qualifying data center.* After  
145 January 1, 2025, when coal-generated electricity is sold to a qualifying data center pursuant to the  
146 provisions of §11-6H-1 *et seq.* of this code, the generation of the coal-generated electricity used  
147 by the qualifying data center may not be taxed under this article: *Provided*, That any electricity  
148 generated or produced at the generating unit or units which is sold or used for purposes other than  
149 to power the qualifying data center shall be taxed in accordance with this section, and the amount

150 of the tax payable by the electric generator shall be adjusted to equal an amount which is  
151 proportional to the electricity sold for purposes other than the qualifying data center uses or other  
152 uses exempt under this article.

153 (d) Beginning June 1, 1995, electric light and power companies that actually paid tax based  
154 on §11-13-2d(a)(3) of this code or §11-13-2m of this code for every taxable month in 1994 shall  
155 determine their liability for payment of tax under this article in accordance with subdivisions (1) and  
156 (2) of this subsection. All other electric light and power companies shall determine their liability for  
157 payment of tax under this article exclusively under this section beginning June 1, 1995, and  
158 thereafter.

159 (1) If for taxable months beginning on or after June 1, 1995, liability for tax under this  
160 section is equal to or greater than the sum of the power company's liability for payment of tax  
161 under §11-13-2d(a)(3) of this code and this section, then the company shall pay the tax due under  
162 this section and not the tax due under §11-13-2d(a)(3) of this code and §11-13-2m of this code. If  
163 tax liability under this section is less, then the tax shall be paid under §11-13-2d(a)(3) of this code  
164 and §11-13-2m of this code and the tax due under this section may not be paid.

165 (2) Notwithstanding subdivision (1) of this subsection, for taxable years beginning on or  
166 after January 1, 1998, all electric and light power companies shall determine their liability for  
167 payment of tax under this article exclusively under this section.

## **ARTICLE 15. CONSUMERS SALES AND SERVICE TAX.**

### **§11-15-9. Exemptions.**

1 (a) *Exemptions for which exemption certificate may be issued.* — A person having a right  
2 or claim to any exemption set forth in this subsection may, in lieu of paying the tax imposed by this  
3 article and filing a claim for refund, execute a certificate of exemption, in the form required by the  
4 Tax Commissioner, and deliver it to the vendor of the property or service in the manner required by  
5 the Tax Commissioner. However, the Tax Commissioner may, by rule, specify those exemptions  
6 authorized in this subsection for which exemption certificates are not required. The following sales

7 of tangible personal property and services are exempt as provided in this subsection:

11 institution in this state which qualifies as a nonprofit or educational institution subject to the West  
12 Virginia Department of Education and the Arts, the Higher Education Policy Commission, or the  
13 Council for Community and Technical College Education for universities and colleges located in  
14 this state;

15 (3) Sales of property or services to this state, its institutions or subdivisions, governmental  
16 units, institutions, or subdivisions of other states: *Provided*, That the law of the other state provides

18 including agencies of federal, state, or local governments for distribution in public welfare or relief  
19 work;

20 (4) Sales of vehicles which are titled by the Division of Motor Vehicles and which are  
21 subject to the tax imposed by §11-15-3c of this code or like tax;

22 (5) Sales of property or services to churches which make no charge whatsoever for the  
23 services they render: *Provided*, That the exemption granted in this subdivision applies only to  
24 services, equipment, supplies, food for meals, and materials directly used or consumed by these  
25 organizations and does not apply to purchases of gasoline or special fuel;

26 (6) Sales of tangible personal property or services to a corporation or organization which  
27 has a current registration certificate issued under §11-12-1 *et seq.* of this code, which is exempt  
28 from federal income taxes under Section 501(c)(3) or (c)(4) of the Internal Revenue Code of 1986,  
29 as amended, and which is:

30 (A) A church or a convention or association of churches as defined in Section 170 of the  
31 Internal Revenue Code of 1986, as amended;

32 (B) An elementary or secondary school which maintains a regular faculty and curriculum

33 and has a regularly enrolled body of pupils or students in attendance at the place in this state  
34 where its educational activities are regularly carried on;

36 from any combination of gifts, grants, direct or indirect charitable contributions, or membership  
37 fees;

38 (D) An organization which has no paid employees and its gross income from fundraisers,  
39 less reasonable and necessary expenses incurred to raise the gross income (or the tangible  
40 personal property or services purchased with the net income), is donated to an organization which  
41 is exempt from income taxes under Section 501(c)(3) or (c)(4) of the Internal Revenue Code of  
42 1986, as amended;

43 (E) A youth organization, such as the Girl Scouts of the United States of America, the Boy  
44 Scouts of America, or the YMCA Indian Guide/Princess Program and the local affiliates thereof,  
45 which is organized and operated exclusively for charitable purposes and has as its primary  
46 purpose the nonsectarian character development and citizenship training of its members;
