

WEST VIRGINIA LEGISLATURE

2025 REGULAR SESSION

Introduced

House Bill 3211

By Delegates Chiarelli, Young, Williams, Crouse, and
Moore

[Introduced March 07, 2025; referred to the
Committee on Health and Human Resources then
Finance]

1 A BILL to amend the Code of West Virginia, 1931, as amended, by adding a new section,
2 designated §15A-10-26, related to providing cancer prevention programs for firefighters.

Be it enacted by the Legislature of West Virginia:

ARTICLE 10. FIRE MARSHAL.

§15A-10-26. Cancer prevention programs for firefighters.

1 (a) During the annual periodic health assessment of each firefighter, the state shall
2 provide, at no cost to the firefighter, appropriate medical testing and related services to detect,
3 document the presence or absence of, and prevent, certain cancers using available multi-cancer
4 early detection testing.
5 (b) The state shall jointly establish a voluntary program through which firefighting
6 personnel may share with the Department of Human Services the results of multi-cancer early
7 detection testing or other forms of preventative tests in order to identify any trends or causes of
8 cancer in such personnel. Any results shall be shared in an anonymized, de-identified manner that
9 safeguards the personally identifiable information of the personnel in order to prevent attribution to
10 any personnel of any such shared results.

NOTE: The purpose of this bill is to establish cancer prevention programs for firefighting personnel, including providing multi-cancer early detection testing or other forms of preventative tests.

Strike-throughs indicate language that would be stricken from a heading or the present law and underscoring indicates new language that would be added.
