

WEST VIRGINIA LEGISLATURE

2026 REGULAR SESSION

ENGROSSED

House Bill 4008

By Delegates Maynor, Shamblin, Moore, Crouse,
Clay, Foggin, Burkhammer, Anderson, Eldridge,
Akers, and Parsons

[Introduced January 14, 2026; referred to the
Committee on Energy and Public Works]

1 A BILL to amend and reenact §5B-2-19 of the Code of West Virginia, 1931, as amended; and to
2 amend and reenact §24-2-1n of the code; relating to the West Virginia Business Ready
3 Sites Program.

Be it enacted by the Legislature of West Virginia:

CHAPTER 5B. ECONOMIC DEVELOPMENT ACT OF 1985.

ARTICLE 2. DEPARTMENT OF ECONOMIC DEVELOPMENT.

§5B-2-19. Certified Sites and Development Readiness Program.

1 (a)(1) The Certified Sites and Development Readiness Program is hereby created and is to
2 be administered as a program within the Division of Economic Development with appropriate rules
3 as necessary. The program shall establish evaluation criteria and site certification levels based
4 upon developmental readiness of an applicant's site. In developing the program, the division shall
5 consider utilizing all available resources and technical support, both public and private.

6 (2) The division shall establish an application process and forms through which an
7 applicant may begin to participate in the program and identify and describe potential sites for
8 economic development and investment. The application process and forms should include site
9 specific information such as property ownership and control, descriptions and mapping, historical
10 and current uses, access to various forms of transportation, availability of various utility services,
11 environmental studies, conceptual plans, marketing materials, and all other information requested
12 by the department.

13 (3) Applicants may include only state, county, municipal, or regional governmental entities
14 such as, without limitation, economic development authorities, economic development
15 corporations, economic development alliances, or economic development partnerships.

16 (4) The division shall select applicant's sites to participate in the program from the
17 application materials. The division will select sites to participate in the program, evaluate the
18 selected sites, and certify each site based upon its readiness to be developed from the established

19 criteria. After evaluation, the division shall provide a report to the applicant detailing the results of
20 the site evaluation, identifying site deficiencies and strengths, and suggesting a prioritized list of
21 site improvements which may be made to improve the site's readiness to develop. The division
22 may thereafter reevaluate and recertify a site as improvements are made to a site and deficiencies
23 cured.

24 (5) The division may provide to applicants funding assistance up to a 50 percent match
25 through a matching grant program which may be spent only for directly improving the
26 developmental readiness of sites which have been selected to participate in the program. The
27 division shall establish criteria and an application process for awarding matching grants to improve
28 an applicant's site readiness: *Provided*, That no single site may receive any amount greater than a
29 maximum amount established by the division through this grant matching program. Applications
30 for this grant matching program must include details which specifically identify what deficiency or
31 deficiencies will be cured and through what means and all other information required by the
32 division. Grant matching funds must be spent, contracted to be spent, or returned to the
33 department within 12 months of the date of receipt of the grant matching funds. Grant matching
34 funds shall be paid back to the division when a participating site is sold or leased for development.
35 The division shall take prudent steps to receive a security interest in a participating site in the
36 amount of the grant matching funds award including, but not limited to, placing of record in the
37 county where the participating site is located, an appropriate lien against the title. All funds repaid
38 under this section shall remain within the program for use on participating sites. The division shall
39 monitor, and request appropriate evidence documenting the cured deficiencies and thereafter
40 reevaluate and recertify a participating site as part of this grant matching program.

41 (6)(A) The division may provide funding assistance to applicants through a micro grant
42 program which may be spent only for directly improving the developmental readiness of sites
43 which have been selected to participate in the program. The division shall establish criteria and an
44 application process for awarding the micro grants to improve an applicant's site readiness.

45 ~~Provided, That no single site may receive any amount greater than \$75,000 through this micro~~
46 ~~grant program~~ Applications for this micro grant program must include details which specifically
47 identify what deficiency or deficiencies will be cured and through what means and all other
48 information required by the division. Micro grant funds must be spent, contracted to be spent, or
49 returned to the division within 12 months of the date of receipt of the micro grant funds. All funds
50 returned under this section shall remain within the program for use on participating sites. The
51 division shall monitor and request appropriate evidence documenting the cured deficiency and
52 thereafter reevaluate and recertify a participating site as part of this micro grant program.

53 (B) (i) Sites that are a minimum of five acres in size may receive an amount up to \$100,000
54 through the micro grant program.

55 (ii) Sites that exceed 20 acres in size may receive an amount up to \$250,000 through the
56 micro grant program.

57 (iii) Notwithstanding these limitations on acreage, sites eligible for participation in the West
58 Virginia Business Ready Sites Program, as defined in §24-2-1n of this code, are eligible for access
59 to funds from the Certified Sites and Development Readiness Fund as established in §5B-2-19(b)
60 of this code: Provided, That the Department of Commerce must approve each such application for
61 funding.

62 (b) (1) The Certified Sites and Development Readiness Fund is hereby created. The fund
63 shall be administered by the Division of Economic Development and shall consist of all moneys
64 made available for the purposes from:

65 (A) Appropriations provided by the Legislature;
66 (B) Any moneys available from external sources; and
67 (C) All interest and other income earned from investment of moneys in the fund.

68 (2) The Division of Economic Development shall use moneys in the fund to support The
69 Certified Sites and Development Readiness Program.

70 (3) Any balance, including accrued interest and any other returns, in the fund at the end of
71 each fiscal year may not expire to the General Revenue Fund but shall remain in the fund and be
72 expended for the purposes provided by this section.

73 (4) Fund balances may be invested under §12-6C-6 of this code. Earnings on the
74 investments shall be used solely for the purposes defined in this section.

CHAPTER 24. PUBLIC SERVICE COMMISSION.

ARTICLE 2. POWERS AND DUTIES OF PUBLIC SERVICE COMMISSION.

§24-2-1n. West Virginia Business Ready Sites Program.

1 (a) The Legislature finds and declares that:

2 (1) Presently, West Virginia's available industrial sites lack competitiveness with industrial
3 sites in surrounding states due in part to the lack of presently constructed, adequate utility
4 infrastructure serving sites having industrial potential;

5 (2) Having construction-ready industrial sites with adequately developed utility
6 infrastructure will increase the state's potential to attract new industrial projects to the state and
7 advance the state's economic development efforts;

11 (4) Responsibly increasing the number of industrial sites with adequate and fully
12 developed utility services is in the public interest of the state.

13 (b) Definitions. – For the purpose of this section:

14 "Industrial Development Agency" means any individual, incorporated organization,
15 foundation, association, private incorporated entity, or agency to whose members or shareholders
16 no profit inures, which has as its primary function the promotion, encouragement, and

17 development of industrial, commercial, manufacturing, and tourist enterprises or projects in this
18 state;

19 "Industrial Development Site" means a land development containing a minimum of 50
20 contiguous acres that is identified by the secretary as having potential for industrial development
21 and that does not currently have adequate public utility services from one or more public utilities
22 regulated by the Public Service Commission;

23 "Secretary" means the Secretary of the Department of Commerce; and

24 "Utility" means electricity, natural gas, water, or sewage service provided by a public utility
25 regulated by the Public Service Commission.

26 (c) The secretary shall administer a program known hereafter as "The West Virginia
27 Business Ready Sites Program" for the purpose of promoting economic development in certain
28 areas of the state by facilitating the construction of utility infrastructure necessary to increase the
29 attractiveness of such sites for industrial development within the state.

30 (d) An industrial development agency may identify a potential industrial development site
31 and apply to the secretary for approval of the site as an industrial development site, including
32 recommendations as to any required criteria for utility service to the site.

33 (e) Upon receipt of the application, the secretary shall determine whether the potential
34 industrial development site has the attributes to accomplish the public purposes of this section;
35 and, upon determining that the site has such attributes, the secretary may certify the site as an
36 industrial development site subject to, at his or her discretion, all or some of the identified required
37 criteria for utility service and communicate such certification to the Public Service Commission.

38 (f) After the Public Service Commission receives the certification described in subsection
39 (e) of this section, public utilities that are able to meet the required criteria, if any, may file with the
40 Public Service Commission an application for a multi-year comprehensive plan for infrastructure
41 development to construct public utility infrastructure and provide services to industrial
42 development sites. Subject to commission review and approval, a plan may be amended and

43 updated by the public utility as circumstances warrant. The recovery of costs in support of the
44 plans shall be allowed in the manner set forth in this section if the proposed plans have been found
45 to be prudent and useful.

46 (g) The application submitted to the Public Service Commission under subsection (e) of
47 this section is in lieu of a proceeding, pursuant to §24-2-11 of this code, and shall contain the
48 following:

49 (1) A description of the infrastructure program, in such detail as the Public Service
50 Commission prescribes, and the projected annual amount in approximate line sizes and feet,
51 general location, type, and projected installation timing of the facilities that the applicant proposes
52 to replace, construct, or improve;

53 (2) The projected net cost, on an annual basis, of the replacement, construction, or
54 improvements;

55 (3) The projected start date for the infrastructure program;

56 (4) The projected numbers of potential new customers that may be served by the
57 infrastructure program and the projected annual demand for public utility services of the
58 customers;

59 (5) The projected debt for the infrastructure program funding and the projected capital
60 structure for infrastructure program funding;

61 (6) A proposed full and timely cost recovery mechanism consistent with this section; and

62 (7) Other information the applicant considers relevant, or the Public Service Commission
63 requires.

64 (h) Upon filing of the application, the applicant shall publish, in the form the Public Service
65 Commission directs, which form shall include, but not be limited to, the anticipated rates and, if
66 any, rate increase under the proposal, by average percentage and dollar amount for customers
67 within a class of service, as a Class I legal advertisement in compliance with the provisions of §59-
68 3-1 *et seq.* of this code, the publication area to be each county in which service is provided by the

69 public utility, a notice of the filing of the application, and that the commission shall hold a hearing on
70 the application within 90 days of the notice; unless no substantial opposition to the rate change is
71 received by the commission within one week of the proposed hearing date, in which case the
72 hearing can be waived, and issue a final order within 150 days of the application filing date.

73 (i) Upon notice and hearing, if required by the Public Service Commission, the commission
74 shall approve the infrastructure program and allow expedited recovery of costs related to the
75 expenditures, as provided in subsection (i) of this section, if the commission finds that the
76 expenditures and the associated rate requirements are just, reasonable, and are not contrary to
77 the public interest.

78 (j) Upon Public Service Commission approval, utilities will be authorized to implement the
79 infrastructure programs and to recover related incremental costs, net of contributions to recovery
80 of return, operation, and maintenance, depreciation and tax expenses directly attributable to the
81 infrastructure program served by the infrastructure program investments, if any, as provided in the
82 following:

83 (1) An allowance for return shall be calculated by applying a rate of return to the average
84 planned net incremental increase to rate base attributable to the infrastructure program for the
85 coming year, considering the projected amount and timing of expenditures under the infrastructure
86 program plus any expenditures in previous years of the infrastructure program. The rate of return
87 shall be determined by utilizing the rate of return on equity authorized by the Public Service
88 Commission in the public utility's most recent rate case proceeding or in the case of a settled rate
89 case, a rate of return on equity as determined by the commission, and the projected cost of the
90 public utility's debt during the period of the infrastructure program to determine the weighted cost
91 of capital based upon the public utility's capital structure.

92 (2) Income taxes applicable to the return allowed on the infrastructure program shall be
93 calculated at the statutory tax rate for inclusion in rates.

(3) Incremental operation and maintenance, depreciation, and property tax expenses directly attributable to the infrastructure program shall be estimated for the upcoming year.

107 (5) The facilities installed in an application approved by the Public Service Commission
108 shall be considered used and useful as of the date of construction expenditure for rate recovery.

109 (k) The public utility may make any accounting accruals necessary to establish a
110 regulatory asset or liability through which actual incremental costs incurred and costs recovered
111 through the rate mechanism are tracked.

112 (I) Utilities may defer incremental operation and maintenance expenditures attributable to
113 regulatory and compliance-related requirements introduced after the public utility's last rate case
114 proceeding and not included in the public utility's current rates. In a future rate case, the Public
115 Service Commission may allow recovery of the deferred costs amortized over a reasonable period
116 of time to be determined by the commission provided the commission finds that the costs were
117 reasonable and prudently incurred and were not reflected in rates in prior rate cases.

118 (m) The provisions of this section are effective upon passage Notwithstanding any
119 provision of this code to the contrary, sites covered by the provisions of this section are eligible for

120 the disbursement of funds from the Certified Sites and Development Readiness Program, as
121 delineated in §5B-2-19 of this code: *Provided*, That the Department of Commerce approves each
122 such application for funding.
