2 governance, or control of the West Virginia State Board of Education, or the board of regents of

12 determination at the local district level by the local school board of duly selected representative of
13 the people of the community. If such program is adopted, the legislature believes that such a
14 program should include instruction relating to available adoption resources and current adoption
15 practices in the United States as a means of providing for the well-being of a child and information
16 pertaining to the Safe Haven Act, found in §49-4-201.

17 (c) Enactment. – The superintendent of the West Virginia Department of Education shall
18 ensure the requirements of this section are included in the West Virginia health content standards.
