

# **WEST VIRGINIA LEGISLATURE**

## **2026 REGULAR SESSION**

**Introduced**

### **House Bill 4460**

By Delegates Hillenbrand, Horst, Kump, Ridenour,  
Rohrbach, and Funkhouser

[Introduced January 16, 2026; referred to the  
Committee on Energy and Public Works]

1 A BILL to amend and reenact §8-18-22 and §16-13A-9 of the Code of West Virginia, 1931, as  
2 amended, relating to balancing urban and rural sewage treatment needs; providing  
3 exceptions to mandatory connections to public sewer systems for properties with  
4 functional onsite wastewater systems; allowing mandatory connections in densely  
5 populated areas where septic systems are impractical; providing an exemption for  
6 properties where the connection distance exceeds 200 feet; and providing financial  
7 assistance options for homeowners on fixed or limited incomes who are required to  
8 connect.

*Be it enacted by the Legislature of West Virginia:*

**ARTICLE 18. ASSESSMENTS TO IMPROVE STREETS, SIDEWALKS AND SEWERS;  
SEWER CONNECTIONS AND BOARD OF HEALTH; ENFORCEMENT OF  
DUTY TO PAY FOR SERVICE.**

**§8-18-22. Connection to sewers; board of health; penalty.**

1 Regardless of whether a lot or parcel is within any municipality's geographical limits, the  
2 owner or owners of any lot or parcel of land abutting on any street, alley, public way or easement  
3 on which a municipal sewer is now located or may hereafter be constructed and laid (whether  
4 constructed and laid under the provisions of this article or any other provisions of law) upon which  
5 lot or parcel of land any business or residence building is now located or may hereafter be erected,  
6 not connected with a public sewer, may be required and compelled by the municipality or by the  
7 board of health to connect any such building with such sewer. Notice so to connect shall be given  
8 by the municipality or by the board of health to the owner and to the lessee or occupant of such  
9 building. The owner or owners shall connect to the municipal sewer within thirty days after notice  
10 to connect has been sent by the municipality. Regardless of whether the owner or owners connect  
11 to such sewer, the municipality may bill the owner or owners of the lot or parcel and the owner or  
12 owners shall pay the municipality's charge based on the actual water consumption on the lot or

13 ~~parcel. If the lot or parcel is not metered, the municipality's charge shall be based on the~~  
14 ~~municipality's good faith estimate of the consumption on the lot or parcel~~

15 (a) The municipality or board of health may require connection to a municipal sewer if the  
16 Bureau for Public Health determines that the sewer facilities are available and adequate to serve  
17 the property. However, no owner, tenant, or occupant shall be compelled to connect to the sewer  
18 facilities and cease use of an existing onsite wastewater system if:

19 (1) The existing onsite wastewater system is properly permitted, maintained, and  
20 functioning, as certified by an inspection conducted by the Bureau for Public Health or a licensed  
21 professional engineer within the past 12 months using standards and protocols established by the  
22 National Association of Wastewater Technicians (NAWT);

23 (2) The property is not located in a densely populated area where onsite systems with  
24 leach fields are impractical due to population density, soil conditions, or other factors as  
25 determined by the Bureau for Public Health. For purposes of this section, "densely populated  
26 area" means an area within municipal boundaries or where the population density exceeds 500  
27 persons per square mile; or

28 (3) The distance from the building to the nearest municipal sewer line exceeds 200 feet,  
29 Provided, That in densely populated areas or where the existing onsite system is failing or poses a  
30 significant public health risk, as determined by the Bureau for Public Health, the municipality or  
31 board of health may require connection. If a connection is required, the municipality shall provide  
32 notice and an opportunity for the owner to appeal the determination to the circuit court.

33 (b) If the municipality requires the property owner to connect with the sewer facilities even  
34 when sewage from dwellings may not flow to the main line by gravity and the property owner  
35 incurs costs for any changes in the existing dwellings' exterior plumbing in order to connect to the  
36 main sewer line, the municipality shall authorize payment of all reasonable costs for the changes  
37 in the exterior plumbing, including, but not limited to, installation, operation, maintenance, and  
38 purchase of a pump or any other method approved by the Bureau for Public Health. Additionally, if

39 the property owner qualifies as low-income (as defined by eligibility for federal low-income home  
40 energy assistance programs or similar criteria established by the Public Service Commission), the  
41 municipality shall offer payment plans, subsidies, or waivers for connection fees and costs to the  
42 extent feasible and funded. Maintenance and operation costs for the extra installation should be  
43 reflected in the users charge for approval of the Public Service Commission.

44 (c) Notice so to connect shall be given by the municipality or by the board of health to the  
45 owner and to the lessee or occupant of such building. The owner or owners refusing or failing to  
46 make such connection, after 90 days from the date of service of such notice upon him or her, shall  
47 be guilty of a misdemeanor, and shall, upon conviction thereof, be fined not exceeding \$25. A like  
48 notice may be given and like penalty imposed for each period of 90 days during which such failure,  
49 refusal or neglect is continued.

## ARTICLE 13A. PUBLIC SERVICE DISTRICTS.

### §16-13A-9. Rules; service rates and charges; discontinuance of service; required water and

sewer	connections;	lien	for	delinquent	fees.
-------	--------------	------	-----	------------	-------

1       (a)(1) The board may make, enact, and enforce all needful rules in connection with the  
2 acquisition, construction, improvement, extension, management, maintenance, operation, care,  
3 protection, and the use of any public service properties owned or controlled by the district. The  
4 board shall establish, in accordance with this article, rates, fees, and charges for the services and  
5 facilities it furnishes, which shall be sufficient at all times, notwithstanding the provisions of any  
6 other law or laws, to pay the cost of maintenance, operation, and depreciation of the public service  
7 properties and principal of and interest on all bonds issued, other obligations incurred under the  
8 provisions of this article, and all reserve or other payments provided for in the proceedings which  
9 authorized the issuance of any bonds under this article. The schedule of the rates, fees, and  
10 charges may be based upon:

11       (A) The consumption of water or gas on premises connected with the facilities, taking into  
12 consideration domestic, commercial, industrial, and public use of water and gas;

13                   (B) The number and kind of fixtures connected with the facilities located on the various  
14                   premises;

15                   (C) The number of persons served by the facilities;

16                   (D) Any combination of paragraphs (A), (B), and (C) of this subdivision; or

17                   (E) Any other basis or classification which the board may determine to be fair and  
18                   reasonable, taking into consideration the location of the premises served and the nature and  
19                   extent of the services and facilities furnished. However, no rates, fees, or charges for stormwater  
20                   services may be assessed against highways, road, and drainage easements or stormwater  
21                   facilities constructed, owned, or operated by the West Virginia Division of Highways.

22                   (2) The board of a public service district with at least 4,500 customers and annual  
23                   combined gross revenue of \$3 million providing water or sewer service separately or in  
24                   combination may make, enact, and enforce all needful rules in connection with the enactment or  
25                   amendment of rates, fees, and charges of the district. At a minimum, these rules shall provide for:

26                   (A) Adequate prior public notice of the contemplated rates, fees, and charges by causing a  
27                   notice of intent to effect such a change to be provided to the customers of the district for the month  
28                   immediately preceding the month in which the contemplated change is to be considered at a  
29                   hearing by the board. The notice shall include a statement that a change in rates, fees, and  
30                   charges is being considered, the time, date, and location of the hearing of the board at which the  
31                   change will be considered, and that the proposed rates, fees, and charges are on file at the office  
32                   of the district for review during regular business hours. The notice shall be printed on, or mailed  
33                   with, the monthly billing statement, or provided in a separate mailing.

34                   (B) Adequate prior public notice of the contemplated rates, fees, and charges by causing to  
35                   be published, after the first reading and approval of a resolution of the board considering the  
36                   revised rates, fees, and charges but not less than one week prior to the public hearing of the board  
37                   on the resolution, as a Class I legal advertisement, of the proposed action, in compliance with the  
38                   provisions of §59-3-1 *et seq.* of this code. The publication area for publication shall be all territory

39 served by the district. If the district provides service in more than one county, publication shall be  
40 made in a newspaper of general circulation in each county that the district provides service.

41 (C) The public notice of the proposed action shall summarize the current rates, fees, and  
42 charges and the proposed changes to said rates, fees, and charges; the date, time, and place of  
43 the public hearing on the resolution approving the revised rates, fees, and charges, and the place  
44 or places within the district where the proposed resolution approving the revised rates, fees, and  
45 charges may be inspected by the public. A reasonable number of copies of the proposed  
46 resolution shall be kept at the place or places and be made available for public inspection. The  
47 notice shall also advise that interested parties may appear at the public hearing before the board  
48 and be heard with respect to the proposed revised rates, fees, and charges.

49 (D) The resolution proposing the revised rates, fees, and charges shall be read at two  
50 meetings of the board with at least two weeks intervening between each meeting. The public  
51 hearing may be conducted by the board prior to, or at, the meeting at which the resolution is  
52 considered for adoption on the second reading.

53 (E) Rates, fees, and charges approved by resolution of the board shall be forwarded in  
54 writing to the county commission with the authority to appoint the members of the board. The  
55 county commission shall publish notice of the proposed revised rates, fees, and charges by a  
56 Class I legal advertisement in compliance with the provisions of §59-3-1 *et seq.* of this code.  
57 Within 45 days of receipt of the proposed rates, fees, and charges, the county commission shall  
58 take action to approve, modify, or reject the proposed rates, fees, and charges, in its sole  
59 discretion. If, after 45 days, the county commission has not taken final action to approve, modify, or  
60 reject the proposed rates, fees, and charges, as presented to the county commission, the  
61 proposed rates, fees, and charges shall be effective with no further action by the board or county  
62 commission. In any event, this 45-day period shall be mandatory unless extended by the official  
63 action of both the board proposing the rates, fees, and charges, and the appointing county  
64 commission.

65 (F) Enactment of the proposed or modified rates, fees, and charges shall follow an  
66 affirmative vote by the county commission and shall be effective no sooner than 45 days following  
67 action. The 45-day waiting period may be waived by public vote of the county commission only if  
68 the commission finds and declares the district to be in financial distress such that the 45-day  
69 waiting period would be detrimental to the ability of the district to deliver continued and compliant  
70 public services.

71 (G) The public service district, or a customer aggrieved by the changed rates or charges  
72 who presents to the circuit court a petition signed by at least 750 customers or 25 percent of the  
73 customers served by the public service district, whichever is fewer, when dissatisfied by the  
74 approval, modification, or rejection by the county commission of the proposed rates, fees, and  
75 charges under the provisions of this subdivision may file a complaint regarding the rates, fees, and  
76 charges resulting from the action of, or failure to act by, the county commission in the circuit court  
77 of the county in which the county commission sits: *Provided*, That any complaint or petition filed  
78 hereunder shall be filed within 30 days of the county commission's final action approving,  
79 modifying, or rejecting the rates, fees, and charges, or the expiration of the 45-day period from the  
80 receipt by the county commission, in writing, of the rates, fees, and charges approved by  
81 resolution of the board, without final action by the county commission to approve, modify, or reject  
82 the rates, fees, and charges, and the circuit court shall resolve the complaint: *Provided, however,*  
83 That the rates, fees, and charges so fixed by the county commission, or those adopted by the  
84 district upon which the county commission failed to act, shall remain in full force and effect, until set  
85 aside, altered, or amended by the circuit court in an order to be followed in the future.

86 (3) Where water, sewer, stormwater, or gas services, or any combination thereof, are all  
87 furnished to any premises, the schedule of charges may be billed as a single amount for the  
88 aggregate of the charges. The board shall require all users of services and facilities furnished by  
89 the district to designate on every application for service whether the applicant is a tenant or an  
90 owner of the premises to be served. If the applicant is a tenant, he or she shall state the name and

91 address of the owner or owners of the premises to be served by the district. Notwithstanding the  
92 provisions of §24-3-8 of this code to the contrary, all new applicants for service shall deposit the  
93 greater of a sum equal to two twelfths of the average annual usage of the applicant's specific  
94 customer class or \$50 with the district to secure the payment of service rates, fees, and charges in  
95 the event they become delinquent as provided in this section. If a district provides both water and  
96 sewer service, all new applicants for service shall deposit the greater of a sum equal to two  
97 twelfths of the average annual usage for water service or \$50 and the greater of a sum equal to two  
98 twelfths of the average annual usage for wastewater service of the applicant's specific customer  
99 class or \$50. In any case where a deposit is forfeited to pay service rates, fees, and charges which  
100 were delinquent at the time of disconnection or termination of service, no reconnection or  
101 reinstatement of service may be made by the district until another deposit equal to the greater of a  
102 sum equal to two twelfths of the average usage for the applicant's specific customer class or \$50  
103 has been remitted to the district. After 12 months of prompt payment history, the district shall return  
104 the deposit to the customer or credit the customer's account at a rate as the Public Service  
105 Commission may prescribe: *Provided*, That where the customer is a tenant, the district is not  
106 required to return the deposit until the time the tenant discontinues service with the district.  
107 Whenever any rates, fees, rentals, or charges for services or facilities furnished remain unpaid for  
108 a period of 20 days after the same become due and payable, the user of the services and facilities  
109 provided is delinquent and the user is liable at law until all rates, fees, and charges are fully paid.  
110 The board may, under reasonable rules promulgated by the Public Service Commission, shut off  
111 and discontinue water or gas services to all delinquent users of either water or gas facilities, or  
112 both, 10 days after the water or gas services become delinquent: *Provided, however*, That nothing  
113 contained within the rules of the Public Service Commission may be considered to require any  
114 agents or employees of the board to accept payment at the customer's premises in lieu of  
115 discontinuing service for a delinquent bill: *Provided further*, That the water service for a user may  
116 not be shut off or discontinued for the nonpayment of a stormwater fee except as provided in

117 subsections (i) and (j) of this section.

118 (b) If any publicly or privately owned utility, city, incorporated town, other municipal  
119 corporation or other public service district included within the district owns and operates separate  
120 water facilities, sewer facilities, or stormwater facilities, and the district owns and operates another  
121 kind of facility, either water or sewer, or both, as the case may be, then the district and the publicly  
122 or privately owned utility, city, incorporated town or other municipal corporation, or other public  
123 service district shall covenant and contract with each other to shut off and discontinue the  
124 supplying of water service for the nonpayment of sewer service fees and charges: *Provided*, That  
125 any contracts entered into by a public service district pursuant to this section shall be submitted to  
126 the Public Service Commission for approval. Any public service district which provides water and  
127 sewer service, water and stormwater service or water, sewer, and stormwater service has the right  
128 to terminate water service for delinquency in payment of water or sewer bills. Where one public  
129 service district is providing sewer service and another public service district or a municipality  
130 included within the boundaries of the sewer or stormwater district is providing water service and  
131 the district providing sewer or stormwater service experiences a delinquency in payment, the  
132 district or the municipality included within the boundaries of the sewer or stormwater district that is  
133 providing water service, upon the request of the district providing sewer or stormwater service to  
134 the delinquent account, shall terminate its water service to the customer having the delinquent  
135 sewer account: *Provided, however*, That any termination of water service must comply with all  
136 rules and orders of the Public Service Commission: *Provided further*, That nothing contained  
137 within the rules of the Public Service Commission shall be deemed to require any agents or  
138 employees of the public service districts to accept payment at the customer's premises in lieu of  
139 discontinuing service for a delinquent bill: *And provided further*, That the water service for a user  
140 may not be shut off or discontinued for the nonpayment of a stormwater fee except as provided in  
141 subsections (i) and (j) of this section.

142 (c) ~~Any district furnishing sewer facilities within the district may require or may, by petition~~

143 to the circuit court of the county in which the property is located, compel or may require the Bureau  
144 for Public Health to compel all owners, tenants, or occupants of any houses, dwellings, and  
145 buildings located near any sewer facilities where sewage will flow by gravity or be transported by  
146 other methods approved by the Bureau for Public Health, including, but not limited to, vacuum and  
147 pressure systems, approved under the provisions of §16-1-9 of this code, from the houses,  
148 dwellings, or buildings into the sewer facilities, to connect with and use the sewer facilities and to  
149 cease the use of all other means for the collection, treatment, and disposal of sewage and waste  
150 matters from the houses, dwellings, and buildings where there is gravity flow or transportation by  
151 any other methods approved by the Bureau for Public Health, including, but not limited to, vacuum  
152 and pressure systems, approved under the provisions of §16-1-9 of this code and the houses,  
153 dwellings, and buildings can be adequately served by the sewer facilities of the district and it is  
154 declared that the mandatory use of the sewer facilities provided for in this subsection is necessary  
155 and essential for the health and welfare of the inhabitants and residents of the districts and of the  
156 state The board may only require connection to sewer facilities if the Bureau for Public Health  
157 determines that the sewer facilities are available and adequate to serve the property as set forth in  
158 §8-18-22 of this code. However, no owner, tenant, or occupant shall be compelled to connect to  
159 the sewer facilities and cease use of an existing onsite wastewater system if:

160       (1) The existing onsite wastewater system is properly permitted, maintained, and  
161 functioning, as certified by an inspection conducted by the Bureau for Public Health or a licensed  
162 professional engineer within the past 12 months using standards and protocols established by the  
163 National Association of Wastewater Technicians (NAWT):

164       (2) The property is not located in a densely populated area where onsite systems with  
165 leach fields are impractical due to population density, soil conditions, or other factors as  
166 determined by the Bureau for Public Health. For purposes of this section, "densely populated  
167 area" means an area within municipal boundaries or where the population density exceeds 500  
168 persons per square mile; or

169       (3) The distance from the building to the nearest sewer line exceeds 200 feet, *Provided,*  
170       That in densely populated areas or where the existing onsite system is failing or poses a significant  
171       public health risk, as determined by the Bureau for Public Health, the board may require  
172       connection. If a connection is required, the district shall provide notice and an opportunity for the  
173       owner to appeal the determination to the circuit court.

174       If the public service district requires the property owner to connect with the sewer facilities  
175       even when sewage from dwellings may not flow to the main line by gravity and the property owner  
176       incurs costs for any changes in the existing dwellings' exterior plumbing in order to connect to the  
177       main sewer line, the public service district board shall authorize the district to pay all reasonable  
178       costs for the changes in the exterior plumbing, including, but not limited to, installation, operation,  
179       maintenance, and purchase of a pump or any other method approved by the Bureau for Public  
180       Health. Additionally, if the property owner qualifies as low-income (as defined by eligibility for  
181       federal low-income home energy assistance programs or similar criteria established by the Public  
182       Service Commission), the district shall offer payment plans, subsidies, or waivers for connection  
183       fees and costs to the extent feasible and funded. Maintenance and operation costs for the extra  
184       installation should be reflected in the users charge for approval of the Public Service Commission.  
185       The circuit court shall adjudicate the merits of the petition by summary hearing to be held not later  
186       than 30 days after service of petition to the appropriate owners, tenants, or occupants.

187       (d) Whenever any district has made available sewer facilities to any owner, tenant, or  
188       occupant of any house, dwelling, or building located near the sewer facility and the engineer for  
189       the district has certified that the sewer facilities are available to and are adequate to serve the  
190       owner, tenant, or occupant and sewage will flow by gravity or be transported by other methods  
191       approved by the Bureau for Public Health from the house, dwelling, or building into the sewer  
192       facilities, ~~the district may charge, and the owner, tenant, or occupant shall pay, the rates and~~  
193       ~~charges for services established under this article only after 30 days' notice of the availability of the~~  
194       ~~facilities has been received by the owner, tenant, or occupant~~ If the owner, tenant, or occupant is

195 required to connect pursuant to subsection (c) and fails to do so after 90 days' notice of the  
196 availability of the facilities, the district may charge the owner, tenant, or occupant the rates and  
197 charges for services established under this article. Rates and charges for sewage services shall  
198 be based upon actual water consumption or the average monthly water consumption based upon  
199 the owner's, tenant's, or occupant's specific customer class.

200 (e) The owner, tenant, or occupant of any real property may be determined and declared to  
201 be served by a stormwater system only after each of the following conditions is met: (1) The district  
202 has been designated by the Environmental Protection Agency as an entity to serve a West Virginia  
203 Separate Storm Sewer System community, as defined in 40 C. F. R. § 122.26; (2) the district's  
204 authority has been properly expanded to operate and maintain a stormwater system; (3) the  
205 district has made available a stormwater system where stormwater from the real property affects  
206 or drains into the stormwater system; and (4) the real property is located in the Municipal Separate  
207 Storm Sewer System's designated service area. It is further hereby found, determined, and  
208 declared that the mandatory use of the stormwater system is necessary and essential for the  
209 health and welfare of the inhabitants and residents of the district and of the state. The district may  
210 charge and the owner, tenant, or occupant shall pay the rates, fees, and charges for stormwater  
211 services established under this article only after 30 days' notice of the availability of the stormwater  
212 system has been received by the owner. An entity providing stormwater service shall provide a  
213 tenant a report of the stormwater fee charged for the entire property and, if appropriate, that  
214 portion of the fee to be assessed to the tenant.

215 (f) All delinquent fees, rates, and charges of the district for either water facilities, sewer  
216 facilities, gas facilities, or stormwater systems or stormwater management programs are liens on  
217 the premises served of equal dignity, rank, and priority with the lien on the premises of state,  
218 county, school, and municipal taxes. Nothing contained within the rules of the Public Service  
219 Commission may require agents or employees of the public service districts to accept payment at  
220 the customer's premises in lieu of discontinuing service for a delinquent bill. In addition to the other

221 remedies provided in this section, public service districts are granted a deferral of filing fees or  
222 other fees and costs incidental to the bringing and maintenance of an action in magistrate court for  
223 the collection of delinquent water, sewer, stormwater, or gas bills. If the district collects the  
224 delinquent account, plus reasonable costs, from its customer or other responsible party, the district  
225 shall pay to the magistrate the normal filing fee and reasonable costs which were previously  
226 deferred. In addition, each public service district may exchange with other public service districts a  
227 list of delinquent accounts: *Provided*, That an owner of real property may not be held liable for the  
228 delinquent rates or charges for services or facilities of a tenant, nor may any lien attach to real  
229 property for the reason of delinquent rates or charges for services or facilities of a tenant of the real  
230 property unless the owner has contracted directly with the public service district to purchase the  
231 services or facilities.

232 (g) Anything in this section to the contrary notwithstanding, any establishment, as defined  
233 in §22-11-3 of this code, now or hereafter operating its own sewage disposal system pursuant to a  
234 permit issued by the Department of Environmental Protection, as prescribed by §22-11-11 of this  
235 code, is exempt from the provisions of this section.

236 (h) Notwithstanding any code provision to the contrary, a public service district may accept  
237 payment for all fees and charges due, in the form of a payment by a credit or check card  
238 transaction or a direct withdrawal from a bank account. The public service district may set a fee to  
239 be added to each transaction equal to the charge paid by the public service district for use of the  
240 credit or check card or direct withdrawal by the payor. The amount of the fee shall be disclosed to  
241 the payor prior to the transaction and no other fees for the use of a credit or check card or direct  
242 withdrawal may be imposed upon the payor and the whole of the charge or convenience fee shall  
243 be borne by the payor: *Provided*, That to the extent a public service district desires to accept  
244 payments in the forms described in this subsection and does not have access to the equipment or  
245 receive the services necessary to do so, the public service district shall first obtain three bids for  
246 services and equipment necessary to effect the forms of transactions described in this subsection

247 and use the lowest qualified bid received. Acceptance of a credit or check card or direct withdrawal  
248 as a form of payment shall comport with the rules and requirements set forth by the credit or check  
249 card provider or banking institution.

250 (i) The board collecting the rates, fees, or charges may shut off and discontinue water  
251 services to users with delinquent stormwater fees, provided that:

252 (1) The water service and stormwater fee are in the name of the same user;

253 (2) The rates, fees, or charges incurred by the user are at least 90 days past due;

254 (3) The provider has given the user written notice of termination of water service for  
255 nonpayment. Such notice must be given to the user at least 10 days before the termination of  
256 service and must notify the user of the user's right to enter into a deferred payment plan;

257 (4) The provider has attempted to make personal contact with the user at least twice in the  
258 24 hours immediately before the termination of the service. If the provider makes personal contact  
259 with the user, the provider must inform the user of the user's right to enter into a deferred payment  
260 plan.

261 (5) The water service for a user who has entered into a deferred payment plan under this  
262 subsection may not be shut off or discontinued as long as the user is in conformance with the  
263 agreed-to payment plan. In the event the user falls out of compliance with the deferred payment  
264 plan, no sooner than five days after the missed payment, the provider may terminate service:  
265 *Provided*, That the provider must make one attempt to make personal contact with the user in the  
266 24 hours immediately before the termination of the service.

267 (j) All rates, fees, or charges, if not paid when due, shall constitute a lien upon the premises  
268 served by the works. If any service rate, fee, or charge is not paid within 20 days after it is due, the  
269 amount thereof, together with a penalty of 10 percent and a reasonable attorney's fee, may be  
270 recovered by the board in a civil action in the name of the public service district. The lien may be  
271 foreclosed against the lot, parcel of land, or building in accordance with the laws relating thereto.  
272 Where water, stormwater, and sewer services are furnished by any public service district to any

273 premises, the schedule of charges may be billed as a single amount or individually itemized and  
274 billed for the aggregate thereof.

NOTE: The purpose of this bill is to amend the requirements for mandatory connections to public sewer systems in both municipalities and public service districts by providing exceptions for properties with functional septic systems in rural or less densely populated areas, while allowing mandatory connections in urban or densely populated areas where septic systems are impractical. It provides an exemption if the connection distance exceeds 200 feet, incorporates objective inspection standards from the National Association of Wastewater Technicians (NAWT), extends the notice period for non-connection penalties to 90 days, removes the ability to bill for sewer services not provided, and provides for financial assistance to homeowners on fixed or limited incomes who are required to connect, citing changes to §8-18-22 and §16-13A-9 to add provisos for exceptions and assistance.

Strike-throughs indicate language that would be stricken from a heading or the present law and underscoring indicates new language that would be added.
