

# **WEST VIRGINIA LEGISLATURE**

## **2026 REGULAR SESSION**

**Introduced**

### **Senate Bill 439**

**FISCAL  
NOTE**

By Senator Deeds

[Introduced January 16, 2026; referred  
to the Committee on Health and Human Resources;  
and then to the Committee on Finance]

1 A BILL to amend and reenact §49-2-125 of the Code of West Virginia, 1931, as amended, relating  
2 to creating a special revenue account to expand in-state residential treatment capacity for  
3 children; specifying the purposes of the fund; establishing funding sources; authorizing  
4 disbursements; and providing for administration.

*Be it enacted by the Legislature of West Virginia:*

**ARTICLE 2. STATE RESPONSIBILITIES FOR CHILD WELFARE.**

**§49-2-125. Commission to Study Residential Placement of Children; findings;  
requirements; reports; recommendations; fund.**

1 (a) The Legislature finds that the state's current system of serving children and families in  
2 need of or at risk of needing social, emotional and behavioral health services is fragmented. The  
3 existing categorical structure of government programs and their funding streams discourages  
4 collaboration, resulting in duplication of efforts and a waste of limited resources. Children are  
5 usually involved in multiple child-serving systems, including child welfare, juvenile justice and  
6 special education. More than ten percent of children presently in care are presently in out-of-state  
7 placements. Earlier efforts at reform have focused on quick fixes for individual components of the  
8 system at the expense of the whole. It is the purpose of this section to establish a mechanism to  
9 achieve systemic reform by which all of the state's child-serving agencies involved in the  
10 residential placement of at-risk youth jointly and continually study and improve upon this system  
11 and make recommendations to their respective agencies and to the Legislature regarding funding  
12 and statutory, regulatory and policy changes. It is further the Legislature's intent to build upon  
13 these recommendations to establish an integrated system of care for at-risk youth and families  
14 that makes prudent and cost-effective use of limited state resources by drawing upon the  
15 experience of successful models and best practices in this and other jurisdictions, which focuses  
16 on delivering services in the least restrictive setting appropriate to the needs of the child, and  
17 which produces better outcomes for children, families and the state.

18 (b) There is created within the Department of Human Services the Commission to Study

19 the Residential Placement of Children. The commission consists of the Secretary of the  
20 Department of Human Services, the Commissioner of the Bureau for Children and Families, the  
21 Commissioner for the Bureau for Behavioral Health and Health Facilities, the Commissioner for  
22 the Bureau for Medical Services, the State Superintendent of Schools, a representative of local  
23 educational agencies, the Director of the Office of Institutional Educational Programs, the Director  
24 of the Office of Special Education Programs and Assurance, the Director of the Division of  
25 Juvenile Services and the Executive Director of the Prosecuting Attorney's Institute. At the  
26 discretion of the West Virginia Supreme Court of Appeals, circuit and family court judges and other  
27 court personnel, including the Administrator of the Supreme Court of Appeals and the Director of  
28 the Juvenile Probation Services Division, may serve on the commission. These statutory  
29 members may further designate additional persons in their respective offices who may attend the  
30 meetings of the commission if they are the administrative head of the office or division whose  
31 functions necessitate their inclusion in this process. In its deliberations, the commission shall also  
32 consult and solicit input from families and service providers.

33 (c) The Secretary of the Department of Human Services shall serve as chair of the  
34 commission, which shall meet on a quarterly basis at the call of the chair.

35 (d) At a minimum, the commission shall study:

36 (1) The current practices of placing children out-of-home and into in-residential  
37 placements, with special emphasis on out-of-state placements;

38 (2) The adequacy, capacity, availability and utilization of existing in-state facilities to serve  
39 the needs of children requiring residential placements;

40 (3) Strategies and methods to reduce the number of children who must be placed in out-of-  
41 state facilities and to return children from existing out-of-state placements, initially targeting older  
42 youth who have been adjudicated delinquent;

43 (4) Staffing, facilitation and oversight of multidisciplinary treatment planning teams;

44 (5) The availability of and investment in community-based, less restrictive and less costly

alternatives to residential placements;

(6) Ways in which up-to-date information about in-state placement availability may be made readily accessible to state agency and court personnel, including an interactive secure web site;

(7) Strategies and methods to promote and sustain cooperation and collaboration between the courts, state and local agencies, families and service providers, including the use of inter-agency memoranda of understanding, pooled funding arrangements and sharing of information and staff resources;

(8) The advisability of including no-refusal clauses in contracts with in-state providers for placement of children whose treatment needs match the level of licensure held by the provider;

(9) Identification of in-state service gaps and the feasibility of developing services to fill those gaps, including funding;

(10) Identification of fiscal, statutory and regulatory barriers to developing needed services in-state in a timely and responsive way;

(11) Ways to promote and protect the rights and participation of parents, foster parents and children involved in out-of-home care;

(12) Ways to certify out-of-state providers to ensure that children who must be placed out-of-state receive high quality services consistent with this state's standards of licensure and rules of operation; and

(13) Any other ancillary issue relative to foster care placement.

(e) The commission shall report annually to the Legislative Oversight Commission on Health and Human Resources Accountability its conclusions and recommendations, including an implementation plan whereby:

(1) Out-of-state placements shall be reduced by at least ten percent per year and by at least fifty percent within three years;

71 (2) Child-serving agencies shall develop joint operating and funding proposals to serve the  
72 needs of children and families that cross their jurisdictional boundaries in a more seamless way;

73 (3) Steps shall be taken to obtain all necessary federal plan waivers or amendments in  
74 order for agencies to work collaboratively while maximizing the availability of federal funds;

75 (4) Agencies shall enter into memoranda of understanding to assume joint responsibilities;

76 (5) System of care components and cooperative relationships shall be incrementally  
77 established at the local, state and regional levels, with links to existing resources, such as family  
78 resource networks and regional summits, wherever possible; and

79 (6) Recommendations for changes in fiscal, statutory and regulatory provisions are  
80 included for legislative action.

81 (f) There is created in the State Treasury a separate special revenue account, which shall  
82 be an interest-bearing account, to be known as the "Residential Treatment Capacity Expansion  
83 Fund." The special revenue account shall consist of appropriations made by the Legislature,  
84 recoveries or reimbursements relating to residential treatment services for children, income from  
85 the investment of moneys held in the special revenue account, and all other sums available for  
86 deposit to the special revenue account from any source, public or private. No expenditures for  
87 purposes of this section are authorized from collections except in accordance with the provisions  
88 of article three, chapter twelve of this code and upon fulfillment of the provisions set forth in article  
89 two, chapter five-a of this code. No expenses incurred under this section shall be a charge against  
90 the General Revenue Fund of the state.

91 (g) Moneys in the special revenue account shall be appropriated to the Department of  
92 Human Services and used exclusively, in accordance with appropriations made by the  
93 Legislature, to pay costs, fees, and expenses incurred, or to be incurred, for the following  
94 purposes:

95 (1) The recruitment, incentive support, and development of residential treatment providers  
96 seeking to establish new or expanded operations within the state;

97           (2) The acquisition, renovation, construction, or expansion of facilities used to provide  
98   residential treatment services to children within the state;

99           (3) Startup, workforce development, training, or technical support necessary for the  
100   establishment or expansion of in-state residential treatment programs, including specialized  
101   treatment models;

102           (4) The assessment, planning, transportation, or transition-related activities necessary to  
103   return West Virginia children from out-of-state residential placements into appropriate in-state  
104   treatment settings;

105           (5) The development, implementation, administration, and management of treatment  
106   models, quality standards, oversight systems, and training materials pertaining to residential  
107   treatment programs and facilities;

108           (6) All other related residential treatment capacity-building activities determined necessary  
109   by the Secretary of the Department of Human Services to increase in-state placement availability  
110   and reduce reliance on out-of-state providers; and

111           (7) All costs incurred in the administration of the special revenue account.

112           (h) Any balance remaining in the special revenue account at the end of any state fiscal year  
113   shall not revert to the General Revenue Fund but shall remain in the special revenue account and  
114   shall be used solely in a manner consistent with the purposes of this section.

115           (i) Disbursements from the special revenue account shall be authorized by the Secretary of  
116   the Department of Human Services or his or her designee. Payment from the special revenue  
117   account may be made for any expense directly related to the development, expansion, or support  
118   of residential treatment capacity within the state, including any such expense incurred prior to the  
119   effective date of this section, if such expense is consistent with the purposes of this section.

NOTE: The purpose of this bill is to create a special revenue account, the Residential Treatment Capacity Expansion Fund, to support the recruitment, development, and expansion of in-state residential treatment providers for children. The fund may be used for provider incentives, facility development, transition services for children currently placed out of state, and other activities that increase West Virginia's residential treatment capacity.

Strike-throughs indicate language that would be stricken from a heading or the present law and underscoring indicates new language that would be added.
