[Introduced January 20, 2026; referred to the
Committee on the Judiciary]

1 A BILL to amend the Code of West Virginia, 1931, as amended, by adding a new article,
2 designated §16-9AA-1, §16-9AA-2, §16-9AA-3, and §16-9AA-4, relating to vape and vape
3 products; providing legislative findings and intent; providing definitions; creating criminal
4 and non-monetary penalties; and clarifying age verification requirements.

Be it enacted by the Legislature of West Virginia:

ARTICLE 9AA. VAPE AND VAPE PRODUCT USAGE RESTRICTIONS.

§16-9AA-1. Legislative findings and intent.

1 The Legislature hereby declares it to be the policy and intent of this state to discourage and
2 ban the use of vape and vape products by minors. As basis for this policy, the Legislature hereby
3 finds and accepts the medical evidence that vapes expose users to addictive nicotine, cancer-
4 causing chemicals, and ultrafine particles that damage the lungs, heart, and developing brains,
5 leading to addiction, lung diseases like COPD, heart issues, and potential brain harm, especially
6 for youth, with risks including severe lung injuries (EVALI - E-cigarette or Vaping Product Use-
7 Associated Lung Injury) linked to additives like Vitamin E acetate in illicit THC vapes. It is the
8 further intent of the Legislature to reduce vape use by keeping vape products out of the hands of
9 youth and young adults by banning the sale of vape products to persons younger than 21 years of
10 age to ease the health and economic loss associated with the use of vapes and to provide the
11 state with a citizenry free from the use of vapes.
