2 relating to driver's license renewals; and requiring the Division of Motor Vehicles to  
3 deactivate bar codes on expired or expiring licenses when a person renews their license.

*Be it enacted by the Legislature of West Virginia:*

**ARTICLE 2. ISSUANCE OF LICENSE, EXPIRATION AND RENEWAL.**

**§17B-2-12a. Renewal of driver's license upon expiration; vision screening; renewal fees.**

1 (a) The commissioner shall notify each person who holds a valid driver's license of the  
2 expiration date of the license by first class mail or by electronic means to the last address known to  
3 the division. The notice shall be mailed at least 90 days prior to the expiration date of the license  
4 and shall include a renewal application form and instructions for renewal.

5 (b) The commissioner, at his or her discretion, may provide a program of electronic renewal  
6 notices to licensees and an electronic web-based renewal process. This process may include an  
7 electronic vision screening verification or waiver subject to processes and restrictions the  
8 commissioner considers necessary for highway safety, secure processing and identity verification.  
9 The online program shall require the applicant to have his or her digital photo updated at least  
10 once every 16 years.

11 (c) The holder of a valid driver's license may apply to the division for renewal of the license  
12 on the form provided by the division. To be eligible for license renewal the applicant must:

13 (1) Pay the fee required by section eight of this article;  
14 (2) Obtain a new color photograph from the division, except as provided in subsection (b)  
15 of this section; and  
16 (3) Pass a vision screening conducted in the manner prescribed by the division.

17 (d) The commissioner shall assess an additional fee of \$5 for every application for renewal  
18 submitted after the expiration of the applicant's license.

19 (e) The commissioner shall determine whether an applicant qualifies for a renewed  
20 license.

21 (f) The commissioner shall provide by rule a procedure by which an applicant who does not  
22 meet the minimum vision standards for licensure may present evidence to show that his or her  
23 vision has been corrected to meet the minimum visual standards and that he or she is capable of  
24 safely operating a motor vehicle.

25 (g) The commissioner may not renew the driver's license of an applicant whose eyesight  
26 cannot be corrected to conform to the minimum vision standards established by this code and by  
27 the rules of the commissioner.

(h) Vision screening conducted pursuant to this section may not be used to collect any type of personal biometric identifying information including, but not limited to, a retinal scan.

30 (i) The commissioner shall implement a program that when a holder of a valid driver's  
31 license renews their license and presents their expired or expiring license to the division, the bar  
32 codes of the expired or expiring license are to be deactivated.

33                   (j) The commissioner shall propose legislative rules for promulgation in accordance with  
34 the provisions of §29A-3-1 *et seq.* of this code to implement the provisions of this section.

NOTE: The purpose of this bill is to deactivate barcodes from expired driver's licenses to prevent businesses from selling alcohol and tobacco products to underage children.
