(d) The report shall be filed before November first of each year as of June thirtieth next preceding, but the report of life insurance corporations shall be filed before May first of each year as of December thirty-first next preceding. The state treasurer may postpone the reporting date upon written request by any person required to file a report.

(e) If the holder of property presumed abandoned under this article knows the whereabouts of the owner and if the owner's claim has not been barred by the statute of limitations, the holder shall, before filing the annual report, attempt to communicate with the owner so that the owner may take necessary steps to prevent abandonment from being presumed. §36-8-12a. Records of abandoned property confidential except as to persons with claim.

Records of abandoned property kept by the state treasurer are available for inspection and copying only by an owner of such property as to the particular property he owns, or by his personal representative, next of kin, attorney at law, or such persons entitled to inherit from the owner conducting a legal audit thereof. These records are exempt from the provisions of chapter twenty-nine-b of the code.

(a) All abandoned property other than money delivered to the state treasurer under this article shall as soon as practicable after the delivery be sold by him to the highest bidder at public sale in whatever city in the state affords in his judgment the most favorable market for the property involved. The state treasurer may decline the highest bid and reoffer the property for sale if he considers the price bid insufficient. He need not offer any property for sale if, in his opinion, the probable cost of sale exceeds the value of the property.

(b) Any sale held under this section shall be preceded by a publication of notice thereof as a Class I legal advertisement in compliance with the provisions of article three, chapter
fifty-nine of this code, and the publication area for such publication shall be the county where the property is to be sold. The publication shall be at least three weeks in advance of sale.

The treasurer by rule may require the reporting of information needed to enable compliance with agreements made pursuant to this section and prescribe the form.

(b) To avoid conflicts between the treasurer's procedures and the procedures of administrators in other jurisdictions the treasurer shall, so far as is consistent with the purposes, policies and provisions of this article before adopting, amending or repealing rules, advise and consult with administrators in other jurisdictions and take into consideration the rules of those other administrators in other jurisdictions.

(c) The treasurer may join with other states to seek enforcement of this article against any person who is or may be holding property reportable under this article.

(2) A brief description of the property sufficient to identify it;

(3) That the tenant is wrongfully occupying such property in that the tenant is in arrears in the payment of rent, has breached a warranty or a leasehold covenant, or has deliberately or negligently damaged the property or knowingly permitted another person to do so, and describing such arrearage, breach, or act or omission; and

(4) A prayer for possession of the property.

(b) Previous to the filing of the petition the person shall request from the court the time and place at which the petitioner shall be heard. The court shall fix a time for such hearing, which time shall not be less than five nor more than ten judicial days following such request.

Such notice shall inform the tenant that any defense to the petition must be submitted in writing to the petitioner within five days of the receipt by the tenant of the notice, and in no case later than the fifth day next preceding the date of hearing. Upon receipt of the return of service or the return receipt as the case may be, evidencing service upon the tenant, the petitioner shall file with the court his petition and such proof of service.

(f) Taking into consideration such factors as the nature of the property (i.e., furnished or unfurnished) the possibility of relative harm to the parties and other material facts deemed relevant by the court in considering the time in which the tenant might reasonably be expected to vacate the premises, the court shall in its order specify the time by which the tenant must remove himself from the property. The order shall further provide that if the tenant still wrongfully occupies the property beyond such time the sheriff shall forthwith remove him, taking such precautions as are necessary to guard against damage to the property of the landlord and the tenant.

(g) Absent an issue of title, retaliation, or breach of warranty, and in the event of an appeal wherein the tenant prevails, if the term of the lease has expired the relief ordered by the appellate court shall be for monetary damages only and shall not restore the tenant to possession. During the pendency of any such appeal no tenant shall be entitled to remain in possession of the leasehold if the period of the tenancy has otherwise expired.

responsible by reason of mental illness, mental retardation
or addiction, it may at any stage of the proceedings after
the return of an indictment or the issuance of a warrant or
summons against the defendant, order an examination of such
defendant to be conducted by one or more psychiatrists, or a

this section, the court of record may order that the person be
admitted to a mental health facility designated by the director
of health for a period not to exceed twenty days for observation
and further examination if the court has reason to believe that
such further observation and examination are necessary in
order to determine whether mental illness, mental retarda-
tion or addiction have so affected a person that he is not
competent to stand trial or not criminally responsible for the
crime or crimes with which he has been charged. If, before
the expiration of such twenty-day period, the examining phy-
sician believes that observation for more than twenty days is
necessary, he shall make a written request to the court of
record for an extension of the twenty-day period specifying
the reason or reasons for which such further observation is
necessary. Upon the receipt of such request, the court of record
may by order extend said observation period, but in no event
shall the period exceed forty days from the date of the initial
court order of observation.

(c) At the conclusion of each examination or observation
period provided for herein, the examining psychiatrists, or
psychiatrist and psychologist, shall forthwith give to the
court of record a written signed report of their findings on
the issue of competence to stand trial or criminal respon-

clinical findings, as to whether the defendant is in need of
care and treatment.

(d) Within five days after the receipt of the report on
the issue of competency to stand trial, or if no observation
pursuant to subsection (b) of this section has been ordered,
within five days after the report on said issue following an
examination under subsection (a) of this section, the court
of record shall make a finding on the issue of whether the
defendant is competent for trial. A finding of incompetence
for trial shall require proof by a preponderance of the evi-
dence. Notice of such findings shall be sent to the prosecut-
ing attorney, the defendant and his counsel. If the court
of record orders or if the defendant or his counsel on his
behalf within a reasonable time requests a hearing on such
findings, a hearing in accordance with section two of this
article shall be held by the court of record within ten days
of the date such finding or such request has been made.

(e) After a conviction and prior to sentencing, the court
of record may order a psychiatric or other clinical examina-

tion shall not exceed forty days.

If after hearing conducted pursuant to the procedures
prescribed in subsection (c), section four, article five of this
chapter, the court of record makes the findings specified in
section four, article five of this chapter or finds that the con-
victed individual would benefit from treatment in a mental
health facility, the court may enter an order of commitment
in accord with section four, article five for treatment in a
mental health facility designated by the director of health.

(f) In like manner, in accordance with procedures set
forth in subsections (a), (b) and (c) of this section, a juvenile

Such order shall stipulate the return of the individual to the court, magistrate or other judicial officer or his release if bond has been posted or a summons issued in lieu of a warrant, when the individual is no longer incapacitated. But in no case may the individual be kept longer than forty-eight hours unless during the forty-eight hours, civil commitment proceedings pursuant to article five of this chapter are initiated by qualified personnel at the mental health facility or other facility in which the individual is detained and detention is ordered pursuant to article five of this chapter: Provided, That whenever the director of the facility initiates civil proceedings within forty-eight hours, he shall immediately notify the judicial officer who ordered the individual detained that such proceedings have commenced: Provided, however, That the judicial officer may then modify his order and may continue the criminal proceedings in his court until a diagnosis of alcoholism has been made: Provided further, That once a diagnosis is made, the judicial officer shall find the individual not guilty by reason of addiction as provided by section nine, article six, chapter sixty of the code and shall immediately initiate civil commitment proceedings unless such proceedings have already begun and are proceeding:

of the county in which the facility is located shall at the
request of the facility director transport the individual to a
more appropriate facility such as a general hospital, or a state
hospital or detention facility selected by said director.

A qualified funeral director or embalmer acting in accordance with the terms
of this subsection shall not be liable, civilly or criminally
for the eye enucleation.

(e) Any gift by a person designated in subsection (b),
section two of this article shall be made by a document

(c) It shall be the duty of any person who has charge or control of any unclaimed body, subject to requisition by the board, to give notice to the board of that fact by telephone or telegraph within twenty-four hours after such body comes under his control. Thereafter he shall hold the body subject to the order of the board for at least twenty-four hours after the sending of such notice. If the board makes requisition for the body within the twenty-four-hour period, it shall be delivered, pursuant to the order of the board, to the board or its authorized agent for transportation to any educational institution described in section twelve of this article which the board deems to be in bona fide need thereof and able to adequately control, use and dispose of the body.
(d) The board shall make suitable arrangements for the transportation of any body, or part or parts thereof, which may come under its authority to any educational institution as described in subsection (c).

(e) All expenses incurred in connection with the preservation, delivery and transportation of any such body delivered pursuant to the order of the board shall be paid by the educational institution receiving the body.

3. Administration.

TITLE 1. GENERAL PROVISIONS.
§1. General policy.
§2. Definitions.
§3. Classification of appropriations.
§5. Maximum expenditures.
Section 1. General policy.—The purpose of this act is to appropriate money necessary for economical and efficient discharge of the duties and responsibilities of the state and its agencies during the fiscal year one thousand nine hundred eighty-four.

Sec. 2. Definitions.—For the purpose of this act: “Governor” shall mean the Governor of the State of West Virginia.

“Spending unit” shall mean the department, agency or institution to which an appropriation is made.

The “fiscal year one thousand nine hundred eighty-four” shall mean the period from July first, one thousand nine hundred eighty-three through June thirtieth, one thousand nine hundred eighty-four.

“From collections” shall mean that part of the total appropriation which must be collected by the spending unit to be available for expenditure. If the authorized amount of collections is not collected, the total appropriation for the spending unit shall be reduced automatically by the amount of the deficiency in the collection. If the amount collected exceeds the amount designated “from collections,” the excess shall be set aside in a special surplus fund and may be expended for the purpose of the spending unit as provided by Chapter 5A, Article 2 of the Code of West Virginia.

Sec. 3. Classification of appropriations.—An appropriation for:

“Personal services” shall mean salaries, wages, and other compensation paid to full-time, part-time and temporary employees of the spending unit, but shall not include fees or contractual payments paid to consultants or to independent contractors engaged by the spending unit.

From appropriations made to the spending units of state government, there may be transferred upon approval of the Governor to a special account an amount sufficient to match federal funds under any federal act.

Unless otherwise specified, appropriations for personal services shall include salaries of heads of spending units.
“Current expenses” shall mean operating costs other than personal services and shall not include equipment, repairs and alterations, buildings or lands.

“Equipment” shall mean equipment items which have an appreciable and calculable period of usefulness in excess of one year.

“Repairs and alterations” shall mean repairs to structures and improvements to property which do not increase the capital assets.

“Buildings” shall include construction and alteration of structures and the improvement of lands and shall include shelter, support, storage, protection or the improvement of a natural condition.

“Lands” shall mean the purchase of real property or interest in real property.

“Capital Outlay” shall mean and include buildings, lands, or buildings and lands, with such category or item of appropriation to remain in effect as provided by Chapter 12, Article 3, Section 12 of the Code of West Virginia.

Appropriations classified in any of the above categories shall be expended only for the purposes as defined above.

Appropriations otherwise classified shall be expended only where the distribution of expenditures for different purposes cannot well be determined in advance or it is necessary or desirable to permit the spending unit freedom to spend an appropriation for more than one of the above classifications.

Sec. 4. Method of expenditure.—Money appropriated by this act, unless otherwise specifically directed, shall be appropriated and expended according to the provisions of Chapter 12, Article 3 of the Code of West Virginia, or according to any law detailing a procedure specifically limiting that article.

§19-2C-3. Procedure for license; department of agriculture as statutory agent for licensees; fee.

Any person who wishes to conduct an auction as an auctioneer may apply therefor on forms prescribed by the commissioner and containing such information as the commissioner may by rule or regulation require. All such fees collected shall be paid into the general revenue fund in the state treasury.

In addition to the payment of fees, an applicant shall file with his application, a bond as required in section four of this article.

The commissioner shall, within thirty days after the receipt of an application, notify, by certified mail, the applicant of his eligibility to be tested at the next regularly scheduled test, as well as the date of such test.

Licenses issued shall expire on the thirtieth day of June of each year but shall be renewable upon the payment of the annual license fee so long as other requirements of this article are complied with.

The state department of agriculture shall be deemed to be an agent for the purpose of service of process on any licensed auctioneer for any action occasioned by the performance of the duties of such auctioneer. Every licensed auctioneer, by virtue of his application for license, shall be deemed to have consented to such statutory agency.

§19-2C-4. Bond required.

accordance with this article: Provided, That in no event shall the amount of such bond be less than ten thousand dollars. Such bond shall be conditioned upon the faithful compliance by the auctioneer with the provisions of this article and the payment of all required taxes, fees and penalties imposed by this state and its political subdivisions as well as the payment by any auctioneer of any final judgment obtained for damages arising out of his conduct or duties as an auctioneer. Such bond shall be open to public inspection.

   (b) That he has a good reputation;
   
   (c) That he is of trustworthy character;
   
   (d) That he has met the apprenticeship requirements set forth in this article, if applicable;
   
   (e) That he is a citizen of the United States; and
   
   (f) That he has a general knowledge of the auctioneering profession and the principles involved in conducting an auction.

2. (2) The commissioner shall promulgate such reasonable rules and regulations as he shall deem necessary to carry out the intent and the administration and enforcement of this article, which said rules and regulations shall be promulgated in accordance with the applicable provisions of chapter twenty-nine-a of this code as if the same were set forth herein in extenso.

3. (3) Each licensee shall promptly produce for inspection such license at all sales conducted by or participated in by such licensee when requested to do so by any person and shall keep complete and accurate records of all transactions engaged in for a period of six months which records shall be
open to inspection by the commissioner or his authorized representative.

(4) The commissioner may, by order, suspend or revoke any license granted hereunder for any violation of this article or the rules and regulations promulgated hereunder or for any of the following reasons:

(a) Obtaining a license through false or fraudulent representation;

(b) Making any substantial misrepresentation in any application for an auctioneer's or apprentice auctioneer's license;

(c) Engaging in a continued and flagrant course of misrepresentation or for making false promises through an agent, advertisement or otherwise;

(d) Failing to account for or remit within a reasonable time any money belonging to others that comes into his possession;

(e) Being convicted in any court of competent jurisdiction of this state or any other state of a criminal offense involving moral turpitude or a felony; or for failing to notify the department of any such conviction within fifteen days of conviction;

(f) Engaging in any conduct of an auctioneer which demonstrates dishonesty or incompetency;

(g) Engaging in any other conduct that constitutes fraudulent or dishonest dealing; and

(h) Acting as an attorney for a client.

(5) Any auctioneer or apprentice auctioneer who has had his license revoked shall not be issued another such license until a period of two years has elapsed from the date of revocation and then only upon successful completion of the examinations required for an auctioneer's license or an apprentice auctioneer's license.

§19-2C-5a. Examinations of applicants; excuse for illness; fee renewal.

Examinations shall be held in April and October of each year, at a time and place to be designated by the commissioner or his authorized representative.
Any individual auctioneer applicant may take the examination for auctioneer and apprentice at the regularly scheduled time and place. The examination shall consist of a written and an oral portion. The apprentice will be excused from the oral portion of the examination. The passing grade shall be seventy out of one hundred. The oral portion will be scored by the commissioner or his authorized representative. If the applicant fails either the written or oral portion of the examination no license will be issued and he or she shall not be administered the examination again until the next regularly scheduled examination date.

One notice only of the examination shall be sent to the applicant by certified mail, return receipt requested. If the applicant fails to appear for such examination, except as provided herein, a new application and a new fee shall be required. No fee shall be returned except when the applicant fails to take the examination because of illness evidenced by a doctor's certificate sent to the commissioner by certified mail, return receipt requested. If excused because of illness the applicant shall be admitted to the next scheduled examination without additional fee. No applicant shall be excused from taking the scheduled examination for any reason other than illness unless in the judgment of the commissioner, the applicant would suffer undue hardship thereby.

A fee, of fifty dollars in addition to any other fees required by this article, shall be collected from each person taking such examination.

If the commissioner determines that an applicant does not qualify for a license, he shall so notify the applicant by certified mail. The notice shall state the reason for refusal to grant a license and the applicant's right of appeal.

An examination shall not be required for the renewal of any license unless such license has been revoked or suspended, in which case the applicant shall take and pass any written examination offered by the department.

§19-2C-6. Apprentice licenses; fees.

The department of agriculture may grant apprentice auctioneers' licenses to those persons deemed qualified by
the commissioner. Every applicant for an apprentice auctioneer's license must take and pass an examination relating to the skills and knowledge, and statutes and regulations governing auctioneers. Every applicant shall furnish to the commissioner on forms provided by the department, satisfactory proof of the following:

(a) That he has a good reputation;

(b) That he is a trustworthy character; and

(c) That he is a citizen of the United States.

Any apprentice auctioneer may take the examination to become an auctioneer after serving a two-year apprenticeship under a licensed auctioneer: Provided, That if the apprentice has attended a nationally accredited graduate school of auctioneering, approved by the commissioner, he shall serve an apprenticeship of only six months. Before an apprentice may take the auctioneer's examination, the apprentice shall conduct at least six auction sales under the direct supervision of the sponsoring auctioneer.

When any apprentice is discharged or terminates his employment with an auctioneer for any reason, the auctioneer shall immediately deliver or mail, by certified mail, to the commissioner the license of such apprentice auctioneer. No apprentice auctioneer shall thereafter perform any acts under the authority of his license until such apprentice auctioneer receives a new license bearing the name and address of his new employer. No more than one license shall be issued to any apprentice auctioneer for the same period of time. The fee for the transfer of the license of an apprentice auctioneer to a new employer auctioneer shall be fifteen dollars.

The amount of the apprentice auctioneer's annual renewal license shall be fifty dollars and bond requirements shall be established by reasonable rules and regulations promulgated by the commissioner, and both must be filed with the department of agriculture: Provided, That the bond required by this section shall not be less than five thousand dollars. The department shall not issue an apprentice auctioneer's license until bond has been filed in accordance with this article. Such permits shall expire on
the thirtieth day of June of each year but shall be renewable upon the payment of the annual fee. An apprentice license shall entitle the holder thereof to assist in or conduct a public auction under the immediate supervision of a licensed auctioneer.

§19-2C-6a. Procedure for nonresident auctioneer's license.

1 To qualify for a nonresident license by reciprocity the applicant must show evidence of licensing in another state for a period of one year preceding the date of application.
2 The licensing may have been as an apprentice or as an auctioneer. Provided this qualification is met and the applicant meets all the other requirements as required by this article and by regulation, he shall be licensed either as an apprentice or as an auctioneer, based on a nonresident license, as the case may be.

10 When an applicant's resident state has no licensing law for auctioneers or the applicant's resident state has no written or oral examination associated with its licensing requirements the department of agriculture shall require proof that the applicant has been a practicing auctioneer for a period of two years preceding the date of application. Said proof shall be in the form of sale bills, contracts, sale permits and other such evidence acceptable to the commissioner. Provided this qualification is met, and the applicant meets other requirements for licensing as required by the statutes and regulations, the applicant will be seated at the next scheduled written and oral examination for auctioneers without being required to first serve an apprenticeship.

§19-2C-9. Written contracts; exception.

1 No person shall act as auctioneer on the sale at public auction of any goods, wares, merchandise or of any other property, real or personal, until he or she has, at the request of the owner or consignor, first entered into a written contract in duplicate with the owner or consignor of any property to be sold, containing the terms and conditions upon which the licensee receives or accepts the property for sale at auction. No apprentice auctioneer shall be authorized to enter such contract without the written consent of his or her employer auctioneer. All contracts
shall be in the name of and on behalf of the employing auctioneer.

In instances where contracts are used, the commissioner may require the following:

(a) That written contracts between the auctioneer and the seller be made in duplicate;
(b) That the original contract is to be retained by the auctioneer for a period of six months;
(c) That one copy of the contract is to be furnished to each person that entered into the contract;
(d) That an apprentice may not contract directly with a client, but only through the auctioneer under whom he is licensed;
(e) That an apprentice may not engage in a sale with an auctioneer under whom he is not licensed without first obtaining the written consent of the auctioneer under whom he is licensed; and
(f) That on all contracts between an auctioneer and a seller there shall be a prominent statement indicating that the auctioneer is licensed by the department of agriculture and bonded in favor of the state of West Virginia.

§19-2C-10. Advertising.

In advertising an auction sale by any licensed auctioneer or auction house the principal auctioneer or auctioneers who physically conduct the sale shall be listed prominently in such advertising as used by said auctioneer or auctioneers. The individual auctioneer or auctioneers who conduct the sale shall be the person or persons who call for, accept and close bids on the majority of items offered for sale.

Any apprentice auctioneer who advertises, as provided in this section, shall indicate in his advertisement the name of the auctioneer under whom he or she is licensed.

The auctioneer's name shall be displayed in equal prominence with the name of the apprentice auctioneer in such advertisement.

Nothing in the provisions of this article, shall be construed so as to prohibit any other auctioneer, licensed
pursuant to this article, from assisting with any auction, notwithstanding the failure to list the name of the other auctioneer in any advertising associated with such auction.

1 Any person who holds a valid auctioneer's license as of the effective date of this section shall not be required to take the examinations required by this article.

(2) The total loans and extensions of credit by a state-chartered banking institution to a person outstanding at one time and fully secured by readily marketable collateral having
a market value, as determined by reliable and continuously available price quotations, at least equal to the amount of the funds outstanding shall not exceed ten percent of the unimpaired capital and unimpaired surplus of that state-chartered banking institution. This limitation shall be separate from and in addition to the limitation contained in subdivision (1) of this subsection.

(3) For the purposes of this subsection:

(A) The term "loans and extensions of credit" shall include all direct or indirect advances of funds to a person made on the basis of any obligation of that person to repay the funds or repayable from specific property pledged by or on behalf of the person and to the extent specified by the commissioner of banking, such terms shall also include any liability of a state-chartered banking institution to advance funds to or on behalf of a person pursuant to a contractual commitment; and

(B) The term "person" shall include an individual, partnership, society, association, firm, institution, company, public or private corporation, state, governmental agency, bureau, department, division or instrumentality, political subdivision, county commission, municipality, trust, syndicate, estate or any other legal entity whatsoever, formed, created or existing under the laws of this state or any other jurisdiction.

(A) Loans or extensions of credit arising from the discount of commercial or business paper evidencing an obligation to the person negotiating it with recourse shall not be subject to any limitation based on capital and surplus;

(B) The purchase of bankers' acceptances of the kind described in section thirteen of the federal reserve act and issued by other banks shall not be subject to any limitation based on capital and surplus;

(C) Loans and extensions of credit secured by bills of lading, warehouse receipts, or similar documents
transferring or securing title to readily marketable staples shall be subject to a limitation of thirty-five percent of capital and surplus in addition to the general limitations if the market value of the staples securing each additional loan or extension of credit at all times equals or exceeds one hundred fifteen percent of the outstanding amount of such loan or extension of credit. The staples shall be fully covered by insurance whenever it is customary to insure such staples;

(D) Loans or extensions of credit secured by bonds, notes, certificates of indebtedness or treasury bills of the United States or by other such obligations fully guaranteed as to principal and interest by the United States or by bonds, notes, certificates of indebtedness which are general obligations of the state of West Virginia or by other such obligations fully guaranteed as to principal and interest by the state of West Virginia shall not be subject to any limitation based on capital and surplus;

(E) Loans or extensions of credit to or secured by unconditional takeout commitments or guarantees of any department, agency, bureau, board, commission or establishment of the United States or of the state of West Virginia or any corporation wholly owned directly or indirectly by the United States shall not be subject to any limitation based on capital and surplus;

(F) Loans or extensions of credit secured by a segregated deposit account in the lending bank shall not be subject to any limitation based on capital and surplus;

(G) Loans or extensions of credit to any banking institution or to any receiver, conservator or other agent in charge of the business and property of such banking institution or other federally insured depository institution, when such loans or extensions of credit are approved by the commissioner of banking, shall not be subject to any limitation based on capital and surplus;

(H) (i) Loans and extensions of credit arising from the discount of negotiable or nonnegotiable installment consumer paper which carries a full recourse endorsement or un-
conditional guarantee by the person transferring the paper
shall be subject under this section to a maximum limitation
equal to twenty-five percent of such capital and surplus, not-
withstanding the collateral requirements set forth in subdivision
(2) of this subsection.

(ii) If the bank's files or the knowledge of its officers
of the financial condition of each maker of such consumer
paper is reasonably adequate, and an officer of the bank
designated for that purpose by the board of directors of the
bank certifies in writing that the bank is relying primarily upon
the responsibility of each maker for payment of such loans or
extensions of credit and not upon any full or partial recourse
endorsement or guarantee by the transferor, the limitations of
this section as to the loans or extensions of credit of each such
maker shall be the sole applicable loan limitations;

(I) (i) Loans and extensions of credit secured by
shipping documents or instruments transferring or securing
title covering livestock or giving a lien on livestock when
the market value of the livestock securing the obligation is
not at any time less than one hundred fifteen percent of the

section, notwithstanding the collateral requirements set
forth in subdivision (2) of this subsection, to a maximum
limitation equal to twenty-five percent of such capital and
surplus.

discount by dealers in livestock of paper given in payment
for livestock, which paper carries a full recourse en-

which are secured by the livestock being sold, shall be
subject under this section, notwithstanding the collateral
requirements set forth in subdivision (2) of this sub-
section, to a limitation of twenty-five percent of such
capital and surplus;

(J) Loans or extensions of credit to the student loan mar-

one million dollars or when approved in writing by the com-
mmissioner of banking, shall not be subject to any limitation
based on capital and surplus.

(5) (A) The commissioner of banking may prescribe rules
and regulations to administer and carry out the purposes of
this subsection including rules or regulations to define or
further define terms used in this subsection and to establish
limits or requirements other than those specified in this
subsection for particular classes or categories of loans or
extensions of credit;

(B) The commissioner of banking may also prescribe rules
and regulations to deal with loans or extensions of credit,
which were not in violation of this section prior to the
effective date of this act, but which will be in violation
of this section upon the effective date of this act;

(C) The commissioner of banking also shall have authority
to determine when a loan putatively made to a person
shall for purposes of this subsection be attributed to another
person.

(b) (1) Except as hereinafter provided or otherwise per-
mitted by law, nothing herein contained shall authorize the pur-
chase by a state-chartered banking institution for its own ac-
count of any shares of stock of any corporation: Provided,
That a state-chartered banking institution may purchase and
sell securities and stock without recourse, solely upon the
order and for the account of customers.

the form of stocks, bonds, notes and/or debentures; "investment securities" may be further defined by regulation of the commissioner of banking; and

(B) The term "person" shall include any individual, partnership, society, association, firm, institution, company, public or private corporation, state, governmental agency, bureau, department, division or instrumentality, political subdivision, county commission, municipality, trust, syndicate, estate or any other legal entity whatsoever, formed, created or existing under the laws of this state or any other jurisdiction.

208  to said local public agency, moneys in an aggregate amount
209  which (together with any other moneys irrevocably committed
210  to the payment of interest on such obligations) will suffice
211  to pay, when due, the interest on and all installments (in­
212  cluding the final installment) of the principal of such obli­

the United States Housing Act of 1937, as amended, and if the
maximum sum and the maximum period specified in such
contract pursuant to said subsection 22(b) shall not be less
than the annual amount and the period for payment which are
requisite to provide for the payment when due of all install-
ments of principal and interest on such obligations; or

(iii) By a pledge of both annual contributions under an
annual contributions contract containing the covenant by the
secretary which is authorized by Section 6 (g) of the United
States Housing Act of 1937 (42 USC §1437d (g)) and a loan
under an agreement between the local public housing agency
and the secretary in which the public housing agency agrees to
borrow from the secretary, and the secretary agrees to lend to
the public housing agency, prior to the maturity of the obliga-

(L) Obligations of a corporation owning the property in
which that state-chartered banking institution is located
when that state-chartered banking institution has an
unimpaired capital and surplus of not less than one million
dollars or when approved in writing by the commissioner of

§§3931 et. seq.) and may make investments in a partnership,
limited partnership, or joint venture formed pursuant to sec-
tion 907 (a) or 907 (c) of that act (42 USC §3937 (a) or (c))
and may purchase shares of stock issued by any West Virginia
housing corporation and may make investments in loans
and commitments for loans to any such corporation: Provided,
That in no event shall the total amount of such stock held for its own account and such investments in loans and commitments made by the state-chartered banking institution exceed at any time five percent of the unimpaired capital and unimpaired surplus of that state-chartered banking institution.

(6) Notwithstanding any other provision in this subsection, a state-chartered banking institution may purchase, for its own account, shares of stock of small business investment companies chartered under the laws of this state, which are licensed under the act of Congress known as the "Small Business Investment Act of 1958," as amended, and of business development corporations created and organized under the act of the Legislature known as the "West Virginia Business Development Corporation Act," as amended: Provided, That in no event shall any such state-chartered banking institution hold shares of stock in small business investment companies and/or business development corporations in any amount aggregating more than five percent of the unimpaired capital and unimpaired surplus of that state-chartered banking institution.

(c) No officer, director, clerk or other employee of any banking institution or the commissioner of banking or any employee of the department of banking shall borrow, directly or indirectly, from the banking institution with which he is connected, or which is subject to examination by the commissioner of banking, any sum of money without the approval of a majority of the board of directors or discount committee of the banking institution, or of any duly constituted committee whose duties include those usually performed by a discount committee, embodied in a resolution adopted by a majority vote of such board or committee,
exclusive of the director to whom the loan is made. If any officer, clerk or other employee of any bank shall own or control a majority of the stock of any other corporation, a loan to such corporation shall, for the purpose of this section, constitute a loan to such officer, clerk or other employee.

(d) Securities purchased by a banking institution shall be entered upon the books of the bank at actual cost. For the purpose of calculating the undivided profits applicable to the payment of dividends, securities shall not be valued at a valuation exceeding their present cost as determined by amortization, that is, by deducting from the cost of a security purchased at a premium, and charging to profit and loss a sum sufficient to bring it to par at maturity.

(1) Establish or maintain any branch bank, except as otherwise permitted by this section; or

(2) Engage in business at any place other than at its principal office in this state, at a branch bank in this state permitted by this section or at a customer bank communication terminal permitted by section twelve-b of this article: Provided, That at any time each such banking institution and each branch bank established by the purchase of the business and assets and assumption of the liabilities of, or merger or consolidation with, another banking institution, may operate no more than two off-premises walk-in or drive-in banking facility, on or in conjunction with or entirely separate from a parking lot for the customers of such banking institution, for the purpose of receiving bank deposits of all kinds, cashing checks, making change, selling and issuing money orders and travelers checks and receiving payments on loans, savings and rental accounts, and for no other purposes, provided any such off-premises banking facility is located within five thousand feet of the banking house premises or branch bank premises of the banking institution operating such off-premises facility measured between the nearest points of the banking house premises and the premises on which such off-premises banking facility is located. Such off-premises banking facility shall be in addition to any branch bank permitted by this section.

(b) Except for a bank holding company, it shall be unlawful for any individual, partnership, society, association, firm, institution, trust, syndicate, public or private corporation, or any other legal entity, or combination of entities acting in concert, to directly or indirectly own, control or hold with power to vote, twenty-five percent or more of the voting shares of each of two or more banks, or to control in any manner the election of a majority of the directors of two or more banks.

(c) A branch bank may be established in accordance with subsection (d) of this section either by:

(1) The construction, lease or acquisition of branch bank facilities in an unbanked area; or

Notwithstanding any other provision of this chapter to the contrary, subject to and in furtherance of the board's authority under the provisions of subdivision (6), subsection (b), section two, article three of this chapter, and subsection (k) of this section, the board may approve or disapprove the application of any state banking institution to establish a branch bank.

(d) During the five-year period beginning ninety days from the effective date of this article, a banking institution may establish:

(e) The principal office of a banking institution on the effective date of this article shall continue to be the principal office of such banking institution for purposes of establishing branch banks under this section, notwithstanding any subsequent change in the location of such banking institution's principal office.

(f) It shall be unlawful for any banking institution to establish any branch bank by the purchase of the business and assets and assumption of the liabilities of, or merger or consolidation with, another banking institution if such establishment would cause the combined deposits of the re-

deposits of all banking institutions in this state as determined
by the latest available reports of condition as compiled by the
federal deposit insurance corporation.

(g) Any banking institution which is authorized to establish
branch banks pursuant to this section may provide the same
banking services and exercise the same powers at each such
branch bank as may be provided and exercised at its principal
banking house.

establish a branch bank provide notice of such application
to all banking institutions. A banking institution may, with-

intervene and shall, if it so files such petition, thereupon
become a party to any hearing relating thereto before the
board.

(i) The commissioner shall prescribe the form of the
application for a branch bank and shall collect an examina-
tion and investigation fee of one thousand dollars for each
filed application for a branch bank that is to be established
by the construction, lease or acquisition of a branch bank
facility in an unbanked area and two thousand five hundred

purchase of the business and assets and assumption of the
liabilities of, or merger or consolidation with another banking
institution. The board shall complete the examination and in-
vestigation within ninety days from the date on which such
application and fee are received, unless the board requests in
writing additional information and disclosures concerning the
proposed branch bank from the applicant banking institution,
in which event such ninety-day period shall be extended for
an additional period of thirty days plus the number of days
between the date of such request and the date such additional
information and disclosures are received.

(j) Upon completion of the examination and investigation
with respect to such application, the board shall, if a hearing
be required pursuant to subsection (k) of this section, forth-
with give notice and hold a hearing pursuant to the following
provisions:
(1) Notice of such hearing shall be given to the banking institution with respect to which the hearing is to be conducted in accordance with the provisions of section two, article seven, chapter twenty-nine-a of this code, and such hearing and the administrative procedures in connection therewith shall be governed by all of the provisions of article five, chapter twenty-nine-a of this code, and shall be held at a time and place set by the board but shall not be less than ten nor more than thirty days after such notice is given.

(2) At any such hearing a party may represent himself or be represented by an attorney at law admitted to practice before any circuit court of this state.

(3) After such hearing and consideration of all the testimony and evidence, the board shall make and enter an order approving or disapproving the application, which order shall be accompanied by findings of fact and conclusions of law as specified in section three, article five, chapter twenty-nine-a of this code, and a copy of such order and accompanying findings and conclusions shall be served upon all parties to such hearing, and their attorneys of record, if any.

(k) No state banking institution may establish a branch bank until the board, following an examination, investigation, notice and hearing, enters an order approving an application for that branch bank: Provided, That no such hearing shall be required with respect to any application to establish a branch bank which is approved by the board unless a banking institution has timely filed a petition to intervene pursuant to subsection (h) of this section. The order shall be accompanied by findings of fact that:

(1) Public convenience and advantage will be promoted by the establishment of the proposed branch bank;

(2) Local conditions assure reasonable promise of successful operation of the proposed branch bank and of those banks and branches thereof already established in the community;

(3) Suitable physical facilities will be provided for the branch bank; and
(4) The applicant state banking institution satisfies such reasonable and appropriate requirements as to sound financial condition as the commissioner or board may from time to time establish by regulation.

(1) Any party who is adversely affected by the order of the board shall be entitled to judicial review thereof in the manner provided in section four, article five, chapter twenty-nine-a of this code. Any such party adversely affected by a final judgment of a circuit court following judicial review as provided in the foregoing sentence may seek review thereof by appeal to the supreme court of appeals in the manner provided in article six, chapter twenty-nine-a of this code.

(m) Pursuant to the resolution of its board of directors and with the prior approval of the commissioner, a state banking institution may discontinue the operation of a branch bank upon at least thirty days' prior public notice given in such form and manner as the commissioner prescribes.

(n) Any violation of any provision of this section shall constitute a misdemeanor offense punishable by applicable penalties as provided in section fifteen, article eight of this chapter.

or refuse to renew licenses of the schools; establishing fees for initial license and renewal; authorizing the board of barbers and beauticians to promulgate rules and regulations governing the licensure of instructors; establishing minimum qualifications for instructors; prescribing license fees for instructors; and providing that all rules and regulations promulgated in compliance with the provisions of chapter twenty-nine-a of said code of West Virginia.

Be it enacted by the Legislature of West Virginia:

That section eight, article twenty-seven, chapter thirty of the code of West Virginia, one thousand nine hundred thirty-one, as amended, be amended and reenacted to read as follows:

ARTICLE 27. BOARD OF BARBERS AND BEAUTICIANS.

§30-27-8. License to own or operate schools of barbering or beauty culture; application for license; qualifications; inspection; license fee; rules and regulations; suspension, etc., of license; qualifications and registration of instructors; registration fees; administrative procedures.

1 No person, firm or corporation, whether public or private, and whether organized for profit or not, shall own or operate a school of barbering or beauty culture in this state without first obtaining a license so to do from the board. The application for such license shall be made in writing on forms prescribed and furnished by the board and shall be signed and verified by the applicant. The applicant shall, in addition to such other information as may be reasonably required by the board, furnish evidence that (a) the applicant is professionally competent and financially responsible, (b) adequate physical facilities will be available for the school, and (c) persons teaching or instructing therein are licensed by the board as fully qualified instructors. If an applicant desires to own or operate more than one school of barbering or beauty culture, a separate application shall be made and a separate license shall be issued for each.

17 All applicants for a license to own or operate a school of barbering or beauty culture shall permit an inspection of such proposed school by the inspectors appointed pursuant to sub-
section (d), section one, article fourteen, chapter sixteen of this code to determine whether it is properly fitted and equipped for instruction in barbering or beauty culture. The board of health shall promulgate reasonable rules and regulations to implement and make effective the powers, duties and responsibilities vested in such board in connection with the licensing of schools of barbering and beauty culture. If the applicant has met all of the standards and qualifications prescribed herein by the board of health and has complied with the rules and regulations pertaining to the issuance of the license applied for, the board shall issue such license to the applicant. Thereafter, the board may suspend, revoke or refuse to renew the license of a school whenever it fails to meet the minimum standards and qualifications required for the issuance of an original license. The director of health or his designees shall administer and enforce such actions of the board.

The initial license fee for each school of barbering and for each school of beauty culture shall be five hundred dollars and the annual renewal fee shall be two hundred fifty dollars to be paid in such manner as the board may prescribe, on or before January first of each year. The license shall be permanently displayed in the school, and a suitable sign shall be kept on the front of the school which shall plainly indicate that a school of barbering or beauty culture is operated therein.

The board of barbers and beauticians shall promulgate reasonable rules and regulations prescribing the standards and requirements to be met by applicants for licensure of duly qualified instructors in schools of barbering or beauty culture. Such rules and regulations may provide for the issuance of certificates for instructors, including temporary certificates, and shall prescribe minimum qualifications as to age, education and training for applicants for such certificates. Minimum qualifications to become applicants as student instructors shall include one year's experience as a licensed full-time practicing barber or beautician and two hundred fifty hours of advanced instruction beyond the normal licensure requirements. Each licensed instructor in barbering and beauty culture shall pay an initial registration fee of fifty dollars, and shall renew his certificate annually and pay a renewal fee of fifty dollars.
on or before the first day of January of each year. An expired certificate may be
reinstated only upon the payment of all lapsed renewal fees, unless such instructor shall have notified the board that he or she desires to be placed on an inactive status during which time he or she shall not be liable for any renewal fees. The applicant for reinstatement shall also be required to meet the qualifications for registration in effect at the time application for reinstatement is made. A licensed instructor shall not also be required to be licensed for active practice or service as provided for in section four of this article, unless such instructor is in fact acting as a barber, beautician, aesthetician or manicurist outside the scope of his employment as an instructor: Provided, That the term “aestheti-
cian,” used in this section, shall have no effect until and unless the provisions of section one of this article are amended to authorize issuance of rules and regulations relating to aestheticians.

Recognizing that all of the provisions of chapter twenty-nine-a of this code are fully applicable to any and all administrative procedures, and the right of judicial review, in connection with the provisions of this article, but also recognizing that the question has been raised as to whether rules and regulations adopted under the provisions of this section must be promulgated in accordance with the provisions of said chapter twenty-nine-a, it is hereby expressly provided that all such rules and regulations shall be promulgated in compliance with the provisions of said chapter twenty-nine-a.

At the expiration of the term of each member, his successor shall be appointed by the governor for a term of four years. In the event of a vacancy in said board, said vacancy shall likewise be filled by appointment by the governor and the governor shall likewise have the power to remove any commissioner at his pleasure. 19  pertain to its officers, directors, principal stockholders and
20  employees.

21  Every license and licensee shall be subject to such rules
22  and regulations, and amendments thereof, as the commission
23  may prescribe.

§29-5A-9.  Sanction or permit from commission.

4  except by a sanction or permit from the commission.

§29-5A-20.  Licenses for contestants, referees and managers.

1  No professional contestant, referee or professional manager
2  shall be permitted to take part in any boxing contest or exhibi-

9  exhibitions as follows:

10  (1) Rules which comply with the requirements of the rules

participate in any state, national or international boxing match
sanctioned by the current United States amateur boxing
authority or the international amateur boxing association.

(2) Rules which may differ from the rules of the current
United States amateur boxing authority but which ade-
quately guarantee the safety of the participants and the fair
and honest conducting of the matches or exhibitions. As a part
of these rules, the commission shall include a requirement that
all boxers participating in matches or exhibitions conducted
under these rules be informed prior to such participation that
such participation will disqualify them from participating in
state, national or international matches and exhibitions sanc-

CHAPTER 39
(H. B. 1271—By Mr. Starcher and Mr. Faircloth)

[Passed March 10, 1983; in effect from passage. Approved by the Governor]

AN ACT finding and declaring certain claims against the state and its agencies to be moral obligations of the state and directing the auditor to issue warrants for the payment thereof.

Be it enacted by the Legislature of West Virginia:

CLAIMS AGAINST THE STATE.

§1. Finding and declaring certain claims against the department of corrections; the farm management commission; the secretary of state; and the railroad maintenance authority to be moral obligations of the state and directing payment thereof.

The Legislature has heretofore made findings of fact that the state has received the benefit of the commodities and services rendered by certain claimants herein and has considered claims
against the state, the department of corrections, the farm
management commission, the secretary of state and the rail-
road maintenance authority, agencies thereof, which have
arisen due to overexpenditures of the departmental appropri-
tions by officers of such state spending unit, such claims having
been previously considered by the court of claims which also
found that the state has received the benefit of the commodities
and services rendered by each claimant, but were denied by
the court of claims on the purely statutory grounds that to
allow such claims would be condoning illegal acts contrary to
the laws of the state. The Legislature pursuant to its findings of
fact and also by the adoption of the findings of fact by the court
of claims as its own, and, while not condoning such illegal
acts, hereby declares it to be the moral obligation of the state to
pay each such claim in the amount specified below, and directs
the auditor to issue warrants upon receipt of a properly ex-
cuted requisition supported by an itemized invoice, statement
or other satisfactory document as required by section ten,
article three, chapter twelve of the code of West Virginia, one
thousand nine hundred thirty-one, as amended, for the pay-
ment thereof out of any fund appropriated and available for
the purpose.

[Passed March 12, 1983; in effect from passage. Approved by the Governor.]

AN ACT to amend and reenact section one hundred twenty-eight, article two, chapter forty-six-a of the code of West Virginia, one thousand nine hundred thirty-one, as amended, relating to permitting the recovery of attorney's fees, court costs and collection costs and charges on delinquent student loan obligations; and providing limitations on any such recovery.

Be it enacted by the Legislature of West Virginia:

That section one hundred twenty-eight, article two, chapter forty-six-a of the code of West Virginia, one thousand nine hundred thirty-one, as amended, be amended and reenacted to read as follows:

ARTICLE 2. CONSUMER CREDIT PROTECTION.

§46A-2-128. Unfair or unconscionable means.

1 No debt collector shall use unfair or unconscionable means
to collect or attempt to collect any claim. Without limiting
the general application of the foregoing, the following conduct
is deemed to violate this section:

5 (a) The seeking or obtaining of any written statement or
acknowledgment in any form that specifies that a consumer's
obligation is one incurred for necessaries of life where the
original obligation was not in fact incurred for such neces-
saries;

(b) The seeking or obtaining of any written statement or
acknowledgment in any form containing an affirmation of any
obligation by a consumer who has been declared bankrupt,
without clearly disclosing the nature and consequences of such
affirmation and the fact that the consumer is not legally ob-
ligated to make such affirmation;

(c) The collection or the attempt to collect from the con-
sumer all or any part of the debt collector's fee or charge for
services rendered: Provided, That attorney's fees, court costs
and other reasonable collection costs and charges necessary
for the collection of any amount due upon delinquent edu-

costs may not exceed twenty percent of the amount due and
owing to any such institution: Provided, however, That no-	hing contained in this subsection shall be construed to limit
or prohibit any institution of higher education from paying
additional attorney fees and collection costs as long as such

debt recovered for the institution or paid from other funds
available to the institution;

ppears that the consumer is represented by an attorney and the
attorney's name and address are known, or could be easily
ascertained, unless the attorney fails to answer correspondence,
return phone calls or discuss the obligation in question or un-
less the attorney consents to direct communication.

Application for a new charter or new branch office certificate shall be filed in duplicate with the commissioner of banking, accompanied by an examination and investigation fee of one thousand dollars payable to the commissioner. A charter, when issued, shall be filed and recorded as provided by law for general corporations organized under the laws of this state. §31-7-11. Powers of industrial loan companies; limitation of powers.

1 (a) In addition to the general powers conferred upon corporations by the laws of this state, each industrial loan company shall have power to exercise by its board of directors or duly authorized officers or agents, subject to law, all such powers as shall be necessary to:

6 (1) Lend money to any person, firm or corporation, secured by the obligation of such person, firm or corporation, or otherwise;

9 (2) Notwithstanding the provisions of subdivision (1), subsection (b) of this section, sell or offer for sale, with prior written approval of the commissioner, its secured or unsecured evidences or certificates of indebtedness, and such secured or unsecured evidences or certificates of indebtedness are hereby defined as money for the purpose of taxation, but every such evidence or certificate of indebtedness shall state, on its face, in a clearly visible manner approved by the commissioner, that such evidence or certificate of indebtedness is not federally insured.

19 Not later than the thirty-first day of December, one thousand nine hundred eighty-four, every industrial loan company selling or offering for sale its secured or unsecured evidences or certificates of indebtedness, pursuant to this subdivision, shall obtain insurance for or a guarantee of those evidences or certificates of indebtedness by or through an insurance company or guarantee fund acceptable to and approved by the commissioner. The insurance or guarantee shall provide for the redemption of the investment of the evidence or certificate holder in the event of liquidation, insolvency or bankruptcy of the industrial loan company. The amount of insurance or guarantee benefit to each holder of an evidence or certificate, as an individual or multi-party account, shall at all times be in full force and be equal to the industrial loan company's liability under the evidence or certificate or one hundred thousand dollars, whichever is less.

Notwithstanding the provisions of subdivision (1),
subsection (b), section four, article two, chapter thirty-one-a of this code, the commissioner may make available to any accepted and approved insurance company or guarantee fund the reports of examination and other examination findings of any industrial loan company, the evidences or certificates of indebtedness of which that insurance company or guarantee fund is insuring or guaranteeing. For purposes of this subdivision, an insurance company or guarantee fund includes any insurance company authorized to do business in this state, an insurance or guarantee fund organized under the laws of the United States, this state or any other state with the express purpose or authority to guarantee the accounts of industrial loan companies or any other person who contracts with industrial loan companies to insure or guarantee accounts: Provided, That no insurance company or guarantee fund shall be deemed to be providing insurance within the meaning of section one, article one, chapter thirty-three of this code merely because such company or fund insures or guarantees evidences or certificates under the provisions of this subdivision, nor shall any person be deemed to be offering insurance insofar as his activities involve the offering of insurance or guarantees under the provisions of this subdivision;

(3) Buy and sell bonds, obligations of any person, firm or corporation, the United States, and any department, board, bureau or agency of the United States and buy and sell any general obligations of the state of West Virginia;

(4) Demand and receive for loans or for notes, bills or evidences of debt discounted or purchased, such rate of interest as may be agreed upon by the parties, not exceeding the lawful rate of interest, and it shall be lawful to receive such interest in advance. This section does not limit or restrict the manner of calculating the loan finance charge, whether by way of add-on, discount or otherwise, so long as the rate of loan finance charge does not exceed that permitted by this section;

(5) Charge for a loan made pursuant to this section, one dollar for each fifty dollars, or fraction thereof, loaned, for expenses including any examination or investigation of the character and circumstances of the borrower, comaker or
surety, and the drawing and taking the acknowledgment of
necessary papers, or other expenses, incurred in making the
loan. No additional charge shall be made except to
reimburse the corporation for money actually expended for
additional service actually rendered the borrower. No
charge shall be collected unless a loan shall have been made
as the result of such examination or investigation;

(6) Purchase, hold and convey real estate as follows:

(A) Such as shall be necessary for the convenient
transaction of its business, including with its office other
apartments or offices to rent as a source of income, which
investment shall not exceed sixty-five percent of its paid-in
capital stock and surplus;

security for loans made by or money due to such industrial
loan company;

(C) Such as is conveyed to it in satisfaction of debts
previously contracted in the course of its dealings;

(D) Such as is acquired by sale on execution or judgment
or decree of any court in its favor.

Industrial loan companies shall not purchase, hold or
convey any real estate in any other case or for any other
purpose whatever. Real estate shall be conveyed only by
authority of the board of directors of any such industrial
loan company. No real estate acquired in the cases
contemplated in paragraphs (B), (C) and (D), subdivision (6)
of this subsection shall be held for a longer time than five
years, unless such period shall be extended by the
commissioner of banking.

(b) An industrial loan company shall not:

(1) Accept or receive deposits;

(2) Hold at any one time the primary obligation or
obligations of any one person, firm or corporation, for more
than ten percent of the amount of the paid-up capital and
surplus of such industrial loan company except the
obligations of the United States or any department, board,
bureau or agency of the United States or any general
obligations of the state of West Virginia shall not be subject
to such limitation;
(3) Hold at any one time the obligation or obligations of persons, firms or corporations purchased from any person, firm or corporation in excess of twenty percent of the aggregate paid-up capital and surplus of such industrial loan company;

(4) Make any loan or discount on the security of its own capital stock (controlling and voting stock, if there be more than one class), unless such security or purchase shall be necessary to prevent loss upon a debt previously contracted in good faith. Stock so purchased or acquired shall be sold at public or private sale or otherwise disposed of within ninety days from the time of its purchase or acquisition;

(5) Have outstanding at any time its evidences or certificates of indebtedness and any other debt, in an aggregate sum in excess of ten times the aggregate amount of its paid-up capital (voting and controlling stock) and surplus;

(6) Deposit any of its funds with any other corporation unless such corporation is insured by the federal deposit insurance corporation or the federal savings and loan insurance corporation or is approved, in writing, by the commissioner;

(7) Pledge or hypothecate any of its securities or notes owned by it to any creditor, except that such companies shall have the power to rediscount or to borrow money from any source in addition to selling its evidences or certificates of indebtedness, but the aggregate amount of such rediscounting and borrowing that is not subordinated to its evidences or certificates of indebtedness shall at no time exceed the sum total of the capital, surplus and reserve funds of such company, and the security so pledged therefor shall not exceed two times the amount borrowed and rediscounted;

(8) Pay any fees, bonuses, commissions, rewards or other consideration to any person, firm or corporation for the privilege of using any plan of operation, scheme or device for the organization or carrying on of business under this article, or the use of any name, trademark or copyright to be so used.
(c) An industrial loan company, when not exercising the power granted under subdivision (2), subsection (a) of this section, shall not be subject to subdivisions two, three, four, five, six and seven, subsection (b) of this section.

§31-7-14. Branch industrial banks forbidden; limited off-premises industrial bank facility permitted; branch industrial loan company permitted; limitation on purchases of industrial bank stock; penalties.

(b) It shall be unlawful for any individual, partnership, society, association, firm, institution, trust, syndicate, public or private corporation, or any other legal entity, or combination of entities acting in concert, to directly or indirectly own, control or hold with power to vote, twenty-five percent or more of the voting shares of more than seven industrial banks, or to control in any manner the election of a majority of the directors of more than seven industrial banks, and the provisions of this subsection shall govern and control irrespective of any other provision of this code restricting or limiting the ownership or control of voting shares of industrial banks or the control of the election of directors thereof, whether such other provision was enacted before or after the enactment of this article.
(c) No industrial loan company shall install or maintain any branch industrial loan company, unless it has applied for and received a branch office certificate from the commissioner. Application for a branch office certificate shall be filed in duplicate with the commissioner, on forms prescribed by the commissioner, accompanied by an examination and investigation fee of one thousand dollars payable to the commissioner. The provision of section five, article two, chapter thirty-one-a of this code, insofar as the same relates to financial institutions, other than banking institutions, shall apply to the application and issuance of a branch office certificate or license by the commissioner to an industrial loan company.

(d) Any violation of any provision of this section shall constitute a misdemeanor offense punishable by applicable penalties as provided in section fifteen, article eight, chapter thirty-one-a of this code.

§31-7-16. Annual and special meetings of stockholders; quorum; annual report; voting; proxies.

1 The stockholders of each industrial loan company shall meet annually, a majority of the outstanding voting stock to constitute a quorum; and it shall be the duty of the secretary to prepare and submit to the stockholders a clear and concise statement of the financial condition of the corporation as of the close of business on the last day of the year next preceding. At such meeting the stockholders shall elect a board of directors of not less than five nor more than twenty-five. Special meetings may be called by order of the board of directors or by request in writing of ten percent of the stockholders.

12 In all elections of directors of the corporation each stockholder shall have the right to cast one vote for each share of stock owned by him and entitled to vote, and he may cast the same in person or by proxy, for as many persons as there are directors to be elected, or he may cumulate such votes and give one candidate as many votes as the number of directors to be elected multiplied by the number of his shares of stock shall equal; or he may distribute them on the same principle among as many
candidates and in such manner as he may desire, and the
directors shall not be elected in any other manner, and on
any other question to be determined by a vote of shares at
any meeting of stockholders each stockholder shall be
entitled to one vote for each share of stock owned by him
and entitled to vote, and he may exercise this right in person

The provisions of section twenty, article four, chapter
thirty-one-a shall govern and control stockholders'
meetings of industrial banks.

§31-7-17. **Directors; officers.**

The affairs of every industrial bank shall be managed by a

president who shall be a director, one or more vice
presidents, a secretary or manager, treasurer and such other

(4) For each bank holding company, an annual assessment shall be made as provided for in section five, article eight-a, chapter thirty-one-a of this code. Such annual assessment shall not exceed ten dollars per million dollars in deposits rounded off to the nearest million dollars.

(5) For each supervised lender, an annual assessment as provided for in section one hundred five, article four, chapter forty-six-a of this code. Such annual assessment shall not exceed one hundred dollars on the first twenty-five thousand dollars of total outstanding loan balances and installment sales contract balances less unearned finance charges plus forty cents per thousand dollars on the remaining outstanding balances as of the preceding calendar year-end.

(6) The commissioner shall, during the month of June, one thousand nine hundred eighty-three, and each December and each June thereafter, prepare and send to each state banking institution a statement of the amount of the assessment due. The commissioner shall, further, during the month of June, one thousand nine hundred eighty-three, and each June thereafter, prepare and send to each industrial loan company, each state credit union and each supervised lender a statement of the amount of the assessment due. Such assessments shall be charged for the first day of July, one thousand nine hundred eighty-three, at the amounts as scheduled. The commissioner shall, further, during the month of January, one thousand nine hundred eighty-four, and each January thereafter, prepare and send to each bank holding company a statement of the amount of the assessment due. Such bank holding company assessments shall be charged for the last day of January, one thousand nine hundred eighty-four, at the amounts as scheduled in this subsection.

Subsequent assessments shall be prescribed annually, not later than the fifteenth day of June, by written order of the commissioner, but shall not exceed the maximums as set forth in this subsection. In setting such assessments the primary consideration shall be the amount appropriated by the Legislature for the department of banking for the corresponding annual period. Reasonable notice of such assessments shall be made to all interested parties. All orders of the commissioner for
the purpose of setting assessments shall not be subject to the provisions of the West Virginia Administrative Procedures Act, chapter twenty-nine-a of this code.

(c) For making an examination within the state of any other financial institution for which assessments are not provided by this code, the commissioner of banking shall charge and collect from such other financial institution and pay into the special revenue account for the department of banking the actual and necessary costs and expenses incurred in connection therewith, as fixed and determined by the commissioner.

(d) If the records of an institution are located outside this state, the institution at its option shall make them available to the commissioner at a convenient location within this state, or pay the reasonable and necessary expenses for the commissioner or his representatives to examine them at the place where they are maintained. The commissioner may designate representatives, including comparable officials of the state in which the records are located, to inspect them on his behalf.

(e) The commissioner of banking may maintain an action for the recovery of all such assessments, costs and expenses in any court of competent jurisdiction.

ARTICLE 4. BANKING INSTITUTIONS AND SERVICES GENERALLY.

§31A-4-5. Requirements and procedure for incorporation of state banks.

A state bank may be organized by five or more incorporators, a majority of whom shall be residents of the state of West Virginia. Such banking institution shall have as a part of its corporate name or title one or more of the following words indicative of the business which it is authorized to conduct, namely, “bank,” “banking company,” “banking association,” “trust company,” “banking and trust company” or “bank and trust company.”

The incorporators shall file with the board an agreement of incorporation, in duplicate, following generally the form prescribed by the secretary of state for chartering corporations under provisions of article one, chapter thirty-one of this
code. The information set forth in the agreement shall include the following:

(1) The name of the proposed bank;

(2) The community and county in which the bank is to be located, together with the post-office address of the place of business of the bank;

(3) Whether such bank proposes also to engage in the trust business;

(4) The name, residence and occupation of each incorporator, and the amount of capital stock subscribed and paid for by each;

(5) The names of the persons who are to serve as officers and directors of the banking institution and the official position proposed to be held by each; and

(6) The total authorized capital stock of the institution.

The agreement of incorporation shall be signed and acknowledged by each of the incorporators and, when filed with the board, shall be accompanied by the statutory corporation charter fees, and an examination and investigation fee of two thousand five hundred dollars payable to the board. When transmitting the agreement to the board, the incorporators shall designate by name and give the address of the attorney, agent or other responsible party with whom the board may communicate, on whom the board may call for further information, and to whom the board may officially report as to action on the agreement so filed with him. The agreement shall constitute and may be considered and treated by the board as an application for the board's approval to incorporate and organize a banking institution in this state.

ARTICLE 8A. ACQUISITION OF BANK SHARES.

§ 31A-8A-5. Registration and reporting of bank holding companies; annual fee.

(a) For the purposes of this section, other than subsection (f), a "bank holding company" shall include, in addition to a bank holding company defined in subdivision (1), sub-
section (a), section three of this article, any other bank
holding company subject to regulation under Title 12 United
States Code, §§1841-1850 (being the act of Congress entitled
the Bank Holding Company Act of 1956, as amended),
which has acquired or established a place of business in this
state or a subsidiary which has a place of business in this
state.

(b) On the first day of July, one thousand nine hundred
eighty-two, and annually thereafter on dates established by
the commissioner, each bank holding company shall register
with the commissioner on forms provided or prescribed by
him, which shall include such information with respect to
the financial condition, operation, management and inter-
company relationships of the bank holding company and its
subsidiaries and related matters as the commissioner may
deem necessary or appropriate to carry out the purposes of
this article.

(c) The commissioner is authorized to issue such regula-
tions and orders as may be necessary to enable him or
the board to administer and carry out the purposes of this
article and prevent evasions thereof.

(d) The commissioner from time to time may require
reports under oath to keep him informed as to whether the
provisions of this article and such regulations and orders
thereunder issued by him have been complied with, may make
examinations of each bank holding company and each sub-
sidiary thereof, and shall, as far as possible, use the reports
of examination made by the comptroller of the currency,
federal deposit insurance corporation, or the board of govern-
ors of the federal reserve system for the purposes of this
section.

(e) Bank holding companies and subsidiaries or affiliates
thereof shall be regulated, controlled and examined by the
commissioner to the same extent that he regulates, controls
and examines state banks and other financial institutions under
his jurisdiction. The commissioner is hereby authorized to
promulgate rules and regulations and registration procedures
for the regulation, examination and control of bank holding companies doing business in this state.

(f) The commissioner of banking shall charge and collect from each bank holding company and pay into a special revenue account in the state treasury for the department of banking an annual assessment payable on the last day of January computed upon the total deposits of the bank holding company shown on the consolidated financial statement as of the last business day in December of the previous year as is set out in section eight, article two, chapter thirty-one-a of this code. The payment of such registration fee shall be accompanied by a report on forms prescribed by the commissioner.

In addition, for the purpose of discovering violations of this article or securing information lawfully required, the attorney general or the commissioner may at any time investigate the loans, business and records of any supervised lender. For these purposes he shall have free and reasonable access to the offices, places of business and records of the lender.

2 (2) If the lender's records are located outside this state, the lender at his option shall make them available to the commissioner at a convenient location within this state, or pay the reasonable and necessary expenses for the commissioner or his representatives to examine them at the place where they are maintained. The commissioner may designate representatives, including comparable officials of the state in which the records are located, to inspect them on his behalf.

3 (3) For the purposes of this section, the commissioner may administer oaths or affirmations, and upon his own motion or upon request of any party, may subpoena witnesses, compel
their attendance, adduce evidence, and require the production
of any matter which is relevant to the investigation, including
the existence, description, nature, custody, condition and lo-
cation of any books, documents or other tangible things and
the identity and location of persons having knowledge of rele-
vant facts, or any other matter reasonably calculated to lead to
the discovery of admissible evidence.

(4) Upon failure without lawful excuse to obey a subpoena
or to give testimony and upon reasonable notice to all persons
affected thereby, the commissioner may apply to any circuit
court of this state for an order compelling compliance.

(5) The commissioner of banking shall charge and collect
from each supervised lender and pay into a special revenue
account in the state treasury for the department of banking an
annual assessment payable on the first day of July computed
upon the total outstanding loan balances and installment sales
contract balances less unearned finance charges as of the pre-

§7-14B-3. Civil service commission.

There shall be a civil service commission in each county having a population of twenty-five thousand or more. Each such civil service commission shall consist of five commissioners, two of whom shall be appointed by the bar association of such county, one of whom shall be appointed by the correctional officer association of such county, and two of whom shall be appointed by the county commission
of such county. In the event the bar association or correctional officer association shall fail to make an appointment within the time prescribed in this section therefor, then such appointment shall be made by the county commission. The persons appointed commissioners shall be qualified voters of the county for which they are appointed, and at least three of the commissioners shall be persons in full sympathy with the purposes of this article.

Not more than three of the commissioners, at any one time, shall be members of the same political party. The commissioners in each county shall be appointed as follows: Within sixty days from the effective date of this article, the authorities having the power to appoint members to the civil service commission shall appoint the five commissioners, the first two to be appointed by the bar association of the county shall serve for six years from the date of his appointment, the one to be appointed by the correctional officer association of the county shall serve for four years from the date of his appointment, and the two to be appointed by the county commission of the county shall serve for a term of two years from the date of his appointment. All subsequent appointments shall be made for terms of six years. In the event that any commissioner of the civil service commission shall cease to be a member thereof by virtue of death, final removal or other cause, a new commissioner shall be appointed to fill the unexpired term of that commissioner within ten days after said ex-commissioner shall have ceased to be a member of the commission. Such appointment shall be made by the authority who appointed the commissioner who is no longer a member of the commission. Each year the members of the commission shall, together, elect one of their number to act as president of the commission for a term of one year. The county commission may at any time remove a commissioner for good cause, which shall be stated in writing and made a part of the records of the commission: Provided, That once the county commission has removed any commissioner, such county commission shall within ten days thereafter file in the office of the clerk of the circuit court of the county a petition setting forth in full the reason for the removal and praying for the confirmation of the circuit court of the action of the county commission in removing the said

being held at the time of the filing of the petition, and the
judge thereof cannot be reached in the county wherein the
petition was filed, the petition shall be heard at the next
succeeding term of the circuit court, whether regular or

removed until a hearing is had upon the petition of the
county commission. The circuit court, or the judge thereof
in vacation, shall hear and decide the issues presented by
the petition. The county commission or commissioner, as

review of the decision of the circuit court or the judge
thereof in vacation as in other civil cases. In the event that

court of the county. A copy of the petition shall be served
upon the commissioner sought to be removed. The petition
shall be matured for hearing and heard as a civil action by
the circuit court of the county for which the commissioner
serves as a member of the civil service commission or by the
judge thereof in vacation. The party against whom the
decision of the circuit court or judge thereof in vacation
shall be rendered shall have the right to petition the

§7-14B-4. Clerk of commission.

The clerk of the county commission shall be ex officio clerk of the civil service commission and shall supply to the commission all necessary clerical and stenographic services for the work of the civil service commission.

§7-14B-5. Office and supplies for commission; appropriations required.

It shall be the duty of the county commission of every such county to cause suitable and convenient rooms and accommodations to be assigned and provided, furnished, heated and lighted for carrying on the work and examinations of the civil service commission. The civil service commission may order from the proper authorities the necessary stationery, postage stamps, official seal and other articles to be supplied, and the necessary printing to be done, for its official use. It shall be the duty of the county commission and other county officials of every such county to aid the civil service commission in all proper ways in carrying out the provisions of this article, and to allow the reasonable use of public buildings, and to heat and light the same, for holding examinations and investigations and in all proper ways to facilitate the same.

The county commission of each such county is hereby required to appropriate sufficient funds for the purpose of carrying out the provisions of this article.

§7-14B-6. Powers and duties of commission.

The civil service commission in each such county shall:
1. Promulgate and enforce rules and regulations for carrying into effect the provisions of this article. All rules and regulations so prescribed may, from time to time, be added to, amended or rescinded.
(2) Keep minutes of its own proceedings and records of its examinations and other official actions. All recommendations of applicants for the position of correctional officer received by the commission or by the sheriff shall be kept and preserved for a period of ten years, and all such records, recommendations of former employees excepted, and all written causes of removal, filed with the commission, shall, subject to reasonable rule and regulation, be open to public inspection.

(3) Make investigations, either sitting as a body or through a single commissioner, concerning all matters touching the enforcement and effect of the provisions of this article and the rules and regulations promulgated hereunder or concerning the action of any examiner or subordinate of the commission or any person in the public service with respect to the execution of this article; and, in the course of such investigations, each commissioner shall have the power to administer oaths and affirmations and to take testimony.

(4) Have power to subpoena and require the attendance of witnesses and the production of books and papers pertinent to the investigations and inquiries herein authorized, and examine them and such public records as it shall require in relation to any matter which it has the authority to investigate. The fee of such witness for attendance and travel shall be the same as for witnesses before the circuit courts of this state and shall be paid from the appropriation for the incidental expenses of the commission. All officers in the public service and their deputies, clerks, subordinates and employees shall attend and testify when required to do so by the commission. Any disobedience to, or neglect of, any subpoena issued by the commissioners, or any one of them, to any person, shall be held a contempt of court, and shall be punished by the circuit court of the county in which the civil service commission is located, or the judge thereof in vacation, as if such subpoena has been issued by the court. The judge of the circuit court shall, upon the application of any one commissioner, in any such case, cause the process of that court to issue to compel any person or persons disobeying or neglecting any such subpoena to appear and to give
testimony and produce evidence before the commissioner, or any one of them, and shall have power to punish any such contempt.

(5) Prepare a position classification and promotion plan.

(6) Make an annual report to the county commission and sheriff showing its own actions, its rules and regulations, including all exceptions thereto in force, and the practical effects thereof, and any suggestions it may have for the more effectual accomplishment of the purposes of this article. Such report shall be available for public inspection five days after it shall have been delivered to the county commission and sheriff.

§7-14B-7. Rules and regulations of commission; notice and distribution thereof; probationary period for appointees.

The civil service commission in each such county shall promulgate rules and regulations providing for both competitive and medical examinations for the position of correctional officer in each such county subject to the provisions of this article, for appointments to the position of correctional officer and for promotions and for such other matters as are necessary to carry out the purposes of this article. Any such commission shall have the power and authority to require by rules and regulations a physical fitness examination as part of its competitive examination or as a part of its medical examination. Due notice of the contents of all rules and regulations and of any modifications thereof shall be given, by mail, in due season to the appointing officer, and said rules and regulations and any modifications thereof shall also be printed for public distribution. All original appointments on and after the effective date of this article, to any position of correctional officer in any county subject to the provisions of this article shall be for a probationary period of one year: Provided, That at any time during the probationary period the probationer may be discharged for just cause in the manner provided in section seventeen of this article. If, at the close of this probationary period, the conduct or capacity of the probationer has not been satisfactory to the appointing sheriff, the probationer shall be notified, in writing, that he
will not receive absolute appointment, whereupon his employment shall cease; otherwise, his retention in the position of correctional officer beyond the probationary term shall be equivalent to his absolute appointment.

§7-14B-8. Form of application; age requirements; exceptions.

The civil service commission in each such county shall require persons applying for admission to any competitive examination provided for under this article or under the rules and regulations of the commission to file in its office, within a reasonable time prior to the proposed competitive examination a formal application in which the applicant shall state under oath or affirmation:

1. His full name, residence and post-office address;
2. His United States citizenship, age and the place and date of his birth;
3. His health and his physical capacity for the position of correctional officer;
4. His business, employments and residences for at least three previous years; and
5. Such other information as may reasonably be required, relative to the applicant's qualifications and fitness for the position of correctional officer.

Blank forms for such applications shall be furnished by the commission, without charge, to all persons requesting the same. The commission may require, in connection with the application, such certificates of citizens, physicians or others, having pertinent knowledge concerning the applicant, as the good of the service may require.

No application for original appointment shall be received on and after the effective date of this article, if the person applying is less than eighteen years of age or more than forty-five years of age at the date of his application: Provided, That in the event any applicant formerly served as a correctional officer for a period of more than one year in the county to which he makes application, and resigned as a correctional officer at a time when there were no charges of misconduct or other misfeasance pending against him, within a period of two years preceding the date of his
application, and at the time of his application resides within the county in which he seeks appointment by reinstatement, then such applicant shall be eligible for appointment by reinstatement in the discretion of the civil service commission, even though such applicant shall be over the age of forty-five years, provided he is not sixty-five years of age or over, and such applicant, providing his former term of service as a correctional officer so justifies, may be reappointed by reinstatement without a competitive examination, but such applicant shall undergo a medical examination; and if such applicant shall be so appointed by reinstatement as aforesaid, he shall be the lowest in rank in the jail next above the probationers of the office.

§7-14B-9. **Character and notice of competitive examinations; qualifications of applicants; competitive examinations to be prescribed by state civil service commission; press representatives; posting eligible list; medical examinations; exceptions as to and training of correctional officers serving on effective date of article.**

1 All competitive examinations for appointments or promotions to all positions of correctional officer shall be practical in their character, and shall relate to such matters, and include such inquiries, as will fairly and fully test the comparative merit and fitness of the person or persons examined to discharge the duties of the position sought by him or them. The state civil service commission shall prepare and prescribe, from time to time, the competitive examination to be given by the civil service commission of each such county. All competitive examinations shall be open to all applicants who have fulfilled the preliminary requirements specified in other sections of this article.

13 Adequate public notice of the date, time and place of every competitive examination held under the provisions of this article, together with information as to the position to be filled, shall be given at least two weeks prior to such competitive examination. The civil service commission in each county shall adopt reasonable rules and regulations for permitting the presence of representatives of the press at any such competitive examinations. Such commission shall post, in a public place at its office, the eligible list,
containing the names and grades of those who have passed such competitive examinations for positions as correctional officer, under this article, and shall indicate thereon such appointments as may be made from said list.

All applicants for appointment or promotion to any position as a correctional officer in any such county who have passed the competitive examination specified above shall, before being appointed or promoted, undergo a medical examination which shall be conducted under the supervision of a board composed of two doctors of medicine appointed for such purpose by the sheriff of the county. Such board must certify that an applicant is free from any bodily or mental defects, deformity or diseases which might incapacitate him from the performance of the duties of the position desired and is physically fit to perform such duties before said applicant shall be appointed or promoted to any position. Notwithstanding the first sentence of this paragraph, in the event the commission deems it expedient, the medical examination may be given prior to the competitive examination, and if the medical examination is not passed as aforesaid, the applicant shall not be admitted to the competitive examination.

All correctional officers who are employed as correctional officers on the effective date of this article, shall be considered to have been appointed under the provisions of this article without regard to their age, and without competitive examination or medical examination, and shall hold their positions in accordance therewith for one year from the effective date of this article. The civil service commission shall, however, establish or prescribe a training program for correctional officers who are employed as such on the effective date of this article, giving due consideration to available training personnel and programs. Such correctional officers shall complete a two-hundred-hour basic correctional officer's training course as certified by the West Virginia department of corrections within a twelve-month period following appointment.

However, persons who have (1) completed a basic correctional officers training course or equivalent within the past three years prior to appointment or (2) who have been employed as a correctional officer in a jail for three
years out of the last five years prior to appointment may be certified as correctional officers without basic training if in the judgment of the commission such persons are otherwise qualified. A correctional officer failing to qualify under the provisions of this paragraph may be continued in his position at the discretion of the sheriff but in no event for a period of more than one year. Such person may be reexamined at the discretion of the civil service commission of the county and may qualify as provided in this paragraph.

§7-14B-10. Refusal to examine or certify; review thereof.

1 The commission may refuse to examine an applicant, or after examination to certify as eligible one, who is found to lack any of the established preliminary requirements for the examination or position of correctional officer for which he applies; or who is physically so disabled as to be rendered unfit for the performance of the duties of the position of correctional officer desired; or who is addicted to the habitual use of intoxicating liquors or drugs; or who has been convicted of a felony; or who has been guilty of infamous or notoriously disgraceful conduct; or who has been dismissed from public service for delinquency or misconduct; or who has made a false statement of any material fact, or practiced or attempted to practice any deception or fraud in his application, in any such examination, or in securing his eligibility; or who refuses to comply with the rules and regulations of the commission.

If any applicant feels aggrieved by the action of the commission in refusing to examine him, or after examination in refusing to certify him as eligible, the commission shall, at the request of such applicant, appoint a date, time and place for a public hearing, at which time the applicant may appear, by himself or by counsel or in person and with counsel, and the commission shall then review its refusal to make such examination or certification, and testimony shall be taken. The commission shall subpoena, at the expense of the applicant, any competent witnesses requested by him. After such review, the commission shall file in its records the testimony taken and shall make a decision, which decision shall be final and not subject to judicial review, but under no circumstances shall the
provisions of this article be construed, in the case of a refusal to examine an applicant for promotion or to certify an applicant as eligible for promotion, as depriving such applicant of his right to seek a writ of mandamus, if the application for such writ is made within twenty days from the date of the decision (made after hearing as aforesaid) refusing to examine or to certify him as eligible for promotion.

§7-14B-11. Appointments from eligible list.

On and after the effective date of this article, every position of correctional officer, unless filled by promotion, reinstatement or reduction, shall be filled only in the manner specified in this section. The appointing sheriff shall notify the civil service commission of any vacancy in a position of correctional officer which he desires to fill, and shall request the certification of eligibles. The commission shall forthwith certify, from the eligible list, the names of the three persons thereon who received the highest averages at preceding competitive examinations held under the provisions of this article within a period of three years next preceding the date of the prospective appointment. The appointing sheriff shall, thereupon, with sole reference to the relative merit and fitness of the candidates, make an appointment from the three names so certified: Provided, that should he make objection to the commission to one or more of these persons for any of the reasons stated in section ten of this article, and should such objection be sustained by the commission after a public hearing along the lines of the hearing provided for in said section ten, if any such hearing is requested, the commission shall thereupon strike the name of that person from the eligible list, and certify the next highest name for each person so stricken. As each subsequent vacancy occurs, in the same or another position, precisely the same procedure shall be followed: Provided, however, that after any name has been three times rejected for the same or another position in favor of a name or names below it on the same list, the name shall be stricken from the list. When there are a number of positions of the same kind to be filled at the same time, each appointment shall, nevertheless, be made separately and in accordance with the foregoing provisions. When an appointment is made under the provisions of this section, it shall be, in the first
instance, for the probationary period of twelve months, as
provided in section seven of this article.

§7-14B-12. Noncompetitive examination for filling vacancy;
provisional appointment.

Whenever there are urgent reasons for filling a vacancy in
any position of correctional officer and there is no list of
persons eligible for appointment after a competitive
examination, the appointing sheriff may nominate a person
to the civil service commission for noncompetitive
examination; and if such nominee shall be certified by the
commission as qualified, after such noncompetitive
examination and a medical examination, he may be
appointed provisionally to fill such vacancy until a
selection and appointment can be made after competitive
examination in the manner prescribed in section eleven of
this article; but the provisional appointment shall not
continue for a longer period than three months, nor shall
successive provisional appointments be made to the same
position, under the provisions of this section.

§7-14B-13. Vacancies filled by promotions; eligibility for
promotion.

Vacancies in positions of correctional officer on and after
the effective date of this article, shall be filled, so far as
practicable by promotion from among persons holding
positions in the next lower grade. Promotions shall be based
upon merit and fitness to be ascertained by competitive
examinations to be provided by the civil service commission
and upon the superior qualifications of the persons
promoted, as shown by their previous service and
experience: Provided, That no person shall be eligible for
promotion from the lower grade to the next higher grade
until such person shall have completed at least two years'
service in the next lower grade.

§7-14B-14. No inquiry shall be made concerning political or
religious opinions or affiliations of applicants,
etc.

No question in any form of application or in or during any
examination shall be so framed as to elicit information
concerning the political or religious opinions or affiliations
of any applicant; nor shall inquiry be made concerning such
opinions or affiliations; and all disclosures thereof shall be
discountenanced. No discrimination shall be exercised,
threatened, or promised by any person in the sheriff's office
against, or in favor of, an applicant, eligible or correctional
officer in the office of any sheriff of any county subject to
the provisions of this article because of his political or
religious opinions or affiliations.

§7-14B-15. Political activity of correctional officers
prohibited; petition for vacating appointment;
action on petition; appeal.

(a) On and after the effective date of this article, no
correctional officer covered by the provisions of this article
shall engage in any political activity of any kind, character
or nature whatsoever, except to cast his vote at any election
or shall act as an election official in any municipal, county
or state election. Any correctional officer violating the
provisions of this section shall have his appointment
vacated and he shall be removed, in accordance with the
pertinent provisions of this section.

(b) Any three residents of the county may file their
written petition with the civil service commission thereof
setting out therein the grounds upon which a correctional
officer of such county should be removed for a violation of
subsection (a) of this section. Notice of the filing of such
petition shall be given by the commission to the accused
correctional officer, which notice shall require him to file a
written answer to the charges set out in the petition within
thirty days of the date of such notice. The petition and
answer thereto, if any, shall be entered upon the records of
the civil service commission. If the answer is not filed
within the time stated, or any extension thereof for cause
which in the discretion of the civil service commission may
be granted, an order shall be entered by the commission
declaring the appointment of the correctional officer
vacated. If such answer is filed within the time stated, or
any extension thereof for cause which in the discretion of
the civil service commission may be granted, the accused
correctional officer may demand within such period a
public hearing on the charges, or the civil service
commission may, in its discretion and without demand
therefor, set a date and time for a public hearing on the

charges which hearing shall be within thirty days of the filing of said answer, subject, however, to any continuances which may in the discretion of the civil service commission be granted. A written record of all testimony taken at such hearing shall be kept and preserved by the civil service commission, which record shall be sealed and not be open to public inspection if no appeal be taken from the action of the commission. The commission at the conclusion of the hearing, or as soon thereafter as possible, shall enter an order sustaining in whole or in part the charges made, or shall dismiss the charges as unfounded. In the event the charges are sustained in whole or in part, the order shall also declare the appointment of such correctional officer to be vacated and thereupon the sheriff shall immediately remove the correctional officer from his office and from the payroll of the county. Notice of the action of the commission shall be given by registered letter to the county commission and the sheriff. If the sheriff fails to immediately comply with the order of the commission, he shall be punished for contempt, upon application of the commission to the circuit court of the county.

(c) An appeal from the ruling of the commission may be had in the same manner and within the same time as specified in section seventeen of this article for an appeal from a ruling of a commission after hearing held in accordance with the provisions of said section seventeen.

§7-14B-16. Training and retraining programs for all correctional officers required.

1 (a) The civil service commission of any such county shall establish or prescribe a training program which every correctional officer first appointed a correctional officer of such county on or after the effective date of this article, must satisfactorily complete during his probationary period.

(b) The civil service commission of any such county shall also establish or prescribe annual retraining programs of at least forty hours which every correctional officer, whether first appointed such correctional officer before or after the effective date of this article, must satisfactorily complete from time to time after the effective date of this
article, in order to continue as a correctional officer of such county or to be eligible for promotion.

§7-14B-17. Removal, discharge, suspension or reduction in rank or pay; appeal; reduction in force; mandatory retirement age.

(a) On and after the effective date of this article, no correctional officer of any county shall be removed, discharged, suspended or reduced in rank or pay except for just cause, which shall not be religious or political, except as provided in section fifteen of this article; and no such correctional officer shall on and after the effective date of this article, be removed, discharged, suspended or reduced except as provided in this article and in no event until he shall have been furnished with a written statement of the reasons for such action. In every case of such removal, discharge, suspension or reduction, a copy of the statement of reasons therefor and of the written answer thereto, if the correctional officer sought to be removed, discharged, suspended or reduced desires to file such written answer, shall be furnished to the civil service commission and entered upon its records. If the correctional officer sought to be removed, discharged, suspended or reduced shall demand it, the civil service commission shall grant him a public hearing, which hearing shall be held within a period of ten days from the filing of the charges in writing or the written answer thereto, whichever shall last occur. At such hearing the burden shall be upon the removing, discharging, suspending or reducing sheriff, hereinafter in this section referred to as "removing sheriff," to justify his action, and in the event the removing sheriff fails to justify his action before the commission, then the correctional officer removed, discharged, suspended or reduced shall be reinstated with full pay, forthwith and without any additional order, for the entire period during which he may have been prevented from performing his usual employment, and no charges shall be officially recorded against his record. The correctional officer, if reinstated or exonerated, shall, if represented by legal counsel, be awarded an attorney fee of no more than two hundred fifty dollars and such fee shall be determined by the commission and paid by the removing sheriff from county funds.

(b) In the event that the civil service commission shall sustain the action of the removing sheriff, the correctional officer removed, discharged, suspended or reduced on or after the effective date of this article, shall have an immediate right of appeal to the circuit court of the county. In the event that the commission shall reinstate the correctional officer removed, discharged, suspended or reduced, the removing sheriff shall have an immediate right of appeal to said circuit court. Any appeal must be taken within ninety days from the date of entry by the civil service commission of its final order. Upon an appeal being taken and docketed with the clerk of the circuit court of said county, the circuit court shall proceed to hear the appeal upon the original record made before the commission and no additional proof shall be permitted to be introduced. The circuit court’s decision shall be final, but the correctional officer or removing sheriff, as the case may be, against whom the decision of the circuit court is rendered shall have the right to petition the supreme court of appeals for a review of the circuit court’s decision as in other civil cases. Such correctional officer or removing sheriff shall also have the right, where appropriate, to seek in lieu of an appeal, a writ of mandamus. The correctional officer, if reinstated or exonerated by the circuit court shall, if represented by legal counsel, be awarded an attorney fee not to exceed five hundred dollars, and if reinstated or exonerated by the supreme court of appeals, shall be awarded an attorney fee not to exceed five hundred dollars, and such fees shall be paid by the removing sheriff from county funds: Provided, That the aggregate amount of attorney fees awarded by the commission, the circuit court and the supreme court of appeals, shall not exceed one thousand dollars for any member litigant.

(c) The removing sheriff and the correctional officer sought to be removed, discharged, suspended or reduced shall at all times, both before the civil service commission
and upon appeal, be given the right to employ counsel to represent them.

(d) If for reasons of economy or other reasons it shall, on and after the effective date of this article, be deemed necessary by any appointing sheriff to reduce the number of his correctional officers, he shall follow the procedure set forth in this subsection. The reduction in the numbers of the correctional officers of the county shall be effected by suspending the last man or men, including probationers, who have been appointed as correctional officers: Provided, That in the event the number of correctional officers shall again be increased in numbers to the strength existing prior to such reduction of correctional officers, the correctional officers suspended under the terms of this subsection shall be reinstated in the inverse order of their suspension before any new appointments of correctional officers in the county shall be made.

(e) Notwithstanding any other provision of this article, no correctional officer in any county subject to the provisions of this article shall, on or after the effective date of this article, serve as a correctional officer in any county subject to the provisions of this article after he attains the age of sixty-five.

§7-14B-18. Vacations for correctional officers.

The county commission of each county shall allow the correctional officer in its employ vacation time accrued in the following manner: For correctional officers with less than five years of service, vacation time shall be accrued at the rate of one and one-quarter days for each calendar month of service; for correctional officers with five to ten years of service, vacation time shall be accrued at the rate of one and one-half days for each calendar month of service; for correctional officers with ten to fifteen years of service, vacation time shall be accrued at the rate of one and three-quarters days for each calendar month of service; and for correctional officers with fifteen or more years of service, vacation time shall be accrued at the rate of two days for each calendar month of service.

(a) The county commission of each county shall allow
the correctional officer sick leave with pay to be computed
as follows: Correctional officers shall be entitled to one and
one-half days sick leave for each calendar month worked, or

(b) Sick leave shall be granted only when illness on the
part of or injury to the correctional officer incapacitates
him for duty: Provided, That the sheriff of the county in
which the correctional officer is employed shall have the
authority to require the correctional officer to produce a
statement from an attending physician for each day of sick
leave beyond two days. This statement shall include dates of
treatment and also state that the correctional officer was
unable to work. In the absence of the required physician's
statement, annual leave shall be charged for the entire
period.

(c) Correctional officers may accumulate yearly sick
leave in accordance with policy to be established by the
county commission.

(d) In the event of illness, a correctional officer may take
emergency sick leave without pay after all accrued sick
leave, annual leave and compensatory time available to
such full-time correctional officer has been exhausted:
Provided, That the total number of days sick leave and
emergency sick leave used during such illness shall not
exceed the total number of days of sick leave which may be
accumulated under the provisions of subsection (c) of this
section by any correctional officer with the same number of
years of service.

§7-14B-20. Offenses and penalties.

Any person who makes an appointment or promotion to
to any position, or selects a person for employment, contrary

criminally injurious conduct was reported and the date on
which it was reported;

the victim received medical treatment for the injuries, and
whether the victim died as a result of the injuries;

filed within two years after the occurrence of the criminally
injurious conduct that is the basis of the application.
(c) A person who knowingly and willfully presents or attempts to present a false or fraudulent application, or a state officer or employee who knowingly and willfully participates or assists in the preparation or presentation of a false or fraudulent application, shall be guilty of a misdemeanor. A person convicted, in a court of competent jurisdiction, of violation of this section shall be fined not more than one thousand dollars or imprisoned for not more than one year, or both, in the discretion of such court. If the convicted person is a state officer or employee, he shall, in addition, forfeit his office or position of employment, as the case may be.

§14-2A-12. Investigation and recommendations by reparations investigator.

(a) The clerk of the court of claims shall transmit a copy of the application to the reparations investigator within seven days after the filing of the application.

(b) The reparations investigator, upon receipt of an application for an award of reparations from the clerk of the court of claims, shall investigate the claim. After completing the investigation, the reparations investigator shall make a written finding of fact and recommendation concerning an award of reparations. He shall file with the clerk the finding of fact and recommendation and all information or documents that he used in his investigation.

(c) The reparations investigator while investigating the claim, may require the claimant to supplement the application for an award of reparations with any further information or documentary materials, including any medical report readily available, which may lead to any relevant facts aiding in the determination of whether, and the extent to which, a claimant qualifies for an award of reparations. The reparations investigator may depose any witness, including the claimant, in the same manner as witnesses are deposed under the rules of civil procedure for trial courts of record.

In any case wherein the reparations investigator has reason to believe that his investigation may interfere with or jeopardize an investigation of a crime by law-enforcement officers, he
may apply to the court of claims or a judge or commissioner thereof for an order granting leave to discontinue his investigation for a reasonable time in order to avoid such interference or jeopardization.

(d) The finding of fact that is issued by the reparations investigator pursuant to subsection (b) of this section shall contain the following:

(1) Whether the criminally injurious conduct that is the basis for the application did occur, the date on which the conduct occurred, and the exact nature of the conduct;

(2) If the criminally injurious conduct was reported to a law-enforcement officer or agency, the date on which the conduct was reported and the name of the person who reported the conduct; or, the reasons why the conduct was not reported to a law-enforcement officer or agency; or, the reasons why the conduct was not reported to a law-enforcement officer or agency within seventy-two hours after the conduct occurred;

(3) The exact nature of the injuries that the victim sustained as a result of the criminally injurious conduct;

(4) A specific itemization of the economic loss that was sustained by the victim, the claimant or a dependent as a result of the criminally injurious conduct;

(5) A specific itemization of any benefits or advantages that the victim, the claimant or a dependent has received or is entitled to receive from any collateral source for economic loss that resulted from the conduct;

(6) Whether the claimant is the spouse, parent, child, brother or sister of the offender, or is similarly related to an accomplice of the offender who committed the criminally injurious conduct;

(7) Any additional information that the reparations investigator deems to be relevant to the evaluation of the claim.

(e) The recommendation that is issued by the reparations investigator pursuant to subsection (b) of this section shall contain the following:
(1) Whether an award of reparations should be made to the claimant and the amount of the award.

(2) If the reparations investigator recommends that an award not be made to the claimant, the reason for his decision.

(f) The reparations investigator shall file his finding of fact and recommendation with the clerk within sixty days after the filing of the application, or within such additional time period as may be provided by order of any court of claims judge or commissioner upon good cause shown, but in no event later than six months after such filing.

§14-2A-13. Notice to claimant of reparations investigator's recommendation; evaluation of claim by judge or commissioner.

(a) The clerk of the court of claims, upon receipt of the reparations investigator's finding of fact and recommendation, shall forward a copy of the finding of fact and recommendation to the claimant with a notice informing the claimant that any response, in the form of objections or comments directed to the finding of fact and recommendation, must be filed with the clerk within thirty days of the date of the notice. After the expiration of such thirty-day period, the clerk shall assign the claim to a judge or commissioner of the court.

(b) The judge or commissioner to whom the claim is assigned shall review the finding of fact and recommendation and any response submitted by the claimant and, if deemed appropriate, may request the reparations investigator to comment in writing on the claimant's response. The judge or commissioner shall, within forty-five days after assignment by the clerk, evaluate the claim without a hearing and either deny the claim or approve an award of reparations to the claimant.

§14-2A-14. Grounds for denial of claim or reduction of award.

(a) The judge or commissioner shall not approve an award of reparations to a claimant who did not file his application for an award of reparations within two years after the date of the occurrence of the criminally injurious conduct that caused
the injury or death for which he is seeking an award of reparations.

(b) An award of reparations shall not be approved if the criminally injurious conduct upon which the claim is based was not reported to a law-enforcement officer or agency within seventy-two hours after the occurrence of the conduct, unless it is determined that good cause existed for the failure to report the conduct within the seventy-two hour period.

(c) The judge or commissioner shall not approve an award of reparations to a claimant who is the offender or an accomplice of the offender who committed the criminally injurious conduct, nor to any claimant if the award would unjustly benefit the offender or his accomplice. Unless a determination is made that the interests of justice require that an award be approved in a particular case, an award of reparations shall not be made to the spouse of, or to a person living in the same household with, the offender or accomplice of the offender, or to the parent, child, brother or sister of the offender or his accomplice.

(d) A judge or commissioner, upon a finding that the claimant or victim has not fully cooperated with appropriate law-enforcement agencies, may deny a claim, reduce an award of reparations, and may reconsider a claim already approved.

(e) An award of reparations shall not be approved if the injury occurred while the victim was confined in any state, county or city jail, prison or correctional facility.

(f) After reaching a decision to approve an award of reparation, but prior to announcing such approval, the judge or commissioner shall require the claimant to submit current information as to collateral sources on forms prescribed by the clerk of the court of claims. The judge or commissioner shall reduce an award of reparations or deny a claim for an award of reparations that is otherwise payable to a claimant to the extent that the economic loss upon which the claim is based is or will be recouped from other persons, including collateral sources, or if such reduction or denial is determined to be reasonable because of the contributory misconduct of the claim-
ant or of a victim through whom he claims. If an award is reduced or a claim is denied because of the expected recoupment of all or part of the economic loss of the claimant from a collateral source, the amount of the award or the denial of the claim shall be conditioned upon the claimant's economic loss being recouped by the collateral source: Provided, That if it is thereafter determined that the claimant will not receive all or part of the expected recoupment, the claim shall be reopened and an award shall be approved in an amount equal to the amount of expected recoupment that it is determined the claimant will not receive from the collateral source, subject to the limitation set forth in subsection (g) of this section.

(g) Reparations payable to a victim and to all other claimants sustaining economic loss because of injury to or the death of that victim shall not exceed twenty thousand dollars in the aggregate.

(a) If either the reparations investigator or the claimant disagrees with the approval of an award or the denial of a claim in the summary manner set forth in the preceding sections of this article, the reparations investigator or the claimant, or both, shall file with the clerk a request for hearing. Such request shall be filed within twenty-one days after notification by the judge or commissioner of his decision.

(b) Upon receipt of a request for hearing, the clerk shall place the claim upon the regular docket of the court for hearing, shall advise the reparations investigator and the claimant of the receipt of the request and docketing of the claim, and shall request the reparations investigator to commence negotiations with the claimant.

(c) During the period of negotiations and pending hearing, the reparations investigator, shall, if possible, reach an agreement with the claimant regarding the facts upon which the claim is based so as to avoid the necessity for the introduction of evidence at the hearing. If the parties are unable to agree upon the facts an attempt shall be made to stipulate the questions of fact in issue.
(d) The hearing held in accordance with this section shall be before a single judge or commissioner to whom the claim has not been previously assigned. Hearings before a judge or commissioner may, in the discretion of such hearing officer, be held at such locations throughout the state as will facilitate the appearance of the claimant and witnesses.

(e) The hearing shall be conducted so as to disclose all material facts and issues. Judges and commissioners may examine or cross-examine witnesses. The judges and commissioners may call witnesses or require evidence not produced by the parties; may stipulate the questions to be argued by the parties; and may continue the hearing until some subsequent time to permit a more complete presentation of the claim.

(f) After the close of the hearing the court, judge or commissioner, as the case may be, shall consider the claim and shall conclude its determination, if possible, within thirty days.

(g) The court shall adopt and may from time to time amend rules of procedure, in accordance with the provisions of this article, governing proceedings before the court. Rules shall be designed to assure a simple, expeditious and inexpensive consideration of claims. Rules shall permit a claimant to appear in his own behalf or be represented by counsel.

Under its rules, the court shall not be bound by the usual common law or statutory rules of evidence. The court may accept and weigh, in accordance with its evidential value, any information that will assist the court in determining the factual basis of a claim.

(a) There is no privilege, except the privilege arising from the attorney-client relationship, as to communications or records that are relevant to the physical, mental or emotional condition of the claimant or victim in a proceeding under this article in which that condition is an element.

(b) If the mental, physical or emotional condition of a victim or claimant is material to a claim for an award of reparations, the court, judge or commissioner may order the victim or claimant to submit to a mental or physical examination by
a physician or psychologist, and may order an autopsy of a
deceased victim. The order may be made for good cause shown
and upon notice to the person to be examined and to the claim-
ant and the reparations investigator. The order shall specify
the time, place, manner, conditions and scope of the examina-
tion or autopsy and the person by whom it is to be made, and
shall require the person who performs the examination or au-
topsy to file with the clerk of the court of claims a detailed
written report of the examination or autopsy. The report shall
set out the findings, including the results of all tests made,
diagnosis, prognosis, and other conclusions and reports of
earlier examinations of the same conditions. On request of
the person examined, the clerk of the court of claims shall fur-
nish him a copy of the report. If the victim is deceased, the
clerk of the court of claims, on request, shall furnish the claim-
ant a copy of the report.

(c) The court, or a judge or commissioner thereof, may
order law-enforcement officers employed by the state or any
political subdivision thereof to provide it or the reparations
investigator with copies of any information or data gathered in
the investigation of the criminally injurious conduct that is
the basis of any claim to enable it to determine whether, and
the extent to which, a claimant qualifies for an award of
reparations.

(d) The court, or a judge or commissioner thereof, may re-
quire the claimant to supplement the application for an award
of reparations with any reasonably available medical or psy-
chological reports relating to the injury for which the award
of reparations is claimed.

(e) The court, a judge, a commissioner or the reparations
investigator, in a claim arising out of a violation of article
eight-b, chapter sixty-one of this code, shall not request the
victim or the claimant to supply any evidence of specific in-
stances of the victim’s activity, or reputation evidence of the
victim’s sexual activity unless it involves evidence of the vic-

tim’s past sexual activity with the offender and then only to
the extent that the court, the commissioner or the reparations
investigator finds that the evidence is relevant to a fact at
issue in the claim.
(f) Notwithstanding any provision of this code to the contrary relating to the confidentiality of juvenile records, the court of claims, a judge or commissioner thereof or the reparations investigator shall have access to the records of juvenile proceedings which bear upon an application for reparations under this article. The court of claims, the judges and commissioners thereof and the reparations investigator, shall, to the extent possible, maintain the confidentiality of juvenile records.

§14-2A-17. Contempt sanction not available.

If a person refuses to comply with an order under this article, or asserts a privilege, except privileges arising from the attorney-client relationship, so as to withhold or suppress evidence relevant to a claim for an award of reparations, the court, judge or commissioner may make any just order, including denial of the claim, but shall not find the person in contempt. If necessary to carry out any of his powers and duties, the reparations investigator may petition the court of claims for an appropriate order, but the court of claims shall not find a person in contempt for refusal to submit to a mental or physical examination.

§14-2A-18. Effect of prosecution or conviction of offender.

The court, or a judge or commissioner thereof, may approve an award of reparations whether or not any person is prosecuted or convicted for committing the conduct that is the basis of the award. Proof of conviction of a person whose conduct gave rise to a claim is conclusive evidence that the crime was committed, unless an application for rehearing, an appeal of the conviction, or certiorari is pending, or a rehearing or new trial has been ordered.

The court, or a judge or commissioner thereof, shall suspend, upon a request of the reparations investigator, the proceedings in any claim for an award of reparations pending disposition of a criminal prosecution that has been commenced or is imminent.

(a) The clerk of the court of claims shall prepare an information brochure for the benefit of the general public, outlining
the rights of claimants and procedures to be followed under this article. Copies of such brochure shall be distributed to law-enforcement agencies in the state, and be made available to other interested persons.

(b) Any law-enforcement agency that investigates an offense committed in this state involving personal injury, shall make reasonable efforts to provide information to the victim of the offense and his dependents concerning the availability of an award of reparations and advise such persons that an application for an award of reparations may be obtained from the clerk of the court of claims.

Be it enacted by the Legislature of West Virginia:

That section nine, article twelve, chapter sixty-two of the code of West Virginia, one thousand nine hundred thirty-one, as amended, be amended and reenacted to read as follows:

1. That the probationer shall not, during the term of his probation, violate any criminal law of this or any other state, or of the United States.

2. That he shall not, during the term of his probation, leave the state without the consent of the court which placed him on probation.

3. That he shall comply with the rules and regulations prescribed by the court or by the board of probation and parole, as the case may be, for his supervision by the probation officer.

In addition, the court may impose, subject to modification at any time, any other conditions which it may deem advisable, including, but not limited to, any of the following:

1. That he shall make restitution or reparation, in whole or in part, immediately or within the period of probation, to any party injured by the crime for which he has been convicted.

2. That he shall pay any fine assessed and the costs of the proceeding in such installments as the court may direct.

the reports submitted by the circuit clerks and file such
collation with the clerk of each house of the Legislature.

Such complaint shall be served on the defendant in the manner prescribed by law for the service of original process in a civil action.

(c) If the defendant, by verified responsive pleading, shall admit, or if he has previously admitted in writing that he owes a duty of support, or if after a trial on the merits, the court or jury shall find, by a preponderance of the evidence, that the defendant owes a duty of support, the court shall order the defendant to provide support in accordance with the provisions of subsection (d) of this section.

(d) In setting the amount of support in an order, the court shall consider the income, the assets, the earning ability and other obligations of the person owing the duty of support, and the needs, other income and any other circumstances relevant to the needs of the obligee. The court shall order any support for an infant or unemancipated child be paid until such child reaches the age of eighteen, marries or is otherwise emancipated.

(e) The clerk of the supreme court of appeals shall prepare complaint forms which may be utilized by any eligible party desiring to file a complaint pursuant to the provisions of this section. The administrator of the supreme court of appeals shall distribute such forms to the clerk of the circuit court in each county of this state.

§48-7-4. Civil action for establishment of paternity; when blood tests required; admissibility of tests; costs.

(a) Any unmarried woman with custody of her child, or any person who has physical or legal custody of such child, the guardian or committee of such child, or such child by his next friend, may institute a civil action to establish the paternity of the child and to seek support of such child: Provided, That if a married woman live separate and apart from her husband for a period of one year or more, and shall not at any time during such separation, cohabit with such
husband, she may, if she be delivered of a child at any time
after such one year, and while such separation continues,
accuse any person, other than her husband, of being the
father of such child, in a like manner, and the same
proceedings shall thereupon be had, as if she were an
unmarried woman. Such action shall be instituted in the
circuit court of the county wherein the mother, the child or
the defendant resides and shall be commenced within ten
years of the birth of the child by a verified complaint alleging
that the defendant is the father of the named child and
therefore owes a duty to support the child.

(b) The court may, on its own motion, or upon the
motion of any party, order the mother, her child and the
defendant to submit to blood tests. If a blood test is ordered,
the court shall direct that the inherited characteristics,
including, but not limited to, blood types, be determined by
appropriate testing procedures at a hospital, independent
medical institution or independent medical laboratory,
duly licensed under the laws of this state, or any other state,
and shall appoint an expert qualified as an examiner of
genetic markers to analyze and interpret the results and to
report to the court. The court shall consider the results as
follows:

(1) Blood test results which exclude the defendant as the
father of the child are admissible and shall be clear and
convincing evidence of nonpaternity and the court shall,
upon considering such evidence dismiss the action.

(2) Blood tests results which show a statistical
probability of paternity of more than seventy-five percent
are admissible and shall be weighed along with other
evidence of the defendant's paternity.

(3) If the results of the blood tests or the expert's
analysis of inherited characteristics is disputed, the court,
upon reasonable request of a party, shall order that an
additional test be made by the same laboratory or another
laboratory at the expense of the party requesting additional
testing.

Verified documentation of the chain of custody of the
blood specimens is competent evidence to establish such
chain of custody. A verified expert's report shall be
admitted at trial unless a challenge to the testing
procedures or a challenge to the results of blood analysis has been made before trial. The costs and expenses of making such tests shall be paid by the parties in proportions and at times determined by the court.

(c) If the defendant, by verified responsive pleading shall admit that he owes a duty of support, or if after a trial on the merits, the court or jury shall find, by clear and convincing evidence that the defendant is the father of the child, the court shall order the defendant to provide support in accordance with the provisions of subsection (d), section three of this article.

The prosecutor of the county where the action under this section is brought shall represent the plaintiff. The defendant shall be advised of his right to counsel. In the event he files an affidavit that he is a poor person within the meaning of section one, article two, chapter fifty-nine of this code, counsel shall be appointed to represent him. The service and expenses of counsel shall be paid in accordance with the provisions of article twenty-one, chapter twenty-nine of this code: Provided, That the court shall make a finding of eligibility for appointed counsel in accordance with the requirements of said article and, if the person qualifies, any blood tests ordered to be taken shall be paid as part of the costs of the proceeding.

§48-7-5. Modification of support order.

Any person ordered to pay support in accordance with the provisions of this article or its predecessors, any obligee of such support, or any persons eligible to be a party under the provisions of sections three and four of this article, may apply to the circuit court or magistrate court wherein such order was entered for a modification of such order. Such action shall be commenced by verified petition wherein the specific reasons for the modification sought shall be set forth. If the court, upon hearing, finds that there has been a material change in any circumstances relevant to the support or amount of support, then the court shall make specific findings and order a modification of the prior order.

The clerk of the supreme court of appeals shall prepare motion forms which may be utilized by any eligible party
desiring to file a motion pursuant to the provisions of this section. The administrator of the supreme court of appeals shall distribute such forms to the clerk of the circuit court and magistrate court in each county of this state.

limitations on the amount which may be paid to the
assignee as provided in section three, article five-a, chapter
thirty-eight of this code. Payment of moneys pursuant to an
assignment of earnings presented by the department shall
serve as full acquittance of the employer’s obligation under
any contract of employment, and the state warrants and
represents that it shall defend and hold harmless such
action taken pursuant to said assignment of earnings. The
department shall be released from liability for improper
receipt of moneys under an assignment of earnings, upon
return of any moneys so received. Any person who fails to
honor a duly executed assignment of earnings is liable to the
department in an amount equal to one hundred percent of

Article

5. County Board of Education.
6. Compulsory School Attendance.

ARTICLE 2. STATE BOARD OF EDUCATION.

§18-2-5. Powers and duties generally; public school entrance age; “public schools” not to include kindergartens.

1 Subject to and in conformity with the constitution and laws of this state, the state board of education shall determine the educational policies of the state and shall make rules for carrying into effect the laws and policies of the state relating to education, including rules relating to the physical welfare of pupils, the education of feeble-minded and physically disabled or crippled children of school age, school attendance, evening and continuation or part-time day schools, school extension work, the
classification of schools, the issuing of certificates
upon credentials, the distribution and care of free text-
books by the county boards of education, the general
powers and duties of county boards of education, and
of teachers, principals, supervisors and superintendents,
and such other matters pertaining to the public schools
of the state as may seem to the state board to be necessary
and expedient.

Notwithstanding any other provision of law which
may be to the contrary, and notwithstanding the rule-
making powers given to the state board of education by
this section, a child shall not be permitted to enter the
public schools of this state in any school year, beginning
with the school year one thousand nine hundred eighty-
three—eighty-four, unless such child be six years of age
prior to September one of such school year or is attending
public school in accordance with article twenty of this
chapter: Provided, That children who have successfully
completed a kindergarten program in the school year one
thousand nine hundred eighty-two—eighty-three, may
enter the public schools notwithstanding the provisions
of this section. The term “public schools” as used in the
preceding sentence shall not be deemed to include public
kindergartens, but nothing herein shall prevent a county
board from permitting a child enrolled in kindergarten
from entering public schools for attendance in particular
curriculum areas.

ARTICLE 5. COUNTY BOARD OF EDUCATION.

§18-5-18. Kindergarten programs.

County boards of education shall provide by the school
year one thousand nine hundred eighty-three—eighty-
four, and continue thereafter kindergarten programs for
all children who shall have attained the age of five prior
to September first of the school year in which the pupil
enters such kindergarten program and may establish
kindergarten programs designed for children below the
age of five: Provided, That nothing herein shall prohibit
children who shall have attained the age of five prior to
November first of the school year one thousand nine

hundred eighty-three—eighty-four from entering such kindergarten program.

Persons employed as kindergarten teachers, as distinguished from paraprofessional personnel, shall be required to hold a certificate valid for teaching at the assigned level as prescribed by regulations established by the state board of education. The state board of education shall establish and prescribe guidelines and criteria setting forth the minimum requirements for all paraprofessional personnel employed in kindergarten programs established pursuant to the provisions of this section and no such paraprofessional personnel shall be employed in any kindergarten program unless he meets such minimum requirements.

The state board of education with the advice of the state superintendent of free schools shall establish and prescribe guidelines and criteria relating to the establishment, operation and successful completion of kindergarten programs in accordance with the other provisions of this section. Guidelines and criteria so established and prescribed are also intended to serve for the establishment and operation of nonpublic kindergarten programs and shall be used for the evaluation and approval of such programs, provided application for such evaluation and approval is made in writing to the state board by proper authorities in control of such programs. The state superintendent of free schools at intervals not to exceed two years shall publish a list of nonpublic kindergarten programs that have been approved in accordance with the provisions of this section and a list of Montessori kindergartens established and operated in accordance with usual and customary practices for the use of the Montessori method. Teachers who have training or experience in the use of the Montessori method of instruction for kindergartens shall be deemed to be approved to teach in such kindergartens using the Montessori method without additional certification.

Pursuant to such guidelines and criteria, and only pursuant to such guidelines and criteria, the county boards
may establish programs taking kindergarten to the homes of the children involved, using educational television, paraprofessional personnel in addition to and to supplement regularly certified teachers, mobile or permanent classrooms and other means developed to best carry kindergarten to the child in its home and enlist the aid and involvement of its parent or parents in presenting the program to the child; or may develop programs of a more formal kindergarten type, in existing school buildings, or both, as such county board may determine, taking into consideration the cost, the terrain, the existing available facilities, the distances each child may be required to travel, the time each child may be required to be away from home, the child's health, the involvement of parents and such other factors as each county board may find pertinent. Such determinations by any county board shall be final and conclusive.

Funds for implementing the kindergarten programs during the fiscal year one thousand nine hundred seventy-two, and thereafter, shall be allocated to counties from a special appropriation to the state department of education from the general revenue fund: Provided, That except for expenditures from the general revenue funds for regional kindergarten demonstration centers, in no event shall any state money from the general fund be expended under the provisions of this section unless federal funds are available for the purpose of this section.

Allocations to counties will be made on the basis of approved kindergarten programs. The West Virginia board of education shall establish criteria and standards necessary to guide counties in developing approvable kindergarten programs and shall determine funding levels of said programs on local operating costs.

An additional appropriation shall be made to the state department of education from the general revenue fund to establish and operate during the fiscal year one thousand nine hundred seventy-two, regional kindergarten demonstration centers in educational regions three, four, five, six and seven, and thereafter in regions one through
seven. Said funds shall be allocated to said regions for establishing and operating regional demonstration centers in accordance with criteria and standards established by the West Virginia board of education. Said regional centers shall be established to provide exemplary and innovative kindergarten programs, to provide laboratory experiences for preservice and in-service education for professional personnel and staff development programs for training paraprofessional personnel, to establish organizational and administrative machinery designed to promote cooperation between and among all agencies involved in the education and development of young children, and to promote cooperation between counties in providing high cost supervisory, developmental, research and evaluative services not currently available to individual counties.

ARTICLE 8. COMPULSORY SCHOOL ATTENDANCE.

§18-8-la. Compulsory school attendance; public school entrance requirements; exceptions thereto.

1 Notwithstanding the provisions of section one of this article, compulsory school attendance shall begin with the school year in which the sixth birthday is reached prior to September one of such year and continue to the sixteenth birthday. Attendance at a state-approved or Montessori kindergarten, as provided for in section eighteen, article five of this chapter, shall be deemed school attendance for purposes of this section. Prior to entrance into the first grade in accordance with section five, article two of this chapter, each child must have either (1) successfully completed such publicly or privately supported, state-approved kindergarten program or Montessori kindergarten program, or (2) successfully completed an entrance test of basic readiness skills approved by the county in which the school is located: Provided, That such test be administered in lieu of kindergarten attendance only under extraordinary circumstances to be determined by the board. Notwithstanding the provisions of this section and of section five, article two of this chapter and section eighteen, article five of this chapter, a county board may provide for ad-
vanced entrance or placement under policies adopted by
said board for any child who has demonstrated sufficient
mental and physical competency for such entrance or
placement. Nothing herein shall prevent a student from
another state from enrolling in a public school in West
Virginia in such grade as the student was enrolled at the
school from which he transferred.

CHAPTER 62

(Com. Sub. for S. B. 444—Mr. McGraw, Mr. President, and Mr. Heck)

[Passed March 7, 1983; in effect ninety days from passage. Approved by the Governor.]

AN ACT to amend and reenact section ten, article two, chapter eighteen of the code of West Virginia, one thousand nine hundred thirty-one, as amended, relating to permits required for correspondence, business, occupational and trade schools; providing for the application for, purpose, issuance, renewal and revocation of permits; increasing the surety bond and providing a fee for solicitors; requiring certain reports; authorizing rules and regulations including evaluations; providing for enforcement; and increasing the penalty.

Be it enacted by the Legislature of West Virginia:

That section ten, article two, chapter eighteen of the code of West Virginia, one thousand nine hundred thirty-one, as amended, be amended and reenacted to read as follows:

ARTICLE 2. BOARD OF EDUCATION.

§18-2-10. Permits required for correspondence, business, occupational and trade schools; surety bonds and fees; issuance, renewal and revocation of permit; reports; rules and regulations; penalty and enforcement.

1 It shall be unlawful for any person representing a
inside or outside this state to solicit, sell or offer to sell
courses of instruction to any resident of this state for
consideration or remuneration unless the school first
obtains a permit from the West Virginia board of educa-
tion in the manner and on the terms herein prescribed.

The application for a permit shall be made on forms to
be furnished by the board. The application shall be ac-
companied by a surety bond in the penal sum of twenty-
five thousand dollars and by a fee of ten dollars. The
bond may be continuous and shall be conditioned to
provide indemnification to any student suffering loss as
a result of any fraud or misrepresentation used in proc-
curing his enrollment or failure of the school to meet
contractual obligations. The bond shall be given by the
school itself as a blanket bond covering all of its represen-
tatives. The surety on any such bond may cancel the
same upon giving thirty days' notice in writing to the
principal on said bond and to the state board of education
and thereafter shall be relieved of liability for any breach
of condition occurring after the effective date of said
cancellation. The ten dollar fee will entitle a school to
register up to two individual solicitors. Additional solici-
tors may be registered by paying a five dollar fee for
each registration submitted.

A permit shall be valid for one year corresponding to
the effective date of the bond and, upon application,
accompanied by the required fee and the surety bond
as herein required, may be renewed. All fees collected
for the issuance or renewal of such permit shall be de-
posited in the state treasury to the credit of the general
school fund.

The board may refuse a permit to any school if the
board finds that the school engages in practices which
are inconsistent with this section or with rules and
regulations issued pursuant thereto. A permit issued
hereunder, upon fifteen days' notice and after a hearing,
if a hearing is requested by the school, may be suspended
or revoked by the board of education for fraud or mis-
representation in soliciting or enrolling students, for
failure of the school to fulfill its contract with one or
more students who are residents of West Virginia, or
for violation of or failure to comply with any provision
of this section or with any regulation of the state board
of education pertinent thereto. Any refusal, suspension
or revocation of a permit, or any other adverse action
against a school, shall comply with all constitutional pro-
visions, including due process, relating to the protection
of property rights.

All correspondence, business, occupational or trade
schools which have been issued a permit shall make an-
annual reports to the state board of education, on forms
furnished by the board, providing such appropriate in-
formation as the board reasonably may require. All cor-
respondence, business, occupational or trade schools which
have been issued a permit shall furnish to the West Vir-
ginia board of education a list of its official representa-
tives. Each school shall be issued a certificate of identi-
fication by the state board of education for each of its
official representatives.

The issuance of a permit pursuant to this section does
not constitute approval or accreditation of any course or
school. No school nor any representative of a school shall
make any representation stating, asserting or implying
that a permit issued pursuant to this section constitutes
approval or accreditation by the state of West Virginia,
state board of education or any other department or
agency of the state.

The state board of education is hereby authorized to
adopt rules and regulations for evaluation of schools,
for the administration and enforcement of the provisions
of this section, and to establish an advisory committee
of not less than five owners or other representatives of
privately owned correspondence, business, occupational
and trade schools. Correspondence, business, occupational
and trade schools which have their home office in West
Virginia and which are fully accredited members of
nationally recognized accrediting associations approved by
the West Virginia board of education shall be exempted
from any rules and regulations for evaluation of schools 
by the state board as authorized by this section.

A representative of any school violating any provision 
of this section shall be guilty of a misdemeanor, and, upon 
conviction thereof, shall be fined not more than two 
hundred dollars per day of violation, not to exceed a 
maximum of two thousand dollars per violation, or im- 
prisoned in the county jail not more than sixty days, or 
both fined and imprisoned. No correspondence, business, 
occupational or trade school shall maintain an action in 
any court of this state to recover for services rendered 
pursuant to a contract solicited by the school if the school 
did not hold a valid permit at the time the contract was 
signed by any of the parties thereto. The attorney general 
or any county prosecuting attorney, at the request of the 
state board of education or upon his own motion, may 
bring any appropriate action or proceeding in any court 
of competent jurisdiction for the enforcement of the pro-
visions of this section relating to permits, bonds and 
sureties.

The West Virginia board of regents is hereby authorized to construct, maintain and operate automobile parking facilities or areas upon any premises owned or leased at any college or university under its jurisdiction for use by students, faculty, staff and visitors. The board may charge fees for use of the parking facilities or areas under its control. All moneys collected for the use of the parking facilities or areas shall be paid to the credit of the college or university at which the fees were charged into a special fund which is hereby created in the state treasury. The moneys in the fund shall be used first to pay the cost of maintaining and operating the parking facilities or areas, but any excess not needed for this purpose may be used for the acquisition of property by lease or pur-
chase and the construction thereon of additional parking facilities or areas. Any money in the fund not needed immediately for the acquisition, construction, maintenance or operation of the parking facilities or areas may be temporarily invested by the board of regents with the state board of investments to the credit of the college or university at which the fees were charged.

Notwithstanding any other motor vehicle or traffic law or regulation to the contrary, the board of regents is hereby authorized to regulate and control at any college or university under its jurisdiction the speed, flow and parking of vehicles on campus roads, driveways and parking facilities or areas. Rules and regulations for this purpose shall be promulgated by the board in the manner prescribed in chapter twenty-nine-a of this code and when so promulgated shall have the force and effect of law. In each parking facility or area a summary of the rules and regulations governing the use of the facility or area and of the penalties which may be imposed for violations of the rules and regulations shall be conspicuously posted. Along each campus road and driveway, notice signs pertaining to the speed of vehicles, spaces available for parking, directional flow of traffic and penalties which may be imposed for violations of the rules and regulations shall be conspicuously posted.

Any person parking any vehicle or operating any vehicle in violation of the rules and regulations shall be issued a citation describing the offense charged and ordering an appearance within five days, excluding Saturdays, Sundays and holidays observed by the college or university, before a designated official of the college or university and, if the person cited fails to appear within said five days, ordering an appearance before a magistrate located in the county in which the college or university is located or before the judge of the municipal court, if the college or university is located within a municipality having such an official.

The designated official of the college or university shall have exclusive jurisdiction of the offense during the five-day period, and any person so cited may plead no contest to the offense and, by so pleading, shall be subject to a civil penalty of
ten dollars for each offense as partial reimbursement to the 
college or university for the cost of regulating traffic and park-
ing. Moneys derived from civil penalties imposed herein shall 
be deposited in the special fund in the state treasury created 
by this section and credited to the college or university at 
which the penalty was paid.

Upon the expiration of the five days, or upon a pleading of 
not guilty before the designated official of the college or uni-
versity within the five days, the magistrate or judge of the 
municipal court shall have jurisdiction of the offense and any 
person cited under the provisions of this section, upon a find-
ing of guilty by the magistrate or municipal judge, shall be 
subject to a fine of not less than ten dollars nor more than 
twenty dollars for each offense.

Each designated official of the college or university pre-
siding over a case under the provisions of this section shall 
keep or cause to be kept a record of every citation which al-
leges a violation of such provisions, or the rules and regula-
tions promulgated in accordance therewith, and shall keep a 
record of every official action in reference thereto including, 
but not limited to, a record of every plea of no contest, con-
viction or acquittal of the offense charged and the amount of 
the fine or of the civil penalty resulting from each citation.

Whenever a vehicle is parked on any college or university 
campus road, driveway or parking facility or area in a manner 
which violates posted regulations and substantially impedes the 
flow of traffic or endangers the health and safety, the institu-
tion may, in addition to the issuing of a citation and subse-
quently procedures set forth herein, remove the vehicle, by tow-
ing or otherwise, to an area or areas designated for this pur-
pose. The vehicle, having been towed to the designated area 
or areas, may be rendered immovable by use of locking wheel 
blocks or other device not damaging to the vehicle. The col-
lege or university shall not be liable for any damage to a 
vehicle towed to, or kept in, a designated area pursuant to 
the provisions of this section. The college or university shall 
pay for the cost of removing the vehicle and shall have a right 
to reimbursement from the owner for this cost and for the 
reasonable cost of keeping the vehicle in the designated area.
Until payment of these costs, the college or university may retain possession of the vehicle, and the college or university shall have a lien on the vehicle for the amount due. The college or university may enforce this lien in the manner provided in section fourteen, article eleven, chapter thirty-eight of this code for the enforcement of other liens.

[Passed March 12, 1983; in effect from passage. Approved by the Governor.]

Be it enacted by the Legislature of West Virginia:

That sections one, four, five and eight, article two-a, chapter eighteen of the code of West Virginia, one thousand nine hundred thirty-one, as amended, be amended and reenacted to read as follows:

ARTICLE 2A. TEXTBOOK ADOPTION.
§18-2A-1. Classification of school subjects into adoption groups; adoption schedule.
§18-2A-4. Execution of contracts; bond.
§18-2A-5. Selection by county boards.
§18-2A-8. Textbooks must be approved and listed; when changes of textbooks may be effected; rules and regulations.

§18-2A-1. Classification of school subjects into adoption groups; adoption schedule.

On or before the first day of July, one thousand nine hundred eighty-three, the state board of education shall classify the elementary and secondary school subjects now required to
be taught in the schools of our state into six adoption groups. The six adoption groups shall be grouped by related subject fields as nearly as possible.

The schedule for the periods of adoption shall be as follows:

(a) Adoptions in Group I shall be made in one thousand nine hundred eighty-nine for a period of six years.

(b) Adoptions in Group II shall be made in one thousand nine hundred eighty-four for a period of six years.

(c) Adoptions in Group III shall be made in one thousand nine hundred eighty-five for a period of six years.

(d) Adoptions in Group IV shall be made in one thousand nine hundred eighty-six for a period of six years.

(e) Adoptions in Group V shall be made in one thousand nine hundred eighty-seven for a period of six years.

(f) Adoptions in Group VI shall be made in one thousand nine hundred eighty-eight for a period of six years.

Upon the expiration of the periods of adoption, as set out in the aforesaid adoption schedule, the period of adoption and contract of each adoption group in which textbooks for all the subjects are adopted shall be for a period of six years.

§18-2A-4. Execution of contracts; bond.

When the selection and approval of the multiple list have been properly made, it shall be the duty of the state board to execute contracts for the selected books with the publishers within thirty days of the approval and adoption of the multiple list, prepare a list of the adopted books on the multiple list and publish same, and send a copy to each county superintendent not later than January first of the year of the county adoption. Such contracts for adoption by the state board of education shall run for six years.

Each publisher awarded a textbook contract by the state shall enter into a bond payable to the state of West Virginia in the penal sum of not less than two thousand dollars and not more than five thousand dollars to be approved by the state board of public works, such bond to be executed as
surety by some responsible surety company authorized to
carry on its business in West Virginia. Such contract shall
be prepared by the attorney general in accordance with the
terms and provisions of this article. Such contract shall be
executed in duplicate, one copy to be held by the publisher
and one by the state board of education.

Bonds required of successful publishers shall provide that:

(a) The publisher will furnish any of the books on the
multiple list which he publishes for a period of the adoption,
from the date of the bond, to any county school unit, or to
a dealer appointed by the county, at the lowest wholesale price
contained in the bid, f.o.b. publisher's nearest shipping point;

(b) The publisher will automatically reduce such prices in
West Virginia when prices are reduced anywhere in the United
States, so that no such book shall at any time be sold in
West Virginia at a higher wholesale price than received for
that book elsewhere in the United States, like conditions pre-
vailing;

(c) All books sold in West Virginia will be identical with
the official samples filed with the state board of education as
regards size, paper, binding, print, illustrations, subject matter,
and other particulars which may affect the value of the books.
The state board of education may, however, during the period
of the contract approve revised editions of an adopted book
or series, which will authorize a publisher to furnish such
revisions.

§18-2A-5. Selection by county boards.

Textbook publishers, upon requests of county superin-
tendents, shall furnish to county boards of education the re-
quested sample copies of books that were selected and placed
on the state multiple list of textbooks by the state board of
education. The textbook publishers shall ship and bill to the
county boards of education at the lowest wholesale prices
with shipping charges prepaid. After the counties have made
their textbook adoptions and certified them to the state board
of education, all sample copies of books may be returned to
the publishers from whom obtained, shipping charges to be
paid by the publisher. County boards may, if they elect to do so, retain the sample books, but shall pay the publishers the lowest wholesale prices for them.

The county board of education shall, upon recommendation of the county superintendent with the aid of a committee of teachers not to exceed fifteen members and not later than the first day of May of the year following that in which the multiple list for the group was made and approved, have the option to select from the state multiple list one or more book(s) or series of books for each subject and grade to be used as exclusive basal textbooks in the county for a period of six years unless as provided for elsewhere in this article.

After the county board of education has adopted the basal textbooks for use in the county, and not later than the fifteenth day of May, the county superintendent shall send to the state board of education and the respective publishers a complete list of books adopted, properly certified by the president of the county board of education, in such form as the state board of education shall prescribe.

§18-2A-8. Textbooks must be approved and listed; when changes of textbooks may be effected; rules and regulations.

No textbook shall be used in any public elementary or secondary school in West Virginia as a basal textbook for state required courses unless it has been approved and listed on the state multiple list of textbooks by the state board of education. Any changes of textbooks made by the state board of education shall not become effective until grades and classes of the respective county school districts have completed work for which the adopted book then in use was originally intended. The state board of education may upon request by a county board of education and upon justification of that request, and subsequent to the adoption by a county board of education, approve the adoption of additional books to meet the needs of specific children which were not provided for in the original adoption. Nothing in this section shall apply to the supplementary books that are needed from time to time.

The state board of education is authorized to grant permission to county boards of education for the continued use of pre-
18 viously adopted textbooks that are listed on the most recently
19 expired multiple list appropriate for the subject category under
20 consideration. The continued use shall not exceed a period of
21 six years. The state board may make such rules and regula-
22 tions as it may deem necessary and expedient to carry out the
23 provisions of this article.

Be it enacted by the Legislature of West Virginia:

That section thirty-one, article five, chapter eighteen of the code of West Virginia, one thousand nine hundred thirty-one, as amended, be repealed; and that sections eight-b and fifteen, article four, chapter eighteen-a of said code, be amended and reenacted, all to read as follows:

ARTICLE 4. SALARIES, WAGES, AND OTHER BENEFITS.

§18A-4-8b. Seniority rights for professional and school service personnel.

§18A-4-15. Employment of service personnel substitutes.

§18A-4-8b. Seniority rights for professional and school service personnel.

(a) The seniority of professional personnel shall be determined on the basis of the length of time the employee has been professionally employed by the county board of education. For purposes of establishing seniority as hereinafter provided, when an employee holds valid
certification or licensure in one or more areas, the seniority shall accrue in each area. Employment for a full employment term shall equal one year of seniority, but no employee may accrue more than one year of seniority during any given fiscal year. Employment for less than the full employment term shall be prorated. A random selection system established by the employees and approved by the board shall be used to determine the priority if two or more employees accumulate identical seniority.

A county board of education shall make decisions affecting promotion and filling of any classroom teacher’s position occurring on the basis of qualifications. If the applicant with the most seniority is not selected for the position a written statement of reasons shall be given to the applicant with the most seniority with suggestions for improving the applicant’s qualifications.

Whenever a county board is required to reduce the number of professional personnel in its employment, the employee with the least amount of seniority shall be properly notified and released from employment pursuant to the provisions of section two, article two of this chapter: Provided, That such employee shall be employed in any other professional position where he had previously been employed or to any lateral area for which he is certified and/or licensed if his seniority is greater than the seniority of any other employee in that area of certification and/or licensure.

All professional personnel whose seniority with the county board is insufficient to allow their retention by the county board during a reduction in work force shall be placed upon a preferred recall list. As to any professional position opening within the area where they had previously been employed or to any lateral area for which they have certification and/or licensure, such employee shall be recalled on the basis of seniority if no regular full-time professional personnel, or those returning from leaves of absence with greater seniority, are qualified, apply for and accept such position. Before position openings that are known or expected to extend for twenty consecutive employment days or longer for professional personnel may be filled by the board, the board shall be required to notify
all qualified professional personnel on the preferred list
and give them an opportunity to apply, but failure to apply
shall not cause such employee to forfeit any right to recall.
The notice shall be sent by certified mail to the last known
address of the employee, and it shall be the duty of each
professional personnel to notify the board of continued
availability annually, of any change in address or of any
change in certification and/or licensure.

Boards shall be required to post and date notices of all
openings in established, existing or newly created positions
in conspicuous working places for all professional
personnel to observe for at least five working days. The
notice of such position openings shall include the job
description. No vacancy shall be filled until after the five-
day minimum posting period.

(b) A county board of education shall make decisions
affecting promotion and filling of any service personnel
positions of employment or jobs occurring throughout the
school year that are to be performed by service personnel as
provided in section eight, article four of this chapter, on the
basis of seniority, qualifications and evaluation of past
service.

Qualifications shall mean that the applicant holds a
classification title in his category of employment as
provided in this section and must be given first opportunity
for promotion and filling vacancies. Other employees then
must be considered and shall qualify by meeting the
definition of the job title as defined in section eight, article
four of this section, that relates to the promotion or
vacancy. If the employee so requests, the board must show
valid cause why an employee with the most seniority is not
promoted or employed in the position for which he applies.
Applicants shall be considered in the following order:

(1) Regularly employed service personnel;

(2) Service personnel whose employment has been
discontinued in accordance with this section;

(3) Professional personnel who held temporary service
personnel jobs or positions prior to the ninth day of June,
one thousand nine hundred eighty-two, and who apply only
for such temporary jobs or positions;
(4) Substitute service personnel; and

(5) New service personnel.

The county board of education may not prohibit a service employee from retaining or continuing his employment in any positions or jobs held prior to the effective date of this section and thereafter.

A promotion shall be defined as any change in his employment that the employee deems to improve his working circumstance within his classification category of employment and shall include a transfer to another classification category or place of employment if the position is not filled by an employee who holds a title within that classification category of employment. Each class title listed in section eight, article four of this chapter shall be considered a separate classification category of employment for service personnel, except for those class titles having Roman numeral designations, which shall be considered a single classification of employment. The cafeteria manager class title shall be included in the same classification category as cooks. The executive secretary class title shall be included in the same classification category as secretaries.

For purposes of determining seniority under this section, an employee's seniority begins on the date that he enters into his assigned duties.

Notwithstanding any other provisions of this chapter to the contrary, decisions affecting such personnel with respect to extra-duty assignments shall be made in the following manner: An employee with the greatest length of service time in a particular category of employment shall be given priority in accepting such assignments, followed by other fellow employees on a rotating basis according to the length of their service time until all such employees have had an opportunity to perform similar assignments. The cycle then shall be repeated: Provided, That an alternative procedure for making extra-duty assignments within a particular classification category of employment may be utilized if the alternative procedure is approved both by the county board of education and by an affirmative vote of two thirds of the employees within that classification category.
of employment. For the purpose of this section, extra-duty assignments are defined as irregular jobs that occur periodically or occasionally such as, but not limited to, field trips, athletic events, proms, banquets and band festival trips.

Boards shall be required to post and date notices of all job vacancies of established existing or newly created positions in conspicuous working places for all school service employees to observe for at least five working days. The notice of such job vacancies shall include the job description, the period of employment, the amount of pay and any benefits and other information that is helpful to the employees to understand the particulars of the job. After the five day minimum posting period all vacancies shall be filled within twenty working days from the posting date notice of any job vacancies of established existing or newly created positions.

All decisions by county boards of education concerning reduction in work force of service personnel shall be made on the basis of seniority, as hereinafter provided.

The seniority of any such service personnel shall be determined on the basis of the length of time the employee has been employed by the county board of education within a particular job classification. For the purpose of establishing seniority for a preferred recall list as hereinafter provided, when an employee has been employed in one or more classifications, the seniority accrued in each previous classification shall be retained by the employee.

Should a county board of education be required to reduce the number of employees within a particular job classification, the employee with the least amount of seniority within that classification or grades of classification shall be properly released and employed in a different grade of that classification if there is a job vacancy: Provided, That if there is no job vacancy for employment within such classification or grades of classification, he shall be employed in any other job classification which he previously held with the county board if there is a vacancy and shall retain any seniority accrued in such job classification or grade of classification.
If two or more employees accumulate identical seniority, the priority shall be determined by a random selection system established by the employees and approved by the county board.

All employees whose seniority with the county board is insufficient to allow their retention by the county board during a reduction in work force shall be placed upon a preferred recall list and shall be recalled to employment by the county board on the basis of seniority.

Employees placed upon the preferred list shall be recalled to any position openings by the county board within the classification(s), where they had previously been employed, or to any lateral position for which the employee is qualified or to a lateral area for which an employee has certification and/or licensure.

Employees on the preferred recall list shall not forfeit their right to recall by the county board if compelling reasons require an employee to refuse an offer of reemployment by the county board.

The county board shall be required to notify all employees on the preferred recall list of all position openings that from time to time exist. Such notice shall be sent by certified mail to the last known address of the employee; it shall be the duty of each such employee to notify the county board of any change in the address of such employee.

No position openings may be filled by the county board, whether temporary or permanent, until all employees on the preferred recall list have been properly notified of existing vacancies and have been given an opportunity to accept reemployment.

Any board failing to comply with the provisions of this article may be compelled to do so by mandamus and shall be liable to any party prevailing against the board for court costs and his reasonable attorney fee, as determined and established by the court. Further, employees denied promotion or employment in violation of this section shall be awarded the job, pay and any applicable benefits retroactively to the date of the violation and payable entirely from local funds. Further, the board shall be liable
to any party prevailing against the board for any court reporter costs including copies of transcripts.

§18A-4-15. **Employment of service personnel substitutes.**

1. The county board shall employ and the county superintendent, subject to the approval of the county board of education, shall assign substitute service personnel on the basis of seniority to perform any of the following duties:

   (1) To fill the temporary absence of another service employee;

   (2) To fill the position of a regular service employee on leave of absence: *Provided*, That if such leave of absence is to extend beyond thirty days, the board, within twenty working days from the commencement of the leave of absence, shall give regular employee status to a person hired to fill such position. The person employed on a regular basis shall be selected under the procedure set forth in section eight-b of this article. The substitute shall hold such position and regular employee status only until the regular employee shall be returned to such position and the substitute shall have and shall be accorded all rights, privileges and benefits pertaining to such position;

   (3) To perform the service of a service employee who is authorized to be absent from duties without loss of pay;

   (4) To temporarily fill a vacancy in a permanent position caused by severance of employment by the resignation, transfer, retirement, permanent disability or death of the regular service employee who had been assigned to fill such position: *Provided*, That within twenty working days from the commencement of the vacancy, the board shall fill such vacancy under the procedures set out in section eight-b of this article and section five, article two of this chapter and such person hired to fill the vacancy shall have and shall be accorded all rights, privileges and benefits pertaining to such position;

   (5) To fill the vacancy created by a regular employee's suspension: *Provided*, That if the suspension is for more than thirty working days the substitute service employee shall be assigned to fill the vacancy on a regular basis and shall have and be accorded all rights, privileges and
benefits pertaining to such position until such termination
by the county board of education becomes final. If the
suspended employee is not returned to his job, the board
shall fill the vacancy under the procedures set out in section
eight-b of this article and section five, article two of this
chapter; and

(6) To temporarily fill a vacancy in a newly created
position prior to employment of a service personnel on a
regular basis under the procedure set forth in section eight-
b of this article.

Substitutes shall be assigned in the following manner: A
substitute with the greatest length of service time, that is,
from the date he began his assigned duties as a substitute in
that particular category of employment, shall be given
priority in accepting the assignment throughout the period
of the regular employee's absence or until the vacancy is
filled on a regular basis under the procedures set out in
section eight-b of this article. All substitutes shall be
employed on a rotating basis according to the length of their
service time until each substitute has had an opportunity to
perform similar assignments: Provided, That if there are
regular service employees employed in the same building or
working station as the absent employee and who are
employed in the same classification category of
employment, such regular employees shall be first offered
the opportunity to fill the position of the absent employee
on a rotating and seniority basis with the substitute then
filling the regular employee's position. A regular employee
assigned to fill the position of an absent employee shall be
given the opportunity to hold that position throughout such
absence.

The salary of a substitute service employee shall be based
upon his years of employment as defined in section eight of
this article and as provided in the state minimum pay scale
set forth in section eight-a of this article and shall be in
accordance with the salary schedule of persons regularly
employed in the same position in the county in which he is
employed.

Before any substitute service employee enters upon his
duties, he shall execute with the county board of education
a written contract as provided in section five, article two of this chapter.

Substitute service employees who have worked thirty days for a school system shall have all rights pertaining to suspension, dismissal and contract renewal as is granted to regular service personnel in sections six, seven, eight and eight-a, article two of this chapter.

Be it enacted by the Legislature of West Virginia:

That section one, article eight, chapter eighteen of the code of West Virginia, one thousand nine hundred thirty-one, as amended, be amended and reenacted; and that said chapter eighteen be further amended by adding thereto a new article, designated article twenty-eight, all to read as follows:

CHAPTER 18. EDUCATION.

Article

8. Compulsory School Attendance.

28. Private, Parochial or Church Schools, or Schools of Religious Order.

ARTICLE 8. COMPULSORY SCHOOL ATTENDANCE.

§18-8-1. Commencement and termination of compulsory school attendance; exemptions.

1 Compulsory school attendance shall begin with the seventh birthday and continue to the sixteenth birthday.

3 Exemption from the foregoing requirements of
compulsory public school attendance shall be made on behalf of any child for the following causes or conditions, each such cause or condition being subject to confirmation by the attendance authority of the county:

**Exemption A. Instruction in a private, parochial or other approved school.**—Such instruction shall be in a school approved by the county board of education and for a time equal to the school term of the county for the year. In all such schools it shall be the duty of the principal or other person in control, upon the request of the county superintendent of schools, to furnish to the county board of education such information and records as may be required with respect to attendance, instruction and progress of pupils enrolled between the ages of seven and sixteen years;

**Exemption B. Instruction in home or other approved place.**—Such instruction shall be in the home of such child or children or at some other place approved by the county board of education and for a time equal to the school term of the county. The instruction in such cases shall be conducted by a person or persons who, in the judgment of the county superintendent and county board of education, are qualified to give instruction in subjects required to be taught in the free elementary schools of the state. It shall be the duty of the person or persons giving the instruction, upon request of the county superintendent, to furnish to the county board of education, such information and records as may be required from time to time with respect to attendance, instruction and progress of pupils enrolled between the ages of seven and sixteen years receiving such instruction;

**Exemption C. Physical or mental incapacity.**—Physical or mental incapacity shall consist of incapacity for school attendance and the performance of school work. In all cases of prolonged absence from school due to incapacity of the child to attend, the written statement of a licensed physician or authorized school nurse shall be required under the provisions of this article: Provided, That in all cases incapacity shall be narrowly defined and in no case shall the provisions of this article allow for the exclusion of the mentally, physically, emotionally or behaviorally handicapped child otherwise entitled to a free appropriate education;
Exemption D. Residence more than two miles from school or school bus route.—The distance of residence from a school, or school bus route providing free transportation, shall be reckoned by the shortest practicable road or path, which contemplates travel through fields by right of permission from the landholders or their agents. It shall be the duty of the county board of education, subject to written consent of landholders, or their agents, to provide and maintain safe foot bridges across streams off the public highways where such are required for the safety and welfare of pupils, whose mode of travel from home to school or to school bus route must necessarily be other than along the public highway in order for said road or path to be not over two miles from home to school or to school bus providing free transportation;

Exemption E. Hazardous conditions.—Conditions rendering school attendance impossible or hazardous to the life, health or safety of the child;

Exemption F. High school graduation.—Such exemption shall consist of regular graduation from a standard senior high school;

Exemption G. Granting work permits.—The county superintendent may, after due investigation, grant work permits to youths under sixteen years of age, subject to state and federal labor laws and regulations: Provided, That a work permit may not be granted on behalf of any youth who has not completed the eighth grade of school;

Exemption H. Serious illness or death in the immediate family of the pupil.—It is expected that the county attendance director will ascertain the facts in all cases of such absences about which information is inadequate and report same to the county superintendent of schools;

Exemption I. Destitution in the home.—Exemption based on a condition of extreme destitution in the home may be granted only upon the written recommendation of the county attendance director to the county superintendent following careful investigation of the case. A copy of the report confirming such condition and school exemption shall be placed with the county director of public assistance. This enactment contemplates every reasonable...
effort that may properly be taken on the part of both school
and public assistance authorities for the relief of home
condition officially recognized as being so destitute as to
deprive children of the privilege of school attendance.
Exemption for this cause shall not be allowed when such
destitution is relieved through public or private means;

Exemption J. Church ordinances; observances of
regular church ordinances.—The county board of education
may approve exemption for religious instruction upon
written request of the person having legal or actual charge
of a child or children: Provided, That such exemption
shall be subject to the rules and regulations prescribed
by the county superintendent and approved by the county
board of education;

Exemption K. Alternative private, parochial, church or
religious school instruction.—In lieu of the provisions of
Exemption A hereinabove, exemption shall be made for any
child attending any private school, parochial school, church
school, school operated by a religious order, or other
nonpublic school which elects to comply with the
provisions of article twenty-eight, chapter eighteen of the
code of West Virginia.

The completion of the eighth grade shall not exempt any
child under sixteen years of age from the compulsory
attendance provision of this article: Provided, That there is
a public high school or other public school of advanced
grades or a school bus providing free transportation to any
such school the route of which is within two miles of the
child's home by the shortest practicable route or path as
hereinbefore specified under Exemption D of this section.

ARTICLE 28. PRIVATE, PAROCHIAL OR CHURCH SCHOOLS, OR
SCHOOLS OF A RELIGIOUS ORDER.

§18-28-1. Policy.
§18-28-2. Attendance; health and safety regulations.
§18-28-3. Standardized testing requirements.
§18-28-4. Voluntary participation in state programs.
§18-28-5. New school notice requirements; termination.
§18-28-6. Requirements exclusive.

§18-28-1. Policy.

1 In conformity with the constitutions of the United States
and of West Virginia, it is the public policy of the state in matters of education that no human authority shall, in any case whatever, control or interfere with the rights of conscience or with religious liberty and that no person shall be enforced, restrained, molested or burdened, in body or goods, or otherwise suffer, on account of his or her religious opinions or belief, but all people shall be free to profess, and by argument, to maintain their opinions in matters of religion; and further be free to select their religious instructor, and to make for his or her support, such private contract as they shall please, and that religion, morality and knowledge being necessary to good government and the happiness of humankind, the means of education shall forever be encouraged.

§18-28-2. Attendance; health and safety regulations.

Each private, parochial or church school or school of a religious order shall observe a minimum instructional term of one hundred eighty days, with an average of five hours of instruction per day, and shall make and maintain annual attendance and disease immunization records for each pupil enrolled and regularly attending classes. Such attendance records shall be made available to the parents or legal guardians. Upon the request of the county superintendent of schools, any school to which this applies (or a parents organization composed of the parents or guardians of children enrolled in said school) shall furnish to the county board of education a list of the names and addresses of all children enrolled in such school between the ages of seven and sixteen years. Attendance by a child at any school to which this article relates and which complies with this article shall satisfy the requirements of compulsory school attendance. Each such school shall be subject to reasonable fire, health and safety inspections by state, county and municipal authorities as required by law, and shall further be required to comply with the West Virginia school bus safety regulations.

§18-28-3. Standardized testing requirements.

Each private, parochial or church school or school of a religious order or other nonpublic school electing to operate under this statute in lieu of the approval requirements set forth as part of section one, article eight, chapter eighteen,
Exemption A shall administer on an annual basis during each school year to every child enrolled therein between the ages of seven and sixteen years either the Comprehensive Test of Basic Skills, the California Achievement Test or the Stanford Achievement Test, which test will be selected by the chief administrative officer of each school in the subjects of English, grammar, reading, social studies, science and mathematics; and shall be administered under standardized conditions as set forth by the published instructions of the selected test.

Each child's testing results and the school composite test results shall be made available to such child's parents or legal guardians. Upon request of a duly authorized representative of the West Virginia department of education, the school composite test results shall be furnished by the school or by a parents organization composed of the parents or guardians of children enrolled in said school to the state superintendent of schools.

Each school to which this article applies shall:

(a) Establish curriculum objectives, the attainment of which will enable students to develop the potential for becoming literate citizens.

(b) Provide an instructional program that will make possible the acquisition of competencies necessary to become a literate citizen.

If such school composite test results for any single year for English, grammar, reading, social studies, science and mathematics fall below the fortieth percentile on the selected tests, the school as herein described shall initiate a remedial program to foster achievement above that level. If after two consecutive calendar years, school composite test results are not above the fortieth percentile level, attendance at the school may no longer satisfy the compulsory school attendance requirement exemption of Exemption K, section one, article eight, chapter eighteen, until such time as the percentile standards herein set forth are met.

§18-28-4. Voluntary participation in state programs.

Any private, parochial or church school or school of a religious order or other nonpublic school complying with
the provisions of this article may, on a voluntary basis, participate in any state operated or state sponsored program otherwise made available to such schools by law.

§18-28-5. New school notice requirements; termination.

Any new school to which this article relates shall send to the state superintendent of schools of the state of West Virginia a notice of intent to operate, name and address of the school, and name of the school's chief administrator.

Any school to which this article applies shall notify the state superintendent of schools of the state of West Virginia upon termination.

§18-28-6. Requirements exclusive.

No private, parochial or church school or school operated by any other religious group or body as part of its religious ministry or other nonpublic school which complies with the requirements of this article shall be subject to any other provision of law relating to education except requirements of law respecting fire, safety, sanitation and immunization.

[Passed March 11, 1983; in effect July 1, 1983. Approved by the Governor.]

AN ACT to amend and reenact sections two, four and nine, article eight, chapter eighteen of the code of West Virginia, one thousand nine hundred thirty-one, as amended, relating to compulsory school attendance; increasing the minimum fine from three to five dollars and the maximum fine from twenty to fifty dollars for persons convicted of violations; providing for the duties of county school attendance director and assistants; providing for initial notice which allows a ten-day period in which a parent, guardian or custodian is required to attend a personal conference with a school official concerning a child's absenteeism; providing for issuance and execution of warrants when violation
continues after initial notice; setting maximum time period for assignment of the case to a magistrate and for holding hearing; providing for advance notice of hearing to the defendant; and changing the term “justice of the peace” to “magistrate.”

Be it enacted by the Legislature of West Virginia:

That sections two, four and nine, article eight, chapter eighteen of the code of West Virginia, one thousand nine hundred thirty-one, as amended, be amended and reenacted to read as follows:

§18-8-2. Offenses; penalties; cost of prosecution.
§18-8-4. Duties of attendance director and assistant directors; complaints, warrants and hearings.

§18-8-2. Offenses; penalties; cost of prosecution.
Any person who, after due notice has been served upon him as hereinafter provided, shall fail to cause a child or children in his legal or actual charge to attend school as hereinbefore provided, shall be guilty of a misdemeanor, and shall, upon conviction thereof, be fined not less than five nor more than fifty dollars together with the costs of prosecution, or confined in jail not less than five nor more than twenty days. Every day a child is out of school contrary to the provisions of this article shall constitute a separate offense. Magistrates shall have jurisdiction of offenses under this section.

Whenever a person accused of violating any of the provisions of this article has been tried and acquitted, the cost of prosecution shall be paid by the county board of education out of the maintenance fund of the county.

§18-8-4. Duties of attendance director and assistant directors; complaints, warrants and hearings.
The county attendance director and his assistants shall diligently promote regular school attendance. They shall ascertain reasons for inexcusable absences from school of pupils of compulsory school age as defined under this article, and shall take such steps as are, in their discretion, best calculated to correct attitudes of parents and pupils
which result in absences from school even though not clearly in violation of law.

If it is found that absence from school is in violation of law, the attendance director or assistant, in the case of first offense that school year, shall serve written notice to the parent, guardian or custodian of such child that the attendance of such child at school is required and that within ten days of receipt of such notice the parent, guardian or custodian, accompanied by the child if possible, shall report in person to the school the child attends for a conference with the principal or other designated representative of the school in order to discuss and correct the circumstances causing the inexcusable absences of the child; and if the parent, guardian or custodian does not comply with the provisions of this article, then the attendance director or assistant shall make complaint against such parent, guardian or custodian before a magistrate of the county: Provided, That for a subsequent offense in any school year no such notice shall be required. If it appears from the complaint that there is probable cause to believe that an offense has been committed and that the accused has committed it, a warrant for the arrest of the accused shall issue to any officer authorized by law to arrest persons charged with offenses against the state. More than one warrant may be issued on the same complaint. The warrant shall be executed within ten days of its issuance or as soon thereafter as the accused can be found.

The magistrate court clerk, or the clerk of the circuit court performing the duties of the magistrate court clerk as authorized in section eight, article one, chapter fifty of this code, shall assign the case to a magistrate within ten days of execution of the warrant. The hearing shall be held within twenty days of the assignment to the magistrate, subject to lawful continuance. The magistrate shall provide to the accused at least ten days' advance notice of the date, time and place of the hearing.

When any doubt exists as to the age of a child absent from school, the attendance director shall have authority to require a properly attested birth certificate or an affidavit from the parent, guardian or custodian of such child,
stating age of such child. The county attendance director or assistant shall, in the performance of his duties, have authority to take without warrant any child absent from school in violation of the provisions of this article and to place such child in the school in which such child is or should be enrolled.

The county attendance director shall devote full time to his duties as a school official and shall be responsible under direction of the county superintendent for the efficient administration of school attendance in his county. In addition to those duties directly relating to the administration of attendance, the county attendance director and assistant directors shall also perform the following duties:

(a) Assist in directing the taking of the school census to see that it is taken at the time and in the manner provided by law;

(b) Advise with principals and teachers on the comparison of school census and enrollment for the detection of possible nonenrollees;

(c) Cooperate with existing state and federal agencies charged with enforcement of child labor laws;

(d) Prepare a report for submission by the county superintendent to the state superintendent of schools on school attendance, at such times and in such detail as may be required; also, file with the county superintendent and county board of education at the close of each month a report showing activities of the school attendance office and the status of attendance in the county at the time;

(e) Promote attendance in the county by the compilation of data for schools and by furnishing suggestions and recommendations for publication through school bulletins and the press, or for such purposes as the county superintendent may direct;

(f) Participate in school functions such as parent-teacher associations, civic meetings, club meetings, and teachers' conferences;

1 All fines collected under the provisions of this article shall be paid on or before the last day of each calendar month by the magistrate, or other proper official having jurisdiction in the case, to the sheriff and by him credited to the county school fund; and the magistrate shall file with the county superintendent on the last day of each month an itemized statement of all fines paid over to the sheriff.

§18-11-26. Definition of board; cost of acquiring, constructing, reconstructing, remodeling, repairing, improving, extending, equipping or furnishing the West Virginia University medical center to be financed by revenue bonds or notes.

(1) Notwithstanding the provisions of section one, article one of this chapter, the word "board," when used in sections twenty-six through forty-two, inclusive, of this article, means the West Virginia board of regents.

(2) For the purpose of financing the cost of acquiring, constructing, reconstructing, remodeling, repairing, improving, extending, equipping or furnishing the buildings or other physical facilities of the West Virginia University medical center, the board periodically may issue negotiable bonds or notes of the state in a principal amount which, in the opinion of the board, shall be necessary to finance said costs, and the proceeds of the issuance of any such bonds or notes shall be expendable after appropriation thereof by the Legislature. Such cost shall include, but not be limited to, the following: The cost of such acquisition, construction, reconstruction, remodeling, repair, improvement, extension, equipment or furnishing; studies and surveys; plans, specifications, architectural and engineering services; legal, organization, marketing or other special services; interest and carrying charges prior to, during and for six months after completion of such acquisition, construction, reconstruction, remodeling, repair, improvement, extension,
equipment or furnishing; the costs of issuing the bonds or notes; and a reasonable reserve for payment of the principal of and interest on the bonds or notes.

(3) The board periodically may issue renewal notes of the state, may issue revenue bonds of the state to pay notes and, if it considers refunding expedient, may refund or refund in advance bonds issued by the board by the issuance of new bonds of the state, pursuant to the requirements of section thirty-two of this article.

(4) Except as may otherwise be expressly provided by the board, every issue of bonds or notes by it shall be special obligations of the state, payable solely from the revenues or other moneys pledged therefor.

(5) The bonds and the notes shall be authorized by resolution of the board, shall bear such date and shall mature at such time or times, in the case of any such note or any renewals thereof not exceeding five years from the date of issue of such original note, and in the case of any such bond not exceeding forty years from the date of issue, as such resolution may provide. The bonds and notes shall bear interest at such rate or rates, be in such denominations, be in such form either coupon or registered, carry such registration privileges, be payable in such medium of payment and at such place and be subject to such terms of redemption as the board may authorize. The bonds and notes may be sold by the board in the manner and at or not less than the price the board determines. The bonds and notes shall be executed by the governor and the president of the board, both of whom may use facsimile signatures. The great seal of the state or a facsimile thereof shall be affixed thereto or printed thereon and attested, manually or by facsimile signature, by the secretary of state, and any coupons attached thereto shall bear the manual or facsimile signature of the president of the board. In case any officer whose signature, or a facsimile of whose signature, appears on any bonds, notes or coupons ceases to be such officer before delivery of such bonds or notes, such signature or facsimile is nevertheless sufficient for all purposes the same as if he had remained in office until such delivery; and, in case the seal of the state
has been changed after a facsimile has been imprinted on such bonds or notes, such facsimile seal will continue to be sufficient for all purposes.

(6) A resolution authorizing bonds or notes or an issue of bonds or notes under sections twenty-six through forty-two, inclusive, of this article, may contain provisions, which shall be a part of the contract with the holders of the bonds or notes, as to any or all of the following:

(a) Pledging and creating a lien on all or any portion of the moneys from time to time on deposit in the medical center revenue fund, heretofore created by section four-b of this article, to secure the payment of the bonds or notes or of any issue of bonds or notes, subject to those agreements with bondholders or noteholders which then exist;

(b) Pledging and creating a lien on any loan, grant or contribution to be received from the federal, state or local government or other source;

(c) The use and disposition of the moneys on deposit in the medical center revenue fund and any other gross revenues derived from the medical center;

(d) The setting aside of reserves or sinking funds and the regulation and disposition thereof;

(e) Limitations on the purpose to which the proceeds of sale of bonds or notes may be applied and pledging the proceeds to secure the payment of the bonds or notes or of any issue of the bonds or notes;

(f) Limitations on the issuance of additional bonds or notes and the terms upon which additional bonds or notes may be issued and secured;

(g) The procedure by which the terms of a contract with the bondholders or noteholders may be amended or abrogated, the amount of bonds or notes the holders of which must consent thereto and the manner in which the consent may be given; and

(h) Vesting in a trustee or trustees the property, rights,
powers, remedies and duties which the board considers necessary or convenient.

(7) Prior to the preparation of definitive bonds or notes, the board may under like restrictions issue temporary bonds or notes, with or without coupons, exchangeable for definitive bonds or notes, as the case may be, upon the issuance of the latter.

§18-11-27. Trustee for bondholders or noteholders; contents of trust agreement.

In the discretion of the board, any bonds, refunding bonds or notes issued by the board may be secured by a trust agreement between the board and a corporate trustee, which trustee may be any trust company or banking institution having the powers of a trust company within or without the state. Any such trust agreement may contain provisions as set forth in section twenty-six of this article with respect to the resolution. All expenses incurred in carrying out such agreement may be treated as a part of the cost of acquiring, constructing, reconstructing, remodeling, repairing, improving, extending, equipping or furnishing the buildings or other physical facilities of the West Virginia University medical center affected by the agreement.

§18-11-28. Operation and control of fiscal affairs of West Virginia University medical center.

The board shall properly maintain, repair, operate, manage and control the fiscal affairs of the West Virginia University medical center, fix the rates of rents, fees or charges and establish rules and regulations for the use and operation of the medical center, as provided by sections four-b through four-d, inclusive, of this article, and as otherwise required by this code or determined necessary by the board, and may make and enter into all contracts or agreements necessary and incidental to the performance of its duties and the execution of its powers under sections twenty-six through forty-two, inclusive, of this article.
§18-11-29. Payment of principal of and premium, if any, and interest on bonds and notes from medical center revenue fund and other gross revenues derived from West Virginia University medical center; gross revenues not to include tuition fees.

Whenever bonds or notes are issued for acquiring, constructing, reconstructing, remodeling, repairing, improving, extending, equipping or furnishing the buildings or other physical facilities of the West Virginia University medical center, the board may pledge to the payment of the principal of and premium, if any, and interest on said bonds or notes all or any portion of the moneys from time to time on deposit in the medical center revenue fund heretofore created by section four-b of this article or of any other gross revenues derived from the medical center. For the purposes of sections twenty-six through forty-two, inclusive, of this article, gross revenues shall not include tuition fees collected at the West Virginia University medical center and disposed of pursuant to section four-d of this article.

§18-11-30. Enforcement of payment and validity of bonds and notes.

1. (1) The provisions of sections twenty-six through forty-two, inclusive, of this article and any resolution or trust agreement shall continue in effect until the principal of and interest on the bonds or notes of the state issued by the board have been fully paid, and the duties of the board under said sections and any resolution or trust agreement shall be enforceable by any bondholder or noteholder by mandamus or other appropriate action in any court of competent jurisdiction.

2. (2) The resolution authorizing the bonds or notes shall provide that such bonds or notes shall contain a recital that they are issued pursuant to sections twenty-six through forty-two, inclusive, of this article, which recital shall be conclusive evidence of their validity and of the regularity of their issuance.

§18-11-31. Pledges, time, liens, recordation.

1. Any pledge made by the board shall be valid and binding from the time the pledge is made. The moneys so pledged and
thereafter paid into the medical center revenue fund or otherwise received by the board shall immediately be subject to the lien of the pledge without any physical delivery thereof or further act. The lien of any such pledge shall be valid and binding as against all parties having claims of any kind in tort, contract or otherwise against the board, irrespective of whether such parties have notice thereof.

§18-11-32. Refunding bonds.

Any bonds issued under the provisions of sections twenty-six through forty-two, inclusive, of this article and at any time outstanding may at any time and from time to time be refunded by the board by the issuance of refunding bonds of the state in such amount as it may deem necessary to refund the principal of the bonds so to be refunded, together with any unpaid interest thereon; to provide additional funds for the purposes authorized by said sections; and to pay any premiums and commissions necessary to be paid in connection therewith. Any such refunding may be effected whether the bonds to be refunded shall have then matured or shall thereafter mature, either by sale of the refunding bonds and the application of the proceeds thereof for the redemption of the bonds to be refunded thereby, or by exchange of the refunding bonds for the bonds to be refunded thereby: Provided, That the holders of any bonds to be refunded shall not be compelled without their consent to surrender their bonds for payment or exchange prior to the date on which they are payable or, if they are called for redemption, prior to the date on which they are by their terms subject to redemption. Any refunding bonds issued under the authority of this section shall be payable from the revenues out of which the bonds to be refunded thereby were payable, from other moneys or from the principal of and interest on or other investment yield from investments or proceeds of bonds or other applicable funds and moneys, including investments of proceeds of any refunding bonds, and shall be subject to the provisions contained in and shall be secured in accordance with sections twenty-six through forty-two, inclusive, of this article.

§18-11-33. Purchase and cancellation of bonds or notes.

The board, subject to such agreements with bondholders
or noteholders as may then exist, shall have the power, out
of any funds available therefor, to purchase bonds, including
refunding bonds, or notes of the state issued by the board.
If the bonds or notes are then redeemable, the price of such
purchase shall not exceed the redemption price then applicable
plus accrued interest to the next interest payment date thereon.
If the bonds or notes are not then redeemable, the price of
such purchase shall not exceed the redemption price applicable
on the first date after such purchase upon which the
bonds or notes become subject to redemption plus accrued
interest to such date. Upon such purchase, such bonds or notes
shall be canceled.

§18-11-34. Federal and private assistance.

The board is authorized and empowered to accept loans or
grants or temporary advances for the purpose of paying part or
all of the cost of acquiring, constructing, reconstructing, re-
modeling, repairing, improving, extending, equipping or fur-
nishing the buildings or other physical facilities of the West
Virginia University medical center and the other purposes here-
in authorized from the United States of America or such
federal or public agency or department of the United States or
any private agency, corporation or individual, which temporary
advances may be repaid out of the proceeds of the bonds au-
thorized to be issued under the provisions of sections twenty-
six through forty-two, inclusive, of this article, and to enter
into the necessary contracts and agreements to carry out the
purposes hereof with the United States of America or such
federal or public agency or department of the United States or
with any private agency, corporation or individual.

§18-11-35. Vested rights; impairment.

The state pledges and agrees with the holders of any bonds
or notes issued under sections twenty-six through forty-two,
inclusive, of this article that the state will not limit or alter
the rights vested in the board to fulfill the terms of any agree-
ments made with the holders thereof, or in any way impair the
rights and remedies of the holders, until the bonds or notes,
together with the interest thereon, and all costs and expenses in
connection with any action or proceeding by or on behalf of
such holders, are fully met and discharged. The board is authorized to include this pledge and agreement of the state in any agreement with the holders of such bonds or notes.

§18-11-36. Bonds and notes not debt of state, county, municipality or any political subdivision; expenses incurred pursuant to article.

Bonds, refunding bonds and notes issued under the authority of sections twenty-six through forty-two, inclusive, of this article and any coupons in connection therewith shall not constitute a debt or a pledge of the faith and credit or taxing power of this state or of any county, municipality or any other political subdivision of the state, and the holders and owners thereof shall have no right to have taxes levied by the Legislature or the taxing authority of any county, municipality or any other political subdivision of this state for the payment of the principal thereof or interest thereon, but such bonds and notes shall be payable solely from the revenues and funds pledged for their payment as authorized by said sections, unless the notes are issued in anticipation of the issuance of bonds or the bonds are refunded by refunding bonds issued under the authority of said sections, which bonds or refunding bonds shall be payable solely from revenues and funds pledged for their payment as authorized by said sections. All such bonds and notes shall contain on the face thereof a statement to the effect that the bonds or notes, as to both principal and interest, are not debts of the state or any county, municipality or political subdivision thereof, but are payable solely from revenues and funds pledged for their payment.

All expenses incurred in carrying out the provisions of sections twenty-six through forty-two, inclusive, of this article shall be payable solely from funds provided under the authority of said sections. Said sections do not authorize the board to incur indebtedness or liability on behalf of or payable by the state or any county, municipality or any other political subdivision thereof.

§18-11-37. Negotiability of bonds and notes.

Whether or not the bonds or notes are of such form or character as to be negotiable instruments under the uniform
commercial code, the bonds or notes authorized to be issued by sections twenty-six through forty-two, inclusive, of this article are negotiable instruments within the meaning of and for all the purposes of the uniform commercial code, subject only to the provisions of the bonds or notes for registration.

The provisions of sections nine and ten, article six, chapter twelve of this code to the contrary notwithstanding, the bonds and notes of the state issued by the board are securities in which all public officers and bodies of this state, including the West Virginia state board of investments, all municipalities and other political subdivisions of this state, all insurance companies and associations and other persons carrying on an insurance business (including domestic for life and domestic not for life insurance companies), all banks, trust companies, societies for savings, building and loan associations, savings and loan associations, deposit guarantee associations and investment companies, all administrators, guardians, executors, trustees and other fiduciaries and all other persons whatsoever who are authorized to invest in bonds or other obligations of the state may properly and legally invest funds, including capital, in their control or belonging to them.

The exercise of the powers granted to the board by sections twenty-six through forty-two, inclusive, of this article will be in all respects for the benefit of the students and teachers of and patients at the West Virginia University medical center and the other people of the state, for the improvement of their health, safety, convenience and welfare, and is a public purpose. As the operation and maintenance of the West Virginia University medical center constitutes the performance of essential governmental functions, the board shall not be required to pay any taxes or assessments upon any property acquired or used by the board or upon the income therefrom. All bonds and notes of the state issued by the board, and all interest and income thereon, shall be exempt from all taxation by this state and any county, municipality, political subdivision or agency thereof, except inheritance taxes.
§ 18-11-40. Sections and provisions severable.

Sections twenty-six through forty-two, inclusive, of this article, and the provisions and parts of said sections, are severable, and it is the intention to confer the whole or any part of the powers provided for in said sections, and if any of said sections or the provisions or parts of any of said sections, or the application thereof to any person or circumstance, are for any reason held unconstitutional or invalid, it is the intention that the remaining sections and provisions or parts thereof shall remain in full force and effect.

§ 18-11-41. Sections regarded as supplementary.

Sections twenty-six through forty-two, inclusive, of this article shall be deemed to provide an additional and alternative method for the doing of the things authorized hereby and shall be regarded as supplementary and additional to powers conferred by other laws.

§ 18-11-42. Liberal construction.

Sections twenty-six through forty-two, inclusive, of this article, being necessary for the health, safety, convenience and welfare of the students and teachers of and the patients at the West Virginia University medical center and the other people of this state, shall be liberally construed to effectuate the purposes thereof.

AN ACT to amend article twenty-six, chapter eighteen of the code of West Virginia, one thousand nine hundred thirty-one, as amended, by adding thereto a new section, designated section twenty-seven, relating to seniority rights for full-time nonprofessional classified personnel employed by the board of regents; defining certain terms; specifying requirements for determining seniority; requiring that seniority be observed in temporary furloughs and permanent terminations; requiring that a recall list be kept by each institution controlled by the board of regents; providing that listings be renewed annually; and requiring notification of all listed persons prior to filling vacancies.

Be it enacted by the Legislature of West Virginia:

That article twenty-six, chapter eighteen of the code of West Virginia, one thousand nine hundred thirty-one, as amended, be amended by adding thereto a new section, designated section twenty-seven, to read as follows:
ARTICLE 26. WEST VIRGINIA BOARD OF REGENTS.

§18-26-27. Definitions; requirements for determining seniority for full-time nonprofessional classified personnel; seniority to be observed in reducing work force; preferred recall list; renewal of listing; notice of vacancies.

All decisions by the board of regents or its agents in institutions of higher learning concerning reductions in work force of full-time nonprofessional classified personnel, whether by temporary furlough or permanent termination, shall be made on the basis of seniority, as hereinafter provided:

(a) As used in this section:

(1) "Employee" means any full-time nonprofessional classified employee.

(2) "Full-time nonprofessional classified employee" means an employee of the board of regents at any institution under its control:

(i) Who holds a job title that, under the rules and regulations of the board of regents, is considered classified and is subject to the minimum wage and maximum hours standards of article five-c, chapter twenty-one of this code;

(ii) Whose job title or position is delineated in a current, authorized state expenditure schedule; and

(iii) Whose employment is on a regular basis and if continued shall accumulate to a minimum total of one thousand forty hours during a calendar year and extend over at least nine months of a calendar year.

(3) "Job title" means the name of a position or job held by an employee.

(4) "Job classification" means a grouping of job titles with the same name without regard to their numerical designations, or any job title for which there is no related title of the same name.
(5) "Grade of classification" means a job title or position with its numerical designation which distinguishes it from other titles in the same classification.

(b) The seniority of any full-time nonprofessional classified employee shall be determined on the basis of the length of time the employee has been employed by the board of regents or its agents in institutions of higher learning within a particular job classification. For the purpose of establishing seniority for a preferred recall list as hereinafter provided, when an employee has been employed in one or more classifications, the seniority accrued in each previous classification shall be retained by the employee. If an institution is required to reduce the number of employees within a particular job classification, the employee with the least amount of seniority within that classification or grades of classifications shall be properly released and employed in a different grade of that classification if there is a job vacancy; Provided, That if there is no job vacancy for employment within such classification or grades of classification, he shall be employed in any other job classification which he previously held with the institution if there is a vacancy and shall retain any seniority accrued in such job classification or grade of classification.

(c) If two or more employees accumulate identical seniority, the priority shall be determined by a random selection system established by the employees and approved by the institution.

(d) Any employee whose seniority with the institution is insufficient to allow his retention by the institution during a furlough or reduction in work force shall be placed upon a preferred recall list and shall be recalled to employment by the institution on the basis of seniority. An employee's listing with an institution shall remain active for a period of one calendar year from the date of his termination or furlough, or from the date of his most recent renewal. If an employee fails to renew his listing with the institution, his name may be removed from the list. An employee placed upon the preferred list shall be
recalled to any position opening by the institution within the classification(s) in which he had previously been employed, or to any lateral position for which the employee is qualified.

(e) An employee on the preferred recall list shall not forfeit his right to recall by the institution if compelling reasons require such employee to refuse an offer of re-employment by the institution.

(f) The institution shall be required to notify all employees maintaining active listings on the preferred recall list of all position openings that from time to time exist. Such notice shall be sent by certified mail to the last known address of the employee. It shall be the duty of each employee listed to notify the institution of any change in his address and to timely renew his listing with the institution.

(g) No position openings may be filled by the institution, whether temporary or permanent, until all employees on the preferred recall list have been properly notified of existing vacancies and have been given an opportunity to accept reemployment.

§3-2-3. Registration, cancellation and reinstatement.

1 A permanent registration system shall hereby be established which shall be uniform throughout the state and all of its subdivisions. No voter so registered shall be required to register again for any election while he continues to reside at the same address, or, having moved from such address, is
properly transferred according to the provisions of section twenty-seven or forty-one of this article, unless his registration is canceled as provided in this article.

Within one hundred and twenty days following any election, the clerk of the county commission shall, as evidenced by the presence or absence of signatures on the pollbooks for such election, correct any errors or omissions on the voter registration records appertaining to such election resulting from the poll clerks erroneously checking or failing to check the registration records as required by the provisions of section thirty-four, article one of this chapter; and, within the same time period following each statewide primary and general election and at the same time that such checkup is made as is by this paragraph required, the clerk shall cancel the registration of each person who has failed to vote at least once during a period covering two statewide primary and two general elections as indicated by his registration record. §3-2-28. Procedure on change of registered voter's name.

Whenever a voter, previously registered, shall change his name, such person shall be required to register again. For
this purpose such person may register by mail in the same manner prescribed in section forty-one of this article. Each county clerk shall make an entry on such application of the date it is received by such clerk, and the application shall remain on file in the office of the clerk for at least two years from the date it was received.

(c) Applications for use pursuant to this section shall be made available by the county clerk to every adult person of the county, not registered, and to any registered voter of the county upon request. The application for use pursuant to this
section shall be a uniform statewide application in a form to be prescribed by the secretary of state and shall include the information required under the form provisions of section nineteen of this article. The form, which shall be self-addressed, is to be as widely and freely distributed as possible and shall be a bifold self-mailer which shall be compatible with local systems of voter registration data collection and storage.

(d) In addition to the information required under the form provisions of section nineteen of this article the form shall contain such other information as the secretary of state may reasonably require and shall also include the following information:

(12) A place for the applicant to execute the application on a line which is clearly labeled "signature of applicant" and contained in the following specific form of oath or affirmation:

"I do solemnly swear or affirm that the information provided in the preceding uniform statewide application is true to the best of my knowledge, information and belief, and I understand that if I willingly provide false information concerning a material matter or thing therein, I shall be deemed guilty of the felony offense of perjury and shall be subject to the penalties for perjury.

(13) Any person who has registered, reregistered or transferred registration pursuant to this section shall, in order that such registration be valid, be required to vote in person at the poll or appear in person at the office of the clerk of the cir-
circuit court to vote an absentee ballot in the first election next succeeding the filing of the application.

(b) A person who knowingly offers any application for registration, reregistration or transfer of registration when the applicant therein is not qualified to register or transfer his registration, or any person who knowingly administers an oath or affirmation to an applicant for registration, reregistration or change of registration when the application contains false information concerning a material matter or thing, or any person who falsely represents that an oath or affirmation was executed by an applicant for registration, reregistration or change of registration, shall be guilty of a felony, and, upon conviction thereof, shall be imprisoned in the penitentiary not less than one year nor more than three years, or fined not less than five hundred dollars nor more

transfer of registration by mail.

(a) If the application contains substantially all the required
information indicating that the applicant is legally qualified
to register or transfer registration as stated in his application,
the county clerk shall transfer all information on such applica-

tions of the application containing the applicant's signature,
or in lieu thereof, a photostatic copy of the applicant's signa-
ture, shall be pasted in each space provided on the registration
records for the insertion of the registrant's signature.

(b) If the application is one for transfer of registration
and contains substantially all of the required information and
the applicant is legally qualified to transfer his registration
as stated in his application, the county clerk shall do so as
provided in section twenty-seven of this article.

§3-2-44. Rejection and investigation authorized by county clerk
when applicant not entitled to registration or transfer.

Be it enacted by the Legislature of West Virginia:

That article two, chapter forty-four of the code of West Virginia, one thousand nine hundred thirty-one, as amended, be amended by adding thereto a new section, designated section twenty-nine; and that section forty-two, article three-a of said chapter be amended and reenacted, all to read as follows:

Article

§44-2-29. Waiver of final settlement if inheritance tax release filed; signed waiver and affidavit stating no claims.

1 Notwithstanding any other provision of this code to the contrary, in all estates where an inheritance tax release has been filed with the clerk of the county commission and more than ninety days has elapsed since the filing of any notice required by section one of this
article, a final settlement may be waived by a waiver which is signed by the personal representative and all heirs and distributees, or their personal representatives, if any such heir be under disability, and which contains an affidavit stating that the time for the filing of claims has expired and averring that there are no known claims against the estate.

ARTICLE 3A. OPTIONAL PROCEDURE FOR PROOF AND ALLOWANCE OF CLAIMS AGAINST ESTATES OF DECEDENTS; COUNTY OPTION.

§44-3A-42. Fees to be charged by fiduciary supervisor or fiduciary commissioner; disposition of fees.

(a) When necessary solely for the purpose of financing the cost of settling estates the county commission may authorize the fiduciary supervisor to charge and collect at the time of qualification of the fiduciary of a decedent’s estate, a fee not to exceed seventy-five dollars for all estates where probate assets do not exceed ten thousand dollars in value and a fee not to exceed one hundred dollars where probate assets exceed ten thousand dollars in value, of which sums, five dollars shall be forwarded to the state tax commissioner. The moneys so forwarded to the state tax commissioner shall be deposited in the office of the treasurer of the state in a special fund, designated “The Inheritance Tax Administration Fund,” to be used to defray, in whole or in part, the costs of administration of taxes imposed by article eleven, chapter eleven of this code in order to facilitate the prompt administration of the provisions imposed by said article. The remaining amounts shall be deposited in the county fiduciary fund as provided in section forty-three of this article. Such fee shall be paid to include all services of the fiduciary supervisor for the settlement of every such decedent’s estate which is settled pursuant to the provisions of section nineteen, article three-a of this chapter. All such fees shall also include the cost of publication of the notice required by section four, article three-a of this chapter and the notice required by section nineteen, article three-a of this chapter, but shall not include the cost of any
mailings or of the cost of recording any documents required to be recorded in the office of the clerk of the county commission by the provisions of this chapter.

In the event the fiduciary supervisor is required to examine and prepare a statement of deficiencies, including reasons for disapproving any of the documents required to be filed by the personal representative of any decedent's estate, he shall charge and collect from such personal representative a fee of ten dollars.

(b) In addition to the fees set forth in subsection (a) of this section, the fiduciary supervisor shall charge a fee to be fixed by the county commission in the manner provided in subsection (c) of this section for conducting hearings, granting continuances of hearings, considering evidence, for drafting recommendations with respect to such hearings and for appearing before the county commission with respect thereto and any other matters of an extraordinary nature not normally included within a summary settlement as contemplated by section nineteen, article three-a of this chapter. Such fee shall be used to defray the costs imposed by or incidental to any extraordinary demands by or conditions imposed by a fiduciary or imposed by the circumstances of the estate.

(c) The fiduciary supervisor or fiduciary commissioner shall prepare a voucher for the county commission, which voucher shall be itemized and shall set forth in detail all of the services performed and the amount charged for such service or services. Such voucher shall also indicate in each instance if the service was actually performed by the fiduciary supervisor or fiduciary commissioner or whether such service was performed by an employee or deputy of such supervisor or commissioner. All vouchers shall reflect the services rendered pursuant to the initial fee charged and collected as provided in subsection (a) of this section and, in addition thereto, shall indicate those services for which charges are to be made over and above that amount. In the case of any service for which a fee is not fixed by this section, or the fee fixed is based on time expended, the voucher shall show the actual time
personally expended by the supervisor or commissioner, to the nearest tenth of an hour. All such vouchers shall be verified prior to submission to the county commission for approval. Upon approval of any such voucher, the same shall be charged against the estate to which the same applies. In reviewing any fee charged by either the fiduciary supervisor or a fiduciary commissioner the county commission shall consider the following:

(1) The time and effort expended;

(2) The difficulty of the questions raised;

(3) The skill required to perform properly the services rendered;

(4) The reasonableness of the fee;

(5) Any time limitations imposed by the personal representative, any beneficiary or claimant, or by the attendant circumstances; and

(6) Any unusual or extraordinary circumstances or demands or conditions imposed by the personal representative, any beneficiary or claimant or by the attendant circumstances. The county commission may approve any such voucher or may reduce the same, as it deems proper, after considering those matters set forth in this subsection. Any such approval shall be by order of the commission and be entered of record by the clerk of the county commission in the fiduciary record book and the general order books of the commission. In no event shall any fee for any service, whether performed by the fiduciary supervisor or the fiduciary commissioner, be fixed, charged or approved which is based upon or with reference to the monetary value of the estate or of the amount in controversy upon any disputed issue or fact of law.

(d) For every estate other than a decedent’s estate, there shall be charged by the fiduciary supervisor at the time of qualification, a fee of twenty-five dollars, which fee shall include all services performed by the fiduciary supervisor with respect to such estate from the time of qualification of the personal representative thereof until
and including the filing of the first annual settlement. For each additional or subsequent annual or triennial settlement, the fiduciary supervisor shall charge and collect a fee of ten dollars.

(e) The county commission or other tribunal in lieu thereof, shall, by order, establish or fix a schedule of suggested fees or rates of compensation for the guidance of the fiduciary supervisor and any fiduciary commissioner in preparing their respective vouchers for fees other than those fees fixed by any provision of this section or of this chapter. A copy of these fees or rates shall be posted in a conspicuous place in the county courthouse.

Be it enacted by the Legislature of West Virginia:

That section three, article three, chapter five-a of the code of West Virginia, one thousand nine hundred thirty-one, as amended, be amended and reenacted; and that article twenty-six, chapter eighteen of said code be amended by adding thereto four new sections, designated sections ten-c, ten-d, ten-e and ten-f, all to read as follows:

Chapter
5A. Department of Finance and Administration.
18. Education.

CHAPTER 5A. DEPARTMENT OF FINANCE AND ADMINISTRATION.

ARTICLE 3. PURCHASING DIVISION.

§5A-3-3. Powers and duties of director of purchasing.

1. The director, under the direction and supervision of the commissioner, shall be the executive officer of the purchasing division and shall have the power and duty to:

2. (1) Purchase or contract for, in the name of the state, the commodities and printing required by the departments of the state government;

3. (2) Apply and enforce standard specifications established in accordance with section five of this article as hereinafter provided;

4. (3) Transfer to or between departments or sell commodities that are surplus, obsolete or unused as hereinafter provided;

5. (4) Have charge of central storerooms for the supply of departments;

6. (5) Establish and maintain a laboratory for the testing
of commodities and make use of existing facilities in state
institutions for that purpose as hereinafter provided;

(6) Direct the state agency for surplus property as pro-
vided in sections forty-four and forty-five of this article;

(7) Recommend to the commissioner that the right and
privilege of a person to bid on state purchases be suspended
when the director has evidence that such person has violated
any of the provisions of the purchasing law or the rules and
regulations of the director;

(8) Examine the provisions and terms of every contract
entered into for and on behalf of the state of West Virginia
that impose any obligation upon the state to pay any sums of
money or perform any particular service or do any act or deed
and approve each such contract as to such provisions and terms;
and the duty of examination and approval herein set forth does
not supersede the responsibility and duty of the attorney gen-
eral to approve such contracts as to form: Provided, That the
provisions of this subdivision do not apply in any respect
whatever to construction or repair contracts entered into by
the state commissioner of highways: Provided, however, That
the provisions of this subdivision do not apply in any respect
whatever to contracts entered into by the West Virginia
board of regents for the purchase or acquisition of materials,
supplies, equipment and printing except to the extent that the
board of regents requests the facilities and services of the
director under the provisions of this subdivision; and

of the state an opportunity to bid. If a state department or
agency other than the purchasing division prepared the speci-
fications or descriptions, the director of the purchasing division
shall review such specifications and descriptions before soliciting
bids to assure that the specifications and descriptions do
not favor a particular brand of product or vendor. If he de-
determines that any such specifications or descriptions as written
favor a particular brand of product or vendor or if it is de-
cided, either before or after the bids are opened, that a product
having different specifications or quality or in different quantity will be bought, the director shall rewrite the "requests for quotations" and the matter shall be rebid.

ARTICLE 26. WEST VIRGINIA BOARD OF REGENTS.

§18-26-10c. Purchase or acquisition of materials, supplies, equipment and printing.

§18-26-10d. Disposition of obsolete and unusable equipment, surplus supplies and other unneeded materials; inventories.

§18-26-10e. Other code provisions relating to purchasing not controlling; exceptions; criminal provisions and penalties; financial interest of board, etc.; receiving anything of value from interested party and penalties therefor; application of bribery statute.

§18-26-10f. Prequalification disclosure by vendors; register of vendors; exceptions; suspension of vendors.

§18-26-10c. Purchase or acquisition of materials, supplies, equipment and printing.

1. All materials, supplies, equipment and printing required for the board, the state universities and the state colleges shall be purchased or acquired by the board. The board shall adopt rules and regulations governing and controlling acquisitions and purchases in accordance with the provisions of this section. Such rules and regulations shall assure that the board:

- Shall not preclude any person from participating and making sales thereof to the board except as otherwise provided in section ten-f of this article; shall establish and prescribe specifications, in all proper cases, for materials, supplies, equipment and printing to be purchased; shall adopt and prescribe such purchase order, requisition or other forms as may be required; shall negotiate for and make purchases and acquisitions in such quantities, at such times and under contract, in the open market or through other accepted methods of governmental purchasing as may be practicable in accordance with general law; shall advertise for bids on all purchases exceeding five thousand dollars, to purchase by means of sealed bids and competitive bidding or to effect advantageous purchases through other accepted governmental methods and practices; and shall post in a public place in the central office of the board, in the purchasing office of the specific institu-
tion involved in the purchase and in the office of the depart-
ment of purchases, available to the public during all business
hours, notices of all acquisitions and purchases for which com-
petitive bids are being solicited, at least two weeks prior to
making such purchases.

The board shall further adopt rules and regulations relating
to purchasing in the open market pursuant to section thirteen,
article three, chapter five-a of this code, and shall further
make provision for vendor notification of bid solicitation and
emergency purchasing.

Any or all bids may be rejected. However, all purchases
based on advertised bid requests shall be awarded to the
lowest responsible bidder taking into consideration the quali-
ties of the articles to be supplied, their conformity with speci-
fications, their suitability to the requirements of the board
and delivery terms: Provided, That the preference for resi-
dent vendors as provided in section forty-four, article three of
said chapter five-a shall apply to the competitive bids made
pursuant to this section.

The board of regents shall maintain a purchase file, which
shall be a public record and open for public inspection. After
the award of the order or contract, the board of regents shall
indicate upon the successful bid that it was the successful bid,
and shall further indicate why bids are rejected and, if the
mathematical low vendor is not awarded the order or contract,
the reason therefor. No records in the purchase file shall be
destroyed without the written consent of the legislative auditor.

The board shall also adopt rules and regulations to prescribe
qualifications to be met by any person who, on and after the
effective date of this section, is to be employed as a buyer
pursuant to this section. Such rules and regulations shall pro-
vide that no person shall be employed as a buyer unless such
person, at the time of employment, either is (1) a graduate of
an accredited college or university or (2) has at least four
years' experience in purchasing for any unit of government or
for any business, commercial or industrial enterprise. Any per-
son making purchases and acquisitions pursuant to this section
shall execute a bond in the penalty of fifty thousand dollars,
payable to the state of West Virginia, with a corporate bonding or surety company authorized to do business in this state as surety thereon, in form prescribed by the attorney general and conditioned upon the faithful performance of all duties in accordance with sections ten-c through ten-f of this article and the rules and regulations of the board of regents. In lieu of separate bonds for such buyers, a blanket surety bond may be obtained. Any such bond or bonds shall be filed with the secretary of state. The cost of any such bond or bonds shall be paid from funds appropriated to the board.

All purchases and acquisitions shall be made in consideration and within limits of available appropriations and funds and in accordance with applicable provisions of article two, chapter five-a of this code, relating to expenditure schedules and quarterly allotments of funds and in accordance with section sixteen, article three of said chapter.

The board may make requisitions upon the auditor for a sum to be known as an advance allowance account, in no case to exceed five percent of the total of the appropriations for the board, and the auditor shall draw his warrant upon the treasurer for such accounts; and all such advance allowance accounts shall be accounted for by the board once every thirty days or oftener if required by the state auditor. Such authority shall not be delegated to any state institution under the control and supervision of the board.

Contracts entered into pursuant to this section shall be signed by the board in the name of the state and shall be approved as to form by the attorney general. A contract that requires more than six months for its fulfillment shall be filed with the state auditor. The board shall prescribe the amount of deposit or bond to be submitted with a bid or contract, if any, and the amount of deposit or bond to be given for the faithful performance of a contract. If the board purchases or contracts for materials, supplies, equipment and printing contrary to the provisions of sections ten-c through ten-f of this article or the rules and regulations pursuant thereto, such purchase or contract shall be void and of no effect.

The board may request the director of purchases to make
available, from time to time, the facilities and services of his
department to the board in the purchase and acquisition of
materials, supplies, equipment and printing, and the director
of purchases shall cooperate with the board in all such pur-
chases and acquisitions upon the request of the board.

§18-26-10d. Disposition of obsolete and unusable equipment, sur-
plus supplies and other unneeded materials; inventories.

The board shall dispose of obsolete and unusable equipment,
surplus supplies and other unneeded materials, either by transfer to other governmental agencies or institutions, by exchange or trade, or by sale as junk or otherwise. The board shall adopt rules and regulations governing and controlling the disposition of all such equipment, supplies and materials. The board shall advertise, by newspaper publication as a Class II legal advertisement in compliance with the provisions of article three, chapter fifty-nine of this code, in the county in which the equipment, supplies and materials are located at least ten days prior to the disposition, the availability or sales of such disposable equipment, supplies and materials and may sell same, in whole or in part, at public auction, or may transfer, exchange or trade same to other governmental agencies or institutions (if by exchange or trade, then without advertising), in whole or in part, as sound business practices may warrant under existing circumstances and conditions. The board shall inventory all such disposable equipment, supplies and materials from time to time as quantity and stocks may warrant, but shall make a complete annual inventory thereof as of the thirty-first day of March of each year. The board may report such inventories to the director of purchases whose services and facilities shall be available to the board in making advantageous disposition of any part or all of such disposable equipment, supplies and materials. Such inventories shall briefly describe the disposable items, the date of purchase thereof, the vendor to the board, the purchase price paid therefor and the board's order number authorizing disposition thereof and shall indicate briefly the reason said items are no longer needed or can no longer be used by the board. All such inventories shall be kept as public records open to public inspec-
tion at one or more of the institutions under the jurisdiction of
the board for a period of five years and may thereafter be de-
stroyed: Provided, That under no circumstances shall any of
the property described in this section be sold, transferred or
conveyed to any private person, firm or corporation other
than by public auction or as provided in article eight, chapter
five-a of this code.

§18-26-10e. Other code provisions relating to purchasing not con-
trolling; exceptions; criminal provisions and penal-
ties; financial interest of board, etc.; receiving any-
thing of value from interested party and penalties
therefor; application of bribery statute.

The provisions of article three, chapter five-a of this code
shall not control or govern the purchase, acquisition or other
disposition of any equipment, materials, supplies or printing
by the board, except as provided in sections ten-c through ten-
f of this article: Provided, That sections thirty-six, thirty-seven
and thirty-eight, article three of said chapter five-a shall apply
to all purchasing activities of the board.

Neither the board, nor any employee of the board, shall be
financially interested, or have any beneficial personal interest,
directly or indirectly, in the purchase of any equipment, ma-
terials, supplies or printing, nor in any firm, partnership, cor-
poration or association furnishing them. Neither the board nor
any employee of said board shall accept or receive directly or
indirectly from any person, firm or corporation, known by the
board or such employee to be interested in any bid, contract
or purchase, by rebate, gift or otherwise, any money or other
thing of value whatsoever, or any promise, obligation or con-
tract for future reward, or compensation.

A person who violates any of the provisions of the preceding
paragraph shall be guilty of a misdemeanor, and, upon con-
viction thereof, shall be confined in jail not less than three
months nor more than one year, or fined not less than fifty
nor more than one thousand dollars, or both, in the discretion
of the court: Provided, That any person who violates any of
such provisions by receiving money or other thing of value
under circumstances constituting the crime of bribery under the
provisions of section three, article five-a, chapter sixty-one of
this code, shall, upon conviction of bribery, be punished as
provided in said article five-a of chapter sixty-one.

§18-26-10f. Prequalification disclosure by vendors; register of vendors; exceptions; suspension of vendors.

Every person, firm or corporation selling or offering to sell
to the board, upon competitive bids or otherwise, any materi­
als, equipment, supplies or printing shall comply with all of
the provisions of section fourteen-a, article three, chapter five­
a of this code and shall file with the director of the purchas­
ing division of the state of West Virginia the affidavit re­
quired herein: Provided, That every such person, firm or
corporation who is presently in compliance with said section
shall not be required to requalify thereunder to be able to
transact business with the board.

Any person, firm or corporation failing or refusing to com­
ply with said statute as herein required shall be ineligible to
sell or offer to sell commodities or printing to the board as
hereinafter set forth: Provided, That any person suspended
under the provisions of section thirty-nine of said article three
shall not be eligible to sell or offer to sell commodities or
printing to the board: Provided, however, That the board shall
have the power and authority to suspend, for a period not to
exceed one year, the right and privilege of a person to bid on
purchases of the board when there is reason to believe that
such person has violated any of the provisions in sections ten-c
through ten-f of this article or the rules and regulations of the
board pursuant thereto. Every person whose right to bid has
been so suspended shall be notified thereof by a letter posted
by registered mail containing the reason for such suspension
and shall have the right to have the board’s action reviewed in
accordance with section forty, article three, chapter five-a
of this code.
AN ACT to amend article four, chapter five-a of the code of West Virginia, one thousand nine hundred thirty-one, as amended, by adding thereto a new section, designated section seven, relating to the capitol mail office; presorting of mail.

ARTICLE 4. GENERAL SERVICES DIVISION.

§5A-4-7. Preparation of mail for special postal rates.

1 All mail received by the mailing office for deposit in the United States mail may be processed and presorted according to postal regulations in order to receive the most favorable mailing rates available. The commissioner is authorized to make such expenditures as are necessary to presort all outgoing mail or to enter into contracts with any person, firm or corporation engaged in such business to supply the service.
agency for surplus property; specifying additional eligible purchasers to be public service districts, county building commissions, airport authorities and parks and recreation commissions to purchase state surplus property; authorizing the director of the state agency for surplus property to sell expendable, obsolete or unused motor vehicles owned by the state to eligible organizations, for a price less than the "average loan" value as published in the National Automobile Dealer's Association Official Used Car Guide (N.A.D.A.) when the fair market value of the vehicle is less than the N.A.D.A. average loan value; and providing that such fair market value must be based on a thorough inspection of the vehicle by the director or his representative; sale of vehicles to eligible organizations; restrictions on titling and resale.

Be it enacted by the Legislature of West Virginia:

That section three-a, article eight, chapter five-a of the code of West Virginia, one thousand nine hundred thirty-one, as amended, be amended and reenacted to read as follows:

ARTICLE 8. STATE AGENCY FOR SURPLUS PROPERTY.

§5A-8-3a. Disposition by director of surplus state property; semiannual report by director; application of proceeds from sale.

The director shall have the exclusive power and authority to make disposition of commodities or expendable commodities now owned or in the future acquired by the state when, in the opinion of the director, any such commodities are or become obsolete or unusable or are not being used or should be replaced.

The director shall determine what commodities or expendable commodities should be disposed of and he shall make such disposition in the manner which in his opinion will be most advantageous to the state, either by transferring the particular commodities or expendable commodities between departments, by selling such commodities to county commissions, county boards of education, municipalities, public service districts, county building commissions, airport authorities, parks and recreation commissions, and volunteer fire departments in this state, when such volunteer fire departments have been
held exempt from taxation under section 501(c) of the United States Internal Revenue Code, by trading in such commodities as a part payment on the purchase of new commodities, or by sale thereof to the highest bidder by means of public auctions or sealed bids, after having first advertised the time, terms and place of such sale as a Class II legal advertisement in compliance with the provisions of article three, chapter fifty-nine of this code, and the publication area for such publication shall be the county wherein the sale is to be conducted. The sale may also be advertised in such other advertising media as the director may deem advisable. The director may sell to the highest bidder or to any one or more of the highest bidders, if there is more than one, or, if in his opinion the best interest of the state will be served, reject all bids.

Upon the transfer of commodities or expendable commodities between departments, or upon the sale thereof to an eligible organization described above, the director shall set the price to be paid by the receiving eligible organization, with due consideration given to current market prices.

The director may sell expendable, obsolete or unused motor vehicles owned by the state to an eligible organization, other than volunteer fire departments. In addition, the director may sell expendable, obsolete or unused motor vehicles owned by the state with a gross weight in excess of four thousand pounds to an eligible volunteer fire department. The director, with due consideration given to current market prices, shall set the price to be paid by the receiving eligible organization, for motor vehicles sold pursuant to this provision: Provided, That the sale price of any motor vehicle sold to an eligible organization shall not be less than the "average loan" value, as published in the most recent available eastern edition of the National Automobile Dealer's Association (N.A.D.A.) Official Used Car Guide, if such a value is available, unless the fair market value of the vehicle is less than the N.A.D.A. "average loan" value, in which case the vehicle may be sold for less than the "average loan" value. Such fair market value must be based on a thorough inspection of the vehicle by the director or his representative who shall consider the
mileage of the vehicle, and the condition of the body, engine
and tires as indicators of its fair market value. If no such
value is available, the director shall set the price to be paid
by the receiving eligible organization with due
consideration given to current market prices. The duly
authorized representative of such eligible organization, for
whom such motor vehicle or other similar surplus
equipment is purchased or otherwise obtained, shall cause
ownership and proper title thereto to be vested only in the
official name of the authorized governing body for whom
the purchase or transfer was made. Such ownership or title,
or both, shall remain in the possession of that governing
body and be nontransferable for a period of not less than
one year from the date of such purchase or transfer. Resale
or transfer of ownership of such motor vehicle or equipment
prior to an elapsed period of one year may be made only by
reason of certified unserviceability.

The director shall report to the legislative auditor,
semiannually, all sales of commodities or expendable
commodities made during the preceding six months to
eligible organizations. The report shall include a
description of the commodities sold, the price paid by the
eligible organization, which received the commodities; and
the report shall show to whom each commodity was sold.

The proceeds of such sales or transfers shall be deposited
in the state treasury to the credit on a pro rata basis of the
fund or funds out of which the purchase of the particular
commodities or expendable commodities was made:
Provided, That the director may charge and assess fees
reasonably related to the costs of care and handling with
respect to the transfer, warehousing, sale and distribution of
state property disposed of or sold pursuant to the provisions
of this section.

AN ACT to amend article five-b, chapter sixteen of the code of
West Virginia, one thousand nine hundred thirty-one, as
amended, by adding thereto a new section, designated section
six-a, relating to consumer representatives on hospital boards of
directors; percentage of consumer representatives required.

Be it enacted by the Legislature of West Virginia:

That article five-b, chapter sixteen of the code of West Virginia,
one thousand nine hundred thirty-one, as amended, be amended
by adding thereto a new section, designated section six-a, to read
as follows:

ARTICLE 5B. HOSPITALS AND SIMILAR INSTITUTIONS.

§16-5B-6a. Consumer majorities on hospital boards of directors.

(a) The Legislature declares that a crisis in health care
costs exists, that one important approach to deal with this
crisis is to have widespread citizen participation in
hospital decision making and that many hospitals in West
Virginia exclude from their boards important categories of
consumers, including small businesses, organized labor, elderly persons and lower-income consumers. The Legislature further declares that nonprofit hospitals receive such major revenue from public sources and are so crucial in health planning and development that it is necessary to require consumer representatives on their boards of directors. Therefore, the Legislature determines that nonprofit hospitals and hospitals owned by local governments should have boards of directors representative of the communities they serve.

(b) As used in this section, “applicable hospitals” means all nonprofit hospitals and all hospitals owned by a county, city or other political subdivision of the state of West Virginia.

(c) At least forty percent of the boards of directors of applicable hospitals shall, on or before the first day of July, one thousand nine hundred eighty-four, be composed of an equal portion of consumer representatives from each of the following four categories: Small businesses, organized labor, elderly persons and persons whose income is less than the national median income. Special consideration shall be made to select women, racial minorities and handicapped persons.

(d) The provisions of this section may be enforced by the director of health, or by any citizen of the county wherein any offending hospital is located, by the filing of an action at law in the circuit court of such county.

(b) The board shall then compile all other relevant
financial and accounting data in order to have available
the statistical information necessary to properly con-
duct rate review and approval. Such data shall include
necessary operating expenses, appropriate expenses in-
curred for rendering services to patients who cannot or
do not pay, all properly incurred interest charges, and
reasonable depreciation expenses based on the expected
useful life of the property and equipment involved. The
board shall also obtain from each hospital a current rate
schedule as well as any subsequent amendments or
modifications of that schedule as it may require.

(c) Prior to the commencement of review activities,
the board may examine rate-making methods used by
other regulatory agencies in the state and hospital rate-
making agencies in other states before adopting a method
or methods for determining rates for the hospitals sub-
ject to this article.

(d) Upon appointment, the board shall enter into
negotiations with the health care financing administra-
tion within the United States department of health and
human services to seek approval and assurances from,
and enter into agreements with, the United States depart-
ment of health and human services so that the afore-
mentioned federal agency and affected state agencies al-
low reimbursement to hospitals subject to the provisions
of this article in accordance with rates approved by the
board. The absence of such approval and assurances from, and agreements with, the health care financing administration within the department of health and human services shall not diminish the authority of the board to set rates of payment for other payors.

(e) On or before June one, one thousand nine hundred eighty-four, the board shall submit its application for purposes of entering into an agreement with the secretary of the department of health and human services so that the aforementioned federal agency agrees to allow payment for services provided by hospitals subject to the provisions of this article in accordance with rates approved by the board. If such agreement is not obtained by the board from the department of health and human services on or before December one, one thousand nine hundred eighty-four, then the board, is functions, this article, and all rules and regulations promulgated thereunder shall terminate, and be void and of no further effect.

(f) No later than the first day of June, one thousand nine hundred eighty-three, every hospital shall provide to the board a full and complete verified statement of services offered as of the first day of February, one thousand nine hundred eighty-three, together with a verified statement of rates in effect as of the first day of February, one thousand nine hundred eighty-three, for such services.

§16-29B-17. Uniform system of accounts and financing; reporting.

(a) The board shall develop and specify a uniform system of accounting and financial reporting, including cost allocation methods by which hospitals shall record their revenues, income, expenses, capital outlay, assets, liabilities and units of service. The development and specification process aforementioned shall be conducted in a manner determined by the board to be most efficient for that purpose notwithstanding the provisions of chapter twenty-nine-a of this code. Each hospital shall adopt this
uniform system for the purpose of reporting costs and revenues to the board effective for the fiscal year beginning on or after twelve months from the effective date of this article.

(b) The board may provide for modification in the accounting and reporting system in order to correctly reflect differences in the scope or type of services and financial structures of the various categories, sizes and types of hospitals and in a manner consistent with the purposes of this article.

(c) The board may provide technical assistance to those hospitals which request it and which evidence sufficient need for assistance in the establishment of a data collection system to the extent that funds are available to the board for this purpose.

(d) The board shall, after consultation with health care providers, purchasers, classes of purchasers and third-party payors, adopt a mandatory form for reporting to the board, at its request, medical diagnosis, treatment and other services rendered to each purchaser by health care providers subject to the provisions of this article.

(e) Following a public hearing, the board shall establish a program to minimize the administrative burden on hospitals by eliminating unnecessary duplication of financial and operational reports; and to the extent possible, notwithstanding any other law, coordinate reviews, reports and inspections performed by federal, state, local and private agencies.

§16-29B-18. Hospital annual financial reporting.

(a) It shall be the duty of every hospital which comes under the jurisdiction of this article to file with the board the following financial statements or reports in a form and at intervals specified by the board, but at least annually:

(1) A balance sheet detailing the assets, liabilities and net worth of the hospital for its preceding fiscal year;
(2) A statement of income and expenses for the pre-
ceding fiscal year;

(3) A statement of services rendered and services
available; and

(4) Such other reports as the board may prescribe.

Where more than one licensed hospital is operated by
the reporting organization, the information required by
this section shall be reported for each hospital separately.

(b) The annual financial statements filed pursuant to
this section shall be prepared in accordance with the
system of accounting and reporting adopted under sec-
tion seventeen of this article. The board may require
attestations from responsible officials of the hospital that
such reports have to the best of their knowledge been
prepared truthfully and in accordance with the prescribed
system of accounting and reporting.

(c) All reports filed under any provisions of this
article, except personal medical information personally
identifiable to a purchaser, shall be open to public in-
spection and shall be available for examination at the
offices of the board during regular business hours.

(d) Whenever a further investigation is deemed nec-
essary or desirable to verify the accuracy of any in-
formation set forth in any statement, schedule or report
filed by a hospital under the provisions of this section,
the board may require a full or partial audit of the
records of the hospital.

§16-29B-19. Rate-setting powers generally.

(a) The board shall have power: (1) To initiate re-
views and investigations of hospital rates and establish
and approve such rates; (2) to initiate reviews and in-
vestigations of hospital rates for specific services and the
component factors which determine such rates; (3) to
initiate reviews and investigations of hospital budgets
and the specific components of such budgets; and (4) to
approve or disapprove hospital rates and budgets taking
into consideration the criteria set forth in section twenty
of this article.

The board shall commence reviews no sooner than
twelve months and no later than fifteen months after the
effective date of this article.

(b) In the interest of promoting the most efficient and
effective use of hospital service, the board may adopt
and approve alternative methods of rate determination.
The board may also adopt methods of charges and pay-
ments of an experimental nature which are in the public
interest and consistent with the purpose of this article.

§16-29B-20. Rate determination.

(a) Upon commencement of review activities, no rates
may be approved by the board nor payment be made for
services provided by hospitals under the jurisdiction of
the board by any purchaser or third-party payor to or
on behalf of any purchaser or class of purchasers unless:

(1) The costs of the hospital's services are reasonably
related to the services provided and the rates are reason-
ably related to the costs;

(2) The rates are equitably established among all
purchasers or classes of purchasers within a hospital
without discrimination unless federal or state statutes
or regulations conflict with this requirement. Equity
among classes of purchasers may be achieved by con-
sidering demonstrated differences in the financial re-
quirements of hospitals resulting from service, coverage
and payment characteristics of a class of purchasers. The
provision for differentials in rates among classes of pur-
chasers should be carried out in the context of each
hospital's total financial requirements for the efficient
provision of necessary services. The board shall institute
a study of objective methods of computing the percentage
differential to be utilized for all hospitals in determining
appropriate projected gross revenues under subsection
(b) of this section. Such study shall include a review
and determination of the relevant and justifiable eco-

omic factors which can be considered in setting such
The differential shall be allowed for only those activities and programs which result in quantifiable savings to the hospital with respect to patient care costs, bad debts, free care or working capital, or reductions in the payments of other payors. Each component utilized in determining the differential shall be individually quantified so that the differential shall equal the value assigned to each component. The board shall consider such matters as coverage to individual subscribers, the elderly and small groups, payment practices, savings in hospital administrative costs, cost containment programs and working capital. The study shall also provide for a method of annual recomputation of the differential and triennial recomputation of all other components. The board may contract with any person or entity to assist the board in the discharge of its duties as herein stated. Whoever obstructs any person or entity conducting a study authorized under the provisions of this section shall be deemed to be in violation of this article and shall be subject to any appropriate actions, including injunctive relief, as may be necessary for the enforcement of this section;

(3) The rates of payment for medicaid are reasonable and adequate to meet the costs which must be incurred by efficiently and economically operated hospitals subject to the provisions of this article. The rates shall take into account the situation of hospitals which serve disproportionate numbers of low income patients and assure that individuals eligible for medicaid have reasonable access, taking into account geographic location and reasonable travel time, to inpatient hospital services of adequate quality;

(4) The rates are equitable in comparison to prevailing rates for similar services in similar hospitals as determined by the board.

(b) In the interest of promoting efficient and appropriate utilization of hospital services the board shall review and make findings on the appropriateness of projected gross revenues for a hospital as such revenues
(c) When applying the criteria set forth above, the board shall consider all relevant factors including, but not limited to, the following: The economic factors in the hospital's area; the hospital's efforts to share services; the hospital's efforts to employ less costly alternatives for delivering substantially similar services or producing substantially similar or better results in terms of the health status of those served; the efficiency of the hospital as to cost and delivery of health care; the quality of care; occupancy level; a fair return on invested capital, not otherwise compensated for; whether the hospital is operated for profit or not for profit; costs of education; and, income from any investments and assets not associated with patient care, including, but not limited to, parking garages, residences, office buildings, and income from foundations and restricted funds whether or not so associated.

(d) Wages, salaries and benefits paid to or on behalf of nonsupervisory employees of hospitals subject to this article shall not be subject to review unless the board first determines that such wages, salaries and benefits may be unreasonably or uncustomarily high or low. Said exemption does not apply to accounting and reporting requirements contained in this article, nor to any that may be established by the board. "Nonsupervisory personnel," for the purposes of this section, means, but is not limited to, employees of hospitals subject to the provisions of this article who are paid on an hourly basis.

(e) Reimbursement of capital and operating costs for new services and capital projects subject to article two-d of this chapter shall not be allowed by the board if such costs were incurred subsequent to the eighth day of July, one thousand nine hundred seventy-seven, unless they were exempt from review or approved by the state planning development agency prior to the first day of July,
one thousand nine hundred eighty-four, pursuant to the provisions of article two-d of this chapter.

(f) The board shall consult with relevant licensing agencies and may require them to provide written findings with regard to their statutory functions and information obtained by them in the pursuit of those functions. Any licensing agency empowered to suggest or mandate changes in buildings or operations of hospitals shall give notice to the board together with any findings.

(g) Rates shall be set by the board in advance of the year during which they apply except for the procedure set forth in subsection (c), section twenty-one of this article and shall not be adjusted for costs actually incurred.

(h) All determinations, orders and decisions of the board with respect to rates and revenues shall be prospective in nature.

(i) No hospital may charge for services at rates in excess of those established in accordance with the requirements of and procedures set forth in this article.

§16-29B-21. Procedure for obtaining initial rate schedule; adjustments and revisions of rate schedules.

(a) The board shall propose the initial schedule of rates and shall notify the affected hospital and community by registered mail and announcement in the local media respectively. Any hospital may contest its proposed rate schedule by written notice to the board within twenty days after receipt of the proposed schedule. The board shall, in a contested proceeding, issue a final order with regard to the initial schedule of rates within ninety days after the board first submits the proposed initial schedule. If no notice of contest is filed, the proposed rates shall go into effect sixty days from the date first proposed.

(b) After the issuance of the order establishing the initial rate schedule, no hospital subject to this article
may change or amend its schedule of rates except in
accordance with the following procedures:

(1) Any request for a change in rate schedules or
other changes must be filed in writing to the board with
such supporting data as the hospital seeking to change
its rates considers appropriate, in the form prescribed by
the board. Upon receipt of notice, the board, if it con-
siders necessary, may hold a public hearing on the pro-
posed change. Such hearing shall be held no later than
forty-five days after receipt of the notice. The review of
the proposed change may not exceed an overall period
of one hundred eighty days from the date of filing to the
date of the board's order. If the board fails to complete
its review of the proposed change within the time period
specified for the review, the proposed change shall be
deemed to have been approved by the board. Any pro-
posed change shall go into effect upon the date specified
in the order;

(2) Each hospital shall establish, in a written report
which shall be incorporated into each proposed rate
application, that it has thoroughly investigated and con-
sidered:

(A) The economic and social impact of any proposed
rate increase, or service decrease, on hospital cost con-
tainment and upon health care purchasers, including
classes of purchasers, such as the elderly and low and
fixed income persons;

(B) State-of-the-art advances in health care cost con-
tainment, hospital management and rate design, as al-
ternatives to or in mitigation of any rate increase, or
service decrease, which report shall describe the state-
of-the-art advances considered and shall contain specific
findings as to each consideration, including the reasons
for adoption or rejection of each;

(C) Implementation of cost control systems, including
the elimination of unnecessary or duplicative facilities
and services, promotion of alternative forms of care,
and other cost control mechanisms;
(D) Initiatives to create alternative delivery systems;

and

(E) Efforts to encourage third-party payors, including, but not limited to, insurers, health service, care and maintenance organizations, to control costs, including a combination of education, persuasion, financial incentives and disincentives to control costs;

(3) In the event the board modifies the request of a hospital for a change in its rates so that the hospital obtains only a partial increase in its rate schedule, the hospital shall have the right to accept the benefits of the partial increase in rates and charge its purchasers accordingly without in any way adversely affecting or waiving its right to appeal that portion of the decision and order of the board which denied the remainder of the requested rate increase.

(c) Whether before or after the issuance of the order establishing the initial rate schedule for a hospital subject to the provisions of this article, the board, or the director of the state department of health as stated in section four of this article, shall have the discretionary authority to allow a temporary change in a hospital's rates which may be effective immediately upon filing and in advance of review procedures when it has been determined that such temporary rate changes are in the public interest, and are necessary to prevent insolvency, to maintain accreditation or for emergency repairs or to relieve undue financial hardship. When considering such temporary rate change requests, the board or the director shall extend preference to hospitals demonstrating immediate risk of insolvency, or demonstrating substantial financial hardship, to maintain accreditation or for emergency repairs which in the discretion of the board or the director justifies temporary rate changes prior to commencement of or full review of said rate changes by the board as set forth in this article. The board or the director when considering requests for temporary rate changes shall consider:

(1) The financial burden imposed upon purchasers or classes of purchasers by such change;
(2) Whether such change is in the public interest;

(3) Other factors determined to be relevant to the merits of a temporary rate change request.

(d) The board or the director shall make public its findings concerning a temporary rate change request.

(e) The board shall develop standards and criteria in order to assure that any temporary rate change is in the public interest and necessary to prevent harm to the public interest and to prevent insolvency or to relieve undue financial hardship. For temporary rate setting and review functions performed by the director of the state department of health pursuant to the provisions of this article, the board shall reimburse said department for all reasonable and necessary expenses incurred by the department in fulfillment of its responsibilities, duties and functions hereunder, until such time as the board assumes such responsibilities, duties and functions unto itself pursuant to the provisions of this article.

(f) When any change affecting an increase in rates goes into effect before a final order is entered in the proceedings, for whatever reasons, where it deems it necessary and practicable, the board may order the hospital to keep a detailed and accurate account of all amounts received by reason of the increase in rates and the purchasers and third-party payors from whom such amounts were received. At the conclusion of any hearing, appeal or other proceeding, the board may order the hospital to refund with interest to each affected purchaser and/or third-party payor any part of the increase in rates that may be held to be excessive or unreasonable. In the event a refund is not practicable, the hospital shall, under appropriate terms and conditions determined by the board, charge over and amortize by means of a temporary decrease in rates whatever income is realized from that portion of the increase in rates which was subsequently held to be excessive or unreasonable.

(g) The board, upon a determination that a hospital has overcharged purchasers or charged purchasers at
§16-29B-22. Incentives.

The board shall be required to allow, as an incentive to the efficient management and operation of hospitals covered by this article, that if said hospitals are more efficient than anticipated, they shall retain a portion of the resulting savings and if less efficient shall bear the resulting deficits.

§16-29B-23. Utilization review and quality assurance.

(a) In order to avoid unnecessary or inappropriate utilization of hospital services and to ensure high quality hospital care, the board shall establish a utilization review and quality assurance program. The board shall coordinate this program with utilization review and peer review programs presently established in state agencies, hospital services and health service corporations, hospitals or other organizations.

(b) With the assistance of the above-mentioned entities, and after public hearings, the board shall develop a plan for the review, on a sampling basis, of the necessity of admissions, length of stay and quality of care rendered at said hospitals.

(c) The board shall monitor identified problem areas and shall impose such sanctions and provide such incentives as necessary to ensure high quality and appropriate services and utilization in hospitals under the jurisdiction of this article.
§16-29B-24. Powers with respect to insurance policies and health organizations.

(a) With respect to any policy of accident or health insurance, including, but not limited to, those insurance policies covered by articles fifteen, sixteen and sixteen-a, chapter thirty-three of this code, and with respect to any health service, care or maintenance organization, or similar health-related organizations, including, but not limited to, those covered by articles twenty-four, twenty-five and twenty-five-a, chapter thirty-three of this code, the board shall:

(1) Be considered for all purposes a directly affected party before the insurance commissioner for purposes of any application, hearing or appeal on insurance matters;

(2) Review requests for, and make comments on, proposed rate increases or coverage decreases submitted to the insurance commissioner with respect to the reasonableness of the request and impact on health care cost containment;

(3) Comment on the advisability, reasonableness and impact on health care cost containment of any other matter coming before the insurance commissioner or any other governmental agency or body.

(b) On or before the date of filing with the insurance commissioner of any rate, including any proposed increase or decrease thereof, and any coverage matter, including any proposed increase or decrease thereof, each company or organization, described in subsection (a) above, shall notify the board of such filing, by copy thereof or notice form, as the board directs.

(c) Each company or organization, described in subsection (a) above, shall establish, in a written report which shall be incorporated into each proposed rate application, that it has thoroughly investigated and considered:

(1) The economic and social impact of any proposed
rate increase, or coverage decrease, on health care cost
containment and upon health care purchasers, including
classes of purchasers, such as the elderly and low and
fixed income persons;

(2) State-of-the-art advances in insurance and health
care management and rate design as alternatives to or
in mitigation of any rate increase, or coverage decrease,
which report shall describe the state-of-the-art advances
considered and shall contain specific findings as to each
consideration, including the reasons for adoption or re-
jection of each:

(3) Implementation of cost control systems, including
a combination of education, persuasion, financial incen-
tives and disincentives to control costs;

(4) Initiatives to create alternative delivery systems;
and

(5) Efforts to encourage health care providers to con-
trol costs, including the elimination of unnecessary or
duplicative facilities and services, promotion of alterna-
tive forms of care, and other cost control mechanisms.

§16-29B-25. Public disclosure.

From time to time, the board shall engage in or carry
out analyses and studies relating to health care costs,
the financial status of any hospital subject to the provi-
sions of this article or any other appropriate related mat-
ters, and it shall be empowered to publish and disseminate
any information which would be useful to members of
the general public in making informed choices about
hospitals.

§16-29B-26. Exemptions from state antitrust laws.

Actions of the board shall be exempt from antitrust
action as provided in section five, article eighteen, chapter
forty-seven of this code. Any actions of hospitals under
the board's jurisdiction, when made in compliance with
orders, directives, rules or regulations issued or promul-
gated by the board, shall likewise be exempt.
§16-29B-27. Penalties for violations.

1. In addition to civil remedies set forth, any person or hospital violating any provision of this article or any valid order or rule and regulation lawfully established hereunder shall be guilty of a misdemeanor, and, upon conviction thereof, shall be punished by a fine of not more than one thousand dollars. Each day of a continuing violation after conviction shall be considered a separate offense. No fines assessed may be considered part of the hospital’s costs in the regulation of its rates.

§16-29B-28. Effective date and termination date.

1. This article shall be in effect from passage. The board shall terminate under the provisions of article ten, chapter four of the code, on the thirtieth day of June, one thousand nine hundred eighty-seven, unless extended by legislation enacted before the termination date.

CHAPTER 16. PUBLIC HEALTH.

ARTICLE 2E. BIRTHING CENTERS.

§16-2E-1. Definitions.

1 For the purpose of this article:

2 "Birthing center" means a type of facility which is a building, house or the equivalent organized to provide facilities and staff to support a birthing service for pregnant clients.

§16-2E-2. Birthing centers to obtain license; application; fees; suspension or revocation.

1 No person, partnership, association or corporation, or any local governmental unit or any division, department, board or agency thereof may operate a birthing center unless such operation shall have been approved and licensed by the state director of health in accordance with the provisions of this article and the rules and regulations lawfully promulgated hereunder provided that all birthing centers which are in operation or which have received a certificate of need valid as of the date of passage of this act shall be deemed to have been so approved and shall be issued a license within thirty days of passage of this act.
Any person, partnership, association or corporation, or any local governmental unit or any division, department, board or agency thereof desiring a license hereunder shall file with the department of health an application in such form as the department shall prescribe and furnish accompanied by a fee of ten dollars. Information received by the department of health under the provisions of this section shall be confidential. The director of health is authorized to issue licenses for the operation of birthing centers which are found to comply with the provisions of this article and with all rules and regulations promulgated by the department. The license issued shall not be transferred or assignable. The director of health is authorized to suspend or revoke a license issued hereunder if the provisions of this article or of the rules and regulations are violated.

Before any such license is suspended or revoked, however, written notice shall be given the licensee, stating the grounds of the complaint, and the date, time and place set for the hearing on the complaint, which date shall not be less than thirty days from the time notice is given. Such notice shall be sent by registered mail to the licensee at the address where the institution concerned is located. The licensee shall be entitled to be represented by legal counsel at the hearing.

If a license is revoked as herein provided, a new application for a license shall be considered by the director of health if, when and after, the conditions upon which revocation was based have been corrected and evidence of this fact has been furnished. A new license shall then be granted after proper inspection has been made and all provisions of this article and rules and regulations promulgated hereunder have been satisfied.

All of the pertinent provisions of article five, chapter twenty-nine-a of this code shall apply to and govern any hearing authorized and required by the provisions of this article and the administrative procedure in connection with and following any such hearing, with like effect as if the provisions of said article five were set forth in extenso in this section.
The court shall have the power to affirm, modify or reverse the decision of the department and either the applicant or licensee or the department may appeal from the court's decision to the supreme court of appeals. Pending the final disposition of the matter the status quo of the applicant or licensee shall be preserved.

Any applicant or licensee who is dissatisfied with the decision of the state department of health as a result of the hearing provided in this section may, within thirty days after receiving notice of the decision, appeal to the circuit court, in term or in vacation, of the county in which the applicant or licensee is located for judicial review of the decision.

§16-2E-3. State director of health to establish rules and regulations; legislative findings; emergency filing.

The director of health shall promulgate rules and regulations not in conflict with any provision of this article, as it finds necessary in order to ensure adequate care and accommodations for consumers of birthing centers. In promulgating such regulations the director shall be limited to simple, necessary provisions which shall not have the effect of hampering the development and licensure of birthing centers. Such regulations shall not address acceptable site characteristics such as the number of minutes of travel time between a birthing center and a hospital, or physical environment, such as acceptable levels of temperature of any refrigerator found in a birthing center, or clinical equipment, such as the number and kind of clocks which a birthing center must have on the premises.

The Legislature hereby finds and declares that it is in the public interest to encourage the development of birthing centers for the purpose of providing an alternative method of birth, and therefore, in order to provide for the licensing of such birthing centers to prevent substantial harm to the public interest because of preexisting delay, within sixty days of passage of this act, the director of health shall proceed to promulgate such rules and regulations under the provisions of chapter twenty-nine-a, article three, section fifteen.
§16-2E-4. Insurance.

1 Not later than the first day of July, one thousand nine hundred eighty-three, every policy or contract of individual accident and sickness insurance covered under the provision of article fifteen, chapter thirty-three, or policy or contract of group accident and sickness insurance covered under the provisions of article sixteen of said chapter, including, but not limited to, any subscriber contract issued by a corporation organized pursuant to article twenty-four of said chapter, shall include benefits to all subscribers and members for birthing center service charges, and for care rendered therein by a licensed nurse midwife or midwife as this occupation is defined in section one, article fifteen, chapter thirty of this code, and which care is within the scope of duties for such licensed nurse midwife or midwife as permitted by the provisions of section seven, article fifteen of said chapter thirty.

§16-2E-5. Violations; penalties; injunction.

1 Any person, partnership, association or corporation, and any local governmental unit or any division, department, board or agency thereof establishing, conducting, managing or operating a birthing center without first obtaining a license therefor as herein provided, or violating any provisions of this article or any rule or regulation lawfully promulgated thereunder, shall be guilty of a misdemeanor, and, upon conviction thereof, shall be punished for the first offense by a fine of not more than one hundred dollars, or by imprisonment in the county jail for a period of not more than ninety days, or by both such fine and imprisonment, in the discretion of the court. For each subsequent offense the fine may be increased to not more than five hundred dollars, with imprisonment in the county jail for a period of not more than ninety days, or both such fine and imprisonment, in the discretion of the court. Each day of a continuing violation after conviction shall be considered a separate offense.

19 Notwithstanding the existence or pursuit of any other remedy, the director may, in the manner provided by law, maintain an action in the name of the state for an injunction against any person, partnership, association, corporation, or any local governmental unit, or any division,
24 department, board or agency thereof, to restrain or prevent
25 the establishment, conduct, management or operation of
26 any birthing center without first obtaining a license
27 therefor in the manner hereinbefore provided.

CHAPTER 108
(S. B. 51—By Mr. Holliday)
[Passed March 1, 1983; in effect ninety days from passage. Approved by the Governor.]

AN ACT to amend article five, chapter nine of the code of West
Virginia, one thousand nine hundred thirty-one, as amended,
by adding thereto a new section, designated section eleven,
relating to right of subrogation by department of human services
to the rights of recipients of medical assistance; establishing
certain procedures with respect to such right of subrogation;
the rights of the recipients of medical assistance to maintain
actions for injuries and the inclusion of such assistance as a
portion of damages therein; prohibiting certain information from
being given the jury in such cases; distribution of amount
awarded and payment of attorney fees in such cases; establish­
ing certain rights and duties with respect to the settlement of
such cases; rules with respect to the bringing of action by the
department of human services to enforce its right of subroga­
tion and the effect thereof; and permitting certain causes of
action to be split for such purpose.

Be it enacted by the Legislature of West Virginia:

That article five, chapter nine of the code of West Virginia, one
thousand nine hundred thirty-one, amended, be amended by adding
thereto a new section, designated section eleven, to read as follows:

ARTICLE 5. MISCELLANEOUS PROVISIONS.

§9-5-11. Right of subrogation by department of human services
to the rights of recipients of medical assistance; rules
as to effect of subrogation.

(a) If medical assistance is paid on behalf of a recipient
of medical assistance because of any sickness, injury, disease
or disability, and another person is legally liable for such expense, the department may recover reimbursement for such medical assistance from such other person, or from the recipient of such assistance if he has been reimbursed by the other person. The department shall be legally subrogated to the rights of the recipient against the person so liable, but only to the extent of the reasonable value of the medical assistance paid and attributable to such sickness, injury, disease or disability; and the commissioner may compromise, settle and execute a release of any such claim. The provisions of this subsection are subject to the provisions of subsection (b) of this section.

(b) Nothing in this section shall be construed so as to prevent the recipient of medical assistance from maintaining an action for injuries received by him against any other person and from including therein, as part of the compensatory damages sought to be recovered, the amount or amounts of his medical expenses, even though such person received medical assistance in the payment of such medical expenses in whole or in part.

If the action be tried by a jury, the jury shall not be informed as to the interest of the department of human services, if any, and such fact shall not be disclosed to the jury at any time. The trial judge shall, upon the entry of judgment or the verdict, direct that an amount equal to the amount of medical assistance given be withheld and paid over to the department of human services. Irrespective of whether the case be terminated by judgment or by settlement without trial, from the amount required to be paid to the department of human services there shall be deducted the attorney fees attributable to such amount in accordance with and in proportion to the fee arrangement made between the recipient and his attorney of record so that the department shall bear the pro rata portion of such attorney fees. Nothing in this section shall preclude any person who has received medical assistance from settling any cause of action which he may have against another person and delivering to the department, from the proceeds of such settlement, the sums received by him from the department or paid by the department for his medical
assistance. Any release given by a person who has received medical assistance to another person releasing such other person of liability with respect to any cause of action shall be binding upon the department if the person for whose benefit the release inures is unaware of, or has not been informed of, the interest of the department therein. If such other person is aware of or has been informed of the department's interest in the matter, it shall be the duty of the person to whose benefit the release inures to withhold so much of the settlement as may be necessary to reimburse the department to the extent of its interest in the settlement. If the department intends to maintain an action against any person for the collection of sums paid by it for medical assistance, it shall, prior thereto, notify the recipient of such assistance of its intent to bring an action at least thirty days prior to the bringing thereof. Such notice shall inform the recipient of the department's intent and shall advise the recipient of his right to bring such action in his own name in which he may include as a part of his claim the sums claimed by the department. Such notice shall also advise the recipient that unless the department is notified by him or his representative within thirty days of the date of the receipt of such notice, the department shall proceed to maintain an action to the extent of its interest in the name of the department. Any action subsequently brought by the department in its name as subrogee of the recipient shall not preclude the recipient from maintaining an action in his own name for the full amount of the claim and any verdict rendered therein shall be reduced by the amount previously awarded the department as hereinafter provided. To the extent provided herein and in no other event, unless specifically provided by law, shall any cause of action be divisible or capable of being spilt if such cause arises from the same transaction.

Only single shot muzzle-loading rifles with iron sights having a bore diameter of no less than forty-four one-hundredths inch shall be legal firearms for the taking of deer during the special season provided herein.

A hunter killing a deer with a muzzle-loading rifle may hunt for and kill an additional deer during the bow season or regular firearms season, but shall not hunt for or kill more than two deer in any calendar year.

The special season provided herein shall be concurrent with all other seasons designated for the taking of game.

Bona fide resident landowners or their resident children, bona fide residents of West Virginia who are tenants of such land, and any bona fide resident stockholder of resident corporations which are formed for the primary purpose of hunting or fishing and which are the fee simple owners of no less than one thousand acres of land upon which such antlerless deer may be hunted are not required to have a Class N license in their possession while hunting antlerless deer on their own land during the Class N license season.

AN ACT to amend and reenact sections fourteen and fourteen-c, article three, chapter thirty-three of the code of West Virginia, one thousand nine hundred thirty-one, as amended, relating to preparation and filing of premium tax returns by insurance companies; payment of tax; annual financial statements.

Be it enacted by the Legislature of West Virginia:

That sections fourteen and fourteen-c, article three, chapter thirty-three of the code of West Virginia, one thousand nine hundred thirty-one, as amended, be amended and reenacted to read as follows:
ARTICLE 3. LICENSING, FEES AND TAXATION OF INSURERS.

§33-3-14. Annual financial statement and premium tax return; remittance by insurer of premium tax, less certain deductions.

§33-3-14c. Computation of tax; payment.

§33-3-14. Annual financial statement and premium tax return; remittance by insurer of premium tax, less certain deductions.

1 Every insurer transacting insurance in West Virginia shall file with the commissioner, on or before the first day of March, each year, a financial statement made under oath of its president or secretary and on a form prescribed by the commissioner. Such insurer shall also, on or before the first day of March of each year subject to the provisions of section fourteen-c of this article, under the oath of its president or secretary, make a premium tax return for the previous calendar year, on a form prescribed by the commissioner showing the gross amount of direct premiums (whether designated as a premium or by some other name) collected and received by it during the previous calendar year on policies covering risks resident, located or to be performed in this state and compute the amount of premium tax chargeable to it in accordance with the provisions of this article, deducting the amount of quarterly payments as required to be made pursuant to the provisions of section fourteen-c of this article, if any, less any adjustments to the gross amount of such direct premiums made during such calendar year, if any, and transmit with such return to the commissioner a remittance in full for the tax due. The tax shall be a sum equal to two percent of the gross direct premiums, including dividends (by whatever name called) on participating policies applied in reduction of premiums, less premiums returned to policyholders because of cancellation of policies, and shall also include any additional tax due under section fourteen-a of this section. All taxes received by the commissioner shall be paid by him into the state treasury for the benefit of the state fund.

§33-3-14c. Computation of tax; payment.

1 The taxes levied hereunder shall be due and payable in quarterly installments on or before the twenty-fifth day of the
month succeeding the end of the quarter in which they accrue, except for the fourth quarter, for which taxes shall be due and payable on or before the first day of March of the succeeding year. The insurer subject to making such payments shall, by the twenty-fifth day of the month succeeding the close of the quarter, except the fourth quarter as provided above, prepare an estimate of the tax based on the estimated amount of taxable premiums during the preceding calendar quarter, less adjustments to the gross amount of direct premiums from the preceding quarter, sign the same by its president or secretary, under oath, and mail the same together with a remittance of the amount of tax to the office of the commissioner.

Any insurer failing or refusing to pay estimated taxes for more than thirty days after the time specified is liable for a civil penalty of up to one hundred dollars for each additional day of delinquency, to be assessed by the commissioner. Failure of an insurer to make quarterly payments, if required, of at least one fourth of either the total tax paid during the preceding calendar year or eighty percent of the actual tax for the current calendar year is considered the same as a failure or refusal to pay the estimated taxes and subjects the insurer to the penalties provided in this section. The amount of estimated taxes and the penalties collected shall be paid to the commissioner and he may suspend the insurer until estimated taxes and penalty, should any penalty be imposed, are fully paid.

§33-3-14d. Additional fire and casualty insurance premium tax; allocation of proceeds; effective date.

(a) For the purpose of providing additional revenue for municipal policemen's and firemen's pension and relief funds and additional revenue for volunteer and part volunteer fire companies and departments, there is hereby levied and imposed, on and after the first day of January, one thousand nine hundred eighty-two, an additional premium tax equal to one percent of gross direct premiums collected, less premiums returned to policyholders because of cancellation of policies, for fire insurance and casualty insurance policies. For purposes of this section, casualty insurance shall not include insurance on the life of a debtor pursuant to or in connection with a specific loan or other credit transaction or insurance on a debtor to provide indemnity for payments becoming due on a specific loan or other credit transaction while the debtor is disabled as defined in the policy. Except as otherwise provided in this section, all provisions of this article relating to the levy, imposition and collec-

All moneys collected from this additional tax shall be received by the commissioner and paid by him into a special account in the state treasury, designated the municipal pensions and protection fund. The net proceeds of this tax after appropriation thereof by the Legislature shall be distributed in accordance with the provisions of subsection (c) of this section.

Seventy-five percent of the aforementioned revenues allocated shall be allocated to municipal policemen's and firemen's pension and relief funds and twenty-five percent of such allocated revenues shall be allocated to volunteer and part volunteer fire companies and departments.
(c) (1) Each municipal pension and relief fund shall have allocated and authorized for distribution a pro rata share of the revenues allocated to municipal policemen's and firemen's pension and relief funds based upon the corresponding municipality's average monthly number of members who worked at least one hundred hours per month during the preceding fiscal year. All moneys received by municipal pension and relief funds under this section may be expended only for the purposes described in sections sixteen through twenty-eight, article twenty-two, chapter eight of this code.

(2) Each volunteer fire company or department shall receive an equal share of the revenues allocated for volunteer and part volunteer fire companies and departments.

(3) In addition to the share allocated and distributed in accordance with subdivision (1) of this subsection, each municipal fire department composed of full-time paid members and volunteers and part volunteer fire companies and departments shall receive a share equal to the share distributed to volunteer fire companies under subdivision (2) of this subsection reduced by an amount equal to such share multiplied by the ratio of the number of full-time paid fire department members who are also members of a municipal firemen's pension system to the total number of members of such fire department.

(d) The allocation and distribution of revenues provided for in this section are subject to the provisions of section twenty, article twenty-two, and sections eight-a and eight-b, article fifteen, chapter eight of this code.

**CHAPTER 117**

(H. B. 1813—By Mr. Lewis)

[Passed March 11, 1983; in effect ninety days from passage. Approved by the Governor.]

AN ACT to amend article six, chapter thirty-three of the code of West Virginia, one thousand nine hundred thirty-one, as
amended, by adding thereto a new section, designated section thirty-one-b, relating to nondiscriminatory automobile liability insurance rates for handicapped persons.

_Be it enacted by the Legislature of West Virginia:_

That article six, chapter thirty-three of the code of West Virginia, one thousand nine hundred thirty-one, as amended, be amended by adding thereto a new section, designated section thirty-one-b, to read as follows:

**ARTICLE 6. THE INSURANCE POLICY.**

§33-6-31b. Nondiscriminatory automobile insurance rates for handicapped persons.

1 No insurer, in determining rates to be charged for a policy or contract of bodily injury liability insurance or of property damage liability insurance, covering liability arising from the ownership, maintenance or use of a motor vehicle, may discriminate in any manner on the basis of an insured's or potential insured's physical handicap.
chapter thirty-three of said code be amended and reenacted, all to read as follows:

**Article**

7. **Assets and Liabilities.**

13. **Life Insurance.**

**ARTICLE 7. ASSETS AND LIABILITIES.**

§33-7-9. **Standard valuation law for life policies.**

1. (1) The commissioner shall annually value, or cause to be valued, the reserve liabilities (hereinafter called reserves) for all outstanding life insurance policies and annuity and pure endowment contracts of every life insurer transacting insurance in this state, except that in the case of an alien insurer such valuation shall be limited to its United States business, and may certify the amount of any such reserves, specifying the mortality table or tables, rate or rates of interest and method (net level premium method or other) used in the calculation of such reserves.

2. All valuations made by him or by his authority shall be made upon the net premium basis.

3. In every case the standard of valuation employed shall be stated in his annual report.

4. In calculating such reserves, he may use group methods and approximate averages for fractions of a year or otherwise. In lieu of the valuation of the reserves herein required of any foreign or alien company, he may accept any valuation made, or cause to be made, by the insurance supervisory official of any state or other jurisdiction when such valuation complies with the minimum standard herein provided and if the official of such state or jurisdiction accepts as sufficient and valid for all legal purposes the certificate of valuation of the commissioner when such certificate states the valuation to have been made in a specified manner according to which the aggregate reserves would be at least as large as if they had been computed in the manner prescribed by the law of that state or jurisdiction.

5. (2) This subsection shall apply to only those policies and contracts issued prior to the original operative date of
the Standard Nonforfeiture Law (now section thirty, article thirteen of this chapter). All valuations shall be according to the standard of valuations adopted by the insurer for the obligations to be valued. Any insurer may adopt different standards for obligations of different dates or classes, but if the total value determined by any such standard for the obligation for which it has been adopted shall be less than that determined by the legal minimum standard hereinafter prescribed, or if the insurer adopts no standard, said legal minimum standard shall be used.

Except as otherwise provided in paragraph (B), subdivision (a), subsection (3), the legal minimum standard for contracts issued before the first day of January, in the year one thousand nine hundred one, shall be actuaries' or combined experience table of mortality with interest at four percent per annum, and for contracts issued on or after said date shall be the "American Experience Table" of mortality with interest at three and one-half percent per annum, except that the minimum standard for the valuation of annuities and pure endowments purchased under group annuity and pure endowment contracts shall be that provided by this subsection but replacing the interest rates specified in this subsection by an interest rate of five percent per annum. Policies issued by insurers doing business in this state may provide for not more than one-year preliminary term insurance:

Provided, That if the premium charged for term insurance under a limited payment life preliminary term policy providing for the payment of all premiums thereof in less than twenty years from the date of the policy, or under an endowment preliminary term policy, exceeds that charged for like insurance under twenty payment life preliminary term policies of the same insurer, the reserve thereon at the end of any year, including the first, shall not be less than the reserve on a twenty payment life preliminary term policy issued in the same year and at the same age, together with an amount which shall be equivalent to the accumulation of a net level premium sufficient to provide for a pure endowment at the end of the premium payment period, equal to the difference between the value at the end of such period of
such a twenty payment life preliminary term policy and a
full reserve at such time of such a limited payment life or
endowment policy.

The commissioner may vary the standards of interest and
mortality in the case of alien insurers and in particular cases
of invalid lives and other extra hazards.

Reserves for all such policies and contracts may be cal-
culated, at the option of the insurer, according to any stan-
dards which produce greater aggregate reserves for all such
policies and contracts than the minimum reserves required
by this subsection.

(3) Except as otherwise provided in paragraphs (B) to
(G), subdivision (a) of this subsection, this subsection shall
apply to only those policies and contracts issued on or after
the original operative date of the Standard Nonforfeiture Law
(now section thirty, article thirteenth of this chapter).

(a) (A) Except as otherwise provided in paragraphs (B)
to (G) of this subdivision, the minimum standard for the
valuation of all such policies and contracts shall be the com-
missioners reserve valuation methods defined in subdivisions
(b), (c) and (f), five percent interest for group annuity and
pure endowment contracts and three and one-half percent
interest for all other such policies and contracts, or in the
case of policies and contracts, other than annuity and pure
endowment contracts, issued on or after the third day of
June, one thousand nine hundred seventy-four, four per-
cent interest for such policies issued prior to the sixth day of
April, one thousand nine hundred seventy-seven, five and one-
half percent interest for single premium life insurance policies
and four and one-half percent interest for all other such
policies issued on or after the sixth day of April, one thousand

article thirteenth of this chapter, and the Commissioners 1958
Standard Ordinary Mortality Table for such policies issued on or after the operative date of subsection (4a), section thirty, article thirteen of this chapter: Provided, That for any category of such policies issued on female risks all modified net premiums and present values referred to in this section may be calculated according to an age not more than six years younger than the actual age of the insured; and for such policies issued on or after the operative date of subsection (4c), section thirty, article thirteen of this chapter (I) the Commissioners 1980 Standard Ordinary Mortality Table or (II) at the election of the company for any one or more specified plans of life insurance, the Commissioners 1980 Standard Ordinary Mortality Table with ten-year selection mortality factors or (III) any ordinary mortality table, adopted after one thousand nine hundred eighty by the National Association of Insurance Commissioners, that is approved by regulation promulgated by the commissioner for use in determining the minimum standard of valuation for such policies;

(iv) For group annuity and pure endowment contracts,
excluding any disability and accidental death benefits in such policies, — the Group Annuity Mortality Table for 1951, any modification of such table approved by the commissioner, or, at the option of the company, any of the tables or modification of tables specified for individual annuity and pure endowment contracts;

Any such table shall, for active lives, be combined with a mortality table permitted for calculating the reserves for life insurance policies;

(vi) For accidental death benefits in or supplementary to policies, — for policies issued on or after the first day of January, one thousand nine hundred sixty-six, the 1959 Accidental Death Benefits Table or any accidental death benefits table, adopted after one thousand nine hundred eighty by the National Association of Insurance Commissioners, that is approved by regulation promulgated by the commissioner for use in determining the minimum standard of valuation for such policies; for policies issued on or after the first day of January, one thousand nine hun-

Either table shall be combined with a mortality table permitted for calculating the reserves for life insurance policies; and

(vii) For group life insurance, life insurance issued on the substandard basis and other special benefits, — such tables as may be approved by the commissioner.

(B) Except as provided in paragraphs (C) to (G), the minimum standard for the valuation of all individual annuity and pure endowment contracts issued on or after the operative date of this paragraph (B), as defined herein, and for all annuities and pure endowments purchased on or after such operative date under group annuity and pure endowment contracts, shall be the commissioners reserve valuation methods defined in subdivisions (b) and (c) and the following tables and interest rates;

(i) For individual annuity and pure endowment contracts issued prior to the sixth day of April, one thousand nine hundred seventy-seven, excluding any disability and accidental death benefits in such contracts, — the 1971 Individual Annuity Mortality Table, or any modification of this table approved by the commissioner, and six percent interest for single premium immediate annuity contracts, and four percent interest for all other individual annuity and pure endowment contracts;

missioner for use in determining the minimum standard of valuation for such contracts, or any modification of these tables approved by the commissioner, and seven and one-half percent interest;

(iii) For individual annuity and pure endowment contracts issued on or after the sixth day of April, one thousand nine hundred seventy-seven, other than single premium immediate annuity contracts, excluding any disability and accidental death benefits in such contracts, — the 1971 Individual Annuity Mortality Table or any individual annuity mortality table adopted after one thousand nine hundred eighty by the National Association of Insurance Commissioners, that is approved by regulation promulgated by the commissioner for use in determining the minimum standard of valuation for such contracts, or any modification of these tables approved by the commissioner, and five and one-half percent interest for single premium deferred annuity and pure endowment contracts, and four and one-half percent interest for all other such individual annuity and pure endowment contracts;

(iv) For all annuities and pure endowments purchased prior to the sixth day of April, one thousand nine hundred seventy-seven, under group annuity and pure endowment contracts, excluding any disability and accidental death benefits purchased under such contracts, — the 1971 Group Annuity Mortality Table, or any modification of this table approved by the commissioner, and six percent interest; and

(v) For all annuities and pure endowments purchased on or after the sixth day of April, one thousand nine hundred seventy-seven, under group annuity and pure endowment contracts, excluding any disability and accidental death benefits purchased under such contracts, — the 1971 Group Annuity Mortality Table or any group annuity mortality table, adopted after one thousand nine hundred eighty by the National Association of Insurance Commissioners, that is approved by regulation promulgated by the commissioner for use in determining the minimum standard of valuation for such annuities and pure endowments, or any modification of these tables approved by the commissioner, and seven and one-half percent interest.
After the third day of June, one thousand nine hundred seventy-four, any company may file with the commissioner a written notice of its election to comply with the provisions of this paragraph (B) after a specified date before the first day of January, one thousand nine hundred seventy-nine, which shall be the operative date of this paragraph (B) for such company, provided that a company may elect a different operative date for individual annuity and pure endowment contracts from that elected for group annuity and pure endowment contracts. If a company makes no such election, the operative date of this paragraph (B) for such company shall be the first day of January, one thousand nine hundred seventy-nine.

(C) The interest rates used in determining the minimum standard for the valuation of:

(i) All life insurance policies issued in a particular calendar year, on or after the operative date of subsection (4c), section thirty, article thirteen of this chapter;

(ii) All individual annuity and pure endowment contracts issued in a particular calendar year on or after the first day of January, one thousand nine hundred eighty-two;

(iii) All annuities and pure endowments purchased in a particular calendar year on or after the first day of January, one thousand nine hundred eighty-two, under group annuity and pure endowment contracts; and

(iv) The net increase, if any, in a particular calendar year after the first day of January, one thousand nine hundred eighty-two, in amounts held under guaranteed interest contracts shall be the calendar year statutory valuation interest rates as defined in this subsection.

(D) The calendar year statutory valuation interest rates, \( I \), shall be determined as follows and the results rounded to the nearer one quarter of one percent (1/4 of 1%):

(i) For life insurance,

\[ I = 0.03 + W(R1 - 0.03) + W/2(R2 - 0.09); \]
For single premium immediate annuities and for annuity benefits involving life contingencies arising from other
annuities with cash settlement options and from guaranteed interest contracts with cash settlement options,

\[ I = 0.03 + W (R - 0.03) \]

where \( R_1 \) is the lesser of \( R \) and 0.09;
\( R_2 \) is the greater of \( R \) and 0.09.
\( R \) is the reference interest rate defined in this section and \( W \) is the weighting factor defined in this section.

(iii) For other annuities with cash settlement options and guaranteed interest contracts with cash settlement options, valued on an issue year basis, except as stated in (ii) above, the formula for life insurance stated in (i) above shall apply to annuities and guaranteed interest contracts with guarantee durations in excess of ten years and the formula for single premium immediate annuities stated in (ii) above shall apply to annuities and guaranteed interest contracts with guarantee duration of ten years or less;

(iv) For other annuities with no cash settlement options and for guaranteed interest contracts with no cash settlement options, the formula for single premium immediate annuities stated in (ii) above shall apply; and

(v) For other annuities with cash settlement options and guaranteed interest contracts with cash settlement options, valued on a change in fund basis, the formula for single premium immediate annuities stated in (ii) above shall apply.

However, if the calendar year statutory valuation interest rate for any life insurance policies issued in any calendar year determined without reference to this sentence differs from the corresponding actual rate for similar policies issued in the immediately preceding calendar year by less than one half of one percent (\( \frac{1}{2} \) of 1%), the calendar year statutory valuation interest rate for such life insurance policies shall be equal to the corresponding actual rate for the immediately
preceding calendar year. For purposes of applying the im-
mediately preceding sentence, the calendar year statutory
valuation interest rate for life insurance policies issued in a
calendar year shall be determined for one thousand nine
hundred eighty (using the reference interest rate defined for
one thousand nine hundred seventy-nine) and shall be deter-
mined for each subsequent calendar year regardless of when
subsection (4c), section thirty, article thirteen of this chapter
becomes operative.

(E) The weighting factors referred to in the formulas stated
above are given in the following tables:

For life insurance, the guarantee duration is the maximum
number of years the life insurance can remain in force on a
basis guaranteed in the policy or under options to convert
to plans of life insurance with premium rates or nonforfeiture
values or both which are guaranteed in the original policy;

(ii) Weighting factor for single premium immediate annui-
ties and for annuity benefits involving life contingencies
arising from other annuities with cash settlement options and
guaranteed interest contracts with cash settlement options:

.80

(iii) Weighting factors for other annuities and for guaran-
teed interests contracts, except as stated in (ii) above, shall be
as specified in tables (a), (b) and (c) below, according to the
rules and definitions in (d), (e) and (f) below:

(a) For annuities and guaranteed interest contracts valued
on an issue year basis:
367 Guarantee Duration (Years)  
368  
369  
370  
371 5 or less:  
372 More than 5, but not more than 10:  
373 More than 10, but not more than 20:  
374 More than 20:  

(b) For annuities and guaranteed interest contracts valued on a change in fund basis, the factors shown in (a) above:  

(c) For annuities and guaranteed interest contracts valued on an issue year basis (other than those with no cash settlement options) which do not guarantee interest on considerations received more than one year after issue or purchase and for annuities and guaranteed interest contracts valued on a change in fund basis which do not guarantee interest rates on considerations received more than twelve months beyond the valuation date, the factors shown in (a) or derived in (b) increased by:  

(d) For other annuities with cash settlement options and guaranteed interest contracts with cash settlement options, the guarantee duration is the number of years for which the contract guarantees interest rates in excess of the calendar year statutory valuation interest rate for life insurance policies with guarantee duration in excess of twenty years. For other annuities with no cash settlement options and for guaranteed interest contracts with no cash settlement options, the guarantee duration is the number of years from the date of issue or date of purchase to the date annuity benefits are scheduled to commence;  

(e) Plan type as used in the above tables is defined as follows:
Plan Type A:

At any time policyholder may withdraw funds only (1) with an adjustment to reflect changes in interest rates or asset values since receipt of the funds by the insurance company or (2) without such adjustment but in installments over five years or more or (3) as an immediate life annuity or (4) no withdrawal permitted;

Plan Type B:

Before expiration of the interest rate guarantee, policyholder may withdraw funds only (1) with an adjustment to reflect changes in interest rates or asset values since receipt of the funds by the insurance company or (2) without such adjustment but in installments over five years or more or (3) no withdrawal permitted. At the end of interest rate guarantee, funds may be withdrawn without such adjustment in a single sum or installments over less than five years;

Plan Type C:

Policyholder may withdraw funds before expiration of interest rate guarantee in a single sum or installments over less than five years either (1) without adjustment to reflect changes in interest rates or asset values since receipt of the funds by the insurance company or (2) subject only to a fixed surrender charge stipulated in the contract as a percentage of the fund.

(f) A company may elect to value guaranteed interest contracts with cash settlement options and annuities with cash settlement options on either an issue year basis or on a change in fund basis. Guaranteed interest contracts with no cash settlement options and other annuities with no cash settlement options must be valued on an issue year basis. As used in this subsection, an issue year basis of valuation refers to a valuation basis under which the interest rate used to determine the minimum valuation standard for the entire duration of the annuity or guaranteed interest contract is the calendar year valuation interest rate for the year of issue or year of purchase of the annuity or guaranteed
interest contract, and the change in fund basis of valuation
refers to a valuation basis under which the interest rate
used to determine the minimum valuation standard applicable to each change in the fund held under the annuity or
guaranteed interest contract is the calendar year valuation
interest rate for the year of the change in the fund.

(F) The reference interest rate referred to in paragraph
(D) shall be defined as follows:

(i) For all life insurance, the lesser of the average over a
period of thirty-six months and the average over a period of
twelve months, ending on the thirtieth day of June of the
calendar year next preceding the year of issue, of Moody's
Corporate Bond Yield Average — Monthly Average Corporates, as published by Moody's Investors Service, Inc;

(ii) For single premium immediate annuities and for annuity benefits involving life contingencies arising from other annuities with cash settlement options and guaranteed interest contracts with cash settlement options, the average over a period of twelve months, ending on the thirtieth day of June of the calendar year of issue or year of purchase, of Moody's Corporate Bond Yield Average — Monthly Average Corporates, as published by Moody's Investors Service, Inc;

(iii) For other annuities with cash settlement options and guaranteed interest contracts with cash settlement options, valued on a year of issue basis, except as stated in (ii) above, with guarantee duration in excess of ten years. the lesser of the average over a period of thirty-six months and the average over a period of twelve months, ending on the thirtieth day of June of the calendar year of the issue or purchase, of Moody's Corporate Bond Yield Average — Monthly Average Corporates, as published by Moody's Investors Service, Inc;

(iv) For other annuities with cash settlement options and guaranteed interest contracts with cash settlement options, valued on a year of issue basis, except as stated in (ii) above, with guarantee duration of ten years or less, the average over
a period of twelve months, ending on the thirtieth day of June of the calendar year of issue or purchase, of Moody’s Corporate Bond Yield Average — Monthly Average Corporates, as published by Moody’s Investors Service, Inc;

(v) For other annuities with no cash settlement options for guaranteed interest contracts with no cash settlement options, the average over a period of twelve months, ending on the thirtieth day of June of the calendar year of issue or purchase, of Moody’s Corporate Bond Yield Average — Monthly Average Corporates, as published by Moody’s Investors Service, Inc; and

(vi) For other annuities with cash settlement options and guaranteed interest contracts with cash settlement options, valued on a change in fund basis, except as stated in (ii) above, the average over a period of twelve months, ending on the thirtieth day of June of the calendar year of the change in the fund, of Moody’s Corporate Bond Yield Average — Monthly Average Corporates, as published by Moody’s Investors Service, Inc.

(G) In the event that Moody’s Corporate Bond Yield Average — Monthly Average Corporates is no longer published by Moody’s Investors Service, Inc., or in the event that the National Association of Insurance Commissioners determines that Moody’s Corporate Bond Yield Average — Monthly Average Corporates as published by Moody’s Investors Service, Inc., is no longer appropriate for the determination of the reference interest rate, then an alternative method for determination of the reference interest rate, which is adopted by the National Association of Insurance Commissioners and approved by regulation promulgated by the commissioner, may be substituted.

(b) Except as otherwise provided in subdivisions (c) and (f), reserves according to the commissioners reserve valuation method, for the life insurance and endowment benefits of policies providing for a uniform amount of insurance and requiring the payment of uniform premiums, shall be the excess, if any, of the present value, at the date of valuation, of such future guaranteed bene-
fits provided for by such policies, over the then present value of any future modified net premiums therefor. The modified net premiums for any such policy shall be such uniform percentage of the respective contract premiums for such benefits that the present value, at the date of issue of the policy of all such modified net premiums shall be equal to the sum of the then present value of such benefits provided for by the policy and the excess of (A) over (B), as follows:

(A) A net level annual premium equal to the present value, at the date of issue, of such benefits provided for after the first policy year, divided by the present value, at the date of issue, of an annuity of one percent per annum payable on the first and each subsequent anniversary of such policy on which a premium falls due: Provided, That such net level annual premium shall not exceed the net level annual premium on the nineteen-year premium whole life plan for insurance of the same amount at an age one year higher than the age at issue of such policy;

(B) A net one-year term premium for such benefits provided for in the first policy year: Provided, That for any life insurance policy issued on or after the first day of January, one thousand nine hundred eighty-five, for which the contract premium in the first policy year exceeds that of the second year and for which no comparable additional benefit is provided in the first year for such excess and which provides an endowment benefit or a cash surrender value or a combination thereof in an amount greater than such excess premium, the reserve according to the commissioners reserve valuation method as of any policy anniversary occurring on or before the assumed ending date defined herein as the first policy anniversary on which the sum of any endowment benefit and any cash surrender value then available is greater than such excess premium shall, except as otherwise provided in subdivision (f), be the greater of the reserve as of such policy anniversary calculated as described in the preceding paragraph of this subdivision (b) and the reserve as of such policy anniversary...
calculated as described in that paragraph, but with (i) the
value defined in subparagraph (A) of that paragraph being
reduced by fifteen percent of the amount of such excess first
year premium, (ii) all present values of benefits and premiums
being determined without reference to premiums or benefits
provided for by the policy after the assumed ending date,
(iii) the policy being assumed to mature on such date as an
endowment and (iv) the cash surrender value provided on
such date being considered as an endowment benefit. In
making the above comparison the mortality and interest bases
stated in paragraphs (A), (C), (D), (E), (F) and (G) of sub-
division (a) of this subsection shall be used.

Reserves according to the commissioners reserve valuation
method for (i) life insurance policies providing for a varying
amount of insurance or requiring the payment of varying
premiums, (ii) group annuity and pure endowment contracts
purchased under a retirement plan or plan of deferred com-
pensation, established or maintained by an employer (including
a partnership or sole proprietorship) or by an employee
organization, or by both, other than a plan providing in-
dividual retirement accounts or individual retirement annui-
ties under section 408 of the Internal Revenue Code, as now
or hereafter amended, (iii) disability and accidental death
benefits in all policies and contracts and (iv) all other bene-
fits, except life insurance and endowment benefits in life
insurance policies and benefits provided by all other annuity
and pure endowment contracts, shall be calculated by a
method consistent with the principles of this subdivision (b),
except that any extra premiums charged because of im-
pairments or special hazards shall be disregarded in the
determination of modified net premiums.

(c) This subdivision shall apply to all annuity and pure
endowment contracts other than group annuity and pure
endowment contracts purchased under a retirement plan or
plan of deferred compensation, established or maintained by
an employer (including a partnership or sole proprietorship)
or by an employee organization, or by both, other than a
reserves according to the commissioners annuity reserve method for benefits under annuity or pure endowment contracts, excluding any disability and accidental death benefits in such contracts, shall be the greatest of the respective excesses of the present values, at the date of valuation, of the future guaranteed benefits, including guaranteed nonforfeiture benefits, provided for by such contracts at the end of each respective contract year, over the present value, at the date of valuation, of any future valuation considerations derived from future gross considerations, required by the terms of such contract, that become payable prior to the end of such respective contract year. The future guaranteed benefits shall be determined by using the mortality table, if any, and the interest rate, or rates, specified in such contracts for determining guaranteed benefits. The valuation considerations are the portions of the respective gross considerations applied under the terms of such contracts to determine nonforfeiture values.

(d) In no event shall a company's aggregate reserves for all life insurance policies, excluding disability and accidental death benefits, be less than the aggregate reserves calculated in accordance with the methods set forth in subdivisions (b), (c), (f) and (g) and the mortality table or tables and rate or rates of interest used in calculating nonforfeiture benefits for such policies.

(e) Reserves for any category of policies, contracts or benefits as established by the commissioner may be calculated, at the option of the insurer, according to any standards which produce greater aggregate reserves for such category than those calculated according to the minimum standard herein provided, but the rate or rates of interest used for policies and contracts, other than annuity and pure endowment contracts, shall not be higher than the corresponding rate or rates of interest used in calculating any nonforfeiture benefits provided for therein.

Any such company which at any time shall have adopted
any standard of valuation producing greater aggregate reserves than those calculated according to the minimum standard herein provided may, with the approval of the commissioner, adopt any lower standard of valuation, but not lower than the minimum herein provided.

(f) If in any contract year the gross premium charged by any life insurer on any policy or contract is less than the valuation net premium for the policy or contract calculated by the method used in calculating the reserve thereon, but using the minimum valuation standards of mortality and rate of interest, the minimum reserve required for such policy or contract shall be the greater of either the reserve calculated according to the mortality table, rate of interest and method actually used for such policy or contract but using the minimum valuation standards of mortality and rate of interest and replacing the valuation net premium by the actual gross premium in each contract year for which the valuation net premium exceeds the actual gross premium. The minimum valuation standards of mortality and rate of interest referred to in this section are those standards stated in paragraphs (A), (C), (D), (E), (F) and (G) of subdivision (a): Provided, That for any life insurance policy issued on or after the first day of January, one thousand nine hundred eighty-five, for which the gross premium in the first policy year exceeds that of the second year and for which no comparable additional benefit is provided in the first year for such excess and which provides an endowment benefit or a cash surrender value or a combination thereof in an amount greater than such excess premium, the foregoing provisions of this subdivision (f) shall be applied as if the method actually used in calculating the reserve for such policy were the method described in subdivision (b), ignoring the second paragraph of subdivision (b). The minimum reserve at each policy anniversary of such a policy shall be the greater of the minimum reserve calculated in accordance with subdivision (b), including the second paragraph of that subdivision and the minimum reserve calculated in accordance with this subdivision (f).
(g) In the case of any plan of life insurance which provides for future premium determination, the amounts of which are to be determined by the insurance company based on the estimates of future experience, or in the case of any plan of life insurance or annuity which is of such a nature that the minimum reserves cannot be determined by the methods described in subdivisions (b), (c) and (f), the reserves which are held under any such plan must:

(A) Be appropriate in relation to the benefits and the pattern of premiums for the plan; and

(B) Be computed by a method which is consistent with the principles of this standard valuation law, as determined by regulations promulgated by the commissioner.

ARTICLE 13. LIFE INSURANCE.

(1) In the case of policies issued on or after the original operative date of this provision, no policy of life insurance, except as stated in subsection six, shall be delivered or issued for delivery in this state unless it shall contain in substance the following provisions, or corresponding provisions which in the opinion of the commissioner are at least as favorable to the defaulting or surrendering policyholder as are the minimum requirements hereinafter specified and are essentially in compliance with subsection (5a) of this law:

(a) That, in the event of default in any premium payment, the insurer will grant, upon proper request not later than sixty days after the due date of the premium in default, a paid-up nonforfeiture benefit on a plan stipulated in the policy, effective as of such due date, of such amount as may be hereinafter specified. In lieu of such stipulated paid-up nonforfeiture benefit, the insurer may substitute, upon proper request not later than sixty days after the due date of the premium in default, an actuarially equivalent alternative paid-up nonforfeiture benefit which provides a greater amount or longer period of death benefits or, if applicable, a greater amount or earlier payment of endowment benefits;

(b) That, upon surrender of the policy within sixty days
after the due date of any premium payment in default after
premiers have been paid for at least three full years, the
insurer will pay, in lieu of any paid-up nonforfeiture benefit,
a cash surrender value of such amount as may be herein-
after specified;

(c) That a specified paid-up nonforfeiture benefit shall
become effective as specified in the policy unless the per-
on entitled to make such election elects another available
option not later than sixty days after the due date of the
premium in default;

(d) That, if the policy shall have become paid up by
completion of all premium payments or if it is continued
under any paid-up nonforfeiture benefit which became effec-
tive on or after the third policy anniversary the insurer will
pay, upon surrender of the policy within thirty days after
any policy anniversary, a cash surrender value of such amount
as may be hereinafter specified;

(e) In the case of policies which cause on a basis guaran-
teed in the policy unscheduled changes in benefits or premiums,
or which provide an option for changes in benefits or pre-
miums other than a change to a new policy, a statement
of the mortality table, interest rate and method used in
calculating cash surrender values and the paid-up nonfor-
feiture benefits available under the policy. In the case of all
other policies, a statement of the mortality table and interest
rate used in calculating the cash surrender values and the
paid-up nonforfeiture benefits available under the policy, to-
gether with a table showing the cash surrender value, if any,
and paid-up nonforfeiture benefits, if any, available under the
policy on each policy anniversary either during the first twenty
policy years or during the term of the policy, whichever is
shorter, such values and benefits to be calculated upon the
assumption that there are no dividends or paid-up additions
credited to the policy and that there is no indebtedness to the
insurer on the policy; and

(f) A statement that the cash surrender values and the
paid-up nonforfeiture benefits available under the policy
are not less than the minimum values and benefits required
by or pursuant to the insurance law of the state in which
the policy is delivered; an explanation of the manner in
which the cash surrender values and the paid-up nonforfeiture
benefits are altered by the existence of any paid-up additions
credited to the policy or any indebtedness to the company on
the policy; if a detailed statement of the method of computa-
tion of the values and benefits shown in the policy is not
stated therein a statement that such method of computation
has been filed with the insurance supervisory official of the
state in which the policy is delivered; and a statement of the
method to be used in calculating the cash surrender value
and paid-up nonforfeiture benefits available under the policy
on any policy anniversary beyond the last anniversary for which
such values and benefits are consecutively shown in the
policy.

Any of the foregoing provisions or portions thereof, not
applicable by reason of the plan of insurance may, to the
extent inapplicable, be omitted from the policy.

The insurer shall reserve the right to defer the payment
of any cash surrender value for a period of thirty days after
demand therefor with surrender of the policy.

(2) Any cash surrender value available under the policy
in the event of default in a premium payment due on any
policy anniversary, whether or not required by subsection
(1), shall be an amount not less than the excess, if any, of
the present value, on such anniversary, of the future guaran-
teed benefits which would have been provided for by the
policy, including any existing paid-up additions, if there
had been no default, over the sum of (i) the then present
value of the adjusted premiums as defined in subsections
(4), (4a), (4b) and (4c), corresponding to premiums which
would have fallen due on and after such anniversary, and
(ii) the amount of any indebtedness to the insurer on the
policy: Provided, That for any policy issued on or after the
operative date of subsection (4c) as defined therein, which
provides supplemental life insurance or annuity benefits at
the option of the insured and for an identifiable additional
premium by rider or supplemental policy provision, the cash
surrender value referred to in the first paragraph of this
subsection shall be an amount not less than the sum of the
cash surrender value as defined in such paragraph for an
otherwise similar policy issued at the same age without such
rider or supplemental policy provision and the cash surrender
value as defined in such paragraph for a policy which pro-
vides only the benefits otherwise provided by such rider or
supplemental policy provision: Provided, however, That for
any family policy issued on or after the operative date of
subsection (4c) as defined therein, which defines a primary
insured and provides term insurance on the life of the spouse
of the primary insured expiring before the spouse's age
seventy-one, the cash surrender value referred to in the
first paragraph of this subsection shall be an amount not
less than the sum of the cash surrender value as defined in
such paragraph for an otherwise similar policy issued at the
same age without such term insurance on the life of the
spouse and the cash surrender value as defined in such para-
graph for a policy which provides only the benefits otherwise
provided by such term insurance on the life of the spouse.

Any cash surrender value available within thirty days after
any policy anniversary under any policy paid up by comple-
tion of all premium payments or any policy continued under
any paid-up nonforfeiture benefit, whether or not required
by subsection (1), shall be an amount not less than the
present value, on such anniversary, of the future guaranteed
benefits provided for by the policy, including any existing
paid-up additions decreased by any indebtedness to the in-
surer on the policy.

(3) Any paid-up nonforfeiture benefit available under the
policy in the event of default in a premium payment due on
any policy anniversary shall be such that its present value
as of such anniversary shall be at least equal to the cash
surrender value then provided for by the policy or, if none
is provided for, that cash surrender value which would have
been required by this section in the absence of the condition
that premiums shall have been paid for at least a specific
period.

(4) This subsection (4) shall not apply to policies issued
on or after the operative date of subsection (4c) as defined
therein. Except as provided in the third paragraph of this subsection, the adjusted premiums for any policy shall be calculated on an annual basis and shall be such uniform percentage of the respective premiums specified in the policy for each policy year, excluding extra premiums on a sub-standard policy, that the present value, at the date of issue of the policy, of all such adjusted premiums shall be equal to the sum of (i) the then present value of the future guaranteed benefits provided for by the policy; (ii) two percent of the amount of insurance, if the insurance be uniform in amount, or of the equivalent uniform amount, as hereinafter defined, if the amount of insurance varies with duration of the policy; (iii) forty percent of the adjusted premium for the first policy year; (iv) twenty-five percent of either the adjusted premium for the first policy year or the adjusted premium for a whole life policy of the same uniform or equivalent uniform amount with uniform premiums for the whole of life issued at the same age for the same amount of insurance, whichever is less: Provided, That in applying the percentages specified in (iii) and (iv) above, no adjusted premium shall be deemed to exceed four percent of the amount of insurance or uniform amount equivalent thereto. The date of issue of a policy for the purpose of this subsection shall be the date as of which the rated age of the insured is determined.

In the case of a policy providing an amount of insurance varying with duration of the policy, the equivalent uniform amount thereof for the purpose of this subsection shall be deemed to be the uniform amount of insurance provided by an otherwise similar policy, containing the same endowment benefit or benefits, if any, issued at the same age and for the same term, the amount of which does not vary with duration and the benefits under which have the same present value at the date of issue as the benefits under the policy: Provided, That in the case of a policy providing a varying amount of insurance issued on the life of a child under age ten, the equivalent uniform amount may be computed as though the amount of insurance provided by the policy prior to the attainment of age ten were the amount provided by such policy at age ten.
The adjusted premiums for any policy providing term
insurance benefits by rider or supplemental policy provision
shall be equal to (a) the adjusted premiums for an otherwise
similar policy issued at the same age without such term
insurance benefits, increased, during the period for which
premiums for such term insurance benefits are payable, by
(b) the adjusted premiums for such term insurance, the
foregoing items (a) and (b) being calculated separately and
as specified in the first two paragraphs of this subsection
except that, for the purposes of (ii), (iii) and (iv) of the
first such paragraph, the amount of insurance or equivalent
uniform amount of insurance used in the calculation of the
adjusted premiums referred to in (b) shall be equal to the
excess of the corresponding amount determined for the entire
policy over the amount used in the calculation of the adjusted
premiums in (a).

Except as otherwise provided in subsections (4a) and (4b),
all adjusted premiums and present values referred to in
this section shall for all policies of ordinary insurance
be calculated on the basis of the Commissioners 1941
Standard Ordinary Mortality Table: Provided, That for any
category of ordinary insurance issued on female risks, ad-
justed premiums and present values may be calculated ac-
cording to an age not more than three years younger than
the actual age of the insured, and such calculations for all
policies of industrial insurance shall be made on the basis
of the 1941 Standard Industrial Mortality Table. All cal-
culations shall be made on the basis of the rate of interest,
not exceeding three and one-half percent per annum, specified
in the policy for calculating cash surrender values and paid-
up nonforfeiture benefits: Provided, however, That in cal-
culating the present value of any paid-up term insurance with
accompanying pure endowment, if any, offered as a nonfor-
feiture benefit, the rates of mortality assumed may be not
more than one hundred and thirty percent of the rates of
mortality according to such applicable table: Provided further,
That for insurance issued on a substandard basis, the cal-
culation of any such adjusted premiums and present values
may be based on such other table of mortality as may be
specified by the insurer and approved by the commissioner.
This subsection (4a) shall not apply to ordinary policies issued on or after the operative date of subsection (4c) as defined therein. In the case of ordinary policies issued on or after the operative date of this subsection (4a) as defined herein, all adjusted premiums and present values referred to in this section shall be calculated on the basis of the Commissioners 1958 Standard Ordinary Mortality Table and the rate of interest specified in the policy for calculating cash surrender values and paid-up nonforfeiture benefits provided that such rate of interest shall not exceed three and one-half percent per annum except that a rate of interest not exceeding four percent per annum may be used for policies issued on or after the third day of June, one thousand nine hundred seventy-four, and prior to the sixth day of April, one thousand nine hundred seventy-seven, and a rate of interest not exceeding five and one-half percent per annum may be used for policies issued on or after the sixth day of April, one thousand nine hundred seventy-seven, except that for any single premium whole life or endowment insurance policy a rate of interest not exceeding six and one-half percent per annum may be used: Provided, That for any category of ordinary insurance issued on female risks, adjusted premiums and present values may be calculated according to an age not more than six years younger than the actual age of the insured: Provided, however, That in calculating the present value of any paid-up term insurance with accompanying pure endowment, it any, offered as a nonforfeiture benefit, the rates of mortality assumed may be not more than those shown in the Commissioners 1958 Extended Term Insurance Table: Provided further, That for insurance issued on a substandard basis, the calculation of any such adjusted premiums and present values may be based on such other table of mortality as may be specified by the company and approved by the commissioner.

After the third day of June, one thousand nine hundred fifty-nine, any company may file with the commissioner a written notice of its election to comply with the provisions of this subsection after a specified date before the first day of January, one thousand nine hundred sixty-six. After
the filing of such notice, then upon such specified date (which
shall be the operative date of this subsection for such com-
pany), this subsection shall become operative with respect
to the ordinary policies thereafter issued by such company.
If a company makes no such election, the operative date of
this subsection for such company shall be the first day of
January, one thousand nine hundred sixty-six.

(4b) This subsection (4b) shall not apply to industrial
policies issued on or after the operative date of subsection
(4c) as defined therein. In the case of industrial policies
issued on or after the operative date of this subsection (4b)
as defined herein, all adjusted premiums and present values
referred to in this section shall be calculated on the basis
of the Commissioners 1961 Standard Industrial Mortality
Table and the rate of interest specified in the policy for
calculating cash surrender values and paid-up nonforfeiture
benefits provided that such rate of interest shall not exceed
three and one-half percent per annum except that a rate
of interest not exceeding four percent per annum may be
used for policies issued on or after the third day of June,
one thousand nine hundred seventy-four, and prior to the
sixth day of April, one thousand nine hundred seventy-seven,
and a rate of interest not exceeding five and one-half percent
per annum may be used for policies issued on or after the
sixth day of April, one thousand nine hundred seventy-seven,
except that for any single premium whole life or endowment
insurance policy a rate of interest not exceeding six and
one-half percent per annum may be used: Provided, That in
calculating the present value of any paid-up term insurance
with accompanying pure endowment, if any, offered as a
nonforfeiture benefit, the rates of mortality assumed may be
not more than those shown in the Commissioners 1961
Industrial Extended Term Insurance Table: Provided, however,
That for insurance issued on a substandard basis, the cal-
culation of any such adjusted premiums and present values
may be based on such other table of mortality as may be
specified by the company and approved by the commissioner.

After the effective date of this subsection (4b), any com-
pany may file with the commissioner a written notice of its
election to comply with the provisions of this subsection after a specified date before the first day of January, one thousand nine hundred sixty-eight. After the filing of such notice, then upon such specified date (which shall be the operative date of this subsection for such company), this subsection shall become operative with respect to the industrial policies thereafter issued by such company. If a company makes no such election, the operative date of this subsection for such company shall be the first day of January, one thousand nine hundred sixty-eight.

(4c) (a) This subsection shall apply to all policies issued on or after the operative date of this subsection (4c) as defined herein. Except as provided in the seventh paragraph of this subsection, the adjusted premiums for any policy shall be calculated on an annual basis and shall be such uniform percentage of the respective premiums specified in the policy for each policy year, excluding amounts payable as extra premiums to cover impairments or special hazards and also excluding any uniform annual contract charge or policy fee specified in the policy in a statement of the method to be used in calculating the cash surrender values and paid-up nonforfeiture benefits, that the present value, at the date of issue of the policy, of all adjusted premiums shall be equal to the sum of (i) the then present value of the future guaranteed benefits provided for by the policy; (ii) one percent of either the amount of insurance, if the insurance be uniform in amount, or the average amount of insurance at the beginning of each of the first ten policy years; and (iii) one hundred twenty-five percent of the nonforfeiture net level premium as hereinafter defined: Provided, That in applying the percentage specified in (iii) above no nonforfeiture net level premium shall be deemed to exceed four percent of either the amount of insurance, if the insurance be uniform in amount, or the average amount of insurance at the beginning of each of the first ten policy years. The date of issue of a policy for the purpose of this subsection shall be the date as of which the rated age of the insured is determined;

(b) The nonforfeiture net level premium shall be equal
to the present value, at the date of issue of the policy, of
the guaranteed benefits provided for by the policy divided
by the present value, at the date of issue of the policy, of
an annuity of one per annum payable on the date of issue of
the policy and on each anniversary of such policy on which
a premium falls due;

(c) In the case of policies which cause on a basis guaran-
teed in the policy unscheduled changes in benefits or pre-
miums, or which provide an option for changes in benefits
or premiums other than a change to a new policy, the ad-
justed premiums and present values shall initially be cal-
culated on the assumption that future benefits and premiums
do not change from those stipulated at the date of issue
of the policy. At the time of any such change in the benefits
or premiums the future adjusted premiums, nonforfeiture
net level premiums and present values shall be recalculated
on the assumption that future benefits and premiums do not
change from those stipulated by the policy immediately after
the change;

(d) Except as otherwise provided in the seventh para-
graph of this subsection, the recalculated future adjusted
premiums for any such policy shall be such uniform percentage
of the respective future premiums specified in the policy
for each policy year, excluding amounts payable as extra
premiums to cover impairments and special hazards, and
also excluding any uniform annual contract charge or policy
fee specified in the policy in a statement of the method to
be used in calculating the cash surrender values and paid-up
nonforfeiture benefits, that the present value, at the time
of change to the newly defined benefits or premiums, of
all such future adjusted premiums shall be equal to the excess
of (A) the sum of (i) the then present value of the then
future guaranteed benefits provided for by the policy and
(ii) the additional expense allowance, if any, over (B) the
then cash surrender value, if any, or present value of any
paid-up nonforfeiture benefit under the policy;

(e) The additional expense allowance, at the time of the
change to the newly defined benefits or premiums, shall be
the sum of (i) one percent of the excess, if positive, of
the average amount of insurance at the beginning of each of
the first ten policy years subsequent to the change over the
average amount of insurance prior to the change at the
beginning of each of the first ten policy years subsequent
to the time of the most recent previous change, or, if there
has been no previous change, the date of issue of the policy;
and (ii) one hundred twenty-five percent of the increase,
if positive, in the nonforfeiture net level premium;

(f) The recalculated nonforfeiture net level premium shall
be equal to the result obtained by dividing (A) by (B) where:

(A) Equals the sum of

(i) The nonforfeiture net level premium applicable prior
to the change times the present value of an annuity of one
per annum payable on each anniversary of the policy on or
subsequent to the date of the change on which a premium
would have fallen due had the change not occurred; and

(ii) The present value of the increase in future guaranteed
benefits provided for by the policy;

(B) Equals the present value of an annuity of one per
annum payable on each anniversary of the policy on or sub-
sequent to the date of change on which a premium falls due.

(g) Notwithstanding any other provisions of this sub-
section to the contrary, in the case of a policy issued on
a substandard basis which provides reduced graded amounts
of insurance so that, in each policy year, such policy has
the same tabular mortality cost as an otherwise similar
policy issued on the standard basis which provides higher
uniform amounts of insurance, adjusted premiums and present
values for such substandard policy may be calculated as if
it were issued to provide such higher uniform amounts of
insurance on the standard basis;

(h) All adjusted premiums and present values referred to
in this section shall for all policies of ordinary insurance
be calculated on the basis of (i) the Commissioners 1980
Standard Ordinary Mortality Table or (ii) at the election of
the company for any one or more specified plans of life
insurance, the Commissioners 1980 Standard Ordinary Mor-
tality Table with ten-year select mortality factors; shall for
all policies of industrial insurance be calculated on the
basis of the Commissioners 1961 Standard Industrial Mor-
tality Table; and shall for all policies issued in a particular
calendar year be calculated on the basis of a rate of interest
not exceeding the nonforfeiture interest rate as defined in
this subsection for policies issued in that calendar year:

**Provided, That:**

(i) At the option of the company, calculations for all
policies issued in a particular calendar year may be made on
the basis of a rate of interest not exceeding the nonforfeiture
interest rate, as defined in this subsection, for policies issued
in the immediately preceding calendar year;

(ii) Under any paid-up nonforfeiture benefit, including
any paid-up dividend additions, any cash surrender value
available, whether or not required by subsection (1), shall
be calculated on the basis of the mortality table and rate
of interest used in determining the amount of such paid-up
nonforfeiture benefit and paid-up dividend additions, if any;

(iii) A company may calculate the amount of any guaran-
teed paid-up nonforfeiture benefit including any paid-up addi-
tions under the policy on the basis of an interest rate no
lower than that specified in the policy for calculating cash
surrender values;

(iv) In calculating the present value of any paid-up term
insurance with accompanying pure endowment, if any, offered
as a nonforfeiture benefit, the rates of mortality assumed
may be not more than those shown in the Commissioners
1980 Extended Term Insurance Table for policies of ordinary
insurance and not more than the Commissioners 1961 In-
dustrial Extended Term Insurance Table for policies of in-
dustrial insurance;

(v) For insurance issued on a substandard basis, the cal-
culation of any such adjusted premiums and present values
may be based on appropriate modifications of the afore-
mentioned tables;
(vi) Any ordinary mortality tables, adopted after 1980 by the National Association of Insurance Commissioners, that are approved by regulation promulgated by the commissioner for use in determining the minimum nonforfeiture standard may be substituted for the Commissioners 1980 Standard Ordinary Mortality Table with or without ten-year select mortality factors or for the Commissioners 1980 Extended Term Insurance Table; and

(vii) Any industrial mortality tables, adopted after 1980 by the National Association of Insurance Commissioners, that are approved by regulation promulgated by the commissioner for use in determining the minimum nonforfeiture standard may be substituted for the Commissioners 1961 Standard Industrial Mortality Table or the Commissioners 1961 Industrial Extended Term Insurance Table.

(i) The nonforfeiture interest rate per annum for any policy issued in a particular calendar year shall be equal to one hundred and twenty-five percent of the calendar year statutory valuation interest rate for such policy as defined in the Standard Valuation Law, rounded to the nearer one quarter of one percent (1/4 of 1%);

(j) Notwithstanding any other provision in this code to the contrary, any refiling of nonforfeiture values or their methods of computation for any previously approved policy form which involves only a change in the interest rate or mortality table used to compute nonforfeiture values shall not require refiling of any other provisions of that policy form; and

(k) After the effective date of this subsection (4c), any company may file with the commissioner a written notice of its election to comply with the provisions of this section after a specified date before the first day of January, one thousand nine hundred eighty-nine, which shall be the operative date of this subsection for such company. If a company makes no such election, the operative date of this section for such company shall be the first day of January, one thousand nine hundred eighty-nine.
In the case of any plan of life insurance which provides for future premium determination, the amounts of which are to be determined by the insurance company based on then estimates of future experience, or in the case of any plan of life insurance which is of such a nature that minimum values cannot be determined by the methods described in subsections (1), (2), (3), (4), (4a), (4b) and (4c) herein, then:

(a) The commissioner must be satisfied that the benefits provided under the plan are substantially as favorable to policyholders and insureds as the minimum benefits otherwise required by subsections (1), (2), (3), (4), (4a), (4b) or (4c) herein;

(b) The commissioner must be satisfied that the benefits and the pattern of premiums of that plan are not such as to mislead prospective policyholders or insureds; and

(c) The cash surrender values and paid-up nonforfeiture benefits provided by such plan must not be less than the minimum values and benefits required for the plan computed by a method consistent with the principles of this Standard Nonforfeiture Law for Life Insurance, as determined by regulations promulgated by the commissioner.

Any cash surrender value and any paid-up nonforfeiture benefit, available under the policy in the event of default in a premium payment due at any time other than on the policy anniversary, shall be calculated with allowance for the lapse of time and the payment of fractional premiums beyond the last preceding policy anniversary. All values referred to in subsections (2), (3), (4), (4a), (4b) and (4c) may be calculated upon the assumption that any death benefit is payable at the end of the policy year of death. The net value of any paid-up additions, other than paid-up term additions, shall be not less than the amounts used to provide such additions. Notwithstanding the provisions of subsection two, additional benefits payable (i) in the event of death or dismemberment by accident or accidental means, (ii) in the event of total and permanent disability, (iii) as reversionary annuity or deferred reversionary annuity benefits, (iv) as term insurance benefits provided by a rider or sup-
plemental policy provision to which, if issued as a separate
policy, this subsection would not apply, (v) as term in-
insurance on the life of a child or on the lives of children
provided in a policy on the life of a parent of the child,
if such term insurance expires before the child’s age is
twenty-six, is uniform in amount after the child’s age is one,
and has not become paid up by reason of the death of a
parent of the child, and (vi) as other policy benefits addi-
tional to life insurance and endowment benefits, and pre-
miums for all such additional benefits, shall be disregarded
in ascertaining cash surrender values and nonforfeiture bene-
fits required by this section, and no such additional bene-
fits shall be required to be included in any paid-up nonfor-
feiture benefits.

(5a) This subsection, in addition to all other applicable
subsections of this law, shall apply to all policies issued on or
after the first day of January, one thousand nine hundred
eighty-five. Any cash surrender value available under the policy
in the event of default in a premium payment due on any
policy anniversary shall be in an amount which does not
differ by more than two tenths of one percent of either the
amount of insurance, if the insurance be uniform in amount,
or the average amount of insurance at the beginning of each
of the first ten policy years, from the sum of (a) the
greater of zero and the basic cash value hereinafter specified
and (b) the present value of any existing paid-up additions
less the amount of any indebtedness to the company under the
policy.

The basic cash value shall be equal to the present
value, on such anniversary, of the future guaranteed bene-
fits which would have been provided for by the policy, ex-
cluding any existing paid-up additions and before deduc-
tion of any indebtedness to the company, if there had been
no default, less the then present value of the nonforfeiture
factors, as hereinafter defined, corresponding to premiums
which would have fallen due on and after such anniversary:
Provided, That the effects on the basic cash value of supple-
mental life insurance or annuity benefits or of family coverage,
as described in subsection (2) or (4), whichever is ap-
The nonforfeiture factor for each policy year shall be an amount equal to a percentage of the adjusted premium for the policy year, as defined in subsection (4) or (4c), whichever is applicable. Except as is required by the next succeeding sentence of this paragraph, such percentage:

(a) Must be the same percentage for each policy year between the second policy anniversary and the later of (i) the fifth policy anniversary and (ii) the first policy anniversary at which there is available under the policy a cash surrender value in an amount, before including any paid-up additions and before deducting any indebtedness, of at least two tenths of one percent of either the amount of insurance, if the insurance be uniform in amount, or the average amount of insurance at the beginning of each of the first ten policy years; and

(b) Must be such that no percentage after the later of the two policy anniversaries specified in the preceding item (a) may apply to fewer than five consecutive policy years:

Provided, That no basic cash value may be less than the value which would be obtained if the adjusted premiums for the policy, as defined in subsection (4) or (4c), whichever is applicable, were substituted for the nonforfeiture factors in the calculation of the basic cash value.

All adjusted premiums and present values referred to in this subsection shall for a particular policy be calculated on the same mortality and interest bases as are used in demonstrating the policy's compliance with the other sections of this law. The cash surrender values referred to in this subsection shall include any endowment benefits provided for by the policy.

Any cash surrender value available other than in the event of default in a premium payment due on a policy anniversary, and the amount of any paid-up nonforfeiture benefit available under the policy in the event of default in a premium
598 payment shall be determined in manners consistent with the
599 manners specified for determining the analogous minimum
600 amounts in subsections (1), (2), (3), (4c) and (5). The
601 amounts of any cash surrender values and of any paid-up
602 nonforfeiture benefits granted in connection with additional
603 benefits such as those listed as items (i) through (vi) in sub-
604 section (5) shall conform with the principles of this subsec-
605 tion (5a).
606 (6) This section shall not apply to any of the following:
607 (a) Reinsurance;
608 (b) Group insurance;
609 (c) Pure endowment;
610 (d) Annuity or reversionary annuity contract;
611 (e) Term policy of uniform amount, which provides no
612 guaranteed nonforfeiture or endowment benefits, or renewal
613 thereof, of twenty years or less expiring before age seventy-
614 one, for which uniform premiums are payable during the
615 entire term of the policy;
616 (f) Term policy of decreasing amount, which provides no
617 guaranteed nonforfeiture or endowment benefits, on which
618 each adjusted premium, calculated as specified in subsections
619 (4), (4a), (4b) and (4c), is less than the adjusted premium
620 so calculated on a policy of uniform amount, or renewal
621 thereof, which provides no guaranteed nonforfeiture or en-
622 dowment benefits, issued at the same age and for the same
623 initial amount of insurance and for a term of twenty years or
624 less expiring before age seventy-one, or which uniform pre-
625 miums are payable during the entire term of the policy;
626 (g) Policy, which provides no guaranteed nonforfeiture
627 or endowment benefits, for which no cash surrender value,
628 if any, or present value of any paid-up nonforfeiture benefit,
629 at the beginning of any policy year, calculated as specified
630 in subsections (2), (3), (4), (4a), (4b) and (4c), exceeds two
631 and one-half percent of the amount of insurance at the be-
632 ginning of the same policy year; and
633 (h) Policy which shall be delivered outside this state
through an agent or other representative of the insurer issuing the policy. For purposes of determining the applicability of this section, the age at expiry for a joint term life insurance policy shall be the age at expiry of the oldest life.

AN ACT to amend and reenact section thirty-six, article two, chapter thirty-eight of the code of West Virginia, one thousand nine hundred thirty-one, as amended, relating to the discharge of mechanic's lien by depositing the amount in dispute in escrow; and the disbursement of the escrow.

Be it enacted by the Legislature of West Virginia:

That section thirty-six, article two, chapter thirty-eight of the code of West Virginia, one thousand nine hundred thirty-one, as amended, be amended and reenacted to read as follows:

ARTICLE 2. MECHANICS' LIENS.

§38-2-36. Discharge or release of lien; recordation; escrow; disbursement of escrow.

(a) When a debt secured by any lien mentioned in this article is fully paid at any time after the lien creditor shall have filed his notice of such lien in the office of the clerk of the county commission, such creditor assignee shall cause the clerk to enter a discharge of such lien in the margin of the book in which such account is entered and immediately opposite thereto, or shall execute a release thereof, which shall be recorded in the book in which such notice is entered and noted on the margin of such notice.

(b) (1) At any time after a lien creditor has given notice of lien as required by the provisions of this article and has subsequently duly filed such notice of lien with the clerk of the county commission as provided for in this article, the owner or any person against whom the lien is claimed may apply to the circuit court having jurisdiction to enforce such lien, by petition, for an order authorizing such owner or other person against whom the lien is claimed to deposit, in escrow, with the clerk of the circuit court, an amount equal to the sum set out as due in the notice of lien, and directing the circuit clerk to execute a release of the lien. Previous to the filing of such peti-
tion, the petitioner shall cause to be served upon the lien creditor a notice of the time and place that such application will be made, which notice shall be served by registered mail, return receipt requested, addressed to the lien creditor or his authorized agent at the address set forth in the notice of lien: Provided, That if no such address is set forth in the notice of lien, the petitioner shall serve the notice, setting forth the time and place that his application will be made, in the same manner as original process is served for the commencement of civil actions.

(2) At the hearing upon the petition, the court shall ascertain what interest, if any, might reasonably be expected to accrue on the sum claimed to be due, either by contract or by operation of law, and subsequently be payable to the lien creditor, should he prevail upon his claim. The court shall also determine the current rate of return upon investments made by the general receiver of the court at the time of the hearing, and ascertain what rate of interest might reasonably be earned upon the petitioner's escrow deposit when paid into the court. To the extent that the anticipated interest due to the lien creditor exceeds the anticipated return upon the investment of the escrow deposit, the court may require an additional deposit beyond the sum set forth in the notice of lien, as the interests of the parties may require. The order authorizing the deposit and directing the execution of the release shall, if the court anticipates that complex or extended litigation may arise in resolving the issue of the validity of liens or claims in the case, require that the petitioner or other parties give security before the court, or the clerk thereof, for payment of the costs which may be awarded in the court, and of the fees due, or to become due, in any action to determine such issue.

(3) If an escrow deposit is authorized by the court, such deposit shall be made by cash, and when paid into court, shall be received by the general receiver of the court, who shall take charge of and invest the money deposited in the manner provided for in section one, article six, chapter fifty-one of this code until otherwise ordered to pay out or dispose of the same by the circuit court. Upon presentation to the clerk of the county commission wherein the notice of lien is filed of an
order of the court and a receipt executed by the clerk of the circuit court for the amount required to be deposited by the terms of the order, the clerk of the county commission shall file the order and shall enter a discharge of the lien in the margin of the book in which such account is entered and immediately opposite thereto, or shall execute a release thereof, which shall be recorded in the book in which such notice is entered and noted on the margin of such notice.

(4) Unless an action to determine the validity of the creditor’s claim is commenced within six months after the creditor shall have filed his notice of lien in the office of the clerk of the county commission as provided for in this article, the court shall, upon motion of the depositor, order the general receiver to pay out to the depositor the sum deposited, together with any dividends and interest, if any, earned upon the investment of the deposit, less any compensation for the services of the general receiver as the court may direct in accordance with the provisions of section seven, article six, chapter fifty-one of this code. If the claim is satisfied or settled and compromised at any time while secured by the deposit made with the general receiver but before an action is commenced, the court shall, upon proof of satisfaction or settlement and compromise, order the general receiver to pay out the deposit to the depositor in the same manner as though suit was not commenced within the requisite period of six months as described above. If an action is commenced, the general receiver shall thereafter pay out the money deposited and the dividends and interest, if any, earned upon the investment of the deposit, as the court may order or decree, less any compensation for the services of the general receiver as the court may direct in accordance with the provisions of said section seven.

Certification of an assistant to a physician practicing the specialty of ophthalmology is not permitted or required under this section.

Said temporary certificate may be renewed for one additional year upon the request of the supervising physician. A Type A physician assistant who
has not been certified as such by the National Board of Medical Examiners on behalf of the National Commission on Certification of Physician Assistants will be restricted to work under the direct supervision of the supervising physician.

(f) When any person who meets the qualifications for a Type B physician assistant as defined in this section and who submits an application accompanied by a job description for a Type B physician assistant certificate, the board may certify such applicant as a Type B physician assistant for a period of four months. Upon expiration of the four-month temporary certification, the board may certify the applicant as a Type B physician assistant. The Type B physician assistant will be restricted to work under the direct supervision of the supervising physician until he has passed either the examination for surgical assistants or the examination for primary care physician assistants administered by the National Board of Medical Examiners on behalf of the National Commission on Certification of Physician Assistants.

(g) Certification of a Type B physician assistant is subject to review and recertification after every three-year period following the first certification. Recertification requires a report from the supervising physician of a Type B physician assistant which must include a performance evaluation, a summary of experience or continuing medical education and any proposed change in job description.

(h) The board may certify as a physician assistant in this state without examination any person who has been certified or licensed by examination in another state of the United States which has requirements substantially equivalent to the requirements of this section.

(i) Any physician applying to the board to supervise either a Type A or Type B physician assistant shall provide a job description that sets forth the range of medical services to be provided by such assistant. Before a physician assistant can be employed or otherwise use his skills, the supervising physician must obtain approval of the job description from the board. The board may revoke or suspend any certification of an assistant to a physician for
cause, after giving such person an opportunity to be heard
in the manner provided by sections eight and nine, article
one of this chapter.

(j) The supervising physician is responsible for ob-
serving, directing and evaluating the work, records and
practices of each physician assistant performing under his
supervision. He shall notify the board in writing of any
termination of his supervisory relationship with a
physician assistant within ten days of the termination. The
legal responsibility for any physician assistant remains
with the supervising physician at all times, including
occasions when the assistant, under his direction and
supervision, aids in the care and treatment of a patient in a
health care facility. A health care facility is not legally
responsible for the actions or omissions of the physician
assistant unless the physician assistant is an employee of
the facility.

(k) When functioning as a physician assistant, the
physician assistant shall wear a name tag that identifies
him and specifies his type of classification and the name of
his supervising physician. A two and one-half by three and
one-half inch card of identification shall be furnished by
the board upon certification of the physician assistant and
shall specify the type of classification.

(l) A supervising physician shall not supervise at any
one time more than two physician assistants.

A physician assistant shall not sign any prescription. He
shall not perform any service that his supervising physician
is not qualified to perform. He shall not perform any service
that is not included in his job description and approved by
the board as provided for in this section.

The provisions of this section do not authorize any
physician assistant to perform any specific function or duty
delegated by this code to those persons licensed as
chiropractors, dentists, dental hygienists, optometrists or
pharmacists or certified as nurse anesthetists.

(m) Each job description submitted by a licensed
supervising physician shall be accompanied by a fee of fifty
dollars. A fee of five dollars shall be charged for the annual
renewal of the certificate.
(n) It is unlawful for any person who is not certified by the board as a physician assistant to use the title of "physician assistant" or to represent to any other person that he is a physician assistant. Any person who violates the provisions of this subsection is guilty of a misdemeanor, and, upon conviction thereof, shall be fined not more than two thousand dollars.

(o) It is unlawful for any physician assistant to represent to any person that he is a physician, surgeon or podiatrist. Any person who violates the provisions of this subsection is guilty of a felony, and, upon conviction thereof, shall be imprisoned in the penitentiary for not less than one nor more than two years, or be fined not more than two thousand dollars, or both fined and imprisoned.

1 As used in this article, unless used in a context that clearly requires a different meaning, the term:

2 (a) "Adequate treatment" means treatment of water by physical, chemical or other approved methods in a manner so that the treated water shall not violate the effluent limitations or cause a violation of the water quality standards established for the river, stream or drainway into which such water is released.

3 (b) "Affected area" means, when used in the context of surface mining activities, all land and water resources within the permit area which are disturbed or utilized during the term of the permit in the course of surface-mining and reclamation activities. "Affected area" means, when used in the context of underground mining activities, all surface land and water resources affected during the term of the permit (1) by surface operations or facilities incident to underground mining activities or (2) by underground operations.

4 (c) "Adjacent areas" means, for the purpose of permit application, renewal, revision, review and approval, those land and water resources, contiguous to or near a permit area, upon which surface-mining and reclamation operations conducted within a permit area during the life of such operations may have an impact. "Adjacent areas" means, for the purpose of conducting surface-mining and reclamation operations, those land and water resources contiguous to or near the affected area upon which surface-mining and reclamation operations conducted within a permit area during the life of such operations may have an impact.

5 (d) "Applicant" means any person who has or should have applied for any permit pursuant to this article.

6 (e) "Approximate original contour" means that surface configuration achieved by the backfilling and grading of the disturbed areas so that the reclaimed area, including any terracing or access roads, closely resembles the general surface configuration of the land prior to mining and blends into and complements the drainage pattern of the surrounding terrain, with all highwalls and spoil piles.
eliminated: *Provided*, That water impoundments may be
permitted pursuant to subdivision (8), subsection (b),
section thirteen of this article: *Provided, however*, That
minor deviations may be permitted in order to minimize
erosion and sedimentation, retain moisture to assist
 revegetation, or to direct surface runoff.

(f) “Assessment officer” means an employee of the
department, other than a surface-mining reclamation
supervisor, inspector or inspector-in-training, appointed
by the director to issue proposed penalty assessments and to
conduct informal conferences to review notices, orders and
proposed penalty assessments.

(g) “Breakthrough” means the release of water which
has been trapped or impounded, or the release of air into
any underground cavity, pocket or area as a result of
surface-mining operations.

(h) “Coal processing wastes” means earth materials
which are or have been combustible, physically unstable, or
acid-forming or toxic-forming, which are wasted or
otherwise separated from product coal, and slurried or
otherwise transported from coal processing plants after
physical or chemical processing, cleaning or concentrating
of coal.

(i) “Department” means the department of natural
resources.

(j) “Director” means the director of the department of
natural resources, deputy directors, the chief of the division
of reclamation, the assistant chiefs of the division of
reclamation and all duly authorized surface-mining
reclamation supervisors, or inspectors and inspectors-in-
training.

(k) “Disturbed area” means an area where vegetation,
topsoil or overburden has been removed or placed by
surface-mining operations, and reclamation is incomplete.

(l) “Imminent danger to the health or safety of the
public” means the existence of such condition or practice,
or any violation of a permit or other requirement of this
article, which condition, practice or violation could
reasonably be expected to cause substantial physical harm
or death to any person outside the permit area before such
condition, practice or violation can be abated. A reasonable
expectation of death or serious injury before abatement
exists if a rational person, subjected to the same conditions
or practices giving rise to the peril, would not expose
himself to the danger during the time necessary for the
abatement.

(m) "Minerals" means clay, coal, flagstone, gravel,
limestone, manganese, sand, sandstone, shale, iron ore and
any other metal or metallurgical ore.

(n) "Operation" means those activities conducted by an
operator who is subject to the jurisdiction of this article.

(o) "Operator" means any person who is granted or who
should obtain a permit to engage in any activity covered by
this article.

(p) "Permit" means a permit to conduct surface-mining
operations pursuant to this article.

the approved proposal map submitted by the operator as
part of his application showing the location of perimeter
markers and monuments and shall be readily identifiable
by appropriate markers on the site.

(r) "Permittee" means a person holding a permit issued
under this article.

(s) "Person" means any individual, partnership, firm,
society, association, trust, corporation, other business
entity or any agency, unit or instrumentality of federal,
state or local government.

(t) "Prime farmland" has the same meaning as that
prescribed by the United States secretary of agriculture on
the basis of such factors as moisture availability,
temperature regime, chemical balance, permeability,
surface layer composition, susceptibility to flooding and
erosion characteristics, and which historically have been
used for intensive agricultural purposes and as published in
the Federal Register.

(u) "Surface mine," "surface mining" or "surface-
mining operations" means:

(1) Activities conducted on the surface of lands for the
removal of coal, or, subject to the requirements of section
fourteen of this article, surface operations and surface impacts incident to an underground coal mine, including the drainage and discharge therefrom. Such activities include excavation for the purpose of obtaining coal, including, but not limited to, such common methods as contour, strip, auger, mountaintop removal, box cut, open pit and area mining; the uses of explosives and blasting; reclamation and in situ distillation or retorting, leaching or other chemical or physical processing; and the cleaning, concentrating, or other processing or preparation, loading of coal for commercial purposes at or near the mine site; and

(2) The areas upon which the above activities occur or where such activities disturb the natural land surface. Such areas shall also include any adjacent land, the use of which is incidental to any such activities; all lands affected by the construction of new roads or the improvement or use of existing roads to gain access to the site of such activities and for haulage; and excavations, workings, impoundments, dams, ventilation shafts, entryways, refuse banks, dumps, stockpiles, overburden piles, spoil banks, culm banks, tailings, holes or depressions, repair areas, storage areas, processing areas, shipping areas and other areas upon which are sited structures, facilities, or other property or materials on the surface, resulting from or incident to such activities: Provided, That such activities do not include the extraction of coal incidental to the extraction of other minerals where coal does not exceed sixteen and two-thirds percent of the tonnage of minerals removed for purposes of commercial use or sale, or coal prospecting subject to section eight of this article: Provided, however, That permanent facilities not within the area being mined and not directly involved in the excavation, loading, storage or processing of the coal shall not be subject to the provisions of this article. Such facilities include, but are not limited to, offices, garages, bathhouses, parking areas, and maintenance and supply areas.

(v) “Underground mine” means the surface effects associated with the shaft, slopes, drifts or inclines connected with excavations penetrating coal seams or strata and the equipment connected therewith which contribute directly or indirectly to the mining, preparation or handling of coal.
(w) “Significant, imminent environmental harm to land, air or water resources” means the existence of any condition or practice, or any violation of a permit or other requirement of this article, which condition, practice or violation could reasonably be expected to cause significant and imminent environmental harm to land, air or water resources. The term “environmental harm” means any adverse impact on land, air or water resources, including, but not limited to, plant, wildlife and fish, and the environmental harm is imminent if a condition or practice exists which is causing such harm or may reasonably be expected to cause such harm at any time before the end of the abatement time set by the director. An environmental harm is significant if that harm is appreciable and not immediately repairable.

is potentially toxic to the environment, shall be kept
confidential and not made a matter of public record;

(18) When requested by the director, the climatological
factors that are peculiar to the locality of the land to be
affected, including the average seasonal precipitation, the
average direction and velocity of prevailing winds, and the
seasonal temperature ranges; and

(19) Other information that may be required by rules
and regulations reasonably necessary to effectuate the
purposes of this article.

(b) If the director finds that the probable total annual
production at all locations of any coal surface-mining
operator will not exceed one hundred thousand tons, the
determination of probable hydrologic consequences and
the statement of the result of test borings or core samplings
shall, upon the written request of the operator, be
performed by a qualified public or private laboratory
designated by the director and a reasonable cost of the
preparation of such determination and statement shall be
assumed by the department from funds provided by the
United States department of the interior pursuant to Public
Law 95-87.

(c) Before the first publication of the applicant's
advertisement. each applicant for a surface-mining permit
shall file, except for that information pertaining to the coal
scam itself, a copy of the application for public inspection in
the nearest office of the department of natural resources as
specified in the applicant's advertisement.
(d) Each applicant for a permit shall be required to submit to the director as a part of the permit application a certificate issued by an insurance company authorized to do business in this state covering the surface-mining operation for which the permit is sought, or evidence that the applicant has satisfied state self-insurance requirements. The policy shall provide for personal injury and property damage protection in an amount adequate to compensate any persons damaged as a result of surface coal mining and reclamation operations, including use of explosives, and entitled to compensation under the applicable provisions of state law. The policy shall be maintained in full force and effect during the terms of the permit or any renewal, including the length of all reclamation operations.

(e) Each applicant for a surface-mining permit shall submit to the director as part of the permit application a blasting plan where explosives are to be used, which shall outline the procedures and standards by which the operator will meet the provisions of the blasting performance standards.

(f) The applicant shall file as a part of his permit application a schedule listing all notices of violation, bond forfeitures, permit revocations, cessation orders or permanent suspension orders resulting from a violation of Public Law 95-87, this article or any law or regulation of the United States or any department or agency of any state pertaining to air or environmental protection received by the applicant in connection with any surface-mining operation during the three-year period prior to the date of application, and indicating the final resolution of any notice of violation, forfeiture, revocation, cessation or permanent suspension.

(g) Within five working days of receipt of an application for a permit, the director shall notify the operator in writing, stating whether the application is complete and whether the operator's advertisement may be published. If the application is not complete, the director shall state in writing why the application is incomplete.

§20-6-12. Performance bonds; amount and method of bonding; bonding requirements; special reclamation tax and fund; prohibited acts; period of bond liability.

(a) After a surface-mining permit application has been
approved pursuant to this article, but before a permit has been issued, each operator shall furnish bond, on a form to be prescribed and furnished by the director, payable to the state of West Virginia and conditioned upon the operator faithfully performing all of the requirements of this article and of the permit. The amount of the bond shall be one thousand dollars for each acre or fraction thereof. The bond shall cover (1) the entire permit area, or (2) that increment of land within the permit area upon which the operator will initiate and conduct surface-mining and reclamation operations within the initial term of the permit. If the operator chooses to use incremental bonding, as succeeding increments of surface-mining and reclamation operations are to be initiated and conducted within the permit area, the operator shall file with the director an additional bond or bonds to cover such increments in accordance with this section: Provided, That once the operator has chosen to proceed with bonding either the entire permit area or with incremental bonding, he shall continue bonding in that manner for the term of the permit: Provided, however, That the minimum amount of bond furnished shall be ten thousand dollars.

(b) The period of liability for performance bond coverage shall commence with issuance of a permit and continue for the full term of the permit plus any additional period necessary to achieve compliance with the requirements in the reclamation plan of the permit.

(c) (1) The form of the performance bond shall be approved by the director and may include, at the option of the operator, surety bonding, collateral bonding (including cash and securities), establishment of an escrow account, self-bonding or a combination of these methods. If collateral bonding is used, the operator may elect to deposit cash, or collateral securities or certificates as follows: Bonds of the United States or its possessions, of the federal land bank, or of the homeowners' loan corporation; full faith and credit general obligation bonds of the state of West Virginia, or other states, and of any county, district or municipality of the state of West Virginia or other states; or certificates of deposit in a bank in this state, which certificates shall be in favor of the department. The cash deposit or market value of such securities or certificates
shall be equal to or greater than the sum of the bond. The
director shall, upon receipt of any such deposit of cash,
securities or certificates, promptly place the same with the
treasurer of the state of West Virginia whose duty it shall be
to receive and hold the same in the name of the state in trust
for the purpose for which the deposit is made when the
permit is issued. The operator making the deposit shall be
entitled from time to time to receive from the state
treasurer, upon the written approval of the director, the
whole or any portion of any cash, securities or certificates so
deposited, upon depositing with him in lieu thereof, cash or
other securities or certificates of the classes herein specified
having value equal to or greater than the sum of the bond.

(2) The reclamation commission may approve an
alternative bonding system if it will (A) reasonably assure
that sufficient funds will be available to complete the
reclamation, restoration and abatement provisions for all
permit areas which may be in default at any time, and (B)
provide a substantial economic incentive for the permittee
to comply with all reclamation provisions.

(d) The director may accept the bond of the applicant
itself without separate surety when the applicant
demonstrates to the satisfaction of the director the
existence of a suitable agent to receive service of process
and a history of financial solvency and continuous
operation sufficient for authorization to self-insure.

(e) It shall be unlawful for the owner of surface or
mineral rights to interfere with the present operator in the
discharge of his obligations to the state for the reclamation
of lands disturbed by him.

(f) All bond releases shall be accomplished in
accordance with the provisions of section twenty-six of this
article.

(g) All special reclamation taxes deposited by the
director with the treasurer or the state of West Virginia to
the credit of the special reclamation fund prior to the
effective date of this article shall be transferred to the
special reclamation fund created by this section and shall
be expended pursuant to the provisions of this subsection:
Provided, That no taxes transferred into the special
reclamation fund created by this section shall be subject to
refund. The fund shall be administered by the director, and he is authorized to expend the moneys in the fund for the reclamation and rehabilitation of lands which were subjected to permitted surface-mining operations and abandoned after the third day of August, one thousand nine hundred seventy-seven, where the amount of the bond posted and forfeited on such land is less than the actual cost of reclamation. The director may also expend such amounts as are reasonably necessary to implement and administer the provisions of this chapter.

Whenever the special reclamation fund established by this subsection sinks below one million dollars at the end of any given quarterly period, every person then conducting coal surface-mining operations shall contribute into said fund a sum equal to one cent per ton of clean coal mined thereafter. This fee shall be collected by the state tax commissioner in the same manner as the West Virginia business and corporation tax in accordance with the provisions of chapter eleven of this code and shall be deposited by him with the treasurer of the state of West Virginia to the credit of the special reclamation fund. At the beginning of each quarter, the director shall advise the state tax commissioner and the governor of the assets, excluding payments, expenditures and liabilities, in the fund. If such assets are below one million dollars, a notice of assessment shall be given to all operators by the state tax commissioner and the one cent per ton assessment shall be collected until the end of the quarter in which the fund's assets, excluding payments, expenditures and liabilities are in excess of two million dollars.

(a) Any permit issued by the director pursuant to this article to conduct surface-mining operations shall require that such surface-mining operations will meet all applicable performance standards of this article, and other requirements as the reclamation commission shall promulgate.

(b) The following general performance standards shall be applicable to all surface mines and shall require the operation as a minimum to:
(1) Maximize the utilization and conservation of the solid fuel resource being recovered to minimize reaffecting the land in the future through surface mining;

(2) Restore the land affected to a condition capable of supporting the uses which it was capable of supporting prior to any mining, or higher or better uses of which there is reasonable likelihood so long as the use or uses do not present any actual or probable hazard to public health or safety or pose any actual or probable threat of water diminution or pollution, and the permit applicants' declared proposed land use following reclamation is not deemed to be impractical or unreasonable, inconsistent with applicable land use policies and plans, involves unreasonable delay in implementation, or is violative of federal, state or local law;

(3) Except as provided in subsection (c) of this section, with respect to all surface mines, backfill, compact where advisable to ensure stability or to prevent leaching of toxic materials, and grade in order to restore the approximate original contour: Provided, That in surface mining which is carried out at the same location over a substantial period of time where the operation transects the coal deposit, and the thickness of the coal deposits relative to the volume of the overburden is large and where the operator demonstrates that the overburden and other spoil and waste materials at a particular point in the permit area or otherwise available from the entire permit area is insufficient, giving due consideration to volumetric expansion, to restore the approximate original contour, the operator, at a minimum, shall backfill, grade and compact, where advisable, using all available overburden and other spoil and waste materials to attain the lowest practicable grade but not more than the angle of repose, to provide adequate drainage and to cover all acid-forming and other toxic materials, in order to achieve an ecologically sound land use compatible with the surrounding region: Provided, however, That in surface mining where the volume of overburden is large relative to the thickness of the coal deposit and where the operator demonstrates that due to volumetric expansion the amount of overburden and other spoil and waste materials removed in the course of the mining operation is
more than sufficient to restore the approximate original contour, the operator shall, after restoring the approximate contour, backfill, grade and compact, where advisable, the excess overburden and other spoil and waste materials to attain the lowest grade but not more than the angle of repose, and to cover all acid-forming and other toxic materials, in order to achieve an ecologically sound land use compatible with the surrounding region and, such overburden or spoil shall be shaped and graded in such a way as to prevent slides, erosion and water pollution and is revegetated in accordance with the requirements of this article: Provided further, That the reclamation commission shall promulgate rules and regulations governing variances to the requirements for return to approximate original contour or highwall elimination and where adequate material is not available from surface-mining operations permitted after the effective date of this article for (A) underground mining operations existing prior to the third day of August, one thousand nine hundred seventy-seven, or (B) for areas upon which surface mining prior to the first day of July, one thousand nine hundred seventy-seven, created highwalls;

(4) Stabilize and protect all surface areas, including spoil piles, affected by the surface-mining operation to effectively control erosion and attendant air and water pollution;

(5) Remove the topsoil from the land in a separate layer, replace it on the backfill area, or if not utilized immediately, segregate it in a separate pile from other spoil and, when the topsoil is not replaced on a backfill area within a time short enough to avoid deterioration of the topsoil, maintain a successful vegetative cover by quick growing plants or by other similar means in order to protect topsoil from wind and water erosion and keep it free of any contamination by other acid or toxic material: Provided, That if topsoil is of insufficient quantity or of poor quality for sustaining vegetation, or if other strata can be shown to be more suitable for vegetation requirements, then the operator shall remove, segregate and preserve in a like manner such other strata which is best able to support vegetation;

(6) Restore the topsoil or the best available subsoil which is best able to support vegetation;
(7) Ensure that all prime farmlands are mined and reclaimed in accordance with the specifications for soil removal, storage, replacement and reconstruction established by the United States secretary of agriculture and the soil conservation service pertaining thereto. The operator, as a minimum, shall be required to: (A) Segregate the A horizon of the natural soil, except where it can be shown that other available soil materials will create a final soil having a greater productive capacity, and if not utilized immediately, stockpile this material separately from other spoil, and provide needed protection from wind and water erosion or contamination by other acid or toxic material; (B) segregate the B horizon of the natural soil, or underlying C horizons or other strata, or a combination of such horizons or other strata that are shown to be both texturally and chemically suitable for plant growth and that can be shown to be equally or more favorable for plant growth than the B horizon, in sufficient quantities to create in the regraded final soil a root zone of comparable depth and quality to that which existed in the natural soil, and if not utilized immediately, stockpile this material separately from other spoil and provide needed protection from wind and water erosion or contamination by other acid or toxic material; (C) replace and regrade the root zone material described in subparagraph (B) above with proper compaction and uniform depth over the regraded spoil material; and (D) redistribute and grade in a uniform manner the surface soil horizon described in subparagraph (A) above;

(8) Create, if authorized in the approved surface-mining and reclamation plan and permit, permanent impoundments of water on mining sites as part of reclamation activities in accordance with regulations promulgated by the reclamation commission;

(9) Where augering is the method of recovery, seal all auger holes with an impervious and noncombustible material in order to prevent drainage except where the director determines that the resulting impoundment of water in such auger holes may create a hazard to the environment or the public welfare and safety: Provided, That the director may prohibit augering if necessary to maximize the utilization, recoverability or conservation of
the mineral resources or to protect against adverse water quality impacts;

(10) Minimize the disturbances to the prevailing hydrologic balance at the mine site and in associated off-site areas and to the quality and quantity of water in surface and ground water systems both during and after surface-mining operations and during reclamation by: (A) Avoiding acid or other toxic mine drainage; (B) conducting surface-mining operations so as to prevent to the extent possible, using the best technology currently available, additional contributions of suspended solids to streamflow or runoff outside the permit area, but in no event shall contributions be in excess of requirements set by applicable state or federal law; (C) constructing an approved drainage system pursuant to subparagraph (B) of this subdivision prior to commencement of surface-mining operations, such system to be certified by a person approved by the director to be constructed as designed and as approved in the reclamation plan; (D) avoiding channel deepening or enlargement in operations requiring the discharge of water from mines; (E) unless otherwise authorized by the director, cleaning out and removing temporary or large settling ponds or other siltation structures after disturbed areas are revegetated and stabilized, and depositing the silt and debris at a site and in a manner approved by the director; (F) restoring recharge capacity of the mined area to approximate premining conditions; and (G) such other actions as the reclamation commission may prescribe;

(11) With respect to surface disposal of mine wastes, tailings, coal processing wastes and other wastes in areas other than the mine working excavations, stabilize all waste piles in designated areas through construction in compacted layers, including the use of noncombustible and impervious materials if necessary, and assure the final contour of the waste pile will be compatible with natural surroundings and that the site will be stabilized and revegetated according to the provisions of this article;

(12) Design, locate, construct, operate, maintain, enlarge, modify and remove or abandon, in accordance with the standards and criteria developed pursuant to subsection (f) of this section, all existing and new coal mine
waste piles consisting of mine wastes, tailings, coal processing wastes or other liquid and solid wastes, and used either temporarily or permanently as dams or embankments;

(13) Refrain from surface mining within five hundred feet of any active and abandoned underground mines in order to prevent breakthroughs and to protect health or safety of miners: Provided, That the director shall permit an operator to mine near, through or partially through an abandoned underground mine or closer to an active underground mine if: (A) The nature, timing and sequencing of the approximate coincidence of specific surface-mine activities with specific underground mine activities are coordinated jointly by the operators involved and approved by the director of the department of mines, and (B) the operations will result in improved resource recovery, abatement of water pollution or elimination of hazards to the health and safety of the public: Provided, That any breakthrough which does occur shall be sealed;

(14) Ensure that all debris, acid-forming materials, toxic materials or materials constituting a fire hazard are treated or buried and compacted, or otherwise disposed of in a manner designed to prevent contamination of ground or surface waters, and that contingency plans are developed to prevent sustained combustion: Provided, That the operator shall remove or bury all metal, lumber, equipment and other debris resulting from the operation before grading release;

(15) Ensure that explosives are used only in accordance with existing state and federal law and the regulations promulgated by the reclamation commission, which shall include provisions to: (A) Provide adequate advance written notice to local governments and residents who might be affected by the use of the explosives by publication of the planned blasting schedule in a newspaper of general circulation in the locality and by mailing a copy of the proposed blasting schedule to every resident living within one-half mile of the proposed permit area excluding drainage structures, haulroads and access roads unless there will be blasting on or near such structures or roads: Provided, That this notice shall suffice as daily notice to
residents or occupants of the areas; (B) maintain for a period of at least three years and make available for public inspection, upon written request, a log detailing the location of the blasts, the pattern and depth of the drill holes, the amount of explosives used per hole and the order and length of delay in the blasts; (C) limit the type of explosives and detonating equipment, the size, the timing and frequency of blasts based upon the physical conditions of the site so as to prevent (i) injury to persons; (ii) damage to public and private property outside the permit area; (iii) adverse impacts on any underground mine; and (iv) change in the course, channel or availability of ground or surface water outside the permit area; (D) require that all blasting operations be conducted by persons certified by the director of the department of mines; and (E) provide that upon written request of a resident or owner of a man-made dwelling or structure within one-half mile of any portion of the area identified in subparagraph (A) of this subdivision, the applicant or permittee shall conduct a preblasting survey or other appropriate investigation of the structures and submit the results to the director and a copy to the resident or owner making the request. The area of the survey shall be determined by the director in accordance with regulations promulgated by the reclamation commission;

(16) Ensure that all reclamation efforts proceed in an environmentally sound manner and as contemporaneously as practicable with the surface-mining operations. Time limits shall be established by the reclamation commission requiring backfilling, grading and planting to be kept current: Provided, That where surface-mining operations and underground mining operations are proposed on the same area, which operations must be conducted under separate permits, the director may grant a variance from the requirement that reclamation efforts proceed as contemporaneously as practicable to permit underground mining operations prior to reclamation:

(A) If the director finds in writing that:

(ii) The proposed underground mining operations are necessary or desirable to assure maximum practical recovery of the mineral resource and will avoid multiple disturbance of the surface;

(iii) The applicant has satisfactorily demonstrated that the plan for the underground mining operations conforms to requirements for underground mining in the jurisdiction and that permits necessary for the underground mining operations have been issued by the appropriate authority;

(iv) The areas proposed for the variance have been shown by the applicant to be necessary for the implementing of the proposed underground mining operations;

(v) No substantial adverse environmental damage, either on-site or off-site, will result from the delay in completion of reclamation as required by this article;

(vi) Provisions for the off-site storage of spoil will comply with subdivision (22), subsection (b), section thirteen of this article;

(B) If the reclamation commission has promulgated specific regulations to govern the granting of such variances in accordance with the provisions of this subparagraph and has imposed such additional requirements as he deems necessary;

(C) If variances granted under the provisions of this subsection are to be reviewed by the director not more than three years from the date of issuance of the permit; and

(D) If liability under the bond filed by the applicant with the director pursuant to subsection (b), section twelve of this article shall be for the duration of the underground mining operations and until the requirements of subsection (g), section twelve and section twenty-six of this article have been fully complied with.

(17) Ensure that the construction, maintenance and postmining conditions of access and haulroads into and across the site of operations will control or prevent erosion and siltation, pollution of water, damage to fish or wildlife or their habitat, or public or private property: Provided, That access roads constructed for and used to provide
infrequent service to surface facilities, such as ventilators or monitoring devices, shall be exempt from specific construction criteria provided adequate stabilization to control erosion is achieved through alternative measures;

(18) Refrain from the construction of roads or other access ways up a stream bed or drainage channel or in proximity to the channel so as to significantly alter the normal flow of water;

(20) Assume the responsibility for successful revegetation, as required by subdivision (19) of this subsection, for a period of not less than five growing seasons, as defined by the director, after the last year of augmented seeding, fertilizing, irrigation or other work in order to assure compliance with subdivision (19) of this subsection: Provided, That when the director issues a written finding approving a long-term agricultural postmining land use as a part of the mining and reclamation plan, the director may grant exception to the provisions of subdivision (19) of this subsection: Provided, however, That when the director approves an agricultural postmining land use, the applicable five growing seasons of responsibility for revegetation shall commence at the date of initial planting for such agricultural postmining land use;

(21) Protect off-site areas from slides or damage occurring during surface-mining operations and not deposit spoil material or locate any part of the operations or waste accumulations outside the permit area: Provided, however, That spoil material may be placed outside the permit area, if approved by the director, after a finding that environmental benefits will result from such;
(22) Place all excess spoil material resulting from surface mining activities in such a manner that: (A) Spoil is transported and placed in a controlled manner in position for concurrent compaction and in a way as to assure mass stability and to prevent mass movement; (B) the areas of disposal are within the bonded permit areas and all organic matter shall be removed immediately prior to spoil placements; (C) appropriate surface and internal drainage system or diversion ditches are used to prevent spoil erosion and movement; (D) the disposal area does not contain lateral drains are constructed from the wet areas to the main underdrains in a manner that filtration of the water into the spoil pile will be prevented; (E) if placed on a slope, the spoil is placed upon the most moderate slope among those upon which, in the judgment of the director, the spoil could be placed in compliance with all the requirements of this article, and shall be placed, where possible, upon, or above, a natural terrace, bench or berm, if placement provides additional stability and prevents mass movement; (F) where the toe of the spoil rests on a downslope, a rock toe buttress, of sufficient size to prevent mass movement, is constructed; (G) the final configuration is compatible with the natural drainage pattern and surroundings and suitable for intended uses; (H) design of the spoil disposal area is certified by a qualified registered professional engineer in conformance with professional standards; and (I) all other provisions of this article are met: Provided, That where the excess spoil material consists of at least eighty percent, by volume, sandstone, limestone or other rocks that do not slake in water, the director may approve alternate methods for disposal of excess spoil material, including fill placement by dumping in a single lift, on a site specific basis: Provided, however, That the services of a qualified registered professional engineer experienced in the design and construction of earth and rockfill embankment are utilized: Provided further, That such approval shall not be unreasonably withheld if the site is suitable;

(23) Meet such other criteria as are necessary to achieve reclamation in accordance with the purposes of this article, taking into consideration the physical, climatological and other characteristics of the site;
(24) To the extent possible, using the best technology currently available, minimize disturbances and adverse impacts of the operation on fish, wildlife and related environmental values, and achieve enhancement of these resources where practicable; and

(25) Retain a natural barrier to inhibit slides and erosion on permit areas where outcrop barriers are required: Provided, That constructed barriers may be allowed where (A) natural barriers do not provide adequate stability, (B) natural barriers would result in potential future water quality deterioration, and (C) natural barriers would conflict with the goal of maximum utilization of the mineral resource: Provided, however, That, at a minimum, the constructed barrier must be of sufficient width and height to provide adequate stability and the stability factor must equal or exceed that of the natural outcrop barrier: Provided further, That where water quality is paramount, the constructed barrier must be composed of impervious material with controlled discharge points.

(c) (1) The reclamation commission may prescribe procedures pursuant to which the director may permit surface-mining operations for the purposes set forth in subdivision (3) of this subsection.

(2) Where an applicant meets the requirements of subdivisions (3) and (4) of this subsection, a permit without regard to the requirement to restore to approximate original contour set forth in subsection (b) or (d) of this section may be granted for the surface mining of coal where the mining operation will remove an entire coal seam or seams running through the upper fraction of a mountain, ridge or hill, except as provided in subparagraph (A), subdivision (4) of this subsection, by removing all of the overburden and creating a level plateau or a gently rolling contour with no highwalls remaining, and capable of supporting postmining uses in accordance with the requirements of this subsection.

(3) In cases where an industrial, commercial, woodland, agricultural, residential or public use is proposed for the postmining use of the affected land, the director may grant a permit for a surface-mining operation of the nature described in subdivision (2) of this subsection where: (A)
The proposed postmining land use is deemed to constitute an equal or better use of the affected land, as compared with premining use; (B) the applicant presents specific plans for the proposed postmining land use and appropriate assurances that the use will be: (i) Compatible with adjacent land uses; (ii) practicable with respect to achieving the proposed use; (iii) supported by commitments from public agencies where appropriate; (iv) practicable with respect to private financial capability for completion of the proposed use; (v) planned pursuant to a schedule attached to the reclamation plan so as to integrate the mining operation and reclamation with the postmining land use; and (vi) designed by a person approved by the director in conformance with standards established to assure the stability, drainage and configuration necessary for the intended use of the site; (C) the proposed use would be compatible with adjacent land uses, and existing state and local land use plans and programs; (D) the director provides the county commission of the county in which the land is located and any state or federal agency which the director, in his discretion, determines to have an interest in the proposed use, an opportunity of not more than sixty days to review and comment on the proposed use; and (E) all other requirements of this article will be met.

(4) In granting any permit pursuant to this subsection, the director shall require that: (A) A natural barrier be retained to inhibit slides and erosion on permit areas where outcrop barriers are required: Provided, That constructed barriers may be allowed where (i) natural barriers do not provide adequate stability, (ii) natural barriers would result in potential future water quality deterioration, and (iii) natural barriers would conflict with the goal of maximum utilization of the mineral resource: Provided, however, That, at a minimum, the constructed barrier must be of sufficient width and height to provide adequate stability and the stability factor must equal or exceed that of the natural outcrop barrier: Provided further, That where water quality is paramount, the constructed barrier must be composed of impervious material with controlled discharge points; (B) the reclaimed area is stable; (C) the resulting plateau or rolling contour drains inward from the outslopes except at specific points; (D) no damage will be
done to natural watercourses; (E) spoil will be placed on the
mountaintop bench as is necessary to achieve the planned
postmining land use: Provided, That all excess spoil
material not retained on the mountaintop shall be placed in
accordance with the provisions of subdivision (22),
subsection (b) of this section; and (F) ensure stability of the
spoil retained on the mountaintop and meet the other
requirements of this article.

(5) All permits granted under the provisions of this
subsection shall be reviewed not more than three years from
the date of issuance of the permit, unless the applicant
affirmatively demonstrates that the proposed development
is proceeding in accordance with the terms of the approved
schedule and reclamation plan.

(d) In addition to those general performance standards
required by this section, when surface mining occurs on
slopes of twenty degrees or greater, or on such lesser slopes
as may be defined by regulation after consideration of soil
and climate, no debris, abandoned or disabled equipment,
spoil material or waste mineral matter will be placed on the
natural downslope below the initial bench or mining cut:
Provided, That soil or spoil material from the initial cut of
earth in a new surface-mining operation may be placed on a
limited specified area of the downslope below the initial cut
if the permittee can establish to the satisfaction of the
director that the soil or spoil will not slide and that the other
requirements of this section can still be met.

(e) The reclamation commission may promulgate
regulations pursuant to which the director may permit
variances from the requirements of this section: Provided,
That the watershed control of the area is improved: Provided, however, That complete backfilling with spoil
material shall be required to completely cover the highwall,
which material will maintain stability following mining
and reclamation.

(f) The reclamation commission shall promulgate
regulations for the design, location, construction,
maintenance, operation, enlargement, modification,
removal and abandonment of new and existing coal mine
waste piles. In addition to engineering and other technical
specifications, the standards and criteria developed
pursuant to this subsection must include provisions for
review and approval of plans and specifications prior to
construction, enlargement, modification, removal or
abandonment; performance of periodic inspections during
construction; issuance of certificates of approval upon
completion of construction; performance of periodic safety
inspections; and issuance of notices and orders for required
remedial or maintenance work or affirmative action:
Provided, That whenever the director finds that any coal
processing waste pile constitutes an imminent danger to
human life, he may, in addition to all other remedies and
without the necessity of obtaining the permission of any
person prior or present who operated or operates the pile or
the landowners involved, enter upon the premises where
any such coal processing waste pile exists and may take or
order to be taken such remedial action as may be necessary
or expedient to secure the coal processing waste pile and to
abate the conditions which cause the danger to human life:
Provided, however, That the cost reasonably incurred in
any remedial action taken by the director under this
subsection may be paid for initially by funds appropriated
to the department of natural resources for these purposes,
and the sums so expended shall be recovered from any
responsible operator or landowner, individually or jointly,
by suit initiated by the attorney general at the request of the
director. For purposes of this subsection "operates" or
"operated" means to enter upon a coal processing waste
pile, or part thereof, for the purpose of disposing,
depositing, dumping coal processing wastes thereon or
removing coal processing waste therefrom, or to employ a
coa l processing waste pile for retarding the flow of or for the
impoundment of water.

§20-6-14. General environmental protection performance
standards for the surface effects of underground
mining; application of other provisions of article
to surface effects of underground mining.

(a) The reclamation commission shall promulgate
separate regulations directed toward the surface effects of
underground coal mining operations, embodying the
requirements in subsection (b) of this section: Provided,
That in adopting such regulations, the reclamation
commission shall consider the distinct difference between
7 surface coal mines and underground coal mines in West
8 Virginia. Such regulations may not conflict with or
9 supersede any provision of the federal or state coal mine
10 health and safety laws or any regulation issued pursuant
11 thereto.
12
13 (b) Each permit issued by the director pursuant to this
14 article and relating to underground coal mining shall
15 require the operation as minimum to:
16
17 (1) Adopt measures consistent with known technology
18 in order to prevent subsidence causing material damage to
19 the extent technologically and economically feasible,
20 maximize mine stability and maintain the value and
21 reasonably foreseeable use of overlying surface lands,
22 except in those instances where the mining technology used
23 requires planned subsidence in a predictable and controlled
24 manner: Provided, That this subsection does not prohibit
25 the standard method of room and pillar mining;
26
27 (2) Seal all portals, entryways, drifts, shafts or other
28 openings that connect the earth's surface to the
29 underground mine workings when no longer needed for the
30 conduct of the mining operations in accordance with the
31 requirements of all applicable federal and state law and
32 regulations promulgated pursuant thereto;
33
34 (3) Fill or seal exploratory holes no longer necessary for
35 mining and maximize to the extent technologically and
36 economically feasible, if environmentally acceptable,
37 return of mine and processing waste, tailings and any other
38 waste incident to the mining operation to the mine
39 workings or excavations;
40
41 (4) With respect to surface disposal of mine wastes,
42 tailings, coal processing wastes and other wastes in areas
43 other than the mine workings or excavations, stabilize all
44 waste piles created by the operator from current operations
45 through construction in compacted layers, including the
46 use of incombustible and impervious materials, if
47 necessary, and assure that any leachate therefrom will not
48 degrade surface or ground waters below water quality
49 standards established pursuant to applicable federal and
50 state law and that the final contour of the waste
51 accumulation will be compatible with natural
surroundings and that the site is stabilized and revegetated according to the provisions of this section;

(5) Design, locate, construct, operate, maintain, enlarge, modify and remove or abandon, in accordance with the standards and criteria developed pursuant to subsection (f), section thirteen of this article, all existing and new coal mine waste piles consisting of mine wastes, tailings, coal processing wastes and solid wastes and used either temporarily or permanently as dams or embankments;

(6) Establish on regraded areas and all other disturbed areas a diverse and permanent vegetative cover capable of self-regeneration and plant succession and at least equal in extent of cover to the natural vegetation of the area within the time period prescribed in subdivision (20), subsection (b), section thirteen of this article;

(7) Protect off-site areas from damages which may result from such mining operations;

(8) Eliminate fire hazards and otherwise eliminate conditions which constitute a hazard to health and safety of the public;

(9) Minimize the disturbance of the prevailing hydrologic balance at the mine site and in associated off-site areas and to the quantity and the quality of water in surface and ground water systems both during and after mining operations and during reclamation by: (A) Avoiding acid or other toxic mine drainage by such measures as, but not limited to: (i) Preventing or removing water from contact with toxic producing deposits; (ii) treating drainage to reduce toxic content which adversely affects downstream water before being released to water courses; and (iii) casing, sealing or otherwise managing boreholes, shafts and wells to keep acid or other toxic drainage from entering ground and surface waters; and (B) conducting mining operations so as to prevent, to the extent possible using the best technology currently available, additional contributions of suspended solids to streamflow or runoff outside the permit area, but in no event shall the contributions be in excess of requirements set by applicable state or federal law, and avoiding channel deepening or
enlargement in operations requiring the discharge of water from mines: Provided, That in recognition of the distinct differences between surface and underground mining the monitoring of water from underground coal mine workings shall be in accordance with the provisions of the Clean Water Act of 1977;

(10) With respect to other surface impacts of underground mining not specified in this subsection, including the construction of new roads or the improvement or use of existing roads to gain access to the site of such activities and for haulage, repair areas, storage areas, processing areas, shipping areas, and other areas upon which are sited structures, facilities or other property or materials on the surface, resulting from or incident to such activities, operate in accordance with the standards established under section thirteen of this article for such effects which result from surface-mining operations: Provided, That the reclamation commission shall make such modifications in the requirements imposed by this subdivision as are necessary to accommodate the distinct difference between surface and underground mining in West Virginia;

(11) To the extent possible using the best technology currently available, minimize disturbances and adverse impacts of the operation on fish, aquatic life, wildlife and related environmental values, and achieve enhancement of such resources where practicable; and

(12) Unless otherwise permitted by the director after consultation with the department of mines and in consideration of the relevant safety and environmental factors, locate openings for all new drift mines working in acid producing or iron producing coal seams in a manner as to prevent a gravity discharge of water from the mine.

(c) In order to protect the stability of the land, the director shall suspend underground mining under urbanized areas, cities, towns and communities and adjacent to industrial or commercial buildings, major impoundments or permanent streams if he finds imminent danger to inhabitants of the urbanized areas, cities, towns or communities.
(d) The provisions of this article relating to permits, bonds, insurance, inspections, reclamation and enforcement, public review and administrative and judicial review shall also be applicable to surface operations and surface impacts incident to an underground mine with such modifications by regulation to the permit application requirements, permit approval or denial procedures and bond requirements as are necessary to accommodate the distinct difference between surface mines and underground mines in West Virginia.

§20-6-16. Cessation of operation by order of inspector; informal conference; imposition of affirmative obligations; appeal.

(a) Notwithstanding any other provisions of this article, a surface-mining reclamation inspector shall have the authority to issue a cessation order for any portion of a surface-mining operation when an inspector determines that any condition or practice exists, or that any permittee is in violation of any requirements of this article or any permit condition required by this article, which condition, practice or violation also creates an imminent danger to the health or safety of the public, or is causing or can reasonably be expected to cause significant, imminent environmental harm to land, air or water resources. The cessation order shall take effect immediately. Unless waived in writing, an informal conference shall be held at or near the site relevant to the violation set forth in the cessation order within twenty-four hours after the order becomes effective or such order shall expire. The conference shall be held before a surface-mining reclamation supervisor who shall, immediately upon conclusion of said hearing, determine when and if the operation or portion thereof may resume. Any operator who believes he is aggrieved by the decision of the surface-mining reclamation supervisor may immediately appeal to the director, setting forth reasons why the operation should not be halted. The director forthwith shall determine when the operation or portion thereof may be resumed.

(b) The cessation order shall remain in effect until the director determines that the condition, practice or violation has been abated, or until modified, vacated or released by
the director. Where the director finds that the ordered
cessation of any portion of a surface coal mining operation
will not completely abate the imminent danger to health or
safety of the public or the significant imminent
environmental harm to land, air or water resources, the
director shall, in addition to the cessation order, impose
affirmative obligations on the operator requiring him to
take whatever steps the director deems necessary to abate
the imminent danger or the significant environmental
harm.

(c) Any cessation order issued pursuant to this section
or any other provision of this article may be released by any
inspector. An inspector shall be readily available to
terminate a cessation order upon abatement of the
violation.

§20-6-17. Notice of violation; procedure and actions;
enforcement; permit revocation and bond
forfeiture; civil and criminal penalties; appeals
to the board; prosecution; injunctive relief.

(a) If any of the requirements of this article, rules and
regulations promulgated pursuant thereto or permit
conditions have not been complied with, the director may
cause a notice of violation to be served upon the operator or
his duly authorized agent. A copy of the notice shall be
handed to the operator or his duly authorized agent in
person or served by certified mail addressed to the operator
at the permanent address shown on the application for a
permit. The notice shall specify in what respects the
operator has failed to comply with this article, rules and
regulations or permit conditions and shall specify a
reasonable time for abatement of the violation not to exceed
fifteen days. If the operator has not abated the violation
within the time specified in the notice, or any reasonable
extension thereof, not to exceed seventy-five days, the
director shall order the cessation of the operation or the
portion thereof causing the violation, unless the operator
affirmatively demonstrates that compliance is unattainable
due to conditions totally beyond the control of the operator.
If a violation is not abated within the time specified or any
extension thereof, or any cessation order is issued, a
mandatory civil penalty of not less than seven hundred fifty
dollars per day per violation shall be assessed: *Provided,*

That if a cessation order is released or expires within twenty-four hours after issuance no mandatory civil penalty shall be assessed. A cessation order shall remain in effect until the director determines that the violation has been abated or until modified, vacated or terminated by the director or by a court. In any cessation order issued under this subsection the director shall determine the steps necessary to abate the violation in the most expeditious manner possible and shall include the necessary measures in the order.

(b) If the director determines that a pattern of violations of any requirement of this article or any permit condition exists or has existed, as a result of the operator's lack of reasonable care and diligence, or that the violations are willfully caused by the operator, the director shall immediately issue an order directing the operator to show cause why the permit should not be suspended or revoked and giving the operator thirty days in which to request a public hearing. If a hearing is requested, the director shall inform all interested parties of the time and place of the hearing. Any hearing under this section shall be recorded and subject to the provisions of chapter twenty-nine-a of this code. Within sixty days following the public hearing, the director shall issue and furnish to the permittee and all other parties to the hearing a written decision, and the reasons therefor, concerning suspension or revocation of the permit. Upon the operator's failure to show cause why the permit should not be suspended or revoked, the director shall immediately revoke the operator's permit, forfeit the operator's bond, or other security posted pursuant to section twelve of this article, and give notice to the attorney general, who shall collect the forfeiture without delay: *Provided,* That the entire proceeds of such forfeiture shall be deposited with the treasurer of the state of West Virginia to the credit of the special reclamation fund. All forfeitures collected prior to the effective date of this article shall be deposited in the special reclamation fund and shall be expended back upon the areas for which the bond was posted: *Provided, however,* That any excess therefrom shall remain in the special reclamation fund.
Any person engaged in surface-mining operations who violates any permit condition or who violates any other provision of this article or rules and regulations promulgated pursuant thereto may also be assessed a civil penalty. The penalty shall not exceed five thousand dollars. Each day of continuing violation may be deemed a separate violation for purposes of penalty assessments. In determining the amount of the penalty, consideration shall be given to the operator's history of previous violations at the particular surface-mining operation, the seriousness of the violation, including any irreparable harm to the environment and any hazard to the health or safety of the public, whether the operator was negligent, and the demonstrated good faith of the operator charged in attempting to achieve rapid compliance after notification of the violation.

(d) (1) Upon the issuance of a notice or order pursuant to this section, the assessment officer shall, within thirty days, set a proposed penalty assessment and notify the operator in writing of such proposed penalty assessment. The proposed penalty assessment must be paid in full within thirty days of receipt or, if the operator wishes to contest either the amount of the penalty or the fact of violation, an informal conference with the assessment officer may be requested within fifteen days or a formal hearing before the reclamation board of review may be requested within thirty days. The notice of proposed penalty assessment shall advise the operator of the right to contest either the amount of the penalty or the fact of violation, an informal conference with the assessment officer may be requested within fifteen days or a formal hearing before the reclamation board of review may be requested within thirty days. The notice of proposed penalty assessment shall advise the operator of the right to an informal conference and a formal hearing pursuant to this section. When an informal conference is requested, the operator shall have fifteen days from receipt of the assessment officer's decision to request a formal hearing before the board. (A) When an informal conference is held, the assessment officer shall have authority to affirm, modify or vacate the notice, order or proposed penalty assessment. (B) When a formal hearing is requested, the amount of the proposed penalty assessment shall be forwarded to the director for placement in an escrow account. Formal hearings shall be of record and subject to the provisions of article five, chapter twenty-nine-a of the code of West Virginia, one thousand nine hundred thirty-one, as amended. Following the hearing the board shall
affirm, modify or vacate the notice, order or proposed
penalty assessment and, when appropriate, incorporate an
assessment order requiring that the assessment be paid.

(2) Civil penalties owed under this section may be
recovered by the director in the circuit court of Kanawha
County. Civil penalties collected under this article shall be
deposited with the treasurer of the state of West Virginia to
the credit of the special reclamation fund established in
section twelve of this article. If, through the administrative
or judicial review of the proposed penalty, it is determined
that no violation occurred or that the amount of the penalty
should be reduced, the director shall within thirty days
remit the appropriate amount to the person, with interest at
the rate of six percent or at the prevailing United States
department of the treasury rate, whichever is greater.
Failure to forward the money to the director within thirty
days shall result in a waiver of all legal rights to contest the
violation or the amount of the penalty.

(3) Any person having an interest which is or may be
adversely affected by any order of the director or the board
may file an appeal only in accordance with the provisions of
section twenty-five of this article within thirty days after
receipt of the order.

(4) The filing of an appeal provided for in this section
shall not stay execution of the order appealed from.
Pending completion of the investigation and hearing
required by this section, the applicant may file with the
director a written request that the director grant temporary
relief from any notice or order issued under section sixteen
or seventeen of this article, together with a detailed
statement giving reasons for granting such relief. The
director shall issue an order or decision granting or denying
such relief expeditiously: Provided, That where the
applicant requests relief from an order for cessation of
surface-mining and reclamation operations, the decision on
the request shall be issued within forty-eight hours of its
receipt. The director may grant such relief, under such
conditions as he may prescribe if:

(A) All parties to the proceedings have been notified and
given an opportunity to be heard on a request for temporary
relief;
(B) The person requesting the relief shows that there is a substantial likelihood that he will prevail on the merits in the final determination of the proceedings;

(C) The relief will not adversely affect the public health or safety or cause significant imminent environmental harm to land, air or water resources; and

(D) The relief sought is not the issuance of a permit where a permit has been denied, in whole or in part, by the director.

(e) Any person who willfully and knowingly violates a condition of a permit issued pursuant to this article or regulations promulgated pursuant thereto, or fails or refuses to comply with any order issued under said article and regulations or any order incorporated in a final decision issued by the director, is guilty of a misdemeanor, and, upon conviction thereof, shall be fined not less than one hundred dollars nor more than ten thousand dollars, or imprisoned in the county jail not more than one year, or both fined and imprisoned.

(f) Whenever a corporate operator violates a condition of a permit issued pursuant to this article, regulations promulgated pursuant thereto, or any order incorporated in a final decision issued by the director, any director, officer or agent of the corporation, who willfully and knowingly authorized, ordered or carried out the failure or refusal, shall be subject to the same civil penalties, fines and imprisonment that may be imposed upon a person under subsections (c) and (e) of this section.

(g) Any person who knowingly makes any false statement, representation or certification, or knowingly fails to make any statement, representation or certification in any application, petition, record, report, plan or other document filed or required to be maintained pursuant to this article or regulations promulgated pursuant thereto, is guilty of a misdemeanor, and, upon conviction thereof, shall be fined not less than one hundred dollars nor more than ten thousand dollars, or imprisoned in the county jail not more than one year, or both fined and imprisoned.

(h) Whenever any person: (A) Violates or fails or refuses to comply with any order or decision issued by the director
under this article; or (B) interferes with, hinders or delays
the director in carrying out the provisions of this article; or
(C) refuses to admit the director to the mine; or (D) refuses
to permit inspection of the mine by the director; or (E)
refuses to furnish any reasonable information or report
requested by the director in furtherance of the provisions of
this article; or (F) refuses to permit access to, and copying
of, such records as the director determines necessary in
carrying out the provisions of this article; or (G) violates
any other provisions of this article, the regulations
promulgated pursuant thereto, or the terms and conditions
of any permit, the director, the attorney general or the
prosecuting attorney of the county in which the major
portion of the permit area is located may institute a civil
action for relief, including a permanent or temporary
injunction, restraining order or any other appropriate
order, in the circuit court of Kanawha County or any court
of competent jurisdiction to compel compliance with and
enjoin such violations, failures or refusals. The court or the
judge thereof may issue a preliminary injunction in any case
pending a decision on the merits of any application filed
without requiring the filing of a bond or other equivalent
security.

(i) Any person who shall, except as permitted by law,
willfully resist, prevent, impede or interfere with the
director or any of his agents in the performance of duties
pursuant to this article is guilty of a misdemeanor, and,
upon conviction thereof, shall be punished by a fine of not
more than five thousand dollars or by imprisonment for not
more than one year, or both.

§20-6-18. Approval, denial, revision and prohibition of permit.

(a) Upon the receipt of a surface-mining application or
significant revision or renewal thereof, including public
notification and an opportunity for a public hearing, the
director shall grant, require revision of, or deny the
application for a permit within sixty days and notify the
applicant in writing of his decision.

(b) No permit or significant revision of a permit may be
approved unless the applicant affirmatively demonstrates
and the director finds in writing on the basis of the
information set forth in the application or from information
otherwise available which shall be documented in the
approval and made available to the applicant that:

(1) The permit application is accurate and complete and
that all the requirements of this article and regulations
thereunder have been complied with;

(2) The applicant has demonstrated that reclamation as
required by this article can be accomplished under the
reclamation plan contained in the permit application;

(3) The assessment of the probable cumulative impact of
all anticipated mining in the area on the hydrologic
balance, as specified in section ten of this article, has been
made by the director and the proposed operation has been
designed to prevent material damage to the hydrologic
balance outside the permit area;

(4) The area proposed to be mined is not included within
an area designated unsuitable for surface mining pursuant
to section twenty-two of this article or is not within an area
under administrative study by the reclamation commission
for such designation; and

(5) In cases where the private mineral estate has been
severed from the private surface estate, the applicant has
submitted: (A) The written consent of the surface owner to
the extraction of coal by surface mining; or (B) a
conveyance that expressly grants or reserves the right to
extract the coal by surface mining; or (C) if the conveyance
does not expressly grant the right to extract coal by surface
mining, the surface-subsurface legal relationship shall be
determined in accordance with applicable law: Provided,
That nothing in this article shall be construed to authorize
the director to adjudicate property rights disputes.

(c) Where information available to the department
indicates that any surface-mining operation located in the
state of West Virginia, owned or controlled by the
applicant, is currently in violation of this article or other
environmental laws or regulations, the permit shall not be
issued until the applicant submits proof that such violation
has been corrected or is in the process of being corrected to
the satisfaction of the director or the department or agency
which has jurisdiction over the violation, and no permit
may be issued to any applicant after a finding by the
director, after an opportunity for hearing, that the applicant or the operator specified in the application controls or has controlled mining operations with a demonstrated pattern of willful violations of this article of such nature and duration with such irreparable damage to the environment as to indicate an intent not to comply with the provisions of this article: *Provided*, That if the director finds that the applicant is or has been affiliated with, or managed or controlled by, or is or has been under the common control of, other than as an employee, a person who has had a surface-mining permit revoked or bond or other security forfeited for failure to reclaim lands as required by the laws of this state, he shall not issue a permit to the applicant: *Provided, however*, That subject to the discretion of the director and based upon a petition for reinstatement, permits may be issued to any applicant if, after the revocation or forfeiture, the operator whose permit has been revoked or bond forfeited shall have paid into the special reclamation fund any additional sum of money determined by the director to be adequate to reclaim the disturbed area, and the director is satisfied that the petitioner will comply with this article.

(d) (1) In addition to finding the application in compliance with subsection (b) of this section, if the area proposed to be mined contains prime farmland, the director may, pursuant to regulations promulgated hereunder, grant a permit to mine on prime farmland if the operator affirmatively demonstrates that he has the technological capability to restore such mined area, within a reasonable time, to equivalent or higher levels of yield as nonmined prime farmland in the surrounding area under equivalent levels of management, and can meet the soil reconstruction standards in subdivision seven, subsection (b), section thirteen of this article. Except for compliance with subsection (b) of this section, the requirements of subdivision (1) of this subsection shall apply to all permits issued after the third day of August, one thousand nine hundred seventy-seven.

(2) Nothing in this subsection shall apply to any permit issued prior to the third day of August, one thousand nine hundred seventy-seven, or to any revisions or renewals
thereof, or to any existing surface-mining operations for which a permit was issued prior to said date.

(e) If the director finds that the overburden on any part of the area of land described in the application for a permit is such that experience in the state with a similar type of operation upon land with similar overburden shows that one or more of the following conditions cannot feasibly be prevented: (1) Substantial deposition of sediment in stream beds, (2) landslides, or (3) acid-water pollution, the director may delete such part of the land described in the application upon which such overburden exists.

§20-6-19. Permit revision and renewal requirements; requirements for transfer; assignment and sale of permit rights; and operator reassignment.

(a) (1) Any valid permit issued pursuant to this article shall carry with it the right of successive renewal upon expiration with respect to areas within the boundaries of the existing permit. The holders of the permit may apply for renewal and the renewal shall be issued: Provided, That on application for renewal, the burden shall be on the opponents of renewal, unless it is established that and written findings by the director are made that: (A) The terms and conditions of the existing permit are not being satisfactorily met: Provided, That if the permittee is required to modify operations pursuant to mining or reclamation requirements which become applicable after the original date of permit issuance, the permittee shall be provided an opportunity to submit a schedule allowing a reasonable period to comply with such revised requirements; (B) the present surface-mining operation is not in compliance with the applicable environmental protection standards of this article; (C) the renewal requested substantially jeopardizes the operator's continuing responsibility on existing permit areas; (D) the operator has not provided evidence that the performance bond in effect for said operation will continue in effect for any renewal requested as required pursuant to section twelve of this article; or (E) any additional revised or updated information as required pursuant to rules and regulations promulgated by the reclamation commission has not been provided.
(2) If an application for renewal of a valid permit includes a proposal to extend the surface-mining operation beyond the boundaries authorized in the existing permit, except incidental boundary revisions, the applicant shall apply for a new permit. Incidental boundary revisions shall include, but not be limited to, additional areas of disturbance ancillary to permitted surface effects of underground mining operations, provided that the operator has submitted (A) adequate bond, (B) a map showing the disturbed area and facilities, and (C) a reclamation plan.

(3) Any permit renewal shall be for a term not to exceed the period of time for which the original permit was issued. Application for permit renewal shall be made at least one hundred twenty days prior to the expiration of the valid permit.

(4) Any permit renewal application shall be on forms prescribed by the director and shall contain such information as the director requires pursuant to rule or regulation.

(b) (1) During the term of the permit, the permittee may submit to the director an application for a revision of the permit, together with a revised reclamation plan.

(2) An application for a significant revision of a permit shall be subject to all requirements of this article and regulations promulgated pursuant thereto.

(3) Any extension to an area already covered by the permit, except incidental boundary revisions, shall be made by application for another permit.

(c) The director shall review outstanding permits of a five-year term before the end of the third year of the permit. Other permits shall be reviewed within the time established by regulations. The director may require reasonable revision or modification of the permit following review: Provided, That such revision or modification shall be based upon written findings and shall be preceded by notice to the permittee and opportunity for hearing.

(d) No transfer, assignment or sale of the rights granted under any permit issued pursuant to this article shall be made without the prior written approval of the director.
§20-6-22. Designation of areas unsuitable for surface mining; petition for removal of designation; prohibition of surface mining on certain areas; exceptions; taxation of minerals underlying land designated unsuitable.

(a) The reclamation commission shall establish a planning process to enable objective decisions based upon competent and scientifically sound data and information as to which, if any, land areas of this state are unsuitable for all or certain types of surface-mining operations pursuant to the standards set forth in subdivisions (1) and (2) of this subsection: Provided, That such designation shall not prevent prospecting pursuant to section eight of this article on any area so designated.

(1) Upon petition pursuant to subsection (b) of this section, the reclamation commission shall designate an area as unsuitable for all or certain types of surface-mining operations, if it determines that reclamation pursuant to the requirements of this article is not technologically and economically feasible.

(2) Upon petition pursuant to subsection (b) of this section, a surface area may be designated unsuitable for certain types of surface-mining operations, if the operations: (A) Conflict with existing state or local land use plans or programs; (B) affect fragile or historic lands in which the operations could result in significant damage to important historic, cultural, scientific and aesthetic values and natural systems; (C) affect renewable resource lands, including significant aquifers and aquifer recharge areas, in which the operations could result in a substantial loss or reduction of long-range productivity of water supply, food or fiber products; or (D) affect natural hazard lands in which the operations could substantially endanger life and property. Such lands to include lands subject to frequent flooding and areas of unstable geology.

(3) The reclamation commission shall develop a process which includes: (A) The review of surface-mining lands; (B) a data base and an inventory system which will permit proper evaluation of the capacity of different land areas of the state to support and permit reclamation of surface-mining operations; (C) a method for implementing land use
planning decisions concerning surface-mining operations; and (D) proper notice and opportunities for public participation, including a public hearing prior to making any designation or redesignation pursuant to this section.

(4) Determinations of the unsuitability of land for surface mining, as provided for in this section, shall be integrated as closely as possible with present and future land use planning and regulation processes at federal, state and local levels.

(5) The requirements of this section shall not apply to lands on which surface-mining operations were being conducted on the third day of August, one thousand nine hundred seventy-seven, or under a permit issued pursuant to this article, or where substantial legal and financial commitments in the operations were in existence prior to the fourth day of January, one thousand nine hundred seventy-seven.

(b) The director, or any person having an interest which is or may be adversely affected, shall have the right to petition the reclamation commission to have an area designated as unsuitable for surface-mining operations or to have such a designation terminated. The petition shall contain allegations of fact with supporting evidence which would tend to establish the allegations. After receipt of the petition, the reclamation commission shall immediately begin an administrative study of the area specified in the petition. Within ten months after receipt of the petition, the reclamation commission shall hold a public hearing in the locality of the affected area after appropriate notice and publication of the date, time and location of the hearing. After the director or any person having an interest which is or may be adversely affected has filed a petition and before the hearing required by this subsection, any person may intervene by filing allegations of fact with supporting evidence which would tend to establish the allegations. Within sixty days after the hearing, the reclamation commission shall issue and furnish to the petitioner and any other party to the hearing, a written decision regarding the petition and the reasons therefor. In the event that all the petitioners stipulate agreement prior to the requested
hearing and withdraw their request, the hearing need not be held.

(c) Prior to designating any land areas as unsuitable for surface-mining operations, the reclamation commission shall prepare a detailed statement on: (1) The potential coal resources of the area; (2) the demand for the coal resources; and (3) the impact of the designation on the environment, the economy and the supply of coal.

(d) After the third day of August, one thousand nine hundred seventy-seven, and subject to valid existing rights, no surface-mining operations, except those which existed on that date, shall be permitted:

(1) On any lands in this state within the boundaries of units of the national park system, the national wildlife refuge systems, the national system of trails, the national wilderness preservation system, the wild and scenic rivers system, including study rivers designated under section five-a of the Wild and Scenic Rivers Act, and national recreation areas designated by act of Congress;

(2) Which will adversely affect any publicly owned park or places included in the national register of historic sites, or national register of natural landmarks unless approved jointly by the director and the federal, state or local agency with jurisdiction over the park, the historic site or natural landmark;

(3) Within one hundred feet of the outside right-of-way line on any public road, except where mine access roads or haulage roads join such right-of-way line, and except that the director may permit the roads to be relocated or the area affected to lie within one hundred feet of the road if, after public notice and an opportunity for a public hearing in the locality, the director makes a written finding that the interests of the public and the landowners affected thereby will be protected;

(4) Within three hundred feet from any occupied dwelling, unless waived by the owner thereof, or within three hundred feet of any public building, school, church, community or institutional building, public park, or within one hundred feet of a cemetery; or
(5) On any federal lands within the boundaries of any national forest: Provided, That surface coal mining operations may be permitted on the lands if the secretary of the interior finds that there are no significant recreational, timber, economic or other values which may be incompatible with the surface-mining operations: Provided, further, that the surface operations and impacts are incident to an underground coal mine.

(e) Notwithstanding any other provision of this code, the coal underlying any lands designated unsuitable for surface-mining operations under any provisions of this article or underlying any land upon which mining is prohibited by any provisions of this article shall be assessed for taxation purposes according to their value and the Legislature hereby finds that the coal has no value for the duration of the designation or prohibition unless suitable for underground mining not in violation of this article: Provided, That the owner of the coal shall forthwith notify the proper assessing authorities if the designation or prohibition is removed so that the coal may be reassessed.

§20-6-24. Appeals to the board; hearings before board; subpoena and subpoena duces tecum; records; findings and orders of the board.

(a) Any person having an interest which is or may be adversely affected by any order of the reclamation commission assessment officer or a decision of the director to grant, deny, modify, renew or significantly revise a permit, or a decision of the director concerning a bond release pursuant to section twenty-six of this article, may appeal that decision to the board, or may intervene in any such pending appeal. The person so appealing to the board shall be known as the appellant, and the commissioner or director shall be known as the appellee. The appellant and appellee are deemed to be parties to the appeal. Any hearing shall be subject to the requirements of chapter twenty-nine-a of this code.

(b) The appeal shall be in writing and shall set forth the action complained of and the specific grounds upon which the appeal is based. Within thirty days after the appellant is notified of the decision of the director or the reclamation commission, or within fifteen days after the appellant is
notified of the decision of the assessment officer, the
appellant or any person with an interest which is or may be
adversely affected may request a hearing on the reasons for
the decision complained of. A notice of the appeal shall be
filed with the reclamation commission or the director
within three days after the appeal is filed with the board.

(c) Upon the filing of the appeal, the board shall fix the
time and place at which the hearing on the appeal will be
held, which hearing shall be held within thirty days after
the notice of appeal is filed, and shall give the appellant, the
commission and the director at least twenty days' written
notice thereof by certified mail. The board may postpone or
continue any hearing upon its own motion or motion of the
parties to the appeal.

(d) Not later than five days prior to the time fixed for the
hearing on the appeal, the reclamation commission or
director shall prepare and certify to the board a complete
record of the proceedings of the reclamation commission or
director out of which the appeal arises, including all
documents and correspondence related to the matter.

(e) The board shall hear the appeal de novo and any
party to the appeal may submit evidence. For the purpose of
conducting a hearing on an appeal, the board may require
the attendance of witnesses and the production of books,
records and papers, and it may, and at the request of any
party it shall, issue subpoenas for witnesses or subpoenas
duces tecum to compel the production of any books, records
or papers, directed to the sheriff of the county where
witnesses, books, records or papers are found, which
subpoenas and subpoenas duces tecum shall be served and
returned in the same manner as subpoenas and subpoenas
duces tecum in civil litigation are served and returned. The
fees and allowances for mileage of sheriffs and witnesses
shall be the same as those permitted in civil litigation in
trial courts. All fees and mileage expenses incurred and the
expense of preparing a copy of the record at the request of
the appellant shall be paid by the appellant. The board may
visit the site of the activity or proposed activity which is the
subject of the hearing and take such additional evidence as
it considers necessary provided that all parties and
intervenors be given notice of the visit and are given an
opportunity to accompany the board.
(f) In case of disobedience or neglect of any subpoena or subpoena duces tecum served on any person, or the refusal of any witness to testify to any matter regarding which he may be lawfully interrogated, the circuit court of the county in which the disobedience, neglect or refusal occurs, on application of the board or any member thereof, shall compel obedience by attachment proceedings for contempt as in the case of disobedience of the requirements of a subpoena or subpoena duces tecum issued from the court of a refusal to testify therein. Witnesses at the hearings shall testify under oath and any member of the board may administer oaths or affirmations to persons who so testify.

(g) A stenographic record of the testimony and other evidence submitted shall be made. The record shall include all of the testimony and other evidence and the rulings on the admissibility of evidence, but any party may at the time object to the admission of any evidence and except to the rulings of the board thereon, and if the board refuses to admit evidence the party offering the same may make a proffer thereof, and the proffer shall be made a part of the record of the hearing.

(h) If upon completion of the hearing the board finds that the decision appealed from was lawful and reasonable, it shall make a written order affirming the same, or if the board finds that the decision was not supported by substantial evidence in the record considered as a whole, it shall make a written order reversing or modifying the decision appealed from. Every order made by the board shall contain a written finding by the board of the facts upon which the order is based. On all appeals to the board, the board shall issue a final decision thirty days after the hearing or within thirty days after the testimony presented at the hearing has been transcribed and checked for accuracy. Notice of the making of such order shall be given forthwith to each party to the appeal by mailing a certified copy thereof to each party by registered or certified mail. The order of the board shall be final unless vacated upon judicial review thereof.

§20-6-25. Appeal from order of board; judicial review; temporary relief.

(a) Within thirty days after receipt of an order from the
board, any applicant, any person with an interest which is
or may be adversely affected, or the appellee who has
participated in the administrative proceedings before the
board and who is aggrieved by the decision of the board may
obtain judicial review thereof by appealing to the circuit
court of Kanawha County or the county in which the
surface-mining operation is located. Any party desiring to
so appeal shall file with the board a notice of appeal,
designating the order appealed from, stating whether the
appeal is taken on questions of law, questions of fact or
questions of law and fact, and stating specific grounds upon
which the appeal is based. A copy of the notice shall also be
filed by the appellant with the court and shall be mailed or
otherwise delivered to the appellee. The notice and copies
thereof shall be filed and mailed or otherwise delivered
within thirty days after the date upon which the appellant
received notice from the board by certified mail of the
making of the order appealed from. No appeal bond may be
required to make effective an appeal on questions of law,
questions of fact or questions of law and fact.

(b) The filing of a notice of appeal shall not, unless
specifically ordered by the court, operate as a stay of the
order of the board. The court may, under such conditions as
it may prescribe, grant such temporary relief as it deems
appropriate pending final determination of the proceedings
if:

(1) All parties to the proceedings have been notified and
given an opportunity to be heard on a request for temporary
relief;

(2) The person requesting relief shows that there is a
substantial likelihood that he will prevail on the merits of
the final determination of the proceedings; and

(3) The relief will not adversely affect the public health
or safety or cause significant imminent environmental
harm to land, air or water resources.

(c) Within thirty days after receipt of the notice of
appeal, the board shall prepare and file in the court the
complete record of the proceedings out of which the appeal
arises, including a transcript of the testimony and other
evidence which was submitted before the board. The
expense of preparing a copy of the record shall be taxed as a part of the costs of the appeal. The appellant shall provide security for costs satisfactory to the court. Upon demand by a party, the board shall furnish, at the cost of the party requesting the same, a copy of such record. In the event such complete record is not filed in the court within the time provided for in this section, either party may apply to the court to have the case docketed, and the court shall order such record filed.

(d) Appeals taken on questions of law, fact or both, shall be heard upon assignment of error filed in the case or set out in the briefs of the appellant. Errors not argued by brief may be disregarded. The court shall hear the appeal solely upon the record made before the board.

(e) The court may affirm, vacate, modify, set aside or remand any order of the board for further action as the court may direct. Any order shall be affirmed if the court concludes that the order is supported by substantial evidence based on the record as a whole. The judgment of the court shall be final unless reversed, vacated or modified on appeal to the supreme court of appeals of West Virginia, and jurisdiction is hereby conferred upon the court to hear and entertain the appeals upon application made therefor in the manner and within the time provided for civil appeals generally.

(f) The availability of the review shall not be construed to limit the operation of the rights established in section twenty-eight of this article except as provided therein.

(g) Whenever an order is issued under this section, or as a result of any administrative or judicial proceeding under this article, at the request of any person, a sum equal to the aggregate amount of all costs and expenses, including attorney fees, as determined by the board or the court to have been reasonably incurred by such person for or in connection with his participation in the proceedings, may be assessed against either party by the board or the court.

§20-6-26. Release of performance bond or deposits; application; notice; duties of director; public hearings; final maps on grade release.

(a) The permittee may file a request with the director for
the release of a performance bond or deposit. The permittee shall publish an advertisement regarding such request for release in the same manner as is required of advertisements for permit applications. A copy of such advertisements shall be submitted to the director as part of any bond release application and shall contain a notification of the precise location of the land affected, the number of acres, the permit and the date approved, the amount of the bond filed and the portion sought to be released, the type and appropriate dates of reclamation work performed and a description of the results achieved as they relate to the permittee's approved reclamation plan. In addition, as part of any bond release application, the permittee shall submit copies of letters which he has sent to adjoining property owners, local government bodies, planning agencies, sewage and water treatment authorities or water companies in the locality in which the surface-mining operation is located, notifying them of the permittee's intention to seek release from the bond. Any request for grade release shall also be accompanied by final maps.

(b) Upon receipt of the application for bond release, the director, within thirty days, taking into consideration existing weather conditions, shall conduct an inspection and evaluation of the reclamation work involved. Such evaluation shall consider, among other things, the degree of difficulty to complete any remaining reclamation, whether pollution of surface and subsurface water is occurring, the probability of continuance or future occurrence of such pollution and the estimated cost of abating such pollution. The director shall notify the permittee in writing of his decision to release or not to release all or part of the performance bond or deposit within sixty days from the date of the initial publication of the advertisement if no public hearing is requested. If a public hearing is held, the director's decision shall be issued within thirty days thereafter.

(c) If the director is satisfied that reclamation covered by the bond or deposit or portion thereof has been accomplished as required by this article, he may release said bond or deposit, in whole or in part, according to the following schedule:
(1) When the operator completes the backfilling, regrading and drainage control of a bonded area in accordance with his approved reclamation plan, the release of sixty percent of the bond or collateral for the applicable bonded area: Provided, That a minimum bond of ten thousand dollars shall be retained after grade release;

(2) Two years after the last augmented seeding, fertilizing, irrigation or other work to insure compliance with subdivision (19), subsection (b), section thirteen of this article, the release of an additional twenty-five percent of the bond or collateral for the applicable bonded area: Provided, That a minimum bond of ten thousand dollars shall be retained after the release provided for in this subdivision; and

If written objections are filed and a hearing requested, the director shall inform all of the interested parties of the time and place of the hearing and shall hold a public hearing in the locality of the surface-mining operation proposed for bond release within three weeks after the close of the public comment period. The date, time and location of such public hearing shall also be advertised by the director in a newspaper of general circulation in the same locality.

(g) Without prejudice to the rights of the objectors, the applicant, or the responsibilities of the director pursuant to this section, the director may hold an informal conference to resolve any written objections and satisfy the hearing requirements of this section thereby.

(c) Any employee or a representative of employees who has reason to believe that he has been fired or otherwise discriminated against by any person in violation of subsection (b) of this section may, within thirty days after the alleged violation occurs, petition to the reclamation board of review for a review of the firing or discrimination. The employee or representative shall be known as the petitioner and shall serve a copy of the petition upon the person or operator who will be the respondent. The participants shall be given ten days' written notice of the
hearing before the board and the hearing shall be held within thirty days of the filing of the petition. The board shall have the same powers and shall hear the petition in the same manner as provided in subsections (e) and (f), section twenty-four of this article.

§ 17C-5-4. Implied consent to test; administration at direction of law-enforcement officer; designation of type of test; definition of law-enforcement officer.

Any person who drives a motor vehicle in this state shall be deemed to have given his consent by the operation thereof, subject to the provisions of this article, to a preliminary breath analysis and a secondary chemical test of either his blood, breath or urine for the purposes of determining the alcoholic content of his blood. A preliminary breath analysis may be administered in accordance with the provisions of section five of this article whenever a law-enforcement officer has reasonable cause to believe a person to have committed an offense prohibited by section two of this article or by an ordinance of a municipality of this state which has the same elements as an offense described in said section two of this article. A secondary test of blood, breath or urine shall be incidental to a lawful arrest and shall be administered at the direction of the arresting law-enforcement officer having reasonable grounds to believe the person to have committed an offense prohibited by section two of this article or by an ordinance of a municipality of this state which has the same elements as an offense described in said section two of this article. The law-enforcement agency by which such law-enforcement officer is employed shall designate which one of the aforesaid secondary tests shall be administered: Provided, That if the test so designated is a blood test and the person so arrested refuses to submit to such blood...
test, then the law-enforcement officer making such arrest shall designate in lieu thereof, either a breath or urine test to be administered, and notwithstanding the provisions of section seven of this article, such refusal to submit to a blood test only shall not result in the revocation of the arrested person's license to operate a motor vehicle in this state. Any person to whom a preliminary breath test is administered who is then arrested shall be given a written statement advising him that his refusal to submit to the secondary chemical test finally designated as provided in this section, will result in the revocation of his license to operate a motor vehicle in this state for a period of at least one year and up to life.

For the purpose of this article the term "law-enforcement officer" or "police officer" shall mean and be limited to (1) any member of the department of public safety of this state, (2) any sheriff and any deputy sheriff of any county, and (3) any member of a police department in any municipality as defined in section two, article one, chapter eight of this code. If any municipality does not have available to its law-enforcement officers the testing equipment or facilities necessary to conduct any secondary test which a law-enforcement officer may administer under this article, any member of the department of public safety, the sheriff of the county wherein the arrest is made or any deputy of such sheriff or any municipal law-enforcement officer of another municipality within the county wherein the arrest is made may, upon the request of such arresting law-enforcement officer and in his presence, conduct such secondary test and the results of such test may be used in evidence to the same extent and in the same manner as if such test had been conducted by such arresting law-enforcement officer. Only the person actually administering or conducting such test shall be competent to testify as to the results and the veracity of such test.

§17C-5-5. Preliminary analysis of breath to determine alcoholic content of blood.

When a law-enforcement officer has reason to believe a person has committed an offense prohibited by section two of this article or by an ordinance of a municipality of this state which has the same elements as an offense described in said
section two of this article, the law-enforcement officer may require such person to submit to a preliminary breath analysis for the purpose of determining such person's blood alcohol content. Such breath analysis must be administered as soon as possible after the law-enforcement officer has a reasonable belief that the person has been driving while under the influence of alcohol, controlled substances or drugs. Any preliminary breath analysis required under this section must be administered with a device and in a manner approved by the department of health for that purpose. The results of a preliminary breath analysis shall be used solely for the purpose of guiding the officer in deciding whether an arrest should be made. When a driver is arrested following a preliminary breath analysis, the tests as hereinafter provided in this article shall be administered in accordance with the provisions thereof.

§17C-5-7. Refusal to submit to tests; revocation of license or privilege; consent not withdrawn if person arrested is incapable of refusal; hearing.

(a) If any person under arrest as specified in section four of this article refuses to submit to any secondary chemical test, the test shall not be given: Provided, That prior to such refusal, the person is given a written statement advising him that his refusal to submit to the secondary test finally designated will result in the revocation of his license to operate a motor vehicle in this state for a period of at least one year and up to life. The officer shall within forty-eight hours of such refusal, sign and submit to the commissioner of motor vehicles a written statement of the officer that (1) he had reasonable grounds to believe such person had been driving a motor vehicle in this state while under the influence of alcohol, controlled substances or drugs, (2) such person was lawfully placed under arrest for an offense relating to driving a motor vehicle in this state while under the influence of alcohol, controlled substances or drugs, (3) such person refused to submit to the secondary chemical test finally designated in the manner provided in section four of this article, and (4) such person was given a written statement advising him that his license to operate a motor vehicle in this state would be revoked for a period of at least one year and up to life if he refused to submit to the
secondary chemical test finally designated in the manner pro-
vided in section four of this article. The signing of the state-
ment required to be signed by this section shall constitute an
oath or affirmation by the person signing such statement that
the statements contained therein are true and that any copy filed
is a true copy. Such statement shall contain upon its face a
warning to the officer signing that to willfully sign a statement
containing false information concerning any matter or thing,
material, or not material, is false swearing and is a misdemean-
or. Upon receiving the statement the commissioner shall make
and enter an order revoking such person’s license to operate a
motor vehicle in this state for the period prescribed by this sec-
tion.

For the first refusal to submit to the designated secondary
chemical test, the commissioner shall make and enter an order
revoking such person’s license to operate a motor vehicle in
this state for a period of one year. If the commissioner has
previously revoked the person’s license under the provisions of
this section, the commissioner shall, for the refusal to submit to
the designated secondary chemical test, make and enter an
order revoking such person’s license to operate a motor vehicle
in this state for a period of ten years: Provided, That the license
may be reissued in five years in accordance with the provisions
of section three, article five-a of this chapter. If the commis-
sioner has previously revoked the person’s license more than
once under the provisions of this section, the commissioner
shall, for the refusal to submit to the designated secondary
chemical test, make and enter an order revoking such person’s
license to operate a motor vehicle in this state for a period of
life: Provided, That the license may be reissued in ten years in
accordance with the provisions of section three, article five-a
of this chapter. A copy of each such order shall be forwarded
to such person by registered or certified mail, return receipt re-
quested, and shall contain the reasons for the revocation and
shall specify the revocation period imposed pursuant to this sec-
tion. No such revocation shall become effective until ten days
after receipt of the copy of such order. Any person who is un-
conscious or who is otherwise in a condition rendering him in-
capable of refusal, shall be deemed not to have withdrawn his
consent for a test of his blood, breath or urine as provided in
section four of this article and the test may be administered al-
though such person is not informed that his failure to submit to
the test will result in the revocation of his license to operate a
motor vehicle in this state for the period provided for in this
section.

A revocation hereunder shall run concurrently with the period
of any suspension or revocation imposed in accordance with
other provisions of this code and growing out of the same inci-
dent which gave rise to the arrest for driving a motor vehicle
while under the influence of alcohol, controlled substances or
drugs and the subsequent refusal to undergo the test finally
designated in accordance with the provisions of section four of
this article.

(b) For the purposes of this section, where reference is made
to previous suspensions or revocations under this section, the
following types of suspensions or revocations shall also be re-
garded as suspensions or revocations under this section:

(1) Any suspension or revocation on the basis of a con-
viction under a municipal ordinance of another state or a
statute of the United States or of any other state of an offense
which has the same elements as an offense described in section
two of this article, for conduct which occurred on or after the
effective date of this section;

(2) Any revocation under the provisions of section one or
two, article five-a of this chapter, for conduct which occurred
on or after the effective date of this section.

(c) A person whose license to operate a motor vehicle in
this state has been revoked shall be afforded an opportunity
to be heard, in accordance with the provisions of section two,
article five-a of this chapter.

§17C-5-8. Interpretation and use of chemical test.

Upon trial for the offense of driving a motor vehicle in this
state while under the influence of alcohol, controlled sub-
stances or drugs, or upon the trial of any civil or criminal
action arising out of acts alleged to have been committed by
any person driving a motor vehicle while under the in-
fluence of alcohol, controlled substances or drugs, evidence of
the amount of alcohol in the person's blood at the time of the arrest or of the acts alleged, as shown by a chemical analysis of his blood, breath or urine, is admissible, if the sample or specimen was taken within two hours from and after the time of arrest or of the acts alleged, and shall give rise to the following presumptions or have the following effect:

(a) Evidence that there was, at that time, five hundredths of one percent or less, by weight, of alcohol in his blood, shall be prima facie evidence that the person was not under the influence of alcohol;

(b) Evidence that there was, at that time, more than five hundredths of one percent and less than ten hundredths of one percent, by weight, of alcohol in the person's blood shall be relevant evidence, but it is not to be given prima facie effect in indicating whether the person was under the influence of alcohol;

(c) Evidence that there was, at that time, ten hundredths of one percent or more, by weight, of alcohol in his blood, shall be admitted as prima facie evidence that the person was under the influence of alcohol.

Percent by weight of alcohol in the blood shall be based upon milligrams of alcohol per one hundred cubic centimeters of blood.

A chemical analysis of a person's blood, breath or urine, in order to give rise to the presumptions or to have the effect provided for in subdivisions (a), (b) and (c) of this section, must be performed in accordance with methods and standards approved by the state department of health. A chemical analysis of blood or urine to determine the alcoholic content of blood shall be conducted by a qualified laboratory or by the state police scientific laboratory of the criminal identification bureau of the department of public safety.

The provisions of this article shall not limit the introduction in any administrative or judicial proceeding of any other competent evidence bearing on the question of whether the person was under the influence of alcohol, controlled substances or drugs.
§17C-5-9. Right to demand test.

Any person lawfully arrested for driving a motor vehicle in this state while under the influence of alcohol, controlled substances or drugs shall have the right to demand that a sample or specimen of his blood, breath or urine be taken within two hours from and after the time of arrest, and that a chemical test thereof be made. The analysis disclosed by such chemical test shall be made available to such arrested person forthwith upon demand.

§17C-5-10. Fee for withdrawing blood sample and making urine test; payment of fees.

A reasonable fee shall be allowed to the person withdrawing a blood sample or administering a urine test at the request and direction of a law-enforcement officer in accordance with the provisions of this article. If the person whose blood sample was withdrawn or whose urine was tested was arrested and charged with a violation of section two of this article, the county having venue of such charge shall pay said fee, and if said person is subsequently convicted of such charge, such fee shall be taxed as a part of the costs of the criminal proceeding and shall be paid, notwithstanding any other provision of this code to the contrary, into the general fund of said county. If the person whose blood sample was withdrawn or whose urine was tested was arrested and charged with a violation of a similar ordinance of any municipality, said municipality shall pay said fee, and if said person is subsequently convicted of such charge, such fee shall be taxed as a part of the costs of the criminal proceeding and shall be paid, notwithstanding any other provision of this code to the contrary, into the general fund of said municipality.

§17C-5-11. Municipal ordinances to contain same elements as offenses under this article; penalties in municipal ordinances required to conform to state penalties.

(a) Notwithstanding the provisions of section five, article twelve, chapter eight of this code, on and after the first day of September, one thousand nine hundred eighty-three, each and every municipal ordinance defining a misdemeanor offense of or relating to driving under the influence of alcohol or driving
under the influence of intoxicating liquor or otherwise pro-
hibiting conduct made unlawful by this article shall be null and
void and of no effect unless such ordinance defines such an
offense in substantially similar terms as an offense defined
under the provisions of this article and such offense contains
the same elements as an offense defined herein.

(b) Notwithstanding the provisions of section one, article
eleven, chapter eight of this code, on and after the first day
of August, one thousand nine hundred eighty-three, each and
every municipal ordinance defining a misdemeanor offense of or
relating to driving under the influence of alcohol or driving
under the influence of intoxicating liquor or otherwise pro-
hibiting conduct made unlawful by this article shall prescribe
the same penalty for such offense as is prescribed for an
offense under this article containing the same elements.

ARTICLE 5A. ADMINISTRATIVE PROCEDURES FOR SUSPENSION
AND REVOCATION OF LICENSES FOR DRIVING
UNDER THE INFLUENCE OF ALCOHOL, CON-
TROLLED SUBSTANCES OR DRUGS.

§17C-5A-1. Implied consent to administrative procedure; revoca-
tion for driving under the influence of alcohol, controlled substances
or refusal to submit to secondary chemical test.

§17C-5A-2. Hearings; revocation; review.

§17C-5A-2a. Assessment of costs; special account created.

§17C-5A-3. Safety and treatment program; reissuance of license.

§17C-5A-4. Search for record of prior offenses by driver.

§17C-5A-1. Implied consent to administrative procedure; revoca-
tion for driving under the influence of alcohol, controlled substances
or drugs; refusal to submit to secondary chemical test.

(a) Any person who is licensed to operate a motor vehicle in
this state and who drives a motor vehicle in this state shall be
deemed to have given his consent by the operation thereof, sub-
ject to the provisions of this article, to the procedure set forth in
this article for the determination of whether his license to oper-
ate a motor vehicle in this state should be revoked because he
did drive a motor vehicle while under the influence of alcohol,
controlled substances or drugs, or combined influence of al-
cohol or controlled substances or drugs, or did drive a motor
vehicle while having an alcoholic concentration in his blood of
ten hundredths of one percent or more, by weight, or did re-
fuse to submit to any designated secondary chemical test.

(b) Any law-enforcement officer arresting a person for an
offense described in section two, article five of this chapter or
for an offense described in a municipal ordinance which has
the same elements as an offense described in said section two
of article five, shall report to the commissioner of the depart-
ment of motor vehicles by written statement within forty-eight
hours the name and address of the person so arrested. Such re-
port shall include the specific offense with which the person is
charged, and, if applicable, a copy of the results of any secon-
dary chemical test of blood, breath or urine. The signing of the
statement required to be signed by this subsection shall consti-
tute an oath or affirmation by the person signing such state-
ment that the statements contained therein are true and that
any copy filed is a true copy. Such statement shall contain up-
on its face a warning to the officer signing that to willfully
sign a statement containing false information concerning any
matter or thing, material or not material, is false swearing and
is a misdemeanor.

(c) If, upon examination of the written statement of the
officer and the test results described in subsection (b) of
this section, the commissioner shall determine that a person
was arrested for an offense described in section two, article
five of this chapter or for an offense described in a municipal
ordinance which has the same elements as an offense described
in said section two of article five, and that the results of the
tests indicate that at the time the test or tests were administered
the person had, in his blood, an alcohol concentration of
ten hundredths of one percent or more, by weight, or at the
time the person was arrested he was under the influence of
alcohol, controlled substances or drugs, the commissioner shall
make and enter an order revoking such person’s license to
operate a motor vehicle in this state. A copy of such order
shall be forwarded to such person by registered or certified
mail, return receipt requested, and shall contain the reasons
for the revocation and the revocation periods provided for in
section two of this article. No revocation shall become effective until ten days after receipt of a copy of such order.

§17C-5A-2. Hearing; revocation; review.

(a) Upon the written request of a person whose license to operate a motor vehicle in this state has been revoked under the provisions of section one of this article or section seven, article five of this chapter, the commissioner of motor vehicles shall afford the person an opportunity to be heard. Such written request must be filed with the commissioner in person or by registered or certified mail, return receipt requested, within ten days after receipt of a copy of the order of revocation. The hearing shall be before said commissioner or authorized deputy or agent of said commissioner and all of the pertinent provisions of article five, chapter twenty-nine-a of this code shall apply: Provided, That in the case of a resident of this state the hearing shall be held in the county wherein the arrest was made in this state unless the commissioner or his authorized deputy or agent and such person agree that the hearing may be held in some other county.

(b) Any such hearing shall be held within twenty days after the date upon which the commissioner received the timely written request therefor, unless there is a postponement or continuance. The commissioner may postpone or continue any hearing on his own motion, or upon application for each person for good cause shown. The commissioner shall adopt and implement by a procedural rule written policies governing the postponement or continuance of any such hearing on his own motion or for the benefit of any law-enforcement officer or any person requesting such hearing, and such policies shall be enforced and applied to all parties equally. For the purpose of conducting such hearing, the commissioner shall have the power and authority to issue subpoenas and subpoenas duces tecum in accordance with the provisions of section one, article five, chapter twenty-nine-a of this code: Provided, That the notice of hearing to the appropriate law-enforcement officers by registered or certified mail, return receipt requested, shall constitute a subpoena to appear at such hearing without the necessity of payment of fees by the department of motor vehicles. All subpoenas and subpoenas duces

(c) Law-enforcement officers shall be compensated for the time expended in their travel and appearance before the commissioner by the law-enforcement agency by whom they are employed at their regular rate if they are scheduled to be on duty during said time or at their regular overtime rate if they are scheduled to be off-duty during said time.

(d) The principal question at such hearing shall be whether the person did drive a motor vehicle while under the influence of alcohol, controlled substances or drugs, or did drive a motor vehicle while having an alcohol concentration in his blood of ten hundredths of one percent or more, by weight, or did refuse to submit to the designated secondary chemical test.

The commissioner may propose a legislative rule in compliance with the provisions of article three, chapter twenty-nine-a of this code, which rule may provide that if a person accused of driving a motor vehicle while under the influence of alcohol, controlled substances or drugs, or accused of driving a motor vehicle while having an alcohol concentration in his blood of ten hundredths of one percent or more, by weight, intends to challenge the results of any secondary chemical test of blood, breath or urine, or intends to cross-examine the individual or individuals who administered the test or performed the chemical analysis, he shall, within an appropriate period of time prior to the hearing, notify the commissioner in writing of such intention. Such rule may provide that when there is a failure to comply with the notice requirement, the results of the secondary test, if any, shall be admissible as though the person and the commissioner had stipulated the admissibility of such evidence. Any such rule shall provide that the rule shall not be invoked in the case of a person who is not represented by counsel unless the communication from the commissioner to the person establishing a time and place for hearing also informed the person of the consequences of his failure to
timely notify the commissioner of his intention to challenge the results of the secondary chemical test or cross-examine the individual or individuals who administered the test or performed the chemical analysis.

(e) In the case of a hearing wherein a person is accused of driving a motor vehicle while under the influence of alcohol, controlled substances or drugs, or accused of driving a motor vehicle while having an alcoholic concentration in his blood of ten hundredths of one percent or more, by weight, the commissioner shall make specific findings as to (1) whether the arresting law-enforcement officer had reasonable grounds to believe such person to have been driving while under the influence of alcohol, controlled substances or drugs, or while having an alcoholic concentration in his blood of ten hundredths of one percent or more, by weight, (2) whether such person was lawfully placed under arrest for an offense involving driving under the influence of alcohol, controlled substances or drugs, and (3) whether the tests, if any, were administered in accordance with the provisions of this article and article five of this chapter.

(f) If, in addition to a finding that the person did drive a motor vehicle while under the influence of alcohol, controlled substances or drugs, or did drive a motor vehicle while having an alcoholic concentration in his blood of ten hundredths of one percent or more, by weight, the commissioner also finds by a preponderance of the evidence that the person when so driving did an act forbidden by law or failed to perform a duty imposed by law, which act or failure proximately caused the death of a person and was committed in reckless disregard of the safety of others, and if the commissioner further finds that the influence of alcohol, controlled substances or drugs or the alcoholic concentration in the blood was a contributing cause to the death, the commissioner shall revoke the person's license for a period of ten years: Provided, That if the commissioner has previously suspended or revoked the person's license under the provisions of this section or section one of this article, the period of revocation shall be for the life of such person.

(g) If, in addition to a finding that the person did drive
a motor vehicle while under the influence of alcohol, controlled substances or drugs, or did drive a motor vehicle while having an alcoholic concentration in his blood of ten hundredths of one percent or more, by weight, the commissioner also finds by a preponderance of the evidence that the person when so driving did an act forbidden by law or failed to perform a duty imposed by law, which act or failure proximately caused the death of a person, the commissioner shall revoke the person's license for a period of five years: Provided, That if the commissioner has previously suspended or revoked the person's license under the provisions of this section or section one of this article, the period of revocation shall be for the life of such person.

(h) If, in addition to a finding that the person did drive a motor vehicle while under the influence of alcohol, controlled substances or drugs, or did drive a motor vehicle while having an alcoholic concentration in his blood of ten hundredths of one percent or more, by weight, the commissioner also finds by a preponderance of the evidence that the person when so driving did an act forbidden by law or failed to perform a duty imposed by law, which act or failure proximately caused bodily injury to a person other than himself, the commissioner shall revoke the person's license for a period of two years: Provided, That if the commissioner has previously suspended or revoked the person's license under the provisions of this section or section one of this article, the period of revocation shall be ten years: Provided, however, That if the commissioner has previously suspended or revoked the person's license more than once under the provisions of this section or section one of this article, the period of revocation shall be for the life of such person.

(i) If the commissioner finds by a preponderance of the evidence that the person did drive a motor vehicle while under the influence of alcohol, controlled substances or drugs, or did drive a motor vehicle while having an alcoholic concentration in his blood of ten hundredths of one percent or more, by weight, or finds that the person, being an habitual user of narcotic drugs or amphetamine or any derivative thereof, did drive a motor vehicle, or finds that the person knowingly
permitted his vehicle to be driven by another person who
was under the influence of alcohol, controlled substances or
drugs, or knowingly permitted his vehicle to be driven by
a person who had an alcoholic concentration in his blood of
ten hundredths of one percent or more, by weight, the com-
missioner shall revoke the person's license for a period of
six months: Provided, That if the commissioner has pre-
viously suspended or revoked the person's license under the
provisions of this section or section one of this article, the
period of revocation shall be ten years: Provided, however,
That if the commissioner has previously suspended or revoked
the person's license more than once under the provisions of
this section or section one of this article, the period of revoca-
tion shall be for the life of such person.

(j) For purposes of this section, where reference is made
to previous suspensions or revocations under this section, the
following types of criminal convictions or administrative sus-
pensions or revocations shall also be regarded as suspensions or
revocations under this section or section one of this article:

(1) Any administrative revocation under the provisions
of the prior enactment of this section for conduct which
occurred on or after the first day of September, one thousand
nine hundred eighty-one, and prior to the effective date of
this section;

(2) Any conviction under the provisions of a prior enact-
ment of section two, article five of this chapter for conduct
which occurred within a period of five years immediately pre-
ceding the first day of September, one thousand nine hundred
eighty-one;

(3) Any suspension or revocation on the basis of a convi-
ction under a municipal ordinance of another state or a statute
of the United States or of any other state of an offense which
has the same elements as an offense described in section two,
article five of this chapter, for conduct which occurred on or
after the effective date of this section;

(4) Any suspension or revocation on the basis of a convic-
tion under a statute of the United States or of any other state
of an offense which has the same elements as an offense
described in section two, article five of this chapter, or a prior
enactment of said section, for conduct which occurred within
a period of five years immediately preceding the first day of
September, one thousand nine hundred eighty-one;

(5) Any revocation under the provisions of section seven,
article five of this chapter, for conduct which occurred on
or after the effective date of this section.

(k) In the case of a hearing wherein a person is accused
of refusing to submit to a designated secondary test, the
commissioner shall make specific findings as to (1) whether
the arresting law-enforcement officer had reasonable grounds
to believe such person had been driving a motor vehicle
in this state while under the influence of alcohol, controlled
substances or drugs, (2) whether such person was lawfully
placed under arrest for an offense relating to driving a motor
vehicle in this state while under the influence of alcohol, con-
trolled substances or drugs, (3) whether such person refused
to submit to the secondary test finally designated in the man-
ner provided in section four of this article, and (4) whether
such person had been given a written statement advising
him that his license to operate a motor vehicle in this state
would be revoked for at least one year and up to
life if he refused to submit to the test finally designated
in the manner provided in section four, article five of this
chapter.

(l) If the commissioner finds by a preponderance of the
evidence that (1) the arresting law-enforcement officer had
reasonable grounds to believe such person had been driving
a motor vehicle in this state while under the influence of
alcohol, controlled substances or drugs, (2) such person was
lawfully placed under arrest for an offense relating to driving
a motor vehicle in this state while under the influence of
alcohol, controlled substances or drugs, (3) such person re-
fused to submit to the secondary chemical test finally desig-
nated, and (4) such person had been given a written statement
advising him that his license to operate a motor vehicle in this
state would be revoked for a period of at least one year and up
to life if he refused to submit to the test finally designated,
the commissioner shall revoke the person's license to operate
a motor vehicle in this state for the periods specified in section seven, article five of this chapter.

(m) If the commissioner finds to the contrary with respect to the above issues, he shall rescind his earlier order of revocation or shall reduce the order of revocation to the appropriate period of revocation under this section, or section seven, article five of this chapter.

A copy of the commissioner's order made and entered following the hearing shall be served upon such person by registered or certified mail, return receipt requested. During the pendency of any such hearing, the revocation of the person's license to operate a motor vehicle in this state shall be stayed.

If the commissioner shall after hearing make and enter an order affirming his earlier order of revocation such person shall be entitled to judicial review as set forth in chapter twenty-nine-a of this code, except that the commissioner shall not stay enforcement of the order; and, pending such appeal, the court may grant a stay or supersedeas of such order only upon motion and hearing, and a finding by the court upon the evidence presented, that there is a reasonable probability that the appellant shall prevail upon the merits, and the appellant will suffer irreparable harm if such order is not stayed.

§17C-5A-2a. Assessment of costs; special account created.

The department of motor vehicles is hereby authorized and required to assess witness costs at the same rate as witness fees in circuit court and a docket fee of ten dollars for each hearing request against any person filing a request for a hearing under section two of this article who fails to appear, fails to have said order rescinded or fails to have said order modified to a lesser period of revocation.

All fees and costs collected hereunder shall be paid into a special revenue account in the state treasury. The funds in said account shall be used to pay or reimburse the various law-enforcement agencies at the same rate as witnesses in circuit court for the travel and appearance of its officers before the commissioner or authorized deputy or agent pursuant to a hearing request under the provisions of this article.
The department shall authorize payment to the law-enforcement agencies from said account as the fees for a particular hearing request are received from the person against whom the costs were assessed. The department shall authorize transfer to an appropriate agency account from the special account to pay costs of registered and certified mailings and other expenses associated with the conduct of hearings under this article as the docket fee for a particular hearing request is received from the person against whom the costs were assessed.

In the event judicial review results in said order being rescinded or modified to a lesser period of revocation the costs assessed shall be discharged.

§17C-5A-3. Safety and treatment program; reissuance of license.

(a) The department of motor vehicles, in cooperation with the department of health, the division of alcoholism and drug abuse, shall establish by rule and regulation a comprehensive safety and treatment program for persons whose license has been revoked under the provisions of this article, or section seven, article five of this chapter, or subsection (6), section three, article five, chapter seventeen-b of this code, and shall likewise establish the minimum qualifications for persons conducting the safety and treatment program. The program shall include, but not be limited to, treatment of alcoholism, alcohol and drug abuse, psychological counseling, educational courses on the dangers of alcohol and drugs as they relate to driving, defensive driving, or other safety driving instruction, and other programs designed to properly educate, train and rehabilitate the offender.

(b) (1) The department of motor vehicles, in cooperation with the department of health, the division of alcoholism and drug abuse, shall provide for the preparation of an educational and treatment program for each person whose license has been revoked under the provisions of this article or section seven, article five of this chapter, or subsection (6), section five, article three, chapter seventeen-b of this code, which shall contain the following: (A) A listing and evaluation of the offender's prior traffic record; (B) characteristics and history of alcohol or drug use, if any; (C) his amenability to rehabilita-
tion through the alcohol safety program; and (D) a recommendation as to treatment or rehabilitation, and the terms and conditions of such treatment or rehabilitation. The program shall be prepared by persons knowledgeable in the diagnosis of alcohol or drug abuse and treatment. The cost of the program shall be paid out of fees established by the commissioner of motor vehicles in cooperation with the department of health, division of alcohol and drug abuse. These fees shall be deposited in a special account administering the program, to be designated the "driver's rehabilitation fund."

(2) The commissioner, after giving due consideration to the program developed for the offender, shall prescribe the necessary terms and conditions for the reissuance of the license to operate a motor vehicle in this state revoked under this article, or section seven, article five of this chapter, or subsection (6), section five, article three, chapter seventeen-b of this code, which shall include successful completion of the educational, treatment or rehabilitation program, subject to the following:

(A) When the period of revocation is six months, the license to operate a motor vehicle in this state shall not be reissued until (i) at least ninety days have elapsed from the date of the initial revocation, during which time the revocation was actually in effect, (ii) the offender has successfully completed the program, (iii) all costs of the program and administration have been paid, and (iv) all costs assessed as a result of a revocation hearing have been paid.

(C) When the period of revocation is for life, the license to operate a motor vehicle in this state shall not be reissued until (i) at least ten years have elapsed from the date of the
initial revocation, during which time the revocation was actually in effect, (ii) the offender has successfully com-
pleted the program, (iii) all costs of the program and ad-
ministration have been paid, and (iv) all costs assessed as a result of a revocation hearing have been paid.

(c) Notwithstanding any provisions of this section to the contrary, when the necessary terms and conditions for the successful completion of the safety and treatment program for the reissuance of the person’s license to operate a motor vehicle includes or requires full-time commitment to a treat-
ment facility for a period of one day or more, the person shall be forthwith entitled to judicial review, pursuant to chap-
ter twenty-nine-a of this code, of the requirement of and neces-
sity for full-time commitment to a treatment facility as a condi-
tion for successful completion of the person’s safety and treatment program.

§17C-5A-4. Search for record of prior offenses by driver.

The commissioner shall immediately upon receipt of the statements required by section seven, article five of this chapter and section one of this article record the date and time of day of the receipt of such statements and shall forthwith cause a search of the appropriate records of the department to be made for any record of prior offenses under this article and such commissioner shall immediately report to the officer making such statement an abstract showing any such prior offense, the date thereof, the identity of any court in which any proceedings in regard thereto were instituted and the disposition thereof.

Any law-enforcement officer who fails to file the statements required by this chapter within forty-eight hours of the arrest of any person charged for any violation of section two, article five of this chapter or for any offense described in a municipal ordinance which has the same elements as an offense described in said section two, article five, shall be guilty of a misde-
meanor and shall be subject to a fine of not less than twenty dollars nor more than five hundred dollars. And if the com-
missioner shall willfully fail to post by United States mail or other adequate means of communication a written report ad-
dressed to the law-enforcement officer of any such offense.
as required by this section, within a period of forty-eight hours after the receipt of the statement, the commissioner shall be guilty of a misdemeanor and shall be subject to a fine of not less than twenty dollars nor more than five hundred dollars.

ARTICLE 5B. POSTMORTEM TESTS FOR ALCOHOL IN PERSONS KILLED IN MOTOR VEHICLE ACCIDENTS.

§17C-5B-1. Blood test for alcohol in drivers and adult pedestrians killed in motor vehicle accidents; time limit for conducting test; who may conduct test; express consent to withdraw blood from dead body granted; granting civil and criminal immunity to person conducting test; fee for test.

§17C-5B-2. To whom and how county medical examiners report results of blood tests; such report not admissible as evidence; use of reports only for statistical and highway safety purposes.

§17C-5B-1. Blood test for alcohol in drivers and adult pedestrians killed in motor vehicle accidents; time limit for conducting test; who may conduct test; express consent to withdraw blood from dead body granted; granting civil and criminal immunity to person conducting test; fee for test.

When any motor vehicle driver or adult pedestrian dies in a motor vehicle accident in this state or dies within four hours after having been involved in a motor vehicle accident in this state, the physician in attendance, or law-enforcement officer having knowledge of such death, or the funeral director, or any other person present when such death occurred, shall immediately report such death to the medical examiner of the county in which such death occurred. Upon receipt of such notice, the medical examiner shall take charge of the dead body and shall conduct, or shall cause to be conducted, within twelve hours after receiving such notice and before the dead body is embalmed, a blood test to determine the presence and percentage concentration of alcohol in the blood of such dead body.

The blood test required under this section shall be conducted only by a person qualified to conduct an autopsy under article twelve, chapter sixty-one of this code or by a doctor of medicine, doctor of osteopathy, registered nurse, trained medical technician at the place of his employment or county coroner who is deemed qualified by the office of medical examinations to conduct such blood test.
Any person who is to conduct a blood test under the provisions of this section is hereby expressly authorized to withdraw blood from the dead body in the quantity necessary to conduct such blood test. Any person withdrawing blood from the dead body and testing such blood and any hospital or clinic in which such blood is withdrawn and tested under the provisions of this section shall be immune from all civil and criminal liability which might otherwise be imposed.

Any person conducting a blood test under the provisions of this section shall receive a standardized fee in the amount determined by the office of medical examinations, which fee shall be paid from funds appropriated to the office of medical examinations.

Nothing contained in this section shall be construed to preclude the taking of a blood test by any other person having the right to take any such test or cause such test to be taken while the medical examiner has charge of the body.

§17C-5B-2. To whom and how county medical examiners report results of blood tests; such reports not admissible as evidence; use of reports only for statistical and highway safety purposes.

No results of such blood test or any report thereof shall be admissible in evidence in any action or proceeding of any kind in any court or before any tribunal, board, agency or person.

The department of public safety shall compile the data from all such reports submitted to it on a monthly basis. The department shall forward such compilations to the governor's highway safety administration and the department of motor vehicles. Such compilations shall be only for statistical purposes and highway safety information and shall not disclose or reveal in any manner the identity of any dead person whose
blood was tested under the provisions of section one of this

The department of public safety, the governor's highway

by motor vehicle drivers and adult pedestrians.

tion plates therefor, whether original issues or duplicates,
shall not be issued or furnished by the department of
motor vehicles or any other officer charged with the duty,
unless the applicant therefor already has received, or
shall at the same time make application for and be
granted, an official certificate of title of the vehicle. The
application shall be upon a blank form to be furnished
by the department of motor vehicles and shall contain a
full description of the vehicle, which description shall
contain a manufacturer's serial or identification number
or other number as determined by the commissioner and
any distinguishing marks, together with a statement of
the applicant's title and of any liens or encumbrances
upon the vehicle, the names and addresses of the holders
of the liens and any other information as the department
of motor vehicles may require. The application shall be
signed and sworn to by the applicant. A tax is
hereby imposed upon the privilege of effecting the
certification of title of each vehicle in the amount
equal to five percent of the value of said mo-
tor vehicle at the time of such certification. If
the vehicle is new, the actual purchase price or
consideration to the purchaser thereof shall be the
value of the vehicle; if the vehicle is a used or
secondhand vehicle, the present market value at time of
transfer or purchase shall be considered the value thereof
for the purposes of this section: Provided, That so much
of the purchase price or consideration as is represented
by the exchange of other vehicles on which the tax herein
imposed has been paid by the purchaser shall be deducted
from the total actual price or consideration paid for the
vehicle, whether the same be new or secondhand; if the
vehicle be acquired through gift, or by any manner
whatever, unless specifically exempted in this section,
the present market value of the vehicle at the time of the
gift or transfer shall be considered the value thereof
for the purposes of this section. No certificate of title for
any vehicle shall be issued to any applicant unless the
applicant shall have paid to the department of motor
vehicles the tax imposed by this section which shall be
five percent of the true and actual value of said vehicle
whether the vehicle be acquired through purchase, by

43 gift or by any other manner whatsoever except gifts
between husband and wife or between parents and chil-

46 dren: Provided, however, That the husband or wife, or the
47 parents or children previously have paid the tax on the

48 vehicles so transferred to the state of West Virginia:

49 Provided further, That the department of motor vehicles

50 may issue a certificate of registration and title to an ap-

51 plicant if the applicant provides sufficient proof to the

52 department of motor vehicles that the applicant has paid
53 the taxes and fees required by this section to a motor

54 vehicle dealership that has filed bankruptcy proceedings
55 in the United States bankruptcy court and the taxes and
56 fees so required to be paid by the applicant have been
57 impounded due to the bankruptcy proceedings: And

58 provided further, That the applicant makes an affidavit
of the same and assigns all rights to claims for money

59 the applicant may have against the motor vehicle dealer-

60 ship to the department of motor vehicles.

62 The tax imposed by this section shall not apply to
63 vehicles to be registered as Class H vehicles, or Class S
64 vehicles, as defined in section one, article ten of this
65 chapter, which are used or to be used in interstate com-
66 merce, nor shall the tax imposed by this section apply to
67 titling of vehicles by a registered dealer of this state for
68 resale only, nor shall the tax imposed by this section
69 apply to titling of vehicles by this state or any political
70 subdivision thereof, or by any volunteer fire department
71 or duly chartered rescue or ambulance squad organized
72 and incorporated under the laws of the state of West
73 Virginia as a nonprofit corporation for protection of life
74 or property. The total amount of revenue collected by
75 reason of this tax shall be paid into the state road fund
76 and expended by the commissioner of highways for
77 matching federal aid funds allocated for West Virginia.
78 In addition to said tax, there shall be a charge of five
79 dollars for each original certificate of title or duplicate
80 certificate of title so issued: Provided, That this state or
81 any political subdivision thereof, or any volunteer fire
department, or duly chartered rescue squad, shall be
exempted from payment of such charge.

Such certificate shall be good for the life of the vehicle,
so long as the same is owned or held by the original
holder of such certificate, and need not be renewed an-
nually, or any other time, except as herein provided.

If, by will or direct inheritance, a person becomes the
owner of a motor vehicle and the tax herein imposed
previously has been paid, to the department of motor
vehicles, on that vehicle, he shall not be required to pay
such tax.

A person who has paid the tax imposed by this section
shall not be required to pay the tax a second time for the
same motor vehicle, but he shall be required to pay a
charge of five dollars for the certificate of retile of that
motor vehicle, except that the tax shall be paid by the
person when the title to the vehicle has been trans-ferred either in this or another state from such person
to another person and transferred back to such person.

Notwithstanding any provisions of this code to the
contrary, the owners of trailers, semitrailers and other
vehicles not subject to the certificate of title tax prior
to the enactment of this chapter shall be subject to the
privilege tax imposed by this section: Provided, That
mobile homes, house trailers, modular homes and similar
nonmotive propelled vehicles susceptible of being moved
upon the highways but primarily designed for habitation
and occupancy, rather than for transporting persons or
property, or any vehicle operated on a nonprofit basis and
used exclusively for the transportation of mentally re-
tarded or physically handicapped children when the ap-
plication for certificate of registration for such vehicle
is accompanied by an affidavit stating that such vehicle
will be operated on a nonprofit basis and used exclusively
for the transportation of mentally retarded and physi-
cally handicapped children, shall not be subject to the tax
imposed by this section, but shall be taxable under the
provisions of articles fifteen and fifteen-a, chapter eleven
of this code.
If any person making any affidavit required under any provision of this section, shall therein knowingly swear falsely, or if any person shall counsel, advise, aid or abet another in the commission of false swearing, he shall be guilty of a misdemeanor, and, on conviction thereof, shall be fined not more than one hundred dollars or be imprisoned in the county jail for a period not to exceed thirty days, or in the discretion of the court be subject to both such fine and imprisonment.

CHAPTER 140

(Com. Sub. for H. B. 1300—By Mr. Speaker, Mr. See)

[Passed March 12, 1983; in effect ninety days from passage. Approved by the Governor.] AN ACT to amend and reenact section four, article three, chapter seventeen-a of the code of West Virginia, one thousand nine hundred thirty-one, as amended, relating to the application for motor vehicle certificate of title and the tax upon the privilege of certification; increasing the penalty for the first conviction for false swearing; creating a felony offense for second and subsequent convictions for false swearing; and providing penalties for second and subsequent convictions.

Be it enacted by the Legislature of West Virginia:

That section four, article three, chapter seventeen-a of the code of West Virginia, one thousand nine hundred thirty-one, as amended, be amended and reenacted to read as follows:

ARTICLE 3. ORIGINAL AND RENEWAL OF REGISTRATION; ISSUANCE OF CERTIFICATES OF TITLE.

*§17A-3-4. Application for certificate of title; tax for privilege of certification of title; penalty for false swearing.

1 Certificates of registration of any vehicle or registration plates therefor, whether original issues or duplicates, shall not be is-
sued or furnished by the department of motor vehicles or any
other officer charged with such duty, unless the applicant there-
for already has received, or shall at the same time make appli-
cation for and be granted, an official certificate of title of such
vehicle. Such application shall be upon a blank form to be fur-
nished by the department of motor vehicles and shall contain a
full description of the vehicle, which description shall contain a
manufacturer's serial or identification number or other number
as determined by the commissioner and any distinguishing
marks, together with a statement of the applicant's title and of
any liens or encumbrances upon such vehicle, the names and
addresses of the holders of such liens and such other informa-
tion as the department of motor vehicles may require. The ap-
plication shall be signed and sworn to by the applicant. A tax is
hereby imposed upon the privilege of effecting the certification
of title of each vehicle in the amount equal to five percent of
the value of said motor vehicle at the time of such certification.
If the vehicle is new, the actual purchase price or consideration
to the purchaser thereof shall be the value of said vehicle; if the
vehicle is a used or secondhand vehicle, the present market
value at time of transfer or purchase shall be deemed the value
thereof for the purposes of this section: Provided, That so
much of the purchase price or consideration as is represented
by the exchange of other vehicles on which the tax herein im-
posed has been paid by the purchaser shall be deducted from
the total actual price or consideration paid for said vehicle,
whether the same be new or secondhand; if the vehicle be ac-
quired through gift, or by any manner whatsoever, unless spec-
ifically exempted in this section, the present market value of
the vehicle at the time of the gift or transfer shall be deemed
the value thereof for the purposes of this section. No certifi-
cate of title for any vehicle shall be issued to any applicant un-
less such applicant shall have paid to the department of motor
vehicles the tax imposed by this section which shall be five per-
cent of the true and actual value of said vehicle whether the
vehicle be acquired through purchase, by gift, or by any other
manner whatsoever except gifts between husband and wife or
between parents and children: Provided, however, That hus-
band or wife, or parents or children previously have paid said
tax on the vehicles so transferred to the state of West Virginia.
The tax imposed by this section shall not apply to vehicles to be registered as Class H vehicles, or Class S vehicles, as defined in section one, article ten of this chapter, which are used or to be used in interstate commerce, nor shall the tax imposed by this section apply to titling of vehicles by a registered dealer of this state for resale only, nor shall the tax imposed by this section apply to titling of vehicles by this state or any political subdivision thereof, or by any volunteer fire department or duly chartered rescue or ambulance squad organized and incorporated under the laws of the state of West Virginia as a nonprofit corporation for protection of life or property. The total amount of revenue collected by reason of this tax shall be paid into the state road fund and expended by the commissioner of highways for matching federal aid funds allocated for West Virginia. In addition to said tax, there shall be a charge of five dollars for each original certificate of title or duplicate certificate of title so issued: Provided further, That this state or any political subdivision thereof, or any such volunteer fire department, or duly chartered rescue squad, shall be exempted from payment of such charge.

Such certificate shall be good for the life of the vehicle, so long as the same is owned or held by the original holder of such certificate, and need not be renewed annually, or any other time, except as herein provided.

If, by will or direct inheritance, a person becomes the owner of a motor vehicle and the tax herein imposed previously has been paid, to the department of motor vehicles, on that vehicle, he shall not be required to pay such tax.

A person who has paid the tax imposed by this section shall not be required to pay the tax a second time for the same motor vehicle, but he shall be required to pay a charge of five dollars for the certificate of retitle of that motor vehicle, except that such tax shall be paid by such person when the title to such vehicle has been transferred either in this or another state from such person to another person and transferred back to such person.

Notwithstanding any provisions of this code to the contrary, the owners of trailers, semitrailers and other vehicles not subject to the certificate of title tax prior to the enactment

The measured reflectance of any of those sections shall not exceed fifty percent.

(C) Louvered materials, when installed as designed, may not reduce the area of driver visibility below fifty percent as measured on a horizontal plane. When such materials are used in conjunction with rear window, the measurement shall be made based upon the driver's view from the inside rear view mirror.
(D) Glazing, where the capability to either reflect or reduce the transmittance of light is incorporated within the glazing during the manufacturing process:

(i) Shall have, when tested as a completed unit, a total reflectance of $35 \pm 3\%$ or less and transmittance of at least $8 \pm 3\%$ or more; and

Be it enacted by the Legislature of West Virginia:

That section seven, article one, chapter twenty of the code of West Virginia, one thousand nine hundred thirty-one, as amended, be amended and reenacted to read as follows:

ARTICLE 1. ORGANIZATION AND ADMINISTRATION.

*§20-1-7. Additional powers, duties and services of director.

In addition to all other powers, duties and responsibilities granted and assigned to the director in this chapter and elsewhere by law, the director is hereby authorized and empowered to:

(1) With the advice of the commission, prepare and administer, through the various divisions created by this chapter, a long-range comprehensive program for the conservation of the natural resources of the state which best effectuates the purpose of this chapter and which makes adequate provisions for the natural resources laws of the state;

(2) Sign and execute in the name of the state by the “department of natural resources” any contract or agreement with the federal government or its departments or agencies, subdivisions of the state, corporations, associations, partnerships or individuals;

(3) Conduct research in improved conservation methods and disseminate information matters to the residents of the state;

*Clerk's Note: This section was amended by S. B. 411, which passed subsequent to the passage of this act.
(4) Conduct a continuous study and investigation of the habits of wildlife, and for purposes of control and protection, to classify by regulation the various species into such categories as may be established as necessary;

(5) Prescribe the locality in which the manner and method by which the various species of wildlife may be taken, or chased, unless otherwise specified by this chapter;

(6) Hold at least six meetings each year at such time and at such points within the state, as in the discretion of the natural resources commission may appear to be necessary and proper for the purpose of giving interested persons in the various sections of the state an opportunity to be heard concerning open season for their respective areas, and report the results of the meetings to the natural resources commission before such season and bag limits are fixed by it;

(7) Suspend open hunting season upon any or all wildlife in any or all counties of the state with the prior approval of the governor in case of an emergency such as a drought, forest fire hazard or epizootic disease among wildlife. The suspension shall continue during the existence of the emergency and until rescinded by the director. Suspension, or reopening after such suspension, of open seasons may be made upon twenty-four hours' notice by delivery of a copy of the order of suspension or reopening to the wire press agencies at the state capitol;

(8) Supervise the fiscal affairs and responsibilities of the department;

(9) Designate such localities as he shall determine to be necessary and desirable for the perpetuation of any species of wildlife;

(10) Enter private lands to make surveys or inspections for conservation purposes, to investigate for violations of provisions of this chapter, to serve and execute warrants and processes, to make arrests and to otherwise effectively enforce the provisions of this chapter;

(11) Acquire for the state in the name of the "department of natural resources" by purchase, condemnation,
lease or agreement, or accept or reject for the state, in the
name of the department of natural resources, gifts, dona-
tions, contributions, bequests or devises of money, security
or property, both real and personal, and any interest in
such property, including lands and waters, which he deems
suitable for the following purposes:

(a) For state forests for the purpose of growing timber,
demonstrating forestry, furnishing or protecting watersheds
or providing public recreation;

(b) For state parks or recreation areas for the purpose
of preserving scenic, aesthetic, scientific, cultural, archaeological
or historical values or natural wonders, or providing
public recreation;

(c) For public hunting, trapping or fishing grounds or
waters for the purpose of providing areas in which the
public may hunt, trap or fish, as permitted by the pro-
visions of this chapter, and the rules and regulations issued
hereunder;

(d) For fish hatcheries, game farms, wildlife research
areas and feeding stations;

(e) For the extension and consolidation of lands or waters
suitable for the above purposes by exchange of other lands
or waters under his supervision;

(f) For such other purposes as may be necessary to carry
out the provisions of this chapter;

(12) Capture, propagate, transport, sell or exchange any
species of wildlife as may be necessary to carry out the
provisions of this chapter;

(13) Sell, with the approval in writing of the governor,
timber for not less than the value thereof, as appraised by
a qualified appraiser appointed by the director, from all
lands under the jurisdiction and control of the director,
except those lands that are designated as state parks and
those in the Kanawha state forest. The appraisal shall be
made within a reasonable time prior to any sale, reduced to
writing, filed in the office of the director and shall be avail-
able for public inspection. When the appraised value of
the timber to be sold is more than five hundred dollars,
the director, before making sale thereof, shall receive sealed
bids therefor, after notice by publication as a Class II
legal advertisement in compliance with the provisions of
article three, chapter fifty-nine of this code, and the publi-
cation area for such publication shall be each county in
which the timber is located. The timber so advertised shall
be sold at not less than the appraised value to the highest
responsible bidder, who shall give bond for the proper per-
formance of the sales contract as the director shall designate;
but the director shall have the right to reject any and all
bids and to readvertise for bids. If the foregoing provisions
of this section have been complied with, and no bid equal
to or in excess of the appraised value of the timber is
received, the director may, at any time, during a period of six
months after the opening of the bids, sell the timber in such
manner as he deems appropriate, but the sale price shall
not be less than the appraised value of the timber advertised.
No contract for sale of timber made pursuant to this section
shall extend for a period of more than ten years. And all
contracts heretofore entered into by the state for the sale of
timber shall not be validated by this section if the same be
otherwise invalid. The proceeds arising from the sale of
the timber so sold, shall be paid to the treasurer of the
state of West Virginia, and shall be credited to the depart-
ment and used exclusively for the purposes of this chapter:
Provided, That nothing contained herein shall prohibit the
sale of timber which otherwise would be removed from rights-
of-way necessary for and strictly incidental to the extraction
of minerals;

(14) Sell or lease, with the approval in writing of the
governor, coal, oil, gas, sand, gravel and any other minerals
that may be found in the lands under the jurisdiction and
control of the director, except those lands that are designated
as state parks. The director, before making sale or lease
thereof, shall receive sealed bids therefor, after notice by
publication as a Class II legal advertisement in compliance
with the provisions of article three, chapter fifty-nine of this
code, and the publication area for such publication shall be
each county in which such lands are located. The minerals
so advertised shall be sold or leased to the highest respon-
sible bidder, who shall give bond for the proper performance
of the sales contract or lease as the director shall designate;
but the director shall have the right to reject any and all bids
and to readvertise for bids. The proceeds arising from any
such sale or lease shall be paid to the treasurer of the state of
West Virginia and shall be credited to the department and
used exclusively for the purposes of this chapter;

(15) Exercise the powers granted by this chapter for the
protection of forests, and regulate fires and smoking in the
woods or in their proximity at such times and in such
localities as may be necessary to reduce the danger of forest
fires;

(16) Cooperate with departments and agencies of state,
local and federal governments in the conservation of natural
resources and the beautification of the state;

(17) Report to the governor each year all information
relative to the operation and functions of his department
and he shall make such other reports and recommendations as
may be required by the governor, including an annual
financial report covering all receipts and disbursements of
the department for each fiscal year, and he shall deliver
such report to the governor on or before the first day of
December next after the end of the fiscal year so covered.
A copy of such report shall be delivered to each house of
the Legislature when convened in January next following;

(18) Keep a complete and accurate record of all pro-
ceedings, record and file all bonds and contracts taken or
entered into, and assume responsibility for the custody and
preservation of all papers and documents pertaining to his

and conviction of any violators, of any of the provisions of
this chapter;

(20) Require such reports as he may deem to be necessary
from any person issued a license or permit under the pro-

(23) Encourage and cooperate with other public and private organizations or groups in their efforts to publicize the attractions of the state;

(25) Cooperate with the state historian and other appropriate state agencies in conducting research with reference to the establishment of state parks and monuments of historic, scenic and recreational value, and to take such steps as may be necessary in establishing such monuments or parks as he deems advisable;

(26) Maintain in his office at all times, properly indexed by subject matter, and also, in chronological sequence, all rules and regulations made or issued under the authority of this chapter. Such records shall be available for public inspection on all business days during the business hours of working days;

(27) Delegate the powers and duties of his office, except the power to execute contracts, to appointees and employees of the department, who shall act under the direction and supervision of the director and for whose acts he shall be responsible;

(28) Conduct schools, institutions and other educational programs, apart from or in cooperation with other governmental agencies, for instruction and training in all phases of the natural resources programs of the state;
(29) Authorize the payment of all or any part of the reasonable expenses incurred by an employee of the department in moving his household furniture and effects as a result of a reassignment of the employee: Provided, That no part of the moving expenses of any one such employee shall be paid more frequently than once in twelve months;

(30) Promulgate rules and regulations, in accordance with the provisions of chapter twenty-nine-a of this code, to implement and make effective the powers and duties vested in him by the provisions of this chapter and take such other steps as may be necessary in his discretion for the proper and effective enforcement of the provisions of this chapter: Provided, That all rules and regulations relating to articles five and five-a of this chapter shall be promulgated by the water resources board; and

(31) Regulate and set the digging season of native, wild ginseng: Provided, That the digging season for wild, native ginseng be set between the first day of December and the fifteenth day of November of the following year.

**ARTICLE 24. INTERGOVERNMENTAL RELATIONS—URBAN AND RURAL PLANNING AND ZONING.**

§8-24-50. Existing uses safeguarded.

1. Such zoning ordinance or ordinances shall not prohibit the continuance of the use of any land, building or structure for the purpose for which such land, building or structure is used at the time such ordinance or ordinances take effect, but any alteration or addition to any land or any alteration, addition or replacement of or to any existing building or structure for the purpose of carrying on any use prohibited under the zoning rules and regulations applicable to the district may be prohibited: Provided, That no such prohibition shall apply, outside of urban areas, to alterations or additions to or replacement of buildings or structures by any farm, industry or manufacturer, or to the use of land presently owned by any farm, industry or manufacturer but not used for agricultural, industrial or manufacturing purposes, or to the use or acquisition of additional land which may be required for the protection, continuing development or expansion of any agricultural, industrial or manufacturing operation or any present or future satellite agricultural, industrial or manufacturing use. AN ACT to amend and reenact sections one, two, three and four, article twenty-a, chapter eight of the code of West Virginia, one thousand nine hundred thirty-one, as amended; and to further amend said article by adding thereto a new section, designated section five, relating to neighborhood rehabilitation; the use of community development funds to provide loans and grants to persons qualified as living in owner-occupied, single family units within counties and municipalities; removing certain limitations by giving counties and municipalities the authority to provide loans and grants to the owners of rental units which are not necessarily owner-occupied and contain more than four units; and allowing deferred repayment of loans.

Be it enacted by the Legislature of West Virginia:

That sections one, two, three and four, article twenty-a, chapter eight of the code of West Virginia, one thousand nine hundred thirty-one, as amended, be amended and reenacted; and that said article be further amended by adding thereto a new section, designated section five, all to read as follows:

ARTICLE 20A. NEIGHBORHOOD REHABILITATION.

§8-20A-1. Legislative findings and purpose.
§8-20A-1. Legislative findings and purpose.

(a) The Legislature hereby finds and declares that the lack of safe, decent, sanitary and affordable owner-occupied and rental dwellings is one of the most serious problems facing this state and that a major contributing factor to this problem is the deterioration of the state's existing housing stock; that these deteriorating dwellings exist in both the urban and rural areas of the state; that a disproportionate number of owners of these deteriorating dwellings are older, less affluent and otherwise less able to afford the expense of the remodeling, repairing and rehabilitating of their residences necessary to maintain such residences in a sanitary, safe and decent condition; that because of the lack of acceptable loan collateral, the age of their residences and the location and age of the neighborhoods in which their residences are located, many of such owners have not been able to borrow funds necessary to effect such remodeling, repair and rehabilitation; and that some of such homeowners who have been able to obtain funds for such purposes have been able to do so only upon rates of interest and upon other terms and conditions which are particularly onerous and disadvantageous to such owners.

(b) The Legislature further finds and declares that the assistance authorized in this article will provide, and will encourage private lenders to provide, to such owners, more readily and at rates of interest and upon other terms and conditions significantly more favorable to such owners, the loans necessary to finance the cost of such remodeling, repair and rehabilitation.

(c) The Legislature further finds and declares that the powers granted to municipalities and counties in this article will enable them to maximize the use of federal programs for housing rehabilitation.

(d) The Legislature further finds and declares that it is manifestly in the public interest to foster the pride, self-respect and esteem incident to home ownership and to encour-
age and assist in the maintenance of residences, both owner
occupied and rental, in a safe, decent and sanitary condition;
that without the assistance authorized in this article, there will
be continued deterioration of housing with the resultant prolif-
eration of slums, higher crime rates and general decline in
civic pride, public spirit and the quality of life, with all of the
public cost, direct and indirect, attendant thereon; and that
accordingly by providing such assistance, any municipality or
county will be acting in all respect for the benefit of the
people of the state of West Virginia and shall thereby serve a
general purpose in improving and otherwise promoting their
health, welfare and prosperity. In order to carry out the general
purposes stated herein, the Legislature further declares that
the governing body of any county or municipality shall, inso-
far as it may deem reasonable and proper, give preference to
the rehabilitation of owner-occupied dwellings when making
grants or loans under this article.

As used in this article, unless the context otherwise requires:

(1) "Eligible dwelling" means real estate upon which there
is located a structure designed primarily for residential hous-
ing and consisting of dwelling units for not more than thirty
families: Provided, That all ownership thereof shall be limited
to persons who would qualify as eligible owners.

(2) "Eligible owner” means a person or persons residing
within the boundaries of a municipality or county, and owning
an eligible dwelling within the boundaries of that municipality
or county, irrespective of race, creed, national origin or sex,
with respect to whom it is determined by the governing body
of such municipality or county that (a) such person or persons,
because of financial condition, age, infirmity, family size or
other reasons, is unable to obtain, on suitable terms and con-
ditions, loans or other credit necessary for the rehabilitation
of such eligible dwelling, and hence requires the assistance as
provided in this article, (b) such rehabilitation is necessary to
place such eligible dwelling in a safe, sanitary and decent con-
dition, and (c) the assistance as authorized in this article shall
make financing available to such person or persons, or enable
such person or persons, to obtain such financing on terms and
conditions substantially more favorable to such person or
persons than would otherwise be available.

(3) "Rehabilitation" means a specific work of improvement
within a municipality or county undertaken primarily to re-
model, repair or rehabilitate an eligible dwelling.

(a) Any municipality or county shall have plenary power
and authority, by charter provision, ordinance or resolu-
tion, to establish a special fund of moneys made available by
appropriation, grant, contribution, loan or otherwise, to be
known as the neighborhood rehabilitation fund of such mu-
nicipality or county, to be governed, administered and ac-
counted for by the governing body of such municipality or
county, as a special purpose account, separate and distinct
from any other moneys, fund or funds owned by such
municipality or county.

(b) The governing body of any municipality or county
may, from time to time, by resolution, establish criteria
which shall govern the determination of persons who qualify
as eligible owners and the amount of assistance to such
owners.

(c) The purpose of such neighborhood rehabilitation fund
shall be to provide funds for the making of grants and
loans, or to guarantee the repayment of loans made by
private lenders, to eligible residents of such municipality or
county, the proceeds of which loans and grants are to be
used exclusively for rehabilitation.

(d) Such loans shall be made or guaranteed and grants
made only upon determination by the governing body of such
municipality or county, or by a board or commission ap-
pointed for such purpose by such governing body, that the
recipients are eligible owners, that the proceeds of the loan
or grant shall be used for rehabilitation and that loans or
grants to such eligible recipients for rehabilitation are not
otherwise available upon reasonably equivalent terms and
conditions: Provided, That grants may be given only for the
rehabilitation of residences occupied by their owners.
(e) No loan shall be made or guaranteed by such munici-
pality or county except in accordance with a written
agreement between such municipality or county, the eligible
owner and in the case of a guaranteed loan the lender
making such loan, which agreement shall provide, without
limitation, that:

(1) The proceeds of such loan shall be used exclusively
for rehabilitation;

(2) The loan shall be in such principal amount, repay-
able in such number of consecutive and substantially equal
monthly installments at such annual rate of interest and shall
be secured in such manner as specified in such agreement;

(3) In the case of a guaranteed loan, such municipality
or county shall be obligated to repay, from the neighborhood
rehabilitation fund established in accordance with this article,
any installment or installments of such loan as shall be in
default from time to time in accordance with the provisions
of such agreement;

(4) In the event an eligible owner defaults on such loan
made by such municipality or county, or in the event such
municipality or county incurs an obligation on a guaranteed
loan, such municipality or county shall be entitled, at its
option, to realize on any and all security for said loan:
Provided, That the right of such municipality or county to
realize on such security with respect to a guaranteed loan
shall be subordinate and secondary to the right of the lender
as to such security, to the extent of the unpaid balance of
such loan.

(f) Nothing in this article contained shall be so construed
as to authorize any municipality or county to make any con-
tract or incur any obligation or liability of any kind or nature,
except such as shall be discharged or payable solely from
the funds on deposit in such neighborhood rehabilitation
fund.

§8-20A-4. Inspection and technical assistance.

In addition to all other powers and rights of a municipality
or county, any municipality or county shall have plenary power
and authority, at the request of eligible owners, to inspect the residences of such eligible owners, to make recommendations concerning rehabilitation and to provide all manner of technical services and assistance in the planning, processing and design of needed rehabilitation.

The governing body of a municipality or county may, at its discretion, establish criteria for extreme hardship (by reason of age, low income, disability or other factors) applicable to an eligible owner, and which criteria will permit deferral of repayment of a portion or of all the loan until a definite future date, the death of the eligible owner or the sale of the "eligible dwelling" to another owner, whichever occurs first. The eligible owner for the purposes of this section shall be interpreted as the person in whom title of the property is vested or the spouse of said eligible owner at the time the rehabilitation loan or grant, or both, is provided.

(y) "Well operator" or "operator" means any person or persons, firm, partnership, partnership association or corporation that proposes to or does locate, drill, operate or abandon any well as herein defined; and

(z) "Office of oil and gas" or "office" means the office of oil and gas within the department of mines charged with the responsibility of administering the provisions of chapter twenty-two, articles four, five and seven of the code of West Virginia, one thousand nine hundred thirty-one, as amended.

§22-4-lg. Findings and orders of inspectors concerning violations; determination of reasonable time for abatement; extensions of time for abatement; special inspections; notice of findings and orders.

(a) If an oil and gas inspector, upon making an inspection of a well or well site or any other oil or gas facility, finds that any provision of this article is being violated, he shall also find whether or not an imminent danger to persons exists, or whether or not there exists an imminent danger that a fresh
water source or supply will be contaminated or lost. If he finds that such imminent danger exists, he shall forthwith make an order requiring the operator of such well or well site or other oil or gas facility to cease further operations until such imminent danger has been abated. If he finds that no such imminent danger exists, he shall determine what would be a reasonable period of time within which such violation should be totally abated. Such findings shall contain reference to the provisions of this article which he finds are being violated, and a detailed description of the conditions which cause and constitute such violation.

(b) The period of time so found by such oil and gas inspector to be a reasonable period of time shall not exceed seven days. Such period may be extended by such inspector, or by any other oil and gas inspector duly authorized by the administrator, from time to time, for good cause, but not to exceed a total of thirty days, upon the making of a special inspection to ascertain whether or not such violation has been totally abated: Provided, That such thirty-day period may be extended beyond thirty days by such inspectors where abatement is shown to be incapable of accomplishment because of circumstances or conditions beyond the control of the well operator. The administrator shall cause a special inspection to be made: (A) Whenever an operator of a well or well site or any other oil or gas facility, prior to the expiration of any such period of time, requests him to cause a special inspection to be made at such well or well site or any other oil or gas facility; and (B) Upon expiration of such period of time as originally fixed or as extended, unless the administrator is satisfied that the violation has been abated. Upon making such special inspection, such oil and gas inspector shall determine whether or not such violation has been totally abated. If he determines that such violation has not been totally abated, he shall determine whether or not such period of time as originally fixed, or as so fixed and extended, should be extended. If he determines that such period of time should be extended, he shall determine what a reasonable extension would be. If he determines that such violation has not been totally abated, and if such period of time as originally fixed, or as so fixed and extended, has then expired, and if he also determines that such
period of time should not be further extended, he shall there-
upon make an order requiring the operator of such well or
well site or other oil or gas facility to cease further operations
of such well, well site or facility, as the case may be. Such
findings and order shall contain reference to the specific pro-
visions of this article which are being violated.

(c) Notice of each finding and order made under this sec-
tion shall promptly be given to the operator of the well or
well site or other oil or gas facility to which it pertains by the
person making such finding or order.

(d) No order shall be issued under the authority of this
section which is not expressly authorized herein.

§22-4-1k. Permit required for well work; permit fee; application;
soil erosion control plan.

(a) It is unlawful for any person to commence any well
work, including site preparation work which involves any dis-
urbance of land, without first securing from the administrator
a well work permit. An application may propose and a permit
may approve two or more activities defined as well work.

(b) The application for a well work permit shall be accom-
panied by the applicable bond as prescribed by section two,
two-b or nine of this article, and the applicable plat required
by section two or two-b of this article.

(c) Every permit application filed under this section shall
be verified and shall contain the following:

(1) The names and addresses of (i) the well operator, (ii)
the agent required to be designated under subsection (e) of
this section, and (iii) every person whom the applicant must
notify under any section of this article together with a certifi-
cation and evidence that a copy of the application and all other
required documentation has been delivered to all such persons;

(2) The name and address of every coal operator operating
coal seams under the tract of land on which the well is or may
be located, and the coal seam owner of record and lessee of
record required to be given notice by section two, if any, if said
owner or lessee is not yet operating said coal seams;
(3) The number of the well or such other identification as the administrator may require;

(4) The type of well;

(5) The well work for which a permit is requested;

(6) The approximate depth to which the well is to be drilled or deepened, or the actual depth if the well has been drilled;

(7) Any permit application fee required by law;

(8) If the proposed well work will require casing or tubing to be set, the entire casing program for the well, including the size of each string of pipe, the starting point and depth to which each string is to be set, and the extent to which each such string is to be cemented;

(9) If the proposed well work is to convert an oil well or a combination well or to drill a new well for the purpose of introducing pressure for the recovery of oil as provided in section ten-a of this article, specifications in accordance with the data requirements of section two-b of this article;

(10) If the proposed well work is to plug or replug the well, (i) specifications in accordance with the data requirements of section nine of this article, (ii) a copy of all logs in the operator's possession as the administrator may require, and (iii) a work order showing in detail the proposed manner of plugging or unplugging the well, in order that a representative of the administrator and any interested persons may be present when the work is done. In the event of an application to drill, redrill or deepen a well, if the well work is unsuccessful so that the well must be plugged and abandoned, and if the well is one on which the well work has been continuously progressing pursuant to a permit, the operator may proceed to plug the well as soon as he has obtained the verbal permission of the administrator or his designated representative to plug and abandon the well, except that the operator shall make reasonable effort to notify as soon as practicable the surface owner and the coal owner, if any, of the land at the well location, and shall also timely file the plugging affidavit required by section nine of this article;
(11) If the proposed well work is to stimulate an oil or gas well, specifications in accordance with the data requirements of section two-a of this article;

(12) The erosion and sediment control plan required under subsection (d) of this section for applications for permits to drill; and

(13) Any other relevant information which the administrator may require by rule.

(d) An erosion and sediment control plan shall accompany each application for a well work permit except for a well work permit to plug or replug any well. Such plan shall contain methods of stabilization and drainage, including a map of the project area indicating the amount of acreage disturbed. The erosion and sediment control plan shall meet the minimum requirements of the West Virginia erosion and sediment control manual as adopted and from time to time amended by the office of oil and gas, in consultation with the several soil conservation districts pursuant to the control program established in this state through section 208 of the federal Water Pollution Control Act Amendments of 1972. The erosion and sediment control plan shall become part of the terms and conditions of a well work permit, except for a well work permit to plug or replug any well, which is issued and the provisions of the plan shall be carried out where applicable in the operation. The erosion and sediment control plan shall set out the proposed method of reclamation which shall comply with the requirements of section twelve-b of this article.

(e) The well operator named in such application shall designate the name and address of an agent for such operator who shall be the attorney-in-fact for the operator and who shall be a resident of the state of West Virginia upon whom notices, orders or other communications issued pursuant to this article or article five-a, chapter twenty, may be served, and upon whom process may be served. Every well operator required to designate an agent under this section shall within five days after the termination of such designation notify the department of such termination and designate a new agent.

(f) The well owner or operator shall install the permit num-
ber as issued by the administrator in a legible and permanent manner to the well upon completion of any permitted work. The dimensions, specifications and manner of installation shall be in accordance with the rules of the administrator.

(g) The administrator may waive the requirements of this section and sections one-m, one-n and one-o of this article in any emergency situation, if he deems such action necessary. In such case the administrator may issue an emergency permit which would be effective for not more than thirty days, but which would be subject to reissuance by the administrator.

(h) For the purpose of ascertaining whether or not issuance of any permit for well work will cause or contribute to a pollution problem, the administrator shall consult with the director of the department of natural resources. In the event the issuance of any such permit may reasonably be expected to cause or contribute to any such pollution, then the administrator shall not issue such permit.

(i) The administrator shall deny the issuance of a permit if he determines that the applicant has committed a substantial violation of a previously issued permit, including the erosion and sediment control plan, or a substantial violation of one or more of the rules promulgated hereunder, and has failed to abate or seek review of the violation within the time prescribed by the administrator pursuant to the provisions of sections one-g and one-h of this article and the rules promulgated hereunder, which time may not be unreasonable: Provided, That in the event that the administrator does find that a substantial violation has occurred and that the operator has failed to abate or seek review of the violation in the time prescribed, he may suspend the permit on which said violation exists, after which suspension the operator shall forthwith cease all well work being conducted under the permit: Provided, however, That the administrator may reinstate the permit without further notice, at which time the well work may be continued. The administrator shall make written findings of any such determination made by him and may enforce the same in the circuit courts of this state and the operator may appeal such suspension pursuant to the provisions of section four of this article. The administrator shall make a written finding of any such determination.
(j) Any person who violates any provision of this section shall be guilty of a misdemeanor, and, upon conviction thereof, shall be fined not more than five thousand dollars, or be imprisoned in the county jail not more than twelve months, or both fined and imprisoned.

§22-4-1m. Notice to property owners.

(a) No later than the filing date of the application, the applicant for a permit for any well work shall deliver by personal service or by certified mail, return receipt requested, copies of the application, well plat and erosion and sediment control plan required by section one-k of this article to each of the following persons:

(1) The owners of record of the surface of the tract on which the well is, or is to be located; and

(2) The owners of record of the surface tract or tracts overlying the oil and gas leasehold being developed by the proposed well work, if such surface tract is to be utilized for roads or other land disturbance as described in the erosion and sediment control plan submitted pursuant to section one-k of this article.

(b) If more than three tenants in common or other co-owners of interests described in subsection (a) of this section hold interests in such lands, the applicant may serve the documents required upon the person described in the records of the sheriff required to be maintained pursuant to section eight, article one, chapter eleven-a of this code or publish in the county in which the well is located or to be located a Class II legal advertisement as described in section two, article three, chapter fifty-nine of this code, containing such notice and information as the administrator shall prescribe by rule, with the first publication date being at least ten days prior to the filing of the permit application: Provided, That all owners occupying the tracts where the well work is, or is proposed to be located at the filing date of the permit application shall receive actual service of the documents required by subsection (a) of this section.

(c) Materials served upon persons described in subsections
(a) and (b) of this section shall contain a statement of the methods and time limits for filing comments, who may file comments and the name and address of the administrator for the purpose of filing comments and obtaining additional information and a statement that such persons may request, at the time of submitting comments, notice of the permit decision and a list of persons qualified to test water as provided in this section.

(d) Any person entitled to submit comments shall also be entitled to receive a copy of the permit as issued or a copy of the order denying the permit if such person requests the receipt thereof as a part of the comments concerning said permit application.

(e) Persons entitled to notice may contact the district office of the department to ascertain the names and location of water testing laboratories in the area capable and qualified to test water supplies in accordance with standard accepted methods. In compiling such list of names the department shall consult with the state and local health departments.

§22-4-1n. Procedure for filing comments; certification of notice.

(a) All persons described in subsections (a) and (b), section one-m of this article may file comments with the administrator as to the location or construction of the applicant's proposed well work within fifteen days after the application is filed with the administrator.

(b) Prior to the issuance of any permit for well work, the applicant shall certify to the administrator that the requirements of section one-m of this article have been completed by the applicant. Such certification may be by affidavit of personal service or the return receipt card or other postal receipt for certified mailing.

§22-4-1o. Review of application; issuance of permit in the absence of objections and comments.

The administrator shall review each application for a well work permit and shall determine whether or not a permit shall be issued.
No permit may be issued less than fifteen days after the filing date of the application for any well work except plugging or replugging; and no permit for plugging or replugging may be issued less than five days after the filing date of the application except a permit for plugging or replugging a dry hole: Provided, That if the applicant certifies that all persons entitled to notice of the application under the provisions of this article have been served in person or by certified mail, return receipt requested, with a copy of the well work application, including the erosion and sediment control plan, if required, and the plat required by section one-k of this article, and further files written statements of no objection by all such persons, the administrator may issue the well work permit at any time.

The administrator may cause such inspections to be made of the proposed well work location as to assure adequate review of the application. The permit shall not be issued, or shall be conditioned including conditions with respect to the location of the well and access roads prior to issuance if the administrator determines that:

1. The proposed well work will constitute a hazard to the safety of persons; or
2. The plan for soil erosion and sediment control is not adequate or effective; or
3. Damage would occur to publicly owned lands or resources; or
4. The proposed well work fails to protect fresh water sources or supplies.

The administrator shall promptly review all comments filed. If after review of the application and all comments received, the application for a well work permit is approved, and no timely objection or comment has been filed with the administrator or made by the department under the provisions of section three, three-a or three-b of this article, the permit shall be issued, with conditions, if any. Nothing in this section shall be construed to supersede the provisions...
of sections one-k, two, two-a, two-b, three, three-a and three-b of this article.

The administrator shall mail a copy of the permit as issued or a copy of the order denying a permit to any person who submitted comments to the administrator concerning said permit and requested such copy.

§22-4-12b. Reclamation requirements.

1 The operator of a well shall reclaim the land surface within the area disturbed in siting, drilling, completing or producing the well in accordance with the following requirements:

(a) Within six months after the completion of the drilling process, the operator shall fill all the pits for containing muds, cuttings, salt water and oil that are not needed for production purposes, or are not required or allowed by state or federal law or rule and remove all concrete bases, drilling supplies and drilling equipment. Within such period, the operator shall grade or terrace and plant, seed or sod the area disturbed that is not required in production of the well where necessary to bind the soil and prevent substantial erosion and sedimentation. No pit may be used for the ultimate disposal of salt water. Salt water and oil shall be periodically drained or removed, and properly disposed of, from any pit that is retained so the pit is kept reasonably free of salt water and oil.

(b) Within six months after a well that has produced oil or gas is plugged, or after the plugging of a dry hole, the operator shall remove all production and storage structures, supplies and equipment, and any oil, salt water and debris, and fill any remaining excavations. Within such period, the operator shall grade or terrace and plant, seed or sod the area disturbed where necessary to bind the soil and prevent substantial erosion and sedimentation.

The administrator may, upon written application by an operator showing reasonable cause, extend the period within which reclamation shall be completed, but not to exceed a further six-month period.

If the administrator refuses to approve a request for extension, he shall do so by order.
(c) It shall be the duty of an operator to commence the reclamation of the area of land disturbed in siting, drilling, completing or producing the well in accordance with soil erosion and sediment control plans approved by the administrator or his designate.

(d) The administrator shall promulgate rules setting forth requirements for the safe and efficient installation and burying of all production and gathering pipelines where practical and reasonable except that such rules shall not apply to those pipelines regulated by the public service commission.

§22-4-15. Right of adjacent owner or operator to prevent waste of gas; recovery of cost.

If the owner or operator of any such well shall neglect or refuse to drill, case and equip, or plug and abandon, or shut in and conserve from waste the gas produced therefrom, as required to be done and performed by the preceding sections of this article, for a period of twenty days after a written notice so to do, which notice may be served personally upon the owner or operator, or may be posted in a conspicuous place at or near the well, it shall be lawful for the owner or operator of any adjacent or neighboring lands or the administrator to enter upon the premises where such well is situated and properly case and equip such well, or, in case the well is to be abandoned, to properly plug and abandon it, or in case the well is wasting gas, to properly shut it in and make such needed repairs to the well to prevent the waste of gas, in the manner required to be done by the preceding sections of this article; and the reasonable cost and expense incurred by an owner, operator or the administrator in so doing shall be paid by the owner or operator of such well and may be recovered as debts of like amount are by law recoverable.

The administrator may utilize funds and procedures established pursuant to section twelve-a of this article for the purposes set out in this section. Amounts recovered by the administrator pursuant to this section shall be deposited in the oil and gas reclamation fund established pursuant to section twelve-a of this article.
§22-4-16. Restraining waste.

Aside from and in addition to the imposition of any penalties under this article, it shall be the duty of any circuit court in the exercise of its equity jurisdiction to hear and determine any bill or bills in equity which may be filed to restrain the waste of natural gas in violation of this article, and to grant relief by injunction or by other decrees or orders, in accordance with the principles and practice in equity. The plaintiff in such bill shall have sufficient standing to maintain the same if he shall aver and prove that he is interested in the lands situated within the distance of one mile from such well, either as an owner of such land, or of the oil or gas, or both, thereunder, in fee simple, or as an owner of leases thereof or of rights therein for the production of oil and gas or either of them or as the administrator.

§22-4-17. Offenses; penalties.

(a) Any person or persons, firm, partnership, partnership association or corporation who willfully violates any provision of this article or any rule or order promulgated hereunder shall be subject to a civil penalty not exceeding two thousand five hundred dollars. Each day a violation continues after notice by the office of oil and gas constitutes a separate offense. The penalty shall be recovered by a civil action brought by the office of oil and gas, in the name of the state, before the circuit court of the county in which the subject well or facility is located. All such civil penalties collected shall be credited to the general fund of the state.

(b) Any person or persons, firm, partnership, partnership association or corporation willfully violating any of the provisions of this article which prescribe the manner of drilling and casing or plugging and filling any well, or which prescribe the methods of conserving gas from waste, or which fix the distance from wells within which mining operations shall not be conducted without the approval of the office of oil and gas, or violating the terms of any order of the office of oil and gas allowing mining operations within a lesser distance of any well than that prescribed by the article, is guilty of a misdemeanor, and, upon conviction thereof, shall be punished by a
§22-4-21. Cause of action for damages caused by explosions.

Any person suffering personal injury or property damage due to any explosion caused by any permittee, shall have a cause of action against such permittee for three years after the explosion regardless of whether the explosion occurred before or after the effective date of this article.

ARTICLE 4C. OIL AND GAS PRODUCTION DAMAGE COMPENSATION.

§22-4C-1. Legislative findings and purpose.

(a) The Legislature finds the following:

(1) Exploration for and development of oil and gas reserves in this state must coexist with the use, agricultural or otherwise, of the surface of certain land and that each constitutes a right equal to the other.

(2) Modern methods of extraction of oil and gas require the use of substantially more surface area than the methods commonly in use at the time most mineral estates in this state were severed from the fee tract; and, specifically, the drilling of wells by the rotary drilling method was virtually unknown in this state prior to the year one thousand nine hundred sixty, so that no person theretofore severing his oil and gas...
from his surface land and no person theretofore leasing his oil
and gas with the right to explore for and develop the same
could reasonably have known nor could it have been reason-
ably contemplated that rotary drilling operations imposed a
greater burden on the surface than the cable tool drilling
method heretofore employed in this state; and since the year
one thousand nine hundred sixty, the use of rotary drilling
methods has spread slowly but steadily in this state, with con-
comitant public awareness of its impact on surface land; and
that the public interest requires that the surface owner be en-
titled to fair compensation for the loss of the use of his surface
area during the rotary drilling operation, but recognizing the
right of the oil and gas operator to conduct rotary drilling
operations as allowed by law.

(3) Prior to the first day of January, one thousand nine
hundred sixty, the rotary method of drilling oil or gas wells was
virtually unknown to the surface owners of this state nor was
such method reasonably contemplated during the negotiations
which occasioned the severance of either oil or gas from the
surface.

(4) The Legislature further finds and creates a rebuttable
presumption that even after the thirty-first day of December,
one thousand nine hundred fifty-nine, and prior to the effective
date of this article, it was unlikely that any surface owner knew
or should have known of the rotary method of drilling oil or
gas wells, but, that such knowledge was possible and that the
rotary method of drilling oil or gas wells could have, in some
instances, been reasonably contemplated by the parties during
the negotiations of the severance of the oil and gas from the
surface. This presumption against knowledge of the rotary
drilling method may be rebutted by a clear preponderance of
the evidence showing that the surface owner or his predecessor
of record did in fact know of the rotary drilling method at the
time he or his predecessor executed a severance deed or lease
of oil and gas and that he fairly contemplated the rotary drill-
ing method and received compensation for the same.

(b) Any surface owner entitled to claim any finding or any
presumption which is not rebutted as provided in this section
shall be entitled to the compensation and damages of this article.

(c) The Legislature declares that the public policy of this state shall be that the compensation and damages provided in this article for surface owners may not be diminished by any provision in a deed, lease or other contract entered into after the effective date of this article.

(d) It is the purpose of this article to provide constitutionally permissible protection and compensation to surface owners of lands on which oil and gas wells are drilled from the burden resulting from drilling operations commenced after the effective date of this article. This article is to be interpreted in the light of the legislative intent expressed herein. This article shall be interpreted to benefit surface owners, regardless of whether the oil and gas mineral estate was separated from the surface estate and regardless of who executed the document which gave the oil and gas developer the right to conduct drilling operations on the land. Section four of this article shall be interpreted to benefit all persons.

§22-4C-2. Definitions.

(a) In this article, unless the context or subject matter otherwise requires:

(1) "Agricultural production" means the production of any growing grass or crop attached to the surface of the land, and the production of any farm animals, whether or not the animals are to be sold commercially;

(2) "Drilling operations" means the actual drilling or re-drilling of an oil or gas well commenced subsequent to the effective date of this article, and the related preparation of the drilling site and access road, which requires entry upon the surface estate;

(3) "Oil and gas developer" means the person who secures the drilling permit required by article four of this chapter;

(4) "Person" means any natural person, corporation, firm, partnership, partnership association, venture, receiver.
trustee, executor, administrator, guardian, fiduciary or other representative of any kind, and includes any government or any political subdivision or agency thereof;

(5) "Surface estate" means an estate in or ownership of the surface of a particular tract of land overlying the oil or gas leasehold being developed; and

(6) "Surface owner" means a person who owns an estate in fee in the surface of land, either solely or as a co-owner.

§22-4C-3. Compensation of surface owners for drilling operations.

(a) The oil and gas developer shall be obligated to pay the surface owner compensation for:

(1) Lost income or expenses incurred as a result of being unable to dedicate land actually occupied by the driller's operation or to which access is prevented by such drilling operation to the uses to which it was dedicated prior to commencement of the activity for which a permit was obtained measured from the date the operator enters upon the land until the date reclamation is completed, (2) the market value of crops destroyed, damaged or prevented from reaching market, (3) any damage to a water supply in use prior to the commencement of the permitted activity, (4) the cost of repair of personal property up to the value of replacement by personal property of like age, wear and quality, and (5) the diminution in value, if any, of the surface lands and other property after completion of the surface disturbance done pursuant to the activity for which the permit was issued determined according to the actual use made thereof by the surface owner immediately prior to the commencement of the permitted activity.

The amount of damages may be determined by any formula mutually agreeable between the surface owner and the oil and gas developer.

(b) Any reservation or assignment of the compensation provided in this section apart from the surface estate except to a tenant of the surface estate is prohibited.

(c) In the case of surface lands owned by more than one person as tenants in common, joint tenants or other co-owner-
ship, any claim for compensation under this article shall be for the benefit of all such co-owners. The resolution of a claim for compensation provided in this article shall operate as a bar to the assertion of additional claims under this section arising out of the same drilling operations.

§22-4C-4. Common law right of action preserved; offsets.

(a) Nothing in section three or elsewhere in this article shall be construed to diminish in any way the common law remedies, including damages, of a surface owner or any other person against the oil and gas developer for the unreasonable, negligent or otherwise wrongful exercise of the contractual right, whether express or implied, to use the surface of the land for the benefit of his mineral interest.

(b) An oil and gas operator shall be entitled to offset compensation agreed to be paid or awarded to a surface owner under section three against any damages sought by or awarded to the surface owner through the assertions of common law remedies respecting the surface land actually occupied by the same drilling operation.

(c) An oil and gas operator shall be entitled to offset damages agreed to be paid or awarded to a surface owner through the assertion of common law remedies against compensation sought by or awarded to the surface owner under section three respecting the surface land actually occupied by the same drilling operation.

§22-4C-5. Notification of claim.

Any surface owner, to receive compensation under section three of this article, shall notify the oil and gas developer of the damages sustained by the person within two years after the date that the oil and gas developer files notice that he is commencing reclamation under section twelve-b, article four of this chapter. Such notice shall be given to surface owners by registered or certified mail, return receipt requested, and shall be complete upon mailing. If more than three tenants in common or other co-owners hold interests in such lands, the developer may give such notice to the person described in the records of the sheriff required to be
maintained pursuant to section eight, article one, chapter eleven-a of this code or publish in the county in which the well is located or to be located a Class II legal advertisement as described in section two, article three, chapter fifty-nine of this code, containing such notice and information as the administrator shall prescribe by rule.

§22-4C-6. Agreement; offer of settlement.

Unless the parties provide otherwise by written agreement, within sixty days after the oil and gas developer received the notification of claim specified in section five of this article, the oil and gas developer shall either make an offer of settlement to the surface owner seeking compensation, or reject the claim. The surface owner may accept or reject any offer so made.

§22-4C-7. Rejection; legal action; arbitration; fees and costs.

(a) Unless the oil and gas developer has paid the surface owner a negotiated settlement of compensation within sixty days after the date the notification of claim was mailed under section five of this article, the surface owner may, within eighty days after the notification mail date, either (i) bring an action for compensation in the circuit court of the county in which the well is located, or (ii) elect instead, by written notice delivered by personal service or by certified mail, return receipt requested, to the designated agent named by the oil and gas developer under the provisions of section one-k, article four of this chapter, to have his compensation finally determined by binding arbitration pursuant to article ten, chapter fifty-five of this code.

Settlement negotiations, offers and counter-offers between the surface owner and the oil and gas developer shall not be admissible as evidence in any arbitration or judicial proceeding authorized under this article, or in any proceeding resulting from the assertion of common law remedies.

(b) The compensation to be awarded to the surface owner shall be determined by a panel of three disinterested arbitrators. The first arbitrator shall be chosen by the surface owner in his notice of election under this section to the oil...
and gas developer; the second arbitrator shall be chosen by
the oil and gas developer within ten days after receipt of
the notice of election; and the third arbitrator shall be chosen
jointly by the first two arbitrators within twenty days there-
after. If they are unable to agree upon the third arbitrator
within twenty days, then the two arbitrators are hereby
empowered to and shall forthwith submit the matter to the
court under the provisions of section one, article ten, chapter
fifty-five of this code, so that, among other things, the third
arbitrator can be chosen by the judge of the circuit court of
the county wherein the surface estate lies.

(c) The following persons shall be deemed interested and
not be appointed as arbitrators: Any person who is personally
interested in the land on which rotary drilling is being per-
formed or has been performed, or in any interest or right
therein, or in the compensation and any damages to be
awarded therefor, or who is related by blood or marriage
to any person having such personal interest, or who stands
in the relation of guardian and ward, master and servant,
principal and agent, or partner, real estate broker, or surety
to any person having such personal interest, or who has
enmity against or bias in favor of any person who has
such personal interest or who is the owner of, or interested
in, such land or the oil or gas development thereof. No
person shall be deemed interested or incompetent to act as
arbitrator by reason of his being an inhabitant of the county,
district or municipal corporation wherein the land is located,
or holding an interest in any other land therein.

(d) The panel of arbitrators shall hold hearings and take
such testimony and receive such exhibits as shall be necessary
to determine the amount of compensation to be paid to the
surface owner. However, no award of compensation shall be
made to the surface owner unless the panel of arbitrators
has first viewed the surface estate in question. A transcript of
the evidence may be made but shall not be required.

(e) Each party shall pay the compensation of his own
arbitrator and one half of the compensation of the third
arbitrator, or his own court costs as the case may be.
§22-4C-8. Application of article.

1 The remedies provided by this article shall not preclude
2 any person from seeking other remedies allowed by law.

§22-4C-9. Severability.

1 If any section, subsection, subdivision, subparagraph, sen-
2 tence or clause of this article is adjudged to be unconstitutional
3 or invalid, such invalidation shall not affect the validity of
4 the remaining portions of this article, and, to this end, the
5 provisions of this article are hereby declared to be sever-
6 able.

ARTICLE 7. UNDERGROUND GAS STORAGE RESERVOIRS.

§22-7-2. Filing of maps and data by persons operating or pro-
posing to operate gas storage reservoirs.

1 (a) Any person who, on the effective date of this article,
2 is injecting gas into or storing gas in a storage reservoir which
3 underlies or is within three thousand linear feet of an operat-
4 ing coal mine which is operating in a coal seam that extends
5 over the storage reservoir or the reservoir protective area
6 shall, within sixty days thereafter, file with the department
7 a copy of a map and certain data in the form and manner
8 provided in this subsection.

9 Any person who, on the effective date of this article,
10 is injecting gas into or storing gas in a storage reservoir
11 which is not at such date under or within three thousand
12 linear feet, but is less than ten thousand linear feet from
13 an operating coal mine which is operating in a coal seam
14 that extends over the storage reservoir or the reservoir
15 protective area, shall file such map and data within such
16 time in excess of sixty days as the department may fix.

17 Any person who, after the effective date of this article,
18 proposes to inject or store gas in a storage reservoir located
19 as above shall file the required map and data with the de-
20 partment not less than six months prior to the starting of
21 actual injection or storage.

22 The map provided for herein shall be prepared by a
23 competent engineer or geologist. It shall show the stratum
or strata in which the existing or proposed storage reservoir
is or is to be located, the geographic location of the outside
boundaries of the said storage reservoir and the reservoir
protective area, the location of all known oil or gas wells
which have been drilled into or through the storage stratum
within the reservoir or within three thousand linear feet
thereof, indicating which of these wells have been, or are
to be cleaned out and plugged or reconditioned for storage
and also indicating the proposed location of all additional
wells which are to be drilled within the storage reservoir or
within three thousand linear feet thereof.

The following information, if available, shall be furnished
for all known oil or gas wells which have been drilled into
or through the storage stratum within the storage reservoir
or within three thousand linear feet thereof; name of the
operator, date drilled, total depth, depth of production if the
well was productive of oil or gas, the initial rock pressure
and volume, the depths at which all coal seams were en-
countered and a copy of the driller's log or other similar
information. At the time of the filing of the aforesaid maps
and data such person shall file a detailed statement of what
efforts he has made to determine, (1) that the wells shown
on said map are accurately located thereon, and (2) that to
the best of his knowledge they are all the oil or gas wells
which have ever been drilled into or below the storage
stratum within the proposed storage reservoir or within the
reservoir protective area. This statement shall also include
information as to whether or not the initial injection is for
testing purposes, the maximum pressures at which injection
and storage of gas is contemplated, and a detailed explanation
of the methods to be used or which theretofore have been
used in drilling, cleaning out, reconditioning or plugging
wells in the storage reservoir or within the reservoir pro-
tective area. The map and data required to be filed hereunder
shall be amended or supplemented semiannually in case any
material changes have occurred: Provided, That the depart-
ment may require a storage operator to amend or supplement
such map or data at more frequent intervals if material changes
have occurred justifying such earlier filing.
At the time of the filing of the above maps and data, and the filing of amended or supplemental maps or data, the department shall give written notice of said filing to all persons who may be affected under the provisions of this subsection by the storage reservoir described in such maps or data. Such notices shall contain a description of the boundaries of such storage reservoir. When a person operating a coal mine or owning an interest in coal properties which are or may be affected by the storage reservoir, requests in writing a copy of any map or data filed with the department such copy shall be furnished by the storage operator.

(b) Any person who, on the effective date of this article, is injecting gas into or storing gas in any other storage reservoir in this state not subject to subsection (a) of this section shall, on or before the first day of July, one thousand nine hundred eighty-three, file with the department a map in the same detail as the map required for a storage reservoir subject to subsection (a) of this section; and, if the initial injection of gas into the storage reservoir by such person or any predecessor occurred after the thirty-first day of December, one thousand nine hundred seventy, data in the same detail as the data required for a storage reservoir shall be filed subject to subsection (a) of this section: Provided, That in the case of a storage reservoir the operation of which has been certificated by the federal power commission or the federal energy regulatory commission under section seven of the federal Natural Gas Act, the person may, in lieu of the data, submit copies of the application and all amendments and supplements of record in the federal docket, together with the certificate of public convenience and necessity and any amendments thereto.

Any person who, after the effective date of this article, proposes to inject or store gas in any other storage reservoir in this state not subject to subsection (a) of this section shall file with the department a map and data in the same detail as the map and data required for a storage reservoir subject to subsection (a) of this section not less than six months prior to the starting of actual injection or storage: Provided, That in the case of a storage reservoir the operation of which will be re-
quired to be certificated by the federal energy regulatory commission, the person may, in lieu of the data, submit copies of the application and all amendments and supplementals filed in the federal docket, together with the certificate of public convenience and necessity and any amendments thereto, within twenty days after the same have been filed by such person or issued by the federal energy regulatory commission.

At the time of the filing of the above maps and data or documents in lieu of data and filing of amended or supplemental maps or data or documents in lieu of data, or upon receipt of an application filed with the federal energy regulatory commission for a new storage reservoir, the department shall give notice of said filing by a Class II legal advertisement in accordance with the provisions of article three, chapter fifty-nine of this code, the publication area for which shall be the county or counties in which the storage reservoir is located. Such legal advertisements shall contain a description of the boundaries of such storage reservoir. The storage operator shall pay for the legal advertisement upon receipt of the invoice therefor from the department. When any person owning an interest in land which is or may be affected by the storage reservoir requests in writing a copy of any map or data or documents in lieu of data filed with the department, such copy shall be furnished by the storage operator.

(c) The department shall also intervene in the federal docket, and participate in the proceedings for the purpose of assuring that the certificate of public convenience and necessity issued by the federal energy regulatory commission does not authorize operations or practices in conflict with the provisions of this article. The department may cooperate with the public service commission if the commission also intervenes. The attorney general is hereby directed to provide legal representation to the department to achieve the purposes of this subsection.

(d) For all purposes of this article, the outside boundaries of a storage reservoir shall be defined by the location of those wells around the periphery of the storage reservoir which had no gas production when drilled in said storage stratum: Provided, That the boundaries as thus defined shall be
originally fixed or subsequently changed where, based upon the number and nature of such wells, upon the geological and production knowledge of the storage stratum, its character, permeability, and distribution, and operating experience, it is determined in a conference or hearing under section ten of this article that modification should be made.

(a) There is hereby created, under the jurisdiction of the director of the department of mines, an office of oil and gas which shall have as its purpose the supervision of the execution and enforcement of matters related to oil and gas set out in this article and in articles five and seven of this chapter.

(b) The office of oil and gas is authorized to enact rules necessary to effectuate the above stated purposes.

(c) There shall be an employee of the office of oil and gas whose title shall be “administrator of the office of oil and gas” who shall be appointed by the director of the department of mines to serve at the will and pleasure of the director and whose salary shall be set by the director. The administrator shall have full charge of the oil and gas matters set out in this article and in articles five and seven of this chapter, subject always to the direct supervision and control of the director of the department of mines. As such the administrator shall have the power and duty to:

(1) Supervise and direct the activities of the office of oil and gas and see that the purposes set forth in subsections (a) and (b) of this section are carried out;

(2) Employ a supervising oil and gas inspector and oil and gas inspectors upon approval by the director;
(3) Supervise and direct such oil and gas inspectors and supervising inspector in the performance of their duties;

(4) Suspend for good cause any oil and gas inspector or supervising inspector without compensation for a period not exceeding thirty days in any calendar year;

(5) Prepare report forms to be used by oil and gas inspectors or the supervising inspector in making their findings, orders and notices, upon inspections made in accordance with this chapter;

(6) Employ a hearing officer and such clerks, stenographers and other employees, as may be necessary to carry out his duties and the purposes of the office of oil and gas, and fix their compensation;

(7) Hear and determine applications made by owners, well operators, and coal operators for the annulment or revision of orders made by oil and gas inspectors or the supervising inspector, and to make inspections, in accordance with the provisions of this article and articles five and seven of this chapter;

(8) Cause a properly indexed permanent and public record to be kept of all inspections made by himself or by oil and gas inspectors or the supervising inspector;

(9) Make annually a full and complete written report to the director of the department of mines in such form and detail as the director may from time to time request, so that the director can complete the preparation of the director's annual report to the governor of the state;

(10) Conduct such research and studies as the director shall deem necessary to aid in protecting the health and safety of persons employed within or at potential or existing oil or gas production fields within this state, to improve drilling and production methods and to provide for the more efficient protection and preservation of oil and gas-bearing rock strata and property used in connection therewith;

(11) Perform any and all acts necessary to carry out and implement the state requirements established by 92 Statutes at Large 3352, et seq., the "Natural Gas Policy Act of 1978," which are to be performed by a designated state
jurisdictional agency regarding determinations that wells within the state qualify for a maximum lawful price under certain categories of natural gas as set forth by the provisions of the said "Natural Gas Policy Act of 1978";

(12) Collect a filing and processing fee of forty dollars for each well, for which a determination of qualification to receive a maximum lawful price under the provisions of the "Natural Gas Policy Act of 1978" is sought from the administrator; all revenues from such fees to be placed in the general revenue fund of the state;

(13) Collect a permit fee of two hundred fifty dollars for each permit application filed after the effective date of this subdivision: Provided, That no permit application fee shall be required when an application is submitted solely for plugging or replugging of a well. All application fees required hereunder shall be in addition to any other fees required by the provisions of this article;

(14) Perform all other duties which are expressly imposed upon him by the provisions of this chapter, as well as duties assigned to him by the director of the department of mines.

(d) All records of the department shall be open to the public.

§22-4-1d. Oil and gas inspectors; eligibility for appointment; qualifications; salary; expenses; removal.

(a) No person is eligible for appointment as an oil and gas inspector or supervising inspector unless at the time of his probationary appointment he (1) is a citizen of West Virginia, in good health and of good character, reputation and temperate habits; (2) has had at least ten years' practical experience in the oil and gas industry, at least five years of which, immediately preceding his original appointment, shall have been in the oil and gas industry in this state: Provided, That a diploma in geology or in mining or petroleum engineering shall be considered the equivalent of five years' practical experience; and (3) has good theoretical and practical knowledge of oil and gas drilling and production methods, practices and techniques, sound safety practices and applicable mining laws.
(b) In order to qualify for appointment as an oil and gas inspector or supervising inspector, an eligible applicant shall submit to a written and oral examination by the oil and gas inspectors' examining board and shall furnish such evidence of good health, character and other facts establishing eligibility as such board may require. If such board finds after investigation and examination that an applicant (1) is eligible for appointment and (2) has passed all written and oral examinations, the board shall add such applicant's name and grade to the register of qualified eligible candidates and certify its action to the administrator. No candidate's name may remain on the register for more than three years without requalifying.

(c) The salary of the supervising inspector shall be not less than twenty-five thousand dollars per annum. Salaries of inspectors shall be not less than twenty thousand dollars per annum. The supervising inspector and inspectors shall receive mileage expense reimbursement at the rate established by rule of the commissioner of the department of finance and administration for in-state travel of public employees. Within the limits provided by law, the salary of each inspector and of the supervising inspector shall be fixed by the administrator, subject to the approval of the director of the department of mines and oil and gas inspectors' examining board. In fixing salaries of the oil and gas inspectors and of the supervising inspector, the administrator shall consider ability, performance of duty and experience. No reimbursement for traveling expenses may be made except upon an itemized account of such expenses submitted by the inspector or supervising inspector, as the case may be, who shall verify, upon oath, that such expenses were actually incurred in the discharge of his official duties.

(d) An inspector or the supervising inspector, after having received a permanent appointment, shall be removed from office only for physical or mental impairment, incompetency, neglect of duty, drunkenness, malfeasance in office, or other good cause.

Proceedings for the removal of an oil and gas inspector or the supervising inspector may be initiated by the administrator or the director of the department of mines.
whenever either has reasonable grounds to believe and does believe that adequate cause exists warranting removal. Such a proceeding shall be initiated by a verified petition, filed with the oil and gas inspectors' examining board by the administrator or the director, setting forth with particularity the facts alleged. Not less than twenty reputable citizens engaged in oil and gas drilling and production operations in the state may petition the administrator or the director of the department of mines for the removal of an inspector or the supervising inspector. If such petition is verified by at least one of the petitioners, based on actual knowledge of the affiant, and alleges facts which, if true, warrant the removal of the inspector or supervising inspector, the administrator or the director of the department of mines shall cause an investigation of the facts to be made. If, after such investigation, the administrator or the director finds that there is substantial evidence which, if true, warrants removal of the inspector or supervising inspector, he shall file a petition with the oil and gas inspectors' examining board requesting removal of the inspector or supervising inspector.

On receipt of a petition by the administrator or by the director of the department of mines seeking removal of an inspector or the supervising inspector, the oil and gas inspectors' examining board shall promptly notify the inspector or supervising inspector, as the case may be, to appear before it at a time and place designated in said notice, which time shall be not less than fifteen days nor more than thirty days thereafter. There shall be attached to the copy of the notice served upon the inspector or supervising inspector a copy of the petition filed with such board.

At the time and place designated in said notice, the oil and gas inspectors' examining board shall hear all evidence offered in support of the petition and on behalf of the inspector or supervising inspector. Each witness shall be sworn and a transcript shall be made of all evidence taken and proceedings had at any such hearing. No continuance may be granted except for good cause shown.

The chairman of the board, the administrator and the director of the department of mines may administer oaths and subpoena witnesses.
An inspector or supervising inspector who willfully refuses or fails to appear before such board, or having appeared, refuses to answer under oath any relevant question on the ground that his testimony or answer might incriminate him, or refuses to accept a grant of immunity from prosecution on account of any relevant matter about which he may be asked to testify at such hearing before such board, forfeits his position.

If, after hearing, the oil and gas inspectors' examining board finds that the inspector or supervising inspector should be removed, it shall enter an order to that effect. The decision of the board shall be final and shall not be subject to judicial review.

§22-4-2. Plats prerequisite to drilling or fracturing wells; preparation and contents; notice and information furnished to coal operators, owners or lessees; issuance of permits; performance bonds or securities in lieu thereof; bond forfeiture.

Before drilling for oil or gas, or before fracturing or stimulating a well on any tract of land, the well operator shall have a plat prepared by a licensed land surveyor or registered engineer showing the district and county in which the tract of land is located, the name and acreage of the same, the names of the owners of adjacent tracts, the proposed or actual location of the well determined by survey, the courses and distances of such location from two permanent points or landmarks on said tract and the number to be given the well and the date of drilling completion of a well when it is proposed that such well be fractured and shall forward by registered or certified mail a copy of the plat to the department of mines. In the event the tract of land on which the said well proposed to be drilled or fractured is located is known to be underlaid with one or more coal seams, copies of the plat shall be forwarded by registered or certified mail to each and every coal operator operating said coal seams beneath said tract of land, who has mapped the same and filed his maps with the department in accordance with article two of this chapter, and the coal seam owner of record and lessee of record, if any, if said owner or lessee has recorded the declaration provided in section twenty of this article, and if said owner or lessee is not yet operating said coal seams beneath said
tract of land. With each of such plats there shall be enclosed a notice (form for which shall be furnished on request by the department of mines) addressed to the department of mines and to each such coal operator, owner and lessee, if any, at their respective addresses, informing them that such plat and notice are being mailed to them respectively by registered or certified mail, pursuant to the requirements of this article. If no objections are made, or are found by the department, to such proposed location or proposed fracturing within fifteen days from receipt of such plat and notice by the department of mines, the same shall be filed and become a permanent record of such location or fracturing subject to inspection at any time by any interested person, and the department may forthwith issue to the well operator a permit reciting the filing of such plat, that no objections have been made by the coal operators, owners and lessees, if any, or found thereto by the department, and authorizing the well operator to drill at such location, or to fracture the well. Unless the department has objections to such proposed location or proposed fracturing or stimulating, such permit may be issued prior to the expiration of such fifteen-day period upon the obtaining by the well operator of the consent in writing of the coal operator or operators, owners and lessees, if any, to whom copies of the plat and notice shall have been mailed as herein required, and upon presentation of such written consent to the department. The notice above provided for may be given to the coal operator by delivering or mailing it by registered or certified mail as above to any agent or superintendent in actual charge of mines.

A permit to drill, or to fracture or stimulate an oil or gas well, shall not be issued unless the application therefor is accompanied by a bond of the operator in the sum of ten thousand dollars, payable to the state of West Virginia, with a corporate bonding or surety company authorized to do business in this state as surety thereon, conditioned on full compliance with all laws, rules and regulations relating to the drilling, redrilling, deepening, casing, plugging, abandonment and reclamation of wells and for furnishing such reports and information as may be required by the department: Provided, That when such operator makes or has made application for permits to drill a number of wells
or fracture or stimulate a well or wells the operator may in lieu of furnishing a separate bond furnish a blanket bond in the sum of fifty thousand dollars, payable to the state of West Virginia, with a corporate bonding or surety company authorized to do business in this state as surety thereon, and conditioned as aforesaid: Provided, however, That in lieu of corporate surety on a separate or blanket bond, as the case may be, the operator may elect to deposit with the administrator cash or the following collateral securities or any combination thereof: (1) Bonds of the United States or agency thereof, or those guaranteed by, or for which the credit of the United States or agency therefor is pledged for the payment of the principal and interest thereof; (2) direct general obligation bonds of this state, or any other state, or territory of the United States, or the District of Columbia, unconditionally guaranteed as to the principal and interest by such other state or territory of the United States, or the District of Columbia if such other state, territory, or the District of Columbia has the power to levy taxes for the payment of the principal and interest of such securities, and if at the time of the deposit such other state, territory or the District of Columbia is not in default in the payment of any part of the principal or interest owing by it upon any part of its funded indebtedness; (3) direct general obligation bonds of any county, district, city, town, village, school district or other political subdivision of this state issued pursuant to law and payable from ad valorem taxes levied on all the taxable property located herein, that the total indebtedness after deducting sinking funds and all debts incurred for self-sustaining public works does not exceed five percent of the assessed value of all taxable property therein at the time of the last assessment made before the date of such deposit, and that the issuer has not, within five years prior to the making thereof, been in default for more than ninety days in the payment of any part of the principal or interest on any debt, evidenced by its bonds; (4) revenue bonds issued by this state or any agency of this state when such bonds are payable from revenues or earnings specifically pledged for the payment of principal and interest, and a lawful sinking fund or reserve fund has been established and is being maintained for the payment of such bonds; (5) revenue bonds issued by a municipality in this state for the
acquisition, construction, improvement or extension of a waterworks system, or a sewerage system, or a combined waterworks and sewerage system, when such bonds are payable from revenue or earnings specifically pledged for the payment of principal and interest, and a lawful sinking fund or reserve fund has been established and is being maintained for the payment of such bonds; (6) revenue bonds issued by a public service board of a public service district in this state for the acquisition, construction, improvement or extension of any public service properties, or for the reimbursement or payment of the costs and expenses of creating the district, when such bonds are payable from revenue or earnings specifically pledged for the payment of principal and interest, and a lawful sinking fund or reserve fund has been established and is being maintained for the payment of such bonds; (7) revenue bonds issued by a board of trustees of a sanitary district in this state for the corporate purposes of such district, when such bonds are payable from revenue or earnings specifically pledged for the payment of principal and interest, and a lawful sinking fund or reserve fund has been established and is being maintained for the payment of such bonds; and (8) bonds issued by a federal land bank or home owners’ loan corporation. The cash deposit or market value, or both, of the collateral securities shall be equal to or greater than the penalty of the separate or blanket bond, as the case may be. Upon receipt of any such deposit or cash or collateral securities, the administrator shall immediately deliver the same to the treasurer of the state of West Virginia. The treasurer shall determine whether any such securities satisfy the requirements of this section. If the securities are approved they shall be accepted by the treasurer. If the securities are not approved, they shall be rejected and returned to the operator and no permit shall be issued until a corporate surety bond is filed or cash or proper collateral securities are filed in lieu of such surety. The treasurer shall hold any cash or securities in the name of the state in trust for the purposes for which the deposit was made. The operator shall be entitled to all interest and income earned on the collateral securities filed by such operator so long as the operator is in full compliance with all laws, rules and regulations relating to the drilling, redrilling, deepening, casing, plugging, abandonment and
reclamation of wells and for furnishing such reports and
information as may be required by the department. The
operator making the deposit shall be entitled from time to
time to receive from the treasurer, upon the written order of
the administrator, the whole or any portion of such
securities upon depositing with the treasurer in lieu thereof
cash equal to or greater than the penalty of the bond, or
other approved securities of the classes herein specified
having a market value equal to or greater than the penalty
of the bond, or a corporate surety bond.

When an operator has furnished a separate bond from a
corporate bonding or surety company to drill, fracture or
stimulate an oil or gas well and the well produces oil or gas,
or both, its operator may deposit with the administrator
cash from the sale of the oil or gas, or both, until the total
deposited is ten thousand dollars. When the sum of the cash
deposited is ten thousand dollars, the separate bond for the
well shall be released by the department. Upon receipt of
such cash, the administrator shall immediately deliver the
same to the treasurer of the state of West Virginia. The
treasurer shall hold such cash in the name of the state in
trust for the purpose for which the bond was furnished and
the deposit was made. The operator shall be entitled to all
interest and income which may be earned on the cash
deposited so long as the operator is in full compliance with
all laws, rules and regulations relating to the drilling,
redrilling, deepening, casing, plugging, abandonment and
reclamation of the well for which the cash was deposited
and so long as he has furnished all reports and information
as may be required by the department. If the cash realized
from the sale of oil or gas, or both, from the well is not
sufficient for the operator to deposit with the administrator
the sum of ten thousand dollars within one year of the day
the well started producing, the corporate or surety company
which issued the bond on the well may notify the operator
and the department of its intent to terminate its liability
under its bond. The operator then shall have thirty days to
furnish a new bond from a corporate bonding or surety
company or collateral securities, as provided in the next
preceding paragraph of this section, with the department. If
a new bond or collateral securities are furnished by the
operator, the liability of the corporate bonding or surety
company under the original bond shall terminate as to any acts and operations of the operator occurring after the effective date of the new bond or the date the collateral securities are accepted by the treasurer of the state of West Virginia. If the operator does not furnish a new bond or collateral securities, as provided in the next preceding paragraph of this section, with the department, he shall immediately plug, fill and reclaim the well in accordance with all of the provisions of law, rules and regulations applicable thereto. In such case, the corporate or surety company which issued the original bond shall be liable for any plugging, filling or reclamation not performed in accordance with such laws, rules and regulations.

Any such bond shall remain in force until released by the department and the department shall release the same when it is satisfied the conditions thereof have been fully performed. Upon the release of any such bond, any cash or collateral securities deposited shall be returned by the administrator to the operator who deposited same.

If any of the requirements of this article or rules and regulations promulgated pursuant thereto or the orders of the administrator have not been complied with within the time limit set by the violation notice as defined in sections one-g, one-h and one-i of this article, the performance bond shall then be forfeited.

When any bond is forfeited pursuant to the provisions of this article or rules and regulations promulgated pursuant thereto the administrator shall give notice to the attorney general who shall collect the forfeiture without delay.

All forfeitures shall be deposited in the treasury of the state of West Virginia in the special reclamation fund as defined in section twelve-a of this article.

§22-4-9. Plugging, abandonment and reclamation of well; notice of intention; performance bonds or securities in lieu thereof; affidavit showing time and manner.

All dry or abandoned wells or wells presumed to be abandoned under the provisions of section seven of this article shall be plugged and reclaimed in accordance with this section and the other provisions of this article and in
accordance with the rules and regulations promulgated by the administrator.

Prior to the commencement of plugging operations and the abandonment of any well, the well operator shall either (a) notify, by registered or certified mail, the department of mines and the coal operator operating coal seams, the coal seam owner of record or lessee of record, if any, to whom notices are required to be given by section two of this article, and the coal operators to whom notices are required to be given by section two-a of this article, of its intention to plug and abandon any such well (using such form of notice as the department may provide), giving the number of the well and its location and fixing the time at which the work of plugging and filling will be commenced, which time shall be not less than five days after the day on which such notice so mailed is received or in due course should be received by the department of mines, in order that a representative or representatives of the department and such coal operator, owner or lessee, if any, may be present at the plugging and filling of the well: Provided, That whether such representatives appear or do not appear, the well operator may proceed at the time fixed to plug and fill the well in the manner hereinafter described, or (b) first obtain the written approval of the department of mines and such coal operator, owner or lessee, if any, or (c) in the event the well to be plugged and abandoned is one on which drilling or reworking operations have been continuously progressing pursuant to authorization granted by the department, first obtain the verbal permission of the administrator or his designated representative to plug and abandon such well, except that the well operator shall, within a reasonable period not to exceed five days after the commencement of such plugging operations, give the written notices required by subdivision (a) above.

No well may be plugged or abandoned unless prior to the commencement of plugging operations and the abandonment of any well the department is furnished a bond of the operator in the sum of ten thousand dollars, payable to the state of West Virginia, with a corporate bonding or surety company authorized to do business in this state as surety thereon, conditioned on full compliance with all laws, rules and regulations relating to the casing,
plugging, abandonment and reclamation of wells and for furnishing such reports and information as may be required by the department. When a number of wells are involved, the operator may in lieu of furnishing a separate bond furnish a blanket bond in the sum of fifty thousand dollars, payable to the state of West Virginia, with a corporate bonding or surety company authorized to do business in this state as surety thereon, and conditioned as aforesaid. In lieu of corporate surety on a separate or blanket bond, as the case may be, the operator may elect to deposit with the administrator cash or collateral securities as specified in section two of this article. All of the provisions of section two dealing with cash or collateral securities in lieu of corporate surety shall be fully applicable hereto except for the condition of the bond with respect to which the operator must be in full compliance in order to be entitled to the interest and income earned on such securities. The operator shall be entitled to such interest and income under this section so long as the operator is in full compliance with all laws, rules and regulations relating to the casing, plugging, abandonment and reclamation of wells and for furnishing such reports and information as may be required by the department. Any such bond shall remain in force until released by the department and the department shall have been fully performed. Notwithstanding the foregoing provisions, any operator who, in accordance with section two of this article, has furnished a separate bond, which has not been released by the department, for the drilling, converting or drilling for the introduction of liquids, for the disposal of sewage, industrial waste or other waste or the effluent therefrom, or introducing pressure, whether liquid or gas, or introducing liquid for the purposes provided for in section ten-a of this article or fracturing of the well that is now proposed to be plugged and abandoned, or who, in accordance with the provisions of said section two of this article, has furnished a blanket bond which has not been released by the department, shall not be required by this section to furnish any other bond. When the plugging, filling and reclamation of a well have been completed, an affidavit, in triplicate, shall be made (on a form to be furnished by the department) by two experienced persons who participated in the work, the administrator or his
designated representative, in which affidavit shall be set forth the time and manner in which the well was plugged and filled and the land reclaimed. Be it enacted by the Legislature of West Virginia:

That section two, article eleven-c, chapter forty-seven of the code of West Virginia, one thousand nine hundred thirty-one, as amended, be amended and reenacted; and that said article eleven-c be further amended by adding thereto a new section, designated section five-a, all to read as follows:

ARTICLE 11C. WEST VIRGINIA PETROLEUM PRODUCTS FRANCHISE ACT.

§47-11C-2. Definitions.

3 (2) "Dealers" means any person, other than an agent or employee of a producer, who is engaged in the retail sale of petroleum products under a franchise agreement as defined by this section;

4 (3) "Designated family member" means the adult spouse or the adult child or stepchild of the dealer or any other adult person related to the dealer by either the half or whole blood or the adult spouse of the other adult
person, who has experience in the service station business and who, in the case of the dealer's death or retirement, is designated in the franchise agreement for a service station as the successor to the dealer's interest under the agreement and who shall become the dealer upon the completion of the succession;

(4) "Franchise" or "franchise agreement" means a written agreement between a producer and a dealer under which the dealer is granted the right to use a trademark, trade name, service mark or other identifying symbol or name owned by the producer, or a written agreement between a producer and a dealer by which the dealer is granted the right to occupy premises owned, leased or controlled by the producer, for the purpose of engaging in the retail sale of petroleum products of the producer;

(5) "Good cause" means failure of the dealer to make good faith effort to comply with any material requirement of a franchise agreement;

(6) "Producer" means every person who produces, refines, manufactures, processes or otherwise alters any motor fuel and other petroleum products for sale or use in this state; and

It is contrary to public policy for any person to receive, hold, control or manage funds or proceeds received from the sale of, or from a contract to sell, funeral services, funeral goods, burial goods or any one or combination of them, where payments for same are made either outright or on an installment basis, prior to the death of the person or persons so purchasing them, or for whom they are purchased, unless that person holds, controls or manages those funds subject to the limitations and regulations prescribed by this article.

2. It is the legislative intent that the provisions of this article shall be construed as a limitation upon the manner in which a person is permitted to accept funds in prepayment of funeral services to be performed in the future, or funeral or burial goods to be used in connection with the funeral or final disposition of human remains, so that at all times members of the public may have an opportunity to arrange and pay for funerals for themselves and their families in advance of need while at the same time providing all possible safeguards whereunder such prepaid funds cannot be dissipated, whether intentionally or not, in order that such funds are available for the payment of funeral services so arranged. Further, it is the legislative intent...
that no person may offer, sell or negotiate for the sale of a 
preneed funeral service contract through anyone who is not 
licensed under this article.

(a) No person may receive, hold, control or manage any funds or other thing of value tendered as payment on any preneed funeral contract unless such person has obtained a certificate of authority or renewal thereof from the department: Provided, That no bank, trust company, savings and loan association or other financial institution regulated by this state or insured by an agency of the United States federal government is required to obtain a certificate of authority.

The fee shall be payable to a special revenue account to be known as the “Preneed Burial Contract Regulation Fund” for the purpose of administering the provisions of this article. The original application or a renewal application shall contain at least the following information:

(1) The name and address of each person owning ten percent or more interest in the applicant;

(4) Any changes or amendments in any contracts or obligations of the seller and provider that occurred since the date of the last report.

(5) Such other information as may be considered neces-

(f) An original certificate of authority expires on the thirty-first day of December following its issuance.

(g) Every application, request for renewal and statement filed with either of the foregoing shall be sworn by the applicant or certificate holder. If the certificate holder is a partnership, it shall be sworn by each member thereof. If the certificate holder is a corporation, it shall be sworn by the president and secretary thereof.

(h) Upon the department’s being satisfied that the statement and matters which may accompany it meet the requirements of this article and of its rules and regulations and, if by investigation by the department of the principals, including directors, officers, stockholders, employees and agents of such person, nothing is found to warrant denial of the certificate, the department shall issue to such person the certificate of authority or renewal thereof.

(i) (1) The certificate holder shall keep accurate accounts, books and records in this state of all transactions, copies of all contracts, dates and amounts of payments made and accepted thereon, the name and address of each contract buyer, the name of the beneficiary as to each contract, the name of the trustee holding trust funds received under each contract and such other records as the department may require to enable it to determine whether such certificate holder is complying with the provisions of this article. Such records must be kept until twelve months after termination of the applicable preneed contract.

(2) The certificate holder shall make all books and records pertaining to preneed funeral contracts available to the department for examination. The department may not more frequently than once in any calendar year, unless pursuant to an order of court for good cause shown, during ordinary business
hours, cause to be examined the books, records and accounts
of the certificate holder with respect to funds received by said
certificate holder and for that purpose may require the att-

mony he may require.

(3) The certificate holder shall pay for the cost of any
examination which is not the first one in that calendar year,
including the salary and traveling expenses paid to the person
making the examination during the time spent in making the
examination and in traveling to and returning from the point
where the records are kept and all other expenses necessarily
incurred in the examination. The department shall assess and
collect a fee for each such examination, based on the certifi-
cate holder's total outstanding preneed funeral service con-
tracts and the cost of such examination, but the cost to the
person being audited shall not be more than a total cost of
five hundred dollars for each such examination. This fee shall
be payable to the "Preneed Burial Contract Regulation Fund"
established in this section.

§47-14-4. Agents and employees; licenses required; fee to go to
department of labor.

No agent or employee of a contract seller may sell preneed
funeral contracts in this state without first obtaining from the
department a license for such purpose. The fee for such
license and the annual renewal thereof shall be twenty-five
dollars. These fees shall be payable to the "Preneed Burial
Contract Regulation Fund" established by section three of this
article. The commissioner shall not issue such license without
requiring an applicant for the license, or if the applicant is a
corporation, its individual agents, to provide proof to warrant
its issuance by presenting with the application affidavits from
his employer stating that, to the employer's best information,
knowledge and belief the applicant merits a license. The acts
of the agent shall be considered acts of the employer. The de-
partment may require the applicant to pass a written exami-
nation to ascertain if the applicant has sufficient knowledge of
the industry and the provisions of this article to properly carry
on the business covered by this article.
§47-14-5. Disposition of proceeds; trusts; procedure for administration; department to promulgate rules and regulations.

(a) All sums paid or collected on such contracts entered into after the effective date of this article shall be handled in the following manner:

(1) The contract seller or other person collecting the funds may retain for his own use and benefits and for the purpose of covering his selling expenses, servicing costs and general overhead, an amount not to exceed ten percent of the total amount agreed to be paid by the contract buyer as reflected in the preneed funeral contract. Such ten percent or other amount is exempt from the trust and refunding provisions of this article;

(2) All of the funds collected under the contract, less the amount authorized to be deducted under subdivision (1) of this subsection, shall be deposited under the provisions of subdivision (3) hereof;

(3) Unless otherwise specifically exempt under this article, all funds paid to or collected by any person from a preneed funeral contract shall, within thirty days after receipt thereof by such a person, be deposited in this state (i) in the name of a trustee who is a contract seller, provider or person making the preneed funeral contract available, in a state or federally chartered and insured bank, savings institution, building and loan institution located in this state or in a state or federally chartered credit union located in this state, or (ii) under the terms of a trust instrument entered into with a national or state bank having trust powers or a trust company located in this state.

(b) The funds to be deposited from more than one preneed funeral contract may at the option of the recipient thereof or the certificate of authority holder, be placed in a common or commingled trust fund in this state under a single trust instrument.

(c) All deposits shall be placed in an account with a trustee in the name of the contract seller, provider or person making the contract available, as set forth in the contract, to whom the contract buyer makes payment. Records shall be maintained
as to each contract showing the amount paid, the amount deposited and the amount invested with respect to any particular buyer's contract.

(d) All funds required to be deposited and covered by this article shall remain in this state.

(e) All accounts of money deposited in any bank, savings institution, building and loan association or credit union in accordance with the provisions of this article are subject to periodic examination by the department of banking of this state.

(f) The department shall promulgate rules and regulations in accordance with chapter twenty-nine-a of this code for the purpose of administering the provisions of this article: Provided, That the department shall, by such rules and regulations, require the contract seller to secure a fidelity bond of sufficient surety to guarantee that a contract purchaser who cancels a contract under the provisions of this article receives all of the moneys paid into any trust account.

§47-14-6. Withdrawal of funds.

(a) Disbursements of funds discharging any preneed funeral contract shall be made by the trustee to the person named in the contract upon receipt of a certified photostatic copy of the death certificate of the contract beneficiary and evidence satisfactory to the trustee that the preneed funeral service or preneed burial supply contract has been fully performed. In the event that, after the death of the contract beneficiary, the contract services or goods are not provided because they are not desired by the heirs or by the personal representative of the contract beneficiary, the trustee shall have authority to expend one hundred percent of the amount placed in the trust account and paid on the contract, in any general locality within or outside of this state, which shall be the burial location of the contract beneficiary. If the service and goods are not provided upon the death of the contract beneficiary because of actions of the seller, provider or person making the preneed funeral contract available, then all of the funds held on deposit shall in ten days be refunded to the contract buyer.
or his legal representative who also has available any other
remedy set forth in this article.

(b) Any contract buyer or legally authorized person, acting
in his behalf, may cancel a preneed funeral contract prior
to the death of the contract beneficiary by notifying in
writing the contract seller or present obligor of the provisions
thereof, if a different person, of such desire to cancel. The
seller or obligor shall, in ten days after receipt of such notice,
notify the trustee of such cancellation and the trustee shall
within thirty days after receipt of written notification pay
to the contract buyer, or his legal representative, all funds
placed in the trust account and paid on the contract.

(c) If the contract buyer is more than one hundred eighty
days in default with respect to any payment or installment
due on or pursuant to the preneed funeral contract, the con-
tract seller or provider may, on ten days' prior written notice,
cancel the contract. All funds in the trust account shall be
refunded to the contract purchaser or to the estate of the
contract beneficiary.

(d) The seller of a preneed funeral contract may not can-
cel the contract unless the contract is in default as to the
buyer's obligations.

(e) Payment by any depository or any trustee made in
good faith pursuant to the terms of this section shall forever
relieve such depository or trustee, as such, for any further
liability for such funds under the contract and in law.

§47-14-7. Income on trust accounts.

(a) Whether the payments on a preneed funeral contract
are placed in a bank, savings institution, building and loan
association, credit union or in a common trust fund as
permitted in this article, or are part of a commingled com-
mon trust fund as permitted in this article, the income from
a contract deposit shall accrue to the individual account until
such time as the burial goods, funeral goods and funeral
services for the contract beneficiary are required to be de-
ivered and returned by reason of such beneficiary's death.

(b) Upon the death of such contract beneficiary, the total
amount in the trust account attributable to the contract beneficiary shall be disbursed as follows:

(1) If the cost of the goods and services contracted for at the time of such beneficiary's death exceeds the amount paid under the contract, then the provider may have and use the principal and so much of the interest as may be necessary to defray such additional cost over and above the contract cost: Provided, That, to the extent that the cost of goods and services provided exceeds the principal and interest thereon, the provider shall provide and make available the goods and services contracted for at no additional cost to the contract purchaser or to the heirs or personal representative of the contract beneficiary;

(2) To the extent the principal and interest thereon exceed the cost of the goods and services contracted for, then the provider may retain only so much of the principal and interest necessary to defray the total of such cost and the balance shall be returned to the estate of the contract beneficiary or to the contract buyer as may be proper under the provisions of this article or the rules and regulations of the department.

(c) The trustee for the trust shall make annual valuations of assets held in trust. No person may withdraw income from the trust, except for the purpose of executing the terms of the contract and to disburse the trust proceeds as provided in subsection (b) of this section.

§47-14-8. Limitations on enforcement of contract; appointment and removal of trustees; standards for administration of trusts; contracts may be irrevocable; "Preneed Guarantee Fund" established; assignment of contract allowed; credit life insurance allowed; successor in interest defined.

(a) A contract seller, provider or person making the preneed funeral contract available may not enforce a preneed funeral contract made in violation of this article, but a contract buyer or his heirs or legal representative may recover all amounts paid under his contract and all accrued income on such amount where the contract seller, provider or person
making the preneed funeral contract available has violated the provisions of this article as to such contract. The right of such recovery is in addition to the remedy provided for in section twelve of this article.

(b) A contract seller, provider or person making the preneed funeral contract available may appoint a board of at least three individual trustees under a trust instrument, if the trustee is other than a chartered state or national bank or trust company under the supervision of the department of banking of this state, to serve as trustees of its trust funds. Each individual trustee shall be a resident of this state and shall hold office subject to the direction of the seller. Not more than one member of the board of trustees of a trust fund may have a proprietary interest in the seller appointing trustees or in any certificate of authority holder who is placing funds in such trust.

Individual trustees of a trust fund shall file a fidelity bond with a corporate surety thereon which is licensed to do business in this state with the department of labor in an amount equal to the funds in trust, guaranteeing payment of damages occasioned by breach of the trustees' fiduciary duties. The trustees of one or more trust funds need file only one such bond. The aggregate liability of the surety shall in no case exceed the face amount of the bond. The department of labor or any aggrieved person claiming against any bond required by this section may maintain an action against the trustee and the surety. Individual trustees shall take no action respecting trust funds unless there is on file with the department a bond as required by this section. If the trustees are individuals, the commissioner may suspend the certificate of authority of any contract seller, provider or person making the preneed funeral contract available having trust funds with respect to which there is no bond on file with the department as required by this section.

(c) All trustees under the terms of this article are subject to the following investment standards: In acquiring, investing, reinvesting, exchanging, retaining, selling and managing property for the benefit of others, trustees have the responsibilities which customarily attach to such offices and to the type of estates entrusted to their care and shall exercise the judgment
and care under the circumstances then prevailing which men
of prudence, discretion and intelligence exercise in the man-
agement of their own affairs, not in regard to speculation but
in regard to the permanent disposition of their funds, consider-
ing the probable income as well as the probable safety of their
capital.

(d) No preneed funeral contract may restrict any contract
buyer who, for the purpose of receiving public assistance, may
make his or her contract irrevocable in accordance with the
laws and regulations of this state.

(e) All preneed funeral contracts must be in writing and
no contract form may be used without prior approval of the
department.

(f) Each contract buyer shall pay a fee of five dollars to the
contract seller, who in turn will forward such sum to the de-
partment within ten days after execution of the preneed funer-
al contract. The contract shall be recorded in the department.
Within ten days after receiving the fee, the department will
notify the contract purchaser, by mail, of the recording. The
fees shall be placed by the department in an account under the
department’s control entitled “Preneed Guarantee Fund,” and
the income thereon shall accrue to the fund. The department
may use such income, if necessary in its discretion, to enforce
this article.

In the event any buyer of any preneed funeral contract is
unable to receive the benefits of his contract, or to receive the
funds due by reason of his cancellation thereof, such buyer
may apply to the department on a form supplied by the de-
partment. Upon the finding of the department that said bene-
fits or return of payment is not available to the buyer, the de-
partment will cause to be paid to the said buyer from the
“Preneed Guarantee Fund” the amount actually paid by the
buyer under his or her contract. If the seller’s liability for de-
fault is subsequently proven, any award made by a court of
law shall be made payable to the “Preneed Burial Contract
Regulation Fund” established in section three of this article.

(g) Notwithstanding the provisions of subsection (f), sec-
tion five of this article, delivery of funeral or burial goods
prior to the death of the person for whose benefit they are purchased does not constitute performance or fulfillment, either wholly or in part, of any preneed contract or series of contracts.

(h) The contract buyer may, on acceptance in writing by a transferee, transfer the obligations of the seller, provider or person making the preneed funeral contract available to other persons within or without this state. The funds on deposit for the contract on any future payments, if any, by the contract buyer shall then be transferred to and deposited under applicable state law, if any, in the state wherein the contract buyer resides or to a state where the obligations of the provider of the funeral service and goods will be fulfilled.

Upon such transfer, the contract buyer and transferee shall, in writing, release the contract seller, provider or person making the preneed funeral contract available and the trusts, as applicable, for any further liability under such contract.

Nothing in this article or in any preneed contract may limit the right of a contract buyer to assign such a contract to any person whomsoever except as specifically provided herein and except that if the assignee is a resident of this state or the contract is to be fulfilled by the assignee in this state, the assignee must hold a certificate of authority under this article. If the contract is to be fulfilled in another state, the assignee must in all respects be in compliance with the preneed funeral law of that state, if any.

(i) Notwithstanding any other law of this state, a contract seller, provider or person making the preneed funeral contract available may, if requested by the contract buyer where the contract is to be paid in installments, provide for the sale of credit life insurance on the life of the contract beneficiary in order to have the funds necessary to make payment in full under the contract if the beneficiary should die prior to completing all the payments due. The seller shall disclose all costs of such insurance in clear language and shall inquire of the buyer whether he understands the terms of the insurance contract and is aware of the total cost of the insurance.

(j) In the event any certificate of authority holder or any-
one in violation of the article who has outstanding preneed funeral contracts and is not the current holder of a certificate of authority sells its business, through the sale of assets or stock, which is involved in the fulfillment of obligations under preneed funeral contracts, the buyer of such business is a "successor in interest" and is covered not only by this article but shall assume the obligations of seller under seller's outstanding preneed funeral contracts regardless of whether seller made known to buyer the existence of such contract or contracts.

The administration and enforcement of the provisions of this article are vested in the department. The department shall prepare and furnish all forms necessary under this article, including forms for applications for certificates of authority, for renewals thereof, for annual statements, for other required reports and for preneed funeral contracts. The department shall promulgate, in accordance with the provisions of chapter twenty-nine-a of this code, such rules and regulations as may be necessary to effectuate the purpose of this article.

§47-14-10. Solicitation.

(a) Any contract seller or agent or employee or person acting in behalf of any such person may not:

(1) Directly or indirectly call upon individuals or persons in hospitals, rest homes, nursing homes or similar institutions for the purpose of soliciting preneed funeral contracts or making funeral or final disposition arrangements without first having been specifically requested by such person to do so;

(2) Directly or indirectly employ any agent, assistant, employee, independent contracting person or any other person to call upon individuals or persons in hospitals, rest homes, nursing homes or similar institutions for the purpose of soliciting preneed funeral contracts or making funeral or final disposition arrangements without first having been specifically requested by such person to do so;

(3) Solicit relatives of persons whose death is apparently pending or whose death has recently occurred for the purpose
of providing funeral services, final disposition, burial or funeral goods for such person;

(4) Solicit or accept or pay any consideration for recommending or causing a dead human body to be provided funeral services and funeral and burial goods by specific persons, or the services of a specific crematory, mausoleum or cemetery except where such arrangement is the subject of a preneed funeral contract;

(5) Solicit by telephone call or by visit to a personal residence, unless such solicitation has been previously requested by the person solicited or by a family member residing at such residence.

(b) Notwithstanding any other provision of law to the contrary, nothing in this article shall be construed to restrict the right of a person to lawfully advertise, to use direct mail or otherwise communicate in a manner not within the above prohibition of solicitation or to solicit the business of anyone responding to such communication or otherwise initiating discussion of the goods or services being offered.

(c) Nothing herein shall be construed to prohibit general advertising.

(d) Anyone making a personal or written solicitation for a preneed funeral contract shall, at the very first instance, divulge the real reason for the contract or solicitation.

(e) The department may adopt rules regulating the solicitation of preneed contracts by certificate holders or registrants to protect the public from solicitation practices which utilize undue influence or which take undue advantage of a person's ignorance or emotional vulnerability.

§47-14-11. Disciplinary proceedings; revocation of license or certificate; liquidation upon violation.

(a) The following acts constitute grounds for which the disciplinary actions in subsection (b) may be taken against any person holding a certificate of authority or license pursuant to this article:

(1) Violating any provisions of this article;
(2) Attempting to procure or procuring a certificate of
authority or license under this article by bribery or fraudulent
misrepresentation;

(3) Having had any certificate of authority or license to sell
preneed funeral contracts revoked, suspended or otherwise
acted against, including denial of licensure, by a licensing au-
thority of another jurisdiction;

(4) Being convicted or found guilty of a crime in any jurisdic-
tion which directly relates to the sale of preneed funeral
contracts;

(5) Making or filing a report required by this article which
the certificate holder knows to be false or knowingly failing
to make or file a report required by this article;

(6) Advertising goods or services in a manner which is
fraudulent, false, deceptive or misleading in form or content;

(7) Engaging in fraud, deceit or misrepresentation in the
conduct of business of the certificate holder;

(8) Failing to comply with a lawful order of the department;

(9) Knowingly making any false or misleading statement,
oral or written, directly or indirectly, regarding the sale of
services or merchandise in connection with the conduct of the
certificate holder's business;

(10) Not maintaining the funds received under the contracts
as required by this article;

(11) Failing to cancel a preneed funeral contract upon prop-
er request and refund that portion of the amount paid on such
a contract as required by this article;

(12) Failing to renew or qualify for renewal of its certifi-
cate of authority or license;

(13) Failing to produce records in connection with the
certificate holder's business or has otherwise failed to comply
with the provisions of this article or any rule promulgated by
the department pursuant to this article; or

(14) Soliciting by the certificate holder, its agents, em-
employees or representatives through the use of fraud, undue influence, misrepresentation or overreaching or other forms of vexatious conduct as defined by law, this article or the rules and regulations of the department as to preneed funeral contracts.

(b) Upon the violation of any of the provisions of this article, determined in an administrative hearing after notice and an opportunity to be heard, the department may institute revocation proceedings regarding a license to operate a funeral home or a certificate of authority to sell preneed funeral contracts, or both the license and the certificate of authority or file a complaint in a court of competent jurisdiction setting forth the relevant facts and praying for the issuance of an order to show cause why the license to operate a funeral home or the certificate of authority to sell preneed funeral contracts, or both the license and the certificate should not be revoked.

(1) Upon application for such rule to show cause, the court may, in its discretion, issue an injunction restraining the defendant from transacting further business until further order of the court.

(2) Upon return of such order to show cause, the court shall hear and try the issue forthwith. If the court determines that the person so charged as defendant in such proceeding has not been guilty of the omission, failure or violation alleged in the complaint by the department, the court shall dismiss such complaint. If the court finds that the charges of the department are supported by the evidence, it may enter an order directing the revocation of a license to operate a funeral home or of a certificate of authority to sell preneed funeral contracts, or the revocation of both the license and the certificate of authority.

(3) In any such order of liquidation or in any order or orders thereafter entered, the court shall provide a notice to creditors, filing of claims and all other details necessary and essential to an estate in receivership.

(c) When the department finds any certificate holder or licensee guilty of any of the acts set forth in subsection (a) of this section after an administrative hearing, or finds that any funeral services or funeral or burial goods are offered for sale
when the offer is not a bona fide offer to sell such services or goods, it may enter an order imposing one or more of the following penalties:

(1) Denial of an application for a certificate of authority or license, including a renewal;

(2) Revocation or suspension of a certificate of authority or license;

(3) Imposition of an administrative fine not to exceed one thousand dollars for each county where there are separate violations;

(4) Issuance of a reprimand; or

(5) Placement of the licensee or certificate holder on probation for a period of time and subject to such conditions as the department may specify.

(d) All preneed funeral contract buyers have a priority in claims against the provider, to the extent that their interest is set forth in this article.

(e) For purposes of this section, the acts or omissions of any person employed by or under contract to or on behalf of the certificate holder shall be treated as acts or omissions of the certificate holder.

(f) Subject to the provisions of subsection (b), section seven of this article, all prices or quotations of prices contained in any preneed funeral contract shall be fully and clearly stated.

§47-14-12. Civil action; attorney's fees.

(a) The failure of a certificate holder or licensee to comply with the provisions of this article gives rise to a civil cause of action in favor of any aggrieved consumer or contract purchaser. Upon entry of a judgment for damages in favor of the plaintiff, the trial court shall award punitive damages in the amount of three times the actual damages awarded in the judgment.

(b) The prevailing party, after judgment in trial court and exhaustion of all appeals, if any, shall receive reasonable attorney's fees and costs from the nonprevailing party.
(c) The attorney for the prevailing party shall submit a sworn affidavit of his time spent on the case and his costs incurred for all the motions, hearings and appeals to the trial judge who presided over the civil case.

(d) The trial judge shall award the prevailing party the sum of reasonable costs incurred in the action, plus a reasonable legal fee for the hours actually spent on the case as sworn to in an affidavit.

(e) Any award of attorney's fees or costs shall become part of the judgment and subject to execution as the law allows.

§47-14-13. Penalty.

Any person who receives, holds, manages or controls any funds or proceeds realized from the writing and issuing of a preneed funeral contract or disburses such funds or proceeds in any manner other than as authorized or required by this article or who has violated any of the provisions of this article or the rules and regulations promulgated hereunder is guilty of a misdemeanor, and, upon conviction thereof, shall be punished by a fine of not less than one hundred nor more than one thousand dollars for each occurrence, or imprisoned in the county jail for a term not to exceed one year or both fined and imprisoned.

§47-14-14. Severability.

If any section, subsection, subdivision, subparagraph, sentence or clause of this article is adjudged to be unconstitutional or invalid, such invalidation shall not affect the validity of the remaining portions of this article, and, to this end, the provisions of this article are hereby declared to be severable.

Upon execution of such authorization and its receipt by the office of the auditor, such deductions shall be made in the manner specified on the form and remitted to the designated association or insurance company on the tenth day of each month: Provided, That such deductions shall not be made more frequently than once monthly. Deduction authorizations may be revoked at any time thirty days prior to the date on which the deduction is regularly made and on a form to be provided by the office of the state auditor: Provided, however, That nothing in this section shall interfere with or remove

CHAPTER 163
(H. B. 1315—By Mr. Steptoe)

[Passed March 11, 1983; in effect July 1, 1983. Approved by the Governor.]

AN ACT to amend and reenact sections two, seven, fifteen and seventeen, article twenty-one, chapter twenty-nine of the code of West Virginia, one thousand nine hundred thirty-one, as amended; and to further amend said article twenty-one by adding thereto three new sections, designated sections fourteen-a, fourteen-b and twenty-two, relating to public legal services generally; defining eligible proceedings; defining criminal charge; the powers and limitations of the West Virginia public legal services council; permitting the auditing and accounting division to require reports on nonbillable time; authorizing the auditing and accounting division to require increased itemization on vouchers; providing for the budget of the appellate division to be within the appropriations of the council or as provided by law; providing for supplemental grants; specifying that loans under this article are considered advancements only; limiting the use of funds; apportioning cost of representation; authorizing repayment of cost of representation; and prohibiting certain public defender corporations from being activated before the first day of April, one thousand nine hundred eighty-three.

Be it enacted by the Legislature of West Virginia:

That sections two, seven, fifteen and seventeen, article twenty-one, chapter twenty-nine of the code of West Virginia, one thousand nine hundred thirty-one, as amended, be amended and reenacted; and that said article twenty-one be further amended by adding thereto three new sections, designated sections fourteen-a, fourteen-b and twenty-two, all to read as follows:
ARTICLE 21. PUBLIC LEGAL SERVICES.

§29-21-14a. Supplemental grants.

§29-21-15. Limitation on use of funds; exceptions.

§29-21-17. Determination of maximum income levels; eligibility guidelines; use of form affidavit; inquiry by court; denial of services; repayment; limitation on remedies against affiant.

§29-21-22. Restriction on activation of corporations.

1 As used in this article:

2 (1) "Council" or "legal services council" means the West Virginia public legal services council established under this article;

3 (2) "Eligible client" means any person who is the subject of a serious criminal charge, has been convicted of such charge, is a party in a juvenile court proceeding, or is the respondent in a commitment proceeding, and who is to be afforded legal representation under the provisions of this article;

4 (3) "Eligible proceeding" means any of the following proceedings or charges: Serious criminal charges, juvenile proceedings, contempts of court, child abuse and neglect proceedings, mental hygiene commitment proceedings, paternity proceedings, or any post conviction, extraordinary remedy or other appellate proceeding arising out of an eligible proceeding or any other type of proceeding in which the West Virginia state supreme court of appeals or the United States supreme court has specifically held an indigent person is constitutionally entitled to legal representation;

5 (4) "Legal representation" or "legal assistance" means the provision of any legal services consistent with the purposes and provisions of this article;

6 (5) "Outside practice of law" means the provision of legal assistance to a client who is not entitled to receive legal assistance from the employer of the attorney rendering assistance, but does not include, among other activities, teaching, consulting or performing evaluation;
(6) "Public defender" means the staff attorney employed on a full-time basis by a public defender corporation who, in addition to his direct representation of eligible clients, has administrative responsibility for the operation of the public defender corporation: Provided, That the public defender may be a part-time employee if the board of directors of the public defender corporation finds that there are extraordinary circumstances wherein efficient operation requires that no staff attorney should be employed on a full-time basis, and the council approves such part-time employment;

(7) "Assistant public defender" means a staff attorney hired by the public defender to provide direct representation of eligible clients, and whose salary and status as a full-time or part-time employee are fixed by the board of directors of the public defender corporation;

(8) "Public defender corporation" or "public defender office" means a corporation created under section nine of this article for the sole purpose of providing legal representation to eligible clients; and

(9) "Serious criminal charge" means:

   (a) A felony;

   (b) A misdemeanor or offense, the penalty for which involves the possibility of confinement or a fine of more than five hundred dollars, or any other offense of a criminal nature which, in the opinion of the court, because of the complexity of the matter, or the youth, inexperience or mental capacity of the accused or the probable substantial impact of an adverse judgment or fine, or both, requires representation of the accused by an attorney;

   (c) An act which, except for the age of the person involved, would otherwise be a serious crime; and

   (d) Any other charge, including revocation of probation or parole, which involves the possibility of confinement in a jail or penal institution.

(a) Consistent with the provisions of this article, the council
is authorized to make loans and grants to and contracts with
public defender corporations and with individuals, partnerships,
firms, corporations and nonprofit organizations, for the pur-
pose of providing legal representation to eligible clients under
this article, and to make such other loans, grants and contracts
as are necessary to carry out the purposes and provisions of
this article.

(b) The council is authorized to accept, and employ or
dispose of in furtherance of the purposes of this article, any
money or property, real, personal or mixed, tangible or intan-
gible, received by gift, devise, bequest or otherwise.

(c) The council shall establish and the executive director or
his designate shall operate a criminal law research center as
provided for in section eight of this article, and through such
center shall undertake directly, or by grant or contract, to
serve as a clearinghouse for information, to provide training
and technical assistance relating to the delivery of legal repre-
sentation, and to engage in research, except that broad general
legal or policy research unrelated to direct representation of
eligible clients may not be undertaken by grant or contract.

(d) The council shall establish and the executive director
or his designate shall operate an accounting and auditing divi-
sion to require and monitor the compliance of public defender
corporations and their employees with the provisions of this
article. This division shall receive all plans and proposals for
loans, grants and contracts, and all requisitions for payment,
and shall review the same. All such plans and proposals shall
be approved or disapproved by the division on the basis of con-
formity to the provisions of this article, and a recommenda-
tion shall then be made to the executive director and the coun-
cil. After review by the division, the executive director shall
draw requisitions on the state auditor for payment to public
defender corporations and others, upon proper application
under the provisions of this article. The division shall prepare,
or cause to be prepared, reports concerning the evaluation, in-
spection or monitoring of public defender corporations and
other grantees, contractors or persons or entities receiving fi-
nancial assistance under this article, and shall further carry out
the council's responsibilities for records and reports as set forth in section nineteen of this article.

Upon the request of the executive director, the accounting and auditing division shall require each public defender corporation to annually report on nonbillable time of its professional employees, including time utilized in administration of the respective offices, so as to compare such time to similar time expended in nonpublic law offices for like activities. Results of such studies shall be included by the council in the annual report required in subsection (c), section nineteen of this article.

Notwithstanding any provision of law to the contrary, upon the request of the executive director, the accounting and auditing division shall require vouchers for work thereafter performed pursuant to the provisions of this article to be itemized to some lesser fraction of an hour other than to the nearest quarter-hour.

(e) The council shall establish and the executive director or his designate shall operate an appellate advocacy division for the purpose of prosecuting litigation on behalf of eligible clients in the supreme court of appeals. The executive director or a person designated by him shall be the director of the appellate advocacy division and shall represent eligible clients in only those instances where the trial attorney or other local counsel is unwilling or unable to serve as appellate counsel. The executive director is empowered to select and employ staff attorneys to perform the duties prescribed by this subsection, the number of such staff attorneys being fixed by the council. Within the appropriations to the council, the appellate division shall have its own budget as determined to be appropriate by the council or as provided by law and shall maintain vouchers and records for representation of eligible clients, for record purposes only.

§29-21-14a. Supplemental grants.

(a) A public defender corporation may make application to the council for a supplemental grant at any time during any fiscal year that it appears from actual experience that the grants earned or to be earned by the corporation pur-
suant to section fourteen of this article less all credits against loans will be insufficient to permit operation of the public defender corporation at the level deemed at the time of the application to be sufficient to enable the corporation to provide the services required of such corporation by law. The application for such supplemental grant shall clearly identify (1) any proposed change in the level of operations of the corporation from that projected in the current program application, (2) the costs or savings expected to result from such change, and (3) the change, if any, in the earning of grants expected to be caused by reason of such change. The supplemental grant application shall also identify any anticipated deficit expected by reason of any matter other than a change in the level of operations and identify and evaluate the causes therefor.

(b) Upon receipt by the council of any application for a supplemental grant, the executive director shall expeditiously evaluate the application and report his findings and recommendations to the council. He may require of the applicant corporation such reasonable additional information as he may deem appropriate. After consideration of the application, the council may:

(1) Refuse such application,

(2) Reduce the rate at which grants earned are credited to outstanding loans of the corporation, within the limits of available appropriations and the projected obligations of the council,

(3) Allow all or part of the supplemental grant, with or without reduction of credits to loans,

(4) Make such recommendations to the corporation for reduction of costs or increased earnings as he may deem appropriate.

The auditor shall honor the requisition of the executive director for such supplemental grants, from then current appropriations to the council, which shall be paid at such times and in such installments as the executive director shall specify.

(c) The council shall include in the annual report required in subsection (c), section nineteen of this article, a detailed re-
port of the supplemental grants made under this section and its
evaluation of the causes therefor.

d) Supplemental grants shall be accumulated from year to
year. In the event all equipment and operational loans are
paid by a corporation, grants earned by the corporation shall
be credited against such supplemental grants at a rate specified
by the executive director not in excess of the rate for credit
against loans. The unpaid balances due on supplemental grants
shall be listed in the annual report required by subsection (c),
section nineteen of this article, together with the executive di-
rector’s evaluation of the causes therefor.

Loans made under the provisions of this article are in the
nature of advancements, designed primarily to measure the ef-
ficiency, in economic terms, of publicly employed legal counsel.
Accordingly, such advancements constitute expenditures of
the council in the fiscal year transferred to the public defender
corporation. There is not and shall not be any obligation im-
posed upon such corporations or their directors, either official-
ly or individually, to actually repay such advancements. Such
advancements are to be reduced solely by the application of
credits on grants earned, as provided in this article.

§29-21-15. Limitation on use of funds; exceptions.

(a) Funds made available by the council to public defender
corporations under this article, either by loan, grant or con-
tract, shall be used to provide legal representation for persons
accused or convicted of serious criminal charges, except that
funds may be used for representation of indigent persons in the
following proceedings:

(1) Juvenile proceedings, including child neglect and abuse
proceedings;

(2) Mental hygiene proceedings;

(3) Habeas corpus actions brought for the purpose of chal-
lenging the validity of confinement arising out of proceedings
involving serious criminal charges, juvenile proceedings or
mental hygiene proceedings or for which legal representation is
otherwise afforded by this article;
(4) Prohibition actions brought for the purpose of challenging the excessive exercise of authority in a criminal, juvenile, or commitment proceeding for which legal representation is afforded by this article;

(5) Mandamus actions brought for the purpose of commanding action applicable to proceedings covered by this article;

(6) Extradition proceedings;

(7) Representation of persons who risk incrimination by testifying as material witnesses in criminal proceedings; and

(8) Proceedings under article seven, chapter forty-eight of this code in which the issue of paternity is to be determined.

(b) Funds received from another source other than the council for the provision of legal representation shall not be used by a public defender corporation for purposes prohibited by this article.

§29-21-17. Determination of maximum income levels; eligibility guidelines; use of form affidavit; inquiry by court; denial of services; repayment; limitation on remedies against affiant.

(a) The council shall establish, in consultation with the commissioner of the department of finance and administration, with the chief justice of the supreme court of appeals, and with the judges of the several circuits, maximum annual income levels for individuals eligible for legal representation under this article. The council shall consider such factors as family size, urban and rural differences, substantial cost-of-living variation and the cost of available private representation.

(b) In addition to the maximum annual income level for an area established under subsection (a) of this section, a circuit judge shall consider other relevant factors before determining whether a person is eligible to receive legal representation under the provisions of this article. Taking into account all pertinent factors and being satisfied that no undue hardship will be created, circuit judges may order that the total cost of providing representation under this article shall be
apportioned between the state and the eligible client. A person whose income exceeds the maximum annual income level for eligible clients may still receive all or part of the necessary legal representation if the court finds the person’s circumstances require that eligibility be allowed on the basis of one or more of the following factors:

1. Current income prospects, taking into account seasonal variations in income;
2. Liquid net assets and other assets which may reasonably be available for the employment of private counsel;
3. Fixed debts and obligations, including federal, state and local taxes and medical expenses;
4. Child care, transportation and other expenses necessary for employment;
5. Age or physical infirmity of resident family members;
6. The cost of obtaining private legal representation with respect to the particular matter in which assistance is sought; and
7. The consequences for the individual if legal assistance is denied.

(c) The council shall adopt a simple form affidavit to be completed by persons seeking legal representation for use by courts to determine eligibility. The information obtained shall be preserved by the court for audit by the council. If there is substantial reason to doubt the accuracy of information in the affidavit, the circuit court shall make appropriate inquiry upon the record to determine whether a person is an indigent person entitled to all or any of the legal assistance sought and may deny all or any part of such services to the affiant which the court finds to be within the financial resources of the affiant and may revoke any prior appointment of counsel which the court determines to have been improvidently made. No circuit court shall deny all or any part of the services requested by the affiant unless the court shall determine upon the record that such service or services, including counsel, are available to the person seeking them and are within the financial resources of such person. Upon the determination that appoint-
ment of counsel previously made should be revoked, or that
further provision of any other service should be denied, any
attorney previously appointed shall be entitled to compensa-
tion under the provisions of law applicable to such appoint-
ment for services already rendered and any other officer of
the court having previously rendered such services shall like-
wise be entitled to such compensation, if any, for services al-
ready rendered as law may provide.

(d) In the circumstances and manner set forth below, cir-
cuit judges may order repayment to the state of the costs of
representation provided under this article:

(1) In every case in which services are provided to an in-
digent person and an adverse judgment has been rendered
against such person, the court may require that person to
pay as costs the compensation of appointed counsel, the ex-
penes of the defense and such other fees and costs as autho-
rized by statute.

(2) The court shall not order a person to pay costs unless
the person is able to pay without undue hardship. In deter-
miming the amount and method of repayment of costs, the
court shall take account of the financial resources of the per-
son, the person's ability to pay and the nature of the burden
that payment of costs will impose. The fact that the court
initially determines, at the time of a case's conclusion, that
it is not proper to order the repayment of costs does not pre-
clude the court from subsequently ordering repayment should
the person's financial circumstances change.

(3) When a person is sentenced to repay costs, the court
may order payment to be made forthwith or within a specified
period of time or in specified installments. If a person is
sentenced to a term of imprisonment, an order for repayment
of costs is not enforceable during the period of imprisonment
unless the court expressly finds, at the time of sentencing,
that the person has sufficient assets to pay the amounts ordered
to be paid or finds there is a reasonable likelihood the person
will acquire the necessary assets in the foreseeable future.

(4) A person who has been sentenced to repay costs, and
who is not in contumacious default in the payment thereof,
may at any time petition the sentencing court for modification of the repayment order. If it appears to the satisfaction of the court that continued payment of the amount ordered will impose undue hardship on the person or the person's immediate family, the court may modify the method or amount of payment.

(5) When a person sentenced to pay costs is also placed on probation or imposition or execution of sentence is suspended, the court may make the repayment of costs a condition of probation or suspension of sentence.

(e) Circuit clerks shall keep a record of repaid counsel fees and defense expenses collected under this section's provisions and shall, quarterly, pay the moneys to the state auditor.

(f) The making of an affidavit subject to inquiry under this section shall not in any event give rise to criminal remedies against the affiant nor occasion any civil action against the affiant except for the recovery of costs as in any other case where costs may be recovered: Provided, That a person who has made an affidavit knowing the contents thereof to be false may be prosecuted for false swearing as provided by law.

§29-21-22. Restriction on activation of corporations.

Notwithstanding any other provision of law to the contrary, no public defender office created by section nine of this article, other than those corporations designated and activated by subsection (b) of said section nine, shall be activated so as to transact any business or exercise its power under this article before the first day of April, one thousand nine hundred eighty-three.

CHAPTER 164

(Com. Sub. for H. B. 1395—By Mr. Albright)

hundred thirty-one, as amended, relating to the public service commission; exempting from jurisdiction of the commission natural gas producers who provide natural gas service to not more than twenty-five residential customers; and providing for the commission to regulate such producers in certain cases.

Be it enacted by the Legislature of West Virginia:

That section one, article two, chapter twenty-four of the code of West Virginia, one thousand nine hundred thirty-one, as amended, be amended and reenacted to read as follows:

ARTICLE 2. POWERS AND DUTIES OF PUBLIC SERVICE COMMISSION.

§24-2-1. Jurisdiction of commission; waiver of jurisdiction.

1. The jurisdiction of the commission shall extend to all public utilities in this state, and shall include any utility engaged in any of the following public services:

2. Common carriage of passengers or goods, whether by air, railroad, street railroad, motor or otherwise, by express or otherwise, by land, water or air, whether wholly or partly by land, water or air; transportation of oil, gas or water by pipeline; transportation of coal and its derivatives and all mixtures and combinations thereof with other substances by pipeline; sleeping car or parlor car services; transmission of messages by telephone, telegraph or radio; generation and transmission of electrical energy by hydroelectric or other utilities for service to the public, whether directly or through a distributing utility; supplying water, gas or electricity, by municipalities or others; sewer systems servicing twenty-five or more persons or firms other than the owner of the sewer systems; any public service district created under the provisions of article thirteen-a, chapter sixteen of this code; toll bridges, wharves, ferries; and any other public service: Provided, That natural gas producers who provide natural gas service to not more than twenty-five residential customers are exempt from the jurisdiction of the commission with regard to the provision of such residential service: Provided, however, That
upon request of any of the customers of such natural gas producers, the commission may, upon good cause being shown, exercise such authority as the commission may deem appropriate over the operation, rates and charges of such producer and for such length of time as the commission may consider to be proper: Provided further, That the jurisdiction the commission may exercise over the rates and charges of municipally operated public utilities is limited to that authority granted the commission in section four-b of this article: And provided further, That the decision making authority granted to the commission in sections four and four-a of this article shall, in respect to an application filed by a public service district, be delegated to a single hearing examiner appointed from the commission staff, which hearing examiner shall be authorized to carry out all decision making duties assigned to the commission by said sections, and to issue orders having the full force and effect of orders of the commission.

The commission may, upon application, waive its jurisdiction and allow a utility operating in an adjoining state to provide service in West Virginia when:

(1) An area of West Virginia cannot be practicably and economically served by a utility licensed to operate within the state of West Virginia;

(2) Said area can be provided with utility service by a utility which operates in a state adjoining West Virginia;

(3) The utility operating in the adjoining state is regulated by a regulatory agency or commission of the adjoining state; and

(4) The number of customers to be served is not substantial.

The rates the out-of-state utility charges West Virginia customers shall be the same as the rate the utility is duly authorized to charge in the adjoining jurisdiction.

The commission, in the case of any such utility, may revoke its waiver of jurisdiction for good cause.
AN ACT to amend and reenact sections one and four, article six-a, chapter twenty-four-a of the code of West Virginia, one thousand nine hundred thirty-one, as amended, relating to motor carrier registration generally; registration of motor carriers with the public service commission of the motor vehicles used by such carriers and the identification of such vehicles; requiring the designation of a local agent for the purpose of service of process; changing the dates required for the application for and the issuance of stamps used for the registration and identification of such motor vehicles and the date for applying for the form used for such purposes; and changing the date which such identification and registration expire.

Be it enacted by the Legislature of West Virginia:

That sections one and four, article six-a, chapter twenty-four-a of the code of West Virginia, one thousand nine hundred thirty-one, as amended, be amended and reenacted to read as follows:

ARTICLE 6A. REGISTRATION OF INTERSTATE COMMERCE COMMISSION AUTHORITY AND IDENTIFICATION OF VEHICLES TO BE OPERATED THEREUNDER.

§24A-6A-1. Filing of interstate commerce commission authority required; exception.

§24A-6A-1. Filing of interstate commerce commission authority required; exception.

1 No motor carrier shall operate within the borders of this state under authority issued by the interstate commerce commission (hereinafter referred to as I.C.C.) unless and until it shall have filed with this commission a copy of such authority. However, a motor carrier shall only be required to file with this commission that portion of its authority permitting operation within the borders of this state. A motor carrier shall not be required to file with this commission an emergency
or temporary operating authority having a duration of thirty consecutive days or less if such carrier has: (a) Registered its other authority and identified its vehicles or driveaway operation under the provisions of this chapter, and (b) furnished to this commission a telegram or other written communication describing such emergency or temporary operating authority and stating that operation thereunder shall be in full accord with the requirements of this chapter. Each motor carrier shall file with the commission its designation of a local agent for service of process on the uniform application for registration of interstate operating authority as promulgated by the I.C.C.; except that such form need not be filed if the designation has been filed with the commission pursuant to 49 U.S.C., Section 10330(b).

(a) On or before the thirty-first day of December of each calendar year, but not earlier than the preceding first day of October, such motor carrier shall apply to the commission for the issuance of an identification stamp or stamps for the registration and identification of the vehicle or vehicles which it intends to operate, or driveaway operations which it intends to conduct, within the borders of this state during the ensuing year. Such motor carrier may thereafter file one or more supplemental applications for additional stamps if the need therefor arises or is anticipated.

(b) If the commission determines that the motor carrier has complied with all applicable provisions of this chapter, the commission shall issue to the motor carrier the number of identification stamps requested.

(c) An identification stamp issued under the provisions of this article shall be used for the purpose of registering and identifying a vehicle or driveaway operation as being operated or conducted by a motor carrier under authority issued by the I.C.C., and shall not be used for the purpose of distinguishing between the vehicles operated by the same motor carrier. A motor carrier receiving an identification stamp under the pro-
visions of this article shall not knowingly permit the use of
same by any other person or organization.

(d) The commission shall require the motor carrier to ac-
company such application with a list identifying each vehicle
(other than one to be used in driveaway operations) which it
intends to operate within the borders of this state during the
ensuing year. The commission shall further require the motor
carrier to keep such list current by filing with it an identifi-
cation of each vehicle acquired for operation within the
borders of this state and each vehicle whose operation is
discontinued therein after the filing of such list. The filing of
an identification of such newly acquired or discontinued ve-
hicle shall be made with the commission on or before the
sixteenth day after the motor carrier initiates or discontinues
operation of the vehicle within the borders of this state.

(e) On or before the thirty-first day of December of each
calendar year, but not earlier than the preceding first day of
October, such motor carrier shall apply to the national asso-
ciation of regulatory utility commissioners (hereinafter referred
to as NARUC) for the issuance of a sufficient supply of uni-
form identification cab cards for use in connection with the
registration and identification of the vehicle or vehicles which
it intends to operate, or driveaway operations which it intends
to conduct, within the borders of the state during the ensuing
year.

(f) A motor carrier receiving a cab card under the provi-
sions of this article shall not knowingly permit the use of
same by any other person or organization. Prior to operating a
vehicle, or conducting a driveaway operation, within the
borders of this state during the ensuing year, the motor carrier
shall place one of such identification stamps on the back of a
cab card in the square bearing the name of this state in such a
manner that the same cannot be removed without defacing it.
The motor carrier shall thereupon duly complete and execute
the form or certificate printed on the front of the cab card so
as to identify itself and such vehicle or driveaway operation.

(g) The registration and identification of a vehicle or drive-
away operation under the provisions of this article and the
AN ACT to amend and reenact section three, article thirteen-a, chapter sixteen of the code of West Virginia, one thousand nine hundred thirty-one, as amended, relating to public service districts and allowing each city, incorporated town or other municipal corporation having a population over three thousand to appoint one person to the public service board of its district.

Be it enacted by the Legislature of West Virginia:

That section three, article thirteen-a, chapter sixteen of the code of West Virginia, one thousand nine hundred thirty-one, as amended, be amended and reenacted to read as follows:

ARTICLE 13A. PUBLIC SERVICE DISTRICTS FOR WATER, SEWERAGE AND GAS SERVICES.

§16-13A-3. District to be a public corporation and political subdivision; powers thereof; public service boards.

1 From and after the date of the adoption of the order creating any public service district, it shall thereafter be a public corporation and political subdivision of the state, but without any power to levy or collect ad valorem taxes. Each district may acquire, own and hold property, both real and personal, in its corporate name, and may sue, may be sued, may adopt an official seal and may enter into contracts necessary or incidental to its purposes, including contracts with any city, incorporated town or other municipal corporation located within or
without its boundaries for furnishing wholesale supply of
water for the distribution system of the city, town or
other municipal corporation, and contract for the opera-
tion, maintenance, servicing, repair and extension of any
properties owned by it or for the operation and im-
provement or extension by the district of all or any part
of the existing municipally owned public service prop-
erties of any city, incorporated town or other municipal
corporation included within the district: Provided, That
no contract shall extend beyond a maximum of forty
years, but provisions may be included therein for a re-
newal or successive renewals thereof and shall conform
to and comply with the rights of the holders of any out-
standing bonds issued by the municipalities for the public
service properties.

The powers of each public service district shall be
vested in and exercised by a public service board con-
sisting of not less than three members, who shall be
persons residing within the district who have success-
fully completed a training program to be established and
administered by the public service commission in con-
junction with the department of natural resources and
the department of health. The members shall be appointed
in the following manner:

Each city, incorporated town or other municipal cor-
poration having a population of more than three thousand
but less than eighteen thousand shall be entitled to ap-
point one member of the board, and each such city, incor-
porated town or other municipal corporation having
a population in excess of eighteen thousand shall be
entitled to appoint one additional member of the board
for each additional eighteen thousand population. The
members of the board representing such cities, incor-
porated towns or other municipal corporations shall be
residents thereof and shall be appointed by a resolution
of the governing bodies thereof and upon the filing of
a certified copy or copies of the resolution or resolutions
in the office of the clerk of the county commission which
entered the order creating the district, the persons so
appointed shall thereby become members of the board
without any further act or proceedings. If the number of members of the board so appointed by the governing bodies of cities, incorporated towns or other municipal corporations included in the district shall equal or exceed three, then no further members shall be appointed to the board and the members shall be and constitute the board of the district.

Be it enacted by the Legislature of West Virginia:

That chapter seventeen of the code of West Virginia, one thousand nine hundred thirty-one, as amended, be amended by adding thereto a new article, designated article seventeen-a, to read as follows:

ARTICLE 17A. CONSTRUCTION FINANCING FOR SURFACE TRANSPORTATION IMPROVEMENTS.

§17-17A-1. Purpose and scope.
§17-17A-2. Definitions.
§17-17A-3. Authorization of notes.
§17-17A-4. Establishment of terms and sale of notes; financial advisor.
§17-17A-6. Rights of holders; limitation on liability of state.
§17-17A-7. Legality for investments; tax exemption.
§17-17A-8. Attorney general or his duly appointed legal representative to serve as note counsel; legal expenses a payable cost.

§17-17A-1. Purpose and scope.

This article is intended to facilitate the acquisition of right-of-way for and the construction of improvements to interstate routes sixty-four and seventy-seven to be funded wholly or in part by amounts to be made available pursuant to the Federal Surface Transportation Assistance Act of one thousand nine hundred eighty-two, or from amounts specifically appropriated or dedicated therefor by the state, or from amounts which may properly be expended from the state road fund under article three, chapter seventeen of this code. This article authorizes notes, in an aggregate amount of outstanding notes not to exceed sixty-four million dollars, to be issued to provide construction financing for such improvements in anticipation of reimbursement from such sources, but such notes will be special obligations of the state only,
and will not be general obligations of the state or secured by any claim on the general credit or taxing power of the state.

§17-17A-2. Definitions.

As used in this article, the following words and terms shall have the following meaning:

"Commissioner" means the West Virginia commissioner of highways.

"Cost," when used with respect to any surface transportation improvement, means any and all costs of acquiring, constructing, reconstructing, replacing, completing or repairing any surface transportation improvement, including, without limiting the generality of the foregoing, land, property, rights, franchises, materials, labor and services, contractors' fees, planning and engineering expenses, financing costs, legal fees, trustees' or paying agents' fees and interest on obligations issued under this article.

"Note" means any note or other obligation issued pursuant to this article.

"Outstanding note" means a note which has been issued pursuant to this article and has not been repaid, but does not include notes which are to be paid from designated moneys or securities which are irrevocably held in trust solely for such purpose.

"Surface transportation improvement" means interstate completion projects on interstate route sixty-four or on interstate route seventy-seven, as to which all or a portion of the cost thereof is to be reimbursed to the state under federal surface transportation legislation.

§17-17A-3. Authorization of notes.

The commissioner is hereby authorized to pay the cost of any surface transportation improvement through the issuance of special obligation notes. No such notes may be issued, however, unless they are part of an issue described in a written declaration executed by the gov-
error and the commissioner and filed in the office of the
secretary of state.

Except in the case of renewal notes, the proceeds of
such notes shall be used solely for the payment of the cost
of the surface transportation improvements which they
were issued to finance, which shall be verified by the
commissioner and under such further restrictions, if any,
as may be provided. If the proceeds of such notes, by
error or calculation or otherwise, shall be less than the
cost of the related surface transportation improvements,
additional notes may in like manner be issued to provide
the amount of such deficit, and unless otherwise provided
in the trust agreement hereinafter mentioned, shall be
deemed to be of the same issue and shall be entitled to
payment from the same sources, without preference or
priority of the notes first issued for the same related
surface transportation improvements. If the proceeds of
notes issued for any related surface transportation im-
provements shall exceed the cost thereof, the surplus
shall be applied to the payment, purchase or redemption
of such notes.

Such notes shall be executed by the governor and the
commissioner, under the great seal of the state, attested
by the facsimile signature of the secretary of state, and
the coupons, if any, attached thereto shall be authenti-
cated by the facsimile signature of the commissioner. The
governor and the commissioner may execute such notes
by their facsimile signatures, but, unless provision has
been made for the authentication thereof by a trustee
determined to be responsible by the commissioner, each
note shall bear at least one manual signature.

Prior to the preparation of definitive notes, the gover-
nor and the commissioner may under like restrictions
issue temporary notes with or without coupons, exchange-
able for definitive notes upon the issuance of the latter.
Such notes may be issued without any other proceedings,
or the happening of any other conditions or things than
those proceedings, conditions and things which are speci-
fied and required by this article or by the constitution of
the state.
§17-17A-4. Establishment of terms and sale of notes; financial advisor.

1 The description contained in any declaration with respect to an issue of notes hereunder shall specify the particular surface transportation improvements to be financed through the issuance of the notes, the estimate of the cost of such improvements, the aggregate amount of outstanding notes which may at any point in time constitute a part of such issue, the time or times and manner of sale of such notes, and the particular terms of such notes, or the manner in which such terms will be determined, including the date or dates, time or times of issuance, time or times and amount or amounts of maturity or maturities, specified or variable rate or rates of interest, the form of such notes and provisions for registration or exchange, if applicable, the method and manner of payment of such notes, the provisions, if any, for redemption or renewal of such notes, and specifying such other similar matters as the commissioner may determine to be necessary and appropriate in connection with the sale and issuance of the notes.

2 The notes of an issue described in any such declaration shall be sold in such manner, at such price or prices and on such terms and conditions as no less than three members of the five-member group, comprised of the treasurer, the auditor, the commissioner of finance and administration, the tax commissioner and the commissioner, determines to be in the best interest of the state, taking into account the financial responsibility of the purchaser and the terms and conditions of purchase and especially the availability of the proceeds of the notes when needed to pay the cost of the related surface transportation improvements. Such five-member group shall serve as financial advisor and upon the determination of no less than three members, as aforesaid, may retain professional financial assistance for such purpose.

1 In connection with any issue of notes hereunder, the commissioner may pledge or assign, as security for the
payment of the principal of or interest on such notes, any of the following:

(a) Any amounts to be received from the United States of America, or any agency or instrumentality thereof, as reimbursements of the costs incurred in connection with the surface transportation improvements to be financed by such notes, together with the rights and interests of the state with respect to such reimbursement;

(b) Any amounts in the state road fund which may properly be applied to the reimbursements of any such costs pursuant to article three of this chapter seventeen;

(c) The proceeds of any such notes pending their use or of notes which may be issued to renew or refund such notes;

(d) The proceeds of any insurance or letters of credit or similar arrangements undertaken in connection with the acquisition, construction or financing of such surface transportation improvements;

(e) Any other amounts specifically designated for the purpose of paying any such costs, but only to the extent appropriated by the Legislature and paid from general revenues prior to such pledge or dedicated for such purpose by the Legislature from proprietary revenues of the state.

Any such pledge or assignment shall be valid and binding from the time it is made, and the lien of such pledge or assignment shall be enforceable and need not be perfected by delivery or any filing or further act. Such lien shall be valid against all parties having claims of any kind in tort, contract or otherwise, irrespective of whether such parties have notice of the lien of such pledge or assignment.

The commissioner may enter into an agreement or agreements with any trust company or with any bank having the power of a trust company, either within or outside of the state, as trustee for the holders of notes issued hereunder, setting forth therein such duties of the
state and of the commissioner in respect of the acquisition
and construction of surface transportation improvements,
the conservation and application of all moneys, the in-
surance of moneys on hand or on deposit, and the rights
and remedies of the trustee and the holders of the notes,
as may be agreed upon with the original purchasers of
such notes, and including therein provisions restricting
the individual right of action of holders as is customary
in such trust agreements to protect and enforce the rights
and remedies of the trustee and the holders. All expenses
incurred in carrying out such agreement may be treated
as a part of the cost of construction of the surface trans-
portation improvements affected by the agreement.

§17-17A-6. Rights of holders; limitation on liability of state.

1 The state of West Virginia does hereby pledge to and
agree with the holders of any notes issued under this
article that the state will not limit or alter the rights
hereby vested in the commissioner to fulfill the terms
of any agreements made with the holders thereof, or in
any way impair the rights and remedies of such holders
until such notes, together with the interest thereon, with
interest on any unpaid installments of interest, and
all costs and expenses in connection with any action or
proceeding by or on behalf of such holders, are fully met
and discharged. The commissioner is hereby authorized
to include this pledge and agreement of the state in any
agreement with the holders of such notes.

14 The holder of any note, or the trustee therefor, shall
have the right to bring suit for the payment of such note
or to compel the enforcement of any agreement securing
such note to the extent therein provided. Such notes
shall be special obligations of the state, payable solely
from the sources herein provided, and shall not be a
general obligation debt or liability of the state or con-
stitute any claim on its general revenues or taxing power.
Neither the commissioner nor any other officer of the
state executing notes or other agreements hereunder shall
have any personal liability thereon or be subject to per-
sonal accountability therefor.
§17-17A-7. Legality for investment; tax exemption.

1 The notes are hereby made securities in which all insurance companies and associations, and other persons carrying on an insurance business, all banks, bankers, trust companies, building and loan associations, savings and loan associations, investment companies and other persons carrying on a banking business, and other persons, except administrators, guardians, executors, trustees and fiduciaries, who are now or who may hereafter be authorized to invest in bonds or other obligations of the state, may properly and legally invest funds including capital in their control or belonging to them.

12 The notes and the income therefrom shall at all times be exempt from taxation, except for death and gift taxes, taxes on transfers, sales taxes, real property taxes and business and occupation taxes.

§17-17A-8. Attorney general or his duly appointed legal representative to serve as note counsel; legal expenses a payable cost.

1 The attorney general, or his duly appointed legal representative, shall serve as note counsel and shall be responsible for the issuance of a final approving opinion regarding the legality of the sale of such notes. Legal expenses, approved by the attorney general, incurred in the execution of this act, shall be a payable cost thereof.

(a) The purpose of this article is to transfer jurisdiction over the management of solid waste under section nine, article one, chapter sixteen of the code from the department of health to the department of natural resources and to establish a comprehensive program of controlling solid waste disposal.

(b) The Legislature finds that uncontrolled, inadequately controlled and improper collection, transportation, processing and disposal of solid waste (1) is...
a public nuisance and a clear and present danger to people; (2) provides harborages and breeding places for disease-carrying, injurious insects, rodents and other pests harmful to the public health, safety and welfare; (3) constitutes a danger to livestock and domestic animals; (4) decreases the value of private and public property, causes pollution, blight and deterioration of the natural beauty and resources of the state and has adverse economic and social effects on the state and its citizens; (5) results in the squandering of valuable nonrenewable and nonrepleniishable resources contained in solid waste; (6) that resource recovery and recycling reduces the need for landfills and extends their life; and that (7) proper disposal, resource recovery or recycling of solid waste is for the general welfare of the citizens of this state.

§20-5F-3. Transfer of authority.

The Legislature hereby transfers from the department of health to the department of natural resources the duties, responsibilities and authority of the state director of health under section nine, article one, chapter sixteen of the code as to the permitting and regulating of solid wastes and hereby designates the chief to be the authorized representative denoted in that section for this purpose: Provided, That the state director of health shall retain authority under chapter sixteen of the code to enforce the public health laws over solid waste disposal which presents an imminent and substantial endangerment to the public health.

§20-5F-4. Powers and duties; rules and rule making.

In addition to all other powers, duties, responsibilities and authority granted and assigned to the director and chief in the code and elsewhere described by law, they are hereby empowered as follows:
(a) The director may adopt rules and regulations in compliance with the West Virginia administrative procedures act to carry out the provisions of this article including modifying any existing rules and regulations and establishing permit application fees up to an amount sufficient to defray the costs of permit review. In promulgating rules and regulations the director may consider and establish requirements based on the quantity of solid waste to be handled, including different requirements for solid waste facilities or approved solid waste facilities which handle more than one hundred tons of solid waste per day, the environmental impact of solid waste disposal, the nature, origin or characteristics of the solid waste, public sentiment, the financial capability of the applicant, soil and geological considerations and other natural resource considerations. All existing rules and regulations of the department of health relating to solid waste disposal shall remain valid and be enforceable by the department of natural resources on the effective date of this article until changed or modified by the director, in compliance with chapter twenty-nine-a of the code.

(b) The chief, after public notice and opportunity for public hearing, may issue a permit with reasonable terms and conditions for installation, establishment, modification, operation or abandonment of a solid waste facility: Provided, That the director may deny the issuance of a permit on the basis of information in the application or from other sources including public comment, if the solid waste facility may cause adverse impacts on the natural resources and environmental concerns under the director's purview in chapter twenty of the code, destruction of aesthetic values, destruction or endangerment of the property of others or is significantly adverse to the public sentiment of the area where the solid waste facility is, or will be, located. The director may also prohibit the installation or establishment of specific types and sizes of solid waste facilities in a specified geographical area of the state based on the above cited factors and may delete such geographical area from consideration for that type and size solid waste facility.

(c) The director, chief or any authorized representative, employee or agent of the department, may at reasonable
times, enter onto any approved solid waste facility, open
dump, solid waste facility or property where solid waste is
present for the purpose of making an inspection or
investigation of solid waste disposal.

(d) The director, chief or any authorized representative,
employee or agent of the department may, at reasonable
times, enter any approved solid waste facility, open dump,
solid waste facility or property where solid waste is present
and take samples of the waste, soils, air or water or may,
upon issuance of an order, require any person to take and
analyze samples of such waste, soil, air or water.

(e) The director or chief may also perform or require a
person, by order, to perform any and all acts necessary to
carry out the provisions of this article or the rules
promulgated thereunder.

(f) The chief or his authorized representative, employee
or agent shall make periodic inspections at every approved
solid waste facility to effectively implement and enforce the
requirements of this article or its rules and regulations.

§20-5F-5. Prohibitions; permits required.

(a) Open dumps are prohibited and it shall be unlawful
for any person to create, contribute to or operate an open
dump or for any landowner to allow an open dump to exist
on his property unless that open dump is under a
compliance schedule approved by the chief. Such
compliance schedule shall contain an enforceable sequence
of actions leading to compliance and shall not exceed three
years. No portion of this subsection shall be construed to
prevent a person from disposing of solid waste from his own
household upon his own private, rented or leased property
as long as such disposal does not create a public nuisance,
hazard to health, violate the terms of section fifteen, article
dfive, chapter twenty of the code or other provisions of the
code.

(b) It shall be unlawful for any person, unless he holds a
valid permit from the division to install, establish,
construct, modify, operate or abandon any solid waste
facility. All approved solid waste facilities shall be
installed, established, constructed, modified, operated or
abandoned in accordance with this article, plans,
specifications, orders, instructions and rules in effect.
(c) Any permit issued under this article shall be issued in compliance with the requirements of this article, its rules and article five-a and the rules promulgated thereunder, so that only a single permit shall be required of a solid waste facility under these two articles. Each permit issued under this article shall have a fixed term not to exceed five years: Provided, That the chief may administratively extend a permit beyond its five year term if the approved solid waste facility is in compliance with this article, its rules and article five-a of this chapter and the rules promulgated thereunder: Provided, however, That such administrative extension may not be for more than one year. Upon expiration of a permit, a new permit may be issued upon application, public notice and opportunity for public hearing, if the approved solid waste facility will meet all applicable rules, standards, limitations and other requirements of this article and article five-a.

(d) All existing permits of the department of health for solid waste facilities under section nine, article one, chapter sixteen of the code shall continue in full force and effect until a permit is issued for that approved solid waste facility under this article: Provided, That all such existing permits of the department of health shall expire within five years of the effective date of this article. Within four years of the effective date of this article, all persons holding such department of health permits shall apply to the chief for a permit under this article: Provided, however, That the chief may require persons holding such existing health department permits to reapply under this section prior to four years from the effective date of this article if persistent violations of this article, any permit term or condition, orders or rules promulgated under this article, exists at that facility.

§20-5F-6. Orders, inspections and enforcement; civil and criminal penalties.

(a) If the director or chief, upon inspection, investigation or through other means observes, discovers or learns of a violation of this article, its rules, article five-a of this chapter or its rules, or any permit or order issued under this article, he may issue an order requiring compliance within a specified time which may exceed thirty days or suspending or revoking the permit.
(b) Any person who willfully or negligently violates any rules or regulations promulgated under this article, permit terms and conditions or orders of the director or chief shall be subject to the same criminal penalties as set forth in section nineteen, article five-a, chapter twenty of the code.

(c) Any person who violates this article, any rules promulgated thereunder, permit term or condition or order of the chief or director shall be subject to a civil penalty not to exceed ten thousand dollars per day of such violation. The director or chief may institute civil actions to obtain injunctive or other relief either in the circuit court wherein the violation occurs or in the circuit court of Kanawha County.

§20-5F-7. Appeal and review procedures.

(a) Any person having an interest which is or may be adversely affected, or who is aggrieved by an order of the director or chief, or by the issuance or denial of a permit or by the permit’s terms or conditions, may appeal to the water resources board in the same manner as appeals are taken under the water pollution control act, section fifteen, article five-a, chapter twenty of the code.

(b) Any party, the director or the chief adversely affected by an order made and entered by the water resources board may obtain judicial review thereof in the same manner as provided for under section sixteen, article five-a of the water pollution control act.

This article may be known and cited as the “solid waste management act.”

§11-11-1. When imposed.

1 A tax, payable into the treasury of the state, shall be
2 imposed upon the transfer, in trust, or otherwise, of any
3 property, or interest therein, real, personal or mixed, if
4 such transfer be:

5 (a) By will or by laws of this state regulating descent
6 and distribution from any person who is a resident of the
7 state at the time of his death and who shall die seized or
8 possessed of property.

9 (b) By will or by laws regulating descent and distribu-
10 tion of property within the state, or within its taxing jurisdic-
tion, and the decedent was a nonresident of the state at the
time of his death.

(c) By a resident, or by a nonresident owning taxable
property within the state or within its jurisdiction, by deed,
grant, sale or gifts, made in contemplation of the death of
the grantor, vendor or donor, or intended to take effect
in possession or enjoyment at or after such death, or where
any change in the use or enjoyment of property included
in such transfer, or the income thereof, may occur in the
lifetime of the grantor, vendor or donor, by reason of any
power reserved to, or conferred upon, the grantor, vendor
or donor, either solely or in conjunction with any person
or persons, to alter, or to amend, or to revoke any trans­
fer, or any portion thereof, as to the portion remaining at
the time of death of the grantor, vendor or donor, thus
subject to alteration, amendment or revocation. If any one
of the transfers mentioned in this subdivision is made for
valuable consideration, the portion of the transfer for which
the grantor, or vendor receives equivalent monetary value is
not taxable, but the remaining portion thereof is taxable.
Every transfer by deed, grant, sale or gift, made within three
years prior to the death of the grantor, vendor or donor,
without adequate valuable consideration, shall be presumed
to have been made in the contemplation of death within the
meaning of this subdivision.

(d) By any person who shall transfer any property which
he owns, or shall cause any property to which he is absolutely
entitled to be transferred to or vested in himself and any
other person jointly, with the right of survivorship, in whole or
in part, in such other person, a transfer shall be deemed to
occur and to be taxable under the provisions of this article
upon the vesting of such title in the survivor: Provided,
That this subdivision shall not apply to bank accounts and to
shares or savings accounts in federal savings and loan as­
associations organized under the federal homeowners' loan act
of one thousand nine hundred thirty-three, as amended,
or in building and loan associations organized under article
six, chapter thirty-one of this code, payable to the class
designated in clause (a), section two of this article in a
total amount of twenty-five hundred dollars or less: Provided, however, That in the case of a surviving spouse, not more than fifty percent of the value of any transfer mentioned in this subdivision (d) shall be included and taxed in any such decedent's estate.

(e) To any person deriving an estate in property coupled with a general or limited power of appointment:

(1) General power.—Any transfer involving the creation of a general power of appointment shall be treated as transferring to the donee of the power a fee or equivalent interest in the property which is subject to the power.

(2) Limited power.—Any transfer involving the creation of any other power of appointment shall be treated as transferring to the donee of the power a life estate or term of years in the property which is subject to the power and as transferring remainder or reversionary interests therein to those who would take if the power is not exercised. The portion of tax which is imposed on any person entitled in remainder or reversion shall be payable in the same manner, and within the same time, as if such person's interest had vested in possession. Unless otherwise provided by the decedent, the tax on such temporary interests and on such remainder or reversionary interests shall be payable out of the corpus of the property which is subject to the power.

(f) By the exercise or nonexercise of a general power of appointment:

(1) Power that remains unexercised at time of death.—If at the time of his death a decedent has a general power of appointment with respect to property, the exercise of that power is subject to tax as a transfer of the property from the decedent to the person to whom the property is appointed. The failure of the decedent to exercise a general power of appointment is subject to tax as a transfer of the property from the decedent to the person to whom the property passes by virtue of the nonexercise of the power. For purposes of this paragraph the power of appointment shall be considered to exist on the date of the decedent's death even though the exercise of that power is subject to a precedent
giving of notice or even though the exercise of the power takes
effect only on the expiration of a stated period after its exer-
cise, whether or not on or before the date of the decedent's
death, notice has been given or the power has been exercised.

(2) **Exercise or release by decedent of power during his
lifetime.**—The exercise or release by the decedent during his
lifetime of a general power of appointment is a transfer subject
to tax if the exercise or release is of such a nature that if it
were a transfer of property owned by the decedent, such trans-
fer would be subject to tax under this article. A disclaimer
or renunciation of such a power of appointment shall not be
deemed a release of such power.

(3) **Definition.**—For purposes of subdivisions (e) and
(f), the term "general power of appointment" and the term
"lapse of power" shall have the same meaning as when used in
section 2041 of the Internal Revenue Code.

(g) By the terms of any annuity or investment contracts,
or similar type or form of contract or policy, and shall be
on the amount payable under any such contract or policy, on
account of a death, to named beneficiaries, to his estate or
in trust for the benefit of any individual or individuals,
including (1) all such policies or contracts hereafter issued,
and (2) all such policies or contracts now in force: Pro-
vided, That there shall be exempt from the provisions of
this subdivision the proceeds of such contracts or policies:

been assigned by the decedent for a valuable consideration
either in form absolute or as collateral security for the
payment of a bona fide indebtedness of the decedent, to the
extent that the proceeds thereof shall be necessary to pay
and satisfy indebtedness: *Provided, however,* That no annuity
settlement or arrangement accepted in lieu of cash settlement
of a life insurance policy, whereby the proceeds of such
policy are payable in installments, shall be subject to taxa-
tion under the provisions of this article, nor shall the provisions of this article apply to the proceeds of any policy of life or accident insurance payable to a named beneficiary or beneficiaries whether directly or in trust or otherwise.

Where annuity or investment contracts or policies are left by a decedent in such manner that the proceeds thereof cannot be subjected to the payment of his debts, and where the proceeds of such annuity or investment contracts are received by beneficiaries thereof, the fact that the decedent may have been insolvent and that a portion of his debts may remain unpaid shall not affect the liability for inheritance tax on such proceeds.

Notwithstanding anything contained herein to the contrary, there shall be exempt from tax hereunder the proceeds of an annuity or other payment, whether attributable to employer contribution, employee contribution or otherwise, receivable by any beneficiary under:

(1) An employees’ trust (or under a contract purchased by an employees’ trust) forming part of a pension, stock bonus, or profit-sharing plan, including self-employed plans, which, at the time of the decedent’s separation from employment (whether by death or otherwise), or at the time of termination of the plan if earlier, met the requirements of section 401(a) of the Internal Revenue Code;

(3) A retirement annuity contract purchased for an employee by an employer which is an organization referred to in section 170(b) (1) (A) (ii) or (vi) of the Internal Revenue Code, or which is a religious organization (other than a trust) and which is exempt from tax under section 501(a) of the Internal Revenue Code;

(4) Annuity under the retired serviceman’s family pro-
163 section plan or survivor benefit plan pursuant to chapter 73
164 of Title 10 of the United States Code;
165  
166 (5) A retirement savings plan for which a deduction has
167 been allowed under section 218 of the Internal Revenue Code;
168  
169 (6) A pension or relief fund for policemen and firemen
170 established pursuant to the provisions of section sixteen,
171 article twenty-two, chapter eight of this code; and the effect
172 of this exemption from taxation with respect to surviving
173 spouses and dependent children of deceased policemen and
174 firemen shall be retroactive to the first day of January, one
175 thousand nine hundred eighty-one.
176  
177 All references to the Internal Revenue Code shall be to
178 the Internal Revenue Code of 1954, as amended, as in effect
179 on the first day of January, one thousand nine hundred
180 seventy-six. All references to the United States Code shall
181 be to the United States Code in effect on the first day of Janu-

§ 11-13-3. Exemptions; transitional increase of annual exemption and periods thereof.

§ 11-13-3b. Definitions; reduction allowed in tax due; how computed.

§ 11-13-2. **Imposition of privilege tax; transitional reduction, across-the-board, of tax during five-year period July one, one thousand nine hundred eighty-five through June thirtieth, one thousand nine hundred ninety.**

There is hereby levied and shall be collected annual privilege taxes against the persons, on account of the business and other activities, and in the amounts to be determined by the application of rates against values or gross income as set forth in sections two-a to two-m, inclusive, of this article and the application of the surtax rate against gross income as set forth in section two-k.

During the five-year period, beginning on the first day of July, one thousand nine hundred eighty-five and through the thirtieth day of June, one thousand nine hundred ninety, the taxes imposed by this section and at the rates set forth in sections two-a through two-m, and the surtax imposed in section two-k, shall be reduced by five percent for each year thereof through reduction of the rates applicable and in effect on the first day of July, one thousand nine hundred eighty-five: Provided, That there shall be no such reduction of the tax imposed in section two-l for the use and benefit of counties and municipalities.

If any person liable for any tax under section two-a, two-l or two-m shall ship or transport his products or any part thereof out of the state without making sale of such products, the value of the products in the condition or form in which they exist immediately before transportation out
of the state shall be the basis for the assessment of the tax
imposed in said section, except in those instances in which
another measure of the tax is expressly provided. The tax
commissioner shall prescribe equitable and uniform rules
for ascertaining such value.

In determining value, however, as regards sales from one
to another of affiliated companies or persons, or under
other circumstances where the relation between the buyer
and seller is such that the gross proceeds from the sale are
not indicative of the true value of the subject matter of the
sale, the tax commissioner shall prescribe uniform and
equitable rules for determining the value upon which such
privilege tax shall be levied, corresponding as nearly as
possible to the gross proceeds from the sale of similar
products of like quality or character where no common
interest exists between the buyer and seller but the
circumstances and conditions are otherwise similar.

Gross income included in the measure of the tax under
sections two-a, two-b, two-l and two-m of this article shall
neither be added nor deducted in computing the tax levied
under the other sections of this article.

A person exercising any privilege taxable under section
two-a, two-b, two-l or two-m of this article and engaging in
the business of selling his natural resources, manufactured
products or electricity at retail in this state shall be required
to make returns of the gross proceeds of such retail sales and
pay the tax imposed in section two-c of this article for the
privilege of engaging in the business of selling such natural
resources, manufactured products or electricity at retail in
this state. But any person exercising any privilege taxable
under section two-a, two-b, two-l or two-m of this article
and engaging in the business of selling his natural
resources, manufactured products or electricity to
producers of natural resources, manufacturers,
wholesalers, jobbers, retailers or commercial consumers for
use or consumption in the purchaser's business shall not be
required to pay the tax imposed in section two-c of this
article.

Persons exercising any privilege taxable under section
two-b or two-m of this article shall not be required to pay
the tax imposed in section two-c of this article for the
privilege of selling their manufactured products or
electricity for delivery outside of this state, but the gross
income derived from the sale of such products or electricity
outside of this state shall be included in determining the
measure of the tax imposed on such person in section two-b
or two-m.

A person exercising privileges taxable under the other
sections of this article, producing coal, oil, natural gas,
minerals, timber or other natural resource products, the
production of which is taxable under sections two-a and
two-l, and using or consuming the same in his business or
transferring or delivering the same as any royalty payment,
in kind, or the like, shall be deemed to be engaged in the
business of mining and producing coal, oil, natural gas,
minerals, timber or other natural resource products for sale,
profit or commercial use, and shall be required to make
returns on account of the production of the business
showing the gross proceeds or equivalent in accordance
with uniform and equitable rules for determining the value
upon which such privilege tax shall be levied,
corresponding as nearly as possible to the gross proceeds
from the sale of similar products of like quality or character
by other taxpayers, which rules the tax commissioner shall
prescribe.

§11-13-2k. Banking and other financial business; rate of tax;
additional, temporary surtax imposed and
period thereof; legislative findings.

Upon every person engaging or continuing within this
state in the business of banking or financial business, from
and after the first day of April, one thousand nine hundred
seventy-one, the tax shall be equal to one and fifteen one-
hundredths percent of the gross income received from
interest, premiums, discounts, dividends, service fees or
charges, commissions, fines, rents from real or tangible
personal property, however denominated, royalties,
charges for bookkeeping or data processing, receipts from
check sales, charges or fees, and receipts from the sale of
tangible personal property: Provided, That gross income
shall not include (a) interest received on the obligations of
the United States, its agencies and instrumentalities, (b)
interest received on the obligations of this state, or any
political subdivision of this state, or (c) interest received on investments or loans primarily secured by first mortgages or deeds of trust on residential property occupied by nontransients: Provided, however, That all interest derived on activities exempt under (c) above, shall be reported, as to amounts, on the return of a person taxable under the provisions of this section.

In addition to the primary tax hereinabove, there is hereby imposed an additional, temporary surtax of fifteen percent of such primary tax liability and with such primary tax and additional tax, the temporary surtax, together, to constitute the tax imposed by this section. Such additional, temporary surtax is imposed for the period on and after the first day of June, one thousand nine hundred eighty-three, and to expire, be nullified and of no further force or effect whatsoever after the thirtieth day of June, one thousand nine hundred eighty-five.

Persons taxed pursuant to the provisions of this section shall not be taxed under sections two-a to two-j, inclusive, or section two-l or two-m of this article.

The Legislature hereby finds and declares that it is the intent of the Legislature to subject national banking associations and other financial organizations to the tax imposed by this article, in accordance with the authorization contained in section five thousand two hundred nineteen of the Revised Statutes of the United States as amended by Public Law 91-156 enacted the twenty-fourth day of December, one thousand nine hundred sixty-nine.

§11-13-3. Exemptions; transitional increase of annual exemption and periods thereof.

For any tax imposed under the provisions of this article with respect to any period prior to the first day of July, one thousand nine hundred eighty-three, there shall be an exemption in every case of fifty dollars in amount of tax computed under the provisions of this article. A person exercising a privilege taxable hereunder for a fractional part of a tax year shall be entitled to an exemption of the sum bearing the proportion to fifty dollars that the period of time the privilege is exercised bears to a whole year. Only
For any tax imposed under the provisions of this article with respect to (a) the period beginning on and after the first day of July, one thousand nine hundred eighty-three, and through the thirtieth day of June, one thousand nine hundred eighty-four, there shall be an exemption in every case of twenty-five dollars per month; (b) the period beginning on and after the first day of July, one thousand nine hundred eighty-four, and through the thirtieth day of June, one thousand nine hundred eighty-five, there shall be an exemption in every case of thirty-three dollars and thirty-three cents per month; and (c) the period beginning on or after the first day of July, one thousand nine hundred eighty-five, there shall be an exemption in every case of forty-one dollars and sixty-seven cents per month in amount of tax computed under the provisions of this article. Only one exemption shall be allowed to any one person, whether he exercises one or more privileges taxable hereunder.

The provisions of this article shall not apply to: (a) Insurance companies which pay the state of West Virginia a tax upon premiums: Provided, That said exemption shall not extend to that part of the gross income of insurance companies which is received for the use of real property, other than property in which any such company maintains its office or offices, in this state, whether such income be in the form of rentals or royalties; (b) nonprofit cemetery companies organized and operated for the exclusive benefit of their members; (c) fraternal societies, organizations and associations organized and operated for the exclusive benefit of their members and not for profit: Provided, however, That said exemption shall not extend to that part of the gross income arising from the sale of alcoholic liquor, food and related services of such fraternal societies, organizations and associations which are licensed as private clubs under the provisions of article seven, chapter sixty of this code; (d) corporations, associations and societies organized and operated exclusively for religious or charitable purposes; (e) production credit associations, organized under the provisions of the federal “Farm Credit Act of 1933”; (f) any credit union organized under the provisions of chapter thirty-one
or any other chapter of this code: Provided further, That the
exemptions of this section shall not apply to corporations or
cooperative associations organized under the provisions of
article four, chapter nineteen of this code; (g) gross income
derived from advertising service rendered in the business of
radio and television broadcasting; and (h) the gross income
or gross proceeds of sale of a gasification or liquefaction of
coal project in the demonstration, pilot or research stages:
And provided further, That prior to the commencement of
operation of any such project, the tax commissioner shall
have first certified the project as eligible for such exemption:
And provided further, That such exemption shall expire
seven years from the date the project first receives gross
income or gross proceeds from sales.

§11-13-3b. Definitions; reduction allowed in tax due; how
computed.

1 When used in this section, the phrase "normal tax" means

exemption for the period actually engaged in business.

rates against values or gross income as set forth in sections
two-a to two-m, inclusive, of this article, less the amount of
the annual exemption allowed and determined under
section three of this article.

11 The surtax shall be computed by the application of the
surtax rate against gross income as set forth in section
two-k of this article.

(d) **Applicability of this section.**—The provisions of this section shall be applicable in determining the rate of tax imposed by this article for all taxable periods or portions thereof beginning on or after the first day of April, one thousand nine hundred eighty-three.

§11-21-4e. **Effect of rate changes during taxable year.**

(a) If any rate of tax imposed by this article changes to become effective after the thirty-first day of December, of a calendar year, and if the taxable year includes the effective date of the change of rate (unless that date is the first day of the taxable year) then: (1) Tentative taxes shall be computed by applying the rate for the period before the effective date of the change of rate, and the rate for the period on and after such date, to the taxable income for the entire taxable year; and (2) the tax for such taxable year shall be the sum of that proportion of each tentative tax which the number of months in each period bears to the number of months in the entire taxable year.

(b) For purposes of subsection (a):

(1) If the rate changes for taxable years “beginning after” or “ending after” a certain date, the following day shall be considered the effective date of the change; and

(2) If a rate changes for taxable years “beginning on or after” a certain date, that date shall be considered the effective date of the change of rate.

§11-21-16. **West Virginia personal exemptions of resident individual.**

(a) **General.**—For any tax imposed under the provisions of this article with respect to any taxable year prior to the first day of January, one thousand nine hundred eighty-three, a resident individual shall be allowed a West Virginia exemption of six hundred dollars for each exemption for which he is entitled to a deduction for the taxable year for federal income tax purposes. With respect to any taxable year beginning on or after the first day of January, one thousand nine hundred eighty-three, and prior to the first day of January, one thousand nine hundred eighty-four, said exemption shall be seven hundred dollars; and with respect to any taxable year beginning on or after the first
day of January, one thousand nine hundred eighty-four, said exemption shall be eight hundred dollars.

(b) Husband and wife.—If the West Virginia income taxes of a husband and wife are separately determined but their federal income tax is determined on a joint return, each of them shall be separately entitled, with respect to any taxable year prior to the first day of January, one thousand nine hundred eighty-three, to a West Virginia exemption of six hundred dollars for each federal exemption to which he would be separately entitled for the taxable year if their federal income taxes had been determined on separate returns. With respect to any taxable year beginning on or after the first day of January, one thousand nine hundred eighty-three, and prior to the first day of January, one thousand nine hundred eighty-four, said exemption shall be seven hundred dollars; and with respect to any taxable year beginning on or after the first day of January, one thousand nine hundred eighty-four, said exemption shall be eight hundred dollars.

§11-21-71. Requirement of withholding tax from wages.

(a) General.—Every employer maintaining an office or transacting business within this state and making payment of any wage taxable under this article to a resident or nonresident individual shall deduct and withhold from such wages for each payroll period a tax computed in such manner as to result, so far as practicable, in withholding from the employee's wages during each calendar year an amount substantially equivalent to the tax reasonably estimated to be due under this article resulting from the inclusion in the employee's West Virginia adjusted gross income of his wages received during such calendar year. The method of determining the amount to be withheld shall be prescribed by the tax commissioner, with due regard to the West Virginia withholding exemption of the employee. This section shall not apply to payments by the United States for service in the armed forces of the United States.

(b) Withholding exemptions.—For purposes of this section:

(1) An employee shall be entitled to the same number of West Virginia withholding exemptions as the number of withholding exemptions to which he is entitled for federal

(2) With respect to any taxable year prior to the first day of January, one thousand nine hundred eighty-three, the amount of each West Virginia exemption shall be six hundred dollars whether the individual is a resident or nonresident. With respect to any taxable year beginning on or after the first day of January, one thousand nine hundred eighty-three, and prior to the first day of January, one thousand nine hundred eighty-four, said exemption shall be seven hundred dollars and with respect to any taxable year beginning on or after thefirst day of January, one thousand nine hundred eighty-four, said exemption shall be eight hundred dollars.

(c) Exception for certain nonresidents.—If the income tax law of another state of the United States or of the District of Columbia results in its residents being allowed a credit under section forty sufficient to offset all taxes required by this article to be withheld from the wages of an employee, the tax commissioner may by regulation relieve the employers of such employees from the withholding requirements of this article with respect to such employees.

thirteen, chapter eleven of this code.—A credit shall be
allowed against the primary tax imposed by this article

chapter eleven of this code: Provided, That the amount of
such business and occupation tax credit shall not exceed
fifty percent of the primary tax liability of the taxpayer
under this article which is attributable to the West Virginia
taxable income derived by the taxpayer for the taxable year
from the business or occupation with respect to which said
tax under article thirteen was imposed and shall not in any
event exceed fifty percent of the primary tax liability of the
taxpayer under this article for such taxable year: Provided,
however, That the entire amount of the business and
occupation tax liability of the taxpayer, which was taken as
a deduction in determining its federal taxable income for
the taxable year, shall be an adjustment increasing federal
taxable income under section six of this article: Provided
further, That the taxpayer may at its option elect in lieu of
claiming the credit allowable by this subsection, to not
increase its federal taxable income under section six of this
article and thereby take as a full deduction under this
article for the taxable year the amount of its business and
occupation tax liability for the taxable year, which was
taken as a deduction on its federal return for such taxable
year.

For purposes of this section, the tax imposed under article
thirteen, chapter eleven of this code shall be the amount of
the liability of the taxpayer for such tax under said article

chapter eleven of this code: *Provided,* That the amount of
such credit shall not exceed fifty percent of the primary tax
liability of the taxpayer under this article which is
attributable to the West Virginia taxable income derived by
the taxpayer for the taxable year from any source with
respect to which said tax under article twelve-a was
imposed and shall not in any event exceed fifty percent of
the primary tax liability of the taxpayer under this article for
such taxable year: *Provided, however,* That the entire
amount of the carrier income tax liability of the taxpayer,
which was taken as a deduction in determining its federal
taxable income for the taxable year shall be an adjustment
increasing federal taxable income under section six of this
article: *Provided further,* That the taxpayer may at its
option elect in lieu of claiming the credit allowable by this
subsection, to not increase its federal taxable income under
section six of this article and thereby take as a full deduction
under this article for the taxable year the amount of its
carrier income tax liability for the taxable year, which was
taken as a deduction on its federal return for the taxable
year.

§11-24-10. **Credit for hiring of qualified employees by eligible
taxpayers engaged in manufacturing.**

(a) A credit shall be allowed under the provisions of this
section against the primary tax liability of the taxpayer

(b) For the purpose of this section, the term "eligible taxpayer" shall mean a taxpayer who:

(1) Is subject to tax liability under section two-b, article thirteen, chapter eleven of this code, relating to business and occupation tax upon the business of manufacturing, compounding or preparing for sale any articles, substances or commodities; and

(2) Hires a qualified employee, as defined herein, during the period beginning April first, one thousand nine hundred eighty-three, and ending December thirty-first, one thousand nine hundred eighty-four; which employee to such employer is not a returning seasonal employee or employee of like-type.

(c) For the purpose of this section, the term "qualified employee" shall mean an employee who is hired and employed at a location within this state by an eligible taxpayer for full-time employment, which, for the purposes of this section, shall mean employment for at least one hundred twenty hours per month at a wage equal to, or greater than, the prevailing federal minimum wage and:

(1) At the time he or she is hired, has either exhausted entitlement to unemployment compensation benefits under the provisions of chapter twenty-one-a of this code or would have exhausted such benefits within a period of six weeks from date of employment; or

(2) At the time of employment, he or she is hired so that one or more present employees will not be required to continue working overtime, and with a resultant decrease in the amount of overtime compensation paid by the employer.

(d) The term "qualified employee" shall not include a person who displaces an employed individual, other than an individual who is discharged for cause, or shall not include an individual employed and who is closely related to a person who owns, directly or indirectly, more than fifty percent of the outstanding stock of the business, or an
individual employed and who is closely related to the owner or owners of an unincorporated business.

(e) Notwithstanding any provision of this code to the contrary, the department of employment security shall disclose, upon request, to the state tax commissioner or his employees, any wage, benefits or eligibility information with respect to an identified individual which is contained in its records.

(f) The maximum total credits allowed to any eligible taxpayer in all taxable years because of the hiring of any one qualified employee shall be one thousand dollars: Provided, That the amount of the credit allowed by this section in any one taxable year shall be the lesser of either one thousand dollars for each qualified employee hired in such taxable year, or ten percent of the gross wages paid by the eligible taxpayer to each qualified employee hired in such taxable year: Provided, however, That unused credit for an eligible employee may be carried forward to the next tax year if necessary and until the lesser of either one thousand dollars for each qualified employee or ten percent of the gross wages paid to the eligible employee during his or her first employment year is taken as a credit by the eligible taxpayer. The credit allowable by this section for a taxable year is not subject to the fifty percent limitation specified in section nine of this article, and any unused credit may be carried over to each of the next three taxable years following the unused credit year until used or forfeited due to lapse of time.

§11-24-17a. Interest and additions to tax on payments of estimated tax.

The interest provisions of subsection (a), section seventeen, and the additions to tax provisions of section eighteen, both of article ten of this chapter, shall apply to an underpayment of estimated tax under this article, whether such underpayment is because of a failure to pay the entire installment payment then due or because of an underestimation by more than twenty percent of the amount of tax due for the taxable year under this article.

Be it enacted by the Legislature of West Virginia:

That article thirteen, chapter eleven of the code of West Virginia, one thousand nine hundred thirty-one, as amended, be amended by adding thereto a new section, designated section three-e; and that said chapter eleven be amended by adding thereto a new article, designated article thirteen-e, all to read as follows:

Article
13E. Business and Occupation Tax Credit for Coal Loading Facilities.
ARTICLE 13. BUSINESS AND OCCUPATION TAX.

§11-13-3e. Tax credit for coal loading facilities; regulations.
1 (a) There shall be allowed as a credit against the tax
2 imposed by this article, the amount determined under
3 article thirteen-e of this chapter, relating to tax credit for
4 new or expanded or revitalized coal loading facilities.
5 (b) The tax commissioner may prescribe such
6 regulations as may be necessary to carry out the purposes of
7 this section and article thirteen-e of this chapter.

ARTICLE 13E. BUSINESS AND OCCUPATION TAX CREDIT FOR COAL
LOADING FACILITIES.

§11-13E-1. Legislative findings and purpose.
1 The Legislature finds that production of coal is very
2 important to the economy of this state, and that a sound
3 economy is in the public interest and promotes the general
4 welfare of the people of this state. In order to encourage
5 capital investment in this state, through the construction of
6 new or the expansion or revitalization of existing coal
7 loading facilities, and thereby increase employment and
8 economic development, there is hereby provided a business
9 and occupation tax credit for investment in coal loading
10 facilities.

1 (a) Any term used in this article shall have the same
2 meaning as when used in a comparable context in article
3 thirteen of this chapter, unless a different meaning is
4 clearly required by the context of its use or by definition in
5 this article.
6 (b) For purposes of this article, the term:
7 (1) "Coal loading facility" means any building or
8 structure specifically designed and solely used to transfer
9 coal from a coal processing or preparation facility, or from a
10 coal storage facility, or both, or from any means of
11 transportation, to any means of rail or barge transportation.
used to move coal, including such land as is directly
associated with and solely used for the coal loading facility,
and including any device or combination of machinery and
equipment that is directly associated with and solely used
for the loading of coal. This definition applies only when the
transfer is to any means of rail or barge transportation and
specifically excludes the transfer to any other form of
transportation. This may include, but is not limited to, the
coal loading tipple, conveyors, coal storage facilities,
weighing equipment and rail trackage, if they are directly
associated with and solely used for the loading of coal. In no
event may the eligible investment in a coal loading facility,
for purposes of this credit, include the cost of any coal
processing, preparation, blending or sizing facility or
equipment, or any combination thereof, even though
physically a part of the coal loading facility, and even
though such coal processing, preparation, blending or
sizing facility or equipment, or any combination thereof, is
necessary or essential to the loading of commercially usable
or marketable coal.

(2) "Eligible taxpayer" means any person subject to tax
under article thirteen of this chapter who purchases real or
personal property, or a combination thereof, for the
purpose of building or constructing a new or expanded coal
loading facility in this state, or who revitalizes an existing
coal loading facility which was located in this state on the
first day of April, one thousand nine hundred eighty-three,
and upon completion, operates the new or expanded or
revitalized coal loading facility.

(3) "Revitalization" means capital investment in a coal
loading facility located in this state on the first day of April, one thousand nine hundred eighty-three, to replace or
modernize buildings, structures, equipment, machinery
and other tangible personal property directly associated
with and solely used in the operation of a coal loading
facility, including the acquisition of any real property
directly associated with and solely used in the operation of a
revitalized coal loading facility.

(4) "Property purchased for a coal loading facility" means real property and improvements thereto, and
tangible personal property, but only if such real or personal
property is constructed or purchased for use as a component part of a new or expanded coal loading facility, or the revitalization of an existing coal loading facility which was located within this state on the first day of April, one thousand nine hundred eighty-three. This term includes only tangible personal property with respect to which depreciation or amortization, in lieu of depreciation, is allowable in determining the personal income tax or corporation net income tax due under articles twenty-one or twenty-four of this chapter, and has a useful life at the time the property is placed in service or use in this state of four years or more. Property acquired by lease for a term of ten years or longer, if used as a component part of a coal loading facility, shall be included within this definition. “Property purchased for a coal loading facility” shall not include:

(A) Property which qualifies or was qualified for credit under articles thirteen-c or thirteen-d of this chapter.

(B) Repair costs, including materials used in making the repair, unless under generally accepted accounting principles the cost of the repair must be capitalized and not expensed.

(C) Motor vehicles licensed by the department of motor vehicles.

(D) Airplanes.

(E) Off-premise transportation equipment.

(F) Property which is primarily used outside this state.

(G) Property purchased prior to the first day of April, one thousand nine hundred eighty-three. Property shall be deemed to have been purchased prior to said date only if:

(i) The physical construction, reconstruction or erection of the property was begun prior to said first day of April or such property was constructed, reconstructed, erected or acquired pursuant to a written contract existing on or before the thirty-first day of March, one thousand nine hundred eighty-three, and limited to the provision of such contract as of such date, binding on the taxpayer.

(ii) The machinery or equipment was owned by the taxpayer on or before the thirty-first day of March, one

92 thousand nine hundred eighty-three, or was acquired by
93 the taxpayer pursuant to a binding purchase contract which
94 was in effect on such date.

95 (iii) In the case of leased property, there was a binding
96 lease or contract to lease identifiable equipment in effect on
97 or before the thirty-first day of March, one thousand nine
98 hundred eighty-three.

99 (H) Property which is acquired incident to the purchase
100 of the stock or assets of a taxpayer, which property was or
101 had been used by the seller in his business in this state, or
102 which property was previously designated “property
103 purchased for industrial expansion” under article thirteen-
104 c of this chapter and used to qualify for the tax credit
105 provided by that article, or was previously designated
106 “property purchased for industrial revitalization” under
107 article thirteen-d of this chapter and used to qualify for the
108 tax credit provided by that article.

§11-13E-3. Amount of credit allowed for coal loading facilities.

1 There shall be allowed to eligible taxpayers a credit
2 against the business and occupation taxes imposed by
3 article thirteen of this chapter for investment in a new or
4 expanded or revitalized coal loading facility. The amount of
5 this credit shall be equal to ten percent of the cost of the
6 eligible investment made in a coal loading facility and shall
7 reduce the business and occupation tax imposed under
8 sections two-a, two-b and two-h, article thirteen of this
9 chapter, subject to the following conditions and limitations:

10 (a) The allowable credit shall be applied over a ten-year
11 period at the rate of one tenth of the amount thereof per
12 taxable year, beginning with the taxable year in which the
13 eligible investment is first placed in service or use in this
14 state.

15 (b) The amount of annual credit allowed shall not
16 reduce the business and occupation taxes imposed on the
17 business of producing coal under section two-a, article
18 thirteen of this chapter, the business of manufacturing,
19 compounding or preparing coal for sale under section two-
20 b, article thirteen of this chapter and on the activity of
21 loading coal under section two-h, article thirteen of this
22 chapter, below fifty percent of the amount which would be
imposed for the taxable year in the absence of the annual
exemption allowed by section three, article thirteen of this
chapter.

(c) When in any taxable year the eligible taxpayer is
entitled to claim credit under this article and article
thirteen-c or article thirteen-d of this chapter, the total
amount of credits allowed shall not exceed fifty percent of
the tax liability under section two-b or two-h, article
thirteen of this chapter on manufacturing or manu-
facturing-service activity.

(d) No carryover to a subsequent tax year or carryback
to a prior tax year shall be allowed for the amount of any
unused portion of the credit allowed under this article for
the taxable year. Any unused credit shall be forfeited.

(e) No credit shall be allowed under this article for any
property purchased for a coal loading facility prior to the
first day of April, one thousand nine hundred eighty-three.

§11-13E-4. Eligible investment.

(a) General.—The eligible investment in property
purchased for a new or expanded or revitalized coal loading
facility shall be the applicable percentage of the cost of each
property purchased for the purpose of such coal loading
facility, which is placed in service or use in this state by the
eligible taxpayer during the taxable year.

(b) Applicable percentage.—For the purpose of
subsection (a), the applicable percentage for any property
shall be determined under the following table:

<table>
<thead>
<tr>
<th>If useful life is</th>
<th>The applicable percentage is</th>
</tr>
</thead>
<tbody>
<tr>
<td>4 years or more but less than 6 years</td>
<td>33 1/3%</td>
</tr>
<tr>
<td>6 years or more but less than 8 years</td>
<td>66 2/3%</td>
</tr>
<tr>
<td>8 years or more</td>
<td>100%</td>
</tr>
</tbody>
</table>

The useful life of any property for purposes of this section
shall be determined as of the date such property is first
placed in service or use in this state by the taxpayer, and is
the period during which the property may reasonably be
expected to be useful to the taxpayer as part of a coal
loading facility.
(c) **Cost.**—For purposes of subsection (a), the cost of each property purchased for a coal loading facility shall be determined under the following rules:

1. **Trade-ins.**—Cost shall not include the value of any property given in trade or exchange for the property purchased for a coal loading facility.

2. **Damaged, destroyed or stolen property.**—If property is damaged or destroyed by fire, flood, storm or other casualty or is stolen, the cost of replacement property shall not include any insurance proceeds received in compensation for the loss.

3. **Rental property.**—The cost of property acquired by lease for a term of ten years or longer shall be one hundred percent of the rent reserved for the primary term of the lease, not to exceed twenty years. Lease renewals, subleases or assignments shall not be considered.

4. **Property purchased for multiple use.**—The cost of property purchased for multiple business use including use as a component part of a coal loading facility business together with some other business or activity not eligible for credit under this article shall be apportioned between such businesses or activities. The amount apportioned to the activity of loading coal shall be considered as an eligible investment subject to the conditions and limitations of this section.

5. **Self-constructed property.**—In the case of self-constructed property, the cost thereof shall be the amount properly charged to the capital account for purposes of depreciation.

§11-13E-5. **Forfeiture of unused tax credits; redetermination of credit allowed.**

(a) **Disposition of property or cessation of use.**—If during any taxable year, property with respect to which tax credit has been allowed under this article:

1. Is disposed of prior to the end of its useful life, as determined under section three of this article; or

2. Ceases to be used in a coal loading facility by the eligible taxpayer, in this state, prior to the end of its useful life, as determined under section three of this article, then
9 the unused portion of the credit allowed for such property
10 shall be forfeited for the taxable year and all ensuing years.
11 Additionally, except when the property is damaged or
12 destroyed by fire, flood, storm or other casualty or is stolen,
13 the taxpayer shall redetermine the amount of credit
14 allowed in all earlier years by reducing the applicable
15 percentage of cost of such property allowed under section
16 three of this article to correspond with the percentage of
17 cost allowable for the period of time that the property was
18 actually used in this state as a coal loading facility of the
19 eligible taxpayer. The taxpayer shall then file a
20 reconciliation statement with its annual business and
21 occupation tax return for the year in which the forfeiture
22 occurs, and pay any additional business and occupation
taxes, plus interest and any applicable penalties.
24 (b) Cessation of operation of coal loading facility.—If
25 during any taxable year the eligible taxpayer ceases
26 operation of a coal loading facility in this state, for which
27 credit was allowed under this article, before expiration of
28 the useful life of property with respect to which tax credit
29 has been allowed under this article, then the unused portion
30 of the allowed credit shall be forfeited for the taxable year
31 and all ensuing years. Additionally, except when the
32 cessation is due to fire, flood, storm or other casualty, the
33 taxpayer shall redetermine the amount of credit allowed in
34 earlier years by reducing the applicable percentage of cost
35 of such property allowed under section three of this article
36 to correspond with the percentage of cost allowable for the
37 period of time that the property was actually used in this
38 state in a coal loading facility of the eligible taxpayer. The
39 taxpayer shall then file a reconciliation statement with its
40 annual business and occupation tax return for the year in
41 which the forfeiture occurs and pay any additional business
42 and occupation taxes, plus interest and any applicable
43 penalties.

§11-13E-6. Transfer of eligible investment to successors.
1 (a) Mere change in form of business.—Property shall not
2 be treated as disposed of under section five of this article by
3 reason of a mere change in the form of conducting the
4 business as long as the property is used as or in a coal
5 loading facility in this state and the taxpayer retains a
substantial interest in the successor business. In this event, the successor business shall be allowed to claim the amount of credit still available with respect to the coal loading facility or facilities transferred and the taxpayer (transferor) shall not be required to redetermine the amount of credit allowed in earlier years.

(b) Sale to successor.—Property shall not be treated as disposed of under section five of this article by reason of any sale to a successor business which continues to operate the coal loading facility in this state. Upon sale the successor shall acquire the amount of credit that remains available under this article for each subsequent taxable year and the taxpayer (transferor) shall not be required to redetermine the amount of credit allowed in earlier years.

imposed by this article on sales of gasoline or special fuel,
to file a combined return and make a combined payment of
the tax due under this article on sales of gasoline and special
fuel, and the tax due under article fourteen of this chapter,
on gasoline and special fuel. In order to encourage use of a
combined return each month and the making of a single
payment each month for both taxes, the due date of the
return and tax due under article fourteen of this chapter is
hereby changed from the last day of each month to the
twenty-fifth day of each month, notwithstanding any provision
in article fourteen of this chapter to the contrary.

under the provisions of this section after deducting the amount
of any refunds lawfully paid shall be deposited in the “road fund” in the state treasurer’s office, and shall be used only for the purpose of construction, reconstruction, maintenance and repair of highways, and payment of principal and interest on state bonds issued for highway purposes.

(h) Construction. — This section shall not be construed as taxing any sale of gasoline or special fuel which this state is prohibited from taxing under the constitution of this state or the constitution or laws of the United States.

20 (4) Tangible personal property, the gross receipts or the

state is not subject to the West Virginia consumers sales tax.

their principal year-round residence and dwelling: Provided,
That these mobile homes shall be subject to tax at the three
percent rate.

1 (a) Imposition of tax.

2 (1) On deliveries in this state. — Gasoline or special fuel
furnished or delivered within this state to consumers or users
is subject to the tax rate imposed by section two of this
article: Provided, That the amount of tax due under section
two shall in no event be less than five percent of the average
wholesale price of gasoline, and with such price to, in no
case, be deemed to be less than ninety-seven cents per gallon
for all gallons of gasoline and special fuel taxable under sec-
tion two of this article.

2 (2) On purchases out of state. — An excise tax is hereby
imposed on the use or consumption in this state of gasoline or
special fuel purchased outside this state at the rate of five
percent of the average wholesale price of such gasoline or
special fuel, as determined under subsection (c), notwithstanding
any provision of this article to the contrary: Provided,
That gasoline or special fuel contained in the supply tank of
a motor vehicle that is not a motor carrier shall not be tax-
able, except that gasoline or special fuel imported in the supply
tank or auxiliary tank of construction equipment, mining equip-
ment, track maintenance equipment or other similar equip-
ment, shall be taxed in the same manner as that in the supply
tank of a motor carrier.

24 (b) Definitions. — Terms used in the section shall have the
same meaning as when used in a comparable context in section eighteen, article fifteen of this chapter.

(c) **Determination of average wholesale price.**

(1) To simplify determining the average wholesale price of all gasoline and special fuel, the tax commissioner shall, effective with the period beginning the first day of the month of the effective date of this section and each first day of January, annually, thereafter, determine the average wholesale price of gasoline and special fuel for each annual period, on the basis of sales data gathered for the preceding period of the first day of July through the thirty-first day of October. Notification of the average wholesale price of gasoline and special fuel shall be given by the tax commissioner at least thirty days in advance of each first day of January, annual period, by filing notice of the average wholesale price in the state register, and by such other means as the tax commissioner deems reasonable: Provided, That notice of the average wholesale price of gasoline and special fuel for the first period shall be timely given if filed in the state register on the effective date of this section.

(2) The “average wholesale price” shall mean the single, state-wide average per gallon wholesale price, rounded to the third decimal (thousandth of a cent), exclusive of state and federal excise taxes on each gallon of gasoline or diesel fuel, as determined by the tax commissioner from information furnished by distributors of gasoline or special fuel in this state, or such other information regarding wholesale selling prices as the tax commissioner may gather, or a combination of such information: Provided, That in no event shall the average wholesale price be determined to be less than ninety-seven cents per gallon of gasoline or special fuel.

(3) All actions of the tax commissioner in acquiring data necessary to establish and determine the average wholesale price of gasoline and special fuel, in providing notification of his determination prior to the effective date of any change in rate, and in establishing and determining the average wholesale price of fuel, may be made by the tax commissioner without
compliance with the provisions of article three, chapter twenty-nine-a of this code.

(4) In any administrative or court proceeding brought to challenge the average wholesale price of gasoline and special fuel as determined by the tax commissioner, his determination shall be presumed to be correct and shall not be set aside unless it is clearly erroneous.

(d) Computation of tax due from motor carriers. — Every person who operates or causes to be operated a motor carrier in this state shall pay the tax imposed by this section on the average wholesale price of all gallons of gasoline or special fuel used in the operation of any motor carrier within this state, under the following rules:

(1) The total amount of gasoline or special fuel used in the operation of the motor carrier within this state shall be that proportion of the total amount of gasoline and special fuel used in any motor carrier's operations within and without this state, that the total number of miles traveled within this state bears to the total number of miles traveled within and without this state.

(2) A motor carrier shall first determine the gross amount of tax due under this section on the average wholesale value, determined under subsection (c), of all gasoline and special fuel used in the operation of the motor carrier within this state during the preceding quarter, as if all gasoline and special fuel had been purchased outside this state.

(3) Next, the taxpayer shall determine the total tax paid under article fifteen of this chapter on all gasoline and special fuel purchased in this state for use in the operation of the motor carrier.

(4) The difference between (2) and (3) is the amount of tax due under this article when (2) is greater than (3), or the amount to be refunded or credited to the motor carrier when (3) is greater than (2), which refund or credit shall be allowed in the same manner and under the same conditions as a refund or credit is allowed for the tax imposed by article fourteen-a of this chapter.
(e) Return and payment of tax. — Tax due under this article on the use or consumption in this state of gasoline or special fuel shall be paid by each taxpayer on or before the twenty-fifth day of January, April, July and October of each year, notwithstanding any provision of this article to the contrary, by check, bank draft, certified check or money order, payable to the tax commissioner, for the amount of tax due for the preceding quarter. Every taxpayer shall make and file with his remittance, a return showing such information as the tax commissioner may require.

(f) Compliance. — To facilitate ease of administration and compliance by taxpayers, the tax commissioner may require motor carriers liable for the taxes imposed by this article on the use of gasoline or special fuel in the operation of motor carriers within this state, and the tax imposed by article fourteen-a of this chapter on such gallons of fuel, to file a combined return and make a combined payment of the tax due under this article and article fourteen-a of this chapter on such fuel. In order to encourage use of a combined return and the making of a single payment each quarter for both taxes, the due date of the return and tax due under article fourteen-a of this chapter is hereby changed from the last day of January, April, July and October of each calendar year, to the twenty-fifth day of such months, notwithstanding any provision in article fourteen-a of this chapter to the contrary.

(g) Dedication of tax to highways. — All tax collected under the provisions of this section after deducting the amount of any refunds lawfully paid shall be deposited in the "road fund" in the state treasurer's office, and shall be used only for the purpose of construction, reconstruction, maintenance and repair of highways, and payment of principal and interest on state bonds issued for highway purposes.

(h) Construction. — The tax imposed by this article on the use of gasoline or special fuel in this state shall not be construed as taxing any gasoline or special fuel which the state is prohibited from taxing under the constitution of this state or the constitution or laws of the United States.

(i) Effective date. — The provisions of this section and the
amendments to section three of this article shall take effect on the first day of April, one thousand nine hundred eighty-three.

ment compensation; disqualification for benefits; benefit rates; partial unemployment; benefit payments for service with nonprofit organizations, state hospitals, institutions of higher education, and educational institutions and governmental entities; the special administration fund; providing that for purposes of computation of unemployment compensation benefits an individual's national guard or reserve inactive duty for training shall not be considered to be employment; providing that such individual may not be considered unavailable for work; and providing that remuneration received for such training may not be deducted from the unemployment compensation benefit to which such individual is entitled.

Be it enacted by the Legislature of West Virginia:

That sections three, ten, eleven and fifteen, article six, chapter twenty-one-a of the code of West Virginia, one thousand nine hundred thirty-one, as amended, be amended and reenacted; that said article be further amended by adding thereto a new section, designated section four-a; and that section five-a, article nine of said chapter be amended and reenacted, all to read as follows:

Article

6. Employee Eligibility; Benefits.

ARTICLE 6. EMPLOYEE ELIGIBILITY; BENEFITS.

§21A-6-3. Disqualification for benefits.
§21A-6-4a. National guard or reserve training not to be considered employment; such individual not unavailable for work; remuneration for training not to be deducted from unemployment compensation benefit.

§21A-6-10. Benefit rate—Total unemployment; annual computation and publication of rates.
§21A-6-15. Benefit payments for service with nonprofit organizations, state hospitals, institutions of higher education, educational institutions and governmental entities.

§21A-6-3. Disqualification for benefits.
1 Upon the determination of the facts by the commissioner, an individual shall be disqualified for benefits:
2 (1) For the week in which he left his most recent work voluntarily without good cause involving fault on the part
of the employer and until the individual returns to covered employment and has been employed in covered employment at least thirty working days.

For the purpose of this subdivision (1), an individual shall not be deemed to have left his most recent work voluntarily without good cause involving fault on the part of the employer, if such individual leaves his work with an employer with whom he has been employed at least thirty working days or more for the purpose of returning to, and if he in fact, within a fourteen-day calendar period, does return to, employment with the last preceding employer with whom he was previously employed within the past year prior to his return to work day, and which last preceding employer, after having previously employed such individual for thirty working days or more, laid off such individual because of lack of work, which layoff occasioned the payment of benefits under this chapter or could have occasioned the payment of benefits under this chapter had such individual applied for such benefits. It is the intent of this paragraph to cause no disqualification for benefits for such an individual who complies with the foregoing set of requirements and conditions. Benefits paid to such individual under the provisions of this chapter shall, notwithstanding the provisions of subsection (2), section seven, article five of this chapter, and of subdivision (12) of this section three, be charged to the account of such last preceding employer with whom such individual was previously employed for thirty working days.

(2) For the week in which he was discharged from his most recent work for misconduct and the six weeks immediately following such week; or for the week in which he was discharged from his last thirty-day employing unit for misconduct and the six weeks immediately following such week. Such disqualification shall carry a reduction in the maximum benefit amount equal to six times the individual's weekly benefit. However, if the claimant returns to work in covered employment for thirty days during his benefit year, whether or not such days are consecutive, the maximum benefit amount shall be increased by the amount of the decrease imposed under the disqualification; except that:
If he were discharged from his most recent work for one of the following reasons, or if he were discharged from his last thirty days employing unit for one of the following reasons:

Misconduct consisting of willful destruction of his employer’s property; assault upon the person of his employer or any employee of his employer; if such assault is committed at such individual’s place of employment or in the course of employment; reporting to work in an intoxicated condition, or being intoxicated while at work; arson, theft, larceny, fraud or embezzlement in connection with his work; or any other gross misconduct; he shall be and remain disqualified for benefits until he has thereafter worked for at least thirty days in covered employment:

Provided, That for the purpose of this subdivision the words “any other gross misconduct” shall include, but not be limited to, any act or acts of misconduct where the individual has received prior written warning that termination of employment may result from such act or acts.

(3) For the week in which he failed without good cause to apply for available, suitable work, accept suitable work when offered, or return to his customary self-employment when directed to do so by the commissioner, and for the four weeks which immediately follow for such additional period as any offer of suitable work shall continue open for his acceptance. Such disqualification shall carry a reduction in the maximum benefit amount equal to four times the individual’s weekly benefit amount.

(4) For a week in which his total or partial unemployment is due to a stoppage of work which exists because of a labor dispute at the factory, establishment or other premises at which he was last employed, unless the commissioner is satisfied that he was not (one) participating, financing, or directly interested in such dispute, and (two) did not belong to a grade or class of workers who were participating, financing, or directly interested in the labor dispute which resulted in the stoppage of work. No disqualification under this subdivision shall be imposed if the employees are required to accept wages, hours or conditions of employment substantially less favorable than those prevailing for similar work in the locality, or if employees are denied the
right of collective bargaining under generally prevailing conditions, or if an employer shuts down his plant or operation or dismisses his employees in order to force wage reduction, changes in hours or working conditions.

For the purpose of this subdivision, if any stoppage of work continues longer than four weeks after the termination of the labor dispute which caused stoppage of work, there shall be a rebuttable presumption that that part of the stoppage of work which exists after said period of four weeks after the termination of said labor dispute did not exist because of said labor dispute; and in such event the burden shall be upon the employer or other interested party to show otherwise.

(5) For a week with respect to which he is receiving or has received:

(a) Wages in lieu of notice;

(b) Compensation for temporary total disability under the workers' compensation law of any state or under a similar law of the United States;

(c) Unemployment compensation benefits under the laws of the United States or any other state.

(6) For the week in which an individual has voluntarily quit employment to marry or to perform any marital, parental or family duty, or to attend to his or her personal business or affairs and until the individual returns to covered employment and has been employed in covered employment at least thirty working days.

(7) Benefits shall not be paid to any individual on the basis of any services, substantially all of which consist of participating in sports or athletic events or training or preparing to so participate, for any week which commences during the period between two successive sport seasons (or similar periods) if such individual performed such services in the first of such seasons (or similar periods) and there is a reasonable assurance that such individual will perform such services in the later of such seasons (or similar periods).

(8) (a) Benefits shall not be paid on the basis of services performed by an alien unless such alien is an
individual who has been lawfully admitted for permanent residence or otherwise is permanently residing in the United States under color of law (including an alien who is lawfully present in the United States as a result of the application of the provisions of section 203 (a) (7) or section 212 (d) (5) of the Immigration and Nationality Act): Provided, That any modifications to the provisions of section 3304 (a) (14) of the Federal Unemployment Tax Act as provided by Public Law 94–566 which specify other conditions or other effective date than stated herein for the denial of benefits based on services performed by aliens and which modifications are required to be implemented under state law as a condition for full tax credit against the tax imposed by the Federal Unemployment Tax Act shall be deemed applicable under the provisions of this section;

(b) Any data or information required of individuals applying for benefits to determine whether benefits are not payable to them because of their alien status shall be uniformly required from all applicants for benefits;

(c) In the case of an individual whose application for benefits would otherwise be approved, no determination that benefits to such individual are not payable because of his alien status shall be made except upon a preponderance of the evidence.

(9) For each week in which an individual is unemployed because, having voluntarily left employment to attend a school, college, university or other educational institution, he is attending such school, college, university or other educational institution, or is awaiting entrance thereto or is awaiting the starting of a new term or session thereof, and until the individual returns to covered employment.

(10) For each week in which he is unemployed because of his request, or that of his duly authorized agent, for a vacation period at a specified time that would leave the employer no other alternative but to suspend operations.

(11) For each week in which he is receiving or has received benefits under Title II of the Social Security Act or similar payments under any act of Congress and/or remuneration in the form of an annuity, pension, or other retirement pay from a base period and/or chargeable
employer or from any trust or fund contributed to by a base period and/or chargeable employer. But if such remuneration for any week is less than the benefits which would otherwise be due him for such week under this chapter, he shall be entitled to receive for such week, if otherwise eligible, benefits reduced by the amount of such remuneration: Provided, That if such amount of benefits is not a multiple of one dollar, it shall be computed to the next lowest multiple of one dollar: Provided, however, That there shall be no disqualification if in the individual's base period there are no wages which were paid by the base period and/or chargeable employer paying such remuneration, or by a fund into which the employer has paid during said base period. Claimant may be required to certify as to whether or not he is receiving or has been receiving remuneration in the form of an annuity, pension, or other retirement pay from a base period and/or chargeable employer or from a trust fund contributed to by a base period and/or chargeable employer.

(12) For fifty-two weeks, beginning with the date of the decision, if the commissioner finds such individual who within twenty-four calendar months immediately preceding such decision, has made a false statement or representation knowing it to be false or knowingly fails to disclose a material fact, to obtain or increase any benefit or payment under this article: Provided, That disqualification under this subdivision shall not preclude prosecution under section seven, article ten of this chapter.

(13) For the purposes of this section, an employer's account shall not be charged under any of the following conditions: When benefits are paid for unemployment immediately after the expiration of a period of disqualification for (a) discharge for any of the causes set forth in subdivision (2) of this section, or (b) failing without good cause to apply for available suitable work, accept suitable work when offered, or to return to his customary self-employment when directed to do so by the commissioner.
§21A-6-4a. National guard or reserve training not to be considered employment; such individual not unavailable for work; remuneration for training not to be deducted from unemployment compensation benefit.

Notwithstanding any other provision of this chapter to the contrary, the following provisions apply to an individual who is a member of the state national guard or other reserve component of the United States armed forces:

1. If such individual is otherwise unemployed under the provisions of this chapter, he may not be considered to be employed because he is engaged in inactive duty for training;

2. Such individual may not be considered unavailable for work by reason of his inactive duty for training; and

3. Remuneration which the individual receives for participating in inactive duty for training may not be deducted from the unemployment compensation benefit to which he is otherwise entitled.

§21A-6-10. Benefit rate—Total unemployment; annual computation and publication of rates.

Each eligible individual who is totally unemployed in any week shall be paid benefits with respect to that week at the weekly rate appearing in Column (C) in Table A in this paragraph, on the line on which in Column (A) there is indicated the employee's wage class, except as otherwise provided under the term "total and partial unemployment" in section three, article one of this chapter. The employee's wage class shall be determined by his base period wages as shown in Column (B) in Table A. The right of an employee to receive benefits shall not be prejudiced nor the amount thereof be diminished by reason of failure by an employer to pay either the wages earned by the employee or the contribution due on such wages. An individual who is totally unemployed but earns in excess of twenty-five dollars as a result of odd-job or subsidiary work in any benefit week shall be paid benefits for such week in accordance with the provisions of this chapter pertaining to benefits for partial unemployment.

After he has established such additional wage classes, the commissioner shall prepare and publish a table setting forth such information.

Average weekly wage shall be computed by dividing the number of employees in West Virginia earning wages in covered employment into the total wages paid to employees in West Virginia in covered employment, and by further dividing said result by fifty-two, and shall be determined from employer wage and contribution reports for the previous calendar year which are furnished to the department on or before June one following such calendar year. The average weekly wage, as determined by the commissioner, shall be rounded to the next higher dollar.
The computation and determination of rates as aforesaid shall be completed annually before July one, and any such new wage class, with its corresponding wages in base period, weekly benefit rate, and maximum benefit in a benefit year established by the commissioner in the foregoing manner effective on a July one, shall apply only to a new claim established by a claimant on and after said July one, and shall not apply to continued claims of a claimant based on his new claim established before said July one.

An eligible individual who is partially unemployed in any week shall, upon claim therefor filed within such time and in such manner as the commissioner may by regulation prescribe, be paid benefits for such partial unemployment in an amount equal to his weekly benefit rate, as determined in accordance with section ten of this article, less that part of wages from any source payable to him with respect to such week which is in excess of twenty-five dollars (notwithstanding the reference to fifteen dollars in the definition of partial unemployment contained in section three, article one of this chapter): Provided, That such amount of benefits if not a multiple of one dollar shall be computed to the next lowest multiple of one dollar. Such partial benefits shall be paid to such individual for the week for which he is claiming benefits without regard to the provisions of subdivision one, section one of this article.

§21A-6-15. Benefit payments for service with nonprofit organizations, state hospitals, institutions of higher education, educational institutions and governmental entities.

(1) Benefits based on service in employment as defined in subdivisions (9) and (10) of the definition of “employment” in section three, article one of this chapter, shall be payable in the same amount, on the same terms and subject to the same conditions as compensation payable on the basis of other service subject to this chapter; except that benefits based on service in an instructional, research, or principal administrative capacity in an institution of higher education shall not be paid to an individual for any week of unemployment which begins during the period between two successive academic years, or during a similar period
between two regular terms, whether or not successive, or
during a period of paid sabbatical leave provided for in the
individual's contract, if the individual has a contract or
contracts to perform services in any such capacity for any
institution or institutions of higher education for both such
academic years or both such terms.

(2) Benefits based on service in employment defined in
subdivisions (9) and (10) of the definition of "employment"
in section three, article one of this chapter, shall be payable
in the same amount, on the same terms and subject to the
same conditions as benefits payable on the basis of other
service subject to this act, except that:

(a) With respect to service performed after December
thirty-one, one thousand nine hundred seventy-seven, in an
instructional, research, or principal administrative
capacity for an educational institution, benefits shall not be
paid based on such services for any week of unemployment
commencing during the period between two successive
academic years, or during a similar period between two
regular but not successive terms, or during any holiday or
vacation period, or during a period of paid sabbatical leave
provided for in the individual's contract, to any individual
if such individual performs such services in the first of such
academic years (or terms) or prior to the beginning of such
holiday or vacation period and if there is a contract or a
reasonable assurance that such individual will perform
services in any such capacity for any educational institution
in the second of such academic years or terms or after such
holiday or vacation period: Provided, That subsection (1) of
this section shall apply with respect to such services prior to
January one, one thousand nine hundred seventy-eight;

(b) With respect to services performed after April one,
one thousand nine hundred eighty-three, in any other
capacity for an educational institution, benefits shall not be
paid on the basis of such services to any individual for any
week which commences during any holiday or vacation
period, or during a period between two successive academic
years or terms if such individual performs such services in
the first of such academic years or terms or prior to the
beginning of such holiday or vacation period and there is a
reasonable assurance that such individual will perform
such services in the second of such academic years or terms
54 or after such holiday or vacation periods, except that if
55 compensation is denied to any individual under this
56 subsection and such individual was not offered an
57 opportunity to perform such services for the educational
58 institution for the second of such academic years or terms,
59 such individual shall be entitled to a retroactive payment of
60 compensation for each week for which the individual filed a
61 timely claim for compensation and for which compensation
62 was denied solely by reason of this clause.

ARTICLE 9. EMPLOYMENT SECURITY ADMINISTRATION FUND.

§21A-9-5a. Special administration fund.

1 There is hereby created in the state treasury a fund to be
2 known as the employment security special administration
3 fund, which shall consist of interest collected on delinquent
4 payments pursuant to section seventeen, article five of this
5 chapter. The moneys deposited with this fund are hereby
6 appropriated and made available to the order of the
7 commissioner for the purpose of (a) replacements in the
8 employment security administration fund as provided in
9 section eight of this article, (b) to meet special,
10 extraordinary, and contingent expenses not provided for in
11 the employment security administration fund, and (c)
12 refunds pursuant to section nineteen of article five, of
13 interest erroneously collected, and (d) cover expenditures
14 for which federal funds have been authorized but not yet
15 received, subject to repayment to the fund. This fund shall
16 be administered and disbursed in the same manner and
17 under the same conditions as other special funds of the state
18 treasury. Balances to the credit of the special
19 administration fund shall not lapse at any time but shall be
20 continuously available to the commissioner for
21 expenditures consistent with this chapter: Provided, That
22 (1) not more than five hundred thousand dollars shall be
23 expended from said fund in any fiscal year; (2) that at the
24 beginning of each calendar quarter the commissioner shall
25 estimate the amount that may be required in that quarter
26 for refunds of interest erroneously collected; (3) that
27 thereupon the excess, if any, over the amounts provided to
28 be expended under this section shall be paid into the
29 unemployment compensation trust fund.

CHAPTER 24. PUBLIC SERVICE COMMISSION.

Article
2. Powers and Duties of Public Service Commission.
2A. Reduced Rates for Low-income Residential Customers of Electricity and Gas.
2B. Temporary Suspension of Rate Increases.
3. Duties and Privileges of Public Utilities Subject to Regulations of Commission.

ARTICLE I. GENERAL PROVISIONS.

§24-1-1. Legislative purpose and policy; plan for internal reorganization; promulgation of plan as rule; cooperation with joint committee on government and finance.

§24-1-7. Rules of procedure; commission not bound by rules of evidence or pleadings; inscription on, use of and judicial notice of seal.

§24-1-1. Legislative purpose and policy; plan for internal reorganization; promulgation of plan as rule; cooperation with joint committee on government and finance.

(a) It is the purpose and policy of the Legislature in enacting this chapter to confer upon the public service commission of this state the authority and duty to enforce and regulate the practices, services and rates of public utilities in order to:

1 (1) Ensure fair and prompt regulation of public utilities in the interest of the using and consuming public;
2 (2) Provide the availability of adequate, economical and reliable utility services throughout the state;
3 (3) Encourage the well-planned development of utility resources in a manner consistent with state needs and in ways consistent with the productive use of the state's energy resources, such as coal;
4 (4) Ensure that rates and charges for utility services are just, reasonable, applied without unjust discrimination or preference, applied in a manner consistent with the purposes and policies set forth in article two-a of this chapter, and based primarily on the costs of providing these services; and
5 (5) Encourage energy conservation and the effective and efficient management of regulated utility enterprises.
(b) The Legislature creates the public service commission to exercise the legislative powers delegated to it. The public service commission is charged with the responsibility for appraising and balancing the interests of current and future utility service customers, the general interests of the state's economy and the interests of the utilities subject to its jurisdiction in its deliberations and decisions.

(c) The Legislature directs the public service commission to identify, explore and consider the potential benefits or risks associated with emerging and state-of-the-art concepts in utility management, rate design and conservation. The commission may conduct inquiries and hold hearings regarding such concepts in order to provide utilities subject to its jurisdiction and other interested persons the opportunity to comment, and shall report to the governor and the Legislature regarding its findings and policies to each of these areas not later than the first day of the regular session of the Legislature in the year one thousand nine hundred eighty-five, and every two years thereafter.

(d) It is legislative policy to ensure that the Legislature and the general public become better informed regarding the regulation of public utilities in this state and the conduct of the business of the public service commission. To aid in the achievement of this policy, the public service commission annually shall present to the joint committee on government and finance, created by article three, chapter four of this code, or a subcommittee designated by the joint committee, a management summary report which describes in a concise manner:

1. The major activities of the commission for the year especially as such activities relate to the implementation of the provisions of this chapter;

2. Important policy decisions reached and initiatives undertaken during the year;

3. The current balance of supply and demand for natural gas and electric utility services in the state and a forecast of the probable balance for the next ten years; and
(4) Other information considered by the commission to be important including recommendations for statutory reform and the reasons for such recommendations.

(e) In addition to any other studies and reports required to be conducted and made by the public service commission pursuant to any other provision of this section, the commission shall study and initially report to the Legislature no later than the first day of the regular session of the Legislature in the year one thousand nine hundred eighty, upon:

(1) The extent to which natural gas wells or wells heretofore supplying gas utilities in this state have been capped off or shut in; the number of such wells, their probable extent of future production and the reasons given and any justification for, capping off or shutting in such wells, the reasons, if any, why persons engaged or heretofore engaged in the development of gas wells in this state or the Appalachian areas have been discouraged from drilling, developing or selling the production of such wells and whether there are fixed policies by any utility or group of utilities to avoid the purchase of natural gas produced in the Appalachian region of the United States generally and in West Virginia specifically.

(2) The extent of the export and import of natural gas utility supplies in West Virginia.

(3) The cumulative effect of the practices mentioned in subdivisions (1) and (2) of this subsection upon rates theretofore and hereafter charged gas utility customers in West Virginia.

In carrying out the provisions of this section the commission shall have jurisdiction over such persons, whether public utilities or not, as may be in the opinion of the commission necessary to the exercise of its mandate and may compel attendance before it, take testimony under oath and compel the production of papers or other documents. Upon reasonable request by the commission, all other state agencies shall cooperate with the commission in carrying out the provisions and requirements of this subsection.

(f) No later than the first day of the regular session of the Legislature in the year one thousand nine hundred eighty,
the public service commission shall submit to the Legislature a plan for internal reorganization which plan shall specifically address the following:

1. A division within the public service commission which shall include the office of the commissioners, the hearing examiners and such support staff as may be necessary to carry out the functions of decision making and general supervision of the commission, which functions shall not include advocacy in cases before the commission;

2. The creation of a division which shall act as an advocate for the position of and in the interest of all customers;

3. The means and procedures by which the division to be created pursuant to the provisions of subdivision (2) of this subsection shall protect the interests of each class of customers and the means by which the commission will assure that such division will be financially and departmentally independent of the division created by subdivision (1) of this subsection;

4. The creation of a division within the public service commission which shall assume the duties and responsibilities now charged to the commissioners with regard to motor carriers which division shall exist separately from those divisions set out in subdivisions (1) and (2) of this subsection and which shall relieve the commissioners of all except minimal administrative responsibilities as to motor carriers and which plan shall provide for a hearing procedure to relieve the commissioners from hearing motor carrier cases;

5. Which members of the staff of the public service commission shall be exempted from the salary schedules or pay plan adopted by the civil service commission and identify such staff members by job classification or designation, together with the salary or salary ranges for each such job classification or designation;

6. The manner in which the commission will strengthen its knowledge and independent capacity to analyze key conditions and trends in the industries it regulates extending from general industry analysis and supply-demand forecasting to continuing and more thorough
scrutiny of the capacity planning, construction management, operating performance and financial condition of the major companies within these industries. Such plan shall be based on the concept that each of the divisions mentioned in subdivisions (1), (2) and (4) of this subsection shall exist independently of the others and the plan shall discourage ex parte communications between them by such means as the commission shall direct, including, but not limited to, separate clerical and professional staffing for each division. Further, the public service commission is directed to incorporate within the said plan to the fullest extent possible the recommendations presented to the subcommittee on the public service commission of the joint committee on government and finance in a final report dated February, one thousand nine hundred seventy-nine, and entitled “A Plan for Regulatory Reform and Management Improvement.”

The commission shall before the fifth day of January, one thousand nine hundred eighty, adopt said plan by order, which order shall promulgate the same as a rule of the commission to be effective upon the date specified in said order, which date shall be no later than the thirty-first day of December, one thousand nine hundred eighty. Certified copies of such order and rule shall be filed on the first day of the regular session of the Legislature, one thousand nine hundred eighty, by the chairman of the commission with the clerk of each house of the Legislature, the governor and the secretary of state. The chairman of the commission shall also file with the office of the secretary of state the receipt of the clerk of each house and of the governor, which receipt shall evidence compliance with this section.

Upon the filing of a certified copy of such order and rule, the clerk of each house of the Legislature shall report the same to their respective houses and the presiding officer thereof shall refer the same to appropriate standing committee or committees.

Within the limits of funds appropriated therefor, the rule of the public service commission shall be effective upon the date specified in the order of the commission promulgating it unless an alternative plan be adopted by general law or unless the rule is disapproved by a concurrent resolution of
the Legislature adopted prior to adjournment sine die of the
regular session of the Legislature to be held in the year one
thousand nine hundred eighty: Provided, That if such rule
is approved in part and disapproved in part by a concurrent
resolution of the Legislature adopted prior to such
adjournment, such rule shall be effective to the extent and
only to the extent that the same is approved by such
concurrent resolution.

The rules promulgated and made effective pursuant to
this section shall be effective notwithstanding any other
provisions of this code for the promulgation of rules or
regulations.

(g) The public service commission is hereby directed to
cooperate with the joint committee on government and
finance of the Legislature in its review, examination and
study of the administrative operations and enforcement
record of the railroad safety division of the public service
commission and any similar studies.

(h) (1) The Legislature hereby finds that rates for
natural gas charged to customers of all classes have risen
dramatically in recent years to the extent that such
increases have adversely affected all customer classes. The
Legislature further finds that it must take action necessary
to mitigate the adverse consequences of these dramatic rate
increases.

(2) The Legislature further finds that the practices of
natural gas utilities in purchasing high-priced gas supplies,
in purchasing gas supplies from out-of-state sources when
West Virginia possesses abundant natural gas, and in
securing supplies, directly or indirectly by contractual
agreements including take-or-pay provisions, indefinite
price escalators, or most-favored nation clauses have
contributed to the dramatic increase in natural gas prices. It
is therefore the policy of the Legislature to discourage such
purchasing practices in order to protect all customer
classes.

(3) The Legislature further finds that it is in the best
interests of the citizens of West Virginia to encourage the
transportation of natural gas in intrastate commerce by
interstate or intrastate pipelines or by local distribution
companies in order to provide competition in the natural
gas industry and in order to provide natural gas to
consumers at the lowest possible price.

(i) The Legislature further finds that transactions
between utilities and affiliates are a contributing factor to
the increase in natural gas and electricity prices and tend to
confuse consideration of a proper rate of return calculation.
The Legislature therefore finds that it is imperative that the
public service commission have the opportunity to properly
study the issue of proper rate of return for lengthy periods
of time and to limit the return of a utility to a proper level
when compared to return or profit that affiliates earn on
transactions with sister utilities.

§24-1-7. Rules of procedure; commission not bound by rules of
evidence or pleadings; inscription on, use of and
judicial notice of seal.

The commission shall prescribe such rules and
regulations as may be necessary to carry out the provisions
of this chapter, including rules of procedure and for taking
evidence in all matters that may come before it, and enter
such orders as may be just and lawful: Provided, That no
such rule or regulation shall be effective unless
promulgated pursuant to the provisions of sections one
through ten, article three, chapter twenty-nine-a of this
code: Provided, however, That no such rule or regulation
shall become effective until sixty days after its final
adoption or until the effective date proposed by the
commission, whichever is later: Provided further, That any
rules and regulations promulgated prior to the effective
date of this section shall remain in full force and effect
unless changed, modified or repealed in accordance
herewith. The rules and regulations promulgated
hereunder by the public service commission shall not be
subject to the legislative rule-making review procedures
established in sections eleven through fifteen, article three,
chapter twenty-nine-a of this code. In the investigations,
preparations and hearings of cases, the commission shall
not be bound by the technical rules of pleading and
evidence, but in that respect it may exercise such discretion
as will facilitate its efforts to understand and learn all the
facts bearing upon the right and justice of the matters
before it.
Meetings of the commission wherein the sole purpose is to
decide or deliberate toward a decision on any matter are
exempt from the requirements of article nine-a, chapter six
of this code, any other provision of this code to the contrary
notwithstanding.

All orders of the commission shall set forth separately
findings of facts and conclusions of law, which findings of
fact shall make specific reference to the evidence in the
record which supports such findings.

The commission shall have a seal bearing the following
inscription: "The Public Service Commission of West
Virginia." The seal shall be affixed to all writs and
authentications of copies of records, and to such other
instruments as the commission shall direct. All courts shall
take judicial notice of said seal.

ARTICLE 2. POWERS AND DUTIES OF PUBLIC SERVICE COMMISSION.

§ 24-2-3. General power of commission with respect to rates.
§ 24-2-4b. Procedures for changing rates of electric and telephone cooperatives
and municipally operated water utilities.
§ 24-2-4c. Rate increase for natural gas public utilities relating to purchase of
natural gas from suppliers.
§ 24-2-11. Requirements for certificate of public convenience and necessity.

§ 24-2-3. General power of commission with respect to rates.
1 The commission shall have power to enforce, originate,
establish, change and promulgate tariffs, rates, joint rates,
tolls and schedules for all public utilities: Provided, That
the commission may exercise such rate authority over
municipal utilities only under the circumstances set forth in
section four-b of this article. And whenever the commission
shall, after hearing, find any existing rates, tolls, tariffs,
joint rates or schedules unjust, unreasonable, insufficient
or unjustly discriminatory or otherwise in violation of any
of the provisions of this chapter, the commission shall by an
order fix reasonable rates, joint rates, tariffs, tolls or
schedules to be followed in the future in lieu of those found
to be unjust, unreasonable, insufficient or unjustly
discriminatory or otherwise in violation of any provisions
of law, and the said commission, in fixing the rate of any
railroad company, may fix a fair, reasonable and just rate to
be charged on any branch line thereof, independent of the rate charged on the main line of such railroad.

In determining just and reasonable rates, the commission may audit and investigate management practices and policies, or have performed an audit and investigation of such practices and policies, in order to determine whether the utility is operating with efficiency and is utilizing sound management practices. The commission shall adopt rules and regulations setting forth the scope, frequency and application of such audits and investigations to the various utilities subject to its jurisdiction. The commission may include the cost of conducting the management audit in the cost of service of the utility.

In determining just and reasonable rates, the commission shall investigate and review transactions between utilities and affiliates. The commission shall limit the total return of the utility to a level which, when considered with the level of profit or return the affiliate earns on transactions with the utility, is just and reasonable.

After the thirtieth day of June, one thousand nine hundred eighty-one, no public utility subject to this chapter except those utilities subject to the provisions of section four-b of this article, shall change, suspend or annul any rate, joint rate, charge, rental or classification except after thirty days' notice to the commission and the public, which notice shall plainly state the changes proposed to be made in the schedule then in force and the time when the changed rates or charges shall go into effect; but the commission may enter an order suspending the proposed rate as hereinafter provided. The proposed changes shall be shown by printing new schedules, or shall be plainly indicated upon the schedules in force at the time, and kept open to public inspection: Provided, That the commission may, in its discretion, and for good cause shown, allow changes upon less time than the notice herein specified or may modify the requirements of this section in respect to publishing, posting and filing of tariffs, either by particular instructions or by general order.

Whenever there shall be filed with the commission any schedule stating a change in the rates or charges, or joint
rates or charges, or stating a new individual or joint rate or charge or joint classification or any new individual or joint regulation or practice affecting any rate or charge the commission may either upon complaint or upon its own initiative without complaint enter upon a hearing concerning the propriety of such rate, charge, classification, regulation or practice; and, if the commission so orders, it may proceed without answer or other form of pleading by the interested parties, but upon reasonable notice, and, pending such hearing and the decisions thereon, the commission, upon filing with such schedule and delivering to the public utility affected thereby a statement in writing of its reasons for such suspension, may suspend the operation of such schedule and defer the use of such rate, charge, classification, regulation or practice, but not for a longer period than two hundred seventy days beyond the time when such rate, charge, classification, regulation or practice would otherwise go into effect; and after full hearing, whether completed before or after the rate, charge, classification, regulation or practice goes into effect, the commission may make such order in reference to such rate, charge, classification, regulation or practice as would be proper in a proceeding initiated after the rate, charge, classification, regulation or practice had become effective: Provided, That in the case of a public utility having two thousand five hundred customers or less and which is not principally owned by any other public utility corporation or public utility holding corporation, the commission may suspend the operation of such schedule and defer the use of such rate, charge, classification, regulation or practice, but not for a longer period than one hundred twenty days beyond the time when such rate, charge, classification, regulation or practice would otherwise go into effect; and in the case of a public utility having more than two thousand five hundred customers, but not more than five thousand customers, and which is not principally owned by any other public utility corporation or public utility holding corporation, the commission may suspend the operation of such schedule and defer the use of such rate, charge, classification, regulation or practice, but not for a longer period than one hundred fifty days beyond the time when such rate, charge, classification, regulation or practice
would otherwise go into effect; and in the case of a public
utility having more than five thousand customers, but not
more than seven thousand five hundred customers, and
which is not principally owned by any other public utility
corporation or public utility holding corporation, the
commission may suspend the operation of such schedule
and defer the use of such rate, charge, classification,
regulation or practice, but not for a longer period than one
hundred eighty days beyond the time when such rate,
charge, classification, regulation or practice would
otherwise go into effect; and after full hearing, whether
completed before or after the rate, charge, classification,
regulation or practice goes into effect, the commission may
make such order in reference to such rate, charge,
classification, regulation or practice as would be proper in a
proceeding initiated after the rate, charge, classification,
regulation or practice had become effective: Provided,
however, That if any such hearing and decision thereon is
not concluded within the periods of suspension, as above
stated, such rate, charge, classification, regulation or
practice shall go into effect at the end of such period not
subject to refund: Provided further, That if any such rate,
charge, classification, regulation or practice goes into effect
because of the failure of the commission to reach a decision,
the same shall not preclude the commission from rendering
a decision with respect thereto which would disapprove,
reduce or modify any such proposed rate, charge,
classification, regulation or practice, in whole or in part,
but any such disapproval, reduction or modification shall
not be deemed to require a refund to the customers of such
utility as to any rate, charge, classification, regulation or
practice so disapproved, reduced or modified. The fact of
any rate, charge, classification, regulation or practice going
into effect by reason of the commission's failure to act
thereon shall not affect the commission's power and
authority to subsequently act with respect to any such
application or change in any rate, charge, classification,
regulation or practice. Any rate, charge, classification,
regulation or practice which shall be approved,
disapproved, modified or changed, in whole or in part, by
decision of the commission shall remain in effect as so
approved, disapproved, modified or changed during the
period or pendency of any subsequent hearing thereon or
Appeal therefrom. Orders of the commission affecting rates, charges, classifications, regulations or practices which have gone into effect automatically at the end of the suspension period are prospective in effect only.

At any hearing involving a rate sought to be increased or involving the change of any rate, charge, classification, regulation or practice, the burden of proof to show the justness and reasonableness of the increased rate or proposed increased rate, or the proposed change of rate, charge, classification, regulation or practice shall be upon the public utility making application for such change. The commission shall, whenever practicable and within budgetary constraints, conduct one or more public hearings within the area served by the public utility making application for such increase or change, for the purpose of obtaining comments and evidence on the matter from local ratepayers.

Each public utility subject to the provisions of this section shall be required to establish, in a written report which shall be incorporated into each general rate case application, that it has thoroughly investigated and considered the emerging and state-of-the-art concepts in the utility management, rate design and conservation as reported by the commission under subsection (c), section one, article one of this chapter, as alternatives to, or in mitigation of, any rate increase. The utility report shall contain as to each concept considered the reasons for adoption or rejection of each. When in any case pending before the commission all evidence shall have been taken and the hearing completed, the commission shall render a decision in such case. The failure of the commission to render a decision with respect to any such proposed change in any such rate, charge, classification, regulation or practice within the various time periods specified in this section after the application therefor shall constitute neglect of duty on the part of the commission and each member thereof.

Where more than twenty members of the public are affected by a proposed change in rates, it shall be a sufficient notice to the public within the meaning of this section if such notice is published as a Class II legal advertisement in compliance with the provisions of article
three, chapter fifty-nine of this code, and the publication
area for such publication shall be the community where the
majority of the resident members of the public affected by
such change reside or, in case of nonresidents, have their
principal place of business within this state.

The commission may order rates into effect subject to
refund, plus interest in the discretion of the commission, in
cases in which the commission determines that a temporary
or interim rate increase is necessary for the utility to avoid
financial distress, or in which the costs upon which these
rates are based are subject to modification by the
commission or another regulatory commission and to
refund to the public utility. In such case the commission
may require such public utility to enter into a bond in an
amount deemed by the commission to be reasonable and
conditioned upon the refund to the persons or parties
entitled thereto of the amount of the excess if such rates so
put into effect are subsequently determined to be higher
than those finally fixed for such utility.

No utility may make application for a general rate
increase while another general rate application is pending
before the commission and not finally acted upon, except
pursuant to the provisions of the next preceding paragraph
of this section. The provisions of this paragraph shall not be
construed so as to prohibit any such rate application from
being made while a previous application which has been
finally acted upon by the commission is pending before or
upon appeal to the West Virginia supreme court of appeals.

§24-2-4b. Procedures for changing rates of electric and
telephone cooperatives and municipally
operated water utilities.

(a) Electric cooperatives, telephone cooperatives and
municipally operated public utilities are not subject to the
rate approval provisions of section four or four-a of this
article but are subject to the limited rate provisions of this
section.

(b) All rates and charges set by electric cooperatives,
telephone cooperatives and municipally operated public
utilities shall be just, reasonable, applied without unjust
discrimination or preference and based primarily on the
costs of providing these services. Such rates and charges shall be adopted by the electric or telephone cooperative's governing board and in the case of the municipally operated public utility by municipal ordinance to be effective not sooner than forty-five days after adoption: Provided, That notice of intent to effect a rate change shall be specified on the monthly billing statement of the customers of such utility for the month next preceding the month in which the rate change is to become effective or the utility shall give its customers, and in the case of a cooperative, its customers, members and stockholders, such other reasonable notice as will allow filing of timely objections to such rate change. Such rates and charges shall be filed with the commission together with such information showing the basis of such rates and charges and such other information as the commission considers necessary. Any change in such rates and charges with updated information shall be filed with the commission. If a petition, as set out in subdivision (1), (2) or (3), subsection (c) of this section, is received and the electric cooperative, telephone cooperative or municipality has failed to file with the commission such rates and charges with such information showing the basis of rates and charges and such other information as the commission considers necessary, the suspension period limitation of one hundred twenty days and the one hundred day period limitation for issuance of an order by a hearing examiner, as contained in subsections (d) and (e) of this section, is tolled until the necessary information is filed. The electric cooperative, telephone cooperative or municipality shall set the date when any new rate or charge is to go into effect.

(c) The commission shall review and approve or modify such rates upon the filing of a petition within thirty days of the adoption of the ordinance or resolution changing said rates or charges by:

(1) Any customer aggrieved by the changed rates or charges who presents to the commission a petition signed by not less than twenty-five percent of the customers served by such municipally operated public utility, or twenty-five percent of the membership of the electric or telephone cooperative residing within the state; or

(2) Any customer who is served by a municipally operated public utility and who resides outside the
corporate limits and who is affected by the change in said
rates or charges and who presents to the commission a
petition alleging discrimination between customers within
and without the municipal boundaries. Said petition shall
be accompanied by evidence of discrimination; or

(3) Any customer or group of customers who are
affected by said change in rates who reside within the
municipal boundaries and who present a petition to the
commission alleging discrimination between said customer
or group of customers and other customers of the municipal
utility. Said petition shall be accompanied by evidence of
discrimination.

(d) (1) The filing of a petition with the commission
signed by not less than twenty-five percent of the customers
served by the municipally operated public utility, or
twenty-five percent of the membership of the electric or
telephone cooperative residing within the state, under
subdivision (1), subsection (c) of this section, shall suspend
the adoption of the rate change contained in the ordinance
or resolution for a period of one hundred twenty days from
the date said rates or charges would otherwise go into
effect, or until an order is issued as provided herein.

(2) Upon sufficient showing of discrimination by
customers outside the municipal boundaries, or a customer
or a group of customers within the municipal boundaries,
under a petition filed under subdivision (2) or (3),
subsection (c) of this section, the commission shall suspend
the adoption of the rate change contained in the ordinance
for a period of one hundred twenty days from the date said
rates or charges would otherwise go into effect or until an
order is issued as provided herein.

(e) The commission shall forthwith appoint a hearing
examiner from its staff to review the grievances raised by
the petitioners. Said hearing examiner shall conduct a
public hearing, and shall within one hundred days from the
date the said rates or charges would otherwise go into
effect, unless otherwise tolled as provided in subsection (b)
of this section, issue an order approving, disapproving or
modifying in whole or in part, the rates or charges imposed
by the electric or telephone cooperative or by the
municipally operated public utility pursuant to this section.
(f) Upon receipt of a petition for review of the rates under the provisions of subsection (c) of this section, the commission may exercise the power granted to it under the provisions of section three of this article. The commission may determine the method by which such rates are reviewed and may grant and conduct a de novo hearing on the matter if the customer, electric or telephone cooperative or municipality requests such a hearing.

(g) The commission may, upon petition by a municipality or electric or telephone cooperative, allow an interim or emergency rate to take effect, subject to future modification, if it is determined that such interim or emergency rate is necessary to protect the municipality from financial hardship and if that financial hardship is attributable solely to the purchase of the utility commodity sold. In such cases, the commission may waive the forty-five-day waiting period provided for in subsection (b) of this section and the one hundred twenty-day suspension period provided for in subsection (d) of this section.

(h) Notwithstanding any other provision, the commission shall have no authority or responsibility with regard to the regulation of rates, income, services or contracts by municipally operated public utilities for services which are transmitted and sold outside of the state of West Virginia.

§24-2-4c. Rate increases for natural gas public utilities relating to purchase of natural gas from suppliers.

Before granting any rate increase to a natural gas public utility the commission must determine that dependable lower-priced supplies of natural gas are not readily available to the applicant from other sources.

At any hearing involving a rate increase for a natural gas public utility, the burden of proof to demonstrate that dependable lower-priced supplies of natural gas are not readily available from other sources and that contracts between the public utility and its suppliers for purchase of natural gas are negotiated at arm's length and are not detrimental to the customers of the utility's services shall be upon the public utility making application for such change.

Should the applying public utility not satisfactorily meet
this burden, then the commission may not authorize an
increase greater than that which reflects the reasonable
cost of natural gas which is determined to be readily
available.

If a gas utility purchases from an affiliate more than fifty
percent of its gas supplied to its customers, any purchase
cost adjustment increase shall be based on actual costs and
may be subject to the general rate case requirements and
review of section four-a of this article.

Before the first day of January, one thousand nine
hundred eighty-four, the commission shall promulgate
rules and regulations detailing what an applying natural
gas utility must show in providing that dependable, lower-
priced supplies of natural gas are not readily available to
the applicant from other sources. Such rules and
regulations shall include a requirement that each such
utility let out bids for the purchase of a substantial quantity
of natural gas supplied to its customers and that each such
public utility present evidence demonstrating that all
available sources of gas have been thoroughly investigated
and that the utility’s purchases were at the lowest available
price among reliable sources at the time of the purchase.
Such evidence shall include a list of all persons, firms and
corporations which were investigated as sources of gas; the
price per thousand cubic feet at which each investigated
person, firm or corporation offered gas for sale; the
availability and cost of transporting such gas and the
amount of gas potentially available each month by such
person, firm or corporation. Such list shall also include the
same information resulting from investigation of all “shut-
in” wells.

§24-2-11. Requirements for certificate of public convenience
and necessity.

(a) No public utility, person or corporation shall begin
the construction of any plant, equipment, property or
facility for furnishing to the public any of the services
enumerated in section one, article two of this chapter, nor
apply for, nor obtain any franchise, license or permit from
any municipality or other governmental agency, except
ordinary extensions of existing systems in the usual course
of business, unless and until it shall obtain from the public
service commission a certificate of public convenience and
necessity requiring such construction, franchise, license or
permit. Upon the filing of any application for such
certificate, and after hearing, the commission may, in its
discretion, issue or refuse to issue, or issue in part and refuse
in part, such certificate of convenience and necessity:
Provided, That the commission, after it gives proper notice
and if no protest is received within thirty days after the
notice is given, may waive formal hearing on the
application. Notice shall be given by publication which
shall state that a formal hearing may be waived in the
absence of protest, made within thirty days, to the
application. The notice shall be published as a Class I legal
advertisement in compliance with the provisions of article
three, chapter fifty-nine of this code. The publication area
shall be the proposed area of operation. Any public utility,
person or corporation subject to the provisions of this
section shall give the commission at least thirty days' notice
of the filing of any such application for a certificate of
public convenience and necessity under this section:
Provided, That the commission may modify or waive the
thirty-day notice requirement. The commission shall
render its final decision on any application filed after the
thirtieth day of June, one thousand nine hundred eighty-
one, under the provisions of this section or section eleven-a
of this article within two hundred seventy days of the filing
of the application and within ninety days after final
submission of any such application for decision following a
hearing: Provided, however, That if the projected total cost
of the project is greater than fifty million dollars, the
commission shall render its final decision on any such
application filed under the provisions of this section or
section eleven-a of this article within four hundred days of
the filing of the application and within ninety days after
final submission of any such application for decision after a
hearing. If such decision is not rendered within the
aforementioned two hundred seventy days, four hundred
days or ninety days, the commission shall issue a certificate
of convenience and necessity as applied for in the
application. The commission shall prescribe such rules and
regulations as it may deem proper for the enforcement of
the provisions of this section; and, in establishing that
public convenience and necessity do exist, the burden of proof shall be upon the applicant.

(b) Pursuant to the requirements of subsection (a) of this section the commission may issue a certificate of public convenience and necessity to any intrastate pipeline, interstate pipeline or local distribution company for the transportation in intrastate commerce of natural gas used by any person for one or more uses, as defined by rule, by the commission in the case of

(1) Natural gas sold by a producer, pipeline or other seller to such person; or

(2) Natural gas produced by such person.

(a) Unenforceable clauses: Any provision of any contract for the sale of natural gas, which is or becomes utility natural gas, including any contract in existence on or before the date of enactment of this section, is hereby declared against public policy and unenforceable to the extent that such clause requires the utility to buy more than a reasonable amount of gas at a greater than reasonable price if such provision includes:

(1) A take-or-pay clause which commits the purchaser to take delivery of a minimum volume of natural gas; or

(2) An indefinite price escalator clause which has been defined in the Natural Gas Policy Act, section 105(b)(3)(B), 15 U.S.C.A., section 3315(b)(3)(B), as any provision of any contract:

(i) Which provides for the establishment or adjustment of the price for natural gas delivered under such contract by reference to other prices for natural gas, for crude oil, or for refined petroleum products; or

(ii) Which allows for the establishment or adjustment of the price of natural gas delivered under such contract by negotiation between the parties; or

(3) A most favored nation clause which accords to the transaction, presently or in the future, the highest price prevailing in the region for similar transactions.
25  (b) Commission review: Upon application made by the
26 utility, or upon its own motion, the commission may hold
27 hearings after notice as to the reasonableness of the
28 quantity and price of gas purchased pursuant to such
29 contracts.

ARTICLE 2A. REDUCED RATES FOR LOW-INCOME RESIDENTIAL
CUSTOMERS OF ELECTRICITY AND GAS.

§24-2A-1. Special rates for gas and electric utility customers receiving Social
Security Supplemental Security Income (SSI), Aid to Families
with Dependent Children (AFDC), Aid to Families with De­
pendent Children—Unemployed (AFDC-U), or food stamps.

§24-2A-1. Special rates for gas and electric utility customers
receiving Social Security Supplemental Security
Income (SSI), Aid to Families with Dependent
Children (AFDC), Aid to Families with Dependent
Children—Unemployed (AFDC-U), or food stamps.

1 The commission shall order a special reduced rate
2 schedule for the provision of gas and electric service for
3 the billing months of November, December, January,
4 February and March of each year; to residential utility
5 customers receiving (a) Social Security Supplemental
6 Security Income (SSI), (b) Aid to Families with Dependent
7 Children (AFDC), (c) Aid to Families with Dependent
8 Children — Unemployed (AFDC-U), or (d) food stamps, if
9 such food stamp recipients are sixty years of age or older.
10 The rate to be established for each gas and electric utility
11 shall be twenty percent less than the rate applicable to other
12 residential customers obtaining similar service. Before any
13 individual may qualify for this reduced rate service the
14 following requirements must be met:
15 (a) The residential reduced rate service shall apply only
16 to current customers or to those persons who subsequently
17 become customers in their own right. If an SSI, AFDC,
18 AFDC-U or food stamp recipient is living in a household
19 which is served under the name of a non-SSI, AFDC,
20 AFDC-U or food stamp recipient, that service may not be
21 changed or have been changed subsequent to the twelfth
22 day of March, one thousand nine hundred eighty-three, to
23 the name of the SSI, AFDC, AFDC-U or food stamp
24 recipient in order to qualify for the reduced rate service.
(b) The burden of proving eligibility for the residential reduced rate service shall be on the customer requesting the service. To meet that burden, individuals, requesting residential reduced rate service must demonstrate that they are actual customers of the utility and must produce either their SSI, AFDC, AFDC-U or food stamp identification card. No customer who is a recipient of both SSI and either AFDC, AFDC-U or food stamps, shall be eligible for more than one discount for each kind of utility service.

The commission shall establish reasonable standards regarding proof of continuing eligibility for the residential reduced rate schedule set forth in this article. Such standards shall be established by rules and regulations.

In order to provide the residential reduced rate schedule and still maintain the integrity of the various gas or electric utilities' earnings, at the end of the billing period for the month of March, one thousand nine hundred eighty-four, and each year thereafter the commission shall conduct such proceedings as necessary to determine the revenue deficiency resulting from the reduced rates, and the deficiency shall be recovered by each affected utility as follows:

(1) There is hereby created a special fund in the office of the auditor to be known as the “Low Income Residential Utility Assistance Fund.” The Legislature may appropriate into such fund such sums of general or special revenues as it may deem appropriate. The auditor is hereby authorized and empowered to accept for the state, in the name of the fund, gifts, donations, contributions, bequests of money or securities and such sums as may become available as a result of a voluntary check-off and contribution of state tax refunds on state corporate and personal income tax return forms designed by the state tax commissioner. Also, there may be transferred into such fund, upon the requisition of the governor, any unexpended balance in any year remaining after distribution of funds allocated to and received by the state pursuant to the “Low Income Energy Assistance Program” established by and pursuant to the Omnibus Budget Reconciliation Act of 1981, (Title 42, U.S.C. §§8621 et seq.) to the extent and only to the extent...
such transfers may be permitted by applicable statute, rule
or regulation of the United States: Provided, That nothing
herein shall be construed to permit, require or authorize
any discontinuance or reduction of assistance to any person
now or hereafter eligible for assistance from the "Low
Income Energy Assistance Program."

(2) At the end of the billing period for the month of
March, one thousand nine hundred eighty-four, and each
year thereafter the commission shall ascertain from the
auditor the total amount available for distribution in that
fiscal year, if any, from the low income residential utility
assistance fund created under this section. Such fund shall
be allocated among the various gas and electric utilities
according to the proportionate share of each such utility's
revenue deficiency resulting from reduced rates mandated
by section one of this article bears to the total aggregate
deficiency of all such utilities. The commission shall
transmit to the auditor its requisition drawn to the order of
each affected utility for the proportion of its revenue
deficiency to be paid from the fund.

Such payments may be made as frequently during any
fiscal year as may be deemed appropriate by the
commission.

(3) After payment by the auditor under this section, the
remaining revenue deficiency, if any, shall be allowed as a
tax credit against the liability of the utility pursuant to the
provisions of section eleven, article twenty-four of chapter
eleven.

ARTICLE 2B. TEMPORARY SUSPENSION OF RATE INCREASES.

§24-2B-1. Temporary suspension of rate increases.

§24-2B-2. Emergency rate increase; financial hardship procedure.

§24-2B-1. Temporary suspension of rate increases.

1 Pursuant to the findings contained in subsections (h) and
2 (i), section one, article one of this chapter and in order to
3 permit the public service commission to implement the
4 provisions of Enrolled Committee Substitute for S. B. 117
5 enacted by the Legislature during the regular session
6 thereof in the year one thousand nine hundred eighty-three,
7 and notwithstanding any other provision of this chapter,
8 upon the effective date of this article, the commission shall
9 authorize no increase of rates charged by any utility for
10 natural gas to any customer of any class for a period of
11 twelve months. With respect to cases for rate increases
12 which are pending before the commission on the effective
13 date of this section, such cases may be suspended by the
14 commission and held in abeyance by the commission during
15 the pendency of the period of suspension mandated by this
16 section or any such cases may proceed to completion and the
17 commission may rule thereon upon the same to the same
18 extent as if this section had not been enacted, all within the
19 sound discretion of the commission.

20 The commission may authorize such gas rate increases
21 during the period of suspension of rate increases mandated
22 by this section as it may deem proper by reason of increased
23 costs of purchased gas. The commission may consider in
24 determining whether to authorize such rate increases the
25 purchase and use of West Virginia gas by such utilities if
26 such gas were available at a cheaper rate than other gas
27 actually purchased by such utilities.

§24-2B-2. Emergency rate increase; financial hardship
procedure.

1 During the period of temporary suspension of rates
generally, as provided herein, the commission may upon
3 petition by a utility allow an emergency rate to take effect,
4 subject to future modification by the commission and
5 subject to refund to the customers of such utility, if it is
6 determined that such emergency rate is necessary to protect
7 the utility from extreme financial hardship and if that
8 financial hardship is attributable solely to the temporary
9 suspension of rate increases. The commission shall provide
10 by rule and regulation criteria for determination of extreme
11 financial hardship within the meaning of this section. Such
12 petition shall be subject to the same notice requirements as
13 set forth in article two, section four-a of this chapter.
ARTICLE 3. DUTIES AND PRIVILEGES OF PUBLIC UTILITIES SUBJECT TO REGULATIONS OF COMMISSION.

§24-3-2. Discrimination prohibited.
§24-3-3a. Gas utility pipelines declared as common carriers; commission approval of certain transportation.
§24-3-7. Permit to abandon service; certificate; alternative service.
§24-3-8. Deposits.

§24-3-2. Discrimination prohibited.

1 No public utility subject to the provisions of this chapter shall, directly or indirectly, by any special rate, rebate, drawback or other device or method, charge, demand, collect or receive from any person, firm or corporation, a greater or less compensation, for any service rendered or to be rendered, than it charges, demands, collects or receives from any other person, firm or corporation for doing a like and contemporaneous service under the same or substantially similar circumstances and conditions.

10 It shall be unlawful for any public utility subject to the provisions of this chapter to make or give any undue or unreasonable preference or advantage to any particular person, company, firm, corporation or locality, or any particular character of traffic or service, in any respect whatsoever, or to subject any particular person, firm, corporation, company or locality, or any particular character of traffic or service, to any undue or unreasonable prejudice or disadvantage in any respect whatsoever.

19 Nothing in this section shall be construed to prevent the commission from authorizing or requiring any rate design consistent with the purposes and policies set forth in article two-a of this chapter.

§24-3-3a. Gas utility pipelines declared as common carriers; commission approval of certain transportation.

1 (a) As used in this section or in section eleven, article two of this chapter:

3 (1) "Intrastate pipeline" means (i) any utility or (ii) any other person, firm or corporation engaged in natural gas transportation in intrastate commerce to or for another person, firm or corporation for compensation.

7 (2) "Interstate pipeline" means any person, firm or corporation engaged in natural gas transportation subject
to the jurisdiction of the FERC under the Natural Gas Act or

(3) "Local distribution company" means any person,
other than any interstate pipeline or any intrastate pipeline,
engaged in transportation or local distribution of natural
gas and the sale of natural gas for ultimate consumption.

(4) "Intrastate commerce" includes the production,
gathering, treatment, processing, transportation and
delivery of natural gas entirely within this state.

(5) "Transportation" includes exchange, backhaul,
displacement or other means of transportation.

(6) "FERC" means the Federal Energy Regulatory
Commission.

(b) The commission may by rule or order, authorize and
require the transportation of natural gas in intrastate
commerce by intrastate pipelines, by interstate pipelines
with unused or excess capacity not needed to meet
intrastate commerce demands or by local distribution
companies for any person for one or more uses, as defined
by rule, by the commission in the case of:

(1) Natural gas sold by a producer, pipeline or other
seller to such person; or

(2) Natural gas produced by such person.

(c) For reasons of safety, deliverability or operational
efficiency the commission may, in its discretion, by rule or
order, exclude from the requirements of this section any
part of any pipeline solely dedicated to storage, or
gathering, or low pressure distribution of natural gas.

(d) (1) The rates and charges of any interstate pipeline
with respect to any transportation authorized and required
under subsection (b) of this section shall be just and
reasonable and computed by the public service commission
in accordance with the guidelines set forth by the FERC and
in effect upon the date of application by the commission for
the transportation of natural gas by any interstate pipeline
on behalf of any intrastate pipeline or any local distribution
company.

(2) The rates and charges of any intrastate pipeline with
respect to any transportation authorized and required
under subsection (b) of this section shall be fair and reasonable and may not exceed an amount which is reasonably comparable to the rates and charges which interstate pipelines would be permitted to charge for providing similar transportation service. The computation of such rates and charges by the public service commission shall be in accordance with the guidelines set forth by the FERC and in effect upon the date of application by the commission for the transportation of natural gas by any intrastate pipeline in behalf of any interstate pipeline or any local distribution company served by any interstate pipeline.

(e) The provisions of this article and each section, subsection, subdivision, paragraph and subparagraph thereof shall be severable from the provisions of each other subparagraph, paragraph, subdivision, subsection, section, article or chapter of this code so that if any provision of this article be held void, the remaining provisions of this act and this code shall remain valid.

§24-3-7. Permit to abandon service; certificate; alternative service.

No railroad or other public utility shall abandon all or any portion of its service to the public or the operation of any of its lines which would affect the service it is rendering the public unless and until there shall first have been filed with the public service commission of this state an application for a permit to abandon service and obtained from the commission an order stating that the present and future public convenience and necessity permits such abandonment. In the event the commission determines that an application to abandon gas service or any part thereof is in the public interest and required by the present and future public convenience and necessity, it shall include in its order, as a condition of releasing any such utility from its public service obligation to provide gas service, a provision requiring the utility, prior to discontinuing service, to pay the cost reasonably necessary to convert each customer to an alternate fuel source.

§24-3-8. Deposits.

No public utility shall require any deposit of any
residential customer which shall exceed one twelfth of the
estimated annual charge to the customer for such service:
Provided, That the provisions of this section shall not apply
to deposits received prior to the effective date of this act.

CHAPTER 187
(S. B. 525—By Mr. Williams)

ARTICLE 5A. WATER POLLUTION CONTROL ACT.

§20-5A-7. Procedure concerning permits required under article; transfer of permits; prior permits.

(a) The chief or his duly authorized representatives shall conduct such investigation as is deemed necessary and proper in order to determine whether any such application should be granted or denied. In making such investigation and determination as to any application pertaining solely to sewage, the chief shall consult with the director of the division of sanitary engineering of the state department of health, and in making such investigation and determination as to any application pertaining to any activity specified in subdivision (7), subsection (b), section five of this article, the chief shall consult with the director of the state geological and economic survey and the deputy director of the oil and gas division of the department of mines, and all such persons shall cooperate with the chief and assist him in carrying out the duties and responsibilities imposed upon him under the provisions of this article and the rules and regulations of the board; such cooperation shall include, but not be limited to, a written recommendation approving or disapproving the granting of the permit and the reason or reasons for such recommendation, which recommendation and the reason or reasons therefor shall be submitted to the chief within the specified time period prescribed by rules and regulations of the board.

(d) An application for a permit incident to remedial
action in accordance with the provisions of section eleven

However, an applicant may alter the plans and specifications for the proposed activity and submit a new application for any such permit, in which event the procedure hereinbefore outlined with respect to an original application shall apply.

(g) Upon the sale of property which includes an activity for which the department's permit was granted, the permit shall be transferable to the new owner, but the transfer shall not become effective until the provisions of section eight-b of this article are fully complied with, and until such transfer is made in the records of the division of water resources.

(h) All permits for the discharge of sewage, industrial wastes or other wastes into any waters of the state issued by the water resources board prior to July one, one thousand nine hundred sixty-four, and all permits heretofore issued under the provisions of this article, and which have not been heretofore revoked, are subject to review, revocation, suspension, modification and reissuance in accordance with the terms and conditions of this article and the rules and regulations promulgated thereunder. §23-4-4. **Funeral expenses.**

In case the personal injury causes death, reasonable funeral expenses, not to exceed two thousand five hundred dollars, shall be paid from the fund, payment to be made to the persons who have furnished the services and supplies, or to the persons who have advanced payment for same, as the commissioner may deem proper, in addition to such award as may be made to the employee's dependents.

CHAPTER 192

(Com. Sub. for H. B. 1201—By Mr. Speaker, Mr. See and Mr. Albright)

[Passed February 7, 1983; in effect ninety days from passage. Approved by the Governor.]
the West Virginia workmen's compensation system and the immunity from suit provisions provided as a part of such system; specifying circumstances under which the immunity from suit shall be abrogated; requiring a court hearing in action brought under this chapter to dismiss the action unless there is substantial evidence of the existence of the facts required by this section; disallowing punitive or exemplary damages in suits other than those based upon an injury caused by an employer who acted with a consciously, subjectively and deliberately formed intention to produce the specific result of injury or death to an employee; providing that the provisions of this section are severable; establishing an employers' excess liability fund, which is separate from the workmen's compensation fund and participation in which is optional for employers; providing for payment of damages from the fund; the manner of settlement of claims against the fund in certain cases; providing for the funding of the fund; and providing for the administration of the fund and clarifying the rule-making and other powers of the workmen's compensation commissioner with respect to said fund.

Be it enacted by the Legislature of West Virginia:

That section two, article four, chapter twenty-three of the code of West Virginia, one thousand nine hundred thirty-one, as amended, be amended and reenacted; and that said chapter be further amended by adding thereto a new article, designated article four-c, all to read as follows:

Article
  4. Disability and Death Benefits.
  4C. Employers' Excess Liability Fund.

ARTICLE 4. DISABILITY AND DEATH BENEFITS.

§23-4-2. Disbursement where injury is self-inflicted or intentionally caused by employer; legislative declarations and findings; "deliberate intention" defined.

1 (a) Notwithstanding anything hereinbefore or hereinafter contained, no employee or dependent of any employee shall be entitled to receive any sum from the workmen's compensation fund, or to direct-compensation from any employer making the election and receiving the permission mentioned in section nine, article two of this chapter, or otherwise under the pro-
visions of this chapter, on account of any personal injury to
or death to any employee caused by a self-inflicted injury or
the intoxication of such employee. For the purpose of this
chapter, the commissioner may cooperate with the state de-
partment of mines and the state department of labor in pro-
moting general safety programs and in formulating rules and
regulations to govern hazardous employments.

(b) If injury or death result to any employee from the
deliberate intention of his employer to produce such injury
or death, the employee, the widow, widower, child or dependent
of the employee shall have the privilege to take under this
chapter, and shall also have cause of action against the em-
ployer, as if this chapter had not been enacted, for any excess
of damages over the amount received or receivable under this
chapter.

(c) (1) It is declared that enactment of this chapter and the
establishment of the workmen’s compensation system in this
chapter was and is intended to remove from the common law
tort system all disputes between or among employers and em-
ployees regarding the compensation to be received for injury
or death to an employee except as herein expressly provided,
and to establish a system which compensates even though the
injury or death of an employee may be caused by his own fault
or the fault of a co-employee; that the immunity established
in sections six and six-a, article two of this chapter, is an
essential aspect of this workmen’s compensation system; that
the intent of the Legislature in providing immunity from com-
mon law suit was and is to protect those so immunized from
litigation outside the workmen’s compensation system except
as herein expressly provided; that, in enacting the immunity
provisions of this chapter, the Legislature intended to create
a legislative standard for loss of that immunity of more nar-
row application and containing more specific mandatory ele-
ments than the common law tort system concept and standard
of willful, wanton and reckless misconduct; and that it was
and is the legislative intent to promote prompt judicial reso-
lution of the question of whether a suit prosecuted under the
asserted authority of this section is or is not prohibited by the
immunity granted under this chapter.
(2) The immunity from suit provided under this section and under section six-a, article two of this chapter, may be lost only if the employer or person against whom liability is asserted acted with "deliberate intention." This requirement may be satisfied only if:

(i) It is proved that such employer or person against whom liability is asserted acted with a consciously, subjectively and deliberately formed intention to produce the specific result of injury or death to an employee. This standard requires a showing of an actual, specific intent and may not be satisfied by allegation or proof of (A) conduct which produces a result that was not specifically intended; (B) conduct which constitutes negligence, no matter how gross or aggravated; or (C) willful, wanton or reckless misconduct; or

(ii) The trier of fact determines, either through specific findings of fact made by the court in a trial without a jury, or through special interrogatories to the jury in a jury trial, that all of the following facts are proven:

(A) That a specific unsafe working condition existed in the workplace which presented a high degree of risk and a strong probability of serious injury or death;

(B) That the employer had a subjective realization and an appreciation of the existence of such specific unsafe working condition and of the high degree of risk and the strong probability of serious injury or death presented by such specific unsafe working condition;

(C) That such specific unsafe working condition was a violation of a state or federal safety statute, rule or regulation, whether cited or not, or of a commonly accepted and well-known safety standard within the industry or business of such employer, which statute, rule, regulation or standard was specifically applicable to the particular work and working condition involved, as contrasted with a statute, rule, regulation or standard generally requiring safe workplaces, equipment or working conditions;

(D) That notwithstanding the existence of the facts set forth in subparagraphs (A) through (C) hereof, such employer never-
theless thereafter exposed an employee to such specific unsafe working condition intentionally; and

(E) That such employee so exposed suffered serious injury or death as a direct and proximate result of such specific unsafe working condition.

(iii) In cases alleging liability under the provisions of the preceding paragraph (ii):

(A) No punitive or exemplary damages shall be awarded to the employee or other plaintiff;

(B) Notwithstanding any other provision of law or rule to the contrary, and consistent with the legislative findings of intent to promote prompt judicial resolution of issues of immunity from litigation under this chapter, the court shall dismiss the action upon motion for summary judgment if it shall find, pursuant to Rule 56 of the Rules of Civil Procedure that one or more of the facts required to be proved by the provisions of subparagraphs (A) through (E) of the preceding paragraph (ii) do not exist, and the court shall dismiss the action upon a timely motion for a directed verdict against the plaintiff if after considering all the evidence and every inference legitimately and reasonably raised thereby most favorably to the plaintiff, the court shall determine that there is not sufficient evidence to find each and every one of the facts required to be proven by the provisions of subparagraph (A) through (E) of the preceding paragraph (ii); and

(C) The provisions of this paragraph and of each subparagraph thereof shall be severable from the provisions of each other subparagraph, subsection, section, article or chapter of this code so that if any provision of a subparagraph of this paragraph be held void, the remaining provisions of this act and this code shall remain valid.

(d) The reenactment of this section in the regular session of the Legislature during the year one thousand nine hundred eighty-three, shall not in any way affect the right of any person to bring an action with respect to or upon any cause of action which arose or accrued prior to the effective date of such reenactment.
ARTICLE 4C. EMPLOYERS' EXCESS LIABILITY FUND.

§23-4C-1. Purpose.

The purpose of this article is to establish a fund to provide insurance coverage for employers subject to this chapter who may be subject to liability under section two, article four of this chapter, for any excess of damages over the amount received or receivable under this chapter.

§23-4C-2. Employers' excess liability fund established.

To provide insurance coverage for employers subject to this chapter who may be subject to liability for any excess of damages over the amount received or receivable under this chapter, there is hereby established a fund to be known as the employers' excess liability fund, which fund shall be separate from the workmen's compensation fund. The employers' excess liability fund shall consist of premiums paid thereto by employers who may voluntarily elect to subscribe to the fund for coverage of potential liability to any person who may be entitled to any excess of damages over the amount received or receivable under this chapter.

§23-4C-3. Payment of excess damages from fund.

Upon receipt of a final order of a court determining the liability under section two, article four of this chapter, of a subscribing employer and the amount of the excess of damages over the amount received or receivable under this chapter, the commissioner shall make disbursements from the employers' excess liability fund in such amounts and to such persons as such final order may direct. In the event of a proposed settlement of a disputed claim against a subscribing employer, the commissioner, upon approving the settlement upon petition by the subscribing employer, shall make disbursements from the employers' excess liability fund in such amounts and to such persons as the approved settlement may specify. In the event of the settlement of any disputed claim wherein one
or more of the persons entitled to the proceeds to be paid pursuant to such settlement is under a legal disability by reason of age, mental incapacity or other reason, such settlement, if required by other provisions of law to be approved by a circuit court, shall be approved by the circuit court of the county wherein such person under disability is a resident or wherein a civil action could be brought and maintained upon such claim, in addition to being approved by the commissioner as required by this section. In order to expeditiously establish such criteria and procedures, the commissioner is hereby given authority to promulgate such emergency rule or rules as may be necessary in accordance with the provisions of section fifteen, article three, chapter twenty-nine-a of this code. The provisions of said section fifteen, article three, chapter twenty-nine-a notwithstanding, such emergency rule, whether procedural, interpretive or legislative, shall be effective upon the filing thereof in the state register and shall have an effective period of not to exceed eighteen months, unless any such rule or rules be altered or amended or such period of time shortened or lengthened by subsequent act of the Legislature. No action shall lie for de novo or other review of such rule to contest or question the existence of circumstances justifying the promulgation of an emergency rule nor to challenge the validity of such rule because of its classification as an emergency rule.

§23-4C-4. Employers' excess liability fund; how funded.

For the purpose of creating the employers' excess liability fund, each employer who shall elect to subscribe to the fund shall pay premiums based upon and being such a percentage of the payroll of the employer as the commissioner may determine. The fixing, maintaining and adjusting of premium rates and the
initial classification of subscribers into groups or classes pur-
suant to this section shall be deemed to be findings or deter-
minations of fact and not a legislative rule. In addition, the
commissioner shall by legislative rule prescribe procedures for
subscription, payroll reporting, premium payment, termination
of subscription, reinstatement, reclassification of groups, classes
or subscribers, the increase or decrease of premiums based
upon incidence of liability and amounts awarded, and other
matters pertinent to the subscribers' continuing participation in
the employers' excess liability fund.

Resolved by the Legislature of West Virginia, two thirds of the members elected to each house agreeing thereto:

That the question of ratification or rejection of an amendment to the Constitution of the State of West Virginia be submitted to the voters of the State at the next general election to be held in the year one thousand nine hundred eighty-two, which proposed amendment is that section one-b, article ten thereof be amended to read as follows:

ARTICLE X. TAXATION AND FINANCE.

1b. Property tax Limitation and Homestead Exemption Amendment of 1982.

1. Ad valorem property taxation shall be in accordance with this section and other applicable provisions of this article not inconsistent with this section.
Subsection A—Value; Rate of Assessment; Exceptions

Notwithstanding any other provisions of this Constitution and except as otherwise provided in this section, all property subject to ad valorem taxation shall be assessed at sixty percent of its value, as directed to be ascertained in this section, except that the Legislature may from time to time, by general law agreed to by two thirds of the members elected to each house, establish a higher percentage for the purposes of this paragraph, which percentage shall be uniform as to all classes of property defined in section one of this article, but not more than one hundred percent of such value.

Notwithstanding the foregoing, for the first day of July, one thousand nine hundred eighty-two, and the first day of July of each year thereafter until the values may be fixed as a result of the first statewide reappraisal hereinafter required, assessments shall be made under the provisions of current statutory law, which is hereby validated for such purpose until and unless amended by the Legislature. Assessment and taxation in accord with this section shall be deemed to be equal and uniform for all purposes.

Subsection B—Determination of Value

The Legislature shall provide by general law for periodic statewide reappraisal of all property, which reappraisal shall be related for all property to a specified base year which, as to each such reappraisal, shall be uniform for each appraisal for all classes of property and all counties. In such law, the Legislature shall provide for consideration of (1) trends in market values over a fixed period of years prior to the base year, (2) the location of the property, and (3) such other factors and methods as it may determine: Provided, That with respect to reappraisal of all property upon the base year of one thousand nine hundred eighty, such reappraisals are deemed to be valid and in compliance with this section: Provided, however, That with respect to farm property, as defined from time to time by the Legislature by general law, the determination of value shall be according to its fair and reasonable value for farming purposes, as may be defined by general law.
The results of each statewide appraisal shall upon completion be certified and published and errors therein may be corrected, all as provided by general law. The first such statewide appraisal shall be completed, certified and published on or before the thirty-first day of March, one thousand nine hundred eighty-five, for use when directed by the Legislature.

The Legislature shall further prescribe by general law the manner in which each statewide reappraisal shall be employed to establish the value of the various separately assessed parcels or interests in parcels of real property and various items of personal property subject to ad valorem property taxation, the methods by which increases and reductions in value subsequent to the base year of each statewide reappraisal shall be ascertained, and require the enforcement thereof.

Subsection C—General Homestead Exemption

Notwithstanding any other provision of this Constitution to the contrary, the first twenty thousand dollars of assessed valuation of any real property, or of personal property in the form of a mobile home, used exclusively for residential purposes and occupied by the owner or one of the owners thereof as his residence who is a citizen of this state and who is sixty-five years of age or older or is permanently and totally disabled as that term may be defined by the Legislature, shall be exempt from ad valorem property taxation, subject to such requirements, limitations and conditions as shall be prescribed by general law.

Notwithstanding any other provision of this Constitution to the contrary, the Legislature shall have the authority to provide by general law for an exemption from ad valorem property taxation in an amount not to exceed the first twenty thousand dollars of value of any real property, or of personal property in the form of a mobile home, used exclusively for residential purposes and occupied by the owner or one of the owners thereof as his residence who is a citizen of this state, and who is under sixty-five years of age and not totally and permanently disabled: Provided, That upon enactment of such general law, this exemption shall only apply to such property in any county in which the
property was appraised at its value as of the first day of January, one thousand nine hundred eighty, or thereafter, as determined by the Legislature, and this exemption shall be phased in over such period of time not to exceed five years from the date such property was so appraised, or such longer time as the Legislature may determine by general law: Provided, however, That in no event shall any one person and his spouse, or one homestead be entitled to more than one exemption under these provisions: Provided further, That these provisions are subject to such requirements, limitations and conditions as shall be prescribed by general law.

The Legislature shall have the authority to provide by general law for property tax relief to citizens of this State who are tenants of residential or farm property.

Subsection D—Additional Limitations on Value

With respect to the first statewide reappraisal, pursuant to this section, the resulting increase in value in each and every parcel of land or interest therein and various items of personal property subject to ad valorem property taxation over and above the previously assessed value shall be allocated over a period of ten years in equal amounts annually.

The Legislature may by general law also provide for the phasing in of any subsequent statewide reappraisal of property.

Subsection E—Levies for Free Schools

In equalizing the support of free schools provided by state and local taxes, the Legislature may require that the local school districts levy all or any portion of the maximum levies allowed under section one of this article which has been allocated to such local school districts.

Within the limits of the maximum levies permitted for excess levies for schools or better schools in sections one and ten of this article, the Legislature may, in lieu of the exercise of such powers by the local school districts as heretofore provided, submit to the voters, by general law, a statewide excess levy, and if it be approved by the required number of voters, impose such levy, subject however to all
the limitations and requirements for the approval of such
levies as in the case of a district levy. The law submitting
the question to the voters shall provide, upon approval of
the levy by the voters, for the assumption of the obligation of
any local excess levies for schools then in force theretofore
authorized by the voters of a local taxing unit to the extent
of such excess levies imposed by the state and so as to
avoid double taxation of those local districts. The Legislature
may also by general law reserve to the school districts such
portions of the power to lay authorized excess levies as it may
deem appropriate to enable local school districts to provide
educational services which are not required to be furnished
or supported by the state. If a statewide excess levy for the
support of free schools is approved by the required majority,
the revenue from such a statewide excess levy shall be de-
posited in the state treasury and be allocated first for the
local obligations assumed and thereafter for such part of the
state effort to support free schools, by appropriation or as
the law submitting the levy to the voters shall require, as
the case may be.

The defeat of any such proposed statewide excess levy for
school purposes shall not in any way abrogate or impair any
local existing excess levy for such purpose nor prevent the
adoption of any future local excess levy for such purpose.

Subsection F—Implementation

In the event of any inconsistency between any of the pro-
visions of this section and other provisions of this Con-
stitution, the provisions of this section shall prevail. The
Legislature shall have plenary power to provide by general
law for the equitable application of this article and, as to
taxes to be assessed prior to the first statewide reappraisal,
to make such laws retroactive to the first day of July, one
thousand nine hundred eighty-two or thereafter.

Resolved further, That in accordance with the provisions of
article eleven, chapter three of the code of West Virginia, one
thousand nine hundred thirty-one, as amended, such pro-
posed amendment is hereby numbered “Amendment No. 3”
and designated as the “Property Tax Limitation and Home-
stead Exemption Amendment of 1982" and the purpose of
the proposed amendment is summarized as follows: "To
provide for assessment of property for purposes of ad valorem
taxation at sixty percent of its value upon statewide re-
appraisal; to provide for assessment of property under current
statutory law until the results of such reappraisal and to
validate such law; to provide for the determination of market
value, and to permit the Legislature by a vote of two thirds
of the members elected to each House to set higher percentages
for all classes of property; to authorize the Legislature by
general law to permit the results of any reappraisal to be
phased in over such period of time after the year in which
the reappraisal is completed in such manner as the Legislature
may specify; to provide the Legislature with the power to pro-
tect the levies for free schools and to provide for statewide
levies for such purpose; to require an exemption from ad
valorem taxation amounting to twenty thousand dollars of
assessed value of any real property or mobile home occupied
as a resident by persons who are sixty-five years of age or
older or permanently disabled; to authorize an exemption of
up to twenty thousand dollars of value for owners of homes
or mobile homes who are under sixty-five years of age and not
disabled; and to provide for a phase-in period for the latter
exemption after appraisement of property at its value as of
the first day of January, one thousand nine hundred eighty
or thereafter, as determined by the Legislature."
AN ACT to direct that certain dedicated revenues appropriated from the general revenue fund of the state to the department of health be expended for the care, treatment and rehabilitation of alcoholics; declaring the balance of funds available for such purpose.

WHEREAS, The West Virginia supreme court of appeals, in the case of McGraw v. Hansbarger, No. 15676, issued March 31, 1983, determined that section nine-c, article three, chapter sixty of the code of West Virginia, established a special revenue account of one million dollars annually which has been appropriated by budget bills since the year one thousand nine hundred sixty-nine, to be used exclusively for the care, treatment and rehabilitation of alcoholics; and

WHEREAS, The West Virginia supreme court of appeals in that case further stated that some undetermined amount remains in this account, which amount may be as much as fourteen million dollars, and has directed the commissioner of the department of finance and administration to consult with and assist the director of the department of health in the preparation of an appropriate expenditure schedule for expenditure of the revenue in such account; and

WHEREAS, No such special revenue account has ever been kept by any state agency, in either the executive or legislative branches of government, so that the sum of up to fourteen million dollars does
not actually exist for the purposes of section nine-c, article three, chapter sixty of said code; and

WHEREAS, The sum of one million dollars per year has been collected by the alcohol beverage control commissioner and paid into the general revenue fund of the state, in accordance with the requirements of section nine-c, article three, chapter sixty of said code; and

WHEREAS, All moneys in the general revenue fund of the state, in each year beginning one thousand nine hundred sixty-nine, have been appropriated through the regular budgetary process, with no specific appropriation of any general or dedicated revenues solely for the care, treatment and rehabilitation of alcoholics; and

WHEREAS, The Legislature has appropriated within Account No. 4000 of the budget of the state department of health for fiscal year one thousand nine hundred eighty-four, a line item for alcohol, drug abuse and developmentally disabled in the amount of $2,136,000; therefore

Be it enacted by the Legislature of West Virginia:

That it is expressly found and declared by the Legislature that the balance of all accrued moneys collected in dedicated revenues since the year one thousand nine hundred sixty-nine, pursuant to section nine-c, article three, chapter sixty of the code of West Virginia, and appropriated exclusively for the care, treatment and rehabilitation of alcoholics is zero; and the director of the department of health shall expend not less than one million dollars of the sum appropriated to a line item for alcohol, drug abuse and developmentally disabled for fiscal year one thousand nine hundred eighty-four, exclusively for the care, treatment and rehabilitation of alcoholics.

ligious opinions, affiliations or race; political activities
prohibited.

2 demoted or dismissed from any position in the classified
3 service or in any way favored or discriminated against with
4 respect to such employment because of his political or reli-

6 be construed as precluding the dismissal of any employee who

2 (b) It shall be the duty of the tax commissioner to see that the laws concerning the periodic statewide appraisal of property are faithfully enforced. He shall prepare all proper forms and books for the use and guidance of appraisers and assessors, and shall perform all such other duties as may be required by law. He shall from time to time visit the several counties and shall inspect the work of the appraisers and the several assessors and shall confer with them respecting such work for the future. In such conference, or by writing or otherwise, he may inquire into the proceedings of any such officer, make to him such suggestions respecting the discharge of his duty as may seem proper, and give such information and require such action as will cause all property subject to ad valorem property taxation to be appraised at its market value.

3 (c) The tax commissioner may appoint competent persons to appraise property values, and may employ experts to examine and report upon the different kinds and classes of property in the state, with a view to ascertaining the value thereof for appraisal and assessment purposes, to the end that he may furnish to county assessors, county commissions and the state board of public works more accurate information, and more effectively aid and
supervise the assessors and the county commissions in their work of assessment and valuation of property for purposes of taxation.

(d) Upon the application of any officer concerned with the assessment or collection of taxes, the tax commissioner shall, as to any matter specified by such officer, make like suggestions and give like information. In case of the failure of any appraiser or assessing officer in the discharge of any duty imposed upon him by law, the said commissioner shall, after due notice to any such assessor or collecting officer, proceed to enforce such penalty as may be provided by law, including, in any proper case, the removal of such officer, and to that end the commissioner is authorized to appear before any court or tribunal having jurisdiction. In any proceeding to enforce a penalty, if a hearing for an assessor or collecting officer is not otherwise provided by law, then such assessor or collecting officer shall be afforded a hearing by the tax commissioner in accord with the provisions of article five, chapter twenty-nine-a of this code. The commissioner may cause the violation of any law respecting the appraisal of property subject to ad valorem property taxation to be prosecuted. He may also be heard before any court, council or tribunal, in any proceeding in which an abatement of taxes is sought. The commissioner shall, inter alia, have the power to accept bids, award contracts, requisition funds appropriated for his expenditure, and require the cooperation of other state and local officials. In awarding such contracts the tax commissioner shall require that provision be made for such indemnity, bond or contract of insurance as will be sufficient, in the tax commissioner's judgment, to hold the state harmless.

(e) For the efficient administration of the powers vested in the tax commissioner by this section, the commissioner shall have the power to issue subpoenas and subpoenas duces tecum, and compel the attendance of witnesses and the production of books, papers, records, documents and testimony at the time and place specified. Every such subpoena and subpoena duces tecum shall be served at least fifteen days before the return date thereof by personal service made by any person over eighteen years of age.
Service of subpoenas and subpoenas duces tecum shall be the responsibility of the commissioner. Any persons, except a person in the employ of the state tax department, who serves any such subpoena or subpoena duces tecum shall be entitled to the same fee as sheriffs who serve witness subpoenas for the circuit courts of this state. Upon motion made promptly, and in any event before the time specified in a subpoena or subpoena duces tecum for compliance therewith, the circuit court of the county in which the person upon whom any such subpoena or subpoena duces tecum was served, has his or its principal place of business or is employed, or the circuit court of the county in which any such subpoena or subpoena duces tecum was served, or the judge of any such circuit court in vacation, may grant any relief with respect to any such subpoena or subpoena duces tecum which any such circuit court, under the "West Virginia Rules of Civil Procedure for Trial Courts of Record," could grant, and for any of the same reasons, with respect to any such subpoena or subpoena duces tecum issued from any such circuit court. In case of disobedience or neglect of any subpoena or subpoena duces tecum served on any person, or the refusal of any witness to testify to any matter regarding which he may be lawfully interrogated, the circuit court of Kanawha County or of the county in which such person resides, has his or its principal place of business or is employed, or the judge thereof in vacation, upon application by the commissioner shall compel obedience by attachment proceedings for contempt as in the case of disobedience of the requirements of a subpoena or subpoena duces tecum issued from circuit court or a refusal to testify therein. Witnesses subpoenaed under this subsection shall testify under oath or affirmation.

(f) The tax commissioner may prescribe all necessary forms and promulgate such rules and regulations as he believes necessary to carry out and enforce the provisions of this article. Such rules and regulations shall be subject to the provisions and requirements of the state administrative procedures act in chapter twenty-nine-a of this code: Provided, That all rules and regulations of the tax commissioner regarding ad valorem property taxes presently in effect on the effective date of this article shall remain in full force and effect until amended or repealed by
the commissioner in the manner prescribed by law, or
abrogated by the enactment of this article or other statutory
provisions of this code.

(g) The tax commissioner is hereby directed to
cooperate with the joint committee on government and
finance of the Legislature in its review, examination and
study of the implementation of the property tax limitation
and homestead exemption amendment of one thousand
nine hundred eighty-two, section one-b, article ten of the
constitution of West Virginia, and any other similar studies
which may arise under the authority granted to the joint
committee on government and finance under the provisions
of section three-b, article three, chapter four of this code.
The tax commissioner shall continuously monitor and
enforce the requirements of this article relating to the
employment qualifications of employees of the state and its
designated agents, and at least quarterly shall ascertain
whether such requirements are being met and report
thereon to the joint committee on government and finance.
Not less than monthly, the tax commissioner shall report to
the joint committee on government and finance or its
designated subcommittee on any matters considered or
action taken by the West Virginia appraisal control and
review commission, or any matters relating to the
reappraisal otherwise pertinent or of interest to the joint
committee on government and finance. On or before the
fifteenth day of January, one thousand nine hundred
eighty-four, the tax commissioner shall report to the joint
committee on government and finance on the benefits,
desirability and disadvantages, as well as the alternative
methods available, for the possible implementation of
section fifty-three, article VI of the constitution of West
Virginia, the forestry amendment.

That in determining value, primary consideration shall be
given to the trends of price paid for like or similar property
in the area or locality wherein such property is situate over
a period of not less than three nor more than eight years
next preceding the base year and in the case of a farm or

factors: (1) The location of such property; (2) its site

(a) On or before the first day of December, one thousand nine hundred eighty-three, every person who owns property which was situate in this state on the first day of July, one thousand nine hundred eighty-three, shall prepare a return itemizing and describing such property, whether real or personal, and shall file such return with the assessor of the assessment district wherein such property is located, except in the case of a taxpayer whose annual return for the assessment of property is filed with some other public officer, then the return required by this section shall be filed with the tax commissioner who shall allocate the contents to the appropriate counties by such means as he determines appropriate. The form for the return shall be designed by the tax commissioner, and shall provide a means for the orderly listing of all property not excepted from listing under the provisions of section five of this article. A similar return, itemizing and listing such property, shall also be made, at the same time, by every person holding, possessing or controlling real or personal property as executor, administrator, guardian, trustee, receiver, agent, partner, attorney, president or accounting officer of a corporation, consignee, broker, or in any representative or fiduciary character.

(b) The return required by subsection (a) of this section shall be made and the information furnished:

section in any case where the return is required to be made
by a fiduciary.

d With regard to real property not excepted from
listing for appraisal under the provisions of section five of
this article, a summary legal description sufficient to
identify and locate the property shall be given for each
parcel of real estate, and, if applicable, the name of the
street and number, its area, and if improved, a short
statement of the character of the improvements.

§11-1A-5. Property excepted from listing for appraisal.

Bank deposits, money and household goods and personal
effects, if such household goods and personal effects are not
held or used for profit, are exempt from the ad valorem
property taxation and shall not be described and listed on
the forms required to be filed under the provisions of
section four of this article: Provided, That the term
"personal effects" shall include, but not be limited to,
firearms and ammunition held for personal use and not for
profit. A person shall also not list real property assessed and
listed upon the land books of the several counties for the
taxable year one thousand nine hundred eighty-three, or on
the first day of July, one thousand nine hundred eighty-
three, for the taxable year one thousand nine hundred
eighty-four.

§11-1A-6. Supplemental information required to be filed.

Every person required to file a tax return under the
provisions of article thirteen, twenty-one or twenty-four of
this chapter for the period ending on the thirty-first day of
December, one thousand nine hundred eighty-two, or for
income received or to be received during the calendar year
one thousand nine hundred eighty-three, shall file a copy of
a depreciation schedule included in a federal or state tax
return for income taxation for the taxpayer's tax year
ending on or after the first day of June, one thousand nine
hundred eighty-two, or if the person did not prepare a
depreciation schedule for such return or elects not to
disclose the schedule from the tax return, a schedule
showing property on which a deduction for depreciation
could be claimed against gross or adjusted gross income
received or receivable in the selected year, including a brief
description of such property, its basis and, to the extent the
taxpayer elects, any accumulated depreciation the
taxpayer could have claimed in such year and prior years.

§11-1A-7. When valuations not certified.

If a person is required under the provisions of this article
to fix what he deems to be the true and actual value of an
item of property, whether real or personal, and if such
valuation is not required to be made on any other tax return,
then the valuation required by this article shall not be taken
as certified or given under oath, but all other information
required to be given under the provisions of this article shall
be deemed to have been given under oath.
§11-1A-8. Ascertainment of assessed value as of the first day of July, one thousand nine hundred eighty-three.

(a) All real property assessed and listed upon the land books in the several counties as of the first day of July, one thousand nine hundred eighty-three, and property required to be described and listed pursuant to section four of this article, shall as soon as the same be returned or, if not returned, listed on the land books or otherwise identified, be categorized and systematically inventoried by the assessor of the county wherein such property is returned or returnable and by the tax commissioner in the case of property returned or returnable to the tax commissioner, for the purpose of ascertaining what the previously assessed value for each such item was or would have been as of the first day of July, one thousand nine hundred eighty-three.

The information shall be categorized and systematically inventoried in accord with requirements specified by the tax commissioner and entered into the statewide data bank established by the tax commissioner for such purpose by the officer with whom the return is to be filed. The tax commissioner shall provide for the receipt and permanent preservation of the information entered in the data bank under this section and under the provisions of section nine of this article. As to any such property not so assigned a previously assessed value, effort shall be made by the appropriate county assessor to cause a back assessment to be made for the assessment date of the first day of July, one thousand nine hundred eighty-three, and subsequent assessment dates thereafter, if such assessment would have been proper as of the first day of July, one thousand nine hundred eighty-three, or thereafter, under law applicable to assessments on such dates.

(b) Property which is exempt from taxation under the provisions of section nine, article three of this chapter shall nonetheless be listed pursuant to section four of this article, and categorized and inventoried pursuant to subsection (a) of this section, and the exemption confirmed or not confirmed.

(c) It is the intention of the Legislature in enacting this section to provide a mechanism for determining the previously assessed value of property as that term is used in
subsection D, section one-b, article X of the constitution of West Virginia, in order that such previously assessed value may be compared with the assessed value of such property following the first statewide reappraisal to determine whether there is a resulting increase which should be allocated over a period of ten years in equal amounts annually, as required by the said constitutional provision.

§11-1A-9. Subsequent alterations in property; economic change.

In determining the previously assessed value of any property under the provisions of section eight of this article or in determining the market value or the assessed value of property as those terms are defined in section three of this article, the appraiser or assessor shall record any information evidencing alterations in the property subsequent to the first day of July, one thousand nine hundred eighty-three, including, but not limited to, substitutions, accretions, improvements, additions, replacements, destructions, removals, casualties, acts of God, waste or any like occurrences. The economic impact on the property, whether inflationary or deflationary as to value, shall be noted, but not considered to have an effect upon the previously assessed value.

§11-1A-10. Valuation of farm property.

(a) With respect to farm property, the tax commissioner shall appraise such property so as to ascertain its fair and reasonable value for farming purposes regardless of what the value of the property would be if used for some other purpose, and the value shall be arrived at by giving consideration to the fair and reasonable income which the property might be expected to earn in the locality wherein situated, if rented. The fair and reasonable value for farming purposes shall be deemed to be the market value of such property for appraisement purposes.

(b) A person is not engaged in farming if he is primarily engaged in forestry or growing timber. Additionally, a corporation is not engaged in farming unless its principal activity is the business of farming, and in the event that the controlling stock interest in the corporation is owned by
another corporation, the corporation owning the controlling interest must also be primarily engaged in the business of farming.

§11-1A-11. Valuation of certain classes or species of property; reserve coal properties; oil producing properties; gas producing properties; timberland; active mining mineral interest; commercial real property and industrial land; commercial and industrial furniture, fixtures, machinery and equipment; intangible personal property; public utility property; vehicles, watercraft and aircraft.

On or before the first day of September, one thousand nine hundred eighty-three, the tax commissioner shall propose a legislative rule for submission to the Legislature pursuant to the provisions of article three, chapter twenty-nine-a of this code, which rule shall describe in detail the methods whereby the tax commissioner will determine the market value, during the first statewide reappraisal, of the following property:

1. Active and reserve coal properties;
2. Oil producing properties;
3. Gas producing properties;
4. Timberland;
5. Active mining mineral interests including limestone, fireclay, dolomite, sandstone, and other actively mined minerals;
6. Commercial real property and industrial land;
7. Commercial and industrial furniture, fixtures, machinery and equipment;
8. Intangible personal property, including stocks, accounts receivable and stocks in banks and capital of savings and loan associations;
9. Public utility property; and
10. Vehicles, watercraft and aircraft.
§11-1A-12. Division of functions between the tax commissioner and assessor; local exceptions to value; revisions by tax commissioner; participation by assessor in hearings and appeals.

(a) It is the intent of the Legislature that in carrying out the appraisal functions required by this article, the tax commissioner shall utilize the county assessors and their employees. The county clerk shall prepare a list of all transfers of real property recorded during the calendar year one thousand nine hundred eighty-three, for which payment of the excise tax on the privilege of transferring real property, required by article twenty-two of this chapter was required, and forward such list to the tax commissioner during the second month following such transfers' recording with the clerk of the county commission. The assessor shall review the land books for his county for the tax year one thousand nine hundred eighty-three and one thousand nine hundred eighty-four, and shall prepare a written property description of every parcel of real property not previously described on a property record card provided to the assessor by the tax commissioner under the provisions of section eleven, article nine-a, chapter eighteen of this code. The assessors may compile lists of comparable property sales and recommend appraisal values with respect to any property in their districts to which the tax commissioner shall give consideration when he fixes values for such property for reappraisal purposes to the extent such recommended values are supported by competent evidence.

(b) In each county during the reappraisal function, the tax commissioner shall designate a tax department employee as the coordinator of reappraisal functions among the commissioner's personnel, the commissioner's designated agents, and the assessor's personnel so as to ensure that the resulting appraisal shall be complete, equal and uniform. In each county the tax commissioner or his designated agent shall prepare a description of the number, job description and minimum qualifications of personnel needed to accomplish the reappraisal, other than permanent employees of the tax commissioner or employees
of the assessor. The tax commissioner or his designated
agent shall employ qualified individuals to fill the positions
giving first preference to persons registered with the West
Virginia department of employment security job service
program, but all such persons shall be residents of the
county, or if the tax commissioner finds it necessary for
efficiency, any contiguous county, or if none be available,
the state. The tax commissioner shall make reasonable
efforts to assure that the additional employment required
by this article is allocated equitably among the several
counties, with attention to the level of unemployment in
and the population of each county.

(c) To the extent that the tax commissioner concludes
that assessors and local employees have overemphasized or
underemphasized local aspects in determining value, the
tax commissioner may revise information concerning such
values so as to achieve uniformity in the statewide
reappraisal: Provided, That in any hearings or appeals
under the provisions of this article the assessor or employee
who participated in the gathering of such information may
be a competent witness as to how tentative values were
arrived at in the process of reappraisal before any such
revision.

The tax commissioner shall require that his employees
and any designated agent visit each parcel of land to be
reappraised and perform other functions to assure a
competent appraisal.

Upon any visit to land, no such employee, agent or
employee of the agent shall enter into a dwelling house or
the curtilage thereof, if any, unless the employee or agent
shall give written notice to an adult person then present of
the right of residents thereof to refuse such entry, nor insist
upon entry upon any other land except at reasonable times,
nor in any manner harass a person for refusing such entry or
refusing entry at an unreasonable time, nor in any other
manner intentionally harass or abuse any person incident to
any such visit.

The tax commissioner shall assure that his employees and
agents afford to all taxpayers before he certifies the
reappraisal reasonable opportunity to review and comment
in writing upon the accuracy of all real property
descriptions and other reappraisal property listings and use
reasonable means to resolve differences in such
descriptions and listings, including informal hearings,
reinspections where indicated, and written notice to any
aggrieved taxpayer of the results of such review.

Failure to comply with requirements of this section shall
not be construed to invalidate a reappraisal value once
determined and certified by the commissioner but upon any
appeal or review of such certified reappraisal any evidence
obtained in violation of the requirements of this section
may be excluded unless corroborated.

The tax commissioner shall assure that his employees and
agents maintain written records of all changes made in
property descriptions or values by reason of informal
reviews with taxpayers and all visits to land, including the
dates thereof, names of participating persons present and a
fair summary of the reasons for any changes. Such records
shall be subject to inspection and production in any
consideration of the propriety of the appraised value and
may be admissible in evidence if otherwise probative upon
the issue under consideration.

§11-1A-14. Release of results of statewide reappraisal; legis­
lative rule regarding changes in quality or quantity
of property; publication and certification of state­
wide reappraisal.

(a) As the tax commissioner completes the appraisal
process he may make the information concerning the
reappraised values available, either upon request or by
notice as hereinafter provided for in this article: Provided,
That no such information shall be made available by the tax
commissioner unless and until the same information is
available throughout the assessment district for all
property within the same class or species as the particular
property for which appraisal values are to be made
available.

(b) On or before the first day of September, one
thousand nine hundred eighty-four, the tax commissioner
shall propose a legislative rule for submission to the
Legislature pursuant to the provisions of article three, chapter twenty-nine-a of this code which rule shall describe in detail the method whereby the tax commissioner will adjust appraised values determined by the statewide reappraisal on account of substitutions, accretions, improvements, additions, replacements, destructions, removals, casualties, acts of God, waste or any like occurrences.

(c) At the time of making available information as to appraised value as provided for in this section which shall not be later than the thirty-first day of March, one thousand nine hundred eighty-five, the tax commissioner shall certify and publish such results for use when directed by the Legislature. As certifications are made and notice is given to taxpayers as provided for in section sixteen of this article, request for review, hearing and appeal under said section may proceed notwithstanding the fact that the statewide reappraisal is not completed for all classes and species of property in all counties of the state. However, none of the appraised values ascertained during the course of the statewide reappraisal of property shall be utilized for assessment purposes unless and until the statewide reappraisal is completed for all classes and species of property in all counties and the use of the results have been directed by the Legislature.

(d) Inasmuch as it is the intent of the Legislature that the tax commissioner concentrate his reappraisal efforts upon the first statewide reappraisal until it is completed, and because prior reappraisal methods and results may not be wholly consistent with the methods and results of the statewide reappraisal, the tax commissioner shall not complete, deliver or certify appraisals of nonutility real property and nonutility personal property under the provisions of section eleven, article nine-a, chapter eighteen of this code, after the effective date of this article and prior to the completion, publication and certification of the first statewide reappraisal under this article: Provided, That the tax commissioner shall not be precluded from correction of prior appraisals under the provisions of current or prior law, but this proviso shall not be construed to avoid the other provisions of this paragraph.
§11-1A-15. Appraisal of property; lists to county officials.

(a) All real property assessed, or which should have been assessed, as of the first day of July, one thousand nine hundred eighty-three, and all property described and listed pursuant to section four of this article, shall be appraised by the tax commissioner at its value as defined in this article, in order that the tax commissioner may comply with the requirement of section one of this article.

(b) As appraisals are completed and notices given in accordance with the provisions of section sixteen of this article, lists of the property appraised, the owners and valuations shall be delivered to the assessor, the county commission and the sheriff of the county wherein the appraised property is liable to assessment.

§11-1A-16. Administrative review of appraisal.

(a) Upon receipt by the assessor of the lists of property appraised and the owners and the valuations thereof, as provided by section fifteen of this article, the assessor shall forthwith cause a notice to be given in the form of a Class I-0 legal advertisement which advises that the appraisal of property within the county is or has been completed and that the results thereof are available to any person interested therein in the office of sheriff of the county wherein the property is located. After such advertisement has been made, the assessor shall forthwith mail to each owner, a notice of the amount of such valuation. The notice shall be addressed to the person or persons in whose name any such property is assessed or who is liable, and shall be mailed to the address of such person or persons as reflected upon the tax tickets in the office of the sheriff of the county wherein such property is located. Such notice shall be in a form prescribed by the tax commissioner and shall inform the owner that if he desires to challenge such valuation he must inform the tax commissioner within twenty-one days of the date of such notice, in writing, of his intention to so challenge the valuation.

(b) If the owner mails such writing to the tax commissioner within twenty-one days of the date of the notice of valuation, the tax commissioner shall, within thirty-five days after the date of the notice of valuation,
provide the owner and the assessor with a written statement
of the information upon which the tax commissioner relied
in making such appraisal.

(c) Within twenty-one days after the date of the written
statement of information furnished by the tax
commissioner as provided in subsection (b) of this section,
the owner may request the tax commissioner to review the
valuation of this property. Such request shall be in writing,
shall state fully the reasons for the request, and shall be
supported by such evidence as will enable the tax
commissioner to make the redetermination described in
subsection (d) of this section.

(d) After a request for review is made under subsection
(c) of this section, the tax commissioner shall determine
whether or not (1) the process of making the appraisal is
reasonable under the circumstances, and (2) the amount of
valuation of the appraised property is appropriate under
the circumstances. In determining whether the appraisal is
reasonable and the amount of the valuation appropriate,
the tax commissioner shall take into account not only
information available at the time the appraisal was made
but also information which subsequently becomes
available. The tax commissioner shall notify the owner and
the assessor of his determination made under this
subsection.

(e) If, at any time prior to making the determination
required by subsection (d) of this section, the tax
commissioner shall conclude that an appraised value is
incorrect as a result of a clerical error, or a mistake
occasioned by an unintentional or inadvertent act as
distinguished from a mistake growing out of the exercise of
judgment, he may correct such error or mistake and shall
give notice thereof to the taxpayer, and the appropriate
assessor, county commission and sheriff to whom lists of
appraisals have been provided in accordance with section
fifteen of this article.

(f) The assessor shall be reimbursed by the tax
commissioner for the postage expended to mail the notices
required by this section. Such forms and envelopes as may
be required shall be furnished by the tax commissioner.
Whenever the property has been returned or is returnable to the tax commissioner, the tax commissioner shall perform the duties imposed upon the assessor by this section. In such case, the tax commissioner shall specify in such notice the county in which a review of such appraisal shall be heard. The tax commissioner shall specify the county in which he determines that a larger portion of the property appraised is or is usually situate and his determination thereof shall be final.

§11-1A-17. Review of appraisal by the county commission sitting as an administrative appraisal review board.

(a) Within thirty days after the earlier of (1) the day the tax commissioner notifies the owner of his determination described in subsection (d) of the preceding section, or (2) the twenty-first day after the request described in subsection (c) of the preceding section was made, the owner may petition for a hearing of record before the county commission of the county in which the larger portion of the appraised property is liable to assessment for ad valorem property taxation. Contemporaneously with the filing of the petition with the county commission, the owner shall mail a copy of the petition to the tax commissioner and the assessor, and the petition shall have endorsed or appended to it a certificate by the owner or his attorney that such copies were mailed.

(b) The county commission shall sit as an administrative appraisal review board, shall hear such testimony, under oath, as the owner, the tax commissioner and other witnesses may offer, and shall make a true record of the testimony by nonstenographic electronic recording suitable to assure that the recorded testimony will be accurate and trustworthy. Upon making such true record and preserving the other evidence presented, the commission shall determine whether the amount of value fixed by the appraisal of the property is correct under the circumstances. If the county commission finds the appraisal to be correct it shall enter an order approving the value as appraised and adopting by reference the determination and reasons made by the commissioner under subsection (d), section sixteen of this article. If the county commission
determines that the amount of value fixed by the appraisal of the property is incorrect, and if sufficient evidence has been presented to permit correction of the appraisal, the county commission shall correct the appraisal and fix the value of the appraised property. If the county commission shall find that the evidence is not sufficient to determine the correct value, the county commission shall direct the parties to develop and present such evidence, and may continue the hearing from time to time for this purpose until there be evidence before it sufficient to fix the correct value. Upon making a determination, the county commission shall enter an order and inform the parties in writing, setting forth in summary form the reasons for such determination.

(c) Any person who is a taxpayer of ad valorem property taxes in any West Virginia county may protest an appraisal of property under this article for good cause alleged and shown. A person desiring to protest a reappraisal of property shall petition for a hearing before the administrative appraisal review board in the same manner as an owner would petition for hearing with regard to the appraisal of his property under the provisions of subsection (a) of this section: Provided, That a petition for protest must be filed with the county commission within forty-five days after the publication of the notice required in subsection (a), section sixteen of this article. The hearing of a protest shall be governed by the same procedures described for hearings in subsection (b) of this section.

(d) Upon a showing of good cause, any person who is a taxpayer of ad valorem property taxes in any West Virginia county may be permitted to intervene in the hearing provided for in this section.

§11-1A-18. Review by circuit court on certiorari.

Within thirty days after the day the county court notifies the parties of a final determination of value made pursuant to section seventeen of this article, the owner, tax commissioner, protestor or intervenor may request the county commission to certify the evidence and remove and return the record to the circuit court of the county on a writ of certiorari instituted in accordance with the provisions of article three, chapter fifty-three of this code. For purposes
of this article, the recorded testimony of the hearing, when certified by the county commission, may be used by the circuit court as the transcript of testimony.

§11-1A-19. Subsequent statewide reappraisals required.

After the first statewide reappraisal, to be completed on or before the thirty-first day of March, one thousand nine hundred eighty-five, the commissioner shall require that periodic reviews of property valuation shall take place so as to ensure that all property is valued at market value as set forth herein at all times: Provided, That statewide reappraisals of property shall take place at least every ten years after the year one thousand nine hundred eighty-five.

§11-1A-20. Cooperation of other agencies of state and local government.

The several departments and agencies of state government, county commissions and county assessors are hereby authorized, required and directed to render such necessary aid and assistance to the tax commissioner as is required to enable the commissioner to complete the first statewide reappraisal of all property by the thirty-first day of March, one thousand nine hundred eighty-five.

§11-1A-21. Electronic data processing system network for property tax administration.

(a) The tax commissioner shall devise and cause to be established a statewide electronic data processing system network, to facilitate administration of the ad valorem property tax on real and personal property, through the timely sharing of property tax information among county assessors and the tax commissioner.

(b) Each county shall lease, at its expense, the data processing equipment required by the commissioner to be located in each county. Additionally, each county shall provide, at its expense, the necessary staffing and operating personnel and all other necessary facilities, including telephone and other communications equipment, to allow on-line interaction with the host computer or such other computer as the commissioner may designate. Each county shall be charged by the commissioner for its proportionate share of the cost for use of the host computer and other
related services. Such data processing and communications equipment must be installed and tested and county personnel trained to use the equipment on or before the first day of July, one thousand nine hundred eighty-five.

(c) To ensure equipment compatibility and the efficient operation and maintenance of the statewide electronic data processing system network, the commissioner shall select and may, from time to time, change equipment suppliers at the state and county level. All equipment for the system shall be acquired under the purchasing procedures specified in article three, chapter five-a of this code.

(d) The commissioner may promulgate reasonable rules governing the operation of the statewide electronic data processing system network. Such rules shall, at a minimum, specify that each assessor shall enter all changes in the description, status, classification and value not later than the calendar month following the month during which the changes took place. The rules shall provide for thorough and adequate safeguards to prevent unauthorized access to the system network and the data base. The commissioner shall make available to every taxpayer, upon his request, through the system, the description and appraised value of each parcel valued and the method used in determining the appraised value. The system shall be capable of providing for the assessment of each parcel and item of property at sixty percent of its appraised value and for the phasing-in of the first statewide reappraisal, as to each parcel and item of property and the phasing-in of any subsequent reappraisal as may be authorized by the Legislature.

(e) County assessors shall convert or cause to be converted, at county expense, any current assessment information not in the data files of the tax commissioner for purposes of the first statewide reappraisal and the preparing of a system of assessments utilizing the results of the reappraisal, to be phased-in as required in section twenty-two of this article. Such conversion shall be completed on or before the first day of July, one thousand nine hundred eighty-five.

(f) The commissioner may offer to county sheriffs, as an optional service, a uniform computerized property tax
billing and accounting system using the assessed values and taxpayer information generated through the statewide system. Each sheriff using such optional services shall be charged the proportionate cost for use of the host computer and related services and materials, which charge shall be paid by the county commission.

(g) The commissioner is hereby specifically authorized and empowered to enter into such contracts as may be necessary and for which funds may be available to establish the electronic data processing system provided for in this section.

(h) The cost of any service or act performed by the commissioner under the provisions of this section shall be paid by the county commission of the county for which the service or act was provided. The cost of any service or act shall be the actual cost and expense incurred by the commission to provide the service or act. The commissioner shall render to the county commission a statement of the costs as soon after the same were incurred as practicable. It shall be the duty of the county commission to allow the same and to cause it to be paid promptly in the manner that other claims and accounts are allowed and paid and the amount owed to the tax commissioner shall constitute a debt due the state which may be satisfied from any money owed the county commission by the state for any reason.

(i) Payments received for the cost of services or acts performed by the commissioner under this system shall be deposited in a revolving fund which shall be known as the "County Tax Fund," hereby created in the state treasurer's office.

(j) As used in this section, the following terms mean:

(1) "System" means the statewide electronic data processing system network for administration of the ad valorem property tax on real and personal property provided for in this section.

(2) "Electronic data processing" means the use of the computer for operations which include the storing, retrieving, sorting, merging, calculating and reporting data for use in preparing assessment rolls, tax lists, tax bills and other reports for use in property tax administration.
§11-1A-22. Phase-in, determination thereof, application and limitations.

1 The Legislature hereby finds that the "Property Tax Limitation and Homestead Exemption Amendment of 1982" intended to provide that the increased valuation of property, both real and personal, resulting from the first statewide reappraisal be allocated over a period of ten years in equal amounts annually.

2 The Legislature further finds and ascertains that the only fair and equitable manner to achieve the allocation of increased valuation over a period of ten years in equal amounts annually is to provide that upon determination by the first statewide reappraisal of the appraised value of each parcel of land or interest therein and each item of personal property, sixty percent of each appraised value shall be compared with its corresponding assessed value for the base year as adjusted to establish the assessed value for the year next preceding the first year of the phase-in. If sixty percent of the appraised value is larger than the previously assessed value for the year next preceding the first year of the phase-in, the difference shall be divided into ten equal parts. For the tax year one thousand nine hundred eighty-six, and for each subsequent year through the tax year one thousand nine hundred ninety-five, the assessed value for the base year shall be increased by one such tenth part. The result plus sixty percent of any subsequent annual increases in appraised value or less sixty percent of any annual decreases in appraised value shall be the assessed value for each such year: Provided, That such assessed value shall not exceed sixty percent of the market value in any year.

§11-1A-23. Confidentiality and disclosure of property tax returns and return information; offenses; penalties.

1 (a) Secrecy of returns and return information.— Property tax returns and return information filed or supplied pursuant to this article and articles three, four, five and six of this chapter and information obtained by subpoena or subpoena duces tecum issued under the provisions of this article shall be confidential and except as
authorized in this section, no officer or employee of the state
tax department, county assessors, county commissions and
the board of public works shall disclose any return or return
information obtained by him, including such return
information obtained by subpoena, in any manner in
connection with his service as such an officer, member or
employee: Provided, That nothing herein shall make
confidential the itemized description of the property listed,
in order to ascertain that all property subject to assessment
has been subjected to appraisal: Provided, however, That
the commissioner and the assessors shall withhold from
public disclosure the specific description of burglar alarms
and other similar security systems held by any person,
stocks, bonds and other personal property held by a natural
person, except motor vehicles and other tangible property
utilized publicly, and shall withhold from public disclosure
information claimed by any taxpayer to constitute a trade
secret or confidential patent information: Provided further,
That such property descriptions withheld from public
disclosure shall be subject to production and inspection in
connection with any review, protest or intervention in the
appraisal or assessment process, under such reasonable
limitations as the board of review, board of equalization
and review or court shall require. The term officer or
employee includes a former officer, member or employee.

(b) Disclosure.—(1) Information made confidential by
subsection (a) of this section shall be open to inspection by
or disclosure to officers, members and employees of the
state tax department, county assessors, county
commissions and to members of the board of public works
whose official duties require such inspection or disclosures
for property tax administration purposes. Disclosure may
be made to persons, or officers or employees thereof, who
are employed by the state tax commissioner by contract or
otherwise, provided such person, or officer or employee
thereof, shall be subject to the provisions of this section as
fully as if he was an officer or employee of the state tax
department. Information made confidential by subsection
(a) of this section shall be open to inspection by the property
owner providing such information and to his duly
authorized representative.
(2) Information made confidential by subsection (a) of this section may be disclosed in a judicial or administrative proceeding to collect or ascertain the amount of tax due, but only if (i) the taxpayer is a party to the proceedings or (ii) such return information directly relates to a transactional relationship between a person who is a party to the proceeding and the taxpayer which directly affects the resolution of an issue in the proceeding.

(c) Reciprocal exchange.—The tax commissioner may permit the proper officer of the United States, or the District of Columbia, or any other state, or his authorized representative, to inspect reports, declarations or returns filed with the tax commissioner or may furnish to such officer or representative a copy of any such document provided such other jurisdiction grants substantially similar privileges to the tax commissioner or to the attorney general of this state.

(d) Penalties.—Any officer, member or employee of the state tax department, county assessors, county commissions and the board of public works who violates this section shall be guilty of a misdemeanor, and, upon conviction thereof, shall be fined not more than one thousand dollars or imprisoned for not more than one year, or both, together with the costs of prosecution.

(e) Limitations.—Any person protected by the provisions of this article may, in writing, waive the secrecy provision of this section for such purpose and such period as he shall therein state, and the officer with whom such waiver is filed, if he so determines, may thereupon release to designated recipients such taxpayer’s return or other particulars filed under the provisions of the tax articles administered under the provisions of this article.

This section shall not be construed to prohibit the publication or release of statistics so classified so as to prevent the identification of particular reports and the items thereof nor to prevent the publication and release of assessments and appraised values of property.

The tax commissioner shall develop, or cause to be developed, appraisal manuals for all species of property, for
use in making statewide reappraisals. These manuals shall be used by the tax commissioner, county assessors, county commissions, the board of public works and any property appraisal firm or firms employed to assist in making statewide reappraisals. These manuals shall, at a minimum:

(1) Provide guidelines for determining the appraised value of all species of property that are consistent with this article; (2) establish work procedures; and (3) promote uniformity of approach to tasks. The tax commissioner and his designated agents shall consult with each of the county assessors in the preparation of all such manuals.

§11-1A-25. Failure to list property, etc.; collection of penalties and forfeitures.

If any person, firm or corporation, including public service corporations whose duty it is by law to list any real estate or personal property for appraisal, shall refuse to furnish a proper list thereof or refuse to list within the time required by law and within thirty days after written demand therefor; or if any person, firm or corporation, including public service corporations, shall refuse to answer or shall answer falsely any question asked by the assessor or by the tax commissioner, or shall refuse to deliver any other statement required by law, he or it shall forfeit not less than twenty-five nor more than one hundred dollars, and shall be denied all remedy provided by law for the correction of any appraisal made by the tax commissioner. If any person, firm or corporation, including a public service corporation, required by this article to make return of property for appraisal, fails to return a true list of all property which should be appraised under the provisions of this article, in addition to all other penalties provided by law, shall forfeit one percent of the value of the property not yet returned and not otherwise taxed in this state.

Such forfeitures shall be collected as is hereinafter provided under the provision of article two, chapter eleven- of this code, the same as any tax liability, against the defaulting taxpayer, or in case of a decedent, against his personal representative. The sheriff shall apportion such fund among the state, county, district, school district and
municipalities which would have been entitled to the taxes
upon such property if it had been assessed, in proportion to
the rates of taxation for each such levying unit for the year
in which the judgment was obtained bears to the sum of
rates for all. Any judgment recovered under this section
shall be a lien, from the time of the service of the notice,
upon all real estate and personal property of such
defaulting taxpayer, owned at the time or subsequently
acquired, in preference to any other lien.

§11-1A-26. Appraisal of corporate property; reports to tax commissioner by corporations.

Each incorporated company, foreign or domestic, having
its principal office or chief place of business in this state, or
owning property subject to taxation in this state, shall
include with the return required by this article, a list of the
following items: (a) The amount of capital authorized to be
employed by it; (b) the amount of cash capital paid on each
share of stock; (c) the amount of credits and investments
other than its own capital stock held by it on said date, with
their true and actual value; (d) the quantity, location and
value of all its real estate, and the tax district or districts in
which it is located; and (e) the kinds, quantity and value of
all of its tangible property in each tax district in which it is
located.

The list required by this section shall be under oath,
which oath shall be substantially as follows:

State of West Virginia, County of ............... , ss:

I, ............... , president (treasurer or manager) of
(here insert name of corporation), do solemnly swear (or
affirm) that the foregoing is, to the best of my knowledge
and judgment, true in all respects; that it contains a
statement of all the real estate and personal property,
including credits and investments belonging to said
corporation; and said corporation has not, to my
knowledge, during the sixty-day period immediately prior
to the first day of the assessment year converted any of its
assets into nontaxable securities or notes or other evidence
of indebtedness for the purpose of evading the assessment
of taxes thereon; so help me God.
The officer administering such oath shall append thereto
the following certificate, viz:

Subscribed and sworn to before me by ..................
this the ....... day of ...................., 19........

§11-1A-27. West Virginia appraisal control and review
commission created; term of existence defined;
duties of commission; tax commissioner to
provide services, staff and equipment;
nomination and appointment of members;
removal of members and filling of vacancies;
compensation and expenses; composition of
subcommittees of commission; appraisement
manual review subcommittee; computer
technology review subcommittee;
compensation of subcommittees; issuance of
cease and desist orders by commission;
authority of governor to rescind or modify
cease and desist orders; meetings of
commission; quorum; taxpayer complaint and
the treatment and disposition thereof.

(a) There is hereby created in the executive department
of the state government, within the state tax department,
the West Virginia appraisal control and review commission,
an independent agency, consisting of seventeen persons, to
be selected as provided in this section. The commission shall
continue until the values fixed by the first statewide
reappraisal shall be first utilized for the determination of
assessed value but in no event beyond the first day of July,
one thousand nine hundred eighty-seven.

(b) It shall be the duty of the commission to determine
that the mass appraisal of residential real property is at all
times proceeding in accord with the provisions of this
article and that no practice or procedure employed in the
first statewide reappraisal of property pursuant to this
article is employed contrary to law or contrary to the
provisions of any regulation or contract consistent with the
provisions of this article or other applicable general law.
Contractors, the various assessors and their employees and
all employees of the state tax commissioner shall appear
before the commission upon request and otherwise
cooperate with the commission in any inquiries the
commission or its subcommittees shall conduct.

(c) It shall also be the duty of the commission (1) To
publish information to advise the public of the nature and
extent of the reappraisal and their rights to specific
advice and information from the commission; (2) to receive,
investigate, hear and consider complaints by citizens and
officers of corporations whose property is subject to return
or reappraisal under this article, except complaints
disposed of to the satisfaction of the complainants by the
assessors of the various counties or informally by the
commission, concerning any practice, procedure or activity
of the persons or firms conducting any part of the property
reappraisal which is or is claimed to be contrary to law, or
regulations or contracts entered into pursuant to this
article; and (3) to prepare and provide for dissemination to
all taxpayers a “Property Owner’s Bill of Rights” pamphlet
explaining in concise language the reappraisal program
required by the constitution and this article and the rights
of property owners to formal and informal review of
practices and procedures and the fixing of appraised values
of their property and such other rights, duties and
privileges as arise under this article and the Tax Limitation
and Homestead Exemption Amendment of 1982 and such
other matters as the commission shall direct.

(d) For the purposes of carrying out its duties under this
article, the commission shall be furnished by the tax
commissioner with office space, clerical and other staff
assistance, and equipment, including statewide inward and
outward WATS line telephone service, to be known as the
“Property Reappraisal Hotline,” and reasonable efforts
shall be made in the conduct of the first statewide
reappraisals to advise the public generally and each person
whose residential real property is being reappraised of the
availability of such “Property Reappraisal Hotline” and
information and advice concerning such reappraisal.

(e) The tax commissioner shall be the chairman of the
commission and have the right to vote and preside over the
commission and direct its staff to carry out commission
directives. The remaining sixteen members shall be drawn
from each of the state’s four congressional districts as
comprised on the effective date of this section. Four persons, all of whom shall be residents of the congressional district for which they are selected, but none of whom shall be residents of the same county, shall be appointed by the governor, with the advice and consent of the Senate. Not more than two persons who are members of the same political party shall be appointed from any congressional district. All persons appointed by the governor shall be residents of the state and of the congressional district for which they are appointed and shall be owners of real property or an interest therein. Within five days after the effective date of this section each county commission shall nominate residents of its county for appointment to the commission and shall commence publication of a Class II-0 legal notice, in a newspaper of general circulation in the county, advertising its intention to nominate persons for appointment to the commission and fixing a date not more than ten days after the first publication of such notice as the last day for citizens of the county to suggest the names of possible nominees to the county commission. Any such suggestions may be made in writing or orally to any such county commission. Within seven days after the second publication, any such county commission shall, by order, nominate four persons who are residents of such county and who possess the requisite qualifications, not more than two of whom are members of the same political party, and forthwith transmit a certified copy of such order to the governor. From the list of nominees supplied by the various county commissions, the governor shall appoint the requisite number of persons to the commission within sixty days of the effective date of this section. A person appointed shall serve until the commission terminates unless such person sooner resigns, dies or is removed. A person may be removed only by the governor for good cause in the manner that other officers subject to removal by the governor may be removed: Provided, That any member who fails to attend three consecutive regular meetings may be removed by the governor. Any vacancy shall be filled within thirty days of the vacancy by the governor, by appointment of a person nominated by one of the county commissions who has the requisite qualifications: Provided, That the governor may request additional nominations from county commissions
of counties whose residents are eligible for appointment or
appoint any eligible person. Any person appointed to fill a
vacancy shall be made with the advice and consent of the
Senate, and shall serve until the commission is terminated
or such person sooner dies, resigns or is removed.

(f) No person holding paid public office shall be eligible
for appointment to the commission. Members, except the
chairman, shall be paid a per diem of thirty-five dollars for
each day of actual service on the commission or a
subcommittee thereof but may waive such payment.
Members shall be reimbursed reasonable expenses
pursuant to regulations for the payment thereof to state
government employees. All compensation and expenses of
the commission shall be paid from appropriations to the
state tax commissioner for the statewide reappraisal.

(g) The commission may divide the state into four areas,
each area consisting of one of the congressional districts
fixed by law. The membership of the commission from each
such area shall constitute the membership of a
subcommittee for such area. The tax commissioner shall
designate an employee of his office assigned to oversee the
reappraisal in one or more of the counties within such
area as the chairman of the subcommittee for such area,
who shall be empowered to act for and on behalf of such
subcommittee in the same manner as the tax commissioner
shall act for the commission.

Any such area subcommittee may, subject to the rules of
the commission, review the conduct of the reappraisal in
such area and any complaints originating in the area and
perform such other duties on behalf of the commission as
are consistent with this article and as are consistent with
the duties of the commission and make such
recommendations to the commission as it may deem
appropriate.

(h) In addition to the area subcommittees the
commission shall appoint a subcommittee of six county
assessors to review the various appraisement manuals
proposed to be employed in the reappraisal. Within the
time frame to be specified by the tax commissioner for his
review of such appraisal manuals, the subcommittee shall
review and comment on such manuals, such comments to be
delivered to the tax commissioner on the date scheduled by
him which date shall not be sooner than forty-five nor more
than sixty days after delivery of such manuals to the
subcommittee. No more than two of the members shall be
assessors of counties in any one congressional district.

(i) In addition to the area subcommittees the
commission shall appoint a subcommittee of four persons
recognized by the commission to be experts in computer
technology, no two of whom shall be residents of the same
congressional district. Within a time frame to be specified
by the tax commissioner for his review of computer
programs, equipment proposals or other computer plans,
the subcommittee shall review and comment on such
computer programs, equipment proposals and other
computer plans as may be submitted to the tax
commissioner for his review and approval, such comments
to be delivered to the tax commissioner on the date
scheduled by him which date shall not be sooner than
forty-five nor more than sixty days after commencement of
any such review by the subcommittee.

(j) The tax commissioner shall serve as chairman of the
subcommittee on manuals and the subcommittee on
computer technology, have a vote thereon, and be excluded
from consideration in determining if any member meets
residency requirements. The commission shall fix the
compensation of members of the committee on computer
technology other than the chairman. Members of the
subcommittee on manuals and computer technology shall
also be reimbursed for reasonable expenses according to
travel regulations of the executive department.

(k) On the recommendation of any subcommittee or
upon the initiative of the commission, the commission may
after hearing and on a majority vote of those present, issue a
cease and desist order with respect to any practice,
procedure or activity in the reappraisement which it finds
to be contrary to law, this article or any regulation or
contract consistent with this article. Such order shall be
effective upon its adoption: Provided, That within ten days
after the adoption of such order, the governor may by
executive order rescind or modify the cease and desist
order. Any such cease and desist order modified by 
executive order of the governor shall from the issuance of 
the executive order be effective only as so modified. No such 
cease and desist order by the commission or any executive 
order shall deprive the state of a uniform and equal 
reappraisement consistent with the provisions of this 
article. No order of the commission or executive order of the 
governor shall be stayed in any action except upon 
application to the supreme court of appeals for relief 
pursuant to its original jurisdiction.

(l) The commission shall meet on the third Wednesday 
of each month during its term. Any subcommittee shall 
meet at least monthly during its continuance. A quorum 
shall consist of one half the membership of the commission 
or subcommittee computed without regard to the chairman, 
or his presence or absence. A special meeting of the 
commission or any subcommittee shall be held on the call of 
the chairman, provided such call of a special meeting shall 
be communicated by mail or telephonic communication to 
the residence of all members of the commission or 
subcommittee at least twenty-four hours before the date of 
the meeting.

(m) No member of the commission or any subcommittee 
shall be required to attend court on the day of, the day 
before or the day after any meeting of the commission or of 
such subcommittee which such member actually attends.

(n)(1) Any taxpayer aggrieved by any procedure, 
practice, activity or conduct incident to any statewide 
reappraisal carried out under the provisions of this article 
shall, in the first instance, lodge a complaint with the 
assessor of the county wherein such taxpayer has property 
situate. Any such complaint may be communicated orally or 
in writing by the taxpayer to the assessor. It shall be the 
duty of the assessor to receive the complaint, and, unless he 
resolves the complaint informally to the satisfaction of the 
taxpayer within five days of its receipt, the assessor shall 
prepare a report upon a form provided for that purpose by 
the tax commissioner, setting forth a fair summary of the 
complaint. In attempting to informally resolve the 
complaint, the assessor is expressly authorized to contact 
the officers and employees of the state tax department and
its designated agents to discuss possible solutions to the complaint.

(2) If the complaint is in the nature of alleged nonconformity to the provisions of this article or other provisions of law relating to the appraisal of property for ad valorem property taxation, regulations promulgated thereunder, or the provisions of an agreement between the tax commissioner and a designated agent, the complaint form prepared by the assessor shall forthwith be transmitted by the assessor to the West Virginia appraisal control and review commission, which shall acknowledge receipt thereof in writing mailed to the taxpayer. Upon request by the taxpayer, he shall be heard at the meeting during which the complaint is considered, and the commission shall afford such other hearing, conduct any appropriate investigation, and dispose of the complaint in such manner as may be provided by law and any rules of procedure adopted.

(3) If the complaint is in the nature of alleged misconduct relating to the demeanor of any person charged with responsibility for performing any function required by this article, the complaint form prepared by the assessor shall forthwith be transmitted by the assessor to the tax commissioner, who shall acknowledge receipt thereof in writing mailed to the taxpayer. The tax commissioner shall conduct any appropriate investigation, and dispose of the complaint in such manner as may be provided by law and any rules of procedure adopted.

(4) In all cases where disposition is made of a complaint under this subsection, notice of the disposition shall be given to the taxpayer and the assessor.

§11-1A-28. Review appraisal requirements; qualifications of review appraisers with respect to residential property; review appraisers to be competent witnesses.

In the conduct of mass appraisal of residential real property the tax commissioner shall assure that the person who evaluates the collected data with respect to any parcel of real property subject to such appraisal and visits the property for the purpose of reviewing such data, actual
conditions, and estimated value is in the first instance, with
respect to residential property containing eight or fewer
dwelling units, a bona fide resident of West Virginia for at
least one year prior to employment in such capacity and is a
person familiar with the area in which such property is
located, including the amenities of the area and general
trend of market values over the period during which the
trend is required by law to be considered. Such person shall,
if qualified under this section, be a competent witness in all
proceedings relating to the appraisal of such property,
notwithstanding any further review or refinement of the
data or other consideration in such appraisement.

§11-1A-29. Requirements for state employees and employees
of designated agents; legislative findings;
modification of existing contract for mass
appraisal; exemption of certain appraisal
employees of tax commissioner from civil
service.

Of the whole number of persons engaged in the
reappraisement process, ninety-five percent of all persons
employed by the state and its designated agents in this state
to conduct any part of the reappraisal shall be residents of
the state. The Legislature finds that the process of
reappraisement, the acceptance of the results by the public,
and the deeply held attitudes and outlook of the citizens of
the state require, for the success of the reappraisal and
the acceptance of the widespread resulting adjustments in
assessment values, that this stringent requirement be
strictly adhered to, to the end that school revenues and
other local income and taxation have the benefit of the
reappraisement as promptly as possible.

On the effective date of this section, the contract of the
state for mass appraisal of residential properties and other
reappraisal services shall be modified as follows:

(1) To conform with this article; and

(2) To remove from the contract data encoders and other
clerical help, at an aggregate reduction in cost under the
contract of at least three million dollars.

After investigation, the Legislature finds that the
contractor is amenable to the modification of its contract to
conform with the requirements of this article. The tax commissioner is directed to conform such contract to the requirements of this article within ten days after the effective date of this section.

The data encoders and other clerical employee positions required to be transferred from the contract to state employment pursuant to this section, being temporary positions requiring prompt employment of limited duration, are hereby classified exempt for the purposes of article six, chapter twenty-nine of this code. The tax commissioner is hereby granted plenary authority, subject only to the supervision of the governor, to determine all terms and conditions of employment of such employees.

§11-1A-30. Severability.

The provisions of subsection (cc), section ten, article two, chapter two of this code regarding severability shall be deemed to be included herein as if set forth in extenso in this section.

ARTICLE 3. ASSESSMENTS GENERALLY.

§11-3-2. Canvass by assessor; lists of property.

On the first day of July, in each year, the assessors and their deputies shall begin the work of assessment in their respective counties, and shall, from that date, diligently and continuously pursue with all reasonable dispatch, their work of assessment until the same is completed: Provided, That the assessor and his deputies shall finish their work of assessment, and complete the land and personal property books not later than the thirtieth day of January. Beginning on the first day of July, as aforesaid, the assessor or a deputy shall obtain from every person in the county who is liable to assessment, a full and correct description of all of the personal property of which he was the owner on the first day of July of the current year, fixing what he deems to be the true and actual value of each item of personal property for the guidance of the assessor, who shall finally settle and
determine the actual value of each item of such property by
the rule prescribed in section one of this article. The
assessor or a deputy shall also obtain from such person
separate, full and true statements, in like manner, and upon
forms to be furnished him, distinctly setting forth in each a
correct description of all property, real and personal, held,
possessed or controlled by him as executor, administrator,
guardian, trustee, receiver, agent, partner, attorney,
president or accounting officer of a corporation, consignee,
broker, or in any representative or fiduciary character; and
he shall fix what he deems the true and actual value thereof
to each item of such property, which valuation shall be
subject to revision and change by the assessor in like
manner as property owned by such person in his own right:
Provided, That no person shall be compelled to furnish the
list mentioned in this section sooner than the tenth day of
July of the current year.

The assessor shall perform such other duties while
making his assessment as may be required of him by law.

§11-3-10. Failure to list property, etc.; collection of penalties
and forfeitures.

If any person, firm or corporation, including public
service corporations, whose duty it is by law to list any real
estate or personal property for taxation, shall refuse to
furnish a proper list thereof or refuse to list within the time
required by law, or if any person, firm or corporation,
including public service corporations, shall refuse to
answer or shall answer falsely any question asked by the
assessor or by the tax commissioner, or shall fail or refuse to
deliver any statement required by law, he or it shall forfeit
not less than twenty-five nor more than one hundred
dollars, and shall be denied all remedy provided by law for
the correction of any assessment made by the assessor or by
the board of public works. If any person, firm or
corporation, including public service corporations,
required by law to make return of property for taxation,
whether such return is to be made to the assessor, the board
of public works, or any other assessing officer or body, fails
to return a true list of all property which should be assessed
in this state, including notes, bonds, bills and accounts
receivable, stocks, and any other intangible personal property, such person, firm or corporation, in addition to all other penalties provided by law, shall forfeit one percent of the value of the property not yet returned and not otherwise taxed in this state. A forfeiture as to all property aforesaid may be enforced for any such default occurring in any year not exceeding five years immediately prior to the time the same is discovered, but no liability to penalty or forfeiture as to notes, bonds, bills and accounts receivable, stocks and other intangible personal property arising prior to the first day of January, one thousand nine hundred thirty-three, shall be enforceable on behalf of the state or of any of its subdivisions. Each failure to make a true return as herein required shall constitute a separate offense, and a forfeiture shall apply to each of them, but all such forfeitures, to which the same person, firm or corporation is liable, shall be enforced in one proceeding against such person, firm or corporation, or against the estate of any deceased person and shall not exceed five percent of the value of the property not returned. Such forfeitures shall be collected as is hereinafter provided under the provision of article two, chapter eleven-a of this code, the same as any tax liability, against the defaulting taxpayer, or in case of a decedent, against his personal representative. The sheriff shall apportion such fund among the state, county, district, school district and municipalities which would have been entitled to the taxes upon such property if it had been assessed, in proportion to the rates of taxation for each such levying unit for the year in which the judgment was obtained bears to the sum of rates for all. When the list of property returned by the appraisers of the estate of any deceased person shows an amount greater than the last assessment list of such deceased person next preceding the appraisal of his estate, it shall be prima facie evidence that such deceased person returned an imperfect list of his property: Provided, That any person liable for the tax or his personal representative, may always be permitted to prove by competent evidence that the discrepancy between such assessment list and the appraisal of the estate is caused by a difference of valuation returned by the assessor and that made by the appraisers of the same property or by property acquired after assessment, or that any property enumerated...
in the appraisers' list had been otherwise listed for taxation, or that it was not liable for taxation. Any judgment recovered under this section shall be a lien, from the time of the service of the notice, upon all real estate and personal property of such defaulting taxpayer, owned at the time or subsequently acquired, in preference to any other lien.

§11-3-31. Generally applied, and usual and customary practices and procedures utilized by assessors prior to the second day of July, one thousand nine hundred eighty-two; limit of liability.

To the extent that any generally applied, usual and customary practice or procedure utilized by the assessors of the several counties prior to the second day of July, one thousand nine hundred eighty-two, for the return, listing, appraisement and assessment of property for ad valorem property taxation did not violate the then existing statutory law, interpretations thereof by the courts or the state tax commissioner, or regulations promulgated under such statutory law, and to that extent only, the use of such practice or procedure, in good faith, shall not be the sole basis for, or be considered in, the removal of any public officer or the imposition of any civil liability upon such official. The state tax commissioner shall be competent to offer testimony as to whether the practice or procedure utilized was generally applied, was a usual and customary practice among the several counties, and may offer testimony regarding formal or informal interpretations, rules or practice employed by him and his predecessors in office at the time such alleged usual and customary practice or procedures were utilized in several counties.

ARTICLE 6B. HOMESTEAD PROPERTY TAX EXEMPTION.

§11-6B-3. Twenty thousand dollar homestead exemption allowed.

§11-6B-7. Property tax books.

§11-6B-3. Twenty thousand dollar homestead exemption allowed.

(a) General.—An exemption from ad valorem property taxes shall be allowed for the first twenty thousand dollars of assessed value of a homestead that is used and occupied by the owner thereof exclusively for residential purposes, when such owner is sixty-five years of age or older or is
certified as being permanently and totally disabled. Only one exemption shall be allowed for each homestead used and occupied exclusively for residential purposes by the owner thereof, regardless of the number of qualified owners residing therein.

(b) Attachment of exemption.—This exemption shall attach to the homestead occupied by the qualified owner on the July first assessment date and shall be applicable to taxes for the following tax year. An exemption shall not be transferred to another homestead until the following July first. If the homestead of an owner qualified under this article is transferred by deed, will or otherwise, the twenty thousand dollar exemption shall be removed from the property on the next July first assessment date unless the new owner qualifies for the exemption.

§11-6B-7. Property tax books.

(a) Property book entry.—The exemption of the first twenty thousand dollars of assessed value shall be shown on the property books as a deduction from the total assessed value of the homestead.

(b) Levy; statement to homestead owner.—When the twenty thousand dollar exemption is greater than the total assessed value of the eligible homestead, no taxes shall be levied. The sheriff shall issue a statement to the owner showing that no taxes are due.

ARTICLE 22. EXCISE TAX ON PRIVILEGE OF TRANSFERRING REAL PROPERTY.

§11-22-6. Duties of clerk; declaration of consideration or value; filing of sales listing form for tax commissioner; disposition and use of proceeds.

When any instrument on which the tax as herein provided is imposed is offered for recordation, the clerk of the county commission shall ascertain and compute the amount of the tax due thereon and shall ascertain if stamps in the proper amount are attached thereto as a prerequisite to acceptance of the instrument for recordation.

When offered for recording, each instrument subject to the tax as herein provided shall have appended on the face or at the end thereof, a statement or declaration signed by
the grantor, grantee or other responsible party familiar
with the transaction therein involved declaring the
consideration paid for or the value of the property thereby
conveyed. Such declaration may be in the following
language:

"DECLARATION OF CONSIDERATION OR VALUE

I hereby declare:

(a) The total consideration paid for the property
conveyed by the document to which this declaration
is appended is $.................... ; or

(b) The true and actual value of the property transferred

(c) The proportion of all the property included in the
document to which this declaration is appended which is

(d) This deed conveys real estate located in more than
one county in West Virginia; the total consideration paid
for, or actual cash value of, all the real estate located
in West Virginia conveyed by this document is

payment of all the excise tax on all of said real estate are
attached to an executed counterpart of this deed recorded
in .................... County.

Given under my hand this .................... day of
................................., 19....

Signed ........................................
(Indicate whether grantor, grantee,
or other interest in conveyance).

Address"

Such declaration shall be considered by the clerk in
ascertaining the correct number of stamps required, and if
declaration (d) is used no stamps shall be required on the
duplicate deed to which it is attached and such duplicate
deed shall be admitted to record, and when recorded shall
have the same effect for all purposes as if stamps were
attached thereto.

On or after the first day of July, one thousand nine
hundred eighty-three, the clerk shall not record any
document with stamps affixed unless there is tendered with
the document a completed and verified sales listing form for
the benefit and use of the state tax commissioner. Preprinted forms for this purpose shall be provided each
clerk by the tax commissioner.

The forms shall require the following information: (1) If
the last deed in the chain of title represents the last transfer
of the property, the names of the grantor and grantee and
the deed book and page number; or (2) if the last transfer
was not made by deed, the source of the grantor's title, if
known; or (3) if the source of the grantor's title is unknown,
a description of the property and the name of the person to
whom real property taxes are assessed as set forth in the
land book prepared by the assessor. In all cases the forms
shall require the tax map and parcel number of the
property, the district or municipality in which the real
property or the greater portion thereof lies, the address of
the property, the consideration or value in money, including
any other valuable goods or services, upon which the buyer
and seller agree to consummate the sale, and any other
financing arrangements affecting value. The sales listing
form required by this paragraph is to be completed in
addition to, and not in lieu of, the declaration required by
this section: Provided, That the tax commissioner may
design and provide a form which combines into one form
the contents of the declaration and the sales listing form
required herein and recording and filing of that form may
be used as an alternative to filing the sales listing form
required herein: Provided, however, That the filing with the
clerk of a duplicate deed containing the sales listing form
information required by this section shall also satisfy the
requirements of this section regarding the sales listing
form. The clerk shall, at the end of the month, pay all of the
proceeds collected from the sale of stamps for the county
excise tax into the county general fund for use of the county.

On or before the tenth day of each month the clerk shall
deliver to the tax commissioner, or a person designated by
90 the tax commissioner, the sales listing forms or such other 91 alternative forms as may be authorized by this section for 92 documents recorded during the preceding month.

CHAPTER 16

(S. B. 16—Originating in the Committee on Finance)

[Passed June 2, 1983; in effect from passage. Approved by the Governor]

AN ACT to amend chapter twenty-one-a of the code of West Virginia, one thousand nine hundred thirty-one, as amended, by adding thereto a new article, designated article two-a, relating to an emergency employment supplemental matching program; declaring legislative findings and public purpose; defining certain terms; providing for administration by the commissioner of the department of employment security; providing for funding as made available by legislative appropriation; providing for applications to be furnished eligible unemployed persons and private business prospective employers, and notice to both to be given statewide; providing for matching reimbursement payments to employers, calculation, duration, limits and maximums thereof; and providing for promulgation of permissive and required regulations by commissioner.

Be it enacted by the Legislature of West Virginia:

That chapter twenty-one-a of the code of West Virginia, one thousand nine hundred thirty-one, as amended, be amended by adding thereto a new article, designated article two-a, to read as follows:

ARTICLE 2A. EMERGENCY EMPLOYMENT SUPPLEMENTAL MATCHING PROGRAM.

§21A-2A-1. Legislative declaration of finding and purpose.
§21A-2A-3. Application for employment by eligible unemployed person; forms and notice.
§21A-2A-4. Notice to private business employers; applications for prospective employers.
§21A-2A-1. Legislative declaration of finding and purpose.
1 The Legislature hereby finds and declares that, due to adverse economic conditions existing in the state, substantial unemployment of the residents of the state has resulted and continues, all to the detriment of its people, its business and industry and of the health, safety and welfare of the state as a whole.

The Legislature further finds and declares that the stimulation and encouragement of, and the providing of incentive and inducement for, employment by private business in the private sector is of greater long-term benefit to the state than is public, make-work employment; that it constitutes a wiser expenditure of public moneys, aids in the economic recovery of our private business and industry, the employment of our people, the generation of state revenues, and the advancement of the health, safety and welfare of the state as a whole; and thus constitutes a public purpose.

1 For the purposes of this article the following terms shall have the following meanings, unless the context in which they are used clearly indicates otherwise:

(1) “Commissioner” means the commissioner of the department of employment security.

(2) “Private business” means any nongovernmental business or industry in the private sector which maintains an active, bona fide place of business in this state, is duly qualified to do business in the state, and is in good standing under the laws of this state.

(3) “Eligible unemployed person” means any person who is a bona fide resident of this state who has been eligible for unemployment compensation benefits and has received all the benefits available to him or her, and who is not gainfully employed.

(4) “Head of household” means any person who: (1) Claims one or more persons, other than the filing taxpayer, as a dependent on his or her federal income tax return; (2) has living in the same household one or more dependents; and (3) receives no income for the household and does not
have a spouse or dependent living in the same household
who is employed in regular full-time employment:

Provided, That participation in any public assistance
program or receipt of public assistance benefits shall not
disqualify any person from entitlement to head of
household status.

§21A-2A-3. Application for employment by eligible
unemployed person; forms and notice.

1 Any person who is an eligible unemployed person as
defined in section two of this article may apply for
employment in the emergency employment supplemental
matching program by making application with the
commissioner on forms made available by the
commissioner at each local job service office: Provided,
That nothing contained in this section shall be construed to
permit funds under this program to be used to interfere or
hinder existing employment or employment agreements
including, but not limited to, collective bargaining
agreements. Funds may not be used in instances where
work stoppages resulting from labor management disputes
are in effect.

14 The form furnished by the commissioner shall provide for
listing the eligible unemployed person’s prior work
experience, skills, educational history, and such other
information as the commissioner deems necessary for the
purposes of this article. Priority for employment under this
program shall be given to eligible unemployed persons who
are heads of households.

21 The commissioner, within fifteen days after the effective
date of legislation appropriating funds for the
implementation of this article, shall cause to be published a
statewide notice of the availability of such application
forms under the emergency employment supplemental
matching program.

§21A-2A-4. Notice to private business employers; applications
for prospective employers.

1 The commissioner, within fifteen days after the effective
date of legislation appropriating funds for the
implementation of this article, shall publish statewide a
notice to private business employers of the opportunity to
employ eligible unemployed persons as provided for under this article.

Any private business, as defined in section two of this article, seeking to employ eligible unemployed persons may make application at any local job service office on forms to be supplied by the commissioner. Such forms shall provide space for a listing of the nature of the employment position available and the minimum experience, skills and educational requirements therefor. The form shall also provide space for an affidavit by the employer that the employment position to be filled is not being used in lieu of the recall of laid off workers, to replace existing employees or to supplement the compensation paid existing employees. This affidavit shall also contain a statement by the private business employer that there is a reasonable expectation that this employment may continue beyond the end of the six-month reimbursement period provided for under this article. At each job service office of the department of employment security, the commissioner shall cause to be compiled a list of job openings under this program. The list shall be available for inspection by any eligible unemployed person applying for employment hereunder. The commissioner is authorized to require, prior to approval of an application by an employer, examination of such records and documents of the employer as the commissioner may deem necessary to ensure the correctness and truthfulness of the employer's affidavit.

The commissioner shall reimburse private business employers of eligible unemployed persons from funds appropriated and made available by the Legislature to the commissioner. Such reimbursement shall equal one half of the employer's prevailing starting hourly wage for each person employed under the provisions of this article, but the state's share of the total reimbursement shall not exceed the federal hourly minimum wage. The workweek shall not exceed forty hours per week, per eligible employee, nor shall any reimbursement extend for a period longer than six months. In addition to the compensation provided under the emergency employment supplemental matching
program to the employee, each private business employer shall pay an additional sum to each such employee of not less than one half the employer's prevailing starting hourly wage plus applicable costs for each such employee of payments for workers' compensation and employer social security requirements. Any employment and reimbursement provided for in this section shall be agreed to in writing by the employer, the prospective employee and the commissioner prior to such employee's actual employment.

The commissioner shall provide by rule and regulation: The total number of employees who may be employed by any single private business employer under this program, the total number of employees who may be employed under the entire program and the priority preference to be given eligible unemployed persons who are heads of households.

The commissioner may promulgate such rules and regulations, not inconsistent with the provisions of this article, as may be deemed necessary by him to provide for proper administration of this article.

Any funds appropriated for this program which have not been committed for private sector employment purposes within a reasonable period of time determined by the commissioner to be necessary for implementation of this article shall be redistributed for public employment purposes: Provided, That this is consistent with the language of the legislative appropriation making the funds available.

CHAPTER 17

(Com. Sub. for H. B. 106—By Mr. Speaker, Mr. See, by request of the Executive)

[Passed May 31, 1983; in effect from passage. Approved by the Governor.]

AN ACT to amend and reenact section forty-four, article three, chapter five-a of the code of West Virginia, one thousand nine hundred thirty-one, as amended, relating to temporarily increasing and expanding the preference for resident vendors of
this state doing business with the state, its political subdivisions, including county boards of education; providing for the exclusion of business and occupation taxes in certain cases to determine the lowest bid; defining resident vendor; requiring a percentage of nonmanagement employees on certain public improvement projects to be state residents; exceptions.

Be it enacted by the Legislature of West Virginia:

That section forty-four, article three, chapter five-a of the code of West Virginia, one thousand nine hundred thirty-one, as amended, be amended and reenacted to read as follows:

ARTICLE 3. PURCHASING DIVISION.

§5A-3-44. Preference for resident vendors; preference for state residents for nonmanagement employment in public improvement projects; exceptions.

1 Other provisions of this article notwithstanding, in any instance that a purchase of commodities or printing by the director or by a state department is required under the provisions of this article to be made upon competitive bids, such purchase shall be made from a vendor resident in West Virginia, if such bid does not exceed the lowest qualified bid from a nonresident vendor by more than two percent of the latter bid, and if such resident vendor has made written claim for such preference at the time the bid was submitted:

Provided, That from the effective date of this section, through the thirty-first day of December, one thousand nine hundred eighty-four, such preferences for a resident vendor shall be no more than five percent above the lowest qualified bid from a nonresident bidder: Provided, however, That such temporarily increased preferences shall apply to vendors doing business with the commissioner of highways including contracts awarded pursuant to the provisions of article four, chapter seventeen of this code only where the purchase is made exclusively from state funds: Provided further, That political subdivisions of the state including county boards of education may grant the same preferences to any resident vendor of this state who has made a written claim for such preference at the time a bid is submitted, but for the purposes of this proviso, in determining the lowest bid, any political
subdivision shall exclude from the bid the amount of business
occupation taxes which must be paid by a resident vendor
to any municipality within the county comprising or located
within such subdivision as a result of being awarded the con-
tract which is the object of the bid; in the case of a bid re-
ceived by a municipality, the municipality shall exclude only
such business and occupation taxes as will be paid to such
municipality: And provided further, That prior to soliciting
any such competitive bids, any such political subdivision may,
by majority vote of all its members in a public meeting where
all such votes shall be recorded, elect not to exclude from
the bid the amount of business and occupation taxes as pro-
vided herein.

A vendor shall be deemed to be a resident of this state if
such vendor is an individual, partnership, association or cor-
poration in good standing under the laws of the state of West
Virginia who (1) is a resident of the state or a foreign corpora-
tion authorized to transact business in the state; (2) main-
tains an office in the state; (3) has paid personal property
taxes pursuant to article five, chapter eleven of this code on
equipment used in the regular course of supplying services
of the general type offered; and (4) has paid business and
occupation taxes pursuant to article thirteen, chapter eleven
of this code. In addition, in the case of a vendor selling
tangible personal property, a resident vendor is one who has a
stock of materials held in West Virginia for sale in the ordinary
course of business, which stock is of the general type offered,
and which is reasonably sufficient in quantity to meet the
ordinary requirements of customers.

From the effective date of this section, through the thirty-
first day of December, one thousand nine hundred eighty-
four, whenever a contract is awarded pursuant to a bid on the
construction of a public improvement, the contract executed
between the public authority and the successful bidder shall
contain a provision setting forth that more than fifty percent
of the nonmanagement personnel employed by the successful
bidder and by each of his subcontractors for work performed
on the project within the state shall be residents of the state of
West Virginia who resided in the state on the date the contract
bids are opened: Provided, That for purposes of this paragraph the terms "construction," "public improvement" and "public authority" shall be defined in accordance with definitions set forth for those terms under the provisions of section one, article five-a, chapter twenty-one of this code: Provided, however, That such provision shall be included in contracts between the commissioner of highways and a successful bidder, including any such contracts awarded pursuant to the provisions of article four, chapter seventeen of this code, only when the contract amount is to be paid exclusively from state funds.

If any of the requirements or provisions set forth in this section jeopardize the receipt of federal funds, then such requirements or provisions shall be void and of no force and effect for that specific public improvement project.

If any provision or clause of this section or application thereof to any person or circumstance is held invalid, such invalidity shall not affect other provisions or applications of this section which can be given effect without the invalid provision or application, and to this end the provisions of this section are declared to be severable.

CHAPTER 18

(Com. Sub. for H. B. 107—By Mr. Speaker, Mr. See, by request of the Executive)

[Passed May 24, 1983; in effect from passage. Approved by the Governor.]
schedule; limitation on period for payment; when employer in default of settlement payment; effect of default of settlement payment; setting forth notice requirements of commissioner; and requiring commissioner to provide application forms.

Be it enacted by the Legislature of West Virginia:

That article two, chapter twenty-three of the code of West Virginia, one thousand nine hundred thirty-one, as amended, be amended by adding thereto a new section, designated section five-b, to read as follows:

ARTICLE 2. EMPLOYERS AND EMPLOYEES SUBJECT TO CHAPTER; EXTRA TERRITORIAL COVERAGE.

§23-2-5b. Legislative purpose; application for settlement; reinstatement; amount of settlement; when settlement void; notification of rights.

The Legislature hereby declares that it is the purpose of this section to provide any employer who may, as of the effective date of this section, be in default in any payment due under the provisions of this chapter, an opportunity to settle the amount of the default in accordance with the provisions hereinafter set forth. For purposes of this section, the term "default" shall apply to any employer who has failed to subscribe or pay premiums to the workers' compensation fund in accordance with the provisions of this chapter.

(a) On or before the first day of October, one thousand nine hundred eighty-three, any employer who may qualify under this section shall apply to the commissioner for a settlement of the amount of default. Such application shall: (1) Be made on a form prescribed by the commissioner; (2) include the gross payroll of the employer during the entire period of default, which payroll information shall be verified by the employer or its authorized agent; and (3) include a payment equal to one half of one percent of the gross payroll during the period of default, or one hundred dollars, whichever amount shall be greater.

(b) Notwithstanding other provisions of this chapter to the contrary, upon timely receipt of the application prescribed in subsection (a) of this section, the commissioner shall declare
the employer to be reinstated to the benefits and protections
of this chapter: Provided, That such reinstatement shall not
affect any cause of action which has accrued against the em-
ployer as a result of an injury sustained during any period of
default: Provided, however, That the employer shall make the
quarterly premium payments as prescribed by this chapter, be-
ginning with the premium due for the third quarter of the year
one thousand nine hundred eighty-three, and continuing there-
after as the same shall become due.

(c) After the commissioner shall have received the appli-
cation of an employer as prescribed herein, the commissioner
and the employer or its authorized agent shall agree, in writ-
ing, on or before the first day of July, one thousand nine hun-
dred eighty-four, to settle the default in an amount which shall
include all delinquent premium payments, plus interest, com-
pounded monthly, at the rate that would have been earned on
the premiums had they been timely paid. The commissioner
may authorize payment of the amount set forth in the agree-
ment on a payment schedule, which period shall not exceed
three years from the date of the execution of the agreement.
The agreement shall set forth that the employer shall be in
default if any payment shall not be received by the commis-
sioner within fifteen days of the due date thereof.

(d) If the employer shall fail to pay current premiums in
accordance with the provisions of this chapter or if the em-
ployer shall default upon any payment set forth under the
terms of the agreement, such agreement shall be null, void
and of no effect and the commissioner shall have the authority
to proceed in accordance with the provisions of this chapter.

(e) The commissioner shall notify in writing, within fifteen
days of the effective date of this section, all employers who are
in default as indicated by the records of the commissioner of
the employer's right to apply for a settlement in accordance
with the provisions of this section. The commissioner may also
take additional steps, as deemed appropriate, to notify other
employers of the rights set forth herein. The written notice of
the commissioner shall include the form required for applica-
tion and the commissioner shall make such form available to
other employers.

WHEREAS, The Federal Jobs Program funds that are coming to the State of West Virginia are mandated to expand or enhance existing programs rather than have as their primary purpose the creation of new jobs; and

WHEREAS, West Virginia lost more federal aid than any other state last year; therefore, be it

That Congress is hereby urged in its consideration of the second phase of federal jobs program legislation to enact, and the President is urged to promote and approve a new jobs program bill which will target funds for the creation of permanent, productive jobs in West Virginia and other states which did not receive their fair share
of the jobs program funds provided for in the first jobs program bill passed by Congress; and, be it

WHEREAS, The Legislature enacted in the first extraordinary special session on May 31, 1983, Committee Substitute for House Bill No. 104 relating to civil service coverage for certain state employees; and

WHEREAS, In part, this legislation prohibits certain state employees included in the classified service from concurrently holding any paid public office while being a classified state employee; and

WHEREAS, The Legislature was not aware that the West Virginia State Civil Service Commission by prior regulation had authorized state classified employees to hold certain nonpartisan public offices including members of local school boards and nonpartisan membership on municipal councils and that there were certain state classified employees holding such offices at the time of the effective date of Committee Substitute for House Bill No. 104; and

WHEREAS, The above aforementioned Committee Substitute for House Bill No. 104 was made effective from passage and has been interpreted as having an immediate effect on state classified employees now holding any paid public office heretofore authorized by the West Virginia State Civil Service Commission which may require their resignation from public office or termination of employment by the State; and

WHEREAS, Such interpretation is contrary to the intent of the Legislature; and

WHEREAS, It was and is the intent of the Legislature that Committee Substitute for House Bill No. 104 be applied prospectively only and that any person now holding any paid public office authorized by Civil Service Commission regulation, including a member
of a local school board or a local municipal council, need not resign his paid public office or terminate his employment with the state classified system; and

Whereas, It is the expressed legislative finding and intent that Committee Substitute for House Bill No. 104 apply prospectively only and have no retroactive effect on any person included in the classified service holding any paid public office on May 31, 1983, the effective date of its passage; therefore, be it

Resolved by the Legislature of West Virginia:

That the Legislature finds and directs the West Virginia Civil Service Commission and all state agencies of state government as employers of any person under the state classified civil service system to apply Committee Substitute for House Bill No. 104 prospectively and not retroactively; and, be it

Further Resolved, That the Legislature directs that all such employers not require any person included in the classified service holding any paid public office to resign or otherwise terminate his public service office as a result of the passage of Committee Substitute for House Bill No. 104; and, be it

Further Resolved, That the Legislature further directs the Joint Committee on Government and Finance to study the issue of whether state classified employees should be permitted to hold certain public offices, i.e., members of local school boards and local municipal councils or other paid public offices, while at the same time being a state classified employee and to make its findings and recommendations, if any, to the Legislature prior to the first day of the 1984 legislative session.

SENATE CONCURRENT RESOLUTION NO. 7
(By Mr. McGraw, Mr. President)

[Adopted August 17, 1983]

Memorializing the President and the Congress of the United States to enact legislation that will preserve the rights of disabled persons who have been wrongfully terminated from Social Security disability benefits.

Whereas, Social Security disability insurance benefits have been
terminated to several thousand residents of West Virginia since 1981, even though most of those recipients continue to suffer totally disabling impairments; and

WHEREAS, Appeals to administrative courts are costly, time consuming and emotionally burdensome and compound the original disability, though the majority of cases end favorably for the recipient, overturning the initial wrongful termination of benefits; and

WHEREAS, Various federal courts have ruled that medical improvement should be a guiding factor in disability determinations, and that ruling has led to the high reversal rate and greater justice for recipients by administrative law judges; and

WHEREAS, The Legislature of West Virginia, through its Joint Committee on Government and Finance, has considered the problem to be of such severity as to investigate the state disability determination program and has held public hearings to gather evidence and disclose the serious problems with the current system; and

WHEREAS, The Governor of West Virginia has issued an executive order directing the state disability determination program to use the standards of federal court decisions most favorable to beneficiaries in all future determinations of disability; and

WHEREAS, The Governor of West Virginia has requested authority and funds from the Social Security Administration to review all cases of benefits terminated in the six-month period ending August 12, 1983, and to apply the criterion of medical improvement to such cases; and

WHEREAS, The Governor of West Virginia also has requested authority and funds from the Social Security Administration for face-to-face interviews between the beneficiary and disability determiner prior to any decision to terminate benefits; and

WHEREAS, Legislation has been introduced in Congress to address the problems in the current system, primarily by requiring proof of medical improvement before benefits may be terminated; therefore, be it

Resolved by the Legislature of West Virginia:

That the Congress of the United States be requested to enact
legislation that will ensure the rights of disabled persons who have been wrongfully denied Social Security disability benefits; and, be it

Further Resolved, That copies of this resolution be transmitted to the President of the United States, the presiding officer of each House of Congress and the members thereof from the State of West Virginia, and the Secretary of Health and Human Services.

SENATE CONCURRENT RESOLUTION NO. 8
(By Mrs. Spears, Mr. Tucker, Mr. Tomblin and Mr. Wright)
[Adopted August 17, 1983]

Requesting the Governor to declare an “All Emergency Services Day” recognizing the men and women of this State who serve on emergency squads, fire departments and as mobile intensive care paramedics.

WHEREAS, Maintenance of emergency ambulance, medical, fire and rescue services for the entire State is necessary to promote the health and welfare of the citizens and residents of this State; and

WHEREAS, The aforementioned needs are being effectively met by the men and women serving on emergency ambulance squads, fire departments and as mobile intensive care paramedics; and

WHEREAS, In providing these essential services, these men and women train endlessly, enduring long hours and brave dangerous conditions while receiving scant recognition for their performance; and

WHEREAS, The skills and esprit of these men and women reflect great credit upon themselves and the State of West Virginia; therefore, be it

Resolved by the Legislature of West Virginia:

That the Governor is requested to proclaim an “All Emergency Services Day” in order to pay tribute to those West Virginians who provide essential emergency services to the citizens and residents of this State; and, be it

Further Resolved, That the Clerk of the Senate is hereby directed to forward a copy of this resolution to the Governor.
