§19-2B-11. Criminal penalties; civil penalties.

(a) Criminal penalties.

(1) Any person who violates any of the provisions of this article is guilty of a misdemeanor and, upon conviction thereof, shall for the first offense be fined not less than two hundred nor more than one thousand dollars and upon conviction of each subsequent offense shall be fined not less than four hundred nor more than two thousand dollars.
(2) If a person knowingly sells, offers for sale or distribution, or attempts to sell, offers for sale or distribution of a carcass, meat product or poultry product that is contaminated with pathogenic microorganisms or otherwise adulterated, the person is guilty of a misdemeanor and, upon conviction thereof, shall be fined not less than five thousand dollars nor more than ten thousand dollars upon conviction of each offense.

(b) Civil penalties.

(1) Any slaughterer, processor or distributor who violates any of the provisions of this article or regulations adopted hereunder may be assessed a civil penalty by the commissioner. In determining the amount of any civil penalty, the commissioner shall give due consideration to the history of previous violations; the seriousness of the violation, including any hazards to the health and safety of the public; and the demonstrated good faith efforts by the charged party to ensure that similar violations do not recur.

(2) The commissioner may assess a penalty of not more than five hundred dollars for a first violation and not more than one thousand dollars for each subsequent violation.

CHAPTER 4

(Com. Sub. for H. B. 2972 — By Mr. Speaker, Mr. Kiss, and Delegates Martin, Proudfoot, Michael, Staton and Trump)

[Passed March 12, 1999; in effect from passage. Approved by the Governor.]

AN ACT to amend chapter nineteen of the code of West Virginia, one thousand nine hundred thirty-one, as amended, by adding thereto a new article, designated article eleven-d, relating to the regulation of traditional milk and cheese production methods; establishing legislative findings; prohibiting the division of health and local health departments from regulating certain cheese manufacturing and distribution; and authorizing rules by the commissioner of agriculture to regulate manufacture of certain cheese production.

Be it enacted by the Legislature of West Virginia:

That chapter nineteen of the code of West Virginia, one thousand nine hundred thirty-one, as amended, be amended by adding thereto a new article, designated article eleven-d, to read as follows:

ARTICLE 11D. TRADITIONAL CHEESE PRODUCTION.

§19-11D-1. Legislative findings.
§19-11D-2. Applications of article.
§19-11D-3. Exemption from regulatory control; authorizing rules by the commissioner of agriculture.
§19-11D-1. Legislative findings.

The Legislature finds that local production and sale of locally manufactured cheese products is a culturally significant tradition and that the preservation of historic methods of cheese production is in the public interest; that local cheese production is an important part of the economic livelihood of many families and small businesses in this state; and that the unique quality of home and farm-based cheese products cannot be duplicated using manufacturing and food production requirements enforced by local boards of health. Therefore, the Legislature finds that it is in the public interest to exempt certain local cheese production and local cheese products from regulations of the division of health related to food sanitation enforced by local boards of health, and to place the production of certain home and farm-based cheese products under the jurisdiction of the department of agriculture.

(a) In order for cheese production to fall within the exemption created in section two of this article, all of the following criteria must apply:

(1) The cheese must be manufactured at a home or farm-based site using either raw milk from West Virginia cows, production of which is regulated by the department of agriculture, or commercially pasteurized cow's milk;

(2) The cheese products must be aged at least sixty days;

(3) The cheese products must be sold directly to the consumer at the production site or marketed in local restaurants or local small businesses not engaged in interstate commerce: Provided, That for the purposes of this article, acceptance of a national credit card shall not be construed as engaging in interstate commerce.

(b) The exemptions contained in this article are not applicable to:

(1) Persons and businesses manufacturing more than five thousand pounds of cheese products per year;
Cheese products sold to the ultimate consumer outside the borders of the state;

(3) Cheese products marketed by mail or on the internet; or

(4) Cheese products the sale or manufacture of which is governed by applicable federal law.

§19-11D-3. Exemption from regulatory control; authorizing rules by the commissioner of agriculture.

The manufacture of cheese products described in section two of this article is exempt from: (a) Pasteurization, packaging, labeling and all other health related requirements established in this code or rules promulgated by the division of health, and (b) regulatory control by the division of health and county or local health departments or sanitarians. Powers of the commissioner of agriculture set forth in section ten, article eleven-a of this chapter are applicable to the manufacturing of home and farm-based cheese products described in section two of this article. The commissioner of agriculture is authorized to promulgate rules pursuant to article three, chapter twenty-nine-a of this code, considering and promoting traditional methods of cheese production, while providing minimum health and sanitation standards necessary for the protection of the public, including standards for cleanliness, handling, and protection from contamination. Emergency rules for this purpose are authorized.

§60-3A-2a. Further legislative findings, declarations and purpose.

1 (a) In addition to the findings and declarations set forth in subsection (a), section two of this article, the Legislature hereby finds and declares that:

4 (1) The provisions of this article as enacted during the regular session of the Legislature in the year one thousand nine hundred ninety were intended to require that all licenses issued for the retail sale of liquor expire as of the first day of July, two
thousand, and that the issuance of retail licenses for the ten-year period beginning the first day of July, two thousand, and for each ten-year period thereafter, be based on sealed competitive bids;

(2) It is the intention of the Legislature to provide that all retail licenses issued beginning the first day of July, two thousand, expire ten-years from the date of issuance and that every ten-years the issuance of retail licenses be based on competitive bids;

(3) The purposes set forth in subsection (b), section two of this article remain the purposes of the Legislature;

(4) Many of those persons who currently hold retail licenses have not only provided the services to the public contemplated by this article, but in many instances have provided employment and otherwise made substantial contributions to the economic and civic development of the communities in which they conduct business, and therefore, current licensees should be afforded special consideration if their bids for the licenses issued for the ten-year period beginning the first day of July, two thousand, be unsuccessful;

(5) Those persons who are issued a retail license for the ten-year period beginning on the first day of July, two thousand, and for any ten-year period thereafter should also be afforded special consideration if their bids for a retail license are unsuccessful; and

(6) Further statutory changes are desirable to effect the purposes set forth in subsection (b), section two of this article.

(b) It is, therefore, the further purposes of the Legislature in providing for the retail sale of liquor to:

(1) Require that all licenses issued for the ten-year period beginning the first day of July, two thousand, and for each ten-year period thereafter be based on sealed competitive bids;

(2) Provide current licensees who, having bid in the manner required by the provisions of this article, fail to submit the highest bid for licenses issued for the ten-year period beginning
the first day of July, two thousand, and for each ten-year period thereafter an additional opportunity to obtain the license; and

(3) Effect statutory changes to further the purposes provided in this section and section two of this article.

§60-3A-3. Sale of liquor by retail licensees permitted; cessation of retail sale of liquor by state.

(a) Notwithstanding any provision of this code to the contrary, the sale of liquor by retail licensees in accordance with the provisions of this article is lawful.

(b) Upon the opening of a retail outlet in any market zone, the state shall, as soon as practicable, discontinue operating any and all state liquor stores and agency stores within the market zone so long as a retail outlet is in operation in the market zone.

(c) No provision of this section shall prevent the commissioner, with the consent of the board, from operating a state liquor store in a market zone pursuant to the provisions of article three of this chapter where there are no retail outlets in operation, and the operation of any retail outlet in the market zone is prevented by a matter in controversy pending judicial adjudication or the licensee is unable or unwilling to open a retail outlet: Provided, That, the board determines that the resolution of the controversy will continue for such duration that the opening of a state liquor store is necessary to meet reasonable consumer concerns of availability of liquor.

§60-3A-7. Market zones; Class A and Class B retail licenses.

(a) The market zones established by the board for the retail sale of liquor within this state under the enactment of this section in one thousand nine hundred ninety may not be modified by the board unless authorized by the Legislature. For each market zone established, the commissioner may issue one Class A retail license and one or more Class B retail licenses. Each Class A retail license shall permit the holder of the license to operate the number of retail outlets the board authorized for that market zone. The number of Class B retail licenses to be issued by the commissioner within each market zone shall not exceed fifty percent of the number of retail outlets authorized for the Class A retail license for that market zone, except as otherwise authorized by subsection (e) of this section or section twenty-seven-a of this article: Provided, That, except as authorized by subsection (e) of this section or section twenty-seven-a of this article, in a market zone where the number of retail outlets authorized under the Class A retail license is an
odd number, the number of Class B retail licenses which may
be issued in that market zone shall be rounded up to the next
highest whole number following that number which is equal to
fifty percent of the number of retail outlets authorized under the
Class A retail license.

(b) If the board determines that a market zone is not suited
for the issuance of a Class A retail license, then only Class B
retail licenses may be authorized for that market zone and the
board shall determine the maximum number of Class B retail
licenses which may be issued for that market zone.

(c) When authorizing Class B retail licenses for a market
zone, the board may create one or more designated areas within
the market zone and authorize one Class B retail license for
each designated area. For each market zone, the commissioner
may issue additional Class B retail licenses for retail outlets to
be located outside any designated area, but the number of
additional Class B retail licenses, when added to the total
number of Class B retail licenses issued for all designated areas
within the market zone, shall not exceed the maximum number
of Class B retail licenses permitted under subsection (a) of this
section for that market zone, except as authorized by subsection
(e) of this section or section twenty-seven-a of this article.

(d) A person may hold one or more Class A retail licenses
and one or more Class B retail licenses, but for the same market
zone no person shall hold a Class A retail license and a Class B
retail license or more than one Class B retail license.

(e) Notwithstanding any provision of subsection (a) or (c)
of this section, no later than sixty days prior to the receipt of the
bids described in section ten-b of this article, the board may
authorize the commissioner to issue an additional Class B
license in a market zone for the ten-year period which begins
next following first day of July, where the board determines
that:

(1) Each outlet authorized to operate in the market zone has
been open and in operation for not less than one year;
(2) Changes in economic and demographic factors, including substantial population increases within the market zone, clearly demonstrate the need for an additional retail outlet or outlets within the market area to meet an increase in consumer demand; and

(3) The issuance of an additional Class B license in the market zone will not significantly impair the efforts to procure the revenues described in subsection (b), section ten-b of this article.

(f) The board shall establish the minimum bid for any additional Class B licenses authorized under subsection (e) of this section.

(g) No person may hold a combination of licenses that, in the aggregate, authorizes the operation of more than twenty-five percent of the total number of retail outlets authorized under the provisions of this article to operate in this state.

§60-3A-8. Retail license application requirements; retail licensee qualifications.

(a) Prior to or simultaneously with the submission of a bid for a retail license, each applicant shall file an application with the commissioner, stating under oath the following:

(1) If the applicant is an individual, his or her name and residence address;

(2) If the applicant is other than an individual, the name and business address of the applicant; the state of its incorporation or organization; the names and residence addresses of each executive officer and other principal officer, partner or member of the entity; a copy of the entity's charter or other agreement under which the entity operates; and the names and residence addresses of any person owning, directly or indirectly, at least twenty percent of the outstanding stock, partnership, or other interests in the applicant; and

(3) That the applicant has never been convicted in this state or any other state of any felony or other crime involving moral turpitude or convicted of any felony in this or any other state
court or any federal court for a violation of any state or federal liquor law, and if the applicant is other than an individual, that none of its executive officers, other principal officers, partners or members, or any person owning, directly or indirectly, at least twenty percent of the outstanding stock, partnership, or other interests in the applicant, has been convicted.

(b) An applicant shall provide the commissioner any additional information requested by the commissioner.

(c) Whenever a change occurs in any information provided to the commissioner, the change shall immediately be reported to the commissioner in the same manner as originally provided.

(d) The commissioner shall disqualify each bid submitted by an applicant under section ten of this article, and no applicant shall be issued or eligible to hold a retail license under this article, if:

(1) The applicant has been convicted in this state of any felony or other crime involving moral turpitude or convicted of any felony in this or any other state court or any federal court for a violation of any state or federal liquor law; or

(2) Any executive officer or other principal officer, partner or member of the applicant, or any person owning, directly or indirectly, at least twenty percent of the outstanding stock, partnership, or other interests in the applicant, has been convicted in this state of any felony or other crime involving moral turpitude or convicted of any felony in this or any other state court or any federal court for a violation of any state or federal liquor law.

(e) The commissioner shall not issue a retail license to an applicant which does not hold a license issued pursuant to federal law to sell liquor at wholesale.

(a) Except as provided in section ten-b of this article, bids for licenses shall be governed by the provisions of this section.

(b) The issuance of retail licenses shall be based on sealed competitive bids in accordance with the provisions of this
section. Bids for the issuance of retail licenses shall be obtained
by public notice published as a Class II-0 legal advertisement
in compliance with the provisions of article three, chapter
fifty-nine of this code, and the publication area for the publica-
tion shall be each market zone within which a retail outlet shall
be located. The second publication of the notice shall appear
more than sixty days next preceding the final day for submitting
bids.

(c) Each bid shall indicate the market zone for which the
retail license is sought, whether the bid is for a Class A retail
license or Class B retail license, and, if the board has created
one or more designated areas for the market zone, whether the
bid is for the Class B retail license to be issued for any desig-
nated area. No bid shall be altered or withdrawn after the
appointed hour for the opening of the bids. Subject to the
provisions of section ten-b of this article, each retail license
shall be awarded to the highest bidder. In market zones where
two or more Class B retail licenses are authorized (other than
for a designated area or areas), the licenses shall be awarded to
those persons submitting the highest bids. No bid shall be
considered unless the bond required under section eleven of this
article is submitted to the commissioner. All bids for a retail
license may be rejected by the board if the board determines
that the highest bid is inadequate, in which event the commis-
sioner shall begin anew the bidding process for that retail
license.

(d) Each person desiring to submit a bid shall file the bid
with the commissioner prior to the specified date and hour for
the bid openings. The failure to deliver or the nonreceipt of a
bid prior to the appointed date and hour constitutes sufficient
reason for the rejection of a bid. After the award of the retail
license, the commissioner shall indicate upon the successful bid
that it was the successful bid. Thereafter, a copy of the bid and
the bidder’s application shall be maintained as a public record,
shall be open to public inspection in the commissioner’s office
and shall not be destroyed without the written consent of the
legislative auditor.
(e) Prior to the issuance of the retail license to the successful bidder, the bid price and the annual retail license fee, as specified in section twelve of this article, shall be paid to the commissioner by money order, certified check or cashier’s check. All retail licenses shall be signed by the commissioner in the name of the state.

(f) If the successful bidder fails to pay to the commissioner the bid price and the annual retail license fee, at the time specified by the commissioner, the bond provided for in section eleven of this article shall be forfeited and the bidder shall not be issued the retail license. The commissioner shall then issue the retail license to the next highest bidder for the retail license or reject all bids and start anew the bidding procedure for the retail license.

§60-3A-10a. Preference for resident bidders.

In determining the highest bidder for purposes of section ten of this article, the board shall afford a five percent preference for West Virginia resident bidders, which shall be computed by adding five percent of the bid price to the bid price submitted by each resident bidder. For purposes of this section a bidder shall be considered to be a West Virginia resident if the bidder: (1) Has resided in this state for at least four years immediately prior to the date on which the bid is opened; or, if the bidder is an applicant other than an individual, has had its headquarters or principal place of business in this state for at least four years immediately prior to that date; and (2) meets the requirements set forth in section forty-four, article three, chapter five-a of this code relating to a residency of vendors, except for the requirement of having paid business and occupation taxes.

§60-3A-10b. Bidding procedure for licenses issued for the ten-year period beginning July 1, 2000, and licenses issued for each ten-year period thereafter.

(a) The issuance of Class A licenses and Class B licenses for the ten-year period beginning the first day of July, two thousand, and for each ten-year period thereafter, shall be based
upon sealed competitive bid in accordance with the provisions of section ten of this article except as provided in this section.

(b) Prior to accepting bids for Class A licenses and Class B licenses to be issued for the ten-year period beginning the first day of July, two thousand, the board shall determine the minimum bid for each license based upon a review of the sales at each retail outlet permitted to operate under the license and such other factors as the board may determine to generate the revenues from liquor license renewal projected by the governor’s official revenue estimates for fiscal year two thousand as presented to the regular session of the Legislature in the year one thousand nine hundred ninety-nine.

(c) Prior to accepting bids for Class A licenses and Class B licenses to be issued for the ten-year periods beginning the first day of July, two thousand ten, and the first day of July every ten-years thereafter, the board shall determine the minimum bid for each license based upon a review of the sales at each retail outlet permitted to operate under the license and such other factors as the board may determine to generate the revenues from liquor license renewal projected by the governor’s official revenue estimates for the fiscal year preceding the expiration of the retail licenses.

(d) All bids for a retail license for the ten-year period beginning the first day of July, two thousand, or for any ten-year period thereafter may be rejected by the board if the board determines that the highest bid fails to meet the minimum bid. The board may also reject any or all bids for a market zone where, in the aggregate, the bids for all of the retail licenses in the market zone fail to meet the minimum aggregate bid for that market zone. Where the board determines the highest bid meets or exceeds the minimum bid, the board shall determine whether, at the time of the bid, the same retail license was held for the period ending the thirtieth day of June, two thousand, or for any ten-year period thereafter, on the thirtieth day of June preceding the expiration of the license. If the current licensee holding the same retail license at the time of submission of the bid for the period ending the thirtieth day of June, two thousand, or for any ten-year period thereafter, on the thirtieth day
of June preceding the expiration of the retail license, submitted a bid that was not less than the minimum bid and is, after considering any preference applicable under the provisions of section ten-a of this article, an unsuccessful bidder for the license for the period beginning the first day of July, two thousand, or for any ten-year period thereafter, on the first day of July when the retail license expires, the commissioner shall notify the person that upon paying the amount of the highest bid, subject to the provisions of subsection (e) of this section, and upon compliance with all other requirements imposed by the provisions of this article for the issuance of the license, the retail license for the ten-year period beginning the first day of July, two thousand, or for any ten-year period thereafter, shall be issued to the current licensee. If, within the time determined by the commissioner, the current licensee pays the amount to the commissioner and complies with all other requirements imposed by the provisions of this article for the issuance of the license, the retail license for the ten-year period beginning the first day of July, two thousand, or for any ten-year period thereafter, shall be issued to the current licensee.

(e) The board shall, in determining the amount a current licensee who is an unsuccessful bidder shall pay as described in subsection (d) of this section, afford the unsuccessful bidder a preference. If the unsuccessful bidder is a West Virginia resident as defined in section ten-a of this article, the board shall afford the unsuccessful bidder a five percent preference in addition to the five percent preference afforded under section ten-a of this article. If the unsuccessful bidder is not a West Virginia resident, the board shall afford the unsuccessful bidder a five percent preference. The preference shall be computed by subtracting the preference percentage of the highest bid price from the highest bid price: Provided, That under no circumstances may the preference bring the price of the bid below the minimum bid established by the board: Provided, however, That a current licensee who is not operating any of the retail outlets for which he or she is authorized under the license is not eligible for the preference provided for under this section.

(f) In the event all bids submitted for a license fail to meet the minimum bid amount for the license as determined by the
board, the board may offer the license for bid again after it determines a new minimum bid amount for the license.

§60-3A-10c. Criminal penalties for unlawful inducement.

(a) Any person who gives another person any thing of value to induce the other to refrain from bidding for a retail license is guilty of a misdemeanor and, upon conviction, shall be fined not more than ten thousand dollars, and, in addition, shall be subject to a civil penalty payable to the commissioner of not more than one million dollars.

(b) Any person who gives a person any thing of value to induce the other to refrain from operating an outlet authorized under a retail license is guilty of a misdemeanor and, upon conviction, shall be fined not more than ten thousand dollars, and, in addition, shall be subject to a civil penalty payable to the commissioner of not more than one million dollars.

§60-3A-12. Annual retail license fee; expiration and renewal of retail licenses.

(a) The annual retail license period is from the first day of July to the thirtieth day of June of the following year. The annual retail license fee for a Class A retail license is the sum obtained by multiplying the number of retail outlets operated by the retail licensee in the market zone to which the Class A retail license applies by one thousand dollars. The annual retail license fee for a Class B retail license is one thousand dollars. The annual retail license fee for the initial year of issuance shall be prorated based on the number of days remaining between the date of issuance and the following thirtieth day of June.

(b) All retail licenses expire on the thirtieth day of June of each year and may be renewed only upon the submission to the commissioner of the same information required for the issuance of the license and any additional information requested by the commissioner on the forms and by the date prescribed by the commissioner, together with the payment to the commissioner of the applicable annual retail license fee required under this section.
(c) No person may sell liquor at any retail outlet if the retail
license applicable to the outlet has been suspended or revoked,
or has expired.

(d) All retail licenses issued or renewed under the provi-
sions of this article for the period ending the thirtieth day of
June, two thousand, or on the thirtieth day of June for any ten-
year period thereafter, expire and are of no further force or
effect as of the first day of July, in the year two thousand, or as
of the first day of July every ten years thereafter.

(e) Notwithstanding any provision of section eighteen,
article four of this chapter to the contrary, a municipality may
invoke the authority granted by section four, article thirteen,
chapter eight of this code to require an annual license from each
retail licensee and require payment for the license in amounts
not to exceed the amounts provided in subsection (a) of this
section.

§60-3A-17. Wholesale prices set by commissioner; retail licensees
to purchase liquor from state; transportation and
storage; method of payment.

(a) The commissioner shall fix wholesale prices for the sale
of liquor, other than wine, to retail licensees. The commissioner
shall sell liquor, other than wine, to retail licensees according
to a uniform pricing schedule. The commissioner shall obtain
if possible, upon request, any liquor requested by a retail
licensee.

(b) Wholesale prices shall be established in order to yield
a net profit for the general fund of not less than six million five
hundred thousand dollars annually on an annual volume of
business equal to the average for the past three years. The net
revenue derived from the sale of alcoholic liquors shall be
deposited into the general revenue fund in the manner provided
in section seventeen, article three of this chapter.

(c) The commissioner shall specify the maximum wholesale
markup percentage which may be applied to the prices paid by
the commissioner for all liquor, other than wine, in order to
determine the prices at which all liquor, other than wine, will be
sold to retail licensees. A retail licensee shall purchase all liquor, other than wine, for resale in this state only from the commissioner, and the provisions of sections twelve and thirteen, article six of this chapter shall not apply to the transportation of the liquor: Provided, That a retail licensee shall purchase wine from a wine distributor who is duly licensed under article eight of this chapter. All liquor, other than wine, purchased by retail licensees shall be stored in the state at the retail outlet or outlets operated by the retail licensee: Provided, however, That the commissioner, in his or her discretion, may upon written request permit a retail licensee to store liquor at a site other than the retail outlet or outlets.

(d) The sale of liquor by the commissioner to retail licensees shall be paid by electronic funds transfer which shall be initiated by the commissioner on the business day following the retail licensees order or by money order, certified check or cashier's check which shall be received by the commissioner at least twenty-four hours prior to the shipping of the alcoholic liquors: Provided, That if a retail licensee posts with the commissioner an irrevocable letter of credit or bond with surety acceptable to the commissioner from a financial institution acceptable to the commissioner guaranteeing payment of checks, then the commissioner may accept the retail licensee's checks in an amount up to the amount of the letter of credit.

(e)(1) A retail licensee may not sell liquor to persons licensed under the provisions of article seven of this chapter at less than one hundred ten percent of the retail licensee's cost as defined in section six, article eleven-a, chapter forty-seven of this code.

(2) A retail licensee may not sell liquor to the general public at less than one hundred ten percent of the retail licensee's cost as defined in section six, article eleven-a, chapter forty-seven of this code.

§60-3A-27a. Revocation of license or reduction of authority to operate retail outlet for failure to operate retail outlet.
(a)(1) The commissioner may revoke a Class A retail license if the licensee fails to operate at least one of the retail outlets authorized under the license. The commissioner may revoke a Class B retail license if the licensee fails to operate the retail outlet authorized under the license.

(2) The commissioner may not accept the bid of a person who has had a license revoked pursuant to subdivision (1) of this subsection when the license is offered for bid following the revocation.

(b)(1) Where a person operates at least one of the retail outlets authorized under a Class A license, but fails to operate the full number of retail outlets authorized under the license, the commissioner may reduce the number of retail outlets the person is authorized to operate under the license by the number that is not being operated.

(2) Notwithstanding any provision of section seven of this article to the contrary, the board may authorize the commissioner to issue, subject to the bid requirements of section ten of this article, a Class B license in the stead of each retail outlet for which authority to operate under a Class A license has been reduced under subdivision (1) of this subsection.

(3) The commissioner may not accept the bid of a person who has had the number of retail outlets authorized under a license reduced pursuant to subdivision (1) of this subsection for any Class B license issued in the stead of a retail outlet previously authorized under the reduced license.

(c) The board shall propose legislative rules for promulgation pursuant to the provisions of article three, chapter twenty-nine-a of this code prescribing the criteria under which the commissioner is to determine whether a retail licensee has failed to operate an outlet.

(d) A revocation or reduction under this section is subject to the provisions for notice, hearing and review prescribed in section twenty-eight of this article.

§60-3A-29. Disposition of inventory upon revocation or surrender of retail license.
In the event of the revocation, expiration or surrender of any retail license in accordance with the provisions of this article, the commissioner may, in his or her discretion, purchase, or authorize another person to purchase, all or any portion of the liquor inventory of the retail licensee. If the commissioner elects to purchase, or authorizes another person to purchase, the inventory or any portion of the inventory, the retail licensee shall sell the inventory as directed by, and upon terms determined by, the commissioner.

ARTICLE 7. LICENSES TO PRIVATE CLUBS.

§60-7-11. Licensee must purchase alcoholic liquors from or through commissioner or retail licensee; exceptions.

(a)(1) All licensees shall purchase all alcoholic liquors sold by them from the West Virginia alcohol beverage control commissioner at prices established by the commissioner for sales of the alcoholic liquors to the public generally or from any retail licensee licensed under the provisions of article three-a of this chapter, except that the licensees may purchase those wines permitted to be sold at retail pursuant to article eight of this chapter from those distributors licensed pursuant to said article at the same prices the distributors sell the wines to retailers licensed pursuant to said article.

(2) A licensee may by contract approved by the commissioner receive deliveries of alcoholic liquor from a retail liquor store, and the provisions of sections twelve and thirteen, article six of this chapter shall not apply to the transportation of that alcoholic liquor.

(b) In all reports filed under section sixteen, article fifteen, chapter eleven of this code, retail licensees licensed under the provisions of article three-a of this chapter shall separately identify the amount of sales tax on sales of liquor to licensees in the manner required by the tax commissioner.

(c) Notwithstanding the provisions of section thirty, article fifteen, chapter eleven of this code to the contrary, the amount of the sales taxes collected by the tax commissioner shall be
deposited in a revolving fund account in the state treasurer's office, designated the "drunk driving prevention fund", and administered by the commission on drunk driving prevention, subject to appropriations by the Legislature.

CHAPTER 7

(Com. Sub. for H. B. 2200 — By Mr. Speaker, Mr. Kiss, and Delegate Trump)
[By Request of the Executive]

[Passed March 21, 1999; in effect from passage. Approved by the Governor.]

AN ACT making appropriations of public money out of the treasury in accordance with section fifty-one, article six of the constitution.

Be it enacted by the Legislature of West Virginia:

Title

TITLE I—GENERAL PROVISIONS.
§1. General policy.
§2. Definitions.
§3. Classification of appropriations.
§5. Maximum expenditures.

Sec. 1. General policy.—The purpose of this bill is to appropriate money necessary for the economical and efficient discharge of the duties and responsibilities of the state and its agencies during the fiscal year two thousand.

Sec. 2. Definitions.—For the purpose of this bill:
“Governor” shall mean the governor of the state of West Virginia.

“Code” shall mean the code of West Virginia, one thousand nine hundred thirty-one, as amended.

“Spending unit” shall mean the department, bureau, division, office, board, commission, agency or institution to which an appropriation is made.

The “fiscal year two thousand” shall mean the period from the first day of July, one thousand nine-hundred ninety-nine, through the thirtieth day of June, two thousand.

“General revenue fund” shall mean the general operating fund of the state and includes all moneys received or collected by the state except as provided in section two, article two, chapter twelve of the code or as otherwise provided.

“Special revenue funds” shall mean specific revenue sources which by legislative enactments are not required to be accounted for as general revenue, including federal funds.

“From collections” shall mean that part of the total appropriation which must be collected by the spending unit to be available for expenditure. If the authorized amount of collections is not collected, the total appropriation for the spending unit shall be reduced automatically by the amount of the deficiency in the collections. If the amount collected exceeds the amount designated “from collections,” the excess shall be set aside in a special surplus fund and may be expended for the purpose of the spending unit as provided by article two, chapter five-a of the code.

Sec. 3. Classification of appropriations.—An appropriation for:

If there is no appropriation for "employee benefits," such costs shall be paid by each spending unit from its "personal services" line item, its "unclassified" line item or other appropriate line item. Each spending unit is hereby authorized and required to make such payments in accordance with the provisions of article two, chapter five-a of the code.

Each spending unit shall be responsible for all contributions, payments or other costs related to coverage and claims of its employees for unemployment compensation. Such expenditures shall be considered an employee benefit.

"Current expenses" shall mean operating costs other than personal services and shall not include equipment, repairs and alterations, buildings or lands.

transferred to the “personal services” line: And provided  
further, That upon written request of the speaker of the house  
of delegates, the auditor shall transfer within the general  
revenue fund amounts from the total appropriations of the  
house of delegates to other agencies, boards or departments:  
And provided further, That if the Legislature by subsequent  
enactment consolidates agencies, boards or functions, the  
secretary may transfer the funds formerly appropriated to such  
agency, board or function in order to implement such consolida-  
tion. No funds may be transferred from a special revenue  
account, dedicated account, capital expenditure account or any  
other account or fund specifically exempted by the Legislature  
from transfer, except that the use of the appropriations from the  
state road fund for the office of the secretary of the department  
of transportation is not a use other than the purpose for which  
such funds were dedicated and is permitted.  

Appropriations otherwise classified shall be expended only  
where the distribution of expenditures for different purposes  
cannot well be determined in advance or it is necessary or  
desirable to permit the spending unit the freedom to spend an  
appropriation for more than one of the above classifications.  

Sec. 4. Method of expenditure.—Money appropriated by  
this bill, unless otherwise specifically directed, shall be  
appropriated and expended according to the provisions of  
article three, chapter twelve of the code or according to any law  
detailing a procedure specifically limiting that article.  

Funds of the state of West Virginia not heretofore classified  
as to purpose and existing within the funds of the treasury shall  
be determined by the governor and transferred to a special  
account for the purpose of expenditure as part of the general  
fund of the state.  

Sec. 5. Maximum expenditures.—No authority or  
requirement of law shall be interpreted as requiring or permit-  
ting an expenditure in excess of the appropriations set out in  
this bill.

When this election is made, a copy of the order of the board making the election shall be filed with the chief inspector and the state board of school finance. The county board of education is allowed to contract with any certified public accountant on the chief inspector's then current list of approved certified public accountants, unless the state board of school finance or the prosecuting attorney of the county in which the board is located timely submits to the chief inspector a written request for the examination to be performed by the chief inspector or a person appointed by the chief inspector, or the chief inspector determines that a special or unusual situation exists: Provided,

or nonfeasance in office on the part of any public officer or
employee, the certified public accountant shall submit his or her
recommendation to the chief inspector regarding the legal
action the approved certified public accountant considers
appropriate, including, but not limited to, whether criminal
prosecution or civil action to effect restitution is appropriate,

That an audit must be performed at least once every three years
by the chief inspector and shall be performed whenever during
the course of a review the chief inspector determines that
special or unusual circumstances warrant making an audit.

(i) When not required to have an audit by then existing
federal regulations or by any law or contract provision and the
financial affairs of a local government are not examined
The chief inspector or any authorized assistant may issue subpoenas and compulsory process, direct the service thereof by any sheriff, compel the attendance of witnesses and the production of books and papers at any designated time and place, selected in their respective county, and administer oaths.

At the time the certified audit report is filed, the chief inspector shall notify the proper legal authority of the agency, the prosecuting attorney and the attorney general in writing of his or her recommendation as to the legal action that the chief inspector considers proper, whether criminal prosecution or civil action to effect restitution, or both.
(o) If the proper legal authority or prosecuting attorney, within nine months of receipt of the certified audit report and recommendations, refuses, neglects or fails to take efficient legal action by a civil suit to effect restitution or by prosecuting criminal proceedings to a final conclusion, in accordance with the recommendations, the chief inspector may institute the necessary proceedings or participate therein and prosecute the proceedings in any court of the state to a final conclusion.

(p) A local government that is not a county board of education, may elect, by the first day of May of the fiscal year to be audited, to have its annual examination performed by a certified public accountant approved by the chief inspector to perform such examinations. When this election is made, a copy of the order of the governing body making the election shall be filed with the chief inspector. An electing local government is allowed to contract with any certified public accountant on the chief inspector's then current list of approved certified public accountants, unless the prosecuting attorney of the county in which the local government is located timely submits to the chief inspector a written request for the examination to be performed by the chief inspector or a person appointed by the chief inspector, or the chief inspector determines that a special or unusual situation exists: Provided, That no less than once every three-year period the audit of a local government shall be performed by the office of chief inspector. The local government shall follow the audit bid procurement procedures established by the chief inspector in obtaining such audit: Provided, however, That the chief inspector may elect to conduct the audit of a local unit of government with one or more members of his or her audit staff where, in the opinion of the chief inspector, a special or unusual situation exists.

(e) The main office or a branch of a West Virginia state banking institution may not be relocated without the approval by order of the commissioner.

(f) Any banking institution which is authorized to establish branch banks pursuant to this section may provide the same banking services and exercise the same powers at each such branch bank as may be provided and exercised at its principal banking house.

(g) The board shall, upon receipt of any application to establish a branch bank under the provisions of this section, provide notice of the application to all banking institutions. A banking institution may, within ten days after receipt of the
notice, file a petition to intervene and shall, if it files a petition, thereupon become a party to any hearing relating thereto before the board.

(h) The commissioner shall prescribe the form of the application for a branch bank under the provisions of this section and shall collect an examination and investigation fee of five hundred dollars for each filed application for a branch bank that is to be established by the construction, lease or acquisition of a branch bank facility, and five hundred dollars for a branch bank that is to be established by the purchase of the business and assets and assumption of the liabilities of, or merger or consolidation with another banking institution. Notwithstanding the above, if the merger or consolidation is between an existing banking institution and a bank newly incorporated solely for the purpose of facilitating the acquisition of the existing banking institution, the commissioner shall collect an examination and investigation fee of one hundred dollars. The commissioner may require an examination of a financial institution or an office of a financial institution that is being merged into a state-chartered bank. If an examination is required, the applicant is responsible for paying the examination costs at a rate of fifty dollars per examiner hour. The board shall complete the examination and investigation within ninety days from the date on which the application and fee are received, unless the board requests in writing additional information and disclosures concerning the proposed branch bank from the applicant banking institution. If the board makes that request, the ninety-day period shall be extended for an additional period of thirty days plus the number of days between the date of the request and the date the additional information and disclosures are received.

(i) Upon completion of the examination and investigation with respect to the application, the board shall, if a hearing be required pursuant to subsection (j) of this section, forthwith give notice and hold a hearing pursuant to the following provisions:

(1) Notice of hearing must be given to the banking institution with respect to which the hearing is to be conducted in
accordance with the provisions of section two, article seven, chapter twenty-nine-a of this code, and the hearing and the administrative procedures in connection therewith are governed by all of the provisions of article five, chapter twenty-nine-a of this code, and must be held at a time and place set by the board but may not be less than ten nor more than thirty days after the notice is given;

(2) At the hearing a party may represent himself or herself or be represented by an attorney at law admitted to practice before any circuit court of this state;

(3) After the hearing and consideration of all the testimony and evidence, the board shall make and enter an order approving or disapproving the application, which order shall be accompanied by findings of fact and conclusions of law as specified in section three, article five, chapter twenty-nine-a of this code, and a copy of the order and accompanying findings and conclusions shall be served upon all parties to the hearing, and their attorneys of record, if any.

(j) A state banking institution may not establish a branch bank until the board, following an examination, investigation, notice and hearing, enters an order approving an application for that branch bank: Provided, That a hearing is not required with respect to any application to establish a branch bank which is approved by the board unless a banking institution has timely filed a petition to intervene pursuant to subsection (g) of this section. The order shall be accompanied by findings of fact that:

(1) The applicant state-chartered banking institution satisfies such reasonable and appropriate requirements as to sound financial condition as the commissioner or board may from time to time establish;

(2) The establishment of the proposed branch bank would not result in a monopoly, nor be in furtherance of any combination or conspiracy to monopolize the business of banking in any section of this state;

(3) The establishment of the proposed branch bank would not have the effect in any section of the state of substantially
lessening competition, nor tend to create a monopoly or in any other manner be in restraint of trade, unless the anticompetitive effects of the establishment of that proposed branch bank are clearly outweighed in the public interest by the probable effect of the establishment of the proposed branch bank in meeting the convenience and needs of the community to be served by that proposed branch bank;

(4) The applicant state-chartered banking institution meets a satisfactory standard of compliance with federal and state community reinvestment act requirements as evidenced by its most recent state or federal examination;

(5) The applicant state-chartered banking institution meets a satisfactory standard of compliance with federal and state consumer compliance law and regulations as evidenced by its most recent state or federal regulatory examination; and

(6) The applicant state-chartered banking institution meets acceptable standards for investment in premises and fixed assets as permitted by section thirteen, article four of this chapter.

(k) Any party who is adversely affected by the order of the board is entitled to judicial review thereof in the manner provided in section four, article five, chapter twenty-nine-a of this code. Any such party adversely affected by a final judgment of a circuit court following judicial review as provided in the foregoing sentence may seek review thereof by appeal to the supreme court of appeals in the manner provided in article six, chapter twenty-nine-a of this code.

(l) Pursuant to the resolution of its board of directors and with the prior written approval of the commissioner, a state banking institution may discontinue the operation of a branch bank upon at least thirty days prior public notice given in such form and manner as the commissioner prescribes.

(m) Any violation of any provision of this section is a misdemeanor offense punishable by applicable penalties as provided in section fifteen of this article.
§31A-8-12d. Expedited procedure for authorization of de novo branch banks.

(a) As an alternative to using the procedures established in subdivisions (g) through (j) of section twelve of this article, a banking institution desiring to establish a branch bank by de novo construction or lease may file a notice, containing information as prescribed by the commissioner, of its intent which must be received by the commissioner at least thirty-five days prior to the date on which the proposed branch will be established accompanied by a fee of two hundred fifty dollars. The commissioner must provide written notice of his or her acceptance or rejection of the branch notice prior to the expiration of the thirty-five day period. However, if the commissioner requests additional information from the branching institution, the period for the commissioner’s consideration of the notice shall be extended an additional fifteen days from the time the information requested is received by the commissioner.

(b) A state banking institution may not establish a branch bank under this section until the commissioner provides written approval of the notice for that branch bank. The commissioner’s approval or rejection of the notice must be accompanied by findings of fact on whether the applicant bank:

(1) Satisfies such reasonable and appropriate requirements as to sound financial condition as the commissioner or board, from time to time, may establish;

(2) Meets a satisfactory standard of compliance with federal and state community reinvestment act requirements as evidenced by its most recent state or federal examination;

(3) Meets a satisfactory standard of compliance with federal and state consumer compliance law and regulations as evidenced by its most recent state or federal regulatory examination; and
(4) Meets the acceptable standards for investment in premises and fixed assets as permitted by section thirteen, article four of this chapter.

(c) Any party who is adversely affected by an action of the commissioner taken pursuant to the criteria established by subsection (b) of this section may appeal within ten business days of the commissioner's decision to the board of banking and financial institutions which must, after holding a hearing pursuant to the provisions of subdivision (12), subsection (b), section two, article three of this chapter, affirm, reverse or modify the order of the commissioner. Any party who is adversely affected by an order of the board of banking and financial institutions issued pursuant to the provisions of this subsection is entitled to judicial review in the same manner as provided by the provisions of subsection (k), section twelve of this article.

ARTICLE 8E. INTERSTATE BRANCHING BY DE NOVO ENTRY AND ACQUISITION OF BRANCHES.

§31A-8E-3. Interstate branching by West Virginia state banks through de novo establishment or acquisition of branches in other states.

(b) A West Virginia state bank desiring to establish and maintain a branch in another state under this section shall file a notice on a form prescribed by the commissioner and pay the branch notice fee set forth in subsection (a), section twelve-d, article eight of this chapter.

Be it enacted by the Legislature of West Virginia:

That section ten, article six, chapter twenty-nine of the code of West Virginia, one thousand nine hundred thirty-one, as amended, be amended and reenacted to read as follows:

ARTICLE 6. CIVIL SERVICE COMMISSION.

§29-6-10. Rules of division.

The board shall have the authority to promulgate, amend or repeal rules, according to chapter twenty-nine-a of this code, to implement the provisions of this article:

(1) For the preparation, maintenance and revision of a position classification plan for all positions in the classified service and a position classification plan for all positions in the classified-exempt service, based upon similarity of duties performed and responsibilities assumed, so that the same qualifications may reasonably be required for and the same schedule of pay may be equitably applied to all positions in the same class. Except for persons employed by the governing boards of higher education, all persons receiving compensation as a wage or salary, funded either in part or in whole by the state, are included in either the position classification plan for
classified service or classified-exempt service. After each such
classification plan has been approved by the board, the director
shall allocate the position of every employee in the classified
service to one of the classes in the classified plan and the
position of every employee in the classified-exempt service to
one of the positions in the classified-exempt plan. Any em-
ployee affected by the allocation of a position to a class shall,
after filing with the director of personnel a written request for
reconsideration thereof in such manner and form as the director
may prescribe, be given a reasonable opportunity to be heard
thereon by the director. The interested appointing authority
shall be given like opportunity to be heard.

(2) For a pay plan for all employees in the classified
service, after consultation with appointing authorities and the
state fiscal officers, and after a public hearing held by the
board. Such pay plan shall become effective only after it has
been approved by the governor after submission to him by the
board. Amendments to the pay plan may be made in the same
manner. Each employee shall be paid at one of the rates set
forth in the pay plan for the class of position in which he is
employed. The principle of equal pay for equal work in the
several agencies of the state government shall be followed in
the pay plan as established hereby.

(3) For open competitive examinations to test the relative
fitness of applicants for the respective positions in the classified
service. Such examinations need not be held until after the rules
have been adopted, the service classified and a pay plan
established, but shall be held not later than one year after this
article takes effect. Such examinations shall be announced
publicly at least fifteen days in advance of the date fixed for the
filing of applications therefor, and may be advertised through
the press, radio and other media. The director may, however, in
his or her discretion, continue to receive applications and
examine candidates long enough to assure a sufficient number
of eligibles to meet the needs of the service and may add the
names of successful candidates to existing eligible lists in
accordance with their respective ratings.
An additional five points shall be awarded to the score of any examination successfully completed by a veteran. A disabled veteran shall be entitled to an additional ten points, rather than five points as aforesaid, upon successful completion of any examination.

(4) For promotions within the classified service which shall give appropriate consideration to the applicant's qualifications, record of performance, seniority and his or her score on a written examination, when such examination is practicable. An advancement in rank or grade or an increase in salary beyond the maximum fixed for the class shall constitute a promotion. When any benefit such as a promotion, wage increase or transfer is to be awarded, or when a withdrawal of a benefit such as a reduction in pay, a layoff or job termination is to be made, and a choice is required between two or more employees in the classified service as to who will receive the benefit or have the benefit withdrawn, and if some or all of the eligible employees have substantially equal or similar qualifications, consideration shall be given to the level of seniority of each of the respective employees as a factor in determining which of the employees will receive the benefit or have the benefit withdrawn, as the case may be. When an employee classified in a secretarial or clerical position has, irrespective of job classification, actual job experience related to the qualifications for a managerial or supervisory position, the division shall consider the experience as qualifying experience for the position. The division in its classification plan may, for designated classifications, permit substitution of qualifying experience for specific educational or training requirements at a rate determined by the division.

(5) For layoffs by classification for reason of lack of funds or work, or abolition of a position, or material changes in duties or organization, or any loss of position because of the provisions of this subdivision and for recall of employees so laid off, consideration shall be given to an employee's seniority as measured by permanent employment in the classified service or a state agency. In the event that the agency wishes to lay off a more senior employee, the agency must demonstrate that the
90 senior employee cannot perform any other job duties held by
91 less senior employees within that agency in the job class or any
92 other equivalent or lower job class for which the senior em-
93 ployee is qualified: Provided, That if an employee refuses to
94 accept a position in a lower job class, such employee shall
95 retain all rights of recall as hereinafter provided.

96 (6) For recall of employees, recall shall be by reverse order
97 of layoff to any job class that the employee has previously held
98 or a lower class in the series within the agency as that job class
99 becomes vacant. An employee will retain his or her place on the
100 recall list for the same period of time as his or her seniority on
101 the date of his or her layoff or for a period of two years,
102 whichever is less. No new employees shall be hired for any
103 vacancy in his or her job class or in a lower job class in the
104 series until all eligible employees on layoff are given the
105 opportunity to refuse that job class. An employee shall be
106 recalled onto jobs within the county wherein his or her last
107 place of employment is located or within a county contiguous
108 thereto. Any laid-off employee who is eligible for a vacant
109 position shall be notified by certified mail of the vacancy. It
110 shall be the responsibility of the employee to notify the agency
111 of any change in his or her address.

112 Notwithstanding any other provision of the code to the
113 contrary, except for the provisions of section seven, article two,
114 chapter five-b of this code, when filling vacancies at state
115 agencies the directors of state agencies shall, for a period of
116 twelve months after the layoff of a permanent classified
117 employee in another agency, give preference to qualified
118 permanent classified employees based on seniority and fitness
119 over all but existing employees of the agency or its facilities:
120 Provided, That employment of these persons who are qualified
121 and who were permanently employed immediately prior to their
122 layoff shall not supersede the recall rights of employees who
123 have been laid off in such agency or facility.

124 (7) For the establishment of eligible lists for appointment
125 and promotion within the classified service, upon which lists
126 shall be placed the names of successful candidates in the order
of their relative excellence in the respective examinations. Eligibility for appointment from any such list shall continue not longer than three years. An appointing authority shall make his selection from the top ten names on the appropriate lists of eligibles, or may choose any person scoring at or above the ninetieth percentile on the examination.

For the establishment of eligible lists for preference as provided in subdivision (6) of this section, a list shall be provided according to seniority. An appointed authority shall make the selection of the most senior qualified person: Provided, That eligibility for appointment from any such list shall continue not longer than one year and shall cease immediately upon appointment to a classified position.

(8) For the rejection of candidates or eligibles within the classified service who fail to comply with reasonable requirements in regard to such factors as age, physical condition, character, training and experience who are addicted to alcohol or narcotics or who have attempted any deception or fraud in connection with an examination.

(9) For a period of probation not to exceed one year before appointment or promotion may be made complete within the classified service.

(10) For provisional employment without competitive examination within the classified service when there is no appropriate eligible list available. No such provisional employment may continue longer than six months, nor shall successive provisional appointments be allowed, except during the first year after the effective date of this article, in order to avoid stoppage of orderly conduct of the business of the state.

(11) For keeping records of performance of all employees in the classified service, which service records may be considered in determining salary increases and decreases provided in the pay plan; as a factor in promotion tests; as a factor in determining the order of layoffs because of lack of funds or work and in reinstatement; and as a factor in demotions, discharges and transfers.
(12) For discharge or reduction in rank or grade only for cause of employees in the classified service. Discharge or reduction of these employees shall take place only after the person to be discharged or reduced has been presented with the reasons for such discharge or reduction stated in writing, and has been allowed a reasonable time to reply thereto in writing, or upon request to appear personally and reply to the appointing authority or his or her deputy: Provided, That upon an involuntary discharge for cause, the employer may require immediate separation from the workplace, or the employee may elect immediate separation. If separation is required by the employer in lieu of any advance notice of discharge, or if immediate separation is elected by an employee who receives notice of an involuntary discharge for cause, the employee is entitled to receive severance pay attributable to time the employee otherwise would have worked, up to a maximum of fifteen calendar days following separation. Receipt of severance pay does not affect any other right to which the employee is entitled with respect to the discharge. The statement of reasons and the reply shall be filed as a public record with the director. Notwithstanding the foregoing provisions of this subdivision, no permanent employee shall be discharged from the classified service for absenteeism upon using all entitlement to annual leave and sick leave when such use has been due to illness or injury as verified by a physician's certification or for other extenuating circumstances beyond the employee's control unless his or her disability is of such a nature as to permanently incapacitate him or her from the performance of the duties of his or her position. Upon exhaustion of annual leave and sick leave credits for the reasons specified herein and with certification by a physician that the employee is unable to perform his or her duties, a permanent employee shall be granted a leave of absence without pay for a period not to exceed six months if such employee is not permanently unable to satisfactorily perform the duties of his or her position.

(13) For such other rules and administrative regulations, not inconsistent with this article, as may be proper and necessary for its enforcement.
(14) The board shall review and approve by rules the establishment of all classified-exempt positions to assure consistent interpretation of the provisions of this article.

The provisions of this section are subject to any modifications contained in chapter five-f of this code. The board may include in the rules provided for in this article such provisions as are necessary to conform to regulations and standards of any federal agency governing the receipt and use of federal grants-in-aid by any state agency, anything in this article to the contrary notwithstanding. The board and the director shall see that rules and practices meeting such standards are in effect continuously after the effective date of this article.

AN ACT finding and declaring certain claims against the state and its agencies to be moral obligations of the state and directing the auditor to issue warrants for the payment thereof.

Be it enacted by the Legislature of West Virginia:

CLAIMS AGAINST THE STATE.

§1. Finding and declaring certain claims against the department of education; division of corrections; and division of labor; to be moral obligations of the state and directing payments thereof.

The Legislature has heretofore made findings of fact that the state has received the benefit of the commodities received and/or services rendered by certain claimants herein and has considered these claims against the state, and agencies thereof, which have arisen due to overexpenditures of the departmental appropriations by officers of such state spending units, such claims having been previously considered by the court of claims which also found that the state has received the benefit of the commodities received and/or services rendered by the claimants, but were denied by the court of claims on the purely statutory grounds that to allow such claims would be condoning illegal acts contrary to the laws of the state. The Legislature pursuant to its findings of fact and also by the adoption of the findings of fact by the court of claims as its own, and, while not condoning such illegal acts, hereby declares it to be the moral obligation of the state to pay these claims in the amounts specified below, and directs the auditor to issue warrants upon receipt of properly executed requisitions supported by itemized invoices, statements or other satisfactory documents as required.

Notwithstanding any provisions of section three, article one, chapter twenty-nine-b of this code to the contrary, the Legislature may not be required or compelled to allow access to all or a portion of its databases for inspection and copying and may not be required to make available copies of all or a portion of its databases on magnetic or electronic media.
AN ACT to amend chapter twelve of the code of West Virginia, one thousand nine hundred thirty-one, as amended, by adding thereto a new article, designated article four-b, relating to the powers and duties of the state auditor; legislative findings; the continued use by public schools, juvenile detention centers, and municipal and county public safety offices of certain computers, telecommunications devices and other technological equipment following their use by the state auditor's office; creation of the computer donation program; program administration; and legislative rules.

Be it enacted by the Legislature of West Virginia:

That chapter twelve of the code of West Virginia, one thousand nine hundred thirty-one, as amended, be amended by adding thereto a new article, designated article four-b, to read as follows:

ARTICLE 4B. COMPUTER DONATION PROGRAM.

§12-4B-1. Legislative findings.
§12-4B-2. Computer donation program created.
§12-4B-3. Legislative rules.
§12-4B-4. Severability.

§12-4B-1. Legislative findings.

1 The Legislature finds that:

2 (a) Public schools, juvenile detention centers, and municipal and county public safety offices are always in need of computers, telecommunications devices and other technological equipment, while the acquisition of such is a costly enterprise;

3 (b) The state auditor must frequently purchase such computers, telecommunications devices and other technological
equipment as is necessary for their interaction with national and international financial services industries;

(c) The purchase by the state auditor of modern computers, telecommunications devices and other technological equipment frequently results in the surplus of such existing equipment;

(d) Surplus equipment is generally obsolete and as such may no longer be used effectively by agency employees;

(e) Although the computers, telecommunications devices or other technological equipment is no longer useful in interacting with the financial services industry, they may still be useful items for a less complex and less high-speed dependent use;

(f) Heretofore, the state auditor has stripped the equipment for spare parts for other machines, and that this continued practice does not necessarily result in the equipment’s highest and best remaining use; and

(g) Rather than break down the equipment for spare parts or send obsolete machines to the surplus property unit of the state purchasing division where they may languish with lack of use, it would be in the best interest of the state that any obsolete computers, telecommunications devices or technological equipment be donated by the state auditor’s office to public schools, juvenile detention centers, and municipal and county public safety offices.

§12-4B-2. Computer donation program created.

(a) Notwithstanding any other provision of this code to the contrary, the state auditor is hereby authorized within his or her agency to create a computer donation program for public schools, juvenile detention centers, and municipal and county public safety offices in this state. This program authorizes the state auditor’s office to donate equipment to those entities which would otherwise be transferred to the surplus property unit of the purchasing division.

(b) The program shall be administered by a director as appointed or employed by the state auditor. The auditor may
either appoint the director from existing staff from his or her office, or may employ a director from existing funds.

(c) The director shall keep records and accounts that indicate the equipment donated, the age of the equipment, the reasons for declaring it obsolete, and to which public school, juvenile detention center, or municipal or county public safety office the equipment was donated.

§12-4B-3. Legislative rules.

The state auditor shall propose legislative rules in accordance with the provisions of article three-a, chapter twenty-nine-a of this code which shall detail the regulations for the public notice of the program, the method of receiving requests for participation in the program, any compliance and reporting information required of participants in the program, and the method of selecting recipients of equipment. The rules shall provide for fair and impartial selection of equipment recipients. The rules shall be presented for approval to the legislative oversight commission on education accountability by the first day of July, one thousand nine hundred ninety-nine.

§12-4B-4. Severability.

If any provision or application of this article is held invalid, the invalidity does not affect any other provision or application of this article which can be given effect without the invalid provision or application, and to this end the provisions of this chapter are severable.
AN ACT to amend and reenact section three, article ten-d, chapter five of the code of West Virginia, one thousand nine hundred thirty-one, as amended, relating to changing the number which constitutes a quorum for the consolidated retirement board.

Be it enacted by the Legislature of West Virginia:

That section three, article ten-d, chapter five of the code of West Virginia, one thousand nine hundred thirty-one, as amended, be amended and reenacted to read as follows:

ARTICLE 10D. CONSOLIDATED PUBLIC RETIREMENT BOARD.

§5-10D-3. Board meetings; quorum; vote; proceedings; compensation.

(a) The board shall hold a meeting at least once each three months, and shall designate the time and place thereof. Seven voting trustees constitute a quorum at any meeting of the board. Each member is entitled to one vote on each question before the board. The board shall adopt its own rules of procedure and shall keep a record of its proceedings. All meetings of the board shall be public.

(b) The members shall serve as members without compensation for their services as such: Provided, That each member shall be reimbursed, upon approval of the board, for any necessary expenses actually incurred by him or her in carrying out his or her duties. No public employee member may suffer any loss of salary or wages on account of his or her service as trustee.

nine hundred thirty-one, as amended, relating to prohibited conduct of regulated consumer lenders.

Be it enacted by the Legislature of West Virginia:

That section one hundred ten-a, article four, chapter forty-six-a of the code of West Virginia, one thousand nine hundred thirty-one, as amended, be amended and reenacted to read as follows:

    c. Fail to disclose the amount of a payoff of an existing loan within three business days of receiving a request for such information from either the borrower or an agent acting on behalf of the borrower.

2. (2) Unless preempted by federal law, no consumer loan by a regulated consumer lender may contain any scheduled balloon payment as set forth in this chapter. Nor may any regulated consumer lender loan contain terms of repayment which result in negative amortization: Provided, That nothing herein prevents unequal payment schedules resulting from a variable rate loan or a revolving line of credit.

3. (3) A regulated consumer lender may not make revolving loans for the retail purchase of consumer goods and services by use of a lender credit card.
Be it enacted by the Legislature of West Virginia:

(3) The name, address and taxpayer identification number of the transferee.

§46A-6H-3. Requirement of court approval for certain structured settlement transfers.

(a) In addition to the requirements of this article, the transfer agreement shall be approved by the circuit court of the county wherein the consumer resides or where the structured settlement agreement was executed when:

(1) The structured settlement payment rights belong to an infant or an incompetent person; or

(2) The structured settlement payment rights arise from a personal injury or other claim and:

(i) The aggregate of the structured settlement payment rights exceeds forty thousand dollars; or

(ii) The structured settlement agreement contains a provision restricting the right of the consumer to assign or transfer the consumer’s future payment rights.

(b) The transferee shall commence the action by filing a petition with the court seeking approval of the transfer, and providing to the court the disclosure statement required by subsection (a), section two of this article.

(c) The circuit court shall set a time and date for a hearing on the matter within twenty-one days of the date of the filing of the petition. The transferee shall notify the consumer and all interested parties of the date and time of the hearing and provide them with a copy of the petition.

(f) After a hearing or upon its own motion, the court may approve the transfer if the court finds that:

(1) The consumer has demonstrated that: (A) He or she, or his or her family, is facing a financial hardship and that the transfer would not subject the consumer or the consumer’s family to undue financial hardship in the future; or (B) the transfer is in the best interest of the consumer: Provided, That the judge shall disclose the possible adverse tax consequence to the consumer;

(2) The transferee is in compliance with the provisions of section two of this article; and

However, the approval of the annuity issuer and the structured settlement obligor shall not be required if, at the time the consumer and the transferee entered into the transfer agreement, a favorable tax determination was in effect.

(g) The court shall award the guardian ad litem reasonable fees for representing the consumer. Such fees shall be paid by the transferee.

(h) A consumer may request court approval for a transfer that does not mandate court approval under this section. Such voluntary petition by the consumer shall then become subject

1 (a) Any consumer who enters into a transfer agreement
2 shall have an absolute, nonwaiveable right of recision for five
3 business days following the closing date of the transfer. During
4 the five-day recision period, the consumer may rescind the
5 transfer agreement by phone, mail or facsimile, effective upon
6 receipt, without penalty or further obligation to the transferee,
7 except that any amounts advanced by the transferee to the
8 consumer in contemplation of the transfer shall be immediately
9 refunded to the transferee.

10 (b) When a transfer requires court approval, the consumer
11 may rescind without penalty until the court order is entered
12 appointing a guardian ad litem. When the consumer dismisses
13 the action after the appointment of a guardian ad litem or
14 rescinds the transfer agreement within five business days of
15 court approval of the transfer, the consumer shall be responsible
16 for the filing fee and any guardian ad litem fees.

17 (c) Notice of the right of recision shall be provided to the
18 consumer in writing by the transferee prior to the time of
19 closing.

§46A-6H-6. Remedies; effective date; nonwaiver.

1 (a) This article shall apply to transfer agreements of future
2 payment rights executed after the effective date of this article.
3 Nothing in this article shall be construed to impair, limit, affect
or otherwise apply to any transfer agreement executed prior to
the effective date of this article.

(b) A violation of a provision of this article by the trans-
feree is an unfair or deceptive act or practice in the conduct of
commerce pursuant to the provisions of article six, section one
hundred four of this chapter. The remedy provided for in this
section is in addition to other remedies provided for by law.

(c) The provisions of this article may not be waived.

§46A-6H-7. Protection from liability to consumer.

When an interested party makes payments to the transferee
pursuant to a court order of approval or a transfer agreement
executed in accordance with the provisions of this article, the
interested party and the transferee are not liable to the consumer
or other interested party for the transfer of the consumer’s
future payments.

§46A-6H-8. Registration with the secretary of state.

(a) A transferee or other person in the business of soliciting
or purchasing future payments shall file a registration statement

registration statement shall contain:

litigation involving alleged violations of this article’s provi-
sions or consumer complaints filed with the attorney general’s
office of this state that allege violations of this article’s provi-
sions, or a notarized statement that there has been no such
litigation or unresolved complaint relating to the operations of
the transferee.

(b) The transferee shall update the statement within thirty
days after a change of information occurs.
Each transferee registering pursuant to the provisions of this section shall maintain a copy of the registration statement. The transferee shall allow a consumer, interested party or court to inspect the registration statement on request.

(d) The secretary of state may charge each transferee that files a registration statement with the secretary of state a reasonable fee not to exceed one hundred dollars to cover the cost of filing.

(H. B. 2689 — By Delegates Amores, Doyle, Manuel, Ashley and Rowe)

[Passed March 12, 1999; in effect ninety days from passage. Approved by the Governor.]

AN ACT to amend and reenact section one hundred eleven, article seven, chapter forty-six-a of the code of West Virginia, one thousand nine hundred thirty-one, as amended, relating to providing for a civil penalty of not more than five thousand dollars for each violation of chapter forty-six-a involving consumer fraud.

Be it enacted by the Legislature of West Virginia:

That section one hundred eleven, article seven, chapter forty-six-a of the code of West Virginia, one thousand nine hundred thirty-one, as amended, be amended and reenacted to read as follows:

ARTICLE 7. ADMINISTRATION.

§46A-7-111. Civil actions by attorney general.

(1) After demand, the attorney general may bring a civil action against a creditor for making or collecting charges in excess of those permitted by this chapter. If it is found that an excess charge has been made, the court shall order the respondent to refund to the consumer the amount of the excess charge. If a creditor has made an excess charge in a deliberate violation
of or in reckless disregard for this chapter, or if a creditor has refused to refund an excess charge within a reasonable time after demand by the consumer or the attorney general, the court may also order the respondent to pay to the consumer a civil penalty in an amount determined by the court not in excess of the greater of either the amount of the sales finance charge or loan finance charge or ten times the amount of the excess charge. Refunds and penalties to which the consumer is entitled pursuant to this subsection may be set off against the consumer’s obligation. If a consumer brings an action against a creditor to recover an excess charge or civil penalty, an action by the attorney general to recover for the same excess charge shall be stayed while the consumer’s action is pending and shall be dismissed if the consumer’s action is dismissed with prejudice or results in a final judgment granting or denying the consumer’s claim. With respect to excess charges arising from consumer credit sales made pursuant to revolving charge accounts or from consumer loans made pursuant to revolving loan accounts, no action pursuant to this subsection may be brought more than four years after the time the excess charge was made. With respect to excess charges arising from other consumer credit sales or consumer loans, no action pursuant to this subsection may be brought more than one year after the due date of the last scheduled payment of the agreement pursuant to which the charge was made. If the creditor establishes by a preponderance of evidence that a violation is unintentional or the result of a bona fide error, no liability to pay a penalty shall be imposed under this subsection.

(2) The attorney general may bring a civil action against a creditor or other person to recover a civil penalty for willfully violating this chapter, and if the court finds that the defendant has engaged in a course of repeated and willful violations of this chapter, it may assess a civil penalty of no more than five thousand dollars for each violation of this chapter. No civil penalty pursuant to this subsection may be imposed for violations of this chapter occurring more than four years before the action is brought.
CHAPTER 59

(H. B. 2347 — By Mr. Speaker, Mr. Kiss, and Delegate Trump)

Be it enacted by the Legislature of West Virginia:

That section eleven, article one, chapter five of the code of West Virginia, one thousand nine hundred thirty-one, as amended, be amended and reenacted to read as follows:

(b) Any person arrested in this state charged with having committed any crime in another state or alleged to have escaped from confinement, or broken the terms of his bail, probation or parole may waive the issuance and service of the warrant provided for in subsections (a) and (d), section eight of this article, and all other procedure incidental to extradition proceedings, by executing or subscribing in the presence of a judge of any court of record, within this state a writing which states that he consents to return to the demanding state: Provided, that before such waiver shall be executed or subscribed by such person it shall be the duty of such judge to inform such person of his rights with respect to the issuance and service of a warrant of extradition and with respect to obtaining a writ of habeas corpus as provided for in subsection (a), section nine of this article.

If and when such consent has been duly executed it shall forthwith be forwarded to the office of the governor of this state and be filed by him in the office of the secretary of state. The judge shall direct the officer having such person in custody to deliver forthwith such person to the duly accredited agent or agents of the demanding state, and shall deliver or cause to be delivered to such agent or agents a copy of such consent: Provided, That nothing in this subdivision shall be deemed to limit the rights of the accused person to return voluntarily and without formality to the demanding state, nor shall this waiver procedure be deemed to be an exclusive procedure or to limit the powers, rights, or duties of the officers of the demanding state or of this state.

(c) Prior Waiver of Extradition. (3) A photograph, fingerprints or other evidence which
identifies the person held by the law-enforcement or correction
agency as the person who signed the waiver of extradition and
who is named in the order or warrant, or an electronically or
electromagnetically transmitted facsimile thereof.

(d) Nothing in this article contained shall be deemed to
constitute a waiver by this state of its right, power or privilege
to try such demanded person for an offense committed within
this state, or of its right, power or privilege to regain custody of
such person by extradition proceedings or otherwise for the
purpose of trial, sentence or punishment for any offense
committed within this state, nor shall any proceedings had
under this article which result in, or fail to result in, extradition,
be deemed a waiver by this state of any of its rights, privileges
or jurisdiction in any way whatsoever.

(e) After a person has been brought back to this state by, or
after waiver of, extradition proceedings, he may be tried in this
state for any offense which he may be charged with having
committed here as well as that specified in the requisition for
his extradition.

(f) Nothing in this section shall be construed to limit the
authority of the governor, at his or her own instance, to refuse
to honor an extradition demand from another jurisdiction.

ARTICLE 4. CENTERS FOR HOUSING YOUNG ADULT OFFENDERS.

§25-4-1. Purpose of article.
§25-4-2. Establishment of centers.
§25-4-3. Authority of commissioner of corrections.

§25-4-4. Warden.

§25-4-6. Assignment of offenders to center; period of center confinement; return to court; sentence or probation; revocation of probation.

§25-4-8. Labor, study or activities may be required.

§25-4-9. Wages of offenders.

§25-4-10. Authority to arrest inmates.

§25-4-1. Purpose of article.

1 The purpose of this article is to provide appropriate facilities for the housing of young adult offenders convicted of or pleading guilty to violation of law before courts with original jurisdiction, who are amenable to discipline other than in close confinement, and to give better opportunity to young adult offenders for reformation and encouragement of self-discipline.

§25-4-2. Establishment of centers.

1 The West Virginia commissioner of corrections is authorized to establish, operate and maintain centers to be operated in connection with the state correctional system as provided in this article.

§25-4-3. Authority of commissioner of corrections.

1 The West Virginia commissioner of corrections has the authority to acquire land and other property by purchase, grant, gift or otherwise in connection with the establishment of centers and to construct buildings, fences and other facilities, and to acquire personal property necessary for the maintenance and operation of the centers; to direct all needed improvements and repairs necessary for the proper upkeep of the centers, and to provide for the necessary food, medical treatment and safekeeping of persons confined in the centers; and to employ personnel to operate the centers and to provide the necessary work and other programs for the offenders assigned to the centers.

§25-4-4. Warden.

1 Each center shall be under the direction of a warden, who shall have the minimum qualification of a college degree with
a major in criminal justice or a related field. The warden shall be paid an annual salary to be fixed by the commissioner of corrections. The warden, subject to the authority of the commissioner, has the responsibility for the overall operation of the center.

The judge of any court with original criminal jurisdiction may suspend the imposition of sentence of any young adult, as defined in this section, convicted of or pleading guilty to a criminal offense, other than an offense punishable by life imprisonment, who has attained his or her eighteenth birthday but has not reached his or her twenty-first birthday at the time of the commission of the crime, and commit the young adult to the custody of the West Virginia commissioner of corrections to be assigned to a center. Young adult offenders who have previously been committed to a young adult offender center are not eligible for commitment to this program. The period of confinement in the center shall be for a period of not less than six months, or longer if it is deemed advisable by the center warden, but in any event the period of confinement may not exceed two years. The court shall provide the warden with a copy of the presentence investigation report, along with the commitment order.

If, in the opinion of the warden, the young adult offender proves to be an unfit person to remain in the center, the offender shall be returned to the committing court to be dealt with further according to law. In that event, the court may sentence the offender for the crime for which the offender was
convicted. In his or her discretion, the judge may allow the
defendant credit on the sentence for time the offender spent in
the center.

A young adult offender shall be returned to the jurisdiction
of the court which originally committed the offender when, in

which the offender is charged, and the judge of the court shall
immediately place the offender on probation. In the event the
offender’s probation is subsequently revoked, the judge shall
impose the sentence the young adult offender would have
originally received had the offender not been committed to the

time spent in the center.

§25-4-7. Physical, educational and psychological examinations;
transfer and placement.

Every young adult offender committed under this article
shall be given complete physical, educational and psychological

Be it enacted by the Legislature of West Virginia:

That sections three, four and twenty, article two-a, chapter fourteen of the code of West Virginia, one thousand nine hundred thirty-one, as amended, be amended and reenacted, all to read as follows:

ARTICLE 2A. COMPENSATION AWARDS TO VICTIMS OF CRIMES.

As used in this article, the term:

(a) "Claimant" means any of the following persons, whether residents or nonresidents of this state, who claim an award of compensation under this article:

(1) A victim: Provided, That the term victim does not include a nonresident of this state where the criminally injurious act did not occur in this state;
(2) A dependent, spouse or minor child of a deceased victim; or in the event that the deceased victim is a minor, the parents, legal guardians and siblings of the victim;

(3) A third person other than a collateral source who legally assumes or voluntarily pays the obligations of a victim, or of a dependent of a victim, which obligations are incurred as a result of the criminally injurious conduct that is the subject of the claim; and

(4) A person who is authorized to act on behalf of a victim, dependent or a third person who is not a collateral source; and, in the event that the victim, dependent or third person who is not a collateral source is a minor or other legally incompetent person, the duly qualified fiduciary of the minor.

(b) "Collateral source" means a source of benefits or advantages for economic loss otherwise compensable that the victim or claimant has received, or that is readily available to him, from any of the following sources:

(1) The offender, including any restitution received from the offender pursuant to an order by a court of law sentencing the offender or placing him on probation following a conviction in a criminal case arising from the criminally injurious act for which a claim for compensation is made;

(2) The government of the United States or any of its agencies, a state or any of its political subdivisions, or an instrumentality of two or more states;

(3) Social security, medicare and medicaid;

(4) State-required, temporary, nonoccupational disability insurance; other disability insurance;

(5) Workers' compensation;

(6) Wage continuation programs of any employer;

(7) Proceeds of a contract of insurance payable to the victim or claimant for loss that was sustained because of the criminally injurious conduct;
(8) A contract providing prepaid hospital and other health care services or benefits for disability; and

(9) That portion of the proceeds of all contracts of insurance payable to the claimant on account of the death of the victim which exceeds twenty-five thousand dollars.

c) "Criminally injurious conduct" means conduct that occurs or is attempted in this state or in any state not having a victim compensation program which by its nature poses a substantial threat of personal injury or death, and is punishable by fine or imprisonment or death, or would be so punishable but for the fact that the person engaging in the conduct lacked capacity to commit the crime under the laws of this state.

Criminally injurious conduct also includes an act of terrorism, as defined in 18 U.S.C. §2331, committed outside of the United States against a resident of this state. Criminally injurious conduct does not include conduct arising out of the ownership, maintenance or use of a motor vehicle, except when the person engaging in the conduct intended to cause personal injury or death, or except when the person engaging in the conduct committed negligent homicide, driving under the influence of alcohol, controlled substances or drugs, or reckless driving.

d) "Dependent" means an individual who received over half of his or her support from the victim. For the purpose of determining whether an individual received over half of his or her support from the victim, there shall be taken into account the amount of support received from the victim as compared to the entire amount of support which the individual received from all sources, including support which the individual himself or herself supplied. The term "support" includes, but is not limited to, food, shelter, clothing, medical and dental care and education. The term "dependent" includes a child of the victim born after his or her death.

e) "Economic loss" means economic detriment consisting only of allowable expense, work loss and replacement services loss. If criminally injurious conduct causes death, economic loss includes a dependent’s economic loss and a dependent’s
replacement services loss. Noneconomic detriment is not economic loss; however, economic loss may be caused by pain and suffering or physical impairment. For purposes of this article, the term "economic loss" includes a lost scholarship as defined in this section.

(f) "Allowable expense" means reasonable charges incurred or to be incurred for reasonably needed products, services and accommodations, including those for medical care, prosthetic devices, eye glasses, dentures, rehabilitation and other remedial treatment and care.

Allowable expense includes a total charge not in excess of four thousand dollars for expenses in any way related to funeral, cremation and burial. It does not include that portion of a charge for a room in a hospital, clinic, convalescent home, nursing home or any other institution engaged in providing nursing care and related services in excess of a reasonable and customary charge for semiprivate accommodations, unless accommodations other than semiprivate accommodations are medically required.

(g) "Work loss" means loss of income from work that the injured person would have performed if he or she had not been injured and expenses reasonably incurred or to be incurred by him or her to obtain services in lieu of those he or she would have performed for income, reduced by any income from substitute work actually performed or to be performed by him or her, or by income he or she would have earned in available appropriate substitute work that he or she was capable of performing but unreasonably failed to undertake.

(h) "Replacement services loss" means expenses reasonably incurred or to be incurred in obtaining ordinary and necessary services in lieu of those the injured person would have performed, not for income but for the benefit of himself or herself or his or her family, if he or she had not been injured.

(i) "Dependent’s economic loss" means loss after a victim’s death of contributions or things of economic value to his or her dependents, not including services they would have received
(j) "Dependent's replacement service loss" means loss reasonably incurred or to be incurred by dependents after a victim's death in obtaining ordinary and necessary services in lieu of those the victim would have performed for their benefit if he or she had not suffered the fatal injury, less expenses of the dependents avoided by reason of the victim's death and not subtracted in calculating dependent's economic loss.

(k) "Victim" means a person who suffers personal injury or death as a result of any one of the following: (1) Criminally injurious conduct; (2) the good faith effort of the person to prevent criminally injurious conduct; or (3) the good faith effort of the person to apprehend a person that the injured person has observed engaging in criminally injurious conduct, or who the injured person has reasonable cause to believe has engaged in criminally injurious conduct immediately prior to the attempted apprehension.

(l) "Contributory misconduct" means any conduct of the claimant, or of the victim through whom the claimant claims an award, that is unlawful or intentionally tortious and that, without regard to the conduct's proximity in time or space to the criminally injurious conduct, has causal relationship to the criminally injurious conduct that is the basis of the claim and shall also include the voluntary intoxication of the claimant, either by the consumption of alcohol or the use of any controlled substance when the intoxication has a causal connection or relationship to the injury sustained. The voluntary intoxication of a victim is not a defense against the estate of a deceased victim.

(m) "Lost scholarship" means a scholarship, academic award, stipend or other monetary scholastic assistance which had been awarded or conferred upon a victim in conjunction with a postsecondary school educational program and, which the victim is unable to receive or use, in whole or in part, due to injuries received from criminally injurious conduct.

(a) Every person within the state who is convicted of or pleads guilty to a misdemeanor offense, other than a traffic offense that is not a moving violation, in any magistrate court or circuit court, shall pay the sum of ten dollars as costs in the case, in addition to any other court costs that the court is required by law to impose upon the convicted person. Every person within the state who is convicted of or pleads guilty to a misdemeanor offense, other than a traffic offense that is not a moving violation, in any municipal court, shall pay the sum of eight dollars as costs in the case, in addition to any other court costs that the court is required by law to impose upon the convicted person. In addition to any other costs previously specified, every person within the state who is convicted of or pleads guilty to a violation of section two, article five, chapter seventeen-c of this code, shall pay a fee in the amount of twenty percent of any fine imposed under that section. This is in addition to any other court costs required by this section or which may be required by law.

(b) The clerk of the circuit court, magistrate court or municipal court where the additional costs are imposed under the provisions of subsection (a) of this section shall, on or before the last day of each month, transmit all costs received under this article to the state treasurer for deposit in the state treasury to the credit of a special revenue fund to be known as the “Crime Victims Compensation Fund”. All moneys collected and received under this article and paid into the state treasury and credited to the crime victims compensation fund in the manner prescribed in section two, article two, chapter twelve of this code, shall be kept and maintained for the specific purposes of this article, and may not be treated by the auditor and treasurer as part of the general revenue of the state.

(c) Expenditure of moneys in the crime victims compensation fund is authorized from collections.

(d) Moneys in the crime victims compensation fund may be expended for:
(1) The payment of the costs of administration of this article;
(2) The payment of economic loss awards approved by the court; and
(3) The payment of attorney and witness fees, allowed pursuant to section nineteen of this article.

(e) The services of the office of the attorney general, as may be required or authorized by any of the provisions of this article, shall be rendered without charge to the fund.

(f) Any moneys in the crime victims compensation fund may be invested as provided in article six, chapter twelve of this code, with the interest income credited to the crime victims compensation fund.

(g) All funds in the special economic loss claim payment fund created under the provisions of section twenty of this article prior to the amendments made in that section enacted in the year one thousand nine hundred ninety-nine shall be transferred to the crime victims compensation fund within a reasonable time from the effective date of the amendments.

(h) All gifts that are received to be used for the purposes of this article shall be deposited into the crime victims compensation fund.

(a) The legislative auditor shall submit to the department of administration, on or before the twentieth day of November of each year, an anticipated budget for the crime victims compensation program provided in this article for the next fiscal year, which shall include:

(1) An estimate of the balance and receipts anticipated in the crime victims compensation fund;

costs or expenses that may arise under this article during the
next fiscal year.

(b) The governor shall include in his or her proposed budget
bill and revenue estimates the amounts submitted by the
legislative auditor under subsection (a) of this section.

(c) The clerk shall certify each authorized award and the
amount of the award and make requisition upon the crime
victims compensation fund to the auditor. Notwithstanding any
provision of chapter twelve of this code to the contrary, the
auditor shall issue a warrant to the treasurer without further
examination or review of the claim if there is a sufficient
unexpended balance in the crime victims compensation fund.

(d) The court may provide that payment be made to a
claimant or to a third party for economic losses of the claimant
and the order may provide an award for the payment for actual
economic losses which are prospective as well as those which
have already been incurred.

(b) Any inmate of a state correctional center, is eligible for parole if he or she:

(1) (A) Has served the minimum term of his or her indeterminate sentence, or has served one fourth of his or her definite term sentence, as the case may be, except that in no case is any person who committed, or attempted to commit a felony with the use, presentment or brandishing of a firearm, eligible for parole prior to serving a minimum of three years of his or her sentence or the maximum sentence imposed by the court, whichever is less: Provided, That any person who committed, or attempted to commit, any violation of section twelve, article two, chapter sixty-one of this code, with the use, presentment or brandishing of a firearm, is not eligible for parole prior to serving a minimum of five years of his or her sentence or one third of his or her definite term sentence, whichever is greater.

Nothing in this section applies to an accessory before the fact or a principal in the second degree who has been convicted as if he or she were a principal in the first degree if, in the commission of or in the attempted commission of the felony, only the principal in the first degree used, presented or brandished a firearm. No person is ineligible for parole under the provisions of this subdivision because of the commission or attempted commission of a felony with the use, presentment or brandishing of a firearm unless such fact is clearly stated and included
in the indictment or presentment by which the person was
charged and was either: (i) Found by the court at the time of
trial upon a plea of guilty or nolo contendere; or (ii) found by

any case submitted to the jury on or after the first day of August

state gives notice in writing of its intent to seek such finding by
the jury or court, as the case may be, which notice shall state
with particularity the grounds upon which the finding will be

stated in an indictment, unless the grounds therefor are alleged
in the indictment or presentment upon which the matter is being
tried; and

(iv) Does not apply with respect to cases not affected by the
amendments and in such cases the prior provisions of this

No person sentenced for life may be paroled until he or she has served ten years, and no person sentenced for life who has been previously twice convicted of a felony may be paroled until he or she has served fifteen years: Provided, That no person convicted of first degree murder for an offense committed on or after the tenth day of June, one thousand nine hundred ninety-four, is eligible for parole until he or she has served fifteen years.

d) In the case of a person sentenced to any state correctional center, it is the duty of the board, as soon as a person becomes eligible, to consider the advisability of his or her release on parole.

e) If, upon consideration, parole is denied, the board shall promptly notify the inmate of the denial. The board shall, at the time of denial, notify the person of the month and year he or she may apply for reconsideration and review. The board shall at least once a year reconsider and review the case of every inmate
who was denied parole and is still eligible: Provided, That the
board may reconsider and review parole eligibility any time
within three years following the denial of parole of a person
serving a life sentence.

(f) Any person serving a sentence on a felony conviction
who becomes eligible for parole consideration prior to being
transferred to a state correctional center may make written
application for parole. The terms and conditions for parole
consideration established by this article apply to such inmates.

(g) The board shall, with the approval of the governor,
adopt rules governing the procedure in the granting of parole.
No provision of this article and none of the rules adopted
hereunder are intended or may be construed to contravene, limit
or otherwise interfere with or affect the authority of the
governor to grant pardons and reprieves, commute sentences,
remit fines or otherwise exercise his or her constitutional
powers of executive clemency.

(h) The department of corrections is charged with the duty
of supervising all probationers and parolees whose supervision

interstate compact entered into pursuant to the uniform act for
out-of-state parolee supervision.

center for release on parole, the parole board is to have before
it an authentic copy of or report on the inmate's current
criminal record as provided through the West Virginia state
police, the United States department of justice or other reliable
criminal information sources and written reports of the warden
or superintendent of the state correctional center to which such
inmate is sentenced:

(i) On the inmate's conduct record while in custody,
including a detailed statement showing any and all infractions
of disciplinary rules by the inmate and the nature and extent of
discipline administered therefor;

(ii) On improvement or other changes noted in the inmate's
mental and moral condition while in custody, including a
statement expressive of the inmate’s current attitude toward
society in general, toward the judge who sentenced him or her,
toward the prosecuting attorney who prosecuted him or her,
toward the policeman or other officer who arrested the inmate
and toward the crime for which he or she is under sentence and
his or her previous criminal record;

(iii) On the inmate’s industrial record while in custody
which shall include: The nature of his or her work, occupation
or education, the average number of hours per day he or she has
been employed or in class while in custody and a recommenda-

is best fitted to perform and in which the inmate is most likely
to succeed when he or she leaves prison;

(iv) On physical, mental and psychiatric examinations of
the inmate conducted, insofar as practicable, within the two
months next preceding parole consideration by the board.

(2) The board may waive the requirement of any report
when not available or not applicable as to any inmate consid-
ered for parole but, in every such case, shall enter in the record
thereof its reason for the waiver: Provided, That in the case of
an inmate who is incarcerated because the inmate has been
found guilty of, or has pleaded guilty to a felony under the
provisions of section twelve, article eight, chapter sixty-one of
this code or under the provisions of article eight-b or eight-c,
chapter sixty-one of this code, the board may not waive the
report required by this subsection and the report is to include a
study and diagnosis including an on-going treatment plan
requiring active participation in sexual abuse counseling at an
approved mental health facility or through some other approved
program: Provided, however, That nothing disclosed by the
person during the study or diagnosis may be made available to
any law-enforcement agency, or other party without that
person’s consent, or admissible in any court of this state, unless
the information disclosed indicates the intention or plans of the
parolee to do harm to any person, animal, institution or to
property. Progress reports of outpatient treatment are to be
made at least every six months to the parole officer supervising
the person. In addition, in such cases, the parole board shall inform the prosecuting attorney of the county in which the person was convicted of the parole hearing and shall request that the prosecuting attorney inform the parole board of the circumstances surrounding a conviction or plea of guilty, plea bargaining and other background information that might be useful in its deliberations.

(j) Before releasing any inmate on parole, the board of parole shall arrange for the inmate to appear in person, before at least three members of the board and the board may examine and interrogate him or her on any matters pertaining to his or her parole, including reports before the board made pursuant to the provisions hereof: Provided, That an inmate may appear by video teleconference if the members of the parole board conducting the examination are able to contemporaneously see the inmate and hear all of his or her remarks and if the inmate is able to contemporaneously see each of the members of the parole board conducting the examination and hear all of the members' remarks. The board shall reach its own written conclusions as to the desirability of releasing the inmate on parole and the majority of the board members considering the release shall concur in the decision. The warden or superintendent shall furnish all necessary assistance and cooperate to the fullest extent with the parole board. All information, records and reports received by the board are to be kept on permanent file.

(k) The board and its designated agents are at all times to have access to inmates imprisoned in any state correctional center or in any city, county or regional jail in this state, and shall have the power to obtain any information or aid necessary to the performance of its duties from other departments and agencies of the state or from any political subdivision thereof.

(l) The board shall, if so requested by the governor, investigate and consider all applications for pardon, reprieve or commutation and shall make recommendation thereon to the governor.

(m) Prior to making a recommendation for pardon, reprieve or commutation and prior to releasing any inmate on parole, the
board shall notify the sentencing judge and prosecuting attorney
at least ten days before the recommendation or parole.

(n) Any person released on parole shall participate as a
condition of parole in the litter control program of the county to
the extent directed by the board, unless the board specifically
finds that this alternative service would be inappropriate.

The term “armored car service” as used in this article means a service provided by a person transporting or offering to transport, under armed security guard, currency or other things of value in a motor vehicle specially equipped to offer a high degree of security. Persons seeking to claim this exemption shall notify the commissioner of their intent to do so and demonstrate that they qualify for its use. Persons seeking an exemption under this subdivision are not exempt from the provisions of this article if they also engage in currency exchange or currency transmission;

(7) Persons engaged in the business of currency transportation whose activities are limited exclusively to providing services to federally insured depository institutions, or to any federal, state or local governmental entities; and

(b) Any person who holds and maintains a valid license under this article may engage in the business of money transmission or currency exchange at one or more locations in this state through or by means of an authorized delegate or delegates as set forth in section twenty-seven of this article, as the licensee may designate and appoint from time to time, and no such authorized delegate is required to obtain a separate license under this article.

(c) The issuance and sale of stored value cards which are intended to purchase items only from the issuer or seller of the stored value card is exempt from the provisions of this article.

(d) Any person who is required and properly obtains a license under this article to transport currency is exempt from the requirements of article eighteen, chapter thirty of this code.

(a) Reports of investigation and examination, together with related documents and financial information not normally available to the public that is submitted in confidence by a person regulated under this article, including, but not limited to, that person's evaluation of the expected outcome of pending litigation, are confidential and may not be disclosed to the public by the commissioner or employees of the division of banking, and are not subject to the state's freedom of information act. The commissioner may release information if:

(1) The commissioner finds that immediate and irreparable harm is threatened to the licensee's customers or potential customers or the general public;

(2) The licensee consents before the release;

(3) The commissioner finds that release of the information is required in connection with a hearing under this article, in
which event information may be related to the parties of that hearing; or

(b) Nothing in this section prevents release to the public of any list of licensees or aggregated financial data for the licensees, prevents disclosure of information the presiding officer considers relevant to the proper adjudication or administration of justice at public administrative or judicial hearings, or prevents disclosure of information relevant to supporting the issuance of any administrative or judicial order.

§32A-2-25. Hearing on suspension or revocation of license.

(a) A license may not be revoked or suspended except after notice and opportunity for hearing on that action. The commissioner may issue to a person licensed under this article an order to show cause why the license should not be revoked, or should not be suspended for a period not in excess of six months. The order shall state the place for a hearing and set a time for the hearing that is no less than ten days from the date of the order. The hearing shall be conducted in accordance with the provisions of article five, chapter twenty-nine-a of this code. The commissioner may appoint a hearing examiner to preside at the hearing and make a recommended decision. After the hearing the commissioner shall revoke or suspend the license if he or she finds that:

(1) The licensee has knowingly or repeatedly violated this chapter or any rule or order lawfully made or issued pursuant to this article;

(2) The licensee has failed to remit its required renewal fees;

(3) Facts or conditions exist which would clearly have justified the commissioner in refusing to grant a license had
these facts or conditions been known to exist at the time the
application for the license was made;

(4) The licensee does not have available the net worth
required by the provisions of section eight of this article, and
after ten days' written notice from the commissioner, fails to
take steps that the commissioner determines are necessary to
remedy the deficiency; or

(5) The licensee has failed or refused to keep the bond or
other security required by section ten of this article in full force
and effect.

(b) No revocation or suspension of a license under this
article is lawful unless prior to institution of proceedings by the
commissioner notice is given to the licensee of the facts or
conduct which warrant the intended action and the licensee is
given an opportunity to show compliance with all lawful
requirements for retention of the license.

(c) If the commissioner finds that probable cause for
revocation of a license exists and that enforcement of this
article to prevent imminent harm to public welfare requires
immediate suspension of the license pending investigation, the
commissioner may, after a hearing upon five days' written
notice, enter an order suspending the license for not more than
thirty days.

(d) Nothing in this section limits the authority of the
commissioner to take action against a licensee or person under
other sections of this article.

(e) Whenever the commissioner revokes or suspends a
license, an order to that effect shall be entered and the commis-
sioner shall forthwith notify the licensee of the revocation or
suspension. Within five days after the entry of the order the
commissioner shall mail by registered or certified mail, or shall
provide for personal delivery to the licensee, a copy of the order
and the findings supporting the order.

(f) Any person holding a license under this article may
relinquish the license by notifying the commissioner in writing
of its relinquishment, but any relinquishment does not affect a
person's liability for acts previously committed.

(g) No revocation, suspension or relinquishment of a
license impairs or affects the obligation of any preexisting
lawful contract between the licensee and any person.

(h) The commissioner may reinstate a license, terminate a
suspension or grant a new license to a person whose license has
been revoked or suspended if no fact or condition then exists
which clearly would have justified the commissioner in refusing
to grant a license.

CHAPTER 88

(S. B. 677 — By Senators Snyder, Craigo, Unger, Kessler, Bailey and Edgell)

[Passed March 12, 1999; in effect ninety days from passage. Approved by
the Governor.]

AN ACT to amend article three, chapter five-a of the code of West
Virginia, one thousand nine hundred thirty-one, as amended, by
adding thereto two new sections, designated sections fifty-five
and fifty-five-a, all relating to intrastate air transportation services
for state employees, legislators, members of various state boards
and commissions and members of the general public; limiting the
authority to contract to one year; directing the solicitation of bids
to provide the same; outlining minimum bid specifications;
authorizing the limited underwriting of the cost of the same; and
making certain findings in relation thereto.

Be it enacted by the Legislature of West Virginia:

That article three, chapter five-a of the code of West Virginia, one
thousand nine hundred thirty-one, as amended, be amended by adding
thereto two new sections, designated sections fifty-five and fifty-five-a,
all to read as follows:

ARTICLE 3. PURCHASING DIVISION.

§5A-3-55. Legislative findings.
§5A-3-55a. Director to solicit competitive bids to provide partially underwritten
intrastate passenger air service at the lowest underwriting costs.

§5A-3-55. Legislative findings.

1 The Legislature hereby finds that the absence of regularly
2 scheduled intrastate commercial passenger air service in the
state inhibits participation on state boards and commissions by citizens living in distant areas of the state; results in the loss of productivity by state employees and legislators traveling to and from distant communities; and hampers economic development. The Legislature further finds that it would well serve the state's interests to partially underwrite the cost of providing air service by soliciting competitive bids from responsible bidders in the private sector to provide air service to the state.

§5A-3-55a. Director to solicit competitive bids to provide partially underwritten intrastate passenger air service at the lowest underwriting costs.

(a) The director may exercise the authority provided in this article to solicit, from responsible bidders, bids to provide, for a twelve-month period, partially underwritten, reliable, regularly scheduled public passenger air service to state employees, legislators, members of various state boards and commissions, and members of the general public between and among communities in the state: Provided, That the director's authority to contract for services is limited to one twelve-month contract.

(b) To be eligible to respond to the solicitation, a bidder shall offer to provide at a minimum: (1) Round trip prices per passenger which do not exceed three hundred dollars; (2) a flight departure and arrival schedule which is determined by the director to be efficient and appropriate to achieve optimum cost-benefit in light of the official duties, responsibilities and work schedules of the passengers using the service; (3) aircraft which seats at least six passengers, and which meets other safety and comfort specifications determined by the director; and (4) other requirements and specifications determined by the director.

(c) At the conclusion of the bidding process, the director may, pursuant to the procedures provided in this article, award a contract to the lowest bidder, taking into consideration the qualities of the articles to be supplied, their conformity to the specifications, their suitability to the requirements of government and the delivery terms. Any or all bids may be rejected. The director may accept a bid and enter into a contract in which the guarantee amount shall not exceed the amount that the
Legislature appropriated to the director for the air service for that fiscal year: Provided, That the contract shall provide that the administration of the air service to be rendered pursuant to the contract shall be in accordance with the emergency rules as promulgated by the director in accordance with section fifteen, article three, chapter twenty-nine-a of this code.

CHAPTER 89

AN ACT to amend article five, chapter five of the code of West Virginia, one thousand nine hundred thirty-one, as amended, by adding thereto a new section, designated section four, relating to the pay equity salary adjustment for employees of the department of health and human resources.

Be it enacted by the Legislature of West Virginia:

That article five, chapter five of the code of West Virginia, one thousand nine hundred thirty-one, as amended, be amended by adding thereto a new section, designated section four, to read as follows:

ARTICLE 5. SALARY INCREASE FOR STATE EMPLOYEES.

§5-5-4. Department of health and human resources pay equity salary adjustment.

The Legislature hereby directs that a pay equity salary adjustment be provided for employees of the various agencies of the department of health and human resources. This salary adjustment shall be provided from the funding appropriated to the department in the fiscal year two thousand and may not be construed to require additional appropriations from the Legislature. In the event any provision of this section conflicts with any rule, policy or provision of this code, the provisions of this
section shall control. In determining the pay equity salary adjustments, the department may give consideration to employee tenure, relevant average salaries and such other factors as may be determined relevant by the secretary. Due to the limits of funding, the results of the pay equity salary adjustments shall not be subject to the provisions of article six-a, chapter twenty-nine of this code. The provisions of this section are rehabilitative in nature and it is the specific intent of the Legislature that no private cause of action, either express or implied, shall arise pursuant to the provisions or implementation of this section.

without regard to any rules that limit the remuneration included
in wages based upon the nature or location of employment or

under section 414(h)(2) of the Internal Revenue Code and less
reimbursements or other expense allowances, cash or noncash
fringe benefits or both, deferred compensation and welfare

period for which an amount is received as an annuity by reason
of retirement.

(h) "Base salary" means a member's cash compensation
exclusive of overtime from covered employment during the last
twelve months of employment. Until a member has worked
twelve months, annualized base salary is used as base salary.

(i) "Board" means the consolidated public retirement board
created pursuant to article ten-d, chapter five of this code.

(j) "County commission" has the meaning ascribed to it in
section one, article one, chapter seven of this code.

(k) "Covered employment" means either: (1) Employment
as a deputy sheriff and the active performance of the duties
required of a deputy sheriff; (2) the period of time which active
duties are not performed but disability benefits are received
under section thirteen or fourteen of this article; or (3) concur-
rent employment by a deputy sheriff in a job or jobs in addition
to his or her employment as a deputy sheriff where such
secondary employment requires the deputy sheriff to be a
member of another retirement system which is administered by
the consolidated public retirement board pursuant to article ten-

1. An unmarried person under age eighteen who is either:
   A. A natural child of the member;
   B. A legally adopted child of the member;
   C. A child who at the time of the member's death was living with the member while the member was an adopting parent during any period of probation; or

(o) "Dependent parent" means the father or mother of the member who was claimed as a dependent by the member for federal income tax purposes at the time of the member's death.

(p) "Disability service" means service received by a member, expressed in whole years, fractions thereof or both, equal to one half of the whole years, fractions thereof, or both, during which time a member receives disability benefits under section thirteen or fourteen of this article.

(q) "Early retirement age" means age forty or over and completion of twenty years of service.

(r) "Effective date" means the first day of July, one thousand nine hundred ninety-eight.
(s) "Final average salary" means the average of the highest annual compensation received for covered employment by the member during any five consecutive plan years within the member's last ten years of service. If the member did not have annual compensation for the five full plan years preceding the member's attainment of normal retirement age and during that period the member received disability benefits under section thirteen or fourteen of this article then "final average salary" means the average of the monthly salary determined paid to the member during that period as determined under section seventeen of this article multiplied by twelve.

(2) Each hour for which a member is paid or entitled to payment for covered employment during a plan year but where no duties are performed due to vacation, holiday, illness, incapacity including disability, layoff, jury duty, military duty, leave of absence, or any combination thereof, and without regard to whether the employment relationship has terminated. Hours under this paragraph shall be calculated and credited pursuant to West Virginia department of labor regulations. A member will not be credited with any hours of service for any period of time he or she is receiving benefits under section fourteen or fifteen of this article; and

(3) Each hour for which back pay is either awarded or agreed to be paid by the employing county commission, irrespective of mitigation of damages. The same hours of service shall not be credited both under paragraph (1) or (2) of this subdivision, and under this paragraph. Hours under this paragraph shall be credited to the member for the plan year or
years to which the award or agreement pertains, rather than the plan year in which the award, agreement or payment is made.

(v) "Member" means a person first hired as a deputy sheriff after the effective date of this article, as defined in subsection (r) of this section, or a deputy sheriff first hired prior to the effective date and who elects to become a member pursuant to section five or section seventeen of this article. If the member dies before the sum of the payments he or she receives equals his or her accumulated contributions on the annuity starting date, the named beneficiary shall receive in one lump sum the difference between the accumulated contributions at the annuity starting date and the total of the retirement income payments made to the member.

(y) "Normal retirement age" means the first to occur of the following:

(4) Attainment of age sixty-two years and completion of five or more years of service.

(z) "Partially disabled" means a member's inability to engage in the duties of deputy sheriff by reason of any medically determinable physical or mental impairment that can be expected to result in death or that has lasted or can be expected
to last for a continuous period of not less than twelve months.

A member may be determined partially disabled for the purposes of this article and maintain the ability to engage in other gainful employment which exists within the state but which ability would not enable him or her to earn an amount at least equal to two thirds of the annual compensation earned by all active members of this plan during the plan year ending as of the most recent thirtieth day of June, as of which plan data has been assembled and used for the actuarial valuation of the plan.

(aa) "Public employees retirement system" means the West Virginia public employees' retirement system created by article ten, chapter five of this code.

(bb) "Plan" means the West Virginia deputy sheriff death, disability and retirement plan established by this article.

(cc) "Plan year" means the twelve-month period commencing on the first day of July and ending the following thirtieth day of June of any designated year.

(gg) "Surviving spouse" means the person to whom the member was legally married at the time of the member's death and who survived the member.

(hh) "Totally disabled" means a member's inability to engage in substantial gainful activity by reason of any medically determined physical or mental impairment that can be expected to result in death or that has lasted or can be expected to last for a continuous period of not less than twelve months.

For purposes of this subdivision:
(1) A member is totally disabled only if his or her physical or mental impairment or impairments is so severe that he or she is not only unable to perform his or her previous work as a deputy sheriff but also cannot, considering his or her age, education and work experience, engage in any other kind of substantial gainful employment which exists in the state regardless of whether: (A) The work exists in the immediate area in which the member lives; (B) a specific job vacancy exists; or (C) the member would be hired if he or she applied for work.

(2) "Physical or mental impairment" is an impairment that results from an anatomical, physiological, or psychological abnormality that is demonstrated by medically accepted clinical and laboratory diagnostic techniques.

A member's receipt of social security disability benefits creates a rebuttable presumption that the member is totally disabled for purposes of this plan. Substantial gainful employment rebuts the presumption of total disability.

(ii) "Year of service". A member shall, except in his or her first and last years of covered employment, be credited with year of service credit based upon the hours of service performed as covered employment and credited to the member during the plan year based upon the following schedule:

<table>
<thead>
<tr>
<th>Hours of Service</th>
<th>Year of Service Credited</th>
</tr>
</thead>
<tbody>
<tr>
<td>Less than 500</td>
<td>0</td>
</tr>
<tr>
<td>500 to 999</td>
<td>1/3</td>
</tr>
<tr>
<td>1,000 to 1,499</td>
<td>2/3</td>
</tr>
<tr>
<td>1,500 or more</td>
<td>1</td>
</tr>
</tbody>
</table>

During a member's first and last years of covered employment, the member shall be credited with one twelfth of a year of service for each month during the plan year in which the member is credited with an hour of service. A member is not entitled to credit for years of service for any time period during which he or she received disability payments under section fourteen or fifteen of this article. Except as specifically excluded, years of service include covered employment prior to the effective date.
Years of service which are credited to a member prior to his or her receipt of accumulated contributions upon termination of employment pursuant to section thirteen of this article or section thirty, article ten, chapter five of this code, shall be disregarded for all purposes under this plan unless the member repays the accumulated contributions with interest pursuant to section twelve of this article or had prior to the effective date made the repayment pursuant to section eighteen, article ten, chapter five of this code.

§7-14D-5. Members.

(a) Any deputy sheriff first employed by a county in covered employment after the effective date of this article shall be a member of this retirement system and plan and does not qualify for membership in any other retirement system administered by the board, so long as he or she remains employed in covered employment.

(b) Any deputy sheriff employed in covered employment on the effective date of this article shall within six months of that effective date notify in writing both the county commission in the county in which he or she is employed and the board of his or her desire to become a member of the plan: Provided, That this time period is extended to the thirtieth day of January, one thousand nine hundred ninety-nine, in accordance with the decision of the supreme court of appeals in *West Virginia Deputy Sheriffs' Association, et al v. James L. Simms, et al*, No. 25212: Provided, however, That any deputy sheriff employed in covered employment on the effective date of this article has an additional time period consisting of the ten-day period following the day after which the amended provisions of this section become law to notify in writing both the county commission in the county in which he or she is employed and the board of his or her desire to become a member of the plan. Any deputy sheriff who elects to become a member of the plan ceases to be a member or have any credit for covered employment in any other retirement system administered by the board and shall continue to be ineligible for membership in any other retirement system administered by the board so long as the deputy sheriff remains employed in covered employment in this
plan: *Provided further,* That any deputy sheriff who elects
during the time period from July one, one thousand nine
hundred ninety-eight, to January thirtieth, one thousand nine
hundred ninety-nine, or who so elects during the ten-day time
period occurring immediately following the day after the day
the amendments made during the one thousand nine hundred
ninety-nine legislative session become law, to transfer from the
public employees retirement system to the plan created in this
article shall contribute to the plan created in this article at the
rate set forth in section seven of this article retroactive to the
first day of July, one thousand nine hundred ninety-eight. Any
deputy sheriff who does not affirmatively elect to become a
member of the plan continues to be eligible for any other
retirement system as is from time to time offered to other
county employees but is ineligible for this plan regardless of
any subsequent termination of employment and rehire.

(c) Any deputy sheriff who was employed as a deputy
sheriff prior to the effective date, but was not employed on the
effective date of this article, shall become a member upon
rehire as a deputy sheriff. For purposes of this section, the
member’s years of service and credited service prior to the
effective date shall not be counted for any purposes under this
plan unless: (1) The deputy sheriff has not received the return
of his or her accumulated contributions in the public employees
retirement fund system pursuant to section thirty, article ten,
chapter five of this code; or (2) the accumulated contributions
returned to the member from the public employees retirement
system have been repaid pursuant to section twelve of this
article. If the conditions of subdivision (1) or (2) of this
subsection are met, all years of the deputy sheriff’s covered
employment shall be counted as years of service for the
purposes of this article. Each transferring deputy sheriff shall be
given credited service for the purposes of this article for all
covered employment transferred from the public employees
retirement system regardless of whether such credited service
(as that term is defined in section two, article ten, chapter five
of this code) was earned as a deputy sheriff. All service in the
public employees retirement system accrued by a transferring
deputy sheriff shall be transferred into the plan created by this article and the transferring deputy sheriff shall be given the same credit for the purposes of this article for all such covered service which is transferred from the public employees retirement system as that transferring deputy sheriff would have received from the public employees retirement system if such transfer had not occurred. In connection with each deputy sheriff receiving credit for prior employment provided in this subsection, a transfer from public employees retirement system to this plan shall be made pursuant to the procedures described in section eight of this article.

(d) Once made, the election made under this section is irrevocable. All deputy sheriffs first employed after the effective date and deputy sheriffs electing to become members as described in this section shall be members as a condition of employment and shall make the contributions required by section seven of this article.

§7-14D-7. Members' contributions; employer contributions.

There shall be deducted from the monthly salary of each member and paid into the fund an amount equal to eight and one-half percent of his or her monthly salary. Any active member who has concurrent employment in an additional job or jobs and such additional employment requires the deputy sheriff to be a member of another retirement system which is administered by the consolidated public retirement board pursuant to article ten-d, chapter five of this code shall contribute to the fund the sum of eight and one-half percent of his or her monthly salary earned as a deputy sheriff as well as the sum of eight and one-half percent of his or her monthly salary earned from any additional employment which additional employment requires the deputy sheriff to be a member of another retirement which is administered by the consolidated public retirement board pursuant to article ten-d, chapter five of this code. An additional nine and one-half percent of the monthly salary of each member shall be paid to the fund by the county commission of the county in which the member is employed in covered employment. If the board finds that the
benefits provided by this article can be actually funded with a lesser contribution, then the board shall reduce the required member and employer contributions proportionally.

§7-14D-8. Transfer from public employees retirement system.

(a) The consolidated retirement board shall, within ninety days of the effective date of the transfer of a deputy sheriff from the public employees retirement system to the plan, transfer assets from the public employees retirement system trust fund into the West Virginia deputy sheriff trust fund.

(b) The amount of assets to be transferred for each transferring deputy sheriff shall be computed as of the first day of July, one thousand nine hundred ninety-eight, using the actuarial valuation assumptions in effect for the first day of July, one thousand nine hundred ninety-eight, actuarial valuation of public employees retirement system, and updated with seven and one-half percent annual interest to the date of the actual asset transfer. The market value of the assets of the transferring deputy sheriff in the public employees retirement system shall be determined as of the end of the month preceding the actual transfer. To determine the computation of the asset share to be transferred the board shall:

(1) Compute the market value of the public employees retirement system assets;

(2) Compute the accrued liability for all public employees retirement system retirees, beneficiaries, disabled retirees and terminated inactive members;

(3) Reduce the market value of public employees retirement system assets by the accrued liability determined in subdivision (2) of this subsection;

(4) Compute the entry age method accrued liability for all active public employees retirement system members;

(5) Compute the share of accrued liability as determined pursuant to subdivision (4) of this subsection, that is attributable to those deputy sheriffs in public employees retirement system who have elected to transfer to the plan;
(6) Compute the percentage of active’s accrued liability computed to the deputy sheriffs by dividing subdivision (5) by subdivision (4) of this subsection;

(7) Determine the asset share to be transferred from public employees retirement system to the plan by multiplying subdivision (3) times subdivision (6) of this subsection.

(c) Once a deputy sheriff has elected to transfer from the public employees retirement system, transfer of that amount as calculated in accordance with the provisions of subsection (b) of this section by the public employees retirement system shall operate as a complete bar to any further liability to the transferring from the public employees retirement system, and constitutes an agreement whereby the transferring deputy sheriff forever indemnifies and holds harmless the public employees retirement system from providing him or her any form of retirement benefit whatsoever until such time as that deputy sheriff obtains other employment which would make him or her eligible to re-enter the public employees retirement system with no credit whatsoever for the amounts transferred to the deputy sheriff’s retirement system.

(d) The board shall cause a judicial determination to be made regarding the transfer of assets from the public employees retirement system to the deputy sheriff’s retirement system by causing a suit to be filed in the supreme court of this state seeking a writ of mandamus on or before the thirty-first day of July, one thousand nine hundred ninety-eight.

(e) Any deputy sheriff who elected, on or before the thirtieth day of January, one thousand nine hundred ninety-nine, to transfer to the plan created by this article, has until the first day of January, two thousand, to pay any amounts required by section seven of this article as a result of the deputy sheriff’s transfer to the deputy sheriff retirement fund.

§7-14D-9. Retirement; commencement of benefits.

A member may retire and commence to receive retirement income payments on the first day of the calendar month coincident with or next following the later of the date the
member ceases employment and the date the member attains early or normal retirement age, in an amount as provided under section eleven of this article, by filing with the board his or her voluntary petition in writing for retirement: Provided, That retirement income payments shall commence no later than the first day of April following the member’s seventy and one-half year birthday or the cessation of covered employment, whichever later occurs. Upon receipt of the petition, the board shall promptly provide the member with an explanation of his or her optional forms of retirement benefits and upon receipt of properly executed forms from the member, the board shall process member’s request for and commence payments as soon as administratively feasible.

This section provides for the adjustment of a member’s accrued benefit to reflect the difference in age, in years and months, between the member’s annuity starting date and the date the member attains normal retirement age. This age adjustment shall be made based upon the normal form of benefit and shall be the actuarial equivalent of the accrued benefit at the member’s normal retirement age. The member shall receive the age adjusted retirement income in the normal form or in an actuarial equivalent amount in an optional form as provided under section twelve of this chapter. The first day of the calendar month of birth shall be used in lieu of any birth date that does not fall on the first day of a calendar month.

(a) Normal retirement. — A member whose annuity starting date is the date the member attains normal retirement age, is entitled to his or her accrued benefit without adjustment for age at commencement. To the extent that a member’s starting date is later than his or her normal retirement age, the amount of that member’s retirement income benefit shall be adjusted as provided in subsection (c) of this section.

(b) Early retirement. — A member who ceases covered employment and has attained early retirement age while in covered employment may elect to receive retirement income payments commencing on the first day of the month coincident
with or following the date the member ceases covered employ-
ment. "Normal retirement age" for such a member is the first
day of the calendar month coincident with or next following the
month in which the member attains the age of fifty years. If the
member's annuity starting date is prior to the date the member
attains normal retirement age, his or her accrued benefit is
reduced to the actuarial equivalent benefit amount based on the
years and months by which his or her annuity starting date
precedes the date he or she attains normal retirement age. If the
member's annuity starting date is later than the date the
member attains the age of fifty years, the accrued benefit is
adjusted as provided in subsection (c) of this section.

(c) Late retirement. — A member whose annuity starting
date is later than the date the member attains normal retirement
age shall receive retirement income payments in the normal
form which is the actuarial equivalent of the benefit to which he
or she would have been entitled had the retirement income
payments commenced at the member's normal retirement age.

(d) Retirement benefits shall be paid monthly in an amount
equal to one twelfth of the retirement income payments elected
and at those times established by the board. Notwithstanding
any other provision of the plan, a member who is married on
the annuity starting date will receive his or her retirement
income payments in the form of a sixty-six and two-thirds
percent joint and survivor annuity with his or her spouse unless
prior to the annuity starting date the spouse waives the form of
benefit.

§7-14D-17. Prior disability.

Any deputy sheriff who became totally disabled as a result
of illness or injury incurred in the line of duty prior to the
effective date of this article may be a member of the plan at his
or her election and is entitled to disability, death and retirement
benefits under this article in lieu of any other disability, death
or retirement benefits provided solely in conjunction with a
retirement system of this state or his or her county of employ-
ment: Provided, That the deputy sheriff would have been
eligible for disability under section fourteen of this article had
that section been in effect at the time of the disability. The amounts of the benefits shall be determined as if the disability first commenced after the effective date of this article with monthly compensation equal to that average monthly compensation which the member was receiving in the plan year prior to the initial disability. For the purposes of this section, benefits paid pursuant to chapter twenty-three of this code are not death or retirement benefits provided solely in conjunction with a retirement system of this state or county of this state.

Any member who dies as a result of any service related illness or injury after the effective date is entitled to a lump sum burial benefit of five thousand dollars. If the member is married, the burial benefit will be paid to the member’s spouse. If the member is not married, the burial benefit will be paid to the member’s estate for the purposes of paying burial expenses, settling the member’s final affairs, or both. Any unspent balance shall be distributed as a part of the member’s estate. If the member is not entitled to a death benefit under sections eighteen and nineteen of this article, then if greater, the amount payable to the member’s estate shall be his or her accumulated contributions.

§7-14D-24. Service as sheriff.

(a) Any member who after the effective date of this article is elected sheriff of a county in West Virginia may elect to continue as a member in this plan by paying the amounts required by section seven of this article. Upon the election, service as a sheriff shall be treated as covered employment and the sheriff is not entitled to any credit for that service under any other retirement system of the state.

(b) Any person, who before the effective date of this article was elected sheriff of a county in West Virginia, and who, immediately prior to being so elected sheriff, was a deputy sheriff with at least twenty years of credited service under the public employees retirement system, with at least sixteen of those twenty years having been earned as a deputy sheriff, may
14 elect to become a member of this plan by paying the amounts
15 required by section seven of this article. Upon such election,
16 service shall be transferred from the public employees retire-
17 ment system pursuant to section eight of this article: Provided,
18 That any service as a sheriff shall be treated as covered employ-
19 ment under this article and the sheriff is not entitled to any
20 credit for that service as a sheriff or the prior service as a
deputy sheriff under any other retirement system of the state.
22 Persons making the election provided for in this subsection
23 shall do so within ten days of taking office as sheriff or within
24 ten days of the effective date of this provision.

§7-14D-29. Effective date; report to joint committee on govern-
ment and finance; special starting date for benefits.

(a) The provisions of this article become effective the first
day of July, one thousand nine hundred ninety-eight: Provided,
That no payout of any benefits may be made to any person prior
to the first day of January, two thousand: Provided, however,
That members who retired due to a disability may begin
receiving the benefits at the rate and in the amount specified in
either section fourteen or section fifteen of this article, as the
case may be, from this fund after the thirtieth day of June, one
thousand nine hundred ninety-nine: Provided further, That until
the thirtieth day of June, one thousand nine hundred nineti-
nine, those members who retired due to a disability may draw
benefits from this fund at the rate and in the amount set forth in
section twenty-five, article ten, chapter five of this code.

(b) During the eighteen-month period before the payout of
benefits begins, the joint committee on government and finance
shall cause an interim study or studies to be conducted on
potential effects of the implementation of this retirement
system, including, but not limited to, potential funding mecha-
nisms to provide health insurance coverage for retirees in the
fifty to fifty-five age group: Provided, That after the effective
date of this provision, the director of the public employees
insurance agency shall promulgate a rule governing the funding
of health insurance coverage for retirees under the plan pro-
vided for in this article who are in the fifty to fifty-five year age
group, which rule may be filed as an emergency rule: Provided,
however, That any rule filed as an emergency rule pursuant to
this subsection shall be refiled at the earliest opportunity as a
legislative rule for review and promulgation in accordance with
the provisions of article three, chapter twenty-nine-a of this
code.

This article shall be known and may be cited as the "West Virginia Design-Build Procurement Act."

The provisions of this article must be used to select design-builders for authorized projects that are constructed and owned, potentially owned, or ultimately owned by any agency.

29 contract may be conditional upon subsequent refinements in
30 scope and price, and may permit the agency to make changes in
31 the scope of the project without invalidating the design-build
32 contract.

33 "Design-builder" means the entity, whether natural person,
34 partnership, joint venture, corporation, professional corporation,

36 design and construct any public project governed by the
37 procedures of article six, section seven of this chapter and this
38 article.

39 "Firm" means any individual, firm, partnership, corpora-
40 tion, limited liability company, limited liability partnership,
41 association, joint venture, or other legal entity permitted by law
42 to practice engineering, architecture or construction contracting
43 in the state of West Virginia.

44 "Performance criteria" means the requirements for the
45 public project, including as appropriate, aesthetics, capacity,
46 durability, production standard, ingress and egress requirements
47 or other criteria for the intended use of the public project,
48 expressed in performance-oriented drawings and specifications
49 suitable to allow the design-builder to make a proposal.

50 "Performance criteria developer" means an architect or
51 engineer duly registered in accordance with the laws of this
52 state and if applicable, the architect's or engineer's employer,
53 company, partners, joint venturers, affiliates or subcontractors
54 retained by the agency to develop performance criteria.

“Substantial completion” means the stage in the progress of the work when the work or designated portion thereof is sufficiently complete in accordance with the design-build contract so the agency can occupy or utilize the work for its intended use.

“Work” means the construction and services required by the design-build contract, whether completed or partially completed, and includes all other labor, materials, equipment and services provided or to be provided by the design-builder to fulfill the design-builder’s obligations. The work may constitute the whole or a part of the project.

§5-22A-3. Public policy; conditions for contract.

Recognizing that the design-bid-build method provides a viable delivery method for public projects, it is also the public policy of this state to permit an agency to enter into design-build contracts for public projects.

An agency may not enter into a design-build contract for public project unless:

(1) The department of administration or appropriate governing body, prior to issuing requests for proposals, promulgates and publishes rules consistent with this article for the solicitation and award of design-build contracts and shall adhere to this article and those rules;

(2) The agency, for each public project or projects procured pursuant to this article, must determine that it is in the best interest of the public to enter into a design-build contract to complete the public project or projects; and
(3) The board established pursuant to section four of this article determines that the public project is appropriate as a design-build project utilizing the mandatory criteria as provided for in section five of this article.

§5-22A-4. Design-build board and members; appointments; meetings; authority to promulgate rules.

(a) There is hereby created the design-build board and shall be composed of the following nine members who are to be appointed by the governor with the advice and consent of the Senate: Two contractors licensed in the state of West Virginia; one architect licensed in the state of West Virginia and one professional engineer licensed in the state of West Virginia; the secretary of the department of administration, ex officio; one representative from labor and three other members of the public at large. Members of the board are not entitled to compensation for services performed as members. Each member of the board must take and subscribe to the oath or affirmation required pursuant to section five, article IV of the Constitution of West Virginia.

(b) Within thirty days of the effective date of this section, the governor shall make the initial appointments to the design-build board. Of the initial appointments to the board, four will be for a term ending two years after the effective date of this section and four for a term ending three years after the effective date of this section. Thereafter, terms of office are for three years, each term ending on the same day of the same month of the year as did the term which it succeeds. Each member will hold office from the date of his or her appointment or until his or her successor qualifies for office. When a vacancy occurs as a result of death, resignation or removal in the membership of the board, it must be filled by an appointment within thirty days of the vacancy for the unexpired portion of the term in the same manner as original appointments.

(c) The board must meet within thirty days of the initial appointments to the board at a time and place to be determined by the governor, who must designate a member to preside at that meeting until a chairman is elected. At its first meeting, the
32 board shall elect a chairman and such other officers as are
33 necessary. The board shall within ninety days after its first
34 meeting adopt rules for its procedures. Five members of the
35 board constitute a quorum. Except as may otherwise be
36 provided in this section, a majority of the total membership is
37 necessary to act at all times. Meetings of the board shall be
38 upon the call of the secretary of the department of administra-
39 tion.
40 (d) The board shall promulgate rules to carry out the
41 purposes of this article. Any rules adopted by the board prior to
42 the first day of October, one thousand nine hundred ninety-nine,
43 are exempt from the provisions of article three, chapter twenty-
44 nine-a of this code: Provided, That the board shall file a copy
45 of any rule so exempted from the provisions of chapter twenty-
46 nine-a of this code with the legislative rule-making review
47 committee created pursuant to section eleven, article three of
48 said chapter prior to the thirtieth day of November, one
49 thousand nine hundred ninety-nine.

§5-22A-5. Duties of board.

Prior to allowing an agency to enter into design-build
contracts for public projects, the board must determine that the
public project is appropriate as a design-build project in
accordance with all of the following:

(1) The agency requires a project design and construction
time line that is faster than the traditional design-bid-build
process would allow;

(2) The project requires close coordination of design and
construction expertise or an extreme amount of coordination;
and

(3) The agency requires early cost commitments.

§5-22A-6. Design-build regulations.

The department of administration shall adopt rules consis-
tent with this article for the award of design-build contracts.
Any rules so adopted by the department of administration prior
to the first day of October, one thousand nine hundred ninety-
nine, are exempt from the provisions of article three, chapter twenty-nine-a of this code: Provided, That the department of administration shall file a copy of any rule so exempted from the provisions of chapter twenty-nine-a of this code with the legislative rule-making review committee created pursuant to section eleven, article three of said chapter prior to the thirtieth day of November, one thousand nine hundred ninety-nine. The rules must consist of, but not be limited to:

(1) The procedures to select or designate a performance criteria developer and prepare performance criteria;
(2) The procedures for the preparation and contents of requests for proposals;
(3) The procedures for preparing and submitting proposals;
(4) The procedures for evaluating proposals;

(8) The procedures for acting on formal protests relating to the solicitation or award of design-build contracts.

§5-22A-7. Design-builder qualifications; rights and powers.

Each design-builder must be duly licensed and registered to do business in this state and be a licensed architect or engineer or a general contractor.

Each design-builder must have the following rights and powers:

(1) The design-builder must assign or sublet the responsibility for professional design services to a firm duly licensed and registered to provide professional design services in this state.
state. The firm must carry, at all times, professional design
liability insurance in an appropriate amount as designated by
the agency. This professional may be a full or part-time
employee of the design-builder.

(2) The design-builder must assign or sublet responsibility
for construction or other services requiring a contractor’s
license to persons or entities duly registered, licensed or
otherwise qualified to provide those services in this state.

(3) The design-builder may contract with the agency to
provide professional services or construction services that the
design-builder is not itself licensed, registered or otherwise
authorized to provide so long as those services are assigned or
sublet to a firm that is a member of the design-build team and
is registered, licensed and qualified to provide those services.

(a) Each request for proposal must contain performance
criteria prepared by an architect or engineer duly registered in
accordance with the laws of this state, referred to as the
"performance criteria developer." If the performance criteria
developer is not an employee of the agency, then the perfor-
mance criteria developer and his or her employer, company,
partners, joint venturers, affiliates or consultants are disquali-
fied from submitting a proposal to enter into the design-build
contract and the design-builder will not be permitted to delegate
services under the design-build contract to the performance
criteria developer or its consultants. The performance criteria
developer must be retained by the agency through final comple-
tion of the project to monitor adherence to the performance
criteria.

(b) The performance criteria developer may be an employee
of the agency, and to the extent allowed by law may delegate
the development of specific aspects of the design criteria to an
architect or engineer duly registered with this state and his or
her employer, company, partners, joint venturers, affiliates or
other consultants. If the performance criteria developer is not an
employee of the agency, the performance criteria developer
shall be selected in accordance with the requirements of article one, chapter five-g of this code.

§5-22A-9. Scope of project.

(a) The agency, in consultation with the performance criteria developer, shall determine the scope and level of detail required for the performance criteria. The performance criteria must be detailed enough to permit qualified persons to submit proposals in accordance with the request for proposals, given the nature of the public project and the level of design to be provided in the proposal.

(b) The performance criteria developer shall review the program furnished by the agency to ascertain the requirements of the project and shall arrive at a mutual understanding of such requirements with the agency.

(c) Based on the mutually agreed-upon program, schedule and construction budget requirements, the performance criteria developer shall prepare for approval by the agency documents indicating the scale and relationship of project components.

§5-22A-10. Solicitation of proposals.

Proposals must be solicited from not less than three design-builders. A request for proposal must be prepared for each design-build contract and shall consist of, but not be limited to:

(1) The identity of the agency which will award the design-build contract;

(2) The procedures to be followed for submitting proposals, the criteria for evaluation of proposals and their relative weight, and the procedures for making awards, including a reference to the requirements of this article, the rules promulgated herein and any regulations pertaining to the agency;

(3) The proposed terms and conditions for the design-build contract;

(4) The performance criteria;

(5) The description of the drawings, specifications or other submittals to be submitted with the proposal, with guidance as
to the form and level of completeness of the drawings, specifications or submittals that will be acceptable;

(6) A schedule for planned commencement and completion of the design-build contract;

(7) Budget limits for the design-build contract, if any;

(8) Design-builder qualifications; and

(9) Requirements for performance bonds, payment bonds and insurance.

The request for proposals may include any other information that the agency, at its discretion, chooses to supply, including, but not limited to, surveys, soils reports, drawings or models of existing structures, environmental studies, photographs or references to public records.

Notice of requests for proposals must be advertised as prescribed by the procedures utilized by the purchasing division pursuant to article three, chapter five-a of this code.

Proposals must be sealed and may not be opened until expiration of the time established for making proposals as set forth in the request for proposals. Requests for proposals must require and be accompanied by a bid bond not to exceed five percent of the maximum cost of the design-build contract, as established by the proposal. In the event the proposal is accepted and the design-builder fails to execute the design-build contract, the bid bond will be forfeited.

To the extent required, the request for proposal must identify each firm to whom the design-builder proposes to sublet obligations under the design-build contract. At a minimum, each proposal must identify each firm responsible for the design and primary construction and their affiliation to the design-builder. Proposals must establish a cost of the design-build contract that will not be exceeded if the proposal is accepted without change. After award of the proposal, the maximum cost of the proposal may be converted to fixed prices
by negotiated agreement between the agency and the design-
builder.

Prior to the award of the design-build contract, all draw-
ings, specifications and other information submitted in the
proposal shall remain the property of the design-builder
submitting the proposal. Additionally, prior to the award of the
design-build contract, the agency shall maintain the secrecy and
confidentiality of all information contained in the proposal.
Once a proposal is accepted, the disclosure of the proposal and
the information in the proposal, and the ownership of the
drawings, specifications and information therein, shall be
determined in accordance with existing law and the terms of the
design-build contract.

Proposals may not be amended during the review process.

At the discretion of the agency, a stipend may be paid to the
design-builders not ultimately selected.

Proposals must be submitted to the purchasing division or
agency, as applicable. Clarifications may be required to ensure
conformance of proposals with the performance criteria. In
seeking clarifications, the performance criteria developer may
not reveal any aspect of any proposal to any other design-
builder. The performance criteria developer must certify each
proposal in regard to compliance with the performance criteria.
No proposal or design-build contract may be accepted unless
the purchasing division or agency, as applicable, determines
that there was adequate competition for the contract.

After receiving and evaluating all proposals submitted
based upon the criteria and procedures set forward in the
request for proposals, the purchasing division or agency, as
applicable, must accept the proposal that receives the best
score, as set forth in the rules provided for in section six of this
article.

Acceptance of a proposal shall be by written notice to the
design-builder which submitted the accepted proposal. At the
same time notice of acceptance is delivered, the purchasing division or agency, as applicable, shall also inform, in writing, the nonsuccessful design-builders that their proposals were not accepted. When a design-builder receives notification that its proposal was not accepted, the design-builder may, within three days after receipt of such notification, request in writing a copy of the best score and all other factors used or considered in the selection process.

The performance criteria developer must visit the site at intervals appropriate to the stage of construction to become generally familiar with the progress and quality of the work completed and to determine in general if the work is being performed in a manner indicating that work, when completed, will be in accordance with the design-build contract. On the basis of such on-site observations the performance criteria developer shall keep the agency informed of the progress of the work on the project and shall endeavor to guard the agency against defects and deficiencies in such work.

The performance criteria developer shall assist the agency in determining whether the agency shall reject work which does not conform to the design-build contract.

The performance criteria developer shall assist the agency in conducting inspections, to determine the date or dates of substantial completion and of final completion, and shall review and approve, or take other appropriate action regarding the contractor’s list of items to be completed or corrected, and shall forward the list to the agency for final disposition. The performance criteria developer shall issue to the agency a final certification in writing with respect to final acceptance of the project.

At the option of the design-builder, proposals may be withdrawn for any reason at any time prior to their opening without forfeiture of the security. Once opened, a proposal may be withdrawn for any reason prior to acceptance with forfeiture of the bid bond.
1 Pursuant to the provisions of article ten, chapter four of this code, the design-build board shall continue to exist until the first day of July, two thousand four.

1 The provisions of subsection (cc), section ten, article two, chapter two of this code shall apply to the provisions of this chapter to the same extent as if the same were set forth in extension herein.

(1) Provisions for distributing the moneys from the fund to state institutions of higher education: Provided, That the distribution of the moneys from the fund shall be completely independent of the distributions in accordance with the resource allocation model and the resource allocation policies: Provided, however, That the funds shall be divided among the state institutions of higher education in a reasonable manner to reflect the actual distribution of PROMISE scholarship students among the institutions; and

(2) A procedure for submitting a budget request to the governor: Provided, That nothing in this article shall require any appropriation by the Legislature.
AN ACT to amend and reenact section six, article two, chapter eighteen of the code of West Virginia, one thousand nine hundred thirty-one, as amended; to amend article two-e of said chapter by adding thereto four new sections, designated sections eight-a, eight-b, eight-c and eight-d; and to amend and reenact section one-e, article one, chapter eighteen-b of said code, all relating to voiding provisions for development of an electronic portfolio by the state board of education and their future effect; legislative findings; requiring state board to direct a review of policy requirements for new courses, assist counties in meeting the requirements; requiring state board to direct state superintendent to organize department to better communicate, provide technical assistance and support for schools and school systems in certain areas; requiring plan for repair, maintenance and upgrade of technology in public schools; providing legislative intent to work with state board to continue improving education and ensure a thorough and efficient education; allowing students who complete two successful semesters in vocational agriculture to receive one required science unit toward high school graduation; and further expressing the legislative intent with respect to the Jobs Through Education Act.

Be it enacted by the Legislature of West Virginia:

That section six, article two, chapter eighteen of the code of West Virginia, one thousand nine hundred thirty-one, as amended, be amended and reenacted; that article two-e of said chapter be amended by adding thereto four new sections, designated sections eight-a, eight-b, eight-c and eight-d; and that section one-e, article one, chapter eighteen-b of said code be amended and reenacted, all to read as follows:
Chapter 18. Education.

18B. Higher Education.

CHAPTER 18. EDUCATION.

ARTICLE 2. STATE BOARD OF EDUCATION.

§18-2-6. Classification and standardization of schools; standards for degrees and diploma; certificates of proficiency; establishment of alternative education programs.

The state board shall make rules for the accreditation, classification and standardization of all schools in the state, except institutions of higher education, and shall determine the minimum standards for the granting of diplomas and certificates of proficiency by those schools. Not later than the school year one thousand nine hundred ninety-one—ninety-one, certificates of proficiency including specific information regarding the graduate's skills, competence and readiness for employment or honors and advanced education shall be granted, along with the diploma, to every eligible high school graduate. The certificate of proficiency shall include the program of study major completed by the student only for those students who have completed the required major courses, or higher level courses, advanced placement courses, college courses or other more rigorous substitutes related to the major, and recommended electives.

No institution of less than collegiate or university status may grant any diploma or certificate of proficiency on any basis of work or merit below the minimum standards prescribed by the state board.

No charter or other instrument containing the right to issue diplomas or certificates of proficiency shall be granted by the state of West Virginia to any institution or other associations or organizations of less than collegiate or university status within the state until the condition of granting or issuing such diplo-
mas or other certificates of proficiency has first been approved in writing by the state board.

The state board also may establish policies and procedures for the approval of alternative education programs for disruptive students who are at risk of not succeeding in the traditional school structure. These policies and procedures may provide for the waiver of other policies of the state board, the establishment and delivery of a nontraditional curriculum, establishment of licensure requirements for alternative education program teachers, and the establishment of performance measures for school accreditation.

ARTICLE 2E. HIGH QUALITY EDUCATIONAL PROGRAMS.

§18-2E-8a. Electronic portfolio repealed.

§18-2E-8b. Audit of state board policies; legislative findings; report to legislative oversight commission; required plan of improvement; exemptions from determination of accreditation status.

§18-2E-8c. The “Robert C. Beach” Vocational Agriculture Credit.

§18-2E-8d. Further expressions of legislative intent with respect to this article; parental consent for substitute classes.

§18-2E-8a. Electronic portfolio repealed.

Notwithstanding the provisions of subsections (i) and (j), section eight of this article, information on student attainment of special skills, honors, advanced education, exceptional performance and other outstanding accomplishments shall be included on the certificate of proficiency granted to eligible high school graduates along with the diploma pursuant to section six, article two of this chapter. All provisions for development of an electronic portfolio by the state board are hereby null and void and without future effect.

§18-2E-8b. Audit of state board policies; legislative findings; report to legislative oversight commission; required plan of improvement; exemptions from determination of accreditation status.

(a) The Legislature finds that, pursuant to its constitutional responsibility to provide for a thorough and efficient system of schools, a process for improving education was enacted and set forth in section five of this article, a process that was endorsed
by the West Virginia board of education in a resolution that was adopted. The Legislature finds that the process for improving education includes four primary elements, those being standards, assessments, accountability and capacity building. The Legislature finds that as the constitutional body charged with the general supervision of schools, as provided by general law, the West Virginia board of education has the authority and responsibility to establish policies, which are not subject to approval by the Legislature, to assess performance against the standards, to hold schools and school systems accountable for meeting the standards and to assist schools and school systems to build their capacity to meet the standards, including, when necessary, seeking additional resources in consultation with the Legislature and the governor. The Legislature finds that in fulfilling its constitutional responsibility to provide for a thorough and efficient system of schools, the Legislature has been diligent in not mandating the delivery of programs that are beyond the capacity of schools and school systems without providing the necessary additional resources. The Legislature further finds, however, that concerns exist with respect to the capacity of school systems to meet certain mandates and expenses which arise either from state board policy or the need for better communication, technical assistance and support by the state board and state department of education. The Legislature finds that it is imperative that these concerns be addressed so as not to adversely affect the progress West Virginia has made toward improving its system of education or negate the excellent work of dedicated personnel at local schools and school systems to more thoroughly prepare their students for college, other post-secondary education and employment. Therefore, it is the intent of this section to engage the state board and the state department in the spirit of cooperation and collaboration intended in the process for improving education to examine the impact of their policies and the efforts being made by the state board and the state department of education to assist schools and school systems to meet them.

(b) The state board shall:
(1) Direct the office of education performance audits to include in its review of county boards and schools a determination of whether the county boards and schools have the capacity to meet the requirements within the policies of the state board for school systems to provide additional new courses and determine the capacity of school systems to deliver these new courses, if any. If it is determined that a county does not have the capacity to meet these requirements, the state board shall direct the department to develop and implement a plan to assist the counties in meeting the requirements.

(2) Review the organization of the state department of education to ensure that it is able to provide the best communication, technical assistance and support for schools and school systems in a number of areas, including, but not limited to:

(i) The advantages and disadvantages of various methods of scheduling and how they can be modified to best meet the needs of students;

(ii) Establishing policies which allow advanced students to test out of required courses for which they already possess the required academic skills; and

(iii) Subject to the provision of section eight-d of this article, establishing policies which allow students, whether they are preparing for college, other post-secondary education or work, to take a higher level course, advanced placement course, college course or other more rigorous substitute in place of a required major course as set forth in the applicable program of study.

(3) Prepare and report annually to the legislative oversight committee on educational accountability by the first day of December a plan for the repair, maintenance and upgrade of technology in the public schools.

(c) It is further the intent of the Legislature to regularly consult with the state board, examine the progress it is making with respect to these issues, and consider alternative measures to ensure that all students continue receiving the thorough and efficient education to which they are entitled.
§18-2E-8c. The "Robert C. Beach" vocational agriculture credit.

(a) The Legislature finds that vocational agriculture curriculum plays a vital role in the development of science education for those students enrolled in the program. The Legislature further finds that as a former member of the West Virginia House of Delegates, Robert C. Beach was a strong supporter of the vocational agriculture program.

(b) Students completing two successful semesters in vocational agriculture classes, as defined by state board policy on the first day October, one thousand nine hundred ninety-nine, shall receive no more than one of the three required units towards high school graduation for science.

§18-2E-8d. Further expressions of legislative intent with respect to this article; parental consent for substitute classes.

(a) The Legislature finds that many school systems are improving the quality of education for their students through implementation of the goals and policies set forth in this article. The Legislature finds that local school systems have had and should continue to have substantial flexibility for implementing these improvements. The Legislature further finds that certain of the goals address legally recognized elements within the definition of a thorough and efficient education among which is the development in every child his or her capacity and knowledge to intelligently pursue his or her options. The purpose of this section is to further this progress through a greater expression of the legislative intent with respect to eliminating the general track curriculum and to insure that all students perform at high levels of academic achievement.

(b) The intent of the Legislature is to provide in an economical manner for a thorough and efficient education that:

(1) Provides information to parents and students which clearly identifies the courses a student should take to prepare fully for continuing their education in college, other post-secondary education or employment so they can intelligently choose among the many options available to them;
(2) Encourages the involvement of parents in their child’s education by providing parents and students with information and opportunities to help students explore their interests and plan a program of study while they are still in high school and have greater options and flexibility;

(3) Ensures that the quality, content, and alignment of the curriculum is sufficient to prepare students fully for the transition to college, other post-secondary education or employment in areas in which they have an interest following graduation from high school; and

(4) Improves student learning by increasing the rigor of the curriculum, making it more relevant to students, and reinforcing academic instruction through applications to real life problem solving so that whatever options a student pursues following graduation from high school, the student has acquired a foundation of knowledge, skills and abilities that prepares him or her fully for success.

(c) Notwithstanding the courses specified as required major courses within a high school program of study, a student in consultation with his or her parents and school advisor, and with the written consent of his or her parents, may take a higher level course, advanced placement course, college course or other more rigorous substitute. The parental consent form shall include a certification signed by the school advisor that the parents were advised of the impact of the substitute course on the student’s preparation for college, other post-secondary education or employment in the student’s major field of study and that the student’s certificate of proficiency will not indicate that the student completed a program of study major unless such substitute courses are related to the major field of study selected by the student.

(d) Notwithstanding the courses specified as recommended electives within a high school program of study, a student in consultation with his or her parents and school advisor, and with the written consent of his or her parents, may substitute other elective courses in place of those recommended to prepare
the student fully for continuing his or her education in college, other post-secondary education or employment. The parental consent form shall include a certification signed by the school advisor that the parents were advised of the impact of the substitute course on the student’s preparation for college, other post-secondary education or employment in the student’s major field of study and that the student’s certificate of proficiency will not indicate that the student completed a program of study major unless such substitute courses are related to the major field of study selected by the student.

(e) On or before the first day of July, one thousand nine hundred ninety-nine, the state board shall establish a uniform parental consent form to be maintained in the student’s permanent record for the purposes of subsections (c) and (d) of this section which shall contain:

(1) A statement to be signed and dated by the parents to consent to their child’s substitution of another course for a required major course as provided in subsection (c) of this section and the course titles of the required major course and the substitute course;

(2) A statement to be signed and dated by the parents to consent to their child’s substitution of another course for a recommended elective course as provided in subsection (d) of this section and the course titles of the recommended elective course and the substitute course; and

(3) A statement to be signed and dated by the school advisor certifying that the school advisor advised the parents of the impact of the substitute course on the student’s preparation for college, other post-secondary education or employment in the student’s major field of study and the student’s certificate of proficiency.

(f) Nothing in this section shall prohibit a county board from establishing high school graduation requirements which exceed the minimum high school graduation requirements established by the state board.
CHAPTER 18B. HIGHER EDUCATION.

ARTICLE 1. GOVERNANCE.

§18B-1-1e. Public education and higher education collaboration for the preparation of students for college and other post-secondary education.

(a) Purpose. — The purpose of this section is as follows:

(1) To assist students in the planning and preparation for success in college and other post-secondary education if their education major interests require such formal education after high school;

(2) To establish the minimum expected level of knowledge, skill and competency a student must possess to be prepared fully for college and other post-secondary education at state institutions of higher education;

(3) To implement a method for communicating the minimum level of knowledge, skill and competency to students, parents, educators and counselors in the public schools, and admissions officers, advisors and faculty in the higher education institutions; and

(4) To assure that the teacher preparation programs in state institutions of higher education prepare educators to, at a minimum, deliver instruction necessary to prepare students fully for college and other post-secondary education or gainful employment consistent with the provisions of section eight, article two-e, chapter eighteen of this code.

(b) Joint rule. — On or before the first day of October, one thousand nine hundred ninety-six, the higher education governing boards shall promulgate a joint rule to achieve the purposes of subsection (a) of this section. In the development of such rule, the governing boards shall consult with the state board and the jobs through education employer panel, established pursuant to section eight, article two-e, chapter eighteen of this code, and shall collaborate with the state board in the establishment of compatible practices within their separate systems.
30 (c) Assessment of student readiness. — To provide continuous assessment and program improvement in the preparation of high school students for success in college or other post-secondary education, the higher education governing boards shall communicate to the state board and the legislative oversight commission on education accountability by the first day of December in each year, beginning in December, one thousand nine hundred ninety-seven, the number of graduates from the public schools in the state by high schools who were accepted in the last calendar year for enrollment at each of the state institutions of higher education within one year of graduation, and whose knowledge, skill and competency were below the minimum expected levels for full preparation as defined by the governing boards. The governing boards also shall report the areas in which the knowledge, skill and competency of the students were below the minimum expected level. The state board shall provide information to each of the high schools of the state for graduates from the high school.

CHAPTER 97

(S. B. 588 — Originating in the Committee on Education.)

[Passed March 9, 1999; in effect ninety days from passage. Approved by the Governor.] AN ACT to amend article two, chapter eighteen of the code of West Virginia, one thousand nine hundred thirty-one, as amended, by adding thereto a new section, designated section thirty-three, relating to requiring the state board to promulgate antihazing rules for public school-sponsored student organizations.

Be it enacted by the Legislature of West Virginia:

That article two, chapter eighteen of the code of West Virginia, one thousand nine hundred thirty-one, as amended, be amended by adding thereto a new section, designated section thirty-three to read as follows:
ARTICLE 2. STATE BOARD OF EDUCATION.

(a) The Legislature hereby finds that hazing has become a problem in a limited number of public school-sponsored student organizations and that legal liability has already resulted from some of those activities. It is the intent of this section that problems with hazing in public school-sponsored student organizations be addressed.

(b) The state board shall promulgate legislative rules in accordance with article three-b, chapter twenty-nine-a of this code that addresses hazing in the public school system. The rules shall include at least the following:

(1) A definition of hazing;

(2) A definition of a public school-sponsored student organization that includes both cocurricular and extracurricular activities;

(3) A method to advise students and employees of the problems associated with hazing;

(4) Appropriate penalties or procedures for establishing penalties for students who haze while engaged in the activities of a public school-sponsored student organization; and

(5) Methods to prevent hazing in public school-sponsored organizations.

(c) The state board shall consider the antihazing law set forth in article sixteen, chapter eighteen in drafting the rules required by this section.

(d) Nothing in this section or in the policy promulgated in accordance with this section may be construed to prevent a suspension or expulsion executed in accordance with section one-a, article five, chapter eighteen-a of this code.
CHAPTER 98
(H. B. 3024 — By Delegates Williams, Romine, Susman, Manuel, Shelton, Stemple and Anderson)

[Passed March 13, 1999; in effect ninety days from passage. Approved by the Governor.]

AN ACT to amend article two-e, chapter eighteen of the code of West Virginia, one thousand nine hundred thirty-one, as amended, by adding thereto a new section, designated section three-d, relating to establishment of a competitive grant "Mathematic Achievement Through Help" program; providing legislative intent and purposes; specifying priorities for grant awards; and providing procedures for grant application and selection.

Be it enacted by the Legislature of West Virginia:

That article two-e, chapter eighteen of the code of West Virginia, one thousand nine hundred thirty-one, as amended, be amended by adding thereto a new section, designated section three-d, to read as follows:

ARTICLE 2E. HIGH QUALITY EDUCATIONAL PROGRAMS.

§18-2E-3d. Summer school MATH grant program created; legislative findings and purpose of section.

1 (a) The Legislature hereby finds and acknowledges that, if remediation is necessary, it should be provided when students are younger and before patterns of failure are established. The Legislature further acknowledges that the people of West Virginia would be better served if the state acted to ensure that all public school students were able to execute mathematical skills at or above grade level upon exiting grade four, that county boards are in the best position to determine if remediation is necessary for students in kindergarten through grade four and that the counties should have the option of providing summer school for students and may consider student attendance as a factor in determining whether a child is eligible to be promoted to the next grade.
The Legislature further finds that not all students are financially able to pay for summer school, nor do all county schools hold summer school. It is, therefore, the purpose of this section to help the county boards to provide, either individually or cooperatively, free summer school and summer school transportation for those students in kindergarten through grade four who did not perform at grade level during the regular school year. It also is the purpose of this section to help students in kindergarten through grade four who are identified as being in danger of failing to execute mathematical skills at grade level by the end of the school year to receive intensive mathematics instruction during their regularly scheduled mathematics time throughout the regular school year.

(b) Subject to appropriation by the Legislature therefor, the state board shall establish a competitive grant program as set forth in this section to provide mathematics programs for students in kindergarten through grade four who are not performing at grade level. The program shall be designated and known as the “Mathematic Achievement Through Help” program and, along with such designation, may be referred to as “West Virginia MATH”.

Priorities for awarding the grants shall include, but are not limited to:

(1) Schools that have math test scores below the state standards; or

(2) Schools that receive federal funds for the improvement of mathematics.

Competitive grant applications must be submitted by the county boards, or by a community collaborative with the county board as a partner with leadership responsibility, and shall describe how the program will:

(1) Employ strategies, proven methods and innovative techniques for student learning, teaching and school management that are based on reliable research and effective practices, and can be replicated in other schools to improve the mathematical skills of students;
(2) Contain measurable goals for the improvement of student mathematical skills and benchmarks for meeting those goals;

(3) Include a plan for the evaluation of student progress toward achieving the state’s high standards;

(4) Identify how other federal, state, local and private resources, including volunteers, will be utilized to further the intent of this section;

(5) Link summer improvement programs for mathematics with mathematical instruction and remediation throughout the school year;

(6) Determine the feasibility of collaborating with colleges of education for the purpose of providing educational experiences for prospective teachers;

(7) Identify the use of technology, including computers and calculators, and demonstrate how technology will be integrated into the program; and

(8) Accomplish other objectives as deemed necessary by the state board.

(c) Any county receiving a grant should encourage students in kindergarten through grade four who did not perform at grade level during the regular school year to attend summer school and may consider summer school attendance as a factor in determining whether a child is eligible to be promoted to the next grade. The county board shall provide intensive mathematics instruction during regularly scheduled mathematics time throughout the regular school year to students in kindergarten through grade four who are identified by the classroom teacher as being in danger of failing to execute mathematical skills at grade level by the end of the school year. Nothing in this section shall prohibit county boards from permitting students to participate in mathematics programs on a student fee basis.

(d) The state board shall approve procedures for the implementation of this section. To assist the state board in
developing procedures for the implementation of this section, including the grant application and the grant review and selection process, the state board shall appoint an advisory board consisting of the mathematics education coordinator and the Title I mathematics coordinator/specialist, both from the state department of education, a college or university professor of mathematics, a county mathematics curriculum specialist, an elementary teacher with a mathematics certification, an elementary principal with a mathematics certification, a mathematics teacher with a certificate issued by the national board of professional teaching standards, a representative from the West Virginia council of teachers of mathematics and two or more representatives from local school systems that are certified in mathematics education, or representatives of like successor organizations should these named organizations cease to exist. The procedures shall provide for:

1. The appointment of a grant review and selection panel by the state board consisting of persons with expertise and practical experience in delivering programs to increase the mathematical skills of young students, not more than one half of whom may be employees of the state department of education, or the state board may designate the advisory board as the grant review and selection panel;

2. Notice to all schools of the grant competition and the availability of applications on or before the thirtieth day of September, in each fiscal year for which grant funds are available;

3. A grant application deadline postmarked on or before the fifteenth day of December, in each fiscal year for which grant funds are available;

4. Notice of grant awards on or before the first day of March, in each fiscal year for which grant funds are available; and

5. Other such requirements as deemed necessary by the state board.

(e) The state board may fund, from any other funds available for such purposes, the programs required by this
section for students in kindergarten through grade four and any
programs required by state board rules such as, but not limited
to, the following:

(1) Tutoring;
(2) Summer school educational services;
(3) Additional certified personnel to provide intensive
instruction in mathematics throughout the school year;
(4) Staff development for teachers; and
(5) Hot meal programs.

Nothing in this section shall supersede the individual-
education program (IEP) of any student.

Nothing in this section may be construed to require any
specific level of funding by the Legislature.

(1) An employee may contribute no more than two days of personal leave per school year;

(2) The bank shall be established either jointly or separately for both professional personnel and school service personnel and shall be available to all school personnel;

(3) The rules may limit the maximum number of days used by a care giver;

(4) The rules shall require that leave bank days be used only by a care giver who is absent from work during the same time period as the absent employee for whom care is being provided; and

(5) The rules shall require that the care giver is an active employee with less than five days accumulated personal leave.

(c) The use of such days by the care giver for the extension of insurance coverage pursuant to section twelve, article sixteen, chapter five of this code is prohibited.

(d) Contributions shall reduce, to the extent of the contribution, the number of personal leave days to which a contributing employee is entitled by section ten of this article: Provided, That the employee's contribution may not reduce the number of entitled personal leave days without cause.

(e) No employee may be compelled to contribute to a personal leave bank.
AN ACT to amend and reenact sections five-a and seven, article nine-a, chapter eighteen of the code of West Virginia, one thousand nine hundred thirty-one, as amended; and to amend and reenact section eight-a, article four, chapter eighteen-a of said code, all relating to funding of public education; increasing the maximum ratio of service personnel per one thousand students in net enrollment from forty-three and one-half to forty-three and six-tenths for low density counties and to forty-four and one-half for high density counties; changing the percent of the replacement value of bus fleets included in the calculation of the allowance in the foundation school program for transportation; and increasing the monthly pay of service personnel for college or comparable credit.

Be it enacted by the Legislature of West Virginia:

That sections five-a and seven, article nine-a, chapter eighteen of the code of West Virginia, one thousand nine hundred thirty-one, as amended, be amended and reenacted; and that section eight-a, article four, chapter eighteen-a of said code be amended and reenacted, all to read as follows:

CHAPTER 18. EDUCATION.

ARTICLE 9A. PUBLIC SCHOOL SUPPORT.

§18-9A-5a. Ratio of foundation allowances for professional educators and service personnel to net enrollment.

(a) The purpose of this section is to establish maximum ratios between the numbers of professional educators and service personnel in the counties which are funded through the public school support plan and the net enrollment in the
counties, such ratios are in addition to the ratios provided for in sections four and five of this article. It is the intent of the Legislature to adjust these ratios pursuant to legislative act as may be appropriate when additional personnel are needed to perform additional duties.

(b) Commencing with the school year one thousand nine hundred eighty-nine—ninety, and each year thereafter, in computing the basic foundation allowance to a county for professional educators and the basic foundation allowance to a county for service personnel under sections four and five of this article, a county shall not receive an allowance for such personnel which number per one thousand students in net enrollment is in excess of the number of professional educators and the number of service personnel in the county computed as follows:

The allowance in the foundation school program for each county for transportation shall be the sum of the following computations:
Eighty-five percent of the transportation cost within each high density county and ninety percent of the transportation cost within each low density county for maintenance, operation and related costs, exclusive of all salaries: Provided, That for the school year beginning the first day of July, one thousand nine hundred ninety-eight, and thereafter, in the event a county uses an alternative fuel such as compressed natural gas or other acceptable alternative fuel for the operation of all or any portion of its school bus system, then the allowance in the foundation school program for each such county for that portion of its school bus system shall be ninety-five percent of the transportation cost for maintenance, operation and related costs, exclusive of all salaries, incurred by the use of the alternatively fueled school buses: Provided, however, That any county using an alternative fuel and qualifying for the additional allowance shall submit a plan regarding the intended future use of alternatively fueled school buses;

The total cost, within each county, of insurance premiums on buses, buildings and equipment used in transportation: Provided, That such premiums were procured through competitive bidding;

For the school year beginning the first day of July, one thousand nine hundred ninety-nine, and thereafter, an amount equal to eight and one-third percent of the current replacement value of the bus fleet within each county as determined by the state board, such amount to be used only for the replacement of buses. Buses purchased after the first day of July, one thousand nine hundred ninety-nine that are driven one hundred eighty thousand miles regardless of year model will be subject to the replacement value of eight and one-third percent as determined by the state board. In addition, in any school year in which its net enrollment increases when compared to the net enrollment the year immediately preceding, a school district may apply to the state superintendent for funding for an additional bus. The state superintendent shall make a decision regarding each application based upon an analysis of the individual school district's net enrollment history and transportation needs: Provided, That the superintendent shall not consider any
application which fails to document that the county has applied
for federal funding for additional buses. If the state superinten-
dent finds that a need exists, a request for funding shall be
included in the budget request submitted by the state board for
the upcoming fiscal year;

(4) Eighty-five percent of the cost of contracted transporta-
tion services and public utility transportation within each high
density county and ninety percent of the cost of contracted
transportation services and public utility transportation within
each low density county;

(5) Aid in lieu of transportation equal to the state average
amount per pupil for each pupil receiving such aid within each
county; and

(6) Ninety-five percent of the transportation cost for
maintenance, operation and related costs, exclusive of all
salaries, for transporting students to and from classes at a
multicounty vocational center.

The total state share for this purpose shall be the sum of the
county shares: Provided, That no county shall receive an
allowance which is greater than one-third above the computed
state average allowance per transportation mile multiplied by
the total transportation mileage in the county: Provided, however,
That one half of one percent of the transportation
allowance distributed to each county shall be for the purpose of
trips related to academic classroom curriculum and not related
to any extracurricular activity: Provided further, That any
remaining funds credited to a county for the purpose of trips
related to academic classroom curriculum during the fiscal year
shall be carried over for use in the same manner the next fiscal
year and shall be separate and apart from, and in addition to, the
appropriation for the next fiscal year: And provided further,
That the state board may request a county to document the use
of funds for trips related to academic classroom curriculum if
the board deems it necessary.

The state department of education shall cause a comprehen-
sive study to be made relating to student transportation. The
study shall examine, but is not limited to, the issues of funding,
timeliness of data used for formula distribution, service personnel needed, inter-county service, regionalization of services, bus routes, amount of time students spend on buses, maintenance, safety training, and alternative transportation systems. The state department of education shall submit a report of the study to the legislative oversight commission on education accountability by the fifteenth day of January, one thousand nine hundred ninety-nine.

(2) An additional ten dollars per month shall be added to the minimum monthly pay of each service employee who holds a high school diploma or its equivalent.

(A) A service employee who holds twelve college hours or comparable credit obtained in a trade or vocational school as approved by the state board;
(B) A service employee who holds twenty-four college hours or comparable credit obtained in a trade or vocational school as approved by the state board;  

(C) A service employee who holds thirty-six college hours or comparable credit obtained in a trade or vocational school as approved by the state board; and  

(D) A service employee who holds forty-eight college hours or comparable credit obtained in a trade or vocational school as approved by the state board.

(4) When any part of a school service employee’s daily shift of work is performed between the hours of six o’clock p.m. and five o’clock a.m. the following day, the employee shall be paid no less than an additional ten dollars per month and one half of the pay shall be paid with local funds.

(5) Any service employee required to work on any legal school holiday shall be paid at a rate one and one-half times the employee’s usual hourly rate.

(6) Any full-time service personnel required to work in excess of their normal working day during any week which contains a school holiday for which they are paid shall be paid for the additional hours or fraction of the additional hours at a rate of one and one-half times their usual hourly rate and paid entirely from county board funds.

(7) No service employee may have his or her daily work schedule changed during the school year without the employee’s written consent, and the employee’s required daily work hours may not be changed to prevent the payment of time and one-half wages or the employment of another employee.

(8) The minimum hourly rate of pay for extra duty assignments as defined in section eight-b of this article shall be no less than one seventh of the employee’s daily total salary for each hour the employee is involved in performing the assignment and paid entirely from local funds: Provided, That an alternative minimum hourly rate of pay for performing extra duty assignments within a particular category of employment
may be utilized if the alternate hourly rate of pay is approved both by the county board and by the affirmative vote of a two-thirds majority of the regular full-time employees within that classification category of employment within that county: 

Provided, however, That the vote shall be by secret ballot if so requested by a service personnel employee within that classification category within that county. The salary for any fraction of an hour the employee is involved in performing the assignment shall be prorated accordingly. Related duties required for asbestos removal include, but are not limited to, travel, preparation of the work site, removal of asbestos decontamination of the work site, placing and removal of equipment and removal of structures from the site. If any member of an asbestos crew is engaged in asbestos related duties outside of the employee’s regular employment county, the daily rate of pay shall be no less than the minimum amount as established in the employee’s regular employment county for asbestos removal and an additional thirty dollars per each day the employee is engaged in asbestos removal and related duties. Before service personnel employees may be utilized in the removal of asbestos material or related duties, they shall have completed a federal Environmental Protection Act approved training program and be licensed. The employer shall provide all necessary protective equipment and maintain all records required by the Environmental Protection Act.
(10) For the purpose of qualifying for additional pay as provided in section eight, article five of this chapter, an aide shall be considered to be exercising the authority of a supervisory aide and control over pupils if the aide is required to supervise, control, direct, monitor, escort or render service to a child or children when not under the direct supervision of certificated professional personnel within the classroom, library, hallway, lunchroom, gymnasium, school building, school grounds or wherever supervision is required. That section twenty-one, article nine-a, chapter eighteen of the code of West Virginia, one thousand nine hundred thirty-one, as amended, be amended and reenacted; that said article be further amended by adding thereto a new section, designated section twenty-six; and that section one-a, article two, chapter twenty-three of said code be amended and reenacted, all to read as follows:
CHAPTER 18. EDUCATION.

ARTICLE 9A. PUBLIC SCHOOL SUPPORT.

(a) An appropriation may be made to the state department to be distributed to county boards for the operation of alternative education programs established in accordance with policies and procedures adopted by the state board under section six, article two of this chapter: Provided, That nothing in this section shall be construed to require any specific level of funding by the Legislature: Provided, however, That ninety percent of any appropriation which may be made for the purposes set forth in this section shall be distributed to county boards on the basis of net enrollment and ten percent of this appropriation shall be distributed on a competitive basis to county boards for the operation of pilot or innovative alternative education programs: Provided further, That for the fiscal year beginning the first day of July, two thousand, the total appropriation which may be made for the purposes set forth in this section shall be distributed to the county boards on the basis of net enrollment.

(b) Each county board shall apply to the state superintendent for receipt of its share of the distribution in the manner set forth by the state superintendent which is consistent with the policies and procedures adopted by the state board for the establishment and maintenance of alternative education programs.

(a) The workers’ compensation division shall create a classification and calculate a base premium tax rate for students participating in an unpaid work-based learning experience off
school premises as a part of the school curriculum with employ-
ers other than the county board of education. The workers' compensation division shall report to the state department of education:

(1) The amount of the base premium tax rate for the class; and

(b) The state department of education shall communicate the amount of the premium to the governor and Legislature by the first day of December of each year, beginning the first day of December, one thousand nine hundred ninety-nine.

(c) The base premium tax rate reported to the state department of education shall be that which was published by the workers' compensation division prior to the first day of the immediately preceding July. That premium tax rate, however, shall not be implemented by the workers' compensation division until the first day of January and shall remain in effect through the last day of the next December. The workers' compensation division shall make no merit rate adjustment, as otherwise provided for in paragraph (A), subdivision (1), subsection (a), section four, article two, chapter twenty-three of this code, for the members of the class required to be created by subsection (a) of this section.

(d) Notwithstanding anything to the contrary in any rules adopted to implement the provisions of section four, article two, chapter twenty-three of this code and for the sole purposes of this section, the workers' compensation division shall permit any county board of education affected by this section to be classified in accordance with this section and to be also classified as otherwise required by any rules adopted to implement the provisions of section four, article two, chapter twenty-three of this code.

(e) Subject to an appropriation by the Legislature, funds shall be provided to the department of education to distribute to
the county boards. If the appropriation is less than the total
premium calculated, the county boards, individually, shall
either reduce the number of students participating in work-
based learning experiences off school premises or the county
boards shall pay the difference between the amount of the
premium calculated by the workers' compensation division and
the amount allocated to the county board by the department of
education.

weekly benefits required by section six, article four of this
chapter.

(b) The right to receive compensation under this chapter
shall not be affected by the fact that a minor is employed or is
permitted to be employed in violation of the laws of this state

The radon testing shall include all major student occupied areas at or below grade level. (c) If the school building authority determines that it is feasible to test for radon prior to the construction of a school building, the school building authority may cause preconstruction site testing for radon to be performed.

(d) The school building authority shall promulgate rules pursuant to article three-a, chapter twenty-nine-a of this code to assure that any new school building designed after the effective date of this article is designed and constructed in accordance with the current ASHRAE, NFPA and BOCA standards. The school building authority shall promulgate rules, pursuant to article three-a, chapter twenty-nine-a of this code that establish standards for safe levels of radon for public school buildings. Existing employees who have advanced HVAC skills or existing employees who receive appropriate HVAC training may be utilized as HVAC technicians. The rules also shall provide for sufficient continuing education training for HVAC technicians to maintain proficiency in the changing technologies in the field. The rules shall be submitted to the legislative oversight commission on educational accountability prior to the first day of September, one thousand nine hundred ninety-nine.

(1) Incorporate the most effective and efficient use of technology in accessing and delivering courses and programs in order to make the best use of available resources and to control costs;

(2) Incorporate a model to offer occupational program curricula in smaller modules to accommodate specific student and employer needs and to gain sufficient flexibility in formatting courses;

(3) Serve as a facilitator for education programs from outside delivery sources that meet the needs of the residents and employers of the district; and

To that end the freestanding community and technical colleges may employ faculty for an indefinite period without a grant of tenure and shall work toward a staffing goal of no more than twenty percent of the faculty holding tenure or being tenure-track employees: Provided, That tenured faculty currently employed by public institutions of higher education may not be affected by this provision.

§18B-3-7. Legislative findings; study by joint committee on government and finance.

(a) The Legislature recognizes that it is in the best interest of the state to have effective and comprehensive higher education programs. It is critical that there be a system for the delivery of high quality community and technical college education because of its importance to the economic and cultural well-being of state residents.

(b) The Legislature finds that a need exists to strengthen the public community colleges so that they are able to respond better to the economic needs of the state for a highly trained, competent work force. Therefore, the Legislature has sought, through passage of legislation, to restructure and refocus community and technical college education for the purpose of establishing programs that function well with the public schools and four-year colleges, that make maximum use of resources, that encourage citizens to pursue a lifetime of learning, that serve as instruments of economic development, and that have the independence and flexibility to respond quickly to changing needs.
(c) The Legislature finds that, although great progress has been made on reaching some of the established goals, the purposes for which community and technical college education was created have not been fulfilled and many of the goals established have not been met.

(d) The Legislature further finds that a need exists to clarify the missions of public institutions of higher education, to consider the equity and effectiveness of current funding methods and to consider methods of equitably offering access to associate, baccalaureate and graduate education programs at institutions throughout the state.

(e) It is the responsibility of the Legislature to make the best use of available resources and to provide a blueprint that will meet goals established for public higher education. Therefore, the joint committee on government and finance shall authorize a study for the purpose of making specific and detailed recommendations to the Legislature. The recommendations shall be delivered to the Legislature by the first day of January, two thousand. The study shall include, but may not be limited to, the following:

(1) Recommendations on clarifying the missions of higher education institutions, directing resources to programs that meet the current and future work force needs of the state and distributing available revenues in an equitable fashion that enables each state institution of higher education to fulfill its mission;

(2) A review of state statutes and the rules, policies, practices and procedures of the higher education governing boards that may hinder effective delivery of high quality education programs and recommendations on how any statute or policy should be changed;

(3) A review of and recommendations on the higher education resource allocation model and resource allocation policies, established pursuant to section two, article five of this chapter, to determine a new or modified model for funding public higher education in West Virginia. The recommendations shall include a method of funding reimbursement based on
delivering credit and noncredit course work, eliminating or
reducing the funding and regulatory differences between credit
and noncredit courses to facilitate students moving between the
two types of programs, and allowing faculty more flexibility to
teach in both credit and noncredit program areas;
(4) Recommendations on a model for delivery of graduate
education that makes effective use of resources available at
four-year institutions under the jurisdiction of the board of
directors;
(5) Recommendations on a model for delivery of baccalau-
reate education that makes effective use of resources available
at the freestanding community colleges under the jurisdiction
of the board of directors;
(6) A review of facility and maintenance needs of all state
institutions of higher education and recommendations for
addressing those needs;
(7) Recommendations on an appropriate model or models
for governance of public institutions of higher education in the
state; and
(8) Recommendations on the most effective and efficient
model to be used in creating a system of public community and

The title to all property purchased for the use of Eastern West Virginia Community and Technical College is vested in the board of directors.

(e) The board of directors may enter into contracts on behalf of Eastern West Virginia Community and Technical College with public and private education institutions, agencies, boards, government agencies, corporations, partnerships and individuals to perform instructional or other services.

CHAPTER 108

(H. B. 3009 — By Delegates Mezzatesta, Martin, Williams,
Stempie, Manuel, Houston and Fletcher)

[Passed March 12, 1999; in effect from passage. Approved by the Governor.]

AN ACT to amend chapter eighteen-b of the code of West Virginia,
one thousand nine hundred thirty-one, as amended, by adding
there to a new article, designated article three-d, relating to
creating the workforce development initiative program under the
council for community and economic development; providing
that the council is responsible for administering the state fund for
community and technical college and workforce development;
providing the programs mission is to link postsecondary educa-
tion capacity to the needs of employers; requirements for
participating in the program; establishing grant application
procedures; and requiring legislative rules.

Be it enacted by the Legislature of West Virginia:

That chapter eighteen-b of the code of West Virginia, one
thousand nine hundred thirty-one, as amended, be amended by adding
there to a new article, designated article three-d, to read as follows:

CHAPTER 18B. HIGHER EDUCATION.
ARTICLE 3D. WORKFORCE DEVELOPMENT INITIATIVE.

§18B-3D-1. Legislative findings and intent.

(a) The Legislature finds that a recent statewide study of the workforce training needs of employers throughout the state provided a clear message from the business community:

(1) The needs of employers are rapidly changing and training providers must be more responsive or the state economy will suffer;

(2) Information specific to West Virginia, once again emphasizes the critical link between education and economic development that empowering youth and adults with the knowledge and skills they need to succeed in the competitive work world also results in a workforce which enables businesses and communities to prosper;

(3) Although employers are generally satisfied with the quality of the West Virginia workforce and the study provides additional support that the measures adopted in the Jobs Through Education Act will bring continued improvement, workforce needs are not static, critical skill shortages currently exist, and the establishment of a workforce development system that responds more quickly to the evolving skill requirements of employers is needed.

(b) The Legislature further finds that a study of community and technical education in West Virginia performed by the national center for higher education management systems called attention to problems in providing needed workforce education and found that there is a need to:

(1) Jump-start development of community college and postsecondary workforce development initiatives,
(2) Provide incentives for existing public postsecondary providers to respond jointly to both short and long term needs of employers and other clients,

(3) Provide funding for explicit incentives for partnerships between employers and public postsecondary institutions to develop comprehensive community college and workforce development services, and

(4) Allocate funds competitively on the basis of proposals submitted by providers.

(c) It is further the intent of the Legislature that the granting of funds under this article will promote the mission of community and technical colleges as set forth in section three-a, article three of this chapter.

(d) It is the intent of the Legislature through the grant of funds under this article to provide limited seed money to address some of the specific areas where improvement is needed, including:

(1) Improving employer awareness and access to services available through the state’s education institutions,

(2) Providing designated professionals and resources to support workforce education through the state’s education institutions,

(3) Increasing the capacity of the state’s education institutions to respond rapidly to employer needs for workforce education, and training on an on-going basis through the development of a client-focused, visible point of contact for program development and delivery, service referral and needs assessment, such as a workforce development center, and

(4) Maximizing the use of available resources for workforce education and training through partnerships with public vocational, technical and adult education centers and private training providers.

(e) It is further the intent of the Legislature that consideration and partnering opportunities be given to small businesses on an equal basis with larger businesses for the purposes of this.
article and that the seed money will assist providers in becoming self-sustaining through partnerships with business and industry which will include cost-sharing initiatives and fees charged for the use of services.

(f) The Legislature intends that grants of funds made under the provisions of this article will be competitive among applicants who meet all of the criteria established in this article and such other criteria as may be specified by the council. Subject to the availability of funds, more than one competition may be held during the same fiscal year and the dollar range of awards granted in successive competitions shall be prorated based on the number of months remaining in the fiscal year. Subject to annual review and justification, it is the intent of the Legislature to renew grant awards made under this article each year for five years following the initial grant award.

§18B-3D-2. Workforce development initiative program created; program administration.

(a) For the purposes of this article “Council” means the council for community and economic development as defined in section two, article two, chapter five-b of this code.

(b) There is hereby created under the council, a workforce development initiative program to administer and oversee grants to community and technical colleges to achieve the purposes of this article in accordance with legislative intent. The primary responsibility of the council as it relates to the workforce development initiative program is to administer the state fund for community and technical college and workforce development including setting criteria for grant applications, receiving applications for grants, making determinations on distribution of funds, and evaluating the performance of workforce development initiatives.

(c) The council shall review and approve the expenditure of all grant funds, including development of application criteria, the review and selection of applicants for funding, and the annual review and justification of applicants for grant renewal.

(1) To aid in decisionmaking, the council shall appoint an advisory committee consisting of the vice chancellor for
community and technical colleges, the secretary of education and the arts or a designee, the assistant state superintendent for technical and adult education, the chair of the joint commission for vocational-technical-occupational education, and the chair of the human resource investment council. The advisory committee shall review all applications for workforce development initiative grants and make a report including recommendations for distributing grant funds to the council. The advisory committee also shall make recommendations on methods to share among the community and technical colleges any curricula developed as a result of a workforce development initiative grant.

(2) When determining which grant proposals will be funded, the council shall give special consideration to proposals by community and technical colleges that involve businesses with fewer than fifty employees.

(3) The council also shall weigh each proposal to avoid awarding grants which will have the ultimate effect of providing unfair advantage to employers new to the state who will be in direct competition with established local businesses.

(d) The council may allocate a reasonable amount, not to exceed five percent up to a maximum of $50,000 of the funds available for grants on an annual basis, for general program administration.

(e) The head of the council shall report to the legislative oversight commission on education accountability on the status of the workforce development initiative program by the first day of December, one thousand nine hundred ninety-nine, and annually thereafter by the first day of December.

(f) Moneys appropriated or otherwise available for the workforce development initiative program shall be allocated by line item to an appropriate account. Any moneys remaining in the fund at the close of a fiscal year shall be carried forward for use in the next fiscal year.

(g) Nothing in this article requires a specific level of appropriation by the Legislature.

(a) The state-wide mission of the workforce development initiative program is to develop a strategy to strengthen the quality of the state’s workforce by linking the existing postsecondary education capacity to the needs of business, industry and other employers. Available funding will be used to provide explicit incentives for partnerships between employers and community and technical colleges to develop comprehensive workforce development services. Funds will be granted on the basis of proposals developed according to criteria established by the council.

(b) The mission of any community and technical college accepting a workforce development initiative grant is to:

1. Become client-focused and develop programs that meet documented employer needs;
2. Involve and collaborate with employers in the development of programs;
3. Develop customized training programs that provide for the changing needs of employers and that are offered at flexible times and locations to accommodate employer scheduling;
4. Develop partnerships with other public and private providers, including small business development centers and, vocational, technical and adult education centers, and with business and labor, to fulfill the workforce development needs of the service area;
5. Assist in the on-going assessment of the workforce development needs of the service area; and
6. Serve as a visible point of contact and referral for services to meet the workforce development needs of the service area.

§18B-3D-4. Grant application procedures.

(a) In order to participate in the workforce development initiative grant program, a community and technical college must meet the following conditions:
(1) Establish a consortia committee as required by section three, article three-a of this chapter. The consortia committee or a subcommittee thereof shall participate in the development of and approve applications for funding grants under the provisions of this article, and shall approve the workforce development initiative budget;

(2) Develop a plan to achieve measurable improvements in the quality of the workforce within its service area over a five-year period. The plan must be developed in partnership with employers, local vocational schools, and other workforce education providers;

(3) Establish a special revolving fund under the jurisdiction of the consortia committee dedicated solely to workforce development initiatives for the purposes provided in this article. Any fees or revenues generated from workforce development initiatives funded by a competitive grant shall be deposited into this fund.

(b) To be eligible to receive a workforce development initiative grant, a community and technical college must provide at least the following information in its application:

(1) Identification of the specific business or business sector training needs that will be met if a workforce development initiative grant is received;

(2) A commitment from the private sector to provide a match of one dollar for each dollar of state grant money received except in cases where the community and technical college can demonstrate in the grant application that it would be a hardship for the business being served to provide such a match. In those cases only, the match required may be reduced to one private dollar for every three dollars of state grant money provided;

(3) An agreement to share with other community and technical colleges any curricula developed using funds from a workforce development initiative grant;

(4) A specific plan showing how the community and technical college will collaborate with local postsecondary vocational institutions to maximize the use of existing facilities;
(5) An acknowledgment that acceptance of a grant under the provisions of this article commits the community and technical college and its consortia committee to such terms, conditions and deliverables as is specified by the council in the request for applications, including, but not limited to, the measures by which the performance of the workforce development initiative will be evaluated.

§18B-3D-5. Legislative rules.

The council shall propose a legislative rule pursuant to article three-a, chapter twenty-nine-a of this code to implement the provisions of this article and shall file the rule with the legislative oversight commission on education accountability no later than the first day of September, one thousand nine hundred ninety-nine.

At least seven of the eleven lay persons appointed shall be residents of the state. Of the lay members who are residents of
the state, at least two shall be alumni of the institution, and no
more than a simple majority may be of the same political party.

The administrative officer and student member shall serve
for a term of one year; the faculty member and the classified
staff member shall serve for a term of two years and the eleven
lay members shall serve terms of four years each. All members,
except the administrative officer, are eligible to succeed
themselves for no more than one additional term. A vacancy in
an unexpired term of a member shall be filled within sixty days
of the occurrence thereof in the same manner as the original
appointment or election. Except in the case of a vacancy, all
elections shall be held and all appointments shall be made no
later than the thirtieth day of April preceding the commence-
ment of the term.

Each board of advisors shall hold a regular meeting at least
quarterly, commencing in July of each year. Additional

two consecutive years at a time.

institution in the areas of mission, academic programs, budget,
capital facilities and such other matters as requested by the
president of the institution or its governing board or otherwise
assigned to it by law. The board of advisors shall comment on
each such proposal in writing, with such recommendations for

between higher education and business, labor, government,
community and economic development organizations to give
students greater opportunities to experience the world of work,

serve the current work force and work force development needs
of their service area, including the needs of nontraditional
students for college-level skills upgrading and retraining and

Approved by the Governor.] AN ACT to amend and reenact section one, article seven, chapter eighteen-b of the code of West Virginia, one thousand nine hundred thirty-one, as amended, relating to deleting the limitation of one year relative to the application of certain seniority rights of employees involuntarily transferred to nonclassified positions.

Be it enacted by the Legislature of West Virginia:

That section one, article seven, chapter eighteen-b of the code of West Virginia, one thousand nine hundred thirty-one, as amended, be amended and reenacted to read as follows:

ARTICLE 7. PERSONNEL GENERALLY.
§18B-7-1. Seniority for full-time classified personnel; seniority to be observed in reducing work force; preferred recall list; renewal of listing; notice of vacancies.

(a) Definitions for terms used in this section are in accordance with those provided in section two, article nine of this chapter except that the provisions of this section shall apply only to classified employees whose employment, if continued, accumulates to a minimum total of one thousand forty hours during a calendar year and extends over at least nine months of a calendar year: Provided, That this section also applies to any classified employee who is involuntarily transferred to a position in nonclassified status for which he or she did not apply: Provided, however, That any classified employee involuntarily transferred to a position in nonclassified status may only exercise the rights set out in this section for positions equivalent to or lower than the last job class the employee held.

(b) All decisions by the appropriate governing board or their agents at state institutions of higher education concerning reductions in work force of full-time classified personnel, whether by temporary furlough or permanent termination, shall be made in accordance with this section. For layoffs by classification for reason of lack of funds or work, or abolition of position or material changes in duties or organization and for recall of employees laid off, consideration shall be given to an employee’s seniority as measured by permanent employment in the service of the state system of higher education. In the event that the institution wishes to lay off a more senior employee, the institution shall demonstrate that the senior employee cannot perform any other job duties held by less senior employees of that institution in the same job class or any other equivalent or lower job class for which the senior employee is qualified: Provided, That if an employee refuses to accept a position in a lower job class, the employee shall retain all rights of recall provided in this section. If two or more employees accumulate identical seniority, the priority shall be determined by a random selection system established by the employees and approved by the institution.
(c) Any employee laid off during a furlough or reduction in work force shall be placed upon a preferred recall list and shall be recalled to employment by the institution on the basis of seniority. An employee's listing with an institution shall remain active for a period of one calendar year from the date of termination or furlough or from the date of the most recent renewal. If an employee fails to renew the listing with the institution, the employee's name may be removed from the list. An employee placed upon the preferred list shall be recalled to any position opening by the institution within the classifications in which the employee had previously been employed or to any lateral position for which the employee is qualified. An employee on the preferred recall list shall not forfeit the right to recall by the institution if compelling reasons require the employee to refuse an offer of reemployment by the institution.

The institution shall notify all employees maintaining active listings on the preferred recall list of all position openings that from time to time exist. The notice shall be sent by certified mail to the last known address of the employee. It is the duty of each employee listed to notify the institution of any change in address and to timely renew the listing with the institution. No position openings shall be filled by the institution, whether temporary or permanent, until all employees on the preferred recall list have been properly notified of existing vacancies and have been given an opportunity to accept reemployment.

(d) A nonexempt classified employee, including a nonexempt employee who has not accumulated a minimum total of one thousand forty hours during the calendar year or whose contract does not extend over at least nine months of a calendar year, who meets the minimum qualifications for a job opening at the institution where the employee is currently employed, whether the job is a lateral transfer or a promotion, and applies for the job shall be transferred or promoted before a new person is hired unless the hiring is affected by mandates in affirmative action plans or the requirements of Public Law 101-336, the Americans With Disabilities Act. If more than one qualified, nonexempt classified employee applies, the best-qualified
73 nonexempt classified employee shall be awarded the position.
74 In instances where the classified employees are equally
75 qualified, the nonexempt classified employee with the greatest
76 amount of continuous seniority at that state institution of higher
77 education shall be awarded the position. A nonexempt classi-
78 fied employee is one to whom the provisions of the Federal Fair
79 Labor Standards Act, as amended, apply.
80 (e) In addition to any other information required, any
81 application for personnel governed by the provisions of this
82 section shall include the applicant’s social security number.

The grant recipient is free to attend any approved institution of higher education in this state or any three-year registered nurse diploma program which is approved by the West Virginia board of examiners for registered professional nurses and which is offered at a nonprofit West Virginia hospital.

The institution is not required to accept the grant recipient for enrollment, but is free to exact compliance with its own admission requirements, standards and policies.

Grants may only be made to undergraduate students and to students enrolled in approved three-year registered nurse diploma programs, as provided in this article.

Each grant is renewable until the course of study is completed, but not to exceed an additional three academic years beyond the first year of the award. These may not necessarily be consecutive years, and the grant will be terminated if the student receives a degree in a shorter period of time. Qualifications for renewal will include maintaining satisfactory academic standing, making normal progress toward completion of the course of study and continued eligibility, as determined by the senior administrator.

The senior administrator may enter into reciprocal agreements with state grant and grant program agencies in other states which provide financial assistance to their residents attending institutions of higher education located in West Virginia. In connection therewith, the senior administrator may authorize residents of West Virginia to use financial assistance under this article to attend institutions of higher education in such other states. Residents of West Virginia requesting financial assistance to attend institutions of higher education located in any such states must meet all of the eligibility standards set forth in section five of this article.

Grant awards are limited to the lesser of the payment of tuition and those related compulsory fees charged by an institution to all West Virginia undergraduate students or an amount equal to the average state general fund support for each full-time equivalent student at state institutions of higher education for the preceding academic year as calculated by the senior administrator. Payments of grants shall be made directly to the institution.

In the event that a grant recipient transfers from one approved institution of higher education or approved three-year registered nurse diploma program, to another approved institution of higher education or approved three-year registered nurse diploma program, the grant is transferable only with the approval of the senior administrator.

Should the recipient terminate enrollment for any reason during the academic year, the unused portion of the grant shall be returned by the institution to the appropriate governing board in accordance with the governing board’s policy for issuing refunds, for transfer to the appropriate account and allocation for expenditure pursuant to the provisions of this article.
§18C-5-7. Higher education adult part-time student grant program.

(8) Is not in default on a higher education loan; and

(9) Is enrolled in a program of study as an undergraduate on a part-time basis at an eligible institution of higher education and is making satisfactory academic progress at the time of application: Provided, That the requirement that the student be making satisfactory academic progress may not preclude a HEAPS grant award to a student who has been accepted for enrollment in a program of study but has not yet been enrolled.

(d) Each HEAPS grant award is eligible for renewal until the course of study is completed, but not to exceed an additional nine years beyond the first year of the award.

(e) The governing boards shall propose a joint legislative rule pursuant to article three-a, chapter twenty-nine-a to
implement the provisions of this section which shall be filed with the legislative oversight commission on education accountability by the first day of September, one thousand nine hundred ninety-nine. The Legislature hereby declares that an emergency situation exists and, therefore, the governing boards jointly may establish by emergency rule, under the procedures of article three-a, chapter twenty-nine-a of this code, legislative rules to implement the provisions of this section, after approval by the legislative oversight commission on education accountability.

(1) The joint legislative rules shall provide that consideration of financial need, as required by subdivision (3), subsection (c) of this section, include the following factors:

(A) Whether the applicant has dependents as defined by federal law;

(B) Whether the applicant has any personal hardship as determined at the discretion of the senior administrator; and

(C) Whether the applicant will receive any other source of student financial aid during the award period.

(2) The joint legislative rule shall provide for an appropriate allocation process for distribution of funds directly to the eligible institutions of higher education, and may include a provision for making allocations directly to the community college components of four-year institutions where appropriate, based on the part-time enrollment figures of the prior year. The rules shall further provide for any funds not expended by an institution at the end of each fiscal year to be returned to the senior administrator for distribution under the provisions of this section.

(f) The amount of any HEAPS grant awarded per semester or term hour to a student enrolled at a public institution of higher education under the jurisdiction of the governing boards, as defined in section two, article one, chapter eighteen-b of this code, shall be based upon the actual per credit hour tuition and fees charged. The amount of any HEAPS grant awarded per semester or term hour to a student enrolled in any other
institution that qualifies under the provisions of this section shall be based upon the average per credit or term hour tuition and fee charges assessed by all public undergraduate institutions of higher education, under the jurisdiction of the governing boards, during the previous year.

(g) The senior administrator shall report annually, by the first day of December, on the status of the HEAPS grant program to the legislative oversight commission on education accountability.

(h) The HEAPS grant program is subject to any provision of this article not inconsistent with the provisions of this section.

CHAPTER 117

(Com. Sub. for H. B. 2695 — By Delegates Michael, Stemple, Mezzatesta, Doyle, Williams, Leach and Givens)

[Passed March 13, 1999; in effect ninety days from passage. Approved by the Governor.]

AN ACT to amend chapter eighteen-c of the code of West Virginia, one thousand nine hundred thirty-one, as amended, by adding thereto a new article, designated article six, relating to higher education governing boards; creating the West Virginia engineering, science and technology scholarship program; legislative findings; legislative rules; definitions; creating in the state treasury a special revolving fund; scholarship agreements, limitations, selection criteria, procedures, eligibility, compliance, noncompliance, renewal, amount and duration; and relation of scholarship award to other sources of financial aid.

Be it enacted by the Legislature of West Virginia:

That chapter eighteen-c of the code of West Virginia, one thousand nine hundred thirty-one, as amended, be amended by adding thereto a new article, designated article six, to read as follows:
ARTICLE 6. WEST VIRGINIA ENGINEERING, SCIENCE AND TECHNOLOGY SCHOLARSHIP PROGRAM.

§18C-6-1. Scholarship fund created; purposes; funding; limit on number of new scholarships per year.

(a) The purpose of this article is to attract talented students to West Virginia colleges and universities to major in engineering, science and technology. The Legislature recognizes that a larger pool of engineering, science and technology talent in West Virginia will build the state’s economy and businesses. In addition, long-term population increases for West Virginia will develop a strong economic base. The new economy requires that West Virginia retain its education infrastructure in order to maintain economic growth.

(b) The higher education governing boards shall propose a joint legislative rule in accordance with the provisions of article three-a, chapter twenty-nine-a of this code, to implement the provisions of this article and shall file the rule with the legislative oversight commission on education accountability no later than the first day of December, one thousand nine hundred ninety-nine. The rule shall provide for the administration of the West Virginia engineering, science and technology scholarship program by the senior administrator in furtherance of the purposes of this article, including, but not limited to, an expression of legislative intent that academic ability be the primary criteria for selecting scholarship recipients, scholarship selection criteria and procedures, renewal, compliance, non-compliance and repayment, deferral and excusal. The rules also shall provide for appeal procedures under which a recipient may appeal any determination of noncompliance. The rules may provide for satisfaction of the work requirement provided in paragraph (A), subdivision (2), subsection (a), section four.
of this article through community service relating to engineering, science or technology. In accordance with the rules, the senior administrator shall establish appropriate guidelines for program operation.

(c) There is hereby created in the state treasury a special revolving fund known as the "West Virginia Engineering, Science and Technology Scholarship Fund" to be administered by the senior administrator solely for granting scholarships to prospective engineers, scientists and technologists in accordance with this article. Any moneys which may be appropriated by the Legislature, or received by the senior administrator from other sources, for the purposes of this article shall be deposited in the fund. Any moneys remaining in the fund at the close of the fiscal year shall be carried forward for use in the next fiscal year. Any moneys repaid to the senior administrator by reason of default of a scholarship agreement under this article also shall be deposited in the fund. Fund balances shall be invested with the state's consolidated investment fund, and any and all interest earnings on these investments shall be used solely for the purposes for which moneys invested were appropriated or otherwise received.

(d) The senior administrator may accept and expend any gift, grant, contribution, bequest, endowment or other money for the purposes of this article and shall make a reasonable effort to encourage external support for the scholarship program.

(e) For the purpose of encouraging support for the scholarship program from private sources, the senior administrator may set aside no more than half of the funds appropriated by the Legislature for West Virginia engineering, science and technology scholarships to be used to match two state dollars to each private dollar from a nonstate source contributed on behalf of a specific institution of higher education in this state.

(f) West Virginia engineering, science and technology scholarships are limited to three hundred new scholarships per year and a maximum of one thousand outstanding scholarships during any year.
(g) Nothing in this article requires any specific level of funding by the Legislature.

61 technology needs of the state or may use other appropriate
62 methods to gather such information.
(e) The senior administrator shall make application forms for West Virginia engineering, science and technology scholarships available to public and private high schools in the state and other locations convenient to applicants, parents and others and shall make an effort to attract students from low-income backgrounds, ethnic or racial minority students, students with disabilities and women or minority students who show interest in pursuing careers in engineering, science and technology and who are under-represented in those fields.

§18C-6-4. Scholarship agreement.

(a) Each recipient of a West Virginia engineering, science and technology scholarship shall enter into an agreement with the senior administrator under which the recipient shall:

1. Provide the governing boards with evidence of compliance with subsection (a), section five of this article;

2. Agree that within one year following the date the recipient ceases to be a full-time student at an eligible institution in a program of engineering, science or technology education for which the scholarship was awarded he or she will:

§18C-6-6. Amount and duration of scholarship; relation to other assistance.

(a) Subject to subsection (b) of this section, each recipient of a West Virginia engineering, science and technology scholarship is eligible to receive an award of up to three thousand dollars for each academic year of higher education. Article

2. Voting by Absentees.
3. Primary Elections and Nominating Procedures.
4. Conduct and Administration of Elections.
5. Regulation and Control of Elections.

ARTICLE 1. GENERAL PROVISIONS AND DEFINITIONS.

§3-1-34. Voting procedures generally; assistance to voters; voting records; penalties.
§3-1-37. Restrictions on presence and conduct at polls.
§3-1-44. Compensation of election officials; expenses.

§3-1-34. Voting procedures generally; assistance to voters; voting records; penalties.
(a) Any person desiring to vote in an election shall, upon entering the election room, clearly state his or her name and residence to one of the poll clerks who shall thereupon announce the same in a clear and distinct tone of voice. If such person is found to be duly registered as a voter at that precinct, he or she shall be required to sign his or her name in the space marked “signature of voter” on the pollbook prescribed and provided for the precinct. If such person be physically or otherwise unable to sign his name, his or her mark shall be affixed by one of the poll clerks in the presence of the other and the name of the poll clerk affixing the voter’s mark shall be indicated immediately under such affixation. No ballot shall be given to such person until he or she so signs his or her name on the pollbook or his or her signature is so affixed thereon.

(b) The clerk of the county commission is authorized, upon verification that the precinct at which a handicapped person is registered to vote is not handicap accessible, to transfer such person’s registration to the nearest polling place in the county which is handicap accessible. Requests by such persons for a transfer of registration shall be received by the county clerk no later than thirty days prior to the date of the election. Any handicapped person who has not made a request for a transfer of registration at least thirty days prior to the date of the election may vote a challenged ballot, at a handicap accessible polling place in the county of his or her registration, and, if during the canvass the county commission determines that the person had been registered in a precinct not handicap accessible, the voted ballot, if otherwise valid, shall be counted. The handicapped person may vote in the precinct to which the registration was transferred only as long as the disability exists or the precinct from which the handicapped person was transferred remains inaccessible to the handicapped. To ensure confidentiality of such transferred ballot, the county clerk processing the ballot shall provide the voter with an unmarked envelope and an outer envelope designated “challenged ballot/handicapped voter”. After validation of the ballot at the canvass, the outer envelope shall be destroyed and the handicapped voter’s ballot shall be placed with other approved
39 challenged ballots prior to removal of the ballot from the
40 unmarked envelope.

41 (c) When the voter’s signature is properly on the pollbook,
42 the two poll clerks shall sign their names in the places indicated
43 on the back of the official ballot and shall deliver the ballot to
44 the voter to be voted by him or her then without leaving the
45 election room. If he or she returns the ballot spoiled to the
46 clerks, they shall immediately mark such ballot “spoiled” and
47 the same shall be preserved and placed in a spoiled ballot
48 envelope together with other spoiled ballots to be delivered to
49 the board of canvassers and deliver to the voter another official
50 ballot, signed by the clerks on the reverse side as before done.
51 The voter shall thereupon retire alone to the booth or compart-
52 ment prepared within the election room for voting purposes and
53 there prepare his or her ballot, using a ballpoint pen of not less
54 than five inches in length or other indelible marking device of
55 not less than five inches in length. In voting for candidates in
56 general and special elections, the voter shall comply with the
57 rules and procedures prescribed in section five, article six of
58 this chapter.

59 (d) It shall be the duty of a poll clerk, in the presence of the
60 other poll clerk, to indicate by a check mark inserted in the
61 appropriate place on the registration record of each voter the
62 fact that such voter voted in the election. In primary elections
63 the clerk shall also insert thereon a distinguishing initial or
64 initials of the political party for whose candidates the voter
65 voted. If a person is challenged at the polls, such fact shall be
66 indicated by the poll clerks on the registration record together
67 with the name of the challenger. The subsequent removal of the
68 challenge shall be recorded on the registration record by the
69 clerk of the county commission.

70 (e)(1) No voter shall receive any assistance in voting
71 unless, by reason of blindness, disability, advanced age or
72 inability to read and write, that voter is unable to vote without
73 assistance. Any voter qualified to receive assistance in voting
74 under the provisions of this section may:
(A) Declare his or her choice of candidates to an election commissioner of each political party who, in the presence of the voter and in the presence of each other, shall prepare the ballot for voting in the manner hereinbefore provided, and, on request, shall read over to such voter the names of candidates on the ballot as so prepared;

(B) Require the election commissioners to indicate to him or her the relative position of the names of the candidates on the ballot, whereupon the voter shall retire to one of the booths or compartments to prepare his or her ballot in the manner hereinbefore provided;

(C) Be assisted by any person of the voter’s choice: Provided, That such assistance may not be given by the voter’s present or former employer or agent of that employer or by the officer or agent of a labor union of which the voter is a past or present member; or

(D) If he or she is handicapped, vote from an automobile, outside the polling place or precinct, in the presence of an election commissioner of each political party.

(2) Any voter who requests assistance in voting but who is believed not to be qualified for such assistance under the provisions of this section shall nevertheless be permitted to vote a challenged ballot with the assistance of any person herein authorized to render assistance.

(3) Any one or more of the election commissioners or poll clerks in the precinct may challenge such ballot on the ground that the voter thereof received assistance in voting it when in his or their opinion that the person who received assistance in voting is not so illiterate, blind, disabled or of such advanced age as to have been unable to vote without assistance. The election commissioner or poll clerk or commissioners or poll clerks making such challenge shall enter the challenge and reason therefor on the form and in the manner prescribed or authorized by article three of this chapter.

(4) An election commissioner or other person who assists a voter in voting:
(A) Shall not in any manner request, or seek to persuade, or induce the voter to vote any particular ticket or for any particular candidate or for or against any public question, and shall not keep or make any memorandum or entry of anything occurring within the voting booth or compartment, and shall not, directly or indirectly, reveal to any person the name of any candidate voted for by the voter, or which ticket he or she had voted, or how he or she had voted on any public question, or anything occurring within the voting booth or compartment or voting machine booth, except when required pursuant to law to give testimony as to such matter in a judicial proceeding; and

(B) Shall sign a written oath or affirmation before assisting such voter on a form prescribed by the secretary of state stating that he or she will not override the actual preference of the voter being assisted, attempt to influence the voter’s choice or mislead the voter into voting for someone other than the candidate of voter’s choice. Such person assisting the voter shall also swear or affirm that he or she believes that the voter is voting free of intimidation or manipulation: Provided, That no person providing assistance to such voter shall be required to sign such oath or affirmation where the reason for requesting such assistance is the voter’s inability to vote without assistance because of blindness as defined in section three, article fifteen, chapter five of this code, and such inability to vote without assistance because of blindness is certified in writing by a physician of the voter’s choice and is on file in the office of the clerk of the county commission.

(5) In accordance with instructions issued by the secretary of state, the clerk of the county commission shall provide a form entitled “list of assisted voters”, the form of which list shall likewise be prescribed by the secretary of state. The commissioners shall enter the name of each voter receiving assistance in voting the ballot, together with the poll slip number of that voter and the signature of the person or the commissioner from each party who assisted the voter. If no voter shall have been assisted in voting the ballot as herein provided, the commissioners shall likewise make and subscribe to an oath of that fact on such list.
(f) After preparing the ballot the voter shall fold the same so that the face shall not be exposed and so that the names of the poll clerks thereon shall be seen. The voter shall then announce his or her name and present his or her ballot to one of the commissioners who shall hand the same to another commissioner, of a different political party, who shall deposit it in the ballot box, if such ballot is the official one and properly signed. The commissioner of election may inspect every ballot before it is deposited in the ballot box, to ascertain whether it is single, but without unfolding or unrolling it, so as to disclose its content. When the voter has voted, he or she shall retire immediately from the election room, and beyond the sixty-foot limit thereof, and shall not return, except by permission of the commissioners.

(g) Following the election, the oaths or affirmations required by this section from those assisting voters together with the "list of assisted voters", shall be returned by the election commissioners to the clerk of the county commission along with the election supplies, records and returns, who shall make such oaths, affirmations and list available for public inspection and who shall preserve the same for a period of twenty-two months or until disposition is authorized or directed by the secretary of state, or court of record.

(h) Any person making an oath or affirmation required under the provisions of this section who shall therein knowingly swear falsely, or any person who shall counsel, or advise, aid or abet another in the commission of false swearing under this section, shall be guilty of a misdemeanor and, upon conviction thereof, shall be fined not more than one thousand dollars, or imprisoned in the county jail for a period of not more than one year, or both.

(i) Any election commissioner or poll clerk who authorizes or provides unchallenged assistance to a voter when such voter is known to such election commissioner or poll clerk not to require assistance in voting, shall be guilty of a felony and, upon conviction thereof, shall be fined not more than five thousand dollars, or imprisoned in the penitentiary for a period
§3-1-37. Restrictions on presence and conduct at polls.

(a) Except as otherwise provided in this section, no person, other than the election officers and voters going to the election room to vote and returning therefrom, may be or remain within three hundred feet of the outside entrance to the building housing the polling place while the polls are open. This subsection does not apply to persons who reside or conduct business within such distance of the entrance to the building housing the polling place, while in the discharge of their legitimate business, or to persons whose business requires them to pass and repass within three hundred feet of such entrance.

(b) A person who is delivering a voter to a polling place by motor vehicle may drive such vehicle to a convenient and accessible location to discharge the voter, notwithstanding that the location is within three hundred feet of the outside entrance to the building housing the polling place. Upon discharging such voter from the vehicle, the person shall remove the vehicle from within three hundred feet of the entrance until such time as the voter is to be transported from the polling place or another voter delivered: Provided, That vehicles delivering voters who require assistance by reason of blindness, disability or advanced age may remain within three hundred feet of the entrance until such time as the voter is to be transported from the polling place.

(c) The election commissions shall limit the number of voters in the election room so as to preserve order. No person may approach nearer than five feet to any booth or compartment while the election is being held, except the voters to prepare their ballots, or the poll clerks when called on by a voter to assist in the preparation of his ballot, and no person, other than election officers and voters engaged in receiving, preparing and depositing their ballots, may be permitted to be within five feet of any ballot box, except by authority of the board of election commissioners, and then only for the purpose of keeping order and enforcing the law.
(d) Not more than one person may be permitted to occupy any booth or compartment at one time. No person may remain in or occupy a booth or compartment longer than may be necessary to prepare his ballot, and in no event longer than five minutes, except that any person who claims a disability pursuant to section thirty-four of this article shall have additional time up to ten additional minutes to prepare his ballot. No voter, or person offering to vote, may hold any conversation or communication with any person other than the poll clerks or commissioners of election, while in the election room.

(e) The provisions of this section do not apply to persons rendering assistance to blind voters as provided in section thirty-four of this article or to any child fourteen years of age or younger who accompanies a parent, grandparent or legal guardian who is voting. Any dispute concerning the age of a child accompanying a parent, grandparent or legal guardian who is voting shall be determined by the election commissioners.

§3-1-44. Compensation of election officials; expenses.

Each ballot commissioner shall be allowed and paid a sum, to be fixed by the county commission, not exceeding one hundred dollars for each day he or she shall serve as such, but, in no case shall a ballot commissioner receive allowance for more than ten days' services for any one primary, general or special election. Each commissioner of election and poll clerk shall be allowed and paid a sum, to be fixed by the county commission, not exceeding one hundred dollars for one day's services for attending the school of instruction for election officials if the commissioner or poll clerk provides at least one day's service during an election and a sum not exceeding one hundred fifty dollars for his or her services at any one election: Provided, That each commissioner of election and poll clerk shall be paid and allowed a sum not exceeding one hundred fifty dollars for his or her services at any of the three special elections hereinafter specified and described. The commissioners of election obtaining and delivering the election supplies, as provided in section twenty-four of this article, and returning
them as provided in articles five and six of this chapter, shall be allowed and paid an additional sum, likewise fixed by the county commission, not exceeding one hundred dollars for all such services at any one election and, in addition, shall be allowed and paid mileage up to the rate of reimbursement authorized per mile as set by the travel management office of the department of administration per mile necessarily traveled in the performance of such services. The rate paid for mileage pursuant to this section may change from time to time in accordance with changes in the reimbursement rates established by the travel management office, or its successor agency. The compensation of election officers, cost of printing ballots and all other expenses incurred in holding and making the return of elections, other than the three special elections hereinafter specified and described, shall be audited by the county commission and paid out of the county treasury.

ARTICLE 3. VOTING BY ABSENTEES.

§3-3-2a. Voting booths within public view to be provided by clerk; prohibition against display of campaign material.

§3-3-5b. Procedures for voting a special write-in absentee ballot by qualified persons.

§3-3-2a. Voting booths within public view to be provided by clerk; prohibition against display of campaign material.

Throughout the period of absentee voting in person in the clerk's office as provided in this article, the circuit clerk shall make the following provisions for voting:

(a) The clerk shall provide a sufficient number of voting booths or devices appropriate to the voting system at which voters may prepare their ballots. The booths or devices shall be in an area separate from but within clear view of the public entrance area of the clerk's office, and shall be arranged to ensure the voter complete privacy in casting the ballot.

(b) The clerk shall make the voting area secure from interference with the voter and shall ensure that voted and unvoted ballots are at all times secure from tampering. No person, other than a person lawfully assisting the voter according to the provisions of this chapter, may be permitted to come within five feet of the voting booth while the voter is voting. No person, other than the clerk or deputy clerks or members of the board of ballot commissioners assigned to conduct absentee voting, shall enter the area or room set aside for voting.

(c) When the voting area of the office of the clerk is not fully accessible to voters with physical disabilities, the clerk shall request the county commission to designate an accessible room within the same building as a portion of the clerk's office for the purpose of absentee voting only by persons unable to use the regular area. The area shall be subject to the same requirements as the regular voting area.

(d) No person may do any electioneering, nor may any person display or distribute in any manner, or authorize the display or distribution of, any literature, posters or material of
any kind which tends to influence the voting for or against any
candidate or any public question on the property of the county
courthouse or judicial annex facilities thereof during the entire
period of regular in person absentee voting. The clerk is hereby
authorized to remove such material and to direct the sheriff of
the county to enforce the prohibition.

§3-3-5b. Procedures for voting a special write-in absentee ballot
by qualified persons.

(a) Notwithstanding any other provisions of this chapter, a
person qualified to vote an absentee ballot in accordance with

court shall honor only the application for local, state and federal
offices in general, special and primary elections.

(b) The application for a special write-in absentee ballot
may be made on the federal postcard application form.

(c) In order to qualify for a special write-in absentee ballot,
the voter must state that he or she is unable to vote by regular
absentee ballot or in person due to requirements of military
service or due to living in isolated areas or extremely remote
areas of the world. This statement may be made on the federal
postcard application or on a form prepared by the secretary of
state and supplied and returned with the special write-in

If any ballot issue is to be voted on in the primary election, the ballot commissioners shall likewise prepare a sample official ballot for that issue according to the provisions of law authorizing such election.

reproduction of the official sample ballot or ballot pages, and
shall be printed in a size no less than eighty percent of the
actual size of the ballot, at the discretion of the ballot commis-

the county contain different senatorial, delegate, magisterial or
executive committee districts or when the ballots for precincts
within a city contain different municipal wards, the facsimile
shall be altered to include each of the various districts in the
appropriate order. If, in order to accommodate the size of each
ballot, the ballot or ballot pages must be divided onto more than
one page, the arrangement and order shall be made to conform
as nearly as possible to the arrangement of the ballot. The
publisher of the newspaper shall submit a proof of the ballot
and the arrangement to the ballot commissioners for approval
prior to publication.

(c) The ballot commissioners of each county shall prepare,
in the form and manner prescribed by the secretary of state, an
official list of offices and candidates for each office which will
appear on the primary election ballot for each party, and, as the
case may be, for the nonpartisan candidates to be voted for at
such primary election. All information which appears on the
ballot, including instructions as to the number of candidates for
whom votes may be cast for the office, any additional language
which will appear on the ballot below the name of the office,
any identifying information relating to the candidates, such as
residence, magisterial district or presidential preference and the
ballot numbers of the candidates for punch card systems, shall be included in the list, in the same order in which it appears on the ballot. Following the names of all candidates, the list shall include the full title, text and voting positions of any issue to appear on the ballot.

(d) The official list of candidates and issues as provided in subsection (c) of this section shall be published as follows:

(1) For counties in which two or more qualified newspapers publish a daily newspaper, on the last day on which a newspaper is published immediately preceding the primary election, the ballot commissioners shall publish the official list of candidates and issues as a Class 1-0 legal advertisement in the two qualified daily newspapers of different political parties within the county having the largest circulation in compliance with the provisions of article three, chapter fifty-nine of this code;

(e) Notwithstanding the provisions of subsections (c) and (d) of this section, beginning with the primary election to be held in the year two thousand, the ballot commissioners of any county may choose to publish a facsimile sample ballot for each political party and for nonpartisan candidates or ballot issues instead of the official list of offices and candidates for each office for purposes of the last publication required before any primary election.

§3-5-23. Certificate nominations; requirements and control; penalties.

(a) Groups of citizens having no party organization may nominate candidates for public office otherwise than by conventions or primary elections. In such case, the candidate or candidates, jointly or severally, shall file a declaration with the secretary of state if the office is to be filled by the voters of more than one county, or with the clerk of the circuit court of the county if the office is to be filled by the voters of one county or political subdivision thereof; such declaration to be filed at least thirty days prior to the time of filing the certificate provided by section twenty-four of this article: Provided, That the deadline for filing the certificate for persons seeking ballot access as a candidate for the office of president or vice president shall be filed not later than the first day of August preceding the general election. At the time of filing of such declaration each candidate shall pay the filing fee required by law, and
if such declaration is not so filed or the filing fee so paid, the
certificate shall not be received by the secretary of state, or
clerk of the circuit court, as the case may be.

(b) The person or persons soliciting or canvassing signa-
tures of duly qualified voters on such certificate or certificates,
may solicit or canvass duly registered voters residing within the
county, district or other political division represented by the
office sought, but must first obtain from the clerk of the county
commission credentials which must be exhibited to each voter
canvassed or solicited, which credentials may be in the follow-
ing form or effect:

State of West Virginia, County of ................................, ss:

This certifies that ......................................, a duly registered
voter of this State; whose post-office address is .......................,
is hereby authorized to solicit and canvass duly registered
voters residing in ........................................... (here place the county,
district or other political division represented by the office
sought) to sign a certificate purporting to nominate
................................. (here place name of candidate heading
list on certificate) for the office of ................................. and
others, at the general election to be held on .........................,
19........

Given under my hand and the seal of my office this
........................ day of ............................, 19........

..................................................................................

Clerk, County Commission of .......... County.

The clerk of each county commission, upon proper applica-
tion made as herein provided, shall issue such credentials and
shall keep a record thereof.

(c) The certificate shall be personally signed by duly
registered voters, in their own proper handwriting or by their
marks duly witnessed, who must be residents within the county,
district or other political division represented by the office
sought wherein such canvass or solicitation is made by the
person or persons duly authorized. Such signatures need not all
be on one certificate. The number of such signatures shall be equal to not less than two percent of the entire vote cast at the last preceding general election for the office in the state, district, county or other political division for which the nomination is to be made, but in no event shall the number be less than twenty-five. The number of such signatures shall be equal to not less than two percent of the entire vote cast at the last preceding general election for any statewide, congressional or presidential candidate, but in no event shall the number be less than twenty-five. Where two or more nominations may be made for the same office, the total of the votes cast at the last preceding general election for the candidates receiving the highest number of votes on each ticket for such office shall constitute the entire vote. No signature on such certificate shall be counted unless it be that of a duly registered voter of the county, district or other political division represented by the office sought wherein such certificate was presented. It shall be the duty of those soliciting signatures to read to each voter whose signature is solicited the statement written on the certificate which gives notice that no person signing such certificate shall vote at any primary election to be held to nominate candidates for office to be voted for at the election to be held next after the date of signing such certificate.

(d) Such certificates shall state the name and residence of each of such candidates; that he is legally qualified to hold such office; that the subscribers are legally qualified and duly registered as voters and desire to vote for such candidates; and may designate, by not more than five words, a brief name of the party which such candidates represent and may adopt a device or emblem to be printed on the official ballot. All candidates nominated by the signing of such certificates shall have their names placed on the official ballot as candidates, as if otherwise nominated under the provisions of this chapter.

The secretary of state shall prescribe the form and content of the nomination certificates to be used for soliciting signatures. The content shall include the language to be used in giving written and oral notice to each voter that signing of the
nominating certificate forfeits that voter’s right to vote in the corresponding primary election.

Offices to be filled by the voters of more than one county shall use separate petition forms for the signatures of qualified voters for each county.

(e) The secretary of state, or the clerk of the circuit court, as the case may be, may investigate the validity of such certificates and the signatures thereon, and if upon such investigation there may be doubt as to the legitimacy and the validity of such certificate, he may request the attorney general of the state, or the prosecuting attorney of the county, to institute a quo warranto proceeding against the nominee or nominees by certificate to determine his or their right to such nomination to public office, and upon request being made, the attorney general or prosecuting attorney shall institute such quo warranto proceeding.

(f) Any person violating the provisions of this section, in addition to penalties prescribed elsewhere for violation of this chapter, is guilty of a misdemeanor and, upon conviction, shall be fined not more than one thousand dollars, or confined in the county or regional jail for not more than one year, or both, in the discretion of the court: Provided, That no criminal penalty may be imposed upon anyone who signs a nomination certificate and votes in the primary election held after the date the certificate was signed.

If, in order to accommodate the size of each ballot, the ballot or ballot pages must be divided onto more than one page, the arrangement and order shall be made to conform as nearly as possible to the arrangement of the ballot. The publisher of the newspaper shall submit a proof of the ballot and the arrangement to the ballot commissioners for approval prior to publication.

(c) The ballot commissioners of each county shall prepare, in the form and manner prescribed by the secretary of state, an official list of offices and nominees for each office which will

as independent nominees, and, as the case may be, for the
nonpartisan candidates to be voted for at the general election:

(1) All information which appears on the ballot, including
the names of parties for which a straight ticket may be cast,

shall be designated "straight (party name) ticket", with the
parties listed in the order in which they appear on the ballot,

on the ballot; (C) the candidates within each office for which
one is to be elected shall be listed in the order they appear on
the ballot, from left to right or from top to bottom, as the case
may be, and the candidate's political party affiliation or
independent status shall be indicated by the one or two letter
initial specifying the affiliation, placed in parenthesis to the
right of the candidate's name; and (D) the candidates within
each office for which more than one is to be elected shall be
arranged by political party groups in the order they appear on
the ballot and the candidate's affiliation shall be indicated as
provided in part (C) of this subdivision.

(d) The official list of candidates and issues as provided in
subsection (c) of this section shall be published as follows:

§5B-2A-1. Legislative findings and declaration.

1 The Legislature hereby finds and declares the following:

2 (a) Coal mining has made and continues to make significant contributions to the economy of West Virginia. These contributions include the creation of quality jobs that pay high wages and provide good benefits; the consequent stimulation and support of mining contractors, suppliers of mining equipment and services, other mining-related industries and numerous providers of goods and services that are indirectly related to coal mining and dependent upon its existence and prosperity; the generation of significant severance and other tax revenues that support important economic development, infrastructure and education initiatives in mining communities and throughout the state; the support of civic, education and service groups in mining communities; and in the case of surface-mining operations, including mountaintop mining, the creation of much-needed flat land for economic development and recreational uses.
(b) The development and increasing prominence of surface-mining operations, including mountaintop mining, has brought increasingly high levels of productivity, safety and efficiency to the state's mining industry, enabling the recovery of coal that could not otherwise be mined and marketed profitably, increasing the severance tax revenues and other economic benefits described in subsection (a) above and ensuring the competitiveness of the state's coal industry from a national and international perspective.

(c) Where implemented, surface-mining operations, particularly mountaintop mining, tend to extract most, if not all, of the recoverable coal reserves in an accelerated fashion. For a state long dependent on the employment and revenue coal mining provides, this reality should be sobering and there is no place in which the comprehension of this reality is more crucial than the coalfields of West Virginia. Long dependent primarily on mining, this area must plan for a future without coal. The state and its subdivisions have a legitimate interest in securing that future.

(d) The coal industry and those related to the extraction of mineral resources benefit from the mining of our state's coal through mining practices which impact its citizens — some in a negative way — and through practices which will extract significant portions of coal reserves in an accelerated fashion. Those industries must therefore accept a greater responsibility to help address the long-term needs of the communities and citizens impacted by their activities.

(e) Once it becomes public knowledge that a permit is being sought, the marketability of property may change and the relative bargaining power of the parties may change with it. The potential for negative impact on those living in communities near surface-mining operations may limit the options and bargaining power of the property owners.

(f) Surface-mining operations, including mountaintop mining, present unique challenges to the coal mining industry and the state and its citizens, especially those living and
working in communities that rely heavily upon these methods of mining. This requires that these communities, in conjunction with county commissions, state, local, county and regional development authorities, landowners and civic, community and business groups and interested citizens, develop plans related to the communities' long-term economic viability.

(g) The West Virginia development office, as the state agency charged with economic development activities, shall take a more active role in the long-term economic development of communities in which these mining methods are prevalent and shall establish a formal process to assist property owners in the determination of the fair market value where the property owner and the coal company voluntarily enter into an agreement relating to the purchase and sale of such property.

§5B-2A-2. Application of article.

(a) The provisions of this article shall apply to all surface-mining operations, except:

(1) The surface operations and surface impacts incident to an underground coal mine; and

(2) Surface-mining operations of operators that: (A) Establish that their probable total annual coal production from all locations during any consecutive twelve-month period, either during the term of the permit or during the first five years after issuance of the permit, whichever period is shorter, will not exceed three hundred thousand tons, as determined pursuant to rules promulgated by the division; and (B) otherwise qualify for the small operator assistance program authorized under the federal Surface-Mining Control and Reclamation Act of 1977, as amended, and the federal regulations promulgated thereunder, as amended.

(b) The provisions of this article shall not apply: (1) To underground coal mining operations; or (2) to the extraction of minerals by underground mining methods or the surface impacts thereof.
§5B-2A-3. Definitions.

(a) For the purpose of this article, the following terms have the meanings ascribed to them:

1. "Division" means the division of environmental protection established in article one, chapter twenty-two of this code;

2. "Office" means the office of coalfield community development; and

3. "West Virginia development office" means the office established in article two of this chapter.

(b) Unless used in a context that clearly requires a different meaning or as otherwise defined herein, terms used in this article shall have the definitions set forth in this section.

§5B-2A-4. Office of coalfield community development.

(a) The office of coalfield community development is hereby established within the West Virginia development office.

(b) The executive director shall appoint a chief to administer the office, who will serve at the will and pleasure of the executive director of the West Virginia development office.

1. To establish a procedure for developing a community impact statement as provided in section six of this article and to administer the procedure so established;

2. To establish a procedure for developing and implementing coalfield community development statements as provided in section seven of this article and to administer the procedure so established;

3. To establish a procedure for determining the assets that could be developed in and maintained by the community to
(4) To establish a procedure for determining the land and infrastructure needs in the general area of the surface-mining operations as provided in section nine of this article and to administer the procedure so established;

(5) To establish a procedure to develop action reports and annual updates as provided in section ten of this article and to administer the procedure so established;

(6) To determine the need for meetings to be held among the various interested parties in the communities impacted by surface-mining operations and, when appropriate, to facilitate such meetings;

(7) To establish a procedure to assist property owners in the sale of their property as provided in section eleven of this article and to administer the procedure so established; and

(8) In conjunction with the division, to maintain and operate a system to receive and address questions, concerns and complaints relating to surface mining.

(a) (1) The operator shall develop a community impact statement as described in this section, which shall be submitted to the office within sixty days of the filing of a surface-mining application pursuant to the provisions of article three of chapter twenty-two of this code. Failure to submit a community impact statement to the office shall be considered a violation under the provisions of section seventeen, article three, chapter twenty-two of this code; and

(2) The operator shall provide copies of the community impact statement to the division’s office of mining reclamation and office of explosives and blasting and to the county commissions, county clerks’ offices and local or regional economic development authorities of the areas to be affected by the surface-mining operations.
(b) The community impact statement, where practicable, shall not be a highly technical or legalistic document, but shall be written in a clear and concise manner understandable to all citizens. The community impact statement shall include the following:

1. The amount and location of land to be mined or used in the actual mining operations;
2. The expected duration of the mining operations in each area of the community;
3. The extent of anticipated mining-related property acquisitions, to the extent that such acquisitions are known or knowable;
4. The intentions of the surface and mineral owners relative to the acquired property, to the extent that such intentions are known or knowable;
5. A statement of the post-mining land use for all land within the permit boundary;
6. The intended blasting plan and the expected time and duration it will affect each community;
7. Information concerning the extent and nature of valley fills and the watersheds to be affected; and
8. Economic information, such as the number of jobs created and annual coal production resulting from the surface-mining operation, the anticipated life of the mining operation and such other information as may be deemed appropriate.

(c) Where the operator makes any significant revision to the permit application under section eighteen, article three, chapter twenty-two of this code, which revision substantially affects any of the information provided in subsection (b) of this section, the operator shall revise the affected provisions of its community impact statement and shall submit such revisions as set forth in subsection (a) of this section.

(d) The provisions of this section shall apply as follows:
(1) To all surface-mining permits granted after the effective date of this article; and

(2) At the first renewal date of all previously issued permits: Provided, That the permittee shall be afforded ninety days from said date to comply with the provisions of this section.

§5B-2A-7. Coalfield community development statement.

(a) At the time that the operator applies for any permit pursuant to article three, chapter twenty-two of this code, the office shall coordinate the development of a coalfield community development statement as described in this section.

(b) The office shall establish a procedure for the development of the coalfield community development statement, which procedure shall include the following:

(1) A method for giving adequate notice to affected persons and entities about the coalfield community development statement process and how they can participate. Notice shall be given to at least the following:

(A) The permit applicant;

(B) The individuals living in the affected communities;

(C) Business owners and operators doing business in the affected communities;

(D) Any company owning land or resources on the property to be mined, including the surface and mineral owners of such property; and

(E) State and local government agencies such as county commissions, city or town governments and local or regional economic development authorities; and

(2) A procedure to follow which provides for fair and reasonable input into the development of the coalfield community development statement by those persons and entities listed in subdivision (1) of this subsection.

(c) The office shall determine what information, findings and recommendations shall be contained in the coalfield
community development statement, which shall include, but not be limited to, the following:

(1) An evaluation of the future of the community once mining operations are completed;

(2) A method to measure compliance with the provisions of section eight of this article; and

(3) A method to measure compliance with the provisions of section nine of this article.

(d) The Legislature hereby finds that, while the preparation of a coalfield community development statement is important to addressing the legitimate needs and concerns of the communities, individuals and entities which may be affected by surface-mining operations, such a statement as required by this section is in part subjective in nature. The Legislature further finds that, because of such subjectivity, the development of a coalfield community development statement shall not be an element of or in any way related to the application for and approval of any surface-mining permit under article three, chapter twenty-two of this code. Therefore, the following shall apply to this section:

(1) The office alone shall have authority over the coordination and development of the coalfield community development statement; and

(2) The development of the coalfield community development statement shall be a collaborative effort among those persons and entities identified in subdivision (1), subsection (b) of this section.

§5B-2A-8. Determining and developing needed community assets.

(a) As a part of the coalfield community development statement required by section seven of this article, the office, in a collaborative effort with those persons and entities identified in subdivision (1), subsection (b), section seven of this article, shall determine the community assets that may be developed by the community, county or region to foster its viability when surface-mining operations are completed.
(b) Community assets to be identified pursuant to subsection (a) of this section may include the following:

1. Water and wastewater services;
2. Developable land for housing, commercial development or other community purposes;
3. Recreation facilities and opportunities; and
4. Education facilities and opportunities.

(c) To assist the office in the development of the coalfield community development statement, the operator shall be required to prepare and submit to the office the information set forth in this subsection, as follows:

1. A map of the area for which a permit under article three, chapter twenty-two of this code is being sought or has been obtained;
2. The names of the surface and mineral owners of the property to be mined pursuant to the permit; and
3. A statement of the post-mining land use for all land which may be affected by the mining operations.

(d) In determining the nature and extent of the needed community assets, the office shall consider at least the following:

1. An evaluation of the future of the community once mining operations are completed as required to be determined in the coalfield community development statement;
2. The prospects for the long-term viability of any asset developed under this section;
3. The desirability of foregoing some or all of the asset development required by this section in lieu of the requirements of section nine of this article;
4. The determinations made during the development of the coalfield community development statement of the impacts of the mining operations on the community; and
(5) The extent to which the community, local, state or the federal government may participate in the development of assets the community needs to assure its viability.

(a) As a part of the coalfield community development statement required by section seven of this article, the office, in a collaborative effort with those persons and entities identified in subdivision (1), subsection (b), section seven of this article, shall determine the land and infrastructure needs in the general area of the surface-mining operations.

(b) For the purposes of this section, the term “general area” shall mean the county or counties in which the mining operations are being conducted, or any adjacent county.

(c) To assist the office in the development of the coalfield community development statement, the operator shall be required to prepare and submit to the office the information set forth in this subsection, as follows:

(1) A map of the area for which a permit under article three, chapter twenty-two of this code is being sought or has been obtained;

(2) The names of the surface and mineral owners of the property to be mined pursuant to the permit; and

(3) A statement of the post-mining land use for all land which may be affected by the mining operations.

(d) In making a determination of the land and infrastructure needs in the general area of the mining operations, the office shall consider at least the following:

(1) The availability of developable land in the general area;

(2) The needs of the general area for developable land;

(3) The availability of infrastructure including, but not limited to, access roads, water service, wastewater service, and other utilities;

(4) The amount of land to be mined and the amount of valley to be filled;
(5) The amount, nature and cost to develop and maintain the community assets identified in section eight of this article; and

(6) The availability of federal, state and local grants and low-interest loans to finance all or a portion of the acquisition and construction of the identified land and infrastructure needs of the general area.

(e) In making a determination of the land and infrastructure needs in the general area of the surface-mining operations, the office shall give significant weight to developable land on or near existing or planned multi-lane highways.

§5B-2A-10. Action report; annual update.

(a) Based upon the information developed under sections eight and nine of this article, the office shall prepare an action report which shall make recommendations for achieving economic development initiatives, including identifying sources of potential funding.

(b) The office shall prepare an annual status update of the action report which shall describe accomplishments and prospects for continued economic development.

§5B-2A-11. Land acquisitions.

The office shall establish a procedure to assist property owners who desire voluntarily to sell their property to the operator or any person, firm or corporation directly or indirectly affiliated with the operator. The procedure developed shall be subject to the following:

(1) The procedure only shall apply if all the following conditions are met:

(A) The operator or any person, firm or corporation directly or indirectly affiliated with the operator, makes an offer in writing to purchase the property stating all the terms and conditions of the proposed purchase;

(B) The property to be purchased is located within one thousand feet of property which actually is or will be mined; and
(C) The structures are actually being used for commercial purposes or are occupied residences situate on the property to be purchased;

(2) Once a permit application has been filed, the operator shall notify the office of any intended property acquisitions to which this section applies;

(3) The office shall cause notice to be given to potential sellers of the procedure established by this section, but shall provide no other assistance unless requested by the potential seller;

(4) If requested by the potential seller, the office shall make a determination as to whether the value of the property intended to be acquired is diminished by ongoing or intended mining operations and that the purchase price offered by the purchaser is less than the value the property would have had prior to any diminution of value. The office only shall provide assistance if it determines that the value of such property is diminished and that the offer made by the operator is less than the value the property would have had prior to any diminution of value; and

(5) If the office determines that the value of such property is diminished and that the offer made by the operator is less than the value the property would have had prior to any diminution of value, then the office shall establish the value of such property prior to any diminution and shall certify the same to the parties.

§5B-2A-12. Rule making.

The office shall propose rules for legislative approval in accordance with article three, chapter twenty-nine-a of this code, to establish, implement and enforce the provisions of this article, which rules shall include, but not be limited to:

(1) The development of standards for establishing the value of property by the office; and

(2) A process for the development of a coalfield community development statement when multiple permit applications are applied for by one or more operators in any single county or contiguous area of an adjacent county.

The office of coalfield community development is continued until the first day of July, two thousand two, pursuant to the provisions of article ten, chapter four of this code.

§22-3-23. Release of bond or deposits; application; notice; duties of director; public hearings; final maps on grade release.

§22-3-24. Water rights and replacement; waiver of replacement.

§22-3-30a. Blasting requirements; liability and civil penalties in the event of property damage.

(a) Any permit issued by the director pursuant to this article to conduct surface-mining operations shall require that the surface-mining operations will meet all applicable performance standards of this article and other requirements set forth in legislative rules proposed by the director.

(b) The following general performance standards are applicable to all surface mines and require the operation, at a minimum to:
(1) Maximize the utilization and conservation of the solid fuel resource being recovered to minimize reaffecting the land in the future through surface mining;

(2) Restore the land affected to a condition capable of supporting the uses which it was capable of supporting prior to any mining, or higher or better uses of which there is reasonable likelihood so long as the use or uses do not present any actual or probable hazard to public health or safety or pose any actual or probable threat of water diminution or pollution, and the permit applicants' declared proposed land use following reclamation is not considered to be impractical or unreasonable, inconsistent with applicable land use policies and plans, involves unreasonable delay in implementation, or is violative of federal, state or local law;

(3) Except as provided in subsection (c) of this section, with respect to all surface mines, backfill, compact where advisable to ensure stability or to prevent leaching of toxic materials, and grade in order to restore the approximate original contour: Provided, That in surface mining which is carried out at the same location over a substantial period of time where the operation transects the coal deposit, and the thickness of the coal deposits relative to the volume of the overburden is large and where the operator demonstrates that the overburden and other spoil and waste materials at a particular point in the permit area or otherwise available from the entire permit area is insufficient, giving due consideration to volumetric expansion, to restore the approximate original contour, the operator, at a minimum, shall backfill, grade and compact, where advisable, using all available overburden and other spoil and waste materials to attain the lowest practicable grade, but not more than the angle of repose, to provide adequate drainage and to cover all acid-forming and other toxic materials, in order to achieve an ecologically sound land use compatible with the surrounding region: Provided, however, That in surface mining where the volume of overburden is large relative to the thickness of the coal deposit and where the operator demonstrates that due to volumetric expansion the amount of overburden and other spoil and waste materials removed in the course of the
Ch. 120] ENVIRONMENTAL PROTECTION 603

mining operation is more than sufficient to restore the approximate original contour, the operator shall, after restoring the approximate contour, backfill, grade and compact, where advisable, the excess overburden and other spoil and waste materials to attain the lowest grade, but not more than the angle of repose, and to cover all acid-forming and other toxic materials, in order to achieve an ecologically sound land use compatible with the surrounding region and, the overburden or spoil shall be shaped and graded in such a way as to prevent slides, erosion and water pollution and revegetated in accordance with the requirements of this article: Provided further, That the director shall propose rules for legislative approval in accordance with article three, chapter twenty-nine-a of this code, governing variances to the requirements for return to approximate original contour or highwall elimination and where adequate material is not available from surface-mining operations permitted after the effective date of this article for: (A) Underground mining operations existing prior to the third day of August, one thousand nine hundred seventy-seven; or (B) for areas upon which surface mining prior to the first day of July, one thousand nine hundred seventy-seven, created highwalls;

(4) Stabilize and protect all surface areas, including spoil piles, affected by the surface-mining operation to effectively control erosion and attendant air and water pollution;

(5) Remove the topsoil from the land in a separate layer, replace it on the backfill area, or if not utilized immediately, segregate it in a separate pile from other spoil and, when the topsoil is not replaced on a backfill area within a time short enough to avoid deterioration of the topsoil, maintain a successful vegetative cover by quick growing plants or by other similar means in order to protect topsoil from wind and water erosion and keep it free of any contamination by other acid or toxic material: Provided, That if topsoil is of insufficient quantity or of poor quality for sustaining vegetation, or if other strata can be shown to be more suitable for vegetation requirements, then the operator shall remove, segregate and preserve in a like manner any other strata which is best able to support vegetation;
(1) Maximize the utilization and conservation of the solid fuel resource being recovered to minimize reaffecting the land in the future through surface mining;

(2) Restore the land affected to a condition capable of supporting the uses which it was capable of supporting prior to any mining, or higher or better uses of which there is reasonable likelihood so long as the use or uses do not present any actual or probable hazard to public health or safety or pose any actual or probable threat of water diminution or pollution, and the permit applicants' declared proposed land use following reclamation is not considered to be impractical or unreasonable, inconsistent with applicable land use policies and plans, involves unreasonable delay in implementation, or is violative of federal, state or local law;

(3) Except as provided in subsection (c) of this section, with respect to all surface mines, backfill, compact where advisable to ensure stability or to prevent leaching of toxic materials, and grade in order to restore the approximate original contour: Provided, That in surface mining which is carried out at the same location over a substantial period of time where the operation transects the coal deposit, and the thickness of the coal deposits relative to the volume of the overburden is large and where the operator demonstrates that the overburden and other spoil and waste materials at a particular point in the permit area or otherwise available from the entire permit area is insufficient, giving due consideration to volumetric expansion, to restore the approximate original contour, the operator, at a minimum, shall backfill, grade and compact, where advisable, using all available overburden and other spoil and waste materials to attain the lowest practicable grade, but not more than the angle of repose, to provide adequate drainage and to cover all acid-forming and other toxic materials, in order to achieve an ecologically sound land use compatible with the surrounding region: Provided, however, That in surface mining where the volume of overburden is large relative to the thickness of the coal deposit and where the operator demonstrates that due to volumetric expansion the amount of overburden and other spoil and waste materials removed in the course of the
mining operation is more than sufficient to restore the approximate original contour, the operator shall, after restoring the approximate contour, backfill, grade and compact, where advisable, the excess overburden and other spoil and waste materials to attain the lowest grade, but not more than the angle of repose, and to cover all acid-forming and other toxic materials, in order to achieve an ecologically sound land use compatible with the surrounding region and, the overburden or spoil shall be shaped and graded in such a way as to prevent slides, erosion and water pollution and revegetated in accordance with the requirements of this article: Provided further, That the director shall propose rules for legislative approval in accordance with article three, chapter twenty-nine-a of this code, governing variances to the requirements for return to approximate original contour or highwall elimination and where adequate material is not available from surface-mining operations permitted after the effective date of this article for: (A) Underground mining operations existing prior to the third day of August, one thousand nine hundred seventy-seven; or (B) for areas upon which surface mining prior to the first day of July, one thousand nine hundred seventy-seven, created highwalls; (4) Stabilize and protect all surface areas, including spoil piles, affected by the surface-mining operation to effectively control erosion and attendant air and water pollution; (5) Remove the topsoil from the land in a separate layer, replace it on the backfill area, or if not utilized immediately, segregate it in a separate pile from other spoil and, when the topsoil is not replaced on a backfill area within a time short enough to avoid deterioration of the topsoil, maintain a successful vegetative cover by quick growing plants or by other similar means in order to protect topsoil from wind and water erosion and keep it free of any contamination by other acid or toxic material: Provided, That if topsoil is of insufficient quantity or of poor quality for sustaining vegetation, or if other strata can be shown to be more suitable for vegetation requirements, then the operator shall remove, segregate and preserve in a like manner any other strata which is best able to support vegetation;
(6) Restore the topsoil or the best available subsoil which is best able to support vegetation;

(7) Ensure that all prime farmlands are mined and reclaimed in accordance with the specifications for soil removal, storage, replacement and reconstruction established by the United States secretary of agriculture and the soil conservation service pertaining thereto. The operator, at a minimum, shall:

(A) Segregate the A horizon of the natural soil, except where it can be shown that other available soil materials will create a final soil having a greater productive capacity, and if not utilized immediately, stockpile this material separately from other spoil, and provide needed protection from wind and water erosion or contamination by other acid or toxic material; (B) segregate the B horizon of the natural soil, or underlying C horizons or other strata, or a combination of the horizons or other strata that are shown to be both texturally and chemically suitable for plant growth and that can be shown to be equally or more favorable for plant growth than the B horizon, in sufficient quantities to create in the regraded final soil a root zone of comparable depth and quality to that which existed in the natural soil, and if not utilized immediately, stockpile this material separately from other spoil and provide needed protection from wind and water erosion or contamination by other acid or toxic material; (C) replace and regrade the root zone material described in paragraph (B) of this subdivision, with proper compaction and uniform depth over the regraded spoil material; and (D) redistribute and grade in a uniform manner the surface soil horizon described in paragraph (A) of this subdivision;

(8) Create, if authorized in the approved surface-mining and reclamation plan and permit, permanent impoundments of water on mining sites as part of reclamation activities in accordance with rules promulgated by the director;

(9) Where augering is the method of recovery, seal all auger holes with an impervious and noncombustible material in order to prevent drainage except where the director determines that the resulting impoundment of water in the auger holes may
create a hazard to the environment or the public welfare and safety: Provided, That the director may prohibit augering if necessary to maximize the utilization, recoverability or conservation of the mineral resources or to protect against adverse water quality impacts;

(10) Minimize the disturbances to the prevailing hydrologic balance at the mine site and in associated off-site areas and to the quality and quantity of water in surface and groundwater systems both during and after surface-mining operations and during reclamation by: (A) Avoiding acid or other toxic mine drainage by such measures as, but not limited to: (i) Preventing or removing water from contact with toxic producing deposits; (ii) treating drainage to reduce toxic content which adversely affects downstream water upon being released to water courses; and (iii) casing, sealing or otherwise managing boreholes, shafts and wells and keep acid or other toxic drainage from entering ground and surface waters; (B) conducting surface-mining operations so as to prevent to the extent possible, using the best technology currently available, additional contributions of suspended solids to streamflow or runoff outside the permit area, but in no event shall contributions be in excess of requirements set by applicable state or federal law; (C) constructing an approved drainage system pursuant to paragraph (B) of this subdivision, prior to commencement of surface-mining operations, the system to be certified by a person approved by the director to be constructed as designed and as approved in the reclamation plan; (D) avoiding channel deepening or enlargement in operations requiring the discharge of water from mines; (E) unless otherwise authorized by the director, cleaning out and removing temporary or large settling ponds or other siltation structures after disturbed areas are revegetated and stabilized, and depositing the silt and debris at a site and in a manner approved by the director; (F) restoring recharge capacity of the mined area to approximate premining conditions; and (G) any other actions prescribed by the director;

(11) With respect to surface disposal of mine wastes, tailings, coal processing wastes and other wastes in areas other than the mine working excavations, stabilize all waste piles in
(12) Design, locate, construct, operate, maintain, enlarge, modify and remove or abandon, in accordance with standards and criteria developed pursuant to subsection (f) of this section, all existing and new coal mine waste piles consisting of mine wastes, tailings, coal processing wastes or other liquid and solid wastes, and used either temporarily or permanently as dams or embankments;

(13) Refrain from surface mining within five hundred feet of any active and abandoned underground mines in order to prevent breakthroughs and to protect health or safety of miners: Provided, That the director shall permit an operator to mine near, through or partially through an abandoned underground mine or closer to an active underground mine if: (A) The nature, timing and sequencing of the approximate coincidence of specific surface mine activities with specific underground mine activities are coordinated jointly by the operators involved and approved by the director; and (B) the operations will result in improved resource recovery, abatement of water pollution or elimination of hazards to the health and safety of the public: Provided, however, That any breakthrough which does occur shall be sealed;

(14) Ensure that all debris, acid-forming materials, toxic materials or materials constituting a fire hazard are treated or buried and compacted, or otherwise disposed of in a manner designed to prevent contamination of ground or surface waters, and that contingency plans are developed to prevent sustained combustion: Provided, That the operator shall remove or bury all metal, lumber, equipment and other debris resulting from the operation before grading release;

(15) Ensure that explosives are used only in accordance with existing state and federal law and the rules promulgated by the director, which shall include provisions to:
(A) Maintain for a period of at least three years and make available for public inspection, upon written request, a log detailing the location of the blasts, the pattern and depth of the drill holes, the amount of explosives used per hole and the order and length of delay in the blasts; and

(B) Require that all blasting operations be conducted by persons certified by the office of explosives and blasting.

(16) Ensure that all reclamation efforts proceed in an environmentally sound manner and as contemporaneously as practicable with the surface-mining operations. Time limits shall be established by the director requiring backfilling, grading and planting to be kept current: Provided, That where surface-mining operations and underground mining operations are proposed on the same area, which operations must be conducted under separate permits, the director may grant a variance from the requirement that reclamation efforts proceed as contemporaneously as practicable to permit underground mining operations prior to reclamation:

(A) If the director finds in writing that:

(i) The applicant has presented, as part of the permit application, specific, feasible plans for the proposed underground mining operations;

(ii) The proposed underground mining operations are necessary or desirable to assure maximum practical recovery of the mineral resource and will avoid multiple disturbance of the surface;

(iii) The applicant has satisfactorily demonstrated that the plan for the underground mining operations conforms to requirements for underground mining in the jurisdiction and that permits necessary for the underground mining operations have been issued by the appropriate authority;

(iv) The areas proposed for the variance have been shown by the applicant to be necessary for the implementing of the proposed underground mining operations;
(v) No substantial adverse environmental damage, either on-site or off-site, will result from the delay in completion of reclamation as required by this article; and

(vi) Provisions for the off-site storage of spoil will comply with subdivision (22), subsection (b) of this section;

(B) If the director has promulgated specific rules to govern the granting of the variances in accordance with the provisions of this subparagraph and has imposed any additional requirements as the director considers necessary;

(C) If variances granted under the provisions of this paragraph are reviewed by the director not more than three years from the date of issuance of the permit: Provided, That the underground mining permit shall terminate if the underground operations have not commenced within three years of the date the permit was issued, unless extended as set forth in subdivision (3), section eight of this article; and

(D) If liability under the bond filed by the applicant with the director pursuant to subsection (b), section eleven of this article is for the duration of the underground mining operations and until the requirements of subsection (g), section eleven and section twenty-three of this article have been fully complied with;

(17) Ensure that the construction, maintenance and postmining conditions of access and haul roads into and across the site of operations will control or prevent erosion and siltation, pollution of water, damage to fish or wildlife or their habitat, or public or private property: Provided, That access roads constructed for and used to provide infrequent service to surface facilities, such as ventilators or monitoring devices, are exempt from specific construction criteria provided adequate stabilization to control erosion is achieved through alternative measures;

(18) Refrain from the construction of roads or other access ways up a stream bed or drainage channel or in proximity to the channel so as to significantly alter the normal flow of water;
(19) Establish on the regraded areas, and all other lands affected, a diverse, effective and permanent vegetative cover of the same seasonal variety native to the area of land to be affected or of a fruit, grape or berry producing variety suitable for human consumption and capable of self-regeneration and plant succession at least equal in extent of cover to the natural vegetation of the area, except that introduced species may be used in the revegetation process where desirable or when necessary to achieve the approved postmining land use plan;

(20) Assume the responsibility for successful revegetation, as required by subdivision (19) of this subsection, for a period of not less than five growing seasons, as defined by the director, after the last year of augmented seeding, fertilizing, irrigation or other work in order to assure compliance with subdivision (19) of this subsection: Provided, That when the director issues a written finding approving a long-term agricultural postmining land use as a part of the mining and reclamation plan, the director may grant exception to the provisions of subdivision (19) of this subsection: Provided, however, That when the director approves an agricultural postmining land use, the applicable five growing seasons of responsibility for revegetation begins on the date of initial planting for the agricultural postmining land use;

On lands eligible for remining assume the responsibility for successful revegetation, as required by subdivision (19) of this subsection, for a period of not less than two growing seasons, as defined by the director after the last year of augmented seeding, fertilizing, irrigation or other work in order to assure compliance with subdivision (19) of this subsection;

(21) Protect off-site areas from slides or damage occurring during surface-mining operations and not deposit spoil material or locate any part of the operations or waste accumulations outside the permit area: Provided, That spoil material may be placed outside the permit area, if approved by the director after a finding that environmental benefits will result from the placing of spoil material outside the permit area;
(22) Place all excess spoil material resulting from surface-mining activities in a manner that: (A) Spoil is transported and placed in a controlled manner in position for concurrent compaction and in a way as to assure mass stability and to prevent mass movement; (B) the areas of disposal are within the bonded permit areas and all organic matter is removed immediately prior to spoil placements; (C) appropriate surface and internal drainage system or diversion ditches are used to prevent spoil erosion and movement; (D) the disposal area does not contain springs, natural water courses or wet weather seeps, unless lateral drains are constructed from the wet areas to the main under drains in a manner that filtration of the water into the spoil pile will be prevented; (E) if placed on a slope, the spoil is placed upon the most moderate slope among those upon which, in the judgment of the director, the spoil could be placed in compliance with all the requirements of this article, and is placed, where possible, upon, or above, a natural terrace, bench or berm, if placement provides additional stability and prevents mass movement; (F) where the toe of the spoil rests on a downslope, a rock toe buttress, of sufficient size to prevent mass movement, is constructed; (G) the final configuration is compatible with the natural drainage pattern and surroundings and suitable for intended uses; (H) the design of the spoil disposal area is certified by a qualified registered professional engineer in conformance with professional standards; and (I) all other provisions of this article are met: Provided, That where the excess spoil material consists of at least eighty percent, by volume, sandstone, limestone or other rocks that do not slake in water and will not degrade to soil material, the director may approve alternate methods for disposal of excess spoil material, including fill placement by dumping in a single lift, on a site specific basis: Provided, however, That the services of a qualified registered professional engineer experienced in the design and construction of earth and rockfill embankment are utilized: Provided further, That the approval may not be unreasonably withheld if the site is suitable;

(23) Meet any other criteria necessary to achieve reclamation in accordance with the purposes of this article, taking into
consideration the physical, climatological and other characteristics of the site;

(24) To the extent possible, using the best technology currently available, minimize disturbances and adverse impacts of the operation on fish, wildlife and related environmental values, and achieve enhancement of these resources where practicable; and

(25) Retain a natural barrier to inhibit slides and erosion on permit areas where outcrop barriers are required: Provided, that constructed barriers may be allowed where: (A) Natural barriers do not provide adequate stability; (B) natural barriers would result in potential future water quality deterioration; and (C) natural barriers would conflict with the goal of maximum utilization of the mineral resource: Provided, however, That at a minimum, the constructed barrier shall be of sufficient width and height to provide adequate stability and the stability factor shall equal or exceed that of the natural outcrop barrier: Provided further, That where water quality is paramount, the constructed barrier shall be composed of impervious material with controlled discharge points.

(c) (1) The director may prescribe procedures pursuant to which he or she may permit surface-mining operations for the purposes set forth in subdivision (3) of this subsection.

(2) Where an applicant meets the requirements of subdivisions (3) and (4) of this subsection, a permit without regard to the requirement to restore to approximate original contour set forth in subsection (b) or (d) of this section may be granted for the surface mining of coal where the mining operation will remove an entire coal seam or seams running through the upper fraction of a mountain, ridge or hill, except as provided in subparagraph (A), subdivision (4) of this subsection, by removing all of the overburden and creating a level plateau or a gently rolling contour with no highwalls remaining, and capable of supporting postmining uses in accordance with the requirements of this subsection.

(3) In cases where an industrial, commercial, woodland, agricultural, residential, public or fish and wildlife habitat and
recreation lands use is proposed for the postmining use of the affected land, the director may grant a permit for a surface-mining operation of the nature described in subdivision (2) of this subsection where: (A) The proposed postmining land use is determined to constitute an equal or better use of the affected land, as compared with premining use; (B) the applicant presents specific plans for the proposed postmining land use and appropriate assurances that the use will be: (i) Compatible with adjacent land uses; (ii) practicable with respect to achieving the proposed use; (iii) supported by commitments from public agencies where appropriate; (iv) practicable with respect to private financial capability for completion of the proposed use; (v) planned pursuant to a schedule attached to the reclamation plan so as to integrate the mining operation and reclamation with the postmining land use; and (vi) designed by a person approved by the director in conformance with standards established to assure the stability, drainage and configuration necessary for the intended use of the site; (C) the proposed use would be compatible with adjacent land uses, and existing state and local land use plans and programs; (D) the director provides the county commission of the county in which the land is located and any state or federal agency which the director, in his or her discretion, determines to have an interest in the proposed use, an opportunity of not more than sixty days to review and comment on the proposed use; and (E) all other requirements of this article will be met.

(4) In granting any permit pursuant to this subsection, the director shall require that: (A) A natural barrier be retained to inhibit slides and erosion on permit areas where outcrop barriers are required: Provided, That constructed barriers may be allowed where: (i) Natural barriers do not provide adequate stability; (ii) natural barriers would result in potential future water quality deterioration; and (iii) natural barriers would conflict with the goal of maximum utilization of the mineral resource: Provided, however, That, at a minimum, the constructed barrier shall be sufficient in width and height to provide adequate stability and the stability factor shall equal or exceed that of the natural outcrop barrier: Provided further,
That where water quality is paramount, the constructed barrier shall be composed of impervious material with controlled discharge points; (B) the reclaimed area is stable; (C) the resulting plateau or rolling contour drains inward from the outslopes except at specific points; (D) no damage will be done to natural watercourses; (E) spoil will be placed on the mountaintop bench as is necessary to achieve the planned postmining land use: And provided further, That all excess spoil material not retained on the mountaintop shall be placed in accordance with the provisions of subdivision (22), subsection (b) of this section; and (F) ensure stability of the spoil retained on the mountaintop and meet the other requirements of this article.

(5) All permits granted under the provisions of this subsection shall be reviewed not more than three years from the date of issuance of the permit; unless the applicant affirmatively demonstrates that the proposed development is proceeding in accordance with the terms of the approved schedule and reclamation plan.

(d) In addition to those general performance standards required by this section, when surface mining occurs on slopes of twenty degrees or greater, or on lesser slopes as may be defined by rule after consideration of soil and climate, no debris, abandoned or disabled equipment, spoil material or waste mineral matter will be placed on the natural downslope below the initial bench or mining cut: Provided, That soil or spoil material from the initial cut of earth in a new surface-mining operation may be placed on a limited specified area of the downslope below the initial cut if the permittee can establish to the satisfaction of the director that the soil or spoil will not slide and that the other requirements of this section can still be met.

(e) The director may propose rules for legislative approval in accordance with article three, chapter twenty-nine-a of this code, that permit variances from the approximate original contour requirements of this section: Provided, That the watershed control of the area is improved: Provided, however, That complete backfilling with spoil material is required to
(f) The director shall propose rules for legislative approval in accordance with article three, chapter twenty-nine-a of this code, for the design, location, construction, maintenance, operation, enlargement, modification, removal and abandonment of new and existing coal mine waste piles. In addition to engineering and other technical specifications, the standards and criteria developed pursuant to this subsection shall include provisions for review and approval of plans and specifications prior to construction, enlargement, modification, removal or abandonment; performance of periodic inspections during construction; issuance of certificates of approval upon completion of construction; performance of periodic safety inspections; and issuance of notices and orders for required remedial or maintenance work or affirmative action: Provided, That whenever the director finds that any coal processing waste pile constitutes an imminent danger to human life, he or she may, in addition to all other remedies and without the necessity of obtaining the permission of any person prior or present who operated or operates a pile or the landowners involved, enter upon the premises where any coal processing waste pile exists and may take or order to be taken any remedial action that may be necessary or expedient to secure the coal processing waste pile and to abate the conditions which cause the danger to human life: Provided, however, That the cost reasonably incurred in any remedial action taken by the director under this subsection may be paid for initially by funds appropriated to the division for these purposes, and the sums expended shall be recovered from any responsible operator or landowner, individually or jointly, by suit initiated by the attorney general at the request of the director. For purposes of this subsection "operates" or "operated" means to enter upon a coal processing waste pile, or part of a coal processing waste pile, for the purpose of disposing, depositing, dumping coal processing wastes on the pile or removing coal processing waste from the pile, or to employ a coal processing waste pile for retarding the flow of or for the impoundment of water.
§22-3-13a. Pre-blast survey requirements.

(a) At least thirty days prior to commencing blasting, as defined in section twenty-two-a of this article, an operator or an operator's designee shall make the following notifications in writing to all owners and occupants of man-made dwellings or structures that the operator or operator's designee will perform pre-blast surveys in accordance with subsection (f) of this section:

1. For surface-mining operations that are less than two hundred acres in a single permitted area or less than three hundred acres of contiguous or nearly contiguous area of two or more permitted areas, the required notifications shall be to all owners and occupants of man-made dwellings or structures within five tenths of a mile of the permitted area or areas;

2. For all other surface-mining operations, the required notifications shall be to all owners and occupants of man-made dwellings or structures within five tenths of a mile of the permitted area or areas or seven tenths of a mile of the proposed blasting site, whichever is greater.

(b) Within thirty days of the effective date of this section, any operator identified in subdivision (2), subsection (a) of this section, that has already completed pre-blast surveys for man-made dwellings or structures within five tenths of a mile of the permit area and has commenced operations by the effective date of this section, shall be required to notify in writing all additional owners and occupants or man-made dwellings or structures within seven tenths of a mile of the proposed blasting site. Except for those dwellings or structures for which the operator secures a written waiver or executes an affidavit in accordance with the requirements of subsection (c) of this section, the operator or the operator's designee must perform the additional pre-blast surveys in accordance with subsection (f) of this section within ninety days of the effective date of this section.

(c) An occupant or owner of a man-made dwelling or structure within the areas described in subdivisions (1) or (2) of
subsection (a) of this section, may waive the right to a pre-blast
survey in writing. If a dwelling is occupied by a person other
than the owner, both the owner and the occupant must waive
the right to a pre-blast survey in writing. If an occupant or
owner of a man-made dwelling or structure refuses to allow the
operator or the operator’s designee access to the dwelling or
structure and refuses to waive in writing the right to a pre-blast
survey or to the extent that access to any portion of the struc-
ture, underground water supply or well is impossible or
impractical under the circumstances, the pre-blast survey shall
indicate that access was refused, impossible or impractical. The
operator or the operator’s designee shall execute a sworn
affidavit explaining the reasons and circumstances surrounding
the refusals. The office of explosives and blasting shall not
determine the pre-blast survey to be incomplete because it
indicates that access to a particular structure, underground
water supply or well was refused, impossible or impractical.
The operator shall send copies of all written waivers and
affidavits executed pursuant to this subsection to the office of
explosives and blasting.

(d) If a pre-blast survey was waived by the owner and was
within the requisite area and the property was sold, the new
owner may request a pre-blast survey from the operator.

(e) An owner within the requisite area may request, from
the operator, a pre-blast survey on structures constructed after
the original pre-blast survey.

(f) The pre-blast survey shall include:

(1) The names, addresses or description of structure
location and telephone numbers of the owner and the residents
of the structure being surveyed and the structure number from
the permit blasting map;

(2) The current home insurer of the owner and the residents
of the structure;

(3) The names, addresses and telephone numbers of the
surface-mining operator and the permit number;
(4) The current general liability insurer of the surface-mining operator;

(5) The name, address and telephone number of the person or firm performing the pre-blast survey;

(6) The current general liability insurer of the person or firm performing the pre-blast survey;

(7) The date of the pre-blast survey and the date it was mailed or delivered to the office of explosives and blasting;

(8) A general description of the structure and its appurtenances including, but not limited to: (A) The number of stories; (B) the construction materials for the frame and the exterior and interior finish; (C) the type of construction including any unusual or substandard construction; and (D) the approximate age of the structure;

(9) A general description of the survey methods and the direction of progression of the survey, including a key to abbreviations used;

(10) Written documentation and drawings, videos or photographs of the pre-blast defects and other physical conditions of all structures, appurtenances and water sources which could be affected by blasting;

(11) Written documentation and drawings, videos or photographs of the exterior and interior of the structure to indicate pre-blast defects and condition;

(12) Written documentation and drawings, videos or photographs of the exterior and interior of any appurtenance of the structure to indicate pre-blast defects and condition;

(13) Sufficient exterior and interior photographs or videos, using a variety of angles, of the structure and its appurtenances to indicate pre-blast defects and the condition of the structure and appurtenances;

(14) Written documentation and drawings, videos or photographs of any unusual or substandard construction technique and materials used on the structure and/or its appurtenances;
(15) Written documentation relating to the type of water supply, including a description of the type of system and treatment being used, an analysis of untreated water supplies, a water analysis of water supplies other than public utilities, and information relating to the quantity and quality of water;

(16) When the water supply is a well, written documentation, where available, relating to the type of well; the well log; the depth, age and type of casing or lining; the static water level; flow data; the pump capacity; the drilling contractor; and the source or sources of the documentation;

(17) A description of any portion of the structure and appurtenances not documented or photographed and the reasons;

(18) The signature of the person performing the survey; and

(19) Any other information required by the chief which additional information shall be established by rule in accordance with article three, chapter twenty-nine-a of this code.

(g) Except for additional pre-blast surveys prepared within one hundred twenty days of the effective date of this section, pursuant to subsection (b) of this section, the pre-blast survey shall be submitted to the office of explosives and blasting at least fifteen days prior to the commencement of any production blasting. The office of explosives and blasting shall review each pre-blast survey as to form and completeness only and notify the operator of any deficiencies. The office of explosives and blasting shall notify the owner and occupant of the location and availability of the pre-blast survey and a copy of the pre-blast survey shall be provided to the owner and/or occupant upon request.

(h) The surface-mining operator shall file notice of the pre-blast survey or the waiver in the office of the county clerk of the county commission of the county where the man-made dwelling or structure is located to notify the public that a pre-blast survey has been conducted or waived. The notice shall be on a form prescribed by the office of explosives and blasting.
(i) The chief of the office of explosives and blasting shall propose rules for legislative approval in accordance with article three, chapter twenty-nine-a of this code, dealing with pre-blast survey requirements and setting the qualifications for individuals and firms performing pre-blast surveys.

(j) The provisions of this section shall not apply to the following: (1) Underground coal mining operations; and (2) the extraction of minerals by underground mining methods or the surface impacts of the underground mining methods.

§22-3-22a. Blasting restrictions; site specific blasting design requirement.

(a) For purposes of this section, the term "production blasting" means blasting that removes the overburden to expose underlying coal seams and shall not include construction blasting.

(b) For purposes of this section, the term "construction blasting" means blasting to develop haul roads, mine access roads, coal preparation plants, drainage structures, or underground coal mine sites and shall not include production blasting.

(c) For purposes of this section, the term "protected structure" means any of the following structures that are situated outside the permit area: an occupied dwelling, a temporarily unoccupied dwelling which has been occupied within the past ninety days, a public building, a structure for commercial purposes, a school, a church, a community or institutional building, a public park or a water well.

(d) Production blasting is prohibited within three hundred feet of a protected structure or within one hundred feet of a cemetery.

(e) Blasting within one thousand feet of a protected structure shall have a site specific blast design approved by the office of explosives and blasting. The site specific blast design shall limit the type of explosives and detonating equipment, the size, the timing and frequency of blasts to do the following:
(1) Prevent injury to persons; (2) prevent damage to public and private property outside the permit area; (3) prevent adverse impacts on any underground mine; (4) prevent change in the course, channel or availability of ground or surface water outside the permit area; and (5) reduce dust outside the permit area.

In the development of a site specific blasting plan consideration shall be given, but is not limited to, the physical condition, type and quality of construction of the protected structure, the current use of the protected structure and the concerns of the owner or occupant living in the protected structure in the blasting schedule.

(f) An owner or occupant of a protected structure may waive the blasting prohibition within three hundred feet or the site specific restriction within one thousand feet in writing. If a protected structure is occupied by a person other than the owner, both the owner and the occupant of the protected structure shall waive the blasting prohibition within three hundred feet or the site specific restriction within one thousand feet in writing. The operator shall send copies of all written waivers executed pursuant to this subsection to the office of explosives and blasting. Written waivers executed and filed with the office of explosives and blasting shall be valid during the life of the permit or any renewals of the permit and shall be enforceable against any subsequent owners or occupants of the protected structure.

(g) The provisions of this section shall not apply to the following: (1) Underground coal mining operations; (2) the surface operations and surface impacts incident to an underground coal mine; and (3) the extraction of minerals by underground mining methods or the surface impacts of the underground mining methods: Provided, That nothing contained in this section shall be construed to exempt any coal mining operation from the general performance standards as contained in section thirteen of this article and any rules promulgated pursuant thereto.
§22-3-23. Release of bond or deposits; application; notice; duties of director; public hearings; final maps on grade release.

(a) The permittee may file a request with the director for the release of a bond or deposit. The permittee shall publish an advertisement regarding such request for release in the same manner as is required of advertisements for permit applications. A copy of such advertisement shall be submitted to the director as part of any bond release application and shall contain a notification of the precise location of the land affected, the number of acres, the permit and the date approved, the amount of the bond filed and the portion sought to be released, the type and appropriate dates of reclamation work performed and a description of the results achieved as they relate to the permittee’s approved reclamation plan. In addition, as part of any bond release application, the permittee shall submit copies of letters which the permittee has sent to adjoining property owners, local government bodies, planning agencies, sewage and water treatment authorities or water companies in the locality in which the surface-mining operation is located, notifying them of the permittee’s intention to seek release from the bond. Any request for grade release shall also be accompanied by final maps.

(b) Upon receipt of the application for bond release, the director, within thirty days, taking into consideration existing weather conditions, shall conduct an inspection and evaluation of the reclamation work involved. Such evaluation shall consider, among other things, the degree of difficulty to complete any remaining reclamation, whether pollution of surface and subsurface water is occurring, the probability of continuance or future occurrence of such pollution and the estimated cost of abating such pollution. The director shall notify the permittee in writing of his or her decision to release or not to release all or part of the bond or deposit within sixty days from the date of the initial publication of the advertisement if no public hearing is requested. If a public hearing is held, the director’s decision shall be issued within thirty days thereafter.
(c) If the director is satisfied that reclamation covered by the bond or deposit or portion thereof has been accomplished as required by this article, he or she may release said bond or deposit, in whole or in part, according to the following schedule:

1. When the operator completes the backfilling, regrading and drainage control of a bonded area in accordance with the operator’s approved reclamation plan, the release of sixty percent of the bond or collateral for the applicable bonded area: *Provided*, That a minimum bond of ten thousand dollars shall be retained after grade release;

2. Two years after the last augmented seeding, fertilizing, irrigation or other work to ensure compliance with subdivision (19), subsection (b), section thirteen of this article, the release of an additional twenty-five percent of the bond or collateral for the applicable bonded area: *Provided*, That a minimum bond of ten thousand dollars shall be retained after the release provided for in this subdivision; and

3. When the operator has completed successfully all surface-mining and reclamation activities, the release of the remaining portion of the bond, but not before the expiration of the period specified in subdivision (20), subsection (b), section thirteen of this article: *Provided*, That the revegetation has been established on the regraded mined lands in accordance with the approved reclamation plan: *Provided, however*, That such a release may be made where the quality of the untreated post-mining water discharged is better than or equal to the premining water quality discharged from the mining site.

No part of the bond or deposit may be released under this subsection so long as the lands to which the release would be applicable are contributing additional suspended solids to streamflow or runoff outside the permit area in excess of the requirements set by section thirteen of this article, or until soil productivity for prime farmlands has returned to equivalent levels of yield as nonmined land of the same soil type in the surrounding area under equivalent management practices as determined from the soil survey performed pursuant to section
nine of this article. Where a sediment dam is to be retained as a permanent impoundment pursuant to section thirteen of this article, or where a road or minor deviation is to be retained for sound future maintenance of the operation, the portion of the bond may be released under this subsection so long as provisions for sound future maintenance by the operator or the landowner have been made with the director.

Notwithstanding the bond release scheduling provisions of subdivisions (1), (2) and (3) of this subsection, if the operator completes the backfilling and reclamation in accordance with an approved post-mining land use plan that has been approved by the division of environmental protection and accepted by a local or regional economic development or planning agency for the county or region in which the operation is located, provisions for sound future maintenance are assured by the local or regional economic development or planning agency, and the quality of any untreated postmining water discharge complies with applicable water quality criteria for bond release, the director may release the entire amount of said bond or deposit.

The director shall propose rules for legislative approval in accordance with the provisions of article three, chapter twenty-nine-a of this code, to govern a bond release pursuant to the terms of this paragraph.

(d) If the director disapproves the application for release of the bond or portion thereof, the director shall notify the permittee, in writing, stating the reasons for disapproval and recommending corrective actions necessary to secure said release and notifying the operator of the right to a hearing.

(e) When any application for total or partial bond release is filed with the director, he or she shall notify the municipality in which a surface-mining operation is located by registered or certified mail at least thirty days prior to the release of all or a portion of the bond.

(f) Any person with a valid legal interest which is or may be adversely affected by release of the bond or the responsible officer or head of any federal, state or local governmental agency which has jurisdiction by law or special expertise with
respect to any environmental, social or economic impact involved in the operation, or is authorized to develop and enforce environmental standards with respect to such operations, has the right to file written objections to the proposed bond release and request a hearing with the director within thirty days after the last publication of the permittee's advertisement. If written objections are filed and a hearing requested, the director shall inform all of the interested parties of the time and place of the hearing and shall hold a public hearing in the locality of the surface-mining operation proposed for bond release within three weeks after the close of the public comment period. The date, time and location of such public hearing shall also be advertised by the director in a newspaper of general circulation in the same locality.

(g) Without prejudice to the rights of the objectors, the applicant, or the responsibilities of the director pursuant to this section, the director may hold an informal conference to resolve any written objections and satisfy the hearing requirements of this section thereby.

(h) For the purpose of such hearing, the director has the authority and is hereby empowered to administer oaths, subpoena witnesses and written or printed materials, compel the attendance of witnesses, or production of materials, and take evidence including, but not limited to, inspections of the land affected and other surface-mining operations carried on by the applicant in the general vicinity. A verbatim record of each public hearing required by this section shall be made and a transcript made available on the motion of any party or by order of the director at the cost of the person requesting the transcript.

§22-3-24. Water rights and replacement; waiver of replacement.

(a) Nothing in this article affects in any way the rights of any person to enforce or protect, under applicable law, the person's interest in water resources affected by a surface-mining operation.

(b) Any operator shall replace the water supply of an owner of interest in real property who obtains all or part of the owner's
supply of water for domestic, agricultural, industrial or other legitimate use from an underground or surface source where the supply has been affected by contamination, diminution or interruption proximately caused by the surface-mining operation, unless waived by the owner.

(c) There is a rebuttable presumption that a mining operation caused damage to an owner's underground water supply if the inspector determines the following: (1) Contamination, diminution or damage to an owner's underground water supply exists; and (2) a pre-blast survey was performed, consistent with the provisions of section thirteen-a of this article, on the owner's property including the underground water supply that indicated that contamination, diminution or damage to the underground water supply did not exist prior to the mining conducted at the mining operation. The operator conducting the mining operation shall: (1) Provide an emergency drinking water supply within twenty-four hours; (2) provide a temporary water supply within seventy-two hours; (3) provide a permanent water supply within thirty days; and (4) pay all reasonable costs incurred by the owner in securing a water supply.

(d) An owner aggrieved under the provisions of subsections (b) or (c) of this section, may seek relief in court or pursuant to the provisions of section five, article three-a of this chapter.

(e) The director shall propose rules for legislative approval in accordance with the provisions of article three, chapter twenty-nine-a of this code, to implement the requirements of this section.

(f) The provisions of subsection (c) of this section shall not apply to the following: (1) Underground coal mining operations; (2) the surface operations and surface impacts incident to an underground coal mine; and (3) the extraction of minerals by underground mining methods or the surface impacts of the underground mining methods.

§22-3-30a. Blasting requirements; liability and civil penalties in the event of property damage.
(a) Blasting of overburden and coal shall be conducted in accordance with the rules and laws established to regulate blasting.

(b) If the division of environmental protection establishes after an inspection that a blast was not in compliance with the regulations governing blasting parameters and resulted in property damage to a protected structure, as defined in section twenty-two-a of this article, other than water wells, the following penalties shall be imposed for each permit area or contiguous permit areas where the blasting was out of compliance:

(1) For the first offense, the operator shall be assessed a penalty of not less than one thousand dollars nor more than five thousand dollars.

(2) For the second offense and each subsequent offense within one year of the first offense, the surface-mining operator shall be assessed a penalty of not less than five thousand dollars nor more than ten thousand dollars.

(3) For the third offense and any subsequent offense within one year of the first offense, or for the failure to pay any assessment set forth within a reasonable time established by the director, the surface-mining operator's permit shall be subject to an immediate issuance of a cessation order, as set out in section sixteen of this article. The cessation order shall only be released upon written order of the director of the division of environmental protection when the following conditions have been met:

(A) A written plan has been established and filed with the director assuring that additional violations will not occur;

(B) The permittee has provided compensation for the property damages or the assurance of adequate compensation for the property damages that have occurred; and

(C) A permittee shall provide such monetary and other assurances as the director shall determine appropriate to compensate for future property damages. The monetary assurances required shall be in an amount at least equal to the
amount of compensation required in paragraph (B), subdivision (3) of this subsection.

(4) In addition to the penalties described in subdivisions (1), (2) and (3) of this subsection, for the second and subsequent offenses on any one permitted area regardless of the time period, the owner of the protected structure is entitled to a rebuttable presumption that the property damage is a result of the blast if: (A) A pre-blast survey was performed; and (B) the blasting site to which the second or subsequent offense relates is within seven tenths of a mile of the protected structure.

(5) No more than one offense shall arise out of any one shot. For purposes of this section, "shot" means a single blasting event composed of one or multiple detonations of explosive material, or the assembly of explosive materials for this purpose. One "shot" may be composed of numerous explosive charges detonated at intervals measured in milliseconds.

(c) Notwithstanding the provisions of subsections (a) and (b) of this section, the division of environmental protection may not impose penalties on an operator for the violation of any rule identified in subsection (a) of this section that is merely administrative in nature.

(d) The remedies provided in this section are not exclusive and shall not bar an owner or occupant from any other remedy accorded by law.

(e) Where inspection by the division of environmental protection establishes that production blasting, in violation of section twenty-two-a of this article, was done within three hundred feet or was not site specific production blasting within one thousand feet of any protected structure as defined in section twenty-two-a of this article, or within one hundred feet of a cemetery, the monetary penalties and revocation, as set out in subsection (b) of this section, apply.

(f) All penalties and liabilities as set forth in this section shall be assessed by the director, collected by the director and
(g) The director shall propose rules for legislative approval pursuant to article three, chapter twenty-nine-a of this code for the implementation of this section.

(h) The provisions of this section shall not apply to the following: (1) Underground coal mining operations; (2) the surface operations and surface impacts incident to an underground coal mine; and (3) the extraction of minerals by underground mining methods or the surface impacts of the underground mining methods: Provided, That nothing contained in this section shall be construed to exempt any coal mining operation from the general performance standards as contained in section thirteen of this article and any rules promulgated pursuant thereto.

(e) Participation in the claims process created by this section shall be voluntary for the claimant. However, once the claimant has submitted a claim for determination under the provisions of this section, it is intended that the finding of the office, if not taken to arbitration, shall be final. If arbitration is requested, it is intended that the results of such arbitration shall be final. The office shall provide written notification to the claimant of the provisions of this subsection and shall secure a
written acknowledgment from the claimant prior to processing
a claim pursuant to the provisions of this section.

(f) The operator shall pay any claim for which the operator

pending before the division are not affected by this enactment.

§22-3A-7. Funding.

(a) The office shall assess each operator permitted under the
provisions of this chapter a fee on each quantity of explosive
material used for any purpose on the surface-mining operations.

(b) The office shall propose a legislative rule for promulga-
tion in accordance with article three, chapter twenty-nine-a of
this code, establishing the fees required by this section. The fees
shall be calculated to generate sufficient money to provide for
the operation of this office and the office of coalfield commu-
nity development as provided for in article two-a, chapter five-b of this code.

(c) The office shall deposit all moneys received from these fees into a special revenue fund to be known as the “mountain-top removal fund” in the state treasury to be expended by the offices in the performance of their duties. The expenditure of moneys in the fund is not authorized from collections, but shall be appropriated by the Legislature.

§22-3A-8. Transfer of personnel and assets.

The director shall transfer to the office any personnel and assets presently used to perform or used in the performance of the duties and functions required by this article.

Except for sections five and seven of this article, all provisions of this article are also applicable to surface-blasting activities related to underground mining operations.

§22-3A-10. Office to conduct study.

(a) The office shall conduct or participate in studies or research to develop scientifically based data and recommendations of the following:

(1) Ground vibrations associated with blasting and how the vibrations impact protected structures;

(2) The proper size and shot parameters to assure protection of protected structures;

(3) The necessity of expanding the parameters where blasting is prohibited in relation to protected structures to assure that the shots do not cause damage to protected structures;

(4) The appropriateness of modifying pre-blast survey requirements that reflect a pattern of excessive ground vibration and air blast has occurred within a measured distance;

(5) Analysis of the appropriate air blast limitations to determine damage criteria; and
(6) Any other data or recommendations the office deems appropriate.

(b) The office shall report the data and recommendations to the joint committee on government and finance on or before the first day of January, two thousand one, and annually thereafter or as otherwise required.

The office of explosives and blasting is continued until the first day of July, two thousand two, pursuant to the provisions of article ten, chapter four of this code.

ARTICLE 11. WATER POLLUTION CONTROL ACT.

§22-11-7a. Certification agreements; required provisions; effective date.

(a) Any applicant for the water quality certification that seeks certification of activities covered by the United States army corps of engineers permits issued in accordance with 33 U.S.C. 1344 and 33 C.F.R. Parts 323 or 330 for use at or in conjunction with a surface coal mining operation as defined in section three, article three of this chapter, certification may be issued subject to the following conditions:

(1) If the applicant's surface coal mining operation will not impact waters of the state designated as national resource waters and streams where trout naturally reproduce and will not impact wetlands of the state in a manner inconsistent with all applicable state or federal standards as the case may be, as required by the federal Clean Water Act, and if the watershed above the toe of the farthest downstream permanent structure authorized pursuant to the United States army corps of engineers permits issued in accordance with 33 U.S.C. 1344 and 33 C.F.R. Parts 323 or 330 is less than two hundred fifty acres, then the director may issue a water quality certification pursuant to the requirements of this section. If the watershed above the toe of the farthest downstream permanent structure impacted is equal to or greater than two hundred fifty acres, the director shall require that mitigation be undertaken. Additionally, the director may require mitigation for temporary impacts
to waters of the state as specified in subdivision (2) of this subsection.

(2) If the watershed above the toe of the farthest downstream permanent structure authorized pursuant to the United States army corps of engineers permits issued in accordance with 33 U.S.C. §1344 and 33 C.F.R. Parts 323 or 330 is greater than or equal to two hundred fifty acres and all other necessary requirements are met consistent with this section, the director shall further condition a water quality certification on a requirement that the applicant mitigate the expected water quality impacts under the following conditions:

(A) The water quality certification may require mitigation at a ratio appropriate to the type of waters impacted, consistent with state or federal standards as required by the federal Clean Water Act, for the types and locations of waters impacted;

(B) For waters of the state isolated as a result of a permanent structure, the maximum mitigation ratio shall be five-tenths acre of mitigation area for every one acre of those isolated waters;

(C) The director may accept mitigation on the permitted area, mitigation off the permitted area, mitigation banking of waters of the state, or any combination thereof, or any other mitigation measure acceptable to the director; and

(D) Upon completion of the work required by an agreement to conduct operations authorized by this subsection the surface coal mining operation shall obtain a certification from a registered professional engineer that all mitigation work specified in the agreement has been completed in accordance with the conditions of the water quality certification. The director shall promptly review the certification and provide to the surface coal mining operation with notice that all mitigation work has been successfully completed, or that further mitigation work is necessary to meet the conditions imposed by the water quality certification. The mitigation amount may not exceed two hundred thousand dollars per acre of stream disturbed above the toe of the farthest downstream permanent structure. Those moneys shall be deposited in the stream restoration fund under the jurisdiction of the division of
environmental protection and any expenditures from this fund after the thirtieth day of June, one thousand nine hundred ninety-eight, shall not be authorized from collections but shall only be authorized by appropriation by the Legislature. Additionally, the expenditures are only authorized in those counties where the activity leading to the mitigation occurred or in those counties adjacent to the counties where the activity leading to the mitigation occurred. The director shall by the thirty-first day of December of each year provide a report to the joint committee on government and finance on receipts and expenditures from the stream restoration fund, the number of acreage reclaimed by the division through the use of these funds and the effectiveness of achieving stream restoration through the payment of the mitigation amounts into the fund in lieu of reclamation by the certificate holder.

(3) The director shall confer with representatives of the surface coal mining industry and representatives of environmental organizations with an interest in water quality in developing a manual of approval options for mitigation on permitted areas, mitigation off permitted areas and mitigation involving banking of waters of the state.

(4) The proposed surface coal mining operation shall comply with all applicable state and federal laws, rules and regulations.

(5) The director shall propose rules for legislative approval in accordance with article three, chapter twenty-nine-a of this code, for the purpose of implementing the provisions of this section which rules shall include, but not be limited to, the following:

(A) Establishing all necessary operational and performance requirements for an operator undertaking activities covered by this section;

(B) Modifying the provisions of this section, when necessary and appropriate to bring the provisions of this section into compliance with state or federal law or regulation; and
(C) Establishing the specific operational requirements for mining operations consistent with this section appropriate to protect the waters of this state during and following mining operations.

(b) The joint committee on government and finance may undertake or facilitate a study of the impact of mountaintop mining and valley fills upon the state of West Virginia.

(1) To facilitate the study, the joint committee on government and finance is further authorized to coordinate with and seek funding from appropriate federal agencies to facilitate the study including, but not limited to: The environmental protection agency, army corps of engineers, office of surface-mining and the fish and wildlife service.

(2) In order to facilitate the research, the joint committee on government and finance shall appoint a council to coordinate and direct the research. The composition of the council shall be determined by the joint committee, but shall include representatives from the various interested parties as determined solely by the joint committee.

Be it enacted by the Legislature of West Virginia:

That sections five, six and fifteen, article five, chapter twenty-two of the code of West Virginia, one thousand nine hundred thirty-one, as amended, be amended and reenacted, all to read as follows:

ARTICLE 5. AIR POLLUTION CONTROL.

§22-5-5. Issuance of cease and desist orders by director; service; permit suspension, modification and revocation; appeals to board.

§22-5-6. Penalties; recovery and disposition; duties of prosecuting attorneys.

§22-5-5. Issuance of cease and desist orders by director; service; permit suspension, modification and revocation; appeals to board.

If, from any investigation made by the director or from any complaint filed with him or her, the director is of the opinion that a person is violating the provisions of this article, or any rules promulgated pursuant thereto, he or she shall make and enter an order directing the person to cease and desist the activity, unless the director determines the violation is of a minor nature or the violation has been abated. The director shall fix a reasonable time in such order by which the activity must stop or be prevented. The order shall contain the findings of fact upon which the director determined to make and enter the order.

If, after any investigation made by the director, or from any complaint filed with him or her, the director is of the opinion that a permit holder is violating the provisions of this article, or any rules promulgated pursuant thereto, or any order of the director, or any provision of a permit, the director may issue notice of intent to suspend, modify or revoke and reissue such permit. Upon notice of the director’s intent to suspend, modify or revoke a permit, the permit holder may request a conference with the director to show cause why the permit should not be suspended, modified or revoked. The request for conference must be received by the director within fifteen days following receipt of notice. After conference or fifteen days after issuance of notice of intent, if no conference is requested, the director may enter an order suspending, modifying or revoking the permit and send notice to the permit holder. Such order is a
cease and desist order for purposes of administrative and
judicial review and shall contain findings of fact upon which
the director determined to make and enter the order. If an
appeal of the director’s order is filed, the order of the director
shall be stayed from the date of issuance pending a final
decision of the board.

The director shall cause a copy of any such order to be
served upon the person by registered or certified mail or by any
proper law-enforcement officer.

Any person upon whom a copy of the final order has been
served may appeal such order to the air quality board pursuant
to the provisions of article one, chapter twenty-two-b of this
code.

§22-5-6. Penalties; recovery and disposition; duties of prosecuting
attorneys.

(a) Any person who violates any provision of this article,
any permit or any rule or order issued pursuant to this article or
article one, chapter twenty-two-b of this code is subject to a
civil penalty not to exceed ten thousand dollars for each day of
such violation, which penalty shall be recovered in a civil
action brought by the director in the name of the state of West
Virginia in the circuit court of any county wherein the person
resides or is engaged in the activity complained of or in the
circuit court of Kanawha County. The amount of the penalty
shall be fixed by the court without a jury: Provided, That any
person is not subject to civil penalties unless the person has
been given written notice thereof by the director: Provided,
however, That for the first such minor violation, if the person
corrects the violation within the time as was specified in the
notice of violation issued by the director, no civil penalty may
be recovered: Provided further, That if the person fails to
correct a minor violation or for any serious or subsequent
serious or minor violation, the person is subject to civil penal-
ties imposed pursuant to this section from the first day of the
violation notwithstanding the date of the issuance or receipt of
the notice of violation. The director shall, by rule subject to the
provisions of chapter twenty-nine-a of this code, determine the
definitions of serious and minor violations. The amount of any
penalty collected by the director shall be deposited in the
general revenue of the state treasury according to law.

(b) (1) Any person who knowingly misrepresents any
material fact in an application, record, report, plan or other
document filed or required to be maintained under the provi-

is guilty of a misdemeanor and, upon conviction thereof, shall
be fined not more than twenty-five thousand dollars or impris-
oned in the county jail not more than six months or both fined
and imprisoned: Provided, That if the violation occurs on
separate days or is continuing in nature, the fine shall be no
more than twenty-five thousand dollars for each day of such
violation.

(2) Any person who knowingly violates any provision of
this article, any permit or any rule or order issued pursuant to
this article or article one, chapter twenty-two-b of this code is
guilty of a misdemeanor and, upon conviction thereof, shall be
fined not more than twenty-five thousand dollars for each day
of such violation or imprisoned in the county jail not more than
one year or both fined and imprisoned.

(c) Upon a request in writing from the director it is the duty
of the attorney general and the prosecuting attorney of the
county in which any such action for penalties accruing under
this section or section seven of this article may be brought to
institute and prosecute all such actions on behalf of the director.

(d) For the purpose of this section, violations on separate
days are separate offenses.

(a) As the state of knowledge and technology relating to the
control of emissions from motor vehicles may permit or make
appropriate and in furtherance of the purposes of this article, the
director may provide by legislative rule for the control of
emissions from motor vehicles. The legislative rule may
prescribe requirements for the installation and use of equipment
designed to reduce or eliminate emissions and for the proper
maintenance of such equipment and of vehicles. Any legislative
rule pursuant to this section shall be consistent with provisions
of federal law, if any, relating to control of emissions from the vehicles concerned. The director shall not require, as a condition precedent to the initial sale of a vehicle or vehicular equipment, the inspection, certification or other approval of any feature or equipment designed for the control of emissions from motor vehicles, if such feature or equipment has been certified, approved or otherwise authorized pursuant to federal law.

(b) Except as permitted or authorized by law or legislative rule, no person shall fail to maintain in good working order or remove, dismantle or otherwise cause to be inoperative any equipment or feature constituting an operational element of the air pollution control system or mechanism of a motor vehicle required by rules of the director to be maintained in or on the vehicle. Any such failure to maintain in good working order or removal, dismantling or causing of inoperability subjects the owner or operator to suspension or cancellation of the registration for the vehicle by the department of transportation, division of motor vehicles. The vehicle is not thereafter eligible for registration until all parts and equipment constituting operational elements of the motor vehicle have been restored, replaced or repaired and are in good working order.

(c) The department of transportation, division of motor vehicles, department of administration, information and communication services division and the state police shall make available technical information and records to the director to implement the legislative rule regarding motor vehicle pollution, inspection and maintenance. The director may promulgate a legislative rule establishing motor vehicle pollution, inspection and maintenance standards and imposing an inspection fee at a rate sufficient to implement the motor vehicle inspection program and shall do so when required pursuant to federal law regarding attainment of ambient air quality standards.

(d) The director may promulgate a legislative rule requiring maintenance of features of equipment in or on motor vehicles for the purpose of controlling emissions therefrom and shall do so when required pursuant to federal law regarding attainment of ambient air quality standards, and no motor vehicle may be issued a division of motor vehicles registration certificate, or
the existing registration certificate shall be revoked, unless the
motor vehicle has been found to be in compliance with the
director’s legislative rule.

(e) The remedies and penalties provided in this section and
section one, article three, chapter seventeen-a of this code,
apply to violations hereof and the provisions of sections six or
seven of this article do not apply thereto.

(f) As used in this section “motor vehicle” has the same
meaning as in chapter seventeen-c of this code.

AN ACT to amend and reenact section ten, article eleven, chapter
twenty-two of the code of West Virginia, one thousand nine
hundred thirty-one, as amended, relating to application and permit
fees paid to the division of environmental protection for certain
permits; continuing the water quality management fund; permit-
ting the director of the division of environmental protection to
expend interest, assessments and other moneys deposited in the
water quality management fund; increasing maximum fees for
permit applications and permits issued under the water pollution
control act; exempting home aerator units of six hundred gallons
and under; changing the circumstances under which permits
become void for failure to pay annual permit fees; requiring the
director of the division of environmental protection to promulgate
emergency and legislative rules to implement a revised schedule
for application and permit fees; and reporting requirements.

Be it enacted by the Legislature of West Virginia:
That section ten, article eleven, chapter twenty-two of the code of West Virginia, one thousand nine hundred thirty-one, as amended, be amended and reenacted to read as follows:

ARTICLE 11. WATER POLLUTION CONTROL ACT.

(a) The special revenue fund designated the "Water Quality Management Fund" established in the state treasury on the first day of July, one thousand nine hundred eighty-nine is hereby continued.

(b) The permit application fees and annual permit fees established and collected pursuant to this section; any interest or surcharge assessed and collected by the director; interest accruing on investments and deposits of the fund; and any other moneys designated by the director shall be deposited into the water quality management fund. The director shall expend the proceeds of the water quality management fund for the review of initial permit applications, renewal permit applications and permit issuance activities.

(c) The director shall propose for promulgation, legislative rules in accordance with the provisions of chapter twenty-nine-a of this code, to establish a schedule of application fees for which the appropriate fee shall be submitted by the applicant to the division with the application filed pursuant to this article for any state water pollution control permit or national pollutant discharge elimination system permit. The schedule of application fees shall be designed to establish reasonable categories of permit application fees based upon the complexity of the permit application review process required by the division pursuant to the provisions of this article and the rules promulgated thereunder: Provided, That no initial application fee may exceed fifteen thousand dollars for any facility nor may any permit renewal application fee exceed five thousand dollars. The division may not process any permit application pursuant to this article until the required permit application fee has been received.

The schedule of annual permit fees shall be designed to establish reasonable categories of annual permit fees based upon the relative potential of categories or permits to degrade the waters of the state: Provided, however, That no annual permit fee may exceed five thousand dollars. The director may declare any permit issued pursuant to this article void when the annual permit fee is more than ninety days past due pursuant to the rules promulgated hereunder. Voiding of the permit will only become effective upon the date the director mails, by certified mail, written notice to the permittee’s last known address notifying the permittee that the permit has been voided.

(e) The director shall promulgate an emergency rule and propose a legislative rule for promulgation in accordance with the provisions of article three, chapter twenty-nine-a of this code by the first day of July, one thousand nine hundred ninety-nine, to implement the fee schedule authorized by the amendments to this section enacted in the year one thousand nine hundred ninety-nine. Beginning the first day of September, one thousand nine hundred ninety-nine, the director shall file a quarterly report with the joint committee on government and finance setting forth the fees established and collected pursuant to this section.

Article

2. Proof and Allowance or Claims Against Estates or Decedents.
4. Accounting by Fiduciaries.

ARTICLE 1. PERSONAL REPRESENTATIVES.

1 Subject to the provisions of section three, article five of this chapter governing the appointment of a nonresident of this state as an executor, where the will directs that an executor shall not give bond, it shall not be required of him or her, unless at the time the will is admitted to probate or at any time subsequently, on the application of any person interested, or from the knowledge of the court or clerk admitting the will to probate, it is deemed proper that bond ought to be given.

§44-1-11. When sheriff to administer estate.

1 If at any time two months elapse without there being an executor or administrator of the estate of a decedent (except during a contest about the decedent's will, or during the infancy or absence of the executor), the court or clerk before whom the will was admitted to probate, or having jurisdiction to grant administration, shall on motion of any person order the sheriff of the county to take into his or her possession the estate of such decedent and administer the same; whereupon such
sheriff, without taking any other oath of office, or giving any
other bond or security than he or she may have before taken or
given, shall be the administrator or administrator de bonis non
of the decedent, with his or her will annexed if there be a will,
and shall be entitled to all the rights and bound to perform all
the duties of the administrator. For his or her services as
administrator of an estate, the sheriff shall receive from the
estate a fee of five percent of the estate subject to administra-
tion, which fee shall be deposited to the treasury of the county.
Every sheriff shall, in the month of January in each year, make
a written report to the county commission of his or her county,
and if the court is not in session, then he or she shall file the
report with the clerk of the court, of the receipts and disburse-
ments of each estate so committed to him or her, and at the end
of his or her term of office make a complete report and settle-
ment of each estate so committed to him or her, and shall turn
over to his or her successor in office all moneys or property in
his or her hands remaining unadministered. The court or clerk
may, however, at any time afterward revoke such order and
allow any other person to qualify as the executor or administra-
tor; and the court, or the clerk thereof, shall, at the expiration of
the term of office of any sheriff, commit to his or her successor
in office any and all estates which may appear, by the final
report above required to be made by the sheriff at the end of his
or her term, not to have been fully administered. Every sheriff
to whom any estate shall have been committed, as aforesaid,
who shall fail to render any report as required herein, or who
shall fail to make such settlement within two months after the
end of his or her term of office shall be guilty of a misdemeanor
and, upon conviction thereof, shall be fined not less than fifty
nor more than five hundred dollars.

§44-1-14. Appraisal of estates in triplicate; disposition; authority
of appraisers to act throughout the state; hiring of
experts.

The real and personal estate of every deceased person, or in
which such deceased person had an interest at the time of his or
her death, shall be appraised by the personal representative of
such deceased person. Such personal representative, after first
taking an oath for the purpose, shall list and appraise at its real and actual value all the real estate and all the tangible property of every description owned by the deceased at the time of his or her death, including, but not limited to, all real estate and tangible property in which the decedent had an interest as joint tenant or otherwise or in which any beneficial interest passes to another person by reason of the death of such decedent whose estate is being so appraised and irrespective of whether such real estate or tangible property is subject to administration and located in each county or the counties, as the case may be. The personal representative shall also list and appraise at its real and actual value all of the decedent's intangible property of every description, including moneys, credits, investments, annuities, life insurance policies, (irrespective of whether such policies are payable to named beneficiaries or in trust or otherwise), judgments and decrees for moneys, notes, bonds, accounts and all other evidences of debt, whether owing to him or her by persons or corporations in or out of the state, and the number and value, including both the par value, if any, and the actual value, of any shares of capital stock owned by the decedent in any corporation, and every other item of intangible property of whatsoever nature or kind, including all intangible property in which the decedent had an interest as joint tenant or otherwise or in which any beneficial interest passes to another by reason of the death of such decedent, and irrespective of whether such intangible property is subject to administration and whether located in this state or elsewhere. Any real estate or interest therein so appraised shall be identified with particularity and description, shall identify the source of title in the decedent and the location of such realty for purposes of real property ad valorem taxation. In addition to all other information required by law, the appraisement shall contain and include a questionnaire designed and formulated by the tax commissioner which is designed for the purpose of examining the personal representative to determine that he or she has made a thorough and proper search and investigation as to the existence and value of each and every kind and species of property required to be included within, and subject to appraisement by, the provisions of this or any other section of this code, which said question-
naire shall be completed and answered upon the oath or adjuration of the personal representative or fiduciary.

The appraisement, list and questionnaire aforesaid shall be executed and signed by the personal representative. The original appraisement, list and questionnaire and two copies thereof must be returned to the clerk of the county commission by whom such personal representative was appointed or to the fiduciary supervisor within ninety days of the date of qualification of the personal representative. Such clerk or supervisor shall inspect such appraisement, list and questionnaire, see that the same are in proper form, and that all property, if any, suggested by the questionnaire is included within the appraisement. If such appraisement, list and questionnaire are returned to a fiduciary supervisor within ten days after they are received and approved by him or her, such supervisor shall deliver the same to the clerk of the county commission. Upon receipt of the appraisement, list and questionnaire, the clerk of the county commission shall record the same, with the certificate of approval of the supervisor, and mail a certified copy of the same to the tax commissioner of West Virginia. The date of return of an appraisement shall be entered by the clerk of the county commission in his or her record of fiduciaries. The appraisement and list shall be prima facie evidence of the value of the property embraced therein, and that the personal estate embraced therein which is subject to administration came to the hands of the personal representative. No person shall be permitted by any means whatsoever to avoid the appraisement and listing of his or her estate and of all property, real, tangible and intangible, of whatsoever nature and kind, in which a beneficial interest passes to another by reason of the death of the decedent and irrespective of whether such property is subject to administration as herein provided, nor shall his or her personal representative be permitted to do so. Any personal representative who refuses or declines, without reasonable cause, to comply with the provisions of this section shall be guilty of a misdemeanor and, upon conviction thereof, shall be fined not less than twenty-five dollars nor more than five hundred dollars.
Every personal representative shall have authority to retain or hire the services of such expert or experts as may be deemed appropriate to assist and advise him or her in and about his or her duties in appropriately and accurately appraising all or any part of the assets or property to be appraised according to the provisions of this section. Such expert or experts so retained or hired shall be compensated a reasonable sum by the personal representative from the assets coming into his or her hands or of which he or she is embraced, which compensation and the reasonableness thereof shall be subject to review and approval by the county commission, upon recommendation of the fiduciary supervisor.

ARTICLE 2. PROOF AND ALLOWANCE OF CLAIMS AGAINST ESTATES OF DECEDENTS.

§44-2-1. Reference of decedents' estates; proceedings thereon.

(a) Upon the return of the appraisement by the personal representative to the county clerk, the estate of his or her decedent shall, by order of the county commission to be then made, be referred to a fiduciary commissioner for proof and determination of debts and claims, establishment of their priority, determination of the amount of the respective shares of the legatees and distributees, and any other matter necessary and proper for the settlement of the estate: Provided, That in counties where there are two or more such commissioners, the estates of decedents shall be referred to such commissioners in rotation, in order that, so far as possible, there may be an equal division of the work. Notwithstanding any other provision of this code to the contrary, a fiduciary commissioner may not charge to the estate a fee greater than three hundred dollars and expenses for the settlement of an estate, except upon: (i) Approval of the personal representative; or (ii) a determination by the county commission after a hearing that complicating issues or problems attendant to such settlement substantiate the allowance of a greater fee.

(b) If the personal representative delivers to the clerk an appraisement of the assets of the estate showing their value to be fifty thousand dollars or less, exclusive of real estate specifically devised and nonprobate assets, or, if it appears to
the clerk that there is only one beneficiary of the probate estate
and that the beneficiary is competent at law, the clerk shall
record the appraisement and publish a notice once a week for
two successive weeks in a newspaper of general circulation
within the county of administration of the estate, substantially
as follows:

NOTICE OF PENDING OR
UNADMINISTERED ESTATE

"Notice is hereby given that settlement of the estate of the
following named decedents will proceed without reference to a
fiduciary commissioner unless within forty-five days from the
first publication of this notice such reference is requested by a
party in interest or an unpaid creditor files a claim and good
cause is shown to support reference to a fiduciary commis-

Dated this _____ day of _____________________, ____.

/ ________________________________

Clerk of the County Commission of
___________ County, West Virginia."

The clerk shall charge to the personal representative, and
receive, the reasonable cost of publication of the notice. If an
unpaid creditor files a claim against the estate, the personal
representative has twenty days after the date of the filing of a
claim against the estate of the decedent to approve or reject the
claim before the estate is referred to a fiduciary commissioner.
If the personal representative approves all claims as filed, then
no reference may be made.

The personal representative shall, within a reasonable time
after the date of recordation of the appraisement in such case:
(i) File a waiver of final settlement in accordance with the
provisions of section twenty-nine of this article; or (ii) make a
report to the clerk of his or her receipts, disbursements and
distribution and submit an affidavit stating that all claims
against the estate for expenses of administration, taxes and
debts of the decedent have been paid in full. The clerk shall
collect a fee of ten dollars for recording such report and
affidavit and for publication of the notice hereafter provided, the fee to be in lieu of any other fee provided by law for recording a report of settlement of the accounts of a decedent's personal representative. At least once a month the clerk shall cause to be published once a week for two successive weeks in a newspaper of general circulation within the county of the administration of the estate, with regard to reports received in the prior month, a notice substantially as follows:

NOTICE OF FILING OF ESTATE ACCOUNTS OR WAIVERS OF FINAL SETTLEMENT

"I have before me the account or waiver of final settlement of the executor(s) or administrator(s) of the estates of the following deceased persons:

Any person having a claim against the estate of any such deceased person, or who has any beneficial interest therein, may appear before me or the county commission at any time within thirty days after first publication of this notice, and request reference of said estate to a commissioner or object to confirmation of the accounting. In the absence of such request or objection, the accounting may be approved by the county commission.

Clerk of the County Commission of _______ County, West Virginia.”

If no such request or objection is made to the clerk or to the county commission, the county commission may confirm the report of the personal representative and thereupon the personal representative and his or her surety shall be discharged; but if such objection or request is made, the county commission may confirm the accounting and record the same or may refer the estate to one of its fiduciary commissioners: Provided, That the personal representative has twenty days after the date of the
filing of a claim or claims against the estate of the decedent to
approve or reject the claim before the estate is referred to a
fiduciary commissioner and if all claims are approved as filed,
then no reference may be made.

ARTICLE 4. ACCOUNTING BY FIDUCIARIES.

penalty.

(a) The provisions of this chapter notwithstanding, every
fiduciary for the estate of a resident decedent shall, within five
years of appointment as fiduciary make a full and final settle-
ment, report and accounting for the decedent’s estate in the
manner provided for in this code for accountings by fiduciaries,
and further shall, at the time of making the final settlement,
notify in writing the clerk of the county commission of the
county where the fiduciary was appointed that the final settle-
ment has been made.

(b) If the fiduciary is unable to make a full and final
settlement, report and accounting of the decedent’s estate
within the above time period because there have been unusual
or extraordinary circumstances, demands or conditions imposed
upon the fiduciary which have caused a delay in the final
settlement, he or she may request an extension of time in which
to make the settlement. Such request must be in writing to the
county commission and include a date by which the fiduciary
reasonably expects to make the full and final settlement.

(c) Any fiduciary failing to comply with this section, in
whole or in part, is personally liable to the beneficiaries or
creditors of the decedent’s estate for any loss or waste caused
by the failure to make the final settlement. The fiduciary shall
be guilty of a misdemeanor and, upon conviction thereof, shall
be fined not less than two hundred fifty dollars nor more than
one thousand dollars for failure to comply with this section,
except for good and sufficient cause shown.

(d) In the event the fiduciary has not made the final
settlement of the estate within five years of appointment, the
fiduciary shall notify the county commission that the final
settlement has not been made. If the fiduciary does not establish
good cause for not making the final settlement within the five-
year period, as determined by the county commission, the
fiduciary is discharged of his or her duties as fiduciary. The
sheriff of the county shall then take charge of the estate and
proceed to make a final settlement of the estate in an expedi-
tious manner.

(e) A fiduciary who fails to notify the county commission
in accordance with subsection (d) of this section shall be guilty
of a misdemeanor and, upon conviction thereof, shall be fined
not less than fifty dollars nor more than five hundred dollars.

The division of veterans affairs shall propose legislative rules for promulgation pursuant to the provisions of article three, chapter twenty-nine-a of this code specifying the manner in which the funds are spent, determining the ability of the surviving spouse to pay for the placement of the marker, and setting forth the standards to be used to determine the priority in which the veterans grave markers will be placed in the event that there are not sufficient funds to complete the placement of veterans grave markers in any one year, or at all. dollars of the one percent of net terminal income shall be
deposited in the state treasury in a special fund of the depart-

(d) Each licensed racetrack shall maintain in its account an
amount equal to or greater than the gross terminal income from
its operation of video lottery machines, to be electronically
transferred by the commission on dates established by the
commission. Upon a licensed racetrack's failure to maintain
this balance, the commission may disable all of a licensed
racetrack's video lottery terminals until full payment of all
amounts due is made. Interest shall accrue on any unpaid

mechanical and electronic meter readings. The licensed
racetrack is solely responsible for resolving income discrepan-
cies between actual money collected and the amount shown on
the accounting meters or on the commission's billing statement.

the licensed racetrack, the commission may make no credit
adjustments. For any video lottery terminal reflecting a discrepancy, the licensed racetrack shall submit to the commission the maintenance log which includes current mechanical meter readings and the audit ticket which contains electronic meter readings generated by the terminal's software. If the meter readings and the commission's records cannot be reconciled, final disposition of the matter shall be determined by the commission. Any accounting discrepancies which cannot be otherwise resolved shall be resolved in favor of the commission.

(g) Licensed racetracks shall remit payment by mail if the electronic transfer of funds is not operational or the commission notifies licensed racetracks that remittance by this method is required. The licensed racetracks shall report an amount equal to the total amount of cash inserted into each video lottery terminal operated by a licensee, minus the total value of game credits which are cleared from the video lottery terminal in exchange for winning redemption tickets, and remit the amount as generated from its terminals during the reporting period. The remittance shall be sealed in a properly addressed and stamped envelope and deposited in the United States mail no later than noon on the day when the payment would otherwise be completed through electronic funds transfer.

(h) Licensed racetracks may, upon request, receive additional reports of play transactions for their respective video lottery terminals and other marketing information not considered confidential by the commission. The commission may charge a reasonable fee for the cost of producing and mailing any report other than the billing statements.

(i) The commission has the right to examine all accounts, bank accounts, financial statements and records in a licensed racetrack's possession, under its control or in which it has an interest and the licensed racetrack shall authorize all third parties in possession or in control of the accounts or records to allow examination of any of those accounts or records by the commission.

Be it enacted by the Legislature of West Virginia:

That chapter forty-four-a of the code of West Virginia, one thousand nine hundred thirty-one, as amended, be amended by adding thereto a new article, designated article five, to read as follows:

ARTICLE 5. STANDBY GUARDIANSHIP.

§44A-5-1. Title.

This article may be cited as the “Standby Guardianship Act.”

(a) “Attending physician” means the physician who has primary responsibility for the treatment and care of a qualified parent.

(b) “Designation” means a writing that is: (i) Voluntarily executed in conformance with the requirements of section five of this article, signed by a parent; and (ii) names a person to act as standby guardian.

(c) “Determination of debilitation” means a written determination made by an attending physician that a qualified
parent is chronically and substantially unable to care for a minor child as a result of a debilitating illness, disease or injury. Such a determination shall include the physician's medical opinion to a reasonable degree of medical certainty regarding the nature, cause, extent and probable duration of the parent's debilitating condition.

(d) "Determination of incompetence" means a written determination made by the attending physician that to a reasonable degree of medical certainty a qualified parent is chronically and substantially unable to understand the nature and consequences of decisions concerning the care of a minor child as a result of a mental or organic impairment and consequently is unable to care for the child. Such a determination shall include the physician's medical opinion, to a reasonable degree of medical certainty, regarding the nature, cause, extent and probable duration of the parent's incompetence.

(e) "Functional parent" means a person other than a biological or adoptive parent, who is performing daily caretaking functions for the child.

(f) "Parent" means a biological or adoptive parent and includes a person, other than a parent, who has physical custody of a child and who has either been awarded custody by a court or claims a right to custody.

(h) "Qualified parent" means a parent who has been diagnosed, as evidenced in writing, by a licensed physician to be afflicted with a progressive or chronic condition caused by injury, disease or illness from which, to a reasonable degree of medical probability, the patient cannot recover and that is likely to lead to debilitation or incompetence.

(i) "Standby guardian" means a person who, in accordance with this article, is designated in writing or approved by the circuit court to temporarily assume the duties of guardian of the
person or property, or both, of a minor child, on behalf of or in conjunction with a qualified parent, upon the occurrence of a triggering event. A standby guardianship shall be so construed as to enable the parent to plan for the future of a child, without terminating parental or legal rights by creating coguardianship rights between a parent and a standby guardian who has the authority to act in a manner consistent with the known wishes of a qualified parent regarding the care, custody and support of the minor child.

(j) "Triggering event" means the event upon the occurrence of which the standby guardian may be authorized to act. The triggering event shall be specified in a court order or written designation and shall be the earlier of a determination of incompetence or the death of a qualified parent. In the case of a standby guardian judicially approved pursuant to section three of this article, the triggering event may also be specified as the qualified parent's written consent to the commencement of the standby guardian's authority. In the case of a standby guardian designated pursuant to section five of this article, the triggering event may also be specified as: (i) A determination of debilitation of the qualified parent; and (ii) that parent's written consent to the commencement of the designated standby guardian's authority.

§44A-5-3. Petition for approval of standby guardian; fees.

(a) Upon petition of a parent, functional parent or any person acting on parent's behalf, the circuit court of the county in which a child resides may approve a person as standby guardian for a child of a qualified parent upon the occurrence of a specific triggering event. If requested in the petition, the court may also approve an alternate standby guardian identified by the petitioner, to act in the event the standby guardian is unable or unwilling to assume the responsibilities of the standby guardianship.

(b) The petition shall include:

(1) The name and address of the petitioner and his or her relationship to the child, the name and address of the child's qualified parent, and the name and address of any other parent
(2) The name, address and birth date of the child;

(3) The nature of the proposed triggering event and, if written consent is chosen as the proposed triggering event, any factors or circumstances that must be present before the qualified parent's written consent is effective;

(4) Whether a determination of incompetence or debilitation has been made and, if so, when and by whom;

(5) Whether there is a significant risk that the qualified parent will die imminently or become physically or mentally incapable of caring for the child or die as a result of a progressive chronic condition or illness; however, a petitioner shall not be required to submit medical documentation of a parent's medical status with the petition;

(6) The name and address of the person proposed as standby guardian and any alternate standby guardian, and if the parent is competent, that the qualified parent approves of the persons proposed;

(7) Whether the petitioner requests that the person proposed as standby guardian be given authority as a guardian of the person or guardian of the property of the minor, or both;

(8) A statement of any known reasons why the child's other parent is not assuming or should not assume the responsibilities of a standby guardian;

(9) Whether there is any prior judicial history or pending litigation regarding custody of the child; and

(c) Upon filing of a petition, notice of the filing must be promptly given to each parent of the child whose identity and whereabouts are known to the petitioner, the child, if he or she is fourteen or more years of age, the proposed standby guardian and alternate, if any.
(1) The notice must be accompanied by a copy of the petition and shall be mailed by certified mail return receipt requested, by the petitioner.

(2) The notice should include a statement that no change in custody or other legal rights is effected by the appointment of a standby guardian and that it is not necessary for the recipient of the notice to appear. The notice should also state that any parent may request a hearing on the petition provided that such request is made within ten days from the date the notice was sent.

(d) A hearing must be held prior to any order approving the standby guardianship if there is another known parent who requests a hearing within ten days of the date that notice of filing was sent or if there is other litigation pending regarding the custody of the child.

(e) Prior to any hearing on the petition, the circuit court may appoint a discreet and competent attorney at law as guardian ad litem to represent the child pursuant to section ten, article four, chapter fifty-six of this code. If the petition for standby guardianship is filed by anyone other than a parent of the child, the circuit court shall appoint a guardian ad litem. The qualified parent shall not be required to appear at the hearing if he or she is medically unable to appear, except upon motion for good cause shown.

§44A-5-4. Circuit court’s order approving standby guardianship; authority; when effective.

(a) When a petition is filed by a person other than a parent having custody of the child, the standby guardian may be appointed only with the consent of the qualified parent unless the circuit court finds that such consent cannot be given for medical reasons.

(b) Upon consideration of the factors set out in subsection (b), section three of this article and finding that: (i) The child’s parent is a qualified parent; and (ii) appointment of a standby guardian is in the best interest of the child, the circuit court shall appoint the person requested in the petition as standby
guardian, and, if requested, the requested alternate standby guardian. However, when a petition is filed by a person other than a parent having custody of the child, the standby guardian shall be appointed only with the consent of the qualified parent unless the court finds that such consent cannot be given for medical reasons.

(c) The order shall specify the triggering event and shall provide that the authority of the standby guardian is effective: (i) Upon receipt of either a determination of incompetence or a certificate of death; or (ii) if so requested in the petition, upon receipt by the standby guardian of the qualified parent’s written consent and filing of this consent with the circuit court. The written consent shall be executed after the entry of the court order and signed by the qualified parent, or by another in his or her presence and on his or her behalf.

(d) As soon as practicable after entry of the order, a copy shall be served on the standby guardian.

(e) A standby guardian shall have the powers and duties of a guardian of the person and guardian of the property of a minor, unless otherwise specified in the order.

(f) The standby guardian shall file with the circuit court as soon as practicable but in no event later than thirty days following a parent’s death, determination of incompetence or consent, a copy of the certificate of death, determination of incompetence or consent of the qualified parent upon which the standby authority is based and a determination of debilitation. Failure to file within the time specified shall be grounds for the circuit court to rescind the authority of the standby guardian upon petition of any person, but all acts undertaken by the standby guardian on behalf of and in the interests of the child be valid and enforceable until authority is rescinded.

§44A-5-5. Written designation of a standby guardian by a parent; commencement of authority; approval required.

(a) A parent may execute a written designation of a standby guardian at anytime. The written designation shall be signed by the parent, witnessed by two adults. Another adult may sign the
written designation on behalf of the parent if the parent is physically unable to do so, provided the designation is signed at the express request of the parent and in the presence of the parent. The designated standby guardian or alternate may not sign on behalf of the parent. The signed designation shall be delivered to the standby guardian and any alternate named as soon as practicable. The written designation shall state:

(1) The name, address and birth date of the child affected;
(2) The triggering event; and

(b) Following such delivery of the designation, the authority of a standby guardian to act for a qualified parent shall commence upon the occurrence of the specified triggering event and receipt by him or her of: (i) A determination of incompetency; (ii) a certificate of death of the parent; or (iii) a determination of debilitation and the qualified parent's written consent to such commencement signed by the parent or another on his behalf and at his direction as provided in subsection (a) of this section for the designation.

(c) A standby guardian under a designation shall have the authority of a guardian of the person and a guardian of the property of the child, unless otherwise specified in the designation.

(d) A designated standby guardian or alternate shall file a petition for approval with the circuit court as soon as practicable after the occurrence of the triggering event but in no event later than thirty days after the date of the commencement of his or her authority. The authority of the standby guardian shall cease upon his or her failure to so file, but shall recommence upon such filing. The petition shall be accompanied by a copy of the designation and a: (i) Determination of incompetency; (ii) determination of debilitation and consent; or (iii) a certificate of death.

(e) The notice provisions of subsection (c), section three of this article shall apply to a petition filed pursuant to this section.
The circuit court shall enter in an order approving the designated guardian upon finding that:

1. The person was duly designated as standby guardian pursuant to the section and the designation has not been revoked;
2. A determination of incompetence was made; a determination of debilitation was made and the parent consented to commencement of the standby guardian’s authority; or the parent has died;
3. The best interests of the child will be served by approval of the standby guardian; and
4. If the petition is by an alternate, that the designated standby guardian is unwilling or unable to serve.

§44A-5-6. Further proceedings to determine permanent guardianship.

1. (a) If the triggering event was death of the qualified parent, the standby guardian shall within ninety days of such death, petition for appointment of a guardian for the child as otherwise provided by law or may initiate proceedings to determine legal and physical custody of the child pursuant to article four, chapter forty-eight, or both.
2. (b) In all other cases a standby guardian shall promptly after occurrence of the triggering event initiate such proceedings to determine guardianship and custody, absent objection by the qualified parent.
3. (c) The petition shall be accompanied by:
   1. The circuit court’s order approving the standby guardian or the qualified parent’s written designation of the standby guardian; and
   2. (i) The attending physician’s written determination of incompetence or debilitation; or (ii) certificate of death.

§44A-5-7. Revocation, refusal and termination of standby guardianship.

1. (a) The authority of a standby guardian approved by the circuit court may be revoked by the qualified parent by his or
her filing a notice of revocation with the circuit court. The
notice of revocation shall identify the standby guardian or
alternate standby guardian to which the revocation will apply.
A copy of the revocation shall also be delivered to the standby
guardian whose authority is revoked and any alternate standby
guardian who may then be authorized to act. At any time
following his or her approval by the circuit court, a standby
guardian may decline to serve by filing a written statement of
refusal with the court and having the statement personally
served on the qualified parent and any alternate standby
guardian who may then be authorized to act.

(b) When a written designation has been executed, but is
not yet effective because the triggering event has not yet
occurred, the parent may revoke or the prospective standby
guardian may refuse the designation by notifying the other
party in writing. A written designation may also be revoked by
the subsequent execution of an inconsistent designation.

(c) When a standby guardian’s authority is effective upon
debilitation or incompetence of the qualified parent, the standby
guardian’s authority to act on behalf of the parent continues
after the parent is restored to health unless the qualified parent
notifies the guardian and, if appropriate, the county commis-
sion, in writing, that the standby guardian’s authority is
revoked. If at any time the circuit court finds that the parent no
longer meets the definition of “qualified parent,” it shall rescind
its approval of the standby guardian.

A child’s parent, stepparent, functional parent, adult sibling
or any adult related to the child by blood or marriage may
petition the circuit court that approved the standby guardian at
any time following such approval for review of whether
continuation of the standby guardianship is in the best interest
of the child. Notice of the filing of a petition for review shall
promptly be given to the standby guardian, the child if the child
is fourteen or more years of age, and each parent of the child
whose identity and whereabouts are known or could reasonably
be ascertained.

under Title XVIII of the Social Security Act to meet the
requirements of paragraphs ten and eleven of Section 1861(s)
of such act, Title 42 U.S.C. §1395x. In determining whether
medical equipment is major medical equipment, the cost of
studies, surveys, designs, plans, working drawings, specifica-

§16-2D-3. Certificate of need; new institutional health services defined.

(a) Except as provided in section four of this article, any new institutional health service may not be acquired, offered or developed within this state except upon application for and receipt of a certificate of need as provided by this article. Whenever a new institutional health service for which a certificate of need is required by this article is proposed for a health care facility for which, pursuant to section four of this article, no certificate of need is or was required, a certificate of need shall be issued before the new institutional health service is offered or developed. No person may knowingly charge or bill for any health services associated with any new institutional health service that is knowingly acquired, offered or developed in violation of this article, and any bill made in violation of this section is legally unenforceable.

(b) For purposes of this article, a proposed "new institutional health service" includes:

The state agency shall promulgate emergency rules pursuant to the provisions of section fifteen, article three, chapter twenty-nine-a of this code by the first day of July, one thousand nine hundred ninety-nine, to specify the health services which are subject to certificate of need review. The state agency shall specify by rule those health services subject to certificate of need as recommended by the certificate of need study conducted pursuant to section nineteen-a, article twenty-nine-b of this chapter;

(9) The acquisition of major medical equipment;

§16-2D-4. Exemptions from certificate of need program.

(a) Except as provided in subsection (b), subdivision (9), section three of this article, nothing in this article or the rules adopted pursuant to the provisions of this article may be construed to authorize the licensure, supervision, regulation or control in any manner of the following:

(1) Private office practice of any one or more health professionals licensed to practice in this state pursuant to the provisions of chapter thirty of this code: Provided, That such exemption from review of private office practice shall not be construed to include such practices where major medical equipment otherwise subject to review under the provisions of this article is acquired, offered or developed: Provided, however, That such exemption from review of private office
practice shall not be construed to include the acquisition, offering or development of one or more health services, including ambulatory surgical facilities or centers, lithotripsy, magnetic resonance imaging and radiation therapy by one or more health professionals. The state agency shall adopt rules pursuant to section eight of this article which specify the health services acquired, offered or developed by health professionals which are subject to certificate of need review;

(2) Dispensaries and first-aid stations located within business or industrial establishments maintained solely for the use of employees: Provided, That such facility does not contain inpatient or resident beds for patients or employees who generally remain in the facility for more than twenty-four hours;

(3) Establishments, such as motels, hotels and boardinghouses, which provide medical, nursing personnel and health related services;

(4) The remedial care or treatment of residents or patients in any home or institution conducted only for those who rely solely upon treatment by prayer or spiritual means in accordance with the creed or tenets of any recognized church or religious denomination;

(5) The creation of new primary care services located in communities that are underserved with respect to primary care services: Provided, That to qualify for this exemption, an applicant must be a community-based nonprofit organization with a community board that provides or will provide primary care services to people without regard to ability to pay: Provided, however, That the exemption from certificate of need review of new primary care services provided by this subdivision shall not include the acquisition, offering or development of major medical equipment otherwise subject to review under the provisions of this article or to include the acquisition, offering or development of ambulatory surgical facilities, lithotripsy, magnetic resonance imaging or radiation therapy. The office of community and rural health services shall define which services constitute primary care services for purposes of
this subdivision, and shall, to prevent duplication of primary care services, determine whether a community is underserved with respect to certain primary care services within the meaning of this subdivision. Any organization planning to qualify for an exemption pursuant to this subdivision shall submit to the state agency a letter of intent describing the proposed new services and area of service; and

(6) The creation of birthing centers by nonprofit primary care centers that have a community board and provide primary care services to people in their community without regard to ability to pay, or by nonprofit hospitals with less than one hundred licensed acute care beds: Provided, That to qualify for this exemption, an applicant shall be located in an area that is underserved with respect to low-risk obstetrical services: Provided, however, That if a primary care center attempting to qualify for this exemption is located in the same county as a hospital that is also eligible for this exemption, or if a hospital attempting to qualify for this exemption is located in the same county as a primary care center that is also eligible for this exemption, then at least one primary care center and at least one hospital from said county shall collaborate for the provision of services at a birthing center in order to qualify for this exemption: Provided further, That for purposes of this subsection, a "birthing center" is a short-stay ambulatory health care facility designed for low-risk births following normal uncomplicated pregnancy. Any primary care center or hospital planning to qualify for an exemption pursuant to this subdivision shall submit to the state agency a letter of intent describing the proposed birthing center and area of service.

(b) (1) A health care facility is not required to obtain a certificate of need for the acquisition of major medical equipment to be used solely for research, the addition of health services to be offered solely for research, or the obligation of a capital expenditure to be made solely for research if the health care facility provides the notice required in subdivision (2) of this subsection, and the state agency does not find, within sixty
days after it receives such notice, that the acquisition, offering
or obligation will, or will have the effect to:

(A) Affect the charges of the facility for the provision of
medical or other patient care services other than the services
which are included in the research;

(B) Result in a substantial change to the bed capacity of the
facility; or

(C) Result in a substantial change to the health services of
the facility.

(2) Before a health care facility acquires major medical
equipment to be used solely for research, offers a health service
solely for research or obligates a capital expenditure solely for
research, such health care facility shall notify in writing the
state agency of such facility’s intent and the use to be made of
such medical equipment, health service or capital expenditure.

(3) If major medical equipment is acquired, a health service
is offered or a capital expenditure is obligated and a certificate
of need is not required for such acquisition, offering or obliga-
tion as provided in subdivision (1) of this subsection, such
equipment or service or equipment or facilities acquired
through the obligation of such capital expenditure may not be
used in such a manner as to have the effect or to make a change
described in paragraphs (A), (B) and (C) of said subdivision
unless the state agency issues a certificate of need approving
such use.

(4) For purposes of this subsection, the term “solely for
research” includes patient care provided on an occasional and
irregular basis and not as part of a research program.

(c) (1) The state agency may adopt rules pursuant to section
eight of this article to specify the circumstances under which a
certificate of need may not be required for the obligation of a
capital expenditure to acquire, either by purchase or under lease
or comparable arrangement, an existing health care facility:
Provided, That a certificate of need is required for the obliga-
tion of a capital expenditure to acquire, either by purchase or
under lease or comparable arrangement, an existing health care facility if:

(A) The notice required by subdivision (2) of this subsection is not filed in accordance with that subdivision with respect to such acquisition; or

(B) The state agency finds, within thirty days after the date it receives a notice in accordance with subdivision (2) of this subsection, with respect to such acquisition, that the services or bed capacity of the facility will be changed by reason of said acquisition.

(2) Before any person enters into a contractual arrangement to acquire an existing health care facility, such person shall notify the state agency of his or her intent to acquire the facility and of the services to be offered in the facility and its bed capacity. Such notice shall be made in writing and shall be made at least thirty days before contractual arrangements are entered into to acquire the facility with respect to which the notice is given. The notice shall contain all information the state agency requires.

(d) The state agency shall adopt rules pursuant to section eight of this article to specify the circumstances under which and the procedures by which a certificate of need may not be required for shared services between two or more acute care facilities providing services made available through existing technology that can reasonably be mobile. The state agency shall specify the types of items in the rules and under what circumstances mobile MRI and mobile lithotripsy may be so exempted from review. In no case, however, will mobile cardiac catheterization be exempted from certificate of need review. In addition, if the shared services mobile unit proves less cost effective than a fixed unit, the acute care facility will not be exempted from certificate of need review.

On a yearly basis, the state agency shall review existing technologies to determine if other shared services should be included under this exemption.
§16-2D-4a. Conversion of hospital acute beds to skilled nursing beds.

(a) Legislative findings and purpose. — The Legislature hereby finds and declares that a need exists for skilled nursing health care beds in this state due to a shortage of existing facilities with adequate bed capacity and lack of willingness to provide such services; that patients in need of skilled nursing services have sometimes been retained in an inappropriate level of care facility; that such practices have resulted in malutilization of health care facilities and resources; that there currently exists a surplus of acute care beds in hospitals, particularly those in rural areas within this state; that the surplus of acute care beds is, for the foreseeable future, permanent in nature; that the same excess capacity of acute care beds promotes economic inefficiencies in operation while failing to meet community needs; that nursing homes are unable under subsection (h), section five of this article, to add intermediate or dually certified beds to skilled nursing beds at the present time in numbers in excess of ten percent or not more than ten beds, whichever is less; and that remedial action by the Legislature is necessary to effectuate relief of these problems to promote the health and welfare of the citizens of the state by allowing, in certain instances, for the conversion of acute care beds to skilled nursing beds by hospitals, but with no increase in overall hospital bed capacity.

(b) Notwithstanding the provisions of subsection (h), section five of this article, and, further, notwithstanding the provisions of subsection (b), subdivision (4), section three of this article, the state agency shall adopt rules pursuant to section eight of this article, to exempt from review the conversion of acute care beds to skilled nursing care beds by a licensed hospital by the state department of health and human resources if the hospital meets the following conditions:

(1) It is located in a nonmetropolitan statistical area as defined by the bureau of census of the federal government;
(2) It has experienced an average occupancy rate of less than fifty percent for the twelve months preceding the date of request for this exemption; and

(3) The nursing home service area within which the hospital is located is under the bed ceiling as calculated by the thirty beds per thousand population formula as set forth in the long-term care chapter of the state health plan, except for the purposes of this article existing nursing home beds shall be used in the calculation.

(c) The state agency shall include in its rules requirements that:

(1) In converting beds, the hospital must change one acute care bed into one skilled nursing care bed;

(2) All acute care beds converted shall be permanently deleted from the hospital's acute-care bed complement and the hospital may not thereafter add, by conversion or otherwise, acute-care beds to its bed complement without satisfying the requirements of subsection (b), subdivision (4), section three of this article, for which purposes such an addition, whether by conversion or otherwise, shall be considered a substantial change to the bed capacity of the hospital notwithstanding the definition of that term found in subsection (ff), section two of this article;

(3) The hospital shall meet all applicable federal and state licensing requirements for the provisions of skilled nursing services including a requirement that all skilled care beds created under this exemption shall be located in distinct-part, long-term care units;

(4) No hospital is permitted to convert more than twenty-five percent of its licensed bed capacity in any twenty-four month period pursuant to this exemption; however, in the event that subsection (g), section five of this article, is repealed and to the extent that other methods of converting acute care beds are available under this article, the hospital may request certificate of need approval of such conversions; and
(5) The hospital shall undergo substantial compliance review of a conversion under this exemption under such terms and at such a time as set by the state agency in its rules.

(d) Nothing in this section negatively affects the rights of inspection and certification which are elsewhere required by federal law or regulations or by this code or duly adopted rule of an authorized state entity.

§16-2D-5. Powers and duties of state agency.

(a) The state agency shall administer the certificate of need program as provided by this article.

(b) The state agency is responsible for coordinating and developing the health planning research efforts of the state and for amending and modifying the state health plan which includes the certificate of need standards. The state agency shall review the state health plan, including the certificate of need standards and make any necessary amendments and modifications within three years from the effective date of this section. The state agency shall also review the cost effectiveness of the certificate of need program. The state agency may form task forces to assist it in addressing these issues. The task forces shall be composed of representatives of consumers, business, providers, payers and state agencies.

(c) The state agency may seek advice and assistance of other persons, organizations and other state agencies in the performance of the state agency’s responsibilities under this article.

(d) For health services for which competition appropriately allocates supply consistent with the state health plan, the state agency shall, in the performance of its functions under this article, give priority, where appropriate to advance the purposes of quality assurance, cost effectiveness and access, to actions which would strengthen the effect of competition on the supply of the services.

(e) For health services for which competition does not or will not appropriately allocate supply consistent with the state health plan, the state agency shall, in the exercise of its func-
...sions under this article, take actions, where appropriate to advance the purposes of quality assurance, cost effectiveness and access and the other purposes of this article, to allocate the supply of the services.

(f) Notwithstanding the provisions of section seven of this article, the state agency may charge a fee for the filing of any application, the filing of any notice in lieu of an application, the filing of any exemption determination request or the filing of any request for a declaratory ruling. The fees charged may vary according to the type of matter involved, the type of health service or facility involved or the amount of capital expenditure involved. The state agency shall implement this subsection by filing procedural rules pursuant to chapter twenty-nine-a of this code. The fees charged shall be deposited into a special fund known as the certificate of need program fund to be expended for the purposes of this article.

(g) No hospital, nursing home or other health care facility shall add any intermediate care or skilled nursing beds to its current licensed bed complement. This prohibition also applies to the conversion of acute care or other types of beds to intermediate care or skilled nursing beds: Provided, That hospitals eligible under the provisions of section four-a and subsection (i), section five of this article may convert acute care beds to skilled nursing beds in accordance with the provisions of these sections, upon approval by the state agency. Furthermore, no certificate of need shall be granted for the construction or addition of any intermediate care or skilled nursing beds except in the case of facilities designed to replace existing beds in unsafe existing facilities. A health care facility in receipt of a certificate of need for the construction or addition of intermediate care or skilled nursing beds which was approved prior to the effective date of this section shall incur an obligation for a capital expenditure within twelve months of the date of issuance of the certificate of need. No extensions shall be granted beyond the twelve-month period. The state agency shall establish a task force or utilize an existing task force to study the need for additional nursing facility beds in this state. The study shall include a review of the current moratorium on the
development of nursing facility beds; the exemption for the
conversion of acute care beds to skilled nursing facility beds;
the development of a methodology to assess the need for
additional nursing facility beds; and, certification of new beds
both by medicare and medicaid. The task force shall be com-
posed of representatives of consumers, business, providers,
payers and government agencies.

(h) No additional intermediate care facility for the mentally
retarded (ICF/MR) beds shall be granted a certificate of need,
except that prohibition does not apply to ICF/MR beds ap-
proved under the Kanawha County circuit court order of the
third day of August, one thousand nine hundred eighty-nine,
civil action number MISC-81-585 issued in the case of E. H. v.

(i) Notwithstanding the provisions of subsection (g), section
five of this article and, further notwithstanding the provisions
of subsection (b), section three of this article, an existing acute
care hospital may apply to the health care authority for a
certificate of need to convert acute care beds to skilled nursing
beds: Provided, That the proposed skilled nursing beds are
medicare certified only: Provided, however, That any hospital
which converts acute care beds to medicare certified only
skilled nursing beds shall not bill for any medicaid reimburse-
ment for any converted beds. In converting beds, the hospital
shall convert a minimum of one acute care bed into one
medicare certified only skilled nursing bed. The health care
authority may require a hospital to convert up to and including
three acute care beds for each medicare certified only skilled
nursing bed: Provided further, That a hospital designated or
provisionally designated by the state agency as a rural primary
care hospital may convert up to thirty beds to a distinct-part
nursing facility, including skilled nursing beds and intermediate
care beds, on a one-for-one basis if the rural primary care
hospital is located in a county without a certified free-standing
nursing facility and the hospital may bill for medicaid reim-
bursement for the converted beds: And provided further, That
if the hospital rejects the designation as a rural primary care
hospital then the hospital may not bill for medicaid reimburse-
ment. The health care authority shall adopt rules to implement this subsection which require that:

(1) All acute care beds converted shall be permanently deleted from the hospital's acute care bed complement and the hospital may not thereafter add, by conversion or otherwise, acute care beds to its bed complement without satisfying the requirements of subsection (b), section three of this article for which purposes an addition, whether by conversion or otherwise, shall be considered a substantial change to the bed capacity of the hospital notwithstanding the definition of that term found in subsection (ff), section two of this article.

(2) The hospital shall meet all federal and state licensing certification and operational requirements applicable to nursing homes including a requirement that all skilled care beds created under this subsection shall be located in distinct-part, long-term care units.

(3) The hospital shall demonstrate a need for the project.

(4) The hospital shall use existing space for the medicare certified only skilled nursing beds. Under no circumstances shall the hospital construct, lease or acquire additional space for purposes of this section.

(5) The hospital shall notify the acute care patient, prior to discharge, of facilities with skilled nursing beds which are located in or near the patient's county of residence. Nothing in this subsection negatively affects the rights of inspection and certification which are otherwise required by federal law or regulations or by this code or duly adopted rules of an authorized state entity.

(j) (1) Notwithstanding the provisions of subsection (g) of this section, a retirement life care center with no skilled nursing beds may apply to the health care authority for a certificate of need for up to sixty skilled nursing beds provided the proposed skilled beds are medicare certified only. On a statewide basis, a maximum of one hundred eighty skilled beds which are medicare certified only may be developed pursuant to this subsection. The state health plan is not applicable to projects
submitted under this subsection. The health care authority shall adopt rules to implement this subsection which shall include a requirement that:

(A) The one hundred eighty beds are to be distributed on a statewide basis;

(B) There be a minimum of twenty beds and a maximum of sixty beds in each approved unit;

(C) The unit developed by the retirement life care center meet all federal and state licensing certification and operational requirements applicable to nursing homes;

(D) The retirement center demonstrate a need for the project;

(E) The retirement center offer personal care, home health services and other lower levels of care to its residents; and

(F) The retirement center demonstrate both short and long-term financial feasibility.

(2) Nothing in this subsection negatively affects the rights of inspection and certification which are otherwise required by federal law or regulations or by this code or duly adopted rules of an authorized state entity.

(k) The state agency may order a moratorium upon the offering or development of a new institutional health service, when criteria and guidelines for evaluating the need for the new institutional health service have not yet been adopted or are obsolete. The state agency may also order a moratorium on the offering or development of a health service, notwithstanding the provisions of subdivision (5), subsection (b), section three of this article, when it determines that the proliferation of the service may cause an adverse impact on the cost of health care or the health status of the public. A moratorium shall be declared by a written order which shall detail the circumstances requiring the moratorium. Upon the adoption of criteria for evaluating the need for the health service affected by the moratorium, or one hundred eighty days from the declaration of a moratorium, whichever is less, the moratorium shall be
declared to be over and applications for certificates of need are processed pursuant to section six of this article.

(l) (1) The state agency shall coordinate the collection of information needed to allow the state agency to develop recommended modifications to certificate of need standards as required in this article. When the state agency proposes amendments or modifications to the certificate of need standards, it shall file with the secretary of state, for publication in the state register, a notice of proposed action, including the text of all proposed amendments and modifications, and a date, time and place for receipt of general public comment. To comply with the public comment requirement of this section, the state agency may hold a public hearing or schedule a public comment period for the receipt of written statements or documents.

(2) All proposed amendments and modifications to the certificate of need standards, with a record of the public hearing or written statements and documents received pursuant to a public comment period, shall be presented to the governor. Within thirty days of receiving the proposed amendments or modifications, the governor shall either approve or disapprove all or part of the amendments and modifications, and, for any portion of amendments or modifications not approved, shall specify the reason or reasons for nonapproval. Any portions of the amendments or modifications not approved by the governor may be revised and resubmitted.

(m) The state agency may exempt from or expedite rate review, certificate of need, and annual assessment requirements and issue grants and loans to financially vulnerable health care facilities located in underserved areas that the state agency and the office of community and rural health services determine are collaborating with other providers in the service area to provide cost effective health care services.

§16-2D-6. Minimum criteria for certificate of need reviews.

(a) Except as provided in subsection (f), section nine of this article, in making its determination as to whether a certificate of need shall be issued, the state agency shall, at a minimum,
consider all of the following criteria that are applicable: Provided, That the criteria set forth in subsection (f) of this section apply to all hospitals, nursing homes and health care facilities when ventilator services are to be provided for any nursing facility bed:

(1) The relationship of the health services being reviewed to the state health plan;

(2) The relationship of services reviewed to the long-range development plan of the person providing or proposing the services;

(3) The need that the population served or to be served by the services has for the services proposed to be offered or expanded, and the extent to which all residents of the area, and in particular low income persons, racial and ethnic minorities, women, handicapped persons, other medically underserved population, and the elderly, are likely to have access to those services;

(4) The availability of less costly or more effective alternative methods of providing the services to be offered, expanded, reduced, relocated or eliminated;

(5) The immediate and long-term financial feasibility of the proposal as well as the probable impact of the proposal on the costs of and charges for providing health services by the person proposing the new institutional health service;

(6) The relationship of the services proposed to the existing health care system of the area in which the services are proposed to be provided;

(7) In the case of health services proposed to be provided, the availability of resources, including health care providers, management personnel, and funds for capital and operating needs, for the provision of the services proposed to be provided and the need for alternative uses of these resources as identified by the state health plan and other applicable plans;

(8) The appropriate and nondiscriminatory utilization of existing and available health care providers;
(9) The relationship, including the organizational relationship, of the health services proposed to be provided to ancillary or support services;

(10) Special needs and circumstances of those entities which provide a substantial portion of their services or resources, or both, to individuals not residing in the health service areas in which the entities are located or in adjacent health service areas. The entities may include medical and other health professional schools, multidisciplinary clinics and specialty centers;

(11) In the case of a reduction or elimination of a service, including the relocation of a facility or a service, the need that the population presently served has for the service, the extent to which that need will be met adequately by the proposed relocation or by alternative arrangements, and the effect of the reduction, elimination or relocation of the service on the ability of low income persons, racial and ethnic minorities, women, handicapped persons, other medically underserved population, and the elderly, to obtain needed health care;

(12) In the case of a construction project: (A) The cost and methods of the proposed construction, including the costs and methods of energy provision; and (B) the probable impact of the construction project reviewed on the costs of providing health services by the person proposing the construction project and on the costs and charges to the public of providing health services by other persons;

(13) In the case of health services proposed to be provided, the effect of the means proposed for the delivery of proposed health services on the clinical needs of health professional training programs in the area in which the services are to be provided;

(14) In the case of health services proposed to be provided, if the services are to be available in a limited number of facilities, the extent to which the schools in the area for health professions will have access to the services for training purposes;
(15) In the case of health services proposed to be provided, the extent to which the proposed services will be accessible to all the residents of the area to be served by the services;

(16) In accordance with section five of this article, the factors influencing the effect of competition on the supply of the health services being reviewed;

(17) Improvements or innovations in the financing and delivery of health services which foster competition, in accordance with section five of this article, and serve to promote quality assurance and cost effectiveness;

(18) In the case of health services or facilities proposed to be provided, the efficiency and appropriateness of the use of existing services and facilities similar to those proposed;

(19) In the case of existing services or facilities, the quality of care provided by the services or facilities in the past;

(20) In the case where an application is made by an osteopathic or allopathic facility for a certificate of need to construct, expand, or modernize a health care facility, acquire major medical equipment, or add services, the need for that construction, expansion, modernization, acquisition of equipment, or addition of services shall be considered on the basis of the need for and the availability in the community of services and facilities for osteopathic and allopathic physicians and their patients. The state agency shall consider the application in terms of its impact on existing and proposed institutional training programs for doctors of osteopathy and medicine at the student, internship, and residency training levels;

(21) The special circumstances of health care facilities with respect to the need for conserving energy;

(22) The contribution of the proposed service in meeting the health related needs of members of medically underserved populations which have traditionally experienced difficulties in obtaining equal access to health services, particularly those needs identified in the state health plan as deserving of priority. For the purpose of determining the extent to which the proposed service will be accessible, the state agency shall consider:
(A) The extent to which medically underserved populations currently use the applicant’s services in comparison to the percentage of the population in the applicant’s service area which is medically underserved, and the extent to which medically underserved populations are expected to use the proposed services if approved;

(B) The performance of the applicant in meeting its obligation, if any, under any applicable federal regulations requiring provision of uncompensated care, community service, or access by minorities and handicapped persons to programs receiving federal financial assistance, including the existence of any civil rights access complaints against the applicant;

(C) The extent to which medicare, medicaid and medically indigent patients are served by the applicant; and

(D) The extent to which the applicant offers a range of means by which a person will have access to its services, including, but not limited to, outpatient services, admission by a house staff and admission by personal physician;

(23) The existence of a mechanism for soliciting consumer input into the health care facility’s decision making process.

(b) The state agency may include additional criteria which it prescribes by rules adopted pursuant to section eight of this article.

(c) Criteria for reviews may vary according to the purpose for which a particular review is being conducted or the types of health services being reviewed.

(d) An application for a certificate of need may not be made subject to any criterion not contained in this article or not contained in rules adopted pursuant to section eight of this article.

(e) In the case of any proposed new institutional health service, the state agency may not grant a certificate of need under its certificate of need program unless, after consideration of the appropriateness of the use of existing facilities providing services similar to those being proposed, the state agency
makes, in addition to findings required in section nine of this article, each of the following findings in writing: (1) That superior alternatives to the services in terms of cost, efficiency and appropriateness do not exist and the development of alternatives is not practicable; (2) that existing facilities providing services similar to those proposed are being used in an appropriate and efficient manner; (3) that in the case of new construction, alternatives to new construction, such as modernization or sharing arrangements, have been considered and have been implemented to the maximum extent practicable; (4) that patients will experience serious problems in obtaining care of the type proposed in the absence of the proposed new service; and (5) that in the case of a proposal for the addition of beds for the provision of skilled nursing or intermediate care services, the addition will be consistent with the plans of other agencies of the state responsible for the provision and financing of long-term care facilities or services including home health services.

(f) In the case where an application is made by a hospital, nursing home or other health care facility to provide ventilator services which have not previously been provided for a nursing facility bed, the state agency shall consider the application in terms of the need for the service and whether the cost exceeds the level of current medicaid services. No facility may, by providing ventilator services, provide a higher level of service for a nursing facility bed without demonstrating that the change in level of service by provision of the additional ventilator services will result in no additional fiscal burden to the state.

(g) In the case where application is made by any person or entity to provide personal care services which are to be billed for medicaid reimbursement, the state agency shall consider the application in terms of the need for the service and whether the cost exceeds the level of the cost of current medicaid services. No person or entity may provide personal care services to be billed for medicaid reimbursement without demonstrating that the provision of the personal care service will result in no additional fiscal burden to the state: Provided, That a certificate of need is not required for a person providing specialized foster care personal care services to one individual and those services

§16-2D-7. Procedures for certificate of need reviews.

(a) Prior to submission of an application for a certificate of need, the state agency shall require the submission of long-range plans by health care facilities with respect to the development of proposals subject to review under this article. The plans shall be in such form and contain such information as the state agency requires.

(b) An application for a certificate of need shall be submitted to the state agency prior to the offering or development of all new institutional services within this state. Persons proposing new institutional health services shall submit letters of intent not less than fifteen days prior to submitting an application. The letters of intent shall be of such detail as specified by the state agency.

(c) The state agency may adopt rules pursuant to section eight of this article for:

(1) Provision for applications to be submitted in accordance with a timetable established by the state agency;

(2) Provision for such reviews to be undertaken in a timely fashion; and

(3) Except for proposed new institutional health services which meet the requirements for consideration under subsection (f), section nine of this article with regard to the elimination or prevention of certain imminent safety hazards or to comply with certain licensure or accreditation standards, provision for all completed applications pertaining to similar types of services, facilities or equipment to be considered in relation to each other, at least three times a year.

(d) An application for a certificate of need shall specify the time the applicant will require to make such service or equipment available or to obligate such expenditure and a timetable
for making such service or equipment available or obligating such expenditure.

(e) The application shall be in such form and contain such information as the state agency establishes by rule, but requests for information shall be limited to only that information which is necessary for the state agency to perform the review.

(f) Within fifteen days of receipt of application, the state agency shall determine if the application is complete. The state agency may request additional information from the applicant.

(g) The state agency shall provide timely written notice to the applicant and to all affected persons of the beginning of the review, and to any person who has asked the state agency to place the person's name on a mailing list maintained by the state agency. Notification shall include the proposed schedule for review, the period within which a public hearing during the course of the review may be requested by affected persons, which period may not be less than thirty days from the date of the written notification of the beginning of the review required by this section, and the manner in which notification will be provided of the time and place of any public hearing so requested. For the purposes of this subsection, the date of notification is the date on which the notice is sent or the date on which the notice appears in a newspaper of general circulation, whichever is later.

(h) Written notification to members of the public and third-party payers may be provided through newspapers of general circulation in the applicable health service area and public information channels; notification to all other affected persons shall be by mail which may be as part of a newsletter.

(i) If, after a review has begun, the state agency requires the person subject to the review to submit additional information respecting the subject of the review, such person shall be provided at least fifteen days to submit the information and the state agency shall, at the request of such person, extend the review period by fifteen days. This extension applies to all other applications which have been considered in relation to the application for which additional information is required.
(j) The state agency shall adopt schedules for reviews which provide that no review may, to the extent practicable, take longer than ninety days from the date that notification, as described under subsection (g) of this section, is sent to the applicant to the date of the final decision of the state agency, and in the case of expedited applications, may by rules adopted pursuant to section eight of this article provide for a shortened review period.

(k) The state agency shall adopt criteria for determining when it would not be practicable to complete a review within ninety days.

(l) The state agency shall provide a public hearing in the course of agency review if requested by any affected person and the state agency may on its own initiate such a public hearing:

1. The state agency shall, prior to such hearing, provide notice of such hearing and shall conduct such hearing in accordance with administrative hearing requirements in article five, chapter twenty-nine-a of this code, and its procedure adopted pursuant to this section.

2. In a hearing any person has the right to be represented by counsel and to present oral or written arguments and evidence relevant to the matter which is the subject of the hearing. Any person affected by the matter which is the subject of the hearing may conduct reasonable questioning of persons who make factual allegations relevant to such matter.

3. The state agency shall maintain a verbatim record of the hearing.

4. After the commencement of a hearing on the applicant's application and before a decision is made with respect to it, there may be no ex parte contacts between: (A) The applicant for the certificate of need, any person acting on behalf of the applicant or holder of a certificate of need, or any person opposed to the issuance of a certificate for the applicant; and (B) any person in the state agency who exercises any responsibility respecting the application.
(5) The state agency may not impose fees for such a public hearing.

(m) If a public hearing is not conducted during the review of a new institutional health service, the state agency may, by rules adopted pursuant to section eight of this article, provide for a file closing date during the review period after which date no other factual information or evidence may be considered in the determination of the application for the certificate of need. A detailed itemization of documents in the state agency file on a proposed new institutional health service shall, on request, be made available by the state agency at any time before the file closing date.

(n) The extent of additional information received by the state agency from the applicant for a certificate of need after a review has begun on the applicant's proposed new institutional health service, with respect to the impact on such new institutional health service and additional information which is received by the state agency from the applicant, may be cause for the state agency to determine the application to be a new proposal, subject to a new review cycle.

(o) The state agency shall in timely fashion notify, upon request, providers of health services and other persons subject to review under this article of the status of the state agency review of new institutional health services subject to review, findings made in the course of such review, and other appropriate information respecting such review.

(p) The state agency shall prepare and publish, at least annually, reports of reviews completed and being conducted, with general statements about the status of each review still in progress and the findings and rationale for each completed review since the publication of the last report.

(q) The state agency shall provide for access by the general public to all applications reviewed by the state agency and to all other pertinent written materials essential to agency review.

(r) (1) Any person may request in writing a public hearing for purposes of reconsideration of a state agency decision. No
fees may be imposed by the state agency for the hearing. For purposes of this section, a request for a public hearing for purposes of reconsideration shall be considered to have shown good cause if, in a detailed statement, it:

(A) Presents significant, relevant information not previously considered by the state agency, and demonstrates that with reasonable diligence the information could not have been presented before the state agency made its decision;

(B) Demonstrates that there have been significant changes in factors or circumstances relied upon by the state agency in reaching its decision;

(C) Demonstrates that the state agency has materially failed to follow its adopted procedures in reaching its decision; or

(D) Provides such other bases for a public hearing as the state agency determines constitutes good cause.

(2) To be effective, a request for such a hearing shall be received within thirty days after the date of the state agency decision, and the hearing shall commence within thirty days of receipt of the request.

(3) Notification of such public hearing shall be sent, prior to the date of the hearing, to the person requesting the hearing, the person proposing the new institutional health service, and to others upon request.

(4) The state agency shall hold public reconsideration hearings in accordance with the provisions for administrative hearings contained in:

(A) Its adopted procedures;

(B) Ex parte contact provisions of subdivision (4), subsection (1) of this section; and

(C) The administrative procedures for contested cases contained in article five, chapter twenty-nine-a of this code.

(5) The state agency shall make written findings which state the basis for its decision within forty-five days after the conclusion of such hearing.
(6) A decision of the state agency following a reconsideration hearing shall be considered a decision of the state agency for purposes of sections nine and ten of this article and for purposes of the notification of the status of review, findings and annual report provisions of subsections (o) and (p) of this section.

(s) The state agency may adopt rules pursuant to section eight of this article for reviews and such rules may vary according to the purpose for which a particular review is being conducted or the type of health services being reviewed.

(t) Notwithstanding other provisions of this article, the state agency shall adopt rules for determining when there is an application which warrants expedited review.

(u) Notwithstanding other provisions of this article, the state agency shall promulgate emergency rules pursuant to the provisions of section fifteen, article three, chapter twenty-nine-a of this code by the first day of July, one thousand nine hundred ninety-nine, to establish a review process for nonhealth related projects. The review process shall not exceed forty-five days. The state agency shall specify in the rule which projects are eligible for this review.

§16-2D-7a. Coordination and filing with consumer advocate.

Each health care facility or health care provider filing a certificate of need application with the state agency pursuant to sections four and seven of this article shall notify the director of the office of consumer advocacy established pursuant to section sixteen, article two, chapter thirty-three of this code of said application by submitting a copy of the same to the office of the consumer advocate on or before the date of such filing.

§16-2D-8. Agency to promulgate additional rules.

(a) The state agency may promulgate additional rules:

(1) To carry out the provisions of this article; and

(2) To assure hospitals' compliance with requests for information concerning rates charged for each of the twenty-
five most frequently used hospital services in the state including the average semiprivate and private room rates.

(b) All rules shall be promulgated pursuant to chapter twenty-nine-a of this code and as described herein. In addition, before adopting proposed rules the state agency shall give interested persons an opportunity to offer written comments on the rules, or any revisions thereof, which it proposes to adopt.

(c) Subsequent amendments and modifications to any rule promulgated pursuant to this article may be implemented by emergency rule.

§16-2D-9. Agency to render final decision; issue certificate of need; write findings; specify capital expenditure maximum.

(a) Only the state agency, or the appropriate administrative or judicial review body, may issue, deny or withdraw certificates of need, grant exemptions from certificate of need reviews, or determine that certificate of need reviews are not required.

(b) A certificate of need may only be issued if the proposed new institutional health service is:

   (1) Found to be needed; and
   (2) Except in emergency circumstances that pose a threat to public health, consistent with the state health plan.

(c) The state agency shall render a final decision on every application for a certificate of need or application for exemption in the form of an approval, a denial, or an approval with conditions. Any decision of the state agency with respect to a certificate of need, or exemption, shall be based solely on:

   (1) The review of the state agency conducted in accordance with procedures and criteria in this article and in rules adopted pursuant to section eight of this article; and
   (2) The record established in administrative proceedings held with respect to the certificate of need or exemption.

(d) Approval with conditions does not give the state agency authority to mandate new institutional health services not
proposed by the health care facility or health maintenance
organization. Issuance of a certificate of need or exemption may
not be made subject to any condition unless the condition
directly relates to criteria in this article or in rules adopted
pursuant to section eight of this article. Conditions may be
imposed upon the operations of the health care facility or health
maintenance organization for no longer than a three-year
period. Compliance with such conditions may be enforced
through the mechanisms detailed in section thirteen of this
article.

(e) (1) For each proposed new institutional health service it
approves, the state agency shall, in addition to the written
findings required in subsection (e), section six of this article,
make a written finding, which shall take into account the
current accessibility of the facility as a whole, on the extent to
which the new institutional health service will meet the criteria
in subdivisions (3), (11) and (22), subsection (a), section six of
this article, regarding the needs of medically underserved
population, except in the following cases:

(A) Where the proposed new institutional health service is
one described in subsection (f) of this section to eliminate or
prevent certain imminent safety hazards or to comply with
certain licensure or accreditation standards; or

(B) Where the new institutional health service is a proposed
capital expenditure not directly related to the provision of
health services or to beds or major medical equipment.

(2) If the state agency disapproves a proposed new institu-
tional health service for failure to meet the needs of medically
underserved populations, it shall so state in a written finding.

(f) (1) Notwithstanding review criteria in section six of this
article, an application for a certificate of need shall be ap-
proved, if the state agency finds that the facility or service with
respect to which such capital expenditure is proposed to be
made is needed and that the obligation of such capital expendi-
ture is consistent with the state health plan, for a capital
expenditure which is required:
(A) To eliminate or prevent imminent safety hazards as defined by federal, state or local fire, building or life safety codes, rules or regulations;

(B) To comply with state licensure standards; or

(C) To comply with accreditation or certification standards, compliance with which is required to receive reimbursements under Title XVIII of the Social Security Act or payments under the state plan for medical assistance approved under Title XIX of such act.

(2) An application for a certificate of need approved under this subsection shall be approved only to the extent that the capital expenditure is required to eliminate or prevent the hazards described in subparagraph (A), subdivision (1), subsection (f) of this section, or to comply with the standards described in either subparagraph (B) or (C), subdivision (1), subsection (f) of this section.

(g) The state agency shall send its decision along with written findings to the person proposing the new institutional health service or exemption and shall make it available to others upon request.

(h) In the case of a final decision to approve or approve with conditions a proposal for a new institutional health service, the state agency shall issue a certificate of need to the person proposing the new institutional health service.

(i) The state agency shall specify in the certificate the maximum amount of capital expenditures which may be obligated under such certificate. The state agency shall prescribe the method used to determine capital expenditure maximums and shall adopt rules pursuant to section eight of this article for the review of approved new institutional health services for which the capital expenditure maximum is exceeded or is expected to be exceeded.

(j) If the state agency fails to make a decision within the time period specified for the review, the applicant may, within one year following the expiration of such period, bring an
action, at the election of the applicant, in either the circuit court of Kanawha County, or with the judge thereof in vacation, or in the circuit court of the county in which the applicant or any one of the applicants resides or does business, or with the judge thereof in vacation to require the state agency to approve or disapprove the application. An application for a proposed new institutional health service or exemption may not be approved or denied by the circuit court solely because the state agency failed to reach a decision.

§16-2D-10. Appeal of certificate of need decisions.

(a) A final decision of the state agency, including a state agency decision issued after a reconsideration, if such reconsideration was requested and granted under subsection (r), section seven of this article, and the record upon which it was made, shall upon request of any affected persons be reviewed by an agency of the state (other than the state agency) designated by the governor. To be effective, such request shall be received within thirty days after the date the affected person received notice of the state agency decision, and the hearing shall commence within thirty days of receipt of the request.

(b) To the extent not inconsistent with this section, for the purpose of administrative reviews of state agency decisions, the review agency shall conduct its proceedings in conformance with the West Virginia rules of civil procedure for trial courts of record and the local rules for use in the civil courts of Kanawha County and shall review appeals in accordance with the provisions governing the judicial review of contested administrative cases in section four, article five, chapter twenty-nine-a of this code, notwithstanding the exceptions of section five, article five, chapter twenty-nine-a of this code.

(c) The decision of the reviewing agency shall be made in writing within forty-five days after the conclusion of such hearing.

(d) The written findings of the review agency shall be sent to the person who requested the review, to the person proposing the new institutional health service and to the state agency, and
shall be made available by the state agency to others upon request.

(e) The decision of the reviewing agency shall be considered the final decision of the state agency; however, the reviewing agency may remand the matter to the state agency for further action or consideration.

(f) Upon the entry of a final decision by the reviewing agency any "person adversely affected by the review" has standing in and may within thirty days after the date such person received notice of the decision of the review agency take an appeal at the election of the petitioner, in either the circuit court of Kanawha County, or in the circuit court of the county in which the petitioner or any of the petitioners resides or does business, from any decision of the state agency granting, with or without conditions, denying or withdrawing a certificate of need or exemption. The decision of the review agency shall be reviewed by such circuit court in accordance with the provisions for the judicial review of administrative decisions contained in section four, article five, chapter twenty-nine-a of this code. For the purposes of this subsection, "person adversely affected by the review" includes the state agency and any person who meets the definition of affected person in section two of this article.

§16-2D-11. Nontransference, time period compliance and withdrawal of certificate of need.

(a) A certificate of need is nontransferable and shall be valid for a maximum of one year from the date of issuance. A transfer includes the sale, lease, transfer of stock or partnership shares, or other comparable arrangement which has the effect of transferring the control of the owner of the certificate of need. Upon the expiration of the certificate or during the certification period, the person proposing the new institutional health service shall provide the state agency such information on the development of the project as the state agency may request. The state agency shall periodically monitor capital expenditures obligated under certificates, determine whether sufficient progress is being made in meeting the timetable
specified in the approved application for the certificate and whether there has been compliance with the application and any conditions of certification. The certificate of need may be extended by the state agency for additional periods of time as are reasonably necessary to expeditiously complete the project. A certificate of need may no longer be in effect, and may no longer be required, after written notice of substantial compliance with the approved application and any conditions of certification is issued to the applicant, after the activity is undertaken for which the certificate of need was issued, and after the state agency is provided written notice of such undertaking. The person proposing a new institutional health service may not be issued a license therefor until the state agency has issued a written notice of substantial compliance with the approved application and any conditions of certification, nor may a new institutional health service be used until such person has received such notice. A new institutional health service may not be found to be in substantial compliance with the approved application and any conditions of certification if there is a substantial change, as defined in rules adopted pursuant to subsection (b), subdivision (10), section three of this article, in an approved new institutional health service for which change a certificate of need has not been issued.

(b) (1) The certificate of need may be withdrawn by the state agency for:

(A) Insufficient progress in meeting the timetable specified in the approved application for the certificate and for not making a good faith effort to meet it in developing the project; or

(B) Noncompliance with any conditions of certification; or

(C) A substantial change, as defined in rules adopted pursuant to subdivision (10), subsection (b), section three of this article, in an approved new institutional health service for which change a certificate of need has not been issued; or

(D) Material misrepresentation by an applicant upon which the state agency relied in making its decision; or
(E) Other reasons that may be established by the state agency in rules adopted pursuant to section eight of this article.

(2) Any decision of the state agency to withdraw a certificate of need shall be based solely on:

(A) The provisions of this article and on rules adopted in accordance with section eight of this article; and

(B) The record established in administrative proceedings held with respect to the state agency’s proposal to withdraw the certificate.

(3) In the case of a proposed withdrawal of a certificate of need:

(A) After commencement of a hearing on the state agency’s proposal to withdraw a certificate of need and before a decision is made on withdrawal, there may be no ex parte contacts between: (i) The holder of the certificate of need, any person acting on behalf of the holder, or any person in favor of the withdrawal; and (ii) any person in the state agency who exercises responsibility respecting withdrawal of the certificate;

(B) The state agency shall follow the notification of review provisions of subsections (g) and (h), the public hearing provisions of subsection (l), the notification of the status of review and findings provisions of subsection (o), the annual report provisions of subsection (p), and the reconsideration provisions of subsection (r), all of section seven of this article, and the conditional decision provisions of subsection (d), and the notification of decision and findings provisions of subsection (g), section nine of this article; and

(C) Appeals of withdrawals of certificates of need shall be made pursuant to section ten of this article.

(4) A new institutional health service may not be acquired, offered, or developed within this state if a certificate of need authorizing that new institutional health service has been withdrawn by the state agency and the acquisition, offering, or development of the new institutional health service is subject to review under this article.
§16-2D-13. Injunctive relief; civil penalty.

(a) In addition to all other remedies, and aside from various penalties provided by law, if any person acquires, offers or develops any new institutional health service for which a certificate of need is required under this article without first having a certificate of need therefor as herein provided, or violates any other provision of this article or any lawful rule promulgated thereunder, the state agency may maintain a civil action in the circuit court of the county wherein such violation has occurred, or wherein such person may be found, to enjoin, restrain or prevent such violation. No injunction bond shall be required to be filed in any such proceeding.

(b) The state agency may assess a civil penalty for violation of this article. Upon the state agency determining that there is probable cause to believe that any person is knowingly offering, developing, or has acquired any new institutional health service subject to certificate of need review without having first obtained a certificate of need therefor or that any person is otherwise in violation of the provisions of this article, or any lawful rule promulgated thereunder, the state agency shall provide such person with written notice which shall state the nature of the alleged violation and the time and place at which such person shall appear to show good cause why a civil penalty should not be imposed, at which time and place such person shall be afforded an opportunity to cross-examine the state agency's witnesses and afforded an opportunity to present testimony and other evidence in support of his position. The hearing shall be conducted in accordance with the administrative hearing provisions of section four, article five, chapter twenty-nine-a of this code. If, after reviewing the record of such hearing, the state agency director determines that such person is in violation of the certificate of need law, the state agency shall assess a civil penalty of not less than five hundred dollars nor more than twenty-five thousand dollars. In determining the amount of the penalty, the state agency shall consider the degree and extent of harm caused by the violation and the cost of rectifying the damage. Any person assessed shall be notified of the assessment in writing, and the notice shall specify the
reasons for the assessment. If the person assessed fails to pay
the amount of the assessment to the state agency within thirty
days, the state agency may institute a civil action in the circuit
court of the county wherein such violation has occurred, or
wherein such person may be found to recover the amount of the
assessment. In any such civil action, the scope of the court's
review of the state agency's action, which shall include a
review of the amount of the assessment, shall be as provided in
section four, article five, chapter twenty-nine-a of this code for
the judicial review of contested administrative cases.

All rules previously promulgated to implement this article
shall continue in force following the amendments to this article;
except that, where such previous rules differ from the require-
ments of the amendments to this article, then such part of those
rules are hereby abrogated and shall have no further legal
effect. The state agency shall commence a review of such rules
and shall promulgate revised rules.

and certain statutory requirements.

Be it enacted by the Legislature of West Virginia:

ARTICLE 2D. CERTIFICATE OF NEED.

§16-2D-5a. Exception permitting certain nursing beds.

(a) Notwithstanding any provision contained in this article and any rule issued by the state agency, on and after the first day of January, one thousand nine hundred ninety-nine, any critical access hospital, designated by the state as a critical access hospital after meeting all federal eligibility criteria, that was previously a for-profit organization and which has been certified as a not-for-profit organization within the five years prior to the first month in which this section becomes effective, may apply for a certificate of need to add up to twenty-five licensed distinct part nursing beds for certification by both medicare and medicaid for reimbursement purposes, if the hospital meets all federal and state licensing requirements for the provision of nursing services, and if the nursing beds created are located in distinct long-term care units in a previously constructed part of the hospital suitable for that purpose.

(b) Notwithstanding any provision of law to the contrary, and any rule issued by the state agency, any rural hospital that was formerly owned and operated by the county but now is owned by a nonprofit multi-hospital chain owning two or more rural hospitals, that is eligible in the rural health plan for, but not currently designated as, a critical access hospital and currently have one to twenty-five nursing beds, may apply for a certificate of need to convert up to sixteen beds of existing licensed acute care beds to nursing beds for certification by both medicare and medicaid for reimbursement purposes, provided that the following conditions are met:

(1) There is no overall increase in the bed capacity of the hospital; one acute care bed is converted to one dually certified medicare and medicaid nursing bed.
(2) All converted acute care beds shall be permanently deleted from the acute care bed compliment of the hospital, which may not thereafter add, by conversion or otherwise, acute care beds to its bed compliment without satisfying the requirements of subdivision (4), subsection (b), section three of this article, for which purposes the addition, whether by conversion or otherwise, shall be considered a substantial change to the bed capacity of the hospital notwithstanding the definition of that term as found in subsection (e), section two of this article.

(3) After the conversion, the hospital shall have no more than fifty licensed acute care beds.

(4) The hospital shall meet all federal and state licensing requirements for the provisions of skilled nursing services. Additionally, all skilled nursing beds created under this exemption shall be located in distinct long-term care units in a previously constructed part of the hospital that can be used for that purpose.

(5) Nothing in this section negatively affects the rights of inspection and certification which are elsewhere required by federal law or regulations.

CHAPTER 139

(Com. Sub. for H. B. 2269 — By Delegates Staton, Facemyer and Martin)

[Passed March 11, 1999; in effect ninety days from passage. Approved by the Governor.]

AN ACT to amend chapter sixteen of the code of West Virginia, one
thousand nine hundred thirty-one, as amended, by adding thereto

external defibrillators; setting forth legislative purposes and
findings; defining terms; establishing certain criteria for entities
providing an early defibrillation program, including training for
designated operators within a defibrillation program; involving a
physician medical director in the medical protocols of a
defibrillation program; notifying emergency medical services
system when an entity establishes an early defibrillation program;
activating the emergency medical services system when an
automated external defibrillator is used by an operator; authoriz-
ing the development of guidelines for coordination of early
defibrillator programs by the office of emergency medical
services; and providing limitation of liability for compliance with
the statutory provisions except in instances of gross misconduct.

Be it enacted by the Legislature of West Virginia:
That chapter sixteen of the code of West Virginia, one thousand nine hundred thirty-one, as amended, be amended by adding thereto a new article, designated article four-d, to read as follows:

ARTICLE 4D. AUTOMATED EXTERNAL DEFIBRILLATORS.

§16-4D-1. Purpose and findings.
§16-4D-2. Definitions.
§16-4D-3. Early defibrillation programs.
§16-4D-4. Limitation on liability.

§16-4D-1. Purpose and findings.

(a) The West Virginia Legislature hereby finds and declares that each year more than two hundred fifty thousand Americans die from out-of-hospital incidents of sudden cardiac arrest. More than ninety-five percent of these incidents result in death and, in many cases, death occurs because properly trained persons with life-saving automated external defibrillators arrive at the scene too late.

(b) The American Heart Association estimates that more than twenty thousand deaths could be prevented each year if early defibrillation were more widely available.

(c) Many communities around the country have invested in 911 emergency notification systems and emergency medical services, including well-trained emergency personnel and ambulance vehicles. However, in many communities, there are not enough strategically placed automated external defibrillators and persons trained to properly operate them.

(d) It is, therefore, the intent of this Legislature to improve access to early defibrillation by encouraging the establishment of automated external defibrillator programs in careful coordination with the emergency medical services system.

§16-4D-2. Definitions.

(a) "Automated external defibrillator", hereinafter referred to as AED, means a medical device heart monitor and defibrillator that: (1) Has undergone the premarket approval process pursuant to the Federal Food, Drug and Cosmetic Act, 21 U.S.C. § 360, as amended; (2) is capable of recognizing the
presence or absence of ventricular fibrillation; (3) is capable of determining, without intervention by the operator, whether defibrillation should be performed; and (4) upon determining that defibrillation should be performed, automatically charges and requests delivery of an electrical impulse to an individual's heart.

(b) “Early defibrillation program” means a coordinated program that meets the requirements of section three of this article and one that provides early public access to defibrillation for individuals experiencing sudden cardiac arrest through the use of an automated external defibrillator.

(c) “Emergency medical services (EMS)” means all services established by the Emergency Medical Services Act of 1973 in article four-c of this chapter including, but not limited to, the emergency medical services plan of the department of health and human resources providing a response to the medical needs of an individual to prevent the loss of life or aggravation of illness or injury.

(d) “Entity” means a public or private group, organization, business, association or agency that meets the requirements of section three of this article. “Entity” does not include emergency medical services operational programs or licensed commercial ambulance services.

(e) “Medical director” means a duly licensed physician who serves as the designated medical coordinator for an entity's early defibrillation program.

§16-4D-3. Early defibrillation programs.

(a) An entity providing an early defibrillation program shall:

(1) Register the program with the office of emergency medical services, pursuant to article four-c of this chapter, identifying the placement of AEDs, training of AED operators, preplanned EMS system coordination, designation of a medical director, maintenance of AED equipment and reports of AED utilization;
§16-4D-3. Early defibrillation program requirements.

(2) Require the operator of an AED to receive appropriate training in cardiopulmonary resuscitation, referred to as "CPR", in the operation of an AED and in the determination of advance directives from the American Heart Association, American Red Cross, any other nationally recognized course in CPR and AED, or an AED and CPR training program approved by the office of emergency medical services;

(3) Maintain and test the AED in accordance with the manufacturer's guidelines, and keep written records of this maintenance and testing;

(4) Designate a medical director for the coordination of the program, which shall include, but not limited to, training, coordinating with EMS, creating AED deployment strategies and reviewing each operation of an AED;

(5) Notify the local EMS system and public safety answering point or other appropriate emergency dispatch center of the existence of an entity's early defibrillation program, the location of the program and the program's plan for coordination with the EMS system;

(6) Provide that an operator of an AED who renders emergency care or treatment on a person experiencing cardiac arrest shall activate the EMS system as soon as possible and shall report the use of an AED to the program medical director;

(7) Comply with the guidelines of the West Virginia office of emergency medical services regarding data collection and reporting.

§16-4D-4. Limitation on liability.

A person is not liable for civil damages as a result of any act or omission in rendering emergency medical care or treatment involving the use of an AED if the care or treatment does not amount to gross negligence and the following conditions are met:

(1) The person, entity, certified trainer or medical director of the early defibrillation program is in compliance with the provisions of section three of this article; and

U.S.C. § 301 et seq.

that the records are requested for purposes of supporting a
social security claim or appeal and submits with the release
form reasonable proof that the person is financially unable to
pay full copying charges by reason of unemployment, disabil-
ity, income below the federal poverty level, or receipt of state
or federal income assistance.

(d) Any person requesting free copies of written medical
records pursuant to the provisions of subsection (b) of this
section is limited to one set of copies per provider. Any
additional requests for the same records from the same provider
shall be subject to the fee provisions of subsection (a).

Be it enacted by the Legislature of West Virginia:

That section nine, article seven, chapter thirty-three of the code of West Virginia, one thousand nine hundred thirty-one, as amended, be amended and reenacted to read as follows:

ARTICLE 7. ASSETS AND LIABILITIES.

1 (a) Title. — This section shall be known as the standard valuation law.

3 (b) Reserve valuation. — The commissioner shall annually value, or cause to be valued, the reserve liabilities (hereinafter called reserves) for all outstanding life insurance policies and annuity and pure endowment contracts of every life insurance company doing business in this state, and may certify the amount of any such reserves specifying the mortality table or
tables, rate or rates of interest and methods (net level premium method or other) used in the calculation of such reserves. In calculating such reserves, he or she may use group methods and approximate averages for fractions of a year or otherwise. In lieu of the valuation of the reserves herein required of any foreign or alien company, he or she may accept any valuation made, or caused to be made, by the insurance supervisory official of any state or other jurisdiction when such valuation complies with the minimum standard herein provided and if the official of such state or jurisdiction accepts as sufficient and for all valid legal purposes the certificate of valuation of the commissioner when such certificate states the valuation to have been made in a specified manner according to which the aggregate reserves would be at least as large as if they had been computed in the manner prescribed by the law of that state or jurisdiction.

(c) Actuarial opinion of reserves. — This subsection shall become operative on the first day of January, one thousand nine hundred ninety-six.

(1) General. — Every life insurance company doing business in this state shall annually submit the opinion of a qualified actuary as to whether the reserves and related actuarial items held in support of the policies and contracts specified by the commissioner by regulation are computed appropriately, are based on assumptions which satisfy contractual provisions, are consistent with prior reported amounts and comply with applicable laws of this state. The commissioner by regulation shall define the specifics of this opinion and add any other items considered to be necessary to its scope.

(2) Actuarial analysis of reserves and assets supporting such reserves.

(A) Every life insurance company, except as exempted by or pursuant to regulation, shall also annually include in the opinion required by subdivision (1) of this subsection, an opinion of the same qualified actuary as to whether the reserves and related actuarial items held in support of the policies and contracts specified by the commissioner by regulation, when
considered in light of the assets held by the company with respect to the reserves and related actuarial items, including, but not limited to, the investment earnings on the assets and the considerations anticipated to be received and retained under the policies and contracts, make adequate provision for the company's obligations under the policies and contracts, including, but not limited to, the benefits under and expenses associated with the policies and contracts.

(B) The commissioner may provide by regulation for a transition period for establishing any higher reserves which the qualified actuary may consider necessary in order to render the opinion required by this subsection.

(3) Requirement for opinion under subdivision (2). — Each opinion required by subdivision (2) of this subsection shall be governed by the following provisions:

(A) A memorandum in form and substance acceptable to the commissioner as specified by regulation shall be prepared to support each actuarial opinion.

(B) If the insurance company fails to provide a supporting memorandum at the request of the commissioner within a period specified by regulation or the commissioner determines that the supporting memorandum provided by the insurance company fails to meet the standards prescribed by the regulations or is otherwise unacceptable to the commissioner, the commissioner may engage a qualified actuary at the expense of the company to review the opinion and the basis for the opinion and prepare such supporting memorandum as is required by the commissioner.

(4) Requirement for all opinions. — Every opinion shall be governed by the following provisions:

(A) The opinion shall be submitted with the annual statement reflecting the valuation of such reserve liabilities for each year ending on or after the thirty-first day of December, one thousand nine hundred ninety-five.

(B) The opinion shall apply to all business in force, including individual and group health insurance plans, in form
and substance acceptable to the commissioner as specified by regulation.

(C) The opinion shall be based on standards adopted from time to time by the actuarial standards board and on such additional standards as the commissioner may by regulation prescribe.

(D) In the case of an opinion required to be submitted by a foreign or alien company, the commissioner may accept the opinion filed by that company with the insurance supervisory official of another state if the commissioner determines that the opinion reasonably meets the requirements applicable to a company domiciled in this state.

(E) For the purposes of this section, "qualified actuary" means a member in good standing of the American academy of actuaries who meets the requirements set forth in such regulations.

(F) Except in cases of fraud or willful misconduct, the qualified actuary shall not be liable for damages to any person (other than the insurance company and the commissioner) for any act, error, omission, decision or conduct with respect to the actuary's opinion.

(G) Disciplinary action by the commissioner against the company or the qualified actuary shall be defined in regulations by the commissioner.

(H) Any memorandum in support of the opinion and any other material provided by the company to the commissioner in connection therewith shall be kept confidential by the commissioner and shall not be made public and shall not be subject to subpoena, other than for the purpose of defending an action seeking damages from any person by reason of any action required by this section or by regulations promulgated hereunder: Provided, That the memorandum or other material may otherwise be released by the commissioner: (i) With the written consent of the company; or (ii) to the American academy of actuaries upon request stating that the memorandum or other material is required for the purpose of professional disciplinary
proceedings and setting forth procedures satisfactory to the commissioner for preserving the confidentiality of the memorandum or other material. Once any portion of the confidential memorandum is cited by the company in its marketing or is cited before any governmental agency other than a state insurance department or is released by the company to the news media, all portions of the confidential memorandum shall be no longer confidential.

(d) Computation of minimum standards. — Except as otherwise provided in subsections (e), (f) and (m) of this section, the minimum standard for the valuation of all such policies and contracts issued prior to the effective date of this section shall be that provided by the laws in effect immediately prior to such date. Except as otherwise provided in subsections (e), (f) and (m) of this section, the minimum standard for the valuation of all such policies and contracts issued on or after the effective date of this section shall be the commissioners reserve valuation methods defined in subsections (g), (h), (k) and (m) of this section, three and one-half percent interest, or in the case of life insurance policies and contracts, other than annuity and pure endowment contracts, issued on or after the first day of June, one thousand nine hundred seventy-four, four percent interest for such policies issued prior to the sixth day of April, one thousand nine hundred seventy-seven, five and one-half percent interest for single premium life insurance policies and four and one-half percent interest for all other such policies issued on and after the sixth day of April, one thousand nine hundred seventy-seven, and the following tables:

provided, if a company makes no such election, the operative 
date of this section for such company shall be the first day of 
January, one thousand nine hundred seventy-nine.

(f) Computation of minimum standard by calendar year of 
issue.

(1) Applicability of this section. — The interest rates used 
in determining the minimum standard for the valuation of:

(A) All life insurance policies issued in a particular 
calendar year, on or after the operative date of subsection (4c), 
section thirty, article thirteen of this chapter as amended;

(B) All individual annuity and pure endowment contracts 
issued in a particular calendar year on or after the first day of 
January, one thousand nine hundred eighty-two;

(C) All annuities and pure endowments purchased in a 
particular calendar year on or after the first day of January, one 
thousand nine hundred eighty-two, under group annuity and 
pure endowment contracts; and

(D) The net increase, if any, in a particular calendar year 
after the first day of January, one thousand nine hundred 
eighty-two, in amounts held under guaranteed interest contracts, 
shall be the calendar year statutory valuation interest rates as 
defined in this subsection.

(2) Calendar year statutory valuation interest rates.

(A) The calendar year statutory valuation interest rates, I, 
shall be determined as follows and the results rounded to the 
nearest one-quarter of one percent:

(i) For life insurance,

\[ I = 0.03 + W(R_1 - 0.03) + \frac{W}{2}(R_2 - 0.09); \]

(ii) For single premium immediate annuities and for annuity 
benefits involving life contingencies arising from other annu-
ities with cash settlement options and from guaranteed interest 
contracts with cash settlement options,
I = .03 + W(R - .03)

where $R_1$ is the lesser of $R$ and .09,

$R_2$ is the greater of $R$ and .09,

$R$ is the reference interest rate defined in this subsection and $W$ is the weighting factor defined in this section;

(iii) For other annuities with cash settlement options and guaranteed interest contracts with cash settlement options, valued on an issue year basis, except as stated in subparagraph (ii) of this paragraph, the formula for life insurance stated in subparagraph (i) of this paragraph shall apply to annuities and guaranteed interest contracts with guarantee durations in excess of ten years and the formula for single premium immediate annuities stated in subparagraph (ii) of this paragraph shall apply to annuities and guaranteed interest contracts with guarantee duration of ten years or less;

(iv) For other annuities with no cash settlement options and for guaranteed interest contracts with no cash settlement options, the formula for single premium immediate annuities stated in subparagraph (ii) of this paragraph shall apply;

(v) For other annuities with cash settlement options and guaranteed interest contracts with cash settlement options, valued on a change in fund basis, the formula for single premium immediate annuities stated in subparagraph (ii) of this paragraph shall apply.

(B) However, if the calendar year statutory valuation interest rate for any life insurance policies issued in any calendar year determined without reference to this sentence differs from the corresponding actual rate for similar policies issued in the immediately preceding calendar year by less than one half of one percent the calendar year statutory valuation interest rate for such life insurance policies shall be equal to the corresponding actual rate for the immediately preceding calendar year. For purposes of applying the immediately preceding sentence, the calendar year statutory valuation interest rate for life insurance policies issued in a calendar year
shall be determined for the year one thousand nine hundred eighty (using the reference interest rate defined for the year one thousand nine hundred seventy-nine) and shall be determined for each subsequent calendar year regardless of when subsection (4c), section thirty, article thirteen of this chapter, as amended, becomes operative.

(3) Weighting factors.

(A) The weighting factors referred to in the formulas stated above are given in the following tables:

(i) Weighting Factors for Life Insurance:

<table>
<thead>
<tr>
<th>Guarantee Duration (Years)</th>
<th>Weighting Factors</th>
</tr>
</thead>
<tbody>
<tr>
<td>10 or less</td>
<td>.50</td>
</tr>
<tr>
<td>More than 10, but not more than 20</td>
<td>.45</td>
</tr>
<tr>
<td>More than 20</td>
<td>.35</td>
</tr>
</tbody>
</table>

For life insurance, the guarantee duration is the maximum number of years the life insurance can remain in force on a basis guaranteed in the policy or under options to convert to plans of life insurance with premium rates or nonforfeiture values or both which are guaranteed in the original policy;

(ii) Weighting factor for single premium immediate annuities and for annuity benefits involving life contingencies arising from other annuities with cash settlement options and guaranteed interest contracts with cash settlement options: .80;

(iii) Weighting factors for other annuities and for guaranteed interest contracts, except as stated in subparagraph (ii) of this paragraph, shall be as specified in clauses (I), (II) and (III) below, according to the rules and definitions in clauses (IV), (V) and (VI) below:

(I) For annuities and guaranteed interest contracts valued on an issue year basis:
<table>
<thead>
<tr>
<th>Guarantee Duration (Years)</th>
<th>Weighting Factor for Plan Type</th>
<th>A</th>
<th>B</th>
<th>C</th>
</tr>
</thead>
<tbody>
<tr>
<td>5 or less:</td>
<td></td>
<td>.80</td>
<td>.60</td>
<td>.50</td>
</tr>
<tr>
<td>More than 5, but not more than 10:</td>
<td></td>
<td>.75</td>
<td>.60</td>
<td>.50</td>
</tr>
<tr>
<td>More than 10, but not more than 20:</td>
<td></td>
<td>.65</td>
<td>.50</td>
<td>.45</td>
</tr>
<tr>
<td>More than 20:</td>
<td></td>
<td>.45</td>
<td>.35</td>
<td>.35</td>
</tr>
</tbody>
</table>

(II) For annuities and guaranteed interest contracts valued on a change in fund basis, the factors shown in subparagraph (i) of this paragraph increased by:

<table>
<thead>
<tr>
<th>Weighting Factor for Plan Type</th>
<th>A</th>
<th>B</th>
<th>C1</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>.15</td>
<td>.25</td>
<td>.05</td>
</tr>
</tbody>
</table>

(III) For annuities and guaranteed interest contracts valued on an issue year basis (other than those with no cash settlement options) which do not guarantee interest on considerations received more than one year after issue or purchase and for annuities and guaranteed interest contracts valued on a change in fund basis which do not guarantee interest rates on considerations received more than twelve months beyond the valuation date, the factors shown in (I) or derived in (II) increased by:

<table>
<thead>
<tr>
<th>Weighting Factor for Plan Type</th>
<th>A</th>
<th>B</th>
<th>C1</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>.05</td>
<td>.05</td>
<td>.05</td>
</tr>
</tbody>
</table>

(IV) For other annuities with cash settlement options and guaranteed interest contracts with cash settlement options, the guarantee duration is the number of years for which the contract guarantees interest rates in excess of the calendar year statutory valuation interest rate for life insurance policies with guarantee duration in excess of twenty years. For other annuities with no cash settlement options and for guaranteed interest contracts...
with no cash settlement options, the guaranteed duration is the number of years from the date of issue or date of purchase to the date annuity benefits are scheduled to commence.

(V) Plan type as used in the above tables is defined as follows:

Plan Type A:

At any time policyholder may withdraw funds only: (1) With an adjustment to reflect changes in interest rates or asset values since receipt of the funds by the insurance company; or (2) without such adjustment but in installments over five years or more; or (3) as an immediate life annuity; or (4) no withdrawal permitted;

Plan Type B:

Before expiration of the interest rate guarantee, policyholder may withdraw funds only: (1) With an adjustment to reflect changes in interest rates or asset values since receipt of the funds by the insurance company; or (2) without such adjustment but in installments over five years or more; or (3) no withdrawal permitted. At the end of interest rate guarantee, funds may be withdrawn without such adjustment in a single sum or installments over less than five years;

Plan Type C:

Policyholder may withdraw funds before expiration of interest rate guarantee in a single sum or installments over less than five years either: (1) Without adjustment to reflect changes in interest rates or asset values since receipt of the funds by the insurance company; or (2) subject only to a fixed surrender charge stipulated in the contract as a percentage of the fund.

(VI) A company may elect to value guaranteed interest contracts with cash settlement options and annuities with cash settlement options on either an issue year basis or on a change in fund basis. Guaranteed interest contracts with no cash settlement options and other annuities with no cash settlement options must be valued on an issue year basis. As used in this section, an issue year basis of valuation refers to a valuation
basis under which the interest rate used to determine the minimum valuation standard for the entire duration of the annuity or guaranteed interest contract is the calendar year valuation interest rate for the year of issue or year of purchase of the annuity or guaranteed interest contract and the change in fund basis of valuation refers to a valuation basis under which the interest rate used to determine the minimum valuation standard applicable to each change in the fund held under the annuity or guaranteed interest contract is the calendar year valuation interest rate for the year of the change in the fund.

(4) Reference interest rate.

(A) Reference interest rate referred to in subparagraph (ii), paragraph (A), subdivision (2) of this subsection shall be defined as follows:

(i) For all life insurance, the lesser of the average over a period of thirty-six months and the average over a period of twelve months, ending on the thirtieth day of June of the calendar year next preceding the year of issue, of the monthly average of the composite yield on seasoned corporate bonds, as published by Moody's Investors Service, Inc.

(ii) For single premium immediate annuities and for annuity benefits involving life contingencies arising from other annuities with cash settlement options and guaranteed interest contracts with cash settlement options, the average over a period of twelve months, ending on the thirtieth day of June of the calendar year of issue or year of purchase, of the monthly average of the composite yield on seasoned corporate bonds, as published by Moody's Investors Service, Inc.

(iii) For other annuities with cash settlement options and guaranteed interest contracts with cash settlement options, valued on a year of issue basis, except as stated in subparagraph (ii) of this paragraph, with guarantee duration in excess of ten years, the lesser of the average over a period of thirty-six months and the average over a period of twelve months, ending on the thirtieth day of June of the calendar year of issue or purchase, of the monthly average of the composite yield on
seasoned corporate bonds, as published by Moody’s Investors Service, Inc.

(iv) For other annuities with cash settlement options and guaranteed interest contracts with cash settlement options, valued on a year of issue basis, except as stated in (ii) above, with guarantee duration of ten years or less, the average over a period of twelve months, ending on the thirtieth day of June of the calendar year of issue or purchase, of the monthly average of the composite yield on seasoned corporate bonds, as published by Moody’s Investors Service, Inc.

(v) For other annuities with no cash settlement options and for guaranteed interest contracts with no cash settlement options, the average over a period of twelve months, ending on the thirtieth day of June of the calendar year of issue or purchase, of the monthly average of the composite yield on seasoned corporate bonds, as published by Moody’s Investors Service, Inc.

(vi) For other annuities with cash settlement options and guaranteed interest contracts with cash settlement options, valued on a change in fund basis, except as stated in subparagraph (ii) of this paragraph, the average over a period of twelve months, ending on the thirtieth day of June of the calendar year of the change in the fund, of the monthly average of the composite yield on seasoned corporate bonds, as published by Moody’s Investors Service, Inc.

In the event that the monthly average of the composite yield on seasoned corporate bonds is no longer published by Moody’s Investors Service, Inc., or in the event that the national association of insurance commissioners determines that the monthly average of the composite yield on seasoned corporate bonds as published by Moody’s Investors Service, Inc., is no longer appropriate for the determination of the reference interest rate, then an alternative method for determination of the reference interest rate, which is adopted by the national association of
insurance commissioners and approved by regulation promulgated by the commissioner, may be substituted.

(g) Reserve valuation method — life insurance and endowment benefits.

Except as otherwise provided in subsections (h), (k) and (m) of this section, reserves according to the commissioners reserve valuation method, for the life insurance and endowment benefits of policies providing for a uniform amount of insurance and requiring the payment of uniform premiums shall be the excess, if any, of the present value, at the date of valuation, of such future guaranteed benefits provided for by such policies, over the then present value of any future modified net premiums therefor. The modified net premiums for any such policy shall be such uniform percentage of the respective contract premiums for such benefits that the present value, at the date of issue of the policy, of all such modified net premiums shall be equal to the sum of the then present value of such benefits provided for by the policy and the excess of subdivision (1) over subdivision (2), as follows:

(1) A net level annual premium equal to the present value, at the date of issue, of such benefits provided for after the first policy year, divided by the present value, at the date of issue, of an annuity of one per annum payable on the first and each subsequent anniversary of such policy on which a premium falls due: Provided, That such net level annual premium shall not exceed the net level annual premium on the nineteen year premium whole life plan for insurance of the same amount at an age one year higher than the age at issue of such policy.

(2) A net one year term premium for such benefits provided for in the first policy year: Provided, That for any life insurance policy issued on or after the first day of January, one thousand nine hundred eighty-five, for which the contract premium in the first policy year exceeds that of the second year and for which no comparable additional benefit is provided in the first year for such excess and which provides an endowment benefit or a cash surrender value or a combination thereof in an amount greater than such excess premium, the reserve according to the com-
missioners' reserve valuation method as of any policy anniversary occurring on or before the assumed ending date defined herein as the first policy anniversary on which the sum of any endowment benefit and any cash surrender value then available is greater than such excess premium shall, except as otherwise provided in subsection (k) of this section, be the greater of the reserve as of such policy anniversary calculated as described in the preceding paragraph and the reserve as of such policy anniversary calculated as described in that paragraph, but with:

(i) The value defined in subdivision (1) of that paragraph being reduced by fifteen percent of the amount of such excess first year premium; (ii) all present values of benefits and premiums being determined without reference to premiums or benefits provided for by the policy after the assumed ending date; (iii) the policy being assumed to mature on such date as an endowment; and (iv) the cash surrender value provided on such date being considered as an endowment benefit. In making the above comparison the mortality and interest bases stated in subsections (d) and (f) of this section shall be used.

Reserves according to the commissioners' reserve valuation method for: (i) Life insurance policies providing for a varying amount of insurance or requiring the payment of varying premiums; (ii) group annuity and pure endowment contracts purchased under a retirement plan or plan of deferred compensation, established or maintained by an employer (including a partnership or sole proprietorship) or by an employee organization, or by both, other than a plan providing individual retirement accounts or individual retirement annuities under Section 408 of the Internal Revenue Code (26 U.S.C. §408), as now or hereafter amended; (iii) disability and accidental death benefits in all policies and contracts; and (iv) all other benefits, except life insurance and endowment benefits in life insurance policies and benefits provided by all other annuity and pure endowment contracts, shall be calculated by a method consistent with the principles of the preceding paragraphs of this section.

(h) Reserve valuation method — annuity and pure endowment benefits.
This subsection shall apply to all annuity and pure endowment contracts other than group annuity and pure endowment contracts purchased under a retirement plan or plan of deferred compensation, established or maintained by an employer (including a partnership or sole proprietorship) or by an employee organization, or by both, other than a plan providing individual retirement accounts or individual retirement annuities under Section 408 of the Internal Revenue Code (26 U.S.C. §408), as now or hereafter amended.

Reserves according to the commissioners’ annuity reserve method for benefits under annuity or pure endowment contracts, excluding any disability and accidental death benefits in such contracts, shall be the greatest of the respective excesses of the present values, at the date of valuation, of the future guaranteed benefits, including guaranteed nonforfeiture benefits, provided for by such contracts at the end of each respective contract year, over the present value, at the date of valuation, of any future valuation considerations derived from future gross considerations, required by the terms of such contract, that become payable prior to the end of such respective contract year. The future guaranteed benefits shall be determined by using the mortality table, if any, and the interest rate, or rates, specified in such contracts for determining guaranteed benefits. The valuation considerations are the portions of the respective gross considerations applied under the terms of such contracts to determine nonforfeiture values.

(i) Minimum reserves.

(1) In no event shall a company’s aggregate reserves for all life insurance policies, excluding disability and accidental death benefits, issued on or after the effective date of this section, be less than the aggregate reserves calculated in accordance with the methods set forth in subsections (g), (h), (k) and (l) of this section and the mortality table or tables and rate or rates of interest used in calculating nonforfeiture benefits for such policies.

(2) In no event shall the aggregate reserves for all policies, contracts and benefits be less than the aggregate reserves

831
determined by the qualified actuary to be necessary to render
the opinion required by subsection (c) of this section.

(j) Optional reserve calculation.

Reserves for all policies and contracts issued prior to the
effective date of this section may be calculated, at the option of
the company, according to any standards which produce greater
aggregate reserves for all such policies and contracts than the
minimum reserves required by the laws in effect immediately
prior to such date.

Reserves for any category of policies, contracts or benefits
as established by the commissioner, issued on or after the
effective date of this section, may be calculated, at the option of
the company, according to any standards which produce greater
aggregate reserves for such category than those calculated
according to the minimum standard herein provided, but the
rate or rates of interest used for policies and contracts, other
than annuity and pure endowment contracts, shall not be higher
than the corresponding rate or rates of interest used in calculat-
ing any nonforfeiture benefits provided therein.

Any such company which at any time shall have adopted
any standard of valuation producing greater aggregate reserves
than those calculated according to the minimum standard herein
provided may, with the approval of the commissioner, adopt
any lower standard of valuation, but not lower than the mini-
imum herein provided: Provided, That for the purposes of this
section, the holding of additional reserves previously deter-
mined by a qualified actuary to be necessary to render the
opinion required by subsection (c) of this section shall not be
considered to be the adoption of a higher standard of valuation.

(k) Reserve calculation — valuation net premium exceeding
the gross premium charged.

If in any contract year the gross premium charged by any
life insurance company on any policy or contract is less than the
valuation net premium for the policy or contract calculated by
the method used in calculating the reserve thereon but using the
minimum valuation standards of mortality and rate of interest,
the minimum reserve required for such policy or contract shall
be the greater of either the reserve calculated according to the
mortality table, rate of interest and method actually used for
such policy or contract, or the reserve calculated by the method
actually used for such policy or contract but using the minimum
valuation standards of mortality and rate of interest and
replacing the valuation net premium by the actual gross
premium in each contract year for which the valuation net
premium exceeds the actual gross premium. The minimum
valuation standards of mortality and rate of interest referred to
in this section are those standards stated in subsections (d) and
(f) of this section: Provided, That for any life insurance policy
issued on or after the first day of January, one thousand nine
hundred eighty-five, for which the gross premium in the first
policy year exceeds that of the second year and for which no
comparable additional benefit is provided in the first year for
such excess and which provides an endowment benefit or a cash
surrender value or a combination thereof in an amount greater
than such excess premium, the foregoing provisions of this
subsection shall be applied as if the method actually used in
calculating the reserve for such policy were the method
described in subsection (g) of this section, ignoring the second
paragraph of said subsection. The minimum reserve at each
policy anniversary of such a policy shall be the greater of the
minimum reserve calculated in accordance with said subsection,
including the second paragraph of that section, and the mini-
imum reserve calculated in accordance with this subsection.

(1) *Reserve calculation — indeterminate premium plans.*

In the case of any plan of life insurance which provides for
future premium determination, the amounts of which are to be
determined by the insurance company based on then estimates
of future experience, or in the case of any plan of life insurance
or annuity which is of such a nature that the minimum reserves
cannot be determined by the methods described in subsections
(g), (h) and (k) of this section, the reserves which are held under
any such plan must:

(1) Be appropriate in relation to the benefits and the pattern
of premiums for that plan; and
(2) Be computed by a method which is consistent with the principles of this standard valuation law, as determined by regulations promulgated by the commissioner.

(m) **Minimum standards for health (disability, accident and sickness) plans.**

The commissioner shall promulgate a regulation containing the minimum standards applicable to the valuation of health (disability, sickness and accident) plans.

(n) The commissioner shall promulgate a rule on or before the first day of November, one thousand nine hundred ninety-five, prescribing the guidelines and standards for statements of actuarial opinion which are to be submitted in accordance with subsection (c) of this section and for memoranda in support thereof; guidelines and standards for statements of actuarial opinion which are to be submitted when a company is exempt from subdivision (2), subsection (c) of the standard valuation law; and rules applicable to the appointment of an appointed actuary.

(o) **Effective date.**

All acts and parts of acts inconsistent with the provision of this section are hereby repealed as of the effective date of this section. This section shall take effect the first day of January, one thousand nine hundred ninety-six.

(p) **Modification of the standard valuation law for certain types of contracts.**

(1) The commissioner may, by rule, establish alternative methods of calculating reserve liabilities, which methods shall be used to calculate reserve liabilities for the types of policies, annuities or other contracts identified in the rule: Provided, that the method specified in the rule shall be one which, in the opinion of the commissioner and in light of the methods applied to such contracts by the insurance regulators of other states, is appropriate to such contracts. This power shall be in addition to, and in no way diminish, rule-making power granted to the commissioner elsewhere in this code.
(2) The legislative rule filed in the state register on the twentieth day of August, one thousand nine hundred ninety-six, (valuation of life insurance policies, 114 CSR 49) is hereby disapproved and is not authorized for promulgation: Provided, That for purposes of determining the legal effects of the aforementioned rule, this provision shall be considered to have taken effect on the thirty-first day of December, one thousand nine hundred ninety-seven. This disapproval shall in no way limit the commissioner’s power to promulgate in the future a rule similar or identical to the rule here disapproved.

immediate cancellation of a contract or the immediate renegoti-
ation of a contract by the parties if he or she determines that a
contract provides for excessive payments, fails to include
reasonable incentives for cost control, or otherwise substanc-
tially and unreasonably contributes to escalation of the costs of
providing a limited health service to enrollees.

(b) Whenever a contract exists between a prepaid limited
health service organization and a provider and the organization
fails to meet its obligations to pay fees for services already
rendered to a subscriber, the prepaid limited health service
organization is liable for the fee or fees rather than the sub-
scriber; and the contract shall state that liability.

(c) No enrollee of a prepaid limited health service organiza-
tion is liable to any provider of a limited health service for any

provider or its agents are aware the individual to whom the
service is provided is an enrollee of a prepaid limited health
service organization.

(d) If at any time during the provision of a limited health
service, a provider or its agents are aware that the subscriber is
a prepaid limited health service organization enrollee for the
service provided, the provider of services or any agent or

collect from a subscriber any money for services covered by a
prepaid limited health service organization, and no provider or
agent or representative of the provider may maintain any action

(1) The contracts shall provide that the provider provide sixty days advance written notice to the prepaid limited health service organization and the commissioner before canceling the contract with the prepaid limited health service organization for any reason; and

(2) The contract shall provide that nonpayment for goods or services rendered by the provider to the prepaid limited health service organization is not a valid reason for avoiding the sixty-day advance notice of cancellation.

(i) Upon receipt by the prepaid limited health service organization of a sixty-day cancellation notice, the prepaid limited health service organization may, if requested by the provider, terminate the contract in less than sixty days if the prepaid limited health service organization is not financially impaired or insolvent.

§33-25D-11. Evidence of coverage; review of enrollee records; charges for limited health services; cancellation of contract by enrollee.

(a)(1) Every enrollee is entitled to evidence of coverage in accordance with this section. The prepaid limited health service
organization or its designated representative shall issue the evidence of coverage.

(2) No evidence of coverage, or amendment thereto, shall be issued or delivered to any person in this state until a copy of the form of the evidence of coverage, or amendment thereto, has been filed with and approved by the commissioner.

(3) An evidence of coverage shall contain a clear, concise and complete statement of:

(A) The limited health service and the insurance or other benefits, if any, to which the enrollee is entitled;

(B) Any exclusions or limitations on the service, kind of service, benefits, or kind of benefits, to be provided, including any copayments;

(C) Where and in what manner information is available as to how a service may be obtained: Provided, That with respect to any limited health service for which inpatient services, hospital surgical services or emergency services are provided, the evidence of coverage shall contain a definition of inpatient services, hospital surgical services or emergency services, respectively; describe procedures for determination by the prepaid limited health service organization of whether the services qualify for reimbursement as inpatient services, hospital surgical services or emergency services; and contain specific examples of situations in which the services would be made available;

(D) The total amount of payment and copayment, if any, for the limited health service and the indemnity or service benefits, if any, which the enrollee is obligated to pay with respect to individual contracts, or an indication whether the plan is contributory or noncontributory with respect to group certificates;

(E) A description of the prepaid limited health service organization’s method for resolving enrollee grievances; and

(F) The following exact statement in bold print:
"Each subscriber or enrollee, by acceptance of the benefits described in this evidence of coverage, consents to the examination of his or her medical records for purposes of utilization review, quality assurance and peer review by the prepaid limited health service organization or its designee."

(4) Any subsequent approved change in an evidence of coverage shall be issued to each enrollee.

(5) A copy of the form of the evidence of coverage to be used in this state, and any amendment thereto, is subject to the filing and approval requirements of subdivision (2), subsection (a) of this section, unless the commissioner promulgates a rule dispensing with this requirement or unless it is subject to the jurisdiction of the commissioner under the laws governing health insurance or hospital, medical, dental or health service corporations, in which event the filing and approval provisions of those laws apply. To the extent, however, that those provisions do not apply the requirements in subdivision (3), subsection (a) of this section, are applicable.

(b)(1) Premiums for each limited health service offered may be established in accordance with actuarial principles: Provided, That premiums may not be excessive, inadequate, or unfairly discriminatory. A certification by a qualified independent actuary shall accompany a rate filing for each limited health service offered and shall certify that:

(A) The rates are neither inadequate nor excessive nor unfairly discriminatory;

(B) That the rates are appropriate for the classes of risks for which they have been computed;

(C) Provide an adequate description of the rating methodology showing that the methodology follows consistent and equitable actuarial principles; and

(D) The rates being charged are actuarially adequate to the end of the period for which rates have been guaranteed.

(2) In determining whether the charges are reasonable, the commissioner shall consider whether the prepaid limited health service organization has:
(A) Made a vigorous, good faith effort to control rates paid to limited health service providers;

(B) Established a premium schedule, including copayments, if any, which encourages enrollees to seek out preventive limited health services; and

(C) Made a good faith effort to secure arrangements whereby the limited health service can be obtained by subscribers from local providers to the extent that the providers offer the services.

(c) Rates for a particular limited health service are inadequate if the premiums derived from the rating structure, plus investment income, copayments, and revenues from coordination of benefits and subrogation, fees-for-service and reinsurance recoveries are not set at a level at least equal to the anticipated cost of benefits for the limited health service during the period for which the rates are to be effective and the other expenses which would be incurred if other expenses were at the level for the current or nearest future period during which the prepaid limited health service organization is projected to make a profit. For this analysis, total investment income added to premiums, copayments and revenues from coordination of benefits and subrogation, fees-for-service and reinsurance recoveries with respect to all limited health services offered may not exceed three percent of the prepaid limited health service organization’s total projected revenues.

(d) The commissioner shall within a reasonable period approve any form if the requirements of subsection (a) of this section are met and any schedule of charges if the requirements of subsections (b) and (c) of this section are met. It is unlawful to issue the form or to use the schedule of charges until approved. If the commissioner disapproves of the filing, he or she shall notify the filer promptly. In the notice, the commissioner shall specify the reasons for his or her disapproval and the findings of fact and conclusions which support his or her reasons. A hearing will be granted by the commissioner within forty-five days after a request in writing, by the person filing, has been received by the commission. If the commissioner does
not disapprove any form or schedule of charges within sixty
days of the filing of the forms or charges, they are approved.

(e) The commissioner may require the submission of
whatever relevant information in addition to the schedule of
charges which he or she considers necessary in determining
whether to approve or disapprove a filing made pursuant to this
section.

(f) An individual enrollee may cancel a contract with a
prepaid limited health service organization at any time for any
reason: Provided, That a prepaid limited health service organi-
ization may require that the enrollee give thirty days advance
notice: Provided, however, That an individual enrollee whose
premium rate was determined pursuant to a group contract may
cancel a contract with a prepaid limited health service organiza-
tion pursuant to the terms of that contract.

(a) Every prepaid limited health service organization shall
comply with and is subject to the provisions of section fourteen,
article four of this chapter relating to filing of financial state-

insurance commissioners. The annual financial statement
required by that section shall include, but not be limited to, the
following:

the preceding year certified by an independent certified public
accountant, reflecting at least:

A prepaid limited health service organization may not disenroll an enrollee for nonpayment of copayments unless the enrollee has failed to make payment in at least three instances over any twelve-month period: Provided, however, That the enrollee may not be disenrolled if the disenrollment would constitute abandonment of a patient. Any enrollee wrongfully disenrolled shall be reenrolled.

of an enrollment may be held liable in an amount equivalent to
one year's subscription rate to the prepaid limited health service
organization, plus costs and a reasonable attorney's fee.

(g) No contract with an enrollee may prohibit an enrollee
from canceling his or her enrollment at any time for any reason
except that the contract may require thirty days' notice to the
prepaid limited health service organization.

(h) No contract with an enrollee may contain any provision

Be it enacted by the Legislature of West Virginia:

That article twelve, chapter thirty-three of the code of West Virginia, one thousand nine hundred thirty-one, as amended, be amended by adding thereto a new section, designated thirty-three, to read as follows:

ARTICLE 12. AGENTS, BROKERS, SOLICITORS AND EXCESS LINE.

§33-12-33. Limited license for rental companies.

(2) "Automobile rental coverage" or "rental coverage" is insurance offered incidental to the rental of a vehicle as described in this section.

(3) "Limited license" means the authorization by the commissioner for a person to sell rental coverage as agent of an authorized insurer pursuant to the provisions of this section without the necessity of agent prelicensing education, examination, or continuing education.

(4) "Limited licensee" is an individual resident of this state who obtains a limited license.

(5) "Rental agreement" means any written agreement setting forth the terms and conditions governing the use of a vehicle provided by the rental company for rental or lease.

(6) "Rental company" means any person or entity in the business of providing private motor vehicles to the public under a rental agreement for a period not to exceed ninety days.

(7) "Renter" means any person obtaining the use of a vehicle from a rental company under the terms of a rental agreement for a period not to exceed ninety days.

(9) "Rental period" means the term of the rental agreement.

(c) The commissioner may issue a limited license for the sale of automobile rental coverage to an employee of a rental company, who has satisfied the requirements of this section.

(d) As a prerequisite for issuance of a limited license under this section, there shall be filed with the commissioner a written application for a limited license, signed by the applicant, in such form or forms and supplements thereto, and containing such information, as the commissioner may prescribe. The
limited licensee shall pay to the insurance commissioner an annual fee of twenty-five dollars.

(e) The limited licensee shall be appointed by the licensed insurer or insurers for the sale of automobile rental coverage. The employer of the limited licensee shall maintain at each insurance sales location a list of the names and addresses of employees which are selling insurance at the location.

(f) In the event that any provision of this section or applicable provisions of the insurance code is violated by a limited licensee or other employees operating under his or her direction, the commissioner may:

(1) After notice and a hearing, revoke or suspend a limited license issued under this section in accordance with the provisions of section thirteen, article two of this chapter, or

(2) After notice and hearing, impose such other penalties, including suspending the transaction of insurance at specific locations where applicable violations of the insurance code have occurred, as the commissioner deems to be necessary or convenient to carry out the purposes of this section.

(g) Any limited license issued under this section shall also authorize any other employee working for the same employer and at the same location as the limited licensee to act individually, on behalf, and under the supervision, of the limited licensee with respect to the kinds of coverage authorized in this section. In order to sell insurance products under this section at least one employee who has obtained a limited license must be present at each location where insurance is sold. All other employees working at that location may offer or sell insurance consistent with this section without obtaining a limited license. However, the limited licensee shall directly supervise and be responsible for the actions of all other employees at that location related to the offer or sale of insurance as authorized by this section. No limited licensee under this section shall advertise, represent, or otherwise hold himself or herself or any other employees out as licensed insurers, insurance agents or insurance brokers.
No automobile rental coverage insurance may be issued by a limited license pursuant to this section unless:

1. The rental period of the rental agreement does not exceed ninety consecutive days; and

   (iii) State that the purchase by the renter of the kinds of coverage specified in this section is not required in order to rent a vehicle.

   (iv) Describe the process for filing a claim in the event the renter elects to purchase coverage and in the event of a claim.

3. An evidence of coverage on the face of the rental agreement is disclosed to every renter who elects to purchase such coverage.

(2) Liability insurance (which may include uninsured and underinsured motorist coverage whether offered separately or in combination with other liability insurance) that provides coverage, as applicable, to renters and other authorized drivers of rental vehicles for liability arising from the operation of the rental vehicle;

(3) Personal effects insurance that provides coverage, applicable to renters and other vehicle occupants of the loss of, or damage to, personal effects that occurs during the rental period;

(4) Roadside assistance and emergency sickness protection programs; and

(5) Any other travel or auto-related coverage that a rental company offers in connection with and incidental to the rental of vehicles.

(j) Each rental company for which an employee has received a limited license pursuant to this section shall conduct a training program in which its employees being trained shall receive basic instruction about the kinds of coverage specified in this section and offered for purchase by prospective renters of rental vehicles: Provided, That limited licensees and employees working hereunder are not subject to the agent prelicensing education, examination or continuing education requirements of this article.

(k) Notwithstanding any other provision of this section, or any rule adopted by the commissioner neither the rental company, the limited licensee, nor the other employees working with the limited licensee at the rental company, shall be required to treat moneys collected from renters purchasing such insurance when renting vehicles as funds received in a fiduciary capacity, provided that the chargers for coverage shall be itemized and be ancillary to a rental transaction. 1 (a) If any tenant from whom rent is in arrears and unpaid abandons the leased property, the landlord or his or her agent shall post a notice in writing in a conspicuous part of the property, requiring the tenant to pay the rent within one month. If the rent is not paid within that time, the landlord shall be entitled to possession of the property, and may enter thereon, and the right of the tenant to the leased property shall end. The landlord may recover the rent owed up to the time when he or she became entitled to possession.
(b) If any tenant of a housing development operated by a housing authority abandons the leased property when rent is not a condition of the lease agreement, the housing authority shall post a notice in writing in a conspicuous part of the property, requiring the tenant to respond in writing within one month stating that he or she has not abandoned the leased property. (c) Upon regaining possession of the property, the landlord or his or her agent or housing authority may take, dispose of or otherwise remove the tenant’s personal property without incurring any liability to the tenant or any other person. To dispose of the tenant’s property under this section, the landlord or housing authority shall give a written notice to the tenant that shall be:

1. Posted in a conspicuous place on the property; and
2. Sent by first-class mail with a certificate of mailing, which provides a receipt of the date of mailing, in an envelope endorsed “Please Forward”, addressed and mailed to the tenant at:
   A. The leased property;
   B. Any post office box held by the tenant and known to the landlord or housing authority; and
   C. The most recent forwarding address if provided by the tenant or known to the landlord or housing authority.

(d) The written notice required under subsection (c) of this section shall state that:

(3) If the personal property is not removed within the time provided for in this section, then the tenant forfeits his or her ownership rights to the personal property, and the personal property becomes the property of the landlord or housing authority.

(e) Notwithstanding the provisions of subsection (c) of this section, if the abandoned personal property is worth more than three hundred dollars and was not removed from the property or from the place of safekeeping within the time period stated in the notice required in subsection (d) of this section, the landlord shall store the personal property for up to thirty additional days if the tenant or any person holding a security interest in the abandoned personal property informs the landlord of their intent to remove the property: Provided, That the tenant or person holding a security interest in the abandoned personal property pays the landlord the reasonable costs of storage and removal.

(d) Continuances of the hearing provided for in this section shall be for cause only and the judge or magistrate shall not grant a continuance to either party as a matter of right. If a continuance is granted upon request by a tenant, the tenant shall be required to pay into court any periodic rent becoming due during the period of such continuance.

In the case of a proceeding under subsection (a) of this section, the court may also make a written finding and include in its order such relief on the issue of arrearage in the payment of rent as the evidence may require. The court may disburse any moneys paid into court by the tenant in accordance with the provisions of this section.

(f) The court order shall specify the time when the tenant shall vacate the property, taking into consideration such factors as the nature of the property (i.e., furnished or unfurnished), the possibility of relative harm to the parties, and other material facts deemed relevant by the court in considering when the tenant might reasonably be expected to vacate the property. The order shall further provide that if the tenant continues to wrongfully occupy the property beyond such time, the sheriff shall forthwith remove the tenant, taking precautions to guard against damage to the property of the landlord and the tenant.

(g) In the event an appeal is taken and the tenant prevails upon appeal, the relief ordered by the appellate court shall be for monetary damages only and shall not restore the tenant to possession if the term of the lease has expired, absent an issue of title, retaliatory eviction, or breach of warranty. During the pendency of any such appeal, the tenant is not entitled to remain in possession of the property if the period of the tenancy has otherwise expired.
(h) When an order is issued pursuant to this section granting possession of the property to the landlord, and the tenant fails to remove all personal property by the date and time specified by the order issued pursuant to subsection (f) of this section, the landlord may:

(1) Dispose of the tenant’s personal property without incurring any liability or responsibility to the tenant or any other person if the tenant informs the landlord in writing that the personal property is abandoned or if the property is garbage;

(2) Remove and store the personal property after the date and time by which the court ordered the tenant to vacate the property. The landlord may dispose of the stored personal property after thirty days without incurring any liability or responsibility to the tenant or any other person if: (i) The tenant has not paid the reasonable costs of storage and removal to the landlord and has not taken possession of the stored personal property; or (ii) the costs of storage equal the value of the personal property being stored; or

(3) Leave the personal property on the property. The landlord may dispose of personal property left on the property after thirty days without incurring any liability or responsibility to the tenant or any other person if the tenant has not paid the landlord the reasonable costs of leaving the personal property on the landlord’s property and has not taken possession of the personal property.

(i) Notwithstanding the provisions of subsection (h) of this section, if the personal property is worth more than three hundred dollars and was not removed from the property or place of storage within thirty days with the required fees paid as provided in subsection (h) of this section, the landlord shall store the personal property for up to thirty additional days if the tenant or any person holding a security interest in the abandoned personal property informs the landlord of their intent to remove the property: Provided, That the tenant or person holding a security interest in the personal property pays the landlord the reasonable costs of storage and removal.
