Foreword

It would be impossible to appropriately thank each person responsible for assisting my office in compiling this, the Sixty-First Volume of the West Virginia Blue Book.

I do, however, convey my personal gratitude to the State Office of Economic and Community Development for helping design the cover, which portrays the Proclamation signed by President Lincoln in making West Virginia a state.

Although it will immediately be of benefit to thousands of West Virginians, including our school children and instructors, the 1977 Blue Book will serve as a useful historical document in the years to come.

It is my hope that this year's cover underlines our genuine desire to have made this edition a worthy chronicle of another chapter of West Virginia's history. I also intended that the ensuing color picture of Fayette County's New River Bridge serve as an indication of future progress for our state.

ABOUT THE COVER

The cover of this year's Blue Book depicts the Presidential Proclamation signed one hundred fourteen years ago by Abraham Lincoln, making West Virginia a state. The picture is courtesy of the Governor's Office of Economic and Community Development.

On January 1, 1863, Lincoln approved the Statehood Bill on the condition that the state would gradually abolish slavery. West Virginia was proclaimed a state on April 20, 1863, with the bill becoming effective sixty days later. West Virginia entered the Union on June 20, 1863, as the thirty-fifth state.

The picture on Page IV, courtesy of the West Virginia Department of Highways, shows the world's longest steel arch bridge. The structure, officially opened October 22, 1977, carries Appalachian Corridor "L" highway across a scenic gorge deep in the hills of Fayette County.

With a main span of 1,700 feet, the total length of the bridge and approaches—3,030 feet and six inches—is supported by nine land piers and two abutments.

At 876 feet above New River, the bridge is the second highest in the nation and highest east of the Mississippi.

Designed by Michael Baker, Jr., Inc., the bridge contains 21,000 tons of structural steel, 1,700 tons of reinforcing steel and 23,000 cubic yards of concrete, making a total weight of more than 88 million pounds.

BOARD OF REGENTS

950 Kanawha Boulevard, E.

The West Virginia Board of Regents, created in 1969, is the governing body for all state colleges and universities. The Board controls, supervises and manages the financial, business and educational policies and affairs of the state colleges and universities, makes studies and recommendations respecting higher education in West Virginia, and allocates among the state colleges and universities specific functions and responsibilities. It submits a budget for the state system of higher education to the appropriate executive and legislative agencies of the State Government and allocates funds to the institutions from the appropriation which it receives.

The Board is composed of 12 members, nine of whom are appointed by the Governor, with the advice and consent of the Senate, for six-year terms. The State Superintendent of Schools is an ex officio member. The Chairmen of the Advisory Council of Faculty and the Advisory Council of Students serve as ex officio and voting members of the Board. Not more than five of the appointed members can belong to the same political party and at least one member must be appointed from each congressional district.

The Board holds at least six meetings a year with the annual meeting in June. Members receive \$50 per diem while engaged in the work of the Board, plus actual expenses. A president, who cannot succeed himself, and any other officers deemed necessary, are elected annually. The Board employs a Chancellor and such professional, administrative and clerical personnel as are necessary, and prescribes their duties and compensation. (Code 18-26)

Each board is required to adopt an official seal, make such rules and regulations, not inconsistent with law, as it deems best, and hold at least two meetings each year. Each board is also given power to compel the attendance of witnesses, and its officers are authorized to administer oaths.

Each applicant for license or registration must transmit with his application an examination fee of \$20, unless a different fee is especially provided by law. Each board is allowed to charge \$5 for each license or certificate issued and the same sum for every duplicate thereof. An applicant who has been refused a license, or a licensee whose certificate has been revoked has the right to appeal from the action of the board to the Circuit Court of the county in which he resides.

Unless otherwise specified, members of boards are allowed \$35 per day for each day actually spent in attending sessions of the board or of its committees and in necessary travel, and entitled to reimbursement for all actual and necessary expenses in carrying out their official duties.

THE WEST VIRGINIA STATE BAR (Integrated)

State Capitol, Bldg. 1, Room 404

Created by the Supreme Court of Appeals under its inherent rule-making power as authorized by Chapter 44, Acts of the Legislature, 1945. The court adopted and promulgated a definition of the practice of law; a code of professional ethics, a code of judicial ethics and a constitution and by-laws for the government of the State Bar, effective May 1, 1947. Its membership consists of all persons lawfully admitted to the practice of law in West Virginia. No person can practice law in the State of West Virginia unless he is a member in good standing of The West Virginia State Bar. There are two classes of membership—active and inactive. The annual active membership fee is now \$50.00 for members who have been admitted to practice for more than three years and \$25.00 for members who have been admitted to practice for not more than three years.

The objects of the State Bar are to protect the interests of the public; to advance the administration of justice and the science of jurisprudence; to improve the relations between the public and the Bench and the Bar; to uphold and elevate the standards of honor, integrity, competency and courtesy in the legal profession; and to encourage cordial relations among its members. It is its declared purpose to give effect to pertinent rules of the Supreme Court of Appeals, and to perform the functions expressed in its Constitution and By-Laws. A principal duty of the State Bar is to uphold the standards of professional ethics and to diligently and vigilantly investigate and prosecute violations of these standards.

The State Bar is governed by a Board of Governors, consisting of all officers, except the secretary-treasurer, as *ex officio* members, and sixteen Governors, one Governor being elected by the members of the Bar by a secret mail ballot in each of the sixteen State Bar Districts. Officers are a president, chairman of the board, first vice president, second vice president, secretary-treasurer and chairman of the Young Lawyers Section.

Since through Divine Providence we enjoy the blessings of civil, political and religious liberty, we, the people of West Virginia, in and through the provisions of this Constitution, reaffirm our faith in and constant reliance upon God and seek diligently to promote, preserve and perpetuate good government in the State of West Virginia for the common welfare, freedom and security of ourselves and our posterity.

[**Editor's note.**—This preamble was proposed by House Joint Resolution No. 8, Acts 1959, p. 659; submitted by Acts 1960, c. 4; and ratified November 8, 1960.]

ARTICLE I

Relations to the Government of the United States

§1. The State of West Virginia is and shall remain, one of the United States of America. The Constitution of the United States of America, and the laws and treaties made in pursuance thereof, shall be the supreme law of the land.

Internal Government and Police

§2. The government of the United States is a government of enumerated powers, and all powers not delegated to it, nor inhibited to the states, are reserved to the states or to the people thereof. Among the powers so reserved to the states is the exclusive regulation of their own internal government and police; and it is the high and solemn duty of the several departments of government, created by this Constitution, to guard and protect the people of this State, from all encroachments upon the rights so reserved.

Continuity of Constitutional Operation

§3. The provisions of the Constitution of the United States, and of this State, are operative alike in a period of war as in time of peace, and any departure therefrom, or violation thereof, under the plea of necessity, or any other plea, is subversive of good government, and tends to anarchy and despotism.

Representatives to Congress

§4. For the election of representatives to Congress, the State shall be divided into districts, corresponding in number with the representatives to which it may be entitled; which districts shall be formed of contiguous counties, and be compact. Each district shall contain as nearly as may be, an equal number of population, to be determined according to the rule prescribed in the Constitution of the United States.

ARTICLE II

The State

§1. The territory of the following counties, formerly parts of the Commonwealth of Virginia, shall constitute and form the State of West Virginia, viz:

The counties of Barbour, Berkeley, Boone, Braxton, Brooke, Cabell, Calhoun, Clay, Doddridge, Fayette, Gilmer, Grant, Greenbrier, Hampshire, Hancock, Hardy, Harrison, Jackson, Jefferson, Kanawha, Lewis, Lincoln, Logan, Marion, Marshall, Mason, McDowell, Mercer, Mineral, Monongalia, Monroe, Morgan, Nicholas, Ohio, Pendleton, Pleasants, Pocahontas, Preston, Putnam, Raleigh, Randolph, Ritchie, Roane, Summers, Taylor, Tucker, Tyler, Upshur, Wayne, Webster, Wetzel, Wirt, Wood and Wyoming. The State of West Virginia includes the bed, bank and shores of the Ohio River, and so much of the Big Sandy River as was formerly included in the Commonwealth of Virginia; and all territorial rights and property in, and jurisdiction over, the same, heretofore reserved by, and vested in, the Commonwealth of Virginia, are vested in and shall hereafter be exercised by, the State of West Virginia. And such parts of the said beds, banks and shores as lie opposite, and adjoining the several counties of this State, shall form parts of said several counties respectively.

[*Editor's note.*—All of the territory of West Virginia was taken from the commonwealth of Virginia, and the Constitution of 1863 forty-four of the above-named counties were designated as forming the State of West Virginia, and in addition, the counties of Berkeley, Hampshire, Hardy, Jefferson, Morgan and Pendleton were to be admitted should that Constitution be adopted by a vote of the people of the districts comprising those counties. The districts adopted the Constitution, and these six counties became part of the State.

The remaining four counties mentioned above were created by acts of the legislature as follows: Mineral county, from Hampshire county, on February 1, 1866; Grant county, from Hardy county, on February 14, 1866; Lincoln county, from parts of Cabell, Putnam, Kanawha and Boone counties, on February 23, 1867; and Summers county, from parts of Greenbrier, Monroe, Mercer and Fayette counties, on February 27, 1871. After the ratification of the Constitution of 1872, Mingo county was created by act of the Legislature from Logan county, on February 23, 1895, to make a total of fifty-five counties.]

Powers of Government in Citizens

§2. The powers of government reside in all the citizens of the State, and can be rightfully exercised only in accordance with their will and appointment.

Requisites of Citizenship

§3. All persons residing in this State, born, or naturalized in the United States, and subject to the jurisdiction thereof, shall be citizens of this State.

No person shall be convicted of treason, unless on the testimony of two witnesses to the same overt act, or on confession in open court. Treason shall be punished according to the character of the acts committed, by the infliction of one, or more, of the penalties, of death, imprisonment or fine, as may be prescribed by law.

“Montani Semper Liberi”—State Seal

§7. The present seal of the State, with its motto, “Montani Semper Liberi,” shall be the great seal of the State of West Virginia, and shall be kept by the secretary of state, to be used by him officially, as directed by law.

Writs, Commissions, Official Bonds—Indictments

Magistrates Servants of People

§2. All power is vested in, and consequently derived from, the people. Magistrates are their trustees and servants, and at all times amenable to them.

§3. Government is instituted for the common benefit, protection and security of the people, nation or community. Provision for Delegate Representation

§6. For the election of delegates, every county containing a population of less than three fifths of the ratio of representation for the House of Delegates, shall, at each apportionment, be attached to some contiguous county or counties, to form a delegate district.

After Census, Delegate Apportionment

§7. After every census the delegates shall be apportioned as follows: The ratio of representation for the House of Delegates shall be ascertained by dividing the whole population of the State by the number of which the house is to consist and rejecting the fraction of a unit, if any, resulting from such division. Dividing the population of every delegate district, and of every county not included in a delegate district, by the ratio thus ascertained, there shall be assigned to each a number of delegates equal to the quotient obtained by this division, excluding the fractional remainder. The additional delegates necessary to make up the number of which the house is to consist, shall then be assigned to those delegate districts, and counties not included in a delegate district, which would otherwise have the largest fractions unrepresented; but every delegate district and county not included in a delegate district, shall be entitled to at least one delegate.

Designation of Delegate Districts

§8. Until a new apportionment shall be declared, the counties of Pleasants and Wood shall form the first delegate district, and elect three delegates; Ritchie and Calhoun the second, and elect two delegates; Barbour, Harrison and Taylor the third, and elect one delegate; Randolph and Tucker the fourth, and elect one delegate; Nicholas, Clay and Webster the fifth, and elect one delegate; McDowell and Wyoming the sixth, and elect one delegate.

Further Apportionments

§9. Until a new apportionment shall be declared, the apportionment of delegates to the counties not included in delegate districts, and to Barbour, Harrison and Taylor counties, embraced in such district, shall be as follows:

To Barbour, Boone, Braxton, Brooke, Cabell, Doddridge, Fayette, Hampshire, Hancock, Jackson, Lewis, Logan, Greenbrier, Monroe, Mercer, Mineral, Morgan, Grant, Hardy, Lincoln, Pendleton, Putnam, Roane, Gilmer, Taylor, Tyler, Upshur, Wayne, Wetzell, Wirt, Pocahontas, Summers and Raleigh counties, one delegate each.

To Berkeley, Harrison, Jefferson, Marion, Marshall, Mason, Monongalia and Preston counties, two delegates each.

To Kanawha County, three delegates.

To Ohio County, four delegates.

[Many changes have been made in this apportionment. There are now thirty-six delegate districts. For the present apportionment, see Acts, Regular Session, 1973, c. 71, p. 324.]

Arrangement of Senatorial and Delegate Districts

§10. The arrangement of the senatorial and delegate districts, and apportionment of delegates, shall hereafter be declared by law, as soon as possible after each succeeding census, taken by authority of the United States. When so declared they shall apply to the first general election for members of the Legislature, to be thereafter held, and shall continue in force unchanged, until such districts shall be altered, and delegates apportioned, under the succeeding census.

Additional Territory May Be Admitted into State

§11. Additional territory may be admitted into, and become part of this State, with the consent of the Legislature and a majority of the qualified voters of the State, voting on the question. And in such case provisions shall be made by law for the representation thereof in the Senate and House of Delegates, in conformity with the principles set forth in this Constitution. And the number of members of which each house of the Legislature is to consist, shall thereafter be increased by the representation assigned to such additional territory.

These oaths shall be administered in the hall of the house to which the member is elected, by a judge of the supreme court of appeals, or of a circuit court, or by any other person authorized by law to administer an oath; and the secretary of state shall record and file said oaths subscribed by each member; and no other oath or declaration shall be required as a qualification. Any member who shall refuse to take the oath herein prescribed, shall forfeit his seat; and any member who shall be convicted of having violated the oath last above required to be taken, shall forfeit his seat and be disqualified thereafter from holding any office of profit or trust in this State.

§51. The Legislature shall not appropriate any money out of the treasury except in accordance with the provisions of this section.

Subsection A—Appropriation Bills

(1) Every appropriation bill shall be either a budget bill, or a supplementary appropriation bill, as hereinafter provided.

Subsection B—Budget Bills

(2) Within ten days after the convening of the regular session of the Legislature in odd-numbered years, unless such time shall be extended by the Legislature, and on the second Wednesday of January in even-numbered years, the governor shall submit to the Legislature a budget for the next ensuing fiscal year. The budget shall contain a complete plan of proposed expenditures and estimated revenues for the fiscal year and shall show the estimated surplus or deficit of revenues at the end of each fiscal year. Accompanying each budget shall be a statement showing: (a) An estimate of the revenues and expenditures for the current fiscal year, including the actual revenues and actual expenditures to the extent available, and the revenues and expenditures for the next preceding fiscal year; (b) the current assets, liabilities, reserves and surplus or deficit of the State; (c) the debts and funds of the State; (d) an estimate of the State's financial condition as of the beginning and end of the fiscal year covered by the budget; (e) any explanation the governor may desire to make as to the important features of the budget and any suggestions as to methods for reduction or increase of the State's revenue.

(3) Each budget shall embrace an itemized estimate of the appropriations, in such form and detail as the governor shall determine or as may be prescribed by law: (a) For the Legislature as certified to the governor in the manner hereinafter provided; (b) for the executive department; (c) for the judiciary department, as provided by law, certified to the governor by the auditor; (d) for payment and discharge of the principal and interest of any debt of the State created in conformity with the Constitution, and all laws enacted in pursuance thereof; (e) for the salaries payable by the State under the Constitution and laws of the State; (f) for such other purposes as are set forth in the Constitution and in laws made in pursuance thereof.

(4) The governor shall deliver to the presiding officer of each house the budget and a bill for all the proposed appropriations of the budget clearly itemized and classified, in such form and detail as the governor shall determine or as may be prescribed by law; and the presiding officer of each house shall promptly cause the bill to be introduced therein, and such bill shall be known as the "Budget Bill." The governor may, with the consent of the Legislature, before final action thereon by the Legislature, amend or supplement the budget to correct an oversight, or to provide funds contingent on passage of pending legislation, and in case of an emergency, he may deliver such an amendment or supplement to the presiding officers of both houses; and the amendment or supplement shall thereby become a part of the budget bill as an addition to the items of the bill or as a modification of or a substitute for any item of the bill the amendment or supplement may affect.

(5) The Legislature shall not amend the budget bill so as to create a deficit but may amend the bill by increasing or decreasing any item therein: Provided, that no item relating to the judiciary shall be decreased, and except as otherwise provided in this Constitution, the salary or compensation of any public officer shall not be increased or decreased during his term of office: Provided further, that the Legislature shall not increase the estimate of revenue submitted in the budget without the approval of the governor.

(6) The governor and such representatives of the executive departments, boards, officers and commissions of the State expending or applying for state moneys as have been designated by the governor for this purpose, shall have the right, and when requested by either house of the Legislature it shall be their duty, to appear and be heard with respect to any budget bill, and to answer inquiries relative thereto.

(7) Neither house shall consider other appropriations until the budget bill has been finally acted upon by both houses, and no such other appropriations shall be valid except in accordance with the provisions following: (a) Every such appropriation shall be embodied in a separate bill limited to some single work,

object or purpose therein stated and called therein a supplementary appropriation bill; (b) each supplementary appropriation bill shall provide the revenue necessary to pay the appropriation thereby made by a tax, direct or indirect, to be laid and collected as shall be directed in the bill unless it appears from such budget that there is sufficient revenue available.

Subsection D—General Provisions

(8) If the budget bill shall not have been finally acted upon by the Legislature three days before the expiration of its regular session, the governor shall issue a proclamation extending the session for such further period as may, in his judgment, be necessary for the passage of the bill; but no matter other than the bill shall be considered during such an extension of a session except a provision for the cost thereof.

(9) For the purpose of making up the budget, the governor shall have the power, and it shall be his duty, to require from the proper state officials, including herein all executive departments, all executive and administrative officers, bureaus, boards, commissions and agencies expending or supervising the expenditure of, and all institutions applying for state moneys and appropriations, such itemized estimates and other information, in such form and at such times as he shall direct. The estimates for the legislative department, certified by the presiding officer of each house, and for the judiciary, as provided by law, certified by the auditor, shall be transmitted to the governor in such form and at such times as he shall direct, and shall be included in the budget.

(10) The governor may provide for public hearings on all estimates and may require the attendance at such hearings of representatives of all agencies and all institutions applying for state moneys. After such public hearings he may, in his discretion, revise all estimates except those for the legislative and judiciary departments.

(11) Every budget bill or supplementary appropriation bill passed by a majority of the members elected to each house of the Legislature shall, before it becomes a law, be presented to the governor. The governor may veto the bill, or he may disapprove or reduce items or parts of items contained therein. If he approves he shall sign it and thereupon it shall become a law. The bill, items or parts thereof, disapproved or reduced by the governor, shall be returned with his objections to each house of the Legislature.

Each house shall enter the objections at large upon its journal and proceed to reconsider. If, after reconsideration, two thirds of the members elected to each house agree to pass the bill, or such items or parts thereof, as were disapproved or reduced, the bill, items or parts thereof, approved by two thirds of such members, shall become law, notwithstanding the objections of the governor. In all such cases, the vote of each house shall be determined by yeas and nays to be entered on the journal.

A bill, item or part thereof, which is not returned by the governor within five days (Sundays excepted) after the bill has been presented to him shall become a law in like manner as if he had signed the bill, unless the Legislature, by adjournment, prevents such return, in which case it shall be filed in the office of the secretary of state, within five days after such adjournment, and shall become a law; or it shall be so filed within such five days with the objections of the governor, in which case it shall become law to the extent not disapproved by the governor.

(12) The Legislature may, from time to time, enact such laws, not inconsistent with this section, as may be necessary and proper to carry out its provisions.

(13) In the event of any inconsistency between any of the provisions of this section and any of the other provisions of the Constitution, the provisions of this section shall prevail. But nothing herein shall be construed as preventing the governor from calling extraordinary sessions of the Legislature, as provided by section nineteen of this article, or as preventing the Legislature at such extraordinary sessions from considering any emergency appropriation or appropriations.

(14) If any item of any appropriation bill passed under the provisions of this section shall be held invalid upon any ground, such invalidity shall not affect the legality of the bill or of any other item of such bill or bills.

[Editor's note.—The amendment of this section was proposed by House Joint Resolution No. 3, Acts 1967; submitted by Acts 1968, c. 15; and ratified on November 5, 1968. The amendment rewrote the section to read as set out above and designated it the "Modern Budget Amendment."]

It shall have such other appellate jurisdiction, in both civil and criminal cases, as may be prescribed by law.

The court shall have power to promulgate rules for all cases and proceedings, civil and criminal, for all of the courts of the State relating to writs, warrants, process, practice and procedure, which shall have the force and effect of law.

The court shall have general supervisory control over all intermediate appellate courts, circuit courts and magistrate courts. The chief justice shall be the ad-

ministrative head of all the courts. He may assign a judge from one intermediate appellate court to another, from one circuit court to another, or from one magistrate court to another, for temporary service. The court shall appoint an administrative director to serve at its pleasure at a salary to be fixed by the court. The administrative director shall, under the direction of the chief justice, prepare and submit a budget for the court.

The officers and employees of the supreme court of appeals, including the clerk and the law librarian, shall be appointed and may be removed by the court. Their duties and compensation shall be prescribed by the court.

The number, times and places of the terms of the supreme court of appeals shall be prescribed by law. There shall be at least two terms of the court held annually.

Writ of Error, Supersedeas and Appeal; Scope and Form of Decisions

§4. A writ of error, supersedeas or appeal shall be allowed by the supreme court of appeals, or a justice thereof, only upon a petition assigning error in the judgment or proceedings of a court and then only after the court, or a justice thereof, shall have examined and considered the record and is satisfied that there probably is error in the record, or that it presents a point proper for the consideration of the court.

No decision rendered by the court shall be considered as binding authority upon any court, except in the particular case decided, unless a majority of the justices of the court concur in such decision.

When a judgment or order of another court is reversed, modified or affirmed by the court, every point fairly arising upon the record shall be considered and decided; the reasons therefor shall be concisely stated in writing and preserved with the record; and it shall be the duty of the court to prepare a syllabus of the points adjudicated in each case in which an opinion is written and in which a majority of the justices thereof concurred, which shall be prefixed to the published report of the case.

Circuit Courts

§5. The judge or judges of each circuit court shall be elected by the voters of the circuit for a term of eight years, unless sooner removed or retired as authorized in this article. The Legislature may prescribe by law whether the election of such judges is to be on a partisan or nonpartisan basis. Upon the effective date of this article, each statutory court of record of limited jurisdiction existing in the State immediately prior to such effective date shall become part of the circuit court for the circuit in which it presently exists, and each such judge of such statutory court of record of limited jurisdiction shall thereupon become a judge of such circuit court. During his continuance in office, a judge of a circuit court shall reside in the circuit of which he is a judge.

The Legislature may increase, or other than during term of office decrease, the number of circuit judges within any circuit. The judicial circuits in existence on the effective date of this article shall remain as so constituted until changed by law, and the Legislature, at any session thereof held in the odd-numbered year next preceding the time for the full term election of the judges thereof, may rearrange the circuits and may increase or diminish the number of circuits. A judge of a circuit court in office at the time of any such change shall continue as a judge of the circuit in which he shall continue to reside after such change until his term shall expire, unless sooner removed or retired as authorized in this article.

There shall be at least one judge for each circuit court and as many more as may be necessary to transact the business of such court. If there be two or more judges of a circuit court, provision shall be made by rules of such circuit court for the selection of one of such judges to serve as chief judge thereof. If the chief judge is temporarily disqualified or unable to serve, one of the judges of the circuit court designated in accordance with the rules of such court shall serve temporarily in his stead.

The supreme court of appeals shall provide for dividing the business of those circuits in which there shall be more than one judge between the judges thereof

so as to promote and secure the convenient and expeditious transaction of such business.

In every county in the State the circuit court for such county shall sit at least three times in each year. The supreme court of appeals shall designate the times at which each circuit court shall sit, but until this action is taken by the supreme court of appeals, each circuit court shall sit at the times prescribed by law. If there be two or more judges of a circuit court, such judges may hold court in the same county or in different counties within the circuit at the same time or at different times.

Circuit Courts; Jurisdiction, Authority and Power

§6. Circuit courts shall have control of all proceedings before magistrate courts by mandamus, prohibition and certiorari.

Circuit courts shall have original and general jurisdiction of all civil cases at law where the value or amount in controversy, exclusive of interest and costs, exceeds one hundred dollars unless such value or amount is increased by the Legislature; of all civil cases in equity; of proceedings in habeas corpus, mandamus, quo warranto, prohibition and certiorari; and of all crimes and misdemeanors. On and after January one, one thousand nine hundred seventy-six, the Legislature may provide that all matters of probate, the appointment and qualification of personal representatives, guardians, committees and curators, and the settlements of their accounts, shall be vested exclusively in circuit courts or their officers, but until such time as the Legislature provides otherwise, jurisdiction in such matters shall remain in the county commissions or tribunals existing in lieu thereof or the officers of such county commissions or tribunals.

Circuit courts shall have appellate jurisdiction in all cases, civil and criminal, where an appeal, writ of error or supersedeas is allowed by law to the judgment or proceedings of any magistrate court, unless such jurisdiction is conferred by law exclusively upon an intermediate appellate court or the supreme court of appeals.

Circuit courts shall also have such other jurisdiction, authority or power, original or appellate or concurrent, as may be prescribed by law.

Subject to the approval of the supreme court of appeals, each circuit court shall have the authority and power to establish local rules to govern the court.

Subject to the supervisory control of the supreme court of appeals, each circuit court shall have general supervisory control over all magistrate courts in the circuit. Under the direction of the chief justice of the supreme court of appeals, the judge of the circuit court, or the chief judge thereof if there be more than one judge of the circuit court, shall be the administrative head of the circuit court and all magistrate courts in the circuit.

General Provisions Relating to Justices, Judges and Magistrates

§7. All justices, judges and magistrates must be residents of this State and shall be commissioned by the governor. No person may hereafter be elected as a justice of the supreme court of appeals unless he has been admitted to practice law for at least ten years prior to his election, and no person may hereafter be elected as a judge of a circuit court unless he has been admitted to practice law for at least five years prior to his election.

Justices, judges and magistrates shall receive the salaries fixed by law, which shall be paid entirely out of the state treasury, and which may be increased but shall not be diminished during their term of office, and they shall receive expenses as provided by law. The salary of a circuit judge shall also not be diminished during his term of office by virtue of the statutory courts of record of limited jurisdiction of his circuit becoming a part of such circuit as provided in section five of this article.

Any justice of the supreme court of appeals and any judge of any circuit court, including any statutory court of record of limited jurisdiction which becomes a part of a circuit court by virtue of section five of this article, in office on the effective date of this article shall continue in office until his term shall expire, unless sooner removed or retired as authorized in this article: *Provided*, That as to the term of any judge of a statutory court of record of limited jurisdiction

which does not expire on the thirty-first day of December, one thousand nine hundred seventy-six, the following provisions shall govern and control unless any such judges shall be sooner removed or retired as authorized in this article: (1) If the term would otherwise expire before the thirty-first day of December, one thousand nine hundred seventy-six, such term shall continue through and expire on said thirty-first day of December, one thousand nine hundred seventy-six, (2) if the term would otherwise expire on the first day of January, one thousand nine hundred seventy-seven, such term shall terminate and expire on the thirty-first day of December, one thousand nine hundred seventy-six, and (3) if the term would otherwise expire after the thirty-first day of December, one thousand nine hundred seventy-six, but other than on the first day of January, one thousand nine hundred seventy-seven, such term shall continue through and expire on the thirty-first day of December, one thousand nine hundred eighty-four.

No justice, judge or magistrate shall hold any other office, or accept any appointment or public trust, under this or any other government; nor shall he become a candidate for any elective public office or nomination thereto, except a judicial office; and the violation of any of these provisions shall vacate his judicial office. No justice of the supreme court of appeals or judge of an intermediate appellate court or of a circuit court shall practice the profession of law during the term of his office, but magistrates who are licensed to practice this profession may practice law except to the extent prohibited by the Legislature.

If from any cause a vacancy shall occur in the office of a justice of the supreme court of appeals or a judge of a circuit court, the governor shall issue a directive of election to fill such vacancy in the manner prescribed by law for electing a justice or judge of the court in which the vacancy exists, and the justice or judge shall be elected for the unexpired term; and in the meantime, the governor shall fill such vacancy by appointment until a justice or judge shall be elected and qualified. If the unexpired term be less than two years, or such additional period, not exceeding a total of three years, as may be prescribed by law, the governor shall fill such vacancy by appointment for the unexpired term.

Censure, Temporary Suspension and Retirement of Justices, Judges and Magistrates; Removal

§8. Under its inherent rule-making power, which is hereby declared, the supreme court of appeals shall, from time to time, prescribe, adopt, promulgate and amend rules prescribing a judicial code of ethics, and a code of regulations and standards of conduct and performances for justices, judges and magistrates, along with sanctions and penalties for any violation thereof, and the supreme court of appeals is authorized to censure or temporarily suspend any justice, judge or magistrate having the judicial power of the State, including one of its own members, for any violation of any such code of ethics, code of regulations and standards, or to retire any such justice, judge or magistrate who is eligible for retirement under the West Virginia judges' retirement system (or any successor or substituted retirement system for justices, judges and magistrates of this State) and who, because of advancing years and attendant physical or mental incapacity, should not, in the opinion of the supreme court of appeals, continue to serve as a justice, judge or magistrate.

No justice, judge or magistrate shall be censured, temporarily suspended or retired under the provisions of this section unless he shall have been afforded the right to have a hearing before the supreme court of appeals, nor unless he shall have received notice of the proceedings, with a statement of the cause or causes alleged for his censure, temporary suspension or retirement, at least twenty days before the day on which the proceeding is to commence. No justice of the supreme court of appeals may be temporarily suspended or retired unless all of the other justices concur in such temporary suspension or retirement. When rules herein authorized are prescribed, adopted and promulgated, they shall supersede all laws and parts of laws in conflict therewith, and such laws shall be and become of no further force or effect to the extent of such conflict.

A retired justice or judge may, with his permission and with the approval of the supreme court of appeals, be recalled by the chief justice of the supreme court of appeals for temporary assignment as a justice of the supreme court of

appeals, or judge of an intermediate appellate court, a circuit court or a magistrate court.

A justice or judge may be removed only by impeachment in accordance with the provisions of section nine, article four of this Constitution. A magistrate may be removed from office in the manner provided by law for the removal of county officers.

Clerks of Circuit Courts

§9. The voters of each county shall elect a clerk of the circuit court, whose term of office shall be six years; his duties, responsibilities, compensation and the manner of removing him from office shall be prescribed by law. Whenever the clerk shall be so situated as to make it improper for him to act in any matter, a clerk to act therein shall be appointed by the judge of the circuit court or the chief judge thereof, if there be more than one judge of the circuit court. Vacancies shall be filled in the manner prescribed by law. A clerk of the circuit court in office on the effective date of this article shall continue in office until his term shall expire, unless sooner removed in the manner prescribed by law.

Magistrate Courts

§10. The Legislature shall establish in each county a magistrate court or courts with the right of appeal as prescribed by law. Such courts shall be courts of record if so prescribed by law.

The Legislature shall determine the qualifications and the number of magistrates for each such court to be elected by the voters of the county, and the Legislature may prescribe by law whether the election of such magistrates is to be on a partisan or nonpartisan basis: *Provided*, That any person in office as a justice of the peace of this State on the effective date of this article and who has served as a justice of the peace of this State for at least one year prior to such effective date shall, insofar as any qualifications established by the Legislature for the office of magistrate are concerned and notwithstanding the same, be deemed qualified for life to run for election as a magistrate of any such court: *And provided further*, That the Legislature shall not have the power to require that a magistrate be a person licensed to practice the profession of law, nor shall any justice or judge of any higher court establish any rules which by their nature would dictate or mandate that a magistrate be a person licensed to practice the profession of law. The magistrates of such courts shall hold their offices for the term of four years unless sooner removed or retired as authorized in this article. The Legislature shall also determine the number of officers to be selected for each such court and the manner of their selection. During his continuance in office a magistrate or officer of such a court shall reside in the county for which he is elected or selected. The Legislature shall prescribe by law for the filling of any vacancy in the office of a magistrate or officer of such court.

The jurisdiction of a magistrate court shall extend throughout the county for which it is established, shall be uniform for all counties of the State and shall be subject to such regulations as to venue of actions and the counties in which process may be executed or served on parties or witnesses as may be prescribed by law. The times and places for holding such courts shall be designated or determined in such manner as shall be prescribed by law.

Magistrate courts shall have such original jurisdiction in criminal matters as may be prescribed by law, but no person shall be convicted or sentenced for a felony in such courts. In criminal cases, the procedure may be by information or warrant of arrest, without presentment or indictment by a grand jury. Such courts shall have original jurisdiction in all civil cases at law wherein the value or amount in controversy, exclusive of interest and costs, shall not exceed fifteen hundred dollars, unless such amount and value shall be increased by the Legislature, except such civil matters as may be excluded from their jurisdiction by law; and, to the extent provided by law, in proceedings involving real estate when the title thereto is not in controversy. No judgment of a magistrate in any proceeding involving real estate or any right pertaining thereto shall bar the title of any party or any remedy therefor.

The division of the business of a magistrate court in any county in which there shall be more than one magistrate of such court between the magistrates

thereof so as to promote and secure the convenient and expeditious transaction of such business shall be determined in such manner or by such method as shall be prescribed by the judge of the circuit court of such county, or the chief judge thereof, if there be more than one judge of such circuit court.

In a trial by jury in a magistrate court, the jury shall consist of six jurors who are qualified as prescribed by law.

No magistrate or any officer of a magistrate court shall be compensated for his services on a fee basis or receive to his own use for his services any pecuniary compensation, reward or benefit other than the salary prescribed by law.

Municipal Courts

§11. The Legislature may provide for the establishment in incorporated cities, towns or villages of municipal, police or mayors' courts, and may also provide the manner of selection of the judges of such courts. Such courts shall have jurisdiction to enforce municipal ordinances, with the right of appeal as prescribed by law. Until otherwise provided by law, all such courts heretofore established shall remain and continue as now constituted, and with the same right of appeal, insofar as their jurisdiction to enforce municipal ordinances is concerned; but on and after January one, one thousand nine hundred seventy-seven, any other jurisdiction now exercised by such courts shall cease. No judge of a municipal, police or mayor's court or any officer thereof shall be compensated for his services on a fee basis or receive to his own use for his services any pecuniary compensation, reward or benefit other than the salary prescribed therefor.

Issuance and Execution of Writs, Warrants and Process; Admission to Bail

§12. The Legislature may designate the courts and officers or deputies thereof who shall have the power to issue, execute or serve such writs, warrants or any other process as may be prescribed by law, and may specify before what courts or officers thereof such writs, warrants or other process shall be returnable. The Legislature may also designate the courts and officers or deputies thereof who shall have the power to admit persons to bail. No person exercising such powers shall be compensated therefor on a fee basis.

Parts of Existing Law Effective

§13. Except as otherwise provided in this article, such parts of the common law, and of the laws of this State as are in force on the effective date of this article and are not repugnant thereto, shall be and continue the law of this State until altered or repealed by the Legislature.

Pending Causes; Transfer of Causes; Records

§14. Until otherwise provided by law, all matters pending in any court on the effective date of this article shall remain and be prosecuted in the court in which they are pending.

Whenever the jurisdiction, powers or duties of any court are terminated or changed, the Legislature shall provide by law for the transfer of all matters pending therein as to which the court shall not thereafter act, together with all of the records and papers pertaining thereto, to a court having jurisdiction, powers or duties as to such matters, and shall provide for the prosecution therein of such matters as if then and there pending.

All records and papers pertaining to matters already disposed of in any court shall be preserved or disposed of in a manner prescribed by law.

Offices Phased Out; Effective Date of Article; Certain Provisions to Be Operable at Time Specified; Effect of Article on Certain Provisions of Constitution

§15. Notwithstanding the provisions of section one of this article, the office of justice of the peace, as heretofore constituted, shall continue until January one,

one thousand nine hundred seventy-seven. No person shall be elected to the office of justice of the peace or constable at the general election to be held in the year one thousand nine hundred seventy-six, and said offices shall cease to exist as of January one, one thousand nine hundred seventy-seven.

This article shall take effect from the time of ratification, but in any case where it is specified in this article that a provision shall become operable on and after a certain date, such date shall govern and control as to the operable date of such provision.

The provisions of this article shall supersede and prevail over all other provisions of this Constitution which are expressly or impliedly in conflict or inconsistent therewith.

[The amendment of this article was proposed by Senate Joint Resolution No. 6, Acts, Regular Session, 1974, p. 946; submitted under authority of art. 11, c. 3, of the West Virginia Code; and ratified November 5, 1974. Vote on the amendment: For ratification, 217,732; Against ratification, 127,393; Majority, 90,339.]

The foregoing officers, except the prosecuting attorneys, shall reside in the county and district for which they shall be respectively elected.

Sheriffs

§3. A person who has been elected or who has served as sheriff during all or any part of two consecutive terms shall be ineligible for the office of sheriff during any part of the term immediately following the second of the two consecutive terms. The person holding the office of sheriff when this section is ratified shall not be prevented from holding the office of sheriff during the term immediately following the term he is then serving.

[The amendment of this section was proposed by House Joint Resolution No. 3, Acts, Regular Session, 1973, p. 700; and ratified at a special election on November 6, 1973. Vote on the amendment: For ratification, 123,003; Against ratification, 107,427; Majority, 15,576.]

This section, prior to its amendment, read:

"The same person shall not be elected sheriff for two consecutive full terms; nor shall any person who acted as his deputy be elected successor to such sheriff, nor shall any sheriff act as deputy of his successor; nor shall he during his term of service, or within one year thereafter, be eligible to any other office. The retiring sheriff shall finish all business remaining in his hands, at the expiration of his term; for which purpose his commission and official bond shall remain in force. The duties of the office of sheriff shall be performed by him in person, or under his superintendence."

Malfeasance and Misfeasance in Office

§4. The presidents of the county courts, the justices of the peace, sheriffs, prosecuting attorneys, clerks of the circuit and of the county courts, and all other county officers shall be subject to indictment for malfeasance, misfeasance, or neglect of official duty and upon conviction thereof, their office shall become vacant.

Commissioning of Officers Not Otherwise Provided for

§5. The Legislature shall provide for commissioning such of the officers herein mentioned, as it may deem proper, not provided for in this Constitution, and may require any class of them to give bond with security for the faithful discharge of the duties of their respective offices.

Formation of New Counties

§8. No new county shall hereafter be formed in this State with an area of less than four hundred square miles; nor with a population of less than six thousand; nor shall any county, from which a new county, or part thereof shall be taken, be reduced in area below four hundred square miles, nor in population below six thousand. Nor shall a new county be formed without the consent of a majority of the voters residing within the boundaries of the proposed new county, and voting on the question.

County Commissions

§9. The office of county court or tribunal in lieu thereof heretofore created is hereby continued in all respects as heretofore constituted, but from and after the effective date of this amendment shall be designated as the county commission and wherever in this Constitution, the code of West Virginia, acts of the Legislature or elsewhere in law a reference is made to the county court of any county, such reference shall be read, construed and understood to mean the county commission.

Except as otherwise provided in section eleven or thirteen of this article, there shall be in each county of the state a county commission, composed of three commissioners, and two of said commissioners shall be a quorum for the transaction of business. It shall hold four regular sessions in each year, and at such times as may be fixed and entered of record by the said commission. Provisions may be made by law for holding special sessions of said commissions.

§10. The commissioners shall be elected by the voters of the county, and hold their office for a term of six years, except that at the first meeting of said commissioners they shall designate by lot, or otherwise in such manner as they may determine, one of their number, who shall hold his office for a term of two years, one for four years, and one for six years, so that one shall be elected every two years; but no two of said commissioners shall be elected from the same magisterial district. If two or more persons residing in the same district shall receive the greater number of votes cast at any election, then only the one of such persons receiving the highest number shall be declared elected, and the person living in another district, who shall receive the next highest number of votes, shall be declared elected. Said commissioners shall annually elect one of their number as president. The commissioners of said commissions, now in office, shall remain therein for the term for which they have been elected, unless sooner removed therefrom, in the manner prescribed by law.

Such commissions may exercise such other powers, and perform such other duties, not of a judicial nature, as may be prescribed by law. Such existing tribunals as have been heretofore established by the Legislature to act as to police and fiscal matters in lieu of county commissions in certain counties shall remain and continue as now constituted in the counties in which they have been respectively established until otherwise provided by law, and they shall have and exercise the powers which the county commissions have under this article, and, until otherwise provided by law, such clerk as is mentioned in section twelve of this article shall exercise any powers and discharge any duties, heretofore conferred on, or required of, any such tribunal or the clerk of such tribunal respecting the recording and preservation of deeds and other papers presented for record and such other matters as are prescribed by law to be exercised and discharged by the clerk thereof.

§12. The voters of each county shall elect a clerk of the county commission, whose term of office shall be six years. His duties and compensation and the manner of his removal shall be prescribed by law. But the clerks of said commissions, now in office, shall remain therein for the term for which they have been elected, unless sooner removed therefrom, in the manner prescribed by law.

Reformation of County Commissions

§13. The Legislature shall, upon the application of any county, reform, alter or modify the county commission established by this article in such county, and in lieu thereof, with the assent of a majority of the voters of such county voting at an election, create another tribunal for the transaction of the business required to be performed by the county commission created by this article. Whenever a county commission shall receive a petition signed by ten percent of the registered voters of such county requesting the reformation, alteration or modification of such county commission, it shall be the mandatory duty of such county commission to request the Legislature, at its next regular session thereafter, to enact an act reforming, altering or modifying such county commission and establishing in lieu thereof another tribunal for the transaction of the business required to be performed by such county commission, such act to take effect upon the assent of the voters of such county, as aforesaid. Whenever any such tribunal is established, all of the provisions of this article in relation to the county commission shall be applicable to the tribunal established in lieu of said commission. When such tribunal has been established, it shall continue to act in lieu of the county commission until otherwise provided by law.

[The foregoing article was amended by adding sections 9, 10, 11, 12 and 13 and was proposed by Senate Joint Resolution No. 6, Acts, Regular Session, 1974, p. 946; submitted under authority of art. 11, c. 3, of the West Virginia Code; and ratified November 5, 1974. Vote on the amendment: For ratification, 217,732; Against ratification, 127,393; Majority 90,339.]

[**Editor's note.**—The Irreducible School Fund Amendment, ratified on November 4, 1902, and set forth at the end of the Constitution, provides that the accumulation of the school fund provided for in this section shall cease, that all moneys in the fund over one million dollars and interest on the fund shall be used for support of the free schools, and that all money and taxes formerly payable into the treasury to the credit of the school fund shall be credited to the general school fund for the support of the free schools.]

Support of Free Schools

§5. The Legislature shall provide for the support of free schools by appropriating thereto the interest of the invested "school fund", the net proceeds of all forfeitures and fines accruing to this State under the laws thereof; and by general taxation of persons and property or otherwise. All private rights and interests in lands in this State derived from or under the laws of the State of Virginia, and from or under the Constitution and laws of this State prior to the time this Constitution goes into operation, shall remain valid and secure and shall be determined by the laws in force in Virginia, prior to the formation of this State, and by the Constitution and laws in force in this State prior to the time this Constitution goes into effect.

Land Entry Prohibited

§2. No entry by warrant on land in this State shall hereafter be made.

Forfeited Lands

§3. All title to lands in this State heretofore forfeited, or treated as forfeited, waste and unappropriated, or escheated to the state of Virginia, or this State, or purchased by either of said states at sales made for the nonpayment of taxes and become irredeemable, or hereafter forfeited, or treated as forfeited, or escheated to this State, or purchased by it and become irredeemable, not redeemed, released or otherwise disposed of, vested and remaining in this State, shall be, and is hereby transferred to, and vested in any person (other than those for whose default the same may have been forfeited or returned delinquent, their heirs or devisees), for so much thereof as such person has, or shall have had, actual continuous possession of, under color or claim of title for ten years, and who, or those under whom he claims, shall have paid the state taxes thereon for any five years during such possession; or if there be no such person, then to any person (other than those for whose default the same may have been forfeited, or returned delinquent, their heirs or devisees), for so much of said land as such person shall have title or claim to, regularly derived, mediately or immediately from, or under a grant from the Commonwealth of Virginia, or this State, not forfeited, which but for the title forfeited, would be valid, and who, or those under whom he claims has, or shall have paid all state taxes charged or chargeable thereon for five successive years, after the year 1865, or from the date of the grant, if it shall have issued since that year; or if there be no such person, as aforesaid, then to any person (other than those for whose default the same may have been forfeited, or returned delinquent, their heirs or devisees), for so much of said land as such person shall have had claim to and actual continuous possession of, under color of title for any five successive years after the year 1865, and have paid all state taxes charged or chargeable thereon for said period.

Waste and Unappropriated Lands

§4. Former Owner's Privilege

§5. The former owner of any such land, shall be entitled to receive the excess of the sum for which the land may be sold over the taxes charged and chargeable thereon, or which, if the land had not been forfeited, would have been

charged or chargeable thereon, since the formation of this State, with interest at the rate of twelve per centum per annum, and the costs of the proceedings, if his claim be filed in the circuit court that decrees the sale, within two years thereafter.

Land Books—Taxes

§6. It shall be the duty of every owner of land, or of an undivided interest therein, to have such land, or such undivided interest therein, entered on the land books of the county in which it, or a part of it, is situated, and to cause himself to be charged with taxes legally levied thereon and pay the same. When, for any five successive years, the owner of any tract of land, or undivided interest therein, shall not have been charged on such land books with state, county and district taxes thereon, then, by operation hereof, the land, or undivided interest therein, shall be forfeited, and title vested in the State. But if, for any one or more of such five years, the owner of such land, or of any undivided interest therein, shall have been charged with state, county and district taxes, on any part of such land, such part thereof, or undivided interest therein, shall not be forfeited for such cause. [**Editor's note.**—The amendment of this section was proposed by House Joint Resolution No. 4, Acts 1933, 2nd Ex. Sess., p. 583; submitted by Acts 1933, 2nd Ex. Sess., c. 72; and ratified on November 6, 1934. The amendment rewrote this section. Prior to the amendment this section provided for the forfeiture of tracts containing one thousand acres or more, did not expressly provide for owners of undivided interests, and did not mention county and district taxes.]

It was held, before the amendment, that although this section provided for the forfeiture of lands containing one thousand acres or more, it did not limit such forfeiture to such tracts, and that an act providing for the forfeiture of a less number of acres than one thousand, for nonentry upon the land books, was merely cumulative and not inhibited by this section of the Constitution. See *State v. Swann*, 46 W. Va. 128, 33 S.E. 89 (1899).]

ARTICLE XIV

Amendments

§1. No convention shall be called, having the authority to alter the Constitution of the State, unless it be in pursuance of law, passed by the affirmative vote of a majority of the members elected to each house of the Legislature and providing that polls shall be opened throughout the State, on the same day therein specified, which shall not be less than three months after the passage of such law, for the purpose of taking the sense of the voters on the question of calling a convention. And such convention shall not be held unless a majority of the votes cast at such polls be in favor of calling the same; nor shall the members be elected to such convention, until, at least, one month after the result of the vote shall be duly ascertained, declared and published. And all acts and ordinances of the said convention shall be submitted to the voters of the State for ratification or rejection, and shall have no validity whatever until they are ratified.

How Amendments Are Made

§2. Any amendment to the Constitution of the State may be proposed in either house of the Legislature at any regular or extraordinary session thereof; and if the same, being read on three several days in each house, be agreed to on its third reading, by two thirds of the members elected thereto, the proposed amendment, with the yeas and nays thereon, shall be entered on the journals, and it shall be the duty of the Legislature to provide by law for submitting the

same to the voters of the State for ratification or rejection, at a special election, or at the next general election thereafter, and cause the same to be published, at least three months before such election in some newspaper in every county in which a newspaper is printed. If a majority of the qualified voters, voting on the question at the polls held pursuant to such law, ratify the proposed amendment, it shall be in force from the time of such ratification, as part of the Constitution of the State. If two or more amendments be submitted at the same time, the vote on the ratification or rejection shall be taken on each separately, but an amendment may relate to a single subject or to related subject matters and may amend or modify as many articles and as many sections of the Constitution as may be necessary and appropriate in order to accomplish the objectives of the amendment. Whenever one or more amendments are submitted at a special election, no other question, issue or matter shall be voted upon at such special election, and the cost of such special election throughout the State shall be paid out of the state treasury.

[The first amendment of this section was proposed by House Joint Resolution No. 2, Acts, Regular Session, 1960, p. 833; submitted by Acts, Regular Session, 1960, c. 5; and ratified November 8, 1960. Vote on the amendment: For ratification, 222,210; Against ratification, 114,530; Majority, 107,680.

It added the words "but an amendment may relate to a single subject or to related subject matters and may amend or modify as many articles and as many sections of the Constitution as may be necessary and appropriate in order to accomplish the objectives of the amendment."

The second amendment was proposed by Senate Joint Resolution No. 3, Regular Session, 1971, p. 1041; submitted by Chapter 17, Acts, Regular Session, 1971; and ratified November 7, 1972. Vote on the amendment: For ratification, 391,390; Against ratification, 145,918; Majority, 245,472.

It inserted the words "at any regular or extraordinary session" in the first sentence; provided for submitting proposed amendments to the voters at special elections as well as general elections; and added the last sentence as it appears in the section above.]

The Legislature shall provide by law, either for the appropriation from the general revenues of the State, or for the issuance and sale of state bonds, which shall be in addition to all other state bonds heretofore issued, or a combination of both as the Legislature may determine, for the purpose of paying a cash bonus to veterans of the armed forces of the United States who were in active service during the periods hereinafter described. Such bonus shall be paid to all persons who rendered active service in the armed forces of the United States between the first day of August, one thousand nine hundred sixty-four, and the date determined by the President or Congress of the United States as the end of involvement of United States armed forces in the Vietnam conflict, both dates inclusive, who were bona fide residents of the State of West Virginia at the time of their entry into such active service and for a period of at least six months immediately prior thereto, who have not been separated from such service under conditions other than honorable, and who, within the period specified above, actively served in such armed forces for a period of at least

ninety days. Such bonus shall also be paid to any person, otherwise eligible under the preceding sentence, who rendered active service in the armed forces of the United States prior to the first day of August, one thousand nine hundred sixty-four, and who received the Vietnam armed forces expeditionary medal. Such bonus shall also be paid to any veteran, otherwise qualified under either of the two sentences next preceding, who was discharged within ninety days after entering the armed forces because of a service-connected disability. Where a deceased veteran's death was connected with such service and resulted from such service during the time period specified, however, the surviving relatives shall be paid, in accordance with the same order of entitlement, the sum of five hundred dollars in lieu of any bonus to which the deceased might have been entitled if living.

The principal amount of any bonds issued for the purpose of paying the bonuses provided for in this amendment shall not exceed the principal amount of forty million dollars, but may be funded or refunded either on the maturity dates of said bonds or on any date on which said bonds are callable prior to maturity, and if any of said bonds have not matured or are not then callable prior to maturity, the Legislature may nevertheless provide at any time for the issuance of refunding bonds to fund or refund such bonds on the dates when said bonds mature or on any date on which said bonds are callable prior to maturity and for the investment or reinvestment of the proceeds of such refunding bonds in direct obligations of the United States of America until the date or dates upon which such bonds mature or are callable prior to maturity. The principal amount of any refunding bonds issued under the provisions of this paragraph shall not exceed the principal amount of the bonds to be funded or refunded thereby.

The bonds may be issued from time to time for the purposes authorized by this amendment as separate issues or as combined issues.

Whenever the Legislature shall provide for the issuance of any bonds under the authority of this amendment, it shall at the same time provide for the levy and collection of an additional cigarette tax, or a tax on any other tobacco products, or an additional tax on nonintoxicating beer, or an additional charge on the sale of each bottle of wine or liquor, or an additional general consumers sales tax, or a graduated income tax, or any combination of one or more thereof, or such other dedicated tax as the Legislature may determine, in such amount as may be required to pay annually the interest on such bonds and the principal thereof within and not exceeding thirty years, and all such taxes or charges so levied shall be irrevocably dedicated for the payment of the principal of and interest on such bonds until such principal of and interest on such bonds are finally paid and discharged and any of the covenants, agreements or provisions in the acts of the Legislature levying such taxes or charges shall be enforceable in any court of competent jurisdiction by any of the holders of said bonds.

CHARITABLE**WEST VIRGINIA CHILDREN'S HOME****Elkins 26241**

Director: John Boulter.

Located in Randolph County, the West Virginia Children's Home was established by an act of the Legislature in 1917. The two-story brick structure is situated on a 17-acre tract which also includes playground equipment, an open air swimming pool and a modern elementary school with adjoining gymnasium facilities.

Effective July 1, 1977, the Legislature transferred operation of the home to the State Department of Welfare.

Originally serving an orphanage function for neglected children, the home now basically provides an evaluation and short term residential service for children with special needs and problems.

The aim is to provide each child with the emotional and educational tools to enable a return to his or her community.

CORRECTIONAL

ANTHONY CENTER

Neola 24961

Acting Superintendent: Everett Norton. Business Manager: Everett Norton.

Anthony Center is located at Neola in Greenbrier County, on Route 92, near White Sulphur Springs. This sixty-one acre site, initially established and operated by the federal government as a Job Corps center, was leased from the United States Forest Service for its present use in 1970. The Center houses primarily youthful male offenders between the ages of sixteen and twenty-one who have been adjudicated guilty of a felony, other than a capital offense, and who in the opinion of the committing court are amenable to rehabilitative programs not requiring close confinement. Some juvenile commitments between the ages of sixteen and eighteen are also in residence. The period of confinement is six months, or longer if deemed advisable by the Center Superintendent, but may not exceed two years.

The institutional program includes individual and group counseling, a work program, an academic and vocational training program, and a recreational program.

The group counseling program serves as the nucleus around which all the programs function. Residents are placed in groups of eight to ten, with each group meeting for one and one-half hour counseling sessions five evenings per week. Peer pressure is used to help internalize socially acceptable values, the process displacing the delinquent subculture value system which many residents have brought with them from the streets. Staff are trained to guide the process, stepping in only when the group acts irresponsibly. This treatment modality is commonly known as Peer Group Interaction Program.

Work details involve the kitchen, laundry, barracks, vehicles, water and sewerage systems, and general camp upkeep. Under the supervision of a maintenance supervisor, residents do some masonry, electrical, carpentry and plumbing. All residents are paid for this labor, these wages being placed in a trust account until release.

Academic courses offered are history, health, math, reading, English, social studies and science. Vocational courses offered are woodworking, welding, masonry, custodial and small motors. The major academic goal of the facility is for the student to obtain a general education diploma (equivalent to a high school diploma) before release. Remedial techniques are utilized as needed for teaching language arts and math. Classes are taught year-round by six full-time qualified teachers.

The year-round recreational program consists of softball, basketball, volleyball, football, and weight lifting. The spacious gymnasium makes it possible for residents to participate in indoor sports during the winter months. The recreational program is based on one hundred per cent participation.

DAVIS CENTER

Davis 26260

Superintendent: Robert J. Klein. Business Manager: Orlando J. Massi. Capacity 80.

Davis Center for Boys is located at Davis, Tucker County, West Virginia, one mile west of Rt. 32. It was authorized by an act of the Legislature in 1955 and was established in 1956. It houses youthful male offenders between the ages of sixteen and twenty-one who have been convicted of or who have

plead guilty to criminal offenses, other than capital offenses, and who in the opinion of the committing court, are amenable to discipline other than in close confinement. The period of confinement is six months, or longer if it is deemed advisable by the Center Superintendent, but in any event it shall not exceed two years.

Davis Center operates a Peer Group Interaction Program in which residents are placed in groups of ten to develop responsibility for rebuilding their lives along socially acceptable relationships. Each resident receives five weekly one-hour-and-a-half therapy sessions along with an integrated plan called a Contract.

A diagnostic program is offered to assess the resident's strengths and weaknesses in academic, vocational and personality areas.

A full prescriptive educational program is offered which includes remedial, Graduate Education Diploma (equivalent to a high school diploma), post-high school or college prep.

Vocational classes consist of power mechanics, welding, woodworking and construction. Additional vocational classes in business machines, auto body, construction, specialized power mechanics are offered in conjunction with the Arch A. Moore, Jr. Career Center of Tucker County.

A full range of recreational activities are offered including basketball, volleyball, weight lifting, pool, swimming and softball. Religious services are held every Sunday and representatives of various faiths are permitted to offer religious services to all residents who so choose.

Through the use of the Guided Peer Group Interaction Program, young men receive counseling and guidance by their peers with adult assistance. No form of corporal punishment is used. A young man's stay depends on developing responsibility for caring and concern for group members, as well as fulfilling his contract.

HUTTONSVILLE CORRECTIONAL CENTER

Huttonsville 26273

Superintendent: William Whyte. Associate Warden: Robert Richards. Deputy Warden: Harry Griffith. Business Manager: Howard Painter. Inmate capacity 550.

The Huttonsville Correctional Center is located on a farm near Huttonsville in Randolph County, approximately 18 miles south of Elkins on U. S. Routes 219 and 215. It was established by an act of the Legislature in 1937 and remained a part of the West Virginia Penitentiary until 1947. At that time the Legislature established it as a separate institution. The 1970 Legislature changed the name to the Huttonsville Correctional Center.

Originally established to relieve overcrowding at the West Virginia Penitentiary, the inmates were employed almost totally in general farm work. In recent years vocational and educational programs were implemented. Inmates are able to obtain their GED Certificates and engage in college credit courses provided by a cooperative program with Davis and Elkins College located in Elkins. Vocational courses offered include auto mechanics, welding, sheet metal, air-conditioning and refrigeration, upholstery, woodworking, masonry, engine repair, typing, heavy equipment operation, electronics and TV repair, meat cutting and mechanical drawing.

This institution serves as the intake point for all adult male felons. At intake they are placed in the diagnostic and classification unit and for a period of four to six weeks undergo diagnostic and classification, testing, counseling, and evaluation. Based on the information gathered from this unit the inmate is then placed in either the West Virginia Penitentiary or remains at the Center and is directed into a vocational and educational program. Quarters at this facility consist of modernly equipped dormitories with no provisions for extended individual confinement.

LECKIE CENTER**Leckie 24856**

Acting Superintendent: George Trent. Business Manager: Raymond A. Walker.

Leckie Center is located on State Route 102 in McDowell County. The Center provides educational and vocational and treatment service for youthful offenders between the ages of 16 and 21 years of age who have been adjudicated delinquent or have been convicted of a felony other than a capital crime by the various courts of record in the state. The term of confinement is for a period of six months to two years. The average length of stay is nine months.

Educational programs consist of G.E.D. preparation, remedial reading, math and language arts. Vocational programs include basic and advanced welding and pre-employment coal miner training.

As a treatment program, the Center uses a Peer Group Interaction Program as a treatment modality. Students are placed in groups of nine to eleven students. The students interact in all program areas through the group. The group is the basic tool for behavioral change.

All groups meet for a period of one and one-half hours, five days per week, in interaction sessions. The group's primary responsibility is to help its members resolve problems regarding present behavior and to work to gain release for each member. The treatment program places heavy emphasis on acceptance of responsibility and accepts no excuse for irresponsible behavior.

WEST VIRGINIA INDUSTRIAL HOME FOR GIRLS**Salem 26426**

Superintendent: Mark Stoddard. Business Manager: (Vacancy). Capacity: 85.

The West Virginia Industrial Home for Girls is located one mile West of Salem on the old U. S. Route 50. It was established by an act of the Legislature on February 18, 1897, and formally opened May 5, 1899. It was built on a 61-acre tract of which 11 acres have been returned to the City of Salem now used as the Salem City Park.

From Jones Cottage, the first building, the plant has grown to include the following buildings: Silver Hall Cottage in 1914; Sutton Cottage in 1928; Ava Standard Cottage in 1942; New Jones Cottage in 1961. The Administration Building, built in 1942, includes administrative offices and the residence for the Superintendent, plus visiting rooms. The plant also includes Johnston High School, erected in 1915, and a modern gymnasium completed in 1951. A large four-temperature storage building was completed in 1953.

The rehabilitation program is a Peer Group Interaction Program designed around treatment groups of nine residents working together to solve mutual problems. The group functions as a unit; living, working, eating and going to school together. The group meets with an adult group leader five nights a week to help solve problems. In this meeting, daily problems are first discussed by everyone.

It is the goal of the academic school to make each student successful in learning situations, thus building positive attitudes toward learning. Under the group program a resident's length of stay in the institution is approximately six to eight months.

WEST VIRGINIA INDUSTRIAL SCHOOL FOR BOYS**Grafton 26375**

Superintendent: Mark Stoddard. Business Manager: (Vacancy). Capacity: 180.

The West Virginia Industrial School for Boys is located at Pruntytown, three miles west of Grafton on U.S. Route 250. It was established by an act of the Legislature in 1889 and formally opened July 21, 1891.

The school now has a vocational rehabilitation training program consisting of certified vocational instructors for full-time vocational instruction in the fields of industrial arts, auto mechanics, welding and building trades. In addition, there are training units in baking, butchering and meat cutting. The academic school is operated on approved state standards and contains grades one through twelve. Educational television is a part of the academic program and instruction is offered in the preparation and presentation of television programs. Those under sixteen years of age are required to attend academic school for a term of ten months each year. A well-planned recreation and physical education program includes basketball, baseball, softball, volleyball, swimming, track and horseshoe pitching.

The Diagnostic Center is the first assignment after a boy is received. A counselor is assigned and a series of tests are given with a complete evaluation written on each resident. The boy may remain at the School or may be transferred to one of the state's three centers for youthful offenders.

A full-time chaplain, especially trained for this work, offers classes in religious education in the academic school and holds weekly religious services for the boys.

WEST VIRGINIA STATE PENITENTIARY**Moundsville 26041**

Superintendent: Bobby Leverette. Business Manager: Ron Schwanenberger. Capacity: 650.

The West Virginia State Penitentiary is located at 818 Jefferson Avenue, Moundsville, in Marshall County. Built in 1866, it was designed as a maximum security facility for both male and female felons. This walled facility was restricted to males in 1948 and covers an area of about six acres. Prison industry facilities are located within the walls and the inmates are assigned to those industrial areas according to need, interest and ability. The industries produce paint, clothing, license plates, mattresses and printing. These structures also house maintenance sections including plumbing, sheet metal and carpentry.

In recent years a vocational and educational program has been implemented to provide educational opportunities and vocational skill development. Inmates may obtain their G.E.D. Certificates and, if qualified, participate in college courses offered in a cooperative program with Bethany College which is located nearby. Vocational courses available include auto mechanics, electronics, air-conditioning and refrigeration, sheet metal, and upholstery. Participation in both the educational and vocational programs is voluntary.

Field Services in West Virginia which is constituted by Probation and Parole and Work Release Programs, is divided into two geographic regions with each region, Northern and Southern, covering approximately one half of the state.

During fiscal year 1975-76 Probation and Parole had responsibility for monitoring approximately 2,990 persons who were either on probation or parole in West Virginia or were moving in or out of the state via the Interstate Compact System. There are seven area offices in the Probation and Parole System with an average 27 officers carrying an average caseload of 111 persons.

WORK/STUDY RELEASE

Charleston Unit Supervisor: Savannah Evans. Beckley Unit Supervisor: De-lores Parker. Grafton Unit Supervisor: William Duncil.

Work/Study Release is a community based program operated by the Department of Corrections with three operable units located in Charleston, Beckley, and Grafton.

Each unit houses a maximum of twenty-five selected inmates who are within six months of being paroled or discharged. They are employed in community jobs while being housed at night under supervision. Furloughs and passes are awarded to the residents as rewards for satisfactory progress.

The purpose of this program is to ease the inmate's transition from the correctional institution back to the community and at the same time provide him the opportunity, in part, to support himself and his family.

HOSPITALS AND SANITARIUMS

ANDREW S. ROWAN MEMORIAL HOME

(Long-Term-Care Facility)
Sweet Springs 24980

Administrator: E. G. Porterfield, Jr.

Located in Monroe County, the Andrew S. Rowan Memorial Home was established by an act of the Legislature in 1945 and opened to residents in July of the same year. The facility is named in honor of Andrew Summers Rowan, a Monroe County native who was famous for his Spanish-American war exploits as immortalized by Elbert Hubbard's essay, "A Message to Garcia"

There are many historical facts and traditions associated with the buildings and grounds at the Rowan facility. The oldest and largest building, completed in 1833, is of the Thomas Jefferson design and named in his honor. A 96-bed annex was completed in 1956 and the most recent addition, a 100-bed expansion, was completed October, 1974.

This facility accepts residents requiring personal care. Personal Care is defined as the need for sheltered and custodial care on admission. Residents must be 62 years of age or older, able to walk to a central dining room, dress themselves, and be mentally competent.

BARBOURSVILLE HOSPITAL

Barboursville

Superintendent: George Pozega. Senior Staff Physician: Dr. T. Alquizola.
Average daily resident population: 189.

In 1941, the State purchased 24 acres of land in Cabell County and two buildings that had been used as dormitories for Morris Harvey College. The buildings were reconditioned and equipped and on January 20, 1942, the Barboursville unit was officially opened. Located off U. S. Route 60 at Barboursville, the hospital was originally named the Barboursville Unit of Weston State Hospital. The 1947 Legislature changed the name to Barboursville Unit of Huntington State Hospital, and the 1949 Legislature established it as Barboursville State Hospital.

In 1947, funds were appropriated for an administration building and for a storage building. The 1949 Legislature made an additional appropriation for construction of a laundry building and for additional renovation of old buildings. In 1957, \$100,000 was appropriated for construction and furnishing of a male employees' dormitory and in 1964 this building was converted into a patients' self-government ward.

In June, 1967, ground was broken for an activities building which has provided classroom, workshop and auditorium facilities for training, education, and recreation activities. More recent physical improvements include new fire escapes, fire alarm systems, air-conditioning, as well as renovation to the heating and electrical systems.

Barboursville functions slightly different from the other institutions since there are no direct admissions. The older mentally retarded are transferred there from Weston, Spencer, Lakin, and Huntington Hospitals, Colin Anderson Center and private hospitals.

Barboursville was the first hospital to institute a camping program. In 1967, 32 patients, fifteen staff members, and five VISTA Volunteers pioneered the

camping program for hospitalized mental patients. The positive changes in patients were noticeable immediately. Patients who had not changed in years began to respond. The therapeutic possibilities of camping seemed unlimited. Today there is a state camping coordinator and camping programs at each of the State's six institutions. The program ranges from daily trips to two-week programs for advanced campers with over 1,000 patients from all hospitals participating in the program.

COLIN ANDERSON CENTER

St. Marys

Superintendent: William Richards, Jr. Clinical Director: E. E. Mazon, M.D. (p/t). Average daily resident population: 465.

Colin Anderson Center is located four miles north of St. Marys, on State Route 2, in Pleasants County. Established in 1921 by an act of the Legislature, it was formerly known as the West Virginia Training School. In 1965, the Legislature changed the name of the institution to Colin Anderson Center, in honor of the late Dr. Anderson who served as superintendent with dedication and devotion from 1958 until his death in 1964.

Colin Anderson Center, located on a 694 acre plot, is the State's only residential treatment center for the mentally retarded. Designed as a training facility, it has over the years accumulated a large number of severely retarded whose potential for profiting from training programs is limited. Intensive training programs have been developed, however, and small numbers of residents are being released to productive semi-independent lives in the community.

A special education program was organized in September, 1966, and accredited in August, 1967, by the State Department of Education. The program includes early childhood education, kindergarten, primary classes, intermediate classes, prevocational training, adult education, and classes for the physically handicapped. Also offered are swimming, scouting, recreation, arts and crafts, library, homemaking, and good grooming instruction. Educational seminars, tours, and workshops are held periodically. Weekly church services are provided in the community and on grounds by the Pleasants County Ministerial Association. An active volunteer services corps consisting of over 150 community volunteers provide additional services to the children and three busses are available to transport the children to off-grounds trips and to community-oriented activities.

The center is operated to provide complete care for mentally retarded children. It is recognized that some children are unable to benefit from a training program and for these custodial care is provided, always with a view to increasing their comfort and safety, as well as promoting some degree of self-care and independence.

A halfway or readjustment house, located in Parkersburg, is providing a transitional experience toward independent living for young males. It is staffed with two houseparents, a social worker, and a recreation supervisor.

A behavior modification program called ECHO—each child has opportunity—is now in operation for the severely mentally retarded. The project stresses reward for normal behavior and has proven successful with this disability group.

Approximately 140 elderly serve as foster grandparents to young patients at Colin Anderson Center, Lakin, and Huntington Hospitals and Greenbrier Retardation Center.

**DENMAR HOSPITAL
(Long-Term-Care Facility)
P.O. Hillsboro 24946**

Administrator: Frederick C. Atkins. Clinical Director: Harvey A. Martin, M.D.

Located in Hillsboro, in Pocahontas County, Denmark Hospital is situated in the Allegheny Mountains on an eminence overlooking the Greenbrier River.

Originally a hospital for care of tuberculosis patients, this facility accepts residents requiring skilled or intermediate care. Precedence is given to applicants who are legal residents of West Virginia, unable to pay for care in private nursing homes.

**FAIRMONT EMERGENCY HOSPITAL
(General Surgical and Medical)
Fairmont 26554**

Administrator: Blake Boggess. Clinical Director: Paul S. Gotses, M.D.

Located in Marion County, Fairmont Emergency Hospital was constructed in 1899. Medical surgical services are provided to indigent residents of Northern West Virginia as well as to patients from State correctional, mental and long-term-care facilities also located in this region of the State.

The initial construction phase of a new hospital, located adjacent to the rear of the present facility, was completed in April, 1976. Upon its completion, the service capabilities of the facility will be greatly enhanced.

**GREENBRIER COMMUNITY MENTAL HEALTH/MENTAL
RETARDATION CENTER**

Lewisburg 24901

Program Director: Kirby Nielsen. Administrator: William E. Richards III. Average Daily Population: 41.

On July 1, 1973, the former Greenbrier College for Women was purchased by the West Virginia Department of Mental Health and converted into a Community Mental Health/Mental Retardation Center serving primarily the four county area of Greenbrier, Nicholas, Pocahontas and Webster counties.

The Center is situated on a 103 acre site in downtown Lewisburg and is readily accessible to the primary service area.

The facilities house the former Greenbrier Mental Health Center, offering outpatient, emergency, guidance, counseling and similar mental health services; the regional Center on Alcoholism and Drug Abuse, providing therapy, counseling, guidance, etc.; and day care for mentally retarded youth.

A residential program for mentally retarded residents, not limited to the four county area, will accommodate approximately 150.

Since the inception of the facility many major renovations have been undertaken and some recent ones are continuing to date. In undertaking the process of transition from a college facility to that of a mental retardation center, it is necessary to revamp the physical plant in order to adjust satisfactorily to our specific needs. In efforts to accomplish this end, various constructional renovative measures have been undertaken.

The Greenbrier Community Mental Retardation Center holds the belief that it may best serve the citizens of West Virginia by developing programs which are designed to maintain and/or return children to both mainstream community

life and education as rapidly as feasible. That is, institutionalization may be avoided if (1) support services are provided in an effort to maintain the mentally retarded in the community, and (2) intensive interventions are provided which will provide the child with needed skills and supports to return to community life.

HOPEMONT HOSPITAL **(Long-Term-Care Facility)**

Hopemont 26723

Administrator: William H. Lovett. Clinical Director: Hilton D. Rocha. Capacity: 300.

Located near Terra Alta, in Preston County, Hopemont Hospital was founded in 1913 to provide treatment for tuberculosis patients. This facility accepts residents requiring skilled or intermediate care. Precedence is given to applicants who are legal residents of West Virginia and unable to afford to pay for care in private nursing homes.

Medical and nursing care is provided residents as well as an activities program. This facility has a physical therapist, a pharmacist and a dietitian consultant. Laboratory and radiology services are available.

HUNTINGTON HOSPITAL **Huntington**

Clinical Director: Jorge V. Ottaviano, M.D. Acting Superintendent: Doris Novik. Average daily resident population: 601.

Located in Huntington—the county seat of Cabell County, Huntington Hospital was authorized by an act of the Legislature in 1897.

The rated bed capacity is 608. The hospital serves patients from the twelve-county area of Cabell, Fayette, Lincoln, Logan, McDowell, Mercer, Mingo, Monroe, Raleigh, Summers, Wayne, and Wyoming counties.

The hospital is maintained and equipped to provide modern treatment for all types of mental illness. The physical plant includes an administration building and four ward buildings. There are facilities for all patient-care services such as laundry and kitchen and also occupational and recreational therapy. One of the ward buildings has been established for medical services including surgery, x-ray laboratory, electro-cardiograph, and a modern pharmacy. A vocational rehabilitation center is located on the grounds to complement the other programs.

During 1970 Huntington Hospital completed the transformation of the entire hospital into a geographical unit system. This was accomplished by the movement of 712 patients into four units—each staffed with doctors, nurses, social workers, adjunctive therapists and a complement of aides. Rehabilitation personnel are also available in each of the units and psychological services are provided on a consultant basis. Each of these units relates to a community mental health center in its respective area.

An alcoholic treatment unit—with a bed capacity of 18—was established in order to give a home to the program that had been in operation for several years. Aversion therapy was also added in 1970 for treatment of chronic alcoholics.

Huntington Hospital was the first State institution with a residential psychiatric affiliation program for student nurses. This unit is utilized by Wheeling, Parkersburg, and Bluefield School of Nursing, as well as by a non-residential pro-

gram for Marshall University, Morris Harvey College, St. Mary's Hospital and King's Daughters Hospital School of Nursing.

The hospital conducts in-service training programs for its psychiatric aides, nurses, and other professional and sub-professional personnel.

A camping program is conducted each summer and continues to be one of the highlights of patient activities.

Adult education classes were started in 1970 and patients may pass the GED test (high school equivalency) as a result of this program.

A Behavior Modification program was begun in late 1972 with a program of self-care techniques being utilized with the severely mentally retarded patients in the initial phase.

LAKIN HOSPITAL

Lakin 25250

Clinical Director: Marianito Montero, M.D. Superintendent: Samuel L. Nichols, Jr. Average daily population: 179.

Lakin Hospital was founded by an act of the Legislature in 1919 and was opened in 1926 for the reception and treatment of Negroes suffering from mental and nervous disorders; however, the staff and patient population have been integrated since 1954.

Located some 10 miles from Point Pleasant, Lakin Hospital is situated on a large level plot with many acres of adjoining farm land. Lakin serves a population of around 62,000 in Mason, Jackson, and Putnam counties as well as emotionally disturbed children and hardcore alcoholics from throughout the State.

Two three-story brick buildings house the male and female dormitories. Another building contains administrative office areas, laboratory and x-ray units, central supply, and the treatment center for emotionally disturbed children. A newer structure houses the kitchen, dining area for patients, and offices for ancillary personnel. The Lakin Post Office is also located on these grounds.

A new dormitory for both male and female residents was recently completed and in May, 1971, the hospital dedicated a new activities building that provides space for classrooms, chapel services, canteen and recreation. Built with state and federal funds, this new building permitted the expansion of programs for both adult patients and children.

Most of the accepted methods of diagnosis and treatment are utilized including clinical observation, social service, psychological testing, neurological and electroencephalography, occupational music, recreation therapy, and psychotherapy in addition to full utilization of the tranquilizing drugs in an effort to maintain the institution as a treatment hospital rather than an institution for custodial care. The Foster Grandparent project is active in the unit for emotionally disturbed children.

A self-government group is operating in each of the buildings for adults in an effort to strengthen the patients' sense of independence. The Chaplain conducts regular church services each Sunday and is active in the program for chronic alcoholics.

A vocational rehabilitation center is located on the grounds in what was formerly the male employees' dormitory. Services provided through this center include remedial and special education, cosmetology, homemaking, and manual arts. Patients are screened here for admission to the Rehabilitation Center at Institute for further job training.

In 1952 the hospital received a gold medal national award for achievement presented by the Hospital Institute of the American Psychiatric Association.

PINECREST HOSPITAL
(Long-Term-Care Facility)
Beckley 25801

Administrator: C. O. Smith, Jr. Clinical Director: H. S. Edwards, M.D.

Located in Raleigh County, Pinecrest Hospital was authorized by an act of the Legislature in 1927 and opened in March of 1930.

Pinecrest Hospital is the only state facility still providing care for tuberculosis patients.

This facility also accepts residents requiring skilled or intermediate care. Precedence is given to applicants who are legal residents of West Virginia, unable to pay for care in private nursing homes.

Medical and nursing care is provided residents as well as an activities program. Dental services are provided by the Dental Division of the Health Department. Laboratory and radiology services are available.

RONEY'S POINT
Triadelphia 26059

Clinical Director: (Vacancy). Average Daily Population: 31.

Roney's Point, formerly the Ohio Tuberculosis Sanitarium, was established in 1967 by an act of the Legislature. Patients were first admitted in mid-1970 following extensive repairs to the physical plant.

The program at the facility is designed to provide an opportunity for residents of the Northern Panhandle area, who have been hospitalized at Weston State Hospital, to be reintroduced to their homes and communities.

SPENCER HOSPITAL
Spencer 25276

Acting Clinical Director: Andrew S. Watchel, M.D. Superintendent: J. R. Daniell. Average daily resident population: 507.

Located in Spencer, the county seat of Roane County, Spencer Hospital was authorized by an act of the Legislature in May, 1887, and formally opened in 1893.

Spencer serves the eight-county area of Pleasants, Wirt, Calhoun, Roane, Clay, Kanawha, Wood and Boone counties, a total population exceeding 375,000.

The hospital is located on an 18 acre tract with its own water supply. An additional 109 acres are located about two miles from the hospital in an area known as Trotter Lake and is used as a recreational area for patients as well as a water shed for the dam that impounds approximately 25,000,000 gallons of water in the lake.

The hospital recently completed a geographic relocation of patients. Thus patients from a county or group of counties are located in a manner to provide a home and community relationship within the hospital. Specialized units are still maintained for the physically ill and infirm alcoholic treatment programs and rehabilitation programs.

Spencer Hospital operates under the open door policy and approximately 76% of the patients reside on open wards. There are no mechanical restraints employed at the hospital. All forms of psychiatric treatment, such as psychotherapy, electroconvulsive therapy, chemotherapy, milieu therapy, remotivation

and group therapy, family counseling, industrial therapy, religious counseling and an active occupational and recreational therapy are utilized at this hospital. A new program, a class in remotivation for patients, has been in effect for several years and has greatly enhanced the hospital therapeutic success.

The Vocational Rehabilitation Center, located on the hospital grounds, offers a new and modern concept in traditional hospital services. Spencer also has a modern dental unit and x-ray departments and offers electrocardiogram and laboratory services.

A camping program, designed to create self-help and provide patient responsibility through outdoor activities, has become one of the outstanding therapeutic programs in the modern treatment of the mentally ill.

WELCH EMERGENCY HOSPITAL **(General Medical and Surgical)** **Welch 24801**

Administrator: Thomas D. Robinson. Clinical Director: Theodore B. Ficken.

Located in McDowell County, Welch Emergency Hospital, formerly Old Miners' Hospital No. 1, was established by an act of the Legislature in 1899 and began providing patient services in January, 1901.

General medical surgical services are provided to residents of Southern West Virginia as well as to patients from State correctional, mental and long-term-care facilities also located in this region of the state.

In recent years the medical surgical services capabilities of the main hospital have been augmented by a new, modern outpatient clinic composed of four examining rooms, an emergency room, a laboratory and medical record, admission and medical supplies storage rooms.

Plans are presently underway for design and construction of a new main hospital building to be located near the present hospital and the outpatient clinic.

WESTON HOSPITAL

Weston

Clinical Director: A. H. S. Ali, M.D. Acting Superintendent: Arthur Paletti.
Average daily resident population: 894.

West Virginia's oldest and largest mental institution, Weston Hospital, is located in the City of Weston. Although authorized on March 22, 1858, by an act of the Virginia Assembly, opening was delayed by the Civil War until October 22, 1864. Weston continues to serve 29 of West Virginia's 55 counties.

The physical plant is made up of several buildings, including a vocational rehabilitation center and half-way house for the training and rehabilitation of the mentally ill, an alcoholic treatment unit, and a medicare unit. A section of the main hospital building has been isolated from the rest and is designated as the West Virginia Soliders' Home. This is also administered by the hospital staff. Male war veterans are admitted there for treatment. The buildings and outlying camping and recreation land occupy some 616 acres of land in Lewis County.

Clinical services include psychiatry, general medicine, social service, psychology, nursing, dentistry, x-ray, pathology and clinical laboratory and electroencephalography.

Weston was the first state hospital in West Virginia to complete patient rehousing under the geographic unit locations.

A teaching unit for nursing education was established under a special grant and is being used by students from West Virginia Wesleyan, Fairmont State, Alderson-Broaddus, and Salem Colleges. There is also an in-service training program for psychiatric aides and training of psychologists, social workers, and medical students which is carried out in conjunction with West Virginia University and other colleges.

A Behavior Modification Unit, a medicare unit and a crisis intervention unit are a part of the program. Through the use of diagnostic testing practices, behavior therapy wards, the teaching unit, and the geographic location and community referral program, the patient population continues to decline.

The hospital staff has continued to be upgraded. Consultant staff consists of specialists and general physicians as well as professors and instructors from nearby colleges.

A cooperative program with West Virginia University has proved beneficial to students and patients. Students spend a full semester in "on-the-job" education and training at the hospital. Working under the supervision of the hospital staff and University professors, students are involved in designing an education program and token economy for the units involved. The ultimate goal of the ongoing program is to prepare patients for return to the community.

EDUCATIONAL

STATE SCHOOLS AND COLLEGES

WEST VIRGINIA UNIVERSITY

Morgantown 26506

Teacher, student, healer, artist, scientist, grower of food and forest, builder of a better world . . . these are the many faces of West Virginia University. It seeks to reconstruct the past, to understand the present, to glimpse and help create the future. The University's concerns embrace the breadth of life . . . plants and animals, man's health, his polluted environment, his prosperity, his comfort, his humanity.

The 20,000 students that WVU serves each year are young and old . . . from every West Virginia county, 45 of the 49 other states, and 65 foreign countries. They are coal miners and industrial workers receiving technical training, company engineers keeping up with the newest technology, 17 to 21 year olds discovering the excitement of new ideas, tomorrow's doctors and engineers, teachers continuing their education, firemen, housewives learning about art and how to become wiser consumers.

WVU's organization into 19 colleges, schools, and divisions indicates the variety of its intellectual life: College of Agriculture and Forestry, College of Arts and Sciences, Center for Extension and Continuing Education, College of Business and Economics, Creative Arts Center, School of Dentistry, College of Engineering, Graduate School, College of Human Resources and Education, School of Journalism, College of Law, School of Medicine, Divisions of Military Science and Air Force Aerospace Studies, College of Mineral and Energy Resources, School of Nursing, School of Pharmacy, School of Physical Education, and School of Social Work.

The most significant development in WVU's recent history has been its emergence as a major regional center for graduate and professional education. More Ph.D., D.M.A., and Ed.D. degrees (1,212) were awarded from 1970 through 1976 than since the Graduate School was established in 1930. Enrollment in graduate and professional programs increased 50 percent from 1968-69 to 1975-76 while undergraduate enrollment rose about 25 percent.

By 1976, WVU had granted 80,303 degrees including 20,862 master's degrees and 3,375 doctorate and professional degrees. There were 23,274 WVU alumni and contributors living in every West Virginia county. More than a fourth of the teachers and administrators in West Virginia's colleges and universities received one or more degrees from WVU. And the University has a significant impact on the state's economy because every time WVU spends a dollar, it generates 59 cents in additional income for West Virginia.

West Virginia University's dramatic growth in facilities has been equaled by few universities of its size in the nation. During the past decade, more than \$100 million in new buildings and facilities have been built. They include the Medical Center, Coliseum and Natatorium, Creative Arts Center, and Mountainlair (the campus activities center) that are considered among the finest facilities of their kind in the nation; engineering and agriculture buildings; \$18.4 million in residence halls and apartments; a new complex housing the Division of Forestry, College of Human Resources and Education, and School of Social Work; \$4 million in chemistry facilities; and a \$3.8 million Law Center.

For West Virginians, the Morgantown campuses have become the key link between their state's past and future. The WVU's Department of History, utilizing

the West Virginia Collection in the Library, reconstructs West Virginia's past so that citizens can better understand its present. The Library also publishes books of unusual importance about state history and culture. The WVU Arboretum on the Evansdale Campus is the only place in the state where many of West Virginia's native plants have been brought together in a single location. Some 500 species of trees and other plants can be seen along the Arboretum's hillside trails above the Monongahela River.

The University's Regional Research Institute and the WVU-headquartered West Virginia Geological and Economic Survey provide essential information about the state's economy and natural resources. Research bureaus in business, coal, and government focus on solutions to West Virginia problems. Research in such areas as agriculture, forestry, engineering, education, and the health sciences broadens man's knowledge and makes the state more competitive in seeking new job opportunities in our post-industrial society.

Southern West Virginia's centrality in solving the nation's energy problem has profound implications for Bluefield State College, located in the heart of one of the richest coal reserves in the nation. The college offers both a two

and a four year degree in Mining Engineering Technology. The first associate degree in mining engineering technology in the country was developed at Bluefield State.

The comprehensive academic programs of the college embrace baccalaureate degrees in engineering, science, liberal arts and teacher education, and associate degrees in seventeen different career-oriented areas.

Since its founding in 1895, Bluefield State College has been accredited as a coeducational institution. It has the distinction of having certain engineering technology programs accredited by the Engineer's Council for Professional Development, and the nursing program is accredited by the West Virginia Board of Nursing Examiners. The teacher education program is fully accredited by the West Virginia Board of Education.

Located on Route 52 North in the city of Bluefield, the college has nine modern buildings on 40 acres of terraced land. Here the atmosphere and personality of a compact non-residential college combine with the flexibility and vigor of a modern four year institution of higher education. In addition to the comprehensive offerings, continuing education is being carried into business and industry in the community for retraining and upgrading of employees. Adult continuing education programs of a general nature are offered throughout the region as the college involves itself in improving the quality of life of the entire area.

Bluefield State College also operates the Greenbrier Community College Center at Lewisburg where two year programs are offered for day and evening students in General Education, Accounting, Business Management and Secretarial Science.

Athens 24712

Concord College is a nationally accredited coeducational liberal arts and teacher education institution. It was founded in 1872 as Concord Normal School. In 1931 the name was changed to Concord State Teachers College and to Concord College in 1943. It is located in the Town of Athens, Mercer County, which is situated near the southern terminus of the West Virginia Turnpike where it crosses I-460. Enrollment for the 1977 spring semester was approximately 1,500 students. There are 120 faculty and professional staff members.

A campus complex composed of 36 buildings valued at \$32 million provides an excellent setting for study and recreation. Within this complex, one of the

main features is The Oakley Logan Alexander Center for the Creative and Performing Arts which houses the fine arts—art, music, and theater. This impressive \$3 million structure consists of two basic multi-level structures—one for the visual arts and the other for theater and music; a third area links the two basic areas together and provides for galleries, lobbies and lounges.

An important new addition to the campus complex is a \$3 million health and physical education facility completed in June, 1972. Ten units of faculty housing were completed in 1970.

The college grants the degrees of Bachelor of Arts, Bachelor of Science, Bachelor of Science in Education, Bachelor of Science in Business Administration, Bachelor of Science in Medical Technology, Bachelor of Science in Social Work, Bachelor of Science in Community Development and Regional Planning, and Regents Bachelor of Arts. WEST VIRGINIA INSTITUTE OF TECHNOLOGY**Montgomery 25136**

This institution, West Virginia's only state-operated specialized technical college, was established through an act of the State Legislature in 1895.

It first opened its doors on January 4, 1897, as Montgomery Preparatory School, a branch of West Virginia University. It was renamed West Virginia Trades School in 1917.

In 1921, state authorities became convinced that a junior college was needed in the upper Kanawha Valley, especially for the training of much-needed elementary school teachers. Enrollment rose in the now-named New River State School. By 1929, the school was a four-year college and had its first A.B. graduates. A name change occurred in 1931 to New River State College. Another name change in 1941 made it West Virginia Institute of Technology. Its location in the industrial Kanawha Valley, highly populated, promised growth.

The school, popularly known as Tech, is a coeducational college, authorized to offer four years of studies leading to both Bachelor of Arts and Bachelor of Science degrees. PARKERSBURG COMMUNITY COLLEGE

Parkersburg 26101

Parkersburg Community College was established July 1, 1971, by the West Virginia Board of Regents as the state's first comprehensive community college. The college provides a wide variety of course offerings in college-parallel programs, technical and occupational fields and community services.

Wood County citizens expressed a need for a two-year college in the area and the Legislature responded during the 1961 session by authorizing the establishment of branch campuses. Under the provision of that act, and subsequent action by the Board of Governors of West Virginia University, the Parkersburg Branch of West Virginia University opened in September 1961. Originally housed in the former Emerson Elementary School, the college now is located on a rural campus on State Route 47 near Interstate 77, four miles from the city of Parkersburg. The present college facility, valued at \$6.8 million, offers educational opportunities to the citizens of a nine-county area.

The campus facilities were doubled in the 1974-75 academic year by the completion of an addition which provided a spacious Learning Resources Center, an Occupational-Technical Center and additional classrooms. In 1975, off-campus centers were established in Ripley and Sistersville.

The College offers a two-year, college-parallel program leading to an Associate in Arts degree; an Associate in Applied Science Degree program, which consists of para-professional and technical courses; a Certificate program designed to prepare students for careers in less than two years; and a continuing Education and Community Services program for those who wish to enrich their lives through courses without academic credit. The College is accredited by the North Central Association of Colleges and Secondary Schools; the National League for Nursing; the American Dental Association, Commission on Accreditation; the American Medical Association Committee on Allied Health Education and Accreditation; the American Medical Association Joint Review Committee on Education in Radiologic Technology (preliminary), and the American Institute for Design and Drafting (certification).

WEST VIRGINIA SCHOOL OF OSTEOPATHIC MEDICINE

Lewisburg 24901

The West Virginia School of Osteopathic Medicine originally was incorporated in 1972 under the name Greenbrier College of Osteopathic Medicine. The Greenbrier Military School, which had been in continuous operation for 160 years, closed in May, 1972, and was purchased in July by the West Virginia Society of Osteopathic Medicine. In December, a charter for the Greenbrier College of Osteopathic Medicine was obtained from the State of West Virginia, and the school opened in October, 1974, as a private institution with a charter class of 36 students. In January 1976, the school was brought into the state system of higher education as the West Virginia School of Osteopathic Medicine.

The purpose of the school is to prepare osteopathic physicians who are motivated to practice in rural areas. Consistent with this purpose, the curriculum is designed to produce physicians who are confident in rural practice settings, while assuring that they will have the educational competence and legal status required for licensure in all states.

The school has been granted provisional accreditation by the American Osteopathic Association under a plan which calls for provisional accreditation until the first class graduates, after which full accreditation may be granted. The American Osteopathic Association is recognized by the National Commission on Accreditation as the official and only accrediting agency for osteopathic medical colleges in America.

WEST VIRGINIA REHABILITATION CENTER

Institute 25112

The full range of services offered the handicapped by the West Virginia Division of Vocational Rehabilitation can be seen under one roof at the West Virginia Rehabilitation Center, Institute. Located 8½ miles west of Charleston and adjacent to West Virginia State College, the Center is a unique educational campus with an interlocking complex of classrooms, shops, dorms, training centers and recreational areas. Admission is limited to individuals having one or more disabling conditions which are handicapping in qualifying for or obtaining employment.

Rehabilitation counselors statewide arrange admission to the facility for clients in need of intensive vocational evaluation, medical treatment, job training or prevocational adjustment. A staff of some 330 professional and support personnel use a team approach involving physicians, psychologists, therapists, social workers, counselors, teachers and aides. A student may be simultaneously receiving physical therapy and job training; another may be in vocational evaluation and remedial education; a third may be receiving individual mobility and blind adjustment training during a school year break. A capacity enrollment of 400 students enter when class space and their medical condition permit, and graduate when their individual program is completed.

A student may need one or all of the Center's specialized services:

Vocational Evaluation is a series of testing programs that probe a client's abilities and probable limitations, and usually extends for a period of one to two weeks.

Prevocational Adjustment is sometimes needed before specific job training can begin. Students spend half-days in the classroom learning daily living skills, self-care, home-care and social skills. The remainder of the day is spent in the Sheltered Workshop where students acquire good work habits, such as the

ability to follow instructions, cooperativeness and basic work skills. The mobility and living adjustment service for the blind stresses independent travel with the long cane along with techniques of everyday living skills such as food preparation and clothing care.

Vocational Training is offered in 24 areas from accounting and auto transmission repair to building service maintenance and radio-TV repair. Classroom work in remedial education, preparation for GED and Civil Service testing is also available.

Rehabilitation Medicine combines the skills of staff specialists with consulting specialists to provide services such as an Optical Aids Clinic, a Spinal Cord Injury Project, a Maxillo-facial Reconstruction Clinic and a superior Physical and Occupational Therapy Department.

Sheltered Workshop provides an exposure to work with a variety of assembly line, small construction, printing and related jobs contracted from both government and industry. Work here is used in both prevocational and training areas.

REHABILITATION HOUSES

Huntington 25701

Halfway between institutionalized care and independent living are the Huntington Rehabilitation Houses, maintained by the West Virginia Division of Vocational Rehabilitation. Here, patients released from state mental hospitals begin their transition back into the community and successful employment.

Located in a quiet residential section of Huntington, the House for Women accommodates twelve residents and two houseparents. The House for Men has a capacity of fifteen, including houseparents.

Some residents are already employed; some are in vocational training or retraining at the Rehabilitation Center in Institute, in local schools and colleges or on-the-job in area businesses. Residents share household duties and practice self-care, including medication, to build confidence and encourage responsibility. A physician from the Huntington State Hospital makes weekly calls.

Adjusting to non-institutional living also means learning wise use of leisure time. An active recreational and social program is often coordinated with the Vocational Rehabilitation Unit at Huntington State Hospital to include patients almost ready for discharge.

The roots of the College sink deep in the history and traditions of this State. The Southern Methodists, after having lost Marshall Academy during the Civil War, established in 1888, a seminary in Barboursville. This seminary was destined to become Morris Harvey College.

Today the College is accredited by regional and national associations. Its student body, of more than two thousand, is heterogeneous. The educational program places emphasis on the liberal arts, but includes many four-year and two-year professional and career-oriented programs

The College seeks to keep its academic program responsive to the contemporary student and community needs. Following his father's death in 1953, he resigned his commission and returned to Plains to run the family peanut farm and warehouse and started a fertilizer and seed business. In his home community he served as deacon and Sunday School teacher of the Plains Baptist Church, chairman of the Sumter County School Board and first president of the Georgia Planning Association. He was elected to the Georgia Senate in 1962 and waged his first gubernatorial campaign four years later. In 1970, he was elected Georgia's 76th governor. While governor, he was a member of the Trilateral Commission and served as chairman of the Southern Regional Education Board, the Appalachian Regional Commission, the Coastal Plains Regional Action Planning Commission and the Southern Growth Policies Board. In 1973, he became the Democratic Party's National Chairman for the 1974 elections. U. S. ARMY ENGINEER DISTRICT, HUNTINGTON CORPS OF ENGINEERS

502 Eighth Street, Huntington 25721

Congress has delegated to the Corps of Engineers responsibility for the development, construction, operation, and maintenance of navigation facilities, flood control structures, and related improvements, and services for water resources management.

The Civil Works Program of the Corps of Engineers is divided on the basis of watershed drainage areas. The Ohio River drainage basin includes all of West Virginia except the Eastern Panhandle, which is in the Potomac River basin. The Huntington District of the Ohio River Division encompasses that part of the Ohio River basin in West Virginia downstream from New Martinsville in Wetzel County. The Pittsburgh District encompasses the upstream remainder of the Ohio River basin, including the basin of the Monongahela River. The Potomac River basin is included in the Baltimore District of the North Atlantic Division.

Responsibility for military construction in West Virginia rests with the U. S. Army Engineer District, Baltimore.

Extension of the Ohio River navigation system in West Virginia presently includes three high lift dams on the Kanawha River and three navigation structures on the Monongahela River. Operation of the former Federal navigation projects on the Little Kanawha and Big Sandy Rivers for commercial navigation has been discontinued and the properties transferred to State or local interests. Navigation is not a feature of the Potomac River in West Virginia.

Improvement of the navigation facilities on the Ohio River bordering West Virginia includes eight high lift structures which replaced 22 obsolete, low lift dams. Seven of the structures have double, parallel locks with dimensions of 1,200 feet by 110 feet and 600 feet by 110 feet. The other structure, Gallipolis, was completed in 1937 and has parallel locks measuring 600 feet by 100 feet and 360 feet by 110 feet. In river-descending order, the structures are New Cumberland Locks and Dam, at New Cumberland; Pike Island Locks and Dam, near Wheeling; Hannibal Locks and Dam, near New Martinsville; Willow Island Locks and Dam, near Willow Island; Belleville Locks and Dam, near Belleville; Racine Locks and Dam, near Letart; and Gallipolis Locks and Dam, near Apple Grove. The pool of the other structure, Greenup Locks and Dam, near Greenup, Kentucky, borders Kentucky, Ohio and West Virginia and extends to the Gallipolis Dam. Construction of the Willow Island project is not yet complete although the locks are in operation for navigation. In order to provide comparable locking capacity, a study is being conducted for modernization of the Gallipolis structure.

Modernization of the obsolete navigation structures in the upper portion of the Monongahela River is complete. Opekiska, Hildebrand and Morgantown Locks and Dams are complete and located entirely within West Virginia. Lock and Dam No. 8, to be called Point Marion, is located in Pennsylvania with its upper pool extending to the Morgantown dam. Modifications to Point Marion Dam are complete and replacement of the lock is under study.

Multipurpose reservoir projects constructed by the Army Engineers within the State include Bluestone Lake on New River at Hinton; Sutton Lake on Elk River at Sutton; Tygart Lake on Tygart Valley River near Grafton; Summersville Lake on Gauley River near Summersville; and East Lynn Lake on East Fork of Twelvepole Creek near Huntington. Reservoirs under construction include Beech Fork Lake on Twelvepole Creek basin near Huntington; R. D. Bailey Lake on Guyandotte River near Gilbert; Bloomington Lake on North Branch Potomac River and Burnsville Lake on Little Kanawha River. Reservoir projects under design are Stonewall Jackson Lake on West Fork River and Rowlesburg Lake on Cheat River near Rowlesburg.

Local protection projects completed by the Corps of Engineers in West Virginia are located at Parkersburg, Point Pleasant, Huntington, Ceredo-Kenova, Ridgeley, W. Va.-Cumberland, Md. (one project), Buckhannon, Elkins, Princeton, East Rainelle, and Williamson. Several completed small

flood control projects and snagging and clearing projects have reduced or alleviated flood damage along smaller tributaries of main rivers within the State.

Services provided include those related to flood plain management and disaster relief assistance. The flood plain management services program provides for preparation of flood plain information reports for communities of the State upon their request, and help to any community, agency, or individual in evaluating flood hazards at individual locations.

UNITED STATES MARINE CORPS

United States Marine Corps activities in West Virginia consist of two organized Marine Corps Reserve Training Centers, one Recruiting Station Headquarters and nine Recruiting Sub-stations.

The purpose of the Marine Corps Reserve Training Centers is to facilitate the training programs and mobilization readiness of the Marine Corps Reserve Units in the event of mobilization, war or national emergency. Both Marine Corps Reserve Units in West Virginia are listed as excellent in their readiness posture. The South Charleston Unit (Company A, 4th Combat Engineer Battalion) has been nominated for several national awards for its accomplishment in combining its engineer training with a domestic action program. The primary mission of Company A is to provide close combat engineering support of an engineer nature as necessary to meet the essential habitual requirements of an infantry regiment and associated task elements in combat operations under moderate conditions of climate, weather, and terrain. Through the use of its engineer skills and

*Dual Capacity

equipment, Company A has saved State and local governments a considerable amount of money by building and renovating recreational facilities, cultural centers, and public land areas.

The Inspector-Instructor Staff of each Marine Corps Reserve Unit is assigned to train and assist the unit in meeting established Marine Corps Standards. These active duty Marines are also responsible to represent the Marine Corps on appropriate occasions as well as assist Marine dependents in West Virginia while their sponsor is stationed overseas.

The Main Recruiting Station and Sub-stations are primarily tasked with selection and screening qualified volunteers for the United States Marine Corps, Marine Corps Reserve, and with processing applicants for the Naval Reserve Officer Training Commissioning (NROTC) programs.

FEDERAL CORRECTIONAL INSTITUTION

Alderson 24910

Warden: Carson W. Markley

The Federal Correctional Institution is situated in the foothills of the Allegheny Mountains in Summers and Monroe Counties. It was established by an act of Congress June 7, 1924, and the buildings and grounds have a value in excess of \$2,000,000. It was designed to take care of all women Federal sentenced prisoners in the United States and the insular possessions and has a capacity of 650. There are seventeen buildings housing residents, a hospital, administration building, garment factory, laundry, school building, a vocational building, chapel and auditorium, storehouse, dining room, and shops. The enabling act specified that each resident should be given training that would fit her to be self-supporting on her return to society. In the fifty years of its existence the institution program has expanded to meet the needs of a changing society. Specific program areas include counseling, education, medical and psychological, casework, religious and vocational. This institution program is extended to community centers which are located in various cities throughout the United States.

Second oldest county in West Virginia. Created in 1772 from the northern third of Frederick County (Virginia), and named for Norborne Berkeley (Baron de Botetourt), Colonial Governor of Virginia from 1768 to 1770.

RANDOLPH

Randolph County was formed from Harrison in 1787 and included all of the present county of Tucker, all of Barbour east of the river, all of Upshur east of Buckhannon River, and a considerable portion of Pocahontas and Webster. It lost territory in 1821 when Pocahontas was formed; again in 1843 when Barbour came into existence; in 1851 it gave up some of its territory to Upshur; five years later 350 square miles were cut off to form Tucker; and another portion was incorporated in Webster County when it was formed in 1860. After all of these losses Randolph still is the largest county in the State. It was named for Edmund Jennings Randolph, Governor of Virginia 1786-

1788. The first white man who settled in what is now West Virginia, built his home on the waters of the Monongahela. In this county occurred the first Indian massacre in the State. From that beginning, the county has been a historical center down to the present.

First 4-H Camp in the world held in this county.

Kumbrabow State Forest and part of the Monongahela National Forest are located in this county.

Fossil Tree Park, in which are found large numbers of fossilized trees, is located a short distance west of Elkins. Southeast of Huttonsville, on White Mountain (elevation over 4,000 feet), the federal forces maintained the highest fortified camp in the War Between the States.

Salem—Harrison County

Zip Code 26426

(Magisterial District: Tenmile).

Incorporated in 1794. Originally named New Salem because the settlers who established the town came in a body from Salem, New Jersey, arriving in the spring of 1792.

The first civilized habitation on the land now occupied by the City of Salem was a hunter's camp established by Nicholas Carpenter in 1785 who

used it for a hunting and trapping center. He also used it as a crude hotel for himself and his men who drove cattle from Clarksburg to the Ohio River at Marietta which was the nearest market.

Samuel Fitz Randolph purchased the property on which the village was founded in 1790. Mr. Randolph had started with a caravan of pioneer settlers from Salem, New Jersey, who crossed the mountains in 1789 and made their first stop at Woodbridgetown, Pennsylvania. Mr. Randolph, a number of Davises, some Maxsons, and others came on to what is now Salem, after a two and one-half year trek from the sea coast.

Salem was the first settlement of Seventh Day Baptists west of the mountains. It is now the home of Salem College, founded in 1888, and the Industrial Home for Girls, established in 1898. Glass has been a major industry. It is the birthplace of United States Senator Jennings Randolph and the great writer, Granville Davison Hall, author of *Daughter of the Elm*, *The Rending of Virginia*, and many other historical books.

Location of Annual Heritage Arts Festival held the fourth weekend in April exhibiting crafts, handiwork and antiques from the past of West Virginia. Reconstruction of fort and associated original buildings now underway on Salem College property.

County seat. Settled in 1769 by Ebenezer Zane and followers. In 1793 the existence of Wheeling as a town became evident when Zane divided the settlement into lots, but Wheeling was not incorporated as a town until 1806 by the General Assembly of Virginia.

Although the peace treaty with the Indians was still in effect when Zane settled here, he and his followers immediately built a fort, which they called "Fort Henry." Here was fought in September, 1782, the last battle of the American Revolution. It was during this siege that the famous legend of Betty Zane was established, when she braved a storm of gunfire to carry powder from the Zane cabin to the fort.

Wheeling was the state's capital until 1870 and again from 1875 to 1880 when the government was moved to Charleston.

THE AMERICAN FLAG

DESCRIPTION OF THE FLAG

The Flag of the United States of America has 13 horizontal stripes—7 red and 6 white—the red and white stripes alternating, and a union which consists of white stars of five points on a blue field placed in the upper quarter next to the staff and extending to the lower edge of the fourth red stripe from the top. The number of stars is the same as the number of States in the Union. The canton or union now contains 50 stars. On the admission of a State into the Union a star will be added to the union of the Flag, and such addition will take effect on the 4th day of July next succeeding such admission.

PLEDGE OF ALLEGIANCE

I pledge allegiance to the flag of the United States of America and to the Republic for which it stands, one Nation under God, indivisible, with liberty and justice for all.

STATE FLAG

Before the design of the present State Flag was officially adopted by the Legislature on March 7, 1929, by Senate Joint Resolution No. 18, West Virginia had been represented by several flags which had proved impractical.

Prominently displayed on the pure white field of today's flag and emblazoned in proper colors is the Coat of Arms, the lower half of which is wreathed by Rhododendron. Across the top, lettered on a ribbon, is the constitutional designation—"State of West Virginia." The white field is bordered on four sides by a strip of blue, and for parade purposes all but the staff side are to be trimmed with gold fringe.

GREAT SEAL OF WEST VIRGINIA

The Great Seal of West Virginia, which also is the Coat of Arms, was adopted by the Legislature on September 26, 1863, and symbolizes the principal pursuits and resources of West Virginia. Described briefly, the obverse side of the Seal bears the legend, "State of West Virginia," together with the motto, "Montani Semper Liberi" (Mountaineers Are Always Free); a farmer stands to the right and a miner to the left of a large ivy-draped rock bearing the date of the state's admission to the Union, in front of the rock are two hunters' rifles upon which rests a Phrygian Cap, or "Cap of Liberty."

The reverse side of the Seal is not in common use today. It was intended to be employed when the Seal was attached to documents by ribbons and suspended in the manner of a medal.

Joseph H. Diss Debar, of Doddridge County, designed the State Seal in 1863 at the request of the first West Virginia Legislature.

STATE SONGS

"THE WEST VIRGINIA HILLS", "THIS IS MY WEST VIRGINIA" and "WEST VIRGINIA, MY HOME SWEET HOME" were designated as the official State Songs of West Virginia, each ranking equally with the others in official status, by House Concurrent Resolution No. 19, adopted by the Legislature on February 28, 1963.

OFFICIAL COLORS

OLD GOLD and BLUE were designated as Official State Colors by Senate Concurrent Resolution No. 20, adopted by the Legislature on March 8, 1963.

STATE DAY

"West Virginia Day"

On January 1, 1863, President Abraham Lincoln approved the Statehood Bill for West Virginia on the condition that it would gradually abolish slavery. West Virginia was proclaimed a State on April 20, 1863, with the bill becoming effective sixty days later on June 20, 1863.

"West Virginia Day" became a legal holiday by Chapter 59, Acts of the Legislature, Regular Session, 1927. (Code 2-2-1)

STATE TREE

The Sugar Maple or ACER SACCHARUM, as it is known scientifically, was made West Virginia's official tree by House Concurrent Resolution No. 12, adopted by the Legislature on March 7, 1949, authorizing a vote by pupils of public schools and civic organizations. It produces an excellent wood for furniture as well as maple syrup. A single tree is 70 to 120 feet high and produces two to three pounds of sugar when "sugared off"; has a five-lobed leaf and produces a small wing-shaped pod.

STATE BIRD

The Cardinal or RICHMONDENA CARDINALIS, as it is known scientifically, was made West Virginia's official bird by House Concurrent Resolution No. 12, adopted by the Legislature on March 7, 1949, authorizing a vote by pupils of public schools and other civic organizations. The male of the species is a rich scarlet with a mask and shading of black, while the young birds and females are a less brilliant color. The adult bird measures approximately eight inches long. It can be found from New York State to the Gulf of Mexico and as far west as Oklahoma.

STATE FLOWER

The RHODODENDRON MAXIMUM or "Big Laurel" was made the official State Flower of West Virginia by House Joint Resolution No. 19, adopted by the Legislature on January 29, 1903, following a recommendation by the Governor and a vote by the pupils of public schools. It is a shrub of the heath family and may be recognized by its large evergreen leaves and delicate pale pink or white bloom, mottled with either red or yellow flecks.

STATE ANIMAL

The BLACK BEAR or EUARCTOS AMERICANUS was selected as official state animal of West Virginia by a poll of students, teachers and sportsmen conducted by the Department of Natural Resources in 1954-55 and officially adopted by the Legislature, Regular Session 1973, by House Concurrent Resolution No. 6. Only species of bear found in the State. While commonly referred to as the "black bear" its coloring is actually deeply tinted with brown. Its habitat in the State is primarily in the eastern mountain region. A litter usually consists of one or two cubs, rarely three, each weighing about eight ounces at birth. The adult reaches an average maximum weight of 250 pounds.

STATE FRUIT

The APPLE was designated as the official State Fruit by House Concurrent Resolution No. 56, adopted by the Legislature on March 7, 1972.

STATE FISH

The BROOK TROUT was designated the State Fish by House Concurrent Resolution No. 6 adopted Regular Session, 1973, following a poll of sportsmen who favored the Brook Trout. The brook trout is a native West Virginia species.

US HILLBILLIES SHED NO TEARS

(EDITOR'S NOTE: This article is being reprinted from the "Wonderful West Virginia Magazine" with the permission of its author, Dr. Perry E. Gresham, President Emeritus of Bethany College).

Not Delphi, as the ancient Greeks believed, but West Virginia is the center of the Universe. You can go anywhere from here, and most everybody has!

West Virginia is not so much a state as it is a condition. Geologically speaking it is all mountains and valleys. You can lean against it most anywhere. So many do that it is hard to get anything done!

Everything here is accidental. On a sleepless night, Abraham Lincoln signed it into existence to get back at the South. The boundaries are aimless, crooked, and arbitrary. On the map it resembles a lopsided hornet's nest with two handles. We call them panhandles. The larger one reaches out hopefully toward Washington!

The people who live here were mostly born by accident—or came here by accident—like me. I came here to run a college just when private higher education was about to go out of style. That was not only an accident—it was very nearly a disaster.

In West Virginia, we have a college on every other hilltop. We may be poor, but we try hard not to be ignorant!

The citadel of learning which I had agreed to defend was hard to find. It was protected from the outside world by two tunnels, four one-way bridges, and forty-seven reverse curves.

I discovered that the college was older than the state, but not as well off—which is a serious situation.

We were long on heritage, but short on students, and fresh out of money. I took out into the mountains after both only to find another college president behind every thicket. Each one of us had application blanks in one hand and a tin cup in the other.

I made speeches from Beech Bottom to Jumping Branch, and from War to Harper's Ferry. I slept on goose down in one tiny motel where the adjoining bathroom was ten spruce trees, one gravel pit, and a roaring freshet out in back. Nights at The Greenbrier were something else. That hillbilly cabin is about as austere as a yacht of Aristotle Onassis or the summer cottage of Haile Selassie. No Oriental monarch ever lived as high as I have among the hills, and no Indian Fakir has lived as low as I have among these hollows.

People say West Virginians are poor, but the ones I know best are all rich—and mostly stingy. It's almost as hard to raise money here for higher education as it is to raise palm trees on Spruce Knob. Mike Benedum did better by the colleges than anybody else, but so many were after him that even his gifts came to be a little uneven.

Word got out that our colleges were both good and cheap. Students started coming in from everywhere. We had to build houses like crazy to keep them warm. Some studied and came to be doctors, lawyers, professors, and business people. A few saw the handwriting on the wall and joined the government, before everybody else tried to get into the act.

When riots broke out in other parts of the country, our students felt they were missing something. A West Virginia student tends to like his college, his state, and his country. He'd rather throw a book at you than a rock—which is a good thing, because we have rocks everywhere around here.

Here in West Virginia, we do not so much study as get studied. Sociologists from everywhere come to study our poverty-stricken people to find out how it happened and why we stay here. More tears, by far, have been shed for the coal miners than by the coal miners. While the anthropologists and sociologists, psychologists and social workers are trying to figure out these things, all of us

are up the hollows snickering. We are not as poor as they think—we do not own all this land.

We stay here because we like it. We're too polite to say, "Bleeding hearts—go home!" Instead, we are getting together a fund to do some research ourselves. We'd like to find out why people can't tend to their own business and let us alone. That goes for the politicians, as well as the professors and social workers. When one of my neighbors said to her Senator, "We don't want no handouts," he answered, "You ain't a gonna get none."

When I first came to the state, a friend who should know gave me the word about Appalachian government. "In West Virginia," he said, "everything is political except politics, and they are personal."

Lots of people look down on West Virginians and either poke fun at us—or pity us—which is worse! They quip, "a poor Hillbilly has only one Cadillac on jacks in his front yard," or else stereotype us into a social problem and call us "the Appalachian poor!"

I've thought about this for twenty-five years, since I got myself adopted into the Mountain Clan, and I have come to believe that we are just as good as anybody else. We are a sorry lot, but so are they. We have our share of crooks in politics, but we admit it and send them to jail. In other states, such crimes as stealing and telling lies are not even noticed. A few states have come to rely on them.

We have more mountains, more rhododendrons, and more red birds than most anybody. We have some strip mines which we are trying to cover up with dirt, vines, trees, and verbiage. We have some smokestacks that we hope to clean up without turning off the power or taking away the jobs. We have some water that needs attention, but we still drink it. We have caught hell from some people for building roads, but even a back-to-nature radical will say we haven't built enough good roads to hurt anybody, and hardly enough to help.

Our people may not be any better than those who live in New York, New England, or Washington, D.C., but we like each other better. We even have some operating stills and some wild turkeys. Those things are hard to come by!

They can call us backward and poverty-stricken, but we just keep right on learning and teaching. They can look down on us with pity, but we have nature, and knowledge on our side. We have spirit and we are beginning to feel proud.

The book and the mortarboard may yet replace the whiskey jug and the coon-skin cap!

THE FIFTEENTH ANNUAL NATIONAL YOUTH SCIENCE CAMP

(June 24 — July 18)

Each year the State of West Virginia invites the other forty-nine states to select delegates for an all-expense paid three-week visit to the mountains of West Virginia. Originated as part of the 1963 Centennial celebration, the National Youth Science Camp annually hosts the two top science students from each state.

The camp is located in a secluded section of the Monongahela National Forest near Bartow. The setting is ideal for the camp's rigorous outdoor program, which includes such activities as backpacking, rock climbing, caving, and kayaking.

To keep the delegates' active minds constantly challenged, the camp in 1977 offered 30 lectures on subjects as diverse as "Genetic Engineering" and "Aspects

of Cartography". One of the lecturers was NASA astronaut Dr. Ed Gibson, who spoke on "Experiments on Skylab". After each lecture, there were always questions that probed deeper into each subject. Many of the guests spent enough time in camp to participate in camping trips, mealtime discussions, and to hold workshops in their field of specialty. There were many opportunities for one-on-one conversation between scientist and camper.

In addition, staff members held programs in geology, astronomy, computer programming, botany, and archaeology. Science specialists were along on all the hiking, caving, and climbing trips. There were chances to enjoy the natural splendor of West Virginia and learn the habits of the black bear or discuss nuclear energy.

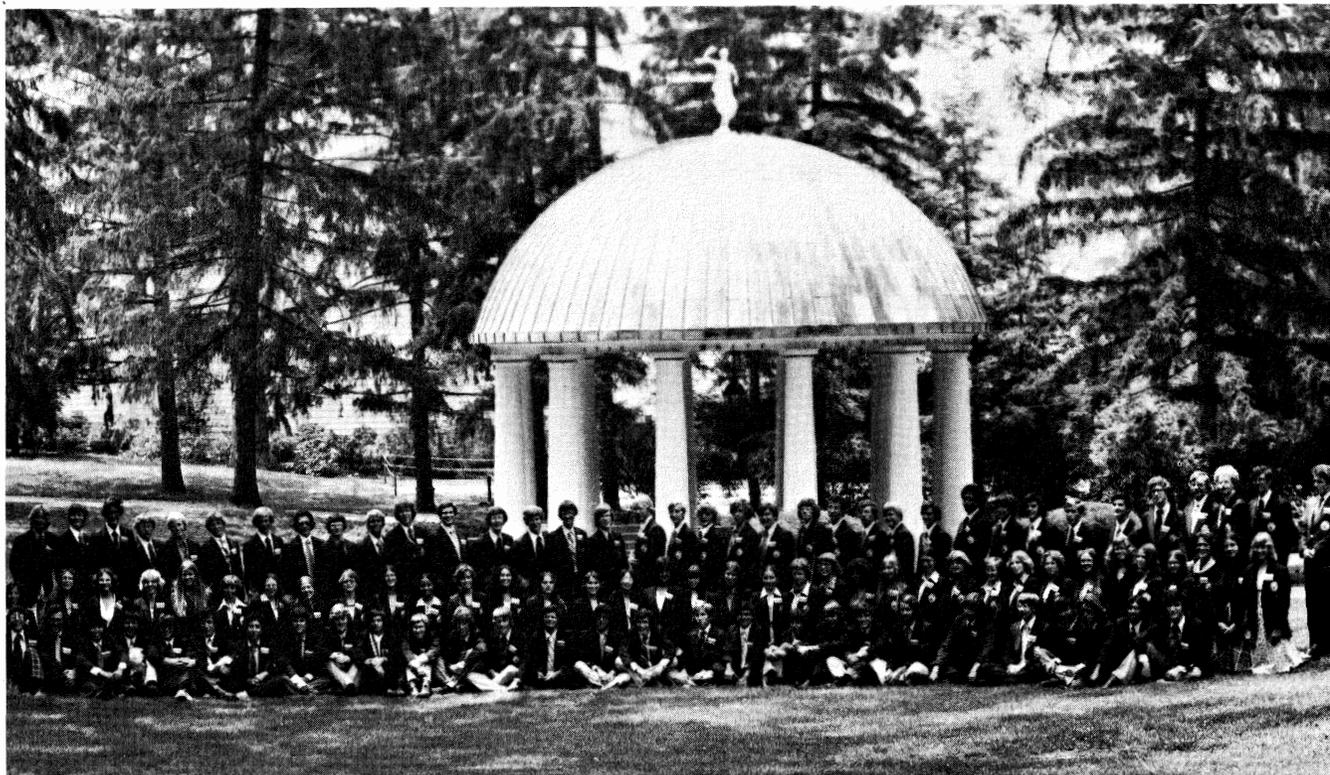

The arts were not neglected. The camp offered free time instruction in macramé, painting, drawing, leather work, pottery, and basket weaving. The music program coordinator took many unfamiliar voices and blended them into a camp chorus. Talented musicians wove in and out of many groups, and an informal rhythm and blues band often entertained the camp. The delegates also had their own newspaper called the "Rhododendron Record".

Also included in the camp schedule were several out-of-camp trips. In addition to the recreational field trips and overnights, there were visits to the National Radio Astronomy Observatory, the Cass Scenic Railroad, an unexplored Civil War battlefield, and points of scenic interest. One of the highlights of the 1977 session was the two-day visit to our Nation's Capital, a first for many campers. While in Washington, the delegates were guests of honor at the annual NYSC luncheon sponsored by the United States Senate and West Virginia Senator Jennings Randolph; here they had the opportunity to chat informally with their own Senators. The guest speaker was Vice President Walter Mondale. Also a part of the trip was a stop at the Capitol hosted by Representative Nick Joe Rahall. The campers visited the Smithsonian Institution. They participated in Jimmy Carter's Presidential reception for West German Chancellor Helmut Schmidt. They attended a briefing at the British Embassy on the Concorde.

The 1977 delegation had much praise for both the camp and the State of West Virginia. One delegate from Indiana wrote, "The NYSC inspired in all of us a deeper dedication to science and to humanity." She continued, "I have never experienced the sense of fellowship and closeness that I did there in the gently rolling, green hills of West Virginia." A camper for Nevada called the camp "a very educational and worthwhile experience for America's graduates". One girl from Tennessee said that "from now on, West Virginia will always have a very special meaning to me". In fact, one person felt that science camp was "one of the most important of West Virginia's many outstanding contributions to this country".

All of this was a tribute to West Virginia's foresight in allowing recent high school graduates with leadership potential to explore their budding talents in preparation for their future roles. It was also a tribute to the state's openness and generosity in supporting the camp and to the people who greeted the delegates so warmly wherever they went.

For almost all the delegates, who will be entering college this fall and beginning the long road toward prominent scientific careers, the camp was an inspirational starting point. It was a point at which they examined other people, ideas, scientific theories, and mainly, themselves.

INLAND WATERWAYS—FEDERAL

(Data furnished by the Department of the Army)

Ohio River—Improvement of the Ohio River for navigation, as authorized by Congress in the River and Harbor Act of 1910, provides for a minimum channel depth of 9 feet in the entire 981 miles of the river by the construction of locks and dams and open channel work. The original system, completed in 1929, and major modifications completed in 1937, resulted in 46 lock and dam structures.

In 1953 a modernization and replacement program was begun which will reduce the total number of navigation projects to 19, providing higher dams, larger locks, and deeper pools. Projects adjoining West Virginia include the pool of Greenup Locks and Dam, completed in 1964, between Kentucky, West Virginia, and Ohio; a proposed improvement of Gallipolis Locks and Dams, near Apple Grove; the Racine Locks and Dam, near Letart, completed for operation in 1970; Belleville Locks and Dam, completed in 1969 at Belleville; Willow Island Locks and Dam, near Waverly, W. Va., was completed for operation in 1975; the Hannibal Locks and Dam, under construction at New Martinsville; Pike Island Locks and Dam, completed in 1965 at Wheeling; and New Cumberland Locks and Dam, completed in 1961 near New Cumberland.

Kanawha River, West Virginia—Three high-lift dams on the Kanawha River and the Gallipolis Dam on the Ohio River provide a minimum channel depth of 9 feet on the Kanawha River for 91 miles, from the mouth to Deepwater. Each Kanawha River dam has twin locks, and the Kanawha Valley Power Company has a hydroelectric plant at each site. The two upstream dams, London and Marmet, were completed in 1934, Winfield Dam in 1937, and Gallipolis Dam on the Ohio River in 1937.

Monongahela River, West Virginia and Pennsylvania—The existing Monongahela navigation system comprises nine locks and dams, affording slack-water navigation from Pittsburgh to above Fairmont, W. Va., a distance of 128.7 miles. The controlling depth is 9 feet and the navigable width varies from 250 feet in the upper reach to practically the full width of the river at the mouth of the river.

Modernization of the Monongahela River navigation structures in the upper reaches of the waterway is completed with the construction of the Morgantown, Hildebrand, and Opekiska Locks and Dams and modification of Point Marion Dam (Dam No. 8). In the middle portion of the river, the Maxwell Locks and Dam and the reconstruction of Dam No. 4 combined eliminate Locks and Dams Nos. 5 and 6. Replacement of Lock and Dam No. 7 and Point Marion Lock (Lock No. 8), now being studied, will complete the modernization program in the upper two thirds of the river. The lower section, including Locks and Dams Nos. 2, 3 and 4, is currently under study for possible rehabilitation and/or replacement needs.

MULTIPLE-PURPOSE LAKES—FEDERAL

(Data furnished by the Department of the Army)

Completed Projects:

Bluestone Lake—Bluestone Lake, located on New River near Hinton, was authorized by Presidential executive order in 1935 and approved by Congress in the Flood Control Acts of 1936 and 1938. Construction of the project was begun early in 1942, suspended in 1944 because of the war emergency, resumed in 1946, and completed for operational purposes in 1949. The dam, of concrete construction, is 165 feet high and 2,048 feet long. The lake regulates the runoff of a drainage area of 4,565 square miles and has a total storage capacity of 631,000 acre-feet. During periods of low and normal flows in New River, the elevation of the lake varies about 4 feet, with a minimum pool 9.5 miles in length and an area of 1,800 acres that accounts for about 30,900 acre-feet of the total storage capacity. The remaining capacity is reserved for the impoundment of floodflows, as required for flood control.

East Lynn Lake—East Lynn Lake, located on East Fork of Twelvepole Creek, was authorized by Congress in the 1938 Flood Control Act. Construction of the dam was completed in 1972. The dam is an earthfill structure with a maximum height of 113 feet and a crest length of 652 feet. The lake provides a maximum capacity of 82,500 acre-feet and controls the runoff from a drainage area of 133 square miles. A minimum pool with a surface area of 823 acres and a capacity of 11,705 acre-feet is maintained during the winter, while a seasonal pool with a surface area of 1,005 acres and a capacity of 17,100 acre-feet is maintained during the summer. The remaining storage is for flood control.

Summersville Lake—Built between 1960 and 1966, Summersville Lake is situated on Gauley River near Summersville. The dam is a rockfill type, with a maximum height of 390 feet and a top length of 2,280 feet. The drainage area above the dam is 803 square miles. It provides a maximum capacity of 390,800 acre-feet of storage for flood water, of which 163,400 acre-feet may be used for low-flow augmentation in the Kanawha River in summer. The summer recreation pool is 13.7 miles long and 2,723 acres in area.

Sutton Lake—Sutton Lake, located on the Elk River near Sutton, was authorized by Congress in the Flood Control Act of 1938. Sealing of mine workings at the site was begun in 1949, but work on the dam was not started until 1956. Construction of the project was completed in 1961. The dam is of concrete, 210 feet high and 1,178 feet long. The lake has a total capacity of 265,300 acre-feet and controls the runoff from a drainage area of 537 square miles. A minimum pool 5.9 miles in length, with a surface area of 270 acres and a capacity of 4,100 acre-feet, is maintained during the winter. A seasonal pool with a maximum length

of 14.5 miles, surface area of 1,520 acres, and storage capacity of 60,100 acre-feet is maintained for low-flow augmentation and recreation. The remaining capacity is utilized for flood control storage.

Tygart Lake—Tygart Dam, on Tygart Valley River 2.25 miles upstream from Grafton, was authorized by the Public Works Administration in 1934 and approved by Congress in the River and Harbor Act of 1935. The concrete gravity dam is 1,921 feet in length at the top and rises 230 feet above the riverbed. The structure provides for the gross controlled storage of 287,700 acre-feet of water. It is operated as a unit in the reservoir system for the protection of Pittsburgh and the Ohio River valley. In addition to flood control, Tygart Lake provides for low water discharge regulation by the gradual release of stored spring flood waters during the summer-fall period to assure a river flow of 340 cubic feet per second at Lock and Dam 8 on Monongahela River. Storage of about 100,000 acre-feet of water is allotted for this purpose.

Projects under construction:

Beech Fork Lake—Creation of a lake on Beech Fork of Twelvepole Creek, near Huntington, was authorized by Congress in the Flood Control Act of 1962. Construction is scheduled for completion in 1979. The dam, completed in 1976, is earthfill, with a maximum height of 86 feet and a top length of 1,080 feet. The lake has a maximum capacity of 37,540 acre-feet and will control the runoff from a drainage area of 78 square miles. A minimum pool of 4,200 acre-feet with a surface area of 450 acres will be maintained during the winter. A seasonal pool of 9,180 acre-feet with a surface area of 720 acres will be maintained during the summer season for recreation purposes. The remaining capacity will be utilized for flood control.

Bloomington Lake—The Bloomington Lake project was authorized by Congress in 1962 as a unit of the comprehensive water resource development plan for the Potomac River basin. The damsite is in Mineral County, W. Va. and Garrett County, Md. on North Branch Potomac River about 8 miles upstream from the mouth of Savage River. The dam will be a rolled earth and rockfill structure with a maximum height of 296 feet and a top length of 2,130 feet. The reservoir will have a capacity of 130,900 acre-feet and will control runoff from a drainage area of 263 square miles. The project will provide low-flow augmentation, flood control, and recreation. Construction was begun in 1971 and is scheduled for completion in 1981. Local interests are required to pay initial water supply costs and provide assurances for (a) payment of future water supply costs, (b) maintenance of water quality standards, and (c) prevention of encroachment in the channel downstream of the project.

Burnsville Lake—Construction of the Burnsville Dam was completed in 1976. The project controls the runoff from a drainage area of 165 square miles. The dam is a rockfill embankment rising 84.5 feet above the streambed. Top elevation is 839 feet above sea level, and the crest length 1,400 feet. A perched gated spillway with a crest width of 142 feet and a crest elevation of 792 feet is located in the left abutment. The outlet works are located in the spillway section. A minimum pool will be maintained at elevation 776, with a surface area of 550 acres. The seasonal (water quality control) pool will be at elevation 789 and will have a surface area of 968 acres. The flood control pool will be at elevation 825 and will have a capacity ranging from 51,200 acre-feet in summer to 61,300 acre-feet in winter, with a surface area of 1,900 acres.

R. D. Bailey Lake—The R. D. Bailey Lake, started in 1967 and expected to be completed in 1979, is located on Guyandotte River in Wyoming County. It was authorized by Congress in the 1962 Flood Control Act. The dam will be of rock and randomfill, 310 feet high and with a top length of 1,370 feet. The dam will control the runoff from a drainage area of 540 square miles, the lake having a total capacity of 203,700 acre-feet. A minimum pool of 22,000 acre-feet with a surface area of 440 acres will be maintained in the winter months. A seasonal pool for recreation and water quality control having a capacity of 34,000 acre-feet

and a surface area of 630 acres will be maintained during the summer. The remaining storage capacity will be used for flood control.

Projects under design:

Rowlesburg Lake—The Rowlesburg Lake was authorized by the Flood Control Act of 1965 for the purposes of flood control, water quality control, hydroelectric power production, and recreation. The dam will be located on the Cheat River, a tributary of the Monongahela River, at the upstream limits of Rowlesburg. The authorized Rowlesburg Lake project is being re-evaluated at the request of Governor Moore.

Stonewall Jackson Lake—The Stonewall Jackson Lake project was authorized by the Flood Control Act of 1966 for the purposes of flood control, water quality control, water supply, and recreation. The project, although benefiting primarily the West Fork and upper Monongahela River valleys, will be operated as a unit in the comprehensive plan for flood control in the Ohio River basin; to improve water quality in the West Fork, Monongahela, and Ohio Rivers; to provide storage for water supply; and for general and fish and wildlife recreation. Land acquisition and construction have not been initiated.

The dam will be located on the West Fork River at Brownsville in Lewis County, with the full pool extending upstream to Walkersville and Crawford, also in Lewis County. The dam will be a concrete gravity structure, 620 feet long and rising 95 feet above the streambed.

The maximum summer pool for water quality control, water supply, and recreation will be at elevation 1073 feet above sea level, with a surface area of 2,650 acres. At the full pool elevation of 1082, the project will provide for the gross storage of 74,700 acre-feet of water.

LOCAL FLOOD PROTECTION PROJECTS

All completed major flood protection projects in West Virginia except at Ridgeley are units in the comprehensive plan for flood control and allied purposes in the Ohio River basin. The local protection projects have been constructed so that, acting alone, they provide a degree of flood protection which in most places is equal to protection against the maximum flood of record in the project localities. Each locality along the Ohio River which has local protective works also receives additional protection from a coordinated system of upstream multiple-purpose reservoirs designed to reduce floodflows on the Ohio River and to contribute to the reduction of floods on the lower Mississippi River.

Completed reservoir and local flood protection projects in West Virginia have already made a major contribution toward reduction of flood damages; flood control benefits from their operation through September 1976 have aggregated a total estimated amount of \$333 million.

Ohio River Projects—Local protective works have been completed for Ceredo-Kenova, Huntington, Parkersburg, and Point Pleasant. The projects consist of concrete walls and earth levees to prevent entrance of flood waters, pumping stations to discharge sewage and internal drainage during flood periods, and gated openings through the works to permit unobstructed movement of traffic during normal (nonflood) river conditions. Operation and maintenance are local responsibilities.

Buckhannon LPP—A project in the vicinity of Buckhannon completed in 1969 provided channel improvement along Buckhannon River for 4.6 miles.

Elkins LPP—The principal elements are a cutoff channel and dikes, located about 1.5 miles above the city, which divert floodflows from the loop of Tygart Valley River on which Elkins is located. The project was completed in 1949.

Princeton LPP—Principal features of the protection works are 3.9 miles of channel improvement along Brush Creek, construction of one railroad bridge and extension of another, construction of two highway bridges, and 0.3 mile of railroad relocation. The project was completed in 1961.

East Rainelle LPP—The project consists of 4.3 miles of channel improvement on Meadow River and Sewell and Boggs Creeks, construction of a highway bridge, modification of a railway bridge, and modification of sewage and drainage facilities. The project was completed in 1962.

Ridgeley, W. Va. and Cumberland, Md.—Ridgeley, in Mineral County, is located on the south bank of North Branch Potomac River, opposite Cumberland, Md. Protective works for these communities include about 3.3 miles of channel improvements on North Branch and its tributary, Wills Creek, supplemented by a system of earth levees and concrete floodwalls. The project includes three pumping stations with related interior drainage facilities and eight pressure conduits totaling 11,800 feet in length. An industrial water-supply dam, three highway bridges, and a railroad bridge were reconstructed. The project was completed in 1959. Additional channel improvement on North Branch Potomac River was completed in 1964.

Williamson LPP—The business section of Williamson is protected by a project consisting of 2,135 feet of concrete wall along Tug Fork of Big Sandy River, a pump station, and 16 gated openings. The project was completed in 1963.

Local Protection Work under Special Continuing Authority—Small flood control projects under authority provided to the Corps of Engineers by Section 205 of the Flood Control Act of 1948, as amended, include channel improvement work completed along North Branch Potomac River at Blaine and Bayard and along Middle Fork Mud River in the Griffithsville-Yawkey area.

Barboursville Bank Protection Project—The project consisted of repairing and restoring a bank of Guyandotte River in the vicinity of Water Street in Barboursville. The work consisted of placing dumped-rockfill on the right bank of the river for the prevention of erosion, and channel excavation on the opposite bank. Construction was completed in 1965 at a Federal cost of \$148,000. Local interests are required to maintain the project.

Projects under the authority provided to the Corps of Engineers to snag and clear streams in the interest of flood control by Section 208 of the Flood Control Act of 1954 include projects completed at Berwind on Dry Fork, a tributary of Tug Fork of Big Sandy River; Bramwell and Montcalm on Bluestone River; Cairo on North Fork Hughes River; Colliers on Harmon Creek; Huntington on Fourpole Creek; Jacksonburg, Pine Grove on Fishing Creek; Jacksonburg, and Smithfield on South Fork Fishing Creek; Richwood on Cherry River; Stonewood and Nutter Fort on Elk Creek; West Union on Middle Island Creek; Weston on Polk Creek and Stonecoal Creek; and Wyatt on Bingamon Creek. Work is under way at Pax on Paint Creek and Ripley on Mill Creek.

DRIVER IMPROVEMENT PROGRAM

(Point System)

West Virginia's Driver Improvement Program, as administered by the Department of Motor Vehicles, is designed to eliminate the chronically careless driver from the state's highway system.

Under the program "points" are assigned to those convicted of various moving traffic violations. Conviction notices are forwarded to the Department of Motor Vehicles, which maintains each individual's driving record and statistics.

An operator receiving a total of 6 points is sent a warning letter by the Department, outlining the need for more careful driving. Individuals reaching the 9 to 12 point level are required to appear before a Department Reviewing Officer, at which time the most serious cases are subject to suspension of their operator's privileges.

NATURAL RESOURCES

WEST VIRGINIA'S RECREATION PARADISE

West Virginia's State Park and Forest System is a living legacy of recreation, cultural, and vacation opportunities for all citizens, and for growing numbers of vacationers from other states. For the past 45 years, the system has been maintained and expanded to provide quality recreation that our citizens appreciate as a major ingredient of the "good life."

The system began in 1929 with the establishment of the site of a major state Civil War engagement, Droop Mountain, as the first state park area. Shortly afterwards, during the years of the Great Depression, major emphasis was placed on creation of a system of parks and vacation lands in the Mountain State. By the mid-1930's parks such as Cacapon, Lost River, Babcock, Holly River, and Watoga were begun. The development of vacation cabins, roads, trails, lakes and swimming pools was undertaken by the State, in cooperation with the old Civilian Conservation Corps (CCC), and the National Park Service. It was the beginning of the fine system that has continued to rank right at the top nationally among state park facilities.

Vacation cabins became one of the most popular attractions right from the first. To this day, most park and forest cabins are booked to capacity months before the traditional summer vacation season. Now, with the expansion of winter sports facilities, longer vacation periods, and public awareness of a four-season concept of recreation, cabins are filled at many parks year-round. Cabins, whether the old-time log style, or of modern construction, provide quality family outdoor lodging as well as the perfect choice for those persons on a budget.

The greatest period of demand for recreational facilities followed World War II. While most states had the opportunity of developing a basic park system in the 1930's, only a very few, among them West Virginia, chose to expand and develop to meet the growing demand for more parks, more acres, and more facilities for their accommodation.

By the mid-1950's the parks boasted of year-round public facilities, with the completion of dozens of heated "deluxe" cabins, and rustic (yet modern) lodges at Blackwater Falls, Cacapon and Mont Chateau State Parks. Funds to build these facilities came from the State's first revenue bond program, whereby money was borrowed for construction and repaid over a score of years from earnings through public rental.

Blackwater Falls State Park is a typical example. The region was ravaged in the early 1900's by logging, then by a series of disastrous forest fires, and further by exploitation and strip mining which occurred during the unregulated demand for coal during World War II. The new lodge and 25 deluxe cabins formed the nucleus of a major state park, which preserved for all time the rich natural beauty of the deep gorge of Blackwater River, the famous falls of which are a natural landmark in West Virginia, and provided miles of trails for hiking and riding. By 1970, the park was one of the leading year-round facilities in the entire park system.

In the early 1960's the older, but highly popular, log vacation cabins which were largely constructed by hand as the final example of mountain skill at stonecutting and log home building were totally remodeled. The biggest addition at this time was the construction of modern kitchens. Many state forest cabins were also upgraded in a similar manner, but at two forests—Kumbrabow and Seneca—the older facilities were left intact for those family visitors who wanted to share the traditional mountain heritage of kerosene lighting and water pumped from a well.

By 1963 it was evident that the emergence of the Appalachian region as a vacationland was only a matter of time. Demands on the public and private

sector of recreation were unprecedented, but development had not occurred. Accordingly, an agreement was reached between the Federal and State governments for a demonstration program. The multi-million dollar program was designed, in part, to demonstrate to the private sector that recreation was a major future source of jobs, and that this industry would eventually emerge as a major factor in the State's highlands region. The "State Parks for the 1970's" program, as it was termed, eventually added three new state parks to the system, and provided for major expansion to three others.

At Grandview, near Beckley, site of the outdoor dramatic productions of "Honey In The Rock," and "Hatfields and McCoys," parking and picnic areas were greatly expanded and nature trails improved to accommodate the growing crowds at this scenic park which overlooks the famed New River Gorge.

By 1968, a major expansion program was completed at the **Cass Scenic Railroad**. This old logging line, remnant of thousands of miles of such railway which crisscrossed the mountains, became a state park facility in 1961. From 1963 through 1967 it operated only on a four mile segment. Beginning in 1968, as a result of this renovation of trackage, the full eleven mile line to the area of Bald Knob (West Virginia's second-highest mountain) was opened to public use. Additional public facilities included a 300-car parking lot. Funds to accomplish this project were borrowed and will be repaid through income from the sale of tickets to ride the old logging trains.

Hawks Nest, a spectacular overlook high atop the famed New River Gorge, has long been one of the Mountain State's most popular park attractions. Under the "State Parks for the 1970's" program this park was greatly expanded. New facilities include a 30-room lodge overlooking the canyon, new overlook at Lovers' Leap, a marina and boat dock on the lake at the bottom of the deep chasm, and a unique aerial cable tramway to carry visitors from the rim to the bottom of the gorge.

Pipestem State Park Resort has become one of the leading state park recreational attractions in eastern America. Breath-taking in almost every dimension, Pipestem is set along a rolling plateau overlooking the rugged and undeveloped Bluestone River Gorge, near Hinton and Princeton.

The park features two comfortable lodges, the 113-room Pipestem Lodge perched on the edge of the river canyon; and Mountain Creek Lodge, a secluded 30-room facility at the bottom of the deep gorge. The Mountain Creek facility is accessible *only* via the park's canyon aerial tramway system which sweeps over a thousand feet down into the valley from the visitor center.

Other recreational facilities include a challenging 18-hole championship golf course and an enjoyable par-3 "executive golf layout." Clubhouse facilities rank second to none and highlight golf as a major new attraction of state parks.

The visitor center, headquarters for the year-round nature and recreation program, also features a native West Virginia Arts and Crafts demonstration and sales center which is coming into its own as a major outlet for Appalachian crafts. Nearby is a 550-seat outdoor amphitheater where outdoor drama and music concerts are performed regularly, the recreation center with its 200-seat cafeteria, olympic-size swimming pool and indoor recreation rooms, and an ice skating rink.

Remaining major facilities include an overlook atop Pipestem Knob, highest peak of the region, a 50-unit, completely equipped campground, archery range, nature center, riding stable with both horses and bicycles featured, and the park information and headquarters building.

Twin Falls, near Mullens and Pineville, provides year-round recreation in the State's southern highlands for the first time. The park features a 20-room guest lodge and 13 comfortable, heated guest cabins for year-round occupancy. Other highlights are a 9-hole regulation golf course, archery, and a recreation center building that includes a large swimming pool and indoor recreation.

Canaan Valley, located in a deep, high mountain valley near Blackwater Falls State Park, is blossoming as one of the premier winter sports centers in the East. The valley, which exceeds 3000 feet in average elevation, is surrounded by 4000 - 4500 foot high mountain peaks.

Accommodations available at Canaan Valley include a new 250-room lodge with deluxe conference center which offers a wide range of audiovisual equipment, restaurant with a seating capacity of 500, and gift shop; 15 deluxe cabins and 34 deluxe campsites, with a country store nearby. The lodge overlooks the scenic valley and the park's 18-hole championship golf course.

The park's winter sports center includes miles of ski trails, most serviced by full artificial supplemental snow-making equipment. Two double-chair ski lifts are operated all winter, and also in summertime as a scenic tourist attraction. The ski center includes a pro shop, restaurant, skiers' pub, lounge, and other public facilities.

As planned recreational development continues, many additional features are being created. The new Cacapon State Park 18-hole championship golf course is attracting thousands of golfers to this fine year-round eastern panhandle attraction. Year-round guest cabins are under construction at North Bend, the State's major Ohio Valley parkland; and development of hiking trails, more campsites, and historic interpretation facilities are blossoming forth.

Of historical interest is the reconstruction of a grist mill on Glade Creek at Babcock State Park. The mill, completed in 1976, was created by combining parts and pieces from several old mills which once dotted the state. The basic structure of the mill, originally the Stoney Creek Grist Mill, was moved to Babcock from a spot near Campbelltown, Pocahontas County. From the Spring Run Grist Mill near Petersburg, Grant County, the overshot water wheel was acquired; several other parts came from the Roaring Creek Grist Mill near Onego, Pendleton County. Cornmeal and buckwheat flour are ground at the Glade Creek Mill and may be purchased there.

West Virginia frontier life of the late 1700's is the main attraction at Prickett's Fort State Park. The fort was recently reconstructed to look as it was believed to have looked in 1774, the date of its original completion. There are 16 one-room cabins, a meeting hall and storehouse within the fort, demonstrating the lifestyle of the settlers who relied upon the security of its sturdy walls to protect them from the Indians. Visitors can view demonstrations of 18th Century crafts including open hearth cookery and baking; carding, spinning and weaving of wool; basket making, candle dipping and wood lye soap making; horn and leatherworking; gunsmithing, blacksmithing and coopering.

West Virginia's recreation system is a source of pride and enjoyment to West Virginians and other visitors. More than six and one-half million tourists visit West Virginia parks and forests each year for quality family recreation in the scenic outdoors.

U. S. DEPARTMENT OF AGRICULTURE

Forest Service

Monongahela National Forest

Headquarters: Elkins

Monongahela National Forest was proclaimed by President Woodrow Wilson on April 28, 1920, under the Weeks Law. This law of 1911 provides for the cooperation by states with the United States, and the protection of watersheds of navigable streams. In West Virginia, the national forest was established for flood protection in the Ohio and Potomac River valleys. It is one of a system of 154 national forests and the only national forest wholly in West Virginia. The Clark-McNary Act of June 7, 1924, broadened the objectives to provide for reforestation and production of timber. The Multiple Use Act of June 12, 1960, provides that National Forests shall be managed for outdoor recreation, range, timber, watershed, hunting and fishing.

The public forest is dedicated to the protection, development, and management of all its resources for the greatest good to the greatest number.

Within the proclaimed boundary there are 1,647,146 acres of which 841,648 acres are owned by the United States. Directly in charge of the national forest is the Forest Supervisor. In the national forest are six ranger districts, each administered by a district ranger.

Counties in the National Forest and their current acreage in National Forest ownership are:

Grant	16,355	Pocahontas	286,862
Greenbrier	100,885	Preston	3,897
Nicholas	23,540	Randolph	176,604
Pendleton	74,666	Tucker	93,995
		Webster	64,784

The National forest is administered in cooperation with several conservation agencies, including the West Virginia Department of Natural Resources. Twenty-five per cent of receipts from the sale of timber and other products and use fees is returned to the nine national forest counties for schools (80%) and roads (20%).

OIL AND GAS DEVELOPMENT IN WEST VIRGINIA IN 1976

Douglas G. Patchen, West Virginia Geological Survey

Drilling in West Virginia during 1976 resulted in a modest increase (2.1 percent) in total completions over the previous year (Table I.) However, during 1975 the figure for total completions was abnormally high due to several very active gas-storage programs. If miscellaneous completions (storage, injection, stratigraphic tests) are omitted from each year's total, activity to produce oil or gas increased 16.6 percent in 1976 relative to 1975. Exploratory completions increased by nearly the same percent (13.1), and included 24 new-field wildcats (13 successful) 21 new-pool tests (12 discoveries, 2 development), 32 deeper-pool tests (17 deeper-pool discoveries, 1 shallow-pool discovery, 1 extension of a shallow pool, 1 development), and 35 outposts (25 extensions). Thus, 13 new fields and 32 new pools were discovered, up significantly from the 6 new fields and 13 new pools discovered in 1975. The success ratio for development well was 61.6 percent whereas the ratio for development wells was 93.4 percent.

Wells were completed in 42 of the State's 55 counties. The 1,027 total completions included 722 gas wells, 81 oil, 87 combination, 87 dry, and 50 miscellaneous. These miscellaneous wells included 3 gas storage, 46 injection wells in enhanced recovery projects, and 1 stratigraphic test. Glenville was the most active gas field with 89 completions and Griffithville the most active oil field with 46. Granny Creek—Stockly ranked third, but 32 of 37 wells completed in that field were for injection purposes. The most activity by county was in Gilmer (176 wells), followed by Clay (79), Upshur (67), and Harrison and Lewis (61 each). The most exploratory wells were drilled in Nicholas (10), Wood (8), and Taylor, Kanawha, and Doddridge Counties (6 each; see Table I).

Of the 69 exploratory successes, 65 were in shallow formations. Approximately 40 percent of these were in the Benson and deeper-than-Benson exploration trend in north-central West Virginia surrounding the 4-county Benson production trend. As a result, 3 new-field discoveries were completed in Preston County in the Speechly, Balltown, and Riley sands; a deeper pool was discovered in the Elk sand in Randolph County; 2 new fields were opened in Randolph County in the Benson and Balltown; Benson deeper pools were opened in 6 fields in Doddridge, Lewis and Ritchie Counties; and new pools were opened in the Gantz, Fifth, Balltown, Riley and Elk in unsuccessful Benson wells.

Exploratory activity to the various Greenbrier and Pocono reservoirs was concentrated in Braxton, Nicholas, and Fayette Counties. New fields were opened in the Big Lime and Maxton, but other tests to the Big Lime, Big Injun and Weir were dry. In southern West Virginia, activity in the Weir-Berea trend decreased but one Berea new pool and several Weir and Berea extensions were made. Also, several Ravencliff extensions were completed as activity to that sand increased in Wyoming and Raleigh Counties.

Exploratory efforts in the Devonian shales concentrated on

finding new pools under or near existing Mississippian fields, or in extending older shale production. A total of 16 exploratory successes were reported with only 8 dry holes. These included 2 new-field discoveries, 9 new- and deeper-pool completions, and 5 extensions. Although the 16 successes were drilled in 9 counties, 6 of which are outside the older Devonian shale producing areas, most of the wells appear to be marginal and may not lead to continued development.

Deep well completions remained consistent with previous years as only 24 were reported, one less than last year. The Onondaga and Oriskany were the main deep targets (15 wells) followed by the Tuscarora (5), Newburg (2), and Salina and Keefer (1 each). The only deep exploratory successes were new-pool and deeper-pool tests to the Huntersville and Oriskany in Cabell, Wood, Harrison, and Hancock Counties. Deep failures were drilled to the Oriskany in Barbour, Mingo, Boone, and Putnam Counties, and to the Tuscarora in Wayne, Cabell, Greenbrier, Hancock and Kanawha Counties. Other unreported wells in Kanawha County, however, are rumored to have found large volumes of high CO₂ gas. One additional ultra-deep test was drilled by Exxon, a 13,266-foot failure in Wood County 25 mile north of Exxon's 1975 discovery in Jackson County. Unfortunately, Exxon's discovery well began making water and was shut in. Thus, ultra-deep drilling may have ended in 1976.

Shallow completions, which represented 97.7 percent of all 1976 completions, were concentrated in Gilmer County (Pocono and Big Injun), the 4-county Benson trend (Upper Devonian sands), and the tri-county area of Clay, Fayette, and Nicholas (Greenbrier, Big Injun, and Pocono). The Pocono sands (Squaw, Weir, and Berea) were the lowest units tested in 358 completions, followed by the Chemung (Bayard, Speechley, Balltown, Riley, Benson) with 227, Big Injun (220), and Devonian shale (79). Completions in the Catskill sands (Gantz through Fifth) decreased from 210 to only 59, due mainly to decreased drilling for Gantz gas-storage wells (see Table II).

Oil production decreased 2.2 percent in 1976 and gas production increased slightly (1.4 percent; see Table III). Average IP figures were: Oil wells, 10 barrels per day; gas wells, 796 Mcf per day; and combination wells, 26 b/d and 349 Mcfgpd. The well-head price for stripper oil was increased to \$13.82 per barrel whereas other oil sold for \$11.74 per barrel. In March of 1976 an FPC (Federal Power Commission) ruling for small gas producers increased old contracts (dated prior to 1973) for gas to 62.85 cents per Mcf, whereas contracts dated between 1973 and the end of 1975 were increased to \$1.00/Mcf plus adjustments, with a 1 cent/Mcf increase allowed each year after January 1, 1976. Therefore, with adjustments, many small producers now receive about \$1.40/Mcf for new gas.

TAX DEPARTMENT
COLLECTION OF REVENUE
COLLECTION OF BUSINESS AND OCCUPATION TAX,
CARRIER INCOME TAX, CORPORATE NET INCOME
TAX, CONSUMER SALES AND SERVICE TAX,
AND USE TAX

The Business and Occupation Tax, Chapter 11, Article 13, West Virginia Code of 1931, as amended, is a tax levied for the privilege of engaging in business in West Virginia. The tax is measured by the application of rates against values of products, gross proceeds of sales, or gross income according to the classification of the business activity in which the taxpayer is engaged. Despite the commonly applied erroneous name, "Gross Sales Tax", it is not a sales tax. Neither is it a transaction tax in the sense that once it is paid on a particular article or service or activity it need not again be paid. It is not, strictly speaking, an income tax, although in most instances, the gross income is the *measure* of the tax. Under the production of manufacturing classifications the measure of the tax is the *value* of the article produced or manufactured as shown by the gross proceeds derived from the sale thereof, provided the proceeds of sale are indicative of the true value of the article. If more than one person engages in a single activity or transaction, as in the case of the contractor and sub-contractor, each must pay a tax measured by his entire income regardless of the tax paid by the other.

The business classifications under the Business and Occupation Tax Law are as follows:

A. Production of Coal and Other Natural Resource Products. The tax is measured by the value of the articles mined or produced as shown by the gross proceeds derived from the sale thereof by the producer, the rates being applied against the value of the entire production in West Virginia, regardless of the place of sale or the fact that deliveries are made to points outside the State.

Coal	\$3.85 per \$100.00
Sand, gravel, or other mineral products not quarried or mined; oil, blast furnace slag	\$4.34 per \$100.00
Natural gas (exemptions include deduction of \$5,000 annually)	\$8.63 per \$100.00
Limestone or sandstone quarried or mined; and timber	\$2.20 per \$100.00
Other natural resource products	\$2.86 per \$100.00

B. Manufacturing, Compounding or Preparing for Sale. The tax is measured by the value of the articles manufactured, compounded or prepared for sale in West Virginia, as shown by the gross proceeds derived from the sale thereof by the manufacturer or person compounding or preparing the same. The rate, 88 cents on each \$100.00 value, applies against the value of the entire production in West Virginia, regardless of the place of the sale or the fact that deliveries are made to points outside the State.

C. (1) Business of Selling Tangible Property at Retail. There is levied a tax of 55 cents on each \$100.00 of gross income, as defined by the statute, for this type of business.

(2) Business of Selling Tangible Property at Wholesale. There is levied a tax of 27 cents on each \$100.00 of gross income, as defined by the statute, for this type of business.

D. Public Service or Utility Business. The tax rates set forth hereinbelow are levied on the gross income of the following businesses:

Street Interurban and Electric Railways	\$1.40 per \$100.00
Electric Light and Power Companies (sales) and demand charges, domestic purposes and commercial lighting	\$5.72 per \$100.00
Water Companies	\$4.40 per \$100.00
Electric Light and Power Companies (all other sales and demand charges)	\$4.29 per \$100.00
Natural Gas Companies: Toll Bridges	\$4.29 per \$100.00
Other Public Utilities—(Except telegraph and telephone companies, railways and other transportation companies)	\$2.86 per \$100.00

E. Contracting. There is levied a tax of \$2.20 on each \$100.00 of gross income, as defined by the statute, for this type of business.

G. Amusement. There is levied a tax of 71 cents on each \$100.00 of gross income, as defined by the statute, for this type of business.

The West Virginia Corporate Net Income Tax ch. 11, art 24, West Virginia Code of 1931, as amended, is a conformity statute which imposes a tax on the net income of corporations and similar business organizations at the rate of six per centum. This being a statute, correlated to the Federal Internal Revenue Code, as amended to 1967, it will simplify preparation of state corporation net income tax returns by taxpayers, improve enforcement and aid interpretation of the law through increased use of federal judicial and administrative determinations and precedents.

The tax is paid in four equal installments, the taxpayer preparing an annual declaration of estimated tax and reconciling the same through the filing of an annual return. The due date of the declaration is the fifteenth day of the fourth month of the tax year. The following quarterly payments are due on the fifteenth day of the sixth, ninth and twelfth months of the taxable year. The annual return is due on the fifteenth day of the third month following the close of the taxable year.

The Consumers Sales and Service Tax, Chapter 11, Article 15, West Virginia Code of 1931, as amended, is a general sales tax that applies to all sales of

tangible personal property or services consummated within West Virginia for use, consumption, or any other purpose, except, (1) sales for resale, (2) sales of certain exempt commodities, (3) sales to certain exempt persons, (4) interstate sales, (5) sales of professional or personal services, and (6) services provided by persons subject to the control of the West Virginia Public Service Commission. The measure of the tax is based upon the total sales price of all articles purchased during a particular buying episode, with the rate of tax being derived from a sales bracket system as follows:

- (1) on each sale, where the monetary consideration is from six cents to 35 cents, both inclusive, one cent;
- (2) on each sale, where the monetary consideration is from 36 cents to 70 cents, both inclusive, two cents;
- (3) on each sale, where the monetary consideration is from 71 cents to \$1, both inclusive, three cents;
- (4) on each sale in excess of \$1, the tax is three cents on each whole dollar and on any fractional part of a dollar in excess of whole dollars the following schedule applies: 35 cents or less, one cent; from 36 cents to 70 cents, two cents, and from 71 cents and over, three cents.

Individual sales of five cents or less are exempt from tax; however, the purchase of two five cent articles at the same time is a taxable transaction.

The law provides that the vendor shall collect the tax due from the purchaser at the time of sale and that the purchaser shall pay such tax unless he can present to the vendor a properly executed certificate of exemption. Should either party fail to comply with the law in this regard, the liability becomes a personal debt due the State, and if the taxpayer is a corporation, its officers are personally liable jointly and severally in case of default.

The Use Tax, Chapter 11, Article 15-A, West Virginia Code of 1931, as amended, is an excise tax applicable only to tangible personal property. It is not imposed upon purchases which are subject to the consumers sales and service tax, but is intended to complement the sales tax statute by imposing a tax on the use in this State of tangible personal property furnished or delivered within West Virginia to resident consumers or users in this State. The tax is levied at the rate of three percent of the purchase price of such property.

The State Tax Commissioner is empowered to authorize certain foreign retailers to collect use tax at the time a sale is made and remit the tax on a quarterly basis. Any person who uses any tangible personal property upon which the tax has not been paid to the seller is personally liable for such tax and is required to remit the tax imposed on all such property directly to the State Tax Commissioner.

The use in West Virginia of the following tangible personal property is exempt from the tax:

- (1) all articles of tangible personal property brought into the State of West Virginia by a non-resident thereof for his or her use of enjoyment while within the state;
- (2) tangible personal property, the gross receipts from the sale of which are exempted from the retail sales tax (W. Va. Code, 11-15-9);
- (3) tangible personal property, the gross receipts from the sale of which are derived from the sale of machinery, supplies and materials to contractors, or to persons engaged in the business of manufacturing, transportation, transmission, communication, or in the production of natural resources in this State;
- (4) tangible personal property, the gross receipts or the gross proceeds from the sale of which are required to be included under the consumers sales tax law;
- (5) tangible personal property, the sale of which in this State is not subject to the consumers sales tax.

PERSONAL INCOME TAX

The West Virginia Personal Income Tax Act (West Virginia Code, Chapter 11, Article 21) was enacted by the 1961 Regular Session of the Legislature on February 10, 1961, and signed by the Governor on February 14, 1961. The provisions of the Act applied to all taxable years ending on or after December 31, 1961, including that part which elapsed prior to the effective date of the Act.

Description of Tax. The West Virginia Income Tax Act imposes a personal income tax on the taxable income of all resident individuals, and resident estates and trusts, irrespective of where such income is earned. Nonresident individuals, estates and trusts are taxed only upon income derived from West Virginia sources. Corporations and partnerships are not subject to the West Virginia Income Tax. A trust or other unincorporated organization which by reason of its activities is exempt from Federal Income Tax is also exempt from West Virginia Income Tax.

The nature of the Act was to adopt for West Virginia Personal Income Tax the provisions of the Federal Income Tax laws relating to the determination of income. As adopted, it can be stated that the West Virginia Income Tax Act is a conformity statute. The same general concepts of income, gain, loss and deduction are employed in the West Virginia Act as are employed in the Federal Income Tax Law. The method used to make reference to the federal law is general in scope. With the exception of several modifications generally described hereinbelow, West Virginia adjusted gross income is federal adjusted gross income. Amendments made to the Federal Income Tax Law which affect income, gain, loss and deduction are reflected in the West Virginia Income Tax Law by periodic legislative enactments. The conformity with the Federal Income Tax Law was adopted to simplify preparation of state income tax returns, to improve enforcement of the State Income Tax through better use of information obtained from federal income tax audits, and to aid interpretation of the state tax law through increased use of federal judicial and administrative determinations and precedents.

Modifications to Income. West Virginia adjusted gross income is determined by applicable modifications increasing or decreasing Federal adjusted gross income. Among the modifications which reduce Federal adjusted gross income are items that benefit military personnel, persons who are sixty-five years of age or older and individuals receiving benefits under certain retirement systems.

Deductions. An individual, resident or nonresident, may use the West Virginia standard deduction on his state return, regardless of whether he used the standard deduction or claimed itemized deductions on his federal return. The West Virginia standard deduction of an individual is ten (10) percent of his West

Virginia adjusted gross income or \$1,000, whichever is less. A resident or non-resident individual may elect to use itemized deductions in computing his West Virginia taxable income only if he claimed itemized deductions for the same year on his federal return. Itemized deductions for residents are the same as federal deductions, with the exception of two modifications; nonresidents' deductions must be attributed to or connected with West Virginia sources.

Personal Exemptions. An individual, resident or nonresident, is allowed an exemption of \$600 for each exemption to which he is entitled for the taxable year for federal income tax purposes. A husband and wife who file joint federal but separate West Virginia returns may each claim only the exemptions to which he or she would have been entitled if separate federal returns had been filed. The exemption for an estate or trust is \$600.

Rate of Tax. For all taxable years or portions thereof ending prior to January 1, 1963, the West Virginia Income Tax rate was six (6) per centum of the Federal Income Tax which would have been imposed on an identical amount of federal taxable income. For the taxable years or portions thereof beginning on or after January 1, 1963, ending on or before December 31, 1969, the West Virginia Income Tax rate, which is equally applicable to individuals, estates and trusts, was a rate graduated from 1.2% to 5.5% of the West Virginia taxable income. For the taxable years beginning on or after January 1, 1970, ending on or before December 31, 1970, the West Virginia Income Tax is a rate graduated from 1.65% to 7.6% of the West Virginia taxable income. For the taxable years beginning on or after January 1, 1971, the West Virginia Income Tax rate will be a rate graduated from 2.1% to 9.6% of the West Virginia taxable income. The West Virginia Income Tax Act provides only two rate schedules; one for joint returns and surviving spouses, and one for individuals and heads of household.

Credits Against Tax. The West Virginia Income Tax Act provides credits against the personal income tax for: (1) Business and Occupation Tax imposed against the taxpayer; (2) Carrier Income Tax imposed against the taxpayer; (3) West Virginia Income Tax withheld from the individual's wages or salary; (4) estimated income tax payments made by the individual; (5) income taxes paid by residents to other states; and income taxes paid by nonresidents to their state of residence, except for certain states with which West Virginia has a reciprocal agreement or practices reciprocity.

EXCISE AND LICENSE TAXES DIVISION

The Division of Excise & License Taxes is responsible for the administration of excise and license taxes of the Tax Department. The Division has nine sections, eight of which deal directly with the taxpayer. Taxes administered are: Gasoline and Special Fuels Excise Tax, Motor Carrier Road Tax, Soft Drink Tax, Cigarette Tax, Business Franchise Registration, Collection Agency and Consumer Protection File.

GASOLINE AND SPECIAL FUELS EXCISE TAX

The gasoline and special fuels excise tax (Code 11-14) has been a part of the revenue laws of West Virginia since 1923. This statute has been amended and

reenacted several times, but its overall features are generally similar. The basic elements of the statute are:

- (1) an excise tax of 8½ cents per gallon is levied on each gallon of gasoline or special fuel.
- (2) the tax is computed in accordance with the appropriate measure of tax as specifically prescribed by statute. Generally, who is liable for payment of the tax depends upon the facts in each case. Distributors and producers use as the measure of tax all actual metered gallons of gasoline or special fuel withdrawn from storage within this State. Retail dealers, importers and users use as the measure of tax all actual metered gallons of gasoline and special fuel, not previously included in the measure of tax, received into their storage or for their use. A person not a distributor or producer, retail dealer, importer, or user employs as the measure of tax all actual metered gallons of gasoline or special fuels subject to tax which were not previously included in the measure of tax by him or any other person, and
- (3) sales for certain uses and sales to certain persons are exempt from tax under section 11-14-5 of the Code of West Virginia of 1931, as amended.

Gasoline, for tax purposes, is defined as any product commonly or commercially known as gasoline, regardless of classification, suitable for use as fuel in an internal combustion engine, except special fuel.

The term special fuel means any gas or liquid, other than gasoline, used or suitable for use as fuel in an internal combustion engine. The term includes products commonly known as natural or casinghead gasoline, but does not include any petroleum product or chemical compound such as alcohol, industrial solvent, heavy furnace oil, lubricant, etc., not commonly used nor practicably suited for use as fuel in an internal combustion engine.

MOTOR CARRIER ROAD TAX

The Motor Carrier Road Tax Law (Code 11-14A) was enacted in 1959. The tax is imposed at the rate of 8.5 cents on each gallon of fuel used on West Virginia highways; however, if all the fuel consumed by the user of the State was purchased in the State, the user is entitled to a credit offsetting the imposed tax per gallon.

A "motor carrier" is defined as every person, firm or corporation who operates or causes to be operated on any highway in this State any passenger vehicle that has seats for more than nine passengers in addition to the driver, or any road tractor, or any tractor truck or any truck having more than two axles.

SOFT DRINK TAX

The Soft Drink Tax Act, Code 11-19, has been a part of West Virginia revenue laws since 1951. This provision imposes an excise tax upon the sale, use, handling or distribution of bottled soft drinks and soft drink syrups, including all powder bases prepared for mixing soft drinks.

The law has been amended several times, most significantly in 1958 when many items for domestic use were removed from taxation and a provision for the tax on commercial consumption at soda fountains and restaurants was reinstated. This statutory amendment also specifically provides for taxing soft drink powders such as kool aid, oh boy drinks, tip top, miracle aid and all other similar products both domestically and commercially consumed.

Permits are required by Retailers who manufacture and/or purchase unstamped soft drink items and all manufacturers, wholesalers and distributors both in the state and out of state who sell or distribute any soft drink syrup within the State.

This tax was imposed to be used solely for the construction, maintenance and operation of a four-year school of medicine, dentistry and nursing.

This statute, administered by the Division of Excise and License Taxes imposes a tax upon the sale of cigarettes at the rate of twelve cents per package of twenty (20) cigarettes, with the intent that the tax be paid by the ultimate consumer. A license is required for each collection agency, including each prin-

principal office and all branch offices thereof. Each applicant shall file with the Tax Commissioner a continuing surety bond executed by a corporation licensed to transact business in West Virginia in the amount of \$5,000. A separate bond needs to be filed for each agency including the principal office and each branch office.

The term "collection agency" does not mean nor include:

- (4) savings and loan associations;
- (5) building and loan associations;
- (6) industrial loan companies;

The Consumer Protection Act, Article 7, Chapter 46A, became effective June 9, 1974. The Excise and License Division of the State Tax Department is charged with the responsibility of maintaining a file on those persons that designate that they issue consumer credit or consumer loans.

This includes doctors and lawyers who impose a finance charge on their payment plans. It also includes government agencies and national banks.
